7 AND 9 WARREN STREET.

NO receipt for money due the REAL ESTATE RECORD will be acknowledged unless signed by one of our regular collectors, HENRY D. SMITH or THOMAS F. CUMMINGS. All bills for collection will be sent from the office on a regularly printed form.

COMMUNAL CITY RAILROADS.

THE Internationals of this city have published a statement of their views as to what provisions should be embodied in the new City Charter. Some of these proposals are as extravagant in their way as the "Seven Points of Agreement" between the English proletariat and the nobles. They demand, among other things, the building of houses which are to be rented at cost to the poor; the reference of all laws back to the people; public markets wherein goods shall be sold at cost price, without the intervention of middle men; and other impracticable schemes of the same kind.

There are, however, one or two points in the programme which are really worth consideration. One is, that the city government should manufacture and supply all the gas consumed in the metropolis. The other is, that our city railroads and the ferries should be run by the municipality for, and in the interest of, the community. This last proposition may seem almost as wild as the providing of houses for the poor; but really there are many things to be said in its favor. Our city railroad service, as at present constituted, is a disgrace to the age. It is neither convenient, nor cheap, nor accommodating to the public. If it was run by the city government, the fares could easily be reduced to three cents for any distance, and, moreover, everybody could be supplied, at any time of the day, with a seat and civil attendance. If the conductors and drivers were made a part of the police force we should secure (what is now quite unattainable) perfect order and decorum in the cars by night or day.

The obvious objection to all this is, of course, that in a large city like this, with a set of corrupt officials, it would be dangerous to entrust the management of a business of this kind to the municipal government. But there really seems to be no more difficulty in the management of those railroads than there is in the management of the water supply, or in the laying of sidewalks and sewers, or in regulating the city police. By a ticket system for the cars—no one being permitted to enter a car till they had obtained a ticket, the plan which is found to work so well in London—there would be an almost certain protection against cheating by the conductors, who now add at least ten per cent. to their earnings by "knocking down."

The cars, also, could be run on the system of transfer checks, and as there would be no company of stockholders intent, first of all, on making heavy dividends, the whole business could be so adjusted as to make our car system as great a convenience and comfort as it now is a nuisance and plague.

The ferries, also, should clearly be run by the community, which is the most interested party. It is no longer allowable to levy tolls on public roads for the benefit of private persons, and it is intolerable that our citizens should be compelled to pay such exorbitant fares and ferriage as is now demanded of them for the privilege of using their own streets and the splendid water-way with which Nature has encompassed their city.

Among the schemes of reform of our city this would really be worth considering, though undoubtedly the time will not come for its adoption until we have a civil service with fixity of tenure, so as to insure efficiency in our local government.

CHARTER REFORM.

GOVERNOR HOFFMAN makes some excellent recommendations touching our city government. They strike us as being much more to the point than any of the recommendations of the Committee of Seventy. Of course the Governor labors under the disadvantage of belonging to an organization which brought so much discredit on the local administration, but, for all that, he is a man of sense and wide experience, and when he pleads for personal responsibility in the executive officers elected by the people, his counsel deserves attention.

One of the objections to the Committee of Seventy's draft is the impossibility of fixing this responsibility, when the Board of Aldermen is permitted to exercise such very enlarged powers.

Defective as the present charter is supposed to be, it had one excellent effect, in assigning the responsibility to the four men who were the real culprits. So long as Mr. Peter B. Sweeny was behind the scenes and held no public position, he could not be held accountable for mal-administration. But the moment he became confessedly one of the four rulers of the city, official malfeasance could be brought directly home to him as well as to his associates. And the corruption of our legislative Boards is a far more notorious fact than the ill-conduct of our executive officers. What New York needs is a few elective officers with great powers and directly responsible to the people.

We regret to notice that the Governor did not recommend the Board of Audit composed of taxpayers, which has been so repeatedly advocated in these columns. It is undoubtedly the best proposition which has been yet put forward to secure the payment of none but honest bills. As our readers will remember, we have urged that William B. Astor, Judge Roosevelt, A. T. Stewart, the representatives of the Trinity Church property, and other great property holders be designated a Board of Auditors, to pass upon every considerable bill presented for payment at the Comptroller's office. This Board would have no legislative or executive power whatever—it would simply have to say whether a bill was excessive and fraudulent, and its payment should be withheld until correction was made; or whether the bill was just and honest, and should be fairly liquidated. Such a system as this would give the people, who actually pay the money out of their pockets, a direct interest in stopping the payment of excessive and dishonest charges; for it should be borne in mind that all the scandalous bills which have been paid in times past were ostensibly for desirable objects. The fraud lay in their excessive and extortionate character. All this would be corrected by a Board composed of persons having a direct personal interest in looking after affairs of the kind.

City officers, dependent on the voice of the public, but more particularly on the smiles of the politicians who secure their nomination and election, have the strongest possible reasons for overlooking questionable claims; and it argues an unusual degree of public honesty in an official if he thinks of the city treasury first and of his friends last of all. Human nature should not be subjected to those severe temptations to betray a trust.

We make no claim for taxpayers as being any better than any other class of the community. From what has transpired in regard to the vestries of the city of London, where the ratepayers are the real rulers, we should say the administration of taxpayers would be a poor one, and that public improvements would be in a decidedly backward condition when they had the sole control of the disbursements. But we want to utilize this self-interest of theirs. We want to pit their love of their own money against the greed of those plunderers who are so eager to plunge their hands into the city treasury. And we still insist that this is the most feasible means ever proposed for insuring honesty in the disbursement of the city funds.

We have received assurances from the administrators of at least one large property in the city of New York that this particular scheme will be pressed upon the Legislature as soon as it is known in what quarter the responsibility for the new charter lies. This cannot be deter-

mined till after the committees are appointed, and the new charter is fairly up for discussion.

LITIGATED ASSESSMENTS.

ONE of the crying evils connected with our local administration is the amount of litigation permitted in connection with the assessment of city property. Comptroller Green is, we understand, greatly embarrassed to-day with a vast quantity of assets upon which money has already been raised by the usual assessment bonds—which assets are practically worthless. These assets are, as we have indicated, liens on assessments which are in dispute. What is needed is some law to ensure the compulsory payment of these assessments as soon as they are made and have been confirmed—the same as with our ordinary city taxes. By this means an immense amount of litigation would be avoided, and one of the main sources of corruption of our city government would be stopped.

For those plunderers who have been nefariously securing our substance have not only made money directly by false claims on the City Treasury, but have enjoyed immunity from taxation, from the vagueness of our laws upon the subject. The assessments are made, but never collected, owing to some informality. In the mean time the city borrows money upon these uncertain assets, and then finally has to stand the loss.

And the injustice in all these cases is, that the honest property-holder, the man who fairly pays his taxes—it is he who has to suffer. He pays not only his own assessments, but those of the dishonest confederates of the Ring also.

The difficulty in the way of the passage of a law ensuring prompt payment of assessments is that it would cut off a large and lucrative legal practice, which, of course, grows and swells upon the uncertainty of the law. Therefore there is not only a powerful and corrupt property interest to keep things as they are, but also a powerful professional interest to aggravate the difficulty, and plunder the taxpayers. And then, to add to the complication, we have to apply for a remedy to a Legislature composed of lawyers, whose interest, of course, it is to increase the business of their craft.

Related to this matter of unpaid, illegal, and fraudulent assessments is the practice of running in debt for a year ahead of our taxation. It is surely monstrous that in a city like New York, with its immense wealth, where people are able and willing to pay what is fairly required of them, all payments should be anticipated by temporary bonds. The city is run on credit every year, notwithstanding its immense resources in the way of ready money.

Of course all this is managed with a set purpose—it is to help the politicians who have control of the city government. If the Legislature would pass a law that not a dollar should be spent until it was raised by legitimate taxation, and actually paid into the City Treasury, that would reduce our expenses at least 25 per cent. But, like spendthrift nobles, we are always in the hands of the Jews, who swarm about us with unmatured obligations. Our readers will remember John Randolph's eccentric interruption of the proceedings of the House of Representatives, when he declared he had discovered the Philosopher's Stone. "What is it?" asked somebody. "*Pay as you go*," was his reply.

If the city would adopt that as its motto, it would be a great step towards the purification of our local politics.

MARKET REVIEW.

BRICKS.—The general wholesale market for North River Hards remains in a more or less nominal condition, and dealers appear to have very little information to convey. A few arrivals have taken place, and these were readily sold at prices ranging quite full, say about $10.50@11 per M, a few choice lots on certain special deliveries even up as high as $11.50 do. The movement, however, is too uncertain to admit of any positive market, though a good many manufacturers would be immensely delighted could they get rid of some of their stock at ruling prices. From the New Jersey yards there have been arrivals of an irregular character, with sales making at about $9@9.50 per M. Long Island stock has appeared to some extent, and found a very good outlet at pretty full rates, most of the sales reaching $10@10.50 per M, and some reported even as high as $11 do. Pale Brick have no general demand, but could be sold fairly to certain outlets and would command pretty full rates, the quotations standing at about $6.50@7.00 per M. Fronts of all kinds are dull and nominally unchanged, but could not be bought lower at present. The general yard trade is moderate and confined entirely to small jobs required for the most positive necessities.

We are unable to give our annual statement of production and stock of Bricks in this edition, owing to an unavoidable delay in obtaining the figures. We will publish it, however, as soon as the compilation is perfected.

CEMENT.—The business doing at present is mostly of a retail character and confined to small lots distributed from yard by dealers. This movement is fair but not active, and there appears to be enough stock available to meet all wants. On prices there is the usual irregularity of the season, but about $2 per bbl seems to be an average rate, and we make this the quotation. For foreign the demand is also slow at the moment, and the range of prices wide. Some lots can be bought in the neighborhood of $4.50 per bbl, and from there is a gradual grading of values up to $6 per bbl according to quantity, etc. The stock is popular, however, and has greatly interfered with the sale of domestic during the past year, as may be inferred from the large import as noted below. A fair accumulation remains on hand, but not many additions are expected for some time.

DRAIN AND SEWER PIPE.—There is not much doing in this market at the moment either in the way of cash sales or contracts for next season, and the position may be considered as without features of interest. Prices are unchanged and somewhat nominal pending the annual revision of price-lists. A fair spring trade is looked for on shipping and general consumptive account, but doubts are felt as to the amount of Corporation work, most dealers thinking it will be small. About the usual stock is on hand at present.

We have an account of imports as follows:—

	1870.	1871.
Sewer Pipe	49,336	93,516
Sewer Rings	49,688	63,682

DOORS, SASH, AND BLINDS.—At the moment business is rather dull, and the market presents few stirring features. The movement of stock during the past year has not been remarkably heavy, but still fair, and considering the general state of merchandise, the outlet was in proportion to all other goods. The demand has been general, including southern, near-by country, and local orders, and as a rule few losses were made, though we hear complaints of the slow manner in which most buyers are settling their accounts. The accumulations now on hand are fair and rather on the increase, while the assortment at the same time improves. Manufacturers as a rule quote pretty much on a basis of our figures, and the present slow state of business makes prices somewhat nominal. It is expected, however, that with the opening of the spring trade the cost will be increased somewhat, as desirable lumber is scarce and high.

FIRE BRICK.—The business is confined almost exclusively to small retail orders, and indeed many dealers report that they are doing almost nothing. Prices about as before, though in a measure nominal for want of leading sales. A pretty good trade is looked for during the coming season, though if gold keeps low there may be a little competition from imported goods.

FOREIGN WOODS.—In a wholesale way there has been nothing doing for along time, owing to the absence of fresh and desirable supplies. There is a little stock here virtually in first hands, but held so high that buyers will not touch it, except as a matter of absolute necessity. Quotations about as before, but more or less nominal in the absence of testing sales. Prime Cedar, Mahogany, and Lignumvitæ, are all wanted. At the retail yards business naturally, at this season, is somewhat dull, but a few buyers can be found, and full prices are in all cases insisted upon. In fact the market, as a whole, is a firm one, with no indications of buyers gaining any early advantage. The export movement has not been very large for several months, the prices asked and the reduced premium on gold leaving shippers little or no margin.

Total value	$119,086	$117,266	$179,886

GLASS.—The demand for foreign window glass is not very active at the moment beyond the usual call on local and near-by interior orders, the cost of transportation having a tendency to restrict operations. Holders, however, feel much strength, and express great confidence in the market generally. The stocks here are small and poorly assorted, and the prospect of additions not very bright, owing to a reduced production abroad and small shipments hither. We quote at 25@30 per cent. discount from French list. Of domestic there is only enough here to supply the local call, most interior demands having been met the past season by direct shipments from the works where business was good. We quote at 60 per cent. discount from domestic list.

Imports as follows:—

	1870. Pckgs.	1870. Value.	1871. Pckgs.	1871. Value.
Glass	343,276	$858,402	551,665	$1,230,317
Glass-plate	9,954	1,353,947	12,816	1,681,377
		$2,212,349		$2,911,694

HAIR.—The business doing in plasterer's hair is naturally somewhat moderate at this season of the year, and confined entirely to small job lots from retail dealers' hands. An improvement, however, is looked for before long, as, with stoves for drying, a goodly amount of plastering is done during the winter. Stocks here are comparatively moderate, and, though prices remain about as before, an advance is probable at an early day, especially on goat.

Comparative prices, January 1, as follows:—

	1871.	1872.
Cattle, per bushel, 7lb	25c.	25c.
Goat "	28	35

HARDWARE.—Trade is not very brisk, and the market generally shows a dull tone, as both buyers and sellers are engaged in closing up accounts for the year. The prospect for the coming season is said to be good so far as interior orders are concerned, indeed many dealers anticipate an increase, but the movement on local account is not calculated upon as likely to reach more than an average. Prices are now being arranged, and when completed we will give quotations. Advances in some cases are talked of, and modifications in others.

LATH.—Buyers can be found without much trouble, and anything in the way of a cargo on the spot or to arrive, would be taken readily at extreme rates. Receivers, however, can afford very little relief at this season, for, beside the scarcity of the means of transportation, the ice embargo would prevent communication with the points of production for even the few vessels available. A portion of the sharp consumptive call has been temporarily satisfied, and the distribution from yard is a little slow just at the moment, but there is room for more lath, and present appearances seem to indicate that the entire accumulation will be used up before spring sets in, unless some chance should be opened to work in fresh supplies. At the close about $3.50 can be obtained for anything desirable, but the market is quiet for want of stock.

LIME.—There is very little doing, except the ordinary yard trade, and this is small at the moment, orders only calling for just enough to satisfy pressing wants of buyers. Dealers, as usual, ask an advance over the nominal wholesale rates and obtain it; but so many different circumstances govern sales from second hands, in the way of quantity, delivery, etc., that yard quotations would be useless. Arrivals amount to nothing, and few can be expected, but there is a stock of Northern on hand, and it would become available if wanted, though owners are not inclined to offer it for the present, in view of probable greater competition later in the season, when dealers' stocks are reduced. The wholesale quotation remains at $1.35 per bbl for common, and $1.75 do for lump. During the past year exports have been reported of 100 bbls lime, value $104, to British N. A. Colonies; 150 bbls do, $210, to British West Indies, and 40 bbls do, value $40, to Central America.

COMPARATIVE PRICES, JANUARY 1ST.

	Common per bbl.	Lump per bbl.

1869	1 60	2 00
1870	1 50	2 00
1871	1 30	1 65
1872	1 35	1 75

LUMBER.—There still appears to be a sort of holiday feeling current on the market, so far as the retail yards are concerned, and business does not as yet set in with any freedom. Dealers, however, are not altogether dissatisfied with this condition of affairs, as their time is now pretty closely occupied with their books, and every one is anxious to get out the yearly and semi-yearly accounts, in order to be prepared to commence collections as soon as possible. On such business as there is doing, a steady and pretty uniform tone prevails, and full prices can be realized for all first-class goods.

Wholesale dealers are also busy settling up and getting ready to do so, and few contracts are at present being made. Thus far no modification has been announced on the views of manufacturers for next season's delivery, and the talk is very firm; but from some of the leading lumber sections we commence to hear that logs are being secured rapidly and largely, and the prospect of a liberal supply of lumber for next season is encouraging. This is rather an unusual acknowledgment, and gives a faint hope that the possibility of buyers gaining a trifling advantage may eventually be admitted. Exporters are in the market for several very fair-sized parcels, and quite a good many small lots are wanted, but this outlet does not seem likely to prove any larger than ordinary for the season. As will be noticed by the figures below, the amounts taken out for the past three years have varied but slightly.

The exports of lumber are as follows:—

	For 1871. Feet.	For 1870. Feet.	For 1869. Feet.

Eastern Spruce is without any regular market for the present, there being no open demand and little or no stock coming to hand. Current arrivals, however, are disposed of with very little difficulty whenever a cargo happens to drop in, and full figures can easily be obtained on almost any grade. We quote at $18@19 per M for inferior to fair specifications, and $19.50@20.50 do for good to prime do. White Pine continues steady, but still a little dull on home account, with, however, a few desirable parcels wanted for export. We quote at $22@28 per M for good to prime box and shipping boards: $30 do for choice do: $35 do for pickings, and $45 do for selects. Yellow Pine in random cargoes steady at about $28@31 per M, and on special lengths very firm at $32@35, and up to $40 for something very extra. For Piling the demand just now is dull, but dealers speak very confidently and think, with anything like a good spring business, prices will rule high, as about all the old stock has been sold out, and there are few sticks now in chains. The quotation is about 6½@8c, and 8½c for extra long and heavy.

We note additional exports for the week as follows:—To Havre 36 logs maple, $569; to Antwerp, 5,400 staves, to Liverpool, 4,800 do; to London, 6,800 do; to French West Indies, 6,000 do; to Cadiz, 166,680 do. Receipts for the week include 3,400 R. R. ties from Norfolk; and 462,498 feet lumber from St. John, N. B.

We also have a record of the following exports:—

	1869		1870.		1871.

Estimated receipts of lumber from Maine	93,125,000	96,625,000	108,220,000

METALS.—Ingot Copper has ruled fairly active and prices firm at a still further slight advance. Manufactures of copper are unchanged, but fully former prices are supported. We quote:—Ingot 27¼@27⅝c; New Sheathing, 34c; Yellow Metal, 24c: Old Sheathing, 25½@26c, all net cash. The market for Scotch Pig Iron continues inactive principally from same causes noticed in our last issue, and prices are nominally unchanged. We quote:—Glengarnock, $34; Eglinton, $33.50@34, and Summerlee, $35.50@36 per ton. American Pig is also very quiet, and prices are unchanged. We quote nominally: No. 1, $36; No. 2, $34@35, and forged, $33@34. Refined Bar continues firm and the tone of the market is toward higher prices. We quote from store as follows: Bar Swedes, $107.50 @120; refined, ordinary size, $90; refined, 1¼ to 6 by ¼ and 5-16, $95; refined, 1 and 1⅛ by ¼ and 5-16, $97.50; refined, 2½ to 3 round and square, $97.50; scroll, $107.50@137.50; ovals and half round, $107.50@125; band, $102.50; horse-shoe, $105 @115; rods, 5-8 to 3-16 inch, $95@130; hoop, $112.50 @160; nail rod, per lb., 6¾c. Common Sheet is very scarce and a shade higher. We quote at 6 for single D and T, and 6¼ for D and T Charcoal. Galvanized Sheet has been advanced and closes steady. We quote at 12@13c for 14@20; 12½@13½c for 22@24; 13½ @14c for 25@26; and 15@18c for 27@29, all less 20 per cent. to the trade. Russia Sheet is a fraction lower. We quote at 15½@16c gold, according to number. Pig Lead is held more firmly on advices of strong foreign markets, but prices are not quotably higher. We quote at $5.80@6.25 for common to good foreign. Manufactured pipe and sheet are a ¼c lower, but other descriptions are unchanged. We quote at 9½c for bar; 10c for sheet and pipe; 15c for tin-lined pipe, all less 10 per cent. to the trade. Pig Tin still rules quiet, and prices are a shade easier. We quote in coin at 38c for English; 38¼c for Straits, and 42½@43c for Banca. Plates are moderately active and prices firmly held. We quote: I. C. charcoal, $9@9.50; I. C. coke, $8.25@8.75; Coke, $7.00@8.00, and Charcoal Terne, $8.25 @8.50. Sheet Zinc is inactive and prices nominally unchanged. We quote at 10¾@11½c gold for Mosselmann, from store.

The following tabular statement will show the stocks of the different articles mentioned on January 1, 1872, compared with the same date of the three previous years:—

	1869.	1870.	1871.	1872.
Copper—	lbs.	lbs.	lbs.	lbs.
Lake Superior	6,000,000	7,000,000	9,500,000	5,500,000
Baltimore, Tennessee, &c	1,000,000	2,000,000	1,200,000	200,000
	1869.	1870.	1871.	1872.
Iron—	tons.	tons.	tons.	tons.
Scotch Pig	1,500	3,000	1,500	3,500
Lead	1,500	1,250	600	2,000

NAILS.—The demand has been moderate, and the market generally dull and uninteresting throughout. The stocks on hand are fair, and well enough assorted to meet all present demands, but holders claim to have no surplus, and in some cases the accumulation is said to be falling off. Exporters are filling a few orders; but the outlet, such as it is, is mainly on home account. Prices show no decided change and are quoted as steady, though the feeling is a little nominal in view of a probable revision with the turn of the year.

Exports as follows:—

	1869.	1870.	1871.
Pckgs	18,958	12,854	17,642
Value	$122,104	$120,446	$111,189

PAINTS AND OILS.—The entire market has been quite dull of late, and developed no really new points. Holders generally are quite firm in their views, and insist positively upon extreme figures for nearly all classes of goods, but the closing of accounts, etc., occupies too much of the attention of buyers just now to admit of any demand outside of actual necessities. Foreign accounts are, as a rule, quite favorable for the selling interest, though in some cases hardly so buoyant as a month ago. Linseed Oil has shown a pretty firm tone and rather more activity with sales to a considerable extent both for the balance of this month and all next month. Crushers at the close offer sparingly and generally ask 74c in casks.

Comparative exports as follows:—

	Paint. pkgs.	Linseed oil. galls.	Oxide zinc. bbls.	Total value.
1869.	6,210	14,224	5,308	
Value	$80,172	$14,562	$60,724	$155,458
1870.	9,624	8,269	4,650	
Value	$150,899	$8,433	$54,030	$213,362
1871.	9,480	14,226	3,677	
Value	$171,283	$11,036	$39,763	$222,082

PITCH.—The demand is only moderate, but holders continue firm at fully former prices. We quote: prime city delivered at $4.87½@5. Receipts for the week, nil bbls; for the year 1871, 1,111 bbls; for 1870, 2,342 bbls. Exports for the week, 10 bbls; for the year 2,779 bbls; for 1870, 3,750 bbls.

PLASTER PARIS.—There is no wholesale market for lump just at present, as supplies cannot be obtained with any certainty or regularity. Buyers could be found, however, for a considerable amount of white, as manufacturers are short and would very gladly increase their accumulations. On the other hand, however, a receipt of common blue would probably go begging, as it is not wanted here and cannot be sent "up river," and even if held until spring the sale would be doubtful, as country buyers are understood to be well stocked. Calcined in fair demand, and all good brands reasonably steady, though now and then, to secure customers, some little shading takes place.

Receipts as follows:

	1869.	1870.	1871.
Lump, tons (Nova Scotia)	48,322	42,529	43,295
Calcined, bbls do.	4,181	4,674	3,451
From Europe, pcks	——	600	914
do. do. tons	——	——	240

Exports of calcined as follows:

		1869.	1870.	1871.

Totals		4,752	8,066	5,337
Value		$11,336	$17,685	$10,566

There was shipped to Copenhagen during 1871 a lot of 10 cases Plaster valued at $500.

COMPARATIVE PRICES, JANUARY 1ST.

1869.	1870.	1871.	1872.
Lump, white, per ton. $4.50@5.00	$4.00@4.25	$3.50@4.00	$4.00@4.50
Lump, blue, per ton. 4.00@4.25	3.00@3.75	3.00@3.50	3.00@3.50
Calcined, city, per bbl. 2.40@2.50	2.00@2.50	1.90@2.25	1.90@2.25

PLUMBING MATERIALS.—A few shipping orders are being filled for standard goods, but this is about all, the local demand proving light. Manufacturers have fair stocks on hand, and will increase sufficiently to meet a good spring trade, which it is thought will be developed. Price list will probably be altered somewhat, with a few changes in buyers' favor.

SLATE.—As might be expected, the consumptive demand for roofing slate at the moment is moderate and business confined in the main to small job lots. The trade of the past year, however, has been very satisfactory, the sales large, and the great bulk of the production disposed of, some of the leading dealers estimating that the entire amount now unsold will not now reach 10,000 squares. Very little has been used in this city, the great outlet being at the West on direct shipments from the quarries, though fair amounts have gone Eastward. The free movement is the result of a judicious policy in keeping prices low, which has stimulated a strong competition with shingles, and it is thought that the recent great fires at Chicago and other points west will bring slate into still greater use next season as a matter of simple safety on the part of builders. The first shipment to California by rail was made during the past season, embracing three car-loads of 40 squares each of Bangor slate from Northampton county, Pennsylvania. On prices we retain about former rates, and though the figures are as low as anything can be bought, all quotations are more or less nominal at present. Of Welch Slate the sales have not been veryla rge, the domestic stock now offering so many desirable and cheap qualities, and it is estimated that the total importation North and South will not greatly exceed 10,000 squares.

SPIRITS TURPENTINE.—With higher prices abroad a good demand for export and also from the home trade, together with the loss of a cargo of 2,200 bbls. on the Thames, have all tended to strengthen holders, and prices are held very firmly at an advance. We quote merchantable and shipping order at 68@69c; and retail lots from store, 69@70c. Receipts for the week, 917 bbls; for the year, 67,937 bbls, and for 1870, 70,280 bbls. Exports for the week, 53 bbls; for the year, 15,272 bbls, and for the year 1870, 17,342.

STONE.—General trade has been good during the past year, and quarrymen seem to feel very well satisfied so far as building-stone is concerned. For paving-stone and flagging, however, there has been considerable irregularity, owing to the uncertain state of the city public affairs, and the reduction in corporation work. An encouraging feature has been a material improvement in the exports, and these still continue good. The shipments have been mainly to Cuba, and though a great many paving-blocks went forward a goodly proportion of the amount given below is flagging, and cleared by the ton instead of by the piece as formerly, in order to present a full account of the quantity exported becoming known. Wholesale values are somewhat nominal at present, as price-lists are about being revised for next season.

The following imports are reported:

		1869.	1870.	1871.
Building Stone,	blocks	6,257	4,063	3,017
do.	tons	1,215	1,259	2,206

LIONEL FROEHLICH'S
REAL ESTATE OFFICE,
820 THIRD AVENUE,
Cor. 50th Street, NEW YORK.
Property sold and rented. Loans negotiated. Charge of houses and collection of rents a specialty.

No one should Build or Live in a House
WITHOUT EXAMINING OUR
ELECTRICAL APPLIANCES,
without which no house can be said to have all or even the MOST IMPORTANT OF MODERN IMPROVEMENTS: in fact, they are indispensable for the complete outfit of a first-class house with what may be termed necessary conveniences. All English and French houses at the present time are furnished with this electrical apparatus.

E. HOLMES'
Burglar Alarm Telegraph.
This one Bell, located in the Sleeping-Room, when set for the night, rings upon the opening of each door and window of the house. It is a watchman that has but one house to protect; never goes to sleep; cannot be bought off; and an experience of ten years, without a failure, proves it to be perfectly reliable and satisfactory.
PARTICULAR ATTENTION
is requested to our new
HOUSE ANNUNCIATOR,
An improvement upon the French system.
IT CONSISTS OF A SINGLE
CALL BELL AND ANNUNCIATOR,
in the kitchen or servants' department, and so arranged that the simple touch of a small ornamented spring in each room of the house RINGS THIS BELL AND ANNOUNCES THE ROOM from which the call proceeds—the bell continuing to ring until the servants give it attention. The whole thing is operated by
ONE BATTERY, OR BY THE SAME BATTERY
that operates the
Burglar Alarm Telegraph.
It is simple, perfect, and reliable, and will not get out of order, and is a very great improvement upon the old system of "bell pulls." We also have
An Attachment for Ringing Door Bells and Servants' Bells from the
TABLE OR DINING ROOM,
by placing a spring in the floor, and covered by the carpet. Also, for
Calling the Coachman from the Stable.
Send for pamphlet containing ten or twelve hundred TESTIMONIALS. They are from our best citizens and first business men of New York and vicinity.

E. HOLMES,
OFFICES:—
7 Murray Street, New York.
6 South Clark Street, Chicago, Ill.
1111 Chestnut Street, Philadelphia, Pa.
69 West Fourth Street, Cincinnati, Ohio.
205 River Street, Troy, N. Y.
121 Washington Street, Boston, Mass.

CAUTION.
The public are cautioned against all infringements upon this patent, even when called improvements; other parties have slightly changed my method of doing the same thing, and without any practical experience speak of it as a very great improvement. This invention is the only one that has had practical experience. It has been in general use for ten years, and every real, practical, or desirable improvement that study and actual experience could suggest has been added.
All violations of my patent, either by using or vending an infringement, will be dealt with to the full extent of the law for such cases provided.

WILLIAM ENNIS,

VENTILATING AND WARMING,

BOYNTON'S
Portable "Salamander"
FURNACES.
Surface or Base Burners.

THIS NEW AND POPULAR PORTABLE FURNACE HAS BEEN TESTED IN LARGE NUMBERS during the past three years, and we feel perfectly SAFE in stating that there never has been a more SUCCESSFUL FURNACE introduced in the market, and one that has acquired so FAVORABLE AND EXTENDED A REPUTATION.

The SUCCESS of the BOYNTON SALAMANDER PORTABLE FURNACE for the past THREE YEARS has been so REMARKABLE, that we have been induced to adapt the THREE LARGEST SIZES TO BRICK WORK, and by the addition of a CAST-IRON RECESS FRONT, we are prepared to furnish a BRICK-SET FURNACE at a price almost as cheap as a PORTABLE, and one that we will GUARANTEE to give entire satisfaction.

They are adapted for Heating all classes of Private and Public Buildings.

Also, RANGES and STOVES in large variety.

We always guarantee the work we do ourselves to be perfectly satisfactory.

NO receipt for money due the REAL ESTATE RECORD will be acknowledged unless signed by one of our regular collectors, HENRY D. SMITH or THOMAS F. CUMMINGS. All bills for collection will be sent from the office on a regularly printed form.

POLITICAL COMBINATIONS.

POLITICS are not in our line—except as they affect real estate in the city of New York. As, however, it is a matter of considerable interest to know who is to control or dominate parties in the metropolis, we may as well state that the combination paramount is understood, and consists of Senator James O'Brien and Mr. Benjamin Wood.

Innocent parties, who read the daily papers, may have fostered a vague impression that Mr. Charles O'Connor and Mr. Samuel J. Tilden are really the controlling individualities-in-chief denominated organization. But that is not so. Party organizations, which embrace so many wide-spread ramifications as do the two great political combinations in New York, must be directed by two or three controlling minds. The misfortune of Republicanism in this city is that the party, as a whole, is intractable; it will not submit to individual leadership. Hence it is split into rival cliques; a dozen aspirants are perpetually quarrelling among themselves for the honors and profits of Republican leadership; and the strength of what is really a powerful party is dissipated in domestic broils. On the other hand, the Democrats have had the fortune—such as it was, or the grace rather—to submit to the control of men like Sweeny and Tweed; and the result was a compact organization, with thoroughly disciplined ranks, and a strong, solid, useful vote always at command.

The removal of Sweeny and Tweed from the directorate of the party, and the disaffection in the German wing of the Democratic party, seriously complicates matters. Messrs. Tilden, O'Connor, and Andrew Green might be the best persons to have control of the Democratic organization; but the simple fact is they have not secured it, nor are they likely to. The Irish and a great part of the American element will for the present be controlled by Mr. Benjamin Wood and Senator O'Brien. Whether these persons have the requisite ability and tact to retain the management of such difficult elements time alone can determine.

If an election for mayor should be held in the coming spring it is supposed, by Mayor Hall and others, that a combination of German and Republican votes, with some of the American Democrats, may be made upon Mr. Witthaus, ex-commissioner of emigration. If, however, there should be a distinct split between the Irish and German Democrats, each running their own candidate for mayor, it would not be impossible for the Republicans to elect their candidate.

Our city politics during the next few years will display some surprising transformations. If after all a better city government should be gained it would be a matter of sincere congratulation; but let us admit that that would be an entirely unexpected result to those who best know the character of our voting population.

PROJECTED BUILDINGS.

The following plans embrace all that have been considered by the Superintendent of Buildings since our last report:—

BROOME ST., N. S., 25 E. GOERCK ST., ONE FIVE-STORY BRICK TENEMENT, 25x60; OWNER, TOLIN RUCK; ARCHITECT, A. H. BLANKENSTEIN.

DELANCY ST. (NO. 320), ONE ONE-STORY BRICK OFFICE, 14x12; OWNERS, B. ADLER & SON; ARCHITECT, CHAS. BECKERS; BUILDER, JOHN SCHMIDT.

GREENWICH AND RECTOR STS., S. W. COR., ONE FIVE-STORY BRICK TENEMENT, 26x68; OWNER, J. H. SCHUTTE; ARCHITECT, W. E. WARING.

EAST FIFTH ST. (NO. 806), ONE FIVE-STORY BRICK FACTORY, 24x56; OWNERS, GRISSLER & FAUSSEL; ARCHITECT, W. E. WARING.

FIFTEENTH ST., N. S., 150 E. AV. B, TWO FIVE-STORY BRICK TENEMENTS, 25x54; OWNER, CUNNINGHAM; ARCHITECT, JOHN MCINTYRE; BUILDER, THOS. SANDERSON.

NINTH AV. (NO. 787), ONE FOUR-STORY BRICK TENEMENT, 25x27; OWNER, FRANK WERNER; ARCHITECT, G. HALZEIT.

ONE HUNDRED AND FIFTEENTH ST., S. S., 170 E. 1st av., one two-story and basement brick dwelling, 20x40; owner and builder, F. H. MCCARTHY; architect, WILLIAM GAYTE.

RIVINGTON ST. (NO. 168), ONE FIVE-STORY BRICK tenement, 25x50; owner, JOHN-FRIEDMAN; architect, WM. JOSE; builder, N. SEGER.

STANTON ST. (NOS. 153½ AND 157½), TWO FIVE-story brick tenements, 25x62; owner, CHARLES F. GOELLER; architect, W. JOSE.

THIRD AV., W. S., 90 S. 124TH ST., ONE ONE-STORY wood store, 21x60; owner, F. KOPPER; builder, G. ROBINSON.

TENTH AV. AND 61ST ST., S. W. COR., ONE FOUR-story brown-stone front tenement, 20.5x60; owner, WILLIAM F. TROTTER; architect, W. H. CAUVET.

ALTERATIONS IN BUILDINGS.

One brick tenement-house, No. 116 Sullivan street, 24 by 45, two stories, and two stories to be added; Mrs. Corey, owner.

One brick store and tenement, No. 531 East Twelfth street, 25 by 65, two stories, three stories to be added; John Schaefer, owner.

One brick second-class dwelling, west side of Eighth avenue, 40 feet north of Forty-second street, 20 by 50, four stories, front to be changed; Marx Live, owner.

One second-class brick store, No. 285 Broadway, 25 by 58, five stories, front to be taken out and replaced with iron; Phillips & Julius, owners.

One stable, south west corner Broadway and Thirty-seventh street, 42 by 65, two stories, interior alterations to be made; John Murphy, owner.

MARKET REVIEW.

BRICKS.—"Nothing new, or no market" appear to be about all dealers have to say on the market for North River Hards. Now and then a barge load or two manages to work through from Haverstraw Bay, but these receipts are very irregular and uncertain, and no one calculates upon them until they are actually alongside pier. When they do come, however, very little difficulty is experienced in effecting sales, and at full prices, too, provided some buyer has not already engaged the stock, which is frequently done, with an agreement to pay all that can be obtained in the way of a bid when the cargo arrives. Although figures are somewhat nominal under the ruling condition of affairs, we should call anything at all merchantable worth about $10.-50, with $11 nearer the general cargo rate, and prime worth at least $11.50 per M. The New Jersey brick, though not very plenty, are commencing to come forward with greater freedom, and most manufacturers are reported as quite willing to ship whenever an opportunity occurs. The sale, however, is pretty free, and $9.50 per M obtained with very little difficulty. Of the Long Island supplies the offering is also increasing, and sellers find an excellent market for their goods; nothing remaining afloat unsold for any length of time. This class of stock comes nearer the North River made in quality than any other, and is eagerly sought after by dealers as a substitute, and at extreme prices. Some few irregular sales are reported at $10.50 per M, but all the best makers can obtain $11, and in some cases even more. Pale Brick is quoted at $6.50@7 per M, but apparently only nominally, for, so far as we can learn, there has been no stock of this description on the market of late. Fronts, in a wholesale way, have no market, as usual at this season. From yard Crotons are selling very slowly, and at uncertain rates, but for Philadelphias there is an average inquiry, and the market fairly steady at $33@35 per M, as to quantity, mode of delivery, etc., etc.

LATH—The general tone of this market remains quite firm; in fact, sellers probably have more good, solid advantage than on any other leading article in the building material line. A larger consumption during the summer and fall than anticipated, and a continued holding off in making purchases for winter stock, left dealers rather behind, and as their error cannot be fully repaired at this season of the year they find it necessary to submit with the best grace possible to the views of sellers. It is reported that the ruling values here have had a tendency to cause extra exertions to be made to get forward supplies from the point of production, and also that some shipments are likely to come from cities having a surplus over probable consumptive wants, but no great fears are entertained that we shall get an overstock for the present. The local distribution is small at the moment, but still large enough to show dealers that it is best to secure anything desirable whenever they can. At the close the ruling price is still $3.50 per M at which recent arrivals have been sold, but the market is not very active, owing to the absence of a supply in first hands.

LIME.—The general volume of business continues comparatively moderate in a wholesale way, and is dependent entirely upon such cargoes as may happen to come through from the Eastward. The position presents few opportunities for exciting features, and, in fact, but little general interest is shown; the attention of manufacturers and agents being now largely occupied in settling up last year's accounts and perfecting arrangements for next season's business. The stock of Northern in first hands is still held off the market, as but little is wanted by dealers just now, and it would be useless to attempt to force a sale. The ordinary jobbing distribution is fair, and prices range up above the wholesale figures to about the average extent, according to quantity, delivery, etc. A few cargoes have recently come to hand, but all were readily sold, and the market closes with a firm tone at $1.35 per bbl for common, and $1.75 do for finishing.

LUMBER.—While the retail market cannot be called active by any means, the attendance of buyers appears to be increasing somewhat, and in small odd lots here and there there is rather more stock going out of yard than at the commencement of the month. The demand is pretty general, too, and calls for nearly all grades to a greater or less extent, though choice woods for manufacturing purposes move with the greatest freedom. The assortment appears to remain very good, and we learn of no complaints of difficulty experienced in making selections. General quotations hardly require any important change, though the figures given are low enough, and buyers intending to merely handle small invoices may expect, in nine cases out of ten, to be charged a little more, especially where they ask expensive and troublesome deliveries, or look for a little extra accommodation in regard to time in the settlement of their bills. Collections on last year's account are now under way, and the settlements in a great many cases are quite slow, causing dealers much annoyance, as they in turn have obligations to meet on summer purchases. The prospect for building operations next spring is thought to be fair, but it is probable that a close discrimination will be shown in allowing credits on lumber, as a great many builders have proved to be very poor pay. On the orders from Southern markets a little stock is going out, but nothing of magnitude.

The "spot" sales, in a wholesale way, are still dependent entirely upon such cargoes as may from time to time drop in coastwise, and as these supplies, as usual at this season, are small and uncertain, the market is necessarily dull.

Values, however, are pretty firm, and any cargo at all desirable is almost sure to find a ready sale at full figures. In the way of contracts we hear that a few are now being consummated on next season's cutting; but, as a rule, the movement is confined in the main to special sizes, which are likely to cost high at any time, and on which little, if anything, is to be gained by waiting. For the ordinary run of stock buyers are still more or less unwilling to bid up to the rates asked, and cannot discover why, with the immense crop in prospect, they should not be enabled to negotiate on just about as easy terms as last season, or even better. For export there is about the usual winter demand, and the ordinary selection being made with full prices current. There is a movement on foot, supported by the Trade, both here and at the West, looking to a repeal of the import duty on lumber, and if this is successful, foreign buyers are likely to be more plenty in this market, as very little, if anything, would be saved by purchasing on the St. Lawrence, were desirable sizes available here, and no duty to contend against.

On Eastern Spruce, business has fluctuated according to the supply, but most receivers report no difficulty in finding customers when they had a desirable schedule to offer, and the full prices asked were paid without much hesitation. Some dealers who have a trade for certain special cuttings have been arranging their contracts, but aside from this there is no very important call for future delivery. We quote at $18@19 per M for inferior to fair specifications, and $19.50@20.50 for good to prime do. White Pine in fair and rather better demand, with the market firm, and good choice stock slightly inclined to buoyancy. We quote at $22@28 per M for good to prime box and shipping boards; $30 do for choice do; $35 do for pickings, and $45 do for selects. For Yellow Pine the demand is fair on the heavy timber, and large-sized stock generally, but ordinary random cargoes are slow of sale, unless extra desirable and somewhat unsettled in price. We quote at $28@31 per M for random cargoes, and $32@38 for special cuts, with a few as high as $40 per M.

The exports of lumber are as follows:—

Total	41,750	41,750	372,328
Value	$1,114	$1,114	$9,217

We note additional exports as follows:—

To Liverpool, 117 logs maple, $2,49, and 9,600 staves; to Puebla, 14 spars, value $220; to British West Indies, 1,500 shooks; to French West Indies, 200 do; to Cuba, 10,592 shooks, and 40,000 hoops.

The receipts reported are as follows:—

From Jacksonville, 163,000 feet lumber; from Pensacola, 171,000 feet do; from Savannah, 210,000 feet do; from St. John, N.B., 800,000 lath.

Charters as follows:—

A brig, 315 tons, from Brunswick, Geo., to River Platte, lumber, at or about $22 and primage; a brig, from Wilmington, N.C., and a schr., from Brunswick, Ga., to Porto Rico, lumber, and back to a port North of Hatteras, sugar, 60c.; a schr., from Satilla to New York, resawed lumber, $11.50; one from Brunswick, Ga., to New York, $12; one to Jacksonville and back with lumber, $14.50, covering outward cargo; one from Orient, L.I., to Savannah, fish guano, $2.25, and back from Jacksonville to Fall River, lumber, $12.50; a Br. barque, 570 tons, (here) from St. John, N.B., to East Coast, Ireland, deals, at or about 75s.; a brig, 183 tons, to Matanzas, shooks, 20c.; one 283 tons, from Norfolk to Demerara, staves, $12; a schr., 371 tons, from Moorhead City, N.C., to North Side Cuba, R. R. ties, $1,750; one from Wilmington, N.C., to North Side Cuba, and back to a port North of Hatteras, sugar, $7; one 205 tons, from Charleston to Porto Rico, lumber, and back to a port North of Hatteras, with sugar, 58c. and port charges; four schrs. to Jacksonville and back, with lumber, $14.50, covering cutward cargo; one from Jacksonville to Boston, resawed lumber, $13.50; one from Brunswick, Ga., to a Sound port, $11; one from Bucksville, S.C., to Philadelphia, $10.

The following items from Saginaw (Mich.) and vicinity we obtain from the *Courier*:—

Fifty able-bodied men left this morning from the lumber camps; they said they were hired in Stolkham, Canada, at $25 and board per month, with all expenses paid. Good men can get $40 and expenses paid. We notice many of our saw-mills are making extensive repairs, preparatory to business next season. Each mill expects to add to their facilities for cutting. Should the lumbermen be successful in running their logs next spring, we shall cut and ship more lumber than ever has been cut in any one season.

A correspondent of the *Saginawian* furnishes the following facts concerning the lumbering operations about Evart:

Mr. Blodgett, who owns 30,000 acres, has seven camps, will put in 11,000,000 feet of logs. Ryerson, Hill & Co. have several camps, will put in 26,000,000 feet, all of which they manufacture into lumber at Muskegon. J. W. Mason & Co. will put in 23,000,000 for other parties. R. A. Morse, about 7,000,000; N. L. Garrish & Co. 8,000,000; Scott Garrish, 6,000,000; T. D. Stinson, 8,000,000; John Brown & Co., 12,000,000; estate of J. W. Sanborn & Co., 15,000,000. The operations of this firm here are under the supervision of Aloney Rust, of East Saginaw. Thomas Brown, 4,000,000; Andrew Green, 3,000,000; Lewis Green, 2,000,000; Andrew Brandon, 4,000,000; Jerry W. Ryan, 2,000,000; White & Swan, 5,000,000; Messrs. Bates & Co., 6,000,000; Capt. Thos. M. Daniels, 5,000,000; Charles Merrill and Thos. M. Palmer, 8,000,000. This information was obtained from Mr. Lloyd, who operates extensively for other parties, and has his headquarters at Evart. It will be seen that in the aggregate this work, above and about Evart, will bring in there annually, for a generation to come, men and supplies to cut yearly from a hundred to a hundred and twenty million feet of logs; this itself insures ample growth to a village inferior to few of the villages of Michigan. Its location is the most central of any place in the county, and it is said to stand a fair chance of becoming the county seat of Osceola county.

The Boston *Commercial Bulletin* reports as follows:—

The lumber market, although seasonably active, naturally feels the effect of the mid-winter period on building operations, and the commencement of a new year, when the annual settlements are going on. The amount of stock now going into consumption is comparatively small. About all the lumber that will come from the Eastward this winter has arrived, a large fleet coming in this week, which has been kept back by unfavorable weather, and there are now more vessels discharging cargoes at the yards and wharves than is usual at this season of the year. The yards are now all fairly stocked with a supply which will doubtless carry them through until river navigation is again opened, while the demand for most grades is up to the averag eof former years at the corresponding time.

Western lumber, with the advance in freights, has advanced. The stock here is not large and the demand is fair.

The market for Southern pine is quick. The stock is rather small. There have been few arrivals this week, but most of the timber consists of ordered cargoes, very little coming here for sale.

Canada lumber is firm, and stocks of manufactured are short. There are considerable shipments to South America, three vessels now being loaded with assorted grades, aggregating 1,700,000 feet. The home trade is naturally dull at this season of the year, though the usual amount is going into consumption. Prices are higher, and we advance quotations.

Shingles are dull and the market is overstocked. Clapboards are in good supply, especially spruce, but the demand is very limited.

The following are the surveys for the week:—

Domestic Lumber.	Feet.
Pine	688,505
Hemlock	297,691
Black Walnut	216,763
White Wood	16,765
Spruce	1,166,101
Southern Pine Timber and Plank	25,490
Hard Wood	200,517
Total	2,611,632

Review of the Canada Lumber market for season 1871, by Messrs. Carbray & Routh, Lumber Commission Merchants, of Montreal and Quebec.

MONTREAL, December 30, 1871.

Another season has closed which has throughout been unusually favorable to manufacturers. At the beginning of the season, stocks at the mills, both sawn and in the log, might safely be called less than moderate as compared with the heavy stocks on hand at corresponding date the two preceding years. The same state of things existed throughout the United States.

The get out of logs in all the manufacturing districts was considerably cut short by extraordinary early disappearance of the snow, which made the season for cutting and hauling at least one month shorter than usual. Under these circumstances, and with no appearance of anything in the United States markets calculated to disturb their normal position, it was clear to every one posted, that as the season advanced, prices would inevitably advance very considerably. As early as 1st May scarcely a single lot of any kind of fair lumber remained unsold, besides which a large portion of the new cut had already been contracted for, and prices had fully advanced ten per cent. After this it was not difficult to foresee the result, quotations rapidly advanced to most unprecedented figures, as an example of which we might mention shipping culls, which closed 1870 at $7.50; opened 1871 at $8, first transactions being made at $8.50, and closed at $10.50 to $11. At an early date last spring, after a careful examination of the state of the market, we reported upon the certain advance of prices as the season progressed; our predictions were in some quarters, and more especially, we understand, in New York and vicinity, put down as the usual reports got up to influence the markets, &c., with the old cry of short log crop, light stocks, &c., &c. Acting under this impression many dealers in that section kept continually delaying their purchases in the frail hopes of doing better, but had finally to succumb to the logic of facts.

While many have succeeded in securing their supplies at high prices, not a few are still very much short of the supplies needed to carry them through the winter. Whilst on this point we beg to inform the trade, that, without arrogating to ourselves the character of "the authorities" on the lumber question in Canada, we take a great deal of pains to keep posted, and we can safely say thoroughly posted, thereon, and further, as far as we know how, our reports contain the plain facts and figures unbiassed by any interest or feeling. It is our determination they shall always be so, in order that they may be relied upon by our friends in the trade and the public.

Doing as we do, strictly buying commission, assuming the position of the buyer, and giving him all the advantages we can obtain ourselves, it is manifestly self-interest with us to make our reports carefully and truthfully.

On account of the lumbering operations having been so suddenly broken up last winter, by the early spring, making a difference of at least one whole month, mills are holding over small stocks of logs. With the exception, however, of those on the small streams, these latter were obliged to shut down last season, for want of water, as early as the end of July, and, on account of a very dry fall, were not able again to resume operations. As the surrounding country gets cleared, these streams, coming with a rush in the spring, dry up more and more every summer, so that these mills will, in self-defence, have to get steam, which several are already preparing to do. The proposed get out of logs is larger than usual; but is, of course, limited to the supply of lumberers—very difficult to be obtained this year—and the state of the weather; the latter has, so far, been everything that could be desired.

One important fact, however, in connection with this, is that, no matter what may be the get out of logs, the quantity of lumber produced cannot exceed the capacity of the mills to saw, so that while we are persuaded that the get out of logs, should the season be of sufficient length, weather favorable, and drives successful, will be large, still there need be no apprehension of such an overproduction as would cause any material decline in values.

Pine.—Stocks of boards at present at mills would seem at first sight up to the average but for the fact that they are almost entirely held in second hands, and largely by Burlington and Whitehall buyers, this partly on account of difficulty of shipping it last fall, and also by heavy purchases made since close of navigation. The mills that still hold any stock are wanting, as a consequence, very extreme rates, and, under present appearances, it would seem as if they must get all they ask. Deals, in England, are beginning to rise in consequence of small quantity received during the year, the imports being 30 per cent. less than 1870; prices in consequence will open very firm next spring, and the quantity wintering here in second hands, as mentioned in our last report, will be easily taken up. The quantity of deals sawn is less than last year, a great many mills on Ottawa having exclusively cut boards instead of part of each.

Timber in the coarser grades has been very unremunerative last season, the stock in the Quebec market being very heavy and very unsalable: holders of this description, however, have in general no better limits to work, and notwithstanding a "bad show," are obliged to run their chance of a better market, and cut the same stock again this winter. We think very advantageous contracts could be made at present under these circumstances, or even next spring before the timber can reach Quebec, so as to get delivery at a favorable point for forwarding to United States, as manufacturers would eagerly grasp at a small apparent profit, in preference to running the risk of another season at Quebec such as the last.

Superior and large average timber closed firm at about last year's prices.

Spruce.—Stock of boards is very light, and closed firm at our quotations. In England deals have increased in demand and value lately; with small stocks there we look forward to a considerable spring demand. Timber is very quiet, and only made on contract, logs otherwise being cut 12 to 16 feet.

Hemlock is scarce, and we would repeat what we have before said in a previous report, that mills do not care to cut this description of lumber, costing in everything the same as spruce, till more can be got for it. We note, however, in connection with this, a local contract for several million feet of mill run, at an advance of $2 gold on last season's prices; this may, perhaps, tempt other mills also to cut this lumber in larger quantities.

Basswood.—A few mills talk of cutting some this winter, but not largely, on account of great loss of logs experienced before getting them to mill.

Butternut is very scarce, as high as $25 gold was asked and paid last summer for a small lot.

Freights by canal have during the past season ruled in favor of shippers, at one time paying but little more than the boats' necessary disbursements, till the last four weeks of navigation, when, on account of extraordinary demand, they rose rapidly. In our quotations we give average rates. Shipments to South America from the St. Lawrence have decreased this year by 11,493 tons of shipping, but shipments of Canadian lumber have been made South, via American ports, which would in part account for the deficiency. Last spring, after the panic caused by the fever at Buenos Ayres, prospects looked so poor that the usual shippers, who had stocks ready, were preparing to place them elsewhere; by degrees, however, matters improved, and a few shipments were made, and as the season advanced more confidence was apparent. The market there now finds itself in a very healthy state, the overstock of 1870 having quietly worked off. We look forward next year to large shipments and higher prices. We note several shipments last season of spruce deals.

Though very many orders for shipments of lumber and box shooks, via the St. Lawrence, came from West Indies, on account of the very high rates of freights ruling the whole season, not a single shipment was made, all that did go went via New York. We have no precise data, but fix the exports of shooks by that route at 150,000 boxes,

There was some inquiry for vessels for Australia in the spring, but owners would not accept rates offered, and though shippers afterwards advanced their views, it was too late, as grain freights were taking up all available tonnage.

Statement of supply and stock of lumber in Ottawa and St. Lawrence Districts for past season:—

OTTAWA AND TRIBUTARIES.

Deals, sawn	100,000,000 feet.
Boards, sawn	285,000,000 "
on hand	16,000,000 "
in second hands	37,000,000 "

METALS.—Ingot Copper continues in active request, and with advices of a still further advance in the price of Chili bars and selected English at London, holders here are very firm at a shade higher prices. We quote: Ingot 27¼@28c; New Sheathing, 34c; Yellow Metal, 26c; Old Sheathing, 25½@26c, all net cash. Scotch Pig Iron still rules quiet, the low prices current barely covering the cost of importation and charges, and the majority of the arrivals are being placed in store. Prices, however, without being materially changed have rather a stronger feeling. We quote Gengarnock, $34@35; Eglinton, $33@34; Summerlee, $35.50@36 per ton, and Coltness $40. American Pig continues inactive, with about the only business apparent being the filling of pressing orders. We quote nominally: No. 1, $36; No. 2, $34@35, and forged, $33@34. Refined Bar is held very firm at the late advance, and as cable reports a further abroad, the probabilities are of higher prices here. We quote from store as follows: Bar Swedes, $112.00 @122.50; refined, ordinary size, $92.50; refined, 1¼ to 6 by ¼ and 5-16, $97.50; refined, 1 and 1½ by ¼ and 5-16, $100; refined, 2½ to 3 round and square, $100; scroll, $110@140.50; ovals and half round, $110@130; band, $107.50; horse-shoe, $105 @115; rods, 5-8 to 3-16 inch, $97.50@132.50; hoop, $112.50 @160; nail rod, per lb., 7c. Common Sheet is very scarce and firm. We quote at 5¼@6 for single D and T, and 6@6½ for D and T Charcoal. Galvanized Sheet continues strong. We quote at 12@13c for 14@20; 12½@13½c for 22@24; 13½@14c for 25@26; and 15@18c for 27@29, all less 20 per cent. to the trade. Russia Sheet is quiet and a fraction lower. We quote at 15@15½c gold, according to number. Pig Lead is quiet, and prices nominally unchanged. We quote at $5.80@6.25 for common to good foreign. Manufactured is inactive. We quote at 9¼c for bar; 10c for sheet and pipe; 15c for tin-lined pipe, all less 10 per cent. to the trade. Pig Tin continues very quiet, and prices rather in favor of buyers. We quote in coin at 37½c for English; 37¾c for Straits, and 42c for Banca. There is a fair demand for Plates at fully former prices. We quote: I. C. charcoal, $9.50@9.75; I. C. coke, $8.50@9.25; Coke, $7.75@8.00, and Charcoal Terne, $8.50@8.75. Sheet Zinc is inactive and prices nominally unchanged. We quote at 10½@11½c gold for Mosselmann, from store.

NAILS.—For cut the market is without any specially new features, trade ruling somewhat dull and a little uncertain. Buyers, as a rule, at this season of the year when the cost of transportation is high, are very much inclined to keep their orders down closely to a basis of actual wants, and this brings about a movement of a good many small lots, but prevents the general volume of business from reaching a heavy aggregate. The stocks of the ordinary sizes are small and receiving few additions at the moment. From exporters the call is moderate. On values the feeling is quite firm generally, and further stimulated by advices of advanced figures among Western manufacturers. We quote per 100 lbs; cut, 10@60d; 9, $4.65; cut, 8@9d, $4,90; cut, 6@7d, $5.15; cut, 4@5d, $5.40; cut, 3d, $6.15; cut, 2@3d, fine, $6.90; cut spikes, all sizes, $4.90; cut finishing, casting, box, etc., $5.16@6.45; clinch, $6.15@6.65; horse-shoe, forged, No. 10 to 5, per lb. 19@33c. Other styles are selling as follows: Copper, 40@41c per lb.; Yellow Metal, 24c do.

Exports as follows:—

	Last week.	Since Jan. 1.

Value	$1,080	$1,080

PAINTS AND OILS.—In a wholesale way the market still continues somewhat dull, but there is a slight improvement as compared with the opening of the year, and dealers feel hopeful of a gradual increase. The stocks now here in first hands are small, pretty well under control, and with a good many of the principal invoices to arrive already disposed of, a generally confident tone is felt. In fact, now full prices are positively insisted upon for all goods, and sellers are very indifferent operators, unless buyers accept the position readily. Domestic goods are also in comparatively small stock, and the production light, giving manufacturers an advantage they are naturally very willing to improve. Of glues the supply has become greatly reduced, especially the fine grades, and the cost has in many instances increased. Among the jobbers business begins to pick up somewhat, and a gradual improvement is looked for during the next six or eight weeks, when the distribution is generally quite large. The demand for Linseed Oil has not been active, but still there was a very fair movement, and the tone pretty firm throughout, crushers refusing flatly to accept any concession, and the supply and production proving small enough to give them an advantage. We quote at 74c per gallon in casks.

Exports as follows:—

	Past week.		Since Jan. 1, 1872.	
Paint.....pckgs.	44, value	$807	44, value	$807
Linseed oil,.galls.	167 "	126	167 "	126
Oxide zinc, pcks.	— "	—	— "	—

PITCH.—There is very little business reported in this market, and prices are a shade easier. We quote: prime city delivered at $4.75@5. Receipts for the week, nil bbls; Since Jan. 1, nil bbls; same time last year, 50 bbls. Exports for the week, 45 bbls; since Jan. 1, 45 bbls; same time last year, 50 bbls.

SPIRITS TURPENTINE.—The market is rather quiet, and early in the week prices exhibited a decided decline, owing in part to the large stock here, which is estimated at fully 9,000 bbls, and in part to the limited demand. But toward the close the feeling is better, and part of the decline has been recovered. We quote merchantable and shipping order at 67@67½c; and retail lots from store, 69@70c. Receipts for the week, 1,772 bbls; since Jan. 1, 1,772 bbls; same time last year, 1,022 bbls. Exports for the week, 30 bbls; since Jan. 1, 30 bbls; same time last year, 154 bbls.

TAR.—Is quiet and prices a shade easier, owing to rather free arrivals. We quote Washington at $3.12½; Wilmington, $3.25, and Newberne $3.12½, as it runs. Receipts for the week, 738 bbls: since Jan. 1, 738 bbls; same time 1871, 633 bbls. Exports for the week, 94 bbls.; since January 1, 94 bbls; same time 1871, nil barrels.

LIONEL FROEHLICH'S
REAL ESTATE OFFICE,
820 THIRD AVENUE,
Cor. 50th Street, NEW YORK.
Property sold and rented. Loans negotiated. Charge of houses and collection of rents a specialty.

No one should Build or Live in a House
WITHOUT EXAMINING OUR
ELECTRICAL APPLIANCES,
without which no house can be said to have all or even the MOST IMPORTANT OF MODERN IMPROVEMENTS: in fact, they are indispensable for the complete outfit of a first-class house with what may be termed necessary conveniences. All English and French houses at the present time are furnished with this electrical apparatus.

E. HOLMES'
Burglar Alarm Telegraph.
This one Bell, located in the Sleeping-Room, when set for the night, rings upon the opening of each door and window of the house. It is a watchman that has but one house to protect; never goes to sleep; cannot be bought off; and an experience of ten years, without a failure, proves it to be perfectly reliable and satisfactory.
PARTICULAR ATTENTION
is requested to our new
HOUSE ANNUNCIATOR,
An improvement upon the French system.
IT CONSISTS OF A SINGLE
CALL BELL AND ANNUNCIATOR,
in the kitchen or servants' department, and so arranged that the simple touch of a small ornamented spring in each room of the house **RINGS THIS BELL AND ANNOUNCES THE ROOM** from which the call proceeds—the bell continuing to ring until the servants give it attention. The whole thing is operated by
ONE BATTERY, OR BY THE SAME BATTERY
that operates the
Burglar Alarm Telegraph.
It is simple, perfect, and reliable, and will not get out of order, and is a very great improvement upon the old system of "bell pulls." We also have
An Attachment for Ringing Door Bells and Servants' Bells from the
TABLE OR DINING ROOM,
by placing a spring in the floor, and covered by the carpet. Also, for
Calling the Coachman from the Stable.
Send for pamphlet containing ten or twelve hundred TESTIMONIALS. They are from our best citizens and first business men of New York and vicinity.

E. HOLMES,
OFFICES:—
7 Murray Street, New York.
6 South Clark Street, Chicago, Ill.
1111 Chestnut Street, Philadelphia, Pa.
69 West Fourth Street, Cincinnati, Ohio.
205 River Street, Troy, N. Y.
121 Washington Street, Boston, Mass.

CAUTION.
The public are cautioned against all infringements upon this patent, even when called improvements; other parties have slightly changed my method of doing the same thing, and without any practical experience speak of it as a very great improvement. This invention is the only one that has had practical experience. It has been in general use for ten years, and every real, practical, or desirable improvement that study and actual experience could suggest has been added.
All violations of my patent, either by using or vending an infringement, will be dealt with to the full extent of the law for such cases provided.

All communications should be addressed to

C. W. SWEET,

7 AND 9 WARREN STREET.

NO receipt for money due the REAL ESTATE RECORD will be acknowledged unless signed by one of our regular collectors, HENRY D. SMITH or THOMAS F. CUMMINGS. All bills for collection will be sent from the office on a regularly printed form.

MUNICIPAL CHARTER REFORM.

MR. ISAAC BUTTS contributes an article to the February *Galaxy* on the "Government of Cities Problem," which is extremely interesting and suggestive. He criticises Mr. Nordhoff's article in the *North American Review* by pointing out that the democratic government therein set forth is really established in the city of Rochester where Mr. Butts resides; and that the results of that democratic system are quite as lamentable as those which New York city suffers from. Mr. Nordhoff's plan was to give all the authority to the people, letting them have frequent elections and entire local independence; and thus throwing all the responsibility upon the voters. "This," says Mr. Butts, "we have in the city of Rochester; but our people always elect thieves for aldermen, and mayors to match. The robbery of the property holders goes on without let or hindrance."

The excuses which the people of New York city can put in—the ignorance of the emigrant population—the masses of vicious persons constantly flocking to the metropolis, and who obtain more or less influence in local politics—the want of homogeneity in the people—the concentration of landed property in a few hands—all these various causes contributing to the development of a poor, irresponsible, unconscionable class of voters in New York, does not obtain in Rochester. Mr. Butts claims that there, more than in any other city of the Union, property, real estate, is equitably divided; and as regards educational status, Rochester is certainly in a very favorable position; and yet a community so situated deliberately elects thieves for local officers.

This statement is certainly a painful one; and yet we are forced to recognize its truth. Much is said of the despicable character of the fellows we send to Albany from this metropolis; but the members of both Senate and House from the rural districts are quite as corrupt as they are. There are as many purchasable rural legislators as urban. Arcadia does not monopolize all the virtue, nor New York all the venality; and barn-yard politicians are quite as ready to turn a penny by the sale of a vote as the veriest political "dead-beat" amongst us. The difficulty seems to be a moral one; the taint is in the age, and is spread all over the country. New York is not peculiar in its corruption. Yet we must be governed somehow; and open, unblushing robbery cannot go on forever. Society would disintegrate, would fall into chaos, if there were not some limitation, some corrective. Mr. Butts has his scheme, which is the old one of confining the voting in municipal affairs to those who own the property. He claims with some show of reason that a municipality is after all a corporation, like a railroad or a gas works, and that it is the people owning the property who are compelled to foot the bills, and who should have exclusive power in all that relates to the disbursements for improvement of their property. The person who rides on a railroad has no voice in the management of the company whose property he is travelling upon; and Mr. Butts brings the same line of argument to bear upon the municipality. The ground and the buildings thereon are owned by the property holders; and it is they and they alone who should decide upon questions of municipal expenditure.

There is, and always was, a great deal of force in this argument: it is idle, however, to adduce it now as any cure for immediate evils; since the Constitution of the State of New York decrees universal suffrage, and there is no reason to hope that any agitation for the amendment of the Constitution in that particular would, in the present temper of the people, have the least chance of success. Nor is it at all clear that if any such provision became a law, and the care of our city was handed over to the property holders exclusively, we should have a much better government than we have now. And certainly the reference which Mr. Butts makes to railroad corporations is not a fortunate one. The great majority of railroad and other corporations are, after all, managed very much as a matter of monopoly—they are run in the interests of the directors and manipulators. It is safe to say that when the history of our corporations—Railroads, Banks, Insurances, etc.—is written it will be found that the peculation is as great and the robbery as glaring as it is in even the worst of our city governments. All this corruption is now covered up in high-sounding financial phrases; but the simple fact remains, that the various officers of these corporations transfer to their own pockets the money which belongs to the stockholders. The city of London is governed by its vestries of rate-payers, that is tax-payers; but that government is anything but an admirable model to follow.

The RECORD again urges upon its readers the wisdom of utilizing the selfishness of the tax-payers to correct the irregularities of the general body. We say that no charter framed at Albany this winter will be of any value that does not in some way give to the tax-payers the power of vetoing any warrant for the payment of money which they deem to be excessive or fraudulent. In other words we want the responsibility placed on the tax-payers of saying whether the bills which come in for payment are just bills, and fairly preferred for honest work. We have no doubt that large real estate owners are just as selfish, just as covetous, as other human beings; and that if they could see any way of preventing the payment of unjust bills they would do so. This seems to us common-sense; and we shall oppose and condemn any charter which does not pit the selfishness of the tax-payers against the selfishness of the tax-imposers.

This may be an entering wedge for some such scheme as Mr. Butts has in his mind; but its value is that it is a practical one, which that of the writer in the *Galaxy* is not.

THE most influential agencies in opposition to steam transit in this city are the horse-car railroad companies. It is a pity that their great power cannot be utilized for the purpose of giving New York rapid steam communication up and down town. When the city railroads were first chartered it was deemed just and politic to give the old stage and omnibus proprietors shares in the stock of the various horse-car enterprises, in order to neutralize their opposition, which was very strong and very effective. Would it not be wise for the projectors of practicable schemes for steam transit to secure the co-operation of the horse-car companies, by giving them a chance to take a large share of the stock in the proposed railways? The time is not far distant when the Third Avenue line will be utterly unable to meet the public demand for conveyance along that great thoroughfare. It is now quite common for them to carry on one car *sixty fares* from the City Hall to Harlem, although each car can seat but twenty-two persons. At certain parts of the day they run cars at intervals of one minute; and yet all these cars are enormously overcrowded. The heavy additions which are being made to the population along this road will cause an imperative demand for more accommodation than the Third Avenue line can possibly afford. What then? A rival track on the line of the Third Avenue. This is inevitable—or else that Company must itself build an elevated steam road. It must come sooner or later. But why not *sooner?*

THE New Charter prepared by the Committee of Seventy is to be presented to the Legislature early next week. We trust that the suggestions of the RECORD in regard to the appointment of a Board of Audit, selected from our heaviest tax-payers, have been heeded by its framers.

MARKET REVIEW.

BRICKS.—We do not see that there is a single encouraging feature for the buying interest, except that wholesale dealers have not pushed the very decided advantage obtained, and forced the payment of extravagant rates. Since writing our last there have been some receipts from the North River, rather more, indeed, than were calculated upon, but they appeared merely as a drop in the bucket, and were quickly disposed of, buyers in some cases securing a positive promise of a cargo first, and asking the price afterwards. Few yard dealers that we can hear of have any accumulation of stock now on hand; and current arrivals not meeting the regular consumption, even at this dull season, those who want supplies conclude that it is best to purchase whenever an opportunity occurs. The sales of North River Hards, as near as we can learn, have all been at full $11.50, and in some cases even higher. The supply, of course, depends largely upon the weather and the condition of the ice on the Hudson, but there is little doubt that while current values are ruling, manufacturers will improve every chance to force cargoes through. From the Long Island yards the supply has not been very extensive, but what has come to hand proved very acceptable, and quickly found a market at extreme figures. In fact, this stock is now worth about as much as anything from the "River," and nearly or quite all sales have been made at $11.50 per M, and for difficult deliveries rather more. From New Jersey the supply has been fair and the demand good, with a number of sales again made at $9.50 per M, mostly rather poorish in quality but, of late the offerings seem to average somewhat higher on the grading, and values sympathized, a few sales being reported at $10 per M. The amount of Jersey brick available is somewhat in excess of previous estimates, but by no means means extensive, and in the present bare condition of our market could all be used to advantage. Pale Brick very firm and somewhat higher. A few lots went off at $7 per M, but sales have since been made at $7.50 do, and there is not many to offer even at this figure. Croton Fronts are entirely nominal. For Philadelphia Fronts there is a fair sort of demand for parcels from yard, and about former rates quoted, say, $33@35 per M, according to quantity, delivery, etc.

LATH.—The market shows pretty much the same features as for a week or two past. Receivers talk very firmly, and are indisposed to admit any loss of advantage, but buyers are not as plenty as at the close of last year, and it is generally thought that much of an increase of the offering would cause some reaction just now, though with the approach of spring a revival of the demand is looked for. The cost at present is pretty high, higher in fact than for years past at the corresponding season, and buyers are inlined to move with a little caution, especially as the consumption, beyond the work already in hand, is doubtful, though manufacturers and their agents appear to partake of the buoyant feeling so noticeable among all who have the production of the forest to sell, and speak confidently of the future. As we close, some lots are being piled out, because they did not realize $3.50 per M, but rumors prevail of sales made as low as $3.30 per M, the position proving a little nominal.

LIME.—There appears to be very little, if anything, really new upon this market, business dragging along in a slow, uncertain manner, so far as the wholesale movement is concerned, and the amount of sales depending simply upon such quantities of stock as manufacturers at the Eastward may find opportunity to send forward. As the distribution is not heavy and dealers far from anxious to purchase fresh supplies, there is no great amount of competition for the fresh arrivals, but still little difficulty is experienced in finding buyers, and full prices are obtained. State lime is considered entirely nominal, in a wholesale way, as there is little offering at the moment, but were there an outlet for it at any better rates, stock would in all probability be forthcoming. Three or four cargoes have come to hand during the week and were easily sold, the market remaining at $1.25 for common, and $1.75 for finishing.

LUMBER.—Business among our city retail yards is very fair and pretty general, but by no means of sufficient magnitude to warrant a report of activity, and the accumulation of stock keeps up pretty full as to quantity, and very good as to assortment; though we are told that "across the river" some of the Brooklyn dealers have managed to work off sufficient to make them feel a little anxious about getting along until spring, should the distribution continue. The only additions are such parcels as may be brought in from coastwise sources, and these are not always of a suitable character. The buyers appearing at our city yards include nearly all classes, builders wanting a little stock, manufacturers laying in a few supplies, some Southern orders coming to hand, and it has been intimated that one or two cautious inquiries have been heard from near-by points at the Eastward along the "Sound." Prices naturally are firm and more likely to advance than decline; yet for the present there appears to be no good reason for making

material changes in quotations. A good many sales are made daily at figures higher than we print, but, as a rule, they are to customers who are slow if not doubtful pay, and retail buyers of the most positive character; while it is pretty certain that a liberal operator of the highest standing could obtain supplies at named rates, and even somewhat easier, if disposed to negotiate on a prompt cash basis.

Our wholesale market occasionally shows a few moderate transactions, as cargoes are brought in from the Eastern or Southern coast; but the supply is very doubtful, and the position at times almost entirely nominal. The closing of contracts for future delivery, so far as special schedules are concerned, continues; but, aside from this, buyers appear to be in a doubtful mood as to the course to pursue, and a great many are still inclined to hold off for later developments. There seems to be every prospect of a liberal supply of logs, but against this, manufacturers claim to see an outlet for every foot they can saw up, and from all points of production there is one universal cry of high prices, and a determination to stick for full figures through thick and thin. All this has been repeated year after year for a long time past, sometimes turning out just as predicted, but quite as often resulting differently, and operators are inclined to make further endeavors to obtain modified terms before entering into engagements. The export call is very good, and hopes are entertained of an improvement, as recent foreign advices are said to be of an encouraging character.

Eastern Spruce remains firm; in fact, the market is a little firmer, if anything, as indications prevail that a fair amount of stock could be sold were it here. Dealers are making contracts for choice sizes of the next current, as the supply of these is sure to be small, and it is desirable to secure what may be wanted early. Random stock does not sell ahead to any extent. We understand the loggers are doing first-rate in the woods, the weather favorable, and the cutting large, with a fair prospect of a full crop, should banking and running the logs prove successful. The close is without important offerings and somewhat nominal. We quote at $17@19 per M for inferior to fair specifications; and $19.50@20.50 for good to prime do. White Pine is firm, and with the strong accounts from the interior, holders are indifferent operators, though the demand at the moment does not show much general activity. We quote at $22@28 per M for good to prime box and shipping boards; $30 do for choice do; $35 do for pickings, and $45 do for selects. Yellow Pine in about the average demand and fairly steady on good stock. We quote at $28@31 per M for random cargoes, and $32@38 do for special cuts; very choice at $40 per M.

The exports of lumber are as follows:—

	This week. Feet.	Since Jan. 1. Feet.	Same time '71. Feet.
Africa	27,023	27,023	103,197

Total	557,813	599,563	924,452
Value	$15,472	$16,586	$34,362

We note additional exports as follows:—

To Hayti, 20,000 shingles; to Antwerp, 12,000 staves; to Rotterdam, 14,400 do; to Liverpool, 8,400 do; to British N. A. Colonies, 6,000 do; to Oporto, 12,000 do; to Peru, 12,200 staves, and 826 shooks; to French West Indies, 600 staves, and 575 shooks; to Danish West Indies, 422 shooks; to British West Indies, 600 shooks; to Cuba, 14,893 shooks; to Brazil, 1,203 shooks; to Africa, 2,000 box shooks.

The receipts reported are as follows:—

From Darien, 300,000 feet lumber; from Pensacola, 300,000 feet do; from Beaufort, 360 R.R. ties; from New Berne, 1,334 pcs heading, 38,000 staves, 17,000 shingles; from Maine coast, 2 cargoes lumber, 1 of lath; from St. John, N.B., 150,027 feet deals, 900,000 lath; from Ship Harbor, 873,000 lath.

Charters as follows:—

A Br ship, 1,112 tons, from St. John, N.B., to Valparaiso, lumber, 65s, on New York account; one, 953 tons, from St. John, N.B., to Belfast, deals, 68s, or if to Liverpool, 65s; a brque, 649 tons, from Pensacola to River Platte, lumber, $21 and primage; a Br brig, 246 tons, to Cadiz, staves, $25 for Light Pipe Culls; a tern. schr, 697 tons, same voyage and cargo, at or about $35 for Light Pipe; a tern. schr, 355 tons, from Wilmington, N.C., to North Side Cuba (two ports), lumber, and back to a port North of Hatteras, sugar, 55c, and mollasses, under deck, $5.50; a schr, from Musquito Inlet, Florida, to Norfolk, live oak, 25c per cubic foot; four or five, from Savannah to New York, resawed lumber, $9.50; three or four, from Jacksonville to New York, resawed lumber, $12; one, from Jacksonville to Fall River, lumber, $13; a Br brig, 238 tons, from Fernandina to Porto Rico, with lumber, and back to a port North of Hatteras, sugar, 55c; a brig, 220 tons, from a Georgia port to Porto Rico, and back to a port North of Hatteras, sugar, 57c; two brigs, 368 and 280 tons, to North Side Cuba, box shooks, 12c; two Br brigs, 172 and 168 tons, to Havana, flagging stone, $4 and primage; a Br barque, 321 tons, from Portland, Me. to Montevide or Buenos Ayres, lumber, $17 and primage; two schrs, from Jacksonville to New York, resawed lumber, $12; one, from Jacksonville to Fall River, $12.50; a Br schr, 148 tons, to St. Pierre, Martinique, lumber, etc., $850; a tern. schr, 222 tons, from a Georgia lumber port to St. Thomas, for orders to a port in Porto Rico, and back to a port North of Hatteras, with sugar, 56c; a Br brig, 211 tons, from Portland to Havana, cooperage, $1,000; a brig, 389 tons (now at Boston), from St. John, N. B., to North Side Cuba, shooks, 25c; four schrs (now or the way to the Provinces), same voyage, shooks, 24@25c; a brig and schr, from Portland to North Side Cuba, shooks, 14c; a brig, hence to North Side Cuba, shooks, 12c, and empty hhds, $1.

The following items we obtain from the Saginaw *Courier*, and some will be found of much interest:—

SAGINAW LUMBER MARKET.

Sales by cargoes about as follows:—

First clear	$40 00@45 00
Fourths	28 00@40 00
Box	33 00@35 00
Three upper grades	28 00@40 00
Common	14 00@15 00
Shipping culls	7 00@ 7 50
Lath	2 50@ 3 00
SHINGLES—	
Sawed A 1	3 50@ 4 00
" A 2	2 25@ 2 75

Shaved—None in market.

The following is the January price-list for lumber delivered on cars, observed by Chas. Merrill & Co.:—

First Clear	$42 00
Second Clear	37 00
Third clear	32 00
Select	29 00
Clear stock, 12 inch	37 00
Select stock, 12 inch	29 00
B stock, 12 inch	21 00
Common stock, 12 inch	15 00
Select stock, 10 inch	26 00
Clear strips	37 00
Fencing strips	14 00
No. 1 Flooring strips	26 00
No. 2 Flooring strips	21 00
Wide select flooring	25 00
Select common	22 00
Common boards and planks	15 00
Coarse common	10 00
Scantling, joist and timber, 12 to 18 ft	14 00
Scantling, joist and timber, 20 ft	17 00
Scantling, joist and timber, 22 and 24 ft	19 00
Pickets	10 00
Shingles	4 40
Lath	2 50

MILL IMPROVEMENTS.—John McEwan is taking the old gang out of his mill to be replaced with another of improved pattern, and also a new boiler to replace one of those now in the mill. The improvements are intended to increase the capacity of the mill 15,000 feet of lumber more per day.

BIG DAY'S WORK.—At Big Champman's camp, on the Rifle, William Wright, one day recently, with one span of horses, four rollers and three swampers, skiddled 826 logs, scaling 130,000 feet, which may be considered a good day's work.

THE WORK OF A SEASON—A GOOD RECORD.—The mill of Sears & Holland, near the middle bridge in this city, manufactured during the season just closed nearly 19,000,000 feet of lumber, showing, all things considered, as good, if not the best record of any mill on the river. This mill, during the past season, run one circular, one mulay, and one gang, day time, 179 days, cutting 15,382,666 feet, and the circular only night times, 117 nights, cutting 3,484,735 feet, or an aggregate for the mill for the season of 76,521 logs, scaling 18,867,401 feet of manufactured lumber. Besides this, the mill and shops connected with it manufactured 2,128,600 pieces of lath, 572,286 staves, and 22,238 setts of heading.

The firm of Sears & Holland, during the season of 1871, shipped from the Saginaw River to their yards in Toledo, Cleveland, and Buffalo, over 36,000,000 feet of lumber, 21,000,000 feet of which was shipped from their own mill in this city. In addition to this, the firm have bought and shipped to their Cleveland yard, several million feet of Georgian Bay lumber. They have also bought and shipped to Cleveland and Toledo yards over 25,000,000 shingles, not to mention the item of lath pickets, etc.

TITTABAWASSEE BOOM COMPANY.

The annual meeting of the Tittabawassee Boom Company was held on Tuesday. The old officers and directors were re-elected for the ensuing year. The statement of the Superintendent shows that during the past year there were 1,259,945 short logs, scaling 288,748,401 feet, rafted out and delivered to owners. Of this amount 159 pieces were old logs left over from last year. The boomage on these logs amounted to $202.171.61. In addition to short logs, there were 809 pieces of long timber, scaling 244,144 feet; 732 pieces of flat timber, scaling 22,452 feet, and 2,558 piles. The Tittabawassee Boom Company was organized in 1864, and has rafted out since then logs as follows:

	Feet.
1864	90,000,000
1866	186,000,000
1867	236,115,079
1868	228,871,300
1869	227,026,057
1870	347,041,250
1871	288,748,401

This company have in the neighborhood of 12 miles of booms, and employ between 250 and 300 men. Of the logs rafted out during the season just closed, the largest amount was by W. R. Burt & Co., 15,493,281 feet, and the next largest by John McGraw & Co., 13,095,080 feet. W. R. Burt & Co. paid $10,845.37 for boomage and McGraw & Co. $9,166 58.

BAD RIVER LOGS.

To R. J. Carney, Secretary of the Bad River Boom Company, we are indebted for the following statement of logs rafted out of the Bad River boom for the season of 1871:

	Logs.	Feet.
N. B. Bradley & Co	27,125	5,910,283
E. J. Ring	21,950	5,575,706
E. F. Gould	4,606	1,105,608
Burnham & Still	3,348	1,051,337
Swift & Lockwood	2,673	434,210
Shaw & Williams	13	2,472
Nester Holiehan & Co	110	29,549
D. W. Green	530	91,141
C. S. Kimberly	327	57,905
Total 1871	60,682	14,258,811
Total 1870	61,722	14,894,521

These figures, it should be understood, do not represent all the logs got out of Bad river and tributaries. Several million feet came down the river which did not pass through the boom company, and perhaps 10,000,000 or 12,000,000 feet stopped at St. Charles, and were manufactured at that point.

The State road which is now a good travelled road to Ionia, sixty miles distant, strikes the railroad here; it will, it is expected, be continued north. A quarter of a mile down this road, it crosses the South branch of the Tobacco river; here the company have erected a substantial dam, and have sufficient fall for a good water privilege. About a half mile West is Linton's saw mill, the largest on the railroad, having a cutting capacity of 25,000 feet daily. On the opposite side is Hilson and Linton's shingle mill with daily capacity of 40,000 feet. These mills will be stocked the present year by Curtis and Ressiguie, with 10,000,000 feet of logs. I am informed by L. B. Curtis, Esq., of Saginaw, that Farwell is the base of supplies for these two mills, another a mile and a half east on the railroad, two more within three miles, east and south; for the firms of Bennett & Brockway, Brockway & Bro., Charles Merrill, John F. Rust & Co., L. B. Curtis & Co., operating on the upper Chippewa, and will put in this season in the aggregate over 50,000,000 feet of logs. It is also the base of supplies for camps on the upper Muskegon, putting in 50 or 60 million feet of logs and a great amount of lumbering will also be done south of the railroad west of Clare, which must receive its supplies from Farwell.

The *Green Bay Advocate* says:

SHINGLES.—The shingle market this winter is not very brisk, as compared with this date last year, and the prices are lower. Comparatively few shingles are coming in. There are several reasons for this, among them the fact that common lumber commands so high a price in Chicago that there is very little building in progress through the country and consequently a small demand for shingles. Then, too, the freight on the shingles between here and Chicago has been raised to 50c per thousand, which is a heavy tax and almost stops shipments.

STARTED UP.—The Astor steam mill was started up on Monday morning, on pine logs which are being drawn in from the woods in different directions. The present excellent sleighing enables teams to draw immense loads.

The following is from New Orleans:

The demand is limited, the city trade being the principal business. The stock on hand is ample for the demand and prices are unchanged.

Cargo lots are quoted nominally at $12@14 per 1,000 feet for inch boards; $12@14 for scantling; $14@15 for weatherboards rough; and $17@17.50 for dressed; $16@18 for rough flooring, and $22@24 for dressed; $17@18 for dressed ceiling; $25@30 for cypress; $3.75@4.50 for shingles, and $2.50@2.75 for laths. Orders for the city trade are filled at $5 per 1,000 advance on these prices for rough lumber; for dressed the rates are $22@25.

Messrs. Berthold & Jennings, of St. Louis, in an elaborate circular, review the lumber trade of that city and give some valuable statistics of the logging and lumber operations on the rivers above. We cannot afford space for the entire circular, but make the following extracts.

The following figures represent the movement of St. Louis for the year:

RECEIPTS.

	Feet.
White pine, by rail	40,253,500
" " by river	81,235,000
Hard wood from all points	37,051,002
Shingles	71,339,000
Lath	45,063,000
Pickets	1,520,000
White pine logs	10,750,000
Hard wood logs	2,347,000

SHIPMENTS.

Lumber	115,127,502
" city and country trade	40,000,000
Shingles	80,404,000
Lath	47,405,000
Pickets	1,210,000
White pine logs consumed	21,300,000
Hard wood logs consumed	1,300,000

There were 82,000,000 feet, all kinds of lumber, less received in 1871 than 1870, which is a little more than the increase of receipts in 1870. The receipts of shingles are

68,000,000 less than the previous year; and in lath there was a decrease of 6,450,000.

STOCK ON HAND.

	Feet.
Lumber	115,135,000
Logs	5,097,000
Shingles	5,023,000
Lath	9,970,000
Pickets	1,554,000

The stock on hand this year of lumber exceeds that of last year by 3,412,000 feet, while logs, shingles, and lath are less. * * * * * * * * * * * * * * * *

UPPER MISSISSIPPI VALLEY—EXPORTS OF MINNESOTA.

UPPER MISSISSIPPI RIVER.—There were cut and banked on this river and tributaries during the winter of 1870-71, 138,456,500 feet of logs, and there were on hand, at the commencement of the season, 4,000,000 feet in booms, which gave a stock of 142,456,500 feet of logs. Of this amount 121,206,500 feet were manufactured into lumber at different points and scaled, and 13,650,000 feet were manufactured and not scaled, and there remains on hand in the booms, ready for the spring sawing, 7,600,000 feet of logs. There were 38,460,500 feet of logs more cut and banked in 1871 than in 1870; but with the old stock of logs held over from the crop of 1869, and manufactured stock on hand at the commencement of the season, there were only 8,456,000 feet more of a supply for the market of 1871, and about the same amount of lumber manufactured. The lumber that was not put in stock was sold where manufactured and shipped to towns throughout Minnesota and Iowa, and none of it sent down the river. The lumber trade in general was good on the Upper Mississippi during the season, and the drive of logs very successful.

ST. CROIX RIVER.—There were cut on the St. Croix river and tributaries during the winter 1870-71, 160,000,000 feet of logs, and with the 40,000,000 feet of old logs held over in the pineries from the season of 1869-70, there were banked and scaled 200,000,000 feet during the season of 1871. There were 92,000,000 feet more put into the streams in 1871 than in 1870, and there were manufactured during the season 90,685,000 feet of lumber. At the commencement of the season there were on hand and in booms, ready for exportation, 33,000,000 feet of logs, which gave a total stock of logs of 232,000,000 feet, with the amount cut and banked. This shows that all the logs that were not run through booms for the mills at Hastings, Red Wing, Lake City, and points below, were manufactured into lumber in the St. Croix valley. The season was favorable on this stream for both lumber and logs. There were run through the booms at Stillwater 142,315,000 feet of logs—a stock of 5,168,067 feet more than the season previous.

EXPORTS OF WISCONSIN.

CHIPPEWA RIVER.—The amount of logs cut on the Chippewa and tributaries during the season of 1870-71, was 200,000,000 feet of logs; amount scaled and banked was 135,000,000 feet; amount on hand in booms at commencement of season was 35,000,000 feet, making the stock available for the season at 170,000,000 feet of logs, which is about two-thirds the amount of the season previous. The most of the lumber manufactured was run out of the river and sold, and this stream is becoming one of the best available, from the fact of its fine booming facilities, manufacturing capacity, and time that it takes to get their stocks to a market. There remains back on hand in the pineries and now available, a stock of 65,000,000 feet of logs, with which to commence the season, without the cuttings of this winter.

BLACK RIVER.—There were cut on this stream and tributaries, during the season of 1870-71, 165,000,000 feet of logs; amount on hand and in booms at commencement of season, 15,000,000 feet; and amount banked and not available, 67,000,000 feet—thus making the stock available at the commencement of the season, 247,000,000 feet of logs. Of this amount 120,000,000 feet of logs were run out of the mouth of the river for mills on the Mississippi river; 10,000,000 feet were manufactured into lumber—6,000,000 feet of which were run out of the river, and 4,000,000 feet remain in booms ready for the spring trade. There are on hand 117,000,000 feet of logs in booms—on the rocks and shore, not available, that will be ready for the season of 1872. The crop of logs fell short during the season of 1871 from that of 1870, 27,000,000 feet; and there were 46,000,000 feet of logs and 6,000,000 feet of lumber less run out of the river in 1871 than in 1870.

WISCONSIN RIVER.—There were cut on the Wisconsin river and tributaries, during the season of 1870-71, 80,000,000 feet of logs—about 18,000,000 feet less than the season previous; and 70,000,000 feet were manufactured into lumber, 45,000,000 feet of which were run out of the river, and 25,000,000 feet remain back on hand, with 10,000,000 feet of logs to enter the season of 1872.

While there were 118,750,500 feet more lumber cut in 1871, there was less lumber reached the markets, and only an ordinary supply of logs on hand with which to enter the season of 1872. This is accountable for the large shipments being made by new railroads to interior points.

We give below some statistics of those points which are tributary to other markets, but contribute in shingles their supply to the Western markets:

WOLF RIVER.—The amount of logs cut on this stream and its tributaries during the season 1870-71 was 127,000,000 feet. There were 15,000,000 feet of old logs on hand at the commencement of the season, which gave a total stock of logs for 1871 of 142,000,000 feet in all. Of this amount, 117,000,000 feet were manufactured into lumber, shingles, etc., at its river towns and sold; 60,000,000 were manufactured into lumber at Oskosh, and 25,000,000 feet remain on hand in the booms, ready for spring sawing. The log crop was 5,000,000 feet short of the previous year.

GREEN BAY DISTRICT.—There were cut in the Green Bay district, on the Aubnepec, Ford, Oconto, Peshtigo rivers and tributaries, during the season of 1870-71, 175,000,000 feet of logs, which were mostly manufactured into lumber, shingles, etc., and sent to the Chicago and Eastern markets.

SOUTHEAST MISSOURI.—In all Southeast Missouri there are some seventy saw mills, involving a capital of $700,000 in mills and their appurtenances, without the investment in lands and mill supplies. These are all contiguous to the line of the St. Louis and Iron Mountain railroad, and do their shipping mostly by that road. The capacity of these mills is from 40,000,000 to 50,000,000 feet of lumber per annum. During the season of 1870 there were manufactured on the line of this road, and shipped mostly to the St. Louis market, 27,000,000 feet of lumber, four-fifths of which was yellow pine; and there were shipped from other States, over it, 3,000,000 feet, which gave a total of 30,000,000 feet by this road. Last year there were manufactured, on the same road, 20,267,000 feet, and shipped over it from other States, 3,360,000 feet, which made a total of 23,627,000 feet—a falling off in the Missouri supply of nearly 7,000,000 feet, and in the aggregate shipments about the same. The prospects for this year will be about the usual supply, while the quality of the lumber will be better from the fact of the extension of this road, or its Arkansas branch, into the best pine regions, where new mills have been, and are being erected. On the Current river, during the seasons of 1869-70-71, there were rafted and sent to a southern market, 3,300,000 feet of lumber and 1,500,000 feet of logs—all yellow pine; and from the fine accumulation of springs this river affords, it will, in time, become one of the best for manufacturing purposes.

REVIEW AND PROSPECTS.

The "cutters" entered the Minnesota pineries early last season, but were retarded some in their hauling operations in the early part by the light fall of snow. They managed, however, to cut a full crop, and later in the season they had a sufficiency of snow, and realized their expectations in getting a good crop out. In Wisconsin they were similarly favored; but having to haul their logs a longer distance, did not succeed in getting the amount out anticipated before the rains came on. Their drives, however, were successful. This winter lumbering operations commenced earlier, both in Wisconsin and Minnesota, and greater preparations than ever are being made to get out a full crop of logs. Of course, this will depend upon the favorable snows and condition of the streams for a favorable drive.

The late forest fires are to be deplored, not only to the loss in this branch of commerce, but the serious consequences attending such conflagrations. It is estimated that the loss by these fires the past season to the forests of our country, to mills and their appurtenances, and the lumber lost by the conflagration at Chicago, will approximate $8,500,000; and this is probably a fair estimate, after making a careful survey of the whole field. The damage by these fires to the timber in Wisconsin is about one-tenth of their standing pine, and the same in Michigan; while the damage is easier repaired, provided the lumbermen can raise the means to put into the river two or three years' stock of logs—for a much greater amount of logs can be put into the Menominee, Oconto, and Peshtigo rivers, which are not navigable, than into the Wolf, where they would interfere with navigation. And it is the same in Michigan, where they are making great preparations to put in a large amount. If it is left standing, the worms are liable to attack it and make it only fit for fencing. Their operations will depend, however, upon their facilities for handling. We trust that the most favorable results may be reached by the trade, and that all the expectations promised for a full crop may be realized.

METALS.—Ingot Copper continues in active demand, both for consumption and on speculative account, at a still further slight advance. Manufactured copper is held very firmly at full former prices. We quote: Ingot 28c cash, and 28½c for February delivery: New Sheathing, 34c; Yellow Metal, 26c; Old Sheathing, 25½@26c. Scotch Pig is more active, and exceedingly firm at an advance under advices of an advancing market at Glasgow. We quote Gengarnock, $36; Eglinton, $35: Summerlee, $38.50 per ton; Gartsherre, $40, and Coltness, $40, all from the wharf. The marked for American Pig has been very active, and somewhat excited with a material advance established in the quotations. The Allentown Co. has withdrawn from the market, and the other companies only offering in small quantities, as they are all sold ahead of production. The sales effected have all been for consumption, and not on speculative account. We quote: No. 1, $37@38; No. 2. $36@37, for extra and forged, $25@36. Refined Bar is held very firm at the late advance. We quote from store as follows: Bar Swedes, $112@122.50; refined, ordinary size, $92 50; refined, 1¼ to 6 by ¼ and 5-16, $97.50; refined, 1 and 1⅛ by ¼ and 5-16, $100; refined, 2½ to 3 round and square, $100; scroll, $110@140.50; ovals and half round, $110@130; band, $107.50; horse-shoe, $105@115; rods, 5-8 to 3-16 inch, $97.50@132.50; hoop, $112.50@160; nail rod, per lb., 7c. Common Sheet is very scarce and firm. We quote at 5¼@6 for single D and T, and 6@6½ for D and T Charcoal. Galvanized Sheet continues strong. We quote at 12@13c for 14@20; 12½@13½c for 22@24; 13½@14c for 25@26; and 15@18c for 27@29, all less 20 per cent. to the trade. Russia Sheet is quiet. We quote at 15@15½c gold, according to number. Pig Lead is quiet, and prices nominally unchanged. We quote at $5.80@6.25 for common to good foreign. Manufactured is inactive. We quote at 9¼c for bar; 10c for sheet and pipe; 15c for tin-lined pipe, all less 10 per cent. to the trade. Pig Tin is in but limited demand, and although prices have been reduced a trifle, it has not had the effect of increasing operations. We quote in coin at 37c@37¼ for English; 37½@37¾c for Straits, and 41¼c@41½c for Banca. Plates are in active demand, and a shade higher. We quote: I. C. charcoal, $9.75@10.25; I. C. coke, $8.75@9.25; Coke, $7.75@8.25, and Charcoal Terne, $9.00@9.25. Sheet Zinc is in moderate demand at steady prices. We quote at 10¾@11½c gold for Mossel-mann from store.

NAILS.—Business appears to be improving somewhat on the leading sizes of cut, and the market has a generally better tone. Buyers are not very plenty or over-anxious, but take larger quantities of stock, and the indications of an increased business are encouraging. The stocks on hand are said to be small and rather poorly assorted, and it is asserted that the additions cannot amount to much for some time to come. The home trade are the principal buyers, though a fair amount of stock is taken for export. The recent change in price on some grades has become more general, and the market closes pretty firm at the revised figures now given. We quote per 100 lbs: cut, 10@60d; 9, $4.75; cut, 8@9d, $5.00; cut, 6@7d, $5.25; cut, 4@5d, $5.50; cut, 3d, $6.25; cut, 2@3d, fine, $7.00; cut spikes, all sizes, $5.00; cut finishing, casting, box, etc., $5.25@6.75; clinch, $6.25@6.75; horse-shoe, forged, No. 10 to 5, per lb. 19@33c. Other styles are selling as follows: Copper, 40@41c per lb.; Yellow Metal, 26c do.

Exports as follows:—

	Past week.	Since Jan. 1.
Packages	456	577
Value	$2,766	$3,846

PAINTS AND OILS.—Business does not appear to have fully met the expectations of wholesale dealers, and a few are inclined to grumble a little, especially some increase of stocks has caused a modification of values in two or three cases. As a rule, however, for most kinds of paints and colors there is a pretty firm and confident tone, and comparatively full prices are predicted, until after the flush of the Spring trade is over. This view is based mainly upon the strong accounts from Europe both public and private, and rather small and easily controlled accumulations here. The home production is fair, but by no means large, and manufacturers in the majority of cases are talking very firmly on all standard grades. Glues generally continue quite firm in some cases at a further advance on both foreign and domestic, with stocks small and the immediate prospective import and production light. Jobbers are distributing fairly, but as yet mainly in small, irregular lots, interior buyers hardly being prepared to take full assortments. Linseed Oil, for a short time following our last, was dull and somewhat uncertain, but the demand subsequently improved, and values strengthened considerably, closing with crushers insisting upon full 74½@75c. in casks, and offering sparingly. There has also been a good call for future delivery from the regular trade, and for investment at a higher range of cost, some sales reaching 77½@78c. for March.

Exports as follows:—

	Past week.			Since Jan. 1, 1872.		
Paint	pckgs.	61,	value $781	105,	value	$1,588
Linseed oil,	galls.	233	" 200	460	"	336
Oxide zinc,	pcks.	—	" —	—	"	—

PITCH.—The market is rather quiet and prices a trifle lower, in sympathy with the decline in strained rosin. We quote: prime city delivered at $4.70@4.90. Receipts for the week, nil bbls; Since Jan. 1, nil bbls; same time last year, 50 bbls. Exports for the week, 50 bbls; since Jan. 1, 95 bbls; same time last year, 60 bbls.

SPIRITS TURPENTINE.—There has been considerable activity in spirits since our last, principally for export, and holders have been enabled to obtain an advance. The price even at the advance is relatively cheaper than at Wilmington, for it is quoted there at 65c, and cost about 6c to lay down here. The market closes strong. We quote merchantable and shipping order at 70c; and retail lots from store, 71@72c. Receipts for the week, 2,448 bbls; since Jan. 1, 4,220 bbls; same time last year, 2,601 bbls. Exports for the week, 1,321 bbls; since Jan. 1, 1351 bbls; same time last year, 320 bbls.

TAR.—There has been rather more demand at steady prices. We quote Washington at $3.12½; Wilmington, $3.25, and Newberne $3.00, as it runs. Receipts for the week, 307 bbls; since Jan. 1, 1,045 bbls; same time 1871, 723 bbls. Exports for the week, 14 bbls.; since January 1, 109 bbls; same time 1871, 95 barrels.

Cor. 50th Street, NEW YORK.
Property sold and rented. Loans negotiated. Charge of houses and collection of rents a specialty.

No one should Build or Live in a House
WITHOUT EXAMINING OUR
ELECTRICAL APPLIANCES,
without which no house can be said to have all or even the MOST IMPORTANT OF MODERN IMPROVEMENTS; in fact, they are indispensable for the complete outfit of a first-class house with what may be termed necessary conveniences. All English and French houses at the present time are furnished with this electrical apparatus.

E. HOLMES'
Burglar Alarm Telegraph.
This one Bell, located in the Sleeping-Room, when set for the night, rings upon the opening of each door and window of the house. It is a watchman that has but one house to protect; never goes to sleep; cannot be bought off; and an experience of ten years, without a failure, proves it to be perfectly reliable and satisfactory.
PARTICULAR ATTENTION
is requested to our new
HOUSE ANNUNCIATOR,
An improvement upon the French system.
IT CONSISTS OF A SINGLE
CALL BELL AND ANNUNCIATOR,
in the kitchen or servants' department, and so arranged that the simple touch of a small ornamented spring in each room of the house RINGS THIS BELL AND ANNOUNCES THE ROOM from which the call proceeds—the bell continuing to ring until the servants give it attention. The whole thing is operated by
ONE BATTERY, OR BY THE SAME BATTERY
that operates the
Burglar Alarm Telegraph.
It is simple, perfect, and reliable, and will not get out of order, and is a very great improvement upon the old system of "bell pulls." We also have
An Attachment for Ringing Door Bells and Servants' Bells from the
TABLE OR DINING ROOM,
by placing a spring in the floor, and covered by the carpet. Also, for
Calling the Coachman from the Stable.
Send for pamphlet containing ten or twelve hundred TESTIMONIALS. They are from our best citizens and first business men of New York and vicinity.

E. HOLMES,
OFFICES:—
7 Murray Street, New York.
6 South Clark Street, Chicago, Ill.
1111 Chestnut Street, Philadelphia, Pa.
69 West Fourth Street, Cincinnati, Ohio.
205 River Street, Troy, N. Y.
121 Washington Street, Boston, Mass.

CAUTION.
The public are cautioned against all infringements upon this patent, even when called improvements; other parties have slightly changed my method of doing the same thing, and without any practical experience speak of it as a very great improvement. This invention is the only one that has had practical experience. It has been in general use for ten years, and every real, practical, or desirable improvement that study and actual experience could suggest has been added.
All violations of my patent, either by using or vending an infringement, will be dealt with to the full extent of the law for such cases provided.

REAL ESTATE RECORD
AND BUILDERS' GUIDE.

VOL. IX. NEW YORK, SATURDAY, JANUARY 27, 1872. No. 202.

Published Weekly by

THE REAL ESTATE RECORD ASSOCIATION.

TERMS.

One year, in advance.....$6 00

All communications should be addressed to

C. W. SWEET,

7 AND 9 WARREN STREET.

No receipt for money due the REAL ESTATE RECORD will be acknowledged unless signed by one of our regular collectors, HENRY D. SMITH or THOMAS F. CUMMINGS. All bills for collection will be sent from the office on a regularly printed form.

HOW SHOULD DEEDS BE RECORDED.

SAMUEL D. SEWARDS, LL.D., of the New York bar, has written a monogram which he entitles "Registration of Written Instruments affecting Title to Real Estate, with a brief historical view of the subject; also, a Statement of the Defects in the Present System and Suggestions as to its Improvement." The title describes very fully the contents of the pamphlet, which is brief, and the writer says not intended to be exhaustive. He has evidently prepared it with great care, however, and in its preparation displayed much scholarship and research.

After a few introductory remarks on the value which mankind has always set upon its property, and especially its landed property, Mr. Sewards gives a short history of the principle of general registration, in which there are some facts of interest. He says the practice has been in vogue for centuries in Germany, France, Italy, and Scotland, as between the sire and his vassals, and vassals and their tenants. He quotes the following paragraph from Kent's Commentaries, describing and upholding the authenticity of the "Egyptian Deed," one of the most curious relics of antiquity to be met with:

"In the *North American Review* for October, 1840, there is given a copy of an Egyptian deed in the Greek language, and under seal, *with a certificate of registry in a public office annexed*, and executed in the year 106 B.C., or more than a century before the Christian Era. It was written on papyrus, and found deposited, in good preservation, in a tomb in Upper Egypt, by the side of a mummy (probably that of Nechutes, the purchaser), and contains the sale of a piece of land in the city of Thebes. It has the brevity and simplicity of the Saxon deeds, so much commended by Spelman. It gives the names and titles of the sovereigns in whose time the instrument was executed, viz., Cleopatra, Ptolemy, her son, surnamed Alexander. It describes with precision the ages, stature, and complexion, by way of identity of each of the contracting parties; as, for instance, Parmonthes, one of the male grantors, aged about forty-five, of middle stature, dark complexion, handsome person, bald, round-faced, and straight-nosed. Semmuthis, one of the female grantors, aged about twenty-two years, of middle size, yellow complexion, round-faced, flat-nosed, and of quiet demeanor."

A further description of the deed is given by Mr. Sewards, who thinks there can be no doubt of the authenticity and great age of the document.

The author expresses surprise that one of the greatest of European governments—no less a power than Great Britain—has never had a general system of recording, notwithstanding Scotland, her near neighbor, has so good a one, and notwithstanding, too, many and strong efforts have been made by her legislatures at various times to establish one. The reason, however, is obvious. Although it may be of great assistance to American business men to have their property registered and its amount well-known, as it helps their credit not inconsiderably, it is very different with English capitalists. The "land-owners" have so much property, and so extensive is it, that they have always been extremely loth to have its amount and extent made public by any system of registration. Notwithstanding this, the author regards it a judicious rule that "in these days of wonderful activity, business whirl, and wild fever of pursuit," a written evidence of ownerships should be properly recorded in some public office, which shall be free to all parties who have reason to inquire about it in any way.

Passing to the second division of his monogram, Mr. Sewards discusses the defects in the present system of recording very practically. Strange as it may seem to the uninitiated, according to his statement there is, in this one office—the Registry Office of the City of New York—a library of nearly twelve hundred immense volumes, averaging six hundred pages of over a foot and a half long by a foot in width, of closely written matter, which are the records of *conveyances* only in the City and County of New York. When it is considered that these are chiefly records of the last few years, and that many other records must be added to them, it becomes very apparent that if the matter goes on in this way, there will not be a building in New York sufficiently large to contain its records a hundred years from now. This, as Mr. Sewards pertinently remarks, will, in any event, render all research literally impossible, which he regards as the greatest objection to the present system. Besides the system now in vogue requires a great number of clerks and assistants, the objection to which is not so much because it causes a waste of labor and an extravagant charge to the government—though of course this is not inconsiderable—but because the large number itself makes the liability to mistakes far greater.

Mr. Sewards' mode of obviating all these and other difficulties is, concisely stated, somewhat as follows: He would, in the first place, countenance only that form in the adoption of written legal instruments "which embodies the greatest brevity, together with the clearest and most widely recognized phraseology;" next the deed should contain *the names of the covenants only*, and that it should not be literally copied into a book of record, but that the original should be kept on file, and a certified copy, with the certificate of record, returned to the party, with various minor provisions. The advantages which would result from the adoption of these and the other suggestions offered by the author are very apparent to all who know anything of the registration of deeds in this city. But there is just one objection in the way, which the author seems to have half suspected, too. Of course the laws of the State, City, and County, are made and amended by the lawyers who form the bulk of all legislative bodies. Well, aside from the fact that the legal profession is and has always been the conservative element in society, and would naturally set itself in opposition to reform in general, members of the bar would be especially opposed to the adoption of the particular reform suggested by the author of this essay, and simply because it is for their interest so to do. It may be a very good thing for the public and the landholders to have the prices of registering deeds cut down from $2.50 to 25 cents., but it is this very reason which would make those who profit by the exorbitant charges hostile to the plan. And from this reason alone, unless some convulsion in society and politics—some revolution that would place the legislative power in other hands, should occur—it seems impossible for the suggestions offered in this little essay, however good and practical in themselves, ever to be adopted.

THE charter of the Committee of Seventy is now before the legislature, but as all our advices are to the effect that it stands no chance of adoption it is scarcely worth while to discuss its provisions here. If the Committee were willing to spend money enough it might go through, but the combinations are all against it. It now seems probable that the present charter will stand with some amendments to satisfy the general demand for some sort of change.

There are some admirable provisions in the proposed charter of the Committee, but we regret not to see any provision for civil service reform. Competitive examination of all applicants for office and fixity of tenure after appointment, would rob our local politics of half their corruption. It is the distribution of the

spoils after each election which is one of the most potent causes of our civic troubles.

The charge that the new charter is involved and complicated in its provisions, is no valid objection to it, provided its adjustments are wise. An advancing civilization shows itself in no way more characteristically than in its delicate adjustments to apparently diverse relations. The Committee deserve great credit for the labor, care, and wisdom which marks the provisions of this charter, but we judge it has no chance at Albany.

THERE is great activity in steam railroad enterprise in Westchester county. Matters have progressed so far that if ever a steam road is built on this island, it will connect at once with a series of well-conceived local railroads in that county. A line has already been surveyed from Port Morris by way of Pelham to White Plains, and will tap the Boston road near Croton Lake. A company has also been formed to construct a branch from Pelham to Portchester via Maronneck, where it joins the road now under way to Richfield. There is thus a perfect network of roads all underway to connect all parts of Westchester county with the metropolis. All that is needed to triple the value of land in that locality is a steam road through this city.

MARKET REVIEW.

BRICKS.—There has been some irregularity on the market for North River Hards since the writing of our last, and at times the position has been a little nominal. The condition of navigation on the river brought down supplies in excess of anticipations, and this gave buyers courage to hold off and ask easier terms; while, on the other hand, receivers, feeling certain that all they had to offer was really wanted, hardly felt inclined to modify their views, and, indeed, many asked an advance. Of the sales made the particulars were not in all cases made public, but the lowest bidding and the extreme asking figures may be placed at $11@.2 per M for anything at all desirable, with probably $11.50 per M still representing a fair average of the market. The consumption, if anything, has increased of late, and the mild weather since the first of the year having permitted the pushing forward of work with much freedom, contractors and builders have used up most of their accumulated supplies, and find nothing in the hands of dealers to fall back upon. As a rule, we find quite a hopeful tone among wholesale dealers, and a pretty generally expressed belief that they will be able to retain the bulk of the advantage until spring navigation is fully opened. From Long Island the arrivals have continued moderate, the demand good, and the sales quick at extreme market values. As near as we can learn, everything from the Island has come from Oyster Bay, and the quality is such as to compete directly with the brick from the yards on the Hudson. New Jerseys have continued to sell well at $9.50@10 per M, with not a great many offering, and hints now thrown out that there is very little stock left at the points of production. Pale Brick would have sold well and commanded full $7@7.50 per M, but the supply ran small, and the market was from necessity quiet. On Fronts there is no regular wholesale market, and values are altogether nominal; but there is about the average distribution from yard at variable prices, according to quantity, delivery, etc.

LATH.—No decided change can be noted in the general position of affairs on this market. Buyers can be found, and the bulk of the offering is placed soon after receipt; but, as before intimated, the extreme rates asked has a endency to materially curtail the demand from consumers,

and naturally jobbers are in turn indifferent, and nothing but small supplies saves a break. The receipts between now and early spring will depend largely upon the elements, though with favorable weather there is a probability that considerable amounts can work through. It has been two or three times reported that some of our neighboring seaboard cities were likely to send in supplies, owing to the high prices ruling here; but there is evidently no truth in the rumor; and, in fact, we can learn of no place where there is stock to spare, beyond local wants. Sales have been at $3.30 per M, but $3.50 is the general asking rate, and most stock not commanding this figure is piled out.

LIME.—Now and then there is a parcel to offer, but the general wholesale market remains much the same as before; in fact, the position can only be considered as a nominal one. The majority of manufacturers are now engaged in closing up last year's accounts, and arranging matters for the next campaign, and the shipments necessarily are small, and even were the quantity to come forward more liberal, navigation and transportation, as usual at this season, are slow and doubtful. The consumption is variable, but, taken in the aggregate, does not amount to a full average for the season, and dealers in consequence are by no means anxious. The State stock is still called scarce and nominal, but were there a good demand for supplies there is little doubt that buyers could be accommodated to a very fair extent. Wholesale quotations remain at $1.35 for common, and $1.75 for finishing.

LUMBER.—The movement of stock from yard continues fair—is on the increase, if anything, and many of our dealers feel a corresponding degree of encouragment. Buyers, to be sure, are not remarkably eager, and few, if any, will handle stock who cannot use the same to immediate and positive advantage; but this seems to be a settled policy at present among operators in all classes of merchandise, and though goods go out a little slowly in consequence, cannot help proving beneficial eventually to all concerned. We do not learn that there is a decided call for any one particular class of lumber, but orders, to a greater or less extent, are filled on nearly all grades, and the handling of stock is quite general. The amounts available are still ample for all outlets, but in a good many yards the effect of the distribution begins to show itself to some extent. On prices the market may be written as quite firm and a little stiffer, if anything, on all leading styles. A majority of dealers say, "Do not change quotations on hard woods," but we understand that many of the choice styles command rather higher figures, especially where selections are permitted.

In a wholesale way the market retains about the usual winter features, the prompt delivery business amounting to very little, and the main interest fixing itself upon contracts for future delivery. All accounts from the woods agree that the logging season has prospered thus far amazingly, and that with ordinary luck the spring run of logs cannot fail to be large, but at the same time, high prices are asked, and every report from the manufacturing districts indicates, or rather contains an expression of, extreme confidence and firmness on the part of the selling interest. Buyers are inclined to doubt that there is any unusual strength to the market, and yet at the same time are a little fearful that there may be, and the consequent uncertainity growing out of this feeling keeps most negotiatons in abeyance. The export demand does not foot up very heavy at the moment, but buyers on foreign account are to be found in attendance, and holders of stock suited to this outlet seem to think their sales must increase as the season advances. An excellent deal trade is predicted for the St. Lawrence next summer.

The exports of lumber are as follows:—

	This week. Feet.	Since Jan. 1. Feet.	Same time '71. Feet.

Eastern Spruce is a nominal sort of article, and there is scarcely anything to report. A cargo comes in occasionally, and among our numerous dealers it is not difficult to find buyers at full prices, and on this receivers claim a very strong position. They are correct enough, so far as the business goes, but there are really so few goods actually changing hands that a fair test is not obtained, and, as noted above, the market must be considered as nominal. Contracts have again been made, and others are now under negotiation, but the prices and other particulars are refused, on the plea that only special lengths are sold, and there would be no opportunity to judge of "matters and prospects" from the reports, if given. We quote at about $17@19 per M for inferior to fair specifications, and $19@20.50 for good to prime do. White Pine is steady and uniform in value, so far as present business is concerned, and very full figures are asked for future delivery, with many sellers expressing an indifferent tone about operating, unless they can obtain an advance. A fair, though not large amount is under negotiation for export. We quote at $22@28 per M for good to prime box and shipping boards; $30 do for choice do; $35 do for pickings do, and $45 do for selects. For Yellow Pine the demand is very fair, but not quick on random stock. Prices fair. We quote at $28@31 per M for random cargoes; $32@38 for special cuts, and $40 do for fancy.

We note additional exports as follows:

To Liverpool, 65 logs maple, value $1,200; to London, 44 logs do, value $400; to Havre, 20 logs do, $497; to Cuba, 3 masts, $455; to Central America, 50,750 shingles, $400; to Antwerp, 7,320 staves; to Liverpool, 15,609 do; to London, 7,800 do; to Gibraltar, 10,000 do; to Havre, 6,000 do; to Marseilles, 3,960 do; to Cadiz, 301,440 do; to Tarragona, 49,200 do; to Lisbon, 60,000 do; to Leghorn, 4,000 do; to Oporto, 6,000 do; to Peru, 3,600 do; to Dutch West Indies, 100 shooks; to British West Indies, 1,100 do; to British Guiana, 400 do; to French West Indies, 103 do; to Cuba, 11,466 shooks, 139,000 hoops, and 19,000 hoop-poles; to Porto Rico, 1,745 shooks, and 25,000 hoops.

Receipts reported as follows:—

From Jacksonville, 280,000 feet lumber; from Savannah, 140,000 feet do; from York River, 3,700 R.R. ties; from St. Johns, N.B., 152,220 feet deals, and 668,000 lath; from Halifax, 63,729 feet plank, and 230,000 lath.

Charters as follows:—

A Br ship, 834 tons (now at Boston), from Doboy, Ga. to Bristol, E., yellow pine timber, reported 40s; one, 1,092 tons (now at Boston), from St. Johns, N.B., to Liverpool, deals, 62s 6d; one, 964 tons, same voyage, 63s 9d; a Br barque, 668 tons, from Doboy, Ga., to Bremen, yellow pine timber, 37s 6d; a Br barque, 479 tons, to Montevideo or Buenos Ayres, lumber, $18 per M, and merchandise 18c per foot and primage; a Norwegian barque, 326 tons, to Cadiz, Light Pipe staves, $25; a Port. barque, 262 tons, to Lisbon, extra heavy pipe staves, $51; a schr, 197 tons, from Brunswick, and a brig, 277 tons, from Fernandina to Porto Rico, with lumber, and back to a port North of Hatteras, sugar, 5⅞c; a brig, from Wilmington, N.C. to North Side Cuba, lumber, and back to a port North of Hatteras, with sugar, 4⅞c; a schr, 204 tons, to Santa Martha and Savanilla and back, $2,400 and port charges; one, 203 tons, to Ponce, P.R., and back, sugar, 50c; a Br schr, 170 tons, same voyage and rate; a brig, 376 tons, to North Side Cuba, shooks, 12c, and empty hhds, $1; one, 189 tons, from Brunswick to Jamaica, lumber, $10, and back to New York, logwood, $5; a schr, to Pantego, N.C., and back, with shingles, basis $3 per M for two ft shaved; one, to Jacksonville and back, privilege Sound port, $15 on resawed lumber; one, from Jacksonville to Philadelphia, $11; one from Jacksonville to Providence, and one to New Haven, $12.50; several schrs, from Jacksonville to Northern ports, with resawed lumber, $12 to New York; $11 to Philadelphia, and $12.50 to Sound ports; two, from Savannah to New York, $9.50.

The latest mail advices from Rio Janeiro report as follows:—

PITCH PINE DEALS.—43‖000@46‖000 per doz of 14x3x9, to net G, ‖42.10@45.62 per M feet.

ONE INCH LUMBER.—105 rs per foot, to net G, ‖38.26 per M feet.

We obtain the following items from the Saginaw *Courier:*

BOOM COMPANIES.—CASS RIVER, RIFLE AND AU GRES BOOM COMPANIES—OFFICERS ELECTED—LOGS RAFTED.—We yesterday published the result of the annual meeting of the Tittabawasse and Bad River Boom Companies.

CASS RIVER.

The annual meeting of the Huron Boom Company was held Wednesday, at the company's office. C. K. Eddy, Thomas Edsall, J. F. Bundy, Edwin Eddy, and Sewell Avery were elected directors. The directors have not elected officers. This company completed its operations the earliest of any boom company operating in the Saginaw district. During the season just closed this company rafted out and delivered 235,312 logs, scaling 55,841,618 feet. The company employ during the season about 80 men, and the working expenses for the last year were in the neighborhood of $45,000.

RIFLE RIVER.

The Rifle River Boom Company held its meeting at Wenona, on Wednesday, when the following officers and directors were elected:—

President, Edwin Eddy; treasurer and secretary, H. W. Sage; directors, H. W. Sage, Edwin Eddy, James Shearer, R. H. Weidemann, and William Westover.

The amount of logs rafted out last year was 55,823,013 feet.

AU GRES RIVER.

The Au Gres Boom Company held its annual meeting yesterday. The following were elected:—

President, J. G. Emory; secretary, George N. Hauptman; treasurer, H. W. Sage; directors, H. W. Sage, F. Johnson, John Mark, E. T. Carrington, K. H. Stiles, Geo. N. Hauptman, J. G. Emory.

The amount of logs rafted out in 1871 was 107,472 pieces, scaling 25,125,084 feet.

W. S. Patrick has a boom on this river through which he will run out 10,000,000 or 15,000,000 feet. The exact quantity we are unable to give.

LUMBERING THIS WINTER.

No one can safely estimate the amount of logs that will be put in and got out this winter, but the following figures may be given as the amount calculated on for the above streams, should the conditions be favorable:—Cass River, 120,000,000 feet; Rifle River, 60,000,000 feet; Au Gres, 55,000,000.

RECAPITULATION.

We give a recapitulation of the amount of logs rafted out of the several streams during the season of 1871, from which reports have been received, with a comparative statement for the previous season:—

	1870. Feet.	1871. Feet.
Tittabawassee River	347,041,250	288,748,401
Cass River	60,942,233	55,841,618
Bad River	14,894,521	14,258,811
Rifle River	80,427,714	55,823,013
Au Gres	35,091,635	25,125,084
Total	538,397,353	439,796,927

The Kawkawlin, Flint, and several small shore streams are yet to hear from, with the Sable and Thunder Bay River farther north on the shore.

BIG LOGS AND LOTS OF THEM.—Mr. E. H. Scott, agent for E. C. Litchfield, has information from one of their camps, town 11 north, 12 east, on the south branch of the Cass, through the foreman, that is worthy of record. One tree, cut recently, made six logs, which scaled 6,987 feet. At the same camp, in one day, 130 logs were cut, and the average of these logs was 480 feet each. The timber cut from this tract averages from 40 to 50 per cent. uppers. To our notion, if a large amount of pine has not been destroyed by fire, this is a very desirable and very exceptional tract of timber.

LUMBERING AT AU SABLE.—Messrs. Loud, Gay & Co., of Au Sable, have turned out 11,000,000 feet of logs, being within 1,000,000 feet of the total product of last year, and still the season is not half over.

Messrs. Moore & Alger have produced 4,000,000; the Stone Lumber Co., 7,000,000; Mr. Bliss, 3,000,000; Grant & Son, 3,000,000; Backus Brothers, 2,000,000, and several smaller firms from 500,000 to 1,000,000 feet. The weather has been remarkably propitious, and at the end of the season the product of the year will far surpass that of last year.

KAWKAWLIN LOGS.—The yield of saw logs last year along the Kawkawlin river and its branches, was 15,000,000 feet, and this year it is expected this amount will be increased to 30,000,000, of which amount D. A. Ballou purposes turning out 12,000,000, and F. A. Hanson, 7,000,000.

From the Bay City *Chronicle* we obtain the following:—

THE LUMBERING SEASON OF 1871-72.—By interviewing a number of our large lumber dealers, we learn that the market has at no time within the past ten years been so bare of logs. Usually from one hundred millions to one hundred and fifty millions of feet have been wintered over; but almost the entire fall supply has been converted into lumber, and there would be none to begin the next season upon were it not for the partial supply that is being furnished by the railroads. It is thought that both railroads that empty logs into the Saginaw river, near this point, will make up a supply of from 50,000,000 to 75,000,000 by the opening of navigation. This will do to commence spring operations upon.

The weather so far has been very favorable for the cutting and banking of a large supply. North of this, upon the Pine and Rifle rivers, and beyond, the sleighing is still very good. A very large force is employed in that direction in getting out logs. Upon the Cass river the sleighing is not so good, and work has been much impeded.

It is believed that on the opening of spring there will be a considerable rise upon saw bills. This will be owing to the fact that, on account of the large stock gotten out, the pressure for sawing will be great, and sawyers will make their own prices. Mill men will be confident of having business enough. Prices instead of being from $2.75 to $3.50 will be at least $4.00 per thousand. Lumber will take a start, at least, at $7, $14, and $25; and possibly better for dry.

The Savannah market is reported as follows:

TIMBER AND LUMBER.—TIMBER.—The receipts have been light for the past week, and the demand good for all classes of Timber, the difficulty being the placing of vessels, which are in demand. We quote: Mill Timber, $7@9; Shipping do., 600 feet average, $8@9; 700 feet average, $10@11; 800 feet average, $11@12; 900 feet average, $13@14; 1,000 feet average, $14.50@16. LUMBER—active. Orders are plenty. We quote: Ordinary sizes, $20@21; difficult sizes, $21@25; flooring boards, $21@22; ship stuff, $20@22, according to sizes.

The following appears in the New Orleans *Price Current:*

THE RED RIVER RAFT.—Having heard of the "Great Raft" in the Red river since our geography days, we are all apt to suppose that we know all about it. We are well aware that it is a mass of drift wood, completely obstructing navigation at the point where it covers the water with its countless trunks of forest trees. We know that the river passes under this mass as if it were a bridge; and we may remember that in 1833, when the raft was one hundred and twenty-four miles long, the general government began the work of removing it, but after working at it for twenty-two years, abandoned the attempt as impracticable, and confined its efforts to the opening up of some of the lateral channels or bayous. We may know all this, but still be ignorant of one of the most curious characteristics of this great raft, which is that it, unlike rafts in general, moves up the river against the current, instead of down. This movement is very slow, being but a mile or two in a year. The explanation of this retrograde progression of an apparently stationary mass is simple enough. The logs at the lower end of the raft are continually broken away and carried off by the current, while the fresh drift-wood is

brought down and added to the upper end by floods and freshets. Thus the raft, always falling away at one end, and growing at the other, gradually moves up the river, and it is calculated that it has moved since its forming about four hundred miles. Scientific writers have suggested the idea that this vast mass of timber, after lying in the old bed of the river for quite a number of ages, will become a great coal bed. But when the Red river country becomes thickly settled, this enormous collection of driftwood may be utilized in some way or other: and thus incalculably distant generations may be cheated out of many a good coal fire.

METALS.—The market for Ingot Copper is less active, but holders are firm at a further advance. Manufactured Copper also remains firm at former prices. We quote: Ingot 28¼c cash, and 28½@28¾c for February delivery: New Sheathing, 34c; Yellow Metal, 26c; Old Sheathing, 25½@26c. Scotch Pig iron is quiet, but as stocks are light, holders continue very firm. We quote Gengarnock, $36; Eglinton, $35; Summerlee, $38.50 per ton; Gartsherre, $40, and Coltness, $40, all from the wharf. American Pig is less active, but as the last large transactions embraced most of the stock, prices are strong, with an upward tendency. Most of the companies are out of the market. We quote No. 1, $38@38.50; No. 2, $37@37.50; for extra and forged, $35@36. Refined Bar from store has been advanced, in sympathy with higher prices abroad. We quote from store as follows: Bar Swedes, $112.50@122.50; refined, ordinary size, $95; refined, 1¼ to 6 by ¼ and 5-16, $100; refined, 1 and 1½ by ¼ and 5-16, $102; refined, 2½ to 3 round and square, $102.50; scroll, $112.50@142.50; ovals and half round, $110@130; band, $107.50; horse-shoe, $107.50@117.50; rods, 5-8 to 3-16 inch, $100@135; hoop, $115@162.50; nail rod, per lb, 7¼c. Common Sheet is very scarce and firm. We quote at 5½@6 for single D and T, and 6@6½ for D and T Charcoal. Galvanized Sheet continues strong. We quote at 12@13c for 14@20; 12¾@13¾c for 22@24; 13¾@14c for 25@26; and 15@18c for 27@29, all less 20 per cent. to the trade. Russia Sheet is quiet. We quote at 15@15½c gold, according to number. Pig Lead continues quiet and without material change. We quote at $5.90@6.25 for common to good foreign. Manufactured is steady. We quote at 9¼c for bar: 10c for sheet and pipe; 15c for tin-lined pipe, all less 10 per cent. to the trade. Pig Tin continue quiet, and prices somewhat irregular, and rather in buyers' favor. We quote in coin at 36¼@36½c for English; 37c for Straits; and 41c@41½c for Banca. Plates have ruled active, but towards the close are more quiet, though prices are firm and tending upwards. We quote: I.C. charcoal, $10.25@10.50; I. C. coke, $9@9.50; Coke, $8@8.50, and Charcoal Terne, $9@9.50. Sheet Zinc is in moderate demand at steady prices. We quote at 10½@11½c gold for Mosselmann from store.

NAILS.—Like the markets for all other styles of goods this season, the one under review shows something of a feverish and doubtful tone, and hardly meets the expectations of the selling interest. Holders are firm in their views, and continue to offer with moderation, and only at extreme figures, but there is a failure to respond on the part of buyers beyond the most positive wants, and stock does not go out with the freedom anticipated. Exporters are cautious, and the necessities of the home trade are hardly developed as yet. Prices remain as before on all grades, and the tone at the close is generally quoted as quite firm. We quote per 100 lbs; cut, 10@60d, $4.75; cut, 8@9d, $5.00; cut, 6@7d, $5.25; cut, 4@5d, $5.50; cut, 3d, $6.25; cut, 2@3d, fine, $7.00; cut spikes, all sizes, $5.00; cut finishing, casting, box, etc., $5.25@6.75; clinch, $6.25@6.75; horse-shoe, forged, No. 10 to 5, per lb, 19@33c. Other styles are selling as follows: Copper, 40@41c per lb.; Yellow Metal, 26c do.

Exports as follows:—

	Past week.	Since Jan. 1.
Packages	263	840
Value	$1,537	$5,383

PAINTS AND OILS.—The general demand for paints, etc., continues moderate, and buyers in most cases seem disposed to move with caution, few taking more goods than the actual wants of the hour require. This may in a measure be attributed to free purchases some time ago by jobbers, and the present receipt of these supplies on contract, with only a moderate counteracting distributive business. There is little doubt, however, that the extreme, and in some cases extravagant, ideas of importers have a tendency to materially curtail the demand and possibly check the consumption. Still the slow movement does not develop any increased desire to realize, and sellers generally seem just about as confident as ever, refusing all negotiations except at full figures, and offering only small amounts of stock. The position of affairs abroad is considered as very encouraging, and the probabilities favorable for a small home production. Linseed Oil has advanced materially during the week, and was at one time considerably excited, owing in the main to reports of serious injury to the crop of seed. The regular Trade bought with freedom, and there was also quite a speculative movement, the latter taking the shape of contracts for future, some of which are said to have reached 80c. per gallon. At the close, crushers are firm at 78c. per gallon, and offering moderately.

Exports as follows:—

	Past week.		Since Jan. 1, 1872.	
Paint.....pckgs.	368, value	$3,350	473, value	$4,938
Linseed oil, galls.	50, "	445	450, "	381
Oxide zinc, pcks.	— "	—	— "	—

PITCH.—The market continues quiet and prices without material alteration. We quote: prime city delivered at $4.70@4.90. Receipts for the week, 225 bbls; Since Jan. 1, 225 bbls; same time last year, 50 bbls. Exports for the week, 50 bbls; since Jan. 1, 145 bbls; same time last year, 80 bbls.

SPIRITS TURPENTINE.—The activity noticed in our last has been followed by a week of extreme quietude. Prices early receded a trifle from highest figures, but have ruled steady at the decline. We quote merchantable and shipping order at 69@69½c; and retail lots from store, 70@71c. Receipts for the week, 745 bbls; since Jan. 1, 4,965 bbls; same time last year, 3,369 bbls. Exports for the week, 31 bbls; since Jan. 1, 1,382 bbls; same time last year, 628 bbls.

TAR.—Has ruled moderately active, without material change of prices. We quote Washington at $3.12½; Wilmington, $3.15, and Newberne $3.00, as it runs. Receipts for the week, 269 bbls; since Jan. 1, 1,314 bbls; same time 1871, 813 bbls. Exports for the week, 125 bbls; since January 1, 264 bbls; same time 1871, 357 barrels.

LIONEL FROEHLICH'S
REAL ESTATE OFFICE,
820 THIRD AVENUE,
Cor. 50th Street, NEW YORK.
Property sold and rented. Loans negotiated. Charge of houses and collection of rents a specialty.

No one should Build or Live in a House
WITHOUT EXAMINING OUR
ELECTRICAL APPLIANCES,
without which no house can be said to have all or even the most important of modern improvements; in fact, they are indispensable for the complete outfit of a first-class house with what may be termed necessary conveniences. All English and French houses at the present time are furnished with this electrical apparatus.

E. HOLMES'
Burglar Alarm Telegraph.
This one Bell, located in the Sleeping-Room, when set for the night, rings upon the opening of each door and window of the house. It is a watchman that has but one house to protect; never goes to sleep; cannot be bought off; and an experience of ten years, without a failure, proves it to be perfectly reliable and satisfactory.
PARTICULAR ATTENTION
is requested to our new
HOUSE ANNUNCIATOR,
An improvement upon the French system.
IT CONSISTS OF A SINGLE
CALL BELL AND ANNUNCIATOR,
in the kitchen or servants' department, and so arranged that the simple touch of a small ornamented spring in each room of the house **RINGS THIS BELL AND ANNOUNCES THE ROOM** from which the call proceeds—the bell continuing to ring until the servants give it attention. The whole thing is operated by
ONE BATTERY, OR BY THE SAME BATTERY
that operates the
Burglar Alarm Telegraph.
It is simple, perfect, and reliable, and will not get out of order, and is a very great improvement upon the old system of "bell pulls." We also have
An Attachment for Ringing Door Bells and Servants' Bells from the
TABLE OR DINING ROOM,
by placing a spring in the floor, and covered by the carpet. Also, for
Calling the Coachman from the Stable.
Send for pamphlet containing ten or twelve hundred TESTIMONIALS. They are from our best citizens and first business men of New York and vicinity.

E. HOLMES,
Offices:—
7 Murray Street, New York.
6 South Clark Street, Chicago, Ill.
1111 Chestnut Street, Philadelphia, Pa.
69 West Fourth Street, Cincinnati, Ohio.
205 River Street, Troy, N. Y.
121 Washington Street, Boston, Mass.

CAUTION.
The public are cautioned against all infringements upon this patent, even when called improvements; other parties have slightly changed my method of doing the same thing, and without any practical experience speak of it as a very great improvement. This invention is the only one that has had practical experience. It has been in general use for ten years, and every real, practical, or desirable improvement that study and actual experience could suggest has been added.
All violations of my patent, either by using or vending an infringement, will be dealt with to the full extent of the law for such cases provided.

JAMES BROOKS,
MANUFACTURER OF
SHELL LIME.

BOYNTON'S

IMPROVED ELEVATED

OVEN RANGE.

This *Beautiful Range*, improved last year, is offered to the *Public* as the most *Complete*, *Convenient*, and *Desirable Elevated Oven Range* in the *Market*, and is the *result* of long experience in the *Manufacture* and *Setting* of *Cooking Ranges*; and we do not hesitate in recommending it as the *nearest to perfection* of any *Elevated Oven Range* in the *Country*.

The *body* of this Range is higher than other *Patterns*, and is more like the *French Kitcheners*, making it much more convenient and *easy* for the *cook*.

The *Hot Closets* are more accessible, placed in a *natural* position, being in the body of the Range, instead of above the ovens, as in other patterns.

ALSO,

FURNACES, HEATERS, AND STOVES

IN LARGE VARIETY.

We always guarantee the work we do ourselves to be perfectly satisfactory.

AND BUILDERS' GUIDE.

VOL. IX. NEW YORK, SATURDAY, FEBRUARY 3, 1872. No. 203.

Published Weekly by

THE REAL ESTATE RECORD ASSOCIATION.

TERMS.

One year, in advance.....$6 00

All communications should be addressed to

C. W. SWEET,

7 AND 9 WARREN STREET.

No receipt for money due the REAL ESTATE RECORD will be acknowledged unless signed by one of our regular collectors, HENRY D. SMITH or THOMAS F. CUMMINGS. All bills for collection will be sent from the office on a regularly printed form.

EXEMPTION OF MORTGAGES.

WE think a general effort ought to be made to have mortgages exempted from taxation. The subject has been before the legislature repeatedly, and a law exempting them would have been passed by the preceding legislature but for the malign influence of a ring senator from this county, who expressed himself in favor of the justice and conceded the wisdom of the measure, but demurred to its policy; as in many democratic counties, the mass of ignorant farmers had an idea that it would be more difficult for them to keep the loans now existing on their land, and that the money would then flow towards better securities in the larger towns and cities—farms, as a general thing, being about the last and weakest landed security in the market at all times. We think that the senator took a wrong view of the measure. By removing the unwise tax on mortgages, the supply of loanable funds would be quadrupled, and improvements in all sections would add to the taxable revenue of the State, and employ tens of thousands of artizans, and give a larger market for every article a farmer has to sell. The experience of other States favor this policy. In Pennsylvania, Connecticut, and New Jersey, mortgages on real estate are exempted from taxation over a large portion of their respective territories; and in New Jersey the law has been framed with the especial object of drawing New York capital to the State; it being now a leading policy of that State to increase all the railroad facilities terminating at Jersey City and Hoboken, to draw off the population of New York city, as homestead residents.

The policy pursued by the States we have named, at the cost and expense of the taxation of our own State, has resulted, contrary to the expectations of the senator alluded to, in the same freely loaning of money by capitalists on mortgages for agricultural purposes, and for the opening up and improving of lands, owing to the greater stimulus given to enterprise by the removal of the taxation on loans. The rate of interest allowed by law in our State is seven per cent. The State and National income taxation reduces it to about four and a half per cent. The investments in railroad bonds of other States offer greater inducements, and loans—excepting trust funds and the estates of minors, etc.; and a certain portion of the assets of savings banks, life and fire insurance companies, which, for the increased security, the law compels investments to be made on landed security in our State—are all we have to aid us in improvements. No capitalist, as the law now stands, will lend money of his own on bond and mortgage. He will buy an existing mortgage at a discount of from three to five per cent. per annum; and as that has got to be the usual way of loaning money on mortgage now, unless you pay the counsellor, or agent of the president, or the agent of the influential man in the financial committee of certain corporations, a fee of one or two per cent., provided the board accepts the property and the loan is effected, you cannot get the loan at all. It costs now, to obtain money on undoubted landed security, except by influence with the corporations, fully ten to twelve per cent. per annum to the borrower. A portion of this goes to the capitalist to cover the absurd State tax. Money will always command its price. All legislation tending to stop the free movement of it is unwise, and it is paid by the borrower. It all falls on the poor man, and prevents the industry and mechanical talent of the poor man from being used directly for his own benefit. It is another link in the heavy chain of poverty, and should be discouraged.

The relief that is wanted from the present legislature is clear and distinct. It is simply *to exempt all mortgages on real estate in the State, from taxation.*

Real estate is now doubly taxed, in so far as it is mortgaged; and the records of our counties will show that ninety per cent. of the improved property of the State is mortgaged, and consequently the improvements are made at increased cost, and tenants are obliged to foot the bill. All this tax is eventually paid by the lessee. There is no better security, there cannot be a better security for money loaned, than mortgage on real estate with fair margins.

THE RIVERSIDE PARK.

WE have authority for stating that ex-Judge Josiah Sutherland, William C. Traphagen, and Charles K. Graham, the new commissioners who were appointed by the General Term of the Supreme Court to revise the awards and assessments for the completion of the Riverside Park, have recently held several meetings with the view of learning the wishes of the property-owners in respect to the line of awards for damages allowed by the former board of commissioners. At all these meetings, which have been attended by the larger part of the owners of the soil, there has been great unanimity in the views expressed—that the present board should take a liberal view of this great measure, and, to as large an extent as practicable, accept the former reports of values. No great measure like this can be carried through without finding here and there some allowances which appear too large in proportion to others, and about which, as in the case of the Grand Boulevard, our brokers, who are experts in the locality, will differ widely in the appraisal. The commissioners should be liberal, and hasten forward their report in the matter. This measure has been delayed fully two, if not three years, by the former board of commissioners, mainly with the view of making up heavy bills for fees for stated meetings. It is now a very simple matter to adjust any apparent error and furnish a report.

The whole west side improvements have been delayed by the wrongful action of the former board, and we hope the present board will in good faith expedite the measure. Time is money. The citizens of New York prefer to live here, instead of in New Jersey. We hope, therefore, that the commissioners will give the matter their attention, and meet daily until they can agree upon a report.

RAPID TRANSIT AGAIN.

THE RECORD was the first paper to announce the failure of the Viaduct Railroad Company to raise means to carry out its magnificent project. We then argued that as the scheme was dead, and as it never deserved to have any life, an appeal should be made to Commodore Vanderbilt to supply New York with the needed means for city transit.

We pointed out the fact that the city already had a railroad avenue above 42d street, of which the Companies could not be dispossessed; that it led directly to the centre of the lower part of the city; that the route from 42d street, in a direct line, would not cost much for right of way; and that the line could be constructed within two years. We also pointed out that with a system of street cars connected with Fourth avenue east and west, all parts of the city could be reached in half the time that was now consumed.

The advantages of this proposal are so obvious that it seems absurd to discuss any other just at present. It utilizes an avenue already doomed to railroad purposes. It commands the capital of immense railroad interests with which it can be combined. And it offers as much steam travel as the upper part of the island will need for the next ten years to come.

In connection with this matter, the discussion of the question of city travel makes it ap-

pear imminent that the Great Central Depot must, within the next two years, be removed to Westchester county. It was the height of absurdity to build a vast edifice of this kind in the centre of the city. It stands right in the way of rapid communication up and down town. It depreciates the value of all the property in the neighborhood. In every way it is objectionable. The loss occasioned by the removal of the building would be more than recovered by the increased value of adjacent property, and the sale of lots upon which the edifice now stands.

Competent engineers, *not* in the interest of any transit scheme in the city of New York, inform us that, with a fare of five or six cents for steam travel in this city, no plan will pay a fair dividend which contemplates an outlay of more than six millions of dollars. If eight millions were spent, under such circumstances, the certainty would be that no fair dividend could be paid for ten years. Any plan involving the outlay of twenty-five or thirty millions of dollars would not begin to pay a dividend except fifteen cents were charged for fare. Such a fare as that is clearly too high; it would make living at the upper part of the island, and travelling down town to do business, an enormous tax. Nobody could endure such a daily expense as this would entail, but people with incomes of over $3,500 a year. As the great bulk of the people have incomes much less than that, such fare would render the railroad a heavy burden instead of a convenience for those who wanted to live in the upper part of the island, or in Westchester, and attend to business down town.

Therefore let it be borne in mind by those who are advocating the consecration of Fourth avenue to *steam city transit*, that the removal of the depot to Westchester is an indispensable part of the scheme. This, then, opens another view of the case. It would lead, and it ought to lead, to more extended opportunities for the purchase of railroad tickets. These tickets, for travel everywhere, ought to be on sale at the steam terminus down-town; and also at four or five other points along the road through the island. Thus it ought to be possible for a person going to Chicago, or Boston, or St. Louis, to purchase his ticket at eight or ten places along the line of the city steam railroad; and be transferred at the great depot in Westchester county to the proper train.

No freight cars should be permitted to come down the Fourth avenue railroad. As a complement to this scheme of one steam road down the centre of the island, there should be a belt road upon the exterior line of the island, running over stone warehouses, and connected directly with our improved system of docks. On this exterior line the cars should be permitted to deposit their loads at whatever dock was convenient to them—thus saving all that waste of money which our wretched cartage system involves. It is preposterous that our merchants should be compelled to pay as much for the removal of a load from Courtlandt to Canal street as is required to bring it from Chicago to New York.

It would result immensely to the advantage of New York if we could so cheapen transportation in the city as to compel the trade of the whole country to concentrate upon this island. With a system of warehouses (in connection with our docks) such as we have described, freight could be transported at once from the steam cars to the vessels. And the cost of handling and carting would be reduced to a minimum.

At any rate, whether the already existing lines are considered available or not, the need of a steam line through the centre of the island is so apparent, that it ought to engage the co-operation of every person who has the interests of the metropolis at heart.

MARKET REVIEW.

BRICKS.—The general market for Hard brick must still be considered as more or less nominal and subject to some extent to the condition of the weather and navigation on the Hudson. The selling interest, however, claim to have every advantage of the situation, and they can hold their own until early spring at least, basing their confidence mainly on the known small accumulations in all parts of the city, and the general difficulty experienced in procuring additions, the sources of supply outside the North River yards having scarcely anything to send forward, except to regular customers, who seem likely to take all that is offered them. The Long Island stock has found much favor this season and commanded full rates, giving manufacturers a handsome profit, and it is somewhat unfortunate that larger quantities were not available. The supply of New Jersey stock has been coming to hand in quite an irregular manner, and is now claimed to be nearly exhausted, but the quality is not good enough to permit of prices being run up on a scarcity. Pale brick have been of somewhat uncertain value, simply because there was not enough offering to test the market; but dealers assert that if they had the stock they could sell it fast enough and obtain full prices without difficulty, especially from dealers in Brooklyn and vicinity. Croton Fronts have no positive value, and the figures given for quotations are only nominal. Philadelphia Fronts sell very well from yard, and command full rates; but, as usual at this season, there is no fixed wholesale market rate. On our general table of quotations we make no change, as the entire market is simply nominal, in the absence of supplies, the ice in the river this week checking receipts.

LATH.—Receivers appear to be ful'y impressed with the belief that this portion of building materials is as good, if not a little better, than any other, so far as full prices are concerned, and where extreme bids fail to be drawn the inclination is to pile out stock and wait a little longer. The consumption thus far this winter has nearly kept pace with the supply, it is said, and dealers, as a rule, are understood to have no more, if as much, stock under control. as when the upward turn of values first set in, and their wants, it is thought, will act as a sustaining influence until spring. Manufacturers will naturally send forward cargoes as opportunity admits, but it is not known where there is enough lath available to overcrowd our market just now. Next season's production, from present indications, will be fair. At the close the asking rate is still $3.50 per M, but there is no stock offering afloat, and the market rules dull.

LIME.—There is really no positive wholesale market existing at the moment, and little of importance to advise. A fair amount of stock could undoubtedly be disposed of, as a good many dealers are working their supplies down, but the market would not take a great many cargoes, and with the troublesome and expensive shipments of the season, manufacturers make little exertion to just forward the small amounts they have ready for sale. As to the business doing in small lots from yard, the reports made are very uncertain, but, taken altogether, we should call the distribution fair, with a tendency to increase, if anything. Prices, in a retail way, cannot be quoted closely, owing to many influences controlling sales, but an advance over wholesale rates of from 20 to 40c per bbl may be calculated upon, according to circumstances. Nothing has arrived for several days, and the market remains nominally at $1.25 per bbl for common, and $1.75 do for lump.

LUMBER.—A fair though not remarkably active trade seems to be about the prevailing condition of affairs at most of the retail-yards in the various sections of the city, and the movement of goods is probably fully up to what might be expected for the season. Some dealers are turning out stock with a show of freedom, as compared with a number of the larger firms in the business, and, as near as we can get at the reason, this is apparently the result of pretty liberal credits. Whether this policy is a good one or not remains to be proven; but in many cases we hear continued complaints of the difficulty experienced in settling last year's accounts, and now and then a wish expressed that a cash system had been more closely adhered to. A good many builders have been disappointed in their calcu-

lations upon real estate, and find it difficult to meet engagements, and are compelled to ask extensions, in order to adjust finances. Prices vary somewhat, with sales frequently made in excess of quotations on small lots, for time, etc., but we prefer retaining previous figures, as representing just about what goods will bring, which is, in reality, the only market value, the asking rate never being a fair quotation, except where there may happen to be a positive "corner" on the market.

The wholesale market, so far as cash sales are concerned, amounts to very little just now, receivers having nothing to offer, except such parcels as may now and then come in from coastwise sources. These arrivals, however, meet with a fair call, and it does not require much of a search to find buyers at full former rates. On contracts for future delivery the movement is a little uncertain and not very large. A few buyers, who desired fine special cuts, were willing to pay well to be accommodated, and thought it best to operate in time, have given their orders, it is understood, some at a fixed rate, and others at a price to be hereafter decided upon, but the general demand from the trade is offish and cautious. Everything looks firm now; indeed, a good many quite bearishly inclined operators acknowledge they can see few weak points of a decided character in the prospect ahead, but still think it best to hold off and hope for an advantage. Considerable interest is felt as to the probable wants of the interior towns of the Eastern States during the coming summer, as the distribution in that direction, especially of Canadian stock, it is thought must have a decided influence upon the price of lumber at this point, though the deal trade with England will not be without its effect. Exporters at this point are moving to some extent, but not freely, for want of stock.

The exports of lumber are as follows:—

	This week. Feet.	Since Jan. 1. Feet.	Same time '71. Feet.

Eastern Spruce when it arrives sells very well, and commands full former prices, but it arrives so seldom and in such small quantities that there is not much of a market, and the trade are very little interested. We do not learn of many contracts, and some of the previous negotiations are understood to have fallen through, buyers prefering to await further developments. We quote at $17@19 per M for inferior to fair specifications, and $19.50@20.50 for good to prime do. White Pine on the fine grades is quite firm, but not very active. Coarse and common shipping stock, however, may be quoted very decidedly higher, and could be sold with much freedom were there any stock available. The supply, however, is not only about exhausted here, but advices from shipping points on the coast and in the Provinces announce the markets as entirely swept with orders for millions of feet lying unfilled, and no prospect of decided relief until spring, though some supplies have been brought into Portland at immense expense by carting over ice to the railroads, etc. There has been a large proportion taken for Cuba, but all the West India outlets want stock. About as low as any common box boards can be obtained is $30 per M, and very few lots below $32 do; good to prime, $35@38 do; pickings, $40 do, and selects, $45 do; the latter rather dull. Yellow Pine is steady and selling very well, though the general supply is a little closer to the outlet than heretofore. We quote $28@31 per M for random cargoes; $32@38 for special cuts, and $40 do for fancy. There has been a very good demand for maple logs for export, both to Great Britain and the Continent, and prices rule pretty firm at 8¼@8½c; choice 8¾c per foot. Black Walnut logs have also attracted attention for the same outlet, though not to a liberal extent. Values about 7¼@7½c per foot.

On the 30th ult., the Committee of Ways and Means at Washington gave a hearing to parties interested in the lumber trade, of which the following account was sent to a city contemporary:—

"Explanations were made by several gentlemen as to the effect of the present duties. The reasons why some of the representatives of the interest in New England and New York want the duty repealed are, prices in Canada having continued to advance, it is plain that the additional cost of lumber in the States by such duties, has been and is now largely paid by consumers; because there are serious obstacles against the foreign shipping trade from New York and Boston, and because they do not deem it good policy to encourage the present waste and diminution of the home growth of lumber from our fast waning forests by the imposition of such duties. The capital represented by these representatives may be estimated at from $75,000,000 to $100,000,000. Representatives from Burlington and Whitehall showed the disastrous effects of the duty upon our foreign shipping trade in lumber. Before the imposition of the duties the United States were factors to Canada, taking their lumber and having the advantage of the inland freight and commissions, and of selling and shipping to foreign countries. The perplexities attendant upon bonding lumber have driven our foreign shipping almost entirely to Montreal and the St. Lawrence. They do not ask that dressed or manufactured be admitted free, they ask if lumber cannot be admitted free, that the duty be made specific instead of *ad valorem*, and that a reduction be made in the same. It was stated that at the expiration of the Reciprocity Treaty, in 1866, a duty of 20 per centum *ad valorem* was imposed on lumber, when, contrary to the general expectation, there was an advance in the chief descriptions of lumber imported from Ottawa."

We note additional exports as follows:—

To Liverpool, 140 logs maple, value $2,299; to Havre, 42 logs maple, value $842; to Hayti, 60,000 shingles, value $780; to Hamburg, 12,000 staves; to Rotterdam, 39,640 staves; to Liverpool, 27,800 do; to London, 1,800 do; to Glasgow, 3,600 do; to Cadiz, 445,680 do; to Alicante, 98,160 do; to Genoa, 10,800 do; to French West Indies, 13,150 do, and 2,345 shooks; to British West Indies, 5,350 shooks; to Cuba, 6,413 do. and 185,150 hoops; to Porto Rico, 1,676 shooks, and 40,000 hoops; to Brazil, 200 shooks.

The receipts reported are as follows:—

From Mobile, 1,800 staves; from Washington, N.C., 6,000 shingles; from St. John, N.B., 693,000 lath.

Charters as follows:—

A ship, 1,045 tons, from Boston to Callao, lumber 52s 6d per M; one, 619 tons, from Boston to Valparaiso, lumber, etc., at about 60s; two schrs, to North Side Cuba, shooks, 12c, and empty hhds $1; a barque, 446 tons, to Matanzas, same rates; a Br brig, 284 tons, to St. Sago, cooperage stock, and back with sugar, 50c, and molasses, $5; a brig, 338 tons, to Matanzas, empty hhds, $1; a Br barque, from Fernandina to Bremen, timber, 37s 6d: one, 578 tons, from Pensacola to River Platte, lumber, $22.50 and primage; a schr, 188 tons, from Jacksonville to the Windward, lumber, $10; 3 schrs, from Jacksonville to N. Y., resawed lumber, $12; two, from Savannah to New York, $9.50; one, from Satilla to New York, resawed lumber, $11; one, from Darien to New York, $11; a schr, from Fernandina to New York, 190 M, timber, $12.50; one, from Jacksonville to New Haven, resawed lumber, $12, and one, to Fall River, $12.25; two, from Jacksonville to New York, privilege Sound port, $12; a ship, 655 tons, hence to Montevideo and Buenos Ayres, lumber, and general cargo; a Br barque, 430 tons, from St. Mary's to River Platte, lumber; a ship, 773 tons, from Boston to Savannah, ice, thence to Rio, lumber, on private terms.

We obtain the following interesting items from the Saginaw *Courier*:

LUMBER SALE.—Last week the firm of Loud, Gay & Co. negotiated a sale of 500,000 feet of lumber at the following rates: Shipping culls, $8 per M; common, $14; superior common, $25; uppers, $35.

There are no special features in the lumber market. Everything is quiet, and there are no changes to quote. Returns for the valley, which are nearly complete for the season of 1871, show a falling off from the previous year. Through the kindness of Mr. F. Weller, editor of the Muskegon *News and Reporter*, in forwarding advance sheets, we are enabled to give the following as the production of the West shore of this State:—

STATEMENT OF LOGS IN MUSKEGON RIVER FOR THE SEASON OF 1871.—There were but few logs "hung up" last season, and the total crop for 1871 amounts in the aggregate to 261,104,390, or 24,674,717 feet less than in the year 1870. The following statement shows the amount of logs run through the boom here, and subject to tax by the Boom Company, as reported and entered upon their books, except the 11,776,574 feet of the Newaygo Company. . . . .

To the above may be added 500,000 feet put in on Bear Lake, with 600,000 feet by Frank Lake, and 800,000 feet of logs by John McConnell, put in on this river, but not handled by the Boom Company. This falls about fifty million feet short of the amount of logs contracted to be put in last winter on Muskegon River.

THE LUMBER MARKET IN PENNSYLVANIA.—We are in receipt of a lumber report and estimates of lumber in the Williamsport, Pennsylvania, market. Some comparisons made in this report may be interesting to Michigan lumbermen. These comparisons show a great decrease of stock in the Pennsylvania lumber markets. Thus, at Williamsport there was, January 1st, 1871, 122,505,694 feet of pine; January 1st, 1872, there was only 50,550,603 feet of pine, showing a decrease of the stock of pine lumber of over 70,000,000 feet in one year. The same ratio of decrease of hemlock lumber, of lath and pickets is also reported. The same decrease in the stock of lumber is also reported at Lock Haven, at Philadelphia, at Baltimore, and Fort Deposit. Especially the supply of Susquehanna lumber is noticed as short. These facts prove, beyond a doubt, that the demand for lumber from the State of Pennsylvania alone is going to be immense, and now that we have railroads running directly to those markets, lumbermen need not fear for their trade this year.

The Boston *Commercial Bulletin* reports:—

There is no material change to note in the lumber market this week, and transactions are limited to sales of small lots of desirable grades for use in repairing, and for what few building operations are being prosecuted. Eastern lumber is firm at unchanged prices. There are only occasional scattering cargoes now arriving, and not much more will be received before Spring. The yards are doing a fair business for the season, and the trade generally is in a healthy condition. The prospects for a good Spring business are flattering, with a large number of buildings to be put up as soon as the weather will permit the commencement of operations. Prices are firm and unchanged from last week's quotations.

Laths are in brisk demand and higher. Southern pine boards are in fair request with a good stock. Shingles and clapboards still continue excessively dull, and only small lots are disposed of at current prices. Michigan lumber is firmer, owing to scarcity, and Canada is also firmly held at quoted rates a good demand. Dealers are beginning to anticipate their wants for Spring, and the market for this line of lumber is buoyant. The stock at Burlington is fair.

The following are the surveys for the week:

Domestic lumber.	feet.	Domestic lumber.	feet.
Pine	25,469	S. Pine Tim. and Plank	150,671
Hemlock	74,721		
So. Pine Flooring	116,258	Hard Wood	5,231
Spruce	686,226	Black Walnut	19,643
Total			1,078,219

The following is from New Orleans:

There is a good stock on hand, but the market continues dull and the demand is light.

Cargo lots are quoted nominally at $15 per 1,000 feet for inch Boards; $12@14 for Scantling; $14@15 for Weatherboards Rough; and $17@18 for Dressed; $17@20 for Rough Flooring, and $22@25 for Dressed: $18@20 for Dressed Ceiling; $25@30 for Cypress; $3.75@4.50 for Shingles; and $2.50@2.75 for Laths. General orders on Rough and Dressed lumber are filled at $5 per 1,000 feet on cargo prices.

A report from Wilmington, N. C., says:

The city mills are doing a fair business, and selling cargoes at the following rates: Pine steam-sawed Lumber, cargo rates, per 1,000 feet—Ordinary assortment, Cuba cargoes, $17@18, do. Hayti $18@19, full cargo wide Boards, $20@25; do. rough flooring Boards, $22@23; ship stuff as per specification, $23@24; and Deals 3 by 9, $20@22.

The Saginaw *Courier* of Jan. 26th says:

The lumbermen are jubilant at the prospect afforded by the snow-storms of the past week, and no doubt is now expressed but that the log crop of the current winter will be ample and fully equal to the capacity of the mills, should the spring rains prove sufficient to supply the ordinary amount of water to the streams on which the logs are to be floated. It is is undeniable that the winter came upon us after a season of unprecedented drought, and that the swamps were devoid of their usual amount of water, as was the whole earth, which will absorb a large amount, reducing the quantity to flow into the streams; but there is plenty of time yet for supplying this need. Of the season thus far, we may say that it has been highly favorable for the log men. Although no depth of snow has fallen until the past week, the necessary cutting and skidding has progressed more favorably than for many years, and the present snow affords good roads for drawing the logs to the streams, and with its continuance for such period as may reasonably be expected, a larger crop of logs will no doubt be put in than ever before.

METALS.—The demand for Ingot Copper continues good at fully former prices. Manufactures of copper are held firm, but not quotably higher. We quote: Ingot 28¼c cash, and 28½@28¾c for February delivery: New Sheathing, 34c; Yellow Metal, 26c; Old Sheathing, 25½@26c. Scotch Pig Iron remains quiet, but with advices of higher prices aboad, holders here are very firm at a corresponding advance. We quote Glengarnock, $37@38; Eglinton, $36; Summerlee, $39.50 per ton; Gartsherre, $41, and Coltness, $42, all from the wharf. American pig is in active demand, but as most of the companies are out of the market, there is very little available stock, and operations are restricted thereby. Prices are very firmly held at the late advance. We quote No. 1, $38@38.50; No. 2, $37@37.50 for extra; and forged, $35@36. Refined bar is firmer at the late advance, but more quiet. We quote from store as follows: Bar Swedes, $112.50@122.50: refined, ordinary size, $95; refined, 1¼ to 6 by ¼ and 5-16, $100; refined, 1 and 1½ by ¼ and 5-16, $102: refined, 2½ to 3 round and square, $102.50; scroll, $112.50@142.50; ovals and half round, $110@130; band, $107.50: horseshoe, $107.50@117.50: rods, 5-8 to 3-16 inch, $100@125; hoop, $115@162.50; nail rod, per lb, 7¼c. Common Sheet is very scarce and firm. We quote at 5½@6 for single D and T, and 6@6½ for D and T Charcoal. Galvanized Sheet continues strong. We quote at 12@13c for 14@20: 12½@13½c for 22@24; 13¾@14c for 25@26; and 15@18c for 27@29, all less 20 per cent. to the trade. Russia Sheet is quiet. We quote at 15@15½c gold, according to number. Pig Lead remains quiet at unchanged prices. We quote at $5.90@6.25 for common to good foreign, manufactured without essential change. We quote at 9¼c for bar: 10c for sheet and pipe; 15c for tin-lined pipe, all less 10 per cent. to the trade. Pig Tin is in improved feeling, owing to more favorable advices. We quote in coin at 36½@37c for English; 37c for Straits; and 41@41½c for Banca. Plates are less active, but the late advance is supported. We quote: I.C. Charcoal, $10@10.50; I. C. Coke, $9@9.50; Coke, $8@8.50, and Charcoal Terne, $9@9.50. Sheet Zinc is in moderate demand at steady prices. We quote at 10¼@11½c gold for Mosselmann from store.

NAILS.—The demand has been fair, rather better if anything than previously noted, and the selling interest feels correspondingly encouraged. Still buyers appear to move with caution in most instances, and calculate actual wants pretty closely in making up their invoices, some complaint existing as to current freight charges to interior points. The production is comparatively full, though many manufacturers are said to be working on back orders. Exporters have bought with moderation, and mainly in the way of small lots to fill positive orders. Prices remain as last quoted, and sellers are still talking firmly on all grades. We quote per 100 lbs: cut, 10@60d, $4.75; cut, 8@9d, $5.00; cut, 6@7d, $5.25; cut, 4@5d, $5.50; cut, 3d,

$6.25; cut, 2@3d, fine, $7.00; cut spikes, all sizes, $5.00; cut finishing, casting, box, etc., $5.25@6.75; clinch, $6.25@6.75; horse-shoe, forged, No. 10 to 5, per lb. 19@33c. Other styles are selling as follows: Copper, 40@41c per lb.; Yellow Metal, 26c do.

Exports as follows:—

	Past week.	Since Jan. 1.
Packages	311	1,151
Value	$2,754	$8,137

PAINTS AND OILS.—In a wholesale way the market for paints and colors does not show much activity, and we learn of no very heavy transactions of late. Jobbers continue to receive supplies on contract, and these, in the majority of cases, meet all present requirements, while the high price asked by importers has a tendency to keep the demand down somewhat. Importers, however, seem quite indifferent, and assert their full ability to sustain extreme values without difficulty owing to the stimulating influences of the strong advices from abroad, and the prospective receipt of very little stock in excess of that already contracted for. For domestic goods the feeling is somewhat uncertain, but manufacturers look for a fair average demand, and think that sympathy with foreign supplies will keep values up. Glues have been moderately active without any very positive change in values. The general jobbing trade is fair and the market firm for all kinds of stock, though the assortment available is good. Linseed Oil has been in very good demand and prices further improved, closing with a pretty firm tone and the offerings not large. Crushers in many cases predict a still further improvement, and claim an absence of margin for profit at ruling rates. This, however, is an old, old story, and it is somewhat remarkable that while continually claiming to be working at a loss, Linseed Oil manufacturers cling to their business with much tenacity, and generally appear to accumulate a very fair amount of this world's goods. We quote at 81c in casks.

Exports as follows:—

	Past week.	Since Jan. 1, 1872.
Paint.....pckgs.	38, value $1,499	511, value $6,437
Linseed oil, galls.	— "	450, " 381
Oxide zinc, pcks.	— "	— " —

PITCH.—The market is quiet, but prices have been a little irregular, in sympathy with the market for strained rosin closing a shade lower. We quote: prime city delivered at $4.65@4.70. Receipts for the week, nil bbls; since Jan. 1, 225 bbls; same time last year, 50 bbls. Exports for the week, 117 bbls; since Jan. 1, 362 bbls; same time last year, 80 bbls.

SPIRITS TURPENTINE.—The market has again become active and somewhat excited, and a decided advance has been established both here and at Wilmington. the market closing very strong at our quotations. We quote merchantable and shipping order at 74c; and retail lots from store, 75@76c. Receipts for the week, 422 bbls; since Jan. 1, 5,387 bbls; same time last year, 3,773 bbls. Exports for the week, 267 bbls; since Jan. 1, 1,649 bbls; same time last year, 754 bbls.

TAR has been fairly active, and considerable amounts have changed hands at about former prices. We quote Washington at $3@3.25; Wilmington, $3.25, and Newberne $3@3.25 as it runs. Receipts for the week, 1,815 bbls; since Jan. 1, 3,129 bbls; same time 1871, 856 bbls. Exports for the week, 57 bbls; since January 1, 291 bbls; same time 1871, 473 barrels.

REAL ESTATE OFFICE,
820 THIRD AVENUE,
Cor. 50th Street, NEW YORK.
Property sold and rented. Loans negotiated. Charge of houses and collection of rents a specialty.

No one should Build or Live in a House
WITHOUT EXAMINING OUR
ELECTRICAL APPLIANCES,
without which no house can be said to have all or even the MOST IMPORTANT OF MODERN IMPROVEMENTS; in fact, they are indispensable for the complete outfit of a first-class house with what may be termed necessary conveniences. All English and French houses at the present time are furnished with this electrical apparatus.

E. HOLMES'
Burglar Alarm Telegraph.
This one Bell, located in the Sleeping-Room, when set for the night, rings upon the opening of each door and window of the house. It is a watchman that has but one house to protect; never goes to sleep; cannot be bought off; and an experience of ten years, without a failure, proves it to be perfectly reliable and satisfactory.
PARTICULAR ATTENTION
is requested to our new
HOUSE ANNUNCIATOR,
An improvement upon the French system.
IT CONSISTS OF A SINGLE
CALL BELL AND ANNUNCIATOR,
in the kitchen or servants' department, and so arranged that the simple touch of a small ornamented spring in each room of the house **RINGS THIS BELL AND ANNOUNCES THE ROOM** from which the call proceeds —the bell continuing to ring until the servants give it attention. The whole thing is operated by
ONE BATTERY, OR BY THE SAME BATTERY
that operates the
Burglar Alarm Telegraph.
It is simple, perfect, and reliable, and will not get out of order, and is a very great improvement upon the old system of "bell pulls." We also have
An Attachment for Ringing Door Bells and Servants' Bells from the
TABLE OR DINING ROOM,
by placing a spring in the floor, and covered by the carpet. Also, for
Calling the Coachman from the Stable.
Send for pamphlet containing ten or twelve hundred TESTIMONIALS. They are from our best citizens and first business men of New York and vicinity.

E. HOLMES,
OFFICES:—
7 Murray Street, New York.
6 South Clark Street, Chicago, Ill.
1111 Chestnut Street, Philadelphia, Pa.
69 West Fourth Street, Cincinnati, Ohio.
205 River Street, Troy, N. Y.
121 Washington Street, Boston, Mass.

CAUTION.
The public are cautioned against all infringements upon this patent, even when called improvements; other parties have slightly changed my method of doing the same thing, and without any practical experience speak of it as a very great improvement. This invention is the only one that has had practical experience. It has been in general use for ten years, and every real, practical, or desirable improvement that study and actual experience could suggest has been added.
All violations of my patent, either by using or vending an infringement, will be dealt with to the full extent of the law for such cases provided.

WANTED,

A Complete File of the REAL ESTATE RECORD, from the first volume, commencing March 21st, 1868. A liberal price will be paid.

RAPID TRANSIT AGAIN.

AT the recent meeting of the Committee of Ninety, some curious facts came to light in reference to the subject of rapid transit in this city. According to the statement of a gentleman who appeared to be thoroughly conversant with the particulars of the case, the reason why New York City has not secured rapid transit is simply because of the greed of the rich bankers and the capitalists; these men purpose that for any railway that is built there shall be created stocks and bonds to at least double the amount of the actual cost of the road. It seems, from the best engineers' report, that the Central Underground road can be built for something less than $1,500,000 a mile, but our bankers and projectors interested wish to charge the public at the rate of *three millions of dollars per mile;* nor will they advance any money for the work until some such arrangement is concurred in. If we are correctly informed, Major Bergholtz, in the course of his remarks at this meeting of the Committee of Ninety, stated that no work could be commenced upon the Central Underground Road until $400,000 was paid Mr. Byrne for back debts incurred in Legislative expenses,—that is, bribing the Albany people, preliminary surveys, commissions of various kinds, and so forth. These charges must be met before even possession could be had of the road. It was further stated that certain heavy capitalist would advance no money unless they were allowed to charge against the road *two dollars* for every *single dollar* actually paid out. These are not the actual words of the statement; but turned into plain English, that is about what it amounts to.

This tells the whole story of the failure of our rapid transit schemes. The project is looked upon as a big placer, rich in prospective plunder, by those respectable gentlemen who control the money: and they propose to saddle the people of the City of New York with what is practically a debt double the amount of the actual cost of the road; upon which debt our citizens would be expected to pay full rates of interest for all time to come.

As to the Viaduct Road, the stock of that enterprise has been so distributed to favored persons, that even if the scheme were practicable, it would be so loaded down with bogus liabilities, that it could never by any possibility pay interest on its nominal capital.

As far as we can understand, the Beach Underground Scheme is the cleanest now before the public. It has men of real means behind it; and, if chartered, there would be some approximation towards honesty in its construction. It is to be hoped that the Legislature will make one more effort, and give the Beach Underground Road a charter; and see if the parties are willing to commence the work at once. It is a conspicuous disgrace to the City of New York that it hasn't had a Steam Transit for the last five years; we shall be lucky if, at the present rate of progress, we get one within the next ten years. It is not that a road is not needed and would not pay a fair dividend upon capital honestly invested. It is simply because the great capitalists who have the money maintain towards the project much the same position as the robber-barons of old, who came out upon the highway and took from every traveller that passed half the money in his possession.

The offence of the Ring consisted in taking funds out of the City Treasury for which they returned no equivalent. The motives that control the actions of these respectable bankers is precisely the same. Their motives, to be sure, with regard to this New York City Railroad is no more objectionable than those which guide them in their other financial operations. So the problem to be solved is: how can we build a road to accommodate the community, without creating a capital stock representing two or three times more than the actual cost of construction? The public, of course, wants a good road built, and is willing to pay such rates as will yield a fair return on the capital invested. The bankers, projectors, and speculators insist that the City of New York shall have no road unless they are allowed two dollars' worth of stocks or bonds for every one dollar they spend—upon which two dollars the people of this city are expected to pay perpetually heavy rates of interest.

CORPORATION ADVERTISING.

WE respectfully suggest to the Legislature that in advertising the Corporation and legal notices the city should pursue the same course which any competent business man would,—select those papers which assuredly give the widest publicity to the matter to be advertised.

The people of this city have shown their preferences for five great morning newspapers—the *Herald*, *World*, *Tribune*, *Times*, and *Sun*. These journals have the preference among readers and advertisers in the city of New York; and the Legislature, after defining what should be published (so as to confine the matter within reasonable limits), should order its insertion in the five morning newspapers.

The list of the newspapers which have had this advertising in times gone by, and which have received within the past three years over three millions of dollars from the city treasury, is quite a curiosity in its way. They were papers, generally, that the public never heard of, and were clearly selected for other than business reasons. In any properly constituted city government there are certain classes of advertisements which would naturally come to this journal,—such as those relating to real estate, assessments, taxes, judgments, and the like. Those we ought to have. And it should be within the discretion of the Comptroller or Mayor to designate one weekly paper (in addition to the five daily papers) which would be sought by the taxpayers for precisely such information as this, and which would give it to them.

It seems to be a foregone conclusion that the *Transcript* will cease to be the official organ, and that the nineteen official papers will regain their native unofficial obscurity. We call upon the Legislature to designate the New York *Herald*, the *World*, *Tribune*, *Times*, and *Sun* as the official organs to publish the regular proceedings of the Common Council, and the REAL ESTATE RECORD, in view of its circulation among taxpayers, as the medium for the publication of everything relating to real estate, taxes, assessments, etc., in this city. We can prove from our books that there are more landowners and taxpayers regularly taking the RECORD than any one daily paper in the city; and it is, in view of this fact, the proper organ for the circulation of the sort of information we have mentioned among the classes most interested therein.

COMMODORE VANDERBILT AND HIS ELEPHANT.

BEFORE the matter was thought of by any one else, the RECORD urged that the one practicable mode of relief in the way of rapid city transit was the utilization of the Fourth Avenue tracks for this purpose, and we called on Commodore Vanderbilt to give that great boon to the public. It would have cost less than any other scheme; it would have been almost immediately available for public accommodation; it would

have given Commodore Vanderbilt much additional profit on his roads, and would have placed him in the position of a great public benefactor.

The Commodore, however, has not seen fit to comply with this reasonable public request, and there is nothing left but to raise an agitation immediately for the the purpose of clearing him and his depot off this island. The Forty-second street depot is simply an enormous nuisance where it stands,—a source of great public danger; it cuts the city into two parts, and makes traffic from east to west above Forty-second street a matter of imminent peril to life and limb. And as the Commodore has shown no disposition whatever to serve the public, there is no mercy to be shown to him when the question of public convenience impends. All good citizens, from this time forth, will insist that Commodore Vanderbilt must clear off this island. His big depot is a big evil; its proper place is on the Westchester side of Harlem River. Those chartered rights by which the Fourth Avenue was secured to the Harlem Railroad must now be neutralized and obliterated by that "right of eminent domain" inhering in the citizens as a community, and the avenue itself must be reclaimed for the public and for public uses. It is clear that Commodore Vanderbilt has no right, under the law, to more than *two tracks* upon the Fourth Avenue; in defiance of the law he has covered that splendid thoroughfare with iron rails, and some immediate action should be taken to oust him from the position which he has assumed with such insolent contempt of law and of public right. He has chosen to usurp and to occupy for the purposes of a private corporation a public thoroughfare, whose free and unobstructed use is necessary to the prosperity of the city. Strong as he may be, by his wealth and by the remarkable combinations which he effects, he must be taught that there is something stronger and more powerful than himself —and that is an outraged and indignant public opinion, which must always condemn, and will finally vanquish, any rich individuals or corporations who do not use their means for the public benefit.

EXEMPTION OF MORTGAGES.

WE desire to direct public attention to this important matter at the present time, and therefore add a few more remarks in continuation of the article in the RECORD of last week.

As we have stated, it has been the policy of the State of New Jersey to offer exceptional inducements to the business men of New York to cross the Hudson river and make their domicile in that State. And that the policy has merit is shown by the yearly increasing migration of our most enterprising business men. They employ large cash capital in our city in business, and escape taxation on it, and the other duties of citizens, by claiming to be non-residents. It has also been the policy of the State of New Jersey to induce capital to come there from our city, even without the resident owner. In certain counties money loaned on mortgage is exempted from taxation; and throughout the State, all mortgages on lands may be deducted from the taxable valuation of the land, while the land is apparently owned by a resident of the State.

It is easier now to borrow money on real estate in Hudson, Bergen, and Essex counties, New Jersey, than on relative safer securities in the city of New York. Money always has a market rate, and those who have it rarely part with it without realizable securities of some class. They either rely on their knowledge of the ability of the borrower to respond on call when desired, or, on paper collaterals of all kinds of hourly fluctuating and uncertain values—on our National, or a few of our more honest State securities, or on real estate loans. As a rule, in our State, money is required to net the capitalist seven per cent. clear, when it is parted with for one or more years, or he will prefer to hazard it daily on call loans. The commissions and expenses attending the examination of the title of the mortgagor to the land, and the taxation by the State, as a personality, on what may be properly called credit, advanced by the execution of a note made by the borrower (for a mortgage is only a note of hand), must all be paid to the lender; and when money is worth seven per cent. on call loans, which practically are not taxable, the borrower has also to equallize it by paying extra commissions.

The law of our State says, "personal estate shall be construed to include all household furniture, maps, goods, chattels, debts due from solvent debtors, whether on open accounts, contract, note, bond or mortgage, and public stocks; and also, stocks in moneyed corporations." Now, the "bond and mortgage" is *not a personality* at all. The word "bond" has an imposing appearance; it is a general bill of sale or lien of and on all real estate owned by the maker on the occurring of certain contingencies; but without the other paper, it is useless—the other paper is in reality a representative *title in land*—it is a deed to all intents and purposes; it is a previous title to that particular land, and until it is paid off, or satisfied on the record, the apparent owner of land is only in copartnership with the mortgagee, or owner in fact. The land is now taxed to the nominal owner of it at its rateable valuation, and there it should rest; but no, the owner is taxed again for each copartnership interest in it. In principle, this is all wrong. Land taxes, to be equitable, must be uniform. The law now is so framed as to discriminate in favor of the rich; it depresses enterprise; it delays and deters improvements by which larger taxes would be paid to the State.

As the mortgages are all recorded, it is very easy for the assessors to follow them up, and levy the iniquitous tax; on most other personal securities the assessor is in a cloud in estimating the probable personal estate of the tax payer. It gives an opportunity to assessors to exercise favoritism. He relies on common report. The merchant may consider the debts due him as bad generally. We all hate to pay taxes. If he is rated too low, it is seldom the tax payer would correct it, unless he aspired to get the credit for wealth for his business uses. A few years ago, a commission produce merchant who has recently deceased, leaving a personal estate estimated at two millions of dollars, told us that he was using in his daily business, in advances in cash on produce consigned to him, upwards of six hundred thousand dollars. As his statement was undoubtedly true, we had the curiosity to go to the tax office and examine the personal tax-book. Of course, it was not during the present regency, or we would have had no chance to see that book. We found the party alluded to was taxed the very modest sum of twenty thousand dollars, instead of being taxed on one million "personal" estate, as he should have been.

We have not the space to go into argumentative details and illustrations of the injustice and absolute folly of the present State system of taxing mortgages; that has already been done in an exhaustive degree about a year ago, in addresses made before the Westside Association, by Messrs. William R. Martin and Wheeler A. Peckham, of this city. T. J. S.

PROJECTED BUILDINGS.

The following plans embrace all that have been considered by the Superintendent of Buildings since our last report:—

CHERRY ST., S. S., 50 E. JACKSON ST., one five-story brick tenement, 27x47; owner, &c., JAMES WOODS.

DOYER ST. (NOS. 13 AND 15), one five-story and basement brick workshop, 44.10x62; owner, CHARLES S. HINES; builder, JOHN T. CONOVER.

EAST HOUSTON ST. (NO. 278), one two-story brick workshop, 20x30; owner, FRED'K HAGEN; builder, FRED. GULAND.

FIFTY-THIRD ST. (NOS. 511 AND 513 W.), one four-story brick factory, 42x80; owner, WM. OPENHYM; architect, JULIUS BOEKELL; builders, CAVANAGH & DOOLEY.

FIFTY-FIFTH ST., N. S., 380 E. 9TH AV., three three-story brown-stone front first-class dwellings, 15x54; owners and builders, THOMPSON & SMITH; architects, D. & J. JARDINE.

FIFTY-NINTH ST., S. S., 94 W. 3D AV., one concert hall; owner, JOHN KOCH; architect, W. JOSE.

NINTH AV. AND 55TH ST., S. E. COR., one five-story brick store and tenement, 24.9x51; owner, MR. LINDERMAN; architect, G. HOLZEIT.

ORCHARD ST. (NO. 94), one five-story brick store and tenement, 22x50; owner, AUGUST BRAUN; architect, WM. JOSE.

SIXTY-EIGHTH ST., S. S., 100 W. 4TH AV., two four-story brown-stone front first-class dwellings, 20x60; owners and builders, G. N. and N. A. WILLIAMS; architects, D. and J. JARDINE.

SECOND AV. AND 27TH ST., S. W. COR., one five-story brick tenement, 24.6x60; owner, FRANCIS E. GEIS; architect, WM. GRAUL.

SECOND AV., W. S., 24.6 S. 27TH ST., one five-story brick tenement, 15x48; owner, FRANCIS E. GEIS; architect, WM. GRAUL.

SECOND AV. AND 115TH ST., S. E. COR., one four-story brick store and tenement, 25.10x56; owner, DEIDRICH WELRENBURG; architect, JAMES BARRETT.

SECOND AV. (NO. 88), one five-story brick store and tenement, 25x48.6; owner, C. WILDBERGER.

TWENTY-EIGHTH ST. (NO. 517 W.), one five-story brick store and tenement, 25x60; owners, VAN DOLSEN & ARNOTT.

ALTERATIONS IN BUILDINGS.

One brick hotel, north-east corner of Broadway and Thirty-first street, 105 by 68, roof to be changed from flat to Mansard; Edmund Harry, owner.

One brick hotel, south-east corner of Fifteenth street and Fourth avenue, 90 by 54, four stories; propose raising building two stories, front wall to be taken down and rebuilt and first floor made level with sidewalk; Courtland Palmer, owner.

One brick market, etc., on Broadway, extending from Forty-fourth to Forty-fifth streets, 203 by 97.6, three stories; an additional tier of beams to be placed between first and second tiers, twelve wooden posts in cellar to be taken out and twelve brick piers built instead; R. T. Ford, owner.

One brick theatre, Nos. 115 and 117 West Twenty-third street, 50 by 90, four stories, two upper floors to be partitioned and converted into Masonic lodge-rooms; A. B. Darling, owner.

One brick dwelling, No. 16 East Fifteenth street, 25 by 45, three stories, centre pier taken out of basement and first story, iron girder across opening 15.6 long, and wrought iron tie girder substituted; Mr. Van Beuran, owner.

One brick dwelling, No. 194 Bleecker street, 25 by 43, three stories, first floor to be changed into a store; Mrs. Dreyfous, owner.

One brick stable, No. 6 Second-street, 25 by 50, two stories, two stories to be added and front wall taken down and rebuilt; Mrs. Dreyfous, owner.

Two brick store and tenements, Nos. 581 and 583 First avenue, 21 by 46, four stories; stone fronts to be taken out and iron columns, with T girders substituted; H. S. O'Brien, owner.

One brick store and tenement, north-east corner of Madison and Market streets, 25 by 42, three stories; two stories to be added and roof changed from flat to Mansard; Joseph Kahn, owner.

One brick store and tenement, No. 88 Second avenue, 25 by 58, three and a half stories, one story to be added; C. Wildberger, owner.

One brick store and tenement; south-east corner of Bowery and Stanton street, 25.10 by 80, three and a half stories; part of front and side walls to be taken down, and new stone front to be put in; German Exchange Bank, owners.

Three brick warehouses, Nos. 528, 530 and 532 Washington street, 35.4 by 69; propose removing wood girders and posts on first, second, and third floors, and set fore-and-aft partitions (studding) in their place; rear walls adjoining to and twenty feet back from same to be taken down; corner pier of of basement of corner house to be removed, and wall above supported by a six-round iron column and T beam. T. W. Lewis, owner.

One brick workshop, No. 411 West Twenty-fifth street, 25 by 25, four stories; rear wall to be taken down and extended to rear of lot. Abm. Frazer, owner.

MARKET REVIEW.

BRICKS.—Partly in expectation of a very moderate winter consumption, and partly in hopes of forcing manufacturers to modify their views, our city dealers delayed purchases last fall from week to week, until the sudden closing of navigation shut off communication with many points of supply, and left a large number of our city yards almost entirely bare of stock. The wants of builders have not since proven remarkably liberal, but still more brick were called for than could easily be supplied, prices naturally began to stiffen, and gradually worked upward until extreme figures were reached. The additional cost had a tendency to curtail the demand somewhat, but there was a goodly amount under way which could not be postponed, and buyers found it necessary to submit to the rates asked, in order to meet contracts within the time agreed upon. Wholesale dealers, as a rule, still feel quite confident that they can retain the bulk of the advantage for some time to come, as there is not much stock to be obtained from outside sources, and the large amounts said to be on hand at the points of production on the Hudson can hardly become available until navigation is fully and positively resumed, and the means of communication greatly increased. During the past week there have not been any decidedly new developments, and the market during a greater portion of the time was little better than nominal. The receipts were extremely moderate and uncertain, and found an outlet the moment they were offered. For any merchantable lot of Hard, buyers are willing to pay $11, while the asking rate, as a rule, is $12, and on actual sales $11.50 is about as low as it is necessary to accept, though the outside figure can now and then be obtained. Long Island stock is worth just as much whenever supplies can be brought in. New Jersey Hards have no established market. Pale Brick very scarce, but could be sold, if here, at $7, and probably $7.50 per M, without difficulty, as there is room for a good many cargoes. Pale Brick of all kinds are dull, and more or less nominal, though a few parcels of Philadelphia sell from yard at about quotations.

HARDWARE.—There is a very good and pretty general demand for builders' hardware, and the market, as a whole, seems satisfactory to the selling interest. The call is from local and interior buyers, who are stocking up for the spring trade, and making up about the usual assortments. Supplies on hand appear to be equal to the wants of the hour. Values are firm on nearly all goods, and in some cases rather higher, though the recent revisions of price-lists show no very decided variations. Manufacturers are nearly all busy, and though the production is not forced, there are probably as many goods being turned out as usual at this season of the year. We quote a few leading articles as follows; Wrought butts, narrow, fast, joint, 20 dis. from list; do broad and loose joint, 25 per cent. off. Table and back flaps 10 per cent. off. Hinges, wrought, strap, and T, 20 and 7½ per cent. off. Cast butts, narrow fast, joint, 20, and 5 per cent. off; do, broad fast, joint, 40, and 5 per cent. off; do. loose joint, narrow and broad, 50, and 5 per cent. off. Cast butts, loose pin, 40@40, and 10 per cent. off. Brass butts, 10 per cent. off. Door bolts cast, bbl sq. sp. tower and shutter 45@50 per cent. off. Door locks, 20, and 7½ per cent. off. Door knobs, mineral and porcelain, 30, and 7½ per cent. off. Padlocks, 50, and 2 per cent. off (new list). Locks, cabinet eagle, 25 per cent. off. Plate locks, 15, and 10 per cent. off. Screws, American, 40 off; do. brass, 40. Shingling hatchets, Nos. 1 to 2 $7.50@8.50 per doz do.; ordinary, $5.50@6.50 per doz. Canal wheelbarrows, $2.25@2.50 each.

LATH.—The views of buyers and sellers are somewhat apart still, and the market in consequence has rather a doubtful tone at all times. Manufacturers, as reflected through their agents here, seem to be convinced that they can control the position, and by the display of a little indifference force the payment of full prices; and orders, therefore, are to hold accumulations now piled out for extremes, and to add to the amount, unless bids come up. Buyers, on the other hand, find the rates so high as to make it almost impossible to secure a margin on sales for redistribution, and the result is, dealers do not purchase until the last moment to which they can hold off, and then only to the extent of the most positive pants. From necessity the consumption continues in many cases, but whenever they can do so, builders are postponing work, awaiting a decline Toward the close some of the late large arrivals have been placed in the market and sold at a decline, but the majority of holders are still very firm.

LUMBER.—The general yard trade continues fair in the aggregate, and about all the dealers are turning out some stock, business, if anything, showing an improvement over the first of the month. Still we find a very general feeling of dissatisfaction expressed, because trade does not pick up more rapidly, and sellers are anxious to see the snap and animation of former years. There are exceptions to this rule, to be sure, the deliveries from some of the yards proving very free, but in these cases it is thought that business is rather forced, and not altogether of as safe a character as should be sought after. Values are variable, according to governing influences on sales, and quotations, to some extent, nominal: but the tendency, if anything, slightly upward on the leading styles, the assortments commencing to break up.

Wholesale dealers are still engaged in an endeavor to get in the collections on last year's deliveries, and the slow manner in which many customers respond—even those of the highest standing—requires that close attention should be given to this portion of the season's business. Cargoes from coastwise sources occasionally come to hand, and when the quality is in any way desirable but little difficulty is experienced in finding buyers. Except from the Southward, however, the offering does not amount to much, and the general market on cash sales is dull. For future there is still a sort of stand off between buyers and sellers, with neither apparently inclined to give way as yet, and, contracts in consequence few and far between, though we hear rumors that something has been done on Canadian lumber, which, if made public, would be likely to afford some indication of the position. Our information, however, is quite indefinite, and no claim of advantage is made for either the dealer or manufacturer. Interior reports are strong, and from all points of production come predictions of full prices during the next summer, on pine lumber in particular. The foreign call at present is, on the whole, fair, and there is thought to be a good prospect of an increase of the movement, as many points in South America are understood to be short of stock, consequent upon light purchases last season.

Eastern Spruce remains much the same as noted from week to week for some time past. As cargoes come to hand they are worked into the hands of dealers at former rates, and without much difficulty, especially when the schedules show any considerable number of fair-sized sticks. We quote at $17@19 for inferior to fair specifications, and $19.50@20.50 for good to prime do. On contracts there has been a little business transacted, but the movement lacks life, and agents here complain of the market as stupid. Buyers are to be found, and a good many bids have been forwarded, but manufacturers return them because the figures named are too low, and there is not much stock engaged. Recent advices state that there is more lumbering done on the Dead River waters of Maine this season than for any winter for several years: from seven hundred to one thousand men being employed. The lumbering season has been about one month earlier than usual, and so far has been unusually favorable. For White Pine the market remains extremely firm and uniform, and business is fair. Quite a number of box boards are being consumed, and there is also a good general call for shipments; the total outlet, however, much reduced by the previous drain upon the stock, and, with the strong advices from the interior, holders feel stiff in their views. We quote at $30@35 per M for common to prime box and shipping boards; $28 for choice do; $40 for pickings do, and 45 for selects. Yellow Pine in fair demand on special cuts and firm, but random cargoes difficult to move and somewhat nominal. We quote at $28@31 per M for random cargoes; $32@28 for special cuts, and $31@40 for fancy.

The exports of lumber are as follows:—

	This week. Feet.	Since Jan. 1. Feet.	Same time '71. Feet.

Value	$5,720	$71,034	$50,983

We note additional exports as follows:—

To Liverpool, 12 logs maple, value $304; to London, 72 logs woods, value $400; to Canada, 172 pcs walnut, value $260; to Hayti, 5,000 shingles, value $40; to Hamburg, 6,000 staves; to Bremen, 17,950 do; to London, 5,280 do; to Glasgow, 10,800 do; to Cadiz, 222,846 do; to Lisbon, 7,200 do; to Marseilles, 400 do; to Chili, 3,200 do; to Danish West Indies, 182 shooks and 21,000 hoops; to British West Indies, 940 shooks; to French West Indies, 1,421 shooks; to Cuba, 14,920 shooks, and 27,500 hoops; to Venezuela, 143 shooks.

Charters as follows:

A Ger. brig, 262 tons, from Brunswick, Ga., to Bahia, lumber, at or about $19 and primage; a Br barque, 619 tons, from Portland to River Platte, lumber, $17; one, 277 tons, from St. Mary's River, Ga., to Havana, lumber, $9; one, 201 tons, from Jacksonville to St. Kitts, lumber, $10; two, from Jacksonville to New Haven, resawed lumber, $12; one, from Jacksonville to New York, $11.75; one, from Jacksonville to Washington, D.C., $10.50, privilege Fall River, $12; one, from St. Mary's, Ga., to New York, $11; one, 243 tons, from Norfolk, to New York, wood, etc., $550; a Br barque, 412 tons, to Cardenas, empty hhds, $1; a brig and a schr, to North Side Cuba, empty hhds, $1, and box shooks, 12c; a schr, from Jacksonville to New York, dry boards, $11.50, and one at $11.75; two, same voyage, resawed lumber, $12; one, from Satilla River to New York, $11.50; one, from Brunswick, Ga., to New York, $10.

The Boston *Commercial Bulletin* reports:—

There are no new features of importance to note this week in the lumber market. Transactions are limited, as usual at this season of the year, to sales of small jobbing lots for repairing, etc., and not much lumber is as yet going into consumption for building purposes. Receipts from the Eastward are about over for the season, and an occasional cargo only is received. There are some encouraging indications of a heavy spring and summer business, as many new buildings, both private and public, are being projected, and the open winter has served to perfect plans and lay out the work which will be commenced early.

Canada lumber is firm at last week's quotations, and sales have been quicker, some dealers taking on lots in anticipation of their wants. Western lumber is steady at unchanged prices. Laths are selling well at the advance last noted. Southern Pine is in active demand. Shingles and Clapboards are quiet. Prices of all grades are steady at last week's figures.

The following are the surveys for the week:—

Domestic Lumber.	Feet.
Pine	66,125
Hemlock	44,297
Spruce	146,587
Southern Pine Flooring	193,885
Hard Wood	8,485
Total	459,489

The following are dealers' *wholesale* prices, and the range given covers the different qualities and grades, and those *paid* for consignments sent here from different sections.

Western Lumber.—Michigan Pine, Nos. 1 and 2, $60; No. 3, $50; No. 4, $47@48. Black Walnut, Nos. 1 and 2, $75@80; do do Culls, $50. Ash, Nos. 1 and 2, $40@48; 3d quality do, $30@35. Cherry, Nos. 1 and 2, $55@62; 2d quality do 35@40. White Wood, Nos. 1 and 2, $38@46; do ½, $30@35; 3d quality, $25@30. Oak, $45@50. Butternut, Nos. 1 and 2, $55@65; 3d quality, $20@35. Michigan Pine Saps, $40@43; do Pickings, $38@40. No. 4 Michigan Pine Boards, $25@28. Best Michigan 6 in. Strips, $30@35.

Canada Pine.—Selects Dressed, $60. Shelving Dressed, $50@52; Second Shelving, $39@40; Sheathing, 1st qual., $50; do 2d do, $35; Ceiling Dressed, $40@42. Dressed Shippers, $28@31.

Eastern.—Pine Clear, Nos. 1 and 2, $65; No. 3, $50; No. 4, $38@40; No. 5, $30@35. Common Pine Shipping Boards, $21@23; No. 5, $20@22; Refuse, $16; Spruce, Scantling, and Plank, $16@17; Boards, $16@17.50. Hemlock boards, $15; Laths, spruce, $2.50@2.75; Hemlock, $1.75; Pine, $2.50@2.75.

Southern Pine.—Timber, resawed, $30@37; Flooring, Nos. 1 and 2, $34@36; Ship stock, $26@34; Hewn timber, $22@33; Refuse, $14@22.

Shingles.—Spruce, extra, $2.50; No. 1, $2@2.25; Shaved Pine, $6@8; Sawed, $2.50@6. Shaved Cedar, $4@6½; Sawed, $2.50@5. Extra 18 in. Sawed Pine, $2.75@6.25; do. 18 in. Shaved Pine, $7½@7¾.

Clapboards.—Spruce, extra, dressed 4 ft., $37@38; clear, $27@28; No. 1, $18@20. Dressed, extra, 6 ft. 6 in., $48@54. Clear, 6 in. $45@50. No. 1, 6 in., $40@46. Extra, 5½ in., $43@50. Clear do. $40@46. No. 1 do. $35@42. Pine extra, sap dressed, 60. Clear, 55. No. 1, $30@35.

The Alpena *Pioneer* says:—

Mr. Morse has cut and put into the river over 2,000,000 feet of logs in Alpena, and 1,000,000 in Cheboygan. C. Thompson & Co. have put in 450,000; A. N. Spratt, reports 3,500,000 feet. T. Luce & Co. report as follows: South Branch camp, Alex. Taylor, foreman, 1,553,502; Wolf Creek camp, Ed. Robbins, foreman, 1,028,000; Solomon King, 100,000. T. Earle's Camp, 600,000. Making in all 3,282,502 feet.

A visit to a lumber camp is not devoid of interest to any one, and contains much novelty for a person whose visit is the first one. Twenty-five miles travel brought us to Hubbard Lake, a beautiful expanse of water, or ice, at this season of the year, about twelve miles in length. Crossing the outlet, which is the source of the South Branch of Thunder Bay River, a small stream two rods wide and two feet deep, we came to Morse's camp, beautifully situated on the shore of the lake. This camp is under the charge of Mr. Melville Milliken, whose long experience and straight forward business tact make him one of the most successful lumbermen in these woods. The camp consists of a "men's shanty," "cook shanty," barn and root house. These are constructed of large pine logs, well chinked with mud and moss. The roof is made of troughs laid side by side from the ridge-pole to the eaves, covered by other troughs turned upside down, so that the sides will come within each two adjacent ones, thus making a roof, when chinked with moss, very warm and water tight. The floor is made of flattened timber, laid side by side.

The men's shanty contains two rows of sleeping berths, one above the other, around three sides of it, and generally has a large fire-place in the centre 8x12 feet, with a large opening in the roof above for the smoke to escape. Above this opening is a chimney, built of wood, like a cob-house, in such shape as to cause a draft, so that this rousing fire causes but little annoyance by smoke in the shanty. But some, as in this case, are heated by box-stoves. The large fire is preferable on account of the ventilation it provides, for a room containing 25 to 50 sleepers. The cook-shanty is constructed in the same manner, but contains one of Stewart's nicest cook-stoves, with a long table on one side, on each side of which is a long seat, made of flattened timber. A male cook presides over the culinary department, assisted by a "cook-ee," who furnish the most excellent fare, the staples consisting of boiled corn beef and pork, pork and beans, etc., being followed with delicious mince pies, cookies, cake, fried-cakes, etc. While at the shanty we fared like a king, and ate like a h-h-hearty man. The barn is also made of logs, well constructed and warm. These shanties are sometimes quite extensive when they are built to accommodate a crew of 40 or 50 men, with necessary teams, etc.

Some camps have in addition a carpenter's shop and a blacksmith shop, and do their repairing and horse shoeing without the loss of travelling time to town and back. The crew at this camp consists of 27 men. They have arranged to cut 3,000,000 feet of logs. They have already landed 1,000,000 feet, and are hauling at the rate of 40,000 feet per day. The timber here is mostly Norway, and grows in beautiful groves. Here is where the proposed township of Home is situated, and we are informed contains thirty settlers, besides a few clearings by outside parties.

The Chesaning *Times* furnishes statistics of lumber, etc., shipped from that station during last year. Some eight or ten mills, mostly portable mills, in that and the adjoining townships, deliver theia product at that point. The lumber is mostly pines with some hardwood.

Shipments of forest products from the station at Chesaning for the year 1871:—

	M feet.
Lumber	5,760,000
Hoops	11,020,000
Shingles	1,340,000
Staves	730,000
Lath	134,000
Car loads Lumber	720
" Hoops	245
" Staves	243
" Shingles	23
" Lath	4

Equal to 1,235 car loads, which at $18 per car freight would realize to the company $22,230.

The Savannah market is reported as follows:—

TIMBER AND LUMBER.—TIMBER—The receipts have been light for the past week, and the demand good for all clases of timber, the difficulty being the placing of vessels, which are in demand. We quote: Mill timber $7@9; shipping do. 600 feet average, $8@9; 709 feet average, $10@11; 800 feet average, $11@12; 900 feet average $13@14; 1,000 feet average, $14.50@16. LUMBER—active. Orders are plenty. We quote: Ordinary sizes, $20@21; difficult sizes, $21@25; flooring boards $21@22; ship stuff, $20 @22, according to sizes.

METALS.—Ingot has become rather more active, with the transactions mostly speculative, the manufacturers buying very sparingly. Manufactures of Copper are steady at former quotations. We quote: Ingot 28⅜@28½c, cash, and 28⅜@28¾c for March delivery: New Sheathing, 34c; Yellow Metal, 26c; Old Sheathing, 25½@26c. Scotch Pig Iron is in very light demand, but as stocks are moderate, and advices from abroad report steadily advancing markets, holders here are very firm in their views. We quote Glengarnock, $40; Eglinton, $38; Summerlee-$39.50 per ton; Gartsherrie, $41, and Coltness, $42, all from the wharf. These prices must be considered more or less nominal, as, in the absence of transactions, there is no correct basis for quotations. American Pig Iron continues excited and in active demand, and a further advance has been established in the quotations. We quote No 1, $41@42; No. 2, $39@40 for extra; and forged, $38@39. Refined bar is still very firmly held at the late advance, with every prospect of its continuing so for some time to come. We quote from store as follows: Bar Swedes, $112.50@122.50; refined, ordinary size, $95; refined, 1¼ to 6 by ¼ and 5-16, $100; refined, 1 and 1½ by ¼ and 5-16, $102; refined, 2½ to 3 round and square, $102.50; scroll, $112.50@142.50; ovals and half round, $110@130; band, $107.50; horse-shoe, $107.50@117.50; rods, 5-8 to 2-16 inch, $100@135; hoop, $115@162.50; nail rod, per lb, 7½c. Common Sheet is very scarce and firm. We quote at 5½@6 for single D and T, and 6@6½ for D and T Charcoal. Galvanized Sheet continues strong. We quote at 12@13c for 14@20; 12½ @13½c for 22@24; 13½@14c for 25@26; and 15@15c for 27@29, all less 20 per cent. to the trade. Russia Sheet is quiet. We quote at 15@15½c gold, according to number. Pig Lead has been in some demand, but still rules quiet, and without decided change of values. We quote at $5.90@6.25 for common to good foreign. Manufactures of Lead are steady at previous prices. We quote at 9¼c for bar; 10c for sheet and pipe; 15c for tin-lined pipe, all less 10 per cent. to the trade. Pig Tin is again very quiet and prices rather nominal. We quote in coin at 36½@36¾c for English; 36¼@36¾c for Straits; and 41c for Banca. Plates have been in fair demand, but buyers hardly appear so anxious to buy as heretofore, although prices are still considered firm. We quote: I.C. Charcoal, $10.12½@10.50: I. C. Coke, $9.12½@9.50; Coke, $7.87½ @8.50, and Charcoal Terne, $9@9.50. Sheet Zinc is in moderate demand at steady prices. We quote at 10½ @11½c gold for Mosselmann from store.

NAILS.—The market presents no really new features of a decided character. The demand has been very good, and probably a little more general, and in the aggregate a considerable amount of stock went out from store, but still buyers have not given up their previous cautious policy, and few, if any, will operate in excess of positive wants. Holders report small and somewhat poorly assorted supplies of the leading sizes on hand, and no prospect of early additions of importance, as a number of back orders have yet to be filled. Prices are steadily maintained at fully former figures. We quote per 100 lbs: cut, 10@60d, $4.75; cut, 8@ 9d, $5.00; cut, 6@7d, $5.25; cut, 4@5d, $5.50; cut, 3d $6.25; cut, 2@3d, fine, $7.00; cut spikes, all sizes, $5.00; cut finishing, casting, box, etc., $5.25@6.75; clinch, $6.25@6.75; horse-shoe, forged, No. 10 to 5, per lb, 19@33c. Other styles are selling as follows: Copper, 40c per lb.; Yellow Metal, 26c do.

Exports as follows:—

	Past week.	Since Jan. 1.
Packages	455	1,666
Value	$3,068	$11,265

PAINTS AND OILS.—The demand for paints and colors has improved somewhat, according to the reports from some wholesale dealers, while others complain that the outlet is small and the business evidently spasmodic and uncertain. We cannot discover, however, that there is much loss of strength or confidence on any of the leading styles, importers and holders generally asking and insisting upon full figures, and if these are not realized, withdrawing samples to await such time as buyers may feel inclined to advance their bids. Deliveries are still being made on contract, though not so freely as heretofore, and the accumulation in first hands increases a trifle. Domestic stocks firm, as a rule, and the offerings not very large. Jobbers report a pretty good business on mail orders and a strong market, with hopes entertained of the early appearance of interior buyers and an increase of the outlet. The assortment in store at present is good, and all reasonable demands can be met without much difficulty. Linseed Oil has been very much excited, under heavy sales of seed, at steadily advancing prices. Crushers have rapidly advanced their prices to correspond with the value of the raw material, until at the close it has reached 77@78c for casks, and very strong at that figure, with the prospect of reaching $1 encouraging.

Exports as follows:—

	Past week.	Since Jan. 1, 1872.
Paint.....pckgs.	350, value $1,790	861, value $8,227
Linseed oil. galls.	50 " 59	500, " 440
Oxide zinc, pcks.	— " —	— " —

PITCH.—The market is quiet, and prices are rather more steady but without material change from last week's figures. We quote: prime city delivered at $4.75@4.87½. Receipts for the week, nil bbls; since Jan. 1, 225 bbls; same time last year, 50 bbls. Exports for the week, 40 bbls; since Jan. 1, 402 bbls; same time last year, 225 bbls.

SPIRITS TURPENTINE.—The market has ruled very much excited all the week, on advices of a short supply and rapidly advancing prices at Wilmington. Prices opened the week at 74c, and have steadily advanced each day until at the close holders are demanding 80c, and all the market very strong at that figure. We quote merchantable and shipping order at 80c, and retail lots from store, 81@82c. Receipts for the week, 74 bbls; since Jan. 1, 5,461 bbls; same time last year, 4,226 bbls. Exports for the week, 1,579 bbls; since Jan. 1, 3,228 bbls; same time last year, 803 bbls.

TAR—Has been in fair demand at an improvement in values, especially in Wilmington. We quote Washington at $3.12½@3.25; Wilmington, $3.25@3.31½, and Newberne $3 12½@3.25, as it runs. Receipts, for the week, 213 bbls; since Jan. 1, 3,342 bbls; same time 1871, 856 bbls. Exports for the week, 110 bbls; since January 1, 401 bbls; same time 1871, 588 barrels.

Property sold and rented. Loans negotiated. Charge of houses and collection of rents a specialty.

No one should Build or Live in a House
WITHOUT EXAMINING OUR
ELECTRICAL APPLIANCES,
without which no house can be said to have all or even the MOST IMPORTANT OF MODERN IMPROVEMENTS; in fact, they are indispensable for the complete outfit of a first-class house with what may be termed necessary conveniences. All English and French houses at the present time are furnished with this electrical apparatus.

E. HOLMES'
Burglar Alarm Telegraph.
This one Bell, located in the Sleeping-Room, when set for the night, rings upon the opening of each door and window of the house. It is a watchman that has but one house to protect; never goes to sleep; cannot be bought off; and an experience of ten years, without a failure, proves it to be perfectly reliable and satisfactory.
PARTICULAR ATTENTION
is requested to our new
HOUSE ANNUNCIATOR,
An improvement upon the French system.
IT CONSISTS OF A SINGLE
CALL BELL AND ANNUNCIATOR,
in the kitchen or servants' department, and so arranged that the simple touch of a small ornamented spring in each room of the house **RINGS THIS BELL AND ANNOUNCES THE ROOM** from which the call proceeds —the bell continuing to ring until the servants give it attention. The whole thing is operated by
ONE BATTERY, OR BY THE SAME BATTERY
that operates the
Burglar Alarm Telegraph.
It is simple, perfect, and reliable, and will not get out of order, and is a very great improvement upon the old system of "bell pulls." We also have
An Attachment for Ringing Door Bells and Servants' Bells from the
TABLE OR DINING ROOM,
by placing a spring in the floor, and covered by the carpet. Also, for
Calling the Coachman from the Stable.
Send for pamphlet containing ten or twelve hundred TESTIMONIALS. They are from our best citizens and first business men of New York and vicinity.

E. HOLMES,
OFFICES:—
7 Murray Street, New York.
6 South Clark Street, Chicago, Ill.
1111 Chestnut Street, Philadelphia, Pa.
69 West Fourth Street, Cincinnati, Ohio.
205 River Street, Troy, N. Y.
121 Washington Street, Boston, Mass.

CAUTION.
The public are cautioned against all infringements upon this patent, even when called improvements; other parties have slightly changed my method of doing the same thing, and without any practical experience speak of it as a very great improvement. This invention is the on y one that has had practical experience. It has been in general use for ten years, and every real, practical, or desirable improvement that study and actual experience could suggest has been added.
All violations of my patent, either by using or vending an infringement, will be dealt with to the full extent of the law for such cases provided.

JAMES BROOKS,
MANUFACTURER OF
SHELL LIME.

WANTED,

A Complete File of the REAL ESTATE RECORD, from the first volume, commencing March 21st, 1868. A liberal price will be paid.

INTRA-MURAL STEAM TRAVEL.

As the question of rapid steam transit will soon come up in the Legislature, and as all New York property-holders are intensely interested in the adoption of some practicable plan, it would be well to bear the following facts in mind :—

1. That the viaduct scheme is practically dead, in view of its proposed enormous cost, as well as its unfortunate political and business complications.

2. That the central underground road is also out of the question, as $500,000 is demanded to pay for liabilities already incurred, although not a shovelful of earth has been removed. This, at least, is the statement of Major Bergholz before the Committee of Ninety, and has not been contradicted.

3. It is also well known that the great banking houses whose names have been mentioned in connection with the building of the various roads refuse to contribute unless they are allowed two dollars in stocks and bonds for every one in money expended upon the construction and stocking of the roads. A practicable underground road can be built for about one million and a half per mile. The great banking-houses say they must have the privilege of charging the citizens of New York three millions per mile for constructing the road, upon which sum interest must be paid for all time.

4. The sunken track project on the Fourth avenue is in a muddle, owing to the indifference of Mr. Vanderbilt as to the wants of the community. If the track was sunken above Forty-second street, and a steam road built from the great depot to the Battery, that would afford our citizens sensible relief, but Mr. Vanderbilt will do nothing, and he is all-powerful.

There remains the Beach underground project, now before the Legislature for indorsement. It seems to be the cleanest enterprise now before the public. The projectors have spent $300,000 of their own money in tunneling a certain portion of Broadway, and stand ready to raise the funds at once, without resorting to the grasping bankers of Wall street. They ask for the line of Broadway, and our legislators may as well understand, once for all, that no underground road will ever be built in this city unless it can run under that great back-bone of the island. The viaduct people cannot act; the central underground projectors have had a charter for three years, and have done nothing but incur a debt of half a million of dollars,—but the Beach enterprise has really tunnelled Broadway, it is not in debt, it can raise the necessary funds cheaply and expeditiously,—and we call upon the Legislature to give it a chance to do what the other companies have failed to do, that is, secure rapid steam transit on this island. This road represents honest capitalists, the others the Ring politicians and the Wall street Shylocks.

The REAL ESTATE RECORD in this matter represents the great bulk of the property-holders of New York. Our list of subscribers embraces more local land-owners and tax-payers than any daily paper in the city, and we feel confident that we represent them faithfully in asking the Legislature to give the Beach company a charter, properly guarded, for a steam road under Broadway.

MATTERS AT ALBANY.

OUR private advices from Albany are to the effect that outside pressure will necessitate the passage of some sort of a new charter for New York city. The Committee of Seventy project will probably be made the basis of a reformed charter, but it will be so amended as to be practically a different document. The real objection to the Septuagint Charter is, that it makes all personal responsibility impossible, and does not provide for civil service reform, the greatest need of the day.

After a careful canvass at Albany, we are satisfied that the key-note to the action of the majority of the legislature will be found in the fact, that this is a presidential year, and the public treasury of this city is needed for party purposes. The offices are to be divided between the two parties, so as to neutralize the Democratic strength, and give the Republicans at least a half of the city plunder.

But surely, it may be asked, the party now in power in this State is not so foolish as to throw away its great opportunity to do good, merely for party plunder? It does not expect to so outrage public opinion as to lose power. All will be done in the name of reform; and the Democrats have so just and heavy a load of obloquy to carry, because of the doings of the Ring, that the Republicans argue that they can go to very great lengths without falling into disrepute. In other words, their plan is to steal all they can, without getting into as bad odor as the Democrats.

We make these remarks in the interest of no party, for all existing party organizations are hopelessly corrupt, but simply that our readers and patrons, who are land-owners and tax-payers, may be under no illusions touching reform and economy. Our rulers, no matter what party is in power, for many years to come as for many years past, are certain to be thieves, or the allies of thieves. This is the inevitable result of the administrative action of the political system under which we now live. Tax-payers must get rid of cant and humbug, and look this unpleasant fact straight in the face.

WE judge that in the new deal in this city Comptroller Green will be displaced. He is so situated that, to do his work conscientiously, he must displease thousands of influential people whose little bills he cannot or will not pay. All these disappointed folk find their way to Albany, and create in the minds of the legislators a prejudice against the Comptroller. It will be admitted that he is honest, but it will be added, he is "dreadfully unpopular." As popularity and not honesty is the test under our elective system, Mr. Green, we judge, will have to give place to some more tractable person. No Comptroller can be popular with claimants under our present system who is honest in the disbursements from the city treasury. The plunderers are active, energetic, persistent and well organized, while the "honest" Comptroller has no adequate backing from the press or public. Indeed, the tax-paying community look on the fight with singular indifference, and with very much the feeling of the old lady in the conflict between her husband and the bear, who did not care which whipped. As Comptroller Green is only one man against a thousand, of course he will have to consent to stand aside for a more "popular" officer.

THE proposition of Mr. David A. Wells to exempt personal property, and confine taxation to real estate, would be worth discussing were there the slightest probability of any such change being effected for the next ten years, which there is not. There is much to be said in favor of Mr. Wells's scheme, but, as the members from the rural districts in the Legislature would vote solid against it, discussion as to its merits would be a waste of words. Ideally perfect schemes of taxation are all very well to talk about, for those who have spare time, but practical men prefer to confine their

attention to reforms which *can* rather than those which *ought* to be effected. Mr. Wells is an able man, but he is something of a *doctrinaire.*

THE MORNINGSIDE PARK.

THE public fully appreciate the great advantages that have been derived by the city by the creation of the Central Park, and of the Grand Boulevard, and by the initiation of other parks in positions called for by the natural topography of our island.

The park named above is an absolute economical necessity to properly connect the high table-land above One Hundred and Tenth street and west of the Ninth avenue, with that of the lower plateau of the Harlem plains lying generally east of the line of the Ninth avenue, and which recedes in height as it approaches the East River. This park will contain about thirty and a quarter acres, formed nearly entirely from a sloping ridge of rock, now nearly bare of soil, and lying northerly between 110th and 123d streets, where it will fall off into a valley running east and west, known as Manhattan Valley; and westerly, between a part of the lines of the Ninth and Tenth avenues. In width it varies from about 275 to 550 feet, with an easterly descent averaging about 85 feet; but in some places the fall in an easterly line to the level of the Harlem plain is 98 feet.

We are indebted to the poetical fancy and cultivated taste of the genial President of the present "Department of Public Parks," while he was President of the old Board of Central Park Commissioners, for the happy name chosen for this park. By-the-by, why is he called "the venerable Colonel Stebbins"? His frame does not appear aged, nor does his mind harp only on the past. Is it because he is not generally supposed to grasp the early future wants of this great metropolis? One of our leading dailies, which appears to have taken the entire charge of the consciences of General Grant and Comptroller Green, and affects to know almost their thoughts and future plans, says that Colonel Stebbins told their city reporter very recently, "that many of the works" commenced by his predecessor, Judge Hilton, were designed, in his opinion, from thirty to forty years ahead of the probable wants of the city; and that it was his intention "to bring the Department back to the old grooves he had formerly run it in." We don't think that Judge Hilton was ahead of the spirit of our prominent real estate owners. We think that public opinion always warmly sustained him in his improvements, except, indeed, some of the small public squares and triangles, where we think the outlay was excessive for the location. But the Battery, City Hall Square, Washington Square, and Madison Square, are all worth yearly to the city, in the additional value given to property in these sections, for taxation purposes, far more than the interest on the bonds issued to construct them. We do not propose to discuss that matter now. Our object, at present, is to call the attention of the public to one of the new parks.

A family residence near the Morningside Park, on or near to the avenue skirting the western edge of it, will always be sure of plenty of fresh air and far-reaching picturesque views to the eastward, which cannot be interfered with by future buildings; and the avenue skirting the eastern edge of the park will always command views of the most enjoyable nature of its terraces and fountains. The resident owner will have the protection afforded by the heights of the houses on top of the hill, as well as that of the slope of the hill, against storms and cold winds during the winter season; and to those families who find a residence in South Brooklyn, or on the hills below Greenwood Cemetery and just west of the Prospect Park, an impossibility in consequence of the damp sea air which prevails, a home in this well-protected position would be as safe to them in winter as a residence in Georgia.

We believe a plan for the improvement of this park has been decided on by the Board, which has also been ratified by supervising landscape architects, Olmsted and Vaux. What the public now want is to have the work commenced at an early day—as early as possible—and proceeded with vigorously to its completion.

It is false and picayune economy for a board of park commissioners of a great metropolitan city to be constantly considering and weighing how they can here and there save sixpences by dispensing with the number, and curtailing the hard-earned wages, of our laboring classes who have been employed on the public works. While they are engaged in such discussions they permit our public works to be delayed to the injury of the city's progress; and where commenced, to fall into ruin. If this contracted spirit of nominal economy is to prevail, the city will finally pay dollars for the dimes saved. A very large number of trained men, whose skilled and experienced services had become of great value to the city, have been turned adrift; and the public believe it was unnecessary to have done so.

We had hoped to see a wider view of the situation taken by Colonel Stebbins. We shall continue our faith. According to Hudibras, the worth of an assertion is "just so much as it will bring." "The circles of our felicities," says the great knight of Norwich, "make but short arches."

The exposure of this Park to the morning sun on its terraced slopes will always make it attractive. The sun is the patrimony of all. All can bask in its rays, or feel its warmth, when all other wealth is spent.

THE flurry that has been raised in this country and in England over the Alabama claims is discreditable to both nations; yet it is due to the popular form of government in each. Mr. Gladstone finds himself and his administration becoming unpopular; and he raises this hullabaloo for the purpose of gaining a factitious strength in Parliament, and to divert attention from home politics. Hence the wrath of the English press at the "indirect damages" in the case presented to the Geneva conference.

The effect of these claims for "indirect damages" was undoubtedly counted upon, as a part of the machinery by which the admistration party expected to operate upon public opinion in this country. There is no real object for which either nation can desire to go to war. It is literally "playing with fire" for the politicians here and in England to seek to embroil the two nations upon a question of this kind. The dispute tends to unsettle values here; to mingle an element of uncertainty in all business transactions; to keep up the premium on gold; and to prevent that restoration to a healthy state of trade which we were all gladly anticipating, after the domestic trials which had agitated the country.

THE *Chicago Tribune*, as well as many other papers outside of the city comment with a great deal of asperity upon Register Sigel, *apropos* of his recent correspondence with the Citizens' Association. They affect to sneer at him as a bogus reformer, because he refuses, for the present at least, to reduce the fees heretofore charged in his office to the legal rates. If the allegations of the Citizens' Association are true, the late Register, and in fact all recent Registers have been making illegitimate charges for searching and enrolment of deeds. But then the associate culprits, in such a case, are the lawyers who have been acting for the real estate owners. It is the business of these professional gentlemen to see that they are not charged more than the legal fees; for those fees are not paid by themselves, but come out of the purses of their clients, and any client who is overcharged in this respect has a good case against the lawyer who has undertaken to manage his business—of course in the most economical manner possible.

There is no disguising it, but the legal fraternity of the city of New York have fallen into deserved disrepute. The way in which will cases have been managed in times past before the Surrogate shows that the sense of justice among even the most eminent counsel is quite subordinated to their greediness after fees. The legal fraternity have lost the entire business of our mercantile community by their insatiate rapacity. The disputes which in former times were litigated in the courts are now adjusted before arbitrators chosen by the Chamber of Commerce. The disposition manifested on every side to avoid the lawyers is an evidence of the growing disfavor into which they have fallen.

In this matter of legal registration fees they are greatly to blame. They have now a Bar Association; and proper action by that body would prevent any extortion in the Register's office.

We judge that Register Sigel is a good deal like other men: he is elected to a fine fat office, and does not propose to give up any of the profits unless compelled to do so. This may not be a very high motive to actuate a public officer, but it is a very human one; and if he is to blame he certainly may share the obloquy with the great body of lawyers who do business at the Hall of Records, who submit to these extortions, and who charge them all to their clients.

IN view of the difficulties connected with building steam roads in New York, it is surprising that there is no agitation demanding that it be built by the municipality, as the Croton Aqueduct was built. That is certainly a meritorious work—one which does the city great

credit. A road constructed in that way would probably cost something more than a private company could build it for; but it would be well built; and our citizens would not have to yield to the frightful "shaves" which the capitalists insist upon, for advancing their money. Besides, a road thus built would certainly be run entirely in the interest of the community, and not in the interest of any railroad corporation. By all means let us get up an agitation for building a steam road *through* the city, *by* the city authorities themselves. That it can be well and honestly done is shown by the Croton Aqueduct, and by the construction of our public parks, than which there is no more creditable work anywhere.

FORTY-FIRST ST., N. S., 100 W. 10TH AV., ONE five-story brick factory, 100x50; owners, JONES & SMITH; architect, G. W. HILLE; builder, SAMUEL LOWDEN.

FIFTY-EIGHTH ST., S. S., 225 E. 10TH AV., FIVE three-story and basement brown-stone front, second-class dwellings, 20x52; owner, B. WALLES; architect, F. S. BARUS; builder, JOHN OWEN.

HOUSTON ST. (NOS. 194 AND 196 E.), TWO FIVE-story brick stores and tenements, 17.10x43.6; owners, CASPER HERTLER and JOHN OSSMAN; architect, JOHN M. FORSTER.

LEXINGTON AV. AND 63D ST., N. W. COR., ONE four-story and basement brown-stone front tenement, 20.5x65; owner, JAMES CUNNINGHAM; architect, F. S. BARUS.

MERCER ST., W. S., 41 N. 4TH ST., ONE TWO-STORY brick workshop, 32.4x20; owner, FRANCES R. RIVES; architect, ROBERT MOOR; builder, A. L. A. ALEXANDER.

MULBERRY ST., E. S., 106.8 N. BROOME ST., ONE five-story brick tenement, 25x72; owner and builder, G. MEYER; architect, WM. GRAUL.

PEARL ST., S. S., 49.5 E. ROSE ST., ONE FIVE-STORY brick tenement, 24.3x62; owner, FRED'K HAUPLER; architect, WM. GRAUL.

RIVINGTON ST., N. S., 26 E. FORSYTH ST., ONE five-story brick store and tenement, 24.9x72; owner, JOHN HOCH; architect, JOHN M. FORSTER.

SEVENTY-FOURTH ST., S. S., 100 W. 1ST AV., TWO four-story brick tenements, 25x50; owner, A. F. WILSON; architect, J. BURNEY.

SEVENTY-SEVENTH ST., S. S., 138 E. 2D AV., TWO four-story brown-stone front tenements, 22x54; owner and builder, PETER HART; architect, JOHN MCINTYRE.

TWENTY-THIRD ST. (No. 113 W.), ONE ONE-story brick second-class dwelling, 16x28; owner, FRED'K WELSHOFER; builders, O'BRIAN & WALSH.

WILLETT ST. (NO. 80), ONE FIVE-STORY BRICK store and tenement, 31x25; owner, A. SIMON; architect, JULIUS BOCKELL.

ALTERATIONS IN BUILDINGS.

One first-class store, marble front, south side of Nineteenth street, 171 feet west of Broadway, 84 by 102, five stories, two stories to be added, with Mansard roof, and extension, 50 by 92, seven stories high; Aaron Arnold, owner.

One first-class dwelling, brown-stone front, south side of Fifteth street, 317 feet west of Fifth avenue, 25 by 58, four stories, extension built on rear, 7 by 12, two stories and basement; Wm. Johnson, owner.

One brick dwelling, north-east corner of Madison and Market streets, 25 by 42, three stories, two additional stories to be added to building; Joseph Kahn, owner.

Two brick dwellings, Nos. 153 and 155 Perry street, 26.9 and 19.8 by 32, three stories and attic, peak roof to be cut down and Mansard roof put on both buildings; Joseph J. Richards, owner.

Two brick stores and tenements, Nos. 493 and 495 East Houston street, 20 by 40, three stories, both buildings to be raised one story; Mrs. M. Quinn, owner.

One brick store and tenement, No. 88 Second avenue, 25 by 58, three and half stories, building to be raised one-half story; C. Witborger, owner.

One brick store, No. 24 Front street, 24 by 66, four stories, new stairs built, and new partition set throughout the building; S. H. Seguine, owner.

One brick second-class store, No. 76 Prince street, 25 by 25, two stories, extension 25 by 100, and one story in height, built on rear, and when finished to be used as a public hall; estate of James Minelle, owners.

One brick factory, No. 346 West Thirty-ninth street, 25 by 30, two stories and basement, extension built on rear 25 by 24, three stories and basement; Charles Fessler, owner.

One brick factory, No. 90 West Broadway, 25 by 35, three stories; extension 25 by 23, and four stories in height, built on rear, and iron girder and column put in first story to support front; James Hopkins, owner.

One brick stable, No. 6 Second street, 25 by 50, two stories, building to be raised two stories; P. L. Ronalds, owner.

UNSAFE BUILDINGS.

Crosby street, Nos. 63, 65, 67, H. W. Collender and estate of M. Phelan, owners; unsafe walls, damaged by fire.

Prince street, No. 76, estate of James Minell, owner; unsafe walls generally and floor beams.

Sullivan street, No. 69, Charles S. Covert, owner; unsafe ceilings of upper story, front room.

Rector street, No. 17, S. Goldsmith, agent; unsafe generally, rear wall cracked.

Cedar street, No. 3, B. F. Wheelwright, owner; unsafe front wall and broken lintels.

Cedar street, No. 5, B. F. Wheelwright, owner; unsafe front wall, settled off from side walls.

Vestry street, No. 69, Edmund Coffin, owner; unsafe front wall, floors and floor-beams.

Clinton street, No. 93, Chas. C. Pinckney, agent; unsafe and broken water-table, and piers of front.

West Thirteenth street, No. 315, Abraham Soper, owner; unsafe front and west walls.

MARKET REVIEW.

BRICKS.—In a general way the features of the market for Hard brick remain much the same as noted for some time past. Rather more stock came to hand, but it was readily disposed of, and brought full former extreme rates, with sellers confident they could have obtained still more money had they been disposed to ask it. In fact, the position does not appear to show any question as to how buyers are to be secured, but simply as to how stock is to be obtained to satisfy the wants of the buyers in attendance. Dealers are nearly or quite all out of supplies; builders and contractors have used up their former purchases, and a great amount of work is now said to be lying idle, simply for want of brick. There is no doubt a considerable number of speculative builders who have suspended work and covered up their walls, owing to the high cost prevailing; but there is every reason to believe that enough good, sound, legitimate contracts are under way to make a place for every cargo likely to come to hand for some time forward. The North River points of production have contributed the largest amounts of stock, but Long Island manufacturers are sending in cargoes whenever opportunity admits. Prices vary somewhat, according to circumstances, and there can hardly be considered any very fixed wholesale range of values, but about $12 per M may be given as a fair average quotation for anything really worth handling. Of New Jersey Hards we hear of very few offering, and dealers think it best to omit quotations for the present. The demand for Pale Brick is also first-rate, and there is no doubt the sales could be increased materially were stock more plenty; but the receipts are, of course, checked by the obstructed navigation to the same extent as Hards, and business rules quite dull. About $7 is the lowest price, and very few could be obtained below $7.50 per M. Front Brick (not Pale, as printed last week) continue very dull and nominal, except so far as retail sales are concerned, and these are at about our quoted rates in table. We note exports to Hayti of 10,000 bricks, valued at $140.

LATH.—This market appears to be rather a sensitive one, and responds to slight influences, the views of dealers varying somewhat almost daily. Yet, on the whole, the position is determined by the strength of operators for the time being, and must show a doubtful tone until the spring receipts commence to reach a larger aggregate, when it is reasonable to expect, that prices will drop nearer to the ordinary level. At present, if yard dealers are out of stock and a little anxious to get in fresh supplies, etc., to meet contracts, they are very apt to bid extreme rates on the first offering they can find; while, again, if cargoes make their appearance when there does exist a quick outlet, some receivers will force matters until they find a buyer, while others will rather take the chances of piling out stock than to concede on prices. The present indications for next season's supply are favorable, as logs are likely to be plenty, and though manufacturers complain of a want of margin on the production, they have done the same thing for years, and will, in all probability, turn out every lath they can possibly cut. At the close the demand is slow, and, to sell, not more than $2.75@2.85 could be obtained, though some lots remain piled out for $3.50.

LIME.—There is probably no more of a dead-and-alive state of affairs to be found anywhere than upon the so-called wholesale market for lime at this season of the year. In fact, there is nothing but a nominal position, and scarcely enough business done to give any basis for values. A few cargoes straggle in coastwise now and then, and, as is always the case after the turn of the year, yard dealers can be found with a little search who have worked stocks down, and will take in additional supplies, provided the cost is not increased, as they must compete with those who hold a supply bought early. The jobbing distribution is fair, with prices firm, though the range is too wide to admit of a comprehensive quotation. Within a couple of weeks past there have been a few sharp calls for finishing, and the price ran up to $1.90 per bbl, common remaining at $1.35, but the difference in cost is thought to be too great, with a probability that the latter must either improve, or the former undergo a reaction.

LUMBER.—Our retail market does not show any really new features of general interest. At some of the yards business is dull, at others fairly active, and in a few cases the movement is quite brisk; but, as a rule, dealers still think they should see a little more animation shown and stock moving out with greater rapidity. There is no doubt that many buyers operate moderately, because they are unable to obtain the rather liberal credit asked for; but others unquestionably confine their purchases to a basis of actual wants, simply as a matter of caution, and as the small invoices taken permit them to offer prompt cash, in a large number of cases, they find the difference of cost on such operations is worth saving. The outlet, so far as we learn, appears to be almost entirely local, with about the usual proportions taken on manufacturing and direct building account. The supply in yard is fair as yet, and though some of the principal grades are falling away gradually, any reasonable selections can be made without great difficulty.

The wholesale market has as much life as usual at this season of the year, when supplies are small and the receipt quite uncertain from all sources. All really desirable offerings, however, seem to find an outlet without much difficulty, and realize full prices, the general tone of the market for prompt deliveries, so far as it goes, proving quite firm and uniform. On contracts there continues a considerable amount of negotiation, and now and then a sale is concluded, but in the main the engagements are for certain very desirable parcels, and buyers and sellers are still too far apart in their views to admit of much activity. All reports sent in from the interior are about as strong as during the early portion of the winter, and manufacturers express a determination not to sell except at their own rates, and this in the face of reports from all directions of every probability of an immense run of logs. These stories of the liberal supply of logs, cut and banked, with first-rate indications that the spring freshets will carry every foot to the booms seem to be indorsed by the principal authorities throughout the lumber regions; yet we met an individual recently, claiming to be well posted, who asserts that the statements are exaggerated, and gives the following curious explanation: He says that the lumbermen know they cannot run more than half the logs claimed as likely to reach the saws, but knowing that buyers were likely to be offish at the rates demanded in any event, have circulated stories of a large crop, in order to keep the demand back for awhile, and then finally to let the truth be known, when it is hoped that the discovery of a short supply in prospect will send every dealer in with a rush to buy, and induce not only the payment of the full rates now asked, but carry prices to a higher level still. Our exporters are operating fairly and paying full prices for desirable goods, though they seem to be a little more particular than usual in making selections.

Eastern Spruce does not vary much, the fresh offerings finding a fair demand current, and buyers willing to pay reasonable figures, and the market, in fact, ruling firm. Contracts are making to some extent, but hardly as freely as agents desire, and buyers still refuse to increase their bids to the views of manufacturers. Figures are not given on the engagements made for the future, and we can only quote about the spot rates, which are, say, $17@19 per M for inferior to fair specifications, and $19.50@20.50 for good to prime do. White Pine is firm and dull, the slow movement being the result of the full prices asked, especially on common stock for present delivery, and contracts for the coming crop. Sellers, however, appear somewhat indifferent, and the offerings are not pressed to a market. We quote at $30@35 per M for good to prime box and shipping boards; $28 do for choice do; $40 for pickings, and $45 for selects. Yellow Pine not very active on contracts, as quite a number are due, and others just filled give dealers a pretty good supply for the present. Prices, however, remain firm and the market uniform at about $28@31 per M for random cargoes; $32@38 for special cuts, and $39@40 for fancy do.

The exports of lumber are as follows:—

Value	$12,483	$83,517	$50,933

We note additional exports as follows:—

To Liverpool, 86 logs maple, valued at $1,304: to Havre, 193 logs maple, valued at $3,809: to British West Indies, 25,000 shingles; to Hamburg, 6,000 staves; to Liverpool, 7,620 do; to Glasgow, 4,800 do; to Gibraltar, 5,000 do: to Havre, 4,000 do; to Bordeaux, 5,550 do: to Marseilles, 2,400 do; to Lisbon, 56,160 do: to Porto Rico, 1,600 do, 2,497 shooks, and 15,000 hoop-poles: to Danish West Indies, 15,000 hoops; to Cuba, 46,450 hoops, and 6.716 shooks; to British West Indies, 1,550 shooks, and 3,000 box shooks.

Receipts reported as follows:—

From Jacksonville, 360,000 feet lumber: from Darien, Ga., 300,000 do: from Savannah, 161,600 feet do; from St. John, N.B., 152,220 feet deals, 750.000 lath; from St. Stephen, 561,000 lath; from Shulee, 380 pcs piling.

Charters as follows:—

A ship, 1,487 tons, from Boston to Callao, lumber, at or

about 50s per M; a ship, 1,036 tons, to West Coast, South America, lumber, 50@55s per M, according to port; a barque, 583 tons, to Cadiz, Light Pipe staves, $32.50; a Br barque, 584 tons (now at Savannah), from St. John, N.B., to River Plate, lumber, $17 net; a barque, 507 tons (now at Galveston), from Pensacola to River Plate, lumber, $21, and primage; a Br barque, 423 tons, from Portland to River Plate, lumber, $17 and primage; a brig, 252 tons, from Brunswick to Porto Rico, lumber, and back to a port North of Hatteras, sugar, 55c., and port charges covering outward cargo; a schr, 200 tons, from Jacksonville to Havana, lumber, $10: one, 185 tons, from Union Island, Ga., to Curacao, lumber, $10; a brig, 206 tons, and a Br brig, 290 tons, to Matanzas, empty hhds, $1; a schr, 293 tons, same voyage, empts hhds, 90c; one, to North Side Cuba, box shooks, 12c, and hhds shooks, 15@18c; a brig, from Portland to Cardenas, box shooks, 14c; four schrs, from Jacksonville to N. Y., resawed lumber, $12; one, to Charleston, general cargo, round sum, and back from Jacksonville, resawed lumber, $12; a schr, from Jacksonville to Providence, and one to New Haven, resawed lumber, $12: two, from Jacksonville to New York, $12; one, from Savannah to New York, $9.50; one, from Satilla River to New York, $11; one, from Pantego, N.C., to New York, shingles, $3.

We draw upon the *Saginaw Courier* for the following lumber items:—

LUMBER ON THE MUSKEGON.—Logging is going on finely on the Muskegon River, with plenty of snow, perhaps rather too much. The general impression is that at least 300,000,000,000 feet of logs will be put in this winter, being 50,000,000 feet more than last winter.

SALE OF TIMBER.—L. M. Sherwood, Esq., of Jackson, yesterday effected a sale of the timber on an 80 acre tract of land, situated in Tuscola county, to parties in this city, for the sum of $9,600.

STANDING TIMBER FOR SALE.—Mr. Russ Lytle has been appointed agent for the sale of the standing and fallen timber on the lands adjoining the city, owned by C. C. Fitzhugh, Esq. The timber on these lands will be sold for $6 per acre (oak and elm reserved). The land is heavily timbered with maple, beech, hickory, ash, oak, and elm, and situated about three miles east of the city, near the Genesee plank.

LUMBER IN WISCONSIN.—We take the following items from the report of the proceeding of the Wisconsin Legislature, now in session:—

The report of the lumber inspector of the Fourth District on the St. Croix was presented, showing 37,827,574 feet of logs scaled last year.

The report of E. P. Hastings, Lumber Inspector of District No. 6, dated at Chippewa Falls, was presented, showing 20,153,671 feet of logs scaled in the district and manufactured into lumber; estimated logs manufactured into lumber without being scaled, 19,800,000 feet; shingles, 152,334,000; lath, 8,207,972.

OUR BIG MILLS.—Saginaw—and in this we mean the Saginaw River—has, with one exception, the largest mill in the United States. Since H. W. Sage & Co.'s mill was built, another one has commenced operations, whose capacity is nearly, if not quite, equal to that of Sage & Co.—McGraw & Co., Portsmouth. The capacity of the Sage mill is given at 25,000,000. By this is meant running 12 hours a day for an ordinary season. In 1868 this mill cut 32,291,000 feet of lumber. During the past season, five mills on the river cut near one hundred million feet of lumber.

TITTABAWASSEE LOGS.—The *Midland Times* has the following items in regard to Tittabawassee logs:—

There will be more logs cut this winter on the Tittabawassee River than during any preceding winter.

It is safe to say that 150 million feet of logs will be laid up in the Tittabawassee River at the close of navigation next fall.

LUMBER.—The Bay City *Chronicle* says of the supply of lumber:—

By interviewing a number of our large lumber dealers we learn that the market has at no time within the past ten years been so bare of logs. Usually from 100,000,000 to 150,000,000 feet have been wintered over; but almost the entire fall supply has been converted into lumber, and there would be none to begin the next season upon, were it not for the partial supply that has been furnished by the railroads. It is thought that both railroads that empty logs into the Saginaw river near this point will make up a supply of from 50,000,000 to 75,000,000 by the opening of navigation. This will do to commence spring operations upon.

The Green Bay *Advocate* reports as follows:—

BIG SUAMICO.—Mr. Wm. H. Lett, of A. Weed & Co.'s mill, Big Suamico, informs us that the mill is running this winter, and cutting about 30,000 feet of lumber per day, which they are shipping by rail to Chicago and Beloit. They ship from three to six car-loads per day, and have shipped as high as twelve. They have loaded, so far, about 140 cars. They are now putting in about 135,000 feet of logs per day, and employ about 200 men, 65 horses and 32 oxen. They have seven crews in the woods. It is the intention to put in 9,000,000 feet, and they have already over half that amount. They have the same contract this year as last, to furnish timber for the C. & N. W. car works at Fond du Lac.

LUMBER.—We notice that immense quantities of lumber are daily hauled into Fort Howard from the mills west and northwest of the place; also square timber and dimension stuff. Part of this is designed for the bridge across the Menominee river; part for Chicago and various points in this State, and part is piled up to dry for the spring and summer trade. A gentleman from Chicago was in town on Monday, endeavoring to contract for timber and lumber to be delivered in Chicago this winter by rail.

MINNESOTA.

There are 17 lumbering camps within 40 miles of Pokegama falls, Minnesota, on the river, containing from 350 to 400 men. In case the remainder of the winter proves as favorable as the first part, these men will put in about 40,000,000 feet of logs of good quality.

MAINE.

About twenty-five to thirty-five million feet of lumber will be cut on the Addroscoggin river this winter, of which about twenty million feet will find its way to our Lewiston mills. Of this about four million feet will be hemlock, one and one-half million feet of pine, and the remainder spruce. The Berlin Company is cutting a million feet in every four and one-half days. The lumbering on the Androscoggin river employs during the winter season from 600 to 700 men, and 600 horses and oxen.—*Lewiston Journal.*

WISCONSIN.

The Wausau *Wisconsin* says the lumber merchants from the lower country have been creating quite a stir in that village during the past week, one man alone contracting 20,000,000 feet of lumber, to be delivered at Davenport in the spring. The roads leading to the pine woods from Black River Falls are crowded with teams constantly, and more supplies are being carried to the camps than ever before on Black river.

The Secretary of the Chicago Lumbermen's Exchange makes the following report of the receipts of lumber at Chicago, with account of stock on hand at the first of the year:

GENTLEMEN—I herewith present the following report of the stocks of pine lumber, etc., on hand and for sale in the yards of this city, January 1, 1872, taken in conformity with the custom of previous years. All the yards, 102 in number, were personally visited, and the figures, in most cases based on actual measurement, were received from the principals. During the great fires in October last, 13 yards were destroyed, containing in amount, as near as can be arrived at, about 60 million feet of pine lumber:—

ON HAND AND FOR SALE JANUARY 1, 1872.

Sawed pine lumber and timber	233,871,527 feet.
Hewn pine timber	567,000 "
Lath	17,550,340 pcs.
Pickets	1,649,666 "
Cedar posts	129,710 "
Sawed shingles	70,970 m.

STOCK OF JAN. 1, 1872, COMPARED WITH JAN. 1, 1871.

	Feet.		M.
1872 Lumber	233,871,527	Shingles	70,970
1871 Lumber	295,124,252	Shingles	22,702
Decrease	61,252,725	Increase	48,268

The following table shows the comparative receipts of lumber and shingles by lake and rail for the years 1870 and 1871:—

1870.	Lumber.	Shingles.
Lake	979,295,000 feet.	350,561 m.
Rail	39,703,685 "	301,530 "
Total	1,018,998,685 feet.	652,091 m.
1871.	**Lumber.**	**Shingles.**
Lake	984,820,605 feet.	401,346 m.
Rail	54,507,770 "	246,249 "
Total	1,039,328,575 feet.	647,595 m.

Respectfully,
WM. L. SOUTHWORTH,
Secretary.

The Bangor (Maine) *Commercial* says:—

Probably in Wilton, Washington, and Perkins plantations, and Weld, there will be four hundred acres of woodland cut over this winter, the principal part poplar and white birch, for the manufacture of salt boxes, barrel staves, spools, and pegs. The pay-roll of Messrs. Austin & Sanborn, spool manufacturers, of Weld, averages $1,800 per month.

It is estimated by lumbermen in Eastern Maine that fifty per cent. more logs will be hauled during the present winter than 1870. The Kennebec Land and Lumber Company has seven camps' crews, consisting of nearly two hundred men in all, and sixty horses at work, at Moose river. Six camps are hauling spruce, pine, and cedar, and one camp of ten horses hauling pine.

The Boston *Commercial Bulletin* reports:—

As usual, at this season of the year, the lumber market is quiet for building purposes, but we note an unusual activity in the foreign shipping demand for certain grades. The shipments from Boston this winter are largely in excess of last winter. This unexpected demand reduces stocks on hand, and gives a firmer tone to the market, though there is no decided advance, and is not likely to be any, owing to the favorable logging season. Lumbermen report excellent work in the forests, with a large cut of logs, produced at less cost than last year, and if the balance of the season continues as favorable, the supply of logs will be ample for the anticipated heavy demand of next season. Of course spring freshets and abundant water in the streams during the sawing season are necessary for cheap lumber, but at present all indications point to lumber at moderate cost the coming year. Each year the lumbermen go further back for their logs, thus enhancing the cost.

It is not probable that lumber can ever be produced at a much less cost than now, and unfavorable logging seasons may increase it and reduce stocks. It is gratifying to know, in view of the vast building operations projected for next season, that the first element, a full supply of logs cut, is beyond question. Retail yards are quiet. Wholesale dealers are taking orders. Seasoned Canada and Western lumber is firm at the recent advance, and with small stocks these grades must continue firm until the new cuttings come on the market. Laths are in request and firm at the late advance. The Philadelphia and Baltimore markets are nearly bare of laths, and in those cities they are retailing at $1@1.25 per M. higher than here. Southern pine flooring boards sell quick at quotations. Shingles and clapboards are inactive.

The following are the surveys for the week:—

DOMESTIC LUMBER.	Feet.	DOMESTIC LUMBER.	Feet.
Pine	15,365	Spruce	229,684
Hemlock	86,793	White Wood	23,061
So. Pine Plk. & Tim.	441,925	So. Pine Flooring	186,615
Black Walnut	186,774	Hard Wood	110,907
Total			1,281,064

The New Orleans *Prices Current* reports:—

The demand continues dull, and prices remain unchanged. The probabilities are that they have reached the lowest figures. Improvements and work on buildings in course of erection are at present, on account of the unfavorable condition of the weather, generally suspended. The market is supplied with a good stock.

Cargo lots are quoted at $15 per 1,000 feet for inch Boards; $12@14 for Scantling; $14@15 for Weatherboards Rough; and $17@18 for Dressed; $17@20 for Rough Flooring, and $22@25 for Dressed; $18@20 for Dressed Ceiling; $25@30 for Cypress; $3.75@4.50 for Shingles, and $2.50@2.75 for Laths. General orders on Rough and Dressed lumber are filled at $5 per 1,000 feet on cargo prices.

The impression seems to prevail that there will be an immense lot of logs got out this winter. While the fact need not be disguised that the amount will be in excess of last year's stock, the fact still remains that accounts have been greatly exaggerated. On the Cass river, in particular, the stock will be nearly double that of last year, and on some of the Shore streams there will be a larger amount put in, but some of the streams will fall short of last year. This statement is corroborated by reports of a number of lumbermen with whom the writer has conversed, who all concur that the newspapers, as a rule, have exaggerated the lumbering operations. The fact of the large number of men going into the woods from this direction is accounted for partly by the fact that the territory for which Saginaw is the base of supplies has been greatly enlarged, the Muskegon lumbermen receiving their supplies from this point. On the Tittabawassee and its tributaries, which floats down more pine logs than any stream in the world, from present indication the stock of logs will not exceed that of 1870, and may fall short. Within the next thirty days we shall be able to approximate very closely the stock of logs for the season of 1872.

The late snow is hailed with delight by lumbermen, and it is now probable that a large proportion of the logs cut will be got to the streams. It is questionable, however, unless we have heavy rains in the spring, whether there is or will be sufficient snow to bring the logs down with the freshet. Granting, however, that all the logs put in get to the boom, the supply for the mills and the market will be regulated by the boomage facilities, which are limited to a certain amount.

The lumber markets all over the country are short of stocks, and the demand for the spring trade has already commenced.

METALS.—Ingot is less active, with but a light inquiry from either speculators or manufacturers, but prices are still firmly held We quote: Ingot 28¼@28¾c, cash, and 28½@28⅝c for March delivery: New Sheathing, 34c; Yellow Metal, 26c; Old Sheathing, 25½@26c. Scotch Pig Iron remains quiet, but holders are still firm, with but little available stock on hand. We quote Glengarnock, $40; Eglinton, $38; Summerlee, $39.50 per ton; Gartsherrie, $41, and Coltness, $42, all from the wharf. These prices must be considered more or less nominal, as, in the absence of transactions, there is no correct basis for quotations. American Pig continues in active request, but as most of the companies have sold their productions for some time ahead, the offerings are limited and prices are very strong. We quote: No. 1, $41@42; No. 2, $39@40 for extra; and forged, $38@39. Refined Bar from store has been again advanced $2.50 per ton, and is held firmly at the higher price. We quote from store as follows: Bar Swedes, $115@125; refined, ordinary size, $97.50; refined, 1⅛ to 6 by ¼ and 5-16, $102.50; refined, 1 and 1½ by ½ and 5-16, $105; refined, 2⅛ to 3 round and square, $105; scroll, $115@145; ovals and half round, $112.50@132.50; band, $110: horse-shoe, $110@120: rods, 5-8 to 3-16 inch, $102.50@137.50; hoop, $117.50@165; nail rod, per lb, 7¼c. Common Sheet is very scarce and firm. We quote at 5½@6 for single D and T, and 6½@7 for D and T Charcoal. Galvanized Sheet continues strong. We quote at 12@13c for 14@20: 12¼@13½c for 22@24; 13½@14c for 25@26; and 15@19c for 27@29, all less 20 per cent. to the trade. Russia Sheet is quiet. We quote at 15c gold, according to number. Pig Lead is very quiet and prices nominally unchanged. We quote at $5.90@6.25 for common to good forge. Manufactures of Lead are steady at previous prices. We quote at 9½c for bar: 10c for sheet and pipe; 15c for tin-lined pipe, all less 10 per cent. to the trade. Pig Tin is still very quiet and prices rather nominal. We quote in coin at 36½c for English; 36½c for Straits; and 41c for Banca. Plates have ruled more active and large sales effected. We quote: I.C. Charcoal, $10.37½@10.50; I. C. Coke, $9.25@9.50; Coke, $8@@8.50, and Charcoal Terne, $9.25@9.50. Sheet Zinc is in moderate demand at steady prices. We quote at 10½@11c gold for Mosselmann from store.

NAILS.—Dealers generally speak confidently of the market, and though the movement evidently does not come up entirely to anticipations, hopes are entertained of an increase of the outlet soon. Buyers, as a rule, seem inclined to stick closely to the hand-to-mouth plan of operations, and can seldom be coaxed into making up invoices beyond known wants, but these orders are becoming rather more plenty as the spring season draws near. Stocks are equal to the call on most styles, but some of the principal sizes are by no means plenty. On values the previous general range is preserved, and the market closes steady for all cuts. We quote per 100 lbs: cut, 10@60d, $4.75; cut, 8@9d, $5.00; cut, 6@7d, $5.25: cut, 4@5d, $5.50; cut, 3d $6.25; cut, 2@3d, fine, $7.00; cut spikes, all sizes, $5.00; cut finishing, casting, box, etc., $5.25@6.75; clinch, $6.25@6.75; horse-shoe, forged, No. 10 to 5, per lb., 19@33c. Other styles are selling as follows: Copper, 40c per lb.; Yellow Metal, 26c do.

Exports as follows:—

	Past week.	Since Jan. 1.
Packages	239	1,845
Value	$1,713	$12,918

PAINTS AND OILS.—In a wholesale way the market can only be called fairly active, yet on the whole a considerable amount of stock works off in the small invoices changing hands, and dealers feel reasonably encouraged. Values seem to have been sustained in all cases without

difficulty, and on many goods a higher range is reached, with not much anxiety to sell even at the improvement. Leads of all kinds and vermilions of first quality are looked upon with the greatest confidence. Imports at present are delivered on contract to such an extent that the fresh offerings of stock do not amount to much, and as our own manufacturers have, in many cases, stopped work, the supply of domestic goods is also reduced. Among jobbers business is improving, and in some quarters has become quite brisk with every prospect of a still further increase, as this is the season when when preparations are made by the small interior dealers for distribution to consumers. Full prices are obtained, but all orders thus far met without much trouble, as dealers hold a fair supply in store, both as to quantity and assortment. Linseed oil has met with a fair general inquiry, and the market was very well sustained. In fact, the selling interest appears to feel somewhat indifferent about operating, and crushers generally think they have the position well in hand, owing to the well-controlled stocks and the extreme cost of seed. We quote at 86@87c in casks, with very little to be had at the inside figure.

Exports as follows:—

	Past week.		Since Jan. 1, 1872.
Paint.....pckgs.	113, value	$1,317	974, value $9,544
Linseed oil, galls.	— "	—	500, " 440
Oxide zinc, pcks.	— "	—	— " —

PITCH.—There is but little change to notice in this commodity; the market is quiet, but prices may be called firm. We quote: prime city delivered at $4.75@4.87½. Receipts for the week, nil bbls; since Jan. 1, 225 bbls; same time last year, 50 bbls. Exports for the week, 97 bbls; since Jan. 1, 399 bbls; same time last year, 225 bbls.

SPIRITS TURPENTINE.—The market has ruled somewhat excited, but irregular during the week, but still very strong. The bulk of the stock, which is only 3,400 bbls, is held by two or three parties, who are exceedingly anxious to buy each other out, and this fact is the only drawback to higher prices. The Wilmington market is quoted at 80 and the cost of transportation, etc., to this point is fully 5c, and yet the price here is only 82½@83c, while at Boston it is quoted at 90c, and at Philadelphia and Baltimore, 85c. We quote merchantable and shipping order at 82½c, and retail lots from store, 85@86c. Receipts for the week, 588 bbls; since Jan. 1, 6,049 bbls; same time last year, 4,815 bbls. Exports for the week, 522 bbls; since Jan. 1, 3,750 bbls; same time last year, 1,067 bbls.

TAR.—Has ruled moderately active at a trifle higher figures. We quote Washington at $3.25; Wilmington, $3.50 and Newberne, $3.25, as it runs. Receipts, for the week,— bbls; since Jan. 1, 3,342 bbls; same time 1871, 1,107 bbls. Exports for the week, 316 bbls; since January 1, 717 bbls; same time 1871, 672 barrels.

LIONEL FROEHLICH'S
REAL ESTATE OFFICE,
820 THIRD AVENUE,
Cor. 50th Street, NEW YORK.
Property sold and rented. Loans negotiated. Charge of houses and collection of rents a specialty.

No one should Build or Live in a House
WITHOUT EXAMINING OUR
ELECTRICAL APPLIANCES,
without which no house can be said to have all or even the MOST IMPORTANT OF MODERN IMPROVEMENTS; in fact, they are indispensable for the complete outfit of a first-class house with what may be termed necessary conveniences. All English and French houses at the present time are furnished with this electrical apparatus.

E. HOLMES'
Burglar Alarm Telegraph.
This one Bell, located in the Sleeping-Room, when set for the night, rings upon the opening of each door and window of the house. It is a watchman that has but one house to protect; never goes to sleep; cannot be bought off; and an experience of ten years, without a failure, proves it to be perfectly reliable and satisfactory.
PARTICULAR ATTENTION
is requested to our new
HOUSE ANNUNCIATOR,
An improvement upon the French system.
IT CONSISTS OF A SINGLE
CALL BELL AND ANNUNCIATOR,
in the kitchen or servants' department, and so arranged that the simple touch of a small ornamented spring in each room of the house **RINGS THIS BELL AND ANNOUNCES THE ROOM** from which the call proceeds —the bell continuing to ring until the servants give it attention. The whole thing is operated by
ONE BATTERY, OR BY THE SAME BATTERY
that operates the
Burglar Alarm Telegraph.
It is simple, perfect, and reliable, and will not get out of order, and is a very great improvement upon the old system of "bell pulls." We also have
An Attachment for Ringing Door Bells and Servants' Bells from the
TABLE OR DINING ROOM,
by placing a spring in the floor, and covered by the carpet. Also, for
Calling the Coachman from the Stable.
Send for pamphlet containing ten or twelve hundred TESTIMONIALS. They are from our best citizens and first business men of New York and vicinity.

E. HOLMES,
OFFICES:—
7 Murray Street, New York.
6 South Clark Street, Chicago, Ill.
1111 Chestnut Street, Philadelphia, Pa.
69 West Fourth Street, Cincinnati, Ohio.
205 River Street, Troy, N. Y.
121 Washington Street, Boston, Mass.

CAUTION.
The public are cautioned against all infringements upon this patent, even when called improvements; other parties have slightly changed my method of doing the same thing, and without any practical experience speak of it as a very great improvement. This invention is the only one that has had practical experience. It has been in general use for ten years, and every real, practical, or desirable improvement that study and actual experience could suggest has been added.
All violations of my patent, either by using or vending an infringement, will be dealt with to the full extent of the law for such cases provided.

No receipt for money due the REAL ESTATE RECORD will be acknowledged unless signed by one of our regular collectors, HENRY D. SMITH or THOMAS F. CUMMINGS. All bills for collection will be sent from the office on a regularly printed form.

ILLEGAL FEES IN REAL ESTATE CASES.

THE action of the Bar Association in causing inquiry to be made relative to the illegal fees exacted by the various county officials necessarily calls up the whole question of illegal charges.

It seems that some of the fees which the law allows would not pay for the service of the writ; and the consequence is that, as a matter of equity, a practice has grown up of allowing more than the law permitted. This custom has acquired the force of law itself. But it has been abused, and extortionate fees charged under sanction of the custom; and now a readjustment of our whole system of fees is plainly demanded—if, indeed, it is thought advisable to retain the fee system at all.

Persons interested in real estate have much to complain of, in regard to the remissness of lawyers in not insisting upon the rights of their clients. The reform now commenced by the lawyers will not end with the city and county officials, for the chief burdens which property owners suffer are the fees and exactions of the lawyers themselves. The winding up of an estate, the foreclosing of a mortgage, are legal operations saddled with so many fees and charges, that it is ruinous to the property of the creditor to get his dues from his debtor. It is now more than ever the case, as Lord Brougham put it, that a "lawyer is a learned gentleman who rescues your estate from your enemies, and keeps it himself."

The difficulty in the way of any reform in this matter is, that our legislators are all lawyers; and they naturally take care of the interests of their profession, in the enactments they put upon the statute books. Nor is it to be supposed that improper charges and illegitimate gains are confined to the shysters or the lower members of the profession. The history of the great will cases tried before the Surrogate, in which the property has all been swallowed up by the learned counsel on either side, embraces the foremost names of the New York Bar—some, even, who are loudest and bitterest in their assaults upon the Ring. These learned and honorable and respectable gentlemen showed no more consideration for the estates of the persons whose wills were contested than did Tweed and Company for the property of the City of New York.

Parton, in his life of Jefferson, alludes to the fact that in Virginia, from 1642 till 1675, a period of thirty-three years, no lawyer was allowed to practise in the courts of that colony; and it was a criminal offence to exact a fee for legal advice. The House of Burgesses was wholly composed of land-owners and farmers; and they, to a man, had a wholesome horror of lawyers, and tried to suppress the whole crew. But the latter got revenge upon them; for when the lawyers finally obtained legal recognition, and were allowed to practise in the courts, the pent-up litigation of thirty-three years broke out with such tremendous fury that the colony was almost ruined.

Without attempting to go so far as the old-time Virginia legislature, it certainly would be desirable that our representatives should be men of business and property owners in a much larger proportion than is now the case. There ought to be but a very slight sprinkling of lawyers in our State legislatures, instead of being composed wholly of them. The United States is the very paradise of lawyers. In no country upon earth is there so much litigation; and in no country upon earth (it may be safely said) is there so much corruption—due to the fact that professional men, being in the habit of receiving fees for their services, see no special degradation in accepting bribes for votes in legislative halls. It is a remarkable fact that in the New York State legislature it has been proved that physicians were the most corrupt of all classes of representatives. They had no objection whatever to receiving money for their votes; and the next to them, in the scale of venal degradation, were the lawyers. It seemed as if the habit of receiving fees blunted their sense of honor and integrity, when it came to the question of selling a vote.

At any rate the owners of real estate have cause of bitter complaint against the learned gentlemen and against their outrageous charges. Yet we see no chance of getting rid of this swarm of irresponsible lawyers, with all their pitiless exactions, until the people select very different persons for the legislature. Let the Bar Association go on, however, with its work. But they must necessarily expect that the public, especially those who are compelled to employ them, will criticise their acts as freely as they criticise those of the officials who demand illegal fees.

INSURANCE INVESTIGATION.

THE examination into the affairs of the Insurance Department of this State discloses an exceedingly anomalous condition of affairs. It seems that, under the provisions of the law, it is within the power of the Superintendent to investigate the condition of the various companies, and demand fees for his trouble, varying from $100 to $2,500. The work generally involves a few hours' labor, and never extends beyond ten days. It is evident, from the statements that have been made, that the law puts a terrible power into the hands of the Superintendent; for the very fact of an examination discredits the company subjected to it in public estimation. There can be no doubt that under this law somebody has pocketed a great deal of money at the expense of the Insurance Companies. But what will most interest the public in this case is, that, after submitting to these extortions made under color of law, all the Insurance Companies, without exception, have united in an indorsement of the Superintendent, extolling him highly, and expressing their full confidence in his integrity. This does not at all prove that the Superintendent is what the companies say he is; but it does prove that he wields terrible power over them, and that they dare not offend him. A suspicion then arises that the reason why they dare not offend him is that their condition generally is such as will not bear close examination.

A somewhat notorious Sunday paper recently contained an attack upon the Equitable Life Insurance Co. The charges were extremely vague; and a really strong company could have contemptuously disregarded an attack from that quarter. But the fluttering alarm among the officials of the company, their angry rejoinders in the papers, and the amount of advertising they have since done, show that this random blow struck home. We have no hesitation in declaring that we believe the Life Insurance business to be rotten from end to end. It is notorious that a severe shock has been given to public confidence by the revelations made on the other side of the water. It appears that up to this time over seventy per cent. of the English Life Insurance Companies have failed. The business is successful and large profits are apparently made, during the first few years of the existence of an Insurance Company. The losses are postponed until the insured begin to die. The officers of the company accordingly allow themselves to become the victims of all sorts of financial delusions while the premiums are coming in during the seven years of plenty, and fail to make any provision for the seven years of losses and famine which are inevitable. When these arrive the company goes by the board. Most of them die within ten or fifteen years from the date of organization; and there is scarcely a doubt that within the ensuing decade we shall see company after company wind up its affairs

disastrously. This legislative investigation itself is doing discredit to the Insurance Companies far more than to Mr. Miller. An indorsement by those companies which are in the power of the Superintendent is no help to Mr. Miller, while it *is* extremely discreditable to them to give any such testimonial—especially in view of those facts which have been brought out by the investigating committee.

THE CITY CHARTER.

WE ventured to predict, last week, that there was very little prospect of the passage of the Committee of Seventy's charter at Albany; and the revelations of the past few days have satisfied us that it has not one chance in fifty of getting through. The probabilities now are that no charter whatever will be passed; that Mayor Hall will fill up his unexpired term; and that the city government will remain in its present condition. The simple fact is that the Republican party, who are in a majority, find themselves in possession of a good many fat things in this city—more especially in the control of the Public Works. Mr. Van Nort is a Republican, and is expected to manipulate the Department in the interest of his friends. There has been effected (as we understand) a combination between the Greeley Republicans and the Hall Democrats—a combination which has wide ramifications—and the Reformers will find themselves out-generalled.

The absence of any attempt at Civil Service Reform in the Committee of Seventy's charter robs it of all value to those who know that the real curse of our local politics is in the trade of city politician; and that the only way to get rid of this evil is to adopt the system of competitive examinations, with appointments for life—at the same time restraining the city employés from any kind of complicity in local politics. Such enactments as those would put the axe to the root of all our local difficulties—and this is exactly what the Committee of Seventy haven't dreamed of doing. The only valuable point in their charter is the cumulative vote for the Board of Aldermen. With a law of that kind in force, we should probably get from five to ten honest men in the Board; and this is the best we can hope from any charter. For under our system of universal suffrage, of every forty-five men elected in this city, thirty at least are certain to be thieves. This is a humiliating confession to make; but, with the experience of the past twenty years before us, what else can be expected?

IT is seventeen years since Dr. Otto Fullgraff first opened the doors of the Bond Street Homœopathic Dispensary for the benefit of the sick poor, from which time to the present the institution has steadily increased in point of attendance from the treatment of 521 cases, including 1,895 prescriptions, furnished for the year 1856, to the number of 41,714 cases, including 84,648 prescriptions furnished and 7,384 outdoor visits, during the year 1871, as shown by the report lately issued. In point of number of cases treated this institution outranks even the New York Dispensary (allopathic), an institution established in the year 1790, heretofore the largest and no doubt oldest dispensary in the United States.

The President of the Bond Street Dispensary, Dr. Fullgraff, makes a specialty of nose, throat and uterine diseases, and has undoubtedly met with more success in the treatment of cases of nasal catarrh and throat diseases than any other physician in the country. The instruments used by him, many of which are of his own invention, are marvels of skill and mechanism, and require a nicety and discrimination in their use which can be acqnired only by one who has devoted almost a lifetime of study to the understanding of the delicate organs with which they come into contact.

MARKET REVIEW.

BRICKS.—Wholesale dealers do not appear to lose faith in this market, and there is a very general expression of confidence that sellers of cargoes of Hard brick can insist upon pretty much their own terms until obliged to succumb to the influences of the spring thaw and the full restoration of water communication with the principal points of supply. Few, if any, dealers can show important stock in yard, and where there is an accumulation, inquiry generally developes the fact that it has already been sold and is merely held to await the action of builders, who will be ready to proceed with work the moment the weather suits them. It is intimated that ruling prices will have a tendency to delay and probably lessen the number of contracts for next season; but there are a good many engagements to be met, and, with the short time left to complete jobs in hand, builders and contractors must have supplies almost regardless of price, and some are inclined to operate regardless of quality, though the general average of the brick now offering is pretty good, the receipts being from the best points of manufacture. Since our last review the river has been open sufficiently to permit of a pretty free transit, and the offerings of brick have been larger. The demand, however, appeared to be fully equal to all receivers had to dispose of, and the cargoes were taken about as fast as they came to hand, and commanded extreme rates readily, anything at all merchantable selling at $12 per M. Most of these lots are probably already going into consumption, and small dealers are about as bare of supplies as ever. Long Island manufacturers were not enabled to get in many lots, the supply coming in the main from the North River yards. Pale Brick are quoted as firm at $7@7.50 per M, and a demand is reported, but there is no business doing, as it does not pay to load vessels with this class of stock at present. Fronts are without new features, quotations remaining about as before, and the demand keeping along fairly for small lots from yard.

LATH.—Since our last, receivers have gained some advantage, and the sales were nearly all at $3 per M. At the close there is no new feature, owing to an absence of stock offering afloat, but receivers talk confidently.

LIME.—The market in a general way continues dull and somewhat uncertain. This, however, is in a measure to be attributed to scant supplies, as, even if disposed to ship freely, manufacturers would experience some difficulty in getting stock through at this season of the year. The demand is good and has a tendency to improve, as the supplies of dealers are small and the call from consumers gradually increasing. The stock of State lime is offered with a little more freedom, at about the price of Eastern, but buyers appear to want only small lots, in view of the supply having been wintered over. As we close, the general wholesale market quotations stand at $2 per bbl for lump, and $1.50 per bbl for common, an advance over late prices, owing principally to considerable strong competition to secure the few recent arrivals. Dealers only buy enough for immediate wants, but a good many are low on stock, and the outlet for cargoes is fair.

LUMBER.—We have again been looking around for something new on our retail market, but do not find it, and must fall back upon the old report of a dull and generally uninteresting position. Nearly all dealers are selling something, but it is confined almost exclusively to small, unimportant lots wanted by buyers for immediate and imperative necessity, builders finishing up, etc., a few hardwoods taken to ship to near-by country towns, and now and then a nibble on California account. From some of the larger manufacturers the demand has almost entirely ceased, not because they have no use for stock, but because interior operators load them up with lumber brought in by two, five, or a dozen car loads, and placed at rates which allow our yard dealers no chance for competition. Manufacturers, however, cannot be persuaded to handle more stock than their early wants seem to call for, and in a good many cases outside operators have overshot the mark and found themselves with lumber on hand and no ready buyers. The result has been a considerable amount of peddling around at the yards, but few of our first-class dealers would afford relief, unless the rates were put "'way down," and a little more experience of this kind will probably teach would-be sharp operators that the cutting-under system must be managed with great caution to pay. Of common pine box and shipping boards it is almost impossible to find an assortment, but of other grades the supply holds out well. Prices remain much the same as before, though we revise a few figures previously overlooked.

In a wholesale way there is still rather a dull as well as a somewhat uncertain market; and, indeed, both New York and Albany are falling behind materially in the way of cenres for the sale and distribution of large parcels of lumber. Dealers, manufacturers, and shippers are now afforded so many facilities that they find it more advantageous and quite as easy to deal direct with the mills, even as far west as the Saginaw valley. Our coastwise trade is retained, but this does not amount to much, except during more open weather. Accounts from all points of the interior continue to speak in very strong terms of the condition of the markets, and though every day seems to confirm the prospect of an extensive run of logs, buyers are operating with much freedom, and a large proportion of the lumber on hand at the mills is already sold at extreme rates.

The exports of lumber are as follows:—

	This week. Feet.	Since Jan. 1. Feet.	Same time '71. Feet.
Africa	——	85,415	217,117
Alicante	——	——	——
Amsterdam	——	——	——
Antwerp	——	——	379,585

Venezuela	14,120	38,652	15,216
Total	596,835	3,103,735	2,112,491
Value	$17,115	$100,632	$69,026

At present the most noticeable firmness throughout the market is upon the common and coarse grades of white pine. With the exception of a few odd lots on which owners expect to get a still higher price, our own market is bare both in bond and duty paid, and nearly all the principal seaports on the Eastern coast are also cleaned out, while nothing can be obtained from the interior, partly from want of means of transportation, and partly to an absence of supplies. The call has been mainly for export, and bids have increased until $28 gold in bond is now an inside rate, and $32@33 per M currency here, bid for a desirable selection. All calls, however, are simply on positive orders, and no one will contract for future at the ruling rate. The finer qualities are unchanged and may be quoted at $40 per M for pickings, and $45 do for selects. Eastern Spruce has not been very plenty, and it is probably just as well that it was not, as there appears to be no demand, and few dealers would be willing to handle stock. A cargo or two, of course, can be placed by judicious management, but there is no free outlet, and rates are somewhat nominal, though we continue to quote at $17@18 50 per M for inferior to fair, and $19@20 do for good to prime do. Yellow Pine, without showing any great amount of activity, meets with a fair demand, and sellers are firm, with a hopeful tone for the future. Sales of random cargoes at $28@31 per M; $32@38 for special cuts, and $39@40 for fancy do.

We note additional exports as follows:—

To Odessa, 22 logs walnut, $910; to New Granada, 6 spars and 110 shooks; to Rotterdam, 7,440 staves; to Liverpool, 16,000 staves; to Bristol, 4,800 do.; to Brazil, 56,000 do., 148 shooks, and 48,000 hoops; to British West Indies, 350 shooks; to British Guiana, 694 shooks; to French West Indies, 466 shooks; to Cuba, 3,315 shooks, 66,700 hoops; to Porto Rico, 1,749 shooks; to Peru, 930 shooks. The receipts reported are as follows:—From Tampa Bay, 989 logs cedar; from Charleston, 85,000 feet lumber; from Fernandina, 162,000 feet do.; from Jacksonville, 216,000 feet lumber; from St. John, N. B., 1,500 feet lumber, and $13,000 lath. Charters as follows:—A Br. Brig, 409 tons, to Rosario, lumber, $22 and primage; a Ger. Brig, 158 tons, to Hamburg, cedar, 35s. per ton, measurement; a Ger. Brig, 305 tons, to Hamburg, Black Walnut, 30s.; a Br. Barque, 446 tons (now at Boston), from St. Mary's, Geo., to River Platte, lumber, $22 and primage; a tern. Schr., 344 tons, from Morehead City, N. C., to Havana or Matanzas, R. R. Ties, 35c each, and back to New York, sugar, $5.75, vessel paying port charges; two brigs, 391 and 431 tons, to Cardenas, empty hhds., 90c each; a Brig, 405 tons, same voyage and cargo, $1 *currency;* a Br. Brig, 395 tons, to Matanzas, empty hhds., 80c; a Schr., 130,000 feet lumber, from Jacksonville to Havana, $10; a Barque, 301 tons, to Cardenas, empty hhds., $1 each; a Barque, 424 tons, to Havana, box shooks, 12c; a Schr., from Jacksonville to New Haven, resawed lumber, $12; three from Jacksonville to New York, resawed lumber, $12; one from Jacksonville to New Haven, dry boards; $11.75; one from Savannah to New Haven, resawed lumber, $9.50; one from Brunswick, Geo., to New York, $11.

LUMBER SALES.—Over 30,000,000 feet of lumber of next year's cut is known to have been sold thus far, the prices being $6, $12 and $34. We take this as an early indication of a good demand, but not as an indication of prices, which we believe will be better than these figures.

SALE OF BOOM.—The report mentioned in yesterday's *Courier* in regard to the sale of the Patrick boom is confirmed. The sale was made by Mr. W. S. Patrick to H. W. Sage for $10,000. This is only about half, or less than half the money that the boom cost Mr. Patrick, who built it. In this sale, Mr. Patrick still maintains a suit now pending in the Genesee Circuit against Mr. K. H. Styles, the President of the Au Gres Boom Company, for damages laid at $50,000. Mr. Patrick has three other suits pending which are dropped by this sale, but the suit mentioned is provided in the sale to remain until disposed of. It is claimed by Mr. Patrick that the Au Gres Boom Company or its employees cut the boom of Patrick, allowing 13,000,000 feet of logs to run through into the boom of the Au Gres Company. The capacity of the Patrick boom is 30,000,000 feet of logs, while that of the Au Gres is 40,000,000, making a joint capacity of 70,000,000 feet.

MICHIGAN LUMBER INTEREST.—The so-called "Chicago Relief Bill" permitting the importation of lumber into Chicago free of duty, to the damage of the lumber interests of Michigan and Wisconsin, not to say the whole Northwest, was virtually disposed of last Monday in the Senate. After a warm discussion, led by General Logan on one side, and Senators Carpenter, Chandler, and Ferry on the other, the question to reconsider the former vote in the bill by which it was passed, was carried by a vote of 25 to 22. There were 25 Senators absent, but still, had there been a full vote, it is doubtful if the result would have been different.

The St. Cloud *Journal* says:—"Reports from the pineries state that the season for lumbering has been favorable almost beyond precedent, and that operators are getting out more logs than they can use. One lumberman, who expected to cut about 16,000,000 feet, will have some 30,000,000. That ain't the case in Saginaw."

EAST TAWAS, Feb. 14th, 1872.

It rained nearly all day yesterday, and lumbermen began to draw their faces down as though some calamity had come upon them. Last night it came off cold, and to-day has been a big day among the log rollers. We hear of big loads and big day's work skidding,—of course, the stake is set so high, that we do not try to compete for the applause—of course some of the camps on the shore make good showings, for instance, the big days' work of Loud, Gay & Co., which was published in the papers, and there has been some good work done in Bliss & Piers' camp,—44,000 feet of Norway in 19 loads is not bad. Also Truman Smith's camp have a big day's work in 91,800 feet with thirteen teams and six mile hauls. There are probably a good many who can beat us, but when you take into consideration the weight of our timber, and the number of logs it takes for a thousand, we think we are doing great work.

The Green Bay (Wis.) *Advocate* says:—

The duty on lumber and timber, hewn and sawed, is 20 per cent. *ad valorem*. This duty it is proposed to take off in the case of Chicago. It will amount to $2@3 per M., and the effect would be to rush into that market all classes of cheap Canadian lumber, to the exclusion of that of our own pineries, which need, if they ever did, the fostering care of government. We are glad to see that the Wisconsin Legislature has promptly protested against such favoritism. If Congress desires to favor Chicago, let the duties be taken from such manufactures as have not suffered from the great fires.

Mr. Joseph Harris has collected the following statistics of trade and commerce of Green Bay for the year 1871, as bearing upon the prospective business of the Canal:

Lumber, manufactured, feet	500,000,000
Shingles, manufactured, feet	900,000,000
Lath, manufactured, pieces	340,000,000
Pickets, manufactured, pieces	35,000,000
Railroad ties, manufactured, feet	2,500,000
Cedar posts, manufactured, pieces	1,600,000
Staves, manufactured, pieces	2,200,000
Telegraph poles, manufactured, pieces	650,000
Wooden-ware, manufactured, pieces	11,697,000
Evergreens, number	6,400,000
Cord-wood, cords	70,000
Tan-bark, cords	12,000
Flour, barrels	160,000
Fish, barrels	40,000
Salt, barrels	33,000
Wheat, bushels	340,000
Oats, bushels	160,000
Hay, tons	14,000
Pig Iron, tons	45,000
Iron ore, tons	630,000

The total value of these exports is estimated at $65,000,000, and the value of imports, such as mill supplies and merchandise, is estimated at $24,000,000.

There are over one hundred saw mills in operation along the shore of Green Bay, employing about fifteen thousand men, and the capital invested is estimated at $100,000,000.

"The fact is becoming every year more apparent that the pine timber that we have so long regarded as one of our greatest sources of wealth in Brown County, is being rapidly exhausted. We learn that this winter the last logs will be got into East River, and that ground many times culled over before, is now being stripped clean of everything but brush. Every year several mills work themselves out of businesss and are moved to new locations, and it is our belief that within five years the lumber and shingle business of Brown County will be no more. And what then? Staves are the next most important product, and stave mills for the working up of the oak timber are on the increase. But the oak will not always last. But then it may be said, there is plenty of other timber. Very true, but with the three iron furnaces now running, and more in prospect, how long will that last? The sum of this is that Broome County is being denuded of timber, and in ten years the timber will be about as scarce as on the prairies."

The Milwaukee *Wisconsin* says reports from the pineries give very encouraging accounts of the winter's campaign. The sleighing is good, and immense piles of logs are being banked. More logs will be got out than ever before in Northwestern Wisconsin. Prospects are good for a favorable season as soon as spring trade opens.

A gentleman from the Green Bay pineries states that the fires have so injured the timber that it will die out in three years, consequently a double force will have to be put on to clear it off in that time; had it not been injured, it would have supplied them for ten years.

A large force of men are engaged in logging on the Chippewa and Eau Claire rivers, and it is anticipated that the number of logs "put in" this season, will far exceed the number cut last winter.

Peters mill, Little Suamico, started up in heavy manufacturing order two weeks since, with new boilers and smokestack, and is turning out 75,000 shingles per day; they are also cutting lumber. They have banked one and one-half million feet of logs thus far. Conn's mill started up a few days since, cutting as yet only from 25 M to 30 M lumber, as they are running a small force. They have banked four million feet of logs. They will put in about twelve million. Lamb, Watson & Co.'s mill has been running during the day for over a week, and now will begin to run through the night. The river bed is filled with logs. Look out for big jams in the spring. So writes a correspondent.

The Dunn County *News* says reports from the logging camps are most favorable. The number of log banks this winter will be unprecedentedly large if the season continues as it has commenced.

A Manistee paper states that 350,000,000 feet of logs will be got out along the Manistee River and its tributaries this winter, against 250,000,000 last season.

About 80,000,000 feet of logs will be put into the Au Sable river and its tributaries this winter. No timber worthy of mention was burned last fall in the Au Sable district, and the same is also the case in regard to the Thunder Bay river district.

An agent for a Canadian firm has a large force of men engaged getting out square timber on the head waters of the Rifle river, Michigan. The timber will be floated on the river, then shipped on timber vessels down the lake, the principal points of destination being Tonawanda and Garden Island, on Lake Ontario.

Lumber speculators have purchased the pine on 10,000 acres of land in Isabella County, Michigan, from the Indians, at what is considered an inadequate price.

The Postmaster at Alpena, Michigan, has lists of names from 48 different camps containing 1,047 names, and there are several other camps that have not yet reported.

The Wausau Central *Wisconsin* states that logging prospects in that region are growing better and still better every week. The supply of snow is all that could be reasonably expected; the weather the most favorable, and thousands of tall pines in the valley of the "Wisconse" are being brought low by the well-directed blows of the woodman's axe.

Schofield & Co.'s new mill at Williamsonville will be completed in February. The firm will get out ten million feet of logs this winter.

Among the notable events of the present logging season is the opening up of a new lumbering field on the upper Manistee. Up to this winter there have been no logs put in above the Manistee county line. But the Manistee Improvement Company have, during the present season, removed

all the obstacles or jams from the river, so as to put it in good navigable condition as far up as the east line of town 24, north of range 10 west. This new field is being rapidly occupied. From 12 to 15 camps have been established in this new region, and from 30,000,000 to 35,000,000 feet of pine will be put in in Wexford county this season.

About 23,000,000 feet of logs will be got out on the east branch of the Au Gres River, Michigan, this winter. This is the first lumbering of any extent ever done on that stream.

LUMBERING.—Our Allegan county lumbermen have never been favored with a better run of sleighing, and have improved their opportunities by the hauling in of logs to their mills or to the creeks and rivers contiguous thereto. In our own village the streets near the mills and the public square are filled with logs. In no winter has a greater quantity of logs and timber been got out than in the season which has passed.—*Allegan Journal.*

A correspondent writing from Youngsville, Penn., to the Erie *Despatch*, says:—

The new year comes in bearing sorrow for the Allegheny lumbermen. After their lying blistering all through a long summer, a rise of water came late, which did not last long enough, and left the greater portion on the bars and islands where they froze in. The owners then commenced drawing it ashore, when the ice broke up and took the ill-fated lumber and stranded it again in still more inconvenient places, mixed with heavy cakes of ice. The owners followed up and commenced the tedious and laborious work of drawing it to the high bank of the river, as a place of safety, when, alas, the evil genius again follows them in the shape of heavy snow melting rains. If the water continues to rise at the present rapid rate, little hope is entertained of saving the greater share of it, as it will be washed far beyond recovery.

The Boston *Commercial Bulletin* reports:—

Business at the retail yards yards is comparatively quiet. Wholesale dealers are busy on future contracts. The market is firm, and there is the usual seasonable demand. Capitalists and architects are at work on plans for future building, and in a few weeks active operations will commence. Real estate movements are active in suburban towns, and almost every farm within eight or ten miles of Boston is laid out into miniature villages, towns and cities, with a few corner lots left. Each of these cities to be worthy of the name, must be able to boast of 20 or 30 new buildings in progress, and in the aggregate making heavy drafts upon building materials. These new enterprises are considered speculative and visionary by one class of capitalists, who are more willing to invest in choice lots on High, Fedral, Summer, and Essex streets, believing in a solid business growth for the Boston mercantile interests, and a corresponding demand for stores and warehouses. That the business of Boston is increasing rapidly is thus certified to, both by the builder who provides houses for people of moderate means and the capitalist who furnishes places of business.

The receipts of lumber are light for the season. Spruce, sawed to order for building purposes, is furnished solely by the railroads through the winter season, and we note large arrivals over our Eastern roads. Canada and Western lumber is firmly held. Southern pine flooring boards have advanced and are in good demand. Laths are scarce and high. Shingles and clapboards are quiet.

The following are the surveys for the week:—

Domestic Lumber.	Feet.
Pine	150,948
Southern Pine Plank and Timber	368,480
Hard Wood	65,975
Pine Timber and Joist	7,339
Spruce	202,993
White Wood	21,362
Southern Pine Flooring	275,481
Total	1,092,578

METALS.—Ingot copper has been in better demand, and as the stock is becoming reduced, prices are ⅛@¼c higher and very firm. Manufactured copper has been advanced two cents per lb. We quote: Ingot 28¼@28½c, cash, and up to 28¾c for March and April delivery; New Sheathing, 36c; Yellow Metal, 26c; Old Sheathing, 25½@26c. Scotch Pig Iron still rules quiet but firm, at a shade higher prices. We quote Glengarnock, $42; Eglinton, $40; Summerlee, $41.50 per ton; Gartsherrie, $43, and Coltness, $44, all from the wharf. American iron continues very firm with but little stock to be had. We quote: No. 1, $42@45; No. 2, $41@44 for extra; and forged, $39@40. The higher price is asked by the companies for what little they have left, while there are a few small lots in second hands that could be purchased at the inside figure. Refined Bar is held very firmly at the late advance. The prospects are encouraging for a still further appreciation of values. We quote from store as follows: Bar Swedes, $115@125; refined, ordinary size, $97.50; refined, 1¼ to 6 by ¼ and 5-16, $102.50; refined, 1 and 1¼ by ¼ and 5-16, $105; refined, 2½ to 3 round and square, $105; scroll, $115@145; ovals and half round, $112.50@132.50; band, $110; horse-shoe, $110@120: rods, 5-8 to 3-16 inch, $102.50@137.50; hoop, $117.50@165; nail rod, per lb, 7¼c. Common Sheet is very scarce and firm. We quote at 5½@6 for single D and T, and 6½@7 for D and T Charcoal. Galvanized Sheet continues strong. We quote at 12@13c for 14@20: 12½@13½c for 22@24; 13½@14c for 25@26; and 15@19c for 27@29, all less 20 per cent. to the trade. Russia Sheet is quiet. We quote at 15c gold, according to number. Pig Lead is very quiet and prices nominally unchanged. We quote at $5.90@6.25 for common to good forge. Manufactures of Lead are steady at previous prices. We quote at 9½c for bar: 10c for sheet and pipe; 15c for tin-lined pipe, all less 10 per cent. to the trade. Pig Tin is still very quiet and prices lower. We quote in coin at 35½@36c for English; 36@36¼c for Straits; and 41c for Banca. Plates have ruled more active and large sales effected at higher prices. We quote: I.C. Charcoal, $10.75@11; I. C. Coke, $9.75@10; Coke, $8.25@9, and Charcoal Terne, $9.50@9.87½. Sheet Zinc is quiet at steady prices. We quote at 10½@11c gold for Mosselmann from store.

NAILS.—The general demand still evidently fails to satisfy expectations, and the market is hardly as active as dealers look for at this season. Buyers are to be found, and in increasing numbers too, but their wants are confined to small parcels and having obtained enough to carry them through present necessities, they withdraw. The amount of supplies available in a general way is pretty good and also the assortment, but there is an attempt to keep the production ganged closely to the outlet and in view of the cost of iron, manufacturers are inclined to considerable firmness. An advance of 25c per keg has lately been made, and at this improvement the tone at the close is quite stiff. We quote per 100 lbs: cut, 10@60d, $5.00: cut, 8@9d, $5.25; cut, 6@7d, $5.50; cut, 4@5d, $5.75; cut, 3d $6.50; cut, 2@3d, fine, $7.25; cut spikes, all sizes, $5.25; cut finishing, casing, box, etc., $5.50@7.00; clinch, $6.50@7.00; horse-shoe, forged, No. 10 to 5, per lb., 19@23c. Other styles are selling as follows: Copper, 42c per lb.; Yellow Metal, 26c do.

Exports as follows:—

	Past week.	Since Jan. 1.
Packages	212	2,057
Value	$1,223	$14,141

PAINTS AND OILS.—The demand for large invoices is not very extensive, but still there is a fair business doing, and the market has a generally healthy tone. From recent arrivals a few fresh offerings are made, but a goodly proportion of the stock coming to hand goes to meet contracts and the accumulation in importers' hands is not greatly increased. The distribution by jobbers is still good and in many cases claimed to be in excess of last year, with no indications of any immediate falling off, as the wants of interior buyers are large. Prices are firm and in some instances on the upward turn. Paris white is stimulated by encouraging accounts from abroad. Chinese Vermilion is held at higher figures both on spot and to arrive. Of Orange Mineral there is a very scant supply, and also choice Venetian Red. China Clay favors sellers. Glues are going out freely, with a comparatively small stock of domestic left and an actual scarcity of choice foreign grades, and not many parcels available to arrive. Linseed Oil has undergone no very decided change, though, if anything, the market is a shade firmer, and little if anything is now to be obtained under 87c in casks. Crushers control the stock very fairly and offer with moderation and generally appear to think they must obtain still higher rates as spring approaches.

Exports as follows:—

	Past week.	Since Jan. 1, 1872.
Paint.....pckgs.	179, value $2,613	1,153, value $12,157
Linseed oil. galls.	311, " 298	811, " 738
Oxide zinc, pcks.	— " —	— " —

PITCH.—There has been but little done beyond the usual jobbing trade in small lots, but prices are firm and the tendency is toward higher rates. We quote: prime city delivered at $4.75@4.87½, and $5.00 for small lots. Receipts for the week, nil bbls; since Jan. 1, 225 bbls; same time last year, 50 bbls. Exports for the week, 100 bbls; since Jan. 1, 499 bbls; same time last year, 225 bbls.

SPIRITS TURPENTINE.—As we predicted last week, prices have gradually advanced each day until at the close the market is very strong at 88c for spot, and sales for early March delivery at 90c, and the tendency is still upward. We quote merchantable and shipping order at 88c, and retail lots from store, 90@91c. Receipts for the week, 850 bbls; since Jan. 1, 6,899 bbls; same time last year, 5,161 bbls. Exports for the week, 235 bbls; since Jan. 1, 3,985 bbls; same time last year, 1,280 bbls.

TAR.—There has been a light inquiry, and we notice sales of Washington at $3.25, but small bbls., regular pkgs are still held firmly at $3.37½ for Washington and Newberne, and $3.50 for Wilmington. Receipts, for the week, 266 bbls; since Jan. 1, 3,708 bbls; same time 1871, 457 bbls. Exports for the week, 211 bbls; since January 1, 928 bbls; same time 1871, 682 barrels.

Cor. 50th Street, NEW YORK.
Property sold and rented. Loans negotiated. Charge of houses and collection of rents a specialty.

No one should Build or Live in a House
WITHOUT EXAMINING OUR
ELECTRICAL APPLIANCES,
without which no house can be said to have all or even the MOST IMPORTANT OF MODERN IMPROVEMENTS; in fact, they are indispensable for the complete outfit of a first-class house with what may be termed necessary conveniences. All English and French houses at the present time are furnished with this electrical apparatus.

E. HOLMES'
Burglar Alarm Telegraph.
This one Bell, located in the Sleeping-Room, when set for the night, rings upon the opening of each door and window of the house. It is a watchman that has but one house to protect; never goes to sleep; cannot be bought off; and an experience of ten years, without a failure, proves it to be perfectly reliable and satisfactory.
PARTICULAR ATTENTION
is requested to our new
HOUSE ANNUNCIATOR,
An improvement upon the French system.
IT CONSISTS OF A SINGLE
CALL BELL AND ANNUNCIATOR,
in the kitchen or servants' department, and so arranged that the simple touch of a small ornamented spring in each room of the house RINGS THIS BELL AND ANNOUNCES THE ROOM from which the call proceeds—the bell continuing to ring until the servants give it attention. The whole thing is operated by
ONE BATTERY, OR BY THE SAME BATTERY
that operates the
Burglar Alarm Telegraph.
It is simple, perfect, and reliable, and will not get out of order, and is a very great improvement upon the old system of "bell pulls." We also have
An Attachment for Ringing Door Bells and Servants' Bells from the
TABLE OR DINING ROOM,
by placing a spring in the floor, and covered by the carpet. Also, for
Calling the Coachman from the Stable.
Send for pamphlet containing ten or twelve hundred TESTIMONIALS. They are from our best citizens and first business men of New York and vicinity.

E. HOLMES,
OFFICES:—
7 Murray Street, New York.
6 South Clark Street, Chicago, Ill.
1111 Chestnut Street, Philadelphia, Pa.
69 West Fourth Street, Cincinnati, Ohio.
205 River Street, Troy, N. Y.
121 Washington Street, Boston, Mass.

CAUTION.
The public are cautioned against all infringements upon this patent, even when called improvements; other parties have slightly changed my method of doing the same thing, and without any practical experience speak of it as a very great improvement. This invention is the only one that has had practical experience. It has been in general use for ten years, and every real, practical, or desirable improvement that study and actual experience could suggest has been added.
All violations of my patent, either by using or vending an infringement, will be dealt with to the full extent of the law for such cases provided.

BOYNTON'S

IMPROVED ELEVATED

OVEN RANGE.

This *Beautiful Range*, improved last year, is offered to the *Public* as the most *Complete*, *Convenient*, and *Desirable Elevated Oven Range* in the *Market*, and is the *result* of long experience in the *Manufacture* and *Setting* of *Cooking Ranges*; and we do not hesitate in recommending it as the *nearest* to *perfection* of any *Elevated Oven Range* in the *Country*.

The *body* of this Range is higher than other *Patterns*, and is more like the *French Kitcheners*, making it much more convenient and *easy* for the *cook*.

The *Hot Closets* are more accessible, placed in a *natural* position, being in the body of the Range, instead of above the ovens, as in other patterns.

ALSO,

FURNACES, HEATERS, AND STOVES

IN LARGE VARIETY.

We always guarantee the work we do ourselves to be perfectly satisfactory.

PATENTED 21ST MARCH, 1871,

Is adapted to ordinary round pulley, and strong enough to suspend weights of any size required.

Being intended as a substitute for sash-cord, it can be put into sashes now provided with cord without any change of pulleys. The inventor feels confident that experience will prove his chain to be both economical and durable, besides doing away with the constant annoyance and expense attending the use of sash-cord.

NO receipt for money due the REAL ESTATE RECORD will be acknowledged unless signed by one of our regular collectors, HENRY D. SMITH or THOMAS F. CUMMINGS. All bills for collection will be sent from the office on a regularly printed form.

IS ANARCHY POSSIBLE?

THERE was a passage in General Dix's speech at the Cooper Institute meeting of the Committee of Seventy which it would be well for our property-holders to ponder. The speaker alluded to the possibility of revolutionary action if we failed by legal measures to secure reform for the city. William M. Evarts plainly said that, if we could not get it fairly by ballots, then bayonets must be tried. And no thoughtful person can doubt that these are among the possibilities of the future.

Our local government has gone on from bad to worse, in spite of repeated and systematic efforts at reform. Deluded by the Republican and Democratic catch-words which have been familiar to our ears from infancy, our people refuse to see that universal suffrage has put so tremendous a strain upon our institutions in a large city like New York, that they have broken down under its practical operation. In any provincial or rural community, where property is pretty fairly distributed, and where everybody knows his neighbor, local government and the popular suffrage may be a good thing. But in a large city like New York, filled with people who own no property and have no stake in the community,—people raked from all corners of the earth,—without common nationality, religion, or traditions—without public spirit, and intent only on living a mean, selfish life,—under such circumstances republican government is simply impossible.

The party managers know and realize this, and hence the party organizations in this city have always been autocracies or oligarchies. Thus we have seen Mayor Wood rule alone; and we have seen Tweed, Sweeny, and Hall acting as a sort of triumvirate, and swaying the party with absolute power. Now, for the twentieth time, our people are engaged in a reform movement.

A new charter is before the State Legislature; and enthusiastic persons are expecting that the millennium will come if it pass. The millennium will not come. If the charter pass, which now seems probable, it will prove as faulty a document as any of its predecessors. The difficulties we have had to contend against have never been created by our charters, which were always well meant, and if honestly worked, would have given us good government. The evil has been in the administration of our affairs—in the lack of public virtue and private honesty among those who had control of the city. The time will come—it is not far off—when the property-holders will see that their only safety lies in getting rid of this swarm of irresponsible voters who now control city politics; or rather, who are used by their natural leaders, rogues high in office, for mal-administration in all that concerns the interests and credit of the city.

A long run of corruption is always followed by violence and turmoil. Such a revolutionary period will certainly come in this city; and that, in all probability, within the next ten years. Those who really have the good of the city at heart, those who have a direct interest in good government, will not submit to be plundered year after year under the forms of law. Property-owners would do well to bear these contingencies in mind. They must not be disappointed if the present movement towards reform proves a complete failure. It is very evident to any one who knows the inside workings of our government that there is not the slightest probability of the thieves being punished or one dollar of their ill-gotten wealth being restored to the City Treasury. What these fellows have got they will keep, and all the legal proceedings and all the criminal trials will come to naught.

We say all this in plain soberness, with no intention of creating unnecessary alarm. We say it because we believe it is well for property-holders and capitalists to keep these contingencies always in mind. General Dix and William M. Evarts are not the men to make such observations as those we have adverted to without consideration. And no one who is not thoroughly self-deluded can shut his eyes to the fact that honest administration of affairs in this city is utterly impossible with the political power placed where it is. If it could be possible for the property-holders to be wise enough to make friends with the poor creatures who do the voting, by giving them free ferries, free gas, free public markets, and cheap railroads—by showing themselves the friends of the poor in material things—then the ignorant voters might be won away from the public adventurers who now lead and cajole them. But property is not always distinguished for wisdom in matters like these: and the probability is that, in spite of these warnings, property-holders and capitalists will continue to allow the voting populations to be controlled by the various political rings hereafter to be formed. But they will finally have to face this problem: Whether they will submit to be robbed year after year, or whether Hans and Pat shall be deprived of the power of doing any more mischief.

NEWSPAPER ADVERTISING.

TO THE EDITOR OF THE REAL ESTATE RECORD.

SIR—Among the claims submitted to the Board of Audit is one for $12,000 from the *Evening Post* for printing the report of the departments of our late "Ring" rulers, in which they (the Ringmasters) endeavor to exculpate themselves from the charges made by the *Times*. It is a curious coincidence that at the time the *Evening Post* did this printing it was apologizing for, or explaining away, or asking for a suspension of judgment in regard to the doings of the Ring. Printers who knew where the work was done were surprised at the time that these fat plums should be taken away from the printing establishment owned by the Ring, and given to the evening paper in question. But I do not want to appear censorious when I ask: Was there any relation between this $12,000 printing job and what we know of the course of the *Evening Post* at that critical and exciting period?

Again: Did the subsequent retirement of Mr. Charles Nordhoff have any relation to the attempt on the part of the managers of the *Evening Post* to shield the Ring from the merited public odium they had incurred?

Still another point: It seems that the *Evening Telegram*, a paper owned by Mr. James Gordon Bennett, Jr., a paper of no character and very limited circulation, received $96,000 for newspaper advertising! As the Bennett family are rich, as the *New York Herald* is the most prosperous of city papers, what can men of wealth and character think of its proprietor, who has helped to plunder the city of all this money? The *Herald* could be in no need of such ill-gotten emoluments. One can understand why poor, starving printers or broken-down editors should try to eke out their narrow means by the profits on illegitimate city advertising. But when wealthy men like James Gordon Bennett, when persons of such high character as William Cullen Bryant, allow their respective establishments to become a part of the odious machinery for plundering the city—where, oh where are we to look for fair dealing and public virtue?

ENQUIRER.

[WE publish this communication with much hesitation. It is incredible to us that an establishment treated so well by the general public as the *New York Herald* is should take its place, in this indirect way, among the city plunderers. James Gordon Bennett, Jr., is a young gentleman of sporting tastes, and moves now in the best society of New York. He represents the pride and chivalry of our city in journalism, yachting, pigeon-shooting, and sporting generally: that *he*, with his immense income and high-standing, should consent to rank among the small newspaper thieves who have in times past plundered the city, is, as we have said, simply incredible. We do not believe it. There must be some other explanation of this $96,000 received by the *Telegram*. As for the other journal mentioned, the *Evening Post*,

the character of Mr. Bryant is in itself a sufficient refutation of all calumnies in reference to these printing transactions. True, it is said that he does not own the *Evening Post*, and that the controlling spirit of that journal is Mr. Henderson, the publisher. But we are sure that there must be some other explanation of this advocacy, this defence of the Ring by the *Evening Post* while it got the printing, some way of accounting for its course other than that so censoriously suggested by our correspondent. —EDITOR REAL ESTATE RECORD.]

THE NORTH PACIFIC RAILROAD.

THE press of the country is very generally bribed to publish the interested statements of the great corporation of Jay Cooke & Co; and it is quite time that some public journal in the interest of the community at large should present a few important facts in regard to the real condition and operations of this corporation. When the story is told of how Jay Cooke & Co. manipulated the press, so as to induce the public to subscribe for that preposterous railroad scheme, the Northern Pacific, it will be one of the most shameful chapters of current history. The misrepresentations that have been made in regard to the property itself, and of the country through which the line is to pass, are unexampled in the whole record of advertising fiction. We simply wish to say to persons interested, that every dollar they have laid out in that enterprise is probably a "permanent investment"—that is, they will never see it again; and that every unfortunate emigrant who buys land will be sacrificed to the cupidity of the great money kings who control the property.

We doubt if the money can ever be raised to build this road; and if built it would be utterly useless for purposes of commerce. If the projectors of this line really believed in its practicability, and if they were honestly expending the money raised in the building of the road, we might have given them credit for good intentions at least. But the simple fact is they are going the way of all railroad companies, and are manipulating the government lands so as to enrich the ring which controls it. An intelligent correspondent at one of the principal points on the road makes the following statements in regard to this enterprise:—

1st. That Jay Cooke & Co. pledge themselves in all the published statements of the Company to devote the proceeds of the sale of all lands along the line "to the purchase and cancellation of the first mortgage bonds, or temporarily to the payment of interest thereon, if necessary."

2d. That if the trustees (Jay Cooke and Edgar Thompson) did honestly announce the town sites upon the road, and did honestly sell off the lots in open market, the profits upon the sale of these lands, which are very large, would accrue to the benefit of the stockholders of the company.

3d. That Jay Cooke & Co. have done nothing of the kind. On the contrary, they have metamorphosed themselves into a semi-fictitious organization called the "Lake Superior and Puget Sound Company"—a sort of land agency. That in the name of the Northern Pacific Railroad they sell to themselves as the Puget Sound Company *all the most valuable lots in the town sites at pre-emption prices* (almost nominal); and then the Puget Sound Company sell off these lots to settlers and emigrants at prices averaging *five hundred dollars a lot!* The enormous, the almost fabulous profits made upon these juggling transactions of course go into the pockets of Jay Cooke & Co; and the stockholders of the Northern Pacific Railroad get—*nothing!*

4th. That sometimes the Northern Pacific Railroad Company does not even get the nominal price for their lands. For occasionally a member of the Puget Sound Company will stray out on the line of the company, and, with marvellous foresight, *pre-empt* what eventually turns out to be a town site!

5th. That the Puget Sound Company, after ascertaining in any given town site which will be the principal block, withdraw all the adjacent blocks from the market, thus forcing the settlers to build up the suburbs, before they (the P. S. Company) offer the withdrawn lands, at greatly increased prices, for sale.

6th. That the entire plan and procedure of the Northern Pacific Railroad is devoted to putting millions of dollars into the pockets of the "Puget Sound Company," alias Jay Cooke & Co.

MR. GREEN keeps up the unequal fight against the city claimants and plunderers, and is today, in consequence, the most unpopular man in the city of New York. An honest man in his position could not but be unpopular. We do not pretend to judge of the specific complaints against the Comptroller; we only know that any incorruptible man, who had his work to do, would be compelled to displease a hundred persons where he satisfied one, and that these hundred would be clamorous in his dispraise.

The disheartening thing about the whole matter is the profound indifference of the general public, in whose interest Mr. Green is working. He is left alone in the fight; and the taxpayers and wealthy classes, who ought to rally to his support as one man (even granting that he has made mistakes), abandon him to his fate, nor give him the slighest personal or moral support. It is very certain, from the revelations that have been made, that the next Comptroller, whoever he may be, will consult his own peace of mind, and will be quite as popular with the property-holding and tax-paying community if he disburses their money with fewer qualms of conscience than Mr. Green exhibits.

PROJECTED BUILDINGS.

The following plans embrace all that have been considered by the Superintendent of Buildings since our last report:—

DIVISION ST. (NOS. 123 AND 123½), ONE FIVE-story brick store and tenement, 25.6x50; owner, JACOB KORN; architect, JOHN B. SNOOK.

EIGHTY-FIFTH ST., N. S., 225 E. 3D AV; AND 86TH st., s. s., 225 e. 3d av., two four-story brick stores and tenements, 25x55; owner and builder, JOSEPH MCALLISTER; architect, MYER GOLDSMITH.

EIGHTH AV., W. S., 80 S. 42D ST., ONE TWO-STORY brick second-class store, 16x55; owner, Mr. SCHATTMAN; builders, L. L. PLUMBER and J. W. PALMITER.

FIFTH ST. (No. 538), ONE FIVE-STORY BRICK store and tenement, 32x25; owner, Mrs. GROENERT; architect, J. M. FORSTER.

FORTIETH ST. WEST, (No. 347), ONE THREE-STORY brick second-class dwelling, 12.6x37; owner, M. ADELMAN; architect, A. PFUND.

FORTIETH ST., WEST (Nos. 411, 413, 415, 417), four four and five-story brown-stone-front stores and tenements; owner, T. JACOB PETER; architect, JOHN M. FORSTER.

FORTY-FIRST ST., S. S., 185 E. 11TH AV., ONE three-story brick stable, 25x45; owner, ALBERT WETGEN; architect, G. HOLZEIT; builder, H. KEECHLER.

FORTY-FIFTH ST., N. S., 200 W. 8TH AV., FOUR three-story brown stone front first-class dwellings, 20x50; owner, J. BLACK.

FORTY-FIFTH ST., N. S., 275 W. 8TH AV., FOUR three-story brown-stone front first-class dwellings, 18.9x50; owner, JOHN SHANNON; architect, W. H. CAUVET.

FIFTIETH ST., N. S., 65 E. 9TH AV., ONE FOUR-story brick store and tenement, 35x25.5; owner, MR. WOLF; architect, G. HOLZEIT.

FIRST AV., W. S., 24.8 N. 35TH ST., FIVE FIVE-story brick stores and tenements, 25x68; owner, FRANCIS O'HARE; builders, REILLY & KIERNAN.

FIRST AV., E. S., 56 N. 57TH ST., ONE FOUR-story brick store and tenement, 19x80; owner, JOHN KONARENZ; architect, W. E. WARING.

FIFTY-FIRST ST., (No. 430 W.), ONE FOUR-STORY brown-stone front second-class dwelling, 25x60; owner, JOHN OSWALD; architect, G. HOLZEIT.

GREENWICH ST. (No. 592), ONE THREE-STORY brick dwelling and stable, 25x75; owner, T. FARLEY; architect, J. B. FRANKLIN; builder, N. CONNER.

HAMMOND ST., S. S., 125 W. 4TH ST., ONE FOUR-story brick stable, 25x90.6; owner, I. H. BERDAN; architect, S. C. Howard; builder, NICHOLAS CONNOR.

NINTH AV. (No. 633), ONE FIVE-STORY BRICK store and tenement, 25x62; owner, PETER SHERER; architect, ANTHONY PFUND.

RIVINGTON AND GOERCK STS., N. E. COR., ONE three-story brick workshop, 40x32; owner, THOS. KENNEDY; architect, E. DEMNO; builder, R. HUSON.

SIXTY-FOURTH ST., N. S., 300 E. 2D AV., ONE three-story brick tenement, 25x40; owner, M. GARNISH; architect, WM. SLEIGHT; builder, D. BACHAN.

THIRD ST. (No. 242), ONE FIVE-STORY BRICK store and tenement, 24.9x79; owner, LOUIS MULLER; architect, A. H. BLANKENSTEIN.

TWENTIETH ST., S. S., 100 W. 2D AV., TWO FOUR-story brick factories, 44x59 & 44x26; owners, ISAAC A. MORAN & BRO.; architect, J. S. WHITEMAN; builder, J. H. SLOCUM.

TWENTY-SIXTH ST. (No. 211 E.), ONE FIVE-story brick store and tenement, 25x60; owners, MEIER & HAGEN; architect, WM. JOSE; builder, GEO. HERDTFELDER.

THIRTY-SEVENTH ST., N. S., 121.4 E. 2D AV., TWO four-story brown-stone front tenements, 20x58 and 25.8x58; owner, E. E. ANDERSON; architect, JULIUS BOEKELL.

THIRD AV. (No. 363), ONE FIVE-STORY BRICK store and tenement, 24.8x75; owner, JOHN FITZPATRICK; architects, BURGESS & STROUD.

ALTERATIONS IN BUILDINGS.

One brown-stone front first-clsss store, No. 534 Broadway, five stories, 24.8 by 100, rear wall to be taken down to top of first story and set back 8 feet, and rebuilt with iron arch girder; Thos. W. Lillie and Julia W. Gimbernat, owners.

One brown-stone front first-class store, No. 818 Sixth avenue, four stories, 20 by 50, extension in rear, 13.6 by 40.5, 25 feet in height; Mr. Glauber, owner.

One brown-stone first-class dwelling, west side of Fifth avenue, 28 feet north of Eigeteenth street, four stories, 26.5 by 67.8; first story to be converted into a store, and the upper portion remodeled for business purposes; extension also, in rear, 26.3 by 32.4, 11 feet in height; J. R. Franklin, owner.

One brick first-class dwelling, north-east corner of Lexington avenue and Seventy-third street, three stories, 18.9x45, bay-window to be made in first and second stories fronting on the avenue, and westerly wall taken down and rebuilt; Chas. Schlessinger, owner.

One brick dwelling, No. 454 West Thirty-second street, four stories, 25 by 50; first story to be converted into a store; Philip Bordut, owner.

One brick dwelling, No. 292 West Houston street, two and a half stories, 25 by 36, one and a half stories to be added, and extension, 25 by 12, 40 feet in height; Henry Welbrock, owner.

One brick dwelling, No. 340 East Fourth street, two and a half stories, 18.9 by 32.6, half story to be added, and extension in rear, 18.9 by 20; 35 feet high; Joseph Freund, owner.

One brick-store and dwelling, No. 486 Grand street, two and a half stories, 17 by 40, one and a half stories to be added, and extension, 17 by 12, 40 feet high; M. Rinaldo, owner.

Two brick stores, east side Greenwich street, 16 by 100, new fronts to be put in; Andrew Litteil & Co., owners.

One brick factory, Nos. 43 and 45 Bethune street, rear, three stories and basement, 60 by 25, damaged by fire, to be repaired; John J. Budd, owner.

Two frame dwellings, Nos. 405 and 407 West 17th street, three stories, 20 by 26, first story in each house to be raised and extended 20 by 14, 24 feet high; William C. Mead, owner.

One frame dwelling, No. 125 East 128th street, two and a half stories, 20 by 35, half story to be added, with Mansard roof; Edward B. Stead, owner.

One frame dwelling, brick front, No. 133 Mulberry street, two stories and attic, 25 by 40, one and a half stories to be added; Samuel Weeks, Jr., owner.

UNSAFE BUILDINGS.

Duane street, No. 149, J. Van Houten, owner; unsafe gable wall and cracked lintels.

Eleventh avenue, west side, 50 feet north of north-west corner of Fifty-ninth street, Henry Tiemann, owner; foundation wall dangerously unsafe.

Greenwich street, northeast corner of Laight street, Charles Van Seelen, lessee; dangerously unsafe awning frame.

Bridge street, No. 9, J. V. Spader, owner; dangerously unsafe lintel over entrance.

West street, No. 184, A. C. Kingsland, agent; unsafe and bulged front wall.

West street, No. 223, John A. Carnie, owner; unsafe and bulged front and rear walls.

Clinton street, No. 115, Augustus Homann, owner; unsafe front pier over corner posts.

MARKET REVIEW.

BRICKS.—The market, for common Hards, has retained a very firm tone since out last report, and everything offered has sold without difficulty at extreme figures. Aside from this, however, we have nothing of interest to advise, and no really, new features. Every cargo coming to hand is evidently wanted for immediate consumption, and buyers frequently are impatient enough to secure stock before it arrives. Of course, under these circumstances, sellers find no occasion to modify their views, 12 per M. being paid readily, and in one or two cases, when buyers were in rather a tight place, they have been forced to pay a little more, though wholesale dealers, as a rule, are not disposed to force matters too much on the advantage now in their hands. The condition of navigation has been somewhat variable, and we do not think quite so much stock has come through from points on the Hudson as last week, though the limited means of transportation have been made to do good service. From Long Island a few odd lots have straggled in, and sold quickly at the same rates as those current on North river grades, but the supply of the island is said to be pretty nearly exhausted. From New Jersey stock has been received to some extent, and sold with quite as much freedom as other qualities; the best lots commanding $10 per M. The Pale brick, however, were the most eagerly snapped up, and good first-class merchantable lots commanded $8, and little, if anything, sold below $7.50, an average improvement of 50c per M. Philadelphia Fronts are very much higher, and in an extremely firm condition; sales ranging at $38@42 per M., and in some cases $45 per M., according to quality, with the stock nearly all bought up. In fact we are informed that every parcel here and at the point of production, which could, by any means, be reached, has been secured, and that the great bulk of these purchases are for shipment to Chicago. Next spring's cargo rates are uncertain as yet, but it is thought that the opening will be high. This improvement stimulates holders of fine Crotons somewhat, who, though unable to effect any sales at present, think the outlook more encouraging.

CEMENT.—The market for Rosendale is firm, and the demand first rate. It has recently been discovered that the supply on hand in yard is quite low, and that dealers who may want stock before navigation opens will be unable to secure supplies from their neighbors, as in former years, no matter how high they may be inclined to pay, and the result is that the number of anxious buyers is considerably increased, and values assume a little buoyancy. Two of the companies, however, are seeking to afford some relief, and we understand are bringing stock down by rail and delivering at Jersey City at $2.10 per barrel, and prices range from this up to $2.25, from yard, with retail lots proportionately higher. The call is from local sources mainly, but some domestic shipments are being made, and a few export orders filled. Foreign grades are dull at present, and without many features of interest. There is a fair stock here, and though holders are refraining from pressing the sale of it, they are quite willing to operate at about former rates, and a few parcels are said to be quietly offering to arrive. It is thought that city contracts will be less plenty during the coming season, but a fair call is looked for from the United States Government. We quote Portland at about $4@4.50 per bbl., with small lots at $5@5.50 do. The receipts of foreign cement since January 1 embrace 48.50 packages.

LATH.—There has been some irregularity on this market, but the tone on the whole is favorable to sellers, and the bids and sales at a higher range than last week at the closing of our report. The receipts did not meet the expectations of buyers, and with a growing anxiety to secure stock, the inquiry was not only quick for parcels offering on spot, but extended to cargoes known to be in transit, and receivers found customers much less independent than heretofore. Indeed, among many of the wholesale dealers we find an expression of just about as much confidence as ever, in some cases even more; and not only is it predicted that the parcels piled out for $3.50 per M. will realize all expected, but that even a still higher figure will be reached. Not only are our own yard dealers about out of stock, but the same condition of affairs is said to exist in the principal cities south of us. As we close, $3 per M. is the quoted rate, but in the absence of stock and sales the figure is somewhat nominal.

LUMBER.—There is little or nothing to add to previous reports for weeks back as to the condition of trade among our city dealers, so far as the business from yard is concerned. The call is moderate from all quarters, and running mainly on small odd lots calculated to satisfy the urgent want of buyers for the moment, and there seems to be a preference for making up a dozen invoices, if necessary, rather than take more goods than are known to be actually required. Prices vary a little, according to numerous circumstances governing transactions, but neither buyer nor seller can claim a positive advantage, and the general range of quotations is without alteration. With the exception of the coarse grades of pine, there appears to be a very good assortment available still, and no difficulty is experienced in making the selections at present required. We hear complaints of a good many accounts still unsettled, and great delay in some cases on the part of contractors, etc., in affording some idea of their intentions, and this causes dealers much annoyance. Old and reliable customers, too, are cramped, and numbered among those in arrears, and, though enabled to obtain further credits to a moderate extent, there is a disposition among some of our principal dealers to refuse all fresh accounts except upon a cash basis.

The wholesale market, such as it is, shows little animation, and agents find much trouble not only in placing their contracts, but even in obtaining bids. Some of the dealers are buying stock, and we know of one or two quite large specifications taken; but these movements are not general, and in the cases mentioned were mainly owing to the fact that the offering contained a certain amount of stock peculiarly adapted to a special trade, and was worth taking when found, even at extreme values. The fresh arrivals coastwise have been moderate, but enough for the call, and sales could only be effected by naming easy terms. The inquiry for foreign shipment is good, and our exports are considerably in excess of last year, with a probability that the movement would be still larger were there more desirable stock on hand to meet the call.

Eastern Spruce has arrived to a moderate extent, but there appeared to be fully enough for the demand, and cargoes had to be handled with great caution, in order to work them off without submitting to a positive decline. The rates asked did not call forth any particular complaint from buyers, but there was scarcely any distribution, and hence an indifference about handling parcels, unless the quality was extra fine. Contracts for future delivery are still offering, but as agents' limits are not reduced, buyers are unwilling to enter into engagements, beyond now and then a few special schedules, which must be obtained at any cost. For spot we should quote at about $17@18.50 per M on inferior to fair, and $19@20 for good to prime. White Pine of common quality continues very firm, and a much larger quantity than available could be sold. Holders of any stock at all desirable are not offering, and talk buoyantly; but buyers assert they will be unable to further advance their bids. We quote at $31@33 per M for common and fair box and shipping boards; $35@38 for good do; $40 for pickings, and $45 for selects. Yellow Pine is much wanted, both on special contract and good random cargo, and is said to be attracting attention whenever it can be by any means used as a substitute for spruce, owing to the extreme rates asked on the latter. There is said to be a very fair supply of pine at the Southern mills, but not enough vessels to carry it. We quote at $28@31 for random cargoes; $32@38 for special cuts, and up to $40 per M for fancy schedules.

The exports of lumber are as follows:—

	This week. Feet.	Since Jan. 1. Feet.	Same time '71. Feet.

We note additional exports as follows:—

To Hamburg, 228 walnut, value $8,064; to London, 125 logs walnut, value $5,496; to British N. A. Colonies, 79 pcs walnut, value $168; to Liverpool, 90 logs maple, value $1,450; to British Honduras, 99 bundles shingles; to Hamburg, 7,800 staves; to Antwerp, 25,560 do; to Liverpool, 22,580 do; to London, 22,080 do; to Glasgow, 4,800 do; to Cadiz, 144,360 do; to French West Indies, 9,000 do and 105 shooks; to British West Indies, 1,278 shooks; to British Guiana, 746 shooks; to Cuba, 19,277 shooks, 8,430 box shooks, and 88,550 hoops.

Receipts reported of 200,000 feet lumber from Jacksonville; 161,000 feet do from Fernandina, and a cargo of R. R. ties from Virginia.

Charters as follows;—

A Br ship, 824 tons, from Doboy, Ga., to Cork, for orders to the United Kingdom, timber, at or about 55s; a barque, 454 tons, from Portland to River Plate, lumber, $17 net; three barques, 522, 421, and 321 tons, to Matanzas, empty hhds, 80c; a brig, 375 tons, same voyage, cooperage stock, private rates; a schr, 278 tons, to Port de France, Martinique, via a port in Maine, lumber, $9; a schr. 324 tons, and a brig, 399 tons, to Cardenas, empty hhds, 90c; a barque, 388 tons, to Matanzas, empty hhds, 90c; a schr, 182 tons, to St. Augustine, general cargo, $600, and back from Mosquito Inlet, live oak, on private terms; a schr, 142 tons, from Bucksville, S.C., to Martinique, lumber, and back from Porto Rico to Baltimore, sugar, 60c and port charges; two schrs, from Savannah to New York, lumber, $9. 50; three, from Jacksonville to New York, resawed lumber, $12; two, from Jacksonville to New Haven, resawed lumber, $12; one, same voyage, dry boards, $11.75; a schr, from Fernandina to Fall River, resawed lumber, $11.50; one, from Savannah to New York, timber, $11, and small stowage, $9.50.

The latest mail advices from Rio Janeiro report:

FITCH PINE DEALS.—43‖000@45‖000 per doz of 14x3x9, to net G. ‖41.30@‖43.50 per M feet.

ONE INCH LUMBER.—105 rs. per foot, to net G. ‖37.55 per M feet.

The Muskegon *News and Reporter* thus speaks of the lumbering prospects throughout that region:—

On the various streams of the Muskegon Valley large calculations were made for getting in logs. The snow is and has been quite deep. The scarcity of men and teams has rendered it impossible for many loggers to fill their contracts. While some have succeeded fully up to their expectations, many others are far behind, and unless the sleighing extends to the 10th or 15th of March, there will be a large number of contracts unfilled. It was supposed that over 250,000,000 feet of logs would be put in, to come down the Muskegon River, to be manufactured here the coming season; from the best information we can get, the supply will fall full 50,000,000 feet short of that quantity. Our lumbermen are feeling very confident of a good business the coming season, and instead of curtailing for fear of an overstock of logs, are urging their jobbers to fill their contracts. The various lines of railroads now open from Muskegon to all points east, west, and south, opening up to our lumbermen new markets, will result in reducing the supply of lumber to be shipped to the Chicago market below that of any other year.

AU SABLE.

The following statement is given by a correspondent, of logs to be got out of the Au Sable River this winter:—

	Feet.
Loud, Gay & Co., about	20,000,000
Moore, Alger & Co., about	25,000,000
Chas. Stone Lumber Co., about	14,000,000
J. B. Bliss, about	6,000,000
Grant & Son, about	7,000,000
Backus Brothers, about	8,000,000
Parks Bro's, about	4,000,000
Cumins & Ricks, about	3,000,000
Simms & Cumins, about	3,000,000
Wm. Final, about	5,000,000
Geo. Dole, Jr., about	2,500,000
Kilmaster & Evans, about	4,000,000
Culan Brothers, about	4,000,000
F. S. Moore, about	8,000,000
Q. Vaughn, about	4,000,000
T. Jeroliman, about	2,000,000
Knapp & Giles, about	4,000,000
Reynolds & Son, about	2,000,000
Other parties, about	10,000,000
Total	145,500,000

The above statement is said to be a low estimate by parties heavily engaged in banking and driving the logs, a large portion of which will be for rafts, to be delivered at nearly every point on the lake, from Au Sable to Tonawanda, N. Y. A large proportion are long logs.

The Flint *Globe* gives the following table of principal firms and the amount of lumber and shingles they will produce and ship at Lapeer during the present season, being a part only of the lumber production of Lapeer county, and saying nothing of hard wood lumber, staves, etc., the quantity of which will be very considerable:—

	Lumber.	Shingles.
Mayfield Mill Co.	5,000,000	15,000,000
H. H. Woodruff & Co (2 mills)	6,000,000	
Bennett & Avery	500,000	500,000
Shubel Smith	1,500,000	2,000,000
Johnston & Sicklesteel	3,000,000	3,500,000
Redfield & Parker (Dow & Co.)	4,000,000	2,000,000
McCreery & Iverey	4,000,000	3,000,000
Parson & McGonegal	1,500,000	4,000,000
Terrell & Kenney	500,000	1,000,000
Cody & Sleeper		3,000,000
Dodge & Van Dyke		10,000,000
Peter & Davis		5,000,000
Total	26,000,000	49,000,000

The Alpena *Pioneer* gives a detailed statement of logs already put in on the Thunder Bay River, from which the following summary is made, giving the grand total of 1,206

men employed; 294 teams, and 61,052,940 feet of logs. Besides this, A. Pack & Co. have 2,100,000 old logs in Trowbridge's Pond, and A. F. Fletcher & Co. 1,800.000 feet in the river, which, added to the above, make 64,952,940 feet already in the river for next summer's cut. There are also many supply teams and drivers not reported, which would swell the force employed to a considerably larger figure. Already there considerably more logs in the river than the whole last year's stock. Should the balance of season continue favorable for lumbering, the crop of logs cannot fall short of one hundred million feet.

The Saginaw *Courier* has published the annual detailed statement of the products of the Saginaw Valley, from which we make the following extracts relating to lumber. The *Courier*, after explaining unavoidable delays in the publication of the report, proceeds to say:—

The year 1871 was marked with a shortness of the log crop over previous years, owing to the very unfavorable winter which preceded it, and yet, as our readers scan the figures, we doubt not that each will be surprised as he contemplates the aggregate amount to which the season foots up, so far in excess as it proves to be over the highest estimates. In the manufacture of salt, also, the returns show a decided increase over previous years. The market for the sale of the products of the Valley during the season was well maintained, prices constantly advancing from the opening to the close. The market opened with a doubt as to the actual quantity of logs which had been watered during the winter, and under the influence of the uncertainty, prices stood at $6, $12, and $25, until, as convic.ion became a certainty, a gradual advance was noticeable, until $7, $14, and $28 became the ruling figures, while $8, $16, and $40 was realized in not a few instances. With a rising market, lumber was held firm, and the closing season found, as will be seen by the tables, a stock upon the mill docks much lighter than that of former years. Of this stock but little was in market, and it is safe at this date (February) to say that there is not now on dock, unsold, more than three or four million feet of the cut of 1871.

* * * * * * *

As we look upon the hundreds of mills and manufactories which now continue to give to the Saginaw Valley and the adjacent country so enviable a reputation for energy and enterprise as well as wealth, a reputation confined not to our own State, but as widely spread as our national boundaries, yea, and even to the nations of the old world, it is a matter of gratulation to trace it from its humble beginning, through the years of feebleness, to its present development. About the year 1818 a treaty was made with the Chippewa Indians, by which the territory now known as the Saginaw Valley was ceded to the United States. For the succeeding twelve years but few settlers turned their attention to what was then but a wilderness, inhabited by semi-friendly savages, with whom a trade in whiskey was the most profitable employment, that commodity being in in request among them in exchange for the furs which they learned to be of value to the whites. The first mill erected in the Valley was built by Gardner D. and E. S. Williams, of Saginaw City, in 1832, and run by the machinery which had been used to propel the "Walk in the Water," the first steamboat which navigated the waters of the great lakes. This mill supplied the lumber which was requisite to build the houses and buildings of the early settlers, although buildings are now standing in the Valley, the material for the construction of which was imported from Detroit. The first shipment of lumber from the Saginaw Valley was made in 1835, but not until eighteen years after, or in 1853, had the manufacture reached an extent worthy of notice. From that time forward, as will be seen, the trade has rapidly developed to its present enormous proportions.

COMPARATIVE STATEMENT.

We give below a comparative statement of lumber manufactured during the past nine years in the territory which we have included in the Saginaw Valley, namely, the Saginaw River, three mills at St. Charles, one at Kawkawlin, and four at Midland:—

	Feet.
1853	1,500,000
1863	133,500,000
1864	215,000,000
1865	250,639,340
1866	249,767,884
1867	422,963,190
1868	457,296,225
1869	523,500,830
1870	576,726,606
1871	529,682,878

NOTE.—The figures for 1853 are not part of nine years' report, but from State census for 1864.

Lumber manufacture on the "Shore," between the mouth of the Saginaw River and Cheboygan, which properly comes into the above calculation, is an important item of the product of the counties enumerated, and aggregates as follows for the years given:—

	Feet.
1866	70,000,000
1867	84,995,772
1868	94,887,313
1869	116,815,333
1870	127,738,555
1871	137,000,000

Adding the last year's product of the "Shore" to that of the Saginaw Valley, as given in the large table, we have a gross product of 667,582,878 feet of lumber, which, with auxiliary products of shingles, lath, and pickets, would give, at fair market rates, an aggregate valuation for the product of 1871, of 15,000,000.

Not included in these figures are a number of mills located on the line of new railroads, extending west and north through the wilderness. These mills are small, but their total products swell the grand aggregate very materially. Through the counties of Saginaw and Bay are a number of small mills, mostly portable, cutting hard wood, as well as pine lumber, together with shingles, whose total product would probably reach 15,000,000 lumber, and as many shingles, but to these we shall allude more at length in subsequent tables and remarks.

STANDING TIMBER.

In our statement for 1868 we gave an estimate of the amount of standing pine in Saginaw and shore districts. This statement was prepared by one of our oldest and most reliable land lookers, and aggregated 8,232,600,000 feet. Three years' cuttings have been taken off, but with the exception of one, and possibly two streams, the log crop appears to have been but very little affected. The Cass river country has been the most thoroughly drained and although this stream now brings to market the finest of Saginaw lumber, averaging the greatest percentage of uppers, the hauling is mostly from a long distance, and the prospects are that within a year or two this stream will be almost profitless for lumbering purposes. The Flint River is in the same condition. The attention of our lumbermen of late years has been given largely to the shore. A large proportion of the logs are out of the Rifle, and Au Gres, as well as the Pine, Pinconning, and several small streams, and are brought to the Saginaw River and manufactured by our mills here.

THE FOREST FIRE.

The month of October of 1871 will be ever memorable, not only in connection with the terrible fire which decimated one of the fairest cities of the West, but as well in connection with the destruction of vast forests of pine timber throughout this and the neighboring State of Wisconsin. In the territory tributary to the Saginaw Valley, the effect of the fires was most disastrous and widely spread. To realize the extent of territory embraced in what is known as the "burnt district," a glance at the map of Michigan becomes necessary. Commencing at a point on Lake Huron near Lexington, a line drawn across Sanilac, Lapeer, and Genesee counties, to the south line of Saginaw county, thence in a northwesterly direction across the State to the north line of Oceana county, will mark the southern limits of the destructive fire, while all the country north of this line and east of the Saginaw Bay, was involved in the conflagration. On the west side of the Bay, a line drawn from the north line of Bay county west to and including Manistee county, and embracing all the territory south to the first giver line, will give the reader a very good idea of the amount of land burned over. According to the closest estimates which can be made, an amount of pine timber equal to five years' cut of the valley has been destroyed, or, in round numbers, *four thousand millions* of feet. Of this vast quantity, no doubt a large amount, variously estimated at from three hundred to five hundred million feet have been watered during the present winter, and will be saved. The balance of the timber will, no doubt, be attacked by the insect whose destructive effects are always manifested in "down timber," and, while available for coarse timber for building purposes, will be worthless for the nicer work to which our lumber is applied, its distance from streams rendering it, in its depreciated value, nearly worthless. The loss in the coarser timber, particularly hemlock, the value of which is but now beginning to be appreciated, is beyond computation.

CANADIAN LUMBERING.—The Toronto *Globe*, in an able article on the lumber business in Canada, states the total value of the timber and other kindred exports of the Dominion for 1870 to be $20,940,454. The Georgian Bay country manufactures 250,000,000 feet of lumber annually. The shipments to the United States for the year ending September 30, 1871, were 112,632,540 feet from Toronto and Collingwood alone, besides interior points, all of which, more or less, draw upon Saginaw for a portion of their lumber, showing that these points are not equal to the Saginaw Valley and shore supply.

The Boston *Commercial Bulletin* reports:—

There is a fair demand for lumber of most grades, and business seems to be generally starting up in anticipation of extensive building operations to be commenced early in the spring. The outlook for a busy season was never more encouraging, and if all contracts being made are put into execution, the coming season will be one of the most active in the lumber business for many years. The retail yards have a fair stock on hand, though some grades are in limited supply. The principal demand now is for coarse pine, hemlock, and spruce covering boards. Prices of Eastern lumber remain firm at former rates.

Western lumber is in good demand for shipment, and some ten cargoes, consisting of high grades, have been shipped to South America during the past three or four weeks. The receipts are not large, and stocks are a good deal broken up. There will have to be a fresh supply of new lumber before the yards can be replenished. The logging season has been a splendid one, and the supply will probably be ample for all requirements. Canada lumber is firm and in good demand at last week's prices.

IMPORTANT TO LUMBERMEN.

MILWAUKEE, Feb. 24.—A La Crosse, Wis., special to the evening *Wisconsin* reports great despondency among the loggers on the Black and Chippewa rivers. Nearly all of the men and teams are coming out of the woods on account of the thaw, and are fearful of having no drive the coming spring.

METALS.—Ingot copper still rules fairly active. Prices may be quoted a fraction higher than a week ago. Manufactured copper is firmly held at the late advance. We quote: Ingot 28¾@28¾c, cash, and up to 28¾@28¾c for March and April delivery; New Sheathing, 36c; Yellow Metal, 26c; Old Sheathing, 25½@26c. Scotch Pig Iron remains quiet but firm under a light stock. We quote Glengarnock, $42; Eglinton, $40; Summerlee, $41.50 per ton; Gartsherrie, $43, and Coltness, $44, all from the wharf. American iron has been more active, with the transactions mostly from second-hand and for consumption, and prices continue firm, with an upward tendency. We quote: No. 1, $42@45; No. 2, $41@44 for extra; and forged, $39@40. Refined Bar is held very firm at the late advance, with a fair inquiry. We quote from store as follows: Bar Swedes, $115@125; refined, ordinary size, $97.50; refined, 1¼ to 6 by ¼ and 5-16, $102.50; refined, 1 and 1½ by ¼ and 5-16, $105; refined, 2½ to 3 round and square, $105; scroll, $115@145; ovals and half round, $112.50@132.50; band, $110; horse-shoe, $110@120; rods, 5-8 to 3-16 inch, $102.50@137.50; hoop, $117.50@165; nail rod, per lb, 7¼c. Common Sheet is very scarce and firm. We quote at 5½@6 for single D and T, and 6½@7 for D and T Charcoal. Galvanized Sheet continues strong. We quote at 12@13c for 14@20; 12½@13½c for 22@24; 13½@14c for 25@26; and 15@19c for 27@29, all less 20 per cent. to the trade. Russia Sheet is quiet. We quote at 15c gold, according to number. Pig Lead is very quiet and prices nominally unchanged, although the Government is supplying the limited demand at lower than importers' prices. We quote at $5.90@6.25 for common to good forge. Manufactures of Lead are steady at previous prices. We quote at 9¼c for bar: 10c for sheet and pipe 15c for tin-lined pipe, all less 10 per cent. to the trade. Pig Tin remains quiet, although there is a trifle better feeling in English. We quote in coin at 35½@36c for straits, 36c for English, and 41c for Banca. Plates are less active, the demand restricted somewhat by the scarcity of desirable sizes; but prices still rule very firm. We quote: I. C. Charcoal, $11.25@11.50; I. C. Coke, $10@10.25; Coke, $8.50@9, and Charcoal Terne, $9.75@10.50. Sheet Zinc is quiet at steady prices. We quote at 10¾@11c gold for Mosselmann from store.

NAILS.—The recent addition to the cost has not stimulated buyers into any increased activity, and though there is some movement reported by nearly all dealers, trade is not specially active. A ruling spirit of caution appears to prevail, and it is a matter of extreme difficulty to induce local jobbers or interior dealers to handle goods which are not known to be wanted within a short time. At the late advance manufacturers and agents are firm, and express confidence in the position provided a little patience can be shown, and the opening of the spring trade awaited. The export movement has of late been quite moderate, though a few fair orders are at hand awaiting suitable freight accommodation. We quote per 100 lbs: cut, 10@60d, $5.00; cut, 8@9d, $5.25; cut, 6@7d, $5.50: cut, 4@5d, $5.75; cut, 3d $6.50; cut, 2@3d, fine, $7.25; cut spikes, all sizes, $5.25; cut finishing, casing, box, etc., $5.50@7.00; clinch, $6.50@7.00; horse-shoe, forged, No. 10 to 5, per lb., 19@23c. Other styles are selling as follows: Copper, 42c per lb.; Yellow Metal, 26c do.

Exports as follows:—

	Past week.	Since Jan. 1.
Packages	497	2,554
Value	$2,989	$17,130

PAINTS AND OILS.—The tone of most of the reports on paints, colors, etc., is pretty strong, and the market, as a whole, seems very satisfactory to dealers both wholesale and retail. The stocks on hand are moderate and easily handled, and in a great many cases it is said to be simply impossible to obtain relief from foreign sources, as supplies there are also insignificant and the production slow. Even where a supply of goods is likely to be available, however, the demand is pretty sharp, and we understand that quite a number of large sales have been made for future delivery at full, and in same cases better figures than those current on the spot. Glues of foreign make are dull, owing in the main to a want of stock, and domestic grades, whenever they can be used as a substitute, are selling freely. The general distribution of goods is not in large parcels, but there are a great many buyers making up small invoices, and they manage in this way to take a pretty extensive aggregate of stock out of the market, and in the majority of cases are paying full figures for it. Linseed Oil has been in fair but not very active demand, and the market developed few really new features for the week. Crushers continue to offer with moderation, and only at full figures, and are pretty firm and confident in their views, but are unable to induce the payment of any higher rate.

Exports as follows:—

	Past week.	Since Jan. 1, 1872.
Paint.....pckgs.	9, value $220	1,162, value $12,377
Linseed oil, galls.	— "	811, " 738
Oxide zinc, pcks.	— "	— " —

PITCH.—The market remains quiet beyond the usual jobbing inquiry, but prices still rule firm, and close a shade higher. We quote: prime city delivered at $4.87½, and $5.00 for small lots. Receipts for the week, nil bbls: since Jan. 1, 225 bbls; same time last year, 50 bbls. Exports for the week, 72 bbls; since Jan. 1, 571 bbls; same time last year, 225 bbls.

SPIRITS TURPENTINE.—The market ruled firm early in the week, but later, on receipt of advices of lower prices at Wilmington, the market weakened and closes unsettled and somewhat demoralized. We quote merchantable and shipping order at 85c, and retail lots from store, 87@88c. Receipts for the week, 482 bbls; since Jan. 1, 7,281 bbls; same time last year, 5,875 bbls. Exports for the week, 5 bbls; since Jan. 1, 3,990 bbls; same time last year, 1,384 bbls.

TAR.—There has been more doing in this commodity, and prices remain steady at fully former figures. We quote at $3.57½ for Washington, $3.25 for Newberne, and $3.50 for Wilmington. Receipts, for the week, 838 bbls: since Jan. 1, 4,546 bbls; same time 1871, 1,562 bbls. Exports for the week, 147 bbls; since January 1, 1,675 bbls; same time 1871, 741 barrels.

Property sold and rented. Loans negotiated. Charge of houses and collection of rents a specialty.

No one should Build or Live in a House
WITHOUT EXAMINING OUR
ELECTRICAL APPLIANCES,
without which no house can be said to have all or even the MOST IMPORTANT OF MODERN IMPROVEMENTS; in fact, they are indispensable for the complete outfit of a first-class house with what may be termed necessary conveniences. All English and French houses at the present time are furnished with this electrical apparatus.

E. HOLMES'
Burglar Alarm Telegraph.
This one Bell, located in the Sleeping-Room, when set for the night, rings upon the opening of each door and window of the house. It is a watchman that has but one house to protect; never goes to sleep; cannot be bought off; and an experience of ten years, without a failure, proves it to be perfectly reliable and satisfactory.
PARTICULAR ATTENTION
is requested to our new
HOUSE ANNUNCIATOR,
An improvement upon the French system.
IT CONSISTS OF A SINGLE
CALL BELL AND ANNUNCIATOR,
in the kitchen or servants' department, and so arranged that the simple touch of a small ornamented spring in each room of the house **RINGS THIS BELL AND ANNOUNCES THE ROOM** from which the call proceeds—the bell continuing to ring until the servants give it attention. The whole thing is operated by
ONE BATTERY, OR BY THE SAME BATTERY
that operates the
Burglar Alarm Telegraph.
It is simple, perfect, and reliable, and will not get out of order, and is a very great improvement upon the old system of "bell pulls." We also have
An Attachment for Ringing Door Bells and Servants' Bells from the
TABLE OR DINING ROOM,
by placing a spring in the floor, and covered by the carpet. Also, for
Calling the Coachman from the Stable.
Send for pamphlet containing ten or twelve hundred TESTIMONIALS. They are from our best citizens and first business men of New-York and vicinity.

E. HOLMES,
OFFICES:—
7 Murray Street, New York.
6 South Clark Street, Chicago, Ill.
1111 Chestnut Street, Philadelphia, Pa.
69 West Fourth Street, Cincinnati, Ohio.
205 River Street, Troy, N. Y.
121 Washington Street, Boston, Mass.

CAUTION.
The public are cautioned against all infringements upon this patent, even when called improvements; other parties have slightly changed my method of doing the same thing, and without any practical experience speak of it as a very great improvement. This invention is the only one that has had practical experience. It has been in general use for ten years, and every real, practical, or desirable improvement that study and actual experience could suggest has been added.
All violations of my patent, either by using or vending an infringement, will be dealt with to the full extent of the law for such cases provided.

MAGRATH'S COPPER SASH-CHAIN,
PATENTED 21ST MARCH, 1871,

Is adapted to ordinary round pulley, and strong enough to suspend weights of any size required.
Being intended as a substitute for sash-cord, it can be put into sashes now provided with cord without any change of pulleys. The inventor feels confident that experience will prove his chain to be both economical and durable, besides doing away with the constant annoyance and expense attending the use of sash-cord.
For terms and further information apply to

REAL ESTATE RECORD
AND BUILDERS' GUIDE.

VOL. IX. NEW YORK, SATURDAY, MARCH 9, 1872. No. 208.

Published Weekly by

THE REAL ESTATE RECORD ASSOCIATION.

TERMS.

One year, in advance.....$6 00

All communications should be addressed to

C. W. SWEET,

7 AND 9 WARREN STREET.

No receipt for money due the REAL ESTATE RECORD will be acknowledged unless signed by one of our regular collectors, HENRY D. SMITH or THOMAS F. CUMMINGS. All bills for collection will be sent from the office on a regularly printed form.

NEXT week we will publish an able review of the Canada lumber market, with interesting statistics, compiled by our regular correspondents, Messrs. Carbray & Routh.

THE COMMUNE IN NEW YORK.

WE alluded some time since to certain wild propositions put forward by the Internationals of this city, and remarked that, after all, it would, perhaps, be wise if property-holders and capitalists would examine those ideas, and see whether some of them at least were not worth consideration. We specified at the time the proposition for free markets, for free gas, and the assumption by the city of all the intra-mural street railroads and the ferries. Curiously enough, the subject has been reopened by the Internationals themselves, who one day last week waited upon a committee of the Board of Aldermen and urged the adoption of these very three points.

Now we tell our men of property frankly that, if they will be wise in time, they will endeavor to placate that great mass of propertyless, landless, practically homeless voters who are crowded here within the city of New York. These people have the suffrage; they give immense powers to the demagogues who lead them; their passions are fierce; there is no saying what they might not do. The Corporation Rings, which have from time to time ruled New York, have always made it their business to share the plunder with the leaders of the ignorant voters. In the immense and rapid growth of the city of New York, the necessity for new sewage works, for laying out sidewalks, for opening streets, and other public works, has occasioned the employment of an immense number of laborers; and it was by the power they gained over these men, through the disbursement of vast sums of money among them, that the Rings were able to control and plunder the city. But these public works cannot go on for ever. In the mean time, the great host of wretched, insatiable poor people armed with this right of suffrage goes on increasing, and their ranks are being largely recruited from the hordes of emigrants who flock to our shores filled with all sorts of socialistic notions.

Let the property-owners, then, ask themselves the question whether it would not be well to try the homœopathic method, to apply the principle that "like cures like" for the remedy of these evils. In other words, why not give the people the free markets they ask for, and the free gas? Why not let the city assume the control of all the street railroads and the ferries, so as to give the people what would almost be free travel?

Since the very foundation of cities the municipal rulers have always reserved to themselves the right to build and control public markets. One of the most unwise schemes ever pressed upon our city government was the sale of the Market property. This was done in deference to certain *doctrinnaire* notions which have sometimes prevailed in regard to the limitations of the powers of governments; but the scheme always met with so much opposition that it never could be carried through. Instead of being destroyed, the market system ought to be extensively developed through our city, the municipal authorities, in the interest of the people, exercising a very sharp control over the dealers and their wares.

It is admitted on all hands that the Croton Aqueduct Department has been an unmixed benefit to the community; that, had the water been in the hands of a company, as the gas is, there would have been no end of just complaints on the part of the public as to the way in which they were supplied with this necessary element. It is, of course, to the interest of gas and railroad companies to make as heavy dividends as possible on the capital invested. This is the cause of bad gas and over-charging; this is the cause of dirty, ill-ventilated cars, overcrowding, and all the miseries to which our travelling public in this city is subjected.

The control of a gas department would be no more difficult than the control of a water-department now is to the city. The markets we have already; all that is necessary to be done is to increase their number, extend their area, and so arrange it that free public accommodation could be offered to dealers coming from the country, who would be thus enabled to sell directly to the consumers, without the intervention of middlemen and jobbers. The control of the street railroads would not be a difficult thing under a proper civil service system. All the drivers and conductors could be made a section of the police force. Provision should be had for the sale of the tickets in all parts of the city, and no person should be allowed to ride unless he handed a ticket to the conductor on first entering the car. This would put a stop to "knocking down," fares could be reduced to three cents, and everybody could be provided with seats, except, perhaps, during one or two hours in the course of the day. As to the ferries, they should all be perfectly free. There is no more reason why the people should not cross the river without payment than there is for their not paying toll for walking the streets. A ferry is but a bridge in another form, and a bridge ought to be a free thoroughfare.

If, in addition to these reforms, the city were to build the necessary steam transit lines within the limits of our municipality, it would save the masses of the people from the extortions to which they are now subject. Far better would it be for the city to do this than to leave the work to private companies, whose only aim is to get the heaviest dividends for the least possible outlay.

MARKET REVIEW.

BRICKS.—There is no change on the general market for Hard brick up to the present, so far as we can discover, everything still favoring the selling interest, and full former prices being obtained without difficulty. Supplies have been brought forward to some extent, but the receipt was quite uncertain, and wholesale dealers were seldom willing to commit themselves to an agreement for delivery within any specified time, though enabled to find buyers for their cargoes even in some cases before vessels had become fully loaded and ready to start for the city. In fact, the demand is evidently in excess of the ability of the wholesale trade to furnish supplies, and the opinion is quite general that the market can hold its own until well on toward the new crop, though there is no doubt that ruling prices will stimulate manufacturers to hurry the production, and that just as soon as the frost is out of the ground work will be commenced. Before that time an increase of the supply may be looked for, however, as more vessels will be ready to resume their trips within a few weeks, and with the reopening of navigation stock will become available which at present is entirely blockaded by the ice. We can learn nothing very positive as to the amounts remaining at the points of production; but it is claimed that the lower yards have sent off nearly all their stock during the winter, and that the accumulation of desirable grades "up river" is small. Anything at all merchantable is quick at $12, and it is certain that some buyers would pay more, but this would not be the rule, and sellers refrain from increasing the cost, as likely to somewhat restrict a free outlet. The Long Island manufacturers get cargoes through whenever they can, and find no difficulty in obtaining full as much as upon North River stock. From New Jersey a few irregular arrivals take place, with a pretty sure sale for all at about $10 per M. Pale Brick in good, steady demand and prices firm, with sales mostly at $8 per M, anything lower than this being for very common stock. Philadelphia Fronts are without further change of importance. Those dealers who have stock on hand are quite indifferent operators, and in most cases ask full $40@45 per M, while many refuse to sell at all unless assured that the parcels taken are for positive and immediate consumption. At the points of production preparations are making to commence work on a liberal scale the moment the weather will admit.

GLASS.—After many threatenings and various delays, the importers of foreign window glass have at last made out and adopted a new price-list, which will increase the cost from twenty to thirty per cent. The reason for this improvement is embodied in a preamble, which states:—

"*Whereas*, The manufacturers of Window and Picture glass in Europe have been forced, on account of increased cost of material and labor, to adopt a new tariff, advancing prices; we, the importers, are obliged to make a corresponding change."

Then follows the revised list, which will be found in the regular table of market quotations on another page. This increase of cost seems to have rather a better basis than usual, and in addition to the higher prices abroad, importers are further strengthened by the comparatively small supplies on hand and prospective light additions. Still there is likely to be no actual scarcity unless the demand very decidedly improves, the attendance of buyers now showing a moderate aggregate, with most operations confined to parcels suited to immediate and positive wants. The imports since January 1st embrace 70,604 pckgs. glass, valued at $172,256; and 1,968 plate, valued at $275,490. American glass has also been revised and advanced, partly in sympathy with foreign and partly owing to the increased cost of material. There is not much stock here, however, nor any great call for manufacturers distributing direct from the mills to consumers or interior dealers, and the bulk of our receipts going to the large manufacturers of sash, etc.

LIME.—The advantage of the position lays pretty much in favor of the selling interest, though probably not any more so than usual at this season of the year. Most dealers are working on very small accumulations of stock, and some are entirely out, and there appears to be a demand for about all receivers can bring forward, with competition enough among buyers to keep values on a full level. The Eastern grade has the preference, though dealers in a hurry for supplies frequently resort to odd lots of State lime to carry them through urgent necessities. There is said to be very little lime to come forward at present, and a free supply is not looked for until vessels are more plenty and navigation less hazardous, though during the week under review the arrivals have been very fair. Prices remain firm at $1.50 per bbl for common, and $2 do for lump.

LUMBER.—The position of affairs at the yards may be summed up in the somewhat stereotyped expression with many dealers, "dull and nominally unchanged." Now and then a little spurt of activity comes to relieve matters, but the demand is not lasting, and in the majority of cases the increased movement is due more to the fact of two or three buyers happening in together than to any actual increase of the desire to purchase. The call in the main is local, to meet the wants of a few manufacturers, or as builders may require stock to finish up, but occasionally an out-of-town order is received for small and choice selected parcels. Some grades of fancy hard woods and less plenty, and this, with common pine box boards, covers goods actually scarce, most of the yards still showing a very fair assortment still on hand. We retain former quotations as representing about average values, though some allowances should be made for quantity of stock handled, the terms of payment, etc., all of which have a tendency to throw some advantage in favor of either buyer or seller.

In a wholesale way the market has continued uncertain and somewhat uninteresting, though probably no more so than usual at this season of the year, when supplies are very doubtful. Just now, with the comparatively dull yard trade, dealers are not remarkably anxious to purchase, even on the offering of extra fine cargoes, and it does not require much stock to make a surplus. Indeed, there is no latent strength to the position, and free offering would have a most decidedly weakening tendency. As to the contract business, there is undoubtedly something doing, but the majority of agents report the market as extremely dull, and buyers' bids too low to admit of business on the limits furnished by manufacturers. Reports from the interior are still very "bullish," and a good many accounts seem to be pretty well supported by figures, etc.; yet there is a spirit of caution extant among buyers in this direction, leading them to move very slowly, and to feel hopeful that they may yet gain more favorable terms, notwithstanding the positive assurances to the contrary. Reports from the lumber sections speak of loggers coming in from the woods—some because there is not snow enough, and others because there is too much snow; but all accounts continue to agree upon an increased crop of logs ready and awaiting favorable spring freshets. The general export demand has in some cases become dull for want of available supplies, and because the rates asked are so high, but shippers still have orders to fill and merely await a good opportunity for operating.

Eastern Spruce has been rather more plenty, without any corresponding increase of the demand, and the market not altogether satisfactory to the selling interest. Most of the supplies have been marked off by good management, but prices were necessarily kept upon an easy level, and some lots were parted with pretty cheap. Advices from the mills indicate not only a firm, but a somewhat independent feeling among manufacturers, who, having been very successful for a number of years, and knowing their production to be below the general call, are but little disposed to allow buyers to gain many advantages. We quote at about $16 @18 per M for inferior to fair, and $18@19.50 for good to prime. White Pine is without new features worthy of note, common boards remaining very scarce and very firm, and the finer qualities plenty enough for the prevailing demand, with no more than the average steadiness noticeable. We quote at $31@38 per M for common to fair box and shipping boards; $25@38 for good do; $40 for pickings, and $45 for selects. Yellow Pine continues in very good and pretty general demand, with prices firm, but a little more stock coming forward. We quote at $28@31 per M for random cargoes, $32@38 do for special cuts, and $40 for fancy. We understand that very little, if any, fine desirable Black Walnut can now be obtained in the interior, most of the supply having been bought up by dealers, and that the small balance left on hand is held almost as high as asked from yard at this point. Black Walnut logs have sold well for export, and are still wanted; a demand also prevailing for maple logs.

The exports of lumber are as follows:—

	This week. Feet.	Since Jan. 1. Feet.	Same time '71. Feet.

Total	994,464	4,265,432	2,728,031
Value	$16,411	$123,764	$90,430

We note additional exports as follows:—

To London, 78 logs maple, value $1,341; to Liverpool, 40 logs maple, value $750, and 8 cases maple veneers, value $1,960; to British Honduras, 50.000 shingles, value $313; to Antwerp, 27,900 shooks; to Liverpool, 20,000 do; to London, 12,840 do; to Seville, 6,000 do; to Africa, 12,600 do; to British West Indies, 1,021 shooks; to French West Indies, 2,652 do; to Cuba, 2,500 do; to Porto Rico, 2,578 do; to Peru, 29 do; to Venezuela, 66 box shooks; to Brazil, 150 do.

Receipts reported as follows:—

From Jacksonville, 162,000 feet lumber; from New River, N. B., 764,000 lath, and 19.155 feet deals; from St. John, N. B., 699,000 lath, and 175,105 feet lumber.

Charters as follows:—

A ship, 1,418 tons (now at Boston), from St. John, N.B., to Liverpool, deals, at or about 65s; a barque, 595 tons, to Tarragona, staves, $55 for extra heavy pipe; a brig, 451 tons, to Montevideo and Buenos Ayres, lumber, $20 per M, and general mdse., 20c per foot; a Br barque, 509 tons, from Boston to Buenos Ayres, lumber, $16 net; a barque, 438 tons, to Buenos Ayres, lumber and general cargo, round sum, equivalent to $18.50 and 18½c; a brig, 150 tons, same voyage, private rate; a barque, 490 tons, to Montevideo and Buenos Ayres, private rate; a barque, 558 tons, from Boston to River Plate, lumber, $16; a Br brig, 308 tons, from Norfolk to Barbadoes and a market, hhd. staves, $14

a brig, to Matanzas, empty hhds, 90c; a schr, 279 tons, to Cardenas, empty hhds, $1; a schr, 204 tons, from Port Johnson to Mobile, coal, $4.50, and back from Apalachicola, resawed lumber, $12; one, from Charleston to New Haven, timber, $11, and small stowage, $9; a tern. schr, 565 tons, from Apalachicola to Philadelphia, resawed lumber, $12: a schr, from Jacksonville to Philadelphia, resawed lumber and boards, $10: one, from Jacksonville to New York, resawed lumber, $11.75; two, from Savannah to a Sound port, $9 50; a schr, 205 tons, from Norfolk to Demerara, hhd. staves, $14; a schr, 137 tons, from Mosquito Inlet, Flor., to Norfolk, live oak 30c per cubic foot; a brig, 171 tons, from Fernandina to New York, resawed lumber, $11; a sch, from Fernandina to Fall River, $11.50; two, from Jacksonville to New Haven, resawed lumber and boards, $11.75, and one, from Brunswick to Philadelphia, $9.

We continue the Saginaw *Courier's* report on the products of the Saginaw Valley, as follows:—

The following is a summary of the lumber business for 1871:—

Total number of mills	84
" " mulay saws	58
" " circular saws	83
" " gang saws	52
" " of saws	193
Capacity of mills	701,000,000
Lumber cut in 1871	529,682,878
Capital invested	$4,238,000
On hand unsold	42,023,511
On dock sold	33,576,000
Logs in boom	11,989,264
Men employed	3.140
Lath cut	62,850,900
Lath on hand	5,333,950
Pickets cut	576,600

* * * * * * *

SHINGLES.

In shingles there is an increase, which promises to be much larger than the current year (1872). A number of new mills were erected, among which may be mentioned those of John McGraw & Co., run in connection with mill J. R. Hall, Bay City, W. R Burt (with mill), T. Saylor, at Carrrolton, Joshua Stevens, East Saginaw, E. J. Ring, and Hendrickson's mill, South Saginaw. The Ring mill run only a few months. Others are building.

Among those destroyed by fire were Burnham & Still, and Lathrop Inscho & Co.; since rebuilt. The Avery mill was taken down and removed up the railroad. The increase has been large in Midland county, where a number of new mills have been erected The following is a comparative statement of shingles manufactured during the past five years:—

1867	90,983,000
1868	104,104,500
1869	119.843,500
1870	178,570,000
1871	187,691,000

With a proportionate increase in capital, and number of men employed.

* * * * * * *

OAK TIMBER AND STAVES.

The oak timber trade of the Saginaw district, already large, is growing rapidly, and within a few years will be scarcely less important than pine. The timber got out here is of a very superior quality, and is now being sought after by Canadians and European ship-builders. Our oak timber goes principally to Tonawanda and Quebec. That which goes to Quebec is mostly shipped to Europe, and all parts of the world. Prior to 1869, but little was done in the way of getting out oak timber here. Since then the following amounts have been got out and shipped:—

	Cubic feet.
1869	765,000
1870	1,105,000
1871	1,982,000

Showing a large and growing increase. There was also got out and shipped 1,298,500 cubic feet of long pine for spars. This timber was gotten out mainly on the Saginaw river and its tributaries. Flint, Swan Creek, Sheboyganing, and Bad Rivers. A good deal of spar timber was got out on the shore.

STAVES.

The stave trade last year (1871) shows a falling off from the previous year, owing to an over stock in eastern markets, occasioned by the late war in Europe, and the difficulties in Cuba and the West Indies. The shipments of staves from the Saginaw river and Sebewaing for the seasons named were as follows:—

1860 to 1865 inclusive	3,000,000
1866	3,500,000
1867	4,919,060
1868	5,804,958
1869	3,720,000
1870	5,698,000
1871	3,820,000

These staves are bought by agents located at East Saginaw. Saginaw and Bay City, representing eastern firms, and shipped by water, principally to Buffalo, and thence to New York City, where they are made in barrels and hogsheads, and in some instances shipped in the rough for Europe.

The Saginaw *Courier* contains the following, also, upon the product of the shore:—

The tables giving the product of lumber and shingles manufactured at the various points on the bay and lake coast, between the month of Saginaw river and Cheboygan, indicate no increase in both on these items as compared with the previous year, but gave no adequate idea of the general improvement in that district, which in the way of new manufacturing establishments, wharves, wharehouses, stores, churches, school-houses, public buildings, and private residences, is at least 50 per cent. greater than that of any former year.

Our tables this year for the shore embrace the same extent of territory as last year. The cut of mills, considering the circumstances, is better than expected. The log crop was considerably short, and a number of mills run only a portion of the season.

The tables referred to show totals of 18 mulay saws, 44 circular saws, 19 gang saws; capital invested, $1,444,000. Lumber manufactured in 1871, 124,400,000 feet: on hand, 9,136,000 feet; men employed, 1,042; lath cut, 17,084,000; on hand, 820,000; logs in boom, 5,234,000 feet.

In the way of shingles, the Shore has a manufacturing capacity of about 150,000,000 per season, but in this branch, the shortness of the log crop had its effect, as well as with the saw mills. In 1870 the Shore mills turned out 89,800,000 shingles; and in 1871, 88,582,000, showing a slight decrease.

UP IN THE PINES.—Messers. Sias, of Midland, and Burt, of East Saginaw, have built a mill on the Cedar river, a tributary of the Tittabawasse, about 25 miles north of Edenville, in Gladwin county, and homesteaders are gathering around the point, which promises to become one of some importance. We understand the mill has been running quite a little time, and has done very good work. The fine large farm of W. R. Burt lies but a few miles from this mill.

LOG HAULING—THE CHAMPIONS.—An "Eye Witness" furnishes the *Saginawian* an account of *some* log hauling done by Messers. Williams Bros., well known lumbermen. Their champion hauling was done Wednesday, Feb. 21, 1872, at their upper camp on Cass River, drawing the enormous amount of 14,468 feet of lumber in one load of logs, or rather two loads, drawn by one span of horses. In the load proper there were seven logs, which scaled 11,407 feet. Of these logs there were none but what scaled over and above 1,000 feet each. The largest scaled 3,126 feet, the smallest scaled 1,048 feet. The other logs which were loaded on another sled, and completed the great load, scaled 3,061 feet severally.

The scaling was done by the Hon. Geo. F. Williams, the senior brother of the firm. It was, without question, the largest hauling of logs ever performed; and there will never probably be such another—in the opinion of "Eye Witness."

A pine tree was recently cut in Pierson camp, measuring 40 inches at the stump, was 150 feet in length, or a little over nine rods. They cut 116 feet in length into logs, leaving the top 17 inches in diameter where the last log was sawed off.

Scale of a load of logs hauled by P. Carroll, at Copley & Wortham's camp, on the Muskegon, Feb. 17, 1872:—

Diameter.	Length.	No. Feet.
38 inches.	20 feet.	1,445
37 "	20 "	1,361
39 "	22 "	1,682
35 "	24 "	1,441
35 "	24 "	1,414
29 "	24 "	988
Total		8,311

The above load was hauled 2¼ miles by one team.

Careful and reliable estimates place the total lumber product of Fish Creek this season at 40,000,000 feet. This will exceed the product of last year by about 10,000,000 feet, and is the largest crop ever harvested upon the stream. This amount will be divided as follows: Hubbardston, 6,750,000; Muir, 16,000,000; Ionia, 4,000,000; the balance will go to Grand Rapids and the lake. The stream will probably be filled to its utmost capacity, and log-runners will have to keep things moving pretty lively to get them all delivered in season.

LUMBER AND LOGS.—There is not much doing yet in the way of lumber, and the market in this respect is not well defined. There is but little, if any, dry lumber to sell, and outsiders are holding back on green, waiting for the result of the lumbering operations of the winter.

Quite a number of log sales have been made. We reported on Sunday a sale of 1,000,000 feet Cass river logs at $13. A. T. Blackmore of Detroit has sold to Chicago parties 2,000,000 Cass river logs at $12.75, and 2,500,000 Cass river stock to other Chicago parties at $13. McCormick has sold to Philadelphia parties 1,000,000 feet of logs, Chippewa stock. at $13.

A VAST AMOUNT OF LUMBER.—Logs to the amount of 80,000,000 feet will be put in the Rabbit river by the opening of navigation. Never was there the prospect of the manufacture of such vast quantities of lumber as there is this season. These logs had to be manufactured into lumber to prevent them from being wormeaten.—*Allegan Journal.*

We obtain the following from Western journals:—

In the Wisconsin pineries it is estimated that nearly as much work has been done up to the present date as was ever done before in any entire winter. Probably not less than 300,000,000 feet of the forests of Black river and its tributaries this year, which is about 50 per cent. more than the largest log crop of any previous winter. On the Pople river, which is one of the tributaries of the Black river, about 80,000,000 feet have been cut this winter. Only about 1,500,000 feet of the pine lumber remained in the Black river forests at the end of 1871.

LUMBERING IN WISCONSIN.—The quality of the timber put in on the Wolf and tributaries this winter will not average so high as last season, but the amount of clear logs for manufacturers and shingle-mills will be largely increased. Old lands are being cut over for the third and fourth time even, which will bring a large amount of second-rate timber into market. If prices hold up under this stock, it will be fortunate for the loggers, as they will have in at least 25,000,000 feet more than the capacity of all the mills on the lake and rivers.

METALS.—Ingot Copper is in good demand at fully former prices, the market closing very firm. Manufactured continues firm. We quote: Ingot 28⅜@28½c cash, and up to 28⅝@28¾c for March and April delivery: New Sheathing, 36c.; Yellow Metal, 26c; Old Sheathing, 25½@26c. Scotch Pig has ruled excited and somewhat panicky under an improved demand, advices of an advance of four shillings sterling on the other side, an advance of 25 per cent. on freights in view of the scarcity of available stock here. It is somewhat difficult to arrive at correct quotations in the present uncertain state of the market, but we understand $45 is demanded for the commonest brands. American iron is also somewhat excited, and prices have further advanced, with holders very firm at the higher price. We quote No. 1, $45; No.2, $44 for extra, and forged $41.50@43. Refined Bar has been advanced from store, and closes very firm. We quote from store as follows:— Bar Swedes, $117.50@127.50; refined, ordinary size, $100; refined, 1¼ to 6 by ¼ and 5-16, $105; refined, 1 and 1¼ by ¼ and 5-16, $107.50; refined, 2½ to 3, round and square, $110@137.50; scroll, $117.50@147.50; ovals and half round, $115@133; band, $112.50; horse-shoe, $112.50@122.50; rods, ¾ to 3-16 inch, $105@150; hoop, $120@167.50; nail rod, per lb, 7½c. Common Sheet is very scarce and higher. We quote at 6 @7¼ for single D and T, and 6¼ for D and T Charcoal. Galvanized Sheet continues strong. We quote at 12@13c for 14@20: 12½@13½c for 22@24; 13½@14c for 25@26; and 15@19c for 27@29, all less 20 per cent. to the trade. Russia Sheet is higher. We quote at 16@17c. gold, according to number. Pig Lead is very quiet and prices nominally unchanged, although the Government is supplying the limited demand at lower than importers' prices. We quote at $5.90@6.70 gold, for common to good forge. Manufactures of Lead are steady at previous prices. We quote at 9¼c for bar: 10c for sheet and pipe, 15c for tin-lined pipe, all less 10 per cent. to the trade. With favorable advices from abroad, Pig Tin has become excited and buoyant, and large transactions effected both for spot and to arrive, and prices close very strong at an advance. We quote in coin at 38c for straits, 38c for English, and nominally 42c for Banca. Plates are less active, the demand restricted somewhat by the scarcity of desirable sizes; but prices still rule very firm. We quote: I. C. Charcoal, $11.50@12; I. C. Coke, $10@10.25; Coke, $8.75@9, and Charcoal Terne, $9.75 @10.50. Sheet Zinc is quiet at steady prices. We quote at 10½@11c gold for Mosselmann from store.

NAILS.—The market shows very few, if any, really new features since our last. The cost and difficulties of interior transportation have a tendency to keep the demand within narrow bounds, as buyers will not operate beyond their most positive wants until the weather and other influences remedy the evil noted. There is some export inquiry and a few good-sized orders on California account, but they do not amount to enough to stimulate the market greatly. Still holders in all cases are very firm, offer nothing in excess of the outlet, and seem to have full faith in the market generally. The stocks are slightly accumulating. The exports this week foot up large, but include purchases for several weeks past, and shippers just now are quiet. We quote per 100 lbs: cut, 10@60d, $5.00: cut, 8@9d, $5.25; cut, 6@7d, $5.50: cut, 4@5d, $5.75; cut, 3d $6.50; cut, 2@3d, fine, $7.25; cut spikes, all sizes, $5.25; cut finishing, casing, box, etc., $5.50@7.00; clinch. $ 6.50@7.00; horse-shoe, forged, No. 10 to 5, per lb., 19@33c. Other styles are selling as follows: Copper, 42c per lb.; Yellow Metal, 26c do.

Exports as follows:—

	Past week.	Since Jan. 1.
Packages	1,234	3,788
Value	$8,904	$26,034

PAINTS AND OILS.—The general wholesale market for colors, paints, etc., gains rather than loses tone, and some dealers entertain very buoyant feelings. The stocks in first hands, owing to delivery on contract of a large proportion of the import since January 1st, are very small, while the opportunities to sell are plenty, and as the amounts to come to hand from abroad are light, those who control anything at all desirable are very naturally disposed to ask and insist upon extreme figures. Orange mineral seems to be especially scarce and firm, though a number of other grades could be increased in stock materially, and then make none too much for the outlet. The orders from the interior are not in all cases quite so large as usual, but most of our large jobbers are receiving a great many of the small demands, which together make a fair general outlet; and with the smaller city jobbers, retailers, and consumers getting ready for the spring trade, business is satisfactory, especially when compared with the general dull tone prevailing in all other articles of merchandise. Jobbers' prices are somewhat irregular, according to various governing circumstances, but the general tone is stiff, in sympathy with the wholesale market. Linseed Oil is nominally unchanged in value, and the market hardly so firm. Crushers, to be sure, ask full former rates, and call 86@87c about the proper figures for casks, but outside lots are available on easier terms, and quite a number of contracts have been made for future at some reduction. The supply on hand is very fair.

Exports as follows:—

	Past week.	Since Jan. 1, 1872.
Paint.....pckgs.	271, value $4,124	1,433, value $16,501
Linseed oil. galls.	— "	— 811 " 738
Oxide zinc, pcks.	— "	— — " —

PITCH.—There is little to note in this branch of trade; there is a moderate trade reported at steady prices. We quote: prime city delivered at $4.87½, and $5.00 for small lots. Receipts for the week, nil bbls; since Jan. 1, 225 bbls; same time last year, 50 bbls. Exports for the week, 28 bbls; since Jan. 1, 599 bbls; same time last year, 270 bbls.

SPIRITS TURPENTINE.—Has been very quiet all the week and with rather a weak feeling, but towards the close there was more inquiry and prices strengthend a trifle, closing at about 34½@35c for merchantable order. Receipts for the week, 371 bbls; since Jan. 1, 7,752 bbls; same time last year, 7,510 bbls. Exports for the week, 140 bbls; since Jan. 1, 4,130 bbls; same time last year, 3,583.

TAR.—Under an improved demand and an advance at Wilmington, prices here are higher and held pretty firm at the appreciation. We quote at $3.37½@3.50 for Washington, $3.37½@3.50 for Newberne, and $3.75 for Wilmington. Receipts for the week, 2,100 bbls; since Jan. 1, 6,646 bbls; same time 1871, 1,562 bbls. Exports for the week, 54 bbls; since January 1, 1,129 bbls; same time 1871, 776 bbls.

Cor. 50th Street, NEW YORK.
Property sold and rented. Loans negotiated. Charge of houses and collection of rents a specialty.

No one should Build or Live in a House
WITHOUT EXAMINING OUR
ELECTRICAL APPLIANCES,
without which no house can be said to have all or even the MOST IMPORTANT OF MODERN IMPROVEMENTS; in fact, they are indispensable for the complete outfit of a first-class house with what may be termed necessary conveniences. All English and French houses at the present time are furnished with this electrical apparatus.

E. HOLMES'
Burglar Alarm Telegraph.
This one Bell, located in the Sleeping-Room, when set for the night, rings upon the opening of each door and window of the house. It is a watchman that has but one house to protect; never goes to sleep; cannot be bought off; and an experience of ten years, without a failure, proves it to be perfectly reliable and satisfactory.
PARTICULAR ATTENTION
is requested to our new
HOUSE ANNUNCIATOR,
An improvement upon the French system.
IT CONSISTS OF A SINGLE
CALL BELL AND ANNUNCIATOR,
in the kitchen or servants' department, and so arranged that the simple touch of a small ornamented spring in each room of the house RINGS THIS BELL AND ANNOUNCES THE ROOM from which the call proceeds—the bell continuing to ring until the servants give it attention. The whole thing is operated by
ONE BATTERY, OR BY THE SAME BATTERY
that operates the
Burglar Alarm Telegraph.
It is simple, perfect, and reliable, and will not get out of order, and is a very great improvement upon the old system of "bell pulls." We also have
An Attachment for Ringing Door Bells and Servants' Bells from the
TABLE OR DINING ROOM,
by placing a spring in the floor, and covered by the carpet. Also, for
Calling the Coachman from the Stable.
Send for pamphlet containing ten or twelve hundred TESTIMONIALS. They are from our best citizens and first business men of New York and vicinity.

E. HOLMES,
OFFICES:—
7 Murray Street, New York.
6 South Clark Street, Chicago, Ill.
1111 Chestnut Street, Philadelphia, Pa.
69 West Fourth Street, Cincinnati, Ohio.
205 River Street, Troy, N. Y.
121 Washington Street, Boston, Mass.

CAUTION.
The public are cautioned against all infringements upon this patent, even when called improvements; other parties have slightly changed my method of doing the same thing, and without any practical experience speak of it as a very great improvement. This invention is the only one that has had practical experience. It has been in general use for ten years, and every real, practical, or desirable improvement that study and actual experience could suggest has been added.
All violations of my patent, either by using or vending an infringement, will be dealt with to the full extent of the law for such cases provided.

All kinds of Iron Work for Buildings; Railings, Stairs, Baiconies, Shutters, Doors, Bank Vaults, Fire Escapes, Anchors, Columns, Lintels, etc.

MAGRATH'S COPPER SASH-CHAIN,

PATENTED 21ST MARCH, 1871,

Is adapted to ordinary round pulley, and strong enough to suspend weights of any size required.

Being intended as a substitute for sash-cord, it can be put into sashes now provided with cord without any change of pulleys. The inventor feels confident that experience will prove his chain to be both economical and durable, besides doing away with the constant annoyance and expense attending the use of sash-cord.

For terms and further information apply to
M. MAGRATH, Patentee, Carpenter and Builder,
74 Irving Place, New York City.

AV. B (No. 279), ONE TWO-STORY BRICK FACTORY, 20x30; owner, HENRY HIRT.

BETHUNE ST., S. S., 125 W. WASHINGTON ST., ONE four-story brick factory, 88x31; owner, JOHN J. BUDD; builders, G. MICKENS and D. D. WESTERVELT.

BAXTER ST. (No. 7), ONE FIVE-STORY BRICK store and tenement, 24.6x48; owner, M. LEVY; architect, WM. E. WARING; builder, W. POWERS.

EIGHTY-SECOND ST., S. S., 196.6 E. 4TH AV., TWO three-story brown-stone front first-class dwellings, 14.3x55; owners, PICKEN & CASLEY.

FIFTEENTH ST., N. S., 60 W. 6TH AV., ONE THREE-story brick second-class dwelling, 20x45; owner, SAMUEL ADAMS; architects, D. & J. JARDINE.

FORTY-FOURTH ST., N. S., 155 E. 4TH AV., ONE five-story brown-stone front tenement, 25x65; owner and builder, G. D. HILYARD; architect, W. W. SMITH.

FORTY-SIXTH ST., N. S., 175 E. 11TH AV., ONE four-story brick store and tenement, 25x52; owner, M. MITTELSTAETDER; architect, G. HOBZEIT.

FIFTY-SECOND ST., S. S., 200 W. 5TH. AV., SIX four-story brown-stone front first-class dwellings, 22x100 and 25x100; owner, JOHN C. DONNELLY; architect, JAMES E. WARE.

LEONARD ST. (No. 56), ONE SIX-STORY IRON front first-class store, 25x95; owner, FLORENCIO ESCALANTE; architect, H. ENGLEBERG.

MADISON ST., N. S., 100 W. MONTGOMERY ST., one five-story brick store and tenement, 26.6x50; owner; JOHN FISHERMAN; architect, WM. E. WARING.

MORTON ST. (No. 5), ONE FIVE-STORY BROWN-stone front store and tenement, 25x64; owner, J. H. MUEGGE; architect, JULIUS BOEKELL.

NORFOLK ST. (No. 120), ONE FIVE-STORY BRICK store and tenement, 25x50; owner, L. F. AUGOR; architect, JULIUS BOEKELL.

ONE HUNDRED AND SEVENTEENTH ST., N. S., 87th w. Av. A, one two-story wood stable, 22x45; owner, WM. WAYDELL.

ONE HUNDRED AND FIFTY-NINTH ST., S. S., 166.8 w. 10th av., one two-story and attic frame second-class dwelling, 16.8x30; owner, C. G. STONE.

PITT ST. (No. 38, REAR), ONE FOUR-STORY BRICK tenement, 22x25; owner, MR. FALK; architect, F. S. BARUS.

SULLIVAN ST., W. S., 119 S. SPRING ST. (REAR), two three-story brick second-class stores, 16x40 and 21x50; owner, N. Y. PIE-BAKING CO.; builder, CHARLES E. HADDEN.

SIXTY-THIRD ST., N. S., 155 W. LEXINGTON AV., three five-story brown-stone front tenements, 16.8x60; owner, THOMAS KILPATRICK; architect, F. S. BARUS; builder, F. BUTLER.

TWENTY-THIRD ST. (No. 148 W.), ONE FIVE-story brick factory, 30x90; owner, A. A. YARD.

TWENTY-FIFTH ST. (No. 327 W.), ONE FIVE-story brick store and tenement, 25x50; owner, ROB'T LAUGHLIN; architect, J. IRVING HOWARD.

THIRTY-FIRST ST., N. S., 225 E. 8TH AV., ONE three-story brick factory, 25x30; owner, FRED'K SPERRY; architect, HENRY PALMER.

WATER ST. (No. 265), ONE SIX-STORY BRICK factory, 36.6x56.2; owner, WM. E. TREDWELL; architect, CHARLES METTAM.

WILLIAM ST. (NOS. 255 & 257), ONE FIVE-STORY brick store and tenement, 30x50; owner, HENRY C. WAELDIN; architect, JULIUS BOEKELL.

ALTERATIONS IN BUILDINGS.

One brown-stone front first-class dwelling, sout side of Forty-fifth street, west of Sixth avenue, four stories, 20 by 50, one story to be added to rear extension; John Sedgwick, owner.

Three brick dwellings, Nos. 51, 53 and 55 Bethune street, three stories and attic, one-half story to be added to each house; Budd estate, owner.

One brick dwelling, No. 49 Dominick street, two stories, 20 by 30, one story to be added; Maurice Ahearn, owner.

One brick dwelling, No. 8 Rivington street, two stories, 19 by 38, one story to be added; Lorillard estate, owner.

One brick-front dwelling, No. 399 Sixth avenue, four stories, 20 by 50, new store front and extension, 20 by 46, 22 feet high; J. Hays, owner.

Three brick stores and dwellings, Nos. 229, 231 and 233 Sixth avenue, 18 by 16.8 by 40, new store fronts and extensions, 16.8 by 18 by 20, 12 by 31 feet high; Saml. Adams, owner.

One brick store and dwelling, southeast corner of First avenue and Eleventh street, four stories, 23.9 by 42, one story to be added; P. L. Bernhard, owner.

One brick store and dwelling, No. 218 Sixth avenue, four stories, 19 by 45, extension 19 by 26, 10 feet high; Wyckoff estate, owner.

One brick-front store and dwelling, No. 34 Mulberry street, two and a half stories, 18 by 32, one half-story to be added, and extension 10 by 10, 8 feet high; A. Caragraro, owner.

Two brick stores, Nos. 66 and 66½ Pine street, four stories, 48 by 60, extension 48 by 12, 21 feet high, and interior to be remodeled for offices; John Middleton and J. W. Corlies, owners.

Two brick stores, No. 254 Water street and No. 12 Peck slip, brick extension 14 by 16, 12 feet high, connecting both buildings; David Armstrong, owner.

One brick store, No. 237 Greenwich street, five stories, 20 by 50, new store front; John J. Healey, owner.

One brick building north side of Twentieth street, 138 feet east of Fifth avenue, three stories, 50 by 48, extension in rear 50 by 39, 38 feet high; R. A. Withaus, owner.

One brick restaurant, No. 48 East Forty-third street, two stories, 19 by 70, front to be taken out and rebuilt; George E. Charles, owner.

Three frame dwellings, north side of One Hundred and Twenty-sixth street, 375 feet east of Fourth avenue, four stories, 16.8 by 25, one story to be added to each, and extensions also raised; L. A. Bensons, owner.

UNSAFE BUILDINGS.

Clinton street, No. 15, Henry F. Dole, owner; unsafe and bulged front piers.

Albany street, No. 20, A. Fengado, owner; dangerously unsafe chimneys.

Spring street, No. 83, F. F. Gibbons, owner; unsafe chimneys.

Lispenard street, No. 14, unsafe generally; J. Gardiner Sanderson, owner.

Greenwich street, No. 18, unsafe front and rear walls, sills, and lintels; James N. Platt, owner.

Jersey street, No. 15, unsafe Chimneys; Thomas Weatherby, owner.

West New av., bet. 175th and 176th sts.*

MARKET REVIEW.

BRICK.—During the greater portion of the period under review the market for hard brick has been in a somewhat nominal condition owing mainly to the absence of supplies, the condition of navigation making the connections with the points of supply precarious, and at times almost impossible. The demand, however, was good enough, and if they had been available, a great many cargoes could have been disposed of at full and even higher figures, as in some cases cost was of little account to buyers, who were so placed that

work must come to a complete stand unless a supply of brick could be obtained. The current quotation remains at $12 per M, and sellers seem to be satisfied if they can obtain this figure, although in many cases undoubtedly able to realize more. As previously noted, however, there is no inclination to take too great an advantage of the position, and crowd buyers to the wall, and probably restrict proposed future operations, as it is thought that good management can keep the market about where it is for some time to come. We do not propose to give any advice to buyers, but will state that some of the largest and most reliable wholesale dealers predict no decided decline on good quality of hard brick for a month or two at least, and seem to think that purchasers will gain nothing by delay. There is no stock here; buyers stand ready to take every thing in the way of a merchantable cargo the moment it is offered; the supplies of both the Long Island and New Jersey yards are about exhausted, while the remaining accumulation on the Hudson cannot be reached until the river is fully opened. Even when this does occur, manufacturers, who, as a rule, have done well for a few years past and feel independent, express a determination to hold back supplies unless they can obtain somewhere near the rates now ruling. Pale brick are much wanted and would command extreme prices quite readily. On Fronts there is nothing new, Philadelphias remaining firm at the late advance, and though Crotons are a little nominal, holders are inclined to look for fuller figures.

We give below the production of the two past years, and stocks on hand January 1st. Our figures have been unavoidably delayed until this time, and we are now under obligations to Messrs. W. R. Knapp & Son for valuable aid in completing the compilation. The number of brick made last year shows the largest production ever known.

PRODUCTION.

Totals	133,000,000	96,000,000	79,000,000

HAIR.—The firm and buoyant tone on plasterers' hair, to which we have once or twice referred since the opening of the year, has at last culminated in an advance, and prices generally now are higher, with much strength shown at the improvement. The upward turn has been most decided on Goat hair, and dealers predict a still further addition to the cost within a few weeks, owing in the main to the extreme scarcity. The stocks here are greatly reduced, and are under complete control, while at all points in the interior it is scarcely possible to scrape enough together to make a respectable show, and unless a better supply should be developed—which hardly looks possible—sellers must have things pretty much their own way. Cattle hair, however, is by no means plenty, and shares to a proportionate extent in the tendency toward a higher range. As yet the local demand has not developed to any extent, but the shipping call is first-rate and very general. Orders come in from New Jersey, from the Eastern cities, and from the Gulf ports, but about the best outlet is on Western account, with indications that the consumption will increase. The current quotations are 28c for cattle, and 55c per bushel of 7 lb., from wholesale operators' hands, while the smaller dealers obtain 5@7c and in some cases 10c advance, and give a bushel of about 6 lb.

LATH.—The tone of the market naturally varies somewhat with the fluctuating supply and demand, and circumstances are frequently such that it is cheaper for receivers to concede a trifle than miss the opportunity to effect a sale. Still there is a very evident feeling of confidence retained among the selling interest, and a firm belief in higher rates. Some look for a better demand to stimulate the market, and others for a shutting off of supplies by manufacturers, but all expect to sell at a higher level before spring fully sets in, and if expectations are realized, it will probably be a combination of the above influences to stimulate the advance. Recent arrivals have sold at $3 per M, and this is the market quotation, but about seven million lath are piled out for which owners want a higher figure.

LUMBER.—While the current movement of stock from yard is still rather light, and confined in the main to the customary small parcels suited to the urgent wants of the hour, we find some of our dealers who think the prospect somewhat more encouraging, and who are inclined to look for a little more life in the spring trade than might have been expected a few weeks ago. Buyers are looking around to ascertain the position and cost of stock, and a fair number of estimates are called for, and in such a manner as to indicate, that not a mere list of prices, but actual goods are really wanted. Bids are somewhat low, but not unreasonably so, and a comparatively steady tone is current on all desirable grades. Other dealers are to be found who talk somewhat "blue" yet, and it is possible that the favorable symptoms are no more than usual, if as much as generally noticed at this season, but our market needs all the encouraging features it can gain, and we give the more hopeful views of a portion of the trade, as above noted. With two or three well-known exceptions, the assortment is very fair as yet, and selections not difficult.

On the wholesale market, so far as sales for prompt delivery are concerned, the weather has considerable influence just now, as the receipts are still entirely coastwise, and as the wind varies the supply is large or small, and prices weak or strong accordingly. The demand, however, does not appear to be very active or very general, and receivers, unless they have something extra desirable to offer, experience a little difficulty in securing customers. On contracts the business has improved a trifle, and buyers now and then exhibit a somewhat anxious tone. Their attention, however, is given in the main to sizes and styles suited to their wants for certain special outlets, and of last season's cutting, most of the stock at the mills being reported as sold, and manufacturers quite indifferent about parting with the balance. On the new crop, however, there is still an inclination to hold off and see what will turn up, with a hope that the supply will exceed the demand and values weaken. Manufacturers are talking just about as strong as at the commencement of the season, and in a great many cases say that the interior trade with small country towns will give them all they want to do, and that Albany and New York buyers can take stock at the rates asked or leave it alone, as they feel disposed.

Eastern Spruce sells fairly if the cargo offering contains a good amount of long stuff, but inferior specifications drag, and some have recently been quietly disposed of pretty cheap. A few dealers, however, who handle a large amount of this class of stock, are commencing to mark down their stocks, and if cargoes do not come in too fast upon them, may make a fair outlet for the supply. On the general range prices are without much variation, and agents say cannot go much lower, as manufacturers will stop shipments rather than submit to a decline. Contracts are making slowly, but hardly up to the average of former years. We quote for prompt delivery about $ @ per M for inferior to fair; and $ @ for good to prime. White Pine is firm, and the selling interest continue to talk full prices throughout the entire coming season, though admitting the probability of some grades now somewhat unduly inflated falling back to a better proportionate range. The demand is fair, including orders on home manufacturing account and for export, but many buyers, especially for foreign markets, find no stock to suit their wants. We quote at $31@33 per M. for common to fair box and shipping boards; $35@38 do for good do. $40 for pickings; and $45 do for selects. Yellow Pine meets with a good steady demand on all grades, and dealers are enabled to place about all they have to offer positively for some weeks to come. Prices firm and quoted on the former range, say $28@31 per M for random cargoes; $32@38 do for special cuts, and $40 do for fancy.

The exports of lumber are as follows:—

Total	113,271	4,378,703	2,764,031
Value	$3,532	$127,296	$91,325

We note additional exports as follows:—

To Hayti, 20,000 shingles; to Dutch West Indies, 15,000 shingles; to Cuba, 2 masts; to Rotterdam, 8,910 staves; to London, 5,400 do; to Glasgow, 8,400 do; to Tarragona, 105,840 do; to Danish West Indies, 232 shooks; to Dutch West Indies, 75 do; to British West Indies, 1,704 do; to British Guiana, 390 do; to French West Indies, 200 do; to Cuba, 2,610 do, and 21,600 hoops.

Receipts reported as follows:—

From Jacksonville, 210,000 feet lumber; from Wilmington, 3,500 railroad ties; from St. John, N. B., 230,000 lath.

Charters as follows:—

A Br. brig, 382 tons, to Montevideo for orders, via Annapolis, N. S., lumber $18; a barque (now at Portland) from Montreal to River Plate, lumber, private rate—quotable $21; a barque, 523 tons, from Boston to River Plate, lumber, $16; a brig, 437 tons, to Matanzas, empty hhds, 90c; a brig, 233 tons, to Demerara, 50c per bbl; a schr, 217 tons, to Key West, general cargo, $1,000, and back from a Florida port with cedar, 15c per cubic foot; one from Jacksonville to New York, resawed lumber, $11, an inside rate; one same voyage, $11.50; one from Charleston to New Haven, timber, $11, and flooring boards, $9.

The Saginaw *Courier's* columns continue to be filled with a mass of valuable information on lumber, much of which we are compelled to omit for want of space. We, however, make further selections as follows:—

The lumber business of the Saginaw Valley, during the season of 1871, was a remarkably good one. The market opened in the spring at $6, $12, and $35 for the three grades, held firm to the middle of the season, and from that time to the close of navigation sold all the way up to $8, $16, and $42. Many circumstances prevailed to favor the market, the main one, however, being a short crop of logs, and an unusual demand by outside buyers.

THE INSPECTION LAW.

The New Michigan Lumber Inspection Law went into effect early in the season, and although under a strong prejudice from "outsiders," its workings have been satisfactory, and, no doubt, the present and succeeding years no difficulty will occur in regard to it. The appointment of Mr. E. Y. Williams as Inspector General has given good satisfaction. The following amounts were inspected through this office:—

	Feet.
Of upper qualities	27,722,483
Of common	125,224,221
Of culls	16,931,927
Total amount by inpection in qualities	169,878,631
" " measured straight	22,290,586
" " inspected and measured	192,169,217

To account for the discrepancy between the amount of lumber shipped from this district and the amount herewith reported, the inspector says: "I would say, that as law did not take effect until after the above-named rate, and as all arrangements were still to be made to give it systematic efficiency, a large amount of lumber was contracted for before this office was prepared to properly attend to the business, and, as the consequence, has been shipped from this district without passing through this office."

LUMBERING.

As showing the decrease in our sources of supply of logs, we give a comparative statement of logs rafted out of the streams named:—

	1870. Feet.	1871. Feet.
Tittabawassee River	347,041,250	288,748,401
Cass River	60,942,233	55,841,618
Bad River	14,894,521	14,258,811
Rifle River	80,427,714	55,823,013
Au Gres	35,091,635	31,125,084
Kawkawlin	25,000,000	24,000,000
Au Sable	60,000,000	52,000,000
	623,297,353	521,796,927

This does not include the Flint, Thunder Bay, and Cheboygan rivers, and several small streams, which only indirectly effect the Saginaw market, and are not relied upon as sources of supply.

OLD PRICES.

In 1858 the accepted market value of Nos. 1 and 2 Cass river logs was $4 per m. feet, and one excellent lot of 1s and 2s was, to our knowledge, purchased for $3.25 per m. feet. The price of lumber then was $3, $6, $8, $12, and $18 per m., and a considerable portion of the product of that year was sold as low as $2.50, $5, $7, $10, and $15 per m. As late as 1860, the three upper qualities sold together at $9, and in many instances as low as $8 per m.

LOG MARKET.

The log market, keeping pace with the lumber market, at the close of last season outran it, logs in some instances bringing as high as $16 per thousand delivered. This year (1872) logs are selling freely at $13.

SHIPMENTS.

The shipments from the Saginaw river by water, for the seasons named, as shown by the Custom House records, were as follows:—

	1869.	1870.	1871.
Lumber, ft	474,912,425	487,489,268	516,629,474
Lath, pcs	46,425,909	44,417,635	46,294,820
Shingles	88,878,500	130,449,490	142,661,500
Salt	480,480	481,894	616,892

In addition to the above, there were shipped in 1871, 12,500,000 hoops and 3,820,000 staves.

LUMBER ON HAND.

Our statements for the past seven years give the following record of stocks on hand at the close of the years named:

	On Dock	On Dock sold.	Balance unsold.
1865	41,453,000	22,362,000	19,091,000
1866	44,415,700	14,211,000	30,204,700
1867	69,970,200	19,435,571	50,534,200
1868	67,401,017	13,402,990	53,998,027
1869	93,331,614	14,526,000	78,805,614
1870	130,422,190	47,862,000	82,560,190
1871	75,599,511	33,576,000	42,023,511

This statement, however, does not give a correct showing, as a large proportion or the lumber accredited as on hand, unsold, is held by manufacturers who own large yards in Cleveland, Toledo, Albany and other lake cities, and their lumber here is practically out of the market. The report of the Inspector General at the close of the season showed that, excluding Sage & Co., McGraw & Co., and Folsom & Arnold, there was but 49,020,000 feet of lumber on the river. Of this amount all was sold but 16,235,000 feet. There is doubtless less than 6,000,000 feet of dry lumber for sale on the Saginaw river to-day.

REMARKS.

There is but little to add. The liberal extracts we give below, all having a bearing on the Saginaw market, will

explain the situation thoroughly. As to the market next season, little can be said more than conjecture. Arrangements have been made for an unusually large crop of logs, but everything yet depends on the weather, the length of the winter, amount of snow, extent of the freshet in the spring, boom facilities, and many other contingencies. After a dray summer the ground is parched, and it will require a large amount of water to bring out in the spring two-thirds of the crop. The prospects are that a large amount of logs will be hung up.

The Saginaw *Courier* of a late date contains the following :—

The lumbering season is now approaching the end, and lumber dealers and mill men are canvassing the market, the former to form a basis for the spring prices, and the latter to gauge saw bills. A number of contracts have been made in both cases. In sawing, contracts have been let as low as $3.50 and as high as $4.75. Some 30,000,000 to 40,000,000 feet of lumber have changed hands, mostly on private terms. A large proportion of the lumber sold is with the proviso that it is inspected under the new law, showing a general disposition to support it. Among other lumber sales are the following :—

E. F. Gould to A. G. Bissell & Co., 70,000 feet, dry, at $8, $16, and $36.

Barnard & Binder, to Eastern parties, 700,000 feet of dry lumber, at $8, $16, and $36 cash. B. & B. were offered $6.50, $13, and $36 for 1,000,000 feet of first cut, but declined the offer, holding firmly at $7, $14, and $36.

Of shingles, Burnham & Still sold, to Eastern parties, one car load of No. 1, 18-inch, at $4.

LOG SALES.

A. T. Blackmar sold to Chicago parties, 5,500,000 feet Cass river logs, to be delivered at or above Zilwaukee, at $13.

Ben. Colvin, to Eaton, Potter & Co., 1,000,000 feet Bad river logs, delivered in Bad river boom, at $8.

F. W. Benjamin, to E. F. Gould, 2,500,000 feet Tobacco river logs, delivered in Tittabawassee boom, at $7.

Davis & Bro., to E. F. Gould, 2,000,000 feet Tittabawassee logs, same place of delivery and same price.

Wm. Callum, to E. F. Gould, 3,500,000 feet Chippewa logs, delivered in Gould's mill boom, $8.85.

A. W. Wright & Co., to Wright & Wetherell, 13,000,000 feet logs, Tittabawassee and tributaries, delivered in Tittabawassee boom, private terms.

LUMBERING OPERATIONS OF THE LITTLE MUSKEGON.

Mr. Ira H. Sheldon, writing from Stanwood, Mecosta County, to the Mecosta County *Pioneer*, furnishes some interesting statistics of lumbering operations on the headwaters of the Little Muskegon.

The newly proposed village, Webber City, is located near the centre of Mecosta county, on the head of the Little Muskegon River, and one of the finest lumbering points in the State. In the vicinity there are being 74,000,000 of pine timber put in this winter, all within a space of six miles, which will fetch, when delivered at Muskegon, 7 per thousand, representing a cash capital of $523,000. The drive for several years past has been taken out by Webber Bro's at 55 cents per thousand feet, and is let to Benjamin & Pillsbury for 38 cents per thousand. They will employ 300 men this spring, of which the wages will be from $2 to $4 per day until June or July.

GREEN BAY EXPORTS.

Mr. Joseph Harris has collected the following, among other statistics of the trade and commerce of Green Bay for the year 1871, as bearing upon the prospective business of the canal :—

Lumber, manufactured, feet	500,000,000
Shingles, manufactured	900,000,000
Lath, manufactured, pieces	340,000,000
Pickets, manufactured, pieces	35,000,000
Cedar posts, manufactured, pieces	1,000,000
Staves, manufactured, pieces	2,200,000
Telegraph poles, manufactured, pieces	650,000
Salt, bushels	33,000

The total value of exports is estimated at $65,000,000, and the value of imports, such as mill supplies and merchandise, is estimated at $24,000,000.

The Toronto *Globe*, in an elaborate article on the lumber business in Canada, states the total value of the timber and other kindred exports of the Dominion for 1870 to be $20,940,454. The Georgian Bay country manufactures 250,000,000 feet of lumber annually. The shipments to the United States for the year ending September 30, 1871, were 112,632,540 feet from Toronto and Collingwood alone, besides interior points, all of which more or less draw upon Saginaw for a portion of their lumber, showing that these points are not equal to the Saginaw Valley and shore supply.

We take the following from the Manistee *Times* :—

The crop of logs gotten out will be fully up to the expectation, and running the river, booming logs, sawing and handling the lumber will require quite an army of men, while the shipping will require quite a large fleet of vessels of various capacities.

A petition signed only by lumbermen has been sent to Congress from this city, showing the amount of lumber manufactured in the city, and the extent of the damage by fire, asking that the Chicago Relief Bill do not pass. This is the second petition sent from here. The first included all business men, and the latter lumbermen only.

Our regular correspondents, Messrs. Carbray & Routh, Lumber Commission Merchants of Montreal and Quebec, under date of March 13th, 1872, send us the following review of the Canada lumber market :—

At this season of the year, the transactions are usually few, and confined to occasional large contracts for ensuing season's sawing. But this year little seems to have as yet been disposed of even in that way, as manufacturers, influenced by the high prices of dry lumber, have big expectations for next season's sawing, bigger expectations, perhaps, than an unprejudiced survey of the whole field at present warrants. Buyers consider there is not much risk in awaiting further developments, at least as regards the new sawing.

So far the winter has been extremely favorable all through Canada for chopping and hauling, and should the balance of the season be as propitious, and the "drives" good, there will be a very full supply of logs, probably more than it would be possible for mills to saw during the season.

What prices are going to be, of course, at this early day can only be speculated on, there are so many contingencies to affect them.

To our minds, possessing as we do a pretty good knowledge of the situation at present in Canada, in the United States and in Europe, we anticipate, as regards new crop, average prices, probably not up to the extreme views of manufacturers, but neither what could be called "*low prices.*" We here refer to our trade with the United States only; as regards our trade with Europe, should the present extraordinary activity in all branches of business in Great Britain be maintained, and prospects of such are very favorable, as it is now pretty generally conceded that the Alabama difficulty will not lead to war between the two powers, the wants of that country will be very heavy, and will inevitably keep up the price of European styles of lumber (deals, timbers, &c.) in Canada.

The present state of the English market is exceptional. Stocks exceedingly light, consumption increasing very largely, and prices higher than have ever been known, and tending still higher.

The representatives of our Quebec shipping houses, now in England, report no difficulty in making large sales at much higher prices than last year. As a consequence, Quebec shippers are eager buyers, and manufacturers are exceedingly independent, many of them refusing at present to name prices at all, and the few contracts which are made are at extreme prices, higher than the extreme closing prices of last fall.

Last contracts were made at following figures :—

			Last year's prices same date.
Pine Deals,	1st quality	$90	$80@84
	2nd "	60	53@56
	3rd "	30	26@28
Spruce Deals,	1st "	34	—@32
	2nd "	26	—@23
	3rd "	18	—@16

all per Quebec standard hundred=2,750 ft. B. M. A member of one of our large shipping houses at Quebec went up to Ottawa in January, to spend a quiet holiday of a few weeks, and has succeeded during that time, we hear, in making contracts with three or four of the leading large mills there for pine deals to be sawed next summer from their choicest logs. Prices we have been unable to learn, but it is generally understood the figures are very high.

These contracts foot up in all, it is said, to from 30 to 40 million feet.

From this we judge that choice lumber for United States market will be scarce and high in that section, which usually is the best section for the choice grades.

With regard to stocks now wintering over in Canada: They are unusually light, and there is probably not a fair lot of good run in the country in manufacturers' hands. Nearly every thing has been bought up long ago by the leading wholesale houses. The Burlington houses have gone in very heavy. These holders refuse to name prices at present, looking forward for extreme rates. And we calculate it is pretty clear they will succeed in getting them, as before it is possible to make new crop marketable, dry stocks must become scarcer and higher, even though consumption should be very moderate indeed.

All this may be perhaps discouraging to consumers, but we simply state the truth as well as we know how, without partiality, prejudice, or interest.

OAK TIMBER AND STAVES.

For these goods we are now almost entirely depending on Michigan and other Western States, Canada being almost exhausted, furnishing but a small proportion of our supplies, and of inferior quality.

The steady yearly increase in value of this class of lumber has been very considerable. Closing prices last fall at the port were as follows :—

Oak timber :—

According to size and quality	35@38c per cubic ft.
Pipe staves, per standard mille	$265@270
Puncheon staves " "	$76@78

Present prices are much higher, and it is believed that they will be maintained during the coming season, as stocks are unusually low. This winter's production will be moderate, and the demand is constantly increasing, and must be met almost regardless of prices. We venture to predict opening prices this spring about as follows :—

Oak timber according to size and quality,

per cubic ft.	35@40c
Pipe staves, per standard mille	$280@300
Puncheon staves " "	$80@84

TIMBER LIMITS.—We have added this branch to our business, and will keep our friends posted on the transactions in this species of property, which as has taken place in the United States, and is still taking place there, is becoming every year more and more valuable and sought after.

Nearly all the reasonably accessible limits in Canada are now out of government hands. Within the past year many large tracts which had been thrown up 15 or 20 years ago as worthless, have been purchased from the government at very large prices, without in many cases any exploration on the part of buyers to test their worth.

We have now for sale several large tracts of heavily timbered pine limits, advantageously situated for manufacturing and shipping; also several fine saw mill establishments, now in first-class working order, with large limits attached.

We shall be happy at all times to give all possible and interesting information to parties wishing to invest in this popular and profitable class of investments, and in our future reviews will report all sales that may come to our knowledge.

METALS.—Ingot copper continues active, and further large sales have been made; the stock has now passed all out of speculators' hands into those of dealers, and prices have been advanced a trifle, closing very firm. Manufactured copper is held very firmly at fully former prices. We quote: Ingot 29c cash, and up to 29¼c for April delivery; New Sheathing, 36c.; Yellow Metal, 26c; Old Sheathing, 25½@26c. Scotch Pig has been in good demand, but the scarcity of stock has limited transactions to a few lots to arrive; advices have been received of a further advance abroad, making prices higher than for 30 or 40 years past, and the difference in the price of the several brands and the regular margin between mixed Nos. and No. 1, shows a much wider range than for many years. At the close the market is considerably excited, and prices somewhat uncertain. We quote Glengarnock, $46@47; Eglinton, $45, and Coltness, $48. American continues in active consumptive demand, very scarce, and holders have again advanced their views to about $47@50 for No. 1, and $46@49 for No. 2 extra at Hoboken. Refined bar continues very firm at the late advance, with the probabilities of a further enhancement of values. We quote from store as follows :—Bar Swedes, $117.50@127.50; refined, ordinary size, $100; refined, 1¼ to 6 by ¼ and 5-16, $105; refined, 1 and 1½ by ¼ and 5-16, $107.50; refined, 2½ to 3, round and square, $110 @137.50; scroll, $117.50@147.50; ovals and half round, $115@133; band, $112.50; horse-shoe, $112.50@122.50; rods, ⅜ to 3-16 inch, $105@150; hoop, $120@167.50; nail rod, per lb, 7½c. Common Sheet is very scarce and higher. We quote at 6@7 for single D and T, and 7@8c for D and T Charcoal. Galvanized Sheet continues strong. We quote at 12@13c for 14@20: 12½@13½c for 22@24; 13½@14c for 25@26; and 15@19c for 27@29, all less 20 per cent. to the trade. Russia Sheet is firm. We quote at 16½c. gold, according to number. Pig Lead continues quiet and prices nominally unchanged. We quote at $5.90@6.70 gold, for common to good forge. Manufactures of Lead are steady at previous prices. We quote at 9¼c for bar; 10c for sheet and pipe, 15c for tin-lined pipe, all less 10 per cent. to the trade. Pig Tin continues in active demand, and prices are a trifle higher with the tendency still upward. We quote in coin at 38½@39c for straits 38@38¼c for English, and 42½c for Banca. Plates are active and desirable assortments becoming scarce, which, with advancing markets abroad, has further strengthened prices, and the close is higher. We quote: I. C. Charcoal, $11.25@12.25; I. C. Coke, $10.25@10.50; Coke, $9@9.25, and Charcoal Terne, $10.00 @10.50. Sheet Zinc is quiet at steady prices. We quote at 10@11c gold for Mosselmann from store.

NAILS.—The demand direct from consumers is not very active, and small retail dealers, jobbers, etc., are somewhat indifferent buyers. The larger jobbers, however, seem rather inclined to stock up, and there is said to be a semi-speculative sort of demand based in part upon the increased cost of iron, and in part upon the comparatively small stocks of nails on hand. Manufacturers, agents, and holders generally, are naturally encouraged and by no means inclined to operate except at full rates, especially on the leading sizes of cut, and within a few days have further advanced prices 25c per keg, the market closing firm. The export demand is again improving somewhat, though the amount cleared this week is small. We quote per 100 lbs: cut, 10@60d, $5.25; cut, 8@9d, $5.50; cut, 6@7d, $5.75; cut, 4@5d, $6; cut, 3d, $6.75; cut, 2@3d, fine, $7.50; cut spikes, all sizes, $5.50; cut finishing, casing, box, etc., $5.75@7.25; clinch, $6.75@7.25; horse-shoe, forged, No. 10 to 5, per lb., 20@33c. Other styles are selling as follows: Copper 40c per lb.; Yellow Metal, 26c do.

Exports as follows :—

	Past week.	Since Jan. 1.
Packages	205	3,993
Value	$1,411	$27,445

PAINTS AND OILS.—The market for paints generally is reported firm, and a good many of the trade add "with a prospect of a further advance." The demand, though not remarkably active, is good as compared with the moderate amounts of stock available, and buyers are doing what they can to secure parcels to arrive. Venetian Red, Vermilion, China Clay, Paris White, Orange Mineral, Rochelle Ochre, in fact, all the leading grades are called for, and command extreme rates readily, with sellers in some cases too indifferent to operate unless bids are increased. The distribution is good, and gradually improving, with a much more liberal movement looked for on near-by interior account within a short time. The trade, however, appear to calculate quite positively on a large call from both the Eastward and Westward as soon as navigation begins to open and freight charges are modified. In both the directions mentioned the building operations have been and promise to continue on a free scale, and the painter follows in the natural order of things. Stocks in store are fair, owing in part to receipts on contracts made early in the season, but there is room for more goods of desirable quality. Linseed Oil has remained at about the former rates from crushers' hands, say 86@87c per gallon. Some outside lots have sold as low as 85c, but there appears to be a goodly amount of confidence at this rate, and more stock is wanted to hold on speculation. The export movement of late has not been large, but shippers are said to be looking for supplies again.

Exports as follows :—

	Past week.		Since Jan. 1, 1872.	
Paint.....pckgs.	29	value $4,32	1,462,	value $16,933
Linseed oil, galls.	—	" —	811	" 738
Oxide zinc, pcks.	—	" —	—	" —

PITCH.—The market continues quiet and the prices unchanged as yet, though sooner or later it must decline to correspond with the lower price of strained rosin. We quote: Prime city delivered at $4.75, and $5.00 for small lots. Receipts for the week, nil bbls; since Jan. 1, 225 bbls; same time last year, 50 bbls. Exports for the week, 90 bbls; since Jan. 1, 689 bbls; same time last year, 455 bbls.

SPIRITS TURPENTINE—Has been quiet and irregular, closing unsettled and demoralized at about 6@7c lower than last week, caused in part by some dealers appearing anxious to realize in order to influence the market. We quote at 77@78c for merchantable order. Receipts for the week, 672 bbls; since Jan. 1, 8,424 bbls; same time last year, 7,743 bbls. Exports for the week, 24 bbls; since Jan. 1, 4,154 bbls; same time last year, 4,200.

TAR.—There has been very little demand, and the advance noted in our last has not been sustained, and prices close the same as a fortnight ago. We quote at $3.37½ for Washington, $3.37½ for Newberne, and $3.50 for Wilmington. Receipts for the week, 2,469 bbls; since January 1, 9,115 bbls; same time 1871, 2,137 bbls. Exports for the week, 173 bbls; since Jan 1, 1,302 bbls; same time 1871, 971 bbls.

No one should Build or Live in a House
WITHOUT EXAMINING OUR
ELECTRICAL APPLIANCES,
without which no house can be said to have all or even the MOST IMPORTANT OF MODERN IMPROVEMENTS: in fact, they are indispensable for the complete outfit of a first-class house with what may be termed necessary conveniences. All English and French houses at the present time are furnished with this electrical apparatus.

E. HOLMES'
Burglar Alarm Telegraph.
This one Bell, located in the Sleeping-Room, when set for the night, rings upon the opening of each door and window of the house. It is a watchman that has but one house to protect; never goes to sleep; cannot be bought off; and an experience of ten years, without a failure, proves it to be perfectly reliable and satisfactory.
PARTICULAR ATTENTION
is requested to our new
HOUSE ANNUNCIATOR,
An improvement upon the French system.
IT CONSISTS OF A SINGLE
CALL BELL AND ANNUNCIATOR,
in the kitchen or servants' department, and so arranged that the simple touch of a small ornamented spring in each room of the house RINGS THIS BELL AND ANNOUNCES THE ROOM from which the call proceeds—the bell continuing to ring until the servants give it attention. The whole thing is operated by
ONE BATTERY, OR BY THE SAME BATTERY
that operates the
Burglar Alarm Telegraph.
It is simple, perfect, and reliable, and will not get out of order, and is a very great improvement upon the old system of "bell pulls." We also have
An Attachment for Ringing Door Bells and Servants' Bells from the
TABLE OR DINING ROOM,
by placing a spring in the floor, and covered by the carpet. Also, for
Calling the Coachman from the Stable.
Send for pamphlet containing ten or twelve hundred TESTIMONIALS. They are from our best citizens and first business men of New York and vicinity.

121 Washington Street, Boston, Mass.

CAUTION.
The public are cautioned against all infringements upon this patent, even when called improvements; other parties have slightly changed my method of doing the same thing, and without any practical experience speak of it as a very great improvement. This invention is the only one that has had practical experience. It has been in general use for ten years, and every real, practical, or desirable improvement that study and actual experience could suggest has been added.
All violations of my patent, either by using or vending an infringement, will be dealt with to the full extent of the law for such cases provided.

MAGRATH'S COPPER SASH-CHAIN,
PATENTED 21ST MARCH, 1871,

Is adapted to ordinary round pulley, and strong enough to suspend weights of any size required.

Being intended as a substitute for sash-cord, it can be put into sashes now provided with cord without any change of pulleys. The inventor feels confident that experience will prove his chain to be both economical and durable, besides doing away with the constant annoyance and expense attending the use of sash-cord.

For terms and further information apply to

REAL ESTATE RECORD
AND BUILDERS' GUIDE.

VOL. IX. NEW YORK, SATURDAY, MARCH 23, 1872. No. 210.

Published Weekly by

THE REAL ESTATE RECORD ASSOCIATION.

TERMS.

One year, in advance.....$6 00

All communications should be addressed to

C. W. SWEET.

7 AND 9 WARREN STREET.

THE Washington correspondents have very generally refused to notice the fact, that Wheeler & Wilson are endeavoring to get Congress to extend their sewing-machine patents, so that the present monopoly may be kept up. The average cost of sewing machines is $20; and the average price $60. No new sewing machine is now permitted to be made, as the old companies have formed a ring to stop all improvements under new patents. Congress will, of course, extend their old patents, thus checking improvement, adding to the swollen profits of a baneful monopoly, and robbing poor women. Every dollar paid over $30 for a sewing machine is pure plunder.

One brick dwelling, No. 177 Seventh avenue, four stories, 25 by 50, extension 13 by 10, 12 feet high; A. Mole, owner.

One brick store, No. 69 Fulton st., four stories, 25 by 50, extension 25 by 25, 16 feet high; Mr. Dodd, owner.

One brick building, No. 173 Duane street, two and a half stories, 25 by 45, extension, 25 by 49, 23 feet high.

One brick dwelling, No. 41 East Twenty-ninth street, three stories, 21 by 50 (one story to be added); Stephen A. Frost, owner.

One brick store and dwelling, No. 491 Sixth avenue, three stories, 23 by 35, extension, 23 by 16, 11 feet high; Robert Ormeston, owner.

One brick store, No. 325 Canal street, three stories, 22 by 45, one story to be added; E. Jeanlet & Co., owners.

Two stores and dwellings, east side of Eighth avenue, 25 feet north of Forty-first street, four stories, 25 by 45, extension, 25 by 22, one story, no height; Mrs. Gillmore, owner.

One brick store, No. 12 Dutch street, three stories, 23 by 37, one story to be added and extension 23 by 19, 10 feet high; John Hagan, owner.

One brick dwelling, No. 386 Tenth street, three stories, 25 by 40, one story to be added; Wm. Pressler, owner.

One brick building, No. 588 Second avenue, four stories 25 by 40, extension 19 by 36, 12 feet high; Claus Witchen, owner.

One brick dwelling, south side of Eighty-sixth street, 100 feet east of Third avenue, four stories 21 by 36, extension 21 by 65, 26 feet high; John P. Mahoney, owner.

One brick dwelling, No. 307 Henry street, two and one-half stories 24.3 by 42, one-half story to be added; John Callery, owner.

One brick store and dwelling, No. 46 Norfolk street, two stories and attic, one and one-half stories to be added; Mr. Pinkerton, owner.

MARKET REVIEW.

BRICKS.—With navigation in better condition, there has been an opportunity to obtain supplies a little more freely, and in somewhat larger quantities, but in no case was there an appearance of an overstock, and frequently the demand far exceeded the ability of buyers to meet it, the market, of course, retaining a very strong tone under the circumstances. The more open weather while it increases the probabilities of reaching yards hitherto blockaded by ice, and by this means opens a larger quantity of stock, also enables the pushing forward of building operations, and thus the consumption grows to the suppiy, and the demand proves sufficient to make an outlet for pretty much all the cargoes coming to hand. The retail dealers still find it impossible to accumulate stock; all the purchases made now being for immediate and positive use. Manufacturers, as a rule, continue very indifferent about selling, and send in word that they will stop shipments the moment signs of weakness are developed on good stock, feeling confident that every brick, at all desirable in quality will be wanted before new crop can become available. It is natural to suppose that ruling rates will hurry forward the production with all the speed possible, but nothing can really be accomplished until it is quite positive that all danger from frost has disappeared. On values we should still call $12 per M. a fair average quotation to cover the great bulk of the business; but the price varies somewhat, and we hear of sales of choice at $12.25; and of common (mostly washed) at $11.50 per M. Long Island hards are worth about the same rates as the above, and sell readily when offered, but the arrivals are now slow and uncertain. A few parcels of New Jersey stock now and then come to hand, and are worth $10 per M. Of Pale Brick the supply has increased somewhat, but was taken as fast as received and commanded extreme rates; the market showing a generally firm tone, and the indications favorable for a steady call for some time to come. We quote at $8 per M. for anything merchantable. Fronts are without change worthy of note, a fair yard trade going on from day to day, and full prices obtained without much difficulty.

CEMENT.—Business has not been very active, owing less to the lack of a demand than to the extreme views and general firmness of holders. The ease with which the supplies are controlled at this season of the year, throws the advantage largely in favor of the selling interest, and as the accumulation gradually works down the disposition is naturally to increase values, and some dealers are refusing bids at figures they were willing to accept a few weeks ago. The city consumption is very good, quite a number of export orders are still here, and a call for domestic shipment, and several considerable parcels are understood to be wanted to fill government contracts. The prices vary somewhat according to brand, amount of invoice made of delivery, etc., but about $2 per bbl. may now be taken as an inside figure, and small lots have reached 12½@25c per bbl. higher. Still the last named rates are rather extreme as beyond a certain point, there is a direct competition with foreign which holders of domestic have to guard against. Of foreign there has not been many arrivals of late and steady jobbing sales have reduced the stock somewhat and rather strengthened the market. Of German stock sellers can be found at about $4@4.50 per bbl., but English is held higher, and sales made at $5 per bbl., with small lots of choice brand at $5.50; though this is a little extreme to quote on a wholesale market.

DRAIN AND SEWER PIPE.—The market for domestic vitrified pipe is at the moment quite dull, and without many features of interest, prices remaining much the same as for months past, and in the absence of leading sales a little nominal. With the frost in the ground, consumption naturally is slow, and as navigation does not freely open, and freight tariffs are high, the small dealers are unwilling to stock themselves. Manufacturers, however, seem to think the prospect most encouraging for the coming season, and look forward to a first-rate business. Sales on local account are not thought likely to amount to much but nearby country towns, especially in New Jersey and on Staten Island are laying out new work and have many old jobs to complete, and having settled many previously existing municipal difficulties, will now be ready to push forward improvements. There is a fair stock on hand, and at the proper time the production will be resumed to the full capacity if needed. Of foreign the arrivals have been small of late; but there is no call at the moment and this class of stock will hardly be wanted until there is some large corporation job to be completed.

GLASS.—The general market remains firm with a fair trade doing, and comparatively light supplies offering. The American manufacturers have again revised their prices which now conform to the French List, excepting the first bracket (6 by 8 to 7 by 9), which is $2 lower than the French, and fourth quality 20 by 28 to 22 by 30 which is 50 cents less—discount 45 per cent. Our table of quotations is corrected accordingly.

LATH.—There has been scarcely any market during the past week, and as we close the position is somewhat nominal. Buyers are to be found in fair attendance, and they bid as before, say about $3 per M., but get no stock as the parcels piled out are held firmly at a much higher figure. and no fresh arrivals have become available. The wants of the trade are increasing, and the selling interest generally appears confident.

LIME.—With no arrivals up to the present writing. the market has been at an almost complete stand, and little better than nominal, though former quotations are retained. The stock in yard is said to be very low, and a good trade is looked for when more stock becomes available.

LUMBER.—After looking over our exchanges and reading the encouraging and in some cases very glowing accounts of the lumber markets at nearly all points, we feel a little natural chagrin at our inability to indulge in a little of the same style of report. The position must be represented truthfully, however, and at the risk of still being called the bear organ of the lumber trade; we find nothing better to cover the general market than dull and nominally unchanged, so far as the present business is concerned. There is a demand, of course, and a movement of stock with probably a trifle larger aggregate among a few dealers than two or three weeks ago, but buyers cannot be called plenty by any means, and are in all cases adhering closely to a system of handling only goods enough to satisfy the most positive wants. Values vary a trifle according to circumstances: as to quantities of goods handled, time of payment, etc., but for a general range our former figures may be retained. The stocks in yard are fair, and will admit of any ordinary selection, except on common pine, and well seasoned black walnut, both of which are very scarce and held for extreme figures. The above covers the present, but the future seems to be a little more encouraging, and hopes are entertained that the spring trade proper will open well. The taste manufacturers have obtained of purchases, direct from the mills, makes the demand from this source somewhat doubtful, but there is indications that a good many little lots will be wanted for near-by shipment, and that the consumption for building purposes will prove rather larger than anticipated. In a wholesale way the movement is still rather slow and the tone doubtful for most grades. In fact, until some dependence can be placed upon the arrivals neither buyers nor sellers are inclined to make their calculations ahead, but to simply take the market as it comes, and to operate only as a matter of necessity. Values, therefore, are more or less uncertain, and though the fluctuations are not wide margin should be allowed for quotations. We do not find much new reported on contracts. Buyers are still on hand, who are willing to negotiate on prime old crop, but they do not find much available, manufacturers having, as already noted, been enabled to secure customers for fair amounts, and not only looking for extreme figures, but rather indifferently offering what little they have remaining on hand unsold in anticipation of doing well in the spring. From the pineries the accounts continue favorable for a very large crop of logs.

The exports of lumber are as follows:—

Value	$21,489	$148,755	$106,719

Eastern Spruce has only a nominal sort of market at the moment, and the position depends mainly upon the amount likely to come upon sale. First-class stock could no doubt be disposed of to a fair extent and at pretty full rates, but a few cargoes would meet the general outlet, as this is a season when dealers will not purchase greatly in excess of their known wants. As we close the market is dull for want of stock, but firm for all good grades. We quote at $19@19.50 per M. for inferior to fair speculations; and $20@20.50 for good to prime do. White Pine is moderately active, but the business mainly in the upper qualities; the common grades being too scarce to admit of much movement; in fact, scarcely any shipping boards at all can now be obtained. We quote at $31@33 per M. for common to fair box and shipping boards; $35@38 do for good do; $40 do for pickings, and $45 do for selects. Yellow Pine has been scarce of late, and the market a little uncertain. Sellers, however, are by no means inclined to give way. and full former rates are in all cases demanded. We quote at $28@31 per M. for random cargoes; $32@38 do for special cuts, and $40 do for fancy do.

We note additional exports as follows:—

To Hamburg, 282 logs walnut, valued at $10,495; to Liverpool, 44 do, maple, value $1000; to British N. A. Colonies, 5 masts, $860: to Hamburg, 6,240 staves; to Bremen 2,400 do; to Amsterdam, 5,400 do; to Liverpool, 10,400 do; to London, 5,220 do; to Glasgow, 4,320 do; to Chili, 1,200 and 429 shooks; to British Guiana, 500 shooks; to Porto Rico, 1,094 do; to Brazil, 2,191 do; to Cuba, 1,128 do, and 25,000 hoops. No receipts worth noting reported this week.

Charters as follows:—A brig, 200 M lumber from Wilmington, N. C., to Demerara, $11.50: a schr, 199 tons. to Jacksonville, general-cargo, round sum, thence to Trinidad, Cuba, with lumber, and back to New York with molasses, $5.50 under, and $5 per 110 gallons on deck and port charges, covering the outward cargo; a schr, 240 tons, from Jacksonville to New York, dry boards, $11; a tern. schr, 292 tons from Satilla River to Bath, Resawed lumber, $12; a schr from New Berne, N. C. to Fall River, pine plank. $9.50; a brig, 159 tons, from Fernandina to Boston, resawed lumber, $11; one, 231 tons, from Fernandina to Fall River, $11.

The latest mail advices from Rio Janeiro report:—

PITCH PINE DEALS—40,000 per dozen of 14 x 3 x 9. Dull.

ONE INCH LUMBER—105 rs. per foot.

The following is from St John, N. B. Deal freights continue depressed, with but little inquiry for tonnage, the scarcity of deals preventing any activity. Ship Sarah Hignett, to Liverpool, at 62s 6d.

West India freights are dull. The following charters have been effected, viz:—Anna Lindsley, 217 tons, choice of ports, 21c; Nelson. 148 tons, Matanzas, $7.50; Royal Sovereign, 320 tons and Bessie. 219 tons, Cardenas, for orders, 21c; Lothair, 195 tons, Port Spain, Trinidad, $9; Lone Star, 208 tons, Matanzas or Cardenas, 21c, Havana, 22c; Silver Cloud, 489 tons, Havana or Matanzas, 19½c; Caroline, choice of ports, $8; and Morning Star, 285 tons, Cienfuegos, $7.50.

Coastwise freights steady. We hear of the following engagements, viz:—M. A Smith, Eliza B. Beard, Black Bird, Snow Bird and Rangatiro, for Boston, $3.25: Arizona and Annie Martha, for Providence, $4.50; Greta, Nettie, Susan and Ocean Belle, for New York, $5.

A report from Pensacola says:—United Kingdom, for orders, hewn timber, 38s 6d per load. to direct ports 36s 6d; sawn timber, 2s. 6d less. Cuba—More activity, and vessels could find employment, but scarcity of lumber suitable for that market prevents business, even though the rates are good. Northern ports—New York $10, Boston $11@12, Philadelphia, $10, and Providence, $11@11.50 per M. South America—Buenos Ayres and Montevideo, $21 @22 per M and primage.

From the *Saginaw Courier* we obtain the following:—

LUMBERING MATTERS.

Unless the snow which fell yesterday should be continued, or plainer, unless we shall have at least a foot of snow in addition to the amount now in the woods, it will be of very little benefit to lumber men. Many of the camps have broken up, and hauling has been discontinued by reason of the lack of snow. A heavy fall of snow at the present time would make thousands of dollars difference in the pockets of lumbermen, unless we do get it, an immense amount of logs will be left over. In regard to lumbering on the west side, the Muskegon *News Reporter* gives the following as the amount of logs contracted to be put in on the tributaries of Muskegon river during the season about closing:

West Branch of Main River	7,000,000
Butterfield Creek	7,000,000
West Branch of Clam	14,000,000
Clam River	16,000,000
Middle Branch	16,000,000
Greens Creek	4,000,000
Doc and Tom's Creek	8,000,000
Ryan's Creek	6,500,000
Little Muskegon	95,000,000
Tamarack Creek	48,000,000
Cedar Creek	8,000,000
Grand Total	229,500,000

Thus it will be seen that logging on Muskegon river proper, is less than one half the amount under contract on the tributaries.

BIG HAUL.—A team owned by Messrs. Whitman & Co., lumber dealers at Wenona, drew 15,070 feet of lumber at one load a distance of one mile on Tuesday, Mr. William Lewis, who is employed by this firm, with the same team on Thursday, drew at one load 21,414 feet of lumber a distance equal to that recorded above.

OUT OF THE WOODS,—The lumber camps are breaking up at all points, and the woodsmen are coming out, with the prospect of over-running the city in a short time. The crowds which may now be seen around the prominent street corners, is an index of what may be expected within a very few days. Merchants generally are expecting a

large trade in this direction, and are more than likely not to be disappointed. At any rate we may expect lively times for the next sixty days.

A PROTEST FROM THE VALLEY.—A special Washington dispatch under date of March 8th, says:

Senator Ferry presented to-day, a copy of the resolutions passed at the meeting of the lumbermen of Saginaw Valley, held at East Saginaw, Mich., March 4, remonstrating against the passage of the Chicago relief bill. The document was signed by seventy-five of the leading lumber dealers of that place. The resolutions were read to the Senate and then laid on the table.

A LARGE LOG.—Messrs. Williams Bros., of Saginaw, have a competitor in the way of big logs, on Thunder Bay. We have forgotten the dimensions of the Williams log, but a correspondent furnishes the following description of what is supposed to be the largest tree cut this winter in the Thunder Bay region. The tree measured on the stump seventy-eight inches.

First log	48	inches,	16	feet long, contained	1,728
Second	47	"	"	"	1,656
Third	45	"	"	"	1,518
Fourth	40	"	"	"	1,204
Fifth	37	"	"	"	1,029
Sixth	35	"	"	"	985
Seventh	31	"	"	"	799
Total number feet					8,919

The tree was cut at Mr. McElroy's camp No. 2, by the champion chopper Daniel Collins, assisted by Thomas Byrne, skidded by Charles Crowley, under the superintendence of Peter Graham, foreman. The tree was discovered by Mr. James Flood, while hunting martin.

The largest log yet known to be hauled in the vicinity, of Au Sable, was ninety-six feet long, and 46 inches diameter in the centre. It contains between 9,000 and 10,000 feet board measure of lumber. After the log was drawn into the main road, three span of horses hauled it to the banking ground, the road being up grade. The distance was five miles. William Conklin, for Moses McDougal, was the party who performed the work. The tree grew back of Greenbush, a few miles above this place, and was known as the "Monarch of the Forest" of all about it.

Colin Campbell, of Greenbush, hauled one log seventy-nine feet long by thirty-seven inches in diameter, containing about 5,376 feet board measure, of lumber, with one span of horses two and one-half miles.

At Greenbush there will be about 30,000,000 feet of logs and hewed timber got out, mostly for the Eastern market.

The Fond du Lac *Reporter* says:—

J. H. Parks came down from one of George Hunter's lumber camps on the upper Wolf this week. He reported to us last Saturday's work, which he superintended. The number of loads banked on that day was twenty-one, with four teams on a three mile haul, scaling 57,000 feet. One load, hauled by a single span of horses, consisted of six twenty-four foot logs, the largest of which scaled 1,600 feet, the entire load scaling 8,148 feet.

LUMBERING.—The Shawano, Wis. *Journal* contains the following estimate of the product of the Wolf river pineries during the present season:

	Feet.
Shawano lake	21,700,000
Upper Wolf (town 31)	13,290,000
Shico (ranges 16 and 17)	20,500,000
Lower Wolf (ranges 15 and 16)	17,000,000
Embarass (less the Pigeon)	25,000,000
Red river	12,800,000
Little Wolf	52,000,000
Pigeon	15,000,000
Total	178,200,000

MENOMINEE.—The *Herald* gives the following items:

Kirby, Carpenter & Co., of this village, will probably get in 40,000,000 feet of logs this winter, which will be the heaviest stock carried by any firm on this river, or in the State of Michigan.

The cut up to last Saturday night was 125,000,000.

In regard to the lumbering on Pine river, one of the tributaries of the Tittabawassee, emptying into the Saginaw, the Gratiot *Journal* says: "The late thaws have effectually used up the sleighing on all roads exposed to the sun. It is not indeed so late in the season but that we may yet have heavy falls of snow, and possibly some weeks' sleighing: but operations were commenced so early, and the season has been so favorable, that lumbermen generally have already got in more logs than they expected, and are not disposed to do more than consume the feed on hand and keep a sufficient force together for "breaking in" their logs. The result of the winter's work is most satisfactory. A large proportion of the pine injured by the fire has been saved, and a large amount of green pine also cut. The entire amount banked on Pine river is estimated at 68,000,000 feet, by those who have looked it over with a view to contract the driving. There will probably be enough added to make it 80,000,000 feet. This far exceeds any amount ever put into this stream in one year before, and to any one not accustomed to the lumber business, the figures convey a very vague idea of the immense masses of logs it represents. The average expense of cutting and hauling these logs has not varied far perhaps from $3.50 per thousand feet, which would make an aggregate cost of $280,000. A large proportion of this amount is paid in wages for men and teams, and hay, feed and camp supplies.

Logging is going on finely on Muskegon river, with plenty of snow, perhaps rather too much. At least 300,000,000 feet of logs will be put in this winter, being 50,000 feet more than last winter.

The White River Log and Booming Company expect to have in charge during the season logs for 100,000,000 feet of lumber. Last year the company sorted and delivered about 350,000 logs, making upwards of 60,000,000 feet of lumber.

The Port Huron *Times* says:—Gentleman engaged in lumbering operations in sections of country which seek Black river as an outlet, express the opinion that not over two-thirds the quantity of logs put in last season will be got in this year. Mr. John Cole has put in on contract, mostly from lands owned by J. L. Woods, about 12,000,000 feet. Mr. Charles Decker has put in about 2,200,000 feet, part of them for Howard & Son, and the remainder for F. L. Wells. William Marion has put in 1,400,000 feet, for Mr. Smith, of Algonac; and E. & J. Erskine, from their own lands, have put in 1,200,000 feet, intended for Howard & Son, and F. L. Wells. Smaller amounts have been put in by various parties at different points on Black river and its tributaries.

The following is from the annual report for the year 1871 of the Secretary of the Chicago Board of Trade:—

No reduction in lumber has been observable; in fact, the receipts of lumber proper have been larger by over 20,000,000 feet than in 1870. Receipts of shingles have been a trifle less. Receipts of the former figure up 1,039,328,375 feet; of the latter, 647,595,000. Prices, both by cargo and in the yards, ruled very steady until about August, when some advance was realized. After the great fire, owing to the pressing demand, an advance on some grades was established of $3 to $5 per thousand feet. At about the same time that a large part of our city was destroyed by fire, very great destruction was suffered by the same element in the districts of county from whence a large portion of our lumber supplies are received; many large and important mills were destroyed, and thousands of acres of timber lands were burned over, greatly reducing the value of such, though not entirely destroying the value of all the lumber. It is feared that the loss of the mills referred to may be seriously felt in the lumber supply of the coming year, when so much will be needed in the rebuilding of our city. It is understood that arrangements have been consummated for the shipping hither by rail of large quantities of lumber during the winter, and already considerable has been received. In the October fires some thirteen lumber yards were burned in the city, involving a loss of about 60,000,000 feet of lumber, besides other items of stock. At the close of the year the stock in the city is about 234,500,000 feet of sawed lumber and timber, less than a year since, by about the amount destroyed by fire.

The following items are from Western journals:—

OUR FORESTS.—"While the people of Michigan are rapidly felling the forests of the State, the export of the lumber exceeding two thousand million feet yearly, other Western States are providing for the growth of timber, their greatest need. Some years ago, it was shown by the official report of the General Land Office that Michigan had more lumber in her forests than all the Northwest beside. Kansas has planted 80,000 acres of land with trees in the past two years; and now California appoints a State tree-planter, and appropriates $10,000 and expenses for the planting of forests. The lumber supply of Michigan is not inexhaustible, and the time may come within thirty years when the State will be forest-poor, unless greater care is taken in the future than has been in the past to prevent unnecessary waste in the manufacture of lumber."

LUMBER.—Good judges estimate that more timber will be sawed in Michigan this year than any year previous. This is owing to the high price of lumber, and the fact that the fire damaged so much timber that will have to be marketed at once. It is said that over 300,000,000 feet of logs are now in the Muskegon river.

The Muskegon *Chronicle* has quite a lengthy article on the subject of lumbering from which the Grand Rapids *Eagle* condenses the following:—

The work is now completed in the logging camps practically, and the loggers are waiting to begin in the mills the finishing strokes that shall "hash up" the mighty giants that have fallen before them. Not nearly so much has been cut during the winter, as frequent statements have suggested. This has been caused by the lateness of the season before actual work began, and because many of the men employed were unused to their work, and so labored at a great disadvantage. There are many contracts unfinished, and many logs unbanked now. Good judges and inspectors of work actually done are of the opinion that the quantity actually put in will fall many millions of feet short of what has been talked during the winter—that instead of being much more than 300,000,000 feet, it will fall below, will not exceed the crop of 1870, or 280,000,000 feet.

The Marinetta and Peshtigo (Wis.) *Eagle*, of a late date, says that about 110,000,000 feet of logs have been banked on the Menominee—30,000,000 feet by the Peshtigo Company.

A letter from La Crosse announces the breaking up of logging on the Black and Chippewa rivers, the earliest for 15 years.

The New Orleans *Prices Current* says:—

The principal demand at present is from the North, the West Indies, and South America, but tonnage is scarce. There is scarcely anything doing in city and country trade. There is a good stock of all kinds on hand. Prices have generally fallen since last report.

Cargo lots are quoted at $13@15 per 1,000 feet for inch Boards; $13@15 for Scantling; $13@15 for Weatherboards Rough; and $19@20 for Dressed; $15 for Rough Flooring, and $20@25 for Dressed; $17@20 for Dressed Ceiling; $25@30 for Cypress; $4@5 for Common Shingles, and $2.50@3 for Laths. General orders on Rough and Dressed Lumber are filled at $5 per 1,000 feet on cargo prices.

METALS.—The stock of Ingot copper has become very much reduced and well under control, so that with a continued active demand holders have been enabled to obtain a still further advance, the market closing very strong. Manufactured copper is firm, and an advance seems more than probable in the face of the higher prices of the raw material. We quote; Ingot, 30¼@31c cash; New Sheathing, 36c; Yellow Metal, 26c; Old Sheathing, 25½@26c. Scotch Pig iron still has an active enquiry, but continues exceedingly scarce, and somewhat excited at a further advance closing at about $50 for Glengarnock, and $49 for Eglinton, but very little to be had at these prices. American is also in very limited supply, and firm at fully the advance noted in our last. We quote at $50 for No. 1; $49 for No. 2, and $48 for forge. Refined Bar from store is held very firm, but no advance has taken place as yet. We quote from store as follows:—Bar Swedes, $117.50@127.50; refined, ordinary size, $100; refined, 1¼ to 6 by ¼ and 5-16, $105; refined, 1 and 1½ by ¼ and 5-16, $107.50; refined, 2¼ to 3, round and square, $110@137.50; scroll, $117.50@147.50; ovals and half round, $115@133; band, $112.50; horse-shoe, $112.50@122.50; rods, ⅜ to 3-16 inch, $105@150; hoop, $120@167.50; nail rod, per lb, 7¼c. Common Sheet is very scarce and higher. We quote at 6@7 for single D and T, and 7@8c for D and T Charcoal. Galvanized Sheet continues strong. We quote at 12@13c for 14@20: 12½@13½c for 22@24; 13½@14c for 25@26; and 15@19c for 27@29, all less 20 per cent. to the trade. Russia Sheet is firm. We quote at 16½c. gold, according to number. Pig Lead continues quiet and prices nominally unchanged. We quote at $5.90@6.70 gold, for common to good forge. Manufactures of Lead are steady at previous prices. We quote at 9¼c for bar: 10c for sheet and pipe, 15c for tin-lined pipe, all less 10 per cent. to the trade. Pig Tin is in fair demand, but somewhat unsettled, and prices strong in favor of holders. We quote in coin at 40c for straits; 39½c for English, and 46c for Banca. Plates are active at about former prices, closing buoyant. We quote: I. C. Charcoal, $12@12.25; I. C. Coke, $10.50@10.75; Coke, $9.25@9.75, and Charcoal Terne, $10.25@10.50 all gold prices. Sheet Zinc is quiet at steady prices. We quote at 10@11c gold for Mosselmann from store.

NAILS.—The general inquiry, though not exactly sharp or general, is very fair, and probably as good as could be expected for the season. Exporters are very well represented, and though interior buyers are naturally somewhat indifferent while freight tariffs are high, the dealers who distribute in small lots are stocking up in anticipation of a good spring trade, though the recent upward turn of values, with hints, that the end is not yet, admonishes many who have been a little backward that it is about time to look out for supplies. Prices of all kinds are very firm with agents and manufacturers somewhat indifferent sellers. We quote per 100 lbs: cut, 10@60d, $5.25; cut, 8@9d, $5.50: cut, 6@7d, $5.75; cut, 4@5d, $6; cut, 3d, $6.75; cut, 2@3d, fine, $7.50; cut spikes, all sizes, $5.50: cut finishing, casing, box, etc., $5.75@7.25: clinch, $6.75@7.25; horse-shoe, forged, No. 10 to 5, per lb., 20@33c. Other styles are selling as follows: Copper 40c per lb.; Yellow Metal, 26c do.

Exports as follows:—

	Past week.	Since Jan. 1.
Packages	62	4,055
Value	$268	$27,813

PAINTS AND OILS.—In a wholesale way the movement of invoices is somewhat moderate, owing in part to the moderate supplies at present available; about everything worth handling, having been brought up on the spot and a large proportion of the parcels known to be in transit, are also secured. The demand, however, is good enough, and importers claim that had they anything really desirable to offer, it could be placed without difficulty, and at full and probably higher prices. Venetian Red, China Clay, and Orange Mineral in particular, are scarce, so much so that it is almost impossible to find even a jobbing invoice in first hands. The jobbers are all busy, and report buyers as operating freely, without much grumbling at the cost of goods. The West is affording a fine outlet, and advices recently at hand seem to indicate that the call from the quarter named may be depended upon as quick for a long time to come; the stocks having become greatly reduced, and the consumption promising large. Dealers are fairly supplied with goods bought early in the season, and are thus enabled to meet most orders promptly. Exporters are taking a few parcels, but do not appear very anxious operators, as there is some difficulty experienced in securing desirable and cheap freight accommodations. Linseed Oil continues to move a little slowly, but is also still held with confidence, and the general market may be written as quite firm. Some outside lots can be obtained at 85c, though from crushers' hands 86@87c are still asked, and are probably the correct market quotations.

Exports as follows:—

	Past week.		Since Jan. 1. 1872.	
Paint.....pckgs.	30	value $594	1,492,	value $17,527
Linseed oil, galls.	—	" —	811	" 738
Oxide zinc, pcks.	—	" —	—	" —

A meeting of the Paint and Color Manufacturers was recently held in this city for the purpose of effecting a protective association, and the following adopted:—

Resolved, That a permanent organization of the Color Manufacturers of New York be effected, which shall be called the Color Makers' Association of the United States, and that its duties shall be the protection of the interest of its trade against special legislation on the tariff and such other matters as may be agreed upon afterward.

The main object in view at the moment is to take measures to oppose the passage of the bill now before Congress for placing paints and colors on the free list. The leading manufacturers of this city, Philadelphia, Boston, Baltimore, etc., were represented, and the proceedings were very spirited and enthusiastic.

PITCH.—The market remains quiet and sales small, and of a jobbing character. Prices are decidedly lower in sympathy with strained Rosin, as we predicted in our last, and is held at the close at $4.50@4.75 for prime city delivered. Receipts for the week, 98 bbls; since Jan. 1, 323 bbls; same time last year, 150 bbls. Exports for the week, 50 bbls; since Jan. 1, 739 bbls; same time last year, 455 bbls.

SPIRITS TURPENTINE.—The market has ruled quiet and irregular, though steadily declining throughout the week, until at the close prices show a fall of fully 10c in comparison with last week, and 23c lower than the highest price touched. We quote at 67@67½c for merchantable order, and 69@70c for lots from store. Receipts for the week, 287 bbls; since Jan. 1, 8,711 bbls; same time last year, 9,184 bbls. Exports for the week, 85 bbls; since Jan. 1, 4,239 bbls; same time last year, 4,316.

TAR.—There has been a light enquiry for all descriptions, and prices are rather steady at a slight decline from last week. We quote at $3.25@3.40 for Washington, $3.25@3.40 for Newberne, and $3.50 for Wilmington. Receipts for the week, 2,024 bbls; since January 1, 11,139 bbls; same time 1871, 8,308 bbls. Exports for the week, 70 bbls; since Jan 1, 1,372 bbls; same time 1871, 971 bbls.

Cor. 50th Street, NEW YORK.
Property sold and rented. Loans negotiated. Charge of houses and collection of rents a specialty.

No one should Build or Live in a House
WITHOUT EXAMINING OUR
ELECTRICAL APPLIANCES,
without which no house can be said to have all or even the MOST IMPORTANT OF MODERN IMPROVEMENTS; in fact, they are indispensable for the complete outfit of a first-class house with what may be termed necessary conveniences. All English and French houses at the present time are furnished with this electrical apparatus.

E. HOLMES'
Burglar Alarm Telegraph.
This one Bell, located in the Sleeping-Room, when set for the night, rings upon the opening of each door and window of the house. It is a watchman that has but one house to protect; never goes to sleep; cannot be bought off; and an experience of ten years, without a failure, proves it to be perfectly reliable and satisfactory.
PARTICULAR ATTENTION
is requested to our new
HOUSE ANNUNCIATOR,
An improvement upon the French system.
IT CONSISTS OF A SINGLE
CALL BELL AND ANNUNCIATOR,
in the kitchen or servants' department, and so arranged that the simple touch of a small ornamented spring in each room of the house RINGS THIS BELL AND ANNOUNCES THE ROOM from which the call proceeds—the bell continuing to ring until the servants give it attention. The whole thing is operated by
ONE BATTERY, OR BY THE SAME BATTERY
that operates the
Burglar Alarm Telegraph.
It is simple, perfect, and reliable, and will not get out of order, and is a very great improvement upon the old system of "bell pulls." We also have
An Attachment for Ringing Door Bells and Servants' Bells from the
TABLE OR DINING ROOM,
by placing a spring in the floor, and covered by the carpet. Also, for
Calling the Coachman from the Stable.
Send for pamphlet containing ten or twelve hundred TESTIMONIALS. They are from our best citizens and first business men of New York and vicinity.

E. HOLMES,
OFFICES:—
7 Murray Street, New York.
6 South Clark Street, Chicago, Ill.
1111 Chestnut Street, Philadelphia, Pa.
69 West Fourth Street, Cincinnati, Ohio.
205 River Street, Troy, N. Y.
121 Washington Street, Boston, Mass.

CAUTION.
The public are cautioned against all infringements upon this patent, even when called improvements; other parties have slightly changed my method of doing the same thing, and without any practical experience speak of it as a very great improvement. This invention is the only one that has had practical experience. It has been in general use for ten years, and every real, practical, or desirable improvement that study and actual experience could suggest has been added.
All violations of my patent, either by using or vending an infringement, will be dealt with to the full extent of the law for such cases provided.

MAGRATH'S COPPER SASH-CHAIN,
PATENTED 21ST MARCH, 1871,

Is adapted to ordinary round pulley, and strong enough to suspend weights of any size required.
Being intended as a substitute for sash-cord, it can be put into sashes now provided with cord without any change of pulleys. The inventor feels confident that experience will prove his chain to be both economical and durable, besides doing away with the constant annoyance and expense attending the use of sash-cord.
For terms and further information apply to
M. MAGRATH, Patentee, Carpenter and Builder,
74 Irving Place, New York City.

REAL ESTATE RECORD
AND BUILDERS' GUIDE.

VOL. IX. NEW YORK, SATURDAY, MARCH 30, 1872. No. 211.

Published Weekly by
THE REAL ESTATE RECORD ASSOCIATION.
TERMS.
One year, in advance.....$6 00
All communications should be addressed to
C. W. SWEET.
7 AND 9 WARREN STREET.

NO receipt for money due the REAL ESTATE RECORD will be acknowledged unless signed by one of our regular collectors, HENRY D. SMITH or THOMAS F. CUMMINGS. All bills for collection will be sent from the office on a regularly printed form.

CHARTER PROSPECTS.

THERE is a strong likelihood that after all no charter will be passed by the present Legislature. The amendments made in the Senate, it is supposed, will render the Bill so objectionable to the House, that when it is sent down to them it will be allowed to lie on the table.

All accounts agree in stating that the present House is the most corrupt that was ever known in Albany. Seventy-eight of the members are set down as "Purchasable"—their prices ranging all the way from fifty to two hundred dollars. The passage of an enactment is simply a question of cash. So if the Mayor, Aldermen, Comptroller, and President of the Board of Works are willing to spend the money, no Charter will be passed this session; and they may continue to hold their offices.

As for methods of killing the Bill, the plan at present discussed is for the Legislature to adjourn *sine die*, when the hundred days are up; and they can do so constitutionally. Another plan would be to pass it in its present mangled condition with a full assurance that Governor Hoffman will veto it—as veto it he would. The Governor bestowed a great deal of care upon the recommendations which he made to the Legislature in his annual message; these recommendations were entirely overlooked in the framing of the Charter; and it would be absurd of Governor Hoffman, in view of his record and his political training, to endorse any such scheme as that proposed by the Committee of Seventy, no matter how modified or amended.

It must be remembered that the voters of New York are not English or American—they are mainly Celtic or German. Of the 150,000 persons who compose the voting force of our city probably less than 40,000 are native born. The rest are Germans or Irish, or the immediate descendants of those nationalities. A very cursory acquaintance with history shows that the Germanic nations and the Celtic nations have prospered best under personal Government. It is only in England and among English speaking populations that parliamentary rule, governed by a Legislature, has been possible. The instincts of the old Ring, or Rings, which have controlled this city, have tended more and more to keep in harmony with this instinctive spirit of the voting population. Under Fernando Wood, the leaning was towards a pure autocracy; under the famous Sweeny and Tweed arrangement it was a very narrow sort of oligarchy—but in each case the masses of ignorant voters were governed by personal authority, and not at all by parliamentary majorities. Governor Hoffman felt the wisdom of this procedure; and hence his recommendations have always been in the direction of strong Executive authority and responsibility.

In the schemes of the Committee of Seventy, however, this fact of the difference between the voting population of New York and the rest of the country was not recognized; and they accordingly, have given us a Charter after the English model, in which the Legislature is supreme. In spite of all the experience we have had as to the hopeless corruption of our local Legislature within the city of New York for the last thirty years, they followed the English models, and those furnished by the New England States. The Committee of Seventy meant well, of course; but they were men of business and lawyers, with a sprinkling of *doctrinnaires;* and the consequence is they have framed a Charter which, if passed, would lead to as bad a state of things as any we have had in the past.

Governor Hoffman will of course veto the Septuagint Charter if it be passed; because his instincts and his training tell him that a Legislative government will not do in New York. What it does need is responsible personal government.

We should very much doubt whether Comptroller Green or Mr. Stebbins would be prepared under any circumstances to bribe the Legislature to adjourn; but if they are ready to spend the money, "Barkis is willin'." The men are there ready to be bribed; and if the cash is forthcoming, they will do what their purchasers bid them do. Then the Charter may be passed with the understanding that it will be vetoed by Governor Hoffman, and that there will not be a sufficient number to overcome his veto. But a very likely contingency is the sudden adjournment of the Legislature without passing any Charter whatever.
