MISCELLANEOUS.

REVIEW OF THE REAL ESTATE MARKET.

Our review is necessarily brief, the market presenting no points of specific character, having been for the past week quite dull. Whatever feeling for the better has been engendered in commercial circles it has not developed sufficiently to react upon real property. The only support to real estate at present is its innate power of self-assertion and resistance to depression even if long prolonged. Trade generally has not revived. It needs only a glance at the daily market reports to understand this, if it has not been already gathered from personal experiences. This being the case, it is not to be expected that our market should be active, but it becomes more a matter of surprise that anything should be done in it. The public sales of the week, with slight exception, have been of ordinary character, enforced by foreclosure proceedings which give no opportunity to the owner or to the property involved. Private sales have been few, and inquiry has been moderate. There seems to us no doubt, however, that the tone of the market is much better than a few weeks ago, with every disposition to improve. There is yet no opportunity for driving trade, and we are not sanguine that business will be active this season The market will not bear hurrying, but must wait the general balancing of trade, and its healthy recovery is dependent upon gradual growth. This course it seems, at present, likely to take, and, should no untoward event occur to unsettle money issues, through unfortunate legislation upon the currency, we may expect trade to advance, and from its profits to benefit real estate.

MARKETS.

As far as the volume of trade can indicate, the markets vary little from previous reports. We hear, nevertheless, of improved feeling in general mercantile circles, and of an impression which has obtained, that in business affairs we have reached the lowest depths of woe, and are now on the happy turn which leads upward and to fortune. Real estate and building interests naturally share in the beneficial results of active general trade; but, as their turn comes latest, we can not forbode any early marked improvement. It is confidently assumed by many that commerce will, with ordinarily favorable crops, wear a lively and active appearance in the fall. Should the event verify that expectation, we may look to see our special reports change for the better early next spring, before which time we do not look for much better prospects. In a great portion of our review it will be found that there continues a falling off in trade, and a weakening in prices, which is not of favorable augury, and only goes to show that whatever the conditions may be that lead to expressions of confidence and hope of improvement, they have not as yet extended to our line of review. At the same time our reports present, in comparison with each other, and with recent reports, some contrasts which seem quite anomalous. For this week Brick are in very much better business, with firm prices, goods selling fast and well up—yet we reduce our quotations; Cement is in demand for foreign, but dull for domestic, which is off in quotation; Fire Bricks have met with some sale at lower prices; Foreign Woods do not show as much life as a few weeks ago, but are in some request; Glass is dull, quoting a trifle higher; Hair is without a market; Hardware is inactive, with no prospect of early improvement, and prices going as low as possible; Lath are steady, and Lime meets with fair sales, but at lower rates than it has hitherto commanded. Trade in Lumber is very inconsiderable, with prices steady and unaltered; Metals continue dull and depressed, with a slight outlook for improvement; Oils and Paints are quite active; and Pitch, Spirits of Turpentine, and Tar, have been quiet, with a moderate amount of trade.

We herewith append our review briefly in detail:

BRICK.—Arrivals have been limited, and we have been unable to get data to approximate to an estimate of the quantity coming in. Haverstraw Bays are sold as fast as they arrive, while other goods do not move so freely. Some sales have been made at the best prices, but, in quoting the range, we have taken the depressed tone of the market without descending to lower figures, which are exceptional only, and control very indifferent manufacture. It is reported that the old stock of goods is nearly disposed of, and that the brickmakers have begun to mold. This being the case, we may expect to see the new production in market within the next five weeks. Fronts remain unaltered in price, and limited in demand. We quote: Pale, ℔ M, $3@3.50; Jersey, $6.00@6.50; Long Island, $—@—; Upriver, $6@7.; Haverstraw Bay, $7.00@8.75; Croton Fronts—brown, $14@15; dark, $15@16; red, $16@17; Philadelphia, $28.50@30.50; Baltimore, $50@58.

CEMENT.—Rockland is weaker in feeling and limited in business. We quote it at $1.40@1.50, and are not sure, under existing trade, but it will go lower. Foreign cements are in better request, Portland being in fair demand with light stocks, and sales occurring to arrive. We note sales of 200 bbls., to arrive, at $5. and of 100 bbls., ex vessel, at $5.10. Roman is held at $4 per bbl. We quote foreign, generally, at $4@5.25.

FIRE BRICK.—The only movement of note has been in Scoth goods, of which we note sales of 55,000, to arrive, at $40, currency. Quotations otherwise are unchanged.

FOREIGN WOODS.—There have been arrivals of cedar, with which the market was previously well supplied. The market generally is dull, as is usual at this

time of year, quotations nevertheless being well sustained, and unaltered.

GLASS.—French window is limited in supply, and is in moderate demand. Quotations are somewhat improved, however, in favor of dealers, discounts being 50 and 10 and 5. Polished plate and English sheet continue dull and nominal.

HAIR.—There have been no sales, except of a jobbing character, and but for these, prices would be altogether nominal. We quote as to quality: Cattle at 18@25 cents, and goat at 25@30 cents per bushel.

HARDWARE.—Prices have been falling until dealers think they have got about as low as they can afford to do business on. Trade is very moderate, and almost at a standstill, with a general expectancy of better times. The discount on wrought iron pipe, mentioned in our last, has been extended to 50 per cent. Another price list, issued by Morris, Tasker & Co., fixes discount at 30 per cent.

LATH—Are in good supply, but in better feeling, with no apparent disposition to shade on price. We quote them steady at $2 per M.

LIME.—Trade is called fair, some goods selling as fast as received, and orders waiting to be filled. Notwithstanding this, prices are lower, and we quote common generally at $1, and think that the market is weak at that. Finishing is quoted at $1.50 for both State and Rockland. The decline doubtless arises in Rockland, which forces quotation in other manufactures, no matter what the condition of their trade. The reasons for this decline have not been made apparent to us, but we assume that it results from the dullness in building, coupled with excessive arrivals of Rockland.

LUMBER.—Trade at the yards is very quiet, so much so as to be called dull. There continues a limited inquiry for common lumber, and flooring is naturally in some request; but of good, healthy, active trade there is none, although we do not suppose that dealers are losing money. Spruce has been in limited request, quoting at $18@22. Yellow pine has not met with much business, selling at $25@30 for timber, and $28@32 for flooring. Hardwoods continue in limited request, purchases being adapted to the most ordinary requirements. We retain quotations. As matter of review, the lumber market contains little of interest, and affords a very limited opportunity for comment. Trade, while dull in comparison with past experiences, must be in its nature safe and conservative, otherwise dealers would be unable to carry their stocks and to replenish as occasion requires. Sales for export are not reported, and large transactions are very infrequent.

The charters comprise: A German bark, 529 tons (now at Norfolk), from Savannah to Falmouth, for orders to a port on the Continent, yellow pine timber, 55s.—direct port, 52s. 6d.; two schrs., 140,000 and 145,000 resawed lumber, from Jacksonville to New York, $10 and $10.25; a Tern. schr., 340 tons, to Fernandina, general cargo, lump sum, and back, with lumber, $10; a schr., 150,000 resawed lumber, from Savannah to New York, $9.50; one, 148 tons (now here), from Wilmington, N. C., to Porto Rico, lumber, $10.50; one, 137 tons, from Wilmington to Ponce, P. R., $10.50; one, 200,000 resawed lumber, from Jacksonville to Boston, $11.50; one, 200,000 dry boards, from Jacksonville to New York, $10; one, 200,000 resawed lumber, from Savannah to Providence, $9.50; a British schr., 142 tons, from St. John, N. B., to Curacoa, lumber, $14, gold; a British bark, 392 tons (now at Havana), from Pensacola to Rio, lumber, $24 and primage.

Michigan and Wisconsin Notes.

From the Saginaw *Courier*:—

Hill & Son sold to Toledo parties 300,000 feet of lumber at $6.50, $13, and $36, cash.

W. S. Green & Son report a sale of 1,200,000 feet of lumber, to be cut, to Central Ohio parties, at $6, $12, and $35.

The following items are collected from various sources at points of manufacture, and from correspondence of the Chicago *Times*:

The Muskegon (Mich.) *News* says that nearly all the logs in Grindstone Creek had to be abandoned, and that over one-third of the logs in the tributary streams of Muskegon River are hung up for the season.

Following is a statement of the lumbering done on the Muskegon and its branches during the past winter:

Muskegon	100,000,000
Tamarack Creek	20,000,000
Little Muskegon	16,000,000
Ryan Creek	6,000,000
Hersey Branch	5,000,000
Grindstone	4,000,000
Middle Branch	6,000,000
Bear Creek	3,000,000
West Branch of Clam	4,000,000
Clam River	12,000,000
Butterfield	11,000,000
West Branch Main River	6,000,000
Total	193,000,000

Of the above, the logs in the Hersey Branch, Main River, Clam, and West Branch of the Clam, and a portion of the Little Muskegon, a total of about 50,000,000 are considered as "hung up," though it is possible that some of them will come out.

The amount of standing pine in the valley of the Chippewa is variously estimated at from thirty to fifty billion feet. The lumber cut at Eau Claire, the principal lumbering point on the Chippewa, finds a market in the river towns on the Mississippi, between Reed's Landing, Minn., and Louisiana, Mo. Most of the mill men own their own yards in the larger cities along the river, and ship into the interior by rail from their yards. The rafts are made up at the mills, and contain from 45,000 to 150,000 feet, according to the stage of water. These rafts are run to the mouth, and there coupled into Mississippi rafts, containing from half a million to two million feet, and then run below.

The Beef Slough Company, the members of which are composed of Mississippi river mill men, have been operating upon the Chippewa with more or less success since 1868. They have a boom at the mouth of Beef Slough, capable of holding 150,000,000 feet of logs. Beef Slough, so called, is the eastern outlet and a branch of the Chippewa River. The company have expended $150,000 in cleaning the slough, building dams, booms, etc. They purchased in the winters of 1872 and 1873 about 45,000,000 feet of logs upon the Chippewa. Owing to the breakage of the dam at Eagle Rapids, the logs came down so fast that the mill men could not handle them, and about 1,000,000 ran into Beef Slough. This year the company have again purchased 45,000,000 feet of logs, which they calculate upon running to Beef Slough, there to be rafted for their mills upon the Mississippi. It is not a very easy matter to get the exact amount of logs cut during the winter. There are, outside of the large operators, many small ones, who bank from 1,000,000 to 3,000,000 of feet every winter, and sell in the spring to the mill men, and it is hard work to keep track of them all. The correspondent has been to much pains in getting as accurate a statement as possible, and judges that there were about 275,000,000 feet of logs banked in the valley. There are about 60,000,000 feet of old logs back. To supply the Beef Slough demand and our home mills for the season, a better drive is required. The prospects of the drive are good.

A Minneapolis correspondent, under date of April 24th, writes:

The yield of logs for the past year will amount to about 140,000,000 feet, against 161,880,670 feet for the year previous, which shows a falling off of about 20,000,000 feet. The reason assigned for this decrease, aside from the effects of the late panic, is that the past winter has been so open that the logs have been brought to the river with the utmost difficulty. There are at present about 30,000,000 feet of logs in the river within reach of the falls. The amount of lumber at the yards in Minneapolis on January 1st, was 104,000,000 feet.

In reference to lumbering operations in the Wisconsin and its tributaries, a correspondent writes:

Commencing at Jenny Ball Falls, 20 miles above Warsaw, 214,000,000 feet of lumber and 55,000,000 shingles will be shipped this season. The log crop, which includes the old stock, and those banked this winter, is as follows:

Jenny	9,000,000
Pine River	3,000,000
Trapp River	3,000,000
Rib River	1,500,000
Monson's	17,000,000
Sandy	500,000
Big Eau Claire	10,000,000
Gray's	1,000,000
Monon's	1,500,000
Big Eau Plaine	1,000,000
Mosinee	7,000,000
Knowlton	3,000,000
Portage County	34,500,000
Wood County	34,000,000
Barnum	4,000,000
Yellow River (in Juneau County)	17,500,000
Total	147,500,000

The *Saginawian* notes the following transactions:—

Newton & Smith sold 300,000 feet of pine and Chippewa logs, to be delivered in mill boom, at $9.50 per M.

We hear of considerable inquiry for ash lumber, and a probable sale of 50,000 feet, by St. Charles parties, terms not stated.

We are informed of a sale of 200,000 feet of lumber to Western parties at market rates, but are not permitted to give names of parties.

Ring & Rust, to Thomas & Butts, of Cleveland, stock of lumber at mill, on S. V. and St. L. R. R., 350,000 feet, at $6, $12, and $35.

Wright, Wells & Co., 150,000 feet coarse stock, to Green Springs, Ohio, parties, at $6, $11.50, and $35.

The Bay City *Tribune* says:—

A sale of 40,000 feet of common lumber at $6.50 and $13, and 14,000 lath at $1.80, was made by the Drake mill, to Detroit parties, a few days ago.

From the Saginaw *Courier*, May 10:—

The following is the May price list for lumber delivered on cars, observed by Chas. Merrill & Co., subject to change without notice:

Three upper qualities	$38 00
Select boards	25 00
Common stock, 12 inch	13 00
Fencing strips	13 00
No. 1 flooring strips	25 00
No. 2 " "	20 00
Common boards	10 00
Coarse common	8 00
Scantling, joist, and timber, 12 to 18 feet	11 00
" " " 20 feet	13 00
" " " 22 to 24 feet	15 00
Lath	2 60

From the Saginaw *Courier*, May 12:—

Estabrook & Mason sold on Saturday, to Ohio parties, 300,000 feet of 1¼ and ½ inch boards and strips, at $6, $12, and $35, present season cut.

From the Milwaukee *Evening Wisconsin*, May 9:—

The market presents no new features. Buyers do not seem inclined to invest unless at concession of prices from sellers' views. The demand from the interior is light, and city dealers are having it their own way. We think, however, that the present low prices must induce attraction to country buyers, and we look for a more lively market the coming week. We quote:

Scantling and joist	$9 00@ 9 50
Common strips and boards	9 50@10 50
Medium to fair strips and boards	11 00@12 00
Extra to choice mill-run strips and boards	14 00@17 00
Lath steady	2 00@— —
Shingles	2 80@ 3 00

General Western Notes.

From the Chicago *Inter-Ocean*, May 6:—

The season, so far, has been very backward, and anything but satisfactory to sellers and owners of lumber. The receipts so far this year show only a slight increase over the arrivals for the same time last year, but the shipments show an excess of over 40,000,000 feet. The shipments for the last few weeks have not been materially larger than for the corresponding weeks last year, and the large excess in the total shipments so far this year is accounted for by the increased demand from the country trade during the months of January, February, and March. For some reason or other best known to themselves, buyers still appear rather backward in taking hold, neither the country nor city interest showing much disposition to buy. Freights are now unusually low, and it can hardly be possible that they will be any lower this season, as vessel owners are barely clearing expenses at present. Lumber is also selling very low, and while a further decline in values is possible, it is hardly probable, and it is generally conceded that the present is a favorable opportunity for buying. There was a moderate demand at the opening at the decline noted toward the close of the previous week, or at $10 for joist and scantling. Later, however, buyers held back, and sales were slow. At the same time sellers refused to quote their sales, and it was almost impossible, to obtain correct quotations. There is no rule or law compelling sellers to report their transactions, and generally they make a practice of quoting on an active, advancing market, but refuse to quote on a declining market. This may be policy, but we are of the opinion that if sellers would record all their sales, and show the actual state of the market, they would thereby induce a better demand. During the past week joist and scantling have been sold at $9.25@9.50, when the published quotations were $9.75@10.00. In this way country buyers are deceived as to the condition of the market, whereas they might be anxious to take advantage of the decline to purchase had they known of the real prices current. The ruling prices for joist and scantling, up to Friday, were $9.50@9.75, while strips and boards were selling at $9.75@16.00. Yesterday (Monday) the largest fleet of the season was offered on the market. The quality, as has been the case for some time past, was poor, good to choice cargoes of boards and strips being scarce, while for such there was a good demand. There was a moderate attendance of buyers, but they evidently thought it a favorable time to secure concessions in values, and held back for that purpose. Sellers were anxious to realize, and worked hard to induce buyers to take hold, but only with partial success, and after they had granted concessions in values. To-day the weather was more favorable, and there was a better feeling in point of activity, but prices were weak. The greater part of the large fleet offered yesterday morning was sold, and the market closed steady. The ruling quotations at the close were $9@9.25 for joist and scantling, and $9.50@16.00 for common to choice strips and boards. Shingles quotable at $2.75@3.00 for "A" sawed. Lath, $2.00. Closing quiet.

The yard trade was fair, but not as active as during the preceding week or two. The tendency of values is to a lower range, although, as yet, the market has failed to respond to the decline in cargo prices. Stocks are increasing. Closing steady.

From the St. Louis *Times*, May 9:—

There is a steady demand at quotations for the best grades of depot and levee lumber of all kinds; inferior and common difficult to place. Stocks in the hands of dealers large; trade at the yards quiet, and prices in favor of buyers. Best grades of shingles steady on east track at $3.00, and lath on levee at $2.75.

From the Chicago *Times*, May 6—

The receipts of lumber by lake last week were considerably larger than during the week immediately previous, but smaller than during the corresponding week last year. On some days the supply offered at the sales docks, at the foot of Franklin street, was scarcely in excess of the legitimate requirements of trade; but, as a rule, there were more cargoes on sale than were sufficient to meet the wants of buyers, and the natural result of this condition of affairs was a weak and declining market. In ordinary times the demand would have been considered as active, as both city and interior buyers were usually in large attendance, but, owing to the heavy receipts, sellers were frequently enabled to make sales only by granting liberal inducements in the way of concessions in values. Hence prices were weak and declining, and ruled about 50@75 cents per 1,000 feet lower all around, if we except the choicer grades of mill run lumber, which were not arriving very freely. There was a fair supply of good strips and boards on the market, but the receipts were frequently largely composed of common lumber and piece stuff, sales of which dragged, even at concessions. Shingles and lath sympathized with lumber, and were also weak and lower.

Previous to last week, dealers have usually recorded their sales in full, in the sales-book provided for that purpose in the exchange room, and thus the *Times* was enabled to publish actual sales, showing unmistakably the true condition of the market. For several days past, however, dealers have united together to keep their transactions secret, in order to deceive the newspapers as to the true condition of affairs, and thereby pull the wool over the eyes of the public. This game, which has been played frequently in past seasons, was too "thin" altogether to succeed, and notwithstanding for two or three days few or no sales were reported, the *Times*, with its usual candor, has daily given the condition of trade and prices. It is about time that the Chicago lumber dealers should abandon this childish and silly custom of withholding sales whenever a decline occurs, as it works no good either to them or to the public, but on the contrary frequently leads buyers to the opinion that prices are lower than they really are.

On yesterday trade was quite active, numerous country buyers being present, and upwards of 20 or 30 car

goes were sold, but common grades were about 25 cents lower, prices closing as follows:

Joist and scantling	$9 00@ 9 75
Mill-run boards and strips	14 00@16 00
Common strips and boards	9 50@13 00
Lath	2 00
Shingles	3 00
Pickets	10 00

At the yards, since our last weekly review, this branch of the lumber trade has been moderately active on local and interior account, and prices continued to rule steady.

From the Dubuque (Iowa) *Herald*, May 10:—

The market presents no marked features in trade, which, while being active in some yards, is slack in others, averaging about the same as usual on the week's business. During the past few days, however, an increase was noticeable, and the prospects brighter for continued activity. The water is up to an excellent stage for rafting, and gaining gradually. All the tributaries above are swelling, except the Wisconsin, which, at last accounts, had come to a stand. Log rafts are running past in large number, but very few lumber ones have made an appearance. Clark & Scott received two fleets of 500,000 each from the Wisconsin River, the first run out of that stream. Knapp, Stout & Co. got in a fleet to-day from the Chippewa, which is held at $12.50@13 afloat. A large raft also came in for I., K. & Day, from the Chippewa. Lumber will soon be running freely for a market, now that all the streams are clear of ice and in a good rafting stage.

The Eau Claire Lumber Company offered a fleet of lumber for sale, and disposed of 200,000 for $12, and 500,000 strips to Barrows, Taylor & Co., of Galena, for $13, delivered. Martin, of the same city, received on contract made last fall, four strings of 400,000 from I., K. & Day. Hereafter arrivals for city dealers will be of daily occurrence. No. 1 Chippewa lumber is held at $12.50@13 per M afloat; lower grades are procurable at a decline; no Wisconsin lumber as yet changed hands to make prices. Cedar posts are held at 25 cents; hemlock, 20@25 cents, in yards.

The Dubuque Lumber Co. received a large raft last week, which is being manufactured into lumber. No. 1 Black River logs are held at $11.50@12 per M, at La Crosse. Lamb, of Clinton, has offered $11.50 all this month; low grades sell down to $7. The opinion prevalent is that if the drives are a failure, as indicated, lumber must advance $2 per M during the season.

Mr. Single, of Grand Rapids, Wis., is in with 250,000 lumber, which he holds at $15.50; also the Weed Lumber Co., from the same river, with 600,000, held at $16, with prospective purchasers for each lot.

Rail shipments of lumber increased 26 cars last week, but are below those of a year ago, when the market appears to have taken a start all at once. A comparison discloses the following figures:

Shipped West last week	99 cars.
Previous week	73 cars.
Increase	26 cars.
Same week in 1873	112 cars.
Decrease in 1874	13 cars.

From the Chicago *Inter-Ocean*, May 11:—

The continued unfavorable winds prevented, or rather delayed, the arrival of the fleet, and the offerings on sale to-day were very light. Early in the week the large offerings caused a decline of 50c.@$1 in prices. At this decline the offerings were quickly taken on country and city account, and the market since then has ruled steady. To-day some six or eight cargoes were on sale, and were sold at former quotations. Sellers, however, were indifferent about reporting, and only one sale was recorded. We quote joist and scantling steady at $9@9.50 for common to choice cargoes, and strips and boards at $9@16 for coarse common to choice mill-run cargoes. Shingles quotable at $2.75@3.12½. Lath, $2. Pickets, $8@10. Closing steady. Cargo sales:

Cargo schr. Iver Lawson, from Muskegon, to arrive, 150,000 wide and 12-inch boards, at $14.50; 100,000 lath at $2.

In the yards the demand has been moderately active, and a steady feeling prevailed.

From the St. Louis *Times*, May 11:—

White pine in raft nominally unchanged; little or none offered on the market as yet. A lot of 100,000 feet ordinary mill-run Wisconsin, sold in pile at $17. Parties just from the Wisconsin and Chippewa, state that while there is no difficulty in driving on those rivers, that in the smaller streams tributary thereto the greater portion of the logs will be "hung up" for the want of sufficient water to effect a drive.

The market for depot and levee lumber continues to rule as unsatisfactory as ever. There is a moderate demand only for best grades of all descriptions, while inferior and common is avoided by buyers. Prices, however, on all grades are essentially unchanged. At the yards a fair business was done at unchanged rates. Best grades of shingles lower at $3.80, delivered, and lath at $2.75 on levee.

We quote the range for depot and levee lots: Yellow pine flooring, 3d rate, at $14@16; green, 2d and clear do, $24@25; dry do, $26.50@27; yellow pine, mill-run, dimension, at $13@14; poplar at $16@18 for mill-run boards and strips; 2d and clear do do, at $20@22.50; 3d rate, $13@15; black walnut, $20@25 for inferior; $30@35 for common to fair; $38@40 for good; and $42.50@45 for choice; oak at $20@28; ash at $20@27; hickory at $30@35; sawed cedar timber at $30@32.50—hewn, $25@25; cedar posts at $30; walnut table legs sell at 16@22 cents per set.

State Notes.

From the Troy *Times*, May 7:—

LUMBER.—During the past week the lumber trade was fairly active, with no rush of business, but with good steady sales. Considerable lumber was shipped, but dealers generally seem to be holding off from coming to this market until the arrival of new stock by the canals. Lumber from the Champlain will probably reach here by Saturday, and next week arrivals from all the canals will commence. We make no change in our quotations yet.

Pennsylvania Notes.

From the Williamsport (Pa.) *Gazette and Bulletin* of May 7:—

Our report of the shipments of lumber from this city for the week closing on the 2d of May, show a total of 8,583,952 feet, an increase over the operations of the previous week of 3,006,906 feet. This heavy increase is caused by adding 1,134,600 feet shipped at Loyalsock by canal, for the month of April, and cleared from the collector's office in this city.

The total shipments for the month of April foot up 31,710,518 feet, a fraction over one million per day. This is an increase over March of 5,523,409 feet.

The total for the operations of January, February, March, and April, including two days of May, now reaches 88,624,097 feet, an increase over the same period last year of 29,687,357 feet. Were we to add the shipments by canal from points east of Lock Haven, and cleared from this city, amounting to 2,149,858 feet, the grand total would be 90,773,955 feet.

The mills are nearly all running, there is an abundant stock in the boom, and everything wears a cheerful and prosperous aspect.

During the week 150,800 feet was shipped on the Philadelphia and Erie from points east of Renovo, requiring the services of 16 cars.

From points south of Troy, on the Northern Central, 30 car-loads were forwarded during the week, aggregating 291,440 feet. During the same period the bark shipments amounted to 5 cars, making a total of 345 since the 1st of January.

Eastern Notes.

From the Boston *Lumber Trade*, May 11:—

The market show very little, if any, improvement. We find that some dealers have had a slightly better trade than last week, while others say that the trade is as flat as it can well be. Two-inch spruce is in demand, but boards are still dull. Freights are low, and this fact will probably affect the ship-building interest. The demand for ship lumber is still somewhat active, but it is slacking a little. The lumber continues to arrive, and prices must weaken if the demand does not increase. Shippers will probably see this, and curtail their shipments. In addition to the vessel arrivals, we have perfected arrangements by which we shall hereafter publish the arrivals of lumber by rail.

METALS.—COPPER.—New sheathing is steady at 33 cents, and bolts and braziers 35; bronze and yellow metal sheathing 24, and Y. M. bolts 30, net cash. Ingot is steady in price, and in moderate demand. Sales reported of 750,000 lbs. at 24¼@25 cents.

IRON.—The market is very quiet, but better in feeling, with steadier tendencies. Our quotations, nevertheless, are well revised. Scotch pig is in better request, and American is more quiet. Scrap is without business, and Rails are dull. Refined bar is unaltered, and Russian and other sheet are weaker in feeling.

LEAD.—Pig is dull, ordinary foreign quoting at 6½@6¾ cents, gold; domestic at $5.90@6, gold, per 100 lbs.; bar, 8¼; sheet and pipe, 9; and tin-lined pipe 16½ cents, less 13½ per cent. to the trade.

TIN.—The market for pig is dull, and in buyers' favor. Plates are not very active, but are in fair demand, and prices are firm, quotations being quite well sustained.

ZINC.—Sheet is unchanged in price, with moderate demand from store. Reported sales are of 300 casks American and Silesian, on private terms.

NAILS.—Cut are quiet and somewhat depressed, with sales below quotation. Prices may be regarded as nominal and irregular, and shaded to meet the views of buyers. We quote: 10d. to 60d. common fence and sheathing, ℔ keg, $3.90@4.00; 8d. and 9d. common do ℔ keg, $4.25; 6d. and 7d. common do ℔ keg, $4.50; 4d. and 5d. common do ℔ keg, $4.75; 3d. and 4d. light, ℔ keg, $5.50; 3d. fine, ℔ keg, $6.25; 2d. ℔ keg, $7. Cut Spikes, all sizes, $4.25; Finishing, Floor, Box, Coopers, Slating, and Brad Heads: 3d. (Slating), ℔ keg, $6; 4d. and 5d. ℔ keg, $5.25; 6d. and 7d. ℔ keg, $5; 8d. ℔ keg, $4.75; 10d. to 60d. ℔ keg, $4.50.

CLINCH NAILS.

1¼ to 1 in.	2 & 2¼ in.	2½ & 2¾ in.	3 in. and longer.
$6.25@6.50.	$6@6.52.	$5.75@6	$5.50@5.75 ℔ keg.

OILS.—Linseed has been in better demand, both for round and jobbing lots, and the market seems generally improved. Sales have been made of large lots at 95@96 cents. We quote crushers' prices, per gallon, as follows: in casks, 97@98; in bbls., 99c.@$1; boiled and refined are held at $1.03.

PAINTS.—The movement for the week has been quite active, and trade is reported to be in a very satisfactory condition. The Western demand has increased, and with it greater activity has ensued. Our quotations, in some particulars, show a falling off, but prices are generally firm, as stocks are not excessive. White leads are in good demand, and Red lead is jobbing actively. Quicksilver vermilions are very firm, and Trieste advanced in quotation. Paris green is in good request, and orders can not be filled except at the convenience of manufacturers. Venetian red sells fairly, and unchanged in price. China clay is in fair supply, quoting easier. Other goods are sought after, with fair reports of sales.

PITCH—Has been in moderate jobbing request, closing firm at $3, with sales of 100 bbls. reported at that price.

SPIRITS TURPENTINE.—The market has been quiet, with a limited demand, prices ruling quite firm, however, and within the range of our last report. Sales were made at 41 cents, but the market closed rather nominal at 40½.

TAR—Has been rather inactive at $2.50@2.75. The market closed quiet but steady at these figures.

ALBANY LUMBER MARKET.

[FROM THE ALBANY ARGUS, MAY 13, 1874.]

Trade this week has been quieter than any week since river navigation commenced. A fair amount of lumber has been shipped, yet the attendance of buyers has been light, and as a consequence few sales made. Prices are firm. There is an improved state of feeling in regard to the quantity of dry stock to come forward. A better trade this time forward is looked for; buyers can meet a good assortment of spruce and hemlock in market, which are now in better stock than at any time this season; the rail receipts of these descriptions of lumber having met with ready sale on arrival. Boats are now arriving freely from the North. A good stock of pine is still left, and that which is at present most lacking will soon be supplied by the arrival of boats from the West.

The boat "Two Brothers," from Oswego, to-day, with lumber, consigned to James Moir, is the first lumber boat from Oswego this season.

The lumber held over at Burlington (Vt.) during the winter was 40,000,000 feet; at Ogdensburg, 30,000,000 feet; and at Whitehall, 20,000,000 feet.

At Chicago the reported receipts of lumber, by lake, to the 8th inst., were 81,021,000 feet, against 79,034,000 feet the year previous; the shipments from January 1st were 133,772,000 feet, against 92,952,000 feet the previous year.

A Bay City paper reports business dull on Saginaw River; prospects getting bluer as the season advances; vessels would take lumber at less than $2.50 to Buffalo, could they get cargoes. One Bay City captain reports that notwithstanding he cut down his running expenses as low as he could, he lost between $80 and $90 on his trip to Buffalo.

Decker Bros.'
Grand, Upright, and Square
PIANO-FORTES.

THE DECKER BROTHERS
are the owners of the only patents granted to any person of the name of DECKER for improvements in
PIANO-FORTES.
All genuine
DECKER BROTHERS' PIANOS
have the following line cast on the iron plate in the inner left-hand corner of the instrument:
"DECKER BROS.' PATENT, JUNE 2, 1863."
To guard against imposition, purchasers should see that this line is cast in the plate as described.

The reputation acquired for their manufacture by the
DECKER BROTHERS
is the result of years of unremitting effort to develop the power and correspondingly to improve the quality of tone in the PIANO-FORTE.

This endeavor has been rewarded to an extent deemed at the outset almost unattainable, and the absolute success of the method of manufacture originated and patented by them is now conclusively established by the unanimous testimony of the most eminent musical authorities and scientific experts, who unite in pronouncing the
DECKER BROTHERS'
instruments the most perfect of their class yet produced.
EVERY DECKER BROTHERS' PIANO-FORTE is guaranteed for seven years.
The splendor of tone for which the
DECKER BROTHERS'
instruments are world-renowned is the same in each of the three varieties of PIANO-FORTE—
GRAND, UPRIGHT, AND SQUARE.

SOAPSTONE WASH TUBS.

A MUCH AND LONG NEEDED IMPROVEMENT.

None More Simple & None so Durable.

We are now manufacturing in this city to order, Wash Tubs and Sinks of the celebrated Francetown Soapstone.

Of the annoyance, costly repairs, and filthiness of our present wash tubs the public need not be told—experience has taught them. The superiority of them over wood is, they do not absorb the wash water and slops, consequently preventing that *disagreeable odor* in the house. They are easily kept sweet, clean, and dry. *They are not affected by hot or cold water. Never crack or leak.*

Cheaper than Wood, and will last a Lifetime.

They only need to be seen to be appreciated. All interested we invite to call and examine them at our warerooms.

TAKE NOTICE

That whereas Letters Patent were issued to me on the 9th of August, 1870, the 23d of September, 1873, and reissues November 11, 1873, December 23, 1873, and numbered respectively 106,157, 143,149, reissues 5,650 and 5,693 for a new and useful improvement in the manufacture of Skylights, Conservatories, and other glazed structures, of which I am the sole and exclusive owner; and it having been made known to me that one Geo. E. Dayton and Chas. Sellman and divers other persons, of the City, County, and State of New York, and elsewhere, are making, selling, and vending manufactures embraced within said Letters Patent, and in violation of the rights thereby to me secured, and of the Act of Congress in such cases made and provided, and of which said Geo. E. Dayton and others have had due notice, and against whom a suit is now pending for infringement of the same.

You are hereby warned against the purchasing, using, vending, or selling, or having for sale, any article of manufacture wholly or in part embraced within said invention, as secured by said Letters Patent, and that all persons found in possession of, or using, vending, selling, or having the same in their possession for sale or use without my permission and license will be prosecuted according to law.

Magrath's Copper Sash-Chain.

Patented 21st March, 1871.

Is adapted to ordinary round pulley, and strong enough to suspend weights of any size required.

Being intended as a substitute for sash-cord, it can be put into sashes now provided with cord without any change of pulleys. The inventor feels confident that experience will prove his chain to be both economical and durable, besides doing away with the constant annoyance and expense attending the use of sash-cord.

Than Fort Washington or Elizabeth. More convenient than Harlem, and as sociable as Brooklyn, with the usual quota of schools and churches. Scenery beautiful, and excellent opportunities for riding, boating, and bathing.

HOUSES, SIX TO TEN ROOMS, FOR SALE,

With cellar and garden lots 25x150 each, to be paid for in instalments ranging from $25 to $45 per month, and interest payable annually. Discount for cash.

The advantages here offered should be well understood by

MECHANICS AND CLERKS,

As they are here enabled to obtain property at low figures and on easy terms at a distance from their places of business NO FARTHER THAN SEVENTIETH STREET, in a constantly growing section of the metropolitan suburbs, where there is the first railroad to supply rapid transit, and fares no higher than the abominable horse cars.

CAPITALISTS AND INVESTORS GENERALLY,

Who by this time must be convinced that the value of real estate in New York City has reached its maximum, and that for some years to come there can be no further rise in values on the island proper, are requested to turn their attention now to

Whitestone Property,

Where values are continually rising, and where a small or large investment can be doubled in less than two years.

Remember, that Whitestone will be one of the first places near the Sound to reap the advantages that will follow the completion of the

THE BREVOORT ESTATE.

The Brooklyn property to be offered at auction on Thursday next is part of the same estate of which a large portion was sold in October last. Indeed, the sale at that time was one of the few successful ones of the season, as purchasers had confidence that anything offered by Mr. Brevoort would be positively sold to the highest bidder. That which is now offered is located on St. Mark's Avenue, Butler, Douglass, and Degraw streets, on Classon and Franklin avenues. It is in the immediate vicinity of first-class improvements; one plot of ground immediately opposite having been sold to a society which is about to erect a handsome church edifice thereon. The city of Brooklyn presents no vacant lots so rapidly rising in value as the property now offered for investment by Mr. J. Carson Brevoort.

MORTGAGES.

REAL ESTATE.

NEW YORK.

NOTE.—The arrangement of this list is as follows: The first name is that of the mortgagor, the next that of the mortgagee. The description of the property then follows, then the date of the mortgage, the time for which it was given, and the amount. The general dates used as headings are the dates when the mortgage was handed into the Register's office to be recorded.

Wherever the letters "P. M." occur preceded by the name of a street in these lists of mortgages, they mean that it is a Purchase Money Mortgage, and for fuller particulars see the list of transfers under the corresponding date.

JUDGMENTS.

NEW YORK.

In these lists of judgments the names alphabetically arranged, and which are first on each line, are those of the judgment debtor.

NOTE.—The record of judgment obtained by W. H. Gedney against David and John Jardine, and published in our last issue was against the Messrs. Jardine as impleaded. We are informed by Mr. Gedney, the plaintiff, and by his attorneys, Kelly & Mackay, that the Messrs. Jardine were not sued, and that, consequently, no judgment has been recorded against them.

MISCELLANEOUS.

REVIEW OF THE REAL ESTATE MARKET.

The market is quiet, and hardly open to comment. Public sales have been plentiful, but prosecuted under legal proceedings denote nothing except sacrifice. Reports of private transactions are very limited, and we can add nothing to, nor take away from, the general character of our late reports. The season is well advanced, and suburban sales are again in vogue, with proportionately better results than offerings of city real estate. This proves that the cost of living and the prices prevalent are too much for small investors, who are seeking homes beyond the limits of high valuations and excessive assessments. Loss of population adds to the adversities of the market, leaving it more exclusively to speculation, and preventing that growth which is the surest foundation for values.

Until the market improves, under the conditions of generally better trade, it is too much to expect anything of it, and it is more to its benefit that a period of total inaction should ensue, rather than it should weaken by constant efforts to force sales, which become disastrous in their issue.

We hear of several late inquiries, which have been of more encouragement to some of the prominent operators in real estate. Offers have been made approximating to the prices demanded, which latter are some ten to fifteen per cent. less than those of last year. There is, doubtless, an improved feeling, without any marked activity, but still tending toward recovery.

MARKETS.

Our reports afford no new indications, and the general condition of trade is unsatisfactory. We believe, however, that the tone of our markets has been spoiled by the activity engendered under the exciting influences of ten years ago, and that it is very difficult to reconcile present notions of good business with the realities of trade as they existed before the Civil Conflict. It is true that within the period mentioned our resources have been so greatly enlarged that we have come to look upon our national and commercial growth as matters of course, hesitating hardly at any expansion, and certainly not controlling our energies, until nothing seemed impossible. The whole country has been impelled to haste, forced, in the first instance, and sustained by habit when circumstances no longer favored it. People have at length realized those conditions, and have begun to exercise a more judicious economy. This feeling, reacting upon business and industrial interests, has been felt with constantly increasing force, until, finding its outlet, it has swept away many speculative enterprises, and has deferred others until the time shall come for them, in a steady and healthy growth, which is the best and most natural foundation for general prosperity. With these thoughts, which, if in accord with the true conditions of trade, inevitabiy lead up to the following opinion: We do not believe that business, as of late years we have been accustomed to consider it, will be active for some time to come. Wo do look, nevertheless, for a change from the prevalent dullness and depression. The earlier season of the year will doubtless close with poor results. Building, as well as general commercial interests, will derive little benefit until they are fairly started upon the new course which they are compelled to take. Speculation, always more or less extravagant, will be controlled within narrower bounds, which will better adapt it to emergencies. Less money, for a time at least. will be made, but will be surer of collection. Manufacture, now largely extended beyond our requirements, will be brought closer to the level of need; and trade, which is only now regaining and has not fully recovered confidence, will be healthier and more settled in its results. These conclusions seem forced upon us, not only by existing conditions, but by sound principles. In the line of our review, we propose, as far as practicable, to make our comparisons, not with the meretricious character of business throughout the last decade, but in consonance with the changed order of affairs. A new start is being taken, a fresh race is to be run, and we trust that when its record shall be closed there will be a history of steady progress and sure advancement toward all that conduces to national honor, sound business principles, and general prosperity.

For the week ended we report Bricks dull, and perhaps more quiet than for the week preceding, with quotations nominally unchanged. Cement is still held at manufacturers' prices, although undersold in the market, as we have quoted. Fire Brick and Foreign Woods are dull, the latter falling off in trade as the season advances. Glass is dull, notwithstanding favoring circumstances, from the lack of buyers, and quotations are off. Hair is in better request than we have recently reported it, but with limited business. The market for Hardware is quiet and nominal. Laths are nominally unchanged, but we hear of odd lots at lower figures. Lime is inclined to dullness, and prices favor buyers. Lumber is in small demand, the influx of goods now exceeding the outgo—a feature, however, quite natural to the season. Metals continue unsatisfactory, trade being of very limited proportions. Oils and Paints are fairly active at good prices. Spirits of Turpentine are dull and depressed; and Tar and Pitch, although quiet, are steady, with slightly reduced quotation. Our review in detail does not, therefore, permit much amplification, and while, as we believe, covering the markets quite as fully as is needed, is somewhat restricted. It is as follows:

BRICK.—Arrivals have been limited, not exceeding five millions, but in advance of recent reports. The market has not been very active, inasmuch as it has not been stripped of all the goods coming in. Good brick have moved quickly, while poorer manufactures have sold very slowly. Our quotations for hard are altogether unchanged. Fronts are steady, with light sales. This condition of the market indicates that there is no speculative movement, and that trade is based upon the legitimate law of supply and demand. Present prices, however, do not seem to suit manufacturers, who seem to be expecting more money for their goods, and they have declared, with what force or consistency we have yet to see, that if the first kilns of the present year's manufacture do not improve in price proportionately to those of last year, they will pay off their men and "shut down." Action of this kind, if general, means a brick famine, and need not be long continued to increase the price of bricks and to clear out the yards. We do not believe that such action will be taken, as every manufacturer will look out for himself, with the result, that in anticipating the others, all will be found hard at work to fill a call which prevails even in the dullest of times. We quote as heretofore: Pale, ℔ M, $3@3.50; Jersey, $6@6.50; Long Island, $—@—; Up-river, $6@7.; Haverstraw Bay, $7.00@8.75; Croton Fronts—brown, $14@15; dark, $15@16; red, $16@17; Philadelphia, $28.50@30.50; Baltimore, $50@58.

CEMENT—Is not active, and sales are light. Manufacturers' prices for Rockland continue at $1.50, although it is certainly sold below that figure, and is perhaps still weaker than we quote. Our quotations are $1.40@1.50. Foreign cements are not largely reported, Roman moving inactively at $4 per bbl. We note sales of 200 bbls. Portland, to arrive, at $5; and of 75 bbls., on spot, at $5.25 per bbl. We quote foreign, generally, at $4@5.25 per bbl.

FIRE BRICKS—Are dull and nominal. Kreischers are quoted at $50 for No. 1, and $40 for No. 2. We are without reports of sales, and our quotations are retained.

FOREIGN WOODS.—The market is more inactive, although good rosewood continues in fair demand. In other woods there is less doing, with a large stock of cedar on hand. We note late arrival of a cargo of about 800 logs Bahia rosewood, of good quality, which will be offered at an early day.

GLASS.—In French window the conditions of the market and the character of the stocks favor the dealers, notwithstanding which the limited number of buyers retards trade, and goods move very slowly. Trade is consequently very dull, and leads to concessions in order to induce a market. We quote discounts, therefore, at 60 to 60 and 5 per cent. Quotations for English sheet and polished plate may be regarded as entirely nominal, with nothing to found an accurate report upon.

HAIR.—There is more inquiry, and a few light sales have occurred. Business, nevertheless, is very much shorn of its proportions, a leading house in the trade reporting sales of only 3,000 bushels so far during the present month. As yet there is no disposition to weaken in prices, although efforts are constantly making to that end, and jobbers seem holding off for that purpose. We quote generally as to quality, as follows: Cattle, 18 @28 cents; goat, 25@30 cents per bushel.

HARDWARE.—The market is dull, and prices are rather nominal. The Stanley Works have issued a new price-list, with revised discounts favorable to buyers. The discount on wrought iron pipe is 40 per cent. Tin ware is irregular in price. The market presents no other special features.

LATH—Are in moderate demand, and quoted variously. The market is generally steady at $2, although we have heard of limited sales at lower figures. Higher prices do not rule, special quotations to the contrary notwithstanding.

LIME.—The arrivals have been very light, and prices continue weak. Our explanation of the causes for decline seems to have been correctly founded, with the additional remark that the dullness in building has prevented an absorption of goods, which, under very ordinary circumstances of trade, would have been taken up. The market is quiet, hardly dull, yet nearly approaching to it. The stock in yards is variable, dealers being generally as well supplied as they care to be at present. We quote as before, suggesting, however, that the market is open to offers, and that concessions are apt to be made to keep trade going. Quotations are, for common, $1; and for finishing, $1.50 per bbl.

LUMBER.—Trade at the yards is rather quiet, and the wholesale transactions are generally quite limited. Pine is coming forward, cargoes arriving from Albany, and from points on the canal, where boats were frozen in at the close of navigation. There is a moderate demand for the middle grades of pine, and the call from box-makers has nearly suspended. Spruce is limited in business, with some trade in flooring. Timber is not easy to place, and prospects are not of the brightest. Quotations are lowered, running from $18 to $21, with still weaker tendencies. Yellow pine is inactive, with sales of flooring at $28@31. Hardwoods are moderate in business, at unchanged prices. We note arrival of 100,000 feet of oak and ash, in about equal proportions, with a limited amount of maple, from Chatham, Ontario, said to have been bought on very favorable terms. We have report of sale of 20,000 feet 1¼ inch resawed whitewood, for Cuba, at $30. The market is not apt to become very active, and must share in all the restraints which affect trade. Our Western reports are not of the most sanguine character, notwithstanding frequent assertions of a probable advance in prices. The cry of short crop is again raised, and it now comes in the way of lack of facilities for making the drives. Water is said to be low, with every prospect of continuing so, and we are seriously assured by manufacturers that now is the time to buy. In their interest, we concede it; but in the interest of our own markets, and of those who are dependent upon them, we can not believe that matters are as bad as represented. We can agree with our Western friends that trade is dull, and that depression exists, and is unfavorable in its influence upon our markets, although prices have been fairly sustained. As for looking for an advance, we find no reasonable ground for such a hope. If prices are forced, there will be none to buy, and the oft-repeated story of scarcity of logs and diminished manufacture, is somewhat lost in this direction. It would be well perhaps for many here, should such be the case, as they might be able to work off stocks which have hung too long to be profitable.

The charters comprise: A schr., 150,000 resawed lumber, from Savannah to Bath, $10; one, 175,000 do, from Brunswick to Portland, $10; a brig, 150,000 do, from Jacksonville to New York, $10.25—option Sound port, $10.75; a schr., 140,000 do, from Jacksonville to New York, $10; one, 200,000 do, from Fernandina to New York, $10, out in ballast; one, 240,000 do, same voyage, $9; one, 140,000 do, from Jacksonville to Newburgh, $10; one, 275,000 do, from Brunswick to New York, private rate; one, 140 tons, from Virginia to Bath, oak timber, $6.12½; a new bark, 558 tons (at Boston), from Portland to River Plate, lumber, private rate, quotable $19, net.

Michigan and Wisconsin Notes.

From the Green Bay (Wis.) *Advocate*, May 14:—

We learn that the drive prospects on some of the streams emptying into Green Bay are improving, and really look quite favorable. The Menominee River last week rose at the rate of from one to two inches per day, owing to the melting of the snow on the head waters, and it is probable that every log will be got down within two or three weeks, rain or shine. About 20,000,000 feet of logs were down to the dividing boom up to last Saturday, and the river was filled with logs for miles above.

The Peshtigo drive will all be got down without rain, unless perhaps two to three millions in the north branch of Beaver Creek. They are all out of Little River, Gravelly Creek, and Mud Brook, and were on Saturday expected to be out of the south branch of Beaver Creek in three days. To get some of them down, it has been necessary to build temporary dams.

In the Escanaba River, the ice went on Sunday, the 3d inst., and the entire drive will probably be got down in safety.

From all we can hear, the prospects on the Oconto are not so flattering. Many logs will be got down, but still a large portion of the drive must be hung up unless there are heavy rains.

The latest and most carefnl estimate of logs on hand, at points on Green Bay, is stated as follows:

NEW CUT.	
Menominee River	107,000,000
Other points on Green Bay	120,000,000
HELD OVER FROM LAST YEAR.	
Menominee River	10,000,000
Other points on Green Bay	110,000,000
Total on hand	347,000,000

From the Saginaw *Courier*, May 13:—

The following is the May price list of rough lumber, at the yard of Charles Lee, corner of Hoyt and Water sts.:

Three upper qualities	$34 00
Common boards	12 00
Common 12 inch stock boards	12 00
Fencing strips	10 00
Cull boards	6 00
Timber, joist, and scantling, 12 to 18 feet	10 00
" " " 18 to 22 feet	12 00
" " " 22 to 26 feet	15 00
Lath	2 00

From the Bay City *Tribune*, May 13:—

There are a few lumber buyers in the valley at present, and the market is extremely dull. This is accounted for by a gentleman of this city (a close observer), who has just returned from a visit to several points East, on the ground that there is no building being done there at present. Stocks are light, but as long as there is no building, and consequently no demand for lumber, dealers decline to replenish them. There is plenty of money, says our informant, in the banks, but bankers can not loan it because of the high rate of interest they ask. * * * Our informant thinks that when bankers see that no one will touch their money at the rates asked, they will loan it at a less rate. Then building will be resumed, and consequently an improvement in the lumber market will occur.

From the East Saginaw *Enterprise*, May 13:—

Yeomans & Van Winkle sold to Akron (Ohio) parties 50,000 white ash boards at $17, and 80,000 feet of basswood boards, on private terms.

Horr & Gould sold to New York parties, 400,000 feet of dry lumber, on private terms.

O. W. Thompson & Co. sold to G. V. Sheldon & Co.

of Rome, N. Y., 300,000 feet of dry uppers, on private terms.

The *Chronicle* of the 12th inst. reports the following at Bay City:

There was sold in this city yesterday, from Shearer & Co.'s docks to Eastern parties, through E. H. Barnum, 250,000 feet, at $6.50, $13, and $35—about 18 per cent. dry.

Yesterday Pitts & Granage sold, through E. H. Barnum, to Albany parties, 350,000 feet, about 40 per cent. upper quality dry, on private terms.

From the Saginaw *Courier*, May 19:—

From reliable sources we learn that copious rains have fallen on all, or nearly all, of the tributaries of the Tittabawasse, which is about the biggest streak of luck that could possibly strike all concerned. The recent "fresh" has allowed the starting out of a solid jam of sixteen miles of logs in the Tobacco, which were all hauled out into the Tittabawassee on yesterday noon. This jam contained some 30,000,000 feet, and entirely cleans that stream, with the exception of a diminutive rear. Active work on the jam was only commenced at noon of Saturday last, and by noon of yesterday, as stated, every log of the huge mass was out in clear sailing. There will be no hanging up on the Tobacco this season.

A gentleman, well versed in such matters, down from the Rifle on Saturday, informed a *Courier* representative that out of the 13,000.000 feet put into the west branch of the Rifle last winter, 11,000,000 were already out into the deep water of the main stream, and beyond all danger of positive delivery. The remaining 2,000,000 feet are at the mouth of the west branch in T. 21, R. 3, ready to come out so soon as room can be made for them in the main stream below. These logs are owned principally by John Welch, Amasa Rust, and C. L. Ortmann.

On the main Rifle there is no difficulty to be apprehended of any logs being hung up, owing to the recent heavy rains.

General Western Notes.

From the Chicago *Inter-Ocean*, May 13:—

The offerings since Tuesday last have been only fair, the continued unfavorable direction of the wind causing a delay in the arrival of the fleet. The demand was quite active, there being a good attendance of interior buyers and some demand from the city yard trade. Buyers are beginning to realize that the present is a favorable time for buying, the prices now current being unusually low, and they are, therefore, taking hold with more freedom than they have displayed hitherto this season. Freights are also unusually low, and an advance, while it is hardly probable at present, is not impossible. The stocks in the hands of retail dealers throughout the interior are not at all large, and they will undoubtedly have to buy freely in order to place their stocks in condition to supply the fall trade. The quantity of lumber marketed is beginning to show some improvement, although the bulk of the receipts still consist mainly of joist, scantling, and common boards and strips. During the past week several cargoes of good to choice strips and boards arrived, for which sellers found ready buyers at remunerative prices. Joist and scantling also sold readily at $9.00@9.25 for common to fair, and $9.50 for good and choice cargoes. Strips and boards quotable at $9@11.50 for common to medium, and $12@16 for fair to choice cargoes. Shingles quotable at $2.75@3 for "A" sawed. Lath, $2.00. Flat pickets, $8@10. To-day the receipts were rather light, but there was a good demand, notwithstanding the unfavorable weather. All offered sold readily, and the quotations published above were well maintained. The market closed steady and firm.

In the yards there was a fair degree of activity, although the demand was not urgent. Prices were steady and without any quotable change.

From the Stillwater (Minn.) *Gazette*:—

The log and lumber trade for the season of 1874 may now be considered as having fairly opened. Our St. Croix log men had some 16 log rafts tied up at various points on the Mississippi during the past winter, comprising in quantity some eight millions of feet. These have all been sold at fair figures.

Sales range from $10 to $12 per thousand feet for heavy white pine; $10 to $11.50 for best grades of short white pine; $10 to $11 for best long Norways; $8.50 to $9.50 for common short logs. Inferior long white pine and Norways range in price from $7.50 to $9 per thousand feet, rafted.

Reports from down the river are discouraging to saw men. Sales of common boards have been reported at $10 at Dubuque, while fair Chippewa lumber has been contracted at $12, held at Keokuk.

At Black River there is fully one hundred million feet of logs in the limits of the main boom. The new logs will not get in without another rise.

The Beef Slough boom has in sight say forty million feet of old logs, with a fair prospect of driving in many of the new ones.

Though there is a fair driving stage on most of the tributaries of the St. Croix, it will be impossible to get in the logs cut on the upper streams unless we have heavy rains. Nearly all of our principal log-producing streams pass through large lakes. These are now frozen over, and will not be free from ice for some days yet. This must necessarily retard the progress of the drives, and may hold back a large quantity of logs until another season.

There are now below the main St. Croix boom between twelve and fifteen million feet of logs. It is estimated that there is now in the boom nearly or quite the same amount.

The boom began operations on the 27th of April, and was fairly at work by the 4th of May. The logs now passing through the boom are all of last season's cutting, comprising all grades and lengths.

Water in the St. Croix River and lake is at a fair [illegible], and rising slowly.

[illegible]m the Dubuque (Iowa) *Herald*, May 12:—

[illegible] increase was noticed among lumber dealers the past week, coming from wholesale and retail customers in the city and interior towns. One firm alone shipped over 40 cars of the 123 sent out from this market. House builders are operating lively, and, with the good jobbing demand, makes the market active.

A large number of rafts are running, principally logs, for markets below; lumber has also commenced to move from the Chippewa and Wisconsin rivers, principally on owners' account, to yard and sell; a few fleets are running for a market.

The river and tributaries above are in an excellent rafting stage, the rapid current having cut out all sand bars and other obstructions. The latest news from the Wisconsin reports that stream falling, a condition all the others are in, together with the Mississippi. River men look for low water this season, as the snow is all melted and gone, and rain the only hope to bring out the usual supply of logs and lumber.

Already tidings are received of the failure of the log drives in the pineries. A log jam of thirty million feet has been formed at Eagle Rapids, on the Chippewa River, and drivers have gone to the scene to remedy the difficulty.

Receipts last week include one million feet of Chippewa lumber, for Knapp, Stout & Co., who also sent a fleet below.

Four fleets running for a market touched here yesterday, and finding no purchasers at prices asked, went below. Two of the fleets were owned by Roblin, of Grand Rapids; one by Berian, of the same place; and one by Walton, of Stevens Point.

Sales were as follows: 400,000 No. 1 Chippewa, afloat, at $13; 100,000 Wisconsin, $14; 300,000 do. at $15.75.

Lath sell afloat at $2 per M; "A" shingles, $3.90; and No. 1 do. at $1.50 per M.

LOG DRIVES.

Advices from Minneapolis, up to last Friday, gives the following unfavorable report of the log drives in the pineries.

The latest intelligence from the drives is as follows:

On Tibbetts' Brook, five or six million feet of the logs on the upper brook are considered "hung up," and the driving crew has deserted them. As many more logs, below the dam, are considered liable to hang.

South Fork drive is reported safely out into the East Branch.

The North Fork logs are not so far along, and it is feared they may not reach deep water in season to come through this year.

A good head of water is reported on Mille Lacs, and the logs now in the East Branch will probably come down.

The West Branch drive is now hung up at the "Ox Bow," twenty miles on Hillman Brook; there are about 7,000,000 feet of logs, of which about one-third are considered reasonably sure to hang, while much anxiety is felt for the balance. The water is falling very rapidly.

The Platte River drive, containing about 4,000,000, is "hung up."

Nothing has been heard from the upper Mississippi as yet, but an occasional log comes down stream.

It is not too much to say that the lumbermen begin to feel a little anxious lest they should be short of a supply of logs this season.

In view of the discouraging reports from all sections of the pineries, dealers are disposed to hold lumber firmly, and predict an advance ere the season closes.

Shipments show a healthy increase, comparing as follows:

Shipped West last week	123 cars.
Previous week	99 cars.
Increase	24 cars.
Same week in 1873	93 cars.
Increase in 1874	30 cars.

State Notes.

From the Troy *Times*, May 16:—

LUMBER.—During the past week there was no change in the lumber market worthy of mention. Trade was moderately active, and shipments were rather light. On Friday, boats from the Champlain Canal began to come forward, and now there are arrivals from Oswego and more distant points. New lumber is getting plenty, and soon the market will be stocked with an assortment of all kinds.

Pennsylvania Notes.

From the Williamsport (Pa.) *Gazette and Bulletin* of May 14:—

The operations in lumber for the week closing on the 9th inst., show that 6,059,143 feet were shipped by canal and rail, a falling off of 2,524,809 feet, as compared with the previous week.

Several large drives have reached the boom since our last report, and more are expected before the close of this week. The stock in the boom is sufficient to keep the mills running during the season. Rafting out has commenced, and is progressing lively.

The shipments from points on the Philadelphia and Erie, for the week, amounted to 25 cars and 244,160 feet.

From points south of Troy, on the Northern Central, 34 cars and 317,960 feet were forwarded. For the same period the bark shipments reached 2 cars, making 342 for the year.

The movements of lumber by canal from points between Williamsport and Lock Haven were as follows:

Pine Creek.....feet.	163,500
Larry's Creek	133,927
Total for the week	297,427
Previously reported	2,149,858
Total for the year	2,447,285

Eastern Notes.

From the Boston *Lumber Trade*, May 18:—

The past week, with its warm, pleasant weather, has not thawed the market into activity, although the sales have been a trifle better than those of last. Spruce plank, 2-inches thick, is about the only article that there is any marked demand for. The stock is not large, and desirable cargoes of this can be sold at fair rates. Boards of all kinds are flat. We note a slight deduction in the prices of hemlock and pine boards. There is not a large quantity of Eastern lumber arriving. Narrow refuse boards should not be shipped here. There is a glut already. They lumber the wharves, and can not be sold. The Calais mills are not sending any lumber yet, as their logs have not come down the river. New sawed Eastern stuff is scarce. The demand for Southern ship stock still holds fair. Some Southern pine is being used for foreign orders. Western lumber is well represented in the yards, with the exception of thick stock. This, dealers generally have not the means or desire to invest their money in, as the sale is slow. We hear of a lot that is to arrive in the course of a week.

Canada Correspondence.

Review of the Lumber Trade of Canada, by CARBRAY & ROUTH, Lumber and Commission Merchants, of Montreal and Quebec, May 15th, 1874.

The season being unusually late in opening out, we have few operations in new cutting to report upon. Both buyers and sellers seem to be in suspense, awaiting issue of events; the former hesitating to buy, with the idea that there is a big stock on hand, and that the short-log cry will come out right in the end, and that consequently prices must fall; the latter, unwilling to yield under the conviction that there is really very little lumber unsold—that the drives, in most sections, have a very poor appearance, and that better prices must rule.

During the spring and winter small sales have been constantly going on, till at last they have summed up very considerably, and have cleared out several large stocks, so that altogether the amount of lumber actually for sale is, relatively speaking, inconsiderable, and we confidently repeat what we said in our last report, that the early buyers are the lucky ones.

Our reports from every district, almost without exception, are that the logs are on the rocks, this more particularly the case in Western Canada, the south side of the Ottawa, and the St. Lawrence sections. How it will eventually turn out, it is difficult to say; but the rivers, being all at summer level, it will require a large quantity of rain to move logs. Manufacturers, in the mean time, have all their men at their posts, at considerable expense, waiting for a change in the weather. Mills which usually start May 1 are, of course, still idle, and must remain so till logs begin to show themselves.

PINE.—As remarked above, few transactions for new cutting have yet taken place. Deals for European markets have been, if anything, rather weak all winter, but now daily show increased firmness in view of the risky appearance of the drives, as well as from the fact that ocean freights have fallen very considerably, and, as compared with last season, are likely to rule low all season. We therefore look to a large consumption of wood this summer, as it will require an abundant supply from America to make up the large deficiency in the North of Europe, more especially as one of the greatest obstacles to sales in Europe last winter—high freights—has been removed.

We have, from a gentleman in the trade in England, who has spent the past winter traveling through all the wood-producing countries in the North of Europe, that there has been in those countries a succession of very mild winters, in the highest degree unfavorable for getting out timber and logs, the past being the most unfavorable of any winter yet. In many places he reports considerable portions of the cuttings of the last four seasons laying rotting in the woods for want of snow to haul them to the river banks, and he gives it as the universal opinion in those sections that the immense operations going on there during the past fifteen to twenty years, in denuding their forests, is also changing the temperature and climate, as it has done already in other countries under similar circumstances, and depriving them of the very great assistance once rendered by the elements, and which they can never expect to get again.

SPRUCE.—Deals have even been more affected by the ocean freights during the past three or four months than pine. With low freights, however, an almost certainty of the drives being bad on many important rivers, and the enormous consumption going on in Europe, we consider the future of this article even more promising than that of pine. Buyers are now betraying considerable nervousness, and quietly picking up all lots offering at fair prices.

In boards we have nothing new to note.

METALS.—COPPER.—Manufactured is steady at the following quotations: New sheathing, 33; bolts and braziers 35; nails, 40; yellow metal new sheathing, 24; bolts, 30; and nails, 24 cents per lb. Ingot is in moderate request, selling at 24⅛@24¼ cents.

IRON.—The market continues dull, with improved feeling in Scotch pig, which is held more firmly, although without a corresponding disposition to operate. American is dull, with weaker tendencies, and sales limited to actual necessities. Rails are limited in movement. Scrap is dull and nominal, and refined bar from store is dull, with a generally unsatisfactory market.

LEAD.—Foreign pig is dull and nominal at 6⅛@6⅜ cents, gold; domestic is in better request, with prices still favorable to buyers. Sales are at 5¾@5⅞ cents, gold. Manufactured is held as follows: bar, 8¼ cents; sheet and pipe, 9; and tin-lined pipe 16½ cents, all less 13⅓ per cent. to the trade.

TIN.—Pig is very dull, with prices nominally unchanged. Plates are quiet but steady, with prospects for advance abroad, but no present outlook for improvement here. Quotations are retained.

ZINC.—Sheet, from store, is in moderate demand at our quotations. Sales of 350 casks are noted, upon private terms.

NAILS.—Cut are nominal, prices being unsettled, and the range quite variable. We quote: 10d. to 60d. common fence and sheathing, ₱ keg, $3.80@4.00; 8d. and 9d. common do ₱ keg, $4.00@4.25; 6d. and 7d. common do ₱ keg, $4.25@4.50; 4d. and 5d. common do ₱ keg, $4.50@4.75; 3d. and 4d. light, ₱ keg, $5.25@5.50; 3d. fine, ₱ keg, $6.00@6.25; 2d. ₱ keg, $6.75@7.00. Cut Spikes, all sizes, $4@4.25; Finishing, Floor, Box, Coopers, Slating, and Brad Heads: 3d. (Slating), ₱ keg, $6; 4d. and 5d. ₱ keg, $5.25; 6d. and 7d. ₱ keg, $5; 8d. ₱ keg, $4.75: 10d. to 60d. ₱ keg, $4.50.

$6.25@6.50. $6@6.52. $5.75@6 $5.50@5.75 ₱ keg.

OILS.—Linseed is in fair request from jobbers' hands, selling at 97@98 cents. Round lots are not so much sought after, and are easier. We quote crushers' price, per gallon, in casks, 97@98 cents; in bbls., 99c. @$1; boiled and refined $1.03.

PAINTS.—The market continues active, and good feeling prevails. Stocks are not excessive, and prices are generally well sustained, without weaker indication. White leads are in good demand, and firm. Red leads are also firm, and fairly active. Venetian red is selling actively, and Vermilions are strong. Ultramarine is in good request, and, notwithstanding plentiful importation, is firm in price. Paris green is sold well in advance of manufacture, and is steady and firm. China clay is reported scarce for spot, but, as the market has been well supplied, prices remain steady. Paris white is in moderate demand, and of weaker tendencies.

PITCH—Has been quiet and in limited request, closing nominal at $2.87½@3.00 for city.

SPIRITS TURPENTINE. — The market has been dull and weak, prices declining to 38¼ cents. Closing quotations are nominal at 39@40 cents per gallon.

TAR—Has been quiet, closing dull but steady at $2.37½@2.50 per bbl. for Washington and Newbern, and at $2.50@2.75 for Wilmington.

ALBANY LUMBER MARKET.

[FROM THE ALBANY ARGUS, MAY 20, 1874.]

The canals are all in good working order, and lumber is arriving from all quarters; the assortment in market is first-rate. Spruce and hemlock, which was most wanted, can now be readily obtained. The stock of pine is also well assorted, but there is, as far as we can learn, very little dry stock arranged for, to come forward early. There was a better attendance of buyers during the early part of the week than we have had any time this season, and some good sales have been made. Prices remain unchanged, but should the demand continue, an upward movement may be counted upon.

A dispatch to the Detroit *Post*, dated Saginaw, 14th inst., quotes the largest sale of the season, viz., 7,000,000 feet, to Ohio parties, at $6, $12, and $35.

We also hear of a sale, within a few days, at Ottawa, of 10,000,000 feet at prices current about this time last year.

At Chicago, the reported receipts of lumber, by lake, to the 15th inst., were 108,731,000 feet against 108,091,000 feet the year previous; the shipments from January 1st, are 146,420,000 feet against 105,737,000 feet the previous year.

The receipts at Albany by the Erie and Champlain, from the opening of navigation to May 23d, were:

	Bds. & Sc'tl'g ft.	Shingles, M.	Tim'r, c. ft.	Staves, ₱s.
1873..	1,313,700	....	....	....
1874..	7,483,100	867	....	....

Of the receipts of boards and scantling this season, 3,473,400 feet were by the Erie, and 3,899,700 feet by the Champlain canal.

Decker Bros.'
Grand, Upright, and Square
PIANO-FORTES.

THE DECKER BROTHERS
are the owners of the only patents granted to any person of the name of DECKER for improvements in
PIANO-FORTES.
All genuine
DECKER BROTHERS' PIANOS
have the following line cast on the iron plate in the inner left-hand corner of the instrument:
"DECKER BROS.' PATENT, JUNE 2, 1863."
To guard against imposition, purchasers should see that this line is cast in the plate as described.

The reputation acquired for their manufacture by the
DECKER BROTHERS
is the result of years of unremitting effort to develop the power and correspondingly to improve the quality of tone in the PIANO-FORTE.

This endeavor has been rewarded to an extent deemed at the outset almost unattainable, and the absolute success of the method of manufacture originated and patented by them is now conclusively established by the unanimous testimony of the most eminent musical authorities and scientific experts, who unite in pronouncing the
DECKER BROTHERS'
instruments the most perfect of their class yet produced.
EVERY DECKER BROTHERS' PIANO-FORTE is guaranteed for seven years.
The splendor of tone for which the
DECKER BROTHERS'
instruments are world-renowned is the same in each of the three varieties of PIANO-FORTE—
GRAND, UPRIGHT, AND SQUARE.

SOAPSTONE WASH TUBS.

A MUCH AND LONG NEEDED IMPROVEMENT.

None More Simple & None so Durable.

We are now manufacturing in this city to order, Wash Tubs and Sinks of the celebrated Francetown Soapstone.

Of the annoyance, costly repairs, and filthiness of our present wash tubs the public need not be told—experience has taught them. The superiority of them over wood is, they do not absorb the wash water and slops, consequently preventing that *disagreeable odor* in the house. They are easily kept sweet, clean, and dry. *They are not affected by hot or cold water. Never crack or leak.*

Cheaper than Wood, and will last a Lifetime.

They only need to be seen to be appreciated. All interested we invite to call and examine them at our warerooms.

TAKE NOTICE

That whereas Letters Patent were issued to me on the 9th of August, 1870, the 23d of September, 1873, and reissues November 11, 1873, December 23, 1873, and numbered respectively 106,157, 143,149, reissues 5,650 and 5 693 for a new and useful improvement in the manufacture of Skylights, Conservatories, and other glazed structures, of which I am the sole and exclusive owner; and it having been made known to me that one Geo. E. Dayton and Chas. Sellman and divers other persons, of the City, County, and State of New York, and elsewhere, are making, selling, and vending manufactures embraced within said Letters Patent, and in violation of the rights thereby to me secured, and of the Act of Congress in such cases made and provided, and of which said Geo. E. Dayton and others have had due notice, and against whom a suit is now pending for infringement of the same.

You are hereby warned against the purchasing, using, vending, or selling, or having for sale, any article of manufacture wholly or in part embraced within said invention, as secured by said Letters Patent, and that all persons found in possession of, or using, vending, selling, or having the same in their possession for sale or use without my permission and license will be prosecuted according to law.

Patented 21st March, 1871.

Is adapted to ordinary round pulley, and strong enough to suspend weights of any size required.
Being intended as a substitute for sash-cord, it can be put into sashes now provided with cord without any change of pulleys. The inventor feels confident that experience will prove his chain to be both economical and durable, besides doing away with the constant annoyance and expense attending the use of sash-cord.

CARD.

To Bankers, Lawyers, Trustees, Executors, Savings Institutions, and others having capital to invest in Bond and Mortgage on first-class property:

There are millions of capital controlled by parties who desire to invest in Bond and Mortgage, and who are not only satisfied with, but who refuse more than legal interest. To such we offer our services in negotiating safe and judicious investments, having had sixteen years' experience and knowledge of Real Estate in this city. Our commission, invariably one per cent., paid by the borrower. Searches, when made through our office, will be conducted by one of the best and most experienced Real Estate lawyers in this city at one-half per cent.

AWARDED
THE GREAT MEDAL OF HONOR
OF THE
American Institute, 1872.

HUGH YOUNG, Stone Cutter, and Manufacturer of Diamond Saw Machines, solicits orders in both branches of his business.

In Stone Cutting he hopes to receive a fair share of the trade of the city, believing that his business, as organized, combines as many advantages of experience, tastefulness, and mechanical facilities as can be found.

His Diamond Saw business is also thoroughly organized No invention for preparing stone for the Building Trade has ever been so well and promptly received as this. As economists of room, stone, labor, and power, these machines are unrivalled. They are without practical drawbacks, easily kept in order, and have extraordinary range of usefulness and value.

MORTGAGES.

REAL ESTATE.

NEW YORK.

NOTE.—The arrangement of this list is as follows: The first name is that of the mortgagor, the next that of the mortgagee. The description of the property then follows, then the date of the mortgage, the time for which it was given, and the amount. The general dates used as headings are the dates when the mortgage was handed into the Register's office to be recorded.

Wherever the letters "P. M." occur preceded by the name of a street in these lists of mortgages, they mean that it is a Purchase Money Mortgage, and for fuller particulars see the list of transfers under the corresponding date.

MISCELLANEOUS.

REVIEW OF THE REAL ESTATE MARKET.

The height of the season has been attained, and the city market is inactive. No more need be said to illustrate a feeling prevalent in every business circle. The offerings at the Exchange during the week have been comparatively few, while the suburban sales have gained in number and importance, and may be expected, henceforth for the remainder of the season, to furnish all the features of interest in the market. There seems to be less disposition to hazard public sales, although one or two uncontrolled by legal proceedings have been attempted during the week. The results in these last instances have been of the flattest and most unprofitable character, and are not likely to incite further offerings. The foreclosure sales have followed the usual course, and need no further comment. Private transactions are without report for city realty, and we have slight account of some suburban sales. As the market stands, it is dull, with little or no inclination on the part of owners to force sales, yet with a disposition to concede something to fair offers, which are, however, hard to get.

Country property fares much better than city real estate, and sells quite readily at auction; some of the suburban sales resulting very favorably and beyond expectation.

GOSSIP.

The Commissioner of Public Works reports the following contracts entered into: Forty-third Street, from First Avenue to East River, regulating, grading, etc.; Madison and New avenues, between One Hundred and Twenty-first and One Hundred and Twenty-fifth streets, sewers; Sixty-sixth Street, between Boulevard and Tenth Avenue, sewer; Mangin Street, between Stanton and Houston streets, sewer; Fifty-fourth Street, from Tenth to Eleventh avenue, paving; Eightieth Street, from Fifth to Madison Avenue, paving. Also, the following certificates of cost of improvements transmitted to the Board of Assesors: One Hundred and Twenty-ninth Street and Third Avenue, northwest corner, receiving basin, $348; Sixtieth Street, north side, between Boulevard and Ninth Avenue, receiving basin, $457.80; Washington Street, between West Eleventh and Bank streets, sewer, $830; Washington Street, between Christopher and West Tenth streets, sewer $993; One Hundred and Fifty-second Street, from Avenue St. Nicholas to Eleventh Avenue, regulating, grading, etc., $7,804.21; Sixty-ninth Street, from Third to Fourth avenue, flagging, $3,214.26; total, $12,647.27. Also the following contracts completed: Seventy-fifth Street, between First and Second avenues, sewer; Seventh Avenue, between One Hundred and Twenty-first and One Hundred and Thirty-seventh streets, sewer.

BOARD OF ASSESSORS.

Owners are notified that the assessment list designated below has been lodged for examination. Objections thereto must be made on or before June 30:

One Hundred and Nineteenth st., from 4th to 8th av., except bet. 6th and 7th avs., regulating, grading, setting curb and gutter.

The limits embraced by such assessment include all the several houses and lots of ground, vacant lots, pieces and parcels of land, situated on One Hundred and Nineteenth st., both sides, from 4th to 8th av., except bet. 6th and 7th avs.

MARKETS.

Our reports are restricted, and are therefore easily summed up in the simple statement of no news. For our opinion upon trade, we refer to our last and preceding reviews, and add that we find nothing to change, nothing to alter. The markets are exactly as at the last report, generally dull, with some exceptional life. Bricks have a very limited movement; Cement is steady; Lime is quiet, but sustaining prices under limited arrivals. Trade in Lumber is anything but pushing, and works along within very confining bounds. Metals are yet depressed; Paints continue active; and all other materials included within our report are inactive. We append details:

BRICK.—At present writing, about one and a quarter million of hard brick are lying in the boats, unsold, and on one day during the week there were at least three and a half millions similarly situated. This was the largest quantity that has been on hand unsold at any one time. The fact is remarkable, as illustrating the decline in building and the restricted demand for material. Arrivals have been very limited, and sales of the best brick have been about the same as last week. Fronts are unchanged. We quote: Pale, ? M, $3.00@3.50; Jersey, $6.00@6.50; Long Island, $—@—; Upriver, $6@7; Haverstraw Bay, $7.00@8.75; Croton Fronts—brown, $14@15; dark, $15@16; red, $16@17; Philadelphia, $28.50@30.50; Baltimore, $50@58.

CEMENT—Inactive at $1.40@1.50 for Rosendale. Foreign quotable at $4.00@5.25. Sales of 300 bbls. Portland, ex vessel, at $5; and small sales of Roman at $4 per bbl.

FIRE BRICKS—Are quiet but steady at our quotation. We note sales of Scotch as follows: 12,000, from store, at $45; and 30,000, ex ship, at $40 per M.

FOREIGN WOODS.—The market is quiet. Rosewood is in some demand, and in limited supply. Other woods are inactive.

GLASS.—French window is in moderate request, but firm under foreign advices, which report an advance. The market for English sheet and polished plate is unsettled, and prices are nominal.

HAIR—Continues dull, and we are without reports of sales. Quotations are, with regard to quality, as follows: Cattle, 18@28 cents; and goat, 25@30 cents per bushel.

HARDWARE.—The market is generally the same, with steady quotations. The Union Nut Company has made some variation in its discounts, and the manufacturers of wrought iron pipe discount 40@45 per cent. from the new list.

LATH—Have been coming in somewhat freely, but the demand has been insufficient to absorb them all. Quotations are retained at $2.

LIME.—Manufacturers are withholding goods, and the market is not plentifully supplied. Agents are therefore able to dispose of about every consignment, and manage to keep quotations steady. There is an underlying weakness in the market, which only needs a momentary surfeit of goods to display itself in a break, and we admire the tactical ability of agents in regulating the supply. We quote common at $1; and finishing at $1.50 per bbl.

LUMBER.—Trade is dull. The yards are doing a limited business, and quotations are steady. Further than this their is little to report. Pine is in moderate demand. Spruce is in quite indifferent request, timber being held at $18@21@22. Yellow pine is dull, flooring still meeting with some demand. Hardwoods are quiet, oak and ash being difficult to handle. Black walnut is steady.

The charters comprise: An American brig, 248 tons, from Fernandina to Matanzas, railroad ties, 45 cents; a schr., 200,000 resawed lumber, from Savannah to Philadelphia, $8; one, from Newburgh to Portsmouth, white oak, 11 cents per cubic foot; an American brig, 263 tons, hence to Jamaica, 50 cents per bbl., and back, with logwood, $5; one, 364 tons, to Frontera, in ballast, and back, with mahogany, $13; a British ship, 1,157 tons, from Newburgh to Liverpool, oak timber, 50s.; an American brig, 250 tons (to arrive hence), from Buctouche, N. B., to Bristol, deals, £5; a schr., 148 tons, from Wilmington, N. C., to Porto Rico, lumber, $10.50; one, 152 tons, hence to St. Kitt's, and back, lump sum; a schr., to St. Pierre, shooks, 30 cents; a British brig, 249 tons, from Fernandina to Havana, railroad ties, 45 cents; an American Tern. schr., 216 tons, to St. Pierre, shooks, 25 cents; and a Tern schr., 378 tons, from Savannah to New York, timber, $10.50.

Michigan and Wisconsin Notes.

From the Detroit *Tribune*, May 20:—

Recent heavy rains in the Saginaw Valley have caused a rise in the water of all the streams, and thereby nearly all the logs got out during the winter have been floated down to where there is clear sailing.

The jam in the Tobacco River, sixteen miles long, has all been cleared out into the Tittabawassee. It contained about 30,000,000 feet of logs. On the Rifle River 11,000,000 feet out of 13,000,000 feet put in last winter have been floated into deep water, beyond all danger of delay, and the balance will doubtless be got down. All the logs in the Cedar River are also said to be out, this being the first time in six years when the stream was clear.

The Evart *Review* gives a statement of the logs got out on the Muskegon River at and above Evart, and between Evart and Hersey, the past season, which shows that 113,500,000 feet have been floated down, 30,000,000 of which were of logs hung up during 1873.

The Saginaw *Courier* reports the following sales:—

C. L. Ortmann to Buffalo parties, 400,000 feet at $6.50, $12.50, and $33. The uppers were narrow, which accounts for the falling below the usual figures, which are $35.

Brewer & Owen sold to B. W. Jenness, of Cleveland, 250,000 feet, present season cut, on dock, mill run, at private terms.

G. E. Dole sold to B. W. Jenness, of Cleveland, 400,000 feet of logs at private terms.

Grant & Saylor to Dunkirk parties, 1,000,000 feet, mill run, present season cut, at private terms.

S. H. Webster to Smith, Kelly & Co., Toledo, 300,000 feet, mill run, at $6.25, $12.50, and $35. Also 150,000 feet half green, to Ohio parties, at $6.50 and $13, delivered on dock at Bay City.

S. & C. McLean to Dunkirk parties, 600,000 feet, mill run, last year's cut, delivered on dock at this port, private terms.

Owen & Brewer to Cleveland parties, 250,000 feet, delivered on dock, private terms.

From the Saginaw *Courier*, May 20:—

The universal answer to the inquiry as to the state of the lumber market is, "dull is no name for it." There are no buyers in the Valley, to speak of, at present, and, comparatively speaking, few transactions are taking place.

The reasons for this state of affairs are obvious. Perhaps the most prominent is that there is a general stagnation in business throughout the country, and particularly so with the lumber and building business. In all the yards of the leading marts East stocks are reported light, but there is also a correspondingly light demand, and consequently dealers will not fill up until they can see their way clear. There is not much change to note in prices here. Sales as high as $6.50, $13, and $35 have been made, but the prevailing figures may be said to be $6, $12, and $35. If sales have been made at a less figure than these they have not been made public. The impression among lumbermen is that there are no favorable prospects for livelier times for a month or six weeks yet. By that time it is hoped the financial muddle in Congress, which has tended to unsettle business interests generally, will have been disposed of, and, when business men know to a certainty on what they can depend, a reaction for the better will take place.

Freights on lumber have been unusually low this season, owing to the dullness of the trade; but, notwithstanding this, the shipments thus far this season exceed those made from the opening of navigation to June 1st, during the past three years. The shipments up to the 16th show that 32,738,219 feet of lumber has gone forward from this port, and a total from the river to that date of 83,111,545 feet, against 32,523,500 feet shipped to June 1st, last year, from this port, and a total from the river to that date of 83,769,325 feet. The shipments during the balance of the month, it is safe to predict, will equal, if not exceed, those of the first half of the month. Vessel owners find it very difficult to obtain freights at living rates, and consequently many boats are lying idle. Quite a number of craft are leaving the Saginaw lumber trade, and seeking freights elsewhere. The rates to Ohio ports are $2, and $2.50 is the best obtainable to Buffalo. Shipments of lumber and shingles by rail continue quite large. Two or three trains per day go over the J., L. & S. R. R., and the F. & P. M. is doing a heavy freight business. These shipments are mostly to fill small orders in the interior towns of States East and South.

From the Bay City *Chronicle*, May 21:

The late rains have swollen streams in some instances to a higher stage than has been reached for some years, and still the rainy spell seems to be not over. It has been a common remark among lumbermen for the last day or two, that there would not be a log left back. Some remarkable feats in log-running have been accomplished, and the whole business has progressed to the entire satisfaction of the interested parties. As we have shown heretofore, by estimates prepared from carefully collected figures, if all the logs now cut are delivered at the mills this summer, there will still be a large shortage in the supply necessary to keep all of the machinery employed to its full capacity. The mills on the river have a capacity of 880,000,000, and a liberal estimate of the amount of logs, old and new, in all the streams, the product of which comes to our mills, would fall several hundred millions below that. The highest estimates put upon the quantity which could come to the mills, counting in all sorts of good luck from late spring freshets, has been from 430,000,000 to 450,000,000.

With all the old cut out of the streams, and still a very short season's supply for the mills, we should see such lively times in the woods next winter as have not been for a long time, provided that the expected improvement in the demand for lumber should come with the summer and fall months. At all events, our lumbermen will have "a clean thing" in the woods to calculate on next winter, and there can be no more wild talk about enormous quantities of logs hung up, to affect the market.

General Western Notes.

From the Dubuque (Iowa) *Herald*, May 19:—

The leading feature of the lumber market last week was the arrival of country buyers in increased force and the increase of lumber running for a market. A number of small dealers formed a "pool," having for its object the purchasing of a large amount at reduced prices, and afterward dividing the purchase. They heard of a fleet offered for sale near the mouth of the Wisconsin River and visited the place in a body, paying their own expenses, and after ascending that stream seventy miles found the lumber, sure enough, offered for sale, as it lay high and dry stuck on a sand bar, with the water falling. They returned vexed, and wiser than when they departed, resolved to purchase of regular and well-known dealers. One of the party, Mattice, of Webster City, purchased of Reed 50,000 mill-run Wisconsin at $15.50, and others are negotiating with home dealers.

Receipts last week amounted to 5,000,000 feet for Knapp, Stout & Co., one-and-three-fourths of which is held for purchasers, the remainder run below. This firm shipped last week 44 cars. Conway, of Fort Dodge, is receiving the balance of 500,000 purchased last winter of K., S. & Co., and finds the quality better than it was last season, and meeting his entire satisfaction.

Stewart holds 5,000,000 feet of upper Wisconsin lumber at this point until the markets improve below; this includes all he will run this season. Last year he marketed 15,000,000 feet.

The main river is falling, also all the streams above, which fact, together with the failure in most of the drives, strengthens the belief that an advance must occur before the season closes.

Ingram, K. & Day report a good drive on the Chippewa River, the only news of the kind we have to chronicle. The D. L. Co. and Pelan & Randall each received rafts of logs to keep mills in operation.

Sales since our last report were 50,000 mill-run Wisconsin reed to Mattice, of Webster City, at $15.50; 60,000 common reed to Barrows, Taylor & Co., of Galena, for $11; 700,000 common Wisconsin at the mouth of that river at $13.

St. Louis markets have but little pine lumber to operate with; what has run past here stopped at points above that city; ordinary mill-run Wisconsin sells at $17; the demand is principally for the upper grades, but prices are not mentioned.

A number of country buyers are here, and will effect small purchases before they leave.

From the Chicago *Tribune*, May 21—

The wholesale market was quiet in the morning, but fairly active in the afternoon. The strong north-east wind enabled several lumber vessels to make port, and buyers, expecting the fleet would soon arrive, decided to wait awhile, but, not making its appearance, they were more disposed to trade in the afternoon. The offerings were chiefly strips and boards, which sold slowly. Sales were made at $9.50@13. Joists and scantling sold at $9.50, and lath at $2. Shingles were stronger, selling at $2.80; several cargoes were left over. Many dealers think the receipts will not be very heavy for a day or two, notwithstanding the favorable wind. They claim that the vessels have not had time to make the trips and load. Joists and scantling are quotable at $9@9.50; fair to choice mill-run boards and strips, $13.50@16; common boards, $10@11; lath, $2; shingles, $2.80@3.

It is probable that a good many logs will be hung up at Manistee, as well as elsewhere, and it is believed that if the mills continue to run their full capacity, and the shipments keep up to the usual standard during the summer, the supply of logs will be well-nigh exhausted by autumn. Even if all the logs should come down, there will be a smaller supply than last season, and probably none to be carried over to next year. At $9.50 for Manistee piece stuff, with the present low freights, the shippers are probably able to get out whole, but they do not care to do business merely for the sake of doing it, and some of those who can afford to do so think it policy to wait. Some have been able to place their lumber at better prices than they could obtain at the wholesale market. In consequence of this decision, one of our commission firms who handle a large amount of Manistee lumber, have found it necessary to reduce their fleet running to that port nearly one-half.

Eastern Notes.

From the Boston *Lumber Trade*, May 25:—

After careful inquiry and comparison of opinions, we feel warranted in saying that a slight improvement has characterized the market during the last week, and that probably prices have reached the bottom. The improvement is to be found in a more active inquiry and somewhat improved sales. These are confined to the better grades of lumber. Good lumber, of different kinds, is in fair demand. Poor qualities had better be kept at home. The arrivals of Eastern stock this week is limited, and the effect will be beneficial. Shippers are partly responsible for the drag that has been the chief characteristic of the trade. Too much lumber by far, has been sent to Boston. For 2-inch spruce plank desirable lots, for good cedar spruce shingles, and 4 feet spruce clap-boards, dressed, there is a fair demand. Pine and 6 feet spruce clap-boards are very dull. A large number of cedar posts and ties have been received, while there is little, if any, market for them. There are a large number now on the way, which will still further burden the market and weaken the price. The demand for Southern pine is small, the shipbuilding interest calling for a little. Shipbuilding must feel the low rate of freights if they continue. Freights from Southern ports are quoted from $9 to $10. These figures are about $3 less than last year at this time. Boards are still dull. The market was stocked in anticipation of a demand like that of last year, but for some reason the demand has not presented itself, and the result is seen in the large quantity of boards that await sale. Prices for all descriptions of lumber remain unchanged.

Southern Notes.

From the Florida *Express*, May 16:—

FREIGHTS.—We have few new engagements to report. One vessel has been placed at an out-port at a low figure, but no ships have been taken out at South West Pass, they declining the rates offered from here, during the week, which have ruled at 45s. to U. K., 50s.@55s. Continental.

In domestic freights nothing has been done. One is offered for Philadelphia. There is now a prospect of great scarcity of small tonnage during the summer.

Hewn timber has ruled extremely dull all the week, and only choice parcels are in demand; small averages and low class are almost unsaleable.

Sawn Timber.—The only sales of this week are to fulfill pending engagements. The market is dull, with a prospect of great dullness.

Assorted Lumber.—The demand is slack, and no sales of importance have transpired. There is some demand for ship stock, but our mills are not well prepared for such orders. We anticipate soon a more active demand, and, if small tonnage can be available, we may yet see a good summer's work for our mills.

METALS.—COPPER.—Manufactured is steady at our recent quotations. Ingot is dull, with sales at 24½@24¾ cents.

IRON.—Scotch pig is steady, but with very limited business. American is depressed. Rails are dull and nominal. Scrap is quiet, with quotations from yard at $35@37. Refined bar from store is steady and quiet.

LEAD.—Pig is dull and weak, foreign being quite neglected at $6.37½@6.50; domestic quoting at $5.65@5.75, all gold. Manufactured steady at old prices.

TIN.—Pig is without demand. Plates are dull, but we retain quotations.

ZINC.—Sheet, from store, is steady as quoted.

NAILS.—Cut are nominal, quoting as follows: 10d. to 60d. common fence and sheathing, ₩ keg, $3.80@4; 8d. and 9d. common do ₩ keg, $4@4.25; 6d. and 7d. common do ₩ keg, $4.25@4.50; 4d. and 5d. common do ₩ keg, $4.50@4.75; 3d. and 4d. light, ₩ keg, $5.25@5.50; 3d. fine, ₩ keg, $6.00@6.25; 2d. ₩ keg, $6.75@7.00. Cut Spikes, all sizes, $4@4.25; Finishing, Floor, Box, Coopers, Slating, and Brad Heads: 3d. (Slating) ₩ keg, $6; 4d. and 5d. ₩ keg, $5.25; 6d. and 7d. ₩ keg, $5; 8d. ₩ keg, $4.75; 10d. to 60d. ₩ keg, $4.50.

CLINCH NAILS.

1¾ to 1 in. 2 & 2¼ in. 2½ & 2¾ in. 3 in. and longer.
$6.25@6.50. $6@6.52. $5.75@6 $5.50@5.75 ₱ keg.

OILS.—Linseed is in moderate jobbing demand at 96@97 cents, from crushers' hands.

PAINTS.—The market continues active, and prices are firm. Foreign goods are in moderate supply, and domestic are fair in stock. White leads are still in demand. Paris green has advanced somewhat in price, and orders are ahead of manufacture. Ultramarine is in good request, and the manufacture is behind the demand. Vermilions are strong. China clay is in fair supply, owing to recent arrivals.

PITCH—In moderate request, quoting at $2.87½@3 for city.

SPIRITS TURPENTINE.—The market is dull and nominal at 39@39½ cents per gallon.

TAR—Quiet, closing with a fair jobbing demand. We quote Newbern and Washington at $2.37½@2.50; and Wilmington at $2.87½@3.00.

ALBANY LUMBER MARKET.

[FROM THE ALBANY ARGUS, MAY 26, 1874.]

The receipts of pine lumber to the present time continue light. Spruce and hemlock are coming along freely, and the stock in market is well assorted. Trade keeps quiet; the attendance of buyers during the week has not been large. Some heavy sales are reported, mostly of cull boards and common, for box-makers' purposes.

From Canada, reports are that canal navigation is now fully open, and, contrary to expectations, the rivers and creeks are high, and it is thought that neither logs nor timber will be left in any of the streams for want of water.

The Ottawa *Citizen* reports the shipments of lumber at the Chaudiere as very active; news from the Eastern States, says the *Citizen*, gives brighter prospects for the season's trade.

Saginaw papers report recent sales of 300,000 feet, mill-run, at $6.25, $12.50, and $35; 150,000 feet, half green, at $6.50 and $13, delivered on docks at Bay City; and 600,000 feet and 250,000 feet, on private terms. The same papers also report the water in the rivers higher than at any time before this spring; no doubt about all the logs getting out; some of the rivers will be cleared for the first time in six years.

The Chicago *Tribune* says, that owing to the low and unremunerative prices lumber is now bringing at wholesale, several manufacturers at Manistee have decided to reduce their shipments to this market. One of the largest firms in Manistee have closed their mills, and does not intend to saw and ship any more lumber here until fall, when it is thought there will be a material advance in prices.

At Chicago, the reported receipts of lumber, by lake, to the 22d inst., were 152,219,000 feet against 141,938,000 feet the year previous; the shipments from January 1st, are 159,491,000 feet against 120,678,000 feet the previous year.

The receipts at Albany by the Erie and Champlain canals during the 3d week of May, were:

Of the receipts of boards and scantling this season, 14,413,200 feet were by the Erie, and 4,099,100 feet by the Champlain canal.

The receipts at Albany by the Erie and Champlain canals from the opening of navigation to May 23d, were:—

SOAPSTONE WASH TUBS.

A MUCH AND LONG NEEDED IMPROVEMENT.

None More Simple & None so Durable.

We are now manufacturing in this city to order, Wash Tubs and Sinks of the celebrated Francetown Soapstone.

Of the annoyance, costly repairs, and filthiness of our present wash tubs the public need not be told—experience has taught them. The superiority of them over wood is, they do not absorb the wash water and slops, consequently preventing that *disagreeable odor* in the house. They are easily kept sweet, clean, and dry. *They are not affected by hot or cold water. Never crack or leak.*

Cheaper than Wood, and will last a Lifetime.

They only need to be seen to be appreciated. All interested we invite to call and examine them at our warerooms.

THE HAYES
SKY-LIGHTS, &c.,
Under patents of 1869, '70, '71, '73, and '74.

In relation to the notice of Charles Sellman, published in these columns, the undersigned states that suit has not yet been commenced against him, though preliminaries have been taken, awaiting only a knowledge on my part of the fact of his having furnished to any person a sky-light under his so-called patents which, if he has ever furnished, he is careful that it shall not come to my knowledge.

The silver medal and diploma of the American Institute fair of 1873 are in my possession, having been awarded to me as the legal and justly-entitled owner.

The cases of Charles Sellman and George E. Dayton (who have both been under my pay and instruction), will receive, in due time, their merits through the proper source, and I am only sorry that unwary persons will, *of necessity, be concerned.*

Our new illustrated catalogue free on receipt of business card.

(Signed) GEORGE HAYES,
75 Eight Avenue, New York.

NOTICE TO CARPENTERS, BUILDERS, AND others requiring Metallic Sky-lights.—I have secured by patent the best and cheapest Sky-light yet introduced. The Diploma at the Fair of the American Institute having been awarded to me.

The Sky-light Bar which I construct I have covered by patent, and no other person has ever obtained a patent thereon, and no person has sued me for infringement. All statements to that effect being absolutely false.

Patented 21st March, 1871.

Is adapted to ordinary round pulley, and strong enough to suspend weights of any size required.

Being intended as a substitute for sash-cord, it can be put into sashes now provided with cord without any change of pulleys. The inventor feels confident that experience will prove his chain to be both economical and durable, besides doing away with the constant annoyance and expense attending the use of sash-cord.

Than Fort Washington or Elizabeth. More convenient than Harlem, and as sociable as Brooklyn, with the usual quota of schools and churches. Scenery beautiful, and excellent opportunities for riding, boating, and bathing.

HOUSES, SIX TO TEN ROOMS, FOR SALE,

With cellar and garden lots 25x150 each, to be paid for in instalments ranging from $25 to $45 per month, and interest payable annually. Discount for cash.

The advantages here offered should be well understood by

MECHANICS AND CLERKS,

As they are here enabled to obtain property at low figures and on easy terms at a distance from their places of business NO FARTHER THAN SEVENTIETH STREET, in a constantly growing section of the metropolitan suburbs, where there is the first railroad to supply rapid transit, and fares no higher than the abominable horse cars.

CAPITALISTS AND INVESTORS GENERALLY,

Who by this time must be convinced that the value of real estate in New York City has reached its maximum, and that for some years to come there can be no further rise in values on the island proper, are requested to turn their attention now to

Whitestone Property,

Where values are continually rising, and where a small or large investment can be doubled in less than two years.

Remember, that Whitestone will be one of the first places near the Sound to reap the advantages that will follow the completion of the

CARD.

To Bankers, Lawyers, Trustees, Executors, Savings Institutions, and others having capital to invest in Bond and Mortgage on first-class property:

There are millions of capital controlled by parties who desire to invest in Bond and Mortgage, and who are not only satisfied with, but who refuse more than legal interest. To such we offer our services in negotiating safe and judicious investments, having had sixteen years' experience and knowledge of Real Estate in this city. Our commission, invariably one per cent., paid by the borrower. Searches, when made through our office, will be conducted by one of the best and most experienced Real Estate lawyers in this city at one-half per cent. JAMES R. EDWARDS,

YOUNG'S
DIAMOND SAW MACHINES
FOR
SAWING STONE,
AWARDED
THE GREAT MEDAL OF HONOR
OF THE
American Institute, 1872.

HUGH YOUNG, Stone Cutter, and Manufacturer of Diamond Saw Machines, solicits orders in both branches of his business.

In Stone Cutting he hopes to receive a fair share of the trade of the city, believing that his business, as organized, combines as many advantages of experience, tastefulness, and mechanical facilities as can be found.

His Diamond Saw business is also thoroughly organized No invention for preparing stone for the Building Trade has ever been so well and promptly received as this. As economists of room, stone, labor, and power, these machines are unrivalled. They are without practical drawbacks, easily kept in order, and have extraordinary range of usefulness and value.

SOAPSTONE WASH TUBS.

A MUCH AND LONG NEEDED IMPROVEMENT.

None More Simple & None so Durable.

We are now manufacturing in this city to order, Wash Tubs and Sinks of the celebrated Francetown Soapstone.

Of the annoyance, costly repairs, and filthiness of our present wash tubs the public need not be told—experience has taught them. The superiority of them over wood is, they do not absorb the wash water and slops, consequently preventing that *disagreeable odor* in the house. They are easily kept sweet, clean, and dry. *They are not affected by hot or cold water. Never crack or leak.*

Cheaper than Wood, and will last a Lifetime.

They only need to be seen to be appreciated. All interested we invite to call and examine them at our warerooms.

THE HAYES
SKY-LIGHTS, &c.,
Under patents of 1869, '70, '71, '73, and '74.

In relation to the notice of Charles Sellman, published in these columns, the undersigned states that suit has not yet been commenced against him, though preliminaries have been taken, awaiting only a knowledge on my part of the fact of his having furnished to any person a sky-light under his so-called patents which, if he has ever furnished, he is careful that it shall not come to my knowledge.

The silver medal and diploma of the American Institute fair of 1873 are in my possession, having been awarded to me as the legal and justly-entitled owner.

The cases of Charles Sellman and George E. Dayton (who have both been under my pay and instruction), will receive, in due time, their merits through the proper source, and I am only sorry that unwary persons will, *of necessity, be concerned.*

Our new illustrated catalogue free on receipt of business card.

(Signed) GEORGE HAYES,
75 Eight Avenue, New York.

NOTICE TO CARPENTERS, BUILDERS, AND others requiring Metallic Sky-lights.—I have secured by patent the best and cheapest Sky-light yet introduced. The Diploma at the Fair of the American Institute having been awarded to me.

The Sky-light Bar which I construct I have covered by patent, and no other person has ever obtained a patent thereon, and no person has sued me for infringement. All statements to that effect being absolutely false.

MORTGAGES.

REAL ESTATE.

NEW YORK.

NOTE.—The arrangement of this list is as follows: The first name is that of the mortgagor, the next that of the mortgagee. The description of the property then follows, then the date of the mortgage, the time for which it was given, and the amount. The general dates used as headings are the dates when the mortgage was handed into the Register's office to be recorded.

Wherever the letters "P. M." occur preceded by the name of a street in these lists of mortgages, they mean that it is a Purchase Money Mortgage, and for fuller particulars see the list of transfers under the corresponding date.

MISCELLANEOUS.

REVIEW OF THE REAL ESTATE MARKET.

Trade in real estate is dull, and the market is flat. We presume it is hardly necessary to assure our readers of this, but we make the announcement lest it should be thought we had aught to conceal, or some ends to subserve, in evading an issue so palpably brought before us. More than this, we believe that certain kinds of property have yet to yield still further to those exigencies of trade and finance which require an equitable adjustment and balance of values as compared with demand, or that they must retire from the field until the opportunity for speculative movement is again presented. The movement in the market has been of very ordinary character, legal sales engrossing the principal share of attention, while the few offerings that were made through other sources fared indifferently. We have no reports of private sales, and inquiry seems to have abated. The suburban offerings have not met with perfect success, and the general attitude of the market is that of waiting. Notwithstanding all drawbacks, there are some desirable pieces of property coming forward which deserve a full meed of attention, and are pre-eminently choice for investment, either in present or prospective results. A portion of the Furniss estate, in partition, is announced for sale, by the Messrs. Muller, and includes the valuable property known as No. 35 Wall Street, and Nos. 13 and 15 Broad Street. This property is entirely improved, and returns a good revenue. Five houses and lots on Clinton Place, near Sixth Avenue, belonging to the same estate, are also to be sold, and are desirable for business purposes. These auctioneers are also about to sell, in partition, a splendid property located in the Twenty-fourth Ward, on Harlem River Heights. For particulars of both of these sales we refer our readers to our advertising columns.

For people seeking delightful country residences, where they can endure the summer heats in comfort, conveniently to any demands of business, the sale of the Blackwell estate, at Hastings-on-Hudson, offers elegant opportunity. Two hundred lots, located on high ground, overlooking the Hudson and the bordering country, and presenting delightful views, are to be sold on June 10, upon very easy terms. This property is also of advantage to people of moderate means, who, obliged to avoid the expenses of the Metropolis, are in search of choice suburban investments. Further details may be gathered from advertisement in this issue.

BUREAU FOR THE COLLECTION OF ASSESSMENTS.

Property owners are notified that the assessment lists designated below have been lodged for collection. The limits of property affected thereby have been heretofore published in this paper.

Seventieth st., from 5th to 4th av., and from 3d av. to East River, opening; confirmed April 22, 1874.

Ninety-third st., from 8th av. to New road, and from 12th av. to the Hudson River, opening; confirmed April 28, 1874.

Ninety-second st., from 8th av. to New road, and from 12th av. to the Hudson River, opening; confirmed May 4, 1874.

All payments made on the above assessments on or before the 30th day of July, next, will be exempt (according to law) from interest. After that date interest will be charged at the rate of seven per cent. from the several dates of confirmation.

MARKETS.

Trade is unimproved, and the markets are weaker. Soon after the close of our last report, several changes occurred in connection with articles in which we had foreshadowed the possibility of further decline. There is not business enough to keep goods buoyant. Hitherto building has exceeded the demand for improvement, and now, when demand has suspended, we are enabled to realize how far in advance of all requirements speculation has carried us. A conservative feeling is ascendant, and conspicuous in trade. Purchases are made for actual, not possible need, and no one takes the chances of a weak market assured of making a favorable turn. Speculation is at fault, since buyers do not take more than they want, no matter how favorable the inducements offered. Bricks are quotably lower; Cement is weak; Hair is unsettled; Lime is off in price, with still weaker tendencies; Lumber is dull and dispirited. Other material remains very nearly the same as in our last report. Details are as follows:

BRICK.—Arrivals have been limited, the demand not sufficing to take up all the goods coming down, so as to enable boats to make more than one trip. Pale fell off in price to $2.50, and are still weak, although somewhat improved in quotation. Hard brick are cheaper, and we revise our quotation for Croton fronts. Philadelphia and Baltimore front brick are unchanged. We quote: Pale, ℔ M, $2.50@3.00; Jersey, $5.50@6.00; Long Island, $—@—; Up-river, $5.50@7.00; Haverstraw Bay, $6.00@8.50; Croton Fronts—brown, $12.00; dark, $13.00; red, $14.00; Philadelphia, $28.50@30.50; Baltimore, $50@58.

CEMENT.—The market has become weaker, and although we quote nominally as high at $1.50 per bbl. for Rosendale, the ruling quotation is $1.30. Portland is quoted 25 cents per bbl. higher, jobbing from yard. We note sales of 165 bbls., on private terms, and limited sales of Roman at $4.00.

FIRE BRICKS—Are dull, and nominally unchanged.

GLASS.—French window is in moderate request, and is steady at 60 and 10 per cent. discount. English sheet and polished plate are without business, and nominal.

HAIR.—The market broke under the combined influences of a limited demand, and of competition between holders, and a fair article was sold at 21 cents—cattle and goat ranging about alike. A later sale of 4,000 bushels of goat, at 28 cents, restored quotations, which are nevertheless uncertain, and leave the market weak and unsettled.

HARDWARE.—Trade is quiet, without pleasing prospect for early recovery. Manufacturers are getting ready for fall trade, whatever it may be, and are revising their lists accordingly. Cast butts have been reduced in price, and some articles of brass and copper goods are sold lower than before, with no disposition on the part of dealers to concede the fact.

LATH—Are hardly settled in price, but in consequence of more limited arrivals, and some inquiry, are held somewhat firmly, and we still quote at $2.00.

LIME.—The weakness which has attended this market has developed more fully since our last report, and we now quote common at 90 cents per bbl. for State. Rockland is nominally held at $1, but there is no doubt that both of these quotations are shaded for emergencies. So, too, for finishing, which we still quote at $1.50 per bbl.

LUMBER.—The market is very dull for all kinds, but quotations are unchanged and steady. White pine is in little request; yellow pine is in some inquiry for railroad and contract purposes, quoting at $25@30. Flooring at $28@32. Spruce is in limited demand at $17@19; Hardwoods are dull, but retain their place.

The charters comprise: A schr., 174 tons (now here), from Jacksonville to Curacoa, lumber, $12, gold; a schr., 100,000 resawed lumber, from Jacksonville to Hartford, $12; one, 200,000 do, from Savannah to Georgetown, D. C., $8; one, 200,000 do, from Satilla River to New York, $9; one, 140,000 do, from Jacksonville to Fall River, $10.50; one, 150,000 do, from Pensacola to New York, $12; two, from Jacksonville to New York, re sawed lumber, $10; an American Tern. schr., 236 tons, hence to Terceira (Azore Islands), lumber, $9.50, gold; one, 225 tons, from Charleston to St. John, N. B., hewn timber, $12, gold.

Michigan and Wisconsin Notes.

From the *Lumberman's Gazette* (Bay City, Mich.) for May 30:—

The trade in lumber has improved slightly since our last report. A prominent lumberman of the Saginaw Valley remarked during the week that the lumber trade had improved fifty per cent. since the middle of the month. But another lumber manufacturer of the Valley, who has had considerable experience, said: "I don't think I ever knew it any duller at this season of the year." Now, the facts are, that the first man alluded to had made recent sales at good prices, and got the cash, while the other has lumber to sell, and is short of ready money. The first man was cheerful and buoyant, and exceedingly hopeful, while the latter was depressed and discouraged for want of customers to purchase his lumber. These men are illustrations of the whole body of manufacturers in Eastern Michigan, and, to a certain extent, in the whole country. To deduce from them the true state of things is somewhat difficult, yet not impossible.

The recent sales made, and the demand which is inevitable henceforth for the remainder of the season, point to a condition of the trade which we have intimated has already shown itself in the manufacturing districts. Buyers are quietly getting their stocks secured and shipped while freights are low. The price for good lumber is firm at $6, $12, and $35, while some sales are made at $6.50, $13, and $35. The poorer grades are not in good demand, and can be had at low prices.

It is estimated, by careful judges, that there is not more than 30,000,000 feet of good dry lumber for sale in the Saginaw Valley, and that of the entire manufacture of this season, there will not be over 250,000,000 feet on the market from this time forth to the end of the year. A very large proportion of what is being cut will be shipped to yards owned by the manufacturers, as has been the custom for past years. It is to be seen that the prospective price for lumber is somewhat encouraging. The demand from Chicago is greater than usual, and prices in that market are very firm.

From the Saginaw *Courier*, May 27:—

There has been no notable change in the condition of lumbering affairs in the Saginaws since our last report. There have been few buyers from abroad during the past week, and few transactions are noted. Those that are made are invariably reported "p. t.," which is rather unsatisfactory to the dealer as well as the reporter, and has a tendency to give the impression that sales are at figures lower than sellers care to have made public. From information gathered from the best sources, we are enabled to state that prices are generally maintained at $6, $12, and $35, although cash buyers, in some instances, have shaded these figures on lower grades. What has been said of other points is equally applicable here, that the existing feeling that the general standard of all prices is to be materially lower in the future, induces buyers to exercise caution in all transactions made. Time has been with a similar state of the market, together with depleted stocks in all Eastern markets, prices would have went up with a bound. Now, money prefers to lay idle rather than assume any risks till the season has advanced far enough to indicate the real basis of prices; and then, too, it is presumed the lull in the business interests of the country which affects all branches of trade, will have passed away, and an era of activity be inaugurated.

Lake freights continue dull and unchanged. At present quite a number of vessels are loading in the river, but most of them at season engagements. The "Dayton" is loading for Cleveland at $2, and this figure may be said to rule. To Buffalo and Tonawanda, $2.50 is obtained. We have heard of one or two engagements at figures lower than the above, but most carriers prefer to tie up and wait for freights to come to them than seek them at less than those quoted.

Owing to the scarcity of logs and the general despondency of lumber manufacturers, our city is short from 1,500 to 2,000 men, who have usually found employment here at this season of the year.

From the Muskegon *News and Reporter*:—

The recent rains have proved the most welcome freshet that log owners could have possibly wished for. The tributaries are swollen sufficiently to allow all the logs that had been given up for the season to float out into the main river, with the exception of perhaps about 17,000,000 feet in Little River, and 3,000,000 feet in Grindstone Creek. With the exception of this 20,000,000, the log crop on the Muskegon and its tributaries for 1874 (including those hung up in 1873) will be got to the mill booms months almost before the close of navigation. Unless the price of lumber advances, however, we hope and expect our manufacturers will not pursue the usual suicidal policy of throwing millions upon the market, and taking what they can get for it from the Chicago sharpers, middlemen, and D. B's.

The total log crop for this season will be about 275,000,000 feet for Muskegon River, and about 80,000,000 feet for White River—making a total for Muskegon County of 350,000,000 feet of logs—nearly one-third of which are already cut and shipped.

From the Saginaw *Courier*, May 29:—

As we have repeatedly asserted, the dullness of the lumber market is not occasioned by a scarcity of money, as many affirm, but a feeling of uncertainty as to the future. In conversation with a gentleman largely engaged in lumber transactions, on yesterday, he stated a well-known New York dealer informed him a few days since that he had $50,000 in bank in New York, but preferred to let it stay where it is, rather than invest in lumber. Another gentleman mentioned a similar instance of a Rochester dealer, who has a light stock on hand, and $30,000 to invest in lumber as soon as he can see his way clear. When this lull in the business of the country has passed, and a basis of future prices reached, we predict a lively market and smiling faces among our dealers. And that time is not very far in the future.

General Western Notes.

From the Dubuque (Iowa) *Herald*, May 26:—

The inquiry took a start last week in such force that merchants had more orders than they could handle, and are behind on bills, owing chiefly to the scarcity of cars to afford transportation. All at once cars have become in demand beyond the ability of railroad companies to supply them, and trade is restricted in consequence. A portion of the shipments by rail are made from the river bank by country dealers who purchased afloat of home dealers, and pulled out to dry and forward. Very little lumber has as yet arrived for sale outside of what city dealers hold. Several up-river merchants are in the city to await the arrival of fleets running for a market, among whom we notice Tom Scott, Arnold, and others. Marcau, from the Wisconsin River, has 240,000 common strips and boards he holds at $12.50, and is looking up a purchaser. During the week several fleets will be offered in this market.

There is a fair inquiry for lumber. Ingram, K. & Day received 700,000 Chippewa, to hold for sale, and disposed of 500,000 to Martin, of Galena, at $13.25 per M, delivered in Harris's Slough, near that city. They also sold 500,000 at market prices, which, for that quality, ranges from $12.50@13. Stout & Co. are filling small orders at current rates.

The Dubuque Lumber Company added sixteen strings of logs to their stock at the mill last week. Rafts also arrived for the Iowa Lumber Co.

The stock of logs is accumulating at La Crosse, and sales made at a slight advance on prices of a few weeks ago.

Up-river advices reports the condition of affairs throughout the pineries unchanged, with dry weather, streams falling, drives hung up, and the prospects decidedly in favor of holders. The run will be as light as

prophesied months ago, although on some streams a rise has let out a small quantity of lumber, not enough, however, to make up for the general deficiency.

Reports from the lumber regions of Michigan, as they affect the Chicago market, are to the following effect. The *Tribune* of that city says: "Owing to the low and unremunerative prices which lumber is now bringing at the wholesale market, several manufacturers at Manistee have decided either to reduce their shipments to this market or stop altogether. One of the largest firms in Manistee have closed their mills, and do not intend to saw and ship any more lumber here until fall, when it is thought there will be a material advance in prices. It is probable that a good many logs will be hung up at Manistee, as well as elsewhere, and it is believed that if the mills continue to run their full capacity, and the shipments keep up to the usual standard during the summer, the supply of logs will be well-nigh exhausted by autumn. Even if all the logs should come down, there will be a smaller supply than last season, and probably none to be carried over to next year. At $9.50 for Manistee piece stuff, with the present low freights, the shippers are probably able to get out whole, but they do not care to do business merely for the sake of doing it, and some of those who can afford to do so think it policy to wait."

Shipments by rail last week were over double the amount sent out a year ago, making the following gratifying exhibit:

Shipped West last week	177 cars.
Previous week	113 cars.
Increase	64 cars.
Same week in 1873	74 cars.
Increase in 1874	103 cars.

From the St. Louis *Globe*, May 28:—

LUMBER.—The lumber market is slow, consequent upon the fall off in the country demand, which must be anticipated at this season of the year, when the farmers are occupied with agricultural labors to the exclusion of everything else. The prospect for an average year's business is good; the city trade is growing better, in view of a more plentiful supply of brick, which enables builders to push their contracts for houses to completion with greater rapidity. The stock of lumber on hand is heavy, and prices favor buyers. Some of our dealers find it profitable shipping to Chicago, and next month will ship East, thus tapping the trade of Chicago and contesting the field with that city. Stocks of logs are accumulating in our harbor, and lumber is being piled for account of owners and manufacturers.

Eastern Notes.

From the Boston *Lumber Trade*, June 1:—

While the general market is far from active, yet a number of the principal houses replied so promptly to our inquiries, that they had had a good week, we think that we can safely assert that the improvement noted last week still continues. They report some large sales, more extended and frequent inquiries, and a more healthy tone. If this continues, and the arrivals will hold off, the stock will be reduced and the market benefited. Shippers are evidently looking at this matter in the same light, but we fear they will not learn the proper lesson. In all probability, if prices advance, then the lumber will come in with a rush, and rates will drop again. But the present lull in arrivals will have a tendency to clear out some of the surplus stock on hand. The demand for good grades of lumber continues. Ship-building still calls for about all the hard pine that is used, nothing being done in house stuff. Freights are lower than they have been for a year or two. Western freights are quoted: Chicago, $70; Indianapolis, $75; Toledo, $75; Grand Rapids and Detroit, $80.

Southern Notes.

From the Florida *Express*, May 23:—

FREIGHTS.—Since our last we hear of but few transactions to report, one new timber charter to the Mediterranean at 52s. 6d. Nothing for United Kingdom. For domestic ports there is some inquiry, but few vessels are offering.

Hewn Timber.—The market, if we can call ours a market, is stagnant. The wants of our merchants are fully supplied by the deliveries of contract timber, and the continued depression abroad prevents a reaction here. Prices are low, and, on the absence of demand, nominal.

Sawn Timber.—The same depression affect the sale of this article as hewn timber. The engagements of the season are over, and there is little disposition to enter into new ones.

Assorted Lumber.—We have heard of no sales during the week, outside of filling old contracts or finishing vessels in Bay. We do not like to discourage our mill friends; but unless a decided change occurs in domestic as well as foreign markets, we would advise, as far as possible, a suspension of work for a few months, which may be devoted to repairs.

State Notes.

From the Troy *Times*, May 28:—

During the past week trade has not been very lively, but receipts of lumber were large, and embraced a sprinkling of about all kinds. The assortment is now very good, and is daily becoming better. Buyers still continue to purchase very sparingly, and generally only to fill orders which they have already taken. There seems as yet to be no disposition to stock up their yards, but to buy only to meet immediate demands.

METALS.—COPPER.—Manufactured is steady at previous quotations. Ingot is dull at 24½@24¾ cents.

IRON.—Scotch pig is dull, but inclined to steadiness. American is dull and lower. Rails are nominal. Scrap is inactive. Refined bar from store is steady at our quotation.

LEAD.—Foreign pig is nominal at $6.37½@6.50, gold; domestic is held at $5.75@5.85, gold. Manufactured is sold as follows: bar, 8½ cents; sheet and pipe, 9—less 16 per cent.; and tin-lined pipe, 16½—less 10 per cent. to the trade.

TIN.—Pig is in very limited inquiry, and prices are nominal. Plates have been more active, and are held quite firmly at our quotations.

ZINC.—Sheet is steady, and unchanged in quotation.

NAILS.—Cut are in moderate demand, within the range of our quotation. We quote: 10d. to 60d. common fence and sheathing, ₱ keg, $3.85@4.00; 8d. and 9d. common do ₱ keg, $4@4.25; 6d. and 7d. common do ₱ keg, $4.25@4.50; 4d. and 5d. common do ₱ keg, $4.50@4.75; 3d. and 4d. light, ₱ keg, $5.25@5.50; 3d. fine, ₱ keg, $6.00@6.25; 2d. ₱ keg, $6.75@7.00. Cut Spikes, all sizes, $4@4.25; Finishing, Floor, Box, Coopers, Slating, and Brad Heads: 3d. (Slating), ₱ keg, $6; 4d. and 5d. ₱ keg, $5.25; 6d. and 7d. ₱ keg, $5; 8d. ₱ keg, $4.75: 10d. to 60d. ₱ keg, $4.50.

CLINCH NAILS.

1¼ to 1 in. 2 & 2¼ in. 2½ & 2¾ in. 3 in. and longer. $6.25@6.50. $6@6.52. $5.75@6 $5.50@5.75 ₱ keg.

OILS.—Linseed is in fair demand at 95@96 cents, from crushers' hands.

PAINTS.—The market is active in a jobbing way, but the demand for round lots is limited. Prices are firmly maintained. Paris green is very active. Vermilions are strong, and Red and White leads are jobbing freely at steady prices.

PITCH—Is quiet, jobbing at $3.00 per bbl.

SPIRITS TURPENTINE—Have been quite active, at 39@40 cents. Closing quotations, on a somewhat dull market, are 39@39½ cents.

TAR—Has been quiet and nominal, at $2.37½@2.50 for Washington and Newbern; and $2.90@3.00 for Wilmington.

ALBANY LUMBER MARKET.

[FROM THE ALBANY ARGUS, JUNE 3, 1874.]

Since our last there has been a decline in the price of 9-inch spruce; it can now be readily bought at our lowest quotation. Trade in the district rules rather quiet; the attendance of buyers has been moderate. We hear of a large sale of Michigan inch box to some foreign buyers. The low grades of pine are being sold below the cost of manufacture. Parties in Canada at some of the mills are making arrangements to hold what they can until prices improve.

The active movements of lumber in the Saginaw country shows, as we stated last week, that the recent rains in Michigan have cleared all the streams; and the same may be said in regard to the Ottawa country.

At Chicago, the reported receipts of lumber, by lake, to the 25th May, were 186,192,000 feet against 174,268,000 feet the year previous; the shipments from January 1st, are 174,588,000 feet against 136,449,000 feet the previous year.

The receipts at Albany by the Erie and Champlain canals during the 4th week of May, were:

	Bds. & Sc'tl'g ft.	Shingles, M.	Tim'r, c. ft.	Staves, lbs.
1873..	12,248,000	102	....	....
1874..	37,290,800	2,051	....	....

Of the boards and scantling received, 31,220,600 feet were by the Erie, and 6,070,200 feet by the Champlain canal.

The receipts at Albany by the Erie and Champlain canals from the opening of navigation to June 1st, were:—

	Bds. & Sc'tlg ft.	Shingles, M.	Tim'r c. ft.	Staves lbs.
1873..	13,561,700	102	....	449,400
1874..	63,087,100	3,437	....	....

The receipts of lumber reported to us from the collector's office for the 4th week in May, are beyond precedent. Looking back to our records of receipts for several years, the figures that approach those of last week the nearest, are those of the 4th week of June, 1870, when the receipts were 29,800,000 feet.

River and Eastern freights are quoted as follows:

To New York, ₱ M	$1 25@	$1 50

A GOOD INVESTMENT.

EVERY PRUDENT MAN, CAREFUL OF THE health and comfort of his family, should see to it that his drinking water is conveyed through TIN-LINED LEAD PIPE, which is a perfect safeguard against lead poison. Tin-lined Lead Pipe is strong, durable, flexible, and easy soldered. It is a great benefit to the community, and enhances the real value of every house in which it is introduced. It is cheaper than Lead Pipe, when strength and durability are considered. Sold by the COLWELL LEAD CO., 213 Centre St., New York. Price, 16½ cts. a pound for all sizes. Descriptive pamphlets sent by mail free. Also, manufacturers of Lead Pipe, Sheet Lead, Block Tin Pipe, Solder, &c. Orders filled at sight.

Magrath's Copper Sash-Chain.
Patented 21st March, 1871.

Is adapted to ordinary round pulley, and strong enough to suspend weights of any size required.
Being intended as a substitute for sash-cord, it can be put into sashes now provided with cord without any change of pulleys. The inventor feels confident that experience will prove his chain to be both economical and durable, besides doing away with the constant annoyance and expense attending the use of sash-cord.

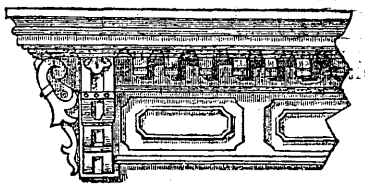
Than Fort Washington or Elizabeth. More convenient than Harlem, and as sociable as Brooklyn, with the usual quota of schools and churches. Scenery beautiful, and excellent opportunities for riding, boating, and bathing.



HOUSES, SIX TO TEN ROOMS, FOR SALE,
With cellar and garden lots 25x150 each, to be paid for in instalments ranging from $25 to $45 per month, and interest payable annually. Discount for cash.
The advantages here offered should be well understood by
MECHANICS AND CLERKS,
As they are here enabled to obtain property at low figures and on easy terms at a distance from their places of business NO FARTHER THAN SEVENTIETH STREET, in a constantly growing section of the metropolitan suburbs, where there is the first railroad to supply rapid transit, and fares no higher than the abominable horse cars.

CAPITALISTS AND INVESTORS GENERALLY,
Who by this time must be convinced that the value of real estate in New York City has reached its maximum, and that for some years to come there can be no further rise in values on the island proper, are requested to turn their attention now to
Whitestone Property,
Where values are continually rising, and where a small or large investment can be doubled in less than two years.
Remember, that Whitestone will be one of the first places near the Sound to reap the advantages that will follow the completion of the
HELL GATE IMPROVEMENT,
Which will ultimately revolutionize the shores of Long Island.

FOR
SAWING STONE,
AWARDED
THE GREAT MEDAL OF HONOR
OF THE
American Institute, 1872.
HUGH YOUNG, Stone Cutter, and Manufacturer of Diamond Saw Machines, solicits orders in both branches of his business.
In Stone Cutting he hopes to receive a fair share of the trade of the city, believing that his business, as organized, combines as many advantages of experience, tastefulness, and mechanical facilities as can be found.
His Diamond Saw business is also thoroughly organized No invention for preparing stone for the Building Trade has ever been so well and promptly received as this. As economists of room, stone, labor, and power, these machines are unrivalled. They are without practical drawbacks, easily kept in order, and have extraordinary range of usefulness and value.

200 CHOICE BUILDING LOTS AT

ROSELLE, N. J.,

FORTY-THREE MINUTES FROM NEW YORK, by the popular Central Railroad of New Jersey, which has practically solved the question of rapid transit, and with the finest ferry-boats and cars running out of New York, has rendered this property more accessible from the City Hall than any point on the island north of Fiftieth Street. The fare by commutation is less than eleven cents per trip.

These lots are handsomely situated, fronting 5th, 6th, and Washington avs., and on an elevation commanding extensive views, in the immediate vicinity of fine improvements, churches, schools, and stores, and convenient to three railroad stations.

Roselle, favorably known as a peculiarly attractive town, fourteen miles from New York, two miles beyond Elizabeth, is noted for its healthfulness and beauty of surroundings. Its rapid growth has been remarkable, and at present there is not an unoccupied house in the town, and many new buildings are in course of erection.

Roselle has four churches, a fine hotel, academy, schools, and stores, and NO NUISANCES of any kind whatever.

Splendid music by Grafulla's Seventh Regiment Band.

LAWS OF THE STATE RELATING TO THE CITY OF NEW YORK.

CHAPTER 312.

AN ACT in relation to taxes and assessments in the city of New York and the collection and vacation thereof.

PASSED May 2, 1874; three-fifths being present.

The People of the State of New York, represented in Senate and Assembly, do enact as follows:

SECTION 1. The first section of the act, passed April seventeenth, eighteen hundred and fifty-eight, entitled "An act in relation to frauds in assessments for local improvements in the city of New York," is hereby amended by striking from said section the words "or legal irregularities," so that said first section shall conform to the said title, and as amended shall read as follows:

§ 1. If, in the proceedings relative to any assessment or assessments for local improvements in the city of New York, or in the proceedings to collect the same, any fraud or substantial error shall be alleged to have been committed, the party aggrieved thereby may apply to a judge of the Supreme Court, in special term or in vacation, who shall thereupon, upon due notice to the counsel of the corporation of the city in which the lands so assessed are situated, proceed forthwith to hear the proofs and allegations of the parties.

§ 2. The second section of the act, passed April seventeenth, eighteen hundred and fifty-eight, entitled "An act in relation to frauds in assessments for local improvements in the city of New York," is hereby amended by striking from said section the words "or irregularity," so that said second section, as amended, shall read as follows:

§ 2. If, upon such hearing, it shall appear that the alleged fraud or substantial error has been committed, the said assessment shall be vacated, and the lien created thereby, or by any subsequent proceedings, shall cease, and hereafter no suit or action in the nature of a bill in equity or otherwise, shall be commenced for the vacation of any assessment in said city, or to remove a cloud upon title, but owners of property shall hereafter be confined to their remedies in such cases to the proceedings under the act hereby amended.

§ 3. This act shall take effect immediately.

CHAPTER 313.

AN ACT to amend an act entitled "An act in relation to certain local improvements in the city of New York," passed May seventh, eighteen hundred and seventy-two.

PASSED May 2, 1874; three-fifths being present.

The People of the State of New York, represented in Senate and Assembly, do enact as follows:

SECTION 1. Section seven of an act entitled "An act in relation to certain local governments in the city of New York," passed May seventh, one thousand eight hundred and seventy-two, is hereby amended so as to read as follows:

§ 7. No assessment heretofore made or imposed, or which shall hereafter be made or imposed for any local improvement or other public work in the said city, already completed or now being made or performed, or which shall hereafter be made, done, or performed, shall hereafter be vacated or set aside for or by reason of any omission to advertise, or irregularity in advertising any ordinance, resolution, notice, or other proceeding relative to or authorizing the improvement or work for which such assessment shall have been made or imposed, or for proposals to do the work, or for or by reason of the omission of any officer to perform any duty imposed upon him, or for or by reason of any defect in the authority of any department or officer upon whose action the assessment shall be in any manner or to any extent dependent, or for or by reason of any omission to comply with or carry out any detail of any law or ordinance; or for or by reason of any irregularity or technicality, except only in cases in which fraud shall be shown, and in case of assessment for repaving any street or public place, upon property for which an assessment has once been paid for paving the same street or public place, and all property in said city benefited by any improvement or other public work already completed or now being made or performed, and hereafter made, done, or performed, except as aforesaid, shall be liable to assessment for such improvement or work, and all assessments for any such improvement or other public work shall be valid and binding notwithstanding any such omission, irregularity, defect in authority or technicality. But nothing in this section contained shall effect* any suit or proceedings to set aside assessments commenced before the first day of January, eighteen hundred and seventy-two.

§ 2. This act shall take effect immediately.

* So in the original.

THE MANUFACTURERS' AND BUILDERS' BANK, on the corner of Third Avenue and Fifty-seventh Street, at a recent meeting of shareholders adopted the following important by-law:

SEC. 3. From the time of the next regular annual election, no person shall be eligible or capable of acting as a director of the said bank who shall *not* own in his own right, free from all trusts, hypothecations, pledges, and charges in favor of any other person, one hundred shares of the capital stock of said bank. The directorship of every director who shall infringe upon any of the provisions of this section shall be thereupon forfeited by him, and till the next regular election of directors, may be conferred by the majority vote of the remaining directors upon such person, competent, and eligible under this section, as they may deem proper.

This is an important clause, and should be adopted by several other financial institutions of this city. Under the operation of this law the gentlemen who are now acting as directors of the bank and whose names are given on our first page, all own the required number of shares, and at future elections this rule will be strictly adhered to.

TO OUR ADVERTISERS.

Our advertisers must bear with us if through the over-crowded state of our columns any omissions occurred last week. The pressure of reading matter affecting property and the building trade in New York, Kings, Queens, Westchester, and Jersey is so great just now that in justice to our subscribers we must give it all, and hence were compelled last week to inadvertently do injustice to our advertisers. This week we have remedied all this, and everything is in its place and proper shape. It would be well, however, if advertisers should bear in mind that the RECORD goes to press regularly every Friday afternoon, and that all advertisements should be handed in at the publication office, 345 Broadway, before twelve o'clock of that day.

SPECIAL NOTICE.

We would advise all builders and architects, whenever they can spare the necessary time, to pay once a visit to the steam stone works of the Messrs. Hubers & Madden, foot of Seventy-ninth Street, East River. It is by far the most complete stone-cutter's yard in all its various appointments to be found anywhere along the river. Their machinery, only recently enlarged and improved, proves them to be men who not only understand but who act up fully to the demands of our time, saving much labor, space, time, everything, in fact, that has heretofore been such a drawback in the rapid execution of large orders for the handling, cutting, and preparing of either brown, Dorchester, or Ohio stone. The mass of machinery now in their yard enables them to fill orders quickly and to execute their work tastefully and thoroughly as well.

MORTGAGES.

REAL ESTATE.

NEW YORK.

NOTE.—The arrangement of this list is as follows: The first name is that of the mortgagor, the next that of the mortgagee. The description of the property then follows, then the date of the mortgage, the time for which it was given, and the amount. The general dates used as headings are the dates when the mortgage was handed into the Register's office to be recorded.

Wherever the letters "P. M." occur preceded by the name of a street in these lists of mortgages, they mean that it is a Purchase Money Mortgage, and for fuller particulars see the list of transfers under the corresponding date.

MISCELLANEOUS.

REVIEW OF THE REAL ESTATE MARKET.

City property has fared poorly throughout the week, the offerings at the Exchange going for very low prices. The few returns from private sales make a little better showing, but the general results indicate the close of the season, except for those sales which present specially desirable features in the settlement of estates, where investors have fair and reasonable opportunities for purchase. The suburban sales, if we may judge from the reports, have fared better than during the preceding week. Perhaps much is due to the offerings, which have been of very good character. In these cases satisfaction has been attained, we are assured, in every instance. The market is naturally quiet. Few people care to force their property upon it, and none are ready to buy, except in the way of bargains. Some dealers are holding back for choice offerings, which are promised in the future.

We call the attention of our suburban readers to the sale at Roselle, N. J., advertised in another column. Whatever the Messrs. Mellick handle in the shape of New Jersey property is not only worth looking at, but worth buying.

A novel feature in the suburban property line is the one just introduced by Messrs. Armstead & Story, who propose to "give away" certain lots on the Westchester Ridge. It is a Western idea, which, if properly carried out, may lead to considerable improvements in a section not many miles distant from the city.

The sale of the Furniss property, to occur on the 30th inst., has been enlarged by the addition of a portion of the estate located on the Riverside and Grand boulevards, Eleventh Avenue, and One Hundred and Fourth Street, together with water fronts on the Hudson River. This offering is exceptional, and deserves consideration.

GOSSIP.

The Commissioner of Public Works calls for proposals for regulating, grading, and paving Worth Street, from Broadway to Chatham Square. It is to be hoped that this improvement will not be longer deferred, as the street has been a public disgrace ever since its extension.....There is some hitch in the grading of Madison Avenue. We would like to know by what favoritism the contractor on that portion of the avenue between Ninety-eighth and One Hundred and Fifth streets is permitted to neglect his duty, and to delay the completion of the work.....The Department of Public Parks asks for proposals for granite and iron work, in the construction of the Museum of Art. Also, for 5,000 cubic yards screened gravel.....The Department of Public Works reports the following certificates of cost of improvements transmitted to the Board of Assessors: Greenwich Street, between West Twelfth and Jane streets, sewer, $740; Seventy-fifth Street, between First and Second avenues, sewer, $10,894; Sixth Avenue, between One Hundred and Twenty-first and One Hundred and Twenty-seventh streets, sewer, $124,570.21; Montgomery Street, between Henry Street and East Broadway, sewer, $817.80; One Hundred and Twenty-fifth and Manhattan streets, between Harlem and Hudson rivers, paving, $167,221.77; Fifty-seventh Street, between Sixth and Eighth avenues, flagging, $5,974.84; total, $310,218.62. Also the following contracts completed: Greenwich Street, between West Twelfth and Jane streets, sewer; Montgomery Street, sewer; Manhattan Street, northwest corner Broadway, receiving basin; One Hundred and Fifty-second Street, between Avenue St. Nicholas and Eleventh Avenue, regulating, grading, &c.; Seventy-eighth Street, between Third and Fifth avenues, regulating, grading, &c.; Sixty-eighth Street, between Eighth Avenue and Hudson River, regulating, grading, &c.; Fifty-seventh Street, between Sixth and Eighth avenues, flagging; Sixty-eighth Street, from Fourth to Fifth Avenue, paving; Second Avenue, from Sixty-third to Sixty-sixth Street, paving.

For streets not specifically designated in the above, attention must be given to boundaries and limits.

MARKETS.

It seems beyond question that there will be no revival of trade during the present season, and dullness is so marked as to indicate a probability of still lower prices in most, if not all, of the markets coming within our review. Even where we retain quotations, or hold them approximately to former reports, there is an evident unsteadiness, indicative of that underlying weakness which is begotten of impoverished trade and of goods seeking an outlet to save the expenses of carrying. There are no specially new features to report. Whatever there is we indicate briefly, and as closely consonant with the true character of the markets as we are able to judge, aside from the partial statements of interested people, who have their own ends to subserve.

BRICK.—Arrivals have been more frequent than last week, but the amount of goods coming forward has been so limited as to cause the withdrawal of numerous barges from the carrying trade. The market has gained some aid from this, as smaller loads are more readily disposed of. Good brick are coming down the river in rather unusual quantities, as compared with the ordinary run of the season. Our quotations are retained, with the exception for pale bricks, which we quote 25 cents per M lower, or at $2.25, a price so inconsiderable as to barely pay freights and charges.

CEMENT.—Rosendale continues weak, quoting at $1.30@1.50 per bbl. Portland is limited in movement, with reported sales of 300 bbls. at $5. Roman meets with small sales at $4 per bbl.

FIRE BRICK.—We have reports of sales of 12,000 Scotch, from vessel, at $42, cash.

FOREIGN WOODS.—The market is dull, and we note sales in some instances beneath our quotation, which, however, we retain as fairly representing the average of prices.

GLASS.—The demand for French window is moderate, but quotations are steady and apparently unaffected. English sheet and polished plate are without a market.

HAIR.—Some inquiry, but trifling sales. Our highest quotation covers the best quality, and prices are graded according to the character of the goods offering. We invite attention to the card of Messrs. Ferguson Bros., wholesale and general dealers in hair, and lately connected with the firm of Ferguson & Hyde.

HARDWARE.—Trade amounts to little or nothing, and no more is expected of it until fall, when, if business is not better, the season and prices are apt to be coincident. At present, prices are steady.

LATH.—Sales have been made, to arrive, and the market is steady at $2.

LIME.—Common is quoted at 90c.@$1 per bbl. We have heard of sales of common at 80 cents, and although we do not revise our quotation, it is safe to assume that, rather than lose trade, concessions will be made both on common and finishing, which latter we quote at $1.25@1.50.

LUMBER.—Trade is quiet, and the demand so limited that, with concessions at the West, which seem to be expected, there is a possible chance for reduced quotations on white pine. This is not certain, however, and merely comes within the range of conjecture. Spruce is decidedly weaker at $17@18, under the influence of abundant arrivals and a very limited demand. Yellow pine timber is not in request to any extent, but is quoted at $25@30. Flooring is in some demand, but weaker. Hardwoods remain unaltered.

The charters comprise: A schr., 160,000 resawed lumber, from Jacksonville to Fall River, $10.25; one, 160,000 do. from Cedar Keys to New York, $12; one, 160,000 dry boards, from Brunswick to Boston, $9.50; one, 220,000 resawed lumber, from a Gulf port to New York, $13; one, 200,000 do. from Brunswick to New York, $9; a Tern. schr., 330 tons, to Cadiz, staves, basis $34 for light pipe; a Norwegian bark, 664 tons (to arrive via Sandy Hook), from St. John, N. B., to Rochefort, France, deals, £5; an American Tern. schr., 323 tons (now here), from Savannah to the Island of Majorca, lumber, $18, gold, net; an American brig, 290 tons, from Portland to Montevideo, or Buenos Ayres, spars, $18, net; a schr., 145 tons (now at Boston), from Bangor to Kingston, Jamaica, lumber, $9, gold; an American brig, 363 tons, to Cabarien, hogshead shooks and heads, 30 cents, and hoops, $8, half gold; a Norwegian bark, 716 tons, from Newburgh to Antwerp, oak timber, 50s.; an American brig, 326 tons, from Philadelphia to Antwerp, oak timber, $4,500, gold; a British bark, 770 tons, from Quebec to River Plate, lumber, $19, net; one, 374 tons, to Cadiz, staves, basis about $33 for light pipe.

Michigan and Wisconsin Notes.

From the Saginaw *Courier*, June 3:—

Not a solitary lumber transaction has been reported at the Lumber Exchange since our last weekly report, and the situation may be regarded as practically unchanged. There are few buyers in the valley. There appears to be no demand for lumber, and consequently everything is flat, and we have no quotations to report. Notwithstanding the general stagnation, considerable lumber is going forward, the shipments for the week past from the river aggregating perhaps 15,000,000 feet. As we have heretofore stated, the lumber on the move is largely owned by firms which ship to their own yards at Toledo, Cleveland, Buffalo, Albany, and New York, and take advantage of the low freights, or are shipping on season contracts. Money is abundant in New York, but dealers there prefer to let it lie in bank rather than invest it in lumber just at present. There seems, however, to be an impression among lumbermen that the bottom round of the ladder has been reached, and that an upward tendency, so far as business is concerned, must take place soon.

In lake freights there is nothing new to report. Charters have been made as low as $1.87½ from Bay City to Buffalo, but we believe $2 to be the ruling rates.

From the same, June 7:—

The season is now so far advanced that very close figures can safely be made of the log product for the season of 1874. On the Cass, Bad, Flint, and some other streams, all the logs that will come out are out, or nearly so, while rafting is rapidly progressing on other streams, with the prospects of a much earlier close than usual. We have already descanted on the limited operations in the woods last winter, and the causes which curtailed lumbering operations. The figures which we give below show that our early estimates were not far out of the way.

On the Tittabawassee, there has been a good stage of water for rafting. A. P. Brewer took the contract for delivering from the boom, and has a large force employed. The total number of pieces in the stream rafted out up to Friday, was 516,272 pieces, scaling about 80,000,000 feet. There was held back on this stream, last season, about 250,000,000 feet of logs, and the new stock that was put in last winter is estimated at 100,000,000 feet, making a total of 350,000,000, old and new—a large proportion of which will come out this season, say 300,000,000 feet.

There are still back on the north branch of the Chippewa about 3,500,000 feet, but it is expected a portion of them, if not all, will come out.

The Cedar, Tobacco, and Chippewa pine are all clear. On the Salt there is still back about 5,000,000, the prospects regarding their coming out this season being uncertain.

On the Cass River and its tributaries about 40,000,000 of old logs were held over, and 20,000,000 will cover the new stock. Rafting on this river is practically ended. There was run out, scaled, and tied out, up to Saturday night, according to the report of Mr. Elsemore, the scaler, 222,929 pieces, scaling 45,190,770 feet. The balance to come up this season will not exceed 4,000,000 under the most favorable circumstances, and may not exceed half that amount, leaving the product of this stream this year about 48,000,000 feet against 100,508,740 last year.

There was carried over on Bad River, last season, about 40,000,000 old logs, and there was put in last winter about 14,000,000. Rafting on this stream is about closed, leaving a large number of logs back. All the logs were out of the boom last Wednesday, about 15,000,000 in all, which, with those stopped at St. Charles, for manufacturing, would give a product of 25,000,000 against 50,000,000 last year. A big freshet would bring out a few more logs, but this is not anticipated this season. Of the logs run out this season, perhaps 16,000,000 are of the old stock, and the balance new.

Estimates for the Rifle are 45,000,000 short, and 22,000,000 long logs. The former will mostly come to Bay City, and the bulk of the latter will go East, to Buffalo, Detroit, and Tonawanda. The total amount rafted out of the Rifle River last year was 80,872,607 feet, and 18,000,000 of old logs were left back at the close of the season. The Rifle logs are all in safe water this year, and the drive about two months ahead of last year. The jam is down to the State road bridge, and the rear cleared twenty miles below the "Forks."

The Au Gres stock for this year is about 35,000,000 short, and 5,000,000 long logs, against 63,281,236 feet run out last season. The Au Gres drive is all down and sorted but about five or six million feet, giving say about 35,000,000 feet in boom. The rest will probably come with a little rain. Of the Au Gres stock, 20,000,000 is old logs.

About 10,000,000 feet of logs have been rafted out of Flint River, and the booms are now clear. Of this amount, about 1,000,000 feet are new logs, and the balance old stock. Of the new logs put in last winter, and the old stock which has not yet been rafted to the booms we have heard no estimate.

On Swan Creek about 2,000,000 feet have come out, and it is estimated that 500,000 are still held back.

From the Au Sable, Alpena, and Kawkawlin we have no definite or authentic reports. Our correspondent at Alpena writes us that all the logs, old and new, about 80,000,000 feet, will come out this season.

On the Au Sable, 20,000,000 of old stock was carried over. The estimate of new stock early this spring was 15,000,000, making 35,000,000 as the total product, against 96,148,000 last year.

We have been unable to obtain figures from the Kawkawlin. The estimate of new stock early this season was 6,500,000, with about 6,000,000 old logs held over. About 12,000,000 will not be far from the product this season, against 33,573,354 last year.

General Western Notes.

From the Chicago *Inter-Ocean*, June 3:—

Aside from a more quiet feeling, there was but little change to note in this market. The receipts were fair, while the demand, although not urgent, was sufficient to prevent any accumulation, although at times sellers found some difficulty in effecting sales. The quality of the offerings was well assorted, affording ample room for liberal and careful selections The demand was chiefly in the interest of interior buyers, although the city trade was also tolerably well represented. Up to Saturday night there were no changes to note in values, the ruling prices being $9@9.50 and $9@16 for joist and scantling, and strips and boards, respectively. Yesterday and to-day, however, there was a marked change in the condition of affairs. The favorable wind brought in a very large fleet, and some eighty cargoes were offered on sale. There was a fair attendance of buyers, but they were backward in taking hold, evidently thinking the present a favorable opportunity for securing a lower range of prices. Sellers, however, were backward in submitting to the demands of buyers, and the consequence was a dull, heavy market. The few sales reported show a decline of 25@50 cents per M on common grades. Joist and scantling sold $8.50@9.25 for poor to good, and strips and boards at $9@16 for common to choice. Shingles quotable at $2.60@3 for ordinary to choice "A" sawed. Lath steady at $1.75@2. Pickets, $9. The market at the close was dull, and a large number of cargoes remained unsold.

Eastern Notes.

From the Boston *Lumber Trade*, June 9:—

What is the state of the market? "Dull," says one; "depressed," says another; and then we find one who says, "We have done more business during the last week than for some time past." So we argue that each man gives his idea of the state of the market from his individual trade. This is perhaps the only basis upon which to form an opinion, but it is conflicting to the reporter who wishes to draw conclusions. With his conclusion, some one will differ whichever way he puts it. The prominent houses in the trade here have had a good trade during the past week, and report that inquiries are much more frequent, and that a firmer feeling marks their trade. One firm reports an increased demand for hemlock boards. These have been dull for some time. One cargo sold as low as $11 per M this week. The stock of these is still large. The market is pretty well stocked with all the cheaper grades. There is a scarcity of the better qualities, and cargoes of these would find a market.

The decrease in shipments, as we have said, is having a good effect. Another favorable influence is the fact that a number of the Eastern mills are employed in getting out deals for the English market. When used in this way, the logs cut up very clean, and mill men get about $13 per M for the stock. This makes them a little independent of our market, and may tend to keep the shipments back, and thus stiffen prices. Some large sales have been made during the week, and several more are under way.

METALS.—COPPER.—Manufactured is steady at recent quotations. Ingot is steady at 24¼@24¾ cents.

IRON.—Everything is dull, and the trade are wondering where they will all end. Low prices rule, and even these offer no inducement. Scotch pig, and American as well, are without any movement. Rails are in limited inquiry, and scrap is nominal. Refined bar is in little request, and steady at our quotation.

LEAD.—Pig is in moderate demand at previous prices. Manufactured is quoted as follows: bar, 8½; sheet and pipe, 9 cents—less16 per cent.; and tin-lined pipe, 16½—less 10 per cent. to the trade.

TIN.—Pig is not much sought after, and plates are quiet and dull.

ZINC—Is steady at our quotations.

NAILS.—Cut are weaker, and we quote: 10d. to 60d. common fence and sheathing, ℔ keg, $3.80@3.90; 8d. and 9d. common do ℔ keg, $4@4.15; 6d. and 7d. common do ℔ keg, $4.25@4.40; 4d. and 5d. common do ℔ keg, $4.50@4.65; 3d. and 4d. light, ℔ keg, $5.25@5.40; 3d. fine, ℔ keg, $6.00@6.15; 2d. ℔ keg, $6.75@6.90. Cut Spikes, all sizes, $4@4.15; Finishing, Floor, Box, Coopers, Slating, and Brad Heads: 3d. (Slating), ℔ keg, $5.90; 4d. and 5d. ℔ keg, $5.15; 6d. and 7d. ℔ keg, $4.90; 8d. ℔ keg, $4.65; 10d. to 60d. ℔ keg, $4.40.

CLINCH NAILS.

1¼ to 1 in.	2 & 2¼ in.	2½ & 2¾ in.	3 in. and longer.
$6.50@8.00.	$6.00.	$5.75	$5.50 ℔ keg.

OILS.—Linseed has been rather quiet, with more limited demand. Crushers have been selling at 94@96 cents per gallon. Boiled and refined is held at $1.

PAINTS.—The market is not so active as it has been, and dealers are beginning to draw consolation from the fact that their market for the present season has been, and still is, the best. Prices are quite firm, and goods occupy about the same position as last week.

PITCH—Jobbing in a quiet way at $2.87½@3 per bbl.

SPIRITS TURPENTINE—Dull, closing with 37½ cent bid, and 39 cents asked.

TAR—Is quiet, but steady, at $2.25 for Washington and Newbern; and $2.90 for Wilmington.

ALBANY LUMBER MARKET.

[FROM THE ALBANY ARGUS, JUNE 10, 1874.]

There is not any material change in this market since our last report. We have had rather a quiet week; the attendance of buyers has not been so free as we could have wished; we have no advices of any large sales having been made. Stocks of all kinds are plenty and well assorted, and the trade would find all they may want without trouble.

The figures given by us as the receipts for the last week in May were largely in error, and of course the aggregates of the season were in error to the same extent.

From the Ottawa country we learn that business in lumber is rather at a stand still, awaiting action on the reciprocity treaty. There is a growing feeling, however, on this side, that the necessities of Canadian manufacturers will compel sales at easier figures than present ruling quotations. The exports of sawed lumber from the Ottawa during May were 17,100,000 feet, which is less by 5,300,000 feet than the movement in May, 1872. So far, the principal freighting is done in U. S. bottoms.

The receipts at Oswego from the opening of navigation to June 1st, are thus reported:

1874.....53,347,900 feet.	1871.....61,000,000 feet.
1873.....42,406,000 feet.	1870.....56,000,000 feet.
1872.....35,746,100 feet.	1869.....45,000,000 feet.

At Chicago, the reported receipts of lumber, by lake, to the 2d of June, were 226,918,000 feet against 221,468,000 feet the year previous; the shipments from January 1st, are 191,748,000 feet against 153,687,000 feet the previous year.

The receipts at Albany by the Erie and Champlain canals during the 1st week of June, were:

	Bds. & Sc'tl'g ft.	Shingles, M.	Tim'r, c. ft.	Staves, lbs.
1873..	21,479,000	....	....	449,400
1874..	17,537,100	631	....	....

Of the boards and scantling received, 10,479,500 feet were by the Erie, and 7,057,600 feet by the Champlain canal.

The receipts at Albany by the Erie and Champlain canals from the opening of navigation to June 8th, were:—

	Bds. & Sc'tlg ft.	Shingles, M.	Tim'r c. ft.	Staves lbs.
1873.	..35,040,700	102	....	449,400
1874:	..62,826,100	4,068	....	....

Magrath's Copper Sash-Chain.

Patented 21st March, 1871.

Is adapted to ordinary round pulley, and strong enough to suspend weights of any size required.

Being intended as a substitute for sash-cord, it can be put into sashes now provided with cord without any change of pulleys. The inventor feels confident that experience will prove his chain to be both economical and durable, besides doing away with the constant annoyance and expense attending the use of sash-cord.

SOAPSTONE WASH TUBS.

A MUCH AND LONG NEEDED IMPROVEMENT.

None More Simple & None so Durable.

We are now manufacturing in this city to order, Wash Tubs and Sinks of the celebrated Francetown Soapstone.

Of the annoyance, costly repairs, and filthiness of our present wash tubs the public need not be told—experience has taught them. The superiority of them over wood is, they do not absorb the wash water and slops, consequently preventing that *disagreeable odor* in the house. They are easily kept sweet, clean, and dry. *They are not affected by hot or cold water. Never crack or leak.*

Cheaper than Wood, and will last a Lifetime.

They only need to be seen to be appreciated. All interested we invite to call and examine them at our warerooms.

THE HAYES

SKY-LIGHTS, &c.,

Under patents of 1869, '70, '71, '73, and '74.

In relation to the notice of Charles Sellman, published in these columns, the undersigned states that suit has not yet been commenced against him, though preliminaries have been taken, awaiting only a knowledge on my part of the fact of his having furnished to any person a sky-light under his so-called patents which, if he has ever furnished, he is careful that it shall not come to my knowledge.

The silver medal and diploma of the American Institute fair of 1873 are in my possession, having been awarded to me as the legal and justly-entitled owner.

The cases of Charles Sellman and George E. Dayton (who have both been under my pay and instruction), will receive, in due time, their merits through the proper source, and I am only sorry that unwary persons will, *of necessity, be concerned.*

Our new illustrated catalogue free on receipt of business card.

(Signed) GEORGE HAYES,
75 Eight Avenue, New York.

NOTICE TO CARPENTERS, BUILDERS, AND others requiring Metallic Sky-lights.—I have secured by patent the best and cheapest Sky-light yet introduced. The Diploma at the Fair of the American Institute having been awarded to me.

The Sky-light Bar which I construct I have covered by patent, and no other person has ever obtained a patent thereon, and no person has sued me for infringement. All statements to that effect being absolutely false.

A GOOD INVESTMENT.

EVERY PRUDENT MAN, CAREFUL OF THE health and comfort of his family, should see to it that his drinking water is conveyed through TIN-LINED LEAD PIPE, which is a perfect safeguard against lead poison. Tin-lined Lead Pipe is strong, durable, flexible, and easy soldered. It is a great benefit to the community, and enhances the real value of every house in which it is introduced. It is cheaper than Lead Pipe, when strength and durability are considered. Sold by the COLWELL LEAD CO., 213 Centre St., New York. Price, 16½ cts. a pound for all sizes. Descriptive pamphlets sent by mail free. Also, manufacturers of Lead Pipe, Sheet Lead, Block Tin Pipe, Solder, &c. Orders filled at sight.

Than Fort Washington or Elizabeth. More convenient than Harlem, and as sociable as Brooklyn, with the usual quota of schools and churches. Scenery beautiful, and excellent opportunities for riding, boating, and bathing.

HOUSES, SIX TO TEN ROOMS, FOR SALE,

With cellar and garden lots 25x150 each, to be paid for in instalments ranging from $25 to $45 per month, and interest payable annually. Discount for cash.

The advantages here offered should be well understood by

MECHANICS AND CLERKS,

As they are here enabled to obtain property at low figures and on easy terms at a distance from their places of business NO FARTHER THAN SEVENTIETH STREET, in a constantly growing section of the metropolitan suburbs, where there is the first railroad to supply rapid transit, and fares no higher than the abominable horse cars.

CAPITALISTS AND INVESTORS GENERALLY,

Who by this time must be convinced that the value of real estate in New York City has reached its maximum, and that for some years to come there can be no further rise in values on the island proper, are requested to turn their attention now to

SOAPSTONE WASH TUBS.

A MUCH AND LONG NEEDED IMPROVEMENT.

None More Simple & None so Durable.

We are now manufacturing in this city to order, Wash Tubs and Sinks of the celebrated Francetown Soapstone.

Of the annoyance, costly repairs, and filthiness of our present wash tubs the public need not be told—experience has taught them. The superiority of them over wood is, they do not absorb the wash water and slops, consequently preventing that *disagreeable odor* in the house. They are easily kept sweet, clean, and dry. *They are not affected by hot or cold water. Never crack or leak.*

Cheaper than Wood, and will last a Lifetime.

They only need to be seen to be appreciated. All interested we invite to call and examine them at our warerooms.

THE HAYES
SKY-LIGHTS, &c.,

Under patents of 1869, '70, '71, '73, and '74.

In relation to the notice of Charles Sellman, published in these columns, the undersigned states that suit has not yet been commenced against him, though preliminaries have been taken, awaiting only a knowledge on my part of the fact of his having furnished to any person a sky-light under his so-called patents which, if he has ever furnished, he is careful that it shall not come to my knowledge.

The silver medal and diploma of the American Institute fair of 1873 are in my possession, having been awarded to me as the legal and justly-entitled owner.

The cases of Charles Sellman and George E. Dayton (who have both been under my pay and instruction), will receive, in due time, their merits through the proper source, and I am only sorry that unwary persons will, *of necessity, be concerned.*

Our new illustrated catalogue free on receipt of business card.

(Signed) GEORGE HAYES,
75 Eight Avenue, New York.

NOTICE TO CARPENTERS, BUILDERS, AND others requiring Metallic Sky-lights.—I have secured by patent the best and cheapest Sky-light yet introduced. The Diploma at the Fair of the American Institute having been awarded to me.

The Sky-light Bar which I construct I have covered by patent, and no other person has ever obtained a patent thereon, and no person has sued me for infringement. All statements to that effect being absolutely false.

A GOOD INVESTMENT.

EVERY PRUDENT MAN, CAREFUL OF THE health and comfort of his family, should see to it that his drinking water is conveyed through TIN-LINED LEAD PIPE, which is a perfect safeguard against lead poison. Tin-lined Lead Pipe is strong, durable, flexible, and easy soldered. It is a great benefit to the community, and enhances the real value of every house in which it is introduced. It is cheaper than Lead Pipe, when strength and durability are considered. Sold by the COLWELL LEAD CO., 213 Centre St., New York. Price, 16½ cts. a pound for all sizes. Descriptive pamphlets sent by mail free. Also, manufacturers of Lead Pipe, Sheet Lead, Block Tin Pipe, Solder, &c. Orders filled at sight.

MORTGAGES.

REAL ESTATE.

NEW YORK.

NOTE.—The arrangement of this list is as follows: The first name is that of the mortgagor, the next that of the mortgagee. The description of the property then follows, then the date of the mortgage, the time for which it was given, and the amount. The general dates used as headings are the dates when the mortgage was handed into the Register's office to be recorded.

Wherever the letters "P. M." occur preceded by the name of a street in these lists of mortgages, they mean that it is a Purchase Money Mortgage, and for fuller particulars see the list of transfers under the corresponding date.

MISCELLANEOUS.

REVIEW OF THE REAL ESTATE MARKET.

The market for city realty has been very quiet, the public sales telling the usual story of sacrifice, enforced by adversity, and private transactions presenting no new reports.

Suburban sales have been frequent, and prominently successful, so far as can be gathered from reports that have come to hand. The strength of the market will be tested in the sale of the Grand Boulevard, Riverside Park, Eleventh Avenue, and adjourning street lots, to be offered at auction on the 30th day of June, by Messrs. A. H. Muller & Son, by order of the trustees of Leon Furniss. This property is to be absolutely sold for the benefit of one of the heirs of the Furniss estate, and is of a class that investors favor, the title being unimpeachable and the property first-class in all respects. There is not a lot offered in this sale which will not quadruple in value within ten years, and for the Riverside Park lots the time will soon come when a price will be put on them which will completely dwarf what are now called gilt-edged lots.

In a speculative way, many dealers seem waiting for opportunities which will present later in the month, and which probably will never recur as favorably as at this season. For the rest there is nothing to encourage any interest until other seasons, changed in the relations of trade and prosperity, shall develop activity.

E. H. Ludlow & Co. will sell at the Exchange Salesroom, on next Thursday, valuable property belonging to the Norsworthy estate, eight lots on Ninth Avenue, four lots on Sixty-first Street, and considerable prop

erty in Pearl, Delancey, and Thirteenth streets, comprising the bulk of the offering, of which details can be found in our advertising columns.

Dingee, Porter & Co.'s sale at Mamaroneck, next week, ought to attract a numerous attendance; the locality just being of the kind far superior to the property offered by so many suburban auctioneers now-a-days.

GOSSIP.

The Board of State Assessors will meet at the Department of Taxes and Assessments, No. 32 Chambers Street, on Thursday June 25, at noon, to hear all interested in assessments and taxes, with a view to a just equalization of the State tax.

MARKETS.

To add further to the disasters and complications that beset the building trade, further difficulties in the labor market have arisen through strikes for higher wages, when there is no room for improvement, with ample opportunity for distress. It is discouraging that such things should happen in the worst of times, and it is greatly to be deplored that the workingmen should bring trouble upon themselves and annoyance and confusion to whatever little trade is going, by a course of action at once senseless and ill-devised. Trade has been very much set back during the past week, and demand has fallen off to a degree beyond precedent. Bricks are demoralized; Cement is weaker; Lime is steadier, for reasons which are given in their place; Lumber is indifferent in business; Metals continue dull; and the market for Paints has fallen away from the activity we have hitherto recorded. Other markets remain very much as previously reported. We append details:

BRICK.—The market for hard is weak, broken up, and unsettled. Sales are quite limited, and arrivals are consequently more infrequent. All sorts of prices prevail, and although we nominally retain our quotations of last week, we may very properly say that there are no quotations, and that the market is altogether flat. The strikes, of course, have their effect in this direction, and, with other things, may lead to a suspension of production, and throw many men who are not concerned in the strikes out of employment. At present the market seems going from bad to worse, without prospect of recovery.

CEMENT—Shares in the general depression, Rosendale still quoting at $1.30 per bbl., while $1.25 will doubtless secure a cargo. Portland is quoted at $4.60@4.75, ex vessel, and $5@5.15 from store. Other quotations are unchanged. No sales are reported.

FIRE BRICK.—Sales are of 4,000 Scotch, to arrive, at $52.50.

GLASS.—French window is quiet, discounts quoting at 60 and 10 to 60 and 20 per cent. Polished plate and sheet are dull and nominal.

HAIR.—There is not more than a moderate demand, but inquiry has improved, and sales have occurred to make the market steadier, and recent quotations are quite firmly sustained. We quote, as to quality, cattle at 18@25 cents, and goat at 21@28 cents per bushel.

HARDWARE.—Trade continues dull, and dealers are awaiting the event of another season, sustaining, meanwhile, prices quite steadily.

LATH—Are unchanged, and quiet at $2.

LIME.—State is held firmly in agents' hands at 90 cents. The weakness indicated in our last report has been overcome by reduced production and restricted arrivals. Agents assert that they have been selling without profit, and that under the present conditions of the market they must limit their offerings. One company has, it is said, shut down its production to less than one-fifth of its capacity. We quote common at 90 cents for State, and $1 for Rockland. Finishing is still quoted at $1.25@1.50 per bbl.

LUMBER.—Some of the yards seem to be doing an easy, steady trade, enough to keep fairly going, while others are more inactive. The condition of the market has not improved since our last report. White pine is in moderate request at previous quotations. Spruce is not active, and quotes at $16@20. Better rates can possibly be secured for exceptional cargoes. Yellow pine is dull. Hardwoods are quiet, but steady. Our quotations, with slight exception, are nominally firm and as steady as the character of the market will admit, but concessions seem to be made in a general way to meet trade and to suit customers. This, however, is not so much weakness as one of the ordinary emergencies of business. As a rule, trade is slow, and without promise.

The charters comprise: A German bark, 921 tons (to arrive hence), from St. John, N. B., to Liverpool, deals, £4 5s.; an American brig, 399 tons, hence to Lisbon, extra heavy pipe staves, $48; an American bark, 439 tons (now at Philadelphia), from Richmond to Liverpool, oak timber, 45s. ✠ 40 cubic feet; a Norwegian bark, 511 tons (to arrive hence), from Portland to Montevideo or Buenos Ayres, lumber, $18, net; a British bark, 426 tons (now here), from St. John, N. B., to Bristol, deals, 90s.; a British brig, 359 tons (now here), from St. John, N. B., to Hull, deals, 95s.; a new bark (at Boston), from Bangor to Liverpool, deals, at or about 85s.; an American brig, 428 tons (now here), from Portland to Buenos Ayres, lumber, $18 and primage; a schr., 200,000 resawed lumber, from Savannah to Boston, $10; one, 230,000 do, from St. Mary's to New York, $9.50, out in ballast; a brig, 359 tons, from Brunswick to New York, lumber, private rate; a schr., 180,000 resawed lumber and dry boards, same, $9; one, 203 tons, from Virginia to Boston, oak timber, $6; one, 150,000 resawed lumber, from Wilmington to Boston, $9; one, 160,000 do, from Pensacola to New York, or a Sound port, $12; a schr., 135 tons (now here), from Jacksonville to Aux Cayes, lumber, $12—and back to New York, logwood, $5 and port charges.

Michigan and Wisconsin Notes.

From the Saginaw *Courier*, June 10:—

The lumber market has certainly not improved any since our last report. But few sales have been noted, and there is very little inquiry for lumber. The sales that have taken place, at least those reported, were at $6, $12, and $35, and sellers indicate a determination to maintain those figures. On lower grades there have been lower prices obtained, but it is safe to assume that on good lumber the above quotations are strictly adhered to. The general stagnation in all branches of trade, in all parts of the country, coupled with the uncertainty of the future regarding the finances, keeps dealers out of the market, and yet it seems that just now is a golden opportunity for the capitalist with money to invest in lumber, to launch out. It is very doubtful if the decline in prices, which many predict, will take place, and even should prices drop a dollar all

around, and buyers rush in to take advantage of the same, an active demand for lumber will send freights up with a bound, which are now lower than it was believed they could possibly be this season.

The cash buyer in this market who does not invest largely now will lose an opportunity that will not be presented again soon. Quite a number of firms are extending their dockage facilities with the intention of piling their lumber up, rather than sell it below the figures given above, confident that the time is not far distant when it will be wanted and sought after. Notwithstanding the fact that shipments thus far have reached 132,000,000 feet, lumber is accumulating rapidly on the docks along the river.

From the Wisconsin *Lumberman*:—

The lumber market, for common dimension stuff, throughout the entire extent of the country, is flat. The great activity which prevailed in the Chicago, Mississippi River, and Western markets during the months of January, February, and March, has gradually decreased until the most favored localities can only claim a fair degree of trade. The great markets on Lake Erie's southern shore have not had the advantages of the extreme activity which prevailed in the more western markets during the earlier part of the season, and therefore the condition of those markets has been more uniform and less noticeable. Trade in all parts of the country is only tolerable among that class of manufacturers and dealers who have been so long in the business that a regular line of customers has been established. New firms are particularly depressed, and have sufficient cause for their complaint that the market is absolutely worthless. The older firms are, as a usual thing, making fair sales, although at such small profit as to hardly pay the usual and necessary expenses of handling.

General Western Notes.

From the Dubuque (Iowa) *Herald*, June 9:—

The lumber trade of this market has not been as good for years as it is this season; yard and river sales are heavy, and dealers in good spirits over present and future prospects. The demand from the yards last week was nearly up to the one previous, when an unusually large amount was forwarded. Cars are more plenty, and business proceeds satisfactorily as regards transportation.

Eastern Notes.

From the Boston *Journal of Commerce*, June 13:—

The continued dullness in the building line seriously affects the lumber trade, and has caused a heavy falling off in the demand which usually prevails at this season of the year. As yet there has been no business of any importance transacted. The country dealers have purchased sparingly so far, and are likely to continue to do so until there is a better demand from contractors and builders. This, of course, makes cargo sales drag, and tends to depress the market. Prices are not at all firm, unless it may be for certain qualities which are necessary to meet present wants. Spruce has sold well for some time past, and there has been a fair demand for walnut. Stocks of all kinds of lumber are light, and the arrivals are few. There is no doubt but that if trade should improve better prices would rule. Western lumber has not changed in any respect, and the same may be said of Eastern and Southern. In fact, the trade will buy nothing but what is actually required for present use, even when excellent bargains are offered.

State Notes.

From the Troy *Times*, June 11:—

During the past week there has been no change in the lumber market worthy of mention. Receipts have been light, and by the Champlain canal there have been no arrivals since Sunday, on account of the high water in the Mohawk preventing the passing of boats. Shipping has been moderately active. Sales, although not in any particular instance large, yet will foot up to a considerable amount for the week's business. Prices are low, but firm, and will probably go no lower. The stock on hand in the yards is generally well assorted, and embraces about all the varieties of lumber which are wanted.

METALS.—COPPER.—Manufactured is steady at 33 cents for new sheathing, bolts and braziers 35, Y. M. sheathing 24, and bolts 30, net cash. Ingot is steady at 24½@24¾ cents.

IRON.—The market is very dull. Scotch pig has sold in limited quantities: American is without reports of any importance. Scrap is dull, Rails are quiet, and Refined Bar from store is steady as quoted.

LEAD.—Pig is very quiet, foreign being held at $6.50, and domestic at $5.90, gold. Manufactured, 8½ cents for bar; and 9 cents for sheet and pipe—less 18 per cent.

Tin-lined pipe steady at former quotation.

TIN.—Pig is dull and nominal. Plates are quiet and steady at about the range of our quotation.

ZINC—Sheet is quoted at 8¼@8½ cents, gold.

NAILS.—Cut are quiet, and about steady as last reported. We quote: 10d. to 60d. common fence and sheathing, ₩ keg, $3.80@3.90; 8d. and 9d. common do ₩ keg, $4.00@4.15; 6d. and 7d. common do ₩ keg, $4.25@4.40; 4d. and 5d. common do ₩ keg, $4.50@4.65; 3d. and 4d. light, ₩ keg, $5.25@5.40; 3d. fine, ₩ keg, $6.00@6.15; 2d. ₩ keg, $6.75@6.90. $6.50@8.00.	$6.00.	$5.75	$5.50 ₩ keg.

OILS.—Linseed is quiet and in little demand for round lots, but jobbing at 90 cents in casks from crushers' hands. Quotations for round lots are as follows: Crushers, in casks, 90 cents; in bbls., 91; boiled and refined, in bbls., 96 cents per gallon.

PAINTS.—Trade has fallen away, although some activity is still apparent. A fair jobbing demand exists for leading goods, and prices are steadily maintained. Vermilions are strong; Paris green is in fair demand; other goods are in full supply, with limited transactions, except in Ultramarine, the demand for which is fully up to production.

PITCH—Has been in jobbing request at $3, closing quiet and nominal at $2.87½.

SPIRITS TURPENTINE.—The market has been dull and weak, with occasional activity, closing quiet and easy at 36@36¼ cents.

TAR—Quiet and nominal at $2.25.

ALBANY LUMBER MARKET.

[FROM THE ALBANY ARGUS, JUNE 17, 1874.]

A quiet market still continues; trade has been light since our last report. During the early part of the week some heavy buyers were in market, but their purchases were light; from what we can learn, they were here to make inquiries with view to fall stock. The opinion seems to be that present quotations note that the bottom has been reached. There is some talk of the spruce and hemlock manufacturers "up North" stopping their mills for one day in the week with the view of curtailing supplies from that direction. Stocks are ample and fairly assorted.

Within a few days, says the Ottawa *Citizen*, a sale of one million feet of shipping culls has been made at the Chaudiere, at an advanced price. The same paper also says: "One of the most experienced lumber dealers in the Eastern States, who has just made a tour of Canada and the markets of New York State, predicts an active fall trade, to commence in August.

The receipts at Albany by the Erie and Champlain canals during the 2d week of June, were:

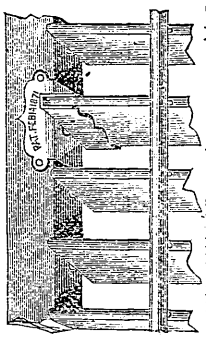
NO MORE LEAKY FAUCETS!

HOLTZ'S FAUCET.

One of the most important Inventions of the age.



PATENTED JUNE 11TH, 1872.

ADVANTAGES OVER ALL OTHERS.—1. Self-closing, thereby preventing overflow and damage. 2. No friction, no wear. 3. Can be regulated to any pressure. 4. Does not require an air chamber. 5. Will never jar or hammer the pipe. 6. Will prevent other faucets from doing so. 7. It will never be injured by frost. 8. It prevents range boiler explosions. 9. It can be repaired in one minute. 10. It never requires grinding; never leaks. 11. Half the weight in pipe could be saved. 12 Will last a life-time. 13. It is the cheapest Faucet, as more than its whole cost can be saved in the weight of lead pipe. 14. And last, it will prevent pipes from bursting by freezing. These faucets have been in use since 1870.

Magrath's Copper Sash-Chain.
Patented 21st March, 1871.

Is adapted to ordinary round pulley, and strong enough to suspend weights of any size required.
Being intended as a substitute for sash-cord, it can be put into sashes now provided with cord without any change of pulleys. The inventor feels confident that experience will prove his chain to be both economical and durable, besides doing away with the constant annoyance and expense attending the use of sash-cord.

The future centre of large shipping interests, only twenty-two minutes from Hunter's Point by the Flushing and North Side Railroad, and fare only 8½ cents on Mechanics' trains.

FORTY-TWO TRAINS DAILY,

From 5.50 A. M. till midnight. By boats from James' Slip or Thirty-fourth Street ferries.

Magnificent Building Lots

On high ground
FROM $200 TO $500,

Which may be paid for at ten dollars a month, without interest.
Many streets are sewered, curbed, and guttered, and investors should bear in mind, that while the value of lots in Whitestone is steadily increasing, that the village charter

LIMITS THE VILLAGE TAXES

to one-half per cent. on valuation.

EXCELLENT BUSINESS CORNER FOR SALE,
Of which ninety per cent. can remain on mortgage if purchaser is disposed to make immediate improvements.

WHITESTONE, L. I., NEARER TO NEW YORK

Than Fort Washington or Elizabeth. More convenient than Harlem, and as sociable as Brooklyn, with the usual quota of schools and churches. Scenery beautiful, and excellent opportunities for riding, boating, and bathing.

HOUSES, SIX TO TEN ROOMS, FOR SALE,
With cellar and garden lots 25x150 each, to be paid for in instalments ranging from $25 to $45 per month, and interest payable annually. Discount for cash.
The advantages here offered should be well understood by

MECHANICS AND CLERKS,

As they are here enabled to obtain property at low figures and on easy terms at a distance from their places of business NO FARTHER THAN SEVENTIETH STREET, in a constantly growing section of the metropolitan suburbs, where there is the first railroad to supply rapid transit, and fares no higher than the abominable horse cars.

CAPITALISTS AND INVESTORS GENERALLY,
Who by this time must be convinced that the value of real estate in New York City has reached its maximum, and that for some years to come there can be no further rise in values on the island proper, are requested to turn their attention now to

Whitestone Property,

Where values are continually rising, and where a small or large investment can be doubled in less than two years.
Remember, that Whitestone will be one of the first places near the Sound to reap the advantages that will follow the completion of the

HELL GATE IMPROVEMENT,

Which will ultimately revolutionize the shores of Long Island.

CARD.

To Bankers, Lawyers, Trustees, Executors, Savings Institutions, and others having capital to invest in Bond and Mortgage on first-class property:
There are millions of capital controlled by parties who desire to invest in Bond and Mortgage, and who are not only satisfied with, but who refuse more than legal interest. To such we offer our services in negotiating safe and judicious investments, having had sixteen years' experience and knowledge of Real Estate in this city. Our commission, invariably one per cent., paid by the borrower. Searches, when made through our office, will be conducted by one of the best and most experienced Real Estate lawyers in this city at one-half per cent.

OF THE
American Institute, 1872.

HUGH YOUNG, Stone Cutter, and Manufacturer of Diamond Saw Machines, solicits orders in both branches of his business.

In Stone Cutting he hopes to receive a fair share of the trade of the city, believing that his business, as organized, combines as many advantages of experience, tastefulness, and mechanical facilities as can be found.

His Diamond Saw business is also thoroughly organized No invention for preparing stone for the Building Trade has ever been so well and promptly received as this. As economists of room, stone, labor, and power, these machines are unrivalled. They are without practical drawbacks, easily kept in order, and have extraordinary range of usefulness and value.

SOAPSTONE WASH TUBS.
A MUCH AND LONG NEEDED IMPROVEMENT.
None More Simple & None so Durable.

We are now manufacturing in this city to order, Wash Tubs and Sinks of the celebrated Francetown Soapstone.
Of the annoyance, costly repairs, and filthiness of our present wash tubs the public need not be told—experience has taught them. The superiority of them over wood is, they do not absorb the wash water and slops, consequently preventing that *disagreeable odor* in the house. They are easily kept sweet, clean, and dry. *They are not affected by hot or cold water. Never crack or leak.*

Cheaper than Wood, and will last a Lifetime.
They only need to be seen to be appreciated. All interested we invite to call and examine them at our warerooms.

THE HAYES
SKY-LIGHTS, &c.,
Under patents of 1869, '70, '71, '73, and '74.
In relation to the notice of Charles Sellman, published in these columns, the undersigned states that suit has not yet been commenced against him, though preliminaries have been taken, awaiting only a knowledge on my part of the fact of his having furnished to any person a sky-light under his so-called patents which, if he has ever furnished, he is careful that it shall not come to my knowledge.
The silver medal and diploma of the American Institute fair of 1873 are in my possession, having been awarded to me as the legal and justly-entitled owner.
The cases of Charles Sellman and George E. Dayton (who have both been under my pay and instruction), will receive, in due time, their merits through the proper source, and I am only sorry that unwary persons will, *of necessity, be concerned.*
Our new illustrated catalogue free on receipt of business card.
(Signed) GEORGE HAYES,

NOTICE TO CARPENTERS, BUILDERS, AND others requiring Metallic Sky-lights.—I have secured by patent the best and cheapest Sky-light yet introduced. The Diploma at the Fair of the American Institute having been awarded to me.
The Sky-light Bar which I construct I have covered by patent, and no other person has ever obtained a patent thereon, and no person has sued me for infringement. All statements to that effect being absolutely false.

MORTGAGES.

REAL ESTATE.

NEW YORK.

NOTE.—The arrangement of this list is as follows: The first name is that of the mortgagor, the next that of the mortgagee. The description of the property then follows, then the date of the mortgage, the time for which it was given, and the amount. The general dates used as headings are the dates when the mortgage was handed into the Register's office to be recorded.

Wherever the letters "P. M." occur preceded by the name of a street in these lists of mortgages, they mean that it is a Purchase Money Mortgage, and for fuller particulars see the list of transfers under the corresponding date.

MISCELLANEOUS.

REVIEW OF THE REAL ESTATE MARKET.

The market is very quiet, except in the way of suburban sales, which are reported with much vivacity as of pleasing results. Notwithstanding the dullness in city realty, there is a better feeling extant, and dealers seem to view with satisfaction the settlement, temporary, perhaps, but none the less satisfactory, of the financial issues in the national legislature. Indeed, some leading real estate operators are exultant, and loudly proclaim their belief that the hour of depression has passed, and that henceforth better prices must rule. It would not be surprising if the market did mend, since all the circumstances which operate to its advantage seem favoring. The promise of abundant and even excessive crops, the healthier outlook for trade, all point to the hour of redemption from the depression which has controlled everything. That the reaction will early reach real estate we are not prepared to say, and it is hardly to be expected, but that the day for low prices and excessively cheap bargains has nearly reached its limit is quite evident, and, although future transactions must take on a more conservative character, in consort with the demand for improvement, we believe that judicious investment now is a wise forethought which will produce ample fruits at no very distant season. The market is nominally steady at reduced prices, nothing occurring to make a very satisfactory estimate of values. The public sales have been generally in foreclosure, and have resulted as usual.

On Tuesday next, the 30th inst., the executors of the will of the late William P. Furniss will offer for sale the property advertised in our columns. The sale is in partition, under an order of the Supreme Court, and it is doubtful when property such as is now offered will again come into market. The premises on Wall and Broad streets forming an immense building, and bringing a large and remunerative yearly revenue, cannot be surpassed in point of business location. Other improved property on Clinton Place and Ninth Street, between the Fifth and Sixth avenues, will readily commend itself to the intelligence of all familiar with real estate. The unimproved property distributed upon the Grand Broadway, Riverside, and West End boulevards, and One Hundred and Fourth Street, with fronts and water lots upon the Hudson River, is hardly equalled by kindred property in the neighborhood. This sale will occur entirely upon the merits. It is peremptory, under an order directing a distribution, and the property will be sold beyond all reserve. It is full worthy of the attention of all who want to invest, and can realize that now is a time to buy.

CITY.

The Deparment of Public Works reports the following contracts entered into: Sheriff Street, between Grand and Broome streets, sewer; Inwood and Dyckman streets, both sides, between Hudson and Harlem rivers, underground drains; Sixty-fourth Street, from Ninth to Tenth Avenue, regulating, grading, etc.; Forty-eighth Street, from Tenth to Eleventh Avenue, paving; Eighty-first Street, between Second and Fourth avenues, paving. Also the following contracts completed: Mangin Street, between Stanton and Houston streets, sewer; Cannon Street, between Broome and Delancey streets, sewer; Fifty-fourth Street, from Tenth to Eleventh Avenue, paving. Also the following certificates of cost of improvements, transmitted to the Board of Assessors: Avenue St. Nicholas, from One Hundred and Tenth to One Hundred and Fifty-fifth Street, regulating, grading, and superstructure, $602,-751.86; Fifty-seventh Street, from Eleventh Avenue to Hudson River, curbing and guttering, $526.71; Fifty-seventh Street, from Eleventh Avenue to Hudson River, flagging, $1,505.37; Manhattan Street, northwest corner Broadway, receiving basin, $389.60; total, $605,-173.54.....The Commisioners of the Fire Department ask for proposals for building a steam fire propeller. Also for proposals for altering the building No. 125 Mercer Street.

MARKETS.

The confused feeling prevalent in the markets last week has extended to the present, with perhaps a slight change which will lead to settled results for the remainder of the season. Prices have been running so low as make it a serious question with some manufacturers whether it would not be prudent to discontinue production, and in many instances manufacture has been curtailed far within the limits of ordinary dull trade. The promise of abundant crops and a certainty that—for the present, at least—the currency question is settled, seems to inspire greater confidence and a hopeful feeling; and as the time must come for a change to better things or to utter ruin, hopes founded upon present prospects are not without encouragement. It cannot be expected that trade will suddenly spring up to the full proportions of a very prosperous and busy season. Recovery in the building markets is contingent upon many things which must attain health and development before we can expect to record stirring and profitable business; but the effects will be more enduring. Our report this week is not of a flattering character, as most conditions are the same as reported last week; but there is a possibility that, except in one or two instances, the lowest prices have been reached. Bricks are still in doubt, although so far settled that we attempt a quotation which is not altogether nominal. Cement continues weak, a fact which we have reported since its earliest indications, and which only at this late day seems to have become impressed upon journals professedly infallible. Glass is dull but steady. Hair is firmer in feeling and seems likely to become stronger. Hardware remains without improvement. Lath are much weaker. Lime is firm, sustained by the diminished production and the light stocks in agents' hands. Lumber is in moderate request with a few sales for export. Metals are without change and dispirited. Paints continue fairly active, and all other markets included in our review are of indifferent character and limited movement.

We append our report in detail:

BRICK.—The conditions of the market vary little from our report of last week. Prices are still somewhat unsettled, although we revise our quotations and make them peremptory. Manufacturers are now considering a reduction of freights to $1.25. The carrying rate has heretofore been $1.50, but the prices secured for goods have been considered so unremunerative that the only resource to come out whole, it is claimed, is to make up the loss by distributing it among all interested in the trade. This proposition naturally meets with opposition, and should it be insisted upon will probably result in withdrawing some of the boats or causing a suspension of shipments. We do not know that the movement would be so far extended as to affect the market, although so intended. It would need to be general and prompt to give an impetus to prices, and under existing circumstances it would be doubtful if anything would come of it. The product this year is now much behind that of ordinary seasons. Ten yards at Haverstraw, with an average capacity for manufacturing 4,000,000 of bricks in a season, have not yet begun work. The remaining yards are not running up to their full measure, and should this condition be sustained the yards at Haverstraw will manufacture this season 80,000,000 bricks less than their average. We quote: Pale, ℔ M, $2.25@3.00; Jersey, $5.50@6.00; Upriver, $5.50@6.50; Haverstraw Bay, $6.00@8.50; Fronts, Croton—brown, $12.00; dark, $13.00; red, $14.00; Philadelphia, $28.50@30.50; Baltimore, $50@58. We have reports of late sales of good Haverstraw Bay brick at $7. Our quotations, however, will cover the range.

CEMENT.—Our quotations for Rosendale are still held at $1.30@1.40, although we incline to believe that $1.25 comes nearer the market price. Transactions so far as we learn are very limited, except for export, and the foreign trade seems to engross about all the business. Portland is about steady as last reported, 300 barrels having been sold to arrive at $4.75 per barrel. The market is generally dull, and quotations remain as previously reported.

FIRE BRICK—Are quiet and steady at old prices. Sales are reported of 15,000 Scotch to arrive at $44.

GLASS.—French window is in moderate demand, and prices are about steady. Polished plate is unsettled and irregular.

HAIR—Is held firmly at our most recent quotation. Transactions are not large; but the market is not overstocked and goods are in firm hands. We quote as to quality cattle at 18@25 cents, and goat at 21@28 cents per bushel.

HARDWARE.—The market is inactive, trade being confined to jobbing lots, and restricted at that. Prices are generally steady.

LATH—Have developed weakness since our last report, selling down to $1.90, and quoting for the present at $1.85, with a possible further decline. The market, however, is unsettled, and quotations may change for the better.

LIME.—There is no change to record or special feature to note in this market. Under the influences which have been exerted for two weeks past the market is steady, and State may be quoted firm at 90 cents for common. Rockland is quite steady at $1; finishing generally is quoted at $1.25@1.50.

LUMBER.—Trade at the yards is not large, but there is a better feeling consequent upon the temporary settlement of the financial issues. Prices vary in a few instances, but without generally affecting the market. White pine has been in better demand for export at $26@28 for shipping box and $30 for selected—two cargoes having been sold for shipment to the river Plate. Lower prices have been made in some instances at Saginaw, and dealers here are ready to take advantage of any fair offerings at concessions, but declare their willingness and ability to delay purchase should any effort be made to run up prices or hold too stiffly to current demands. There seems to be an unexpressed feeling that concessions must be made here, and a corresponding movement is looked for at the mills. Spruce is held at our quotation of last week, $16@18, with better prices for exceptional cargoes. The market is well supplied and is not active. Yellow pine continues in fair demand for flooring purposes, quoting at $28@32. Timber is dull. Hardwoods are generally quiet, black walnut selling rather actively and always in demand at good prices.

Michigan and Wisconsin Notes.

From the *Lumberman's Gazette* (Bay City, Mich.), June 13—

The shipments of lumber from the Saginaw River to date are in excess of those of last year, and considerable quantities continue to go forward though the trade is reported dull. Several causes which have combined to urge lumber forward have ceased to operate, however, and we may anticipate that the rate of increase over last year's shipments will not be maintained unless there should be a material improvement in the demand. The boom companies, anxious to finish up as soon as possible the comparatively small jobs of rafting out this year's log product, have crowded some of the mills with logs, and the mills, in turn, have pushed their sawing to be able to take the logs. The result has been that docks have been crowded and shipments have been urged as a means of relief. Now, however, this is all changed. The Cass and Bad rivers are cleared of logs, and the Tittabawassee is now the only tributary of the Saginaw which has a supply of logs to be rafted out. The shore streams are not yet clear, it is true, but another month will about close out the Rifle River, and the amount of logs which come from the shore to the river mills is small in comparison with the supply which comes down the Saginaw. There can, therefore, be no further crowding of logs from the booms, and mill men are now able to pile their lumber until such time as the market favors. A very few ventures which were made in the Chicago market have had a result well calculated to incline our manufacturers to this policy, and there is a very decided feeling in favor of it.

Elsewhere we give in detail the results of the log running and rafting of the season as far as the operations have progressed. The showing is such as to fully justify the lowest estimates which had been made of the extent of the log supply for the season. The Cass River makes a falling off of 50 per cent. from last year; Bad River is in the same condition, while the shore streams, the most fortunate of all this year, still exhibit large deficiencies. The product of the Tittabawasse is not yet certain, but it will range somewhere between 250,000,000 and 300,000,000. Four-fifths of this amount, possibly five-sixths, will be old logs.

This very large falling off in the log crop, and the fact that all the streams except Bad River will nevertheless be almost entirely cleared of logs, leaving a clear field for next season's operations, naturally tends to strengthen the views of manufacturers. If every log came to the mills there would still be a deficiency of over one-third of a season's stock. The sawing season, therefore, like the rafting season, promises to be very short, with no old logs to fall back upon for next year, and prospects as yet not the best for operations in the woods next winter. The stock on hand must appreciate in value under the influences of these facts.

Lake freights continue to rule very low. Lake charters have been reported at $1.75 and $2 from this port to Buffalo and Tonawanda, and there are many craft lying idle. The season throughout has been and still is exceedingly favorable for shippers. We learn that there has been an advance of 25 cents during the last few days.

Notwithstanding the circumstances above detailed, which should make a lively market during the balance of the season, lumber shares in the universal dullness of trade, and there are very few sales to report from week to week. The ruling prices are $6, $12, and $35, and manufacturers seem determined to hold to these rates. Inferior grades have been sold at a reduction and extra lots at an advance, but the above prices are the ruling ones.

The trade of the interior mills, whose product goes by rail, has been much the same as that of the river mills, though the advantage of selling small special lots has proved of some value to the former this season, and some of them have run their shipments up to pretty good figures this way.

From the Saginaw *Courier*, June 17:—

Shipments continue quite large from the river, but continued dullness is the only feature of the market. Nearly 19,000,000 feet of lumber went out of the river last week, and shipments thus far this week are active,

Since our last report a number of sales have taken place, but mostly at private terms. Two or three are reported at $6, $12, and $35, and one sale of a 1,000,000 feet was made at $5.50 $11, and $35.

The water is still good for rafting, and the various streams will show the clearest record so far as logs are concerned for many years.

General Western Notes.

From the Dubuque (Iowa) *Herald*, June 16:—

The past week witnessed the usual activity in the lumber trade, both afloat and in the yards. Buyers appeared in force, and made some favorable purchases, considering the general tenor of values, which lean toward holders. The lower river markets are reported flat, all over-stocked, and but little inquiry; sales could not be effected unless at a great sacrifice. The amount of lumber running is large; three large fleets passed this morning, whose contents were estimated at 3,000,000 feet. Log rafts are also passing in round numbers, and, judging from the movement, the markets below must be well stocked.

A rise is reported coming down all the streams. At St. Paul the swell amounts to five inches per day, with the Black, Chippewa, and other tributaries swelling from the effects of heavy rain in the upper country. If no freshet comes the channell will be increased thereby, and low water staved off several weeks. The river here recedes at the rate of two inches every twenty-four hours, but when the above mentioned swell comes the fall will be checked.

Eastern Notes.

From the Boston *Journal of Commerce*, June 20:—

Dullness is the reigning feature in the market, and dealers are somewhat discouraged in regard to the season's trade. Buyers will take nothing but what they can readily dispose of, and, as builders are doing but comparatively little business, the demand for nearly all qualities of lumber is very light. Cargoes are selling with considerable difficulty, and in numerous instances prices obtained are below the market rates. Common qualities of lumber, such as culls, are apparently not wanted. Good qualities of one-inch ash are in fair request, and the best grades of walnut are taken quite readily. There is some call for Michigan pine, but Southern is dull and listless. Canada pine sells to some extent, and receipts are light. In fact, there is not a heavy supply of stocks here, and, should business revive in the building line, and the demand become active, an advance in prices for nearly all descriptions would be the result.

State Notes.

From the Troy *Times*, June 18:—

During the past week the lumber market has been very quiet. Receipts and shipments have both been light, and buyers have been unusually scarce. The strikes in New York are exercising an unfavorable influence on the market, and, until something definite as a basis is reached by the builders and their help, but little lumber will be sold. Stock is accumulating, but slowly, and there seems no likelihood that the market will be glutted this season.

METALS.—COPPER.—New sheathing is steady at 33 cents, and bolts and braziers 35. Bronze and yellow metal sheathing 24, and bolts 30, net cash. Ingot is quiet at 24¼@24¾ cents.

IRON.—Scotch pig continues dull, notwithstanding advanced quotations on the other side, no purchases being made except to fill immediate want. American pig is also dull and nominal. Rails are in limited inquiry. Scrap is steady at full prices. Refined bar from store is quiet but unchanged, and sheet is in some request at about our quotation.

LEAD.—Pig is very quiet at $6.50 gold for foreign, and at $5.80, gold, for domestic. Bar 8½, and sheet and pipe 9 cents, less 18 per cent; and tin-lined pipe 16½, less 10 per cent.

TIN.—Pig is in limited demand, but at steady prices. Plates have been more active, but prices have been somewhat wavering.

ZINC—is steady at previous quotations.

NAILS.—Cut are quiet, but steady. We quote: 10d. to 60d. common fence and sheathing, ₩ keg, $3.80@3.90; 8d. and 9d common do ₩ keg, $4.00@4.15; 6d. and 7d. common do ₩ keg, $4.25@4.40; 4d. and 5d. common do ₩ keg, $4.50@4.65; 3d. and 4d. light, ₩ keg, $5.25@5.40; 3d. fine, ₩ keg, $6.00@6.15; 2d. ₩ keg, $6.75@6.90. OILS.—Linseed is in fair request at easier prices. We quote: Crushers in casks at 90 cents, in bbls. at 91, and boiled and refined at 96 cents.

PAINTS.—The market is fairly active, with a good demand for leading articles, and prices are generally steady and firm. White leads are in good request. American red lead is more quiet, and English is out of market. Vermilions continue strong. The demand for Paris green is more limited. Ultramarine is still in demand. Venetian red is in good supply and demand. China clay is somewhat weaker, and other articles are meeting with steady sale.

PITCH—Has been quiet and steady, closing with a better demand, at $2.75 per bbl.

SPIRITS TURPENTINE.—The market has fluctuated, alternately gaining strength and receding to our last quotations, closing quite steady at 37@37½ cents per gallon.

TAR.—Quiet and nominal at $2.25 per bbl.

A GOOD INVESTMENT

EVERY PRUDENT MAN, CAREFUL OF THE

health and comfort of his family, should see to it that his drinking water is conveyed through TIN-LINED LEAD PIPE, which is a perfect safeguard against lead poison. Tin-lined Lead Pipe is strong, durable, flexible, and easy soldered. It is a great benefit to the community, and enhances the real value of every house in which it is introduced. It is cheaper than Lead Pipe, when strength and durability are considered. Sold by the COLWELL LEAD CO., 213 Centre St., New York. Price, 16½ cts. a pound for all sizes. Descriptive pamphlets sent by mail free. Also, manufacturers of Lead Pipe, Sheet Lead, Block Tin Pipe, Bar Tin, Pig Tin, Bar Lead, Pig Lead, Solder, &c. Orders filled at sight.

NO MORE LEAKY FAUCETS!

HOTZ'S FAUCET.

One of the most important Inventions of the age.

PATENTED JUNE 11TH, 1872.

ADVANTAGES OVER ALL OTHERS.—1. Self-closing, thereby preventing overflow and damage. 2. No friction, no wear. 3. Can be regulated to any pressure. 4. Does not require an air chamber. 5. Will never jar or hammer the pipe. 6. Will prevent other faucets from doing so. 7. It will never be injured by frost. 8. It prevents range boiler explosions. 9. It can be repaired in one minute. 10. It never requires grinding; never leaks. 11. Half the weight in pipe could be saved. 12. Will last a life-time. 13. It is the cheapest Faucet, as more than its whole cost can be saved in the weight of lead pipe. 14. And last, it will prevent pipes from bursting by freezing. These faucets have been in use since 1870.

Magrath's Copper Sash-Chain.
Patented 21st March, 1871.

Is adapted to ordinary round pulley, and strong enough to suspend weights of any size required.
Being intended as a substitute for sash-cord, it can be put into sashes now provided with cord without any change of pulleys. The inventor feels confident that experience will prove his chain to be both economical and durable, besides doing away with the constant annoyance and expense attending the use of sash-cord.

PROBLEM SOLVED!

MAGNIFICENT BUILDING LOTS AND CONVENIENT HOMES WITHIN EASY DISTANCE FROM THE CITY HALL BY

RAPID TRANSIT,

Now in actual operation.

PRESENT AND FUTURE HOMES
FOR
New York's Mechanics and Tradesmen,

At rates unequaled anywhere in the vicinity of the metropolis at

WHITESTONE, L. I.,

The future centre of large shipping interests, only twenty-two minutes from Hunter's Point by the Flushing and North Side Railroad, and fare only 8½ cents on Mechanics' trains.

FORTY-TWO TRAINS DAILY,

From 5.50 A. M. till midnight. By boats from James' Slip or Thirty-fourth Street ferries.

Magnificent Building Lots

On high ground
FROM $200 TO $500,

Which may be paid for at ten dollars a month, without interest.
Many streets are sewered, curbed, and guttered, and investors should bear in mind, that while the value of lots in Whitestone is steadily increasing, that the village charter

LIMITS THE VILLAGE TAXES

to one-half per cent. on valuation.

EXCELLENT BUSINESS CORNER FOR SALE,

Of which ninety per cent. can remain on mortgage if purchaser is disposed to make immediate improvements.

WHITESTONE, L. I., NEARER TO NEW YORK

Than Fort Washington or Elizabeth. More convenient than Harlem, and as sociable as Brooklyn, with the usual quota of schools and churches. Scenery beautiful, and excellent opportunities for riding, boating, and bathing.

HOUSES, SIX TO TEN ROOMS, FOR SALE,

With cellar and garden lots 25x150 each, to be paid for in instalments ranging from $25 to $45 per month, and interest payable annually. Discount for cash.
The advantages here offered should be well understood by

MECHANICS AND CLERKS,

As they are here enabled to obtain property at low figures and on easy terms at a distance from their places of business NO FARTHER THAN SEVENTIETH STREET, in a constantly growing section of the metropolitan suburbs, where there is the first railroad to supply rapid transit, and fares no higher than the abominable horse cars.

CAPITALISTS AND INVESTORS GENERALLY,

Who by this time must be convinced that the value of real estate in New York City has reached its maximum, and that for some years to come there can be no further rise in values on the island proper, are requested to turn their attention now to

Whitestone Property,

Where values are continually rising, and where a small or large investment can be doubled in less than two years.
Remember, that Whitestone will be one of the first places near the Sound to reap the advantages that will follow the completion of the

HELL GATE IMPROVEMENT,

Which will ultimately revolutionize the shores of Long Island.
