SEVENTH AV., E. S., 24.9 S. 34TH ST. (REAR), ONE three-story brick carpenter's shop, 50x26; owner, W. YOUNGS; builders, YOUNGS & THOMPSON.

TWENTY-SECOND ST. (No. 323 E.), ONE FIVE-story brick factory 25x57; owner, JOHN SCHAPPERT.

THIRTY-THIRD ST. (No. 262 W.), ONE FOUR-story brick store and tenement, 20x48; owner, PH. HATTENER; architect, A. PFUND.

THIRTY-SEVENTH ST. (Nos. 324, 326, 328, 330, and 332), one nine-story brick factory, 125x31; owner, WALTER K. MARVIN; builder, L. N. CROW.

TENTH AV. AND 59TH ST., S. W. COR., ONE FOUR-story brown-stone front first-class dwelling, 25x50; owner, W. ZINSSER; architect, GEO. B. PELHAM.

TENTH AV. AND 38TH ST., S. E. COR., TWO FIVE-story brick stores and tenements, 25x52 and 24.5x45; owners, GONOUD & M. COGEY; architect, JOHN M. FORSTER.

WOOSTER ST., E. S., 40 N. BROOME ST., ONE three-story brick second-class store, 31.7x25; owner, JOHN PURCELL; architect, JOHN O'NEIL; builders, SMITH & BRYANT.

ALTERATIONS IN BUILDINGS.

Two stone and iron front buildings, Nos. 100 and 102 Broadway, four stories, 17.6 by 22.3 by 88 by 68.3, and one story each with Mansard roofs to be added to the present front of building.—No. 100 Broadway to be taken down and rebuilt to conform with No. 102, occupied as offices; Continental Insurance Company, owners.

Three brick stores and dwellings, south-east corner of Sixth avenue and thirty-eighth street, 5 stories, 60 by 75 by 40; Mansard roof added to two of the houses, so as to correspond with the one on corner, and extension built 40 by 20 by 35, and 10.6 high; J. L. Griffin, lessee.

One brick front dwelling, north side of Morton street, 300 feet west of Bleecker street, two stories and attic, one and one-half stories to be added; G. S. Truman, owner.

One brick dwelling, No. 304 West Thirtieth street, three stories and basement, 22 by 52, extension 10.6 by 16, 40 feet high; Mary Queripel, owner.

One brick-front dwelling, No. 462 Hudson street, two stories and attic, 25 by 26, one-half story to be added, and new front; J. H. Helms, owner.

One brick dwelling, No. 226 East Tenth street, three stories and attic, 25 by 44, attic story to be raised to full story and extension, 25 by 10, 52 feet high; Hoffman & Fanning, owners.

One brick store and dwelling, No. 384 East Tenth street, three stories, 25 by 40, one story to be added, and new front; Julius Stener, owner.

One brick-front dwelling, No. 38 Oak street, two and a half stories, 21.6 by 34, one half story to be added; Wm. Keenan, owner.

One brick store and dwelling, south-east corner of Sixth avenue and One Hundred and Twenty-sixth street, three stories, 21.7 by 25.4, one story to be added with Mansard roof; Wm. West, owner.

One brick dwelling, No. 181 Fourth street, one story, 20 by 35, two stories to be added; W. M. Giles, owner.

One brick dwelling, No. 119 Orchard st., three stories and basement, 21 by 40, one story to be added and extension 21 by 24, 49 feet high; John Keime, owner.

One brick dwelling, No. 254 Madison street, two and a half stories, 20 by 42, attic story to be raised to full story; D. Wolf, owner.

One brick store and dwelling, No. 1151 Broadway, three and a half stories, 24.9 by 46.6 new stone front and extension 24.9 by 22, 24 feet high; A. Bogardus, owner.

One brick dwelling, No. 588 Second avenue, four stories, 25 by 40, extension 19 by 36, 12 feet high; Clamus Witschen, owner.

One brick dwelling, No. 60 Rivington street, three stories, 21 by 40, one story to be added; M. Lanter, owner.

One brick-front dwelling, south side of Eighty-sixth street, 100 feet east of Third avenue, four stories, 21 by 36, extension 21 by 65, 26 feet high; John P. Mahoney, owner.

One brick dwelling, No. 664 Water street, two and a half stories, 25 by 40, one and a half stories to be added, and a new front; Conrad Hulseberg, owner.

One brick store, No. 164 Greenwich street, four stories, 27 by 60, damaged by fire, to be repaired; W. C. Schermerhorn, owner.

One brick store and dwelling, northeast corner of Fourteenth street and Av. A, four stories, 19.7 by 48, extension 24 by 19.7, 40 feet high; Jno. Gannon, owner.

One brick front dwelling, No. 11 Weehawken street, two and a half stories, 22 by 50, one and a half stories to be added; Chas. Beck, owner.

One brick store, No. 351 Eighth avenue, three stories, 24.8¼ by 125, one story to be added; Geo. Keys, owner.

One brick dwelling, No. 111 Norfolk street, two stories and attic, 20 by 34, one and a half stories to be added, and store to be made in basement; Daniel Rosenbaum, owner.

One brick store and dwelling, No. 316, Broome-street, two and a half stories, 22.5 by 40, one half story to be added; Wm. E. Burkhardt, owner.

UNSAFE BUILDINGS.

Elizabeth street, Nos. 266 and 268, Lorillard estate, owner; unsafe, north and rear walls settled and cracked.

Dey street, No. 14, Sarah Kinnier, owner; unsafe, rear wall settled and bulged.

East Houston street, south-east corner Goerck, Mrs. M. A. Carroll, owner; unsafe front piers and wall.

Broome street, No. 281, front, Alonzo Judson, agent; frame work decayed, generally unsafe.

Broome street, No. 281½, front, Alonzo Judson, agent; unsafe, front and rear walls cracked, &c.

Broome street, Nos. 281, 283, 283½, rear, Alonzo Judson, agent; unsafe, front piers cracked at party wall.

Broome street, Nos. 283 and 283½, front, Alonzo Judson, agent; unsafe, easterly and rear walls cracked and bulged.

Broome street, No. 285, front, Alonzo Judson, agent; unsafe foundation and wall above, dangerously unsafe.

Second avenue, east side, 50 feet north Thirty-seventh street, rear, Mary Halpin, owner; unsafe and undermined rear foundation.

Avenue D, No. 25, Mrs. Abigail Knouse, owner; unsafe centre piers of rear wall, beams of second floor deflected, unsafe generally.

Cherry st., No. 417, Mrs. Anna Mulligan, owner; unsafe chimneys.

Centre-street, No. 120, John G. Gottsberger, owner; unsafe foundation walls and frame work.

Greenwich street, No. 203, John J. Howe, owner; unsafe and cracked south gable wall.

Chrystie-street, No. 134, Edward Latham, owner; piers of front and walls cracked and sprung.

MARKET REVIEW.

BRICKS.—While there is no very decided downward turn to the market, and the general demand continues just about as good as ever, there is now an entire absence of buoyancy, and it is probable that values have seen their highest point for the season. The milder weather, and the breaking up of the ice constantly opens new sources of supply, and the offerings, both on spot and to arrive have been larger, and the assortment somewhat increased. For first-class stock of which the proportion offering is very small; there has been pretty full bids, and when suited as to quality, a good many buyers have still been found quite willing to pay $12, but common and washed lots were plenty enough to induce some shading to realize, and rates were run down as low as $11 per M, and the two prices named may now be considered as about the general range of quotations. As a rule, we find wholesale dealers adhering to a pretty firm tone, that is for the present, and expecting to make a great many sales, before being compelled to further greatly modify their views. Of course a break is expected as the warm weather approaches, but nothing really serious is calculated upon, until it becomes sure that new stock is about coming upon the market, and the period for the appearance of the next production will, as usual, have to be regulated entirely by the weather. Just as soon as the frost disappears, however, work will undoubtedly be commenced at all the leading yards, manufacturers having pretty much everything in readiness, and only awaiting to be assured of the safety of pushing forward operations for 1872. The stocks now on hand along the river, are said to be held with great firmness, and we understand that several owners have refused flatly to make any shipments if their cargoes are likely to net them less than $12 per M. In our recent statement of the stock and production, the supply on hand January 1st, in Haverstraw bay, should have read 50,000,000, the amount named, 30,000,000, being about the aggregate accumulation left March 1st. All the other figures were probably as near correct as they could possibly be obtained. Long Island stock has no very decided call now, but a really good quality would in all probability sell very well. New Jersey stock nominal. For pale brick the demand continues fully up to, and in fact rather in excess of the supply, and the market well sustained with a prospective firmness, as the wants for this class of stock have been accumulating for some time, and buyers appear anxious. We quote at $8 per M for good.

FOREIGN WOODS.—The market in a general way is favorable to the selling interest, and dealers, both wholesale and retail, seem to have quite a confident feeling. The distribution to manufacturers has been fair, all things considered during the past winter, and quite a number of the yards hold low; and poorly assorted stocks which dealers are anxious to make good, and are therefore constantly on the lookout for desirable parcels. There is also a very fair export call for both English and German shipment, though these orders are filled with caution, and ganged to some extent on the cost of ocean freight room. Since the opening of the year prices on most styles have receded somewhat a previous small accumulation in first hands, being added to by very fair receipts. Most of the fresh offering, however, found a market during a lull in the arrivals about the first of the present month, and though the receipts have again increased somewhat the general time is pretty steady and on choice grades quite firm as these are scarce more particularly mahogany, and lignum-vitæ and rosewood. Common cedar in fair supply, but in very good demand for manufacturing purposes. Most of the exports of cedar noted below are undoubtedly pencil cedar of Florida growth. The receipts since January 18th are as follows:—Cedar, 5,569 logs; Rosewood, 3,136 logs; Lignum-vitæ, 2,415 pcs, and 257½ tons; Mahogany, 2,287 pcs, and 1,168 crotches; Satin Wood, 85 pcs, 11 crotches; Granadilla Wood, 1,722 pcs; Hungarian Ash, 169 pcs; Boxwood, 10,850 pcs; Lancewood, 75 spars; Cocobola Wood, 43 pcs; Ebony, 2,257 pcs, and 3 tons, and Zebra Wood, 12 pcs. Exports since January 1st as follows:—Cedar, 4,522 logs, value, $31,329, and 120 tons, value, $2,500; Mahogany, 763 logs, value, $6,841, and 252 crotches, value, $1,365; Lancewood, 301 poles, value, $301; Lignum-vitæ, 762 sticks, value, $505.

LIME.—There is not much of a market for Eastern at the moment owing however in the main to the absence of regular supplies. There is a good outlet for stock and the tendency is to increase with little doubt that pretty full prices would be paid and the selling interest seem to feel quite confident. The retail dealers have only a small amount of stock left on hand; this is gradually disappearing and the indications point to a large consumption as soon as the weather becomes more settled. The open weather to be sure will be likely to increase the offering as manufacturers are prepared to ship as soon as opportunity occurs, but it is believed, that all the cargoes brought in can be disposed of readily. State stock is more or less nominal in a wholesale way for the present, though from an accumulation in first hands dealers can draw a supply when no other is available, though having been wintered over, this offering is only handled as a matter of necessity. A larger number of cargoes came to hand during the past week and the sharp inquiry for them gave receivers an advantage and advanced prices to $1.65 for common; and $2.15 for lump, he market closing firm with more stock wanted.

LUMBER.—While the present yard business as a rule, remains in much the same general condition of dulness and uncertainty, the prospect for an improved spring trade referred to for a week or two past are full as good, if not better, and dealers feel correspondingly encouraged. There will, undoubtedly, be quite a fair number of orders for manufacturing purposes, and the wants of builders seem likely to prove ample to make considerable impression upon the stock, and indeed many of the first-class buyers have already been enabled to effect contracts for goods which they will move as soon as the weather permits. Still there is stock enough on hand to meet a very good outlet, and notwithstanding the delay in the opening of navigation, there is no probability that a great many additions will be wanted to the accumulation except in the way of common pine box boards and certain grades of choice seasoned hard woods. The amounts just at present going from yard are in very small parcels and mainly on local account. There is, however, a few shipping orders including some from California, but the latter at such low figures, that there is no anxiety to fill them, buyers appearing to think that dealers must carry and season stock, and then sell at just about original cost, leaving a margin for loss instead of for profit.

In the wholesale market there can not be said to have occurred any very decided change, the movement for immediate delivery amounting to little or nothing, simply because there is not much of a desirable quality to do with, and engagements on contract for the spring and summer rather dragging because most of the desirable parcels have either been secured or are held for such extreme figures that buyers are frightened off. We find, however, a comparatively hopeful tone current among agents and receivers, all of whom talk strong and who seem to think that the lateness of the season and the consequent delay in arrivals is only increasing the wants of buyers and that when the offerings are more plentiful and the demand does set in the movement will be very lively. Exporters are in very good attendance and quite a number of parcels on West India account are wanted, the delayed fleet having arrived and now preparing to resail.

Eastern Spruce owing to continued comparatively small offerings remains somewhat nominal, but the general position of the market is rather better defined. Buyers can be found who are willing to operate quickly and freely at full rates for choice first class long sticks, but common and inferior schedules it is thought would be extremely difficult to dispose of even if offered on very easy terms, the class of houses to which poor stock is adapted being rather neglected by builders in their plans thus far. The immediate supply in prospect is very doubtful, as many of the harbors are still ice-bound, but the weather moderating cargoes will in all probability be forwarded with due despatch. We quote at $18@19 per M for inferior to fair specifications; and $19.50@20.50 for good to prime do. For Piling there is no market at the moment and quotations are entirely nominal but the prospect is considered as good if not better than for many seasons. The stock in chains has about all been sold out for immediate and early future delivery, dock building and repairing promises to be active, and dealers feel confident that as soon as cargoes come to hand they can easily be disposed of at full figures. White Pine remains much the same as previously noted a fair general demand prevailing and prices steady with very full figures to be obtained on common shipping boards were there any stock to offer. We quote at $31@33 per M for common to fair box and shipping boards. $35@38 do. for good do.; $40 do. for pickings; and $45 do. for selects. Yellow Pine in good demand, the market firm, and the supply light; special cuttings are most sought after but a few good random cargoes would sell very well if here. We quote at $28@30 per M for random cargoes; $32@38 do. for special cuts; and $40 do. for fancy do.

The exports of lumber are as follows:—

B., 148,000 feet deals and 68,000 lath; from St. Andrews, 317,000 feet deals; from Musquash, 70,000 feet deals, 575,000 lath, and 2,000 pickets. A Bark, 349 tons, to Cardenas, Empty hhds. 80 c., and back on an old three voyage charter: a Brig, 461 tons, to Matanzas, Empty hhds. 80 c., and back from Sagua, Sugar $6.12½, vessel paying port charges; one, 328 tons, to Matanzas, Empty hhds. free, and back, privilege second port, Sugar, $6.25, and Molasses $4.25 and port charges; one, 286 tons, to Matanzas, Empty hhds. free, and back, privilege second port, Sugar $6.25, and Molasses $4.37½ and port charges; a Bark, 548 tons, to Matanzas, Empty hhds. 80c.; a Br. Brig, 215 tons, from Darien to Hantsport, N. S., Yellow Pine Lumber $12; an Am. Schr., 205 tons, from New Brunswick to Kingston, Jamaica, Lumber $8 50; 145 tons, from Satilla to Georgetown, D. C., Lumber $9; one, 174 tons, from Darien to Baltimore or Philadelphia, $9; one, 295 tons, from Bucksville, S. C., to Thomaston, Me., Yellow Pine Lumber $10; a Schr., 190 M Lumber, from Fernandina to Fall River, $11; one from Nassau River, Fla., to Boston, Live Oak, 30c. ₱ foot; one, 130 M Lumber, from Bull River, S. C., to Baltimore, $9.50; one, 200 M Timber, from Charleston to New Haven, $11, and small stowage, $9; several Br. Barks, (to arrive there in May) from Montreal to River Platte, Lumber, private rate—understood to be a full figure.

The figures given below are from the Detroit *Free Press*:—

AMOUNT OF LOGS AFLOAT IN ALL THE LUMBERING STREAMS OF MICHIGAN.—The following is a carefully prepared estimate—the figures having been obtained from the best authorities—of the amount of logs put into the various streams during the present lumbering season. The amount is in some respects unprecedented.

In some places apprehensions are entertained that there will not be sufficient water to float all the logs to the mills at the mouths of the rivers. The table is in all respects entirely complete and trustworthy:—

Streams.	Feet.
Grand River	150,000,000
Muskegon River	300,000,000
White River	100,000,000
Pentwater River	20,000,000
Pere Marquette River	75,000,000
Lincoln River	10,000,000
Hamlin River	10,000,000
Free Soil Creek	3,000,000
Manistee River	215,000,000
Portage Lake	4,000,000
Betsey River	10,000,000
Traverse Bay	25,000,000
Elk Rapids	10,000,000
Pine River	5,000,000
Duncan City	20,000,000
Monastique	20,000,000
Bay and Little Bay DeNoquet	13,000,000
Menominee River	150,000,000
Thunder Bay River	75,000,000
Tawas	65,000,000
Saginaw	550,000,000
Flint	55,000,000
Along the line of the Jackson, Lansing and Saginaw Railroad	100,000,000
Along the line of the Flint and Pere Marquette Railroad	100,000,000
Along the line of the Grand Rapids and Indiana Railroad	100,000,000
Along the line of the Chicago and Michigan Lake Shore Railroad	50,000,000
Total	2,215,000,000

Commenting upon the above the Saginaw *Courier* says:—

It is rather early to give an estimate that is reliable, as the next thirty days may entirely change the aspect of affairs. As stated in Sunday's *Courier*, lumbering is still being vigorously prosecuted on many of the streams with the prospect of getting in many millions in addition to the amount now banked. The figures given in the estimate does not exceed very largely the amount of logs got out in 1871.

The following is from the Omaha *Herald*:—

A bill has been introduced into Congress to authorize the Secretary of the Interior to negotiate with the Indian tribes of Western Dakota, for the purchase of the Black Hills region, situated on the head-waters of Cheyenne river. Dr. Hayden, in one of his admirable reports, thus speaks of the fine timber of this region:

"As I have before remarked, the Black Hills occupy an area of about six thousand square miles. I regard it as within bounds to say that at least one-third of this area is covered with a fine growth of good pine timber. You can see therefore that within the limits of the Territory of Dakota you have 1,280,000 acres of as good pine lumber as can be found in all the Western country. This timber is of a fine, healthy growth, from two to four feet in diameter at the base, and often ascending eighty feet without a limb.

"It is evident that, aside from this mineral wealth, the lumber of the Black Hills district will soon insure its purchase and possession by the government and people. The red man must give way again."

The Muskegon *Chronicle* says that the lumbering season has closed, and that many contracts are unfilled. The crop of logs gotten out will not exceed that put in last winter, or about 280,000,000 feet.

EAST TAWAS, MICH., March 18.—Weather cold and clear. Log hauling is as good as it has been this season. The roads are in splendid condition, and nearly all the mills

have their stock of logs and will start up as soon as the ice is out of the Bay. Mr. J. C. Adams has got his new engine in, and is putting his mill in good order. The Tawas Mill Company are not doing much to their mill as it is nearly new. William G. Grant & Son are not doing much to their mill, and it will take but a day or two to set it running.

The Saginaw *Courier* says:—

In a conversation with Dr. Burt, who is lumbering on the Chippewa, we learn that in his locality they are having excellent sleighing, with ample snow for all the purposes required. On the Tittabawassee some camps have been broken up, but on the Chippewa and a number of other streams, they are doing more work than at any time this winter, feeling that the snow can last but a short time longer. The brake up is likely to occur within the next twenty days.

Advices from the pineries on Black and Chippewa Rivers state that there has not been such an early breaking up of logging for the past fifteen years as the present season. Nearly all the men and teams are coming out of the woods, the thaw having taken nearly all the snow off. The weather still continues warm, which will make farther operations impossible. The lumbermen of that section are greatly disappointed. They are not going to get in more than one-half or two-thirds what they anticipated, and are fearful of having no drive on the rivers the coming spring, as the snow and water in the swamps has nearly disappeared.

The St. Louis *Circular* says:—

Advices from the upper Mississippi, Chippewa, and tributaries, St. Croix, and Black Rivers, all state that up to the 1st of March the season's business has been entirely satisfactory to lumbermen generally, but that the soft weather and early spring since will largely reduce the number of logs marketed, and that the deficit will be fully 25 per cent. below previous expectations.

The New Orleans *Prices Current* reports:—

There is a brisk demand for lumber direct from the mills over the lake for Northern and foreign ports, which it is estimated, will divert from this market this season 1,500,000 or 2,000,000 feet at least. The supply on hand is, however, ample to meet all contingent requirements. The local demand continues dull and prices remain unchanged.

Cargo lots are quoted at $13@15 per 1,000 feet for inch Boards; $13@15 for Scantling: $13@15 for Weatherboards Rough; and $19@20 for Dressed: $15 for Rough Flooring, and $20@25 for Dressed; $17@20 for Dressed Ceiling; $25@30 for Cypress; $4@5 for Common Shingles, and $2.50@3 for Laths. General orders on Rough and Dressed Lumber are filled at $5 per 1,000 feet on cargo prices.

The Quebec *Chronicle* of recent date contains the following:—

TIMBER TRADE PROSPECTS.—We are now approaching the time when the navigation of the St. Lawrence will be resumed, and all who are interested in the business of the port are beginning to speculate on the probable state of business at the opening of navigation.

It is rather early in the season to form any very definite ideas of how matters are going to rule. Advices from Great Britain are more encouraging than for many years past; there is a greater degree of activity in the Wood Goods market, and the result to buyers and sellers has been most satisfactory. Various causes have tended to promote this state of things, cheap money, increased activity in railroads, buildings, and the mining and manufacturing branches of industry. The wood trade has fairly participated in the general prosperity, business largely exceeding that of former years, and stocks as a consequence are being rapidly reduced. Last autumn it was thought that the high prices asked would check the demand and supply, but this anticipation was not verified.

The stock held over was on an average with the five preceding years, but the briskness of the general trade of the country is such that little fear is entertained, but that the excess will be wanted before next season's shipments can come forward. We hear of large transactions having taken place, and vessels are being chartered at 28s 9d timber; 75s deals to Liverpool.

The stocks of timber in our coves are sufficient to meet all spring requirements, and lumbering operations West are progressing satisfactorily and on a large scale. It is well known that the cost of getting out timber is increasing year by year, without a corresponding advance in Great Britain,—buyers on the other side seem disinclined to believe that the increased cost is so great; but as there is as yet no substitute for our White Pine, we may reasonably expect to see our lumberers getting prices that will leave them a fair remuneration.

Late quotations from Great Britain advise Prime Square changing hands at 2s 1d to 2s 2d for 17 inch, and 2s 3d to 2s 4d for other averages in proportion.

There has been a large consumption of Pine Deals. High prices in the fall curtailed imports. Stocks are light, especially better qualities.

It will therefore be seen that we have very fair prospects of good business on the opening of navigation.

The Boston *Commercial Bulletin* reports:—

There has been a slight improvement in this market during the past week, although the continued cold weather has delayed orders. There is, however, a feeling of satisfaction amongst dealers, and a good volume of trade is expected. Freights are from three to five dollars per thousand higher than at the corresponding time last year, and, as the opening of navigation will probably be considerably later than at that time, prices are maintained. In fact, there has been a slight advance for some kinds. Dealers are doubtful if the first of May will bring open water between Boston and the West.

The assortment of Western lumber is considerably broken up and prices firm. The demand for Southern is fair for vessels for the coasting trade and quite active for use in the various manufacturing establishments, now being erected throughout New England. There is a small stock of dry Southern on hand and very little arriving on the market, the largest part coming in being on orders.

The stock of spruce and Southern pine floor-boards is light. There are scarcely any shaved pine shingles in the market.

The following are the surveys for the week:—

DOMESTIC LUMBER.	Feet.	DOMESTIC LUMBER.	Feet.
Pine	210,054	Black Walnut	14,351
So. Pine Plk. & Tim.	2,2,559	White Wood	9,304
Hard Wood	16,744	So. Pine Flooring	221,480
Total			674,472

METALS.—The feature of the week in Ingot copper has been an exceedingly active demand for forward deliveries ranging from May to October and sales of this character reach fully 10,000,000 lbs. at 28@29c. The business for immediate delivery has also been large and prices show a very decided advance. Manufactured copper has been advanced two cents per lb. and is held firm at the higher prices. We quote; Ingot. 32½@33c cash; New Sheathing, 38c; Yellow Metal, 26c. The demand for Scotch Pig has been less active, as consumers appear to be unwilling to pay the high prices asked, but holders remain firm and have advanced their prices still higher. We quote Glengarnock $52 and Eglinton $50. American is in good request and firm at a slightly advanced range. We quote No. 1 $50@52, No. 2 $49@50, and Forge $47@48. Refined Bar continues strong at the late advance. We quote from store as follows:—Bar Swedes, $117.50@127.50; refined, ordinary size, $100; refined, 1¼ to 6 by ¼ and 5-16, $105; refined, 1 and 1½ by ¼ and 5-16, $107.50; refined, 2½ to 3, round and square, $110@137.50; scroll, $117.50@147.50; ovals and half round, $115@133; band, $112.50; horse-shoe, $112.50 @122.50; rods, ⅜ to 3-16 inch, $105@150; hoop, $120@ 167.50; nail rod, per lb, 7½c. Common Sheet is very scarce and higher. We quote at 6@7c for single D and T, and 7@ 8c for D and T Charcoal. Galvanized Sheet continues strong. We quote at 12@13c for 14@20; 12½@13½c for 22@24; 13½@14c for 25@26; and 15@19c for 27@29, all less 20 per cent. to the trade. Russia Sheet is firm. We quote at 17½@18c. gold, according to number. Pig Lead continues quiet and prices nominally unchanged. We quote at $5.90@6.70 gold, for common to good forge. Manufactures of Lead are steady at previous prices. We quote at 9¼c for bar; 10c for sheet and pipe, 15c for tin-lined pipe, all less 10 per cent. to the trade. There has been less activity in Pig Tin but prices continue to advance and are held firm. We quote in coin at 40¼c for straits, 39¾c for English, and 46c for Banca. Plates are scarce for desirable assortments, and operations restricted somewhat thereby and close very firm at an advance. We quote: I. C. Charcoal, $12.50@13; I. C. Coke, $10.75@11; Coke, $9.25@9.87½, and Charcoal Terne, $10.25@11 all gold prices. Sheet Zinc is quiet at steady prices. We quote at 10@11c gold for Mosselmann from store.

NAILS.—The demand has been fair throughout the week, and is now rather improving while the general market shows a healthy and encouraging tone for all the leading grades. Stocks hold out well enough so far both as to quantity and assortment, but are by no means large, and appear to have become so placed as to enable owners to control the position without much difficulty. The production is fair, and in some cases being urged somewhat, partly owing to orders on hand and partly in view of a belief among some manufacturers that a strike of the workmen will take place with the opening of spring. The current demand comes from all the regular sources local and interior, and exporters are better represented, especially on West India account owing to an increased supply of freight room. Prices at the close are very firm at the full figures of the late advance. We quote per 100 lbs: cut, 10@60d, $5.25; cut, 8@9d, $5.50: cut, 6@7d, $5.75; cut, 4@5d, $6; cut, 3d, $6.75; cut. 2@3d, fine, $7.50; cut spikes, all sizes, $5.50: cut finishing, casing, box, etc., $5.75@7.25: clinch. $6.75@7.25; horse-shoe, forged, No. 10 to 5, per lb., 20@23c. Other styles are selling as follows: Copper 40c per lb.; Yellow Metal, 26c do.

Exports as follows:—

	Past week.	Since Jan. 1.
Packages	570	4,625
Value	$4,025	$31,838

PAINTS AND OILS.—Reduced assortments, in fact, scarcely any really desirable stock in first hands still keeps the market, for paints and colors in a comparatively dull and somewhat nominal condition for goods on the spot, There is, however, a good trade doing in invoices to arrive, and a desirable parcel has only to be offered to attract immediate attention. With business in this shape, importers of course have all the advantage, and full former rates can be obtained without trouble, while on a few goods a very decided advance would be paid were stock available. There is some pretty large parcels due; but the bulk are sold, and contracts have been made on foreign stock for some time a head of production. China Clay and Orange Mineral continue especially scarce, though it is difficult to find much of an assortment of French Zinc or Venetian Red. All domestic goods naturally are firm, in sympathy with foreign, and are selling freely wherever they can be used as a substitute, keeping manufacturers very busy, and indeed the outlet rather exceeds the production. Glues are in fair stock; but the demand is very good, and the market has a steady tone for all qualities. Among the jobbers, trade has been a little spasmodic and uncertain, but in the aggregate very fair, and the market responds to the general strength of the position in a wholesale way, though a good many dealers can sell to-day at even less than importers' rates and net a handsome profit, owing to judicious purchases made early in the year. Linseed Oil has not shown much general activity, and buyers, as a rule, were inclined to handle only such parcels as their immediate wants called for. Still there has been more doing than last week on home account, and with some increase of the call for export, the market is better, closing firm at the advance, and the offerings of stock moderate from all quarters. We should quote in a wholesale way at about 88c in casks, and 89c in bbls.

Exports as follows:—

	Past week.		Since Jan. 1, 1872.	
Paint.....pckgs.	172	value $2,282	1,664,	value $19,809
Linseed oil, galls.	156	" 141	967	" 879
Oxide zinc, pcks.	—	" —	—	" —

PITCH.—The continued depression in strained rosin has forced prices down nearly $1 per bbl. and the close is somewhat uncertain. The transactions are light. We quote at $3.50 @4 for prime city delivered. Receipts for the week, 120 bbls; since Jan. 1, 443 bbls; same time last year, 150 bbls. Exports for the week, 25 bbls; since Jan. 1, 764 bbls; same time last year, 546 bbls.

SPIRITS TURPENTINE.—There has been a better feeling in the market, and though the transactions continue to be light, prices have recovered a trifle each day until at the close stock is held firmly at 71½@72c for merchantable order, and 73@74c for lots from store. Receipts for the week, 2,147 bbls; since Jan. 1, 10,858 bbls; same time last year, 10,167 bbls. Exports for the week, 93 bbls; since Jan. 1, 4,332 bbls; same time last year, 4,354.

TAR.—The arrivals have been heavy and the demand light, which has had the fact of depressing the market and prices close decidedly lower and rather weak at the decline. We quote at $3 for Washington, $3 for Newberne, and $3.25 for Wilmington. Receipts for the week, 2,322 bbls; since January 1, 13,461 bbls; same time 1871, 4,325 bbls. Exports for the week, 1,904 bbls; since Jan 1, 3,276 bbls; same time 1871, 1, 021 bbls.

REAL ESTATE OFFICE,
820 THIRD AVENUE,
Cor. 50th Street, NEW YORK.
Property sold and rented. Loans negotiated. Charge of houses and collection of rents a specialty.

No one should Build or Live in a House
WITHOUT EXAMINING OUR
ELECTRICAL APPLIANCES,
without which no house can be said to have all or even the MOST IMPORTANT OF MODERN IMPROVEMENTS; in fact, they are indispensable for the complete outfit of a first-class house with what may be termed necessary conveniences. All English and French houses at the present time are furnished with this electrical apparatus.

E. HOLMES'
Burglar Alarm Telegraph.
This one Bell, located in the Sleeping-Room, when set for the night, rings upon the opening of each door and window of the house. It is a watchman that has but one house to protect; never goes to sleep; cannot be bought off; and an experience of ten years, without a failure, proves it to be perfectly reliable and satisfactory.
PARTICULAR ATTENTION
is requested to our new
HOUSE ANNUNCIATOR,
An improvement upon the French system.
IT CONSISTS OF A SINGLE
CALL BELL AND ANNUNCIATOR,
in the kitchen or servants' department, and so arranged that the simple touch of a small ornamented spring in each room of the house **RINGS THIS BELL AND ANNOUNCES THE ROOM** from which the call proceeds—the bell continuing to ring until the servants give it attention. The whole thing is operated by
ONE BATTERY, OR BY THE SAME BATTERY
that operates the
Burglar Alarm Telegraph.
It is simple, perfect, and reliable, and will not get out of order, and is a very great improvement upon the old system of "bell pulls." We also have
An Attachment for Ringing Door Bells and Servants' Bells from the
TABLE OR DINING ROOM,
by placing a spring in the floor, and covered by the carpet. Also, for
Calling the Coachman from the Stable.
Send for pamphlet containing ten or twelve hundred TESTIMONIALS. They are from our best citizens and first business men of New York and vicinity.

E. HOLMES,
Offices:—
7 Murray Street, New York.
6 South Clark Street, Chicago, Ill.
1111 Chestnut Street, Philadelphia, Pa.
69 West Fourth Street, Cincinnati, Ohio.
205 River Street, Troy, N. Y.
121 Washington Street, Boston, Mass.

CAUTION.
The public are cautioned against all infringements upon this patent, even when called improvements; other parties have slightly changed my method of doing the same thing, and without any practical experience speak of it as a very great improvement. This invention is the only one that has had practical experience. It has been in general use for ten years, and every real, practical, or desirable improvement that study and actual experience could suggest has been added.
All violations of my patent, either by using or vending an infringement, will be dealt with to the full extent of the law for such cases provided.

JAMES BROOKS,
MANUFACTURER OF
SHELL LIME.
FACTORY,
55th Street & 11th Avenue, New York.
☞ Masons and Farmers supplied.

PROJECTED BUILDINGS.

The following plans embrace all that have been considered by the Superintendent of Buildings since our last report:—

BROOME ST. (NOS. 202 AND 204), TWO FOUR-story brick workshops, 25x25; owner, CAROLINE V. STINSON; architect, WM. JOSE.

COLUMBIA ST. (NO. 80), ONE TWO-STORY BRICK workshop, 14x25; owner, J. SHUSHMANN; builder, JOHN KROFT.

ESSEX ST. (NO. 32), ONE FIVE-STORY BRICK store and tenement, 25x72; owner, FRED'K KIRSHEIS.

FIRST ST., N. S., 337.6 E. 2D AV., ONE FIVE AND a half-story brick store and tenement, 24.4x73; owner, JOHN KOPP; architect, THEODORE J. BIER.

FORTY-FIRST ST., N. S., 340 W. 11TH AV., ONE two-story brick retort house, 60x100; owners, METROPOLITAN GAS LIGHT CO.; architect, CHAS. KINKEL; builders, C. EBERSPACHER and LORING FLOYD.

FORTY-FOURTH ST., S. S., 150 E. 1ST AV., TWO two-story brick factories, 50x42; owner, SIMON STERNREICK; architect, JOHN MCINTYRE; builders, THORP BROS. & J. G. GEDNEY.

FIFTIETH ST., S. S., 100 E. 10TH AV., ONE FOUR-story brick tenement, 20x48; owner, MAURICE LEVI; architect, W. H. CAUVET; builder, JOSEPH BARKER.

FIFTIETH ST., S. S., 375 W. 10TH AV., ONE THREE-story brick tenement, 25x40; owner, M. W. ALLERVELT; F. S. BARUS.

FIFTY-FIFTH ST., S. S., 57 W. 9TH AV., ONE FOUR-story brown-stone front second class dwelling, 20x80; owner and builder, JOHN SHANNON; architect, W. H. CAUVET.

FIFTY-SIXTH ST., N. S., 100 W. 7TH AV., ONE five-story brown-stone front tenement, 50x105; owners and architects, P. & J. JARDINE; builder, JOHN SINCLAIR.

FIFTY-NINTH ST., S. S., 150 W. 1ST AV., ONE TWO-story brick stable, 50x25; owner and architect, F. THILEMANN.

GANSEVOORT ST., S. S., 75 W. WEST ST., ONE two-story brick stable, 25x81; owner and architect, G. B. LAWTON; builder, A. J. FELTER.

HENRY ST. (NO. 60), ONE FIVE-STORY BRICK store and tenement, 25x75; owners, IMMEN & STERNE; architect, W. E. WARING.

NINTH AV., E. S., 66 S. 50TH ST., ONE FOUR-STORY brick store and tenement, 22.7x58; owner, M. WIGGER; architect, GEO. HOBZEIT.

ONE HUNDRED AND TWENTY-FOURTH ST., S. E. cor. 4th av., eighteen three-story brick first-class dwellings, 18x45; owners, DAVID HOUSTON and THOS. HEALEY.

PARK PLACE, N. S., 100 E. GREENWICH ST., ONE five-story brick first-class store, 45x88.4; owner, G. W. WELSH; architect, CHAS. METTAM.

SUFFOLK ST. (NO. 72), ONE FIVE-STORY BRICK store and tenement, 25x72; owner, CHAS. DARHEIMER; architect, FRED'K JENTH; builder, JULIUS POERSCHKE.

SUFFOLK ST. (NO. 74), ONE FIVE-STORY BRICK store and tenement, 25x72; owner, LAWRENCE HERBOLDSHEIMER; architect, FRED'K JENTH; builder, JULIUS POERSCHKE.

SECOND AV. AND 93D ST., S. W. COR., FOUR FOUR-story brick stores and tenements, 22x55 and 26.2x60; owner, JAMES CASSIDY; architects, SCHWARTZ & KEMPT; builders HENRY JACKSON and COLLINS & WOOD.

TWELFTH ST. E. (NO. 537), ONE FIVE-STORY brick store and tenement, 25x75; owners, LUDWIG MULLER & JOHANN WEBER; architect, A. H. BLANKENSTEIN.

TWENTY-FIRST ST. W. (NO. 49), ONE FOUR-STORY brick first-class dwelling, 21x50; owner, EVANGELICAL LUTHERAN CHURCH OF THE HOLY TRINITY; builder, ALEXANDER M. ROSS.

TWENTY-EIGHTH ST. E. (NOS. 138, 140, AND 142), three five-story brown-stone front tenements, 25x65; owner, E. E. AHEARN; architect, W. E. WARING.

TWENTY-EIGHTH ST. W. (NO. 539), ONE TWO-story brick stable, 25x17; owner, JOHN VAN DOLSON; builder, EDWARD GRIDLEY.

TWENTY-EIGHTH ST., S. S., 325 E. 8TH AV., ONE four-story brick second-class store, 50x52; owner, JACOB LEBKUCHLER; architect, A. PFUND.

THIRTY-FIRST ST. W. (NO. 251), ONE FOUR-STORY brick store and tenement, 25x50; owner, F. STINSON; architect, A. PFUND.

TENTH AV., W. S., 20 N. 151ST ST., THREE THREE-story frame second-class dwellings, 18.3x43.6; owner, THOS. BAILEY; builder. JOHN SCALLON.

WATT ST. (NO. 101), ONE TWO-STORY BRICK FACtory, 30x50; owners, HIGGINS & OSTRANDER; builders, VOLK & NIBLO.

ALTERATIONS IN BUILDINGS.

One brick dwelling, No. 798 Washington street, three stories, 22 by 40, extension 9 by 18, 34 feet high; Richard Keyes, owner.

One brick dwelling, No. 705 Fifth street, 3½ stories, 20 by 40, extension 20 by 11 and two stories high, 30 feet; Jacob Muhtfelder, owner.

One brick store and dwelling, No. 297 Greenwich street, three stories, 12 by 48, extension 12.6 by 30, 11 feet high; Benjamin J. Barnes, owner.

One brick store and dwelling, south-east corner of Houston and West streets; upper stories to be remodeled; Mr. Caulfield, lessee.

One brick factory, No. 509 West Thirty-fourth street, one story, 35 by 50, one story to be added; Geo. Fox, owner.

Four brick dwellings, Nos. 419, 421, 425, and 427 West Forty-first street, four stories, 30 by 33; new store fronts; John S. Gelmore, owner.

One brick store and dwelling, No. 60 Catharine street, three and a half stories, 22.6x40; extension 22.6 by 40, 12 feet high; Cohen & Solomon, owners.

One brick dwelling, No. 418 Greenwich street, two stories, 21 by 40; two stories to be added; C. W. Loether, owner.

One brick dwelling, No. 57 Gouverneur street, two and a half stories; 25 by 40; one-half story to be added; Mrs. Fosick, owner.

Six brick stores and dwellings, Nos. 49, 51, 53, 77, 79, and 81 Third avenue, three stories, 20 by 50, new store fronts; Rutherford Stuyvesant, owner.

One brick dwelling, No. 222 East Broadway, four and one-half stories, 24 by 44; one-half story to be added; D. Wolfe, owner.

One brick dwelling, No. 38 St. Mark's place, three and one-half stories, 26 by 54; one and one-half stories to be added, and extension 10 by 13, 56 feet high; Peter Cook, owner.

One brick stable and carriage-house, Nos. 162, 164, and 166 Greene street, new front wall to be rebuilt on street line and internal alterations made; New York Transfer Company, owners.

One brick dwelling south side of Thirty-sixth street, 225 feet east of Second avenue, five-stories, 25 by 60, new store front; Henry Many, owner.

Three brick stores and dwellings, northeast corner of Avenue C and Sixth street, corner house, three stories, and adjoining house, four stories, 23 by 42.9, one story to be added; David Jones, owner.

One brick dwelling, No. 210, East Twenty-third street, five stories, 22 by 48, new store front; David H. Hearn, owner.

One brick packing-house, No. 517 to 525 West Thirty-second street, two stories, 125 by 98 by 93, two stories to be added; Bahstein & Co., owners.

One brick carpenter-shop, No. 427 West Fifty-first street, two stories, 23.8 by 35, one story to be added; John F. Moore, owner.

UNSAFE BUILDINGS.

Greenwich street, No. 237, John J. Healy, Jr., owner; iron girder of front of insufficient strength.

Water street, No. 478, John M. Colgan, owner: front, rear, and gable walls sprung; unsafe generally.

East Forty-ninth street, No. 153, Ritter & Simmons, owners; unsafe south wall; rotten and unsafe floor beams.

Rivington street, Nos. 311, 313 and 315, Nathan Asiel, owner; dangerously unsafe front and rear walls, and the extension building in generally unsafe condition.

Delancey street, No. 107, Mr. Lichtenberg, owner; unsafe north side wall above the roof, cracked.

MARKET REVIEW.

BRICKS.—The appearances of weakness on common Hards noted in our last have considerably increased, and during the greater portion of the period under review the tone was quite flat and doubtful. In fact, quite a change has come o'er the spirit of the market, and the selling interest do not find it quite so easy to dictate terms as a week or two ago. A pretty firm front is shown in a good many cases, to be sure, and some cargoes have been withheld for full figures, with a few sales actually made as high as before, at say about $12 per M; but the majority of buyers withdrew for a concession, and seemed quite determined not to operate until they obtained it. The main cause of the change was the larger receipts of stock, the supplies coming in with unusual freedom and making the largest accumulation of unsold cargoes known at this point for any time since the height of the season last year. The disappearance of the ice and increased facilities for transportation brought in first a large amount of stock from Haverstraw Bay, and these were gradually followed by shipments from the "up river" yards, the high prices current inducing a great many owners to use strenuous efforts to realize before a break should occur, and as consumers and dealers happened at the same time to be in position where they could refuse to purchase, a sort of dead lock took place, owners naturally being adverse to selling unless they could get the rates calculated upon, and buyers, of course, endeavoring to use the liberal supply to break the market. We do not intend to give any quotations this week, as the position is too feverish and nominal to admit of close figures, but those who want stock, and use any ordinary judgment, will find it possible to buy on easier terms. Notwithstanding the present depression, however, we find wholesale dealers who still retain a fair share of confidence, and look for a steady, healthy market, and possibly some reaction after the flurry is over, as it is generally believed that a very large number of brick have yet to be secured to satisfy existing wants of consumers, that the recent experience will prevent manufacturers from shipping quite so freely, and that the old stock on hand will no more than carry trade well into the new crop. Pale Brick have also been more plenty, and though in good, fair demand have weakened, with the general market closing unsettled and nominal.

CEMENT.—The market for Rosendale has undergone the usual spring reaction with the opening of navigation, and we have the change from the previous somewhat of a retail value to a wholesale rate for large lines. A good many of the manufacturers were, and indeed still are, inclined to fix upon last season's figure, viz.: $1.75 per bbl, especially as several thousand bbls were contracted for at this price, but one of the leading companies, deeming a lower range more judicious, has, during the present week fixed upon $1.60 per bbl delivered here, and $1.50 at Rondout. A prospective increased production, the undeniable competition from foreign stock, and bid for an increased call have all had an influence in opening the season at low figures, and the hopes that buyers would be attracted are already realized. The demand is not only active, but is said to be as sharp as ever known, with a prospect that the distribution will be simply immense. Orders come to hand from all sections, too, with an increase, especially noticeable from the South. The receipts thus far have been mainly of old stock; by the time this reaches the majority of our readers it is probable that the new crop will make its appearance, and a steady supply may be looked for, as new kilns go into operation, and all manufacturers are prepared to, and will push the production forward rapidly.

FIRE BRICK.—The season has not as yet fully opened and there is hardly any regularly established wholesale market. Manufacturers and dealers, however, predict a good trade during the coming season, and seem to look upon the prospect as quite encouraging. Values have been a trifle modified, and this is a partially attractive feature, while, in addition to this, a number of furnaces are under contract, and will consume a considerable quantity of stock. There is a fair supply at present on hand, both as to quantity and assortment, and manufacturers are prepared to increase the production whenever the situation appears to warrant such a course. We quote No. 1, Arch, Wedge, and Key at $45@50 per M, and No. 2, Split and Soap at $35@40 per M. Of foreign stock there is none here at the moment, and not much demand, with prices nominal at about $65 per M for common, and $75 per M for Leemoor and Starbridge. Consignments, however, are en-route, and importers anticipate a good market when the supplies come to hand.

LATH.—Although buyers in a great many cases still endeavor to show indifference and move with caution, in hopes of gaining some temporary advantage at least, the faith of receivers in the general strength of the market appears to be entirely unshaken. The stock in yard for some time has been small, and is now said to be reduced to a mere nothing, while evidences are plenty that the consumption will be quite free the moment the weather permits of the pushing forward of work. There is, to be sure, something like seven million lath piled out under control of receivers, but few, if any, of these are offered, except at very high prices, and in reality can hardly be called available stock for the present. Reports are current that the amounts at the mills are greatly reduced, and that even if navigation was all that could be desired it would be difficult to bring forward any considerable number of cargoes, especially of good stock. The market as we close is reported firm, but with not much stock offering; the position is a little nominal.

LUMBER.—In a general sort of way there can hardly be said to prevail any movement at the yards which would properly come under the head of activity, yet there is evidently more business doing than a month or so ago, and dealers look for a continued improvement, especially as the streets are in much better condition than usual at this season, and transportation is not greatly impeded. As there is generally exceptions to all rules, so in this case we find a few yards where matters are reported as very slow, but in the majority of cases there seems to be a little stock going out on quite a number of orders, and when the daily or weekly aggregate of sales are footed up dealers find that they have seen worse times within the past six months. The principle business doing is with local customers on building or manufacturing account; but some of our neighboring cities are said to have been desirous of drawing upon the accumulations here to a moderate extent, and it is also thought that shipments to some of the "Sound" ports will also be made. A scarcity of first class joists is reported; common pine boards are difficult to find, and there is also but few desirable lots of seasoned hard wood, especially black walnut, available; but, with these exceptions, our dealers could meet any ordinary demand with little or no difficulty.

On the wholesale market the talk is still very firm among sellers, and a brilliant future is before the trade, if all the sanguine hopes expressed should be realized. Even the more moderate toned, however, show a vein of great confidence, and seem well assured of a good, quick market at full prices, owing mainly to the moderate and well controlled supply of seasoned and desirable lumber left on hand. Scarcely anything is doing now, to be sure, as nothing can be delivered promptly; prices are high, and buyers unwilling to enter into contracts at rates which sellers continue to insist upon with a sort of dogged determination; but it is claimed that as soon as communications are re-established the demand from interior points will develope into a very sweeping movement, and take up pretty much everything left. In addition to the home consumption also, indications point to a large export demand of a general character, though the English call is likely to take the largest amounts of Canada pine; and we understand that quite a number of vessels have already been chartered to load on the St. Lawrence the moment the state of navigation will admit. There is a good export inquiry at this port, but not much stock to meet it, in fact, scarcely any of a really desirable character.

Eastern Spruce shows a somewhat uncertain market, as usual at this season of the year, when both buyers and sellers are moving cautiously, in order to secure any little advantage which may happen to be developed. Much, if not all, however, depends upon the amount of the receipts, and the manner in which they come to hand, as no extraordinary outlet for stock is likely to be opened as yet, and should a number of cargoes arrive together, a weakening of values would, in all probability, ensue. Steady arrivals, however, of a cargo or two at a time, even though the weekly aggregate prove large, are likely to keep the market uniform, as buyers can thus have an opportunity to make a fair and satisfactory selection, while undesirable stock, with no existing necessity for crowding it, can be held until receivers obtain time to hunt up customers. We quote at $17@19 for inferior to fair specifications, and $19.50@20.50 for good to prime do. Piling remains scarce and nominal. There has been little or nothing doing in Pickets this spring that we can hear of, and the market is quoted rather doubtfully at about $9@10 per M for ¾ inch. White Pine is firm, the demand good enough as compared with the supply of desirable parcels, and we still quote at $31@33 per M for common to fair box and shipping boards: $35@38 do for good do; $40 do for pickings, and $45 do for selects. Yellow Pine is firm, and all good offerings are sold without difficulty. We quote at $28@30 per M for random cargoes; $32@38 do for special cuts, and $40 do for fancy do.

The exports of lumber are as follows:—

Value	$41,423	$202,728	$126,812

We note additional exports as follows:—

To Antwerp, 10 logs walnut, value, $324; to Hayti, 1,100 bundles shingles, $845; to Peru, 28,800 staves; to Liverpool, 12,000 do; to London, 4,200 do; to French West Indies, 3,600 do, and 1,150 shooks: to Antwerp, 1,920 staves; to British West Indies, 300 shooks; to British Guiana, 600 shooks; to Cuba, 7,342 shooks, and 4,360 hoops; to Hayti, 219 shooks; to Danish West Indies, 4,000 hoops.

The receipts reported are as follows:—

From Jacksonville, 325,000 feet lumber; from Savannah, 160,000 feet do; from Brunswick, Ga., 175,000 do; from Wilmington, N. C., a cargo of shingles; from St. John, N. B., 152,787 feet lumber, 129,748 feet boards, and 740,000 laths.

Charters as follows:—

A bark, 682 tons, to Molendo, Peru, lumber and general cargo, at or about £1,800, out only; a Br brig and six Br. barks, varying from 300 to 500 M lumber capacity (before incidentally alluded to), from Montreal to River Plate, $22.20 per M net, May and June deliveries; a Br ship, 986 tons (here), from Montreal to River Plate, lumber, $21 net; an Am bark, 548 tons (bound from Liverpool to Halifax), same voyage, $22 net; one, 566 tons, hence to Montevideo and Buenos Ayres, lumber and general cargo, private rate; a Br bark, 400 M lumber, from St. Mary's to River Plate;

$22 and primage; one, 50 M lumber, from Savannah to River Plate, $21 and primage; a bark, 634 tons, from Savannah to River Plate, lumber, $22 and primage; three Fr barks, from Pensacola to River Plate, lumber, $21 and primage: a Br brig, 267 tons, from Fernandina to Matanzas, lumber, $9; a schr, 144 tons, to St. Helena Sound, machinery, $500, and back from Jacksonville, resawed lumber, $11.50; one, 200 M lumber, from Jacksonville to New York, $11.50; a brig, 224 tons, from Fernandina to Boston, lumber, $12.

The following have recently appeared in the Saginaw *Courier*:—

LUMBER SALES.—The *Saginawian* says that Mr. W. F. Green & Son have sold for cash, to Cleveland parties, 25,000 dry lumber, sawed last season, at $8, $16, and $35, to be delivered at the opening of navigation. Also, to Erie parties, 150,000 feet at the same rates.

RIFLE AND AU GRES RIVERS.—The following careful estimates of the amount of logs put in the Rifle and Au Gres Rivers the present season, are furnished us from the office of H. W. Sage & Co., and may be relied upon as substantially correct:—

Rifle River, ninety million feet, controlled by the Rifle Boom Company; office at Wenona; H. W. Sage, treasurer; superintendent, E. C. Carpenter; foreman in charge of the drive, George Washington.

Au Gres River, sixty million feet, controlled by Au Gres Boom Company; office at Wenona: E. T. Carrington, treasurer; superintendent, James Orimon.

A HUGE HAUL.—Messrs. S. & C. McLean are authority for the statement that with one pair of horses, weighing 2,600 lbs., they hauled from their camp, on Bluff Creek, a tributary of Salt Fork of the Tittabawassee, on one sett of sleighs, 6 sap pine logs, scaling 4,639 feet, a distance of two miles, and in the distance is a short hill, with an up-grade of 12 feet in 80. If anybody's team has beaten this haul the past or any other winter, let us hear from them. This load would give a weight of over thirteen tons.

LOG DRIVING ON PINE RIVER.—Messrs. Loomis & McLeod, of Elm Hall, have the contract of driving about 30,000,000 feet of logs on the Pine, and are preparing to improve the earliest thaw. It is estimated that from 150 to 200 men will be required to drive the river, and wages will range from $2.50 to $4 per day. Fears are expressed by many that if cold, fine weather continues much longer there may be a serious "hang-up" of logs. A comparatively light body of snow remains in the woods, and the swamps are almost dry. Heavy and continued rains will be necessary to float the logs successfully.

The work of clearing the river and its branches of fallen trees, etc., preparatory to the "drive," has already commenced, and lively times on the river are anticipated as soon as a break-up occurs. It is estimated that it will cost $45,000 to run the Pine and tributaries this spring. A large proportion of this sum contribute to the business of the villages on the river, in the purchase of supplies, and in necessary and unnecessary expenditures of the "boys." Messrs. Gargett & Lathrop have the contract of running about 45,000,000 feet.

LUMBER ITEMS.—The Alpena *Argus* says:—

Lumbermen in some localities are feeling a little anxious just now, as there is not much snow on the ground; the swamps are dry, and unless we get some heavy rains when the ice breaks up, it will be rather difficult driving logs on some of the streams. We have had an excellent winter for lumbering, and many of the men will doubtless more than fill their contracts, and they are looking forward to the break-up with great interest.

The *Outline*, published at Hersey, has the following:—

Hamilton & Mason's new shingle mill, at Frank Cole's, on the railroad, is now running, and they are cutting shingles at the rate of about 40,000 a day.

Mason, Pingree & Cole have finished their big contract to-day, of putting in 6,000,000 feet of logs at Big Stone, for Elisha Eldridge, of Chicago.

At Reed City, Mr. Reed's offer to swap land with the Railroad Company, has not been accepted. His offer to give enough and for depot grounds, if the Company will give the right of flooding the flat with a mill-dam.

Frank Bennett has 4,000,000 feet of logs now in the Muskegon, which, considering the bad luck he has had, being burned out, losing some of his men, etc., is a good winter's work.

Only about six miles frum here logs are put in the Chippewa, which carries them to the east side of the State; and only about a mile intervenes between waters that float logs to Muskegon and those which take them to Saginaw.

LOG TRAINS.—The Wenona *Herald* says that three log trains come down the northern extension to that place every day, bringing 10,000 feet of logs, which are rolled into the river.

We copy the following from the Saginaw *Courier* on the Chicago Relief Bill:—

The following despatch was received at this office at 4.45 o'clock last evening.

WASHINGTON, D. C., March 28.

The Chicago Relief bill as amended, with the exception of lumber, has passed both Houses of Congress.

(Signed) C. V. DELAND.

This settles the question so far as lumber is concerned. Our delegation have accomplished all they sought for, and are doubtless now on their way home. Their arrival at Washington it appears was most opportune, and has been the saving of thousands if not hundreds of thousands of dollars, to the lumber business, and the consequent depression of all branches of trade. The exemption of lumber, however, does not alter our opinion of the bill as it has passed. It is pernicious in its character, and a bad precedent to establish.

The Boston *Commercial Bulletin* reports:—

There has been no improvement in this market during the week, operations still being confined to the immediate and pressing wants of consumers. The weather has been the great drawback to the retail trade, largely interfering with building operations in all sections, and far more unseasonable than at the corresponding time last year. The stock of desirable thickness of all kinds is gradually being reduced in consequence of the continual drain made upon it and the non-arrival of supplies, owing to the stoppage to navigation.

Eastern lumber is quick with few arrivals. Southern lumber is in fair demand; stocks of spruce of all kinds are low in all the yards; spruce shippers are scarce. There is also a great scarcity of lathes; in fact, the stock has not been so low for several years.

The market for hard pine is fully supplied, and there is an abundance to arrive. Prices are firm. Shingles and clapboards are dull.

The following are the surveys for the week:—

DOMESTIC LUMBER.	Feet.	DOMESTIC LUMBER.	Feet.
Pine	44,347	Black Walnut	31,830
So. Pine Plk. & Tim.	164,602	White Wood	5,762
Hard Wood	6,905	So. Pine Flooring	10,842
Spruce	160,767	Pine Timber and	
Hemlock	27,596	Joist	14,094
Total			466,745

The Savannah *Republican* says:—

TIMBER AND LUMBER.—TIMBER—The receipts have been small for the week, in consequence of unfavorable weather for rafting; demand active for all classes of timber, the difficulty being the placing of vessels, which are in demand. We quote:—Mill timber, $7@9; shipping do, 600 feet average, $8@9; 700 feet average, $10@11; 800 feet average, $11@12; 900 feet average, $13@14; 1,000 feet average, $14.50@16.

LUMBER—active. Orders are plenty. We quote: Ordinary sizes, $20@21; difficult sizes, $21@25; flooring boards, $21@22; ship stuffs, $20@22, according to sizes.

FREIGHTS.—Vessels are in demand for lumber cargoes, but none are disengaged. LUMBER—To Philadelphia, $8.50; to New York and Sound ports, $10@10.50; to Boston, $10.50; to Baltimore, $8@9; to Cuba, nominal; to River Plate, $23, and 5 per cent. primage. BY STEAM to New York, $10. TIMBER—Freights are from $1@1.50 higher than lumber rates.

METALS.—Ingot copper continues excited, and decidedly higher with further large sales chiefly for summer delivery, commencing at 29c, and selling up to 34c, and closing at 35c asked. Cash lots are very scarce and operations restricted thereby: holders asking 40c at the close. Manufactured has sustained a further advance of 3c per lb., and held very firm with the prospects of an additional enhancement of values. We quote Ingot, 40c cash; 34@35c for future delivery; New Sheathing, 41c; Yellow Metal, 30c, and do Bolts, 32c. Scotch Pig is very scarce on the spot, and held at $55 per ton for Glengarnock and Eglinton, but there has been a moderate business for lots to arrive, mostly on terms not made public. American is scarce and wanted, but there is very little to be offered, and operations are consequently restricted. We quote No. 1, $50@52; No. 2, extra, $49@50, and Forged, $47@48. Refined Bar has been further advanced, and held very strong at the higher price. We quote from store as follows:—Bar Swedes, $12 @130; Refined, ordinary size, $105; refined, 1¼ to 6 by ¼ and 5-6, $110; refined, 1 and 1¼ by ¼ and 5-6, $112.50; Large rounds, $117.50@122.50; scroll, 117.50@147.50; ovals and half round, $120@130; band, $117.50; horse-shoe, $115@125; rods, ⅝ to 3-16 inch, $110@150; hoop, $130@172.50; nail rod, per lb., 7¾c. Common Sheets continue exceedingly firm, and a fraction higher. We quote at 6@7c for single D. and T., and 7½@8c for D. and T. charcoal. Russia Sheet has been in good request, and under a short supply prices are higher. We quote 18½c gold. Pig Lead is higher abroad, but quiet and unchanged here, owing to the Government supplying the demand at less than importer's prices. We quote at $5.90@6.80 for common to good foreign. In the manufactures of Lead, Bar has been reduced to 8¼c, but Sheet and pipe remain steady at 15c. for tin-lined pipe, all less 10c per cent. to the trade. In Pig Tin there is some disposition among the dealers to await the result of the Dutch sale, which is to take place on the 11th of May, but prices continue very firm at 40@40¼c for Straits, 39¾@40c for English, and 46c for Banca, all gold prices. Plates are in active demand, but operations somewhat interfered with by the scarcity of desirable assortments. We quote: I. C. Charcoal, $13.75@14.50; I. C. Coke, $11.50@12; I. X. Charcoal, $15.75@16.50; Coke, $9.50@9.87½, I. C. Coke Terne, $9.75, and Charcoal Terne, $11.75@12, all gold prices. Zinc has been more active, and sales effected of 350 casks, season's delivery at 9¼c, gold now held at 9½c, gold less 4 per cent.

NAILS.—The market as a whole appears to be in a favorable and rather encouraging position for the selling interest, a good and increasing business being reported, and most of the trade actively engaged in filling orders. The outlet, too, is general, including shipments to all near-by interior points, and negotiations opened on parcels wanted in the more distant sections the moment navigation is resumed, and freights are easier, while exporters are still engaged in making up good sized invoices. All grades are sought after, and the not very large assortment works down gradually, though, as usual, the leading sizes of cut are handled with the greatest freedom. Prices extremely firm, and sellers, indifferent operators with an intimation that values may soon be further advanced, on leading styles. We quote per 100 lbs: cut, 10@60d, $5.25; cut, 8@9d, $5.50: cut, 6@7d, $5.75; cut, 4@5d, $6; cut, 3d, $6.75; cut, 2@3d, fine, $7.50; cut spikes, all sizes, $5.50; cut finishing, casing, box, etc., $5.75@7.25: clinch, $6.75@7.25; horse-shoe, forged, No. 10 to 5, per lb., 20@33c. Other styles are selling as follows: Copper 47c per lb.; Yellow Metal, 30c do, and Zinc 18c do.

Exports as follows:—

	Past week.	Since Jan. 1.
Packages	217	4,842
Value	$1,711	$33,549

PAINTS AND OILS.—There is still a very good general demand current, and business, as a rule, shows a fair aggregate from day to day, but the movement is not sharp, there is less buoyancy, and the excitement has, in a measure, toned down. The arrivals have been somewhat larger and better assorted, and though a considerable portion of the recent importation was previously disposed of, the invoices delivered on contract relieve the wants of a good many jobbers and have a tendency to modify the anxiety somewhat. We do not discover, however, that there has been any weakness developed, indeed a great majority of importers and wholesale dealers claim that their position is stronger than ever, simply because nearly all the leading styles have been sold far ahead of arrival and some ahead of the production in Europe, and that should any fresh demand of magnitude spring up, it would be impossible to meet the wants of buyers even at enhanced ends, unless some of the present holders of goods in second hands should consent to realize. Jobbers report a continued good trade and a distribution of quite a general character. A good many buyers are inclined to move with caution and to confine their operations as closely as may be to the most positive wants, but these wants are comparatively full, and there is a large amount of stock going into small dealers and consumers' hands. As a rule the retail market is firm, but there is some variation in the rates charged, owing to the different periods at which supplies have been secured. Early purchasers having quite an advantage over those who neglected to secure their invoices until the cost had reached the full rates now asked for supplies from fresh hands. Linseed Oil is higher and firm at 90c in casks, and 91c in bbls. The movement has been only fair, and buyers generally show little anxiety to operate in large quantities, but with the opening of the river crushers look for an increased distribution, and insist upon the higher figures.

Exports as follows:—

	Past week.		Since Jan. 1, 1872.	
Paint.....pckgs.	178	value $1,672	2,142,	value $21,481
Linseed oil, galls.	50	" 60	1,017	" 939
Oxide zinc, pcks.	—	" —	—	" —

PITCH.—There is very little doing beyond the usual jobbing trade, and prices are lower. We quote at $3.50 for prime city delivered. Receipts for the week, 31 bbls; since Jan. 1, 474 bbls; same time last year, 150 bbls. Exports for the week, 191 bbls; since Jan. 1, 955 bbls; same time last year, 576 bbls.

SPIRITS TURPENTINE.—The demand has been only moderate, and prices have gradually declined, closing at 68½c for merchantable order. Receipts for the week, 558 bbls; since Jan. 1, 11,416 bbls; same time last year, 10,929 bbls. Exports for the week, 364 bbls; since Jan. 1, 4,696 bbls; same time last year, 4,366.

TAR.—The stock is large, and in absence of demand prices are weak, though not quotably lower. We quote at $3 for Washington, $3 for Newberne, and $3.25 for Wilmington. Receipts for the week, 691 bbls; since January 1, 14,152 bbls; same time 1871, 4,866 bbls. Exports for the week, 109 bbls; since Jan 1, 3,385 bbls; same time 1871, 1,061 bbls.

MAGRATH'S COPPER SASH-CHAIN,
PATENTED 21ST MARCH, 1871,

Is adapted to ordinary round pulley, and strong enough to suspend weights of any size required.
Being intended as a substitute for sash-cord, it can be put into sashes now provided with cord without any change of pulleys. The inventor feels confident that experience will prove his chain to be both economical and durable, besides doing away with the constant annoyance and expense attending the use of sash-cord.
For terms and further information apply to
M. MAGRATH, Patentee, Carpenter and Builder,
74 Irving Place, New York City.

No one should Build or Live in a House
WITHOUT EXAMINING OUR
ELECTRICAL APPLIANCES,
without which no house can be said to have all or even the MOST IMPORTANT OF MODERN IMPROVEMENTS; in fact, they are indispensable for the complete outfit of a first-class house with what may be termed necessary conveniences. All English and French houses at the present time are furnished with this electrical apparatus.

E. HOLMES'
Burglar Alarm Telegraph.
This one Bell, located in the Sleeping-Room, when set for the night, rings upon the opening of each door and window of the house. It is a watchman that has but one house to protect; never goes to sleep; cannot be bought off; and an experience of ten years, without a failure, proves it to be perfectly reliable and satisfactory.
PARTICULAR ATTENTION
is requested to our new
HOUSE ANNUNCIATOR,
An improvement upon the French system.
IT CONSISTS OF A SINGLE
CALL BELL AND ANNUNCIATOR,
in the kitchen or servants' department, and so arranged that the simple touch of a small ornamented spring in each room of the house RINGS THIS BELL AND ANNOUNCES THE ROOM from which the call proceeds —the bell continuing to ring until the servants give it attention. The whole thing is operated by
ONE BATTERY, OR BY THE SAME BATTERY
that operates the
Burglar Alarm Telegraph.
It is simple, perfect, and reliable, and will not get out of order, and is a very great improvement upon the old system of "bell pulls." We also have
An Attachment for Ringing Door Bells and Servants' Bells from the
TABLE OR DINING ROOM,
by placing a spring in the floor, and covered by the carpet. Also, for
Calling the Coachman from the Stable.
Send for pamphlet containing ten or twelve hundred TESTIMONIALS. They are from our best citizens and first business men of New York and vicinity.

CAUTION.
The public are cautioned against all infringements upon this patent, even when called improvements; other parties have slightly changed my method of doing the same thing, and without any practical experience speak of it as a very great improvement. This invention is the only one that has had practical experience. It has been in general use for ten years, and every real, practical, or desirable improvement that study and actual experience could suggest has been added.
All violations of my patent, either by using or vending an infringement, will be dealt with to the full extent of the law for such cases provided.

REAL ESTATE RECORD
AND BUILDERS' GUIDE.

VOL. IX. NEW YORK, SATURDAY, APRIL 13, 1872. No. 213.

Published Weekly by

THE REAL ESTATE RECORD ASSOCIATION.

TERMS.

One year, in advance.....$6 00

All communications should be addressed to

C. W. SWEET,

7 AND 9 WARREN STREET.

NO receipt for money due the REAL ESTATE RECORD will be acknowledged unless signed by one of our regular collectors, HENRY D. SMITH or THOMAS F. CUMMINGS. All bills for collection will be sent from the office on a regularly printed form.

THE following numbers of the REAL ESTATE RECORD are wanted at this office, Nos. 48, 88, 90, 95, 99, and 104. Twenty cents each will be paid for them.

ANOTHER SPECIALTY.

IN the future we shall publish a perfect list of all assessments against real estate, wheresoever located in this city, so soon as they reach the department of Collector Henry Starkweather. The list will be as correct as it will be possible to make it, and the Collector lends all the aid in his power by permitting unrestricted access to his books. The value of such publication to property-holders is too apparent to need much explanation; to those who have at any time been mulcted in high rates of interest for neglect to pay assessments they never knew of, when they would have been glad to devote funds lying idle in bank to such a purpose, this new feature will be particularly appreciable.

The last assessment we find on the Collector's books dates back in July last, so is at this time valueless as information; but for the future our patrons may rely on us for notice of every assessment as soon as it is entered upon the books of the Collector.

REAL ESTATE MARKET.

THE week opened with a dull prospect for the real estate market; but as it advanced, something like enthusiasm was created by the enticing offerings of the auctioneers. Tuesday was the busy day; Mr. Adrian H. Muller disposed of the estate of Samuel Phillips, comprising property on East Twenty-first, Sixty-first, and One Hundred and Fifteenth streets, and Madison street; also, a country seat at Concord, Staten Island, and all of which were quite eagerly competed for, although averaging but fair figures. J. Johnson, Jr., offered two hundred and fifty lots in the Eighth Ward, Brooklyn, about one half of which were sold at figures more satisfactory to buyer than seller. As the week closed a much better disposition was manifested in the market.

We call attention to the advertisement on another page, of a sale of valuable Manhattanville property: it would be superfluous to add one word regarding their unquestionable desirability as an investment.

SECOND AV., E. S., 50.5 S. 64TH ST., ONE TWO-story second-class store, 25x35; owner, GEORGE GAYON; architect, F. S. BARNES.

SECOND AV., E. S., 25 N. 80TH ST., ONE FOUR-story brick store and tenement, 25.6x60; owner, JAS. LEE; architect, JOHN MCINTYRE.

TWENTIETH ST., N. S., 200 E. AV. B, SIX FIVE-story brick stores and tenements, 24x70; owner, G. W. FOLSOM; architect, B. PECK; builder JOS. SCHOEFFLER.

THIRTIETH ST., N. S., 75 E. 7TH AV., TWO FIVE-story brick stores and tenements, 25x55; owner, F. CREGIER; architect, G. HOLZEIT.

THIRTY-FIFTH ST. (No. 34 W.), ONE TWO-STORY brick stable, 20x21; owner, R. A. WHITHAUS; builder, J. F. CONOVER.

THIRTY-FIFTH ST., N. S., 100 W. 5TH AV., ONE two-story brick stable, 25x52; owner, WM. B. ASTOR; builders, WEEKS & BROS., and J. DALEY.

THIRTY-SIXTH ST. S. S., 200 W. 9TH AV., ONE three-story brick workshop, 85x22; owner, J. REDMEN; builder, JOHN SMITH.

THIRTY-EIGHTH ST. (No. 229 E.), ONE FOUR-story brick second-class store, 46.3x45; owner, A. HUPFEL; architect, A. PFUND.

THIRTY-EIGHTH ST., N. S., 200 W. 2D AV. (REAR), one four-story brick brewery, 46.3x36.8.

TWO HUNDRED AND NINTH ST., 600 FROM KINGSbridge road, one two-and-a-half-story wood second-class dwelling, 30x40; owner, SAMUEL E. MAUSAN; builder, G. P. SCHUYLER.

THIRD AV., W. S., 100 N. 88TH ST., ONE TWO-story brick workshop, 25x35; owner, L. RABENSTENSE; architect, L. BIELA; builder, W. SCHMIDTBEYER.

THIRD AV. AND 38TH ST., S. E. COR., ONE FIVE-story brick store and dwelling, 25x60; owner, J. S. DALE; architect, JAS. DOUGLASS; builder, W. G. ROWLAND.

WASHINGTON AND MORRIS STS., N. E. COR., TWO five-story brick stores and tenements, 25 & 27.6x51.8 & 25; owner, MR. BUCKMAN; architect, W. E. WARING.

WASHINGTON ST. (Nos. 606, 608, 610), THREE three-story brick second-class dwellings, 25x30; owner, R. HEATHER; architects, JENNINGS & DESALI, builder, PAT'K GILLON.

WORTH ST. (No. 10), ONE SEVEN-STORY BRICK store and tenement, 129.6x66.2; owners, GARNER & CO.; architect, J. D. FOUQUET; builder, WM. HARLOW.

ALTERATIONS IN BUILDINGS.

Two brown-stone front buildings, Nos. 16 and 18 Broad street, two stories, 50 by 75, one and one-half stories to be added and interior fitted up for offices; New York Stock Exchange, owners.

One brown-stone front first-class dwelling, No. 42 West Fifty-second street, four stories, 20 by 54, extension 8.2 by 17, 23 feet high; Melville Brown, owner.

One brown-stone front dwelling, No. 293 Madison avenue, four stories, 24.10 by 65, extension 24.10 by 30, 25 feet high; F. F. Thompson, owner.

One brick hotel, east side of Broadway, 20 feet north of Thirty-first street, five stories, 85 by 68, extension 12 by 40, 56 feet high; Edmund Hussy, owner.

Three brick-front dwellings, Nos. 80, 82, and 84 King street, 2½ stories, 16.8 by 44.8, one-half story to be added to each house.

One brick-front dwelling, No. 335 West Twenty-first street, three stories and attic, 25 by 32, one-half story to be added; Geo. W. Griffin, owner.

One brick dwelling, No. 217 West Eleventh street, three stories, 20 by 40, one story to be added and extension 20 by 11, 29 feet high; Elias A. Daly, owner.

One brick dwelling, No. 219, West Eleventh street, three stories, 20 by 40, one story to be added; Elias A. Day, owner.

One brick dwelling, No. 84 Bedford street, two and a half stories, 21 by 26, one and a half stories to be added, and extension 4 by 32, 40 feet high; M. Hart, owner.

One brick dwelling, No. 13 Second avenue, three stories, 17.7 by 59, new store front; Theodore Gunsel, owner.

One brick dwelling, No. 113 East Seventy-ninth street, three stories, 20 by 50, one story to be added; Mrs. Seymour, owner.

One brick dwelling, No. 839 Bleecker street, two stories and basement, 21 by 40, two stories to be added; Mr. F. C. Weyrich, owner.

One brick building, north-west corner of Forty-first street and Park place, four stories, 30 by 90, one story to be added; Charles Duggin, owner.

One brick building, No. 76 Charles street, two stories and attic, 25 by 35, attic story to be raised to full story, and extension 10 by 20, 32 feet high; Jno. B. McPherson, owner.

MARKET REVIEW.

BRICKS.—The market for North River Hards has again shown an irregular and doubtful tone current, but still matters have been in rather better shape than last week, and a considerable amount of business was transacted since the appearance of our preceding report. The sort of open contest between buyers and sellers, up to the present writing is undecided, and neither can be said to have gained any decided advantage, as stock equal to that received during the winter is selling at pretty much the same rate, while on goods for which the cost is reduced there is a falling off in quality fully corresponding to, if not exceeding, the modification of values. As near as may be, about $11.50@12 per M is a good average quotation for Bay brick, and $10.50 @11.50 do for for "up river" stock. Of the latter there is a great many offering, and the sales are hardly acting as an offset to the amounts available; but the fine grades are really scarce and sell readily at extreme figures. All present indications are considered favorable for a large consumption during the summer, and we find the majority of wholesale dealers still confident of a steady, free outlet, and a good, healthy market as soon as present differences are adjusted and values worked into some regular shape. Preparations for the new crop are being advanced with much vigor at the yards, and it is confidently anticipated that at one or two points moulding will commence by the 15th inst. There is considerable old stock still to come forward, but receivers at this point think they will want it all. For Pale Brick there is also a good demand from all the regular sources, and the market firm, with sales made as high as $8 per M; but poorer lots 50c@$1 per M lower. We hear of very few cargoes from New Jersey of any kind of stock, and Long Island brick are about done with for this season. Front bricks of all kinds are without any wholesale value at the moment, though from yard Philadelphia sell fairly at our figures.

The following will be of interest to the trade generally:—

A case has been decided in the Court of Common Pleas, before Judge Robinson, which is of the greatest importance to both contractors and builders, inasmuch as it ventilates some of the tricks of the trade and condemns them as illegal. The action was brought by Edward Fitzgerald against W. & C. H. Bernan, to foreclose a mechanic's lien. From the facts in the case it would appear that Fitzgerald contracted to do the mason-work of seven houses, building by the defendants, and to lay the brick at six dollars per thousand. In computing the number of brick, he charged for all the openings, measuring solid, which gave him $2,300 more than he received, and for which he filed a lien. On his behalf it was claimed that the measurement was according to recognized custom, while, on the part of the defendants, it was not only claimed that no such custom existed, but that by mistake they had overpaid plaintiff $120.18.

The court decided in favor of the defendants, cancelling the lien, and giving judgment in their favor for $120.21 and costs.

GLASS.—For foreign window glass the business has been a little slow, and probably somewhat disappointing; buyers not coming forward with the freedom expected, and handlingcomparatively small parcels. This, however, is considered as merely the cautious spirit prevailing in commercial circles generally, and the prospect of a good distribution during the summer is thought to be first-rate. Stocks have increased somewhat, and the accumulation now on hand would admit of any reasonable selection, but there is no pressure to realize, and, indeed, holders generally display a very confident tone at full former rates. The imports since January 1st embrace 98,870 pckgs glass, valued at $247,862, and 3,010 glass plate, valued at $416,201. In order to promote a better understanding among importers and dealers, and to facilitate business generally, those interested in the glass trade have perfected an organization after several preliminary meetings, the matter maturing at a meeting on the 3d inst.

The committee on permanent organization reported a constitution and code of by-laws, which were adopted. The organization will be known as the Board of Trade of Window Glass Importers, and will hold monthly meetings. Any person or firm engaged in this business may become a member of this Board and continue as such, unless voluntarily retiring, so long as the provisions of the rules and by-laws shall be adhered to, and so long as the said person or firm shall engage in the business.

The articles of the Association were signed by the following importers: H. A. Avery, P. Ayres, Semon Bache, S. B. Ulmann, S. J. Bach, Lewis A. Bendit, Max. Drey, George Cahen, Moritz J. Cohn, E. P. Dickie, A. D. Brinckerhoff, William C. Stuart, Francis Dougherty, James H. Heroy, D. Marrenner, E. F. Holbrook, I. E. Holbrook, Harry Holbrook, A. M. Prentis, D. S. Schanck, B. D. B. Schanck, Theo. W. Morris, A. H. Schanck, D. A. Vanhorne, J. Fitzpatrick.

An election was then held for officers for the ensuing year, and James H. Heroy, of Heroy & Marrenner, was chosen president; Theo. W. Morris, of D. S. Schanck & Sons, vice-president; L. A. Bendit, of L. A. Bendit & Drey, secretary; S. J. Bach, I. E. Holbrook, and D. A. Vanhorne, were elected as the Executive Committee, and authorized to secure a permanent place for meetings.

LIME.—The general tone of this market is pretty firm, and wholesale dealers talk quite confidently of the early future. There is, of course, a probability that as the weather becomes more open the receipts will increase, but, with the disappearance of the frost, the consumption also grows, and everything seems to indicate that a large quantity of lime will be wanted this spring. Indeed, orders are now on hand or in excess of the supply, and buyers in many cases are willing and anxious to negotiate on cargoes ahead of arrival. Our local dealers are said to be almost entirely without stock, and the yards in neighboring cities in pretty much the same condition, and even an ordinary call would exhaust a liberal amount of both grades, to say nothing of the extra inquiry which it is thought must soon be developed. Manufacturers, it is understood, are willing to push the production to the utmost, but at present will experience some difficulty in finding enough vessels to forward supplies with any freedom. At the close the feeling is still firm at $1.65 for common, and $2.15 for finishing, but with the river open there is an impression that a considerable accumulation of Northern lime, known to be at Albany, may be sent down and weaken the market.

LUMBER.—The yard trade continues very fair and, if anything, is again slightly on the increase, but probably no more so, if even as much as it should be at this season, and not many of our lumbermen are disposed to speak in unusually encouraging terms of the situation, present, or even in the early future. In fact, the calculations appear in the main, upon a fair summer business, to meet the current wants of the regular attendance of buyers, and if the movement amounts to more than this it will probably be as gratifying as unexpected. On all grades full former rates are asked, and quite positively insisted upon, and the disposition of holders is toward a show of firmness, as a large proportion of the stock now here could not be replaced without much additional cost, and all advices from the points of production report manufacturers as still in a firm and indifferent mood. With the river now well open, and the canals likely to follow soon, the position of affairs will probably undergo some change at an early day. Some of our dealers affect to care little or nothing about Albany, but there is a very evident desire to hear how the market opens at the point named.

In a wholesale way the general bearings continue much the same. For first-class goods of really desirable quality, such as can be put to immediate use there is a very fair demand, and sellers having anything of this kind to offer experience no great difficulty in securing customers, but receipts of common stock meet with neglect, and must be sold low, if at all. There is, however, at the best, not much of a cash market, as supplies are too uncertain to admit of more than spasmodic spurts of activity. The export indications continue encouraging, and there will probably be a full average movement on this outlet, though our port has many disadvantages to contend against which tends to keep the shipment of lumber to foreign points within comparatively narrow limits. On contracts, agents complain of a continued dull trade, buyers, as a rule, refusing to even negotiate on the new crop, and little, if any, old and seasoned stock being now available at the bids made. In fact, the present engagements for future delivery, so far as reported, appear to be confined almost exclusively to schedules of special lengths, which must be obtained at almost any cost, and buyers see no particular reason for delaying the closing of contracts.

Eastern Spruce varies in value somewhat according to the supply offering on spot or to arrive, but on the general range figures remain much the same, and choice long sticks are pretty firm, and will, as a rule, command extreme rates readily. Dealers do not want to take in a very large amount of stock at this season ahead of their known necessities, and what they do handle must be of the best quality. We quote at $18@20 for inferior to fair specifications, and $20.50@21.50 for good to prime do, the market closing with a pretty steady tone generally, and the increased offerings about all sold up. Piling is still without any fixed value, as there is not enough stock coming to hand to fully establish a market. White Pine of choice quality is steady and the common grades very firm, as there is scarcely any of the latter now to be found and relief cannot be obtained for some little time to come. Some few lots bought on partial speculation are offered for delivery immediately after the opening of navigation, but at prices so high no one will touch them as yet. We quote at $31@33 per M for common to fair box and shipping boards; $35@38 do for good do; $40 do for pickings, and $45 for selects. Yellow Pine continues in very good demand on all grades, and agents say they can dispose of about all the stock they are enabled to offer. We quote at $28@30 per M for random cargoes; $32@38 do for special cuts, and $40 do for fancy do.

The exports of lumber are as follows:—

Receipts as follows:—

From Jacksonville, 271,000 feet lumber; from Apalachicola, 157,000 feet lumber; from York River, Va., 1,375 R. R. ties; from St. John, N. B., 834,260 feet lumber, and 804,3000 lath.

Charters as follows:—

A bark, 654 tons, from Portland to Buenos Ayres, lumber, $17 net; one, 661 tons, and a Ger bark, 348 tons, hence to Montevideo and Buenos Ayres, lumber, railroad cars, etc., at or about $18.50 per M on lumber and primage; a Br bark, 689 tons, from Montreal to River Plate, lumber, $22 and primage; one, about 350 M, lumber, from Woodstock, Ga., to River Plate, $22 and primage; a brig, 237 tons, from Norfolk to Demerara, and a market, hhd staves, at or about $14; one, 225 tons, from Brunswick, Ga., to Porto Rico, lumber, private rate, and back to a port North of Hatteras, sugar, 50c; a schr, to Jacksonville and back with

lumber, $14.50, covering outward cargo; one. to Beaufort, N. C., building stone, $2.50; one, from Malden to Washington, D. C., stone, $2.25; one, from Norfolk to New York, railroad iron, $2.50; one, hence to Richmond, railroad iron, $2.25; one, to Port Royal, S. C., railroad iron, $3; one, from Charleston to New York, resawed railroad ties, $7.50 per M feet; one, 139 tons, from Wilmington, N. C., to Jamaica, lumb r, $11, and back from Nevassa to Baltimore, guano, $5.50; one, 169 tons (now loading for Costa Rico), from Santa Anna, Mexico, to New York, mahogany, $11, and cedar, $10.50; a ship, 1,003 tons, from Darien to Cork or Falmouth, for orders to the United Kingdom, yellow pine timber, 25s; a Br bark, 305 tons, hence to Montevideo and Buenos Ayres, lumber, etc., $20 and primage; a bark, 338 tons, same voyage, $19 and primage; one, 555 tons, same voyage, lumber and general cargo, private rate; a Br bark, 647 tons, from Halifax to Montreal, coal, private rate, thence to Montevideo and Buenos Ayres, lumber, $22.20 net, privilege of Rosario, $4 extra; a tern. schr, 309 tons, from St. Mary's to Bath, lumber, $12.

The Saginaw *Courier* furnishes the following items:—

TIMBER IN GRATIOT COUNTY.—Two gentlemen from St. Mary's, Ontario, John Helps and John McCullum have purchased two sections (1,280 acres) of heavily timbered land, near Wheeler Centre, Gratiot County, for the purpose of getting out round and square timber and staves for shipment. The timber is to be sent to the Eastern States and to Europe. Messrs. Helps and McCullum are prospecting with a view to purchasing more land. Their headquarters will be in St. Louis.

TITTABAWASSEE BOOM COMPANY.—The Tittabawassee Boom Company have adopted a scale of prices for booming and running, which we give below. The Tittabawassee Boom Company in taking logs, timber, lumber, or other articles into its booms or custody, and in the care and management thereo, will not be liable for any loss or damage occasioned by the breaking of any of its booms, for any loss or damage occasioned by theft, except the same be shown to have been committed by the employes of the company, nor for any other loss or damage, unless it shall be shown to have been occasioned by the gross negligence of said company or its employes. Logs will be delivered in such boom or booms as the owner may direct, together with the rafting rope used in rafting for the prices given, and the owner shall provide boom room for that purpose. In case sufficient room is not provided on demand, at any hour, the logs shall be left outside the boom at the risk and expense of the owner, who shall receipt for the same outside as fully delivered. In case logs of different owners shall be marked alike, or so nearly alike as to render it impracticable to distinguish them, the company will not be responsible for misdelivery; but will exercise all reasonable care to avoid mistakes therefrom.

The following is the schedule of prices:—

	Logs 30 feet.	30 to 40 feet.	Over 40 ft.
To Bundy's mill and above, per M	.90	1.45	1.70
To below Bundy's to and including Rust's mill, per M	.91	1.46	1.71
To between Rust's mill and Salina bridge, per M	.92	1.47	1.72
To between Salina bridge and Bristol street bridge per M	.93	1.48	1.73
To between Bristol street bridge and Genesee street bridge, per M	.94	1.49	1.74
To between Genesee street bridge and railroad bridge per M	.95	1.50	1.75
To Litchfield's mill, per M	.99	1.54	1.79
To Zilwaukie and Crow Island, per M	1.04	1.59	1.84
To Burt's mill, per M	1.07	1.62	1.87
To Cheboyganin. per M	1.08	1.63	1.88
To McGraw's mill, per M	1.09	1.64	1.89
To Portsmouth and Salzburg per M	1.11	1.66	1.91
To Bay City, and Wenona, above bridge, per M	1.12	1.69	1.92
To Bay City, below bridge, and to Bangor, per M	1.14	1.69	1.93
To McEwan's and below, per M	1.16	1.71	1.96

The Toledo *Blade* publishes a review of the commerce of Toledo, from which we take the following extracts:

LUMBER.

In the report the Secretary gives a detailed exhibit of the arrivals of hard wood and pine, but not having space for the table, we confine ourselves to a statement of aggregates:

Of hard wood, the Wabash is the principal deliverer, the Dayton & Michigan next; there is a steady decrease in the arrivals by the Michigan Southern; those by the Canal also show a falling off. The aggregate receipts of lumber were as follows:

By Railroad and Canal, feet	44,067,667
By Lake, feet	145,002,049
Total	189,069,716

It is impossible to arrive at the quantity of pine lumber shipped to the interior by the several railroads, consequently we cannot show the disposal of the large amount reported above. The canal took hence 26,490,300 feet; there was shipped eastward, via the Lake Shore Railway, 24,920,240 feet; making a total by these two channels of 51,410,540 feet which went to the interior. Add to this the shipments eastward by lake, nearly all of which was black walnut, 20,888,980 feet, and the export movement reported amounts to 72,299,520 feet.

SHINGLES.

There was a slight decrease in the arrivals of this article both by Lake and Rail, in 1871. The deliveries were:

By Lake	44,284,750
By Rail	32,789,000
Total	77,073,750

The shipments were:

By Canal	7,890,750
By Lake Shore Railway	29,938,500
By Lake	1,015,000
Total	38,654,250

LATH.

The arrivals of Lath by Lake in 1871, aggregated 21,040,700; manufactured here, 8,000,000—making a total of 31,000,000, or a trifle less than in 1870. The shipments by Canal amounted to 4,907,850, and by railroad, eastward, 44,000.

STAVES.

A small increase is noticeable in the arrival of staves in 1871, as compared with those of 1870; the aggregate for the past year amounted to nearly twelve millions. The receipts for the several channels of trade were:

By T. W. & W. R. R	5,485,400
By M. S. R. R	2,729,000
By D. & M. R. R	681,400
By Canal	2,235,226
By Lake	522,250
Total	11,753,276

The staves reported as arriving by lake were brought by small scows from points along the river and bay. There were shipped:

By Lake	8,241,237
By Lake Shore Railway	9,056,000
Total	17,297,237

The excess shown in the shipments was manufactured here and at Perrysburg, and forwarded to eastern points under large contracts made by manufactuers early in the year. As a stave mart Toledo has not an equal in this country, receiving and shipping nearly or quite double the quantity of any lake port.

OAK TIMBER.

The trade in oak ship-timber at this port is steadily on the increase, and is greater, we presume, than at any other port on the chain of lakes. The oak timber procured in this market has long been a favorite with ship-builders on the Atlantic coast and at the leading English ship-building ports, and each succeeding year the demand has increased until the drain upon the forests adjacent to the city is now so great as to induce the belief that soon the railroads will monopolize the business of bringing the timber to this city, owing to the distance at which it will have to be obtained from the canals and larger streams. The receipts at Toledo in 1871 were upwards of 1,000,000 cubic feet, an increase of 200,000 cubic feet on the arrivals in 1870; and the shipments amounted to 1,319,943 cubic feet, or nearly 16,000,000 feet board measure. The greater part of the timber sought the seaboard via Buffalo and Tonawanda, yet a considerable portion was shipped to Europe via the St. Lawrence.

There are very many additional matters of interest in the report, for which we have not space to-day, all of which will be found of great interest to the general reader, and especially so to the business man; and we should be glad to make further extracts could we do so at this time. We close our notice by copying the Secretary's concluding remarks on the "trade of the city" and exhibit of its internal traffic.

The following is from the Muskegon *Enterprise:*

MANISTEE.—The *Times* contains the following:—Grand Travers is ahead yet! Our boys in the lumber woods "never say die!" The following is the latest and the largest of the "big loads." This is 2,194 feet ahead of the load on the Little Muskegon:

GILLIS' CAMP, March 2, 1872.

MR. LEACH:

Dear Sir:—I inclose the amount of feet hauled in one load at this camp, on the first day of March, by James Dunn.

Diameter.	Length.	No. of feet.
38 inches.	24 feet.	1,734
37 "	24 "	1,633
39 "	24 "	1,836
37 "	24 "	1,632
39 "	24 "	1,836
41 "	24 "	2,042
Total, 6 logs.		10,713

The Green Bay *Advocate* contains the following:—

THE CHICAGO RELIEF BILL.—Congress has finally passed the bill for the remission of import duties on all building material to be used in the Chicago burnt district, after striking out the article on lumber. The *Journal* of that city has this slap at the lumbermen:

Chicago sends her compliments to the lumber Shylocks of Michigan and Wisconsin, hoping that they are now happy in the anticipation of saving the few little pennies they were afraid of being deprived of in burnt-out Chicago, by the few cargoes of free Canadian lumber that might have reached this port during the coming summer.

If the "free Canadian lumber" which would have gone into that port under the operation of the proposed law, would only amount to a "few cargoes," we would like to inquire why the free lumber clause was so persistently insisted on?

The principal owners of the mills and pineries which supply the Chicago markets—or, as the *Journal* terms them, the "lumber Shylocks"—are residents of Chicago. They live there and have their offices there. They have been having losses, of themselves, by fire not only in Chicago, but in their pineries and mills in Wisconsin and Michigan. It was an outrage to attempt to further levy on their means and add to their losses by reducing the price of lumber; and if their own Illinois Congressmen did go against them in the matter of this relief swindle, they can thank the Michigan and Wisconsin Congressmen for insisting on giving them fair play.

On the same subject the following extracts are interesting:

The Chicago Relief bill comes up in the House to-day, and final action is expected. The Ways and Means Committee do not seem to have been much affected by the eloquence which the Saginaw lumbermen came all the way from Chicago to vent, and the Senate's bill is to be reported without amendment—greatly contrary to the wishes of the lumber lobby, who evidently wanted any amendment incorporated, no matter what, so the bill would get into a Conference Committee, or go before the Senate again.—*Chicago Tribune.*

The result shows that the "eloquence which the Saginaw lumbermen came all the way to Washington to vent," at least affected the House, for the bill was passed with just such an amendment as was desired. Chicago is undoubtedly a great city, full of energy and grit, but she must not think the interests of her capitalists and speculators must always be paramount to those of real sufferers from the calamities of fire. What does the *Tribune* think of Saginaw eloquence anyway?—*Kalamazoo Telegraph.*

A Western paper says:—

We found a great improvement in the business, owing to the fact that the camps have broken up and nearly all the "boys" have come down of the woods. And a good winters' work they have made of it too. Never in the history of lumbering has such a crop of logs been gotten in. From good authority we get the following estimate of the log crop on the Oconto river this winter.

The actual figures will not vary much from this estimate:—

Oconto Company	40,000,000
Holt & Balcolm	25,000,000
Winslow, England & Co (their own and for another party)	16,000,000
William Brunquest (his own and for others)	10,000,000
Jacob Spies	8,000,000
Comstock & Simpson	8,000,000
Orr, Newell & Co	4,000,000
R. L. Hall	2,000,000
John Leigh	4,000,000
Anson Eldred	13,000,000
Total	130,000,000

One hundred and thirty millions of feet of lumber on the Oconto! Nothing like it has ever been known before, or will be again. The largest amount ever gotten in here before in one season was 80,000,000.

The jobbers are now about all out, but there were last week a few camps running. Holt & Balcolm we believe had two.

The Menominee *Herald* says that on Saturday night last there were 165,000,000 feet of logs banked on the Menominee and its tributaries, and this amount will be increased to 170,000,000 without doubt. There is not a lumberman on the stream but is anxious for the break up, and the sooner it comes the better they will be pleased. Many camps are breaking up now, although the hauling is as good as it has been at any time during the winter. The fears that some entertain that the price will be much lower than last season, will not, we think, be realized, because the country markets are very low, owing to the rise last fall, the Eastern markets are in much the same condition, and Chicago alone will nearly consume the increase on streams which are tributary to her. The cut on the Peshtigo was nearly 50,000,000 feet Saturday night.

The Boston *Commercial Bulletin* reports:—

The lumber market has ruled comparatively quiet since our last, the cold unseasonable weather operating adversely to the prosecution of building, and confining the demand for lumber to immediate wants. But at the close, with milder weather, there was increased activity, and soon this branch of business is expected to be brisk. Spruce, pine, and hemlock, of the coarser grades, are firm and in demand. There are but few arrivals, and receipts will continue small until the ice embargo is removed. The principle demand now is for framing boards, and in these there is considerable activity at full quoted rates. There is some export demand for lumber, and cargoes of general assortments are being forwarded to foreign ports. Shingles and clapboards are in good supply, and as soon as the weather will admit of repairing old work, will be in good demand. Laths are scarce and dull. Logging operations have been suspended in most of the lumber districts, and the stock secured is very large, and is now only awaiting the spring thaws to be rafted down to the saw-mills. The season is late and the rivers are as yet all closed. Prices are firm and unchanged from last week's quotations.

The following are the surveys for the week:—

DOMESTIC LUMBER.	Feet.	DOMESTIC LUMBER.	Feet.
Pine	8,125	Black Walnut	87,263
So. Pine Plk. & Tim.	157,733	White Wood	14,088
Hard Wood	100,418	So. Pine Flooring	43,693
Hemlock	13,914		
Total			425,244

From the Belfast (Me.) *Journal* we clip the following:—

LUMBERING.—The lumbering business of the Messrs. Cushing Bros., at Repentigny, Province of Quebec, Canada East, is quite extensive. They employ three hundred men, one hundred horses, and several yoke of oxen in the woods this winter, and will get out about 11,000,000 feet of logs. These logs will all be sawed into long lumber and sugar box shooks at their mill, during the season of 1872. The long lumber is principally shipped to South America, and the shooks, of which they manufacture about 100,000 annually, are for the West India trade. This entire business is owned and managed by Col. T. H. Cushing of this place, and his brother Charles B. Cushing, who live in Montreal.

Recent advices from Pensacola (Fla.) are as follows:—

We quote Lumber as follows: Hewed Timber, at Ferry Pass, B good and A 2, 9@10c per foot for 60 to 70 feet, 10 @11½ for 70 to 80, 12@12½ for 80 to 90, and 13@13½ for 90 to 100; Sawed Timber, averaging 20 cubic feet, 10c per foot, 25 do 11, and 30 do and over 13; Deals, English market, board measure, $13 per M., and South America do $17

@18; Scantling, Cuba and Texas, $15@16, long length, $18, quarter-inch Flooring, $18@20, and one-inch do, $20. Freights:—To United Kingdom, for orders. Hewn Timber, 38s 6d per load; direct port, 36s 6d; Sawn Timber, 2s 6d less. To Cuba, more activity, and vessels could find employment, but for scarcity of lumber suitable for that market. To New York, $10; Boston, $11@12 with some inquiry; Philadelphia, $10, and Providence, $11@11.50 per M. To Buenos Ayres and Montevideo, $21@22 per M. and primage.

The St. John, N. B., freight markets is reported as follows:—

The market for Deal Freights exhibits a much stronger tendency, stimulated partly by the loss of the ship Denmark on the passage to this port, which was chartered at a very low figure, and whose cargo would probably reach 1,250 standards; this, coupled with the scarcity of ships, has caused an advance in the rates to Liverpool of 2s 6d per standard, and 65s is now freely offered. The only engagement since our last is that of the John Eills, 762 tons, for Dublin at 65s. South American Freights inactive. For West India Freights, an active inquiry exists for Cuba vessels, and the market closes firm. The only charters reported are the M. A. Palmer, 300 tons; Cardenas, at 22c, and Union T., 191 tons; Matanzas, for orders at $8, with privilege of Cardenas, at 25c, extra. Coastwise Freights remain without change. We hear of the following charters: Duke of Newcastle, 86 tons; W. F. Adams, 68 tons; Spring Bird, 91 tons; Annie W., 81 tons, for Boston, at $3.25; Iris, 114 tons; Clara Jane, 124 tons; and W. H. Mailler, for New York, at $5.

New Orleans advices as follows:—

There is a brisk demand for lumber direct from the mills over the lake for Northern and foreign ports, which it is estimated, will divert from this market this season, some 2,000,000 feet, at least. The supply on hand is, however, ample to meet all present contingent requirements. The local demand is fair, but if it improves much it is thought there will be a scarcity in three or four weeks. Prices remain unchanged.

Cargo lots are quoted at $13@15 per 1,000 feet for inch-Boards; $13@15 for Scantling; $13@15 for Weather-boards Rough, and $19@20 for Dressed; $15@18 for Rough Flooring, and $20@25 for Dressed; $17@20 for Dressed Ceiling; $25@30 for Cypress; $3.50@4.25 for Common Shingles, and $3.50@3 for Laths. General orders on Rough and Dressed lumber are filled at $5 per 1,000 feet on cargo prices.

METALS.—There is less excitement in Ingot copper, but the demand continues large, and prices advancing. The transactions are mostly for future delivery. Cash lots are very scarce, and operations confined to small parcels. Manufactures of copper have been advanced 5c per lb. on all descriptions, excepting nails, which are 4c higher. We quote Ingot, 45c cash; 35¼@36c for future delivery; New Sheating, 48c; Copper Bolts and Brazins, 48c. The market for Scotch Pig iron has ruled very quiet the past week, but prices are still held firmly at fully former figures. American is offered very sparingly as most of the companies have sold ahead their production for a long time to come. We quote Scotch at $52@53 for Glengarnock, and $53@55 for Eglinton; American, No. 1, at $50@52; No. 2, extra, $49@50, and Forged, $47@48. Refined Bar continues very firm with the prospect of a further advance in the early future. We quote from store as follows:—Bar Swedes, $120@130; Refined, ordinary size, $105; refined, 1¼ to 6 by ¼ and 5-6, $110; refined, 1 and 1½ by ¼ and 5-6, $112.50; Large rounds, $117.50@122.50; scroll, 117.50@147.50; ovals and half round, $120@130; band, $117.50; horse-shoe, $115 @125; rods, ⅜ to 3-16 inch, $110@150; hoop, $130@172.50; nail rod, per lb., 7¾c. Common Sheets continue exceedingly firm, and a fraction higher. We quote at 6@7c for single D. and T., and 7½@8c for D. and T. charcoal. Russia Sheet has been in good request, and under a short supply prices are higher. We quote 18½c gold. Pig Lead is higher abroad, but quiet and unchanged here, owing to the Government supplying the demand at less than importer's prices. We quote at $5.90@6.80 for common to good foreign. In the manufactures of Lead, Bar has been reduced to 8¼c, but Sheet and pipe remain steady at 15c. for tin-lined pipe, all less 10c per cent. to the trade. Advices of higher prices abroad has stimulated the market here, and under a large demand for Pig tin prices are again higher, closing at 42c for Straits; 41c for English, and 50c for Banca. Plates continue in demand, and firm with an advance established on some assortments which are scarce. We quote: I. C. Charcoal, $13.75@14.50; I. C. Coke, $11.50@12; I. X. Carcoal, $15.75@16.50; Coke, $9.50 @9.87½, I. C. Coke Terne, $9.75, and Charcoal Terne, $11.75@12, all gold prices. Zinc is steady at the advance noticed last week, with small sales from agents' hands at 9¼c, gold less 4 per cent.

NAILS.—The market not only continues extremely firm, but the indications of an advance referred to in our last have been fully realized, an addition of 50c per keg now being made to the cost of all the leading styles. The scarcity and increasing value of crude material have a very stimulating effect, and in addition to this, the demand for nails is good generally, with every indication of a continued growth as the season advances. As yet manufacturers and dealers manage to keep enough stock on hand to satisfy most calls, and buyers make up their invoices without much difficulty, but there is no surplus, and the accumulation is not thought likely to increase. Exporters are buying fairly but not freely. Some California orders are at hand. We quote per 100 lbs: cut, 10@60d, $5.75; cut, 8@9d, $6; cut, 6@7d, $6.25; cut, 4@5d, $6.50; cut, 3d, $7.25; cut, 2@3d, fine, $8.00; cut spikes, all sizes, $6.00: cut finishing, casing, box, etc., $6.25@7.75; clinch, $7.25@7.75; horse-shoe, forged, No. 10 to 5, per lb., 20@33c. Other styles are selling as follows: Copper 51c per lb.; Yellow Metal, 33c do, and Zinc 20c do.

Exports as follows:—

	Past week.	Since Jan. 1.
Packages	241	5,083
Value	$1,180	$34,729

PAINTS AND OILS.—The general wholesale market has been rather more active, and the tone generally quite encouraging. Arrivals were quite free, with a large proportion sold, and a good many parcels went direct into store to break up for distribution in small lots. In other cases, however, owners who had bought early in the season and had a very fine margin for profit, were willing to accommodate those of the trade less fortunate, and dealers thus enabled to obtain an assortment of which they were sadly in need, gladly availed themselves of the opportunity. This offering scarcely met all calls, and the result has been that purchases were made on New York account at neighboring ports of entry. Values almost without exception are very firm, and advices from abroad continue to encourage the belief that no decided downward turn can reasonably be expected for some time ahead. English lead, quicksilver, vermilion, and Venetian red are especially well sustained, and China clay is very scarce, with sales made at some advance. Foreign glues of fine quality are in small supply and very firm, with fair sales making. Domestic goods generally partake of the firmness, and most of the manufacturers are not only well sold up but have unexecuted orders on hand which will require many weeks to fill. The jobbing business is good and general, and the tendency rather towards an increase as indicated by a greater number of mail inquiries and the attendance personally of buyers from the interior, who are now becoming quite anxious in view of the prospect of an early resumption of navigation and consequent modified freight charges. Prices for all goods firm at the ordinary margin over wholesale values. Linseed oil remains steady at the advance noted last week, with a fair trade doing and the offerings not very large, crushers still feeling firm and confident. The call is in the main on domestic account, but we notice a slight increase of the demand to fill foreign orders. We quote as crushers' rates, at 90c in casks, and 91c in bbls.

Exports as follows:—

	Past week.		Since Jan. 1, 1872.	
Paint.....pckgs.	171	value	$364	2,312, value $21,845
Linseed oil, galls.	831	"	828	1,848 " 1,767
Oxide zinc, pcks.	—	"	—	— " —

PITCH.—The market is quiet with the demand confined to small parcels for jobbers' immediate wants; but prices are steady at the decline noticed in our last. We quote at $3.50 for prime city delivered. Receipts for the week, 224 bbls; since Jan. 1, 698 bbls; same time last year, 150 bbls. Exports for the week, 162 bbs; since Jan. 1, 1,117 bbls; same time last year, 576 bbls.

SPIRITS TURPENTINE.—The arrivals have been more free which, with a continued absence of demand, has broken the market, and the close is irregular at a decided decline. We quote, merchantable order, at 65@66c; receipts for the week, 1,248 bbls; since Jan. 1, 12,664 bbls; same time last year, 11,051 bbls. Exports for the week, 251 bbls; since Jan. 1, 4,947 bbls; same time last year, 4,418.

TAR has been only moderately active, and prices are a shade lower. We quote at $2.85@3 for Washington, $2.85@3 for Newberne, and $3@3.25 for Wilmington. Receipts for the week, 721 bbls; since January 1, 14,873 bbls; same time 1871, 5,086 bbls. Exports for the week, 1,050 bbls; since January 1, 4,435 bbls; same time 1871, 1,073 bbls.

Property for Sale and To Let in all parts of the City.
Loans Negotiated. Rents Collected.

MAGRATH'S COPPER SASH-CHAIN,
PATENTED 21ST MARCH, 1871,

Is adapted to ordinary round pulley, and strong enough to suspend weights of any size required.
Being intended as a substitute for sash-cord, it can be put into sashes now provided with cord without any change of pulleys. The inventor feels confident that experience will prove his chain to be both economical and durable, besides doing away with the constant annoyance and expense attending the use of sash-cord.
For terms and further information apply to
M. MAGRATH, Patentee, Carpenter and Builder,
74 Irving Place, New York City.

P. B. McENTYRE,
Carpenter and Builder,

LIONEL FROEHLICH'S
REAL ESTATE OFFICE,
820 THIRD AVENUE,
Cor. 50th Street, NEW YORK.
Property sold and rented. Loans negotiated. Charge of houses and collection of rents a specialty.

No one should Build or Live in a House
WITHOUT EXAMINING OUR
ELECTRICAL APPLIANCES,
without which no house can be said to have all or even the MOST IMPORTANT OF MODERN IMPROVEMENTS: in fact, they are indispensable for the complete outfit of a first-class house with what may be termed necessary conveniences. All English and French houses at the present time are furnished with this electrical apparatus.

E. HOLMES'
Burglar Alarm Telegraph.
This one Bell, located in the Sleeping-Room, when set for the night, rings upon the opening of each door and window of the house. It is a watchman that has but one house to protect; never goes to sleep; cannot be bought off; and an experience of ten years, without a failure, proves it to be perfectly reliable and satisfactory.
PARTICULAR ATTENTION
is requested to our new
HOUSE ANNUNCIATOR,
An improvement upon the French system.
IT CONSISTS OF A SINGLE
CALL BELL AND ANNUNCIATOR,
in the kitchen or servants' department, and so arranged that the simple touch of a small ornamented spring in each room of the house RINGS THIS BELL AND ANNOUNCES THE ROOM from which the call proceeds —the bell continuing to ring until the servants give it attention. The whole thing is operated by
ONE BATTERY, OR BY THE SAME BATTERY
that operates the
Burglar Alarm Telegraph.
It is simple, perfect, and reliable, and will not get out of order, and is a very great improvement upon the old system of "bell pulls." We also have
An Attachment for Ringing Door Bells and Servants' Bells from the
TABLE OR DINING ROOM,
by placing a spring in the floor, and covered by the carpet. Also, for
Calling the Coachman from the Stable.
Send for pamphlet containing ten or twelve hundred TESTIMONIALS. They are from our best citizens and first business men of New York and vicinity.

E. HOLMES,
OFFICES:—
7 Murray Street, New York.
6 South Clark Street, Chicago, Ill.
1111 Chestnut Street, Philadelphia, Pa.
69 West Fourth Street, Cincinnati, Ohio.
205 River Street, Troy, N. Y.
121 Washington Street, Boston, Mass.

CAUTION.
The public are cautioned against all infringements upon this patent, even when called improvements; other parties have slightly changed my method of doing the same thing, and without any practical experience speak of it as a very great improvement. This invention is the only one that has had practical experience. It has been in general use for ten years, and every real, practical, or desirable improvement that study and actual experience could suggest has been added.
All violations of my patent, either by using or vending an infringement, will be dealt with to the full extent of the law for such cases provided.

JAMES BROOKS,
MANUFACTURER OF
SHELL LIME.
FACTORY,
55th Street & 11th Avenue, New York.
☞ Masons and Farmers supplied.

Auction Sale, to Close an Undivided Interest of

Grand Opera House, 2 years	27,300

REAL ESTATE MARKET.

AT last it looks as though the clouds were breaking and light is about to be given us in regard to rapid transit. The speculators in charters are utterly discomfited, and howls of rage are heard at Albany at the one-man-power, which has succeeded, as they say, in fixing things in a manner that looks like business.

We welcome Vanderbilt, as likely to give us this much-needed reform, and we care not who may be disappointed; we confess pleasure at the turn matters have taken. Now is the time to buy real estate, for a surety Vanderbilt means business, and no odds are asked of German, French, or any other nationality of bankers, all of whom require their peddler's one per cent. on the investment.

Attention is directed to our advertising columns for sales of real estate, a choice lot of which will be offered on Tuesday next, by Messrs. Muller, Wilkins & Co.

PROCEEDINGS OF THE COMMON COUNCIL AFFECTING REAL ESTATE.

MARKET REVIEW.

BRICKS.—The market for all kinds of brick has been very dull, and has shown a steady decline from day to day. It seems but natural that this should be so just at this transition period from the old to the new crop, and when but few brick are being consumed by builders. Buyers hope to be benefited by procrastinating their purchases till the latest moment, and few calls are made, excepting under compulsion. Sellers, however, seem by no means appalled at the condition of things, and aver that prices will appreciate again in the next three weeks, as by that time there must be a demand which cannot be supplied from the old stock now known to be available, and before the new crop can be pushed into the market. As the week closes the indications are fair for a more speedy verification of this prediction. Our quotations are: for Haverstraw Bay brick, $10@11.50 per M, while up-river stock ranges from $9 to $10.50; Pale, $7; Jerseys, $9. Fronts, unal-

tered from last week. Philadelphias being $40@45 per M from yard.

LATH.—A sort of open contest between buyers and sellers still continues, and the tone of the market in a general way is uncertain. There seems to be little doubt that the consumption will be large, and that dealers hold scarcely any stock to meet the outlet, but purchases are made with a feeling of much caution, and all buyers are evidently determined to handle no supplies for the present, except such as may be required for the most absolute necessities. On the other hand manufacturers and agents hope so to regulate the offering as to keep only moderate amounts available, and preserve a full range of values, though it would appear that the idea of a material improvement has been abandoned, in view of the quiet selling out of a portion of the piled-out stock. Indeed, prices have really declined during the week, a little pressure to realize running the rate down to $2.50 on several sales. The weak holders, however, are about sold out, and at the close the feeling is again firm, with little, if any, stock to be had under $2.75, and $3 asked in some cases on cargoes to arrive.

LIME.—There has been no decided change up to the present writing. The arrivals of Eastern were less plenty, but Northern could be obtained, if wanted, and with dealers holding some stock from recent purchases, the inclination to handle cargoes was not so general, still about everything offered was disposed of, former prices were obtained, and as we close the selling interest continues to speak confidently of the position. Common, $1.65 per bbl, and lump $2.15 do.

LUMBER.—Generally speaking the business for the week has been fair; the demand though has been chiefly for manufacturing purposes, although some invoices have been delivered for shipping off. The building interest is yet stagnant, but the indications of a lively season, when the weather permits the begining of operations, encourages many dealers to believe that the orders from this source will very soon now enliven trade. Prices are slightly firmer since our last quotations, but the alteration has not been sufficiently marked, considering the season, to warrant any alteration in our quotations, which remain about the same as last week, excepting in instances where the advance has been strong. The probabilities are that the market will remain more steady this season than for the past two years, owing to the absence from the city of a class of speculators who, induced by the inviting rates at which lumber had been selling, had thrown large quantities of it into the city without providing in their calculations for any possible delay in disposing of it, and which failing to do promptly upon its arrival, forced them to accept just such terms as they could make, which it may be presumed were generally most unfavorable, giving them a lesson they will not be likely to forget in the future.

The exports of lumber are as follows:—

	This week. Feet.	Since Jan. 1. Feet.	Same time '71. Feet.
Africa	——	135,745	404,835
Alicante	——	——	——
Amsterdam	——	——	——

Total	166,139	7,058,281	4,758,955
Value	$7,904	$221,344	$144,614

We note additional exports as follows:—

To New Granada, 800 shingles; to Cuba, 53 bundles slats; to Liverpool, 6,000 staves; to London, 15,411 do; to Danish West Indies, 100 shooks; to British West Indies, 1,050 shooks; to British Guiana, 200 shooks; to Cuba, 3,641 shooks; to Porto Rico, 3,399 shooks; to Cisplatine Republic, 50 shooks; to Danish West Indies, 30,000 hoops; to Cuba, 15,000 hoops; to Porto Rico, 10,000 hoops.

Receipts reported as follows:—

From Charleston, 150,000 feet lumber; from Jacksonville, 350,000 feet lumber; from Savannah, 300,000 feet do; from St. John, N. B., 519,411 feet do.

Charters as follows:—

An Am ship, 1,507 tons, from St. John, N. B., to Liverpool, deals, 70s: a Br bark, 571 tons (now at Providence), from Pictou to Montreal, coal, $2.62½, thence to Montevideo or Buenos Ayres, lumber, $22.20 net, with up river privileges: one, 626 tons (now at Boston), from Montreal to Montevideo or Buenos Ayres, lumber, $22.20 net, privilege Rosario, $4 extra; a Span. brig, 160 tons, to Cadiz, light pipe staves, $28; an Ital. bark, 466 tons, to Cadiz, general cargo, including light pipe staves, $38, and back on private terms; a bark, 753 tons, from Doboy, Ga., to Cork, for orders to the United Kingdom or Continent, yellow pine timber, 42s 6d and primage; one, 500 M lumber (now in the Gulf), from Pensacola to River Plate, $22 and primage; a bark, 597 tons (now at Charleston), from Fernandina to River Plate, lumber, private rate; a Br bark, 570 tons, hence to Buenos Ayres, R. R. cars, etc., $8,250; one, 421 tons (now at Boston), from Calais, Me., to Montevideo, for orders, lumber, $18, net; one, 447 tons (now at Halifax), from Montreal to River Plate, lumber, $22.20; a Br ship, 1,214 tons, to Callao, lumber and general merchandise, round sum; a brig, 245 tons, to Jacksonville and back with resawed lumber, $14.50, covering outward cargo; a schr, 144 tons, same voyage, privilege Fall River or Newport, $15; one, 176 tons, from Jacksonville to Fall River, resawed lumber, $12; a schr, 185 tons, to Jacksonville and back, with lumber, privilege of New Haven or Bridgeport, $15, covering outward cargo; a tern. schr, 250 M lumber, from Apalachicola to Philadelphia, $11.50; one, 250 M lumber, from Pensacola to Philadelphia, $11.50; one, from James River, Va., to St. George, Me., ship timber, $5.62 per ton.

Late mail advices from Rio Janeiro, as follows:—

PITCH PINE DEALS.—39|000@40|000 per doz of 14x3x9. ⅔

ONE INCH LUMBER.—110 rs. per foot.

Eastern Spruce has varied slightly since last week; the tendency being towards higher figures for first class stock. Long sticks have been so freely bought, even at extreme prices, that the supply is getting perceptibly diminished, and the prospects for an immediate replenishment of the market are not encouraging, while the weather remains so unsettled. However, it would be premature to fix quotations higher at this time, as circumstances may intervene to alter the whole present position of the market. We quote inferior to fair grades, at $18@20, and for good to prime do from $20.50@21.50 full. Piling remains in the same ambiguous condition, and is bought and sold at the best terms that can be made without any attempt at fixing a regular value. White Pine of choice quality is firm, as are also the more common grades, and of which the market begins to show the effect of the thorough depletion it has undergone. We quote at $31@33 per M. for common to fair box and shipping boards; $35@38 for good do; $40 for pickings, and $45 for selects. Yellow Pine is in favorable demand, and is being very readily disposed of. We quote at $28@30 per M. for random cargoes; $32@38 do for special cuts, and $40 do for fancy do.

The Toronto *Mail* of recent date contains the following:

The past lumbering season has been one of almost unexampled success. The fearful conflagrations with which this continent was visited last year have created an unequalled demand for building material, from which the lumbermen of Canada will chiefly profit. The greater portion of the lumber cut around the shores of the Georgian Bay and Lake Huron will be sent to Chicago, leaving the Eastern markets to be supplied by the Peterboro' and Ottawa districts. It is estimated that this year at least 1,500,000 saw-logs will pass through the Chaudiere, Hull and Gatineau slides, compared with 1,100,000 which passed through last year.

From the other lumbering regions the most cheering reports are sent. In 1868 the products of the Canadian forest amounted to $18,262,170; in 1869, to $19,888,963; in 1870, they have been reckoned at $20,156,450, and practical lumbermen put down the products of 1871 at the enormous sum of $25,000,000.

We learn that the loggers are all out of the Maine woods. The operations of the past winter were more extensive than ever before known. The total product of the State, as near as can be estimated, of the cut of logs, is rising seven hundred millions of feet. Of this amount the Kennebec lumbermen have cut 110,000,000 feet, the largest ever cut. The Penobscot lumbermen have cut at least 225,000,000 feet. Most of the timber product is spruce. An intelligent lumberman says that within five years the supply of pine will be exhausted.

A report from St. John, N. B., says:—

Deal freights have advanced. Tonnage continues in demand, but shipowners do not evince any desire to accept the rates offered. Engagements:—S. S. Alexandria, 1,055 tons, to Glasgow, at 62s 6d; new ship to be launched, on private terms; and Crusader, to Liverpool, at 70s. For West India freights, vessels scarce and rates higher. Engagements:—G. A. Coonan, 268 tons, to Cardenas, 28c; Mary Given, 164 tons, Cardenas or Havana, lumber, $9; Ida May, 173 tons, Cardenas or Matanzas, 28c; Glendale, 423 tons, choice of ports, 28c; Mary C. Gomery, 384 tons, choice of ports, 6,000 shooks at 29c, balance cargo boards, at $8; Arthur Burton, 197 tons, Cardenas or Matanzas, 29c; Annie W. Goddard, 358 tons, choice of ports, shooks, 29c, and lumber, $8. Coastwise freights have also advanced. Engagements:—Sea Lark, 137 tons, Philadelphia, $4.75; Impudence, 115 tons, Providence, $4.25; Medora, 75 tons, Boston, $3.25; Clara, 165 tons, Percy, 81 tons, and Lyndon, 97 tons, New York, $5; M. P., 78 tons, Boston, $3.50; Ada, 164 tons, Boston, $3.50.

The Boston *Commercial Bulletin* says:—

There was considerable dullness in the lumber market during the first part of the week, the rainy weather having the effect of putting an end to the increased activity of the preceding week. The fine weather of the past few days, however, infused new energy into the market, and dealers were quite busy in receiving and executing orders. The building operations under way in the State and direct vicinity of Boston, are so extensive, and have been so interrupted of late by the unseasonable weather, that a single fair day causes quite a reaction in the market. The stock of desirable thickness is still being greatly reduced, and the arrivals are small, navigation being as yet unopened.

In some sections the amount of logs in the rivers is large beyond all precedent; and, considering the depth of snow, there are some fears expressed of freshets, which would be disastrous to the trade. There is a fair stock of Southern pine in the retail yards, and business has been quite active. There have been some orders for girders for manufacturing purposes, and for use in building small coasters. There is but little arriving in the market, the greater part of it being on orders.

Laths are scarcer than for several years. The largest portion of these are manufactured in Maine, and shipped from Portland to New York, Philadelphia, Baltimore, and Washington, causing a scarcity in this market. Covering boards are scarce and in good demand.

The following are the surveys for the week:—

DOMESTIC LUMBER.	Feet.	DOMESTIC LUMBER.	Feet.
Pine	1,753,054	Black Walnut	193,379
So. Pine Plk. & Tim	318,846	White Wood	205,596
Hard Wood	17,609	So. Pine Flooring	40,457
Hemlock	68,716	Spruce	460,519
Total			3,058,176

BAD RIVER LOGS.—The *Saginawian* says:—Not less than 6,000,000 feet of logs has been got in on Bad River during the winter. The highest figures given in last fall's anticipatory calculations was 40,000,000 feet. With the best possible season for running, and a freshet that lasts until June, not more than three-fourths of these logs can be got out the present season. Our informant, L Penoyer, Esq., thinks that not half the quantity banked can be run, and if two-thirds are brought to the mills, it must be through the most fortunate combination of circumstances, as to weather and water in the streams.

The Saginaw *Courier* also contains the following items under various dates:—

W. R. Burt & Co., of this city, have put in this winter in the neighborhood of 25,000,000 feet of logs, 18,000,000 of which they expect to get out. The *Journal* says that Sage & Co. are getting out this year over 50,000,000 feet of logs. They have a large number of camps, situated on nearly every river that is tributary to the Saginaw, viz.; the Cass, Bad, Chippewa, Pine, Cedar, Salt, Rifle, Tobacco, and Au Gres. The only difficulty will be in getting them down, as many of the rivers are even now so hard frozen that loaded teams pass over them without danger. If they have a good driving season they will probably be able to cut 35,000,000 feet of lumber, and will keep their mill running night and day.

TITTABAWASSEE LOGS.—We have obtained estimates from lumbermen on nearly every stream emptying into the Tittabawassee, and on this basis estimate the log crop of this stream at 575,000,000 feet. This is the amount cut and banked, but it is probable that at least thirty per cent. of this amount will not see the booms this summer.

SALE OF A MILL AND PINE LANDS.—The large mill located a short distance below the middle bridge, but recently purchased by Mr. Seymour Coleman, was sold a few days since by the last-named gentleman to C. N. Blanchard, of Binghamton, N. Y., together with 10,000,000 feet of sawlogs, and 4,000 acres of pine land, the transaction figuring up a trifle over $200,000.

SALE OF LOGS.—James Hill & Son, within the past few days, sold to Folsom & Arnold, Bay City, between 6,000,000 and 7,000,000 feet of Kawkawlin logs at $12.50 per M. The logs are said to run about 20 per cent. of uppers, but we understand were not guaranteed. This transaction involves between $75,000 and $85,000,

From Griffin & O'Conner's *Market Reporter* of St. Louis, we clip the following:—

We note the arrival and sale of a raft of 200,000 feet white pine boards (Chippewa), at $18 in the water

On the levee and at the depots, the demand continues fairly active for all descriptions of good lumber at full prices—the bulk of recepts by rail were either on orders or sold previous to arrival. Yellow Pine flooring and dimensions active; choice Black Walnut scarce; inferior neglected; Poplar brisk, especially for white boards and 6-inch stuff; Oak and Ash in request; Hickory axles saleable at $32@35; Cedar quiet.

METALS.—The market for Ingot copper has become less active, and the late high prices barely sustained. The proposition in Congress, to reduce the duty one cent per lb., has checked the speculative demand, and manufacturers are only purchasing immediate wants. The current high prices here have attracted imports from England, but this class of stock is not in favor with our manufacturers. Manufacturers of copper are steady at the late advance. We quote Ingot, 44@45c cash; 35½c for future delivery; New Sheathing, 46c; Copper Bolts and Braxins, 48c. Both Scotch and American Pig iron continue very quiet, but prices firm. We quote Scotch at $52@53 for Glengarnock, and $53@55 for Eglinton; American, No. 1, at $50@52; No. 2, extra, $49@50, and Forged, $47@48. Refined Bar has been further advanced, and closes strong at the higher prices. We quote from store as follows:—Bar Swedes, $135@155; Refined, ordinary size, $150; refined, 1¼ to 6 by ¼ and 5-6, $115; refined, 1 and 1½ by ¼ and 5-6, $117.50; Large rounds, $122.50@127.50; scroll, 122.50@152.50; ovals and half round, $127.50@137.50; band, $122.50; horse-shoe, $120 @130; rods, ⅝ to 3-16 inch, $115@155; hoop, $135@177.50; nail rod, per lb., 7¾c. Common Sheets continue exceedingly firm, and a fraction higher. We quote at 6½@7¾c for single D. and T., and 7½@8¾c for D. and T. charcoal. Russia Sheet has been in good request, and under a short supply prices are higher. We quote 18½c gold. Pig Lead is held firmer, and a large movement rumored at $6.12½@6.25 for foreign; but the particulars suppressed. We quote at $5.90@6.80 gold for common to good foreign. Manufactured is steady at 8¾c for bar; 10c for sheet and pipe, and 15c for tin lined pipe, less 10 per cent. to the trade. Pig tin is less active, but firm under continued advices of advancing prices abroad. We quote Straits, 42

@42½c; English, 42c, and Banca, 50@52c, all gold prices. Plates continue active and firm. We quote: I. C. Charcoal, $13.75@14; I. C. Coke, $12.50@13; I. X. Charcoal, $15.75 @16.50; Coke, $9.50@9.87½, Coke Terne, $10.50@11.25, and Charcoal Terne, $12.50@13, all gold prices. Zinc is steady, with small sales from agents' hands at 9½c, gold, less 4 per cent.

NAILS.—Dealers all report a very good general demand and business about up to expectations, with the market as a whole in a satisfactory condition. A great many interior buyers have a slow, cautious, and sort of hand-to-mouth manner of operating, but all want supplies to a greater or less extent, and even on small orders are affording a steady outlet. Values are strong and rather inclined to buoyancy, not so much on account of the movement outward of supplies, as owing to the cost of material and production. We do not hear that any great difficulty has arisen in making selections, but the general accumulation is not large, and some of the principal sizes are scarce. Exporters have bought fairly, and are still looking around the market for considerable quantities. We quote per 100 lbs: cut, 10@60d, $5.75; cut, 8 @9d, $6; cut, 6@7d, $6.25; cut, 4@5d, $6.50; cut, 3d, $7.25; cut, 2@3d, fine, $8.00; cut spikes, all sizes, $6.00; cut finishing, casing, box, etc., $6.25@7.75: clinch, $7.25 @7.75; horse-shoe, forged, No. 10 to 5, per lb., 21@23c. Other styles are selling as follows: Copper 51c per lb.; Yellow Metal, 33c do, and Zinc 20c do.

Exports as follows:—

	Past week.	Since Jan. 1.
Packages	463	5,546
Value	$3,073	$37,802

PAINTS AND OILS.—Buyers still find it necessary to pay just about as full prices as ever, and the general wholesale market shows a most decidedly firm tone throughout. The demand, however, is by no means as quick or general as heretofore, and at times of late the lull has been sufficient to cause an approach to actual dulness. So many arrivals have taken place and been distributed to jobbers on previous contract or fresh purchase, that for the time being the assortment in store does very well, while a little stock is left over in importer's hands; and as additional supplies of fair magnitude are said to be near at hand, there is some inclination to hold off, in hopes that the accumulation may amount to enough to ease values a trifle. Importers, however, discredit the idea that they will be compelled to give way at all, and rather favor the belief that they may gain a still further advantage, as all the foreign accounts are strong, and some of the leading styles of goods have increased in cost within a very short period. The jobbing distribution has flagged a little during the week, but is by no means dull, and prices are sustained with ease on all goods. Linseed Oil has been in moderate demand throughout, buyers still merely handling small parcels as forced to by actual necessities, and the market does not show quite so much tone. No actual decline can be quoted, the asking rate still standing at 90c per gallon in casks, but at this figure sellers are very willing to operate, and it is thought that lower bids on large quantities would be accepted.

Exports as follows:—

	Past week.	Since Jan. 1, 1872.
Paint.....pckgs.	80 value	$1,356 2,392, value $23,201
Linseed oil, galls.	223 "	207 2,071 " 1,974
Oxide zinc, pcks.	— "	— — " —

PITCH.—The advance in strained rosin has imparted considerable strength to the market, and, although not quotable higher as yet, an early advance is looked for. We quote at $3.50 for prime city delivered. Receipts for the week — bbls; since Jan. 1, 698 bbls; same time last year, 150 bbls. Exports for the week, 50 bbls; since Jan. 1, 1,167 bbls; same time last year, 686 bbls.

PLASTER PARIS.—The backward spring has delayed shipments from the points of production, and the market for lump is not only about one month behind, but can hardly be said to have opened yet. Business, however, must commence pretty soon, and, so far as prime grades are concerned, dealers seem to be in a very hopeful mood; indeed, it is confidently predicted that an outlet will be ready for all the white that can be brought forward until well into the summer. Our manufacturers are not only, as a rule, very low in stock, but many have no stock at all, and they must purchase or else cease grinding altogether. Values are not as yet positively fixed, but about $6 per ton is probably what will be asked for the best. For blue the outlook is a little dubious. There will be scarcely any wanted here, if any at all, and unless supplies become available pretty soon it will be useless to expect a demand from country buyers for fertilizing purposes, as the season will be too far advanced. At the best, however, not much dependence can be placed on the "up river" demand, owing to pretty liberal stocks laid in last fall. About $4 per ton is thought to be a fair quotation. Calcined is in good, steady demand, and prices are firm, as the desirable supplies available are small, and the market fairly under control. Quantities handled, the status of customers, time of payment, etc., all influence cost somewhat, but about $2@2.25 are inside figures for good brands. The call is mainly domestic, though a few export orders are at hand.

SPIRITS TURPENTINE.—The declining tendency noticed in our last, continued until sales were made at 62½c for merchantable order, but later with advices of a small supply at Wilmington, and an active demand here the market recovered and closes very strong, at 67½c from yard for merchantable lots, and 68@70c for parcels from store. Receipts for the week, 732 bbls: since Jan. 1, 13,396 bbls; same time last year, 11,848 bbls. Exports for the week, 346 bbls; since Jan. 1, 5,293 bbls; same time last year, 4,447.

TAR.—The market generally has ruled dull, and prices tending downwards; but toward the close there is a trifle better tone. We quote at $2.80 for Washington, 2.80 for Newberne, and $3.12½@3.25 for Wilmington. Receipts for the week, 1,314 bbls; since January 1, 16,187 bbls; same time 1871, 6,990 bbls. Exports for the week, 44 bbls; since January 1, 4,479 bbls; same time 1871, 1,245 bbls.

Property for Sale and To Let in all parts of the City.
Loans Negotiated. Rents Collected.

MAGRATH'S COPPER SASH-CHAIN,
PATENTED 21st MARCH, 1871,

Is adapted to ordinary round pulley, and strong enough to suspend weights of any size required.

Being intended as a substitute for sash-cord, it can be put into sashes now provided with cord without any change of pulleys. The inventor feels confident that experience will prove his chain to be both economical and durable, besides doing away with the constant annoyance and expense attending the use of sash-cord.

For terms and further information apply to
M. MAGRATH, Patentee, Carpenter and Builder,
74 Irving Place, New York City.

P. B. McENTYRE,
Carpenter and Builder,
No. 220 WEST 36th STREET,

Cor. 50th Street, NEW YORK.
Property sold and rented. Loans negotiated. Charge of houses and collection of rents a specialty.

No one should Build or Live in a House
WITHOUT EXAMINING OUR
ELECTRICAL APPLIANCES,
without which no house can be said to have all or even the MOST IMPORTANT OF MODERN IMPROVEMENTS; in fact, they are indispensable for the complete outfit of a first-class house with what may be termed necessary conveniences. All English and French houses at the present time are furnished with this electrical apparatus.

E. HOLMES'
Burglar Alarm Telegraph.
This one Bell, located in the Sleeping-Room, when set for the night, rings upon the opening of each door and window of the house. It is a watchman that has but one house to protect; never goes to sleep; cannot be bought off; and an experience of ten years, without a failure, proves it to be perfectly reliable and satisfactory.
PARTICULAR ATTENTION
is requested to our new
HOUSE ANNUNCIATOR,
An improvement upon the French system.
IT CONSISTS OF A SINGLE
CALL BELL AND ANNUNCIATOR,
in the kitchen or servants' department, and so arranged that the simple touch of a small ornamented spring in each room of the house RINGS THIS BELL AND ANNOUNCES THE ROOM from which the call proceeds—the bell continuing to ring until the servants give it attention. The whole thing is operated by
ONE BATTERY, OR BY THE SAME BATTERY
that operates the
Burglar Alarm Telegraph.
It is simple, perfect, and reliable, and will not get out of order, and is a very great improvement upon the old system of "bell pulls." We also have
An Attachment for Ringing Door Bells and Servants' Bells from the
TABLE OR DINING ROOM,
by placing a spring in the floor, and covered by the carpet. Also, for
Calling the Coachman from the Stable.
Send for pamphlet containing ten or twelve hundred TESTIMONIALS. They are from our best citizens and first business men of New York and vicinity.

E. HOLMES,
OFFICES:—
7 Murray Street, New York.
6 South Clark Street, Chicago, Ill.
1111 Chestnut Street, Philadelphia, Pa.
69 West Fourth Street, Cincinnati, Ohio.
205 River Street, Troy, N. Y.
121 Washington Street, Boston, Mass.

CAUTION.
The public are cautioned against all infringements upon this patent, even when called improvements; other parties have slightly changed my method of doing the same thing, and without any practical experience speak of it as a very great improvement. This invention is the only one that has had practical experience. It has been in general use for ten years, and every real, practical, or desirable improvement that study and actual experience could suggest has been added.
All violations of my patent, either by using or vending an infringement, will be dealt with to the full extent of the law for such cases provided.

JAMES BROOKS,
MANUFACTURER OF
SHELL LIME.
FACTORY,
55th Street & 11th Avenue, New York.

FRENCH FLATS.

THE system of locating several families under one roof—now generally known by the name of "French flats,"—has become so widely diffused throughout the city, that very soon, unless some mode of rapid transit is introduced, to convey people of moderate incomes to cheap residences in the suburbs, whole streets of such structures must be erected to meet the demand. It is unfortunate that this great reform in building, so far from meeting the exigencies of that large class of our citizens who stood most in need of them—we mean those who can neither be reckoned among the rich nor the poor—has hitherto been carried out more to the interests of the wealthier classes, viz., those who have hitherto been living in separate and costly houses, but who, finding that this new mode of living affords more luxury and less trouble than housekeeping on a grand scale, have come to prefer a luxurious suite of rooms to a separate house, even at the same costly rent. It is true that houses have been erected in various parts of the city upon a more moderate scale, and where rental is far less than in such rich structures as Paran Stevens' on Broadway or Dr. Haight's on Fifth Avenue; but, for the most part, these houses, although calling themselves "French flats," are so badly planned, and bring the different families into such unpleasant contact with each other (sometimes two on one floor, as in one instance in a first-class locality on 34th street), that it is difficult to see in what they differ from the old "tenement house," except in increase of charges.

It is pleasant to notice one case in which a decided improvement has been made in this class of houses, not only completely isolating the families, but affording each the substantial comforts of a separate house, and this at prices calculated to meet the universal demand more nearly than anything we have yet seen—as the prices range from only $40 to $70 per month. We allude to the new buildings lately erected under the superintendence of Mr. A. P. Smith, from designs furnished by Messrs D. & J. Jardine, known as the Betz' Block, on 9th Avenue, between 44th and 45th streets. This building, owned by Mr. John F. Betz of Philadelphia, occupies the whole block from street to street, 200 ft. long, is built of Dorchester stone, and is four stories in height, exclusive of Mansart roof; the first story being occupied by handsome stores, and all the rest devoted to family residences. There are in this space nine houses of three stories each, affording accommodation for 27 families. Each flat contains 6 or 7 rooms, including parlor, dining-room and chambers, kitchen with range, bath-room, water-closet, closets in abundance, full supply of hot and cold water, etc. The access is by a long hall running through from 44th to 45th street, at the rear of the block. This hall is lofty, lighted from above, and is entered by large vestibules at each end. The entrances to the various staircases are from this hall, and are nine in number, corresponding really to so many hall-doors of private residences. In the Mansart are ample drying and lumber rooms, divided among the inmates; and in the cellar excellent fuel accommodations for each family. We hope to see many more such buildings erected, and Mr. A. P. Smith, who is one of the oldest real estate men in the city, makes the statement that this block will pay over twenty per cent. to the owner on the investment.

MR. R. W. ADAMS requests us to state that the judgment published in the RECORD of April 20th for $7,049.47 arose out of a matter in which he had no personal interest, but was in fact a judgment recorded against him as Trustee of the William Street Church. The matter is now settled, the judgment paid, and marked satisfied on the records of the County Clerk's Office.

MARKET REVIEW.

BRICKS.—The little breeze with which the market closed last week died away again this week, leaving things duller than ever, and, as a consequence, a decline, steady and regular has ensued. But, while actual transactions have not been numerous, much inquiry has occurred, which has had the effect of leaving dealers in a most anomalous position. For while, on the one hand, they are disinclined to hold on for an improved tone, yet the disposition of buyers is such that they might with reason do so, and undoubtedly have in some cases refused offerings that have been made by buyers. Of course, buyers adhere to the procrastination policy, assuming that as the season advances and brings them nearer to the new crop, it also brings them more favorable terms, although should the advent of building be sudden, they might find themselves on more equal ground, with sellers who are themselves impressed with such a possibility, and govern their actions accordingly. The result is, that the market is all at sea, and our quotations, although broad, are as narrow as it would be safe to give. Haverstraw Bay we quote at $9@11.50 per M; up river, from $8 @10.50 do; Pale, $6 do; Jerseys, $8 do. Fronts are quiet at $12@15 per M for Croton, and for Philadelphia from yard, $40@45.

We notice exports of 10,800 bricks, value $184, to Fern.

CEMENT.—Although the market has been very inactive for the week there has been no perceptible effect on prices of cement, which remain for Rosendale $1.60 per bbl; for English, $4.50@5.25, and German, $4@4.50 do.

FOREIGN WOODS.—The market for foreign woods generally was fair for the week, with no change noted in the price of a majority of the classifications. Cuba, small, increased about one cent per foot, while Mexican, for which the demand was very good indeed, was unchanged. Rosewood, too, was in better demand; a marked preference being shown for the finer quality; no increase, however, occurring in the figures. The supply now in stock of Cedar and Rosewood is as follows:—Cedar, all American, about 2,800 logs; Rosewood Bahia, 1,045 logs; Rio, 2,893 logs.

HAIR.—The market in this material indicates a prospective advance; in fact, a slight advance has occurred, owing to a very limited supply at hand. A stiffer demand than exists at present could hardly be provided for, unless the stock on hand speedily met with a replenishment. However, until some more earnest change happens in the market, we shall continue our quotations at the following figures: Cattle, per bushel, 28c; Goat, do, 55c.

HARDWARE.—At the moment the general demand is comparatively slow; but still the movement is good and the market may be called very fairly active. The season since the first of January has been a very favorable one for the selling interest trade, proving extremely brisk, and values strong and buoyant, some goods showing an advance of fifty to one hundred per cent., and at the improvement the feeling is still very strong. The call from the city and nearby country sources was first-rate, and Western buyers have operated with great freedom, builders' hardware, in particular, meeting with favor. The capacity of manufacturers has been tested to the utmost, and in several instances the production is now simply on back orders, preventing any accumulation of stock. All crude material, such as copper, iron, lead, tin, wire, etc., have increased largely in cost, and this is a great sustaining influence, though dealers predict demand enough to give them all they can do up to the first of July. We quote a few leading articles as follows: Wrought butts, narrow, fast, joint, 5 discount from list; do broad and loose, joint, 25 per cent. off. Table and back flaps net. Hinges, wrought, strap, and T, 5 per cent. off. Cast butts, narrow fast, joint, 15 per cent. off; do, broad fast, joint, 30 per cent. off; do, loose joint, narrow and broad, 40 per cent. off. Cast butts, loose pin, 30 per cent. off. Brass butts, 25 per cent. off. Door bolts: cast, bbl sq. sp. tower and shutter, net. Door locks, 25, and 45 per cent. off. Door knobs, mineral and porcelain, 25 to 45 per cent. off. Padlocks, 40, and 2 per cent. off (new list). Locks, cabinet Eagle, 25 per cent. off. Plate locks, 25 per cent. off. Screws, American, 60 off; do, brass, 40. Shingling hatchets, Nos. 1 to 2 $7.50 @8.50 per doz do.; ordinary, $6@6.50 per doz. Canal wheelbarrows, $2.25@2.50 each. Sand Paper, No. 00 to No. 3 per ream, $4 25@4.75.

LATH.—There is still some skirmishing going on between buyers and sellers, and through the week the price has remained firm at the maximum figures of last week's quotation. Several dealers have sold every lath they had at the extreme figures, and others, rather than make a deduction, have began piling their stock. The entire stock in the city is said to be far below what will soon be needed, and as the weather has been so backward as to interfere with vessels employed in transportating lath, with no evidence of improvement, there seems to be little hope of any immediate relief. This fact makes sellers very unanimous and very firm in their demands. We quote at $2.75 per M.

LIME.—The prospective opening of canal navigation, which has been announced to take place May 13th, has had the usual depreciatory effect on lime that such an occurrence annually does have. During the week the market has fallen fifteen cents per barrel on either grade. At this rate it meets with a disposal and holds quite steady for the time being. There will probably be no further immediate decrease, as the demand, which is setting in will be likely to consume all that will arrive for a while, besides stock on hand. We quote common per bbl, $1.50, and for finishing or lump, $2 do.

LUMBER.—The market for the past week shows very little change, compared with the same time preceding. Sales have been fair; but, with all there has existed a strange uncertainty about the future that has been rather beneficial to buyers than to the contrary, and some shipments have been made at prices rather below those we quote. It is now known that of the eighty-six millions feet that were at Albany at the close of navigation last fall, forty million of feet had been disposed of before the opening of navigation this spring; the bulk of this was for points in Connecticut and Massachusetts, some of it going as far as Springfield. Dealers in Newark, N. J., also carried much of it away. Besides this aggregate, some very heavy purchasors have been made, which reduced the stock on hand to so low a figure that when some of the heavy dealers of this city recently visited Albany they found holders very independent and exacting. Fortunately for consumers in this city, however, the prices here are not regulated by transactions in Albany, or the market would be rampant.

Eastern spruce has at last felt the effect of the steady drain upon the market, without a compensating replenishment, and has advanced fully twenty per cent. It is most probable that it will maintain this position for some little time, as all the reports from the British Provinces speak unanimously of the short supply at the mills, and the impossibility at present of drawing their winter chopping to the market. Besides this the great demand, which has been noticed from the West Indies and other foreign ports, still holds out with hungry pertinacity, absorbing whatever can be secured. The season is fully six weeks later than it was last year, which fact alone warrants the prediction that prices will not speedily fall, and the mill men refuse to guarantee lower rates than now exist sooner than July. We quote inferior to fair grades at $21.50@24, and for good to prime, $24.50@26. Piling is in good demand with the advantage entirely on the buyers' side. White pine of all descriptions rules firm at the rates quoted. Common to fair box and shipping boards, $31@33 per M.; $35@38 for good do; $40 for pickings, and $45 for selects. Yellow pine remains about the same as last week, at $28@30 per M. for random cargoes; $32@38 for special cuts, and $40 for fancy do.

The exports of lumber are as follows:—

	This week. Feet.	Since Jan. 1. Feet.	Same time '71. Feet.
Africa	——	135,745	404,835

Total	466,926	7,525,207	5,433,551
Value	$16,562	$237,906	$165,902

We note additional exports as follows:—

To Hamburg, 419 logs walnut, value $12,502; to Bremen, 62 logs walnut, value $2,000; to Hamburgh, 6,720 staves; to Antwerp, 2,520 do; to Liverpool, 1,007 shooks; to British West Indies, 700 shooks, and 352 bundles box shooks; to British Guiana, 20 shooks; to French West Indies, 500 shooks; to Brazil, 2,233 shooks: to Cuba, 1,683 shooks, 20,000 hoops. to Porto Rico, 320 shooks, and 20,000 hoops.

Receipts reported as follows:—

From Savannah, 116,000 feet lumber; from Darien, Ga., 165,000 feet lumber; from St. John, N. B., 381 pcs piling, 385,107 feet lumber.

Charters as follows:—

A ship, 1,029 tons (now at Boston), from St. John, N. B., to Liverpool, deals, 67s 6d: a Br steamer, 1859 tons (now at Boston), from St. John, N. B., to Liverpool, deals, 72s; a Br bark, 337 tons (now at Boston), from St. John, N. B., to Dublin, deals, 68s 9d; a Br bark, 630 tons (now at Portland), from New River, N. B., to Liverpool, deals, 72s6d a bark, 699 tons, from Montreal to River Plate, lumber, $22.20 net; Br brig, 445 tons (bound hence to Cuba), from Pictou to Montreal, coal, $2.62½, thence to River Plate, lumber, $22.20 net; a bark, 526 tons, from Boston to River Plate, lumber, $16 and primage: a Br bark, 745 tons, from Doboy to Sunderland or Newcastle, yellow pine timber, 37s 6d, privilege Antwerp 40s; a Br ship, 1,062 tons, hence to Liverpool, full cargo timber, 35s 6d; a Br bark, 325 M, lumber, Pensacola to River Plate, $22 and primage; one, 300 M, lumber, from Savannah to River Plate, $22 and primage; one, 360 tons, from Annapolis, N. S., to River Plate, lumber $18 and primage; a Br bark, 693 tons, from Pictou to Monreal, coal, private rate, thence to Montevideo or Buenos Ayres, lumber, $22 net: 3 Ger barks, 448, 415, and 403 tons (now in Europe), from Montreal to Montevideo or Buenos Ayres, lumber, $22 net, privilege Rosario, $25; a brig, 340 tons, from Port Royal to Cienfuegos, lumber, $12; one, 230 tons, from Satilla River to Kingston, Jam., lumber, $12, and back to New York with bamboo, round sum; a Br brig, 184 tons, from Norfolk to Barbadoes, hhd staves. $14; a schr, 180 M, lumber, from Wilmington, N. C., to Demerara, $11.

Later advices from Rio Janeiro report:—

PITCH PINE DEALS.—Nominal at 35‖000@36‖000 per doz of 14x3x9, to net G, $32.30@33.60 per M feet. Market abundant y supplied.

ONE INCH LUMBER.—110 rs. per foot, to net G, $40, 10 per M feet. Market firm.

We obtain the following items from the Saginaw *Courier*, as follows:—

Log driving has already commenced on some of the streams, and a fair estimate has been made of the logs banked. So far as the Saginaw Valley is concerned we have taken considerable pains in securing the figures, as near as may be, of the amount of logs put in. In the subjoined statement we desire to particularly impress upon the reader, and especially lumbermen and lumber dealers, that the figures do not convey the amount of logs that will come to market, as this is only a matter of speculation, and depends lo a great extent on the amount of water the lumbermen have. In the estimates below, the figures show the amount of logs banked. After driving has sufficiently progressed we shall endeavor to give, as near as possible, the amount of logs that will probably come to market.

THE SHORE.

	Feet.
Cheyboygan and Duncan City	46,500,000
Thunder Bay	78,000,000
An Sable	145,000,000
Rifle	90,000,000
Au Gres	60,000,000
Other shore streams	20,000,000
Total for shore	439,500,000

Of this amount, should all the logs be got out, a large proportion of the Rifle and Au Gres logs would come to the Saginaw river mills. The balance would be sawed at Tawas.

SAGINAW DISTRICT.

Below we give what properly comes under the head of Saginaw District:—

	Feet.
Kawkawlin	45,000,000
Tittabawassee and tributaries	575,000,000
Bad	68,000,000
Cass	122,000,000
Flint	8,000,000
F. & P. M. and J. L. & S. Railroads	40,000,000
Total for Saginaw District	868,000,000

These figures, we repeat, shows as near as may be the amount of logs banked. On the Kawkawlin there will be a fair per centage of logs "hung up." On the Tittabawassee more than 30 per cent. of the logs will never reach the booms. Under no circumstances can the booms run more than 300,000,000 the present season. This amount was never exceeded, except in 1870, when the season opened early, with a heavy freshet, and was favorable during the whole year. The season opens late this year, with the prospect of a light freshet. It is probable that not more than 280,000,000 feet of logs will come through the booms, while 300,000,000 is the limit. On the Bad River an immense amount of logs will be "hung up," while the booming facilities will not accommodate more than 40,000,000. On the Cass the booming facilities are adequate for any amount of logs, but as their territory suffered the worst by the fire, and as logs were cut from the burnt district without reference to the water supply, it is probable that at least 30 per cent of the logs cut on this stream will lay over. In reference to the amounts attributed to the railroad, this includes the logs that will be transported to the Saginaw mills, and manufactured by railroad mills.

EASTERN MICHIGAN.

Proceeding with our estimates to the balance of the Eastern part of the State, we give the following figures:—

	Feet.
The shore	439,500,000
Saginaw District	868,000,000
Genesee County, including Flint River	130,000,000
Lapeer County	40,000,000
Huron and Similar Counties	60,000,000
St. Clair, including Black River	55,000,000
Detroit and other counties deducting logs run from streams above-named	60,000,000
Total Eastern Michigan	1,652,500,000

UPPER PENINSULA.

The amount of logs banked in the Upper Peninsula is closely estimated, as follows:—

	Feet.
Menominee	148,000,000
Elsewhere	45,000,000
Total	193,000,000

WESTERN MICHIGAN.

For Western Michigan we have tolerably fair estimates, based on estimates made at different localities, most of which have been published. We do not claim that accuracy for them we attach to Eastern Michigan, and especially the Saginaw Valley and shore:—

	Feet.
Grand River	150,000,000
Muskegon	300,000,000
White River	100,000,000
Pentwater	20,000,000
Pere Marquette	75,000,000
Manistee	215,000,000
Traverse Bay	25,000,000
Other streams and railroads	150,000,000
Total Western Michigan	1,035,000,000.

TOTAL FOR THE STATE.

Taking the totals of the subdivisions we have made, we find there has been banked in the State during the past winter, logs as follows:—

	Feet.
Eastern Michigan	1,652,500,000
Upper Peninsula	193,000,000
Western Michigan	1,035,000,000
Total for the State	2,880,500,000

These estimates will be found to be not far from the actual figures.

The enormous proportions of the lumber trade in Canada are indicated by the fact that the Ottawa Valley provided, during the past season, 100,000,000 feet of sawed deals, and 285,000,000 feet of sawed boards, and the St. Lawrence Valley 225,000,000 feet of sawed deals, and 150,000,000 feet of sawed boards.

"HUNG UP."—This significant expression, so well known to lumbermen, is now much in use. Lumbermen are despondent. Many of them are now in this city, and, as a rule, they have doleful tales to tell of the scarcity of water, and the probability that a large portion of the log crop will lay over until next year. From the Cass, on which stream we conjectured there would be a less per cent. of logs lay over than on many others, the report is unfavorable. W. R. Burt returned yesterday from lumbering operations on this stream, and reports everything dry. Thomas Edsale, who is largely interested in lumbering on the Cass, reports that logs are "hung up" on all the branches, and many logs on the main stream. Mr. E. estimates that, unless we should considerable of a freshet, that two-thirds of all the logs cut on this stream will lay over. He has had eighty men in his employ for driving for some time; yesterday he discharged them all. En the North Branch of Bad River all the logs are laid up, and about one-third of those on the South Branch. All those above Ben Colvin's, it is stated, will stick. On the Kawkawlin, we learn from Archy Brown, the logs on the South Branch, are "hung up," and many on other branches. Mr. Final is two days down from the Sable. On this stream many logs are high and dry. On the main stream they have good water, and have been running for a week. On the North Branch, Dwight, Kelly & Co. have got in about 8,000,000. They have got in several good dams, and probably will get a large proportion of their logs out. On all the other branches and tributaries the logs are "hung up." He estimates that from one-third to one-quarter of the log crop of this stream is likely to lay over, the contingency being in this, as in every other case, a big freshet. But a big freshet will not save many of the logs. Mr. Fenner informs us that he has a drive of two and a half millions on the Cass, below Wahjamega. These he expects to get out. He also had about two and a half million "hung up" on the South Branch, near Marlette. A. P. Brewer has about 11,000,000, of which he now expects to out 2,000,000. These are on different streams. On several branches of the Tittabawassee the logs are high and dry, with no prospects of getting them out. A half crop is all that may be expected under any circumstances.

LUMBERING.—The three well-known Chapman brothers have banked on the Rifle, Tittabawassee, and Tobacco rivers during the winter about 28,000,000 feet of logs.

The lumber market here is quiet. Lumbermen are head over ears in getting out logs, but outsiders as yet have not made their appearance, and there is little, if any, inquiry. Buyers are watching the effect of the freshet, and will be plenty enough inside the next thirty days and less. Sellers, however, are firm, and, we doubt not, the market will open firm, and unless we have an extraordinary freshet prices will continue firm.

A correspondent at Flint says:—

The river at this place has broken up, and the log-running season is fairly opened. There was some complaint among lumbermen in regard to low water, but it has greatly exceeded their expectations, and is turning out the best season on the river that has been known for years. The banks are just nicely free, and logs are not carried into the

swamps, as is the case when the water is high. This saves the drivers a great deal of work, and enables them to get along much faster than usual. The Boom Company, which was organized here last fall, is proving itself a great success. It is thought that all the logs will come down this season, with the exception of those banked on one or two small streams, and it is possible that they will be brought down on the June freshet.

The following figures will show the amount of timber now in the river and to be manufactured at this place the coming season, and the names of the manufacturers. The first column shows the amount of timber cut this season, the second the amount remaining over from last:—

	New.	Old.
Hascall Brothers	4,500,000	5,000,000
William Hamilton	5,000,000	1,000,000
George A. Wilcox	6,000,000	1,260,000
Begole, Fox & Co	14,000,000	3,000,000
J. B. Atwood & Co	10,000,000	3,000,000
Alexander McFarlan	9,000,000	500,000
Samuel Carpenter	8,000,000	1,000,000
William D. Crapo	20,000,000	3,600,000
Busenbark & Stone	4,000,000	1,000,000
Estimated amount of several lots put in by various parties	20,000,000	
	90,500,000	18,800,000

Making a total of 109,300,000 feet of logs for manufacture this season provided the logs are all got out.

We obtain the following from the Troy *Weekly Times*:—

In consequence of the late breaking up of the river, the lumber market has been correspondingly late in opening. Although the water is not yet off the docks, barges are loading rapidly, and business for another year has fairly commenced. Dealers below have generally very much reduced their stocks, and all are in want of lumber. Buyers have already been quite numerous, and have engaged nearly everything desirable now on hand. At present there is a very light supply of lumber on hand in this market, and before the canals open the stock will be pretty thoroughly cleaned out. There is a marked scarcity in all leading articles of pine; the stock of hardwoods generally is much broken up, and spruce is only supplied by rail. Prices consequently are considerably higher than they were at the close of the season last fall. Some lumber is coming forward by rail to meet the current demands, but the high rates of freight will preclude the receipt of any great amount. From present appearances the canals will not open before the middle of May. From all lumbering regions we hear reports that an unusually large stock of logs has been got out the past winter, and if the streams keep up, so as to enable the drives to get through, and the mills to saw, lumber will be abundant the coming year. The inquiry for lumber is now very active, and although it is too early to prognosticate the future of the market the outlook is now sufficiently encouraging for a good business year.

METALS.—Ingot Copper is quiet, the late speculative inquiry has subsided, which, together with several sales of English copper has caused a weaker feeling in the market, especially for cash lots, which are lower. Manufacturers of copper are unchanged, but the late extreme prices barely supported. We quote Ingot, 42@43c cash; 35½c for future delivery; English 25@37c; New Sheathing, 46c: Copper Bolts and Braxins, 48c. Iron is without new features, for either Scotch or American pig. Stocks are extremely scarce, and prices continue firmly held. We quote Scotch at $52@53 for Glengarnock, and $53@55 for Eglinton; American, No. 1, at $50@52; No. 2, extra, $49@50, and Forged, $47@48. Refined Bar is steady at the late advance. We quote from store as follows:—Bar Swedes, $125@135; Refined, ordinary size, $150; refined, 1¼ to 6 by ¼ and 5-6, $115; refined, 1 and 1¼ by ¼ and 5-6, $117.50; Large rounds, $122.50@127.50; scroll, 122.50@152.50; ovals and half round, $127.50@137.50; band, $122.50; horse-shoe, $120 @130; rods, ⅜ to 3-16 inch, $115@155; hoop, $125@177.50; nail rod, per lb., 7¾c. Common Sheets continue exceedingly firm. We quote at 6½@7¾c for single D. and T., and 7¾@8¾c for D. and T. charcoal. Russia Sheet has been in good request, and under a short supply prices are strong. We quote 18½c gold. Pig Lead is held firmer at $6.12½@7 for foreign. Manufactured is steady at 8¾c for bar; 10c for sheet and pipe, and 15c for tin-lined pipe, less 10 per cent. to the trade. Pig tin remains quiet, but prices firm. We quote: Straits at 42c; English, 41½@42c, and Banca, 50c. all gold prices. Plates are in good demand at fully former values. We quote: I. C. Charcoal, $13.75@14; I. C. Coke, $12.50@13; I. X. Charcoal, $15.75@16.50; Coke, $9.50@9.87½, Coke Terne, $10.50@11.25, and Charcoal Terne, $12.50@13, all gold prices. Zinc is steady, with small sales from agents' hands at 9¼c, gold, net, and 10½@11c currency.

NAILS.—The general tone of the market still appears to be in the main favorable to the selling interest. The interior demand is somewhat retarded by high freight charges, and a continued disposition on the part of buyers to operate closely to actual wants; but still the movement in the aggregate keeps a considerable amount of stock going out, and the accumulation in store does not increase. All kinds are called for to a greater or less extent. From exporters the inquiry is fair, and in some cases a little anxious, as orders of quite a positive character are at hand. Prices generally are very firm and easily maintained, the Trade working well together to sustain the market. As we close there is a trifling lull in the demand, but no weakness to prices on any description. We quote per 100 lbs: cut, 10@60d, $5.75; cut, 8@9d, $6; cut, 6@7d, $6.25; cut, 4@5d, $6.50; cut, 3d, $7.25; cut, 2@3d, fine, $8.00; cut spikes, all sizes, $6.00; cut finishing, casing, box, etc., $6.25@7.75; clinch, $7.25@7.75; horse-shoe, forged, No. 10 to 5, per lb., 21@33c. Other styles are selling as follows: Copper 51c per lb.; Yellow Metal, 33c do, and Zinc 20c do.

Exports as follows:—

	Past week.	Since Jan. 1.
Packages	643	6,189
Value	$3,302	$41,104

PAINTS AND OILS.—The market in a wholesale way remains very firm and business has been a trifle more active generally. The offerings from recent arrivals did not prove quite so large as anticipated, buyers who had been holding back, in anticipation of doing better, became anxious, and all coming into the market again opened a fresh outlet of considerable magnitude, and enabled sellers to insist upon and obtain full former rates easily, in some cases in advance. Oxide Zinc has become very firm owing to the diminished production of domestic articles, and small imports, present and prospective, of foreign goods. While the movement, however, is brisk for present delivery, there does not appear to be any great inclination to contract ahead, owing in part to the considerable quantities received and due, and the probability that, with few exceptions, supplies will now come forward with more regularity, and possibly in somewhat larger quantities. Among jobbers the business has also been very good and quite general, nearly all grades meeting with some call and commanding full former rates without difficulty, and the prospect ahead is said to continue encouraging. Linseed is without any very decided change, so far as crushers are concerned, their asking figure remaining at 90c per gallon, but there is an undertone of considerable weakness, and "outside" parcels have been sold as low as 87@88c per gallon for balance of the month's delivery. The general supply on hand is ample for all calls.

Exports as follows:—

	Past week.		Since Jan. 1. 1872.	
Paint	pckgs. 70	value $333	2,462,	value $23,534
Linseed oil,	galls. —	" —	2,071	" 1,974
Oxide zinc,	pcks. —	" —	—	" —

PITCH.—The market for city pitch has continued firm throughout the week, but the volume of transactions is only moderate. We quote at $3.50 for prime city delivered. Receipts for the week 40 bbls; since Jan. 1, 738 bbls; same time last year, 170 bbls. Exports for the week, 85 bbls; since Jan. 1, 1,252 bbls; same time last year, 802 bbls.

SPIRITS TURPENTINE.—There was considerable demand early in the week and prices touched 69c, but later, with scarcely any inquiry, the market became unsettled and closes weak at 65@65½c for merchantable lots from yard. Receipts for the week, 1,063 bbls; since Jan. 1, 14,459 bbls; same time last year, 12,164 bbls. Exports for the week. 112 bbls; since Jan. 1, 5,405 bbls; same time last year, 4,516.

TAR.—There is only a moderate demand for any description, but prices are held a shade higher than last week. We quote at $3 for Washington, $3 for Newberne, and $3.25 for Wilmington. Receipts for the week, 1,551 bbls; since January 1, 17,738 bbls; same time, 1871, 8,066 bbls. Exports for the week, 3,836 bbls; since January 1, 8,305 bbls; same time 1871, 1,722 bbls.

ALBANY LUMBER MARKET.

The Albany *Argus* reports as follows.

[FOR THE WEEK ENDING APRIL 23, 1872.]

The season has opened up with unusual activity. All kinds of Lumber being in demand at our advanced quotations. Most kinds of dry lumber are getting scarce, and will be out of market before the arrival of the new. The indications are favorable for continued activity throughout the season. An active business has been done at the retail yards throughout the country, leaving the stocks low. A good demand, chiefly for manufacturing purposes, is looked for. Foreign orders will also be larger than usual. To Buenos Ayres there will be large shipments; shipments to that port last season having been discontinued owing to the prevailing fevers, and an increased business is now confidently expected, mainly owing to the building of wooden cottages on the outskirts of the cities by those wishing to escape the city malaria. Another favorable element is the activity in the British market. Deals have advanced materially and contracts have been made for the production of all the principal Canada mills at high prices, cutting off a large percentage of lumber that would otherwise have been sawn for this market. There is great uncertainty about the drives of logs getting to the mills in Canada and Michigan, on account of low water. A short time now will decide about this. The mills will all be late in starting, on account of the lateness of the season and quantity of ice still in the rivers and streams. This will materially lessen the production. Taking into account the large gaps to be filled up in Michigan and Chicago, also in Pennsylvania and elsewhere, it now looks as if all the lumber that can be manufactured will be wanted, and prevent an overstocking of markets. The Northern mills are well stocked with Spruce and Hemlock logs, and good supplies of these kinds may be expected. In a few weeks a more correct opinion can be formed of the future prospects, much now depending on the success in getting logs to market.

River and Eastern freights are quoted as follows:

To New York, ₱ M	$1 50
To Bridgeport and New Haven	2 00
To Norwich and Middletown	2 50
To Hartford and Providence	2 50@2 75

TIN-LINED LEAD PIPE

Is a Block-Tin Pipe, heavily coated with solid lead. It is the best and cheapest Water Pipe when strength and durability are considered. By its use, iron rust, lead, and zinc poison are all avoided, and general health promoted. Price 15 cts. a pound for all sizes. Circulars and sample of pipe sent by mail, free. Address the Colwells, Shaw & Willard Mf'g Co., No. 213 Centre St., New York.

PURE WATER

Also, Manufacturers of BLOCK-TIN PIPE, SHEET LEAD, LEAD PIPE, SOLDER, etc. Orders solicited and filled at sight.

Loans Negotiated. Rents Collected.

MAGRATH'S COPPER SASH-CHAIN,
PATENTED 21ST MARCH, 1871,

Is adapted to ordinary round pulley, and strong enough to suspend weights of any size required.

Being intended as a substitute for sash-cord, it can be put into sashes now provided with cord without any change of pulleys. The inventor feels confident that experience will prove his chain to be both economical and durable, besides doing away with the constant annoyance and expense attending the use of sash-cord.

For terms and further information apply to
M. MAGRATH, Patentee, Carpenter and Builder,
74 Irving Place, New York City.

P. B. McENTYRE,
Carpenter and Builder,

LIONEL FROEHLICH'S
REAL ESTATE OFFICE,
820 THIRD AVENUE,
Cor. 50th Street, NEW YORK.
Property sold and rented. Loans negotiated. Charge of houses and collection of rents a specialty.

No one should Build or Live in a House
WITHOUT EXAMINING OUR
ELECTRICAL APPLIANCES,
without which no house can be said to have all or even the MOST IMPORTANT OF MODERN IMPROVEMENTS: in fact, they are indispensable for the complete outfit of a first-class house with what may be termed necessary conveniences. All English and French houses at the present time are furnished with this electrical apparatus.

E. HOLMES'
Burglar Alarm Telegraph.
This one Bell, located in the Sleeping-Room, when set for the night, rings upon the opening of each door and window of the house. It is a watchman that has but one house to protect; never goes to sleep; cannot be bought off; and an experience of ten years, without a failure, proves it to be perfectly reliable and satisfactory.
PARTICULAR ATTENTION
is requested to our new
HOUSE ANNUNCIATOR,
An improvement upon the French system.
IT CONSISTS OF A SINGLE
CALL BELL AND ANNUNCIATOR,
in the kitchen or servants' department, and so arranged that the simple touch of a small ornamented spring in each room of the house RINGS THIS BELL AND ANNOUNCES THE ROOM from which the call proceeds—the bell continuing to ring until the servants give it attention. The whole thing is operated by
ONE BATTERY, OR BY THE SAME BATTERY
that operates the
Burglar Alarm Telegraph.
It is simple, perfect, and reliable, and will not get out of order, and is a very great improvement upon the old system of "bell pulls." We also have
An Attachment for Ringing Door Bells and Servants' Bells from the
TABLE OR DINING ROOM,
by placing a spring in the floor, and covered by the carpet. Also, for
Calling the Coachman from the Stable.
Send for pamphlet containing ten or twelve hundred TESTIMONIALS. They are from our best citizens and first business men of New York and vicinity.

E. HOLMES,
OFFICES:—
7 Murray Street, New York.
6 South Clark Street, Chicago, Ill.
1111 Chestnut Street, Philadelphia, Pa.
69 West Fourth Street, Cincinnati, Ohio.
205 River Street, Troy, N. Y.
121 Washington Street, Boston, Mass.

CAUTION.
The public are cautioned against all infringements upon this patent, even when called improvements: other parties have slightly changed my method of doing the same thing, and without any practical experience speak of it as a very great improvement. This invention is the only one that has had practical experience. It has been in general use for ten years, and every real, practical, or desirable improvement that study and actual experience could suggest has been added.
All violations of my patent, either by using or vending an infringement, will be dealt with to the full extent of the law for such cases provided.

JAMES BROOKS,
MANUFACTURER OF
SHELL LIME.

PROJECTED BUILDINGS.

The following plans embrace all that have been considered by the Superintendent of Buildings since our last report:—

AV. D. (REAR NO. 135), ONE TWO-STORY BRICK factory, 22x45; owner, STEPHEN CAMM.

BROOME ST., S. W. COR. MERCER ST., ONE SIX-story iron front first-class store, 50x96; owner, Mrs. JULIA H. BILLINGS; architect, G. THOMAS; builder, JOHN T. CONOVER.

CANNON ST. (NO. 59), ONE FIVE-STORY BRICK store and tenement, 25x70; owner, MICH'L JACOBS; architect, WM. JOSE.

ELM ST. (NO. 43), ONE FOUR-STORY IRON FRONT second-class store, 25x67; owner and builder, W. C. MILLER; architect, CHAS. WRIGHT.

ESSEX ST. (NO. 81), ONE FIVE-STORY BRICK store and tenement, 22x54; owner, H. BREUNICH; architect, WM. JOSE.

EIGHTIETH ST., S. S., 150 E. 2D AV., ONE FOUR-story brick tenement, 25x52; owner, PAT'K HAVEN; architect, A. T. WILSON; builders, MCWILLIAMS and REED.

FORTIETH ST. (NOS. 332, 334 & 336 W.), THREE five-story brick stores and tenements, 25x63; owner, B. SEITZ; architect, WM. JOSE.

FORTY-THIRD ST. (NO. 442 W.), ONE THREE-story brown-stone front first-class dwelling, 25x53; owner, JOHN JONES; architect, GEORGE M. HILL; builder, SAMUEL LOWDEN.

FORTY-THIRD ST., S. S., 100 W. 2D AV., ONE FOUR-story brick workshop, 32x80; owner, W. R. BEEBE.

FORTY-FIFTH ST., N. S., 300 W. 8TH AV., ONE four-story brown-stone front first-class dwelling, 20 x50; owner, Mr. KOHLE; builder, JAMES MCDONNELL.

FORTY-SIXTH ST., S. S., 72 W. 1ST AV., ONE FIVE-story brick tenement, 28x60; owners, DAVIS & HARRINGTON; architect, JULIUS BOEKELL.

FIFTIETH ST., S. S., 50 E. 6TH AV., ONE FOUR-story brown stone front first-class dwelling, 16.8x 25; owner, JOHN F. BARONOWSKY; architect, BERNARD MCGURK; builder, SAMUEL LYNCH.

FIFTY-THIRD ST., S. S., 175 W. 5TH AV., FIVE four-story brown stone front first-class dwellings; owner, J. M. CROSSMAN; architects and builders, DUGGIN & CROSSMAN.

FIFTY-SEVENTH ST. & MADISON AV., S. W. COR., five four-story brown stone front first-class dwellings; owner, J. M. CROSSMAN; architects and builders, DUGGIN & CROSSMAN.

FIRST AV., E. S., 50 S. 45TH ST., ONE TWO-STORY brick slaughter house. 20x48; owner, JACOB FLACHER; architect, JOHN MCINTYRE; builders, THORP BROS.

FIRST AV. & 46TH ST., S. W. COR., THREE FIVE-story brick store and tenements, 26.10x60; owners, DAVIS & HARRINGTON; arch't, JULIUS BOEKELL.

FIFTH AV. & 21ST ST., S. E. COR., ONE FIVE-STORY iron front first-class store, 46x90; owner, ROBERT L. CUTTING; architect, GRIFFITH THOMAS; builder, JOHN T. CONOVER.

LEWIS ST., W. S., 75 S. HOUSTON ST., TWO FIVE-story brown stone and tenement, 25x70; owner, SAMUEL LEACH; architect, RICHARD SHAPTER; builders, GUY & DUKE and LAW & SHAPTER.

MADISON AV. & 56TH ST., N. W. COR., SIX FOUR-story and basement brown stone front first-class dwellings, 23x24x25 and26x55; owner, CHARLES F. MALLOY; architect, R. W. BUCKEN; builder, CHARLES F. MALLOY.

ORCHARD ST., E. S., 125 N. BROOME ST., ONE five-story brick store and tenement, 25x72; owner, F. RABENSTEIN; architect, WILLIAM JOSE.

ONE HUNDRED AND FIFTEENTH ST., S. S., 100 E. 2d av., three three-story and basement brown-stone front first-class dwellings, 16.8x44; owner and builder, JOHN MADDEN; architect, JOHN BULMAN.

ONE HUNDRED AND TWENTY-FIRST ST., S. S., 80 e. 1st av., one four-story brick second-class dwelling, 20x50; owner, &c., D. J. MYERS.

ONE HUNDRED AND TWENTY-FIFTH ST., S. S., 75 w. 1st av., four four-story brick tenements, 18.9x50; owner, JAMES S. DALE; architect, JAS. DOUGLAS.

ONE HUNDRED AND TWENTY-EIGHTH ST., S. S., 115 e. 4th av., four three-story brown-stone front first-class dwellings, 18.9x45; owner, HENRY C. HUNT.

ONE HUNDRED AND TWENTY-EIGHTH ST. (NO. 42), one three-story and basement brown-stone front first-class dwelling, 18x45; owner and architect, SAMUEL CHRISTIE; builder, C. M. RABALD.

SHERIFF ST., E. S., 175 N. RIVINGTON ST., ONE three-story brick second-class dwelling, 25x38; owner, JAMES GELLES.

SEVENTH ST. (NO. 98), ONE FIVE-STORY BRICK tenement, 25x54; owner, HENRY KLENKE; architect, WM. GRAUL.

TWENTIETH ST., N. S., 60 W. 7TH AV., ONE FOUR-story brick store and tenement, 38x23; owner, JOHN HOWELL; architect, CHARLES H. COCHRAN.

THIRTY-FIFTH ST. (NO. 406 W.), ONE FOUR-STORY brick store and tenement, 20x37; owner and architect, G. H. HEINIG; builder, L. LAENGE.

THIRTY-EIGHTH ST., S. S., 51 E. 9TH AV., TWO five-story brick stores and tenements, 24.6x24.9; owner, J. G. LINDEMANN; builder, H. GRUBE.

UNION PLACE, W. S., 65 S. 16TH ST., ONE FIVE-story brown-stone front first-class store, 32.6x 131.6; owner, ROYAL PHELPS; architect, RICH'D HUNT.

VANDEWATER AND FRANKFORT STS. COR., ONE five-story brick store and tenement, 31x50; owner, JOHN FONHILL; architect, W. H. CAUVET; builders, KELEHER & MORRISSEY.

ADVERTISED LEGAL SALES.

FOR THE COMING WEEK.

NOTICE.—The list of property given below is compiled from advertisements published in different newspapers, of auction sales to be held under direction of the Referee appointed. It may not be absolutely perfect but is as near so as we can make it.

REFEREE'S SALES TO BE HELD AT THE EXCHANGE SALESROOM, 111 BROADWAY.

MARKET REVIEW.

BRICKS.—The market for North River Hards has shown little change the past week in comparison with the previous period. Opening dull, the figures declined from day to day; towards the close, however, there was a little more briskness, especially in the demand for commoner grades. But withal, the decline which had occurred at the earlier part of the week is the basis on which all transactions are conducted, and at the close no alteration has been effected. We quote Haverstraw Bay brick at $8.50@11 per M, for first-class invoices. Pale and New Jersey at $6@6.50 do, with some sales even lower. Some intermediary qualities at $10 do. Fronts show no alteration, holding very steady at $12@15 for Crotons, and $40@45 for Philadelphias from yard.

DOORS, SASHES, AND BLINDS.—The leading dealers in this line held a meeting recently and in view of the advance in lumber and glass, concluded to increase the rates of doors and sashes to coincide, and at the same time agreeing to maintain a uniform scale of prices. By this action all grades of stock were affected, but we only give in our table the figures for first quality. On doors, the quotation for second quality is less fifteen cents per door. The market for the week has been rather quiet.

LATH.—The general disposition of this market is towards a weaker tone; the demand for the week has been fair, and quite a number of lath have been disposed of. Although this has depleted the stock somewhat, sellers have been unable to prevent prices from continuing their downward tendency, and the market closes with quotations at $2.50 per M.

LIME.—The market has shown some improvement, prices remaining stationary. There were some large arrivals of Rockland during the week, which it was believed would glut the market to a decline, but the sellers have held it firmly in hand, and no abatement whatever was permitted. We quote common, per barrel, $1.50; finishing or lump, $2 do.

LUMBER.—This staple is yet in the same state of teazing uncertainty which has latterly prevailed, and must to a great extent remain so, at least until the canals open. Whether that occurrence will give a clearer index to the future, however, seems dubious now, in view of the building law amendments that have been introduced in the State Legislature, which, if passed, will permit the unrestricted erection of frame houses on the Island, above eighty-second street, and which license would unquestionably be availed of very largely by builders and others. Of course, such a contingency is remote; nevertheless, in conjunction with the fact that so much Western lumber has been hung up for the present, even this prospective demand has its immediate effect in stiffening up prices, which hold steady at quotations noted in our last issue, as will be seen by reference to the tables. The business for the week has generally been about fair; some houses, however, have been pressed to fill heavy shipping orders, which a reference to the export table will show to have been exceedingly in excess of the usual trade.

In connection with the Eastern Spruce market we are compelled to retract the statement published last week, of a most extraordinary advance; the error resulted from a too literal construction by a temporary reporter, of the information he received in relation to the condition and prospects of the market. The causes advanced on which to base the rise were correct, but the figures ridiculously excessive.

For the past week there has been a quiet business doing, such cargoes as have arrived finding buyers quite readily; but the market remains without variation in price. We quote inferior to fair specifications at $18@20, and for good to prime from $20.50@21.50, no sales having been reported at higher figures. White Pine remains in much the same position as heretofore, the quotations being $31@33 per M for common to fair box and shipping boards; $35@38 for good do; $40 for pickings, and $45 for selects. Yellow Pine unchanged at $28@30 per M for random cargoes; $32@38 for special cuts, and $40 for fancy do.

The exports of lumber are as follows:—

We note additional exports as follows:—

To Hamburg, 362 logs walnut, value $11,000; to Bremen, 72 logs walnut, value $1,890; to Liverpool, 38 maple logs, value $1,500; to Glasgow, 37 maple logs, value $531; to Bremen, 7 casks staves, value $1,000; to Antwerp, 2,700 staves value $300; to Liverpool, 10,800 staves, value $1,080; to London, 10,080 staves, value $1,020; to Gibraltar, 5,000 staves, value $450; to Cadiz, 168,840 staves, value $24,370; to Liverpool, 945 shooks and heads, value $1,073; to British West Indies, 1,950 shooks and heads, value $777; to French West Indies, 250 shooks, value $255; to Cuba, 2,054 shooks and heads, value $5,466; to New Granada, 81 shooks and heads, value $313; to British Honduras, 5,000 hoops, value $200; to Danish West Indies, 25,000 hoops, value $710; to Cuba, 3 casks plugs, value $110; to Cuba, 2,495 empty hhds, value $5,157.

Charters as follows:—

A Br bark, 641 tons, from Doboy to Cork, for orders to the United Kingdom or Continent, yellow pine timber, 42s 6d, direct port, 41s 3d; one, 426 tons (now at New Haven), from Doboy to Bristol, Eng., timber, at or about 38s 9d; one, 615 tons (now at Providence), from Miramichi to Dublin, deals, 72s 6d; one, 562 tons (now at Boston), from St. John, N. B., to Belfast, I., deals, 66s 3d; one, 499 tons (now at Boston), from St. John, N. B., to River Plate, lumber, $20, net; three Br barks, 588, 533 and 512 tons (now here), from Montreal to River Plate, lumber, $22.20 net; a Br ship, 838 tons (to arrive), same voyage, at or about $21.25, net; a Ger bark, 339 tons (now here), and a Br brig, 454 tons (now at Boston), from Savannah to River Plate, lumber, $23 and primage; two Br barks, 200 and 250 M lumber, from Brunswick, Ga., to River Plate, $22 50 and primage; a Br brig, 146 tons, from La Have, N. S., to Cienfuegos, lumber, $9.50; a schr, 200 M lumber, from Fernandina to Guadaloupe, $12; one, 200 M lumber, from Wilmington, N. C., to Demerara, $12; one, 221 tons, to Demerara and back, $2,800 and port charges; a Br brig, 198 tons, to Vera Cruz and back from Tampico, $4,000.

We obtain the following valuable compilation of information on the log crop from the Saginaw *Courier*:—

THE MARKET HERE AND ELSEWHERE.—THE PROSPECT OF THE LOG CROPS.—Many mills are now in operation, but there is still no especial stir in the market. Buyers are still waiting the result of the freshet, which it appears will never come. The water is falling every day, and lumbermen on streams where there is a probability of logs hung up are discharging their men.

A very careful estimate, made by men competent to judge from information obtained from prominent lumbermen at all the shipping points west of the Straits of Mackinaw, following the west shore line to the south-west corner of this State, shows 1,410,000,000 banked the past winter. In this estimate it is calculated that there will be received at Chicago by rail, 100,000,000, and that 150,000,000 will be wanted at other places on the west shore, leaving for Chicago, 1,260,000,000, this being 260,000,000 more than was landed at Chicago last year. Muskegon's show in this estimate is 325,000,000.

The Muskegon *Enterprise* says that there is a much larger amount of logs in the small streams than usual, and consequently three or four weeks must elapse before all the logs can be put afloat. To keep the drive moving, and enable the rivers to get their logs out, considerable amount of rain will be required, and for a longer period than usual. Whether we shall get it remains to be seen. As three-fourths of all the logs on Muskegon, Grand, and Saginaw Rivers are up their streams or tributaries it would not be at all surprising if one-third of the logs on these streams should fail to reach the mills the present season.

LOGS IN FLINT RIVER.—Mr. Lennon, foreman of the Flint River Log Driving and Boom Company, is authority for the statement that up to date not less than 60,000,000 feet of logs have been put into the Flint River, which, with the present stage of water, will be readily floated to their destination. The rains of the past week, though not abundant, have been sufficient to keep the river in good condition for driving down the logs, and the booms are rapidly filling up. The mills, except McFarlan's and Hascall's, are running, these being delayed by the failure of the makers of their machinery to come to time. They will start up next week, however, in all probability.

The following is from the Port Huron *Times*:—

THE LOG CROP.—Logs are now moving in Black River, and we believe also in Mill Creek; but on Elk Creek nothing is doing, and no logs can be moved there until we have more rain. Howard & Son's mill, in this city, is now running, and will probably be able to continue operations for some time, and, if the Black River drive comes down all right, probably all the mills will be able to start soon. But at the best, unless we have a spring freshet, but little lumber can be cut here this season.

The following is from the Menominee *Times*:—

The weather which has prevailed for some time past has been very unfortunate for the drive. The snow is nearly all gone, and yet few of the streams are raised much above their summer's level. The prevailing cold winds have dried up the snow, and the little water it has produced has not more than sufficed to fill the swamps, which last season's drought left entirely dry. On the main stream of the Menominee, of course, there will be little difficulty, but on Little River, and other branches, extraordinaay rains will be required to enable the work to make any progress at all. The same observations hold good in regard to many of the rivers to the north and south of us, as well as those in the Lower Peninsula of this State, and unless a remarkable change comes over the weather, not over 50 per cent. of the lumber tributary to the Chicago market will reach the booms this season.

The Muskegon *Enterprise* has the following:—

PROSPECTS FOR RUNNING LOGS.—The spring of 1872, like the previous year, is a little out of the ordinary course of things. The cold weather has held the snow in the woods, and kept the lakes and streams frozen over much later than usual; and the swamps, until within the present week, have been dry, and the dryness of the earth, consequent upon the long continued drought, has enabled it to

absorb the water made by the gradual melting of the snow in the woods and when the ground is not frozen. On the smaller streams the loggers have commenced to break their rollways and put in their banked logs when they have space or room to float logs; but generally the drive will have to start logs down to make room, and there is now sufficient water in the streams and at command of the drivers to commence moving the logs, and a day or two more will remove the ice blockade, and driving will commence in earnest. There is a much larger amount of logs in the small streams than usual, and consequently three or four weeks must elapse before all the logs can be put afloat. To keep the drive moving, and enable the drivers to get their logs out, considerable amount of rain will be required, and for a longer period than usual. Whether we shall get it remains to be seen. As three-fourths of all the logs on Muskegon, Grand, and Saginaw rivers are up their small streams or tributaries, it would not be at all surprising if one-third of the logs on those streams should fail to reach the mills the present season.

The East Saginaw *Enterprise* contains the following:—

There is every reason to apprehend a hanging up of logs in the small streams, while on the larger ones the drives are working admirably. On the Flint 50,000,000 feet of logs are moving down majestically, while on the feeders to that stream, water is unusually low. On the Cass, and even on its tributaries, no serious drawbacks are known, and of the 129,000,000 log crop on these streams more than 25 per cent. will be easily secured.

We are continually receiving word from the streams tributary to the Saginaw, that the logs are hung up, and unless we are favored with rains, long and heavy ones, not one-fifth part of the logs cut last winter will reach the mills. On Bad River and Beaver Creek, out of 60,000,000 feet banked, not more than 5,000,000 feet will come down. From the north branch of the Cass, Mr. Mitz, foreman for Tolfree, Simpson & Co., reports that everything is hung up at that point—not a stick of timber can float. He discharged all of his men and came home to wait for rain. There are about 9,000,000 feet on this stream.

A young man, named George Stinchfield, writing from above St. Louis, says:—The drive is moving slowly. I shall get the landings in to-morrow, at a cost of $25 or $40. The water is falling rapidly, although the talk seems to be that the Pine River drive will get through all right." This is the only encouraging word received thus far, but we live in hopes of seeing severe rains soon.

On the Pine River several large contracts have been made, amounting to about 10,000,000 feet, but those interested are now seriously alarmed at the prospects for a successful drive. They say that unless rain comes not more than half of the logs banked will be floated down.

On the Sable things are working like a charm, but on its tributaries experienced lumbermen express the opinion that a large quantity of logs will have to be left over another season.

As yet, the small streams upon which millions of feet of logs have been banked during the past winter, have not been swollen sufficient to break in the rollway and send the logs to the main stream, where logs can be run at nearly all seasons of the year, and now it is feared that a large proportion of the logs on these small streams will be laid up for this season. Lumbermen say there may be a June freshet, which would furnish water enough, if they were or could be on the spot just at the right time to take advantage of it, but that it will be impossible to get men into the woods before the streams would again be too low to run the logs. Consequently, although the lumbering during the past winter has been on a scale far ahead of any previous year, yet the supply of logs at the mills will probably be limited, so that the mills will be able to cut the supply without running nights, as they have been making calculations to do. Nearly all the mills in the valley are now ready to start just as soon as logs can be got through the boom and floated to them. There is no such calamity which would so much affect the material prosperity of the Saginaw Valley as a short crop of logs.

The rivers at Midland have been open for about one week now, and the lumbermen are using their greatest exertions to get the logs out of the smaller streams before the water falls. The water has not reached within two feet of the usual depth of our spring freshets, and it is feared, considering the unusual amount of logs cut during the winter, that it will be impossible to get them nearly all out.

LOG DRIVING ON PINE RIVER.—There is a difference of opinion in regard to the state of Pine River for log driving. It is now said, and we believe on good authority, that the stage of water so far has been very favorable for log running. The roll-ways are all broken and the logs fairly afloat. Good progress has been made in running the small branches, and if the logs in the main stream do not block the entrances too long, a clean run is quite certain. One of the contractors estimates that the logs will fill the river from Beaver Creek to Alma, a distance of forty-five miles by the river.

The Troy *Times* says:—

The great activity mentioned in our last report was manifested during the past week. Sales were large and shipments heavy. Between six and eight million feet left this market, which of course makes a big hole in the stock. In the pine region of Canada and Michigan the snow and ice has not sufficiently melted to allow the drives to start, but on the upper Hudson the logs have commenced to move, and already nearly a half a million have reached the big boom at Glen's Falls. Some of the Hudson river mills have started up, and by next week, if the water falls off a little more, they will all be in full blast.

The Boston *Commercial Bulletin* says:—

The lumber market has shown considerable activity during the past week. Builders in the suburbs and throughout the state, have taken advantage of the continued pleasant seasonable weather, and prosecuted their work with vigor. Orders have been received in abundance, each buyer urging the immediate filling of his orders, but the volume of business has been limited, owing to the lack of supplies. Navigation has fairly opened during the past week, being about five weeks later than last year. Transportation has begun, and at every shipping point throughout the West there prevails the greatest activity, and in a short time the supplies which are much needed will come forward.

Western lumber is still firm. In consequence of the unprecedently long season of low water in the Alleghany river, the lumber trade in that section has not been so large as in former years. The present rise has been taken advantage of by lumbermen to get their accumulated product to market, and it is estimated that the quantity run will exceed that of last Spring. Out of Redbank alone, 850 rafts are coming. These will make an aggregate of about 34,000,000 feet. At least 40,000,000 are expected out of the Clarion river. Between Warren and the State line there are 18,000,000 feet in the Alleghany river and tributaries; and below Warren is an equal amount, making 36,000,000 for Warren county. From Clearfield county there are reports of large shipments, Little Anderson creek sending out 47,000,000 feet of logs. These amounts foot up over 150,000,000 feet, and will be largely augmented by receipts from other sources.

Southern pine continues in fair demand. Flooring is scarce, and all that is now arriving is on orders. Factory orders are still numerous but dealers show little disposition to fill such demands upon their stocks. Laths continue scarce, and some manufacturers even are in the market endeavoring to buy. Clapboards are in better demand.

A correspondent to a Saginaw paper says:—

Up to the present time about 35,000,000 feet of logs have been got afloat on the Cass River out of a total amount on said river and its tributaries of 140,000,000.

Over 100 men, who have been at work on the upper streams, have quit, because they could do no more. The only hope now is that a June freshet may bring down a portion more of those logs which are nearest the mouth of the several branches of the main stream. This "hanging up" will make it very hard for some, while others are able to carry the burden until another year.

WILLIAMSPORT, PA.—We now have in our booms about one-third of the new stock of logs put in last winter, with 25,000,000 to 30,000,000 of old logs left on the streams last season. It is the opinion of most of the operators here that at least one-fourth of the logs put in will not reach us this season. Our estimated stock on the river and tributaries is about 456,000,000 feet which is the usual amount, but a portion are farther up the small streams, and there is no snow in the woods to depend on for floods.

CHICAGO, April 24.—Several lumber cargoes were offered on the wholesale Franklin street exchange, yesterday, and as buyers were in good attendance, quite an active day was experienced, some eight or ten cargoes being sold. Prices were unchanged and firm, ranging at $16.50@17.25 for common mixed lumber; $3.10 for shingles, and $3.50 for lath.

Information from various quarters is briefly as follows:

Manistee, Mich., will not probably manufacture much, if any, more lumber than last year, unless heavy rains come. The Muskegon region reports more logs cut than last year, but, unless heavy rains ensue, nearly one-third of them will be hung up. Whitehall's drive is forty days behind last year, and apprehension is expressed that 15 or 30,000,000 logs will be hung up. Pensaukee, Wis., reports quantities of logs low down in main river, with a prospect only of "one-half of a day stock." From Green Bay, reports say the logging streams are pretty much all open, but without water enough to drive the logs on their banks, and no hope of a sufficiently large fall of rain to help matters any. The *Advocate* says of their mill-owners:—After the most fortunate winter which, perhaps, they have ever had, are confronted with the chance of having their work go to naught, for a time at least. The mills are in fine condition everywhere, having been generally fitted anew, and in many cases increased in capacity. On the little lumber that is made, an advance of $4@5 is realized over last season's prices.

In the shingle manufacture, the drought does not have a like effect.

The tributaries of the St. Croix river are so dry that more than one half the logs cut on cannot be saved.

ESCONAWBA MICH.—Without rain, not one fourth the winter's cut can be received at the mills.

NEILLSVILLE, WIS.—The prospect now is that not over 20 per cent. of the logs will reach market this present season.

MINNEAPOLIS, MINN.—Our stocks of logs are 33 per cent. larger than last year, but unless we have rain soon, one half or one third of our stock will not come.

A resident writing from the Menominee region says: "Large crews of men have gone up the river to break up the jams of logs, but the water is so low, I doubt if they can "drive." I have never seen so little water in the Menominee river as at present The lumbermen are all praying for rain, and hosts of others, whose wells and cisterns are dry, echo the prayer. There are a good many logs which have been cut the past winter on the burnt lands, which can be got at without a rise in the river, so that the mills will not be obliged to shut down if there should be no rise at present."

The Muskegon *Enterprise* estimates the total crop of logs put in on White river during the past winter, at 86,000,000 feet.

NAILS.—Show no variation whatever, but continue steady and firm, and we quote as follows, per keg; cut, 10@60d, $5.75; cut, 8@9d, $6; cut, 6@7d, $6.25; cut, 4@5d, $6.50; cut, 3d, $7.25; cut, 2@3d, fine, $8.00; cut spikes, all sizes, $6.00; cut finishing, casing, box, etc., $6.25@7.75; clinch, $7.25@7.75; horse-shoe, forged, No. 10 to 5, per lb., 21@33c. Other styles are selling as follows: Copper 51c per lb.; Yellow Metal, 33c do, and Zinc 20c do.

PAINT.—Is much more active than is usual at this season of the year, and manufacturers are reported to be all busy. The demand for some classes is large, and they have advanced accordingly. Of French zinc the market is nearly bare for immediate delivery, and American is almost impossible to find. Paris green is, too, in extensive demand, and manufacturers are refusing to take large orders ahead. We quote the advances: French zinc, 9½c gold; dry lead, American (manufacturer's figures), dry, 10c, ground, 11½c.

SLATE.—The demand for this material continues very good, some qualities finding a much more favorable market than others. The spring opened with quite a small supply at the quarries, attributable to the severity of the weather during some periods of the winter, which in some instances caused a total suspension of work. Black slate remains the steadiest, however, in price, quite a falling off being noticed in some of the colored grades.

SPIRITS TURPENTINE.—After a still further decline of 2@2½c have settled down to a firmer and steadier tone. The lowest figures reached were 56½@57c, from which point they rallied somewhat, the market closing firm and steady; stock concentrated in a few hands, and only light receipts expected immediately. We quote at 56½@57½ for merchantable lots, and jobbing and retail lots at 57@60 cash.

TAR.—Has been in better demand the past week, and prices have improved since our last quotations. We quote Wilmington rope at $3.50, and Newberne at $3@3.25 per barrel, in order in yard.

ALBANY LUMBER MARKET.

The Albany *Argus* reports as follows.

[FOR THE WEEK ENDING APRIL 30, 1872.]

An unsettled market may be expected so long as there is so much uncertainty about log drives in Canada and Michigan. Anything like the disappointment apprehended in this respect would advance prices of lumber, and keep markets excited. Not much attention is usually paid to the reports about short supplies of logs, it being regarded as an annual alarm to keep up prices; but from private letters and statements of reliable parties, there are, no doubt, grounds for fearing that a large portion of the logs will have to lay over till another year. Great efforts are being made, and at immense expense, to help the drives, but with great uncertainty as to results. One large firm in Michigan is reported as having 400 men at work, at $4 per day, making prodigious efforts to get down their logs. Similar efforts are being made in Canada. The Mills all being so late in starting, will materially curtail the production and make it late before lumber will be ready for market. Last year our Northern mills began sawing in March, and made shipments in April. This season they have not made a beginning, and it will be sometime before supplies of Spruce and Hemlock, to any extent, can be sent in. Shipments from our district continue very active, and all the barges are kept fully employed. An accurate count on Saturday found that nine million feet of lumber was on board the barges then in port, for shipment. It is estimated that at least five-ninths of the lumber sold and wintered over, has been shipped, and that at least one half of that held here for sale at the close of navigation has been sold. The opinion is ventured that before lumber is received by canal, the District will be the barest spot that has been seen for years. The principal sales made this week have been to fill foreign orders. Private letters from Chicago express great confidence in an unprecedented activity and a large consumption of lumber in that city and throughout the West, and regard it as certain that if there should be a large production of lumber, the demand will be large, and indeed greater than ever before known.

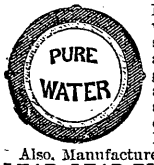
HAVE YOU SEEN

GOLD'S NEW SANITARY HEATER?

(Patented Aug. 1st, 1871.)

It gives a *pure*, healthful atmosphere, equal in mildness to any **STEAM HEAT at less than one-half the cost. NO OVER-HEATED SURFACES.** No loss of heat up chimney. **NO DAMPERS.**



NO DANGER FROM POISONOUS GASES.

Has Automatic Regulator controlling the Draft, economizing Fuel, and preventing all **DANGER FROM OVER-HEATED PIPES.** Simple in construction, easiest managed, BEST IN USE. **NOT A HOT-AIR FURNACE; NOT A STEAM APPARATUS.** Call and see it, or send for Circular.

THE GOLD HEATING CO.,
105 Beekman Street, New York.

TIN-LINED LEAD PIPE

Is a Block-Tin Pipe, heavily coated with solid lead. It is the best and cheapest Water Pipe when strength and durability are considered. By its use, iron rust, lead, and zinc poison are all avoided, and general health promoted. Price 15 cts. a pound for all sizes. Circulars and sample of pipe sent by mail, free. Address the COLWELLS, SHAW & WILLARD MF'G CO., No. 213 Centre St., New York.

Also, Manufacturers of **BLOCK-TIN PIPE, SHEET LEAD, LEAD PIPE, SOLDER,** etc. Orders solicited and filled at sight.

MAGRATH'S COPPER SASH-CHAIN,
PATENTED 21ST MARCH, 1871,

Is adapted to ordinary round pulley, and strong enough to suspend weights of any size required.

Being intended as a substitute for sash-cord, it can be put into sashes now provided with cord without any change of pulleys. The inventor feels confident that experience will prove his chain to be both economical and durable, besides doing away with the constant annoyance and expense attending the use of sash-cord.

For terms and further information apply to
M. MAGRATH, Patentee, Carpenter and Builder,
74 Irving Place, New York City.

P. B. McENTYRE,

No one should Build or Live in a House
WITHOUT EXAMINING OUR
ELECTRICAL APPLIANCES,
without which no house can be said to have all or even the MOST IMPORTANT OF MODERN IMPROVEMENTS; in fact, they are indispensable for the complete outfit of a first-class house with what may be termed necessary conveniences. All English and French houses at the present time are furnished with this electrical apparatus.

E. HOLMES'
Burglar Alarm Telegraph.
This one Bell, located in the Sleeping-Room, when set for the night, rings upon the opening of each door and window of the house. It is a watchman that has but one house to protect; never goes to sleep; cannot be bought off; and an experience of ten years, without a failure, proves it to be perfectly reliable and satisfactory.
PARTICULAR ATTENTION
is requested to our new
HOUSE ANNUNCIATOR,
An improvement upon the French system.
IT CONSISTS OF A SINGLE
CALL BELL AND ANNUNCIATOR,
in the kitchen or servants' department, and so arranged that the simple touch of a small ornamented spring in each room of the house RINGS THIS BELL AND ANNOUNCES THE ROOM from which the call proceeds—the bell continuing to ring until the servants give it attention. The whole thing is operated by
ONE BATTERY, OR BY THE SAME BATTERY
that operates the
Burglar Alarm Telegraph.
It is simple, perfect, and reliable, and will not get out of order, and is a very great improvement upon the old system of "bell pulls." We also have
An Attachment for Ringing Door Bells and Servants' Bells from the
TABLE OR DINING ROOM,
by placing a spring in the floor, and covered by the carpet. Also, for
Calling the Coachman from the Stable.
Send for pamphlet containing ten or twelve hundred TESTIMONIALS. They are from our best citizens and first business men of New York and vicinity.

E. HOLMES,
OFFICES:—
7 Murray Street, New York.
6 South Clark Street, Chicago, Ill.
1111 Chestnut Street, Philadelphia, Pa.
69 West Fourth Street, Cincinnati, Ohio.
205 River Street, Troy, N. Y.
121 Washington Street, Boston, Mass.

CAUTION.
The public are cautioned against all infringements upon this patent, even when called improvements; other parties have slightly changed my method of doing the same thing, and without any practical experience speak of it as a very great improvement. This invention is the only one that has had practical experience. It has been in general use for ten years, and every real, practical, or desirable improvement that study and actual experience could suggest has been added.
All violations of my patent, either by using or vending an infringement, will be dealt with to the full extent of the law for such cases provided.

JAMES BROOKS,
MANUFACTURER OF
SHELL LIME.

PROJECTED BUILDINGS.

A CARD.

OFFICE METROPOLITAN GAS LIGHT CO.,
Broadway, cor. 42d st.
NEW YORK, May 6th, 1872.

TO THE EDITOR OF THE REAL ESTATE RECORD AND BUILDERS' GUIDE:

DEAR SIR:—In your issue of April 6, 1872, page 160, you state:

"Forty-first st., n. s., 340 w. 11th av. One two-story brick retort building, 60x100, owners, Metropolitan Gas Light Co.; architect, Charles Kinkel; builders, C. Eberspacher and Loring Floyd."

I beg to request you, on complaint of Mr. Charles F. Dieterich, Engineer, to correct the above in your next issue, by stating that he, Mr. Dieterich, is the directing head or Architect, erecting said building.

Mr. Kinkel had nothing to do with it, except to obtain the permit from the Building Department.

Yours respectfully,
O. ZOLLIKOFFER, President M. G. L. Co.

BROOME ST. (No. 213), ONE FIVE-STORY BRICK tenement, 25x62; owner, A. DOOPER; architect, WM. JOSE.

BROOME st. (NOS. 215 & 217), TWO FIVE-STORY brick tenements, 25x75; owner, FRANK SHALFFE.

CHARLES ST., S. S., 150 E. WEST ST. (REAR), ONE two-story brick stable, 44x17; owners, B. C. WHEELER & CO.; architects and builders, A. A. ANDREWS & SON.

EIGHTIETH ST., S. S., 125 E. 2D AV., ONE FOUR-story brick tenement, 25x52; owner, WILLIAM RAN; architect, JOHN MCNIFF; builder, JAMES MCNIFF.

EIGHTY-SEVENTH ST. (NOS. 176, 178 and 180 E.), three four-story brick tenements, 20x55; owner, WALKER WILSON; architect, A. T. WILSON.

ELEVENTH AV., W. S., 25 S. 57TH ST., FOUR FOUR-story brick stores and tenements, 25x60; owner, S. HERRICK ROBBINS; architect, H. L. BULKLEY; builder, S. H. ROBBINS.

FORTIETH ST. (No. 509 W.), ONE TWO-STORY brick workshop, 25x50; two four and five story brown stone; owner, JANE SHEA; architect, JAMES MCNALLY.

FORTY-SIXTH ST., N. S., 125 W. 8TH AV., TWO three-story and basement brown-stone first-class dwellings, 20x50; owner, architect and builder, ROBERT HAYES.

FIFTIETH ST., N. S., 160 W. 3D AV., THREE FIVE-story brick tenements, 25x60; owner, NATHANIEL BURCHELL; architect, CHAS. DE BORST; builder, NATHL. BURCHELL.

FIFTY-FIFTH ST., N. S., 75 W. 5TH AV., ONE three-story brick stable, 25x80; owner, C. A. BANDOWINE; architects, W. YOUNG & CO.; builder, A. M. MCGREGOR.

FIFTY-EIGHTH ST., S. S., 100 W. 9TH AV., THREE three-story brown-stone first-class dwellings, 16.8x50; owner, P. W. LEDOUX; architect, H. L. BULKLEY; builder, M. REID.

FIRST AV., N. E. COR. 116TH ST., SIX FOUR-story brown-stone stores and tenements, 20x26x50x54; owner, FRANCIS LESETTE; architect, JNO. D. PRAGUE.

FIRST AV., W. S., FROM 115TH TO 116TH STS., ten four-story brown-stone stores and tenements, 20x21.10x50; owner, FRANCIS LESETTE; architect, JNO. D. PRAGUE.

NINETEENTH ST., N. S., 100 E. 8TH AV., ONE FIVE-story brick store and tenement, 26.6x64; owner, E. P. WHEELER; architect and builder, WM. D. DUKE.

ONE HUNDRED AND EIGHTEENTH ST., S. S., 200 w. 3d av., one two-story brick workshop, 17x33; owner, JAMES S. DALE.

ONE HUNDRED AND TWENTY-FOURTH ST., N. S., 200 e. 2d av., five three-story brown-stone first-class dwellings, 20x46; owner, A. B. VAN DUSEN.

SIXTY-SIXTH ST., S. S., 100 E. MADISON AV., ten four-story brown-stone first-class dwellings, 17x21x22x55; owner, MICHAEL L. DEMAREST; architect, JNO. D. PRAGUE.

SEVENTIETH ST., N. S., 150 E. 3D AV., ONE FOUR-story and basement brick public building, 79x85; owners, SISTERS OF THE POOR; architect, E. LEHIEVRE; builders, O'BRIEN & JOHNSON.

SEVENTY-FOURTH ST., S. S., 175 E. 2D AV., TWO four-story brick tenements, 25x50; owner, JAMES MONAHAN.

SIXTH AV., W. S. (No. 531), 25 S. 32D ST., ONE four-story brick store and tenement, 24x65, owner, MRS. ELEANOR MULLIGAN; architect and builder, WM. D. DUKE.

TOMPKIN'S ST., E. S., 52 S. DELANCEY ST., ONE one-story brick office, 22x21; owner, H. H. DANNAT; architect, RECH; builder, A. NICKOLAR.

TWENTY-THIRD ST., N. S., 100 W. 10TH AV., ONE four-story brick factory, 125x100; owners, J. and W. LYALL; architect, WM. GAUL.

TWENTY-SEVENTH ST. (NOS. 547 AND 549 W., rear), one one-story brick factory, 50x60; owners, architects and builders, COLWELL BROS.

TWENTY-FIFTH ST., N. S., 250 E. 10TH AV., (REAR) one five-story brick tenement, 25x24.8; owner, THOMAS WADE; architect, ANTHONY PFUND.

TWENTY-FIFTH ST., S. S., 200 W. 1ST AV., ONE five-story brick tenement, 25x63; owner, MARGARET BOELL; architect, WM. JOSE.

TWENTY-SEVENTH ST., E. S., 100 E. 10TH AV., one five-story brick store and tenement, 25x70; owner, ANTHONY HUBENER; architect, ANTHONY PFUND.

THIRD AV. AND 57TH ST., N. E. COR., TWO FOUR and five-story brown-stone banking rooms and offices, 25x55 & 90; owner, J. DAVIDSON; architects, SHULZE & SCHOEN; builder, W. P. PARSON.

WHITE ST. (NO. 121, REAR), ONE ONE-STORY brick factory, 19x27; owners, TENSI & SALDINI; architect, PASOLI GWOONI.

UNSAFE BUILDINGS.

William street, No. 219, J. R. Bergen, owner; unsafe front wall, cornice and lintels.

Rose street, No. 57, Robert D. Lyons, owner; unsafe piers and lintels.

Washington street, No. 200, Corporation City of New York, owner; dangerously unsafe front wall and gable.

Seventh avenue, Nos. 245, 247, 249, 251, 253, and 255, Martin Frank, agent; unsafe piers and walls.

West street, No. 117, Ernest Fiedler, owner; chimneys dangerously unsafe.

ADVERTISED LEGAL SALES.

FOR THE COMING WEEK.

NOTICE.—The list of property given below is compiled from advertisements published in different newspapers, of auction sales to be held under direction of the Referee appointed. It may not be absolutely perfect but is as near so as we can make it.

REAL ESTATE MARKET.

IN connection with the auction sale of Boulevard lots, advertised on the last page, attention is called to the following facts: The 6th and 7th avenue Boulevards are under the control of the Central Park Commissioners. They are 150 feet wide, having a road-bed or drive of 80 feet, leaving 35 feet on each side for walks and areas. The 6th Avenue Boulevard is now finished, with the exception of the planting of trees. The 7th Avenue Boulevard will be completed on or about July, 1872. Water and gas through the 6th Avenue Boulevard, and pipes for the same, are now being laid in 7th Avenue Boulevard. Shade trees are to be planted on these Boulevards at the expense of the city. The Boulevard sewers are now being constructed.

PROCEEDINGS OF THE COMMON COUNCIL AFFECTING REAL ESTATE.

[* under the different headings indicates that a resolution has been *introduced* and laid over for further action. † indicates that the resolution has been passed by one Board and sent to the other for concurrence. ‡ indicates that the resolution has passed both Boards, and has been sent to the Mayor for approval.]

MARKET REVIEW.

BRICKS.—The market has shown more liveliness for the past week than has been observed for some little time; to be sure, the inquiry greatly exceeeded the purchases, yet there were sufficient of the latter to keep up a very good current of trade, and, considering the amount of brick arriving, comparatively few went into yard stock. Nevertheless, the market continues to decline gently, as it must, as we approach nearer the season for the new crop. Everything considered, the market has held remarkably steady this year. As the week closes the indications are that it will remain firm at quotations as follows:—Haverstraw Bay brick, $8.50@10 per M; Pale and New Jerseys, $6 do, with some sales of inferior lots at even lower figures. Fronts unchanged and steady at $12@15 per M for Croton, and $40@45 do for Philadelphias from the yard.

LIME.—Quite a competition seems to be springing up in this article, and already this season two new brands have been introduced in the market. Both are quoted at lower figures than the old limes at present, for the purpose, it is said, of popularizing them, but whether they will be able, even at their rates, to attract buyers remains to be seen. There are some of the old brands that are in demand, for special purposes, and to enter into competition with these at any figures the new product must be possesed of the same peculiar qualities. Whether they do remains to be seen. In the future our table will quote each lime seperately, to avoid confusion, as well as to show buyers the current rates of each. Just now the market is quiet, with prices holding firm at $1.50 per bbl for common Rockland, Glen's Falls, and Bald Mountain, and $2 do for lump do. Fort Ann and Manlius quoting at ten cents less per bbl on either quality.

LUMBER.—There was quite a revival of business activity noticeable in the market last week. The sales being confined chiefly to invoices for manufacturing purposes and city consumption, although the proportion which went out of yard on call of builders, bore no such insignificant comparison to the general business, as has been noticeable for some time back. Prices, though have not been altered a fraction from last week's quotations.

The prospects for the far future engross much of the consideration of dealers here now. One of the largest houses in the city, whose correspondent has recently arrived from a tour through Michigan, reports that one half of the crop of logs cut through the winter will reach the mills, and hope is strong that the June freshets will float in twenty-five per cent. more. Should this be realized, they assert that the combined capacity of all the mills will be wholly inadequate to work it up this season, which will be at least one month shorter than last year.

The Albany *Argus* takes exception to a statement made by us recently in reviewing the general market, to the effect "that it was fortunate for consumers in this city that prices here were not regulated by transactions in Albany, or the market would be rampant." We pass over so much of the *Argus*' article as is personal or irrelevant, and come to the point, to wit, that we were wrong. The item quoted by us as Pine uppers, is based on, and is equivalent to an average of the three items quoted in the Albany market as Pine clear, Pine fourths, and Pine selects. We quote Pine uppers lowest figure at $60 per M. Now the average of the three items indicated before, at lowest quotations, would be $55 in Albany. On dock in New York city it would be worth $57.05, and when yarded costs dealers $58.05. The additions are at the regular rates of freight and labor for handling. This, at Albany quotations, would leave a margin of $1.95 for profit to New York dealers, from which farther deductions might be made for interest and exigencies, only too likely to arise, and which are not considered.

It is easy then to see that if the market in this city "was regulated by Albany transactions it would be rampant," for not a sale of pine uppers could be made by dealers here certainly at less than $65 per M, and even at that figure the margin would be small enough.

Eastern spruce is much the same as last week, the figures remaining about the same with a lack of buoyancy. Several cargoes have arrived recently which helped to effect this condition. We quote: inferior to fair specifications at $18@20; and for real good sticks, $20.50@21.50. White Pine shows scarcely any variation in tone, and we quote as heretofore; for common to fair box and shipping boards, $31@33; for good do, $35@38; pickings and selects, $40 and $45 respectively. Yellow Pine holds $28@30 for random cargoes and $32@38 for special cuts, and $40 for fancy do.

We note additional exports as follows: To Antwerp, 3,600 staves, value $450: Liverpool, 27,000 do, value $2,100; London, 12,200 do, value $1,400; French West Indies, 3,700 do, value $306; Cadiz, 115,400 do, value $16,781: Lisbon, 5,373 do, value $1,250; Brazil, 162,240 staves H & H, value $3,665; to Danish West Indies, 119 shooks and heads, value $315; British West Indies, 400 shooks, value $300; British Guiena, 1,700 shooks, value $1,205; Porto Rico, 4,089 shooks & heads, value $8,638; Hayti, 93 shooks, value $225; New Grenada, 183 barrels shooks, $4,220; Venzuela, 102 shooks, $220; Brazil, 4,740 shooks and heads, $4,931; Danish West Indies, 7,000 hoops, $307; Hayti, 80 empty barrels, $184; Cuba, 1,258 empty hogsheads, $2,153; Porto Rico, 15,000 hoops, $375; Lisbon, 50 bundles mast hoops, $225; Liverpool, 12,105 hickory billets, $254; Mexico, 12 kegs spikes, $291; Liverpool, 65 kegs nails, $360; British West Indies, 19 do., $116; British Australia, 18 cases do, $400; British Australia, 55 kegs do, $345; Cuba, 169 do, $1,085; Hayti, 37 do, $241; Mexico, 42 boxes, $600; do, 429 kegs, $2,645; New Granada, 1,292 kegs, $6,913, Yenzuela, 15 cases, $125; Brazil, 50 kegs, $352; London, 20 pckgs paint, $84; Mexico, 91 cases, $795; New Granada, 103 pckgs, $969; Venezuela, 20 pckgs, $310; London, 3,400 gals oil, $2,150; Hayti, 96 do, $75; Mexico, 90 do, $143; New Granada, 680 do, $564. To Hamburgh, 64 logs walnut, $1 880; Bremen, 91 do, $2,650; London, 125 do, $4,299; Lisbon, 12 do, $410; Liverpool, 159 logs cedar, $2,000; London, 129 do, $1,152; Lisbon, 50 logs mahogany, $147; Havre, 303 crs mahogany, $2,708; British Australia, 290 feet sycamore boards, $250; do, 56 pcs hickory, $400; Mexico, 180 pcs timber, $200: British West Indies, 40,000 shingles, $175; Hayti, 120 bundles do, $102; British Australia, 30,000 lath, $100.

Charters as follows: A Br. brig, 164 tons, to Penarth Roads for orders, privilege of Bristol, London, or Glasgow, 1,000 bbls spirits turpentine, 5s 6d; one from Wilmington, N. C., to Cork for orders to the United Kingdom or Continent, 1,700 bbls spirits turpentine, private rate; a ship, 780 tons (now at Boston), from St. John, N. B., to British Channel, deals, 65s; a Br. barque, 522 tons, from Sorell, Canada, to Buenos Ayres, lumber, $22.20 net, and a gratuity; one, 450 tons, from Sorell to Montevideo for orders; to the River Plate, $22.20 net; one, 356 tons, from Montreal to River Plate, lumber, at or about $22 net; a ship, 1,090 tons (now at New Orleans), from Pensacola to New York, resawed lumber, $10; a ship, 1,619 tons (now at Mobile), from Pensacola to Boston, resawed lumber, $10; a bargue, (now at New Orleans), 400 M lumber, from Pensacola to New York or Providence, $12.50; one (now at New Orleans), 400 M lumber, from Pensacola to Boston, $12; a schr, 200 M lumber, from Bangor to St. Croix, $7; one, from Jacksonville to Philadelphia, resawed lumber, $11; one, hence to Jacksonville and back to Boston with lumber, $16; one, to Jacksonville and back to Fall River with lumber, $12; a schr, to Savannah, general cargo on private terms and back with lumber, $10.50.

The exports of lumber are as follows:—

The Saginaw *Courier* publishes the following review of the situation in its latest phase:—

THE LOG DRIVE.—LATEST NEWS FROM THE UPPER STREAMS.—There is nothing especially new in regard to the aspect for running logs. Driving in the several streams where there has been sufficient water, is actively going on, but those whose logs were high and dry, and have been holding men, waiting for rain, have about given up all hopes, and the discharged men are coming into the city every day. A big rain, were it to come at this time, will be too late for many lumbermen, who have given up all hopes of getting out their logs. On the Tittabawassee and its tributaries it is now estimated that 20 per cent. is a loose estimate of logs that will be laid over, and in the Cass and Bad river, 40 if not 50 per cent. will be hung up.

On the Flint river they are more fortunate than on any other stream. The *Globe* says:—It is with no feeling of boastfullness, but with profound gratitude for our good fortune, that we congratulate our lumbermen upon the happy train of circumstances which makes them the favored exception to the general rule, in the matter of the log supply. We are credibly informed—our information is from Mr. W. W. Crapo—that there are logs enough now in boom or immediately at command, to run all the mills in Flint till August, if none of those on the small streams should be got down.

An Alpena correspondent says that the continued dry weather causes much anxiety and uneasiness among mill men and log-owners, but so far reports are very favorable for all of the logs to get out, with the exception of those just in on Bear Creek, about 13,000,000 feet having been put in on that stream, which is quite small.

The Port Huron *Times* says the lumbermen of that city have a large number of men employed at the present time on Elk Creek and Black river, trying to get down the logs banked on those streams last winter, but with poor prospects of success. The Black river drive is at Davisville, where "flooding" operations are in progress, and a gang of men are at work on Elk Creek. On Mill Creek the logs are said to be effectually hung up.

The Menominee *Herald* of the 25th, says the drive in that region is progressing very slowly, the water in the river being scarcely above summer level. On the Pike, 120 men are engaged building two large dams, by means of which it is hoped that the logs on that stream can be driven. These amount to about 23,000,000 feet. In Little Cedar there is no water at all, and few, if any, of the smaller streams can be driven. Only about one half of the logs now banked can be brought down, without they have heavy rains. The main river (Menominee) will undoubtedly keep up its present height for some time, owing to the snow around Lake Michigammi, but there is no snow of consequence in the woods within 60 miles of here. Dismal as this prospect is, that on the other river is much worse. At Peshtigo they are putting in every man they can, and hope, by the means of large dams and hard work, to get out a large portion of their product, but on the Oconto nothing

can be done. The oldest inhabitant has rarely known the water so low in that river during the dryest season as it is now. On the Wolf not one-third of the season's work is expected, and the same report reaches us from elsewhere. There are now in the boom pond here about 15,000,000 feet of logs, which are being sent towards the mills as fast as possible. A heavy jam of some 5,000,000, which was made last week at Pinencas Falls has been broken, and the drivers are guarding against them as much as possible.

The Saniac *Jeffersonian* says, log driving is not as rushing a business as it might be, if there was more water. Some logs are running out of Black River Ditch, and a few out of Elk Creek, but not to any great extent. It will require an immense amount of rain to bring out all the logs banked last winter.

And a correspondent of the same paper, writing from Rock Falls, Huron County, says:—The water in the creek is low, and thus far the company have been able to get down but one drive of about 300,000. The balance will undoubtedly be "hung up."

The Port Huron *Times* says:—Several of the lumbermen of that city started up Black river Monday, with the intention of building a dam on Jackson Creek, for the purpose of floating the logs out of that stream. Logs are moving very slowly in Black river, and the prospects for getting enough down to keep the mills running during the season are yet very slim. But those interested are hard at work, and if it is possible to accomplish anything they will certainly do it.

The Pittsburgh *Real Estate Register* publishes the following market statement:—

The market for all kinds of lumber afloat is active and firm. We are reported the following sales:—40,000 cubic feet square pine lumber at 19c: 150,000 do do at 18c; 130,000 do do at 16@16½c: 40,000 do do at 12@15c: 300,000 feet pine boards at 25 per M; 300,000 do do at $22; 400,000 do do at $21; 90,000 do do at $20.50; 100,000 hemlock do at $13. The market for boards is active, and a good quality of lumber, averaging in clear from 20 to 30 feet ready sale. Shingles command $4.50@5.50 per M. Lath are held at $2.75@3. Although the run of lumber and timber is larger this spring than any previous one, the prices at which it is bought up by dealers is truly astonishing. We have heard a rumor of sales of boards as high as $27.50 @28 per M. It is said it will require $5,000,000 to handle the lumber and timber at this market this season. We make no change in our quotations this week, but all kinds of material is reported strong at present prices. Lumber in a retail way is slow at present rates.

The New Orleans *Price Current* of April 30th says:—

The local demand continues dull, but there is still an active inquiry from foreign and Northern ports, as well as from Texas, but light draft tonnage is scarce. The market is fully stocked, and the supply ample to meet requirements. Prices remain unchanged.

Cargo lots are quoted at $13@15 per M feet for inch boards; $13@15 for scantling; $13@15 for weatherboards, rough, and $19@20 for dressed: $15@18 for rough flooring, and $25@30 for dressed; $20@25 for dressed ceiling; $25@30 for cypress; $3.50 @4.25 for common shingles, and $2.50@3 for laths. General orders on rough and dressed lumber are filled at $5 per M feet on cargo prices.

From the Savannah, Ga. *Republican*:—

TIMBER AND LUMBER.—TIMBER.—Receipts very large for the past week, but all taken up on arrival at about our quotations. An active inquiry still exists for vessels for United Kingdom and coastwise. We quote:—Mill timber, $9@10; shipping do, 600 feet average, $8@9; 700 feet average, $10@11; 800 feet average, $11@12; 900 feet average, $13@14; 1,000 feet average, $14.50@16.

LUMBER—active. Orders are plenty. We quote:—Ordinary sizes, $20@21; difficult sizes, $21@25; flooring boards, $21@22; ship stuff, $20@24, according to sizes.

FREIGHTS.—Vessels are in demand for lumber cargoes, but none are disengaged. LUMBER—To Philadelphia, $8.50; to New York and Sound ports, $10@10.50; to Boston, $10.50; to Baltimore, $8@9; to Cuba, nominal: to River Platte, $23 and per cent. primage. BY STEAM—To New York, $10. TIMBER—Freights are from $1@1.50 higher than lumber rates.

The Chicago *Times* of May 4th reports —

CARGOES.—The winds being unfavorable, there were no arrivals of lumber-laden crafts on yesterday. Several buyers were in attendance early in the day, but as the offerings were limited to three or four cargoes that arrived on Wednesday, scarcely anything was done. Prices were nominally unchanged, closing as follows:

Joist and scantling	$15 00@17 00
Common strips and boards	16 00@17 00
Good to choice strips and boards	17 50@18 50
Shingles	3 00@3 10
Lath	3 50

Sales include:—

Cargo of barge Apprentice Boy, from Grand Haven, 65,000 feet hemlock lumber at $11; sold by Irish, Bullen & Co.

Cargo of schr. Whirlwind, from Ludington, 90,000 feet joist and scantling at $16; sold by J. M. Loomis & Co.

AT THE YARDS.—The movement in lumber at the yards was of an active and satisfactory character on yesterday, and prices were firm and unchanged.

From the Chicago *Times*, May 3d:

ON TRACK—Shingles were in ample supply, and in good demand. Prices were unchanged and steady, as follows:—

A, or star	$3 12½@3 37½
No. 1, sawed	1 50 @2 00

Three dollars per car to be added when transferred, which charge follows the shingles.

Thickness—Five shingles to be two inches in thickness.

Length—Sixteen inches.

The Boston *Commercial Bulletin* says:—

There has been considerable activity in this market during the past week, the continued pleasant seasonable weather having had a beneficial effect on the building operations under way throughout the State, and the general feeling in the market has been one of firmness.

In Eastern lumber, the first market is not quite so firm; the first fleet of the season having arrived, bringing considerable supplies. These, however, are all last year's sawing, and being disposed of readily will only supply the market temporarily. The mills, with a few exceptions, are not as yet fully in active operation, the high water and the usual obstructions serving to retard them.

Canada and Western lumber continue firm. The stock of dry lumber to come forward is smaller than for several years, and the greater part of this will be consumed before the arrival of the new. The prospects are favorable for continued activity throughout the season. Foreign orders will be large. There will be a far greater amount shipped to South America than last year. The English demand is also very large. Deals are selling higher than before, and contracts have been made for the production of some of the principal Canada mills, at high prices, cutting off a large per centage of lumber that would otherwise have been sawed for this market. There is great uncertainty about the drives of logs getting to the mills in Canada and Michigan, on account of low water. The mills will all be late in starting, on account of the lateness of the season and quantity of ice still in the rivers and streams. This will materially lessen the production. Taking into account the amount to be consumed at the West, it now looks as if all the lumber that can be manufactured will be wanted, and that the market will not be overstocked.

Southern pine is steady with fair demand. Freights are from $1.50 to $2 higher than last year.

The following are the surveys for the week:—

DOMESTIC LUMBER.	Feet.	DOMESTIC LUMBER.	Feet.
Pine	591,717	Black Walnut	58,419
Hard Wood	29,107	So. Pine Flooring ..	27,214
Hemlock	234,012	Spruce	1,100,602
Total			2,041,071
Corresponding week last year			4,788,672

OFFICE OF SHAW, BLANCHARD & CO.,
MANUFACTURERS AND DEALERS IN LUMBER.
Lock Haven, Pa., May 6th, 1872.

TO THE EDITOR OF THE REAL ESTATE RECORD:

DEAR SIR: We write you to give you an idea of the state of our drives. We have had one flood, and have secured on the river about 150,000,000 feet of logs. That is to say at the booms at Williamsport and this place, about one third of the crop. Our drives are very backward, and as the water is too low to do anything now we are anxiously hoping for rain. Anderson Creek drive will not come out, and will leave 25,000,000 until next year, as their dams have all given way, and they cannot be rebuilt before July. Musquito Creek, with 25,000,000 have not started as yet. In the event of a flood, there will be 5,000,000 feet left. If no flood, two-thirds will lay over.

We cannot secure the logs under six weeks of good driving, and it is the opinion of the most experienced lumber men that there will be at least 75,000,000 left in the small streams, even if we have a June flood.

The mills on the river are all running, and can run about two months on the present stock of logs.

Yours, truly, etc.
SHAW, BLANCHARD & CO.

METALS.—Ingot Copper, although at a dead stand, has remained quite firm for the week past. Buyers are waiting for the arrivals from the Lake region, and make no purchases, except under compulsory exigencies. We quote Lake at 39@40c, and 33@34c for best English selected, cash copper closing firmer because of reported advance in England. Iron shows an improved tone generally, business having increased, and prices advancing somewhat in consequence. The scarcity of Scotch Pig noticed heretofore still continues, and the quotations which are based upon sales of small lots are rather nominal. We quote Gartsherrie at $52@53 per ton; Eglinton, from ship and yard, $50@52.50 do. American Pig likewise is scarce, and deliveries of some furnaces made with difficulty. We quote No. 1, $50@52: No. 2, ex. and forge, $49@51; No. 2, gray forge, $48@50. Scrap is firmer at $64.50. Rails and Refined Bar, too, hold very firm at following quotations:—Bar Swedes, $125@135: Refined, ordinary size, $150; refined, 1¼ to 6 by ½ and 5-6, $115; refined, 1 and 1½ by ½ and 5-6, $117.50; Large rounds, $122.50@127.50; scroll, $122.50@152.50; ovals and half round, $127.50@137.50; band, $122.50; horse-shoe, $120 @130; rods, ⅝ to 3-16 inch, $115@155; hoop, $125@ 177.50; nail rod, per lb., 8c. Common Sheet, single, double and treble, 6¼@7¾c; and double and treble charcoal, 7¼@8¾c. Russia Sheet, as to assortment, 18¼c gold. Pig Lead is held yet firmer on account of rumored advances in England. We quote at $6.12½@57 for foreign, some sales having been made by Government at ¼c lower. Bar has advanced to 8¾c, and Sheet and Pipe to 10¾c do. Tin-lined Pipe is steady at 15c, less ten per cent on all kinds to the trade. Pig Tin continues without demand, prices being rather nominal. We quote Straits and English at 40c. There is little doing in Plates; but the prices as yet hold up with an entire lack of buoyancy, and we adhere to the figures quoted last week.

NAILS.—Are unchanged, the market remaining quite firm and the demand being fair. We quote: cut, Hook-head brads, Fencing, and Sheathing, 10@60d, per keg. $5-75; cut, 8@9d, $6 do.: cut, 6@7d, $6.25 do; cut, 4@5d, $6.50 do; cut, 3d, $7.25 do; cut. 2@3d. fine, $8.00; cut, 4@4½d, sugar-box, $6.75; cut spikes, all sizes, $6.00; cut finishing, flooring, box, coopers, casing, slating, trunk, and tobacco, 10@3d, $6.25@$7.25; clinch, 2 to 3 inch and over, $7.25@7.75: horse-shoe, forged, No. 10 to 5, per lb., 21@23c. Copper, 51c. per lb.; Yellow Metal, Sheathing, and Slating, 30@32c. do. We note exports of 1,947 kegs, 33 cases, and 42 boxes; value, $13,182.

OILS.—Linseed crushers have throughout the week held very firm, dealers having declined to make any concessions on their demands, but the market remaining very dull, it was towards the close sought to press sales, upon which a very heavy feeling ensued which, while it may affect the market to a decline, had as yet made no impression on the quotations which stand, per gallon in casks, 92c; do in barrels, 93c; boiled or refined oil per gallon in barrels, 98c; and outside lots per gallon in casks, 90c.

PAINT.—The scarcity of zincs heretofore noted still exists, and while they continue in good demand no advance over last week's figures has been made. French is quoted at 9½c gold, and American dry white at 9½c currency. Paris white is steady at 2c, some large sales having been effected. Paris green is in large demand with a supply wholly inadequate and the manufactures pretty well consumed already. The jobbing trade continues very good for the season with quite satisfactory margins realized.

We note exports as follows: 234 packages, value $2,158.

PLASTER.—It has long been the complaint of dealers plaster that every sale they made was a sacrifice of their means; still they held bravely on, hoping circumstances would become more favorable to them. But it has been going from bad to worse, until they have been forced to agree upon an increased tariff. The dealers point to the fact that the stone has reached a rate which in itself sustains their complaint. We quote the figures as increased. Calcined, City, per bbl, $2.50:; Inferior qualities or brands, $2; Nova Scotia white stone, per ton, $6; Nova Scotia blue do, $5, with little doing in it.

SPIRITS TURPENTINE.—Has fluctuated considerably within the past week, and in fact it was hard to say what any one day would bring forth. Early in the week the tendency was towards low figures but on the strength of some large sales to fill shipping orders which were effected, a sudden and strong advance occurred, which was maintained to the close. We quote: merchantable order per gallon, 55½@56½ cents; shipping do, 57½@58½ do; from store, 58@59 do; in cases, 67 do.

TAR.—The market is steady and firm, the figures showing an advance over last week's; we quote: Washington and Newberne as it runs, per barrel, $3.25@$3.50; Wilmington do, $3.50@$3.75.

ALBANY LUMBER MARKET.

The Albany *Argus* reports as follows.

[FOR THE WEEK ENDING MAY 7, 1872.]

Late advices from Wisconsin and Minnesota report an advance of $3 per M. in the prices of Lumber, owing to the disappointment about log drives. In Michigan, there has also been an advance established, and holders, for the same reason, are very indifferent about selling. In Canada, the same uncertainty continues as to getting logs to the mills, and prices there are higher than ever before known. Great loss and inconvenience will be felt in the carrying over of logs to another year, especially to parties of small means. Steadier and higher markets, however, will be the consequence, and make up in some measure for the disappointment. Increased activity is reported in the New York, Boston and other markets, and low stocks everywhere. The low grades of Pine are especially scarce and in request, and of late there has been a large increase in the consumption of such kinds. Owing to a large local demand in Canada for culls and common pine, it is difficult to get them even at advanced prices. The increased consumption, in this country, of these kinds, for box making and for other purposes, has been evident for several years. The REAL ESTATE RECORD (N. Y.), in its issue of April 27th, says: "When some of the heavy dealers of this market recently visited Albany, they found holders very indifferent and exacting. Fortunately, however, for consumers in this city, the prices here are not regulated by transactions in Albany, or the market would be rampant."

The writer either is not correctly posted or purposely aims to give Albany a hit; for, excepting New York city, this has been and is now the cheapest point at which to buy Lumber. Let New York dealers, with gold in hand, proceed to Ottawa and pay the prices now demanded there of $18@19 ₱ M., gold, for the product of the log, and $12 ₱ M. for culls; add this to the import duty, premium on gold and cost of transportation, and then figure out what the Lumber will cost them in New York city, and we think they will find that Albany dealers are unfairly accused of bolstering up prices. As soon as New York dealers run off their present stocks, laid in at low figures, they will be under the necessity of advancing their prices to cover the cost of Lumber, even direct from the mills. One thing is certain, they will no longer have the same chances of buying Lumber at a sacrifice, sent through by Canada manufacturers, who have lost too heavily to continue this business. Our quotations are unaltered. The outside figures for good Lumber and some other kinds, are for choice or extra lots. Shipments continue active and stocks are getting very low. The canals will, it is expected be open for navigation throughout the entire line on the 13th; it is understood that water has been let on to the Eastern Division to bring to tide water those boats frozen in, in November last,

The receipts of Lumber at Oswego—all from Canada—from the opening of Lake navigation to May 1st, were 3,479,500 feet: in 1871 they were 17,061,300 feet; in 1870 they were 6,885,200 feet.

River and Eastern freights are quoted as follows:

To New York, ₱ M	$1 50
To Bridgeport and New Haven	2 00
To Norwich and Middletown	2 50
To Hartford and Providence	2 50@2 75
To Boston, soft wood	5 00
To Boston, hard wood	6 00
Staves, ₱ ton, to Boston	2 50

The current quotations of the yards are:—

MAGRATH'S COPPER SASH-CHAIN,
PATENTED 21ST MARCH, 1871,

Is adapted to ordinary round pulley, and strong enough to suspend weights of any size required.

Being intended as a substitute for sash-cord, it can be put into sashes now provided with cord without any change of pulleys. The inventor feels confident that experience will prove his chain to be both economical and durable, besides doing away with the constant annoyance and expense attending the use of sash-cord.

For terms and further information apply to

No one should Build or Live in a House
WITHOUT EXAMINING OUR
ELECTRICAL APPLIANCES,
without which no house can be said to have all or even the MOST IMPORTANT OF MODERN IMPROVEMENTS; in fact, they are indispensable for the complete outfit of a first-class house with what may be termed necessary conveniences. All English and French houses at the present time are furnished with this electrical apparatus.

E. HOLMES'
Burglar Alarm Telegraph.
This one Bell, located in the Sleeping-Room, when set for the night, rings upon the opening of each door and window of the house. It is a watchman that has but one house to protect; never goes to sleep; cannot be bought off; and an experience of ten years, without a failure, proves it to be perfectly reliable and satisfactory.

PARTICULAR ATTENTION
is requested to our new
HOUSE ANNUNCIATOR,
An improvement upon the French system.
IT CONSISTS OF A SINGLE
CALL BELL AND ANNUNCIATOR,
in the kitchen or servants' department, and so arranged that the simple touch of a small ornamented spring in each room of the house RINGS THIS BELL AND ANNOUNCES THE ROOM from which the call proceeds—the bell continuing to ring until the servants give it attention. The whole thing is operated by
ONE BATTERY, OR BY THE SAME BATTERY
that operates the
Burglar Alarm Telegraph.
It is simple, perfect, and reliable, and will not get out of order, and is a very great improvement upon the old system of "bell pulls." We also have
An Attachment for Ringing Door Bells and Servants' Bells from the
TABLE OR DINING ROOM,
by placing a spring in the floor, and covered by the carpet. Also, for
Calling the Coachman from the Stable.
Send for pamphlet containing ten or twelve hundred TESTIMONIALS. They are from our best citizens and first business men of New York and vicinity.

121 Washington Street, Boston, Mass.

CAUTION.
The public are cautioned against all infringements upon this patent, even when called improvements; other parties have slightly changed my method of doing the same thing, and without any practical experience speak of it as a very great improvement. This invention is the only one that has had practical experience. It has been in general use for ten years, and every real, practical, or desirable improvement that study and actual experience could suggest has been added.
All violations of my patent, either by using or vending an infringement, will be dealt with to the full extent of the law for such cases provided.

PEREMPTORY SALE OF

1,600 CITY LOTS

AT OCEAN POINT STATION,

ROCKAWAY NECK, LONG ISLAND,

AT AUCTION.

E. H. LUDLOW & CO.

WILL SELL BY AUCTION,

On TUESDAY, MAY 28, 1872,

At Eleven o'clock, on the Premises at Ocean Point Station.

SALE BY ORDER OF THOMAS E. AND SAMUEL A. W. MARSH.

Valuable Plots on Central, Chestnut, Ocean Point, and other Avenues.

Ocean Point Station is beautifully located near the centre of Rockaway Neck, which is five miles in length, and has an average width of about one and a half miles, containing some 4,000 acres of fine upland.

The property to be sold is some of the finest on Rockaway neck, lying high, with good natural drainage, exceedingly healthy and easy of access by either the Long Island or South Side Railroads, each of which roads have stations on the property.

The streets are all open and graded, shade trees set out and the property fenced in, and is in all respects ready for immediate improvement. The plots contain from 2 to 16 city lots, and will be sold at so much per city lot, without reserve, to the highest bidder.

Messrs. Marsh will devote four per cent. of the gross amount of sale to the Ocean Point Institute, and also four per cent. towards the erection of a church on the property.

Title perfect, printed abstracts of which will be furnished purchasers free of charge.

The taxes are very low, being about one and a half per cent. on a low valuation.

Ten per cent. on day of sale.

Sixty per cent. of the purchase money may remain on bond and mortgage for one or three years at seven per cent. per annum.

Maps and free tickets for either Long Island or South Side Railroad can be had at the Auctioneers Offices, No. 3 Pine, or 35 East 17th Street, or of Messrs. D. & M. CHAUNCEY, No. 207 Montague Street, Brooklyn, or of JAMES C. EADIE, No. 45 Broadway, Brooklyn, E. D.

Trains leave Hunter's Point and South 8th Street, Brooklyn, E. D., at ten o'clock.

REAL ESTATE RECORD
AND BUILDERS' GUIDE.

VOL. IX. NEW YORK, SATURDAY, MAY 18, 1872. No. 218.

Published Weekly by

THE REAL ESTATE RECORD ASSOCIATION.

TERMS.

One year, in advance.....$6 00

All communications should be addressed to

C. W. SWEET,

7 AND 9 WARREN STREET.

NO receipt for money due the REAL ESTATE RECORD will be acknowledged unless signed by one of our regular collectors, HENRY D. SMITH or THOMAS F. CUMMINGS. All bills for collection will be sent from the office on a regularly printed form.

MINORITY REPRESENTATION.

MINORITY, or PROPORTIONAL REPRESENTATION; Its Nature, Aims, History, Processes, and Practical Operation. By SALEM DUTCHER. United States Publishing Company, 411 Broome Street, New York, 1872. pp. 165. Price $1.50.

WE seldom review a book, there being few issued which bear upon the topics to which THE RECORD is devoted; but this work, while mainly political in its scope, contains information of interest to capitalists. There are few of our moneyed men, we fancy, who are not connected in some way with incorporated companies and in the election of the directors or managers of such companies valuable pecuniary results are often involved. Anything, therefore, which changes the present method of electing directors and substitutes a new one must be of interest, and it is precisely on this point that we find useful information in Mr. Dutcher's book. The idea of minority, or rather proportional representation in matters political is, that each party shall have a representation proportionate to its popular strength, so that if it have one fourth the vote it shall have one fourth of the representatives, if a third, a third and so on, and in Illinois this principle has been applied to the election of all directors of incorporated bodies. Each stockholder has as many votes as he has shares of stock multiplied by the number of directors to be chosen, and may distribute those votes among the candidates as he may see fit, or may cumulate them all upon one. This secures the minority of stockholders a number of directors proportionate to their number of shares, no matter what the majority does. If such a rule had prevailed in the Erie R. R. Company, there would have been some director or directors representing the English and other excluded stockholders on the board and the late *régime* would not have been possible. The history of this new method of electing directors this book traces in an interesting manner, showing how it was proposed and debated in the New York Constitutional Convention of 1867; how it was adopted in Illinois in 1870 and is now law—the rule being express that "such directors or managers shall not be elected in any other manner;" how it has just been incorporated in the new West Virginia Constitution; and how it was put in the Nebraska Constitution, which was voted down on other grounds in 1871. It is evident, we think, that the change is destined to be made in other States and perhaps may be agitated with success in the next New York Constitutional Convention, which after the Presidential election of this year we are pretty sure to have.

REAL ESTATE MARKET.

ALTHOUGH the market presents a dull appearance, the fact is noticeable that prices are very firm, and for choice plots of property in good locations, holders are unwilling to make any concessions. The speculation, since the spring of 1871, has been confined principally to the East Side, to the comparative neglect of West Side property, but of late, brokers report an increasing demand for lots on the West Side, the prices for which at present afford a good basis for

a speculative rise. Among the real estate changes we notice the dissolution of the firm of Allen and Brown, and the formation of the new firm of Allen, Dooley, and Henriques. Mr. H. Henriques long, and favorably known in connection with the old house, will still conduct the branch of the business relating to auction sales.

Attention is directed to the Executor's sale of a portion of the estate of James Slevin, deceased, the particulars of which may be found on the last page of the RECORD. The list comprises some of the choicest lots on the Grand Boulevard, also some very valuable property on Broadway; the prospective value of which can hardly be estimated; also a four-story brown stone front store, known as No. 232 Church street.

Messrs. E. H. Ludlow & Co. will sell on Tuesday, May 28, on the premises at Ocean Point Station, Rockaway Neck, L. I., 1,600 city lots. For maps and free tickets apply to Messrs. D. and M. Chauncey, 207 Montague street, Brooklyn, or to James C. Eadie, 45 Broadway, Brooklyn, E. D.

PROJECTED BUILDINGS.

The following plans embrace all that have been considered by the Superintendent of Buildings since our last report:—

AV. A (No. 36), ONE ONE-STORY BRICK STORE-room, 45x95; owner, N. Y. GASLIGHT CO.; architect and builder, JOHN M. CARROLL.

BOWERY (NOS. 90 AND 92), TWO FOUR-STORY brick first-class stores, 24.1x90 and 26.4x100; owner, W. B. ASTOR; architect, P. KISSAM; builders, JAMES WEBB & SON.

FIRST AV. AND 48TH ST., S. W. COR., FOUR FIVE-story brick stores and tenements, 25x60; owner, MICHAEL MURRAY; builder, THOS. G. DAVIDSON.

FIFTH AV. AND 64TH ST., N. E. COR., ONE FOUR-story brown-stone first-class dwelling, 30.5x66; owner, HENRY KNICKERBOCKER; architects, D. & J. JARDINE.

JAMES AND CHATHAM STS., S. E. COR., ONE FIVE-story brick first-class store, 29.6x73.3 and 52.6; owner, JOHN S. FOSTER; architect, PETER TOSTEVIN; builders, RABOLD & TOSTEVIN.

MERCER ST. (NOS. 67 AND 69), ONE FIVE-STORY and basement iron and brick first-class store, 50x96; owner, AMOS R. ENO; architect, ROBERT MOOK; builder, AMOS WOODRUFF.

NINETIETH ST. AND 5TH AV., N. E. COR., ONE one-story brick saloon, 73x68; owner, FREDERICK KUNTZ; architect, HENRY G. HARRISON; builders, JENNINGS & BROWN.

NINTH AV., W. S., 50 N. 47TH ST., THREE FOUR-story brick stores and tenements, 25x55; owner, architect, and builder, WM. MORGAN.

ONE HUNDRED AND FIFTEENTH ST., S. S., 150 e. 1st av., one two-story brick first-class dwelling, 20x40; owner and builder, J. H. MARSHALL; architect, F. W. KLEMT.

ONE HUNDRED AND NINETEENTH ST., S. S., 128 e. Av. A, six four-story brown-stone French flats, 20x60; owner and builder, JAS. MEAGHER; architect, JOHN C. BABCOCK.

ONE HUNDRED AND TWENTY-EIGHTH ST., S. S., 360 e. 6th av., one three-story brown-stone first-class dwelling, 17.6x45; owner, L. L. MARTIN.

ONE HUNDRED AND TWENTY-SIXTH ST., S. S., 300 e. 7th av., eight three-story and basement brown-stone first-class dwellings, 18.9x45; owner, JAS. S. DALE; architect, JAS. DOUGLAS.

SEVENTH ST., N. S., 75 E. 1ST AV., TWO FIVE-story brick stores and tenements, 16x47; owner, A. J. ODELL; architect, WM. JOSE; builder, JOS. SCHAEFFER.

ST. NICHOLAS AV., E. S., 125 N. 10TH AV., TWO two-story wooden second-class dwellings, 24x25; owner and architect, J. ANTHONY DOYLE; builder, JNO. SCALLON.

SECOND AV., E. S., 51 N. 80TH ST., ONE FOUR-story brick store and basement, 25x60; owner and architect, W. R. JOHNSTON; builder, JOHN ASKEY.

THIRD ST., N. S., 150 E. 1ST AV., ONE TWO-STORY brick stable, 50x60; owner, SIMON STEINREICH; architect, JOHN MCINTYRE; builder, JAS. G. GEDNEY.

TENTH ST. (No. 205 W.), TWO FIVE-STORY BRICK stores and tenements, 13.6x24x65; owners, GREGOR HAMMA and F. STRUBEL; architect, WM. JOSE.

TENTH ST. (NOS. 178, 180 AND 182 W.), THREE three-story brick first-class dwellings, 16.8x35; owner, C. HALL; builder, W. H. ROSE.

TWENTY-FIFTH ST., S. S., 200 E. 11TH AV., ONE one-story brick factory, 15x64; owner, E. A. ANDREWS; architect, M. C. MERRITT; builders, AMOT & VANDOLSEN.

THIRD AV. (No. 69), ONE FOUR-STORY BRICK store and tenement, 25.7x6; owner, W. B. ASTOR; architect, P. KISSAM; builders, JAS. WEBB & SON.

TENTH AV., W. S., 75 S. 58TH ST., ONE FIVE-STORY brown-stone store and tenement, 25x60; owner, MARY E. STAFFORD.

UNSAFE BUILDINGS.

Washington street, No. 82, D. A. Stanley, owner; unsafe front wall and cracked lintels.

South street, No. 170, John A. Lowery, owner; unsafe floor beams and flooring.

Washington street, Nos. 479 and 481, Jas. Price, agent; unsafe front wall (settled and cracked).

Charles street, No. 110, Henry C. Herring, owner; unsafe and bulged front wall.

Hudson street, No. 633, estate of Mrs. Gans, owner; unsafe front wall and centre pier.

Broome street, No. 480, Aaron Hardman, agent; unsafe and settled floor beams and rear.

Avenue B, No. 82, Samuel Karo, agent; dangerously unsafe front and lintels.

Market street, No. 72, Wm. Hayes, agent; unsafe generally.

Baxter street, No. 18, estate of F. L. Vulte, owner; unsafe front and cracked lintel.

Allen street, No. 95, J. P. Munster, owner; unsafe front and rear wall and window arches.

Eighteenth street (No. 33, East), T. N. Hollister, owner; chimneys loose and unsafe cap.

Cortlandt street, No. 70, Ernest Fiedler, owner; chimneys bulged and dangerously unsafe.

ADVERTISED LEGAL SALES.

FOR THE COMING WEEK.

NOTICE.—The list of property given below is compiled from advertisements published in different newspapers, of auction sales to be held under direction of the Referee appointed. It may not be absolutely perfect but is as near so as we can make it.

REFEREE'S SALES TO BE HELD AT THE EXCHANGE SALES-ROOM, 111 BROADWAY.

MARKET REVIEW.

BRICKS.—The closing of the market this week developed little change in North River hards, scarcely any more activity prevailing than has recently been noted; however, at prices quoted much more firmness has been displayed. For inferior grades there has been a more active demand, and a very fair firmness has been done, which has strengthened prices considerably without effecting any increase. The dry weather which is so damaging to some other industries, is to the brickmaker a valuable as it enables him to turn out bricks without cessation, and reports say that the opportunity is not passing by unimproved—but that most of the yards are working with full force.

Our quotations for the week are as follows:—

Haverstraw Bay brick, $8@10 per M; Pale, $6 do; Jerseys, $6@8 do; Fronts are somewhat stronger, and best quality Crotons have experienced a slight increase. We quote Crotons, at $12@16 per M, and Philadelphia, $40@45 from the yard.

LATH.—Has shown a much stronger tone for the week, without any increased display of activity to speak of. So far such invoices as have reached here have been worked off in a quiet way, and with little difficulty, but unquestionably a steadier supply would quickly show adversely on the market. We quote at $2.25 per M.

LIME.—The market has grown no brighter since our last review. In consequence of the continued dulness, dealers have become so overstocked, that it has been deemed expedient to cease forwarding lime here for the present, and none is arriving. This fact enables holders to adhere very firmly to their prices, and as a result the week closes with all quotations precisely as they were for the same period previously. We quote Glenn's Falls, Bald Mountain, and Rockland common $1.50 per bbl., do. lump, or finishing, $2 do; Fort Ann and Manlius are ten cents less per bbl. on either grade.

LUMBER.—The activity noticed in the market last week has been in no degree abated during this week. Some of the yards are of course, more favored than others, and the bustle in them must be pleasant enough, in contrast with the dreary dulness that has hung over them for so many months. The increased business, of course, absorbs the stock on hand, and consequently the question of future supplies receives much consideration, and everything bearing upon "weather probabilities" and the drives in the lumber districts is seized upon and analyzed with critical nicety. The opinion seems rapidly to be gaining ground as the facts are becoming better known that matters are not so bad as they might be at the mills, and that at the most about as much stock will reach them as they can work up until they are further supplied by later freshets. The situation at any rate is not precarious enough to disarrange prices here, which remain absolutely unchanged from former quotations Eastern spruce is finding a good inquiry for cargoes to ar-

rive, and is very readily taken up at the figures we quote: Inferior to fair specifications, $18@20; real good sticks, $20.50@21.50. White Pine shows scarcely any variation in tone, and we quote as heretofore; for common to fair box and shipping boards, $31@33; for good do, $35@38; pickings and selects, $40 and $45 respectively. Yellow Pine holds $28@30 for random cargoes and $32@38 for special cuts, and $40 for fancy do.

The exports of lumber are as follows:—

Total	468,109	9,734,401	6,694,889
Value	$15,180	$317,970	$206,272

We note additional exports as follows:—

To Hamburgh, 306 walnut logs, value, $10,223: to Bremen, 282 cedar logs, value, $5,000: to Liverpool, 82 walnut logs, value, $2,700 and 61 cherry logs, value, $1,300; to London, 3 cases veneers, value, $393; to Havre, 18 cedar logs, value, $4,179 and 39 maple logs, value, $750: to China, 750 knees, value, $1,500; to Hayti, 10,000 shingles; to Antwerp, 2,400 staves; to Liverpool, 5,500 do; to London, 15,400 do; to Marseilles, 4,718 do; to Danish West Indies, 300 shooks and heads; to Liverpool, 1000 shooks; to British West Indies, 160 do; to Cuba, 9,877 shooks and heads; to Brazil, 1,960 do; to Cuba, 1,685 empty hogsheads and 7,800 hoops, and to Danish West Indies, 18,000 hoops.

Charters as follows:—

An American ship, 843 tons (now at Boston), from St. John, N. B., to Bristol Channel, deals, 66s. 3d.; an American ship, 1,271 tons (now in the Pacific), from Melbourne to London, at or about £4,000; a British ship from Quebec to Liverpool, timber, 30s. per load; two American barks, 458 and 561 tons, from Calais, Me., to River Plate, lumber, $18 and primage; a British bark, 520 tons, from Port Johnson to Montreal, coal, $1.80, thence to Montevideo or Buenos Ayres, lumber, $22.20 net, privilege of Rosario $3 extra; a bark, 391 tons; a British bark, 363 tons, and a brig, 484 tons, from Savannah to River Plate, lumber, $23 and primage: a British brig, 215 tons, from Stilla River to St. John, yellow pine timber, $12, and small stowage $10; two schrs., from Port Royal to Portland, resawed lumber, $11.

Special review of the Canada Lumber Market furnished exclusively to the REAL ESTATE RECORD by Carbray & Routh, Lumber Commission Merchants of Montreal and Quebec.

MONTREAL, MAY 13, 1872:—It is still early to write positively on the results of the drive here; appearances are not now as unfavorable as they seemed a short time ago, when with the rivers at near summer marks, and few logs yet at the mills, it seemed as if there was going to be a very short supply. Mills, however, taught by the experience of former years, not to wait for more favorable weather, went promptly to work to form dams, with the intention of sluicing the small rivers, and rushing down their logs at a stroke, the result of which has been in some parts most satisfactory. Our opinion therefore is that in the St. Lawrence section, mills, having banked nearly 30% more logs than they can cut, will have all they reasonably want for the season—over 50% of their logs being now at the mills; but that in Ottawa and Western sections the supply will be short, to what extent cannot yet be said, but in Western Canada the shortage will certainly be very considerable.

Deals have taken another turn up and we quote now as follows:

	May 13, 1872.	M'ch, 1872.	M'ch, 1871.
Pine, 1st quality	$98	$90	$82
2d "	64	60	54
3d "	32	30	27
Spruce, 1st "	36	34	32
2d "	28	26	23
3d "	20	18	16

all per Quebec standard hundred = 2,750 feet. B. M. Notwithstanding these very high figures, the shipments this year will only be limited by the supplies of stock and of tonnage, the demand in Europe being enormous on account of the almost total failure of the log crop in Norway and Sweden, the usual chief base of supplies, and also on account of the state of prosperity generally in all branches of industry in Great Britain, creating an almost unprecedented and constantly increasing demand for all kinds of wood goods.

Prices of boards have not varied since our last report; Spruce is, if anything, a little firmer. Buyers must now wait for new cut, old stock being entirely exhausted; this deficiency in dry lumber will tend very much to keep up prices all the summer, and being then followed by the usual heavy demands for fall stocks, we cannot say we see any prospects of lower quotations.

Mills in the hemlock section, which usually begin sawing 1st of March, have this year only begun operations 1st of May, and as they can never run after the 15th of July for want of water, it follows that many of their logs will not see the saw till November, too late for shipment this season; the same may be said of the small pine mills on the Ottawa.

On account of extensive repairs to the Grenville Canal, on the Ottawa, it will not be open till the 3d of June, and even later should any accident happen to retard operations: this will seriously put back shipments to the River Plate, and have a certain influence on freights to United States, as a larger business than usual will have to be done in a very short season.

We defer freight quotations till opening of canals.

The Saginaw *Courier*, May 5, has this:—

From advance sheets of the Muskegon *News and Reporter*, kindly furnished us by the publisher, we are permitted to give the following statement of the drive on the Muskegon and other streams on the East shore of Lake Michigan:—

"We have had but little rain this spring in the Muskegon Valley, and the snow is all gone, making the river at an excessively low running stage. Many doubt of getting more lumber to market than was cut last year. Water is falling instead of rising, and some who logged on small streams far up the river, have taken their driving crews off and given up getting their logs this season. On the Little Muskegon there was about 115,000,000 put in this winter, 40,000,000 of which will be hung up. This is true of all the small streams emptying into the Muskegon, with the exception perhaps, of Tamarack Creek. On the two Clam rivers there is 33,000,000 and not a rollway broken, nor can they do so on account of low water. On the West branch, about one-third the rollways are broken, the men had to quit work for want of water. On Butterfield Creek the men stopped operations ten days ago for the same reason—want of water. Generally there is a successful drive on these small streams in the spring of the year, when there are heavy rains before the snow melts. After that there is little hope, as, if there should be heavy rains in June or later in the summer, it takes time and trouble to get men together, and when the logs are reached the water falls so they cannot break rollways. It is the opinion of some lumbermen that the log drives cannot reach the booms here, while the short drives on small streams will be unsuccessful. From the figures we give herewith, it will be seen that there was an unusual large amount of logs cut on the Muskegon and tributaries this winter—the greater portion being on the small and uncertain streams. As shown above, the prospects of a successful drive are rather poor. We cannot expect under the most favorable circumstances to get more than two-thirds of the amount put in, and should the present dry weather continue ten days longer, we fear that but a small percentage of logs secured on the tributaries the past winter, will be available for this season's manufacture. Without snow, and with frost out of the ground, dry swamps, and the country in a state of drought for this season of the year, with a very large proportion of the stock in small creeks and tributaries, it is not very encouraging for those that anticipated to saw double the amount of lumber this season over last year, and there is no danger of overstocking the lumber market at any time this season.

Since the close of the logging season, we have taken pains to ascertain the actual amount put in on the several streams last winter, and from the very best informed lumbermen on Muskegon River, among whom is Marshall W. Lloy, H. H. Getty, Jerome W. Mason, Charles H. Hackley and others, we have the following estimate, which would vary but little from the aggregate official figures in the fall, were it possible to get the entire stock of logs to the mills this season,

Muskegon River, proper	160,000,000
West Branch of Main River	7,000,000
Butterfield Creek	7,000,000
West Branch of Clam	14,000,000
Clam River	19,000,000
Middle Branch	16,000,000
Green's Creek	4,000,000
Doc and Tom's Creek	15,000,000
Ryan's Creek	12,500,000
Little Muskegon	115,000,000
Tamarack Creek	52,000,000
Cedar Creek	8,000,000
Total amount for 1872	429,500,000

There is a jam of about two miles of logs at the mouth of this river containing about 15,000,000 feet. Logs on the main river are rapidly coming down, and the 160,000,000 feet put in on this stream will reach the booms in due time, followed by the logs in the tributaries that have water enough to float out into the main stream.

From same paper.

HUNG UP.—We are informed by Mr. A. B. Claflin, that the entire crop of logs of the North branch of Bad River—about 20,000,000 feet—is hung up. Heavy rains are required to float them out, and unless these come soon they must remain in the stream until next spring.

LOG SALES.—Messrs. Brockway & Bennet of Saginaw City, sold last week to Botsford, of Cleveland, 11,000,000 feet of Chippewa and Pine River logs to be delivered at Briggs' Mills at $10.50 per M.

B. B. Bartlett, of Saginaw City, sold a few days since to H. M. Bradley, of Bay City, 2,500,000 feet of Swan Creek logs to be delivered afloat below Tittabawassee boom, at $11 per M.

The Chicago *Times*, May 8, says:—

The wholesale lumber market was more numerously attended on yesterday, both by city and country buyers, and under the influence of an improved demand, a fairly active day was experienced. The offerings were liberal, most of the vessels offered having arrived on Monday, and fully 25 cargoes changed ownership during the day. At the close of business hours, only two or three cargoes remained unsold. Most of the offerings consisted of common mixed lumber and joist and scantling. Prices were steady at Monday's decline, closing as follows:—

Choice boards and strips	$18 00@19 50
Good boards and strips	16 50@17 50
Common boards and strips	14 00@15 00
Common mixed lumber	12 00@14 00
Joist and scantling	14 00@14 50
Shingles	3 00@ 3 10
Lath	— —@ 3 50
Pickets	— —@12 00

Sales include the following:—

Cargo of schr. Falcon, from Ludington, 100,000 feet joist and scantling at $14—sold by J. M. Loomis & Co.

Cargo of schr. Sinai, from Ludington, 125,000 feet joist and scantling at $14—sold by J. M. Loomis & Co.

Cargo of schr. Gesine, from Grand Haven, 64,000 feet coarse mixed lumber, at $13; 13,000 feet hemlock, at $9—sold by E. M. Doubleday.

Cargo of scow Scottish Chief, from Whitehall, 50,000 feet inferior mixed lumber, at $12; 7,000 feet 2-inch oak plank, at $23; 5,000 pcs lath at $3.50 - sold by E. M. Doubleday.

Cargo of schr. Robert Howlet, from Grand Haven, 230,000 feet boards, and 119,000 feet scantling and joist, at $12; 560 pickets, at $12; 25,250 pcs lath, at $3.50—sold by E. M. Doubleday.

Cargo of schr. Kate E. Howard, from Grand Haven, 90,000 coarse mixed lumber at $13.50; 40,000 lath, at $3.25; 2,000 pickets at $12—sold by E. M. Doubleday.

Cargo of prop. Ira Chaffee, from Saugatuck, 400,000 "A" shingles at $3.10—sold by Carter & Jones.

Cargo of barge Abigail, from Grand Haven, 96,000 feet mixed lumber, at $14—sold by E. M. Doubleday.

Cargo of schr. Leo, from Grand Haven, 85,000 ft. coarse mixed lumber at $13—sold by E. M. Doubleday.

Cargo of schr. Winnie Wing, from Manistee, 60,000 feet joist and scantling, at $14; 87,000 feet hemlock, do., at $10—sold by R. K. Bickford & Co.

Cargo of schr. D. Newhall, from Muskegon, 128,000 feet common mixed lumber, at $13.50—sold by J. Fraser.

Cargo of schr. Annie Tomine, from Ludington, 120,000 feet joist and scantling, at $14.25—sold by J. M. Loomis & Co.

AT THE YARDS.—Here no new features were developed yesterday. There was an active movement on both local and interior account, as builders were improving the time to hasten forward the rebuilding of the burnt districts. The stocks were moderately large, and a firm feeling was developed. We again quote:—

On Track.—There was a fair demand for shingles by the car-load on yesterday, and under ample receipts, prices ruled unchanged, and steady as follows:—

A, or star	$3 12½@3 37½
No. 1, sawed	1 50 @2 00

Three dollars per car to be added when transferred, which charge follows the shingles.

Thickness—Five shingles to be two inches in thickness.

Length—Sixteen inches.

The Williamsport, Pa., *Weekly Epitomist* says:—

The lumber trade of the present season opens with a more systematic understanding among all the lumbermen of the Susquehanna region, than at any previous time. The formation of the Lumberman's Exchange, under a charter from the Legislature, will have a tendency to produce more uniformity of action, and a more satisfactory inspection than heretofore. The meeting for organizing was a very large one, representing all the principal dealers of the upper Susquehanna and its tributaries.

The season opens here with about one-third of the stock in the boom, the remainder being mostly hung up in the small streams. At present there is very little prospect of a rise sufficient to bring forward the drives. We hear that the Driftwood drive is hung up at Cameron, Bennett's Branch drive at Benezett or near there. The mills here are all sawing, and shipping is active, at full prices, and there is not a very flattering prospect of buyers obtaining lower prices by waiting.

The *Epitomist* publishes very full comparative tables of shipments of lumber from Williamsport, as well as of stock now on hand from which we extract the following:—Total stock on hand in Susquehanna district, January, 1870. Pine, 208,666,157 feet; hemlock, 6,098,000 feet; of lath, 27,627,300; of pickets, 1,653,665. January 1, 1872. Pine, 78,715,883 feet; hemlock, 2,832,500 feet; of lath, 13,397,600; of pickets, 2,570,605. Total shipments, 1871, by all routes, 269,863,392 feet, against 251,842,478 feet for 1870.

From Troy *Times*, May 11.

LUMBER.—During the past week the lumber trade has been rather quiet. Nearly everything desirable has been sold, and not much activity can prevail until new stock begins to arrive. Although the past winter was exceptionably favorable for all logging operations, and the cutting in all lumbering regions was remarkably large, yet grave doubts are expressed as to whether the stock of manufactured lumber for this year's business will be sufficient to meet the probable demand. It has been estimated in Michigan and Canada, that not more than one-half of this winter's cutting will get to the mill for manufacture this season, on account of the low water in the rivers holding back the drives. Moreover, all the mills are this year very late in starting up. Last year on the Hudson, the mills were sawing early in March, whereas this season many have not yet been able to start up, on account of high water and want of logs to work with. The big boom has not yet been opened, but sorting out will now commence soon. It is probable that the demand West will take nearly all the Michigan pine, and in Canada foreign orders have already engaged a large proportion of this year's manufacture. The standard stock for spruce this year will be nine inches instead of ten inches, as heretofore.

From Bangor *Weekly Courier*, May 6.—The demand for all kinds of lumber is very good at present, and prices may rule a trifle higher, but there will probably be no marked change until later in the season. Since our last issue the better qualities of dry pine have advanced in price, very little remaining unsold at present in market. Freights to Boston, $3; New York, $4 25; over the Shoals, $4; Philadelphia, $4@4.25.

The Saginaw *Courier* says:—Owing to the still unfavorably dry weather, rendering it unlikely that a stock of logs adequate to fully supply the mills to their cutting capacity, will be brought down the streams, and that consequently a short crop of lumber may be looked for, prices are well maintained and may be stated as advancing. Sales are reported at $8 for shipping culls, $16 for common, and $40 for uppers, but $7, $14 and $38 are prevailing figures, although we have heard of sales at $6½, $13 and $35. The movement in oak timber on the river is lively—the major part of the lumbering of this timber having been done low down on the streams, so that it is more likely than pine to reach the market. The increase in the production of oak timber for the past two years has been enormous, but the stock is not open to quotations as to price, owing to the fact that it is principally got out by parties, who ship to eastern and Quebec markets direct.

The Menominee *Herald* says:—The drive on the Menominee is progressing much more favorably than the most sanguine of lumbermen thought possible, two weeks since. The rains in the north have kept the main river and northern branches up to a very fair stage, and the logs are on the move. The prospects now are that all above Little Cedar will be got down, which will give us at least 140,000,000 feet, 20 per cent. more than was ever manufactured on the Menominee. Later advices speak more hopefully of the other streams, especially Cedar River.

The drive on the Escanaba is progressing slowly, but still it is progressing, and a good rain would send it down flying. They have 5,200,000 feet of logs cut. Mr. Langley is quite seriously indisposed, owing to exposure, but we trust will be around again all right.

Richard Mason has his logs on the Whitefish sufficiently in hand to insure them coming out all right. He has made radical improvements in his mill, and reports 5,000,000 product.

On the Ford it will be almost impossible to get even a majority of the logs down without heavy rains, or a great deal of work on the dams. The Superintendent, Mr. Ross, is giving personal attention to the drive, and if perseverance and hard work will accomplish anything it will be done.

We found the American house at Cedar River full, but the mill pond empty. Mr. Armstrong, the superintendent had a large force of men up the river waiting with what patience they could command, for the rains and high water which are necessary. The parched earth has drank up the winter snows, and seems even yet unsatisfied. We understand that the entire force are to be put to work building dams, but very much doubt if the drive makes its appearance before the June freshet.

The Oconto *Lumberman*, thinks upwards of 60,000,000 feet of logs will be hung up on the Oconto and its tributaries.

It is reported that lumbermen on the St. Croix River will get out 65 per cent. of their lumber on the present stage of the water.

Markets from Savannah *Republican*, May 10.—TIMBER AND LUMBER.—Timber. Receipts very large for the past week, but all taken up on arrival at about our quotations. An active inquiry still exists for vessels for United Kingdom and coastwise. We quote: Mill timber, $9@10; shipping, do; 600 feet average, $8@9; 700 feet average, $10@11; 800 feet average $11@12; 900 feet average, $13@14; 1,000 feet average. $14.50@16. Lumber—active. Orders are plenty. We quote: Ordinary sizes, $20@21; difficult sizes, $21@25; flooring boards, $21@22; ship stuff, $.0@24, according to sizes.

METALS.—Ingot Copper remains dull, and as the season for fresh supplies of Lake gets closer at hand, it forces a gradual decline in the market. Since the strike of the miners, however at the Lake Superior mines, sales for future delivery have appreciated slightly with a very good business doing. We quote Ingot Copper 38@29c, and for future delivery firm at 35c; English has been favorably affected by the condition of affairs here and had quite a free sale. We quote at 32½@33½c. Heavy remforcements of Scotch Pig iron has weakened the market slightly, but prices at the reduction are held firm because of reported advances abroad. The demand for American Pig is not great, but prices rule very firm. We quote Glengarnock at $50 per ton; Gartshorne $52@53 do; American Pig No. 1, $48@52 do; American Pig No. 2, $47@51 do; Pig, American. Forge, $45@50; Bar, Refined, English & American, $105; Bar, Swedes, assorted sizes (gold) $85@100. Store prices, cash: Bar, Swedes $125@135; Bar, refined, ¾ to 2 in. rd. & sq.—1 to 6 n.x ⅜ to 1 in. $110; Bar, refined, 2½ to 6 by ¼ $115@—; Bar, refined, 2½ to 2⅞ round, 1 & 1⅛ by ¼ & 5-16, $117.50: Large Rounds, $122.50@$127.50; Scroll, 122.50@152.50; Ovals and Half-Round, $127.50@137.50; Band, $122.50; Horse Shoe, $120@$130; Rods, ⅜ @ 3-16 inch, $115@155; Hoop, $135@177.50; Nail Rods, per lb., 8c; Sheet, Russia, as to assortment (gold), 18½c; Sheet, Singles, Doubles and Trebles, common, 6½@7½c; Sheet, Doubles and Trebles, Charcoal, 7½@8½c; Sheet, Galvanized, List, 10 per cent. disc.; Rails, English (gold), per ton, $74@75; Rails, American, at works in Penna., currency $83@85. The market for Pig Lead is rather quiet but firm in tone, the supplies which the government is furnishing interfering with importations. We quote ordinary foreign at 6¼@6¾c gold per lb; Refined 7c per lb; Bar 8¼c do; Sheet and Pipe 10½c do; Tin-lined pipe 15c do cash, usual discount to trade. Pig Tin continues dull with prices in favor of buyers, and altogether nominal, but we give the following quotations: Banca, 48@49c gold per lb; Straits, 38¾@39¼c do; English, 39@39¼c do. There has been no improvement in the demand for plates, and the prices by reason show rather a weakening tendency, but until a more positive movement occurs we leave our quotations unchanged. Sheet Zinc remains steady at 10½@11c per lb.

NAILS.—Recent liberal exportations have reduced the stock on hand to quite a small quantity, but the present demand is not sufficiently great to create anything more than a strong market, and we quote figures of last week as follows: cut, Hook-head brads, Fencing, and Sheathing, 10@60d, per keg, $5.75; cut, 8@9d, $6 do.: cut, 6@7d, $6.25 do; cut, 4@5d, $6.50 do; cut, 3d, $7.25 do; cut, 2@3d. fine, $8.00; cut, 4@4½d, sugar-box, $6.75; cut spikes, all sizes, $6.00; cut finishing, flooring, box, coopers, casing, slating, trunk, and tobacco, 10@3d, $6.25@$7.25; clinch, 2 to 3 inch and over, $7.25@7.75; horse-shoe, forged, No. 10 to 5, per lb., 21@23c. Copper, 51c. per lb.; Yellow Metal, Sheathing, and Slating, 30@32c. do. We note exports of 1,947 kegs, 313 cases, and 42 boxes; value, $13,182.

Exports as follows:—

	Past week.	Since Jan. 1.
Packages	482	8,045
Value	$3,147	$60,898

OILS.—The tone of the market for Linseed oil has not improved much. City buyers have been in the market with some orders, but the business done has not extended beyond that, and the demand for jobbing lots has only been fair. Quotations are unchanged at 92c per gallon for crushers in casks; 93c for do, in barrels. Linseed boiled, in barrels, and refined, do, 98c; and outside lots in casks, 90c.

PAINTS.—Generally look better, the demand being sufficiently good to create a very strong tone. Paris Green remains high and is quite active, and the stock of Zincs needs replenishment to supply the demand. The jobbing trade continues active with a free movement for full lines. Quotations however are not altered.

Exports as follows:—

	Past week.	Since Jan. 1.
Paint packages, 37, Value,	$1,262.	2,772, Value, $26,206.

SPIRITS TURPENTINE.—Has shown marked activity for the week and figures have risen considerably over the quotations of the previous week. Whether they will remain fixed for any length of time is a question, as the recent movement is looked upon as a speculative one, and the prices beyond what the consumption would seem to warrant. We quote the increase however as follows: Spirits turpentine, merchantable order, per gallon, 58½@59c; do shipping order, per do, 59@59c; do from store, per do, 60@61c; do, in cases, per do, 67@68c. Receipts for the week, 490 bbls: total since January 1, 17,802 bbls: same time 1871, 15,852 bbls. Exports for the week, 1,069 bbls; since January 1, 8,532 bbls; same time, 1871, 2,389 bbls.

TAR.—With most of the other classes of naval stores, tar has had a more lively week, and under the influence of the briskness, the prices have been still further advanced over those of the previous week. We quote Wilmington as it runs, at $4@4.25 per bbl. and Newberne and Washington as it runs, at $3.50@3.75 do.

ALBANY LUMBER MARKET.

The Albany *Argus* reports as follows:—For the week ending May 15, 1872.

Fires in the woods are very unusual at this season, and their occurrence is attributable to the want of rain. Extensive fires are reported in the forests of Michigan and elsewhere, owing to the dry season that has for so long prevailed. The remark frequently made (mostly by buyers) that the same energy that was able to cut down so many Logs will devise some means of getting them down to the mills, will not hold good this season; for even with heavy rains, it will now be impossible to get more than half of the quantity of Logs out of the streams and rivers. The "oldest inhabitant" cannot recall the time when, even during the dryest seasons, the water was so low in the streams, rivers and lakes. If all of the Logs are not got down to the mills, it will not be for the want of prodigious efforts and great outlay of money and time in building of dams, and the employment of every possible means to assist the drives. It is pretty well ascertained that throughout Canada, Michigan, Pennsylvania, &c., at least 25 to 50 per cent. of the Logs will have to remain over till another year, and calculations may with safety be made accordingly. A noticeable feature during the past week has been reports in the Chicago papers of a decline in prices at that market, owing to heavy arrivals. This is easily accounted for, from the fact that most of the mills around Lake Michigan have no facilities for piling lumber, and are altogether dependent on the Chicago market for its sale, direct from the saw. This the Chicago dealers are well aware of, and as a consequence lay themselves out to profit by a rush of shipments and hold off from buying till sellers are obliged to come to their terms. That market is always subject to the same fluctuations from time to time. The yards at Chicago are doing a fine and a profitable business. The demand is active and profits large, from the fact of floating cargoes being sold at a decline.

Stocks are lower at the mills and at all the yards throughout the country than they have been for years, and with the expected falling off in new production must keep prices up and the markets firm. The Albany District has seldom made such a poor appearance. The assortment is completely broken up. Since the opening of the river over 50 millions of feet of Lumber have been shipped and the stock remaining on hand made up of odds and ends, and hardwood does not exceed 30 millions of feet. The shipments recently have fallen off for want of supplies; but now that the Canal is open, fresh arrivals will come in and lead to greater activity. The first load of Lumber for the season—wintered over on the Canal—arrived on Monday at White & Co's. yard. The recent break in the Canal at Spraker's, will cause a delay of a week and help still further to shorten the season. The mills North have at last got started, and are busy sawing Spruce and Hemlock. We have not any change to note in prices.

River and Eastern freights are quoted as follows:

To New York, ₱ M	$1 50
To Bridgeport and New Haven	2 00
To Norwich and Middletown	2 50
To Hartford and Providence	2 50@2 75
To Boston, soft wood	5 00
To Boston, hard wood	6 00

MAGRATH'S COPPER SASH-CHAIN,
PATENTED 21ST MARCH, 1871,

Is adapted to ordinary round pulley, and strong enough to suspend weights of any size required.

Being intended as a substitute for sash-cord, it can be put into sashes now provided with cord without any change of pulleys. The inventor feels confident that experience will prove his chain to be both economical and durable, besides doing away with the constant annoyance and expense attending the use of sash-cord.

For terms and further information apply to
M. MAGRATH, Patentee, Carpenter and Builder,
74 Irving Place, New York City.

P. B. McENTYRE,

Estimates given for Excavations of Rock and Earth. Sand and Stone furnished for Buildings.

No one should Build or Live in a House
WITHOUT EXAMINING OUR
ELECTRICAL APPLIANCES,
without which no house can be said to have all or even the MOST IMPORTANT OF MODERN IMPROVEMENTS; in fact, they are indispensable for the complete outfit of a first-class house with what may be termed necessary conveniences. All English and French houses at the present time are furnished with this electrical apparatus.

E. HOLMES'
Burglar Alarm Telegraph.
This one Bell, located in the Sleeping-Room, when set for the night, rings upon the opening of each door and window of the house. It is a watchman that has but one house to protect; never goes to sleep; cannot be bought off; and an experience of ten years, without a failure, proves it to be perfectly reliable and satisfactory.
PARTICULAR ATTENTION
is requested to our new
HOUSE ANNUNCIATOR,
An improvement upon the French system.
IT CONSISTS OF A SINGLE
CALL BELL AND ANNUNCIATOR,
in the kitchen or servants' department, and so arranged that the simple touch of a small ornamented spring in each room of the house RINGS THIS BELL AND ANNOUNCES THE ROOM from which the call proceeds —the bell continuing to ring until the servants give it attention. The whole thing is operated by
ONE BATTERY, OR BY THE SAME BATTERY
that operates the
Burglar Alarm Telegraph.
It is simple, perfect, and reliable, and will not get out of order, and is a very great improvement upon the old system of "bell pulls." We also have
An Attachment for Ringing Door Bells and Servants' Bells from the
TABLE OR DINING ROOM,
by placing a spring in the floor, and covered by the carpet. Also, for
Calling the Coachman from the Stable.
Send for pamphlet containing ten or twelve hundred TESTIMONIALS. They are from our best citizens and first business men of New York and vicinity.

E. HOLMES,

69 West Fourth Street, Cincinnati, Ohio.
205 River Street, Troy, N. Y.
121 Washington Street, Boston, Mass.

CAUTION.
The public are cautioned against all infringements upon this patent, even when called improvements; other parties have slightly changed my method of doing the same thing, and without any practical experience speak of it as a very great improvement. This invention is the only one that has had practical experience. It has been in general use for ten years, and every real, practical, or desirable improvement that study and actual experience could suggest has been added.
All violations of my patent, either by using or vending an infringement, will be dealt with to the full extent of the law for such cases provided.

PROJECTED BUILDINGS.

The following plans embrace all that have been considered by the Superintendent of Buildings since our last report:—

BROOME AND GREENE STS., S. E. COR., ONE SIX-story iron first-class store, 50x109; owner, R. H. L. TOWNSEND.

ELIZABETH ST. (No. 216), E. S., 180 N. PRINCE st., one five-story brick store and tenement, 20x 51; owner, THOMAS HANLON; architect, PETER TOSTEVIN; builders, RABOLD & TOSTEVIN.

ESSEX AND BROOME STS., S. W. COR., TWO FIVE-story brick stores and tenements, 18.9x54 and 64; owner, P. H. OTTMAN; architect, WM. JOSE.

ESSEX ST., W. S. (No. 147), 150 S. STANTON ST., one five-story and basement Philadelphia brick store and tenement, 25x74; owner, CHARLES J. FOLSAM; architect, ZACH. PECK; builder, JOS. SCHAEFFER.

FORTY-THIRD ST., N. S., 150 E. 1ST AV., CNE two story brick stable, 50x60; owner, SIMON STEINREISCH; architect, JOHN MCINTYRE; builder, JAMES G. GEDNEY.

FORTY-FIFTH ST., N. S., 150 W. BROADWAY, FIVE four-story brown-stone first-class dwellings, 20x 56; owners, FALLON & KENNEDY; architect, WM. H. CAUVET.

FORTY-FIFTH ST., S. S., 275 W. 9TH AV., ONE four-story brick tenement, 25x58; owner, JOHN HARNEY.

FORTY-EIGHTH ST., S. S., 225 E. 12TH AV., ONE three-story brick factory, 50x50; owners, J. W. STEVENS & BROS.; architects, D. & J. JARDINE.

FIFTY-SIXTH ST., N. S., 350 W. 6TH AV., SIX five-story brown-stone French flats, 20x80; owner, FRANCIS LESSETTE; architect, JOHN G. PRAGUE.

MADISON AV. AND 58TH ST., N. W. COR., ONE six-story brown-stone public building, 44.6x95; owner, GEO. H. TAYLOR; architect, JOHN CORREJA; builder, AMOS WOODRUFF.

NINTH AV., W. S., 25 S. 17TH ST., ONE four-story brick store and tenement, 20x63; owner, JOHN MCILVAINE; architect, WM. H. CAUVET; builder, JAS. KEMPLE.

ONE HUNDRED AND TWENTY-FIFTH ST., S. S., 140 w. 4th av., one three-story brick stable, 50x94; owner, H. G. SILLECK; architect, JOHN G. PRAGUE.

SHERIFF ST., E. S., 180 S. STANTON ST., ONE five-story brick store and tenement, 25x52; owner, JOHN SCHNEIDER; architect, FRED'K JEUTH.

STANTON ST. (NO. 68), ONE FIVE-STORY BRICK store and tenement, 25x75; owner, JOHN SCHUNGG; architect, WILLIAM JOSE.

SIXTEENTH ST., S. S., 133 W. AV. C, ONE FIVE-story brick store and tenement, 25x65; owner, JAMES MCKENNA; architect, JOHN C. BYRNE; builder, W. FETTRETCH.

SIXTY-THIRD ST., S. S., 150 E. 4TH AV., TWO four-story brick store and tenement, and one two-story stable, first 25x57, other 25x32; owner, PAT. FARLEY; architect, JOHN G. PRAGUE.

SIXTY-SIXTH ST., S. S., 250 W. 1ST AV., SIX FOUR-story brick tenements, 25x55; owner, JAMES GILMORE; architect, JAMES BARRETT.

SECOND AV., W. S., 17 S. 1ST ST. (NO. 15), ONE three-story brick saloon, 17x59; owner, H. KOHN; architect, WILLIAM JOSE.

THIRD ST., N. S., 75 W. LEWIS ST., ONE FOUR-story brick factory, 45x70.10; owner, GEORGE HARLEY; architect, RICHARD SHAPTER; builders, LAW & SHAPTER.

THIRTEENTH ST., S. S., 250 W. AV. B, ONE TWO-story brick stable, 25x15; owner, OWEN MULREADY; builder, NICHOLAS MARTIN.

THIRTY-SIXTH ST., N. S., 50 W. 1ST AV., SIX FIVE-story brick stores and tenements, 26.8x56; owner, F. GERARTY; architect, WM. JOSE.

THIRTY-EIGHTH ST., S. S., 323 E. 10TH AV., TWO five-story brick store and tenements, 24.3x60; owner, JAMES GILMORE; architect, JAMES BARRETT.

THIRD AV. (NO. 76), W. S., 75 N. 11TH ST.; ONE five-story brown-stone store and tenement, 25.10x 62; owner, MRS. RYAN; architect, R. SHAPTER; builders, LAW & SHAPTER.

THIRD AV. & 113TH ST., N. E. COR.; ONE FOUR-story brown-stone store and tenement, 25.2x55; owner, ANN M. BELDEN; architect, JOHN SEXTON.

THIRD AV. & 116TH ST., S. E. COR.; FIVE FOUR-story brown-stone stores and tenements, 20x55; owner, WM. H. JACKSON; architect, JOHN SEXTON; builders, DYE & WILSON.

UNSAFE BUILDINGS.

Second street, No. 169, C. J. Folsom, agent; unsafe rear wall and piers.

Canal street, No. 193, S. Van Rensselaer Cruger, agent; in a generally dangerous unsafe condition.

Second avenue, No. 7, Mrs. Mary Cooper, owner. unsafe rear wall and brick pier.

Eighth avenue (front), No. 510, Stephen Wray, owner; unsafe foundation walls.

Ninth avenue, No. 443, C. C. Ellis, owner; unsafe foundation walls.

Eighth avenue (rear), No. 210, Stephen Wray, owner; unsafe foundation walls and rotten leaders.

West Twelfth street, No. 395, Mrs. H. Carroll, owner; building in a dilapidated and dangerously unsafe condition.

Sixth avenue, No. 533, Robert J. Livingston, owner; unsafe southerly wall from excavating.

West Thirty-fourth street, No. 164, James Cruikshank, agent; unsafe front and rear balconies.

Stone street, Nos. 17 and 19, Ann E. Douglass, owner; in a generally unsafe condition.

Platt street, No. 25, Anson Livingston, agent; lintels over entrance dangerously unsafe.

Thirty-fourth street, boundary north side, sixty feet east of Eighth avenue, John McGowan, owner; unsafe iron columns supporting front wall.

Broome street, No. 406, Wm. A. Keteltas, owner; unsafe foundation walls.

First street, No. 21, Fernando Wood, owner; chimneys out of plumb and unsafe.

Stone street, Nos. 17 and 19, Ann E. Douglass, owner; chimneys unsafe.

Liberty street, No. 142, John Kavanagh, agent; chimneys out of plumb and dangerously unsafe.

South street, Nos. 65 and 66, Smith Woodward and J. Stillman, owners; chimneys out of plumb and dangerously unsafe.

MARKET REVIEW.

BRICKS.—With a free outlet for all arrivals, brick yet maintains the prices at which it has been recently quoted; but it is hardly anticipated that this will continue for the season. The new crop, some of which has already made its appearance in the market, will soon begin to arrive so copiously, that a disarrangement of prices will probably ensue, unless the demand should absorb the supply as fully as it does now. The crop of brick produced so far is said to be of very fine quality, the weather having been propitious to the making of them. We quote Haverstraws at $8.50@ 10 per M; Jerseys, $6 to $8 do; Pale, $6, Fronts unchanged at $12@16 per M for Crotons, and $40@45 for Philadelphias.

CEMENT.—A great revival of activity has occurred in the market for cement, the demand being chiefly for the better brands of domestic, such as the Rosendale cements. The turn which has taken place is a triumph for American stock over the foreign, which last year threatened, even at the high rates it commanded, to supersede the domestic product. As matters stand now, our manufacturers are pressed to the utmost to fill orders, and others report that even after they have increased their manufactures fifty per cent. they find themselves one and two weeks behind in their deliveries. Prices remain as last week, for Rosendale, per barrel, $1.60; other qualities, $1.50.

DRAIN AND SEWER PIPE.—The market for drain and sewer pipe is moderately active, the chief demand being from localities outside the city, although the calls from plumbers and others within its limits are fair. The call is more particularly for small pipes, and manufacturers are consequently more generally employed on that class of work. This is one of the industries likely to be affected by the present labor agitation, and some manufacturers admit that it somewhat interferes with their designs for the future. Our quotations remain unchanged. Fire brick are quiet at our quotations.

FOREIGN WOODS.—Recent sales show an increase in several styles of wood, particularly for those from Mexican and Cuban ports, shipments of which are rather obstructed by the unsettled state of those countries. In fact, the market is entirely bare of some kinds. The most notable change is for the better qualities of lignumvitæ, which is quoted as high as $70. The supply is as follows:—of cedar, 4 cargoes Mexican, 1 of Honduras; of Cuba cedar, 1 cargo of mahogany; of St. Domingo, 50 crotches; of Honduras 100 logs; of rosewood, 5,600 logs, Bahia; Rio Janeiro, 1,200 logs; of lignumvitæ, no supply; in satinwood, no supply.

LATH.—With a very fair business doing in the main, lath yet shows a very strong front. The arrivals of cargoes have been quite frequent, but the outlet has nearly if not quite equalled it. Quotations remain unchanged at $2.25 per M.

LIME.—There is very little change to note in the market, either for the better or the worse, although the situation is not quite so gloomy as last week, when manufacturers ceased shipping their lime to this point, by reason of inability of dealers to get rid of the stock that had been rushed

upon them. The figures are as previously reported. Glenn's Falls, Bald Mountain, and Rockland, per barrel, $1.50@2.

LUMBER.—There was a falling away last week from the activity which had been observed during the two weeks preceding it. The lull seemed to be quite general, and did not apply, as it sometimes does, to a few yards. Of course, there were some where it was not so emphatic, but even the most favored felt the relaxation more or less. The suddenness with which it came on, led to the belief that it was attributable chiefly to the new outburst of the laborers for less work and more pay; but the conflict between the employers and the laborers was settled so quickly, thanks to the good sense of the former, that it would not seem as though the very sudden and very temporary agitation could have affected any interests outside of those coming directly under its influence. It is expected in some of the yards that their men will kick out of the traces early next week. As it stands now very few dealers have need of all the men employed by them, and as it is known to them that the very men they can best spare are those who have been chiefly instrumental in creating disaffection amongst their assistants, the ringleaders will probably find themselves out of a job, and if increased pay must be given it will go to the men who are retained, for no strike can oblige tradesmen to employ more help than is necessary to do their work. Reports from the West seem to indicate the possibility, already hinted in this paper that the supply of logs for the mills would not be so seriously affected, as it was believed it would, by the early drouth; nevertheless, a strong effort is made in a recent edition of the Albany *Argus* to bull the market on these very contingencies. There is nothing, however, to indicate any immediate rise in prices in this city, which remain firm at our last quotations.

Eastern Spruce is quickly taken up on the arrival of cargoes at full prices, of which there is no alteration in our quotations, inferior to fair specifications being $18@20, and first-class sticks from $20.50@21.50. White pine is unchanged, but in fair demand. We quote for common to fair box and shipping boards, $21@33; for good do, $35@38; pickings and selects, $40@45 respectively. Yellow pine continues firm at former quotations, to wit: random cargoes, $28@30; special cuts, $32@38, and for fancy do, $40.

The exports of lumber are as follows:—

We note additional exports as follows:—To Liverpool, 29 walnut logs, valne $1,066, 11 satinwood logs, value $1,100, 794 pcs. timber, value $23,259, 5,000 staves, 74 empty cases; to London, 6,000 staves; to Leith, 4,800 staves; to Bremen, 2,397 staves; to Alicante, 16,320 staves; to Cadiz, 124,320 staves; to Lisbon, 6,000 staves; to British West Indies, 2,500 box shooks, and 900 shooks; to British Guiana, 600 shooks; to Cuba, 3,175 shooks and heads; to Porto Rico, 1,141 shooks and heads, and 25,000 hoops; to New Granada, 68 shooks and heads: to Cuba, 2,584 empty hogsheads, and 2,000 hoops; to Danish West Indies, 75 empty barrels, and 2 masts; to Peru, 3,000 hickory staves, 2 cases veneers; to Hayti, 400 bundles shingles.

Charters as follows:—A Br ship, from Quebec to Liverpool, timber, 30s, and deals, 82s 6d; a Br bark, 253 tons, hence to Montevideo, lumber, $18.50 per M. and general, 18¾c per ft., privilege of Buenos Ayres, $20 and 20c, or Rosario, $3 and 3c extra; one, 450 tons, to Buenos Ayres, lumber and general cargo, rates reserved; a terne schr, 495 tons, to Savannah, lump sum, and back from Brunswick, lumber, $12; a schr, 180 tons to Jacksonville, and back to Fall River, $15, covering outward freight; one, 150 M, lumber, from Savannah to New York, $13; two schrs, from West Coast, Fla., to New York, cedar, 17c per cubic foot.

The Saginaw *Courier*, of May 19, has the following:—

The past week has been an unusually active one in the lumber market, not less than 20,000,000 feet changing hands on the river. Dealers who have been holding back waiting for the result of the freshet, are now in the field buying freely at prices dictated by the seller. That a large proportion of logs will have to lay over is a recognized fact, and buyers are shaping their offers accordingly. It is unfortunate for them that they held off, as lumber, no doubt, could have been purchased cheaper thirty days since than to-day. The demand has been so great during the past ten days, that the river has been pretty well picked up, and considerable bought ahead, or to cut. The mills are now running to their full capacity, where the supply of logs is ample, but a number are behind on stock. The market as established is $7, $14 and $35, at which figures the majority of sales are made Two or three sales of inferior lumber at $6.50, $13 and $35, have been reported, but more sales are made at $7.50, $15 and $38, which is for a better class of lumber. The market is stiff at the first figures quoted. Among the sales reported are the the following:—A. W. Thompson to Estabrook & Mason, 1,000,000 feet, at $7, $14 and $35; Wright & Witherell to same parties, 1,000,000 feet, at same figures; A. W. McCormack, to Eastern parties, 100,000 strips, at $8 and $16; Weidemann & Wright, 3,000,000 feet of logs, to Merrill & Steel. Chicago parties, at $11.50, delivered at mill boom, Bay City; A. B. Paine, to Toledo parties, 500,000 feet, at $7, $14 and $35; Pitts & Cranage, 1,500,000 feet, and Eddy, Avery & Co., 500,000 feet, to Haynes & Co., Buffalo, at $7, $14 and $35, the lumber to be cut; D. L. C. Eaton & Co., to Buffalo parties, 500,000 feet of logs, to be cut, at $7.50, $15 and $38: A. W. Thompson & Co., 1,000,000 logs, to be cut into bill stuff, to Cincinnati parties, at $7 and $14.50, with no uppers. A sale of 200,000 feet at Bay City, Friday, for $7.50, $15 and $35 is reported, but no names are given. The lumber is yet to be cut.

The sale of a cargo of lumber, by Newell Barnard to Eastern parties, was made yesterday at $7.50, $15.50 and $38. A sale of 500,000 shingles, on dock, was also made yesterday.

THE PINE RIVER DRIVE.

The Gratiot *Journal* is informed by Mr. James Gargett, who, with Mr. J. F. Lathrop, has the control of driving Pine river, that they continue to keep the drive moving. It is slow and expensive work, owing to the unusually low stage of water, but, with the exception of about ten million feet hung up in the North, West and South branches of the river, they are quite confident of bringing the drive through. The rear is now between the North and South branches, moving at the rate of one mile a day, with "jams" and floods. It will reach the mouth of North branch this week, after which the progress will be more rapid. On the Little Salt all efforts have been abandoned to drive the logs from the head waters. The water has been too low to admit of moving large bodies of logs from the roll-ways, where they were banked. The weather continues very dry, and there is little prospect that any further effort will be made this season to get the logs out that are now hung up.

LUMBER SHIPMENTS.

Col. McDermott, deputy collector, kindly furnishes us with the shipments, etc., from the Custom House, Bay City, from April 11th, the date of the first clearance, to May 15.

Lumber, 247,49,074 feet; lath, 1,084,500; shingles, 2,595,000; staves, 151,900: square timber, 128,500 cubic feet; hoops, 13,200,000; salt, 30,051 barrels.

We cut this from the Green Bay *Advocate*, May 16.

THE DRIVE.—The recent rains have so raised the streams that we hear on every hand of the logs coming down. The greater part of the logs on the Menominee are coming down. The entire drive of the Peshtigo is coming; all the logs on the Oconto and its tributaries except perhaps one branch of Little River. Black Creek, a branch of the Wolf is full, and the logs will all run out. We hear that the logs are also coming down both the Big and the Little Suamico rivers—in fact almost the entire log crop of the Green Bay and Wolf river pineries will be got down in safety.

This is an unlooked-for event, and the lumbermen feel good over it; but we fancy, that if the same is true of the other pineries tributary to Chicago, it will pay the lumbermen not to cut more than two-thirds their stock of logs.

CURRENT TOPICS.—The long-wanted rain came at last—beginning on Wednesday of last week, and extending for the most part through the entire week. Its first consequences of importance to this region have been the flooding of the streams generally in this part of the State, so that logs are being got out.

We hear the best possible reports from all the streams. They are "bank full," and the drivers are in full force, with the best prospect of getting every log down. The Menominee, with its head waters reaching from near Lake Superior, where the snows have been deep, has been sure all the time. The danger has been with the Oconto, the Peshtigo, Pensaukee, the two Suamicos, and the smaller streams leading into them—all of which have been piled full from the results of the most successful logging season we have ever had. But these streams are now out of danger—and the only problem which our mill men have now for solution is whether the vast lumber product will or will not glut the market and prostrate the prices.

No better condition of things could be desired for planting and for the growth of the crops.

The rains have happily stayed the progress of the fires in the woods, north of us, which had again started upon the course of destruction so widely as to threaten a renewal of the scenes of last fall. These fires have been supposed to be a continuance of those of last October, but probably without truth. The great drouth which has so long prevailed, doubtless led to the starting of new fires.

The Chicago lumber market has had a fall under the pressure of the immense arrivals by lake within the past week or ten days. Michigan cargoes are selling at $12.50 and $13 for common mixed, and $15 and $16 for strips. Cargoes of A shingles were selling on Monday and Tuesday at $2.90.

We clip the following from a Canada paper:—"On the Chippewa and its branches there is probably in the neighborhood of 100,000,000 feet of logs, two-thirds or nearly, of which are hung up."

From the Saginaw *Courier*, May 18.

A St. Charles correspondent writes: "If the prospects for getting logs down the streams is as poor throughout the lumbering portions of the States as it is here, on Bad River and its branches, it is indeed poor and very discouraging to lumbermen. It has been stated in Saginaw papers, that more logs have passed into the Bad River booms this spring than ever before, which is a mistake. Three million feet will comprise all that has passed into the boom, and 7,000,000 all that has come down to this place, while about 50,000,000 feet are hung up in the streams above here. One of the largest saw mills and one shingle mill will have to be still this summer for the want of logs, and the other mills have a short supply."

THUNDER BAY.—An Alpena correspondent writes: "From the best information at hand there will be about 13,000,000 feet of logs hung up on this river this season. Very few of the logs banked on Bean Creek will be got out, and there are also a few other of the small streams on the upper south branch which can't be drove, and some are fearful that the logs that were banked above the sunken lake on the north branch will not get down. On most of the streams, however, the drives are progressing favorably, and a few have already got their drives down. There will probably be about 90,000,000 feet that will be got out, and that will be all that the mills will be able to cut. Some of the mills are being fitted up to run night and day, and thus increase their capacity. A few of the mills have already started, and the season gives promise of a very busy and lively one."

We take this from the Savannah *Daily Republican*, May 17.

TIMBER AND LUMBER—TIMBER.—Receipts for the past week have been very light, all taken up on arrival at about our quotations. An active inquiry still exists for vessels for United Kingdom and coastwise. We quote:—Mill timber, $9@10; shipping do, 600 feet average, $8@9; 700 feet average, $10@11; 800 feet average, $11@12; 900 feet average, $13@14; 1,000 feet average, 14.50$16. Lumber active. Orders are plenty. We quote:—Ordinary sizes, $20@21; difficult sizes, $21@25; flooring boards, $21@22; ship stuff, $20@24, according to sizes.

FREIGHTS.—Vessels are in demand for lumber cargoes, but none are disengaged. Lumber—To Philadelphia, $8.50; to New York and Sound ports, $10@10.50; to Boston and Eastern ports, $11@12; to Baltimore, $8@9; to Cuba, nominal; to River Platte, $23 and per cent. primage, By steam to New York, $10. Timber—Freights are from $1@1.50 higher than lumber rates.

NEW ORLEANS, May 14, 1872.

The demand continues dull and the market is fully stocked.

Cargo lots are quoted at $13@15 per 1000 feet for inch boards; $13@15 for scantling; $13@15 for weatherboards, rough; and $19@20 for dressed; $15@18 for rough flooring, and $25@30 for dressed: $20@25 for dressed ceiling: $25@30 for cypress; $3.50@4.25 for common shingles and $2.50@3 for laths. General orders on rough and dressed lumber are filled at $5 per 1,000 feet on cargo prices.

METALS.—No business has been done in Ingot copper this week, the quotations being entirely nominal at 26@27c for cash lots of Lake, 25c for June delivery, and 34½c for July. English, best selected, is held at 33c. Iron shows change from last week. With large receipts of Scotch pig, buyers have rather hesitated, and the prices are weak; lots to arrive are quoted at $49@50 per ton, and for spot $50@52 do. Gartsherrie, $52@53 do. American is yet in small supply, and the market firm at $50@52 for No. 1, and $48@51 for No. 2; No. 3, $45@49; Gray Forge, $50. English rails are steady, but quiet at $73, gold, per ton. The other quotations are:—Bar, Refined, English & American, $105; Bar, Swedes, assorted sizes (gold) $85@100. Store prices, cash: Bar, Swedes, $125@135: Bar, refined, ¾ to 2 in. rd. & sq.—1 to 6 n. x ¾ to 1 in. $110; Bar, refined, 1¼ to 6 by ¼ $115; Bar, refined, 2½ to 2¼ round, 1 & 1½ by ¼ & 5-16, $117.50: Large Rounds, $122.50@$127.50; Scroll, $122.50@152.50; Ovals and Half-Round, $127.50@137.50; Band, $122.50: Horse Shoe, $120@$130; Rods, ⅝ @ 3-16 inch, $115@155; Hoop, $135@177.50; Nail Rods, per lb., 8c; Sheet, Russia, as to assortment (gold), 19c; Sheet, Singles, Doubles and Trebles, common, 6½@7¾c; Sheet, Doubles and Trebles, Charcoal, 7¾@8¾c; Sheet, Galvanized, List, 10 per cent. disc.; Rails, American, at works in Pa., currency $8@85 The market for Pig Lead is quiet, but there seems a disposition to push prices. The stock of foreign is small, and the supply is threatened in Europe by prevailing labor strikes. The Government has already advanced its rates to $6.40, gold. Bar is steady at 8¾c per lb; sheet and pipe, 10¾ do; tin-lined pipe, 15c do, less 10 per cent. to the trade on all. Pig tin has not at all recovered from the depression noticed last week, and quotations are yet chiefly nominal. We give them as follows:—39¼@40c per lb; English, 39¼@39¾ do, and Banca, 50c do, all gold. Plates are in much the same position as when last quoted. While the Liverpool market is reported high and firm, there exists here rather a lack of buoyancy at the figures quoted by us, which are unchanged from our last. Zinc has felt the influence of the dullness which has recently prevailed in the market, and the price has declined slightly. We quote it at 10@10½c, currency.

NAILS.—Business remains in much the same condition as noted in our last issue, and with the exception of a reduction in copper nails, prices are unchanged. We quote:—Cut, Hook-head brads, Fencing, and Sheathing, 10@60d, per keg, $5.75; cut, 8@9d, $6 do.; cut, 6@7d, $6.25 do; cut, 4@5d, $6.50 do; cut, 3d, $7.25 do; cut, 2@3d, fine, $8.00; cut, 4@4½d, sugar-box, $6.75; cut spikes, al sizes, $6.00; cut finishing, flooring, box, coopers, casing

slating, trunk, and tobacco, 10@3d, $6.25@$7.25; clinch, 2 to 3 inch and over, $7.25@7.75: horse-shoe, forged, No. 10 to 5, per lb., 21@33c. Copper. 45c. per lb.; Yellow Metal, Sheathing, and Slating, 30@32c. do.

We note exports as follows:—

	Past week.	Since Jan. 1.
Packages	1,016	9,061
Value	$3,064	$63,962

also 100 kegs spikes; value, $763.

OILS.—Linseed crushers remain quiet. Such sales as have been made show a slight falling off from last week's prices, and we quote: Crushers in casks, 91c per gallon; do. in barrels, 92c do. Linseed boiled, in barrels, 97c do, and refined, 97c do; outside lots in casks, 88c do. We note exports of 530 gallons for the week.

PAINTS.—With a good demand leads hold very firmly to recent quotations, and for English the market is decidedly strong. Zincs are still very scarce, and both American and French command their quoted prices to a fraction. Paris Green with an active demand is steady, but vitriol having become easier will counteract any tendency to higher rates for the time. Red Lead is firm, the turn being towards higher figures, while Venetian, with a full supply is going off well. Reference to our table will show no alteration from former rates.

Exports as follows:—

	Past week.	Since Jan. 1.
Packages	132	2,904
Value	$1,262	$27,427

PLASTER.—The good time for dealers in plaster seems to have arrived at last, as from all reports they are crowded to their utmost ability to fill orders, and as they had previously changed the prices to correspond with their increased expenses, they must, as a general thing, be getting some remuneration after suffering losses for many consecutive months. We quote:—Nova Scotia white, per ton, $3@6. Calcined Eastern and City, per barrel, $2@2.50.

SLATE.—Is without any specially noticeable phases of activity. What demand there is is chiefly on orders from the country. It is too early yet to expect much of a call for city purposes, as few buildings which have been commenced this season have been as yet far enough advanced in construction to put roofs upon. Reference to our table will show that no alteration has occurred in any of the prices since our last.

STONE.—A usually active sentiment prevails for the several qualities, and, with the exception of some specifications of "native stone," holds steady at the prices adopted by the "trade" this spring. From the quarries we hear that full gangs of laborers are constantly employed in supplying the market. Those who quarry native stone, complain of the inroads of "peddling contractors," who undertake all manner of contracts, at all manner of prices, which tends greatly to unsettle the business; hence, so far as quotations concerning such specifications are concerned they may be considered almost nominal.

SPIRITS TURPENTINE.—The market has been fluctuating with numerous sales, and the general result has been to leave figures higher than our last quotations and quite firm. Such arrivals as have occurred have been quickly taken up, but a fuller supply may be expected as the direct shipments for this port have been larger. We quote:—Spirits turpentine, merchantable order, per gallon, 62@63c; shipping order, per do, 63@64c; do from store, per do, 64@65c; do, in cases, per do, 67@70c.

TAR.—Under a lapse into dulness the market has fallen during the week, and we quote Wilmington as it runs at $4 per bbl. and Newberne and Washington as it runs, at $3.25@3.50 per bbl.

ALBANY LUMBER MARKET.

The Albany *Argus* for the week ending May 22, 1872, reports as follows:—

Owing to extensive repairs to the Greenville (Canada) canal no shipments can be made from Ottawa until the 1st of June. A report last week that the accident which had occurred to the canal would prevent its opening till July 1st caused considerable excitement, and parties from Ottawa telegraphed to put up prices of lumber. This report, however, turned out to be incorrect, and it is expected that the canal will be in working order in a few days. A short shipping season only can be counted on, with the contingency of interruptions from low water. Last fall two months were lost in shipping from Ottawa on account of the water being too low to permit barges to run.

No more certainty has been arrived at with regard to the driving of logs hung up in Canada and the West. A June freshet and heavy rains can still be looked to; but only in some cases can they avail in helping the drives of logs. A large percentage of the logs will fail to get to the mills in Michigan, Canada, &c. As a consequence, taking into account the low stocks of lumber and the active demand, markets promise to remain firm, with an advancing tendency in prices.

The continued activity in South American shipments, and also in Deals, for the English market, are elements that will add increased firmness to the market. It is estimated that at least one hundred millions of feet of Lumber will be shipped this season to South American ports from the St. Lawrence, and the shipments of Deals to England will be limited, only, by the supplies. A further advance has been established in Deals, which are higher now than ever before known.

An improved country demand is reported at Chicago, which has increased the activity there. Favorable accounts are being received from all points of an improved demand and the running down of stocks. The difficulty that had to be contended with in New York and adjacent markets of not being able to realize prices proportionate to the advance established by manufacturers, also by the Albany dealers, is, we understand, being gradually removed by putting up prices in that market, correspondingly, and there will soon be no grounds for the complaint referred to in a recent number of the New York REAL ESTATE RECORD, of New York dealers "having no margin for profit on prices now ruling." The sooner this change is brought around the better.

Our quotations of Spruce and Hemlock are altered to correspond with the opening prices; 9 inch will now be the standard stock for Spruce, instead of 10 inch, as heretofore; and buyers will be supplied with uniform widths of 9 inch and sizes under. No arrivals yet by canal; but as the canals are now in navigable order, early receipts are looked for and a full assortment of all kinds of Lumber will be found in the District.

The receipts reported so far this month at Buffalo, are about 9,000,000 feet; at Oswego, 17,000,000 feet. Canal freights from Oswego to Albany are $3.25 ₱ M. feet; at Buffalo, $6.00 ₱ M. feet for soft, and $7.25 for hardwood.

River and Eastern freights are quoted as follows:

To New York, ₱ M	$1 50
To Bridgeport and New Haven	2 00
To Norwich and Middletown	2 50
To Hartford and Providence	2 50@ 275
To Boston, soft wood	5 00
To Boston, hard wood	6 00
Staves, ₱ ton, to Boston	2 50

The current quotations of the yards are:—

TIN-LINED LEAD PIPE

Is a Block-Tin Pipe, heavily coated with solid lead. It is the best and cheapest Water Pipe when strength and durability are considered. By its use, iron rust, lead, and zinc poison are all avoided, and general health promoted. Price 15 cts. a pound for all sizes. Circulars and sample of pipe sent by mail, free. Address the COLWELLS, SHAW & WILLARD MF'G CO., No. 213 Centre St., New York.

Also, Manufacturers of BLOCK-TIN PIPE, SHEET LEAD, LEAD PIPE, SOLDER, etc. Orders solicited and filled at sight.

BRINKERHOFF & SECOR,

STAIR BUILDERS,

123 & 125 WEST 28th STREET.

Loans Negotiated. Rents Collected.

MAGRATH'S COPPER SASH-CHAIN,
PATENTED 21ST MARCH, 1871,

Is adapted to ordinary round pulley, and strong enough to suspend weights of any size required.

Being intended as a substitute for sash-cord, it can be put into sashes now provided with cord without any change of pulleys. The inventor feels confident that experience will prove his chain to be both economical and durable, besides doing away with the constant annoyance and expense attending the use of sash-cord.

For terms and further information apply to
M. MAGRATH, Patentee, Carpenter and Builder,
74 Irving Place, New York City.

P. B. McENTYRE,
Carpenter and Builder,
No. 220 WEST 36th STREET,
Near Seventh Avenue, *NEW YORK.*

CHAS. H. MATTHEWS,
82 WALL STREET.

No one should Build or Live in a House
WITHOUT EXAMINING OUR
ELECTRICAL APPLIANCES,
without which no house can be said to have all or even the MOST IMPORTANT OF MODERN IMPROVEMENTS; in fact, they are indispensable for the complete outfit of a first-class house with what may be termed necessary conveniences. All English and French houses at the present time are furnished with this electrical apparatus.

E. HOLMES'
Burglar Alarm Telegraph.
This one Bell, located in the Sleeping-Room, when set for the night, rings upon the opening of each door and window of the house. It is a watchman that has but one house to protect; never goes to sleep; cannot be bought off; and an experience of ten years, without a failure, proves it to be perfectly reliable and satisfactory.

PARTICULAR ATTENTION
is requested to our new
HOUSE ANNUNCIATOR,
An improvement upon the French system.
IT CONSISTS OF A SINGLE
CALL BELL AND ANNUNCIATOR,
in the kitchen or servants' department, and so arranged that the simple touch of a small ornamented spring in each room of the house RINGS THIS BELL AND ANNOUNCES THE ROOM from which the call proceeds—the bell continuing to ring until the servants give it attention. The whole thing is operated by
ONE BATTERY, OR BY THE SAME BATTERY
that operates the
Burglar Alarm Telegraph.
It is simple, perfect, and reliable, and will not get out of order, and is a very great improvement upon the old system of "bell pulls." We also have
An Attachment for Ringing Door Bells and Servants' Bells from the
TABLE OR DINING ROOM,
by placing a spring in the floor, and covered by the carpet. Also, for
Calling the Coachman from the Stable.
Send for pamphlet containing ten or twelve hundred TESTIMONIALS. They are from our best citizens and first business men of New York and vicinity.

E. HOLMES,

7 Murray Street, New York.
6 South Clark Street, Chicago, Ill.
1111 Chestnut Street, Philadelphia, Pa.
69 West Fourth Street, Cincinnati, Ohio.
205 River Street, Troy, N. Y.
121 Washington Street, Boston, Mass.

CAUTION.
The public are cautioned against all infringements upon this patent, even when called improvements; other parties have slightly changed my method of doing the same thing, and without any practical experience speak of it as a very great improvement. This invention is the only one that has had practical experience. It has been in general use for ten years, and every real, practical, or desirable improvement that study and actual experience could suggest has been added.
All violations of my patent, either by using or vending an infringement, will be dealt with to the full extent of the law for such cases provided.

REAL ESTATE RECORD
AND BUILDERS' GUIDE.

VOL. IX. NEW YORK, SATURDAY, JUNE 1, 1872. No. 220

Published Weekly by

THE REAL ESTATE RECORD ASSOCIATION.

TERMS.

One year, in advance.....$6 00

All communications should be addressed to

C. W. SWEET,

7 AND 9 WARREN STREET.

NO receipt for money due the REAL ESTATE RECORD will be acknowledged unless signed by one of our regular collectors, HENRY D. SMITH or THOMAS F. CUMMINGS. All bills for collection will be sent from the office on a regularly printed form.

THE UNDERGROUND RAILROAD.

THE readers of the RECORD will remember that it was the first journal in this City to propose that the important work of building an underground railroad should be committed to the hands of Commodore Vanderbilt, and that such road should connect his Forty-Second street depot with the lower part of the City. When the Viaduct Railroad scheme failed, and before the public were made aware that that pretentious project had fallen through, the RECORD foretold its fate, and urged Commodore Vanderbilt to come to the rescue, and form the needed connection between the two ends of Manhattan Island. We said that he possessed the first requisite—the necessary means, and that as there was already a steam railroad avenue above his depot, it was unwise and wasteful not to use those Fourth Avenue tracks for this important purpose; and that the building of a parallel line the whole length of the island would be a great waste of both time and money. We strenuously pressed these facts upon the public week after week, and we believe that our arguments had considerable weight in the right quarters.

Of course, we know that the Commodore had other ends in view beside that of aiding the people of New York. He sees that the trunk lines having their point of departure at Jersey City, and which are the rivals of his railroads, are nearer to the lower part of the City than his Union Depot; and his idea is to have as close access as possible to the business centres and take what trade he can from the Pennsylvania, Jersey Central, Delaware and Lackawanna and Erie roads. It is the through and large business he is looking after; but incidentally he will give the City what it so sorely needs, a means of swift communication between the two ends of the Island.

The effects of this improvement have not as yet been by any means discounted in the public mind. It ought at once to help property in Westchester County, and at the same time detract somewhat from the extravagant values in the centre of the City. Eight or ten miles is a small consideration, when one is once seated in a steam car; and we do not see how the extravagant prices can be maintained in the favored localities, when the area of choice becomes so extended. As we have before had occasion to point out—while the effect of intramural steam transit will be to equalize the values of residence properties, another very obvious result will be the increase of the value of all business property down town. In a word, once steam roads are in operation, there will be less occasion for the upward movement of the retail trade. The ladies who are bent on shopping, when once in the steam cars will direct their course to the great retail marts now in use. There will be no longer any reason why Stewart, Lord & Taylor, Arnold & Constable, and the other heavy retailers, should follow the upward course of population.

We may look, therefore, at the end of ten years for a great increase in the value of down-town business property, and a corresponding falling off in the fancy values of residence property; because, with the new steam roads in full operation the desirable locations for residence will be multiplied beyond all former experience.

THE NEW COMMISSIONER OF PARKS.

THE appointment of Frederick Law Olmstead as Commissioner of Parks is a creditable one. It is understood that this choice gives the control of the Parks to Mr. Green. This, with other recent acts of Mayor Hall, shows that when relieved of the influence of his old associates of the Ring, and following the dictates of his own judgment, he is sincerely disposed to make the best possible appointments. We know that when the office of Chief of Police was vacant, it was Hall's wish to appoint General Hancock; but he was over-ruled by his associates. It is to be hoped that the new *régime* will thoroughly develope the Park and the adjacent property, and not let them fall behind in any of the improvements contemplated. Mr. Olmstead well knows what needs to be done and how to do it, and will doubtless attend faithfully to his new duties.

MARKET REVIEW.

BRICK.—The market for all kinds of brick is slow, but no difference is noted in prices that would justify an alteration of our figures. However, as the new crop has commenced to arrive quite freely, the disposition is towards a decline. There are brick in the market that can be purchased now at rates lower than we quote, but they in all instances are of a very inferior quality; also, are there brick that command a better price than we give as the extreme for North River Hards, but they not only are of a very superior quality but the supply and demand is so insignificant that they are scarcely worth considering at all. Our quotation for Haverstraws which is from $8.50 @$10 per M, includes the qualities most in demand, that is from fair to very good, anything below such standard being chiefly nominal at quotations as low as $8 per M.

CEMENT—Has remained through the week in about the same state of activity which it assumed some days since, this referring more particularly to domestic brands. The quotations remain steady at $1.60 per barrel for Rosendale; $4.50@5.25 for English, and $4@4.50 for German.

HAIR—Continues in slim supply both in cattle and goat, and for the past week there has been a demand from country consumers, which if equalled by purchasers within the city limits would have placed it absolutely beyond the capacity of dealers to meet. While the quotations are unchanged they are very strong at the following figures: Goat per bushel 55 c; cattle do 28 do.

LATH.—It has been a long time since the market has shown so much activity as it has for the past week; every one seemed to want lath, and as the supply was limited dealers advanced their rates from $2.25 per M to $2.75 do, at which figure they held firm and for which they succeeded in disposing of large invoices.

LIME—Presents pretty much the same dull and uninteresting aspect noticed last week. In fact the demand has been so weak that since the recent discontinuance of shipments from Rockland, no lime has been received from that source. Glenns Falls has sent into the city, since the opening of the canals, about six thousand barrels which have been absorbed, the demand for that brand being for purposes for which no other brands arriving here can be used. This peculiar demand satisfied and the shipments from this quarter will be entirely in sympathy with the market and regulated thereby, so that another glut may be anticipated. The quotations of last week rule for the present.

LUMBER.—The relaxation of business, noticed last week, has not only been continued throughout this past week, but was, if anything, more positive than for the previous term. In fact some of the yard men report that were it not for the arrival of stock from the West, with which they are supplying themselves, and which requires to be handled, they would scarcely need the assistauce of any more help than is usually engaged in the offices. However there is no alteration whatever in quotations. Eastern spruce is in usually fair demand, but the arrivals have been somewhat more limited than previously noted. Quotations are without variation, inferior to fair qualities selling at $18@20, while first-class sticks run from $20.50@21.50. White pine as before; common to fair box and shipping boards $21@23; for good do, $25@28; pickings and selects $40@45 respectively. No change is noticed in yellow pine: random cargoes are quoted at $28@30; special cuts $32@38; fancy do $40.

The exports of lumber are as follows:—

	This week. Feet.	Since Jan. 1. Feet.	Same time '71. Feet.

Total	220,778	9,995,517	7,413,310
Value	$16,228	$334,198	$228,681

Additional exports as follows:—

To Hamburgh, 94 black walnut logs, value $2,748; Bremen, 300 logs walnut, value $10,400, 196 logs mahogany, value $420, and 37 logs rosewood, value. $1,507; Antwerp, 791 pieces timber, value $25,000, and 803 cedar logs, value $5,000; Liverpool, 250 cedar logs, value $737; Antwerp, 25,000 staves; Liverpool, 5,000 staves; French West Indies, 2,700 staves; Cadiz, 7,200 staves; Genoa, 12,000 staves; Peru, 7,292 staves; Liverpool, 500 shooks; British West Indies, 2,542 box shooks, and 200 shooks; French West Indies, 500 shooks; Cuba, 2,542 shooks and heads; Porto Rico, 500 shooks and heads; Brazil, 1,680 shooks and heads; Cuba, 23,500 hoops and 200 bundles do; British Australia, 80 bundles hoops; Brazil, 87,000 hoops; Cuba, 829 empty hhds; Venezuela, 40 empty casks; London, 11 cases veneers and 675 oars.

Contracts as follows:—A Br ship, 1292 tons, to London, via St John, N. B., deals, at or about 62s 6d; a Br bark, 689 tons, from Montreal to River Plate, lumber, $22; a Br brig, 349 tons (now in Porto Rico), same voyage, $22.20 net; a Br bark, 460 tons, from Fernandina to River Plate, $23 and primage; an Am bark, 488 tons, from Savannah to River Plate, $23 and primage; an American brig, 378 tons, from Satilla River to River Plate, $24 and primage; a Ger. brig, 260 tons, from Baltimore to Rio, lumber, $16; a bark (now at Providence). 300 M lumber, from Darien to River Plate, $23 and primage; an Am bark, 648 tons, hence to Cadiz, staves, at or about $38 for light pipe, and proportionate rates for other kinds; a bark, 362 tons, and a brig, 347 tons, to Cardenas, empty hhds, 80c each; a brig, 172 tons, from Machias to Porto Rico, lumber, and back to a port north of Hattaras sugar, 50c, and molasses, $5.50, cargo out for port charges: a Br brig, 159 tons, from a Mexican port in the Gulf to New York, cedar, $10: a bark, 250 M lumber, from Pensacola to New York, $11.50: a schr, 333 tons, from Jacksonville to New York, resawed lumber, $14; one, 245 tons, from Jacksonville to Philadelphia, dry boards, $11.50; one, 128 tons, Jacksonville to New Haven, resawed lumber, $14; one, from Jacksonville to New York, $13.50.

The Saginaw *Courier*, May 21, says of lumber and logs:—

As showing the condition of the lumber market elsewhere, and the situation of the log drive, we continue our extracts from lumbering papers:

WISCONSIN.—The Wood county *Reporter* says: "It has been currently reported that there has been a vast amount of lumber lying about awaiting the spring water. This amount has been put at 100,000,000 to 125,000,000 feet. The facts are that up to this date there has come over the Grand Rapids (and all lumber must come via these waters) only about 28,000,000 feet, with only five or seven millions more to arrive. The amount which can possibly be run out this spring, as compared with last spring, is as four to ten,

and this, too, with no prospect of logs, as all the streams are so low that all hopes of getting them away has died out. It will thus be seen that there will be a dearth of lumber from the Wisconsin pineries."

From the same:—

A LARGE DRIVE. SAFE OUT.—Pat Nester and Gullifer, of Saginaw City, on Sunday came out of the main Tobacco, with the rear of an 11,000,000 drive, from town 16, above Clare Station, and saw the last log of the drive safe in the Tittabawassee, above Midland. The drive has been *en route* 26 days, coming a distance of about 50 miles, which was made two years ago with a like drive in five days.

From the same:—

LOG TRANSACTION.—An item appeared in this paper some time since, in which a log sale was reported of 4,000,000 feet of logs on Rifle River, in which some errors occurred. The sale was made by P. O. O'Donnell, Esq., of South Saginaw, to Mr. E. H. Scott, agent for Mr. Litchfield of New York, the price being $8.35 per thousand, *roll ways broke*, an advance payment of $5.000 being made at time of contract.

From the Chicago *Times* of May 22d:—

The arrivals during the last week have been quite liberal, and prices have sustained a considerable decline, especially on joists and scantling, although strips and boards were also easier. To-day the offerings were moderately large, and the market ruled fairly active under a good city and country demand. Prices, however, were easier, and although no sales were reported below $12 for joists and scantling, we believe there were sales made as low as $11.75. We quote the market closing quiet at $11.75@12 for joists and scantling, $12@14 for common to medium and $15@17.50 for fair to choice mill run strips and boards. Shingles, $2 80@3. Laths, $13.25@13.50. Wood was in good demand, and as the offerings were light, prices were firm at $7@7.50 for beech, and $8@8.50 for maple. The demand was mostly for wood to use in the manufacture of brick and lime. At the close there were about six cargoes unsold. The following were among the cargo sales:

Cargo schr Four Brothers, from Muskegon, 88 M, mixed at $12 for joists and scantling, and $12.50 for inch; laths at $3.25—sold by J. Fraser.

Cargo schr Mary, from Manistee, 100 M short joists, and scantling at $12—sold by Blanchard, Borland & Co.

Cargo schr Jo Vilas, from Suamico, 160 M common at $13 for inch and $12 for two-inch—sold by Blanchard, Borland & Co.

Cargo schr Dan Newhall, from Muskegon, 60 M common boards at $12.75; 120 M laths at $3.50—sold by J. Fraser.

Cargo schr Sea Bird, from White Lake, 135 M feet common mixed at $12, 25 M pcs ordinary laths at $3.25—sold by Irish, Bullen & Co.

Cargo schr Emma, from Ludington, 95 M feet mixed at $12.50—sold by R. K. Bickford & Co.

Cargo schr J. N. Holmes, from Manistee, 50,000 feet large joists at $18, 70 M joists and scantling at $12—sold by R. K. Bickford & Co.

Cargo schr Laurel, from Holland, 65 cds beech wood at $7.50—sold by Wm. Ripley.

Cargo schr Winnie Wing, from Manistee, 30 M small timber at $16, 130 M joists and scantling at $12—sold by R. K. Bickford.

Cargo schr Robert Howlett, from Manistee, 60 M long timber at $18, 100 M joists and scantling at $12—sold by R. K. Bickford & Co.

Cargo schr Dawn, from Manistee, 80 M short joists and scantling at $12, mill tally and short tow—sold by Cushman, Calkins & Co.

The Troy *Weekly Times*, May 25th, has the following:—

LUMBER.—During the past week the lumber market has been rather inactive. The stock now on hand is less than we remember to have seen it any time within the last ten years, and the assortment is completely demoralized. The canals are not yet in good working order, and up to this time we hear of no arrivals of new lumber. An occasional odd cargo, which has been frozen in during the Winter, at some point on the canal, drops in now and then, but it now looks as though it would take another week before navigation would be fairly established. The reports of scant supply of logs at mills in Canada and Michigan are confirmed, and at all manufacturing points the tone of the market is very stiff. We have no changes to note in our priced-list this week, but probably will be obliged to review it partially in our next report.

The Boston *Commercial Bulletin* says:—

Business in the lumber market has continued active during the week, and the general tone of the market denotes continued firmness. Lumber is arriving in sufficient quantity to meet most demands, although there is by no means a surplus in the market. In fact, some kinds are very scarce, although whenever orders are received, dealers manage to fill them satisfactorily to themselves and their customers. Foreign shipments are unusually large, especially to South America.

In Eastern lumber we note fewer arrivals this week. The needed rain which has fallen during the week has given an impetus to sawing, and the mills, a few of which were idle, are now all running. The demand for English deals continues firm, taking much lumber from this market. The stock of dry hemlock boards is about all in for this market, and green boards are beginning to arrive. Shingles continue dull. The stock of laths is small.

Seasoned Canada and Western lumber is scarce and in quick demand. The mills at the West are nearly all running, and although the logs are not all down, still there are enough at the mills to keep them actively employed.

Of Southern lumber there have been arrivals of 500,000 to 600,000 feet. The market is firm with an inclination to advance. Flooring is scarce and wanted; all that is arriving is in orders and is not therefore placed on the market. There is an order in this market from a New York party of two and a half million feet, which has not yet been placed satisfactorily. Dealers did not calculate on such light supply at the mills, nor on the large foreign orders.

The following are the surveys for the week:—

DOMESTIC LUMBER.	Feet.	DOMESTIC LUMBER.	Feet.
Pine	1,662,927	Black Walnut	258,386
Hard Wood	41,527	So. Pine Plk. & Tim.	445,635
Hemlock	635,268	Spruce	2,085,385
White Wood	11,357	So. Pine Flooring	233,155
Pine Tim. & Joist	19,692		
Total			5,393,322
Corresponding week last year			6,960,315

The Savannah *Republican*, May 24, publishes the following:—

TIMBER AND LUMBER.—*Timber*—Receipts for the past week have been very light, all taken up on arrival at about our quotations. An active inquiry exists for vessels for United Kingdom and coastwise. We quote: Mill Timber $9@10; Shipping do, 600 feet average $8@9; 700 feet average $10@11: 800 feet average $11@12; 900 feet average $13@14: 1,000 feet average $14.50@16. *Lumber*—active. Orders are plenty. We quote: Ordinary sizes $20@21; difficult sizes $21@25; flooring boards $21@22; ship stuff $20@24, according to sizes.

FREIGHTS.—Vessels are in demand for lumber cargoes, but none are disengaged.—To Philadelphia $8.50: to New York and Sound ports $10@10.50: to Boston and Eastern ports $11@12; to Baltimore $8@9; to Cuba, nominal; to River Platte $23, and ℔ cent. primage. By steam to New York $10.00. *Timber*—Freights are from $1@1.50 higher than lumber rates.

METALS.—Ingot Copper is rather lower this week than it has been recently quoted. The change has been effected by the receipt of fresh supplies of Lake, as well as the prevalence of a slim demand. We quote American Ingot at 33@33½c. Scotch Pig Iron is in a very uncertain condition, such cargoes as have recently arrived are held for an advance, holders being dissatisfied with present rates; the market continues weak at quotations of $47.50@53 as to brand, these prices being nominal. American Pig continues scarce and prices hold very firm at $50@52 for No. 1; $49@50 for No. 2; $47@48 for Gray Forge, cash. Foreign Pig Lead is quiet, but firm—very little business has been done by the government since the advance in its rates to $6.40 gold. We quote: Bar, 8¾c; Sheet and Pipe, 10½c and tin-lined pipe, 15c. cash, less 10 per cent. to the trade. The pending action of Congress on the new Tariff Bill has brought it to a standstill. As revised by the Senate the tariff on Pig is removed, and on Plates the duty imposed is 15 per cent. ad val., which is less by ten cents than the existing duty; so, in the absence of any business, quotations can at best be but nominal, although a better disposition is very generally evinced. Straits and English Pig we quote at 38½@39c gold. Sheet Zinc is yet dull at 9¾@10¼c per lb.

NAILS.—There is nothing new to note in nails this week, and prices are unchanged, with quotations as follows:—Cut, hook-head brads, Fencing and Sheathing, 10@66d, per keg, $5.75; cut, 8@9d, $6 do; cut, 6@7d, $6.25 do; cut, 4@5d, $6.50 do; cut, 3d, $7.25 do; cut, 2@3d, fine, $8; cut, 4@4½d, sugar-box, $6.75; cut spikes, all sizes, $6; cut, finishing, flooring, box, cooper's, casing, slating, trunk, and tobacco, 10@3d, $6.25@7.25; clinch, 2 to 3 inch and over, $7.25@7.75; horse-shoe, forged, No. 10 to 5, per lb, 21@33c. Copper, 45c per lb; Yellow Metal Sheathing, and Slating, 30@32c do.

We note exports as follows:—

	Past week.	Since Jan. 1.
Packages	460	9,521
Value	$3.006	$66,968

PAINTS.—This is another product which, being on the list of articles now receiving the consideration of Congress for proposed revision of tariff, is correspondingly affected thereby. The market has been most exceptionally dull for the week; there not having been sales enough or a sale large enough whereon to base a quotation. Such changes, however, as have occurred in prices will be found duly noted in our price current. We note exports for the week of 266 gallons to Mexico.

OIL—Linseed oil is yet very quiet, the demand being principally for jobbing, with not much inquiry for lots. However there has been no departure from recent prices, and we quote Linseed crushed per gallon in casks 90@91 cents; do in barrels 91@92 cents; linseed oil boiled in barrels 97 cents per gallon, and refined do 97 do; outside lots in casks 87½ cents per gallon.

SPIRITS TURPENTINE.—The transactions of the past week were not so numerous as for the period preceding, but a further advance of 1@1½c is noted. The stock on hand is reported to be very small at this time, some estimates putting it as low as fifty barrels, with a poor prospect for speedy replenishment. We quote as follows: Spirits turpentine, merchantable order, 63@64½c per gallon; shipping order, 64@65c do; from store, 65@66c do, and in cases, 67@70c do.

ALBANY LUMBER MARKET.

The Albany *Argus* for the week ending May 28, 1872, reports as follows:—

Any one walking through the empty yards of the Albany Lumber District, probably never before so completely thinned out—some yards without one pile left on them—would at once see how groundless are the remarks in the last number of the REAL ESTATE RECORD, of a strong effort being made in a recent edition of this paper to "bull up the market." We have evidently failed in our previous remarks to make it clear to the RECORD that in view of the high prices now paid for lumber at the mills, the increased valuation by Government authorities of 20 to 25 per cent for duty purposes, the higher rates of gold, &c., that lumber has not been realizing in this market the increased cost of laying it down at present, and in face of this, Albany dealers are unfairly accused of running up prices. The proposed reduction of 10 per cent. on duty now paid, being only a difference of 2 per cent., even if it passed the Senate, will amount to nothing, and might as well have been left alone, as Government has increased the valuations more than this reduction would come to.

Late private advices from Saginaw report an excited market and advanced prices; all the good lots have been sold ahead, and parties being unwilling to make prices at present. But few of the good lots of logs have come to the mills, and what mills are now running, are, with few exceptions, sawing very poor stuff. The streams are very low and would require very heavy rains to help the drives. All the log-running now done, is done by the aid of dams. There was an active demand, and all fair lots were quickly taken up. Prices are firm at $8, $16, $38; a few weeks ago the figures were $6.50, $13, and $25.

The late rains have helped the streams in Canada, but heavy rains are needed to keep the logs afloat.

The late opening of the Grenville canal will be attended with serious loss, on account of the large South American orders that have to be filled, without lumber at Montreal with which to do it. A proof of the urgency of getting lumber to that market is the fact that attempts have been made to run barges loaded with lumber over the Long Sault rapids, on the Ottawa, a distance of thirteen miles, a thing never before heard of. Two tows of sixteen barges went over the rapids safely, in one hour, excepting the capsizing of one of the barges on getting into still water; the only damage being the loss of the deck load, which was picked up afterwards. The third tow was not so successful: but we have not the particulars of the accident that befell it. The risk and extra cost of getting this lumber to market is encountered because it is known that 40 to 50 chartered vessels are now waiting cargoes at Quebec—why not at New York?—which are wanted for South American ports. Heavy demurrage will have to be paid, and it will be attended with serious loss. These vessels are of an average burden of 700 to 750 tons, and will each carry 850,000 feet of lumber. Other vessels are reported taking in cargoes for the same destination in Nova Scotia, and some in New York also, thus showing the extent of these shipments.

Arrivals in the district are retarded by low water in the canals, and the scarcity of boats. A few sales have been made for foreign shipment, and some large orders are waiting for lumber suitable to fill them. Quotations are firm and unchanged.

The receipts at Buffalo during the week, by lake and rail are reported at 2,252,100 feet; at Oswego, 9,117,100 feet.

The receipts at Albany by the Erie canal during the third week of May, were 652,800 feet; by the Champlain Canal, 241,300 feet; making an aggregate of 894,100 feet against 15,041,900 feet to May 23, 1871.

Canal freights from Oswego to Albany are $3.25 ℔ M. feet; at Buffalo, $6.00 ℔ M. feet for soft, and $7.25 for hardwood.

River and Eastern freights are quoted as follows:

To New York, ℔ M	$1 50
To Bridgeport and New Haven	2 00
To Norwich and Middletown	2 50
To Hartford and Providence	2 50@2 75
To Boston, soft wood	5 00
To Boston, hard wood	6 00
Staves, ℔ ton, to Boston	2 50

The current quotations of the yards are:—

Pine clear, ℔ M	$60 00@$62 00
Pine, fourths, ℔ M	55 00@ 57 00
Pine, selects, ℔ M	50 00@ 52 00
Pine, good box, ℔ M	28 00@ 30 00
Pine, common box, ℔ M	24 00@ 27 00
Pine, clap board, strips, ℔ M	53 00@ 55 00
Pine, 10 inch plank, each	42@ 46
Pine, 10 inch plank, culls, each	30@ 32
Pine, 10 inch boards, each	28@ 32
Pine, 10 inch boards, culls, each	24@ 25

TIN-LINED LEAD PIPE

Is a Block-Tin Pipe, heavily coated with solid lead. It is the best and cheapest Water Pipe when strength and durability are considered. By its use, iron rust, lead, and zinc poison are all avoided, and general health promoted. Price 15 cts. a pound for all sizes. Circulars and sample of pipe sent by mail, free. Address the COLWELLS, SHAW & WILLARD Mf'g Co., No. 213 Centre St., New York.

Also, Manufacturers of BLOCK-TIN PIPE, SHEET LEAD, LEAD PIPE, SOLDER, etc. Orders solicited and filled at sight.

Loans Negotiated. Rents Collected.

MAGRATH'S COPPER SASH-CHAIN,
PATENTED 21ST MARCH, 1871,

Is adapted to ordinary round pulley, and strong enough to suspend weights of any size required.

Being intended as a substitute for sash-cord, it can be put into sashes now provided with cord without any change of pulleys. The inventor feels confident that experience will prove his chain to be both economical and durable, besides doing away with the constant annoyance and expense attending the use of sash-cord.

For terms and further information apply to
M. MAGRATH, Patentee, Carpenter and Builder,
74 Irving Place, New York City.

CHAS. H. MATTHEWS,
82 WALL STREET.

No one should Build or Live in a House
WITHOUT EXAMINING OUR
ELECTRICAL APPLIANCES,
without which no house can be said to have all or even the MOST IMPORTANT OF MODERN IMPROVEMENTS; in fact, they are indispensable for the complete outfit of a first-class house with what may be termed necessary conveniences. All English and French houses at the present time are furnished with this electrical apparatus.

E. HOLMES'
Burglar Alarm Telegraph.
This one Bell, located in the Sleeping-Room, when set for the night, rings upon the opening of each door and window of the house. It is a watchman that has but one house to protect; never goes to sleep; cannot be bought off; and an experience of ten years, without a failure, proves it to be perfectly reliable and satisfactory.

PARTICULAR ATTENTION
is requested to our new
HOUSE ANNUNCIATOR,
An improvement upon the French system.
IT CONSISTS OF A SINGLE
CALL BELL AND ANNUNCIATOR,
in the kitchen or servants' department, and so arranged that the simple touch of a small ornamented spring in each room of the house RINGS THIS BELL AND ANNOUNCES THE ROOM from which the call proceeds —the bell continuing to ring until the servants give it attention. The whole thing is operated by
ONE BATTERY, OR BY THE SAME BATTERY
that operates the
Burglar Alarm Telegraph.
It is simple, perfect, and reliable, and will not get out of order, and is a very great improvement upon the old system of "bell pulls." We also have
An Attachment for Ringing Door Bells and Servants' Bells from the
TABLE OR DINING ROOM,
by placing a spring in the floor, and covered by the carpet. Also, for
Calling the Coachman from the Stable.
Send for pamphlet containing ten or twelve hundred TESTIMONIALS. They are from our best citizens and first business men of New York and vicinity.

E. HOLMES,
OFFICES:—
7 Murray Street, New York.
6 South Clark Street, Chicago, Ill.
1111 Chestnut Street, Philadelphia, Pa.
69 West Fourth Street, Cincinnati, Ohio.
205 River Street, Troy, N. Y.
121 Washington Street, Boston, Mass.

CAUTION.
The public are cautioned against all infringements upon this patent, even when called improvements; other parties have slightly changed my method of doing the same thing, and without any practical experience speak of it as a very great improvement. This invention is the only one that has had practical experience. It has been in general use for ten years, and every real, practical, or desirable improvement that study and actual experience could suggest has been added.
All violations of my patent, either by using or vending an infringement, will be dealt with to the full extent of the law for such cases provided.

REAL ESTATE RECORD
AND BUILDERS' GUIDE.

VOL. IX. NEW YORK, SATURDAY, JUNE 8, 1872. No. 221

Published Weekly by

THE REAL ESTATE RECORD ASSOCIATION.

TERMS.

One year, in advance.....$6 00

All communications should be addressed to

C. W. SWEET,

7 AND 9 WARREN STREET.

NO receipt for money due the REAL ESTATE RECORD will be acknowledged unless signed by one of our regular collectors, HENRY D. SMITH or THOMAS F. CUMMINGS. All bills for collection will be sent from the office on a regularly printed form.

SPECIAL NOTICES.

ATTENTION is directed to the card of Messrs. William Butcher & Co., whose steel works are among the most extensive in the country.

THE second peremptory sale, comprising 1,400 city lots, at Ocean Point station, Rockaway Neck, Long Island, at auction, by Messrs. E. H. Ludlow & Co., will be found fully advertized on the last page of the RECORD.

SPECIAL ANNOUNCEMENT.

THE publisher of the RECORD has been excessively annoyed within the past two weeks to find that, notwithstanding the utmost care in the preparation of the special matter it contains, that two errors have crept into the list of the conveyances of real estate of New York City, which are corrected this week. One occurred in the RECORD of May 18. The conveyance of "Broadway, s. e. cor. 8th st.," should have read, "Broadway, n. e. cor. 8th st." The other occurred in the RECORD of June 1st. The conveyance, "43d st., s. s., 300 w. 5th av.," should have read "53d st., s. s., 300 w. 5th av." In the regular list both transfers will be found properly corrected.

To prevent the possibility of such mistakes occurring in the future, the publisher has determined that, on and after this date, two separate copies of all statistical matter relating to New York City Conveyances of real estate, Mechanics' Liens, Judgments, etc., shall be taken. A comparison before publication will then be made of the two copies, when, if any discrepancy occurs, it can be easily corrected, and the chances are reduced to a minimum in respect to two persons making the same error. The publisher of the RECORD will feel particularly obliged to any person who will call his attention to any inaccuracy, and suggestions at all times in relation to the improvement of any department will be carefully considered.

CORPORATION PAPERS.

THE daily papers contain the following :—

In the Supreme Court Chambers, on the petition of William B. Astor, an order was made vacating the assessments against him for paving Fourteenth street with Nicholson pavement, on the ground decided by the Court of Appeals, that, as the ordinance was not published in the *Leader*, one of the Corporation papers, two days before it was passed by the Common Council, it was void. The attorney of the Comptroller appealed from this order to the General Term, taking the ground that the *Leader* was not a corporation paper, because the provisions of the tax levies of 1863, 1865, 1867 and 1868, in transferring the power of appointment from the Common Council to the Mayor and Comptroller, was unconstitutional, not being included in the title. The court has overruled the point and affirmed the order of the court below.

This decision is important to property-holders in many respects. There has been very great irregularity in the way the corporation papers have been appointed and have done their work, and hundreds of heavy assessments can be voided by the same process which proved so effectual in Mr. Astor's case.

There is no doubt that the point made by Mr. Green's attorney is well taken, and, if carried up to the Court of Appeals, will be sustained by that high authority. The Court of last resort have repeatedly decided that the title of all bills must tell what these bills contain. The majority of our judges have declined to recognize the validity of the appointment of the official paper, but have invariably, in all orders for the publication of legal advertisements inserted the name of *The Transcript* instead of using the general name of official paper.

Our whole city official advertising is a wasteful and scandalous muddle. It is embarrassing and costly to property-holders, and does not give the needed publicity. A daily official journal is needed, and one weekly paper like the RECORD should be given all the advertisements which relate to real estate. When the business of the city is conducted upon business principles this will be done.

MR. GREEN AND MR. VAN NORT.

THE following article, from the *World* of last Wednesday, contains more matter than appears upon the surface:—

"An act was signed by the Governor on Monday, and has become a law, in reference to the Department of Public Works and the removal of the Croton Aqueduct from the Tenth avenue, between Ninety-third and One Hundred and Thirteenth streets. Pipes of the ordinary sort under ground are to replace the aqueduct. Among the other provisions of this act is one of great importance. It transfers the powers of the Department of Public Parks, in relation to the boulevards, streets, avenues, and roads above Fifty-ninth street, to the Department of Public Works; and the work on these boulevards, etc., including the St. Nicholas avenue, the Seventh avenue, and the Sixth avenue boulevards and the Broadway Boulevard, will hereafter be carried on by the Department of Public Works. The chief of that department has, in his former conduct of the Department of Parks, had charge of these works, and is familiar with them in all their details. The desire of the public and their interest is that these works shall be carried on with energy, promptness, and economy; and the character of Mr. Van Nort gives a strong assurance that these works will all be completed this summer. It has been the theory of our municipal administration at Albany, in the measures there last winter and the winter preceding, that the working and regulating of these boulevards should be placed in the department which has charge of the like work in all other streets and avenues; and this act is in accordance with these measures."

The English of this is, that the west side property-holders got an act passed by the Legislature depriving Comptroller Green of the power he would wield over their property as a Park Commissioner. It is their belief that the improvements under way would proceed faster under Mr. Van Nort than if the past management was continued. It will be noticed that a Democratic governor deliberately consents to transfer vast patronage from a Democratic comptroller to a Republican head of a department. This change will be worth a good many thousand votes to General Grant this fall.

Of course, property-holders care very little for the political effect of this change. All their interest is in the speedy improvement of their property. That the work will be well and wisely done by Mr. Van Nort there can be no doubt, but will it be as economically done? That, of course, is an open question.

MECHANICS' LIENS.

FORTY-EIGHTH ST., N. S., 300 E. 1ST AV., ONE three-story rough brick stable and dwelling, 25x32; owner, GEO. J. GREGORY; builder, HIRAM DISBROW.

FIFTIETH ST., S. S., 400 W. 10TH AV. (REAR), ONE three-story brick tenement, 25x45; owner, W. ROEBER; builder, E. MESSALL.

FIFTY-THIRD ST., S. S., 80 E. MADISON AV., TWO three-story brick stables and dwellings, 21x98.6; owners, J. & T. ROOSEVELT; architect, ROBERT MOOR; builder, BARTLETT SMITH.

FIFTY-SEVENTH ST., N. S., 125 W. 10TH AV., ONE three-story brown-stone first-class dwelling, 25x52; owner, A. HERB; architect, A. PFUND.

FIFTY-SEVENTH ST., S. S., 125 E. 11TH AV. (REAR), one two-story store and factory, 25.6x55; owners, A. H. HART & CO.; architect, THOMAS DEMPSEY; builder, P. O. VREEFE.

FIRST AV., E. S., 50 N. 31ST ST., ONE ONE-STORY brick factory, 50x25; owners, WM. FIELDER & NEPHEW; builder, WM. WEISSNER.

GOERCK ST., W. S., 25 N. BROOME ST., ONE THREE-story brick and brown-stone tenement, 25x45; owner, PATRICK FITZSIMMONS; builder, JOSEPH LEAVY.

GREENE ST., S. E. S., 250 N. BROOME ST., TWO seven-story iron first-class stores, 37.6x94 & 86; owner, GARDNER COLBY; architect, I. F. DUCKWORTH.

LEXINGTON AV., E. S., 40.6 N. 56TH ST., THREE four-story stone flats, 20.2x52 and extension 13.6; owner & builder, DANIEL HENNESSY; architect, JAMES MCMANUS.

LEXINGTON AV. AND SIXTY-THIRD ST., S. E. COR., one one-story Dorchester stone synagogue, 86x120; owner, ANSI CHESED SYNADOGUE; architects, D. & J. JARDINE.

LEXINGTON AV. AND EIGHTY-FOURTH ST., S. E. cor., one one-story brick and brown-stone store, 12.6x102.1; owners, WM. WIEBUHR & G. UTTO; architect, BIELA & CO.; builder, M. SCHMIDTBERGER.

MERCER ST. (NOS. 39 & 41), ONE FIVE-STORY iron first-class store, 50x82; owner, ALEX. ROUX; architect, JOS. M. DUNN; builder, W. B. PETTIT.

MOTT ST., W. S., 67.3 W. SPRING ST., THREE FIVE-story brown-stone stores and tenements, 30x98.10 and 25x98.10 and 25x60; owner, JOHN SCHAPPART; architect, JULIUS BOECKEL.

NASSAU ST., W. S., FROM ANN TO FULTON STS.; owner, JAS. GORDON BENNETT; architect, A. GILMAN; builders, HALL & RODGERS.

NINETEENTH ST. (NOS. 154 AND 156, W.), ONE six-story iron and brick furniture factory, 38.10x 88; owner, J. P. HANDY; builder, WILLIAM B. PETTIT.

NINTH AV., W. S., 25 N. 52D ST. (REAR), ONE four-story brick packing house, 25.5x30; owner, JACOB LANG; builder, JOHN REITERUSNER.

ONE HUNDRED AND SIXTY-FIFTH ST., N. S., 250 e. 10th av., five three-story wood dwellings, 20x35; owner, N. A. LESPINASSE; architect, ROBERT ESCABAR; builder, ISAAC HOPPER.

PITT ST. (NO. 94), ONE FIVE-STORY PHILADELphia brick tenement, 25x54; owner, JOSEPH MOSBACK; architect, A. H. BLANKENSTEIN.

STANTON AND ESSEX STS, N. W. COR., TWO FIVE-story Philadelphia brick stores and tenements, 26x 54 and 22x22; owner, WM. FISCHER; architect, FREDERICK JEUTH.

SPRING ST. (NO. 37), ONE FIVE-STORY BROWN-stone store and tenement, 27x57 and 63; owner, JOHN SCHAPPART; architect, JULIUS BOECKEL.

SIXTIETH ST., S. S., 65 E.3D AV., TWO FOUR-STORY brick and brown-stone first-class dwellings, 20x45; owners, JOHN and G. RUDDELL; architect, FR. T. BARRUS.

THIRTEENTH ST. (NO. 34, W.), ONE FOUR-STORY brick tenement, 25x60; owner, JAMES GRANGER; architect, WM. GRAUL.

THIRTEENTH ST., S. S., 250 W. AV. B, ONE TWO-story brick stable, 57x16; owner, OWEN MULREADY; builder, MARTIN MOORE.

THIRTY-EIGHTH ST., S. S., 200 E. 10TH AV., ONE five-story Philadelphia brick tenement, 25x62; owners, J. BLAIR and J. RITTER; architect, A. H. BLANKENSTEIN.

THIRD AV., W. S., 50 S. 27TH ST., ONE FOUR-story Philadelphia brick store and dwelling, 24.8 x42; owners, HOLMES & WYCKOFF; architect, LUTHER BALDWIN; builder, JOHN J. DEVOE.

THIRD AV. (NO. 74), ONE FIVE-STORY BRICK store and tenement, 25.10x100; owner, GEO. LINFORD; architects, MARSHALL & NESBITT; builder, J. C. SPRINGSTEAD.

THIRD AV., E. S., 100 N. 60TH ST., THREE FOUR-story brick and brown-stone stores and dwellings, 20x45; owner, J. & G. RUDDELL; architect, F. T. BARRUS.

CARMINE ST. (NO. 14), ONE FIVE-STORY BRICK tenement, 25x75; owner, MRS. WALL; architect, WM. JOSE.

ONE HUNDRED AND TWENTY-SIXTH ST., S. S., 130 w. 4th av., three three-story brown-stone front first-class dwellings, 20x47; owner, F. A. THURSTON.

SECOND AV. (NO. 740), ONE ONE-STORY BRICK ice-store and stable, 22x50; owner, LAURENCE MCMAHON.

ALLEN ST. (NO. 24), ONE FIVE-STORY BRICK tenement, 32.6x50; owner, &c., EDMUND WARING.

TWENTY-NINTH ST. (NO. 302 W.), ONE FOUR-story brick tenement. 25x54.9; owner, ROBERT BEGG; architects, D. & J. JARDINE; builder, SAMUEL LOWDEN.

PROCEEDINGS OF THE COMMON COUNCIL AFFECTING REAL ESTATE.

[* under the different headings indicates that a resolution has been *introduced* and laid over for further action. † indicates that the resolution has been passed by one Board and sent to the other for concurrence. ‡ indicates that the resolution has passed both Boards, and has been sent to the Mayor for approval.]

IN BOARD OF ALDERMAN, Thursday, May 30.

BELGIAN PAVEMENT.

68th st., from 4th to 5th av.*
23d st., from 3d av. to East river.*

REGULATING, GRADING, ETC.

70th st., from 3d av. to East river.*

IN BOARD OF ALDERMEN,
MONDAY, June 3, 1872.

BELGIAN PAVEMENT.

20th st., from 3d av. to East river.†
52d st., from 9th to 10th av.*
53d st., from 5th to 6th av.*

GRANITE BLOCK PAVEMENT.

24th st., from 10th to 11th av.†

REGULATING, GRADING, ETC.

145th st., from 7th av. to Boulevard.*

CURBING AND GUTTERING.

26th st., both sides, bet. 2d and 3d avs.*

GAS MAINS.

Fort Washington Hill road, Academy st. and Prescott av.†
48th st., from 10th to 11th av.†
49th st., from 10th to 11th av.†
50th st., from 10th av. to North river.†
70th st., from 2d to 3d av.*

IN BOARD OF ASSISTANT ALDERMEN,
MONDAY, June 3, 1872.

BELGIAN PAVEMENT.

5th st., from Bowery to Av. B.*
6th st., from 3d av. to Av. B.*
90th st., from 3d to 5th av.*

COMBINED WOOD PAVEMENT.

74th st., from 3d to 5th av.*

VACANT LOTS.

51st st., both sides, bet. 5th and 6th avs., to be fenced in.*
63d st., s. s., bet. Lexington and 3d avs.*
6th av. and 51st st., to be fenced in.*

REGULATING, GRADING, ETC.

102d st., from 4th to 5th av.*

SIDEWALKS.

26th st. s. s., from 9th to 10th av.*

RE-NUMBERING.

Commerce st., from Bleecker to Barrow st.*

CROTON MAINS.

53d st., to be extended from 1st av. to East river.*

MARKET REVIEW.

BRICK.—North River Hards showed no improvement for the week past, but towards the close there sprung up quite an inquiry for future delivery, say from two to three weeks, which had the effect to strengthen prices, although it effected no increase. In fact, hardly any amount of demand could raise the figures now, as the yards are full and can be replenished as rapidly as need be. It seems, however, to be the opinion of the yard men that it is doubtful whether quotations will go much, if any, lower this season than they stand at present: of course, this opinion is purely speculative, and contingencies may arise that will prove it to be erroneous. We leave our quotations as they were last week: for Haverstraw, $8.50@10 per M, for fair to good qualities; Jerseys, $6@8 do; Pale, $6 do.

LATH.—The activity noticed as existing last week has been well maintained, and, with a market almost bare of stock, the quotations remain strong at the advance; further, there are but few Eastern arriving, and the number for shipment is believed to be very small. We quote at $2.75 per M.

LIME.—There is no new feature to note in the market for the week, the same dull tone pervading it. But, even with matters as quiet as they are, quotations remain fixed at former rates. Buyers are still holding off for a decline, which it hardly seems possible will occur under the combination which now exists amongst dealers for preventing it. We quote Rockland, Glenn's Falls, and Bald Mountain at $1.50 per bbl, for common, and $2 do for finishing; Fort Ann and Manlius, $1.40 do for common, and $1.90 do for finishing.

LUMBER.—The market remains dull in the extreme, and dealers begin to fling around the rather ambiguous phrase that "they don't care whether school keeps or not." They say that the earliest boat that will reach this city with lumber will be forty days later than last year, and it it was as much longer no distress would ensue, because of short stock, especially with such an eminently poor demand. However, a little more brisk time is anticipated within the next twenty-one days, and much more stock may be carried off than is now calculated upon. The Albany *Argus* of the 28th May has another of its peculiar articles on what it knows about lumber. The difference between the RECORD and that journal is simply this: the *Argus* writes in the interest of the Albany dealers; we write in the interest of the New York public. This being the case, it is especially necessary that we should publish facts, and not speculative theories, and this is what we try to do. Our selections from exchanges embrace everything tending to enlighten our readers on the true condition of matters at the mills, and in other cities all over the country. We suppress nothing that might be damaging to the dealers, nor do we parade anything simply because it is unfavorable to them; we stop to consider only the authenticity of an item.

On an occasion it suited the *Argus* to deny a very plain statement of fact we made in relation to the New York market. We supported our position with the figures, and the *Argus* remained mute. Subsequently we charged the *Argus* with an attempt to bull the market, and a reference to its files will prove the correctness of our assertions. As late as May 22, it reported that an advance was then being made in pines in this market, when such a proceeding was not only not being attempted, but had not been contemplated, and the quotations remain just the same to-day as they have been for weeks past, and are likely to be for weeks to come. Eastern Spruce, with a usually good demand, holds steady to former figures. We quote at $17.50@21.50, which includes inferior specifications and first-class stocks. White Pine is still without variation. We quote common to fair box and shipping boards, $21@33; for good do, $35 @38; pickings and selects, $40@45, respectively. No change is noticed in Yellow Pine; random cargoes are quoted at $28@30; special cuts, $32@38; fancy, do, $40.

The exports of lumber are as follows:—

	This week. Feet.	Since Jan. 1. Feet.	Same time '71. Feet.

Total	608,703	9,995,517	7,460,124
Value	$22,551	$334,198	$230,661

Additional exports as follows:—

To Hamburg, 37 walnut logs, value $1,288; Bremen, 25 walnut logs, value $1,150; British Australia, 202 pcs plank, $400; Havre, 175 crotches mahogany, $1,550; Bremen, 3,000 staves; Liverpool, 6,0 0 staves; London, 3,600 staves; Glasgow, 3,600 staves; Shields, 100 bundles shooks; British West Indies, 1,000 shooks; Cuba, 6,133 shooks and heads; New Grenada, 179 bundles shooks; Brazil, 1,100 box shooks; Hayti, 30,000 shingles; British Australia, 600 bundles lath; New Grenada, 72 oars; Cuba, 140 oars; Havre, 125 oars; Hamburg, 6 packages oars; British East Indies, 200 spars; Cuba, 1,500 empty hhds and 10,000 hoops.

Contracts as follows:—

A Br bark, 918 tons, from Quebec to Callao, lumber, 65s; a Br ship, 849 tons, from Miramichi to Barrow, E., deals, 80s; a Br bark, 817 tons, from Bathurst to Liverpool, deals, 80s; one, 537 tons, from St. John, N. B., to Liverpool, deals, 72s 6d; a Br ship, 1,113 tons, from Quebec to Liverpool, timber, 30s, and deals, 80s; a bark, 549 tons, from Portland to River Plate, lumber, $17, and primage; a bark, and a brig, to Matanzas, empty hhds, 80c, and back, privilege second port, sugar, $6; a brig, 231 tons, from Savannah to Fall River, resawed lumber, $14; one, 222 tons, from Savannah to Mystic, lumber, $13; a schr, from Jacksonville to New Haven, resawed lumber, $13.50; one, to Richmond, R. R. iron, $2.50; a Br brig, 212 tons, from Cape Breton to Port au Prince, coal, $5.75; a Br bark, 373 tons, to Cardenas, empty hhds, 80c, and back with sugar, privilege second port, $6; a Br bark, 444 tons (to arrive), to Sydney, N. S. W., general cargo; one, 335 tons, from Buctouche to the United Kingdom, deals; one, 574 tons, to Montevideo and Buenos Ayres, general cargo; a bark, 510 tons, to Cadiz, staves; a brig, 233 tons, to Demerara and back, and a Br. schr, 61 tons, to Eleuthera and back, on private terms.

From the Saginaw *Courier*, May 23d:—

The long watched for, long hoped for rain has come at last, but whether in quantity to be of commercial importance remains yet to be seen. Lumbermen are in high spirits, and many of them who have been in the city for several days, dishcartened, start for the woods this morning. We have heard from no streams direct, but the impression now is that while many logs are likely to be hung up, under any circumstances, yet the rain of yesterday and Monday night will give enough water in many of the streams to bring out logs that have hitherto been given up. There are quite a number of men still in the woods, waiting for a "wet snap," like this, to take advantage of it. Two prominent lumbermen, largely interested on the Chippewa, give as their opinion that the logs in this steeam will come out. This is also the case on the Pine, where but a little more water was required. The amount of logs hung up in Cass and Bad will be largely decreased, which application will also serve for other streams. North of here they are having more rain than in this locality. Our Tawas correspondent reports heavy rains. At Alpena they have been having considerable rain, and the situation at Cheboygan is thus explained by the following paragraph from the Cheboygan *Times*, just at hand:—

"The lumbermen having logs on the small streams are quite exultant at the prospect of the rise of the water lately. The logs are all coming down finely. It is not probable that any of the logs got out on the Cheboygan and its tributaries will be hung up this season. It is estimated that at least 45,000,000 feet of logs are to come to the mills."

The remarks given above, except those applied to the northern localities, are predictions only. It will be several days before the streams are heard from, and the effect of the rain is known. The quantity of water that fell here was not large, but sufficient to build high hope of the result. We trust that we shall not be called upon to chronicle a disappointment.

A Bay City correspondent of the Detroit *Post* (May 28), says, that in consequence of the late rains, lumber has declined $1 per M feet. This is not a fact. Lumber has not declined, but is as firm to-day as thirty days since. The demand, however, is not as great, buyers holding back to watch the effect of the rain.

Reports from Flat River are to the effect that logs are coming down rapidly, and it is thought the river has raised sufficiently to enable the runners to get out the whole drive. This news will cause many lumbermen to rejoice.

There are 140,000,000 feet of logs above the upper dam of the Menominee, which fill the river for miles, hiding the water from sight, filling the stream in some places from the bottom to many feet above high water level.

The Green Bay *Advocate* says that there is no further question about the safety of the log crop of the Green Bay pineries. On some of the streams the logs are already all down; on others they are so near it as to insure their coming. The Menominee river, above the boom, is full of logs from bank to bank, for five miles, and the water, which only raised about two feet, is falling. The Peshtigo is very high, the water overflowing all the low lands along the river.

OFF FOR THE DRIVE.—That the late rains are telling on the streams, is evident by the fact that large gangs of men for the drive were being sent out from the city for different steams. One lot of forty left early yesterday morning for the Flint, in the employ of Mr. C. L. Lull, who is of the opinion that he will get his entire drive out, with what rain has already fallen.

H. P. Elsimore, of this city, who is at present sojourning at Alpena, writes from that place, under date of the 22d inst: "I have just returned from a trip to the woods, on the North branch of Thunder Bay river. While there I picked up the following items, which may be of interest to you. On North Branch there are certainly hung up. Orren Erskine's drive, amounting to 4,000,000 feet, and Albert Peck's of 2,000,000 feet, while on Bean Creek, Comstock & Co., and Avery, Richardson & Co., and some other parties, have about 8,000,000 feet hung up. On Second South Branch everything is hung up for the present, but dams are being constructed on this and many other streams, and improving the streams, so that if we get any rain at all the bulk of the logs will come down."

May 29:

The late rains, although having a beneficial effect on the streams, and which will bring out many logs heretofore considered "hung up," has had no effect on the market. A large number of sales have been made during the past week at the almost uniform price of $7, $14 and $35, the exception being in favor of the seller. Under no circumstances can the market be overstocked, and many mills will not get as many logs as they expected.

UP NORTH.—Mr. W. G. Hinman, of the Land Department of the G. R. & I. R. R., who has just returned from the north, says that the rumor is current that D. A. Blodgett, of Hersey, has cut a channel from the headwaters of the Muskrat creek to Muskrat lake, thus adding to the volume of water in Clam river sufficiently to enable nearly all the logs in Clam river—there are about 40,000,000 feet—to run to the main river, from whence they can readily get to the mills.

It is also said that some of the loggers are losing heavily by the fires in the woods, which have got into the rollways. The Green Brothers, of Big Rapids, have thus lost about 700,000 feet, or more than $5,000 worth, on or near the main river.

June 1:

From a gentleman largely interested in lumbering on the Cass, and down from the scene of his operations yesterday, we learn the following facts regarding the prospects of portions of the drive, in that stream and in its north and south branches. The gentleman referred to states that the recent rains have already been felt in that section, and the Cass has raised at Wajamega three feet in consequence. He has 5,000,000 in 13-11 on the main south branch, which he had given up, but now thinks they will come out. They are six miles from Marlette, and also six miles south of the Port Sanilac State road.

Baldwin's drive in south branch, considered hopelessly hung up prior to the rains, will come out, and Jones, who had discharged all his men from the drive, is now moving with 5,000,000 feet which will come out sure.

June 2:

The lumber market from the opening of the season to the present time, is, or ought to be satisfactory to Saginaw lumbermen and dealers. The scarcity of water, hanging up many of the logs, perhaps a third of the whole crop, operated in favor of the market, and the highest prices of the past few years were touched. Within the past ten days we have had some rains, which, although not sufficient to bring out all the logs, has started many of them, and relieves the want of logs at the mills. Still the season has so far advanced, with the ordinary speed in rafting the supply cannot exceed last year's. Advices from all points to which Saginaw lumber is shipped, are to the effect that the markets are bare. A large proportion of our manufacturers are sold ahead and are in easy circumstances. The pressure to buy during the past three weeks, and the outside necessities so great, that a large amount of lumber in stock and to cut was cleaned out of the market. The sales of the season up to date will exceed 100,000,000 feet. The sales of last week were over 20,000,000 feet, prices ranging from $7, $14, and $25 to $8, $16 and $28. The better class of lumber would average $7.50, $15 and $35 to $38 for uppers. During the lull since the rain set in,

since which time outsiders have been quiet waiting for the effect of the freshet, prices are firm at the lowest quoted figures, which from appearance will go up within ten days.

The shipments for the season show a falling off from last year. This is accounted for in the fact that navigation opened much later this than last season. The season last year it will be remembered opened early. The first clearance from this port this year was the Barge Gardner, April 22, Thomas Edsall, shipper, and during the balance of the month there was shipped from the port of East Saginaw less than 7,000,000 feet of lumber. The first clearance last year was March 27th, nearly a month earlier. The first boat last year was the propeller Bay City, D. F. Rose & Co. shippers. The first clearance in 1870 was the schooner Lamb, J. H. Noble, shipper. Below we give a table of the shipments from the ports of East Saginaw and Bay City for the month of May during the years named:

EAST SAGINAW.

	May, 1870	May, 1871	May, 1872
Lumber, ft	27,693,522	27,186,532	21,779,285
Lath, pcs	2,707,900	2,167,000	1,527,100
Shingles	11,555,750	5,278,900	11,647,500
Salt, bbls	14,880	8,580	13,986
Staves	280,000	137 000	489,500
Hoops	15,000	542,000	.....
Pickets	20.000	13,000	.....

BAY CITY.

	May, 1870	May, 1871	May, 1872
Lumber, ft	42,231,635	33,376,374	39,480,803
Laths, pcs	2,680.600	1,695,950	2,848,520
Shingles	3,753,000	13,865,000	4,927,250
Salt, bbls	93,372	19,244	19,457
Hoops	2,887,594	3,065,000	2,703,000
Staves	1,143,889	1,369,774	609,010
Timber, cu ft	302,517	336,900	277,200
Pickets	.....	45,500	.....

The following is a statement of the shipments from the Saginaw River from the opening of navigation to June 1st during the years named:

	1870	1871	1872
Lumber	79,424.974	121,598,987	70,374,662
Lath	7,764.000	6,456.660	4,758,100
Shingles	17,211.000	34,189.000	20,650,250
Salt	123,004	73,558	54,857
Staves	.....	.....	1,098,510

The shipments in 1869, up to June 1st, amounted to 75,821,250 feet of lumber, 4,327,000 lath, 12,826,950 shingles, and 65,822 barrels of salt.

The season opened with a stock of lumber on hand much smaller than for several years previous, as will be seen by the following exhibit of stock on dock on the river at the close of the seasons named:

	Feet on dock.		Feet on dock.
1865	41,452,000	1869	93,331,614
1866	44,415,700	1870	130,422,190
1867	69,970,200	1871	75,599,511
1868	67,401,017		

But of the stock on dock as shown above for 1871, one third was unsold, the balance being out of the market. During the winter heavy shipments by rail were made by the two railroads, bringing the actual amount of stock on river down very materially.

This exhibit of the condition of the market is a flattering one, and leads to the expectation of a most prosperous season.

From the Troy *Times*, June 1st:

LUMBER.—During the past week the lumber market has exhibited a little more activity. New lumber is arriving, but in such small quantities as hardly to supply the present light demand. It will take time for the yards to get decently stocked. The strikes in New York among the wood workers has for the present stopped all demand for lumber, and scarcely a buyer will make his appearance until after this serious matter is somehow arranged. The recent rains have materially helped the prospects of the mill owners on the Hudson river, and the mills are now getting an abundance of logs and are all sawing full time.

From the Boston *Commercial Bulletin*, June 1st:

There has been no change of any importance in the lumber market during the week. Business on the whole has been good, and the firmness of the past few weeks has been maintained. Lumber is coming forward freely and there appears to be no suffering for want of supplies. Desirable sizes of some kinds are rather scarce; nevertheless, dealers borrow from each other, when they cannot fill orders from their own stocks, and thus manage matters satisfactorily to themselves and the purchasers.

Of Eastern there have been considerable arrivals this week. The market is tolerably well supplied, and prices show a slight tendency towards lower rates. There are but few dry covering boards coming in, the larger portion being green. Shingles continue dull. Laths are coming forward a little more freely and the market in these is a little easier.

In Canada and Western there is an active demand and prices are firm. The larger portion arriving is already sold and is not put on the market. With regard to the driving of logs laid up in Canada and at the West, there is no further definite information. Relief can only be afforded by heavy rains: and even with these, a large per cent. of the logs would fail to get to the mills. Consequently the market promises to remain firm, considering the small stocks and the active demand.

In Southern lumber there is no change to note. Prices are still firm with an advancing tendency, and the demand is only limited by the supply.

The following are the surveys for the week:—

DOMESTIC LUMBER.	Feet.	DOMESTIC LUMBER.	Feet.
Pine	1,259,467	Black Walnut	34,192
Hard Wood	17,636	So. Pine Plk. & Tim.	227,255
Hemlock	914,287	Spruce	2,184,433
White Wood	27,037	So. Pine Flooring	114,583
Pine Tim. & Joist.	25,156		
Total			4,804,239
Corresponding week last year			3,650,026

From the Savannah *Republican*, May 31:—

TIMBER AND LUMBER—TIMBER.—Receipts for the past week have been very light, all taken up on arrival at about our quotations. An active inquiry still exists for vessels for United Kingdom and coastwise. We quote mill timber, $9@10; shipping do, 600 feet average, $8@9; 700 feet average, $10@11; 800 feet average, $11@12; 900 feet average, $13@14; 1,000 feet average, $14.50@16. LUMBER active. Orders are plenty. We quote ordinary sizes. $20@21; difficult sizes, $21@26; flooring boards, $21@22; ship stuff, $20@24, according to sizes.

FREIGHTS.—Vessels are in demand for lumber cargoes, but none are disengaged. LUMBER—To Philadelphia, $8.50; to New York and Sound ports, $10@10.50; to Boston and Eastern ports, $11@12; to Baltimore, $8@9; to Cuba, nominal; to River Platte, $23 and per cent. primage. By steam to New York, $10. TIMBER—Freights are from $1@1.50 higher than lumber rates.

From the *River Courant*, New Orleans, May 29:—

The receipts are small, but fully adequate to the local demand. The mills are shipping directly to foreign markets. Cargo lots are quoted at $14@15 per 1,000 feet for inch boards; $12@14 for scantling. There are no weatherboards in market, either rough or dressed. Rough flooring is quoted at $15@18; dressed, $22@22.50; dressed ceiling, $20@25; cypress, $25@30; common shingles, $3.50@4.25, and laths, $2.50@3. General orders on rough and dressed lumber are filled at $5 per 1,000 feet on cargo prices.

METALS.—Ingot Copper, since the breaking of the dead lock by the arrival of fresh supplies, has shown a much more animated appearance, and for the week past the movement has been quite free; under advices from England of an appreciation, the tone here has rather improved. We quote Lake at 32@33½c; at the close 33½c was asked for English on immediate delivery. A better inquiry is reported for Scotch Pig, but dealers are disinclined to part with stock at present prices, so the market really wears an appearance of quietness. Eglinton is quoted at $48, Glengarnock $50, and Gartsherrie $52. American Pig has shown no alteration from last reports, deliveries continuing to be made with difficulty. We quote No. 1, $50@52; No. 2, $47@48; and gray forge, $45 at furnace. Rails unchanged; Scrap with a light stock, firm though quiet; and Refined Bar from store steady and firm. There is nothing doing in Pig Lead, but a reported advance abroad has strengthened the price here at 6¼@6¾c for ordinary foreign; Bar has advanced to 9¼c, and Sheet and Pipe to 11c cash, less 10 per cent. to the trade, being an improvement of one half of a cent. Pig Tin has not yet recovered its equilibrium; but the tariff question having been settled removes the great clog that has been in the way, and prospects of an early resumption of business are promising, but until something more definite can be arrived at through sales, the prices we exhibit may be considered as wholly nominal. We quote Straits at 38½@39c; English, 38½c; and Banca at 50c, all gold. Plates are firm at about former figures. Sheet Zinc holds firm at 10@10½c per pound.

NAILS.—Cut nails are yet in fair demand at the fixed rates. We quote: Cut, hook-head brads, Fencing and Sheathing, 10@66d, per keg, $5.75; cut, 8@9d, $6 do; cut, 6@7d, $6.25 do; cut, 4@5d, $6.50 do; cut, 3d, $7.25 do; cut, 2 @3d, fine, $8; cut, 4@4½d, sugar-box, $6.75; cut spikes, all sizes, $6; cut, finishing, flooring, box, cooper's, casing, slating, trunk, and tobacco, 10@3d, $6.25@7.25; clinch, 2 to 3 inch and over, $7.25@7.75; horse-shoe, forged, No. 10 to 5, per lb, 21@33c. Copper, 45c per lb; Yellow Metal Sheathing, and Slating, 30@32c do.

We note exports as follows:—

	Past week.	Since Jan. 1.
Packages	336	9,857
Value	$2,587	$69,555

OIL.—Linseed Oil has shown considerable weakness for the past week, and although it is still quoted as previously, it could have been bought at a lower figure, as dealers as a general thing were disposed to make concessions. We quote Linseed crushed, in casks, per gallon, 90c; in bbls, 91c do; boiled, or refined, in bbls, 96c do.

PAINTS.—The business has shown a slight reaction for the week, and now that the tariff question has been set at rest, it is hoped that a still brisker period will ensue. Under the reductions which have been effected for all kinds of paints on the tariff list, a slight decline is noticed, for a full review of which we refer to our prices current.

We note exports as follows:—

	Past week.	Since Jan. 1.
Packages	237	3,230
Value	$3,925	$39,635

SPIRITS TURPENTINE.—There has been another week of speculation in spirits turpentine, but in consequence of the small amount on hand, the amount involved was necessarily limited. The highest point reached was 69c for a small lot for immediate delivery; but a decline down to 60c occurred before the close of the week, caused by the arrival of 600 bbls on the 1st inst. We quote spirits turpentine, merchantable order, per gallon, 56@57c; shipping order, 57@58 do; from store, from 58@59c do; in cases, 70c do.

ALBANY LUMBER MARKET.

The Albany *Argus* for the week ending June 4, 1872, reports as follows:—

An over production of lumber under the most favorable circumstances is always attended with unfavorable results. This year it would have been disastrous. Presidential year is always attended with depressing effects on business. The Alabama troubles continue to keep money and gold feverish and unsettled, and the labor strikes cannot fail to seriously interfere, directly and indirectly, with all kinds of business. Fortunately the evils that might have been apprehended have been averted so far as lumber is concerned. The elements have upset calculations as to the supplies of logs, and materially shortened the season. Granting that the late heavy rains have raised the water in some of the streams, it is now ascertained that a large quantity of logs will have to lay over another year in Canada, Michigan, Wisconsin, Pennsylvania, etc., etc.

From the Ottawa section (Canada) the latest accounts are that heavy rains to the north of the Ottawa river have raised the waters in the tributaries thereto and in the main streams so that the lumberers are in hopes they will be enabled to drive out thousands of the logs they had considered "hung up" for the season. The break in the High Falls saw logs slide, in the river Aux Lievres, will prevent nearly 70,000 logs reaching Buckingham Mills this season, and it will cost several thousand dollars to make the repairs in the slide.

The Toronto *Globe* reports from Bobcaygeon, May 27th, "that the locks which had been defective for some time past gave out on the Saturday previous; navigation is completely stopped, and for the present lumbermen are unable to ship their lumber." From what we can learn the damage to these locks is not serious and repairs will soon be made. Shipments to this market from several mills in the vicinity will be interrupted while putting these locks in order.

Our market continues firm; transactions limited for want of stock.

Freights on the lakes and canals have an upward tendency. An enormous amount of property in all the principal articles of commerce, grain, iron ore, coal, staves, lumber, oil, etc., etc., has to be moved. The season will be a short but an active one, and in the face of increased cost in the different markets, and higher rates of freight, etc., the prices of lumber cannot fall off.

The receipts of lumber at Buffalo during the week by lake and Grand Trunk Railway are reported at 11,861,400 feet; by the Lake Shore and M. S. Railway 1,061 cars. At Oswego the week's receipts are 9,416,600 feet.

The receipts at Oswego by lake from the opening of navigation to June 1st, for the following years, are thus stated by the *Commercial Times*:—

1872	36,000,000 feet.
1871	61,000.000 "
1870	56,000.000 "
1869	45,000,000 "

The receipts at Albany by the Erie and Champlain canals for the fourth week of May were:—

	Bds. & Sc'tl'g ft.	Shingles, M.	Staves, lbs.
1872.	18,881,200	193	549,900
1871.	19,776,700	4,498	1,171,000

Of the boards and scantling received 11,327,000 feet were by the Erie and 7,554,300 feet by the Champlain canal.

The receipts at Albany by the Erie and Champlain canals from the opening of navigation to June 1st were:—

	Bds. & Sc'tl'g ft.	Shingles, M.	Staves, lbs.
1872.	19,775,500	193	549,900
1871.	62,036,800	6,335	1,171,000

Canal freights from Buffalo to Albany are $5.25@5.50 on pine and $6.25@6.50 on walnut, etc. From Oswego to Albany $3.50 ₱ M.

River and Eastern freights are quoted as follows:—

To New York, ₱ M	$1 50
To Bridgeport and New Haven	2 00
To Norwich and Middletown	2 50
To Hartford and Providence	2 50@2 75
To Boston, soft wood	5 00
To Boston, hard wood	6 00
Staves, ₱ ton, to Boston	2 50

TIN-LINED LEAD PIPE

Is a Block-Tin Pipe, heavily coated with solid lead. It is the best and cheapest Water Pipe when strength and durability are considered. By its use, iron rust, lead, and zinc poison are all avoided, and general health promoted. Price 15 cts. a pound for all sizes. Circulars and sample of pipe sent by mail, free. Address the COLWELLS, SHAW & WILLARD MF'G CO., No. 213 Centre St., New York.

PURE WATER

Also, Manufacturers of BLOCK-TIN PIPE, SHEET LEAD, LEAD PIPE, SOLDER, etc. Orders solicited and filled at sight.

FURNACES AND RANGES.

No one should Build or Live in a House

WITHOUT EXAMINING OUR

ELECTRICAL APPLIANCES,

without which no house can be said to have all or even the MOST IMPORTANT OF MODERN IMPROVEMENTS; in fact, they are indispensable for the complete outfit of a first-class house with what may be termed necessary conveniences. All English and French houses at the present time are furnished with this electrical apparatus.

E. HOLMES'
Burglar Alarm Telegraph.

This one Bell, located in the Sleeping-Room, when set for the night, rings upon the opening of each door and window of the house. It is a watchman that has but one house to protect; never goes to sleep; cannot be bought off; and an experience of ten years, without a failure, proves it to be perfectly reliable and satisfactory.

PARTICULAR ATTENTION
is requested to our new

HOUSE ANNUNCIATOR,

An improvement upon the French system.

IT CONSISTS OF A SINGLE

CALL BELL AND ANNUNCIATOR,

in the kitchen or servants' department, and so arranged that the simple touch of a small ornamented spring in each room of the house RINGS THIS BELL AND ANNOUNCES THE ROOM from which the call proceeds—the bell continuing to ring until the servants give it attention. The whole thing is operated by

ONE BATTERY, OR BY THE SAME BATTERY
that operates the

Burglar Alarm Telegraph.

It is simple, perfect, and reliable, and will not get out of order, and is a very great improvement upon the old system of "bell pulls." We also have

An Attachment for Ringing Door Bells and Servants' Bells from the
TABLE OR DINING ROOM,

by placing a spring in the floor, and covered by the carpet. Also, for

Calling the Coachman from the Stable.

Send for pamphlet containing ten or twelve hundred TESTIMONIALS. They are from our best citizens and first business men of New York and vicinity.

E. HOLMES,

OFFICES:—
7 Murray Street, New York.
6 South Clark Street, Chicago, Ill.
1111 Chestnut Street, Philadelphia, Pa.
69 West Fourth Street, Cincinnati, Ohio.
205 River Street, Troy, N. Y.
121 Washington Street, Boston, Mass.

CAUTION.

The public are cautioned against all infringements upon this patent, even when called improvements; other parties have slightly changed my method of doing the same thing, and without any practical experience speak of it as a very great improvement. This invention is the only one that has had practical experience. It has been in general use for ten years, and every real, practical, or desirable improvement that study and actual experience could suggest has been added.

All violations of my patent, either by using or vending an infringement, will be dealt with to the full extent of the law for such cases provided.

JOHN SLATTERY,

Wholesale Dealer in

All kinds of Marble for Building.

MAGRATH'S COPPER SASH-CHAIN,

PATENTED 21ST MARCH, 1871,

Is adapted to ordinary round pulley, and strong enough to suspend weights of any size required.

Being intended as a substitute for sash-cord, it can be put into sashes now provided with cord without any change of pulleys. The inventor feels confident that experience will prove his chain to be both economical and durable, besides doing away with the constant annoyance and expense attending the use of sash-cord.

For terms and further information apply to

M. MAGRATH, Patentee, Carpenter and Builder,

74 Irving Place, New York City.

MURTAUGH'S

MORRIS WILKINS, Auctioneer.

SECOND PEREMPTORY SALE,

COMPRISING

1,400 CITY LOTS

At Ocean Point Station, Rockaway Neck, Long Island, at Auction.

E. H. LUDLOW & CO. will sell by Auction, on **Tuesday, June 11th,** 1872, at 12 o'clock, on the premises, at OCEAN POINT STATION (Sale by order of Thomas E. and Samuel A. W. Marsh),

VALUABLE PLOTS on CENTRAL, CHESTNUT, OCEAN POINT, and other Avenues.

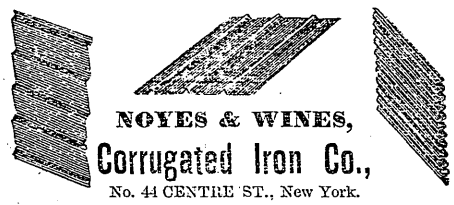
Ocean Point Station is beautifully located near the centre of Rockaway Neck, which is five miles in length, and has an average width of about one and a half miles, containing some 4,000 acres of fine upland.

The property to be sold is some of the finest on Rockaway Neck, lying high, with good natural drainage, exceedingly healthy and easy of access by either the Long Island or South Side Railroads, each of which roads have stations on the property.

The streets are all opened and graded, shade trees set out and the property fenced in, and is in all respects ready for immediate improvement. The plots contain from 2 to 16 city lots, and will be sold at so much per city lot, without reserve, to the highest bidder.

Title perfect, printed abstracts of which will be furnished purchasers free of charge.

The taxes are very low, being about one and a half per cent. on a low valuation.



Sixty per cent. of the purchase money may remain on bond and mortgage.

Maps and free tickets for either Long Island or South Side Railroad can be had at the Auctioneers' Offices, No. 3 Pine, or 35 East 17th Street, or of Messrs. D. & M. CHAUNCEY, No. 207 Montague Street, Brooklyn, or of JAMES C. EADIE, No. 45 Broadway, Brooklyn, E. D.

Trains leave Hunter's Point and South 8th Street, Brooklyn, E. D., at 10 o'clock.

ADVERTISED LEGAL SALES.

FOR THE COMING WEEK.

NOTICE.—The list of property given below is compiled from advertisements published in different newspapers, of auction sales to be held under direction of the Referee appointed. It may not be absolutely perfect but is as near so as we can make it.

REFEREE'S SALES TO BE HELD AT THE EXCHANGE SALESROOM, 111 BROADWAY.

142d st., lots 56, 57, 58, 59, Bortal property, 12th Ward, 100x99.11, by William Kennelly... June 19

MARKET REVIEW.

BRICK.—The market for North River Hards remains quiet, with indications at the close of rather a better tone. While some yards, however, have reported matters as being very dull, there are other instances where the week has been better than for the average since the opening of the present season. The prices have been experiencing a steady but almost imperceptible decline, until the quotations have reached a figure that will warrant us in making the deductions we do. We quote Haverstraw Bay brick at $8@9.25 per M; up rivers of a poor quality at $7@7.75 do; pale brick at from $4 to $5 do, and hard to work off. The minimum quotation applies more particularly to a lot of swelled brick that are on the market, and which great difficulty is experienced in disposing of. Jerseys sell at from $7@7.50 do. Croton Fronts, $12@16 per M, and Philadelphias at $40@45 do from yard.

CEMENT.—Without any new features of importance cement shows an inclination towards a decline, a slight decrease in fact being already noted, which alters the quotations for Rosendale, which has been holding at $1.60 per bbl. to $1.50@1.60 per bbl. The other brands report no change.

LATH.—The demand continues to be just about good enough to keep the bulk of the stock moving, and cargoes arriving find purchasers so quickly that dealers are able to dictate their own terms. Under the pressing demand and the uncertainty of the supply the quotation for Eastern has reached $3 per M, at which figure they are very strong.

LIME—Continues heavy, and since the arrivals of Glenn's Falls, Fort Ann, and other up country brands have been facilitated by canal transportation, a tendency to decline has been observable in the quotations. The price has been very well maintained this season, considering the quantity of lime that has at times been in stock. As we close we learn that a reduction of 25c. per barrel has been effected on the higher brands.

LUMBER.—The week just closed has witnessed another of the reactions of liveliness that have seemed to occur periodically during this season, breaking in on the general dullness that has existed with the same genial effect produced by the appearance of a ray of sun-light on a dull, gloomy day. The improvement in business has seemed to be pretty general, and some of the yards have been quite pushed to fill orders. The call has been confined to no specification of lumber, although quite a notable quantity of black walnut is included, intended for shipping purposes, California figuring prominently as a consumer.

Reports from the mill districts continue to indicate that recent rains have insured a supply of logs ample to keep the mills at work for the remainder of the season, which, although it is sixty days shorter than last year, will be sufficiently long to create a supply fully equal to any demand that is likely to ensue, in view of all the adverse influences now at work, such as the political and social issues before the country. A special report to us from the Spruce and Hemlock districts says, the heavy rains have swollen the rivers greatly, and that the logs of which there is a fair supply, are running down finely. In connection with this, we note the fact that Spruce and Hemlock are being cut this season in nine inch stocks, instead of ten inch, as heretofore, consequently when it gets into market a decline in prices will ensue proportionate to the decrease in size. We note no alteration in quotations for the week.

Eastern Spruce has met with no change, the market holding steady, although a scarcity of cargoes has rather restricted business. We quote fair to first-class specifications at $17.50 @21.50. White Pine in fair demand at former prices. We quote common to fair box and shipping boards, $21@33; for good do, $35@38; pickings and selects, $40@45, respectively. No change is noticed in Yellow Pine; random cargoes are quoted at $28@30; special cuts, $32@38; fancy do, $40.

The exports of lumber are as follows:—

We note additional exports as follows:—To British West Indies, 100 shooks and 3,550 box shooks; Cuba, 12,248 shooks and heads; British Guiana, 5,554 staves: Marseilles, 3,600 do; Lisbon, 30,600 do; Oporto, 30,000 do; Antwerp, 13,800 do; Liverpool, 25,470 do; London, 18,040 do; Peru, 8,616 do; Hamburgh, 89 walnut logs, value, $3,000 and 22 maple logs, $200; Bremen, 1,402 cedar logs, value, 17,000 and 26 logs walnut, $850; Havre, 68 walnut logs, value, $2,351: Oporto, 177 mahogany logs, value, $2,800; London, 90 tons walnut, value, $5,000; British West Indies, 333 pieces lumber, $107; British Honduras, 309 pieces lumber, $168; Liverpool, 25 empty cases: Hamburgh, 17 empty casks and 125 oars; Glasgow 219 oars; Cuba, 578 empty hogsheads and 87,500 hoops; Lisbon, 19 bundles hoops and 100 oars: Havti, 45 empty kegs; New Grenada, 75 empty kegs; Brazil, 140 oars.

Charters as follows:—A brig, 490 tons, from Montreal to River Platte, Lumber, $21.50 net; a Br brig, 275 tons, from King's Ferry, Florida, to River Plate, Lumber, $23, and primage; a bark (now at Boston), from Brunswick, Geo., to River Platte, 400 M Lumber, $22.50 and primage; a Br. ship, 894 tons, to Valparaiso, general cargo, lump sum; a bark, 539 tons, to Cadiz, Staves, $50 for extra heavy Pipe; a schr, 350 M lumber, from Pensacola, to a sound port, or Boston, $12; two Br. barks, 548 and 596 tons, to Turk's Island, ballast and back with salt, 13½c; a Br. bark, 491 tons, to Port Caledonia and back to Boston with coal, $3; two Br. brigs, from Cow Bay to New York, coal, $3.12½; a schr, 125 M resawed Lumber, from Jacksonville to New York, $13; one 130 M Lumber, from Jacksonville to Philadelphia, $12; one from Jacksonville to New Haven, $14; two from Brunswick to New York, $12; one to Richmond, R. R. Iron, $2.50; an Aust. ship, 1007 tons, to Bristol general cargo; a schr, 384 tons, to Pernambuco, general cargo; a new Br bark, from Satilla River to River Plate, Lumber; an Ital bark, 318 tons, to Trieste, general cargo; two Am barks, 648 and 510 tons, from Cadiz to New York, general cargo; a schr, 250 tons, from Jacksonville to New York, Live Oak; one, 170 tons, from Mosquito Inlet to New York, Cedar; and a terne schr, 344 tons, to Galveston, general cargo, on terms we did not learn.

From the Saginaw *Courier*, June 8th:—

Rafting is now progressing finely on nearly all the streams. On the Tittabawassee, the largest lumbering stream on the east side, rafting is progressing with unusual activity. Up to the first of the present month there had been rafted out 376,000 pieces, scaling about 70,000,000 feet, against 252,000 pieces to the same date last season. In view of the fact that the season opened considerably later this than last season, and the amount rafted out this season has materially exceeded that of last season up to the same date, it may be inferred that extraordinary work is being done in the way of bringing logs to market. The boom company is now rafting out at the rate of 80,000 pieces per week. The late rains have done considerable good, although the effect has been overstated. The late rains have brought out about 18,000,000 feet additional in the Cass, a considerable quantity on the Chippewa and other streams, but many millions hung up logs have not been effected in the least.

LOGS IN BEAVER CREEK.—In a conversation with a St. Charles lumberman yesterday, we learned that the recent rains have swelled the waters of Beaver creek, so that it is morally certain that the entire cut of logs, about 30,000,000 feet will come out. This stock has been counted heretofore as hung up beyond redemption. We also learned from the same source, that an association, co-operative in its nature, had been formed no longer ago than yesterday, by Messrs. Rust, Avery, Moore, and others, by which all the operators of that stream shall be interested in the getting out of logs alike, according to the amount of each one's interest therein. This would seem to be a move in the right direction. As we understand it a fund is to be raised, distributed pro rata among log owners, and the whole amount of logs driven out, under the supervision of persons properly appointed by the association, and the whole lot driven out, irrespective of large or small lots, of different ownership.

ON THE AU SABLE.—From Mr. Holmes, surveyor, arrived here last night on the 11 o'clock train, from Bay City, having reached there on the steamer Benton, from the Au Sable, the same evening, we glean some information as to what is being done on the south branch of the Au Sable, on which stream Mr. Holmes has been surveying for a dam for the South Branch improvement Company. This dam is in the south-east corner of town 24-4 east. There is one dam now built on this stream below. Log driving commenced on this stream Friday of last week, and was completed on Wednesday, the driving being done in five working days. There were 17,000,000 feet of logs run out, leaving 4,000,000 feet above the dam. In the above amount is included cynsiderable long timber. Log running has just commenced on the east branch of the Au Gres. Mr. Holmes found considerable ice and frost, which was hardly expected at this season of the year.

AT SOUTH HAVEN.—The late rains brought down Black river a large amount of logs, that, added to the amount run early, places in deep water seven of the ten millions of feet of logs banked the past winter. The lumbermen are anxious for a June freshet, to bring out the remainder of the logs hung up.

PENTWATER.—There was 25,000,000 feet of sawlogs, hewed timber, and spars banked on the twenty-five mile stretch of the logging portion of Pentwater river last winter; 10,000,000 feet have been run down in handling distance of the mills, and 8,000,000 is being worked down by temporary dam-flooding, so that if the present stage of water holds one week, all will be in. The late rains have held the water up, to the great help of the log-driving. The cost of running logs has thus far been double the amount of last year. Unless there is a heavy freshet, 7,000,000 feet of logs will be hung up until the next year. There is at present two saw-mills of very large capacity, four shingle mills, two planing mills and one machine shop, and they are now preparing to build a large planing mill.

ON THE MUSKEGON.—Everything looks favorable and the logs are nearly out of the tributary streams. On Friday the river was running rapidly, and the logs coming down in magnificent style. The general impression is that the great difficulties anticipated in harvesting the log crop need be feared no longer, as the streams west, and up north are giving down their quota quite lively.

JUNE 5.—LUMBER SALE.—Messrs. Moore, Smith & Co., of Bay City, have sold recently 300,000 feet of lumber, to be cut at $6.75, $14.50 and $25. This is but a trifle, if any, lower than prices have ruled for several weeks past. The Keystone Company recently sold 1,000,000 feet of lumber at $7.50, $15 and $25. It was cut but a short time since, and was a very choice lot.

LOG SALE.—E. Hall, of Detroit, made a sale of 2,000,000 feet of Chippewa logs, in boom, to Geo. F. Williams & Bro., of Saginaw City, at $10.50 per M, yesterday.

STEVENS & CO. have here some of the best pine lands in the country, yielding from 18,000 to 22,000 feet per acre. They put in a large amount of logs last winter.

JUNE 2.—LOGS AT ALPENA—From a private letter, written before the late rains, we learn that the logs are all sure to come out, save those on the North Branch, and a portion of the Bean Creek logs. The rains come and brighten the prospects in regard to the hung up localities, that the probabilities now are Alpena will have her full woods cut of logs for 1872, in all 120,000,000 feet, which will furnish stock for an aggregate of lumber and shingles twice as great as the product of any former season.

BAD RIVER LOGS.—A St. Charles correspondent says that the late rain has raised the water in the main branches of Bad river so that nearly all of the logs will come down. They are running them out of the south branch of Bad river very fast. If we could get a few days more rain nearly all of the logs would come down, and St. Charles would be as lively as any town in the State.

From the Troy *Times*, June 8th:

LUMBER.—During the past week the lumber market has been rather inactive. Receipts are very light, barely sufficient to accommodate even the present light demand. But little dry lumber is coming forward, and this is taken up at once; stock does not yet begin to accumulate in any quanti-

ty, and although the assortment is daily improving, the amount of lumber on hand is very small. Buyers are not very plentiful, and until the matter of the strikes among the wood-workers of New York is settled definitely, orders will be sparingly given. Prices remain the same.

BOSTON LUMBER MARKET.—The lumber market has presented nothing of marked interest since our last, ruling steady with a continued active demand for desirable sizes.

The rains that have fallen lately in the lumber sections have placed all doubts at rest as to there being a large available stock of lumber during the present season.

There is considerable inquiry for dimension, sawed to order.

There have been but few arrivals of Eastern this week. Spruce is rather scarce and firm, the continued active demand for English deals diverting large quantities from this market. The copious rains of the last few days have brought down to the mills the balance of the logs which were laid up, and which dealers had almost despaired of obtaining this season. The mills are now hard at work. Following upon an unusually late spring, orders have been given very freely, and there is a large amount of lumber that is wanted for immediate use. Freight accommodations have been taxed to their utmost, and have not fully answered the demands made upon them.

There is still a good demand for Canada and Western, and prices are as yet firm. The arrivals are sufficient to satisfy all demands, and with a guaranteed abundant stock of logs at the mills, views as to the future ruling of prices have materially changed.

In Southern lumber there is no change to note. Prices are still firm with an advancing tendency, and the demand is only limited by the supply.

The following are the surveys for the week :—

DOMESTIC LUMBER.	Feet.	DOMESTIC LUMBER.	Feet.
Pine	891,445	Black Walnut	12,633
Hard Wood	39,548	So. Pine Plk. & Tim.	372,541
Hemlock	736,552	Spruce	1,610,761
White Wood	79,531	So. Pine Flooring	627,344
Pine Tim. & Joist	43,320		
Total			4,413,675
Corresponding week last year			4,010,198

From the Savannah *Republican*, June 7:—

TIMBER AND LUMBER.—TIMBER—Receipts for the past week have been very light, all taken up on arrival at about our quotations. An active inquiry still exists for vessels for United Kingdom and coastwise. We quote: Mill Timber, $9@10; shipping do, 600 feet average, $8@9; 700 feet average, $10@11; 800 feet average, $11@12; 900 feet average, $13@14; 1,000 feet average, $14.50@16. LUMBER—active. Orders are plenty. We quote: Ordinary sizes, $20@21; difficult sizes, $21@26; flooring boards, $21@22; ship stuff, $20@24, according to sizes. FREIGHTS.—LUMBER.—To Philadelphia, $8.50; to New York and Sound ports, $10@16.50; to Boston and Eastern ports, $11@12; to Baltimore, $8@9; to Cuba, nominal; to River Platte, $23 and — per cent. primage. By steam to New York, $10. TIMBER—Freights are from $1@1.50 higher than lumber rates.

New Orleans, June 4, 1872.—The supply is rather in excess of the demand, which continues limited. The mills are shipping directly to foreign markets.

Cargo lots are quoted at $14@15 per M feet for inch boards; $12@14 for scantling. There are not many weatherboards in market, either rough or dressed. Weatherboards rough are quoted at $13@14; dressed, $16@18; rough flooring, is quoted at $15@18; dressed, $22@22.50; dressed ceiling, $20@25; Cypress, $20@25; common shingles, $3.50@4.25, and laths, $2.50@3. General orders on rough and dressed lumber are filled at $5 per M feet on cargo prices.

METALS.—Ingot Copper remains quiet, Lake being quoted at 33c, while English remains out of market at current prices. Manufactured Copper and Yellow Metal stand just as they were a week since, We quote: New Sheathing Copper, 43c; Bolts and Braziers, 45c; Bronze and Yellow Metal Sheathing, 30c, and Yellow Metal Bolts, 32c net cash. Scotch Pig Iron rules weak, because of a superabundant supply. Prices are rather nominal at $47@53, as to brand. American Pig remains steady, but quotations are rather lower on some brands. No. 1 stands at $51@52; No. 2, $50, and Gray Forge, $45@46, at furnace, $48 on spot. New English rails have fallen to $72@73, while American are unchanged. Scrap dull and nominal at $50 from dock, and $55@57.50 from store. Refined Bar dull and unchanged. Russia Sheet, 18½c gold. Pig Lead is very firmly held at former quotations, which we repeat as follows: Ordinary Foreign, 6½c gold, per lb; Bar 9½c do; Sheet and Pipe, 11c do, and Tin-lined Pipe, 15c do, less 10 per cent. to the trade. Pig Tin has not yet recovered from its depressed condition, and prices are chiefly nominal, and a resumption of business will most probably find quotations lower than they recently have been. Plates are in a much better condition, both as to demand and price, cokes being in very low stock. Sheet Zinc is very dull at 8¾c gold.

NAILS.—Have held very steadily for the week at former quotations, which are reproduced:— Cut, hook-head brads, Fencing and Sheathing, 10@66d, per keg, $5.75; cut, 8@9d, $6 do; cut, 6@7d, $6.25 do; cut, 4@5d, $6.50 do; cut, 3d, $7.25 do; cut, 2 @3d, fine, $8; cut, 4@4½d, sugar-box, $6.75; cut spikes, all sizes, $6; cut, finishing, flooring, box, cooper's, casing, slating, trunk, and tobacco, 10@3d, $6.25@7.25; clinch, 2 to 3 inch and over, $7.25@7.75; horse-shoe, forged, No. 10 to 5, per lb, 21@33c. Copper, 45c per lb; Yellow Metal Sheathing, and Slating, 30@32c do.

We note exports as follows:—

	Past week.	Since Jan. 1.
Packages	60	9,935
Value	$485	$40,120

OILS.—Although reported as being in better demand for the past week than the previous period, linseed crushers have succumbed to the dullness that had haunted the market, and experienced a slight decline, the asking price being 88@89c per gallon, in casks, and 88@90c do in bbls. For outside lots great concessions must be made to effect sales at all freely; we quote, in casks, 82½@85c per gallon. Linseed, boiled or refined, we quote at 95c do.

PAINTS.—The market has shown, as was anticipated, a little better tone than was noticed last week. Prices are not altogether settled yet, as foreign quotations have tended to increase for some articles, which result would be followed, it is suggested, by a possible rise here. Some advance has already been made on White Lead in oil, which, with the other quotations, will be found in our prices current.

We note exports as follows:—

	Past week.	Since Jan. 1.
Packages	67	3,290
Value	$360	$39,995

SPIRITS TURPENTINE.—Since our last the arrivals of Spirits Turpentine have been quite free, but to offset them there have been continued deliveries of lots sufficiently large to absorb all invoices coming to hand, so it happens that no accumulation of stock has as yet been achieved by dealers. As a consequence of the unabated strain on the market, prices have advanced another cent per gallon, at which increase the market closed strong. We quote Spirits Turpentine, merchantable order, 57@58c per gallon, do in shipping order, 58@59½c do; from store, 59@60c do; in cases 71c do.

TAR.—The market holds very firm in this staple, as with others included in naval stores. Wilmington, as it runs, is quoted at $4 per bbl; Newberne and Washington, as it runs, $3.62½@3.75 do.

ALBANY LUMBER MARKET.

The Albany *Argus* for the week ending June 11, reports as follows:

The change in duty on Canada Lumber from *ad valorem* to a specific duty of $2 per M feet gold, to take effect on the 1st of August next, will be a cause of congratulation to all interested in Canada Lumber. Ottawa Lumber will be benefited most by the change, for at the present high prices, merchantable Lumber has to pay a duty of $3@4 per M feet gold and culls $2@2.50 per M feet. In other sections, the cost of culls and common grades will be increased thereby; not over $1@1.50 per M feet gold having been paid for duty on same. Aside the gain that will be derived in lessening the cost of certain kinds of Lumber, the getting rid of the annoyances attending the collection of the duty will be worth a good deal and be a matter of general congratulation especially to those who have been unfortunate enough to get into collision with the government officials.

Prices demanded by Ottawa manufacturers will prevent Lumber coming to this market from that section. At $12 per M feet for culls and $19 per M feet for merchantable, with present rate of gold and even a specific duty of $2 per M feet gold and cost of transportation, no margin is left, and with the least concession in Albany there would be a loss. From present appearances the receipts of Ottawa Lumber will be light.

At Saginaw prices remain without much change. The orders now in hand will keep the mills busy till after the month of July and thus tend to keep the market firm. An advance of $1 per M feet on Lake freights and 50c. per M feet on the canal will increase the cost of that Lumber. Great difficulty is experienced in procuring schooners or barges to bring forward Lumber held at the mills of last year's sawing, and without a change in this respect, high freights and slow shipments may be calculated upon. Barges hitherto employed in carrying Lumber have been chartered to carry oil between Cleveland and Buffalo, and most of the first class canal boats are secured to carry corn. Next to the labor strikes the difficulty of getting forward Lumber concerns the Lumber dealers as much as anything. The stride has assumed a serious shape, and unless set to rights must affect building operations seriously. The strikes once closed, a steady Lumber business may be counted on throughout the season. The low stock of Lumber throughout the country: the lateness of the season; the limited time left for the manufacture and the shipment of Lumber; the freighting difficulties and other features of the trade can hardly fail to keep prices steady.

The heavy rains of the last ten days have helped the log drivers, and most of the mills will have logs enough to keep them sawing for the balance of the season. A large quantity of logs will not be got to the mills, and thus the scare of a large overstock is passed. The logs got to the mills have been at an increased cost.

As compared with last year, the receipts are much less. Stocks on hand much lighter. The district was never before as bare; many of the yards having nothing on them. Shipments have been light owing to want of assortment.

The arrivals of Lumber by Lake at Buffalo were 8,704,600 feet; at Oswego 5,870,900.

The receipts at Albany by the Erie and Champlain canals for the first week of June, were:

	Bds. & Sc'tl'g ft.	Shingles, M.	Tim'r, c. ft.	Staves, lbs.
1872.	13,966,200	50	.....	.....
1871.	14,996,000	1,632	.....	480,000

Of the boards and scantling received 8,681,500 feet were by the Erie and 5,284,600 feet by the Champlain canal.

The receipts at Albany by the Erie and Champlain canals from the opening of navigation to June 8th were:

	Bds. & Sc'tl'g ft.	Shingles, M.	Tim'r, c. ft.	Staves, lbs.
1872.	33,741,300	.....	.....	.....
1871.	77,032,800	7,967	.....	2,191,000

Canal freights from Buffalo to Albany are $5.75@6.00 on pine and $7.00@7.25 on walnut, &c. From Oswego to Albany 3.25 ₱ M.

River and Eastern freights are quoted as follows:—

TIN-LINED LEAD PIPE

Is a Block-Tin Pipe, heavily coated with solid lead. It is the best and cheapest Water Pipe when strength and durability are considered. By its use, iron rust, lead, and zinc poison are all avoided, and general health promoted. Price 15 cts. a pound for all sizes. Circulars and sample of pipe sent by mail, free. Address the COLWELLS, SHAW & WILLARD MF'G CO., No. 213 Centre St., New York.

PURE WATER

Also, Manufacturers of **BLOCK-TIN PIPE, SHEET LEAD, LEAD PIPE, SOLDER,** etc. Orders solicited and filled at sight.

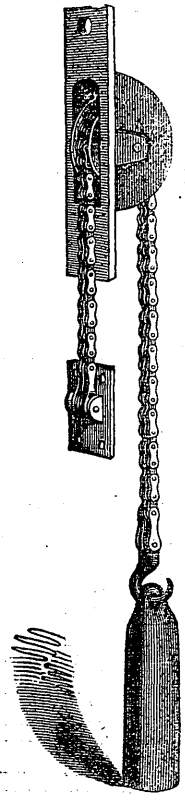
FURNACES AND RANGES.

No one should Build or Live in a House
WITHOUT EXAMINING OUR
ELECTRICAL APPLIANCES,
without which no house can be said to have all or even the MOST IMPORTANT OF MODERN IMPROVEMENTS; in fact, they are indispensable for the complete outfit of a first-class house with what may be termed necessary conveniences. All English and French houses at the present time are furnished with this electrical apparatus.



E. HOLMES'
Burglar Alarm Telegraph.
This one Bell, located in the Sleeping-Room, when set for the night, rings upon the opening of each door and window of the house. It is a watchman that has but one house to protect; never goes to sleep; cannot be bought off; and an experience of ten years, without a failure, proves it to be perfectly reliable and satisfactory.
PARTICULAR ATTENTION
is requested to our new
HOUSE ANNUNCIATOR,
An improvement upon the French system.
IT CONSISTS OF A SINGLE
CALL BELL AND ANNUNCIATOR,
in the kitchen or servants' department, and so arranged that the simple touch of a small ornamented spring in each room of the house RINGS THIS BELL AND ANNOUNCES THE ROOM from which the call proceeds —the bell continuing to ring until the servants give it attention. The whole thing is operated by
ONE BATTERY, OR BY THE SAME BATTERY
that operates the
Burglar Alarm Telegraph.
It is simple, perfect, and reliable, and will not get out of order, and is a very great improvement upon the old system of "bell pulls." We also have
An Attachment for Ringing Door Bells and Servants' Bells from the
TABLE OR DINING ROOM,
by placing a spring in the floor, and covered by the carpet. Also, for
Calling the Coachman from the Stable.
Send for pamphlet containing ten or twelve hundred TESTIMONIALS. They are from our best citizens and first business men of New York and vicinity.
E. HOLMES,
OFFICES:—
7 Murray Street, New York.
6 South Clark Street, Chicago, Ill.
1111 Chestnut Street, Philadelphia, Pa.
69 West Fourth Street, Cincinnati, Ohio.
205 River Street, Troy, N. Y.
121 Washington Street, Boston, Mass.

CAUTION.
The public are cautioned against all infringements upon this patent, even when called improvements; other parties have slightly changed my method of doing the same thing, and without any practical experience speak of it as a very great improvement. This invention is the only one that has had practical experience. It has been in general use for ten years, and every real, practical, or desirable improvement that study and actual experience could suggest has been added.
All violations of my patent, either by using or vending an infringement, will be dealt with to the full extent of the law for such cases provided.

JOHN SLATTERY,

Send for Price List.

MAGRATH'S COPPER SASH-CHAIN,

PATENTED 21ST MARCH, 1871,

Is adapted to ordinary round pulley, and strong enough to suspend weights of any size required.

Being intended as a substitute for sash-cord, it can be put into sashes now provided with cord without any change of pulleys. The inventor feels confident that experience will prove his chain to be both economical and durable, besides doing away with the constant annoyance and expense attending the use of sash-cord.

For terms and further information apply to

M. MAGRATH, Patentee, Carpenter and Builder,

74 Irving Place, New York City.

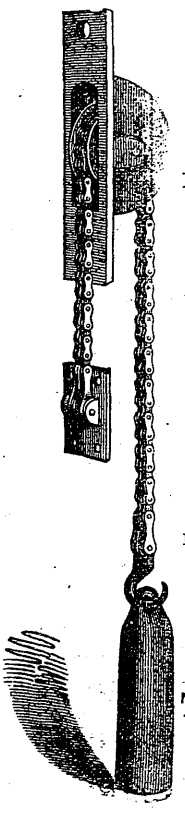
No one should Build or Live in a House
WITHOUT EXAMINING OUR
ELECTRICAL APPLIANCES,
without which no house can be said to have all or even the MOST IMPORTANT OF MODERN IMPROVEMENTS; in fact, they are indispensable for the complete outfit of a first-class house with what may be termed necessary conveniences. All English and French houses at the present time are furnished with this electrical apparatus.

E. HOLMES'
Burglar Alarm Telegraph.

This one Bell, located in the Sleeping-Room, when set for the night, rings upon the opening of each door and window of the house. It is a watchman that has but one house to protect; never goes to sleep; cannot be bought off; and an experience of ten years, without a failure, proves it to be perfectly reliable and satisfactory.

PARTICULAR ATTENTION
is requested to our new
HOUSE ANNUNCIATOR,
An improvement upon the French system.
IT CONSISTS OF A SINGLE
CALL BELL AND ANNUNCIATOR,
in the kitchen or servants' department, and so arranged that the simple touch of a small ornamented spring in each room of the house RINGS THIS BELL AND ANNOUNCES THE ROOM from which the call proceeds—the bell continuing to ring until the servants give it attention. The whole thing is operated by
ONE BATTERY, OR BY THE SAME BATTERY
that operates the
Burglar Alarm Telegraph.
It is simple, perfect, and reliable, and will not get out of order, and is a very great improvement upon the old system of "bell pulls." We also have
An Attachment for Ringing Door Bells and Servants' Bells from the
TABLE OR DINING ROOM,
by placing a spring in the floor, and covered by the carpet. Also, for
Calling the Coachman from the Stable.
Send for pamphlet containing ten or twelve hundred TESTIMONIALS. They are from our best citizens and first business men of New York and vicinity.



E. HOLMES,
OFFICES:—
7 Murray Street, New York.

121 Washington Street, Boston, Mass.

CAUTION.
The public are cautioned against all infringements upon this patent, even when called improvements; other parties have slightly changed my method of doing the same thing, and without any practical experience speak of it as a very great improvement. This invention is the only one that has had practical experience. It has been in general use for ten years, and every real, practical, or desirable improvement that study and actual experience could suggest has been added.
All violations of my patent, either by using or vending an infringement, will be dealt with to the full extent of the law for such cases provided.

One year, in advance.....$6 00

All communications should be addressed to

C. W. SWEET,

7 AND 9 WARREN STREET.

NO receipt for money due the REAL ESTATE RECORD will be acknowledged unless signed by one of our regular collectors, HENRY D. SMITH or THOMAS F. CUMMINGS. All bills for collection will be sent from the office on a regularly printed form.

SPECIAL NOTICES.

MR. METCALF, of 113 Beekman street, has on hand a full supply of the well-known McGregor Heating Furnace, which is claimed to be equable in heat and economical in fuel.

OUR readers will see, by referring to the card of Tyrrell & Co., on last page, that this well-known firm still continue at their old stand.

THE GROWTH OF NEW YORK CITY.

IN the window of a shopkeeper on Broadway may be seen an engraving of the City of New York as laid out in the year 1855. At that time the Crystal Palace was standing, and it shows out in bold relief in comparison with the scattering houses which were then standing in that neighborhood. North of Fifty-ninth street nothing is to be seen but a general waste, the land now known as the Central Park at that time not even having been appraised, vacant lots in that locality being then worth about $400 per lot. Within the past year $275,000 has been offered and refused for three lots on the corner of Seventy-ninth street and Fifth avenue, facing Central Park. A prominent real estate agent lately bid through the daily papers $50,000 for any inside lot on Fifth avenue, fronting Central Park, below Seventy-third street. Seven years ago $12,000 to $14,000 would have been considered a fair price for the same lots. The price for street lots from Sixtieth to Eightieth street, between Fifth and Madison avenues, will average about $20,000 each.

The nearest approach to these prices on the West Side for street lots, always excepting Central Park lots, was the sale of two full lots on the north side of Seventy-second street, 250 feet west of the Boulevard, for $12,000 each, which were purchased by a heavy capitalist whose whole investment, nineteen lots, in this block, was $254,000 cash.

In the year 1842, only thirty years ago, the south-west corner of Broadway and Fourteenth street sold for $8,100. It is now leased at a ground rent of $25,000 per year. The point of the angle formed by Sixth avenue, Thirty-second street, and Broadway, about 50x80, was sold during war times for $45,000. It is now worth at least $150,000. The ground on which the St. Germain Hotel now stands sold in 1850 for $45,000. To-day it could not be purchased for less than a quarter of a million of dollars. Instances similar to the above can be given by the score, and are familiar to every dealer in real estate.

The proof that eligibly located dwelling sites will command as much if not more than business sites may be seen in the prices attained by Fifth avenue lots facing Central Park. As yet the prices on Eighth avenue park lots and the West Side generally, have not reached the figures of the East Side, but that in a short time they will equal and lead the East Side is a fact not doubted by any prominent real estate operator. Probably the highest priced lots on the island in time will be those located on the Boulevard which is a continuation of Broadway and is now a great favorite with prominent capitalists. Mr. Wm. B. Astor's investments in that direction have been noticeable, and there is no description of property in New York which is drifting into stronger hands than the Boulevard lots.

When Mr. Vanderbilt will have completed his rapid transit railway, a work which he will undoubtedly carry through within two and one-half years, the West Side will be brought within ten minutes ride of the City Hall, which, once accomplished, will add ten thousand houses to that locality within a few years. At the present rate of increase in population this city will require 23,000 additional houses in 1880. The city now contains 101,000 houses according to the census of 1870.

Ten years hence a drive on the Boulevard will give Europeans an impression of New York as a great city, no comparison to which can be afforded now by the Central Park or Fifth avenue lots. The watering process applied so liberally to railroad investments of late years is of no use in relation to real estate. The number of lots on the Boulevard and surrounding Central Park cannot be increased a single inch. Let no one be afraid to invest in up-town real estate, as a profit is certain beyond a doubt.

A STRONG INDICTMENT.

THE address of the Honorable Rush C. Hawkins to his constituents respecting his course in the "Reform" Legislature of the State of New York ought to be in the hands of every taxpayer. It is a most astonishing indictment against perhaps the most corrupt Legislative body that ever sat in any State in this country. The most disheartening thing about this whole matter is the apparent impossibility of getting any better Legislature so long as voting constitutionally remains what it is. It is idle to say that our New York city voters are worse than country voters; for Mr. Hawkins found the country members quite as willing to be bribed as those who were sent from the City of New York. Rural virtue is quite as much a myth as civic virtue when any stealing is to be done. Another specially disheartening feature in the case is that the men who are plucked—robbed by the acts of these venal Legislators—are not the poor and needy; they are the well-to-do classes, the men of property. Surely if any one is able to take care of themselves it should be those who had brains and prudence enough to accumulate property. But the history of property owning in this city shows that our real estate owners are quite willing to be made ducks and drakes of by any characterless vagabond who is a member of the State Legislature or a city official. There may be some way out of this fog, but at present we cannot trace it. The problem in the future will be—How is it possible to elect a Legislature which will not be corrupt; which will not sell its franchises for money paid down on the nail?

MR. E. P. BARKER the Chief Clerk of the Department of Parks, at the regular meeting of the Board on Wednesday last, sent in his resignation to take effect on Monday next. His successor has not yet been appointed, the Department finding it no easy matter to properly fill his place. Mr. Barker is the oldest employee in the service of the Department, and has served faithfully under all the different changes of administration for the last fifteen years. With the exception of Mr. Van Nort there is probably no other man in the city who possesses so intimate a knowledge of the character of the various improvements carried out by the Park Departments.

THE FUTURE OF BROADWAY.

As a great many real-estate owners who take the RECORD do not read the New York *World*, we copy from that journal the following very interesting article on the future of upper Broadway and the West Side, which contains much that is just and some things, we apprehend, which will not bear criticism:

Notwithstanding all rivalry and the purposes of many of those who own property upon it, Broadway retains its supremacy for the best trade and the highest rents and value over all other streets and avenues in the city. Following the example of the Fifth avenue, this high value is about to be transferred from its lower section, below Union square, to its upper section, between Union square and the Central Park. Already on the Fifth avenue, vacant lots fronting the Central Park sell for as much as lots of the same size with the buildings below Fourteenth street; and Broadway is undergoing the same change. If one crosses the city from east to west, say along Grand street, the values of land are level, or nearly so, until

he approaches Broadway; crossing it, in respect to high value, is like crossing the ridge of a mountain. This is due to the single fact that Broadway, by reason of its direct course and superior pavements, has concentrated upon it the best and largest travel in the city. It is not due to the elegance of its buildings. Other streets have as fine warehouses. This single cause of its pre-eminence, for the section below Union square, is at the point of being destroyed. A few of its shopkeepers, whose power of grasping money has supplanted their power of grasping ideas, have succeeded in keeping away from it the underground railroad. At a time when the plainest forecast shows that the next half million of population is to be gathered and settled, of all the suburbs, on the northern parts of this island and the Westchester border, instead of increasing the capacity of Broadway to accommodate the increase of travel, these shopkeepers, a few of them of the ancient sort, resolutely keep off from Broadway this travel, itself incalculable and the sole condition of further increase of value, and to establish it for all time to come on lines east and west of Broadway. This abnegation or suicide will settle forever the supremacy of upper Broadway.

Take a map of the city and look at Union square, the centre of the lower section of the island, then at the region west of the Central Park, extending northward to Washington Heights. See how Broadway strides across the grid-iron of streets and avenues from Union square to the gate of the Central Park to meet the Boulevard—the great thoroughfare and outlet of the whole West Side. At every avenue that it crosses it breaks the uniformity of the straight lines and right angles, and furnishes the only fine sites and open spaces for public buildings that the city affords. At each intersection it stamps value on the avenue it crosses, and draws with it on its course the highest value. The widening and straightening process it is now undergoing will greatly enlarge its capacity. The underground road is not shut off from it. When the population begins to fill up on the West Side it will be this part of Broadway that they will travel upon, and not upon the lower part. It will be nearer to the great residence sections, and thus the chosen place for the best retail trade; and it will pass diagonally through the great and densely settled central section of the island.

Thus above Twenty-third street, Broadway will be the great avenue to the west, as the Fifth avenue will be to the east. This point of intersection will be the point of the highest value—indeed, it is so already—on the whole island. Below this point the city at large will be benefited by breaking up the stream of travel which now crowds Broadway and sending it down town on side routes.

This increase of upper Broadway depends largely upon the progress made in the improvements under way on the West Side. On the East Side the Fifth and other main avenues have long since been paved, sewered, and made ready for building, and buildings are crowding in upon every street as far as the northerly slope of the hills above Yorkville. The demonstration is complete that the regions abreast of the Central Park when they are ready for occupation are as valuable as any portions of the city. The values on the Fifth avenue, far as they are below the point they will attain, justify everything that has ever been claimed for that avenue. On the West Side the main improvements that give character to the whole are under rapid progress. The obstacles that have delayed the grading of the Eighth avenue are fast being removed. A great portion of the work has been already accomplished, and work will soon be resumed there with activity. On the river border the question of the Riverside Park will soon be settled. It will come before the General Term of the Supreme Court early in July, upon the report of the second commissioners, in which all the objections to the first report have been judiciously considered and overcome. Time enough has elapsed for the Department of Public Parks to mature the plans for its improvement, and they will be ready, with some measures to carry on their work there, this summer. There is no improvement of which the public have now so vague an idea, and which will surprise them so much by its unparalleled beauty when they come to see it. A drive or a ramble for three miles along the high banks of the Hudson River, from seventy-five to one hundred and fifty feet above the tide, over lawns and hillsides, covered with an elegant growth of old forest trees, and with points of commanding prospect, will be a novel thing on the borders of a great city; and yet it may all be realized within one or two years. The Boulevard is already finished for use for one-half its width and its whole length of five miles. The remaining half of the width of the roadway is being rapidly worked, and proceedings are about to be commenced to extend it from One Hundred and Fifty-fifth street to Inwood, a distance of some three miles, along the high and wooded banks of Fort Washington, overlooking the Hudson.

The public have already received with the highest satisfaction the intelligence that there is a prospect of more work this summer than ever before on these improvements, and that in every department charged with these duties the greatest interest and activity prevail for their diligent prosecution and completion.

In connection with the proposed extension of Avenue A from 24th to 52d st., the following is of interest :—

DEPARTMENT OF PUBLIC WORKS,
COMMISSIONER'S OFFICE, 237 BROADWAY,
NEW YORK, May 11th, 1872.

To the Honorable the Board of Assistant Aldermen:

GENTLEMEN—This Department is in receipt of a resolution adopted by your Honorable Body on the 25th ult., desiring to be furnished with information as to the practicability of extending Avenue A from Twenty-fourth to Fifty-third street, and also if any serious obstructions or difficulties prevail so as to render the opening of Avenue A as above stated impracticable.

After a thorough examination, I respectfully submit, the avenue cannot be extended north of Twenty-sixth street; so far the extension of the avenue presents no difficulties, it would fall inside of the established bulkhead line, and the owners of water grants would be required to fill in and regulate all streets crossing their grants.

North of Twenty-sixth street, however, Avenue A, if extended, would intersect the bulkhead line in front of Bellevue Hospital, and the pier line of the Harbor Commissioners at Thirty-second street meets this line again at Fifty-fourth street. As these lines were created by an Act of the Legislature it would require the same power and authority to amend the same.

The soundings off Thirty-third street and north of that point to Forty-ninth street show a depth of bottom more than 50 feet at low water, with rocks shelving abruptly toward the channel.

Did the authority exist, the expense of constructing the avenue under such circumstances would exceed the amount that could be legally assessed upon the adjoining property, the work therefore would appear impracticable. Respectfully submitted,

GEO. M. VAN NORT,
Commissioner of Public Works.

GOSSIP.

THE 18th Ward Market cost the City $386,000. The weekly rental collected therefrom is four dollars and fifty cents, and the Board of Assistant Aldermen recently voted down a resolution to make such disposition of the property as would secure an adequate return to the city....Property owners entitled to a return of one third of the assessments paid by them on certain streets included in the Compromise Assessment Act will receive the same on presenting their receipted bills to the City Auditor....A resolution is now pending before the Common Council which will compel, if passed, the several City Railroad Companies to raise the pavement inside their tracks to a level with the established grade of the street....The owners of property fronting on Leroy street protest against the paving of said stree with trapblock pavement stating that it is unnecessary and that they are satisfied with the present cobble stone pavement....The new patented street lamps which of late have increased so remarkably, cost the city six dollars and twenty-five cents each, and are furnished as required, no contract existing between the owners and the city. As yet there have been but few places in any streets except Broadway and Fifth avenue. The city parks are filled with them. ....The following important resolution introduced at the last meeting of the Department of Parks was laid over for action on Wednesday next:—

Resolved, That all further proceedings relative to taking the lands lying between 72d street and 129th street, and 11th avenue and Hudson river, commonly known as Riverside Park, under the act entitled "An act for the laying out and improving a certain portion of the City of New York," passed April 24, 1865, be and are hereby discontinued.

Nos. 3 and 5 Weehawken street, unsafe generally; Ebenezer Beadleston, owner.

No. 82 Washington street, unsafe girder, &c.; D. A. Stanley, owner.

REAL ESTATE MARKET.

THE market, for the season of the year, may be said to be unusually active, several heavy speculators having lately taken hold and made extensive purchases. The signs of the times are that the coming year will witness a revival of speculative activity, which will rival the palmy days of 1868 and 1869. The West Side, which of late has been comparatively neglected by operators, is now a favorite, and undoubtedly prices will soon be pushed up to a level with the East Side. Suburban property is in demand, buyers having implicit faith that no mistakes of investment can be made in that direction, where the property is within an hour of the City Hall. To those desiring that class of investments, attention is directed to the last page of the RECORD, on which may be found the advertised third and last sale of 187 lots at Whitestone, L. I., which village is sewered and drained. The fact of the property being within easy communication—forty-one trains daily—is a decided advantage.

Next to the editorial page of the RECORD will be found the advertised sale of 54 lots and gores on the west side of the Grand Boulevard, north side of 71st street, and east side of 11th avenue, to be sold at auction by A. H. Muller, P. R. Wilkins & Co., on Thursday, June 27th, at 12 o'clock, at 111 Broadway.

The title to this property is undoubted, and has been again and again pronounced perfect by the best lawyers in the city. The Boulevard lots are specially prominent, as they front on the open space, averaging 200 feet wide, made by the crossing of the Boulevard and Tenth avenue, and having a view up and down these splendid thoroughfares. This property will be sold subject to restrictions against nuisances, and the property opposite, belonging to the Harsen estate, is held in the same manner. Seventy-first street is about the centre of the most even grade on the line of the Grand Drive; is twelve feet higher than the River Side drive; seventy-four feet above high water mark, and within two blocks of Central Park entrance at 72d street. Undoubtedly the streets between the Boulevard and the River Side Parks will one day be lined with the architectural magnificence of New York.

MARKET REVIEW.

BRICK.—The market for North River Hards, has experienced no marked change since our last report, excepting that the eager demand reported at some yards then, has this week become a little more general, but some yards still complain of a lack of genuine briskness. Mainly this is the case as regards imperfect stock which buyers don't seem inclined to handle at scarcely any price. The supply, however, is now regular, and amply large to keep ahead of a much more draining outgo. For this reason, prices although apparently very strong, can hardly be expected to hold very long at the present figures. We quote Haverstraw Bay brick at $8@9.25 per M: some fancy styles reaching as high as $10 do. Up rivers from $7@7.50 do. Jerseys, $7@7.50. Pale brick, $4@5, and for inferior lots even a lower figure than the minimum. Fronts in usually fair demand at unaltered quotations. Crotons, $12@16 per M, and Philadelphias at $40@45 do from yard.

LATH.—The demand for lath continues just brisk enough to absorb the few cargoes forwarded just about as rapidly as they arrive here, and now that contracts have been pretty much filled, it is doubtful whether the shipments for this city will not begin to fall off. The demand is so great in other quarters where the figures are much more liberal than they are here, that such an occurrence is more than likely. The quotations of almost every other city where the consumption of lath is at all large, are universally higher than in New York. We quote Eastern at $3 strong.

LIME.—Without any new features to note, lime remains steady at the decline that occurred last week. We quote Fort Ann and Glenn's Falls, Bald Mountain, and Rockland, at $1.25 per barrel for common, and $1.75 per do for lump or finishing.

LUMBER.—The improvement noticed in business last week proved to be only temporary and has been followed this week by a collapse almost total; until the question of labor is placed upon some substantial and reliable basis these successions of briskness and dullness may be expected. No manufacturer or builder will undertake any contracts now, that are not forced upon him at the risk of the customer whether they can be fulfilled, and so affairs must remain until the laboring classes agree upon some equitable system and abide faithfully by it. Employers will not be likely to forget the bad faith their employees have displayed during the recent strikes, and before they undertake any great operations will guard against exposing themselves again to the losses and annoyances occasioned by the insaticty and treachery of the laborers. Hence, until a degree of confidence is restored, any real, healthy movement may not be looked for in the lumber market, as those who make trade brisk can scarcely be expected to hoard themselves with a cumbrous material for which they will have no immediate necessity. It is unquestionably true that if the labor question had been adjusted early in the season there would exist to-day less cause for mutual regret, business would be active and work consequently plenty.

The reports from the mills indicate a fuller supply of logs than was generally expected; local estimates put the aggregate of the Saint Croix river at 206,000,000 feet, and of the Mississippi, above the falls of St. Anthony, at 200,000,000 feet.

Eastern Spruce is doing very well at former quotations, running for $17.50 @21.50, including all qualities. White Pine unchanged at $21@33 for common to fair box and shipping boards; $35@38 for good do; pickings and selects, $40@45 respectively. Yellow Pine unaltered at $28@30 for random cargoes; $32@38 for special cuts, and $40 for fancy cuts.

The exports of lumber are as follows:—

Total	86,296	10,767,879	8,246,413
Value	$3,284	$363,564	$255,560

Additional exports as follows:—To Hamburg, 43 walnut logs, value $1,567, and other wood logs, value $2,905; Liverpool, 355 mahogany logs, value $7,000; Hamburg, 3 cases veneers, and Bremen, 9 cases veneers; Antwerp, 3,076 staves; Liverpool, 11,830 staves; London, 3,000 staves; Seville, 15,600 staves; Cadiz, 196,080 staves; Oporto, 15,269 staves; Chili, 4,300 staves; British West Indies, 1,200 shooks; Central America, 300 shooks and heads; New Grenada, 370 bundles shooks; Brazil, 3,160 shooks and heads; Peru, 959 shooks; Brazil, 36,000 hoops; Cuba, 63,000 hoops, and 1,122 empty hhds.; Hayti, 74 empty bbls.; Central America, 24,850 shingles.

Contracts as follows:—A bark, 628 tons, from Savannah to River Platte, lumber, $23 and primage; a brig, 529 tons, from Portland, Me., to River Platte, umber, $18 net; one, 295 tons, from Wilmington, N. C., to Trinidad, P. S., lumber, $13.25.

From the Saginaw *Courier*, June 11:—

From Mr. Orville Elsimore, scaler for the Huron Boom Company, we have some facts concerning Cass river logs. The Boom Company is now running out at the rate of 36,000 pieces a week. In quality, the logs as they average, will not run as good as last season's crop, there being more small logs. They will probably run about five logs to the 1,000 feet. Up to last Saturday, about 40,000,000 feet of logs had been run out, and there were about 30,000,000 back to come out, making a total of about 70,000,000 feet of logs for the first drive. The rear is now in the neighborhood of Bridgeport. The last rain, as near as can be ascertained, brought out in the neighborhood of 18,000,000, which were at latest accounts, near Cass City, or the rear was at that point. This would increase the total to nearly 90,000,000 feet, a much larger amount than at any time has been expected from this stream. In view of the fact that in the neighborhood of 140,000,000 were banked on this stream and tributaries, it will be seen that many logs are yet hung up. The rains of last week raised the water about two feet, but the water is now down again to low water mark. A large proportion of the "hung up" logs are on the North Branch, and belong mainly to Eddy, Avery & Co., Murphy & Co., and Bundy. A portion of these may come out in the June freshet, but it is hardly likely. About 20,000 pieces have been towed up the Shiawasse, above the boom house and anchored, on account of the mills for which they are intended being overstocked and not having boom facilities. These logs are mostly for Litchfield, Bundy, and several others.

ON THE TOBACCO.—A gentleman from Clare, in the city yesterday for the purpose of engaging men for the drive, informed us that of the 10,000,000 feet of logs yet remaining in the Tobacco, and belonging to Messrs. Geo. W. Jefferies, Thomas Merrill, and Gullifer, all will come out. Heavy rains fell in that locality on Saturday, and the drive would move to-day.

JUNE 14.—LAKE FREIGHTS.—Freights on lumber by lake have advanced slightly in the past few days, and very comfortable rates are now obtained. Vessels are getting $3@3.25 per M for lumber to Ohio ports. Freights to Buffalo are $4 and to Tonawanda $4.25. There are no lumber freights to Chicago. Freight on salt is about 30 cents from East Saginaw, 25 cents from Bay City.

JUNE 15.—May and early June, rain enough has fallen to compensate in some measures for the dryness of the past many months, and vegetation flourishes luxuriantly in consequence, as well as an accruing benefit to lumbermen along Pine river of not less than $100,000, in enabling them to get the fruits of last winter's industry to market, and realizing the proceeds of their labor. The main drive of logs in the Pine river comprises about all the logs banked upon the principal affluents of the stream for the past winter, and is being rapidly pushed forward down the river, the rear "jam" being now only a few miles above Alma, and the force employed in "driving" numbering from seventy-five to one hundred men, most of whom are under the direction of Messrs. Gargett & Lathrop.

KAWKAWLIN LOGS.—It is thought that the 15,000,000 feet of logs which were "hung up" on the north branch of the Kawkawlin river, will all come down without difficulty.

A tow over a mile long, comprising 6,000,000 feet of lumber on steamers passed Detroit last week *en route* to Buffalo.

The Huron County *News* says:

The oak stave market at Sebewaing is very brisk this spring. Prices are higher than ever before, and are such as to induce the hauling of staves to that market from a distance of sixteen miles. The hoop business is also active.

From Griffin & O'Connor's *Market Reporter*, St. Louis:

We note large arrivals of white pine in raft, mainly on previous contracts and manufacturers' account however. Sales reported were: Afloat 300,000 feet Black river at $16; 300,000 Chippewa at $16.75; 500,000 do at $17; 600,000 Wisconsin at $21; 800,000 do at $19@22; 19,000 hewn timber at 10½c per lineal foot. Lath sold to extent of 25,000 at $3 afloat. Shingles dull—held at $3.75 afloat for A sawed.

The *Saginawian* publishes the following report of logs cut last winter on Thunder Bay river and tributaries, and which will be run to Alpena, is authentic, having been made up from figures given by the log owners and jobbers:—

	Feet.
A. F. Fletcher & Co	6,000,000
F. N. Barlow & Co	11,250,000
F. Gilchrist	9,000,000
D. Campbell & Co	1,900,000
Mason, Luce & Co	9,188,000
Falkerts & Butterfield	7,000,000
E. Harrington	10,000,000
J. K. Lockwood & Co	2,240,000
A. Pack & Co	9,864,000
J. S. Minor, Norway	1,500,000
J. S. Minor & Co	1,500,000
Kemp & Bolton	1,500,000
Richardson & Avery	12,000,000
Hopper & Davis	2,000,000
C. Thompson & Co	2,200,000
Cicero & Potter	4,000,000
Cushman & Co	3,000,000
Campbell, Porter & Co	10,000,000
Bewick, Comstock & Co	2,250,000
Small lots	3,000,000
Total	113,192,000

Freights are advancing, in consequence of the active demand, and good prices realized for lumber, and also on account of quite a number of barges hitherto in the lumber carrying trade, having gone into the grain trade.

MUSKEGON.—D. A. Blodgett, of Hersey, has a large force of men at work on the drive on Clam river, and the prospects are that no logs will be hung up on that stream this season. He has not only cut a channel from Muskrat lake to the creek, but has damned the creek and river in several places, thus obtaining water enough to float the logs. If the 40,000,000 feet of logs cut on the Clam all get to the mills, the prospects are not very gloomy for lumbermen on the Muskegon, after all, for about 300,000,000 will be cut this season, not more than sixty to seventy-five million feet being hung up on the other branches of the main river.

THE Oshkosh *Daily Northwestern* reports the work of rafting at East Bay as progressing lively. About a million feet per day are being rafted. The logs are running into West Bay, and coming down the river in large quantities. The logs have all passed from White Clay Lake into Mud Lake. It was feared that those in White Clay would be hung up.

The *Daily Times* says that 500 men are engaged in rafting at the boom. The Little Wolf middle drive, of 1,700 logs, had arrived at the boom on Thursday. Meiklejohn's drive was at Stanley's.

Chicago *Tribune* June 11:

The arrivals since Saturday have been large, but under an active inquiry a firm feeling prevailed. A sawed shingles and lath were steady at former figures. Pickets were dull. At the close about a dozen cargoes were left over.

At the close prices ranged as follows:—Choice mill-run lumber, $18@20; good to choice strips and boards, $15@17; common strips and boards, $13@14; common mixed lumber, $11@12.50; joist and scantling, $11@11.50; shingles, $2.75@3; lath, $3@3.12½; pickets, $10@12.

From Troy *Weekly Times*, June 15:

During the past week the lumber market has continued rather inactive. Receipts have been light, but the assortment is now fair. Sales are only moderate and about keep pace with the receipts, so that stock does not yet begin to accumulate much. Advices from manufacturing regions in Canada, Michigan and this State go to show that the recent rains have materially aided in getting out a portion of the logs which were supposed to be "hung up." The mills all have enough logs now to do good business and generally are running full time, night and day. The sawing season, however, this year will necessarily be shortened at least a month on account of the lateness in starting up, and with the ordinary detention of low water in mid-summer the time may be even less.

BOSTON LUMBER MARKET.

From the Boston *Commercial Bulletin:*

The lumber market still continues without any marked features, ruling seasonably active, with a slight falling off in the demand for some kinds. Prices as a rule are without quotable change, although the rates for some kinds of Eastern have slightly declined.

Shingles are very dull, and in large stock. There is a fair demand for laths, and the stock is rather light. Clapboards are in full supply, market very dull.

In Canada and Western the demand is good and prices are generally maintained. New lumber is coming forward and there is but little old stock left. Foreign shipments are large, especially to South America.

In Southern there is little change. The arrivals are small at this season, as contracts have all been filled. Dealers are ready to pick up all desirable lots arriving, and there is no falling in prices.

The following are the surveys for the week:—

DOMESTIC LUMBER.	Feet.	DOMESTIC LUMBER.	Feet.
Pine	1,080,632	Black Walnut	20,063
Hard Wood	21,701	So. Pine Plk. & Tim.	174,460
Hemlock	596,488	Spruce	2,657,040
White Wood	17,046	So. Pine Flooring	254,713
Pine Tim. & Joist	15,488		
Total			4,837,631

From the Savannah *Republican*, June 14:—

TIMBER AND LUMBER—TIMBER.—Receipts for the past week have been very light, all taken up on arrival at about our quotations. An active inquiry still exists for vessels for United Kingdam and coastwise. We quote: Mill Timber, $9@10: Shipping do, 600 feet average, $8@9; 700 feet average, $10@11; 800 feet average, $11@12; 900 feet average, $13@14; 1,000 feet average, $14.50@16. LUMBER—active. Orders are plenty. We quote: Ordinary sizes, $20@21; difficult sizes, $21@26; flooring boards, $21@22; ship stuff, $20@24, according to sizes.

FREIGHTS.—Vessels are in demand for lumber cargoes, but none are disengaged.

Coastwise—Steam to New York, ¼c or upland, ¾c for sea island; rice $2 per cask. To Philadelphia, ¾c for upland; rice, $2 per cask; domestics, $1.25. To Baltimore, ½c for upland; rice, $1.50 per cask. To Boston, ⅝c for upland; rice, $2 per cask. Cotton to Boston via New York, 75c per 100lbs; to Providence via New York, 90c per 100lbs: to Providence via Boston, 90c per 100lbs. *Lumber*—To Philadelphia, $8.50; to New York and Sound ports, $10@10.50; to Boston and Eastern ports, $11@12; to Baltimore, $8@9; to Cuba, nominal; to River Platte, $23, and per cent. primage. By steam to New York, $10. *Timber*—Freights are from $1@1.50 higher than lumber rates.

METALS.—There is quite a brisk demand for Ingot Copper, which, while apparently wholly speculative in its nature, has nevertheless forced an upward tendency in prices, which are already from ½ to ¾c per pound higher than they were last week. Lake, on the spot, selling at 33¾@34¼c, and 34½c being asked for future delivery for cash lots. English Copper is yet but sparingly offered, and quotes, for best selected, at 32½@33c cash. Manufactured is still unchanged. We quote Sheathing at 43c; Bolts and Braziers, 45 do; Bronze and Yellow Metal Sheathing, 30c do, and Yellow Metal Bolts at 32c do. Scotch Pig Iron is quiet, the reported rise on the other side seeming to have no effect here; however, the stock at hand is being gradually reduced, and, as money is easier, holders are confident of a rise in prices here; the range for all brands, nominally, is from $47@54. American is not so active as it has been, but prices hold firm at $50 for No. 1, North River; $52@55 for No. 1 Lehigh, $49@51 for No. 2; Gray Forge, with very little offering here, at $48. New English rails are in fair inquiry at $72@74 gold. American are quiet at $85@90, and some mills asking $100. Scrap, nominal; Refined Bar, firm and inactive, with a prospect of a rise in English stock of 10s per ton, consequent on the increased pay of laborers, which goes into effect July 1st. The moderate demand which exists for Pig is being supplied by Government at $6.40 gold. Ordinary foreign is being sold by importers at 6¾c gold, and refined at 7@7¼c do. Manufactured is steady at 9¼c for Bar; 11c do for Sheet and Pipe, and 15 do for Tin lined pipe, less 10 per cent. to the trade. Pig Tin is still without any movement, and prices are without any fixed regularity. By a sort of tacit understanding, 38c gold is asked for English and Straits, and 50c for Banca, but dealers are disposed to make concessions in disposing of small lots. Plates have experienced a change for the worse, so far as business is concerned, but quotations hold firm at former figures.

Sheet Zinc is steady at former quotations, 8¾c gold, without any better demand than has recently been no.ed.

NAILS.—The market is quite steady and prices firm at quotations as follows:—Cut, hook-head brads, Fencing and Sheathing, 10@66d, per keg, $5.75; cut, 8@9d, $6 do; cut, 6@7d, $6.25 do; cut, 4@5d, $6.50 do; cut, 3d, $7.25 do; cut, 2 @3d, fine, $8; cut, 4@4½d, sugar-box, $6.75; cut spikes, all sizes, $6; cut, finishing, flooring, box, cooper's, casing, slating, trunk, and tobacco, 10@3d, $6.25@7.25; clinch, 2 to 3 inch and over, $7.25@7.75; horse-shoe, forged, No. 10 to 5, per lb, 21@32c. Copper, 45c per lb; Yellow Metal Sheathing, and Slating, 30@32c do.

We note exports as follows:—

	Past week.	Since Jan. 1.
Packages	270	10,205
Value	$2,296	$41,423

OILS.—There has been very little done in Linseed Oil in either a large or a small way for the week past, and the decline caused by the continued depression of business has finally so reduced the margin that crushers have stopped work at their mills for the present. An inquiry from the West is reported, but no sales consummated. There is still a disposition to push in outside lots, and a sale of 10,000 gallons is rumored at a very low figure. We quote, Linseed crushers, in casks, per gallon, 88@89c; do in bbls, 89@90c do; boiled and refined, in bbls, 95c do; outside lots, in casks, 82½@85c do. We note exports to Cuba during the past week of 240 gallons.

PAINTS.—There has been a pretty general relaxation of trade during the week past, the tone of the market at the close rating dull. The causes for this are manifold; buyers still evince an inclination to purchase only such quantities as will suffice for immediate necessities, evidently holding off for an advantage, while sellers, by their determined firmness in holding to their demands, imply their confidence in the soundness of their position. It is not improbable that they find justification in the quantity of stock known to be in the market, and which is said to be moderate. White lead in oil has experienced a slight advance to 12¼c; Paris White is a shade lower, at 2½c currency; Terre Alba is pretty generally held at $1.50; China Clay is enhanced, in a speculative point of view, by proceedings over the water, and the result of which seems to be advantageous to the selling interest. There has been a fair degree of activity, a better trade being reported than has existed for some weeks.

We note exports as follows:—

	Past week.	Since Jan. 1.
Packages	174	3,464
Value	$1,303	$41,298

SPIRITS TURPENTINE.—The market for Spirits Turpentine opened active at an advance of one-half a cent over our last quotations; but during the week several very liberal invoices were received, which induced holders to modify their views, and prices again fell off to 57c. Still later in the week, buyers could secure even better terms, sales being reported of 55c in merchantable order, and 57@58c in shipping order; jobbing and retail lots at 56½@61c.

TAR.—With little or nothing doing whereupon to build a market, Tar closed with figures unaltered from last week's quotations, which were as follows; Wilmington, as it runs, $4 per bbl; New Berne and Washington, as it runs, $3.37½@3.62½ do.

ALBANY LUMBER MARKET.

The Albany *Argus* for the week ending June 18, 1872, reports as follows:—

In regard to the difficulty of freighting lumber on the lakes we extract from a private letter of recent date from Saginaw as follows: "Present indications tend to higher freights. Vessel building for the past three years has been light; freights this year are abundant; large quantities of coal, brick, building stone, &c., are going West. The iron and copper ore trades are increasing. A very large quantity of staves are going East. The quantity of lumber to be moved is enormous. Grain freights are high and promise to continue so. All the tonnage on the lakes will be employed at good prices. We may expect freights to Albany to cost $10 ₱ M feet and more. Saginaw lumber is already costing $2 ₱ M feet more on account of advanced lake and canal freights."

From Chicago we make the following extracts from a private letter of recent date: "Our wholesale market is bracing up and is $1.00 ₱ M feet higher than it was two weeks ago. The new tariff hurts us 50c. ₱ M feet and helps Canada manufacturers more than that. The yard business in Chicago has been active at remunerating prices and the city and country demand is brisk."

A circular from Quebec under date 4th inst., reports that "with the heavy shipments which continue to be made it is a difficult matter to purchase either pine or spruce deals. Sales have been effected at an advance on our quotations, and first quality bright pine commands £27 10s. to £28 alone. This is an advance over last year's prices of $10 to $12 ₱ M feet on lumber."

The New York REAL ESTATE RECORD in its last issue reports: "The improvement in business has been pretty general and some of the yards have been quite pushed to fill orders." In connection with this we would state that New York buyers, up to the time of the labor strikes, without hardly an exception, reported an active business and increased sales, compared with other years, and at this moment nothing seems wanting to make sure of a steady healthy trade but a settlement of the strikes. In such an event, with low stocks throughout the country and an active demand, prices must remain firm. And these are fact upon which an opinion may be safely based.

Receipts in the district, though the largest of any week of the season, are still light in the aggregate. There is not any change in prices. There has been an active demand for foreign shipment. A settled market, that will enable buyers safely to lay in supplies is all that is wanted to start up an active business.

The receipts of lumber at Buffalo during the week were 11,010,600 feet; at Oswego 7,716,000 feet.

The receipts at Albany by the Erie and Champlain canals for the second week of June, were:

	Bds. & Sc'tl'g ft.	Shingles, M.	Staves, ₱bs.
1872.	20,905,500	1,084	675,000
1871.	12,907,000	1,072	492,000

Of the boards and scantling received 15,149,000 feet were by the Erie and 5,756,500 feet by the Champlain canal.

The receipts at Albany by the Erie and Champlain canals from the opening of navigation to June 15th were:

	Bds. & Sc'tl'g ft.	Shingles, M.	Staves, ₱bs.
1872.	54,646,800	1,327	1,224,700
1871.	89,939,800	9,039	2,683,000

Canal freights from Buffalo to Albany are $5.75@6.00 on pine and $7.00@7.25 on walnut, &c. From Oswego to Albany 3.25 ₱ M.

River and Eastern freights are quoted as follows:—

To New York, ₱ M	$1 50
To Bridgeport and New Haven	2 00
To Norwich and Middletown	2 50
To Hartford and Providence	2 50@2 75
To Boston, soft wood	5 00
To Boston, hard wood	6 00
Staves, ₱ ton, to Boston	2 50

Sheet, ₱ lb	10	@	10¼

TIN-LINED LEAD PIPE

Is a Block-Tin Pipe, heavily coated with solid lead. It is the best and cheapest Water Pipe when strength and durability are considered. By its use, iron rust, lead, and zinc poison are all avoided, and general health promoted. Price 15 cts. a pound for all sizes. Circulars and sample of pipe sent by mail, free. Address the COLWELLS, SHAW & WILLARD MF'G CO., No. 213 Centre St., New York.

PURE WATER

Also, Manufacturers of **BLOCK-TIN PIPE, SHEET LEAD, LEAD PIPE, SOLDER,** etc. Orders solicited and filled at sight.

Send for Price List.

MAGRATH'S COPPER SASH-CHAIN,

PATENTED 21ST MARCH, 1871,

Is adapted to ordinary round pulley, and strong enough to suspend weights of any size required.

Being intended as a substitute for sash-cord, it can be put into sashes now provided with cord without any change of pulleys. The inventor feels confident that experience will prove his chain to be both economical and durable, besides doing away with the constant annoyance and expense attending the use of sash-cord.

For terms and further information apply to

M. MAGRATH, Patentee, Carpenter and Builder,

74 Irving Place, New York City.

MURTAUGH'S

DUMB WAITERS

WHITESTONE.

THIRD AND LAST SALE OF THE SEASON.

JERE. JOHNSON, Jr., Auctioneer.

Builders, Artisans, and Manufacturers of every kind, also Capitalists, and gentlemen desiring pleasant residences, are invited to call on GEO. W. VAN SICLEN, 133 Nassau Street, and get passes, and INSPECT BEFORE THE DAY OF SALE, the

187 LOTS

of W. PAULY and A. D. SCHLESINGER, at WHITESTONE, L. I., adjoining the improvements of J. J. Locke and Conrad Poppenhusen and their associates; 780 yards from Railroad, in the direct line where Flushing and College Point are growing together. Handsomely laid out. Terms 10 per cent. and Auctioneer's Fee on JUNE 27th, when the property will be sold on the premises; 20 per cent. on July 27th; balance on mortgage for three years. Five per cent. off the mortgage for cash. If you will build, the mortgage can remain five years; and the Flushing and North Side Railroad, the best-appointed railroad from the city, will give a commutation ticket FREE between Whitestone and Hunter's Point, for one year, to the occupants of a house costing $2,000, built before May, 1873.

Forty-one trains daily from 5.50 A.M. to 12.15, midnight. Four steamboats (the Glen Cove boats). Only 65 minutes from City Hall, 50 minutes from Madison Square. Village sewered and drained; ground high; HEALTHY; fine scenery; famous drives; boating and fishing; country pleasures and city comforts; living cheap; good society; churches and schools. The Bill has passed the Legislature for water; we shall have it in a year. The pleasantest travel to and from the city, WINTER and Summer.

Positively the best place of Residence and for Investment within an hour of N. Y. City Hall.

NO BY-BIDDING WILL BE ALLOWED AT THE SALE.

LOOK AT THE PROPERTY AND INTO THESE STATEMENTS. THAT IS ALL I ASK.

Pine, Whitewood, Hickory, Chestnut, Maple, Basswood, Cherry, Beech, Oak, Ash, Birch, Butternut, Black Walnut, etc.

Terms, cash upon delivery.

No one should Build or Live in a House

WITHOUT EXAMINING OUR

ELECTRICAL APPLIANCES,

without which no house can be said to have all or even the MOST IMPORTANT OF MODERN IMPROVEMENTS; in fact, they are indispensable for the complete outfit of a first-class house with what may be termed necessary conveniences. All English and French houses at the present time are furnished with this electrical apparatus.

E. HOLMES'

Burglar Alarm Telegraph.

This one Bell, located in the Sleeping-Room, when set for the night, rings upon the opening of each door and window of the house. It is a watchman that has but one house to protect; never goes to sleep; cannot be bought off; and an experience of ten years, without a failure, proves it to be perfectly reliable and satisfactory.

PARTICULAR ATTENTION

is requested to our new

HOUSE ANNUNCIATOR,

An improvement upon the French system.

IT CONSISTS OF A SINGLE

CALL BELL AND ANNUNCIATOR,

in the kitchen or servants' department, and so arranged that the simple touch of a small ornamented spring in each room of the house RINGS THIS BELL AND ANNOUNCES THE ROOM from which the call proceeds—the bell continuing to ring until the servants give it attention. The whole thing is operated by

ONE BATTERY, OR BY THE SAME BATTERY

that operates the

Burglar Alarm Telegraph.

It is simple, perfect, and reliable, and will not get out of order, and is a very great improvement upon the old system of "bell pulls." We also have

An Attachment for Ringing Door Bells and Servants' Bells from the

TABLE OR DINING ROOM,

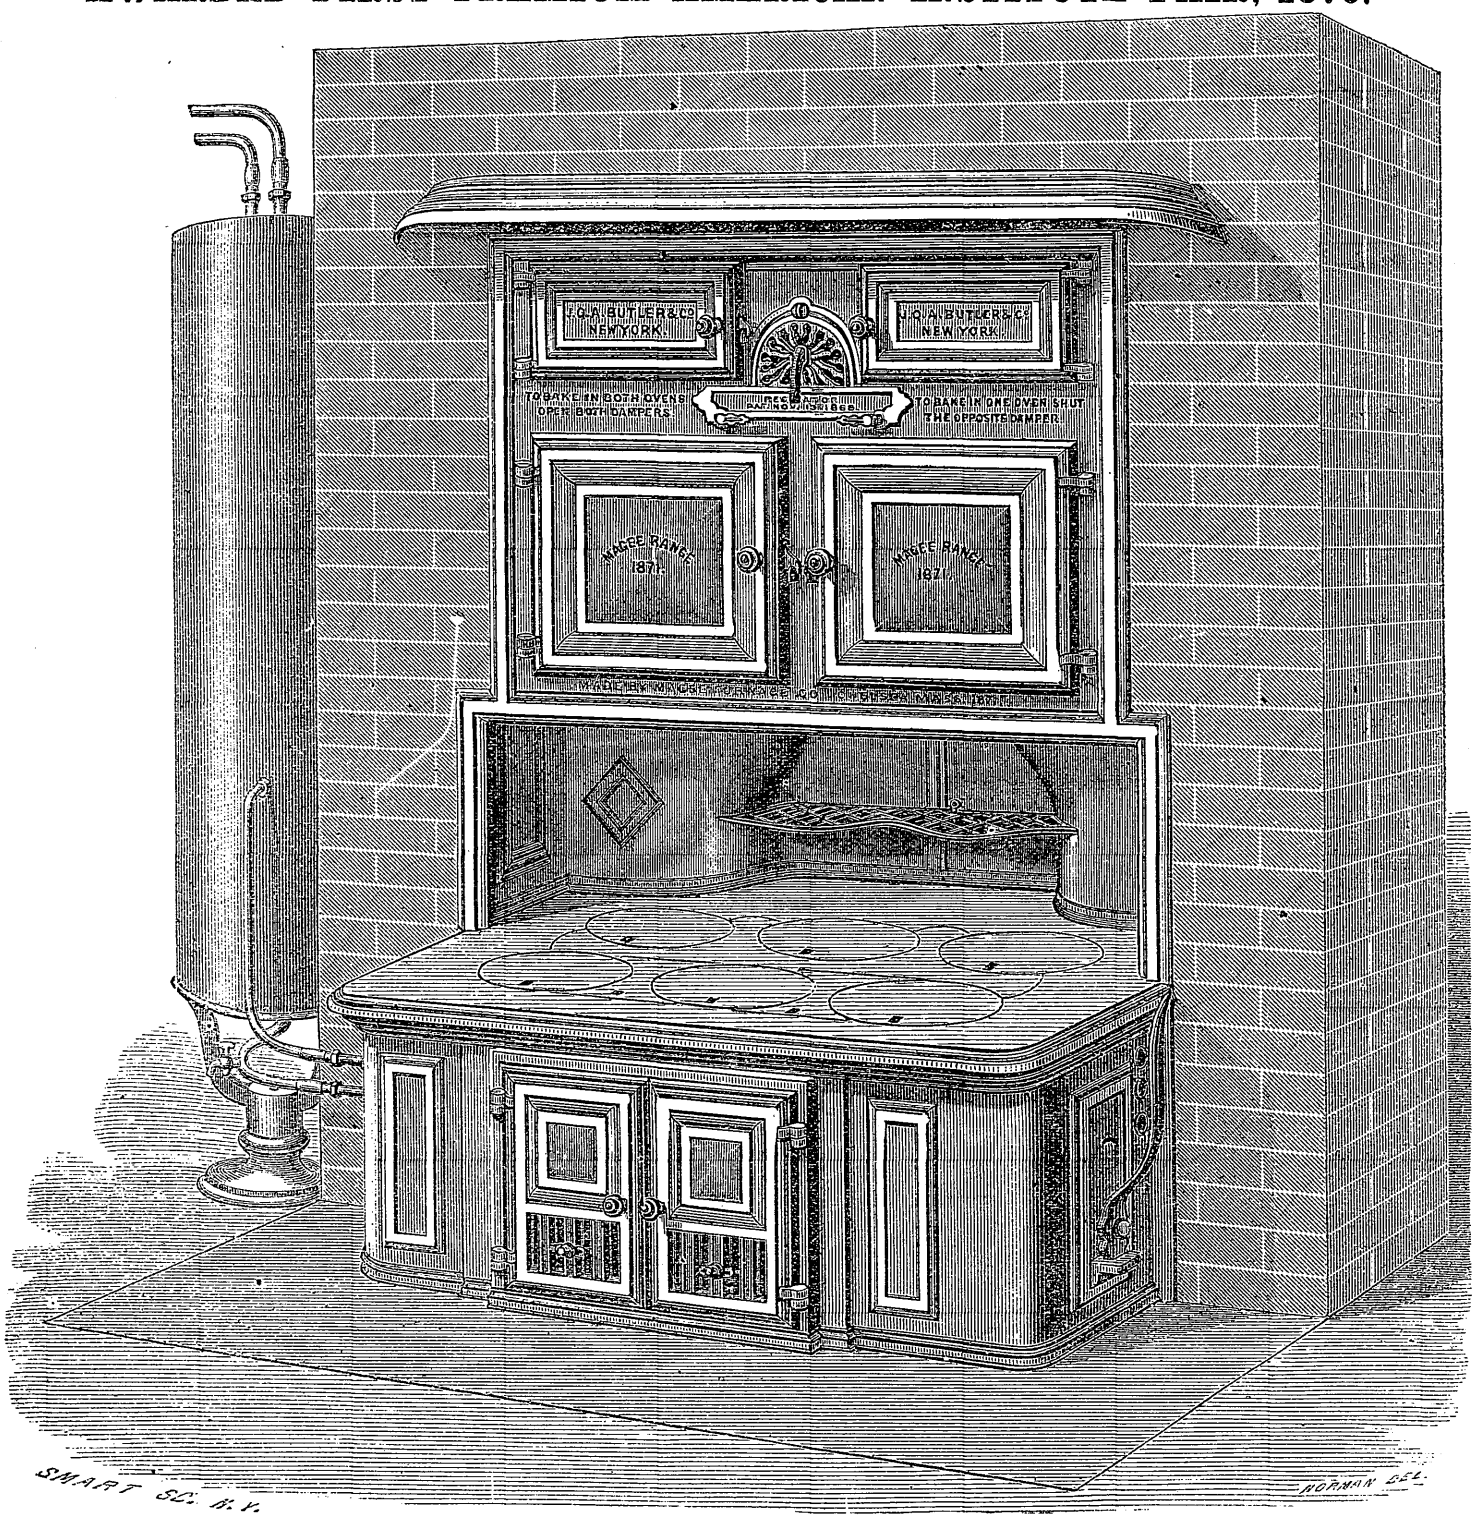
by placing a spring in the floor, and covered by the carpet. Also, for

Calling the Coachman from the Stable.

Send for pamphlet containing ten or twelve hundred TESTIMONIALS. They are from our best citizens and first business men of New York and vicinity.

E. HOLMES,

OFFICES:—



7 Murray Street, New York.
6 South Clark Street, Chicago, Ill.
1111 Chestnut Street, Philadelphia, Pa.
69 West Fourth Street, Cincinnati, Ohio.

121 Washington Street, Boston, Mass.

CAUTION.

The public are cautioned against all infringements upon this patent, even when called improvements; other parties have slightly changed my method of doing the same thing, and without any practical experience speak of it as a very great improvement. This invention is the only one that has had practical experience. It has been in general use for ten years, and every real, practical, or desirable improvement that study and actual experience could suggest has been added.

All violations of my patent, either by using or vending an infringement, will be dealt with to the full extent of the law for such cases provided.

MAGEE'S
IMPROVED ELEVATED OVEN RANGE
FOR 1871.
AWARDED FIRST PREMIUM AMERICAN INSTITUTE FAIR, 1870.

JOHN Q. A. BUTLER & CO.

REAL ESTATE RECORD
AND BUILDERS' GUIDE.

VOL. IX. NEW YORK, SATURDAY, JUNE 29, 1872. No. 224.

Published Weekly by

THE REAL ESTATE RECORD ASSOCIATION.

TERMS.

One year, in advance.....$6 00

All communications should be addressed to

C. W. SWEET,

7 AND 9 WARREN STREET.

NO receipt for money due the REAL ESTATE RECORD will be acknowledged unless signed by one of our regular collectors, HENRY D. SMITH or THOMAS F. CUMMINGS. All bills for collection will be sent from the office on a regularly printed form.

NEW FACTS ABOUT THE NORTH PACIFIC RAILROAD.

OUR readers will probably remember a short article which appeared in the RECORD of March 2d, in which the facts were stated in plain language in relation to that swindling organization known as the Puget Sound Land Company, controlled by Jay Cooke & Co., which, like the old man of the sea, has fastened itself upon the shoulders of that greater swindle known as the North Pacific Railroad, and in its name sells to themselves as the Puget Sound Land Company, all of the most valuable lots in the town sites at preëmption prices (almost nominal, or about $2.50 per acre), and then the Puget Sound Land Company re-sell these lots to settlers and emigrants at prices as high as $500 per lot, which sharp transactions take hundreds of thousands of dollars out of the North Pacific Railroad Company and transfers them into the pockets of the Puget Sound Company; and when it is considered that Jay Cooke & Co., in the published statements and advertisements, pledge themselves to devote the proceeds of the sale of all lands along the line "to the purchase and cancellation of the first mortgage bonds, or temporarily to the payment of the interest thereon if necessary," the land-holders will fail to see the honesty of these transactions.

In fact, rumors in relation to the way the most valuable property of the Company was being disposed of reached the ears of some of the heavy foreign bond-holders, and some months ago a combination of foreign capitalists sent a commission of scientific men to this country with instructions to investigate fully and impartially the condition, resources, and prospects of the Northern Pacific Railroad.

It is a singular fact, that notwithstanding this report was made some months ago, it has not yet seen the light of day in this country, the reasons for which are probably best known to Jay Cooke & Co., who, it is fair to presume, were the report favorable, would long since, with their characteristic energy, have made its contents known far and wide. It is a fact, however, not to be denied, that the disbandment of the Puget Sound Land Company, in connection with the affairs of the Northern Pacific Railroad, is made an ultimatum by the foreign capitalists, who, in case they furnish any further monies to the Northern Pacific Railroad, want further and more distinct guarantees in regard to the manner of its outlay.

In the original estimate made by the promoters for building the North Pacific Railroad, there occurs several items, which to any one at all familiar with the immense outlays necessary for completing such a gigantic undertaking as the building of 2000 miles of railroad through a thinly settled country, seem out of all proportion to the sums actually needed, and which will certainly be required for this railroad.

A writer in a local paper has already convicted Jay Cooke & Co. of several misstatements in relation to these estimates, particularly in reference to the amount needed to pay interest on the capital during the building of the road which, in Jay Cooke's estimate is put down at $7,230,000, when the fact is that after making liberal allowances for income derived from finished portions of the road from time to time, the amount actually needed will certainly exceed $15,000,000. Possibly, such an eminent financier my consider a discrepancy of $8,000,000 more or less to be of slight account, still such figuring is not calculated to inspire confidence.

Another item in the estimate made by this banking firm is of such small proportions in comparison with the length of line to be operated, that the inconsistency is still more striking.

We refer to the estimate for working capital which it put down at $3,615,000, out of which is to be purchased 120 locomotives, 100 passenger cars, first class; 50 passenger cars, 2d class; 30 smoking cars, 1,500 freight cars, besides a large number of baggage, express and other cars. This estimate certainly needs to be increased largely.

The most important question, however, to a bondholder in connection with this road is whether, after its completion it offers the necessary guarantees that the surplus accruing out of the revenues derived from the traffic will be sufficient to pay the interest on the $100,000,000 capital, a sum which will amount to an annual tax of $7,300,000. To obtain a net profit equal to this amount would require a gross income of $20,000,000 dollars a year as it is proven by official data that the working expense of railroads in this country average about 65 per cent. of the gross income. That the Northern Pacific Railroad cannot count upon such a traffic can be easily shown.

The tract of country that is traversed by the Northern Pacific Railway, upon which at the outset the line must depend for acquiring and securing a local traffic, is situated in the States of Minnesota, Dakota, Montana, Idaho, Oregon and Washington Territory. These States have, according to the census of 1870, an aggregate population of 598,147 persons, scattered over an aggregate area of 630,917 square miles, while in the year 1860 their entire population amounted to but 250,000 persons. There is no room for doubt that 600,000 persons, occupying a region covering 630,917 square miles, will not be able to ensure a traffic that will produce an annual income of $20,000,000. It is not to be denied, however, that the population will materially increase upon the completion of the road, but certainly not sufficiently rapid to cover thinly inhabited regions with a population of a commercially agricultural or industrial character when the vast extent of territory is taken into consideration. Of all the States traversed by the line of this Railroad the State of Minnesota shows, for the last ten years, the most rapid growth, as it has increased since 1860 at the rate of about 150 per cent., which rate applied over the whole region of the Northern Pacific during the next ten years would only result in an aggregate population of 1,500,000, or about one-third of the present population of the State of New York, that even that population which will not exist at the time of the completion of the line nor until ten years afterwards will be able to insure an income of $20,000,000 annually admits of very grave doubts. Of course we will admit that the per centage of increase may be very much greater than estimated, but it must be remembered that it will be no easy matter to divert the line of emigration which has heretofore flowed in a more southerly direction toward the States of Illinois, Iowa, and so on westward, to the more northern States on the line of the Northern Pacific Road. It is only lately that the State of Minnesota has succeeded in attracting any noticeable emigration towards her borders, although she for years has been provided with railways. But little encouragement can be given as regards the through traffic of this Railroad. One terminus is at Duluth, Lake Superior, Minnesota, and the other at Puget Sound, which last terminus, favorable as it is for shipping, has nothing as yet in the shape of industrial establishments save a few embryo collieries and a few important saw mills, the product of which finds a market abroad. Duluth is a city of only 4,000 inhabitants and certainly affords no guarantees as regards a paying traffic.

The Asiatic through trade, which at present is controlled by the Pacific lines, will continue, beyond a doubt in its present channels, as no superior inducements as regards shortening of time or distance can be offered by the Northern Pacific Route, and it is folly to presume that the intimate commercial relations now existing

between New York, Chicago, and San Francisco can be disturbed.

Another important question with holders of bonds is whether the sale of lands by the company will realise the amounts necessary for the redemption of the bonds within the thirty years which they have to run. This question may with propriety be put to the fortunate stockholders of the Puget Sound Land Company, who are certain of a profit on their share of the transactions, provided the bondholders are foolish enough to let them keep on playing their little game. At $2.50 per acre the land grant of this company is worth $125,000,000. Whether the land can be disposed of at this figure depends entirely upon the increase of population, and we give it as our opinion that the time is too short for the necessary increase, and must of necessity be extended, provided, as at present seems doubtful under the present management, money enough can ever be procured to finish the road.

GOSSIP.

THE Board of Aldermen, by resolution, have requested the Department of Docks to lay before them a statement of their operations to the present time, together with a list of their employees and their salaries....The Board of Aldermen have directed the Comptroller to send the Assessment lists for sewers, paving, etc., in his possession, to the Collector of Assessments for collection, as delay is shown to be costly to tax payers.... The Board of Aldermen, too weak to act on the shanty nuisance on Hamilton square, have placed the matter in the hands of the Commissioner of Public Works....When the present Comptroller was appointed to the office he now occupies, people called him "Mr. Green." He now goes by the name of "Old Green," an appellation bestowed upon him by hungry creditors.... Commissioner Van Nort, under authority given him by the late Legislature, has reduced the fees pertaining to Collector Starkweather's office, and property holders must now be on the look out for a large batch of assessments which will be handed into that office at an early day for collection. The RECORD will give due notice to all parties interested.... Mr. Frederick W. Whittemore was on Wednesday last elected Chief Clerk to the Board of Park Commissioners in place of Mr. E. P. Barker, resigned. Mr. Whittemore has lately been engaged as Examiner of Claims at the Comptroller's office, and is in accord with Mr. Green's administration....No action was taken by the Department of Parks at the last meeting on the resolution pending before the Board in relation to discontinuing all further proceedings relative to the taking of the lands lying between Seventy-second and 129th streets and Eleventh avenue, near the Hudson River, known as the Riverside Park, but the resolution was made a special order for the next meeting on Wednesday next, immediately after the reading of the minutes.

MECHANICS' LIENS.

NEW YORK.

NOTE.—The two following liens were published in the RECORD of last week as being located on 3d av., s. e. cor. 103d st., and were so originally entered on the records under the heading of the letter "T." We make the correction this week in accordance with the change which has since been made on the Lien Docket. It is almost an impossibility for an error to occur in this column, for which any responsibility can be attached to the RECORD.

PROCEEDINGS OF THE COMMON COUNCIL AFFECTING REAL ESTATE.

[* under the different headings indicates that a resolution has been *introduced* and laid over for further action. † indicates that the resolution has been passed by one Board and sent to the other for concurrence. ‡ indicates that the resolution has passed both Boards, and has been sent to the Mayor for approval.]

IN BOARD OF ALDERMEN,
Monday, June 24, 1872.

REGULATING, GRADING, ETC.

64th st., from 9th to 10th av.*
100th st., from 8th av. to Broadway.*
New av., bet. 8th and 9th avs., from 100th to 110th sts.*
New av., bet. 8th and 9th avs.. from 113th st., to junction with St. Nicholas av.*

The following communication was received from the Department of Public Works:

DEPARTMENT OF PUBLIC WORKS,
COMMISSIONER'S OFFICE, 237 BROADWAY,
NEW YORK, June 11, 1872.

To the Hon. the Common Council of the City of New York:

GENTLEMEN—During the year 1871, the Department of Public Works was in receipt of a number of resolutions and ordinances from the Common Council, which appear not to have been advertised, as required to be by the Charter.

The works called for are much needed, but this Department deems it to be both prudent and essential that further action should be had regarding them by your Honorable Body.

It is therefore urged that your early attention may be given them, and such action be taken as in your discretion may be proper as to advertising, and that you will have the same certified, that this Department may be able to proceed legally with the works.

Herewith please find the following mentioned resolutions and ordinances as per schedule attached.

BELGIAN PAVEMENT.

Bayard st., bet. Bowery and Forsyth st.
Lewis st., bet. Grand and Houston.

Respectfully,
GEO. M. VAN NORT,
Commissioner of Public Works.

On motion of Alderman Conover the Clerk was instructed to refer the different resolutions and ordinances to the appropriate committees under the direction of the President.

MARKET REVIEW.

BRICK.—The tone of the market shows no improvement this week. Without being positively dull, there is yet a visible inertia existing in business, that is not the normal condition of the trade at this time of the year. In fact, with all the agencies at work, whose ill effects on business were conceded, yet it was confidently believed by many sagacious and veteran dealers and stoutly predicted that by this period a bustling business would be doing. But to this time all the signs and precedents have failed, in so far as activity in the market is concerned. And, of course, with such a condition of trade, prices have weakened into a steady decline, which is gradually operating on the figures from week to week. The depreciation is not always sufficiently marked to warrant altering quotations to comply with them, and such is the case this week. We quote Haverstraw Bay brick at $8@9.25, with some lots extra fine at $10 per M. Up rivers and New Jerseys from $7@7.50 do; Pale, $4@5 do; Croton Fronts, $12@16 per M; Philadelphias, $40@45 do from yard.

LIME—Business has remained quite steady for the week, without anything startling in the way of activity to note. In fact, the tendency has been in the other direction, although Glenn's Falls has not been able to keep up to the demand, and none of that lime is now at hand; the reported arrivals are in no way diminished, however, compared with other periods, which fact speaks for itself. We quote: Fort Ann, Glenn's Falls, Bald Mountain, and Rockland at $1.25 per bbl for common, and $1.75 do for lump or finishing.

LATH.—The market has been rather excited for the past week, and the effect has been unfavorable to business, which in consequence shows an appreciable falling off. Early in the week a speculative ruse was successful in forcing a decline in the price of Eastern foom $3 to $2.75 per M, and from that point buyers held sternly aloof for still lower figures, believing that a panic had set in, which would reduce the figures to suit anybody's estimates. After matters had been better understood, however, the dealers displayed an inclination to hold the price to where it had fallen until further development, and all the sales we hear of have been made at that figure; the quotation nevertheless is really nominal at $2.75 per M.

LUMBER.—The market remains most deplorably dull; the only sales that are being made consisting of small lots to consumers, who buy what they want as they go along from day to day. A more perfect picture of inactivity than is presented at the yards it would be hard to conceive. With-al the prices maintain the utmost steadiness at our quotations.

Eastern Spruce has been strong for the week, and under a fair demand inclines strongly towards a rise. We quote at $18@21.50, which includes all qualities. White Pine remain steady at its fixed quotations; common to fair box and shipping boards quoting at $21@33: for good, do, $35@38; pickings and selects, $40@45. Yellow Pine has experienced no change; random cargoes are from $28@30; special cuts, $32@38, and fancy cuts, $40.

The exports of lumber are as follows:—

Additional exports as follows:—To Hamburg, 227 logs rosewood, value $11,210; Bremen, 290 tons cedar, value $22,000; London, 91 cedar logs, value $1,200, and 14 maple logs, value $350; Liverpool, 200 cedar logs, $700, and 74 mahogany logs, $3,000; Bremen, 3,840 staves; London, 19,640 staves; Liverpool, 18,000; Rotterdam, 11,130 staves, Marseilles, 5,760 staves; Barcelona, 32,400 staves; Cadiz, 199,200 staves; Malaga, 20,000; Africa, 32,400; Peru, 4,800 staves; British West Indies, 1,500 shooks, and 1,060 box shooks; French West Indies, 500 shooks; Cuba, 8,850 shooks and heads; Porto Rico, 1,215 shooks and heads; Venezuela, 4,000 box shooks; Brazil, 204 shooks; Cuba, 811 empty hogsheads; Porto Rico, 20,000 hoop and 1 cask bung; London, 1,900 oars; British West Indies, 66 oars; New Zealand, 518 oars; Brazil, 100 oars; Peru, 1,125 oars; French West Indies, 20,000 shingles; Hayti, 15,000 shingles.

Charters as follows:—A Br bark, 456 tons, from Buctouche to Dublin, deals, 87s 6d; a Br ship, 1,016 tons, from Quebec to Liverpool or Bristol Channel, deals, 82s 6d; a bark, 512 tons, from Savannah to River Platte, lumber, $23 and primage; a Br brig (now at Boston), from Calais to Canary Island, 225 M lumber, $10.50; a Br bark, 551 tons, from Montreal to River Platte, lumber, $21.50 net; a Ger bark, 226 tons, same voyage, $22 net; a bark, 405 tons, (now at Baltimore) from Bangor to Havana, lumber, $10; a Br brig, 109 tons, to St. Johns, N. F., 25 and 40c for dry and wet bbls; a brig, 383 tons, to Brunswick, Ga., and back with lumber, $14; a schr, 170 tons, from Jacksonville to Philadelphia, dry boards, $12; a Br brig, 182 tons, to Antigua, 70c per bbl, and back with salt, 15½c; a schr, 141 tons, from Brunswick to New York, resawed lumber, $13.50: one, 178 tons, same voyage, $13; one, 121 tons, to St. Pierre, Martinique, $1,000; one, 150 tons, to Mosquito Inlet, Fla., and back with live oak, 35c.

The Saginaw *Courier*, June 22 says:—

From a gentleman largely interested in lumbering operations on Cass river, just from the head of the Cass, yesterday, we have some facts in regard to the condition of logs in some of the streams. More logs are still hung up than has been represented, the recent rains not proving so beneficial as anticipated, and as is generally believed.

BAD RIVER,—On the north branch of Bad river there are about 30,000,000, all of which are hung up. On the south branch all below Potatoe Creek are out.

A late copy of the Huron County (Mich.) *News* says;—

Shower has followed shower until a very respectable flood is the result. The streams are higher than they have been for many months. Men have been sent to break rollways at the headwaters of the Pinnepog, that all hopes of getting down this season had been given up; but which, with those yet behind on other streams, will now certainly be secured. These rains have been general, and enough

logs have probably been liberated to cause a decline in lumber and logs from the extreme prices they had reached, because of expected scarcity.

From the Chicago *Times*, June 24th:—

Lumber vessels were in good demand on last Saturday, and rates were firmer and in several instances higher.

The receipts of lumber on Saturday morning were only moderately large, and by noon the sale docks were bare of offerings, upward of a dozen cargoes having been disposed of. The attendance of both city and country buyers was rather larger than is usual on Saturday, and prices ruled firm and unchanged, under the influence of a good demand. During the afternoon several vessels arrived, but buyers having previously dispersed, nothing further was done, and at the close of business hours nearly a dozen cargoes remained unsold. Prices ranged as follows: Choice mill-run lumber, $17@20; good to choice strips and boards, $14@16.50; common strips and boards, $12@13.50; common mixed lumber, $12@13; joist and scantling, $11.50@12; shingles, $2.90@3; lath, $2.90@3; pickets, $10.

Another active day was experienced at a majority of the yards on last Saturday, a liberal business being transacted on both city and interior account. The demand, as usual, was largely confined to common boards, joist, scantling, etc., though the movement in choice grades was fair. The stocks were large, but prices were comparatively steady.

Shingles by the car-load were in ample supply on Saturday, and in fairly active demand, prices ruling unchanged, ag follows:—

A. or star.....$3 00@3 25
No. 1 sawed..... 1 50@2 00

Three dollars per car to be added when transferred, which charge follows the shingles.

Thickness—Five shingles to be two inches in thickness.

Length—Sixteen inches.

Troy *Weekly Times*, June 22d:—

During the past week the lumber market has been rather quiet. Receipts are improving, but pine is coming forward scantily yet. Shipping has been light. The strikes very materially affect the trade with New York, and only such lumber as is required to fill existing orders is being taken below. The assortment in the yards here is now good, but the stock is very light. With the small amount that is going off at present, unless the arrivals greatly increase, it will take till the latter part of July to fill up the yards with a seasonable supply. The change in the lumber tariff from an ad valorem to a specific duty is generallly regarded favorably by lumbermen, as saving them a great deal of trouble in determining the exact valuation of cargoes, but it bears rather hard on box lumber and shipping culls, while it favors the better qualities of pine. Prices remain unchanged.

The Lycoming *Gazette*, etc., Williamsport, Pa., June 20, says:—

The week has been one of great activity in lumber circles, and we yield much of our space for a full and detailed exhibit of shipments during the present year. We bring our statement up to, and including June 11th.

The log drives in Driftwood and Bennett's Branch have reached the river, and are on their way to the boom. The same may be said of several other streams, although not so largely as could have been desired.

Our mills are working full time, and the supply of logs will probably prove sufficient for the summer months, while we confidently expect large additions from fall rains.

Shipments are active, and railroads and canal are thus far meeting all demands upon them.

Below we give a carefully prepared report of the shipments of lumber from Williamsport, by canal and railroad, for the first five months of 1872. In shipping lumber by rail it is billed in pounds. It is estimated that one thousand feet, on an average, will equal twenty-five hundred pounds, hence two-fifths of the weight will represent the number of feet:

RECAPITULATION.

	Feet.
Shipped by Cattawisa Railroad	25,648,815
" Phila. & Erie "	20,919,736
" Canal	19,267,000
Total shipments for 1872	65,835,651

The Clinton *Republican*, of the 12th inst., says of the Lock Haven, Pa., lumber trade:

The shipments of lumber by canal and railroad for the week ending June 8th, foot up a total of 1,345,000 a decrease of 1,053,800 feet as compared with last week's report. Rates of lumber firm as ever.

From the Boston *Commercial Bulletin*:

There has been no change of any note in the lumber market during the week, there being a slight falling off in the volume of trade. Lumber of all kinds is in good supply, and dealers find no difficulty in filling their orders. Freights are not favorable for prices, being higher than usual.

Of Eastern there have been no arrivals of any consequence, and the market is rather dull. Laths are in better stock.

In Canada and Western the demand continues good and prices are without change. The rains have helped the log-drivers, and most of the mills have logs enough to last them the balance of the season. In view of the fact that the mills have orders enough to keep them engaged till next July, and that freights have advanced $1 per M on the lakes and 50c per M on the canal, prices must rule steady during the season.

In Southern lumber there have been no arrivals. Flooring is in good demand. Freights have advanced, $13 having been paid last week to a Southern port and return.

The following are the surveys for the week:—

DOMESTIC LUMBER.	Feet.	DOMESTIC LUMBER.	Feet.
Pine	1,086,587	Black Walnut	83,691
Hard Wood	8,640	So. Pine Plk. & Tim.	243,521
Hemlock	191,414	Spruce	580,355
White Wood	13,509		
Total			2,207,517
Corresponding week last year			5,303,731

From the Savannah *Republican*, June 21st:—

TIMBER AND LUMBER.—TIMBER—Receipts for the past week have been very light, all taken up on arrival at about our quotations. An active inquiry still exists for vessels for United Kingdom and coastwise. We quote: Mill timber, $9@10; shipping do. 600 feet average, $8@9; 700 feet average, $10@11; 800 feet average, $11@12; 900 feet average, $13@14; 1,000 feet average, $14.50@16. LUMBER—active. Orders are plenty. We quote: Ordinary sizes, $20@21; difficult sizes, $21@26; flooring boards, $21@22; ship stuff, $20@24, according to sizes.

FREIGHTS.—Vessels are in demand for lumber cargoes, but none are disengaged. Coastwise—Steam to New York, ¼c for upland; ¾c for sea island; rice, $2 per cask. To Philadelphia, ¾c for upland; rice, $2 per cask: domestics, $1.25. To Baltimore, ¾c for upland; rice, $1.50 per cask. To Boston, ⅝c for upland; rice, $2 per cask; Cotton to Boston, via New York, 75c per 100 lbs; to Providence, via New York, 90cper 100 lbs; to Providence, via Boston, 90c per 100 lbs. LUMBER—To Philadelphia, $8.50; to New York and Sound ports. $10@10.50; to Boston and Eastern ports, $11@12; to Baltimore, $8@9; to Cuba, nominal; to River Platte, $23 and per cent primage. By Steam to New York, $10. TIMBER—Freights are from $1@1.50 higher than lumber rates.

From the New Orleans *Price Current*, June 27:—

The stock on hand is ample, but the demand very moderate, compared to what it usually is at this season of the year.

Cargo lots are quoted at $14@15 per M feet for inch boards; $12@14 for scantling; $13@14 for rough weatherboards, and $16@18 for dressed. Rough flooring is selling at $15@18, and dressed, $22@22.50; dressed ceilings, $18@20; cypress, $20@25; common shingles, $3.50@4, and laths, $2.50 for Lake, and $2.75 for Pensacola. General orders for rough and dressed lumber are filled at $5 per M on cargo prices.

METALS.—Ingot copper is not in such good demand as last week, but the prices hold very steadily to the advance then established. We quote Lake at 34c per lb, both for spot and for future delivery. English, 32½@33c do. Manufactured remains very steady at 43c per lb for Sheathing, and 45c do for Bolts and Braziers; Bronze and Yellow Metal Sheathing, 30c do, and Yellow Metal Bolts 32c do. Scotch Pig Iron is yet quiet, with perhaps a better tone in the market, occasioned by the consumption of some outside lots that have been pushed for sale, this causing depression, however, at the prices now quotable, holders think it more politic to store than to sell. In American a slight advance is noticed, the demand being poor, but the prices well adhered to. No business in either English or American rails and Scrap and Bar notably quiet. Reference to our prices current will show all the alterations in quotations. American Pig lead has rather pushed the foreign article to the wall, as the government furnishes all demands at $6.40, gold being about 22½ less than is asked for ordinary foreign. Bar quotes at 9½c, and Sheet and Pipe at 11c do. Tin lined pipe, 15c less 10 per cent. to the trade. Pig Tin has not improved in the slightest, and there is no hope of a better condition for the present; with the dulness exists an irregularity of quotations that make it difficult to fix a rate. We quote Banca per lb, 48c; Straits do, 36½@36¾c all gold. With no great amount of business doing, Plates remain firm with whatever advantage exists slightly in favor of the dealer. I. C. Charcoal is scarce, and I. X. reported in moderate supply. Quite an extensive business for future deliveries has been done at a decline equal to about the difference in the old and new tariffs. Sheet Zinc is quiet at 10@10¼c per lb.

NAILS.—With a fair and steady business doing remain firm at former quotations as follows:—Cut, hook-head brads, Fencing and Sheathing, 10@66d, per keg, $5.75; cut, 8@9d, $6 do; cut, 6@7d, $6.25 do; cut, 4@5d, $6.50 do: cut, 3d, $7.25 do; cut, 2 @3d, fine, $8; cut, 4@4½d, sugar-box, $6.75; cut spikes, all sizes, $6; cut, finishing, flooring, box, cooper's, casing, slating, trunk, and tobacco, 10@3d, $6.25@7.25; clinch, 2 to 5 inch and over, $7.25@7.75; horse-shoe, forged, No. 10 to 5, per lb, 21@32c. Copper, 45c per lb; Yellow Metal Sheathing, and Slating, 30@32c do.

We note exports as follows:—

	Past week.	Since Jan. 1.
Packages	573	10,778
Value	$4,246	$45,687

OILS.—Linseed Crushers have slightly recovered from the desperately dull condition reported last week, and for jobbing have shown a very fair demand. However the market has been so crowded with outside lots that the prices have been more depressed than they were last week, when the Crushers stopped running their mills because of the narrowness of margin for profit. We quote, Linseed Crushers, in casks, per gallon, 88@89c; do in bbls, 89@90c do; boiled and refined, in bbls, 95c do; outside lots, in casks, 82½@85c do.

PAINTS.—The market has undergone quite a gratifying change during the week, demand showing a decided improvement. While mostly of a jobbing character still the transactions serve to give the market an appearance of life to which it has been a stranger for weeks past. The stock on hand however has been and is now so moderate that had trade been suspended for several weeks longer holders would have very little apprehension of the result. As it is they are firm and confident, our quotations are unaltered.

We note exports as follows:—

	Past week.	Since Jan. 1.
Packages	20	3,484
Value	$587	$41,885

SPIRITS TURPENTINE.—Business has been fluctuating for the week, and prices being governed by each succeeding days transactions have answered the variations by a sympathetic advance or decline as the market was brisk and dull. At the close, the result of the weeks uncertainty was visible in the unsettled condition of the market, a disposition to dullness reigning. We quote Spirits Turpentine merchantable order, per gallon, 55@56c; shipping order do, 56@57c do; from store do, 57@58c do; in cases, do, 68@70c do.

TAR.—An unusually active demand from abroad has started business up, and caused quite an advance in quotation, which we note as follows; Wilmington, as it runs, $4.37½@4.50 per bbl; New Berne and Washington, as it runs, $3.75@4.

ALBANY LUMBER MARKET.

The Albany *Argus* for the week ending June 26, 1872, reports as follows:—

From the manufacturing districts and from the retail yards no new features are reported affecting the prospects for lumber. Exceptions may, however, be made in the increased activity and further slight advance in Chicago market, and in the prices there; and the opinions expressed in private letters that higher prices will be realized as the season advances.

The Bay City *Journal* quotes the opinion of candid and reliable judges, that prices of lumber will not this season be materially modified from those ruling at present. It is stated that during the coming week not less than ten first-class tugs will be withdrawn from vessel towing and put to work towing rafts through Lakes Huron and Erie, and the indications are that this business is to assume unusual proportions and will be pushed with energy.

The lumber district would present a very different appearance, but for the check to business, caused by the strikes. No differences of opinion could have existed as to the encouraging prospects on the opening of the season. These later difficulties once settled, and prices established for the season, a healthy, active business may be looked for. Buyers will wait for a settled market before laying in supplies beyond their actual requirements; but when it is ascertained that prices will remain firm during the season (to which many have already made up their minds) purchases will be freely made to replenish the stocks now run down so low throughout the country.

The strike among the dockmen loading barges in the district, it is expected will be of short duration. The time chosen for the strike, when there is so little shipping going on, shows the usual want of judgment in such movements.

The old stock of lumber is about all forward; the receipts will now be of the new sawing.

Business quiet; no change in prices.

The receipts of lumber at Buffalo by lake, during the week were 9,424,200 feet; at Oswego 9,635,500 feet.

The receipts at Albany by the Erie and Champlain canals for the third week of June, were:

Bds. & Sc'tl'g ft.	Shingles, M.	Staves, lbs.
1872. 16,289,800	780	.....
1871. 17,674,500	1,813	1,691,400

Of the boards and scantling received 10,084,700 feet were by the Erie and 6,205,100 feet by the Champlain canal.

The receipts at Albany by the Erie and Champlain canals from the opening of navigation to June 22d were:

Bds. & Sc'tl'g ft.	Shingles, M.	Staves, lbs.
1872. 70,936,600	2,107	1,224,700
1871.107,014,300	10,852	4,374,400

Canal freights from Buffalo to Albany are $5.62@6 on pine, and $7@7.25 on walnut, etc. From Oswego to Albany, $3.25 per M.

River and Eastern freights are quoted as follows:—

To New York, ₱ M	$1 50
To Bridgeport and New Haven	2 00
To Norwich and Middletown	2 50
To Hartford and Providence	2 50@2 75
To Boston, soft wood	5 00
To Boston, hard wood	6 00
Staves, ₱ ton, to Boston	2 50

MAGRATH'S COPPER SASH-CHAIN,
PATENTED 21ST MARCH, 1871,

Is adapted to ordinary round pulley, and strong enough to suspend weights of any size required.

Being intended as a substitute for sash-cord, it can be put into sashes now provided with cord without any change of pulleys. The inventor feels confident that experience will prove his chain to be both economical and durable, besides doing away with the constant annoyance and expense attending the use of sash-cord.

For terms and further information apply to
M. MAGRATH, Patentee, Carpenter and Builder,
74 Irving Place, New York City.

MURTAUGH'S
