TRANSFER GRAINING.

THE ONLY COMPLETE PROCESS OF GRAINING EVER INVENTED.

Its practicability and utility are fully established by the 350 Licenses and Machines in use.

It copies exactly **ALL NATURAL WOODS**; also, ASSUMED DESIGNS ETCHED OR ENGRAVED ON WOOD, GLASS, OR METALS.

The process is so simple and complete that Panels of all sizes and shapes can be grained, so that unskilled labor can be employed. The American Institute awarded us the HIGHEST PREMIUMS for it in 1872 and 1873.

For Circulars, Samples, and References, apply to

CROSS & BASTINE, 132 West Broadway, N. Y

Caution.—All persons buying a Graining Machine in which a smooth elastic surface is used, are hereby notified that we are the inventors and owners of Letters Patent pertaining to and fully covering this process. We shall hold all parties responsible by suit who purchase of one John Johnston, offering for sale a smooth elastic surface for transferring configurations or graining, or any one unauthorized by us. Suits have been commenced against Edward W. Baxter & Co. and others for infringing. We shall prosecute all parties found using or vending, to the full extent of the law. SOAPSTONE WASH TUBS.

A MUCH AND LONG NEEDED IMPROVEMENT.

None More Simple & None so Durable.

We are now manufacturing in this city to order, Wash Tubs and Sinks of the celebrated Francetown Soapstone.

Of the annoyance, costly repairs, and filthiness of our present wash tubs the public need not be told—experience has taught them. The superiority of them over wood is, they do not absorb the wash water and slops, consequently preventing that *disagreeable odor* in the house. They are easily kept sweet, clean, and dry. *They are not affected by hot or cold water. Never crack or leak.*

Cheaper than Wood, and will last a Lifetime.

They only need to be seen to be appreciated. All interested we invite to call and examine them at our warerooms.

PIPE CUTTING & THREADING
MACHINE.

This important tool is designed to fill a want long felt by STEAM AND GAS FITTERS and MACHINISTS for cutting and threading pipes rapidly and cheaply. An apprentice boy, with one of these, can do more work than two men with old appliances, under the old system. NO PIPE SPLITTING! NO BEVEL INSIDE OR OUT! It cuts threads and makes nipples for all sizes of pipes, from ⅛ to 2 inches. Weighs only 100 lbs. Stronger than any machine made. A set of collars and lengths for making nipples goes with the machine. Address THE CHASE MANUFACTURING COMPANY,

Magrath's Copper Sash-Chain.

Patented 21st March, 1871.

Is adapted to ordinary round pulley, and strong enough to suspend weights of any size required.

Being intended as a substitute for sash-cord, it can be put into sashes now provided with cord without any change of pulleys. The inventor feels confident that experience will prove his chain to be both economical and durable, besides doing away with the constant annoyance and expense attending the use of sash-cord.

263 Broadway, New York.

[*From the official proceedings of the Board of Assistant Aldermen, Oct.* 12, 1874.]
The Special Committee appointed by this Board in relation to the use of vault covers on the sidewalks throughout the city, beg leave to report that the committee have taken pains to examine the different vault covers at present being put down on the sidewalks, and find that the "Sharts' Patent Concrete Covers," on sale at 263 Broadway, appear to answer the requirements of the ordinance completely, without any of the objectionable features of the iron covers. We have examined some of them that have been in use on our principal thoroughfares during the last two years, showing little or no perceptible wear, and we would recommend them to our citizens in preference to any others we have yet seen.

WATER GRANTS.

More than 150 LOTS on these Heights have been sold since the panic. The remainder, comprising some of the choicest, is now offered in small plots at private sale by the owners at very LOW PRICES and on very EASY TERMS.

The Highbridge boats stop at the foot of the property, and the Hudson River Railroad trains at Morris' dock. Time from Forty-second Street 22 MINUTES.

These large sales (amounting to upwards of $75,000) made at a time of real estate depression like the present, prove the attractions of this new locality and its REAL CHEAPNESS as well as SPECULATIVE and PRESENT value.

Parties to visit the ground will leave the office, 34 Pine Street, at 2 P. M. on Tuesdays, Thursdays, and Saturdays.

THE BEAUTY OF THE VIEWS will alone repay a visit. Maps, &c., can be had at the office of G. A. SACCHI or E. G. BURLING, 34 Pine Street, rooms 11, 12, and 13.

MORTGAGES.

REAL ESTATE.

NEW YORK.

NOTE.—The arrangement of this list is as follows: The first name is that of the mortgagor, the next that of the mortgagee. The description of the property then follows, then the date of the mortgage, the time for which it was given, and the amount. The general dates used as headings are the dates when the mortgage was handed into the Register's office to be recorded.

Wherever the letters "P. M." occur, preceded by the name of a street in these lists of mortgages, they mean that it is a Purchase Money Mortgage, and for fuller particulars see the list of transfers under the corresponding date.

MISCELLANEOUS.

REVIEW OF THE REAL ESTATE MARKET.

Real estate fared badly during the week, and the market is again depressed and unsettled. The sale of the Ferris property, located on Eighth Avenue, and Sixty-ninth Street, was discontinued after a few lots had been sold forty per cent. lower than previous prices, and at a later day the feeling was intensified by the offering of a large number of Brooklyn Prospect Park lots, and the knock-down of one of them at about half its former valuation, no bidders being found for the remaining parcels. Other public sales occurred throughout the week, those in foreclosure generally following the usual course, while the remainder shared the fate of the leading offerings.

Results demonstrated, as we have claimed, that the market cannot carry much weight and sustain itself, and that public sales of unimproved property of the class known as fancy lots should not be attempted, except under peremptory circumstances, which would preclude withdrawal. The Ferris property was presented several years ago, and withdrawn, and the same course has been again pursued. The Nelson property, in Brooklyn has twice, during the present season, been put up for competition, and then withheld. If owners were not determined to sell, regardless of sacrifice, they erred in offering, and it would have been far better for them, and for the market, had they sold upon the first occasion. In comparing the prices heretofore paid for property of relative location to the Ferris estate, we find that lots on Seventieth Street, in the same block, sold last spring for $9,000; on Sixty-eighth Street, for $10,000; and on Seventy-first Street, for $8,000 per lot, the average price per lot being $9,420. None of these lots were less then one hundred and twenty-five feet distant from the Eighth Avenue. At the late sale, eight lots on Sixty-ninth Street brought from $5,000 to $7,050 per lot, averaging $5,822 each; while, on the same day, two lots, located on Sixty-seventh Street, three hundred feet westerly from the Eighth Avenue, sold in foreclosure for $5,750 and $5,650, respectively, bringing, under an enforced sale, better prices, location considered, than were secured at the same time, and in the same room, for competing property. These prices, taken in connection with those secured at sales occurring earlier in the year, it is claimed, do not indicate any greater depreciation, but we think we could reasonably expect greater steadiness. The falling off in the price of lots, as successively sold, was disproportionate, and showed a weak and uncertain feeling, unfavorable to the market. There are various ways of accounting for this, but we believe that it lay principally in the fact that the sale was not peremptory and independent of any sacrifice. Had it been otherwise, it might have compelled competition, and better prices. The market is in no mood for experiments, and, if trials are to be made, it is better that a general breaking up should follow, so that reaction and economy may sooner set in. These influences affect suburban property with results that will probably be more enduring, and of benefit to city realty. The Brooklyn market is in an unhappy state, and its accumulation of woes seems likely to surpass that of New York. Private transactions seem to have suspended, and we are without any reports for the week.

Some real estate operators who are carrying large lines of property intend to hold, and will not yield further than the natural concessions of the market, and we approve of their determination. There are, however, some property owners who are weak, and, while we do not advise, we think they should take reasonable care that they do not incur entire loss in holding to that which they may eventually be compelled to sacrifice.

MARKETS.

The same feeling and movement that has been noted in former reports still pervades the markets, and there is hardly enough stirring to occasion remark. Bricks are the leading feature, their upward tendencies meeting with some resistance, which has secured a slight holding ground in view of numerous arrivals. In consequence of some misapprehensions occurring as to our quotations, we include in many of our reports for this week retail or yard prices. It should be understood, however, that in general our quotations are for wholesale or cargo lots, from which consumers are better able to judge and qualify prices, conceding a proper margin for cost of handling and profit, which vary according to circumstances of location and the specific character of trade. It is impossible to make a quotation which shall meet every demand, and we trust this explanation will be satisfactory to all who stand in need of it.

Our report in detail is herewith appended:

BRICK.—The supply of hard was regulated to the requirements of the market, and arrivals were limited until Tuesday, when a number of vessels, which had been detained by fogs and adverse tides, came down the river together. The fleet was large, and it is probable that the advanced prices of last week had their effect in hastening shipments. On Wednesday morning from two to three millions of brick were in the market, with buyers holding off in anticipation of weaker prices, while consignees refused to make the concessions demanded. Under such conditions the market became inactive to a certain extent. Sales were made, however, at prices ruling earlier in the week, and which in some instances were an advance upon our last quotation. The arrivals of hard brick for the week amount to about 6,000,000, and notwithstanding this limited supply, manufacturers find that they must withhold shipments in order to sustain the market. Manufacture has been largely curtailed, the product at Haverstraw being one hundred millions short of last year's supply, and about half of the regular capacity of the yards. The Up-river yards are also very much short, and it is claimed that the Newbugh market will take a large portion of their make. With this contraction in manufacture, and the restrictions that are likely to be put upon the market by withholding goods and wintering over at the kilns, there may be short supply. Should building be resumed with any accession of vigor in the spring, the effect upon prices, in such case, can be readily estimated. Building prospects for the coming season are, however, not so fair that we can assume, so far in advance, that there will be an extraordinary call, although we believe that there is good reason to expect more activity and consequent life in the brick market. We quote Up-rivers firm at 50c.@$1 higher than last week, while Haverstraw Bays are advanced only on the lower grades, our former quotation covering the highest range of the market. There are certain grades of brick which are worth $9.50 per M., if ordered for this market, but at present the market will not take them, and none are forwarded. Jerseys are held at a slight advance, and cargoes arrive only as ordered. Fronts are steady and unchanged. We quote for cargoes as follows: Pale, per M, $2.75@3.00; Jersey, $5.50@5.75; Up river, $7@7.50; Haverstraw Bay, $7.50@8.50; Fronts, Croton—brown, $12; dark, $13; red, $14; Philadelphia, $28@32; Baltimore, $50@58.

CEMENT.—We quote Rosendale at $1.10 per bbl. on cargo, and half cargo lots sold for city trade, the latest report we have received being of 500 bbls. at that price. From dealers' hands quotations are $1.25@1.35. Better prices obtain for export orders, and we quote the range at $1.10@1.35. Portland is selling in limited quantities (200 bbls. reported) at $4.35, ex vessel. Other foreign dull at our quotation.

FIRE BRICK.—American and red Welsh are nominally steady at former quotations. We note sales of 10,000 Scotch at $45, ex vessel.

GLASS.—French window has advanced, discounts now being 60 and 5 per cent. The demand is not large, but limited stocks and favorable foreign advices aid in sustaining prices. English sheet and polished plate are steady and in moderate request at former quotations.

HAIR.—Trade is very light, and we hear only of small sales at prices not down to, but nearly approaching our lowest quotations. The best material, however, would bring the best prices, and we continue our quotation, as to quality, as follows: Cattle hair, 12@25 per bushel; goat, 14@28 cents per bushel.

HARDWARE.—There is a moderate demand, insufficient, however, to excite any apprehensions of activity, and no disturbed feeling of trade is likely therefore to occur. Prices are generally steady, and no change in prices are reported.

LATH—Are quiet at $1.50 for cargo lots, and $1.75 from yard.

LIME.—The market is steady, as previously reported. Rockland, not having recovered from the decline, is still held at $1 for common, and $1.50 for finishing. State is still restricted as to arrivals, and holds its quotation of 90c.@$1 for common, and $1.25 for finishing. Yard prices 15@25 cents per bbl. higher.

LUMBER.—The yards keep up a semblance of trade,

varied by the falling off in business, usually incident to the closing days of the month. White pine continues in ordinary request, which, while following the natural requirements of the season, is of course restricted by the limits imposed upon trade of every description. Sales for export do not occur, and the foreign trade, for the present, is practically at an end. Yellow pine is dull, and is nominally steady at former quotations. Spruce is quoted up to $16, but the range is much lower, and few cargoes are placed at the best figures. Hardwoods are quiet.

Michigan and Wisconsin Notes.

From the *Lumberman's Gazette* (Bay City, Mich.), Oct. 24:—

There has been within the past week a better and a more hopeful feeling in the market, which may be the next best thing to an actual improvement. Some recent sales to Chicago parties, and lesser ones for the East, have tended to relieve the dullness with at least a promise of a break. The fact that the stock handled in Chicago this year will be very largely short of the usual amount has stimulated the west shore lumbermen to renewed activity in the woods, and they are preparing for a larger cut than ever before on the Muskegon. The same influence extends to the upper lake Huron shore, and in the Alpena region a good stock of logs will be got out. Though the Chicago market does not so directly affect this market, such facts as that above noted have an effect here, though it has not been manifested in the same way as at the other points named.

What was thought at the time a very significant fact, regarding the extent of projected lumbering on the shore has proved to be of little or no value in that respect. It was reported that the shore-boats were carrying very heavy loads of freight, indicating extensive preparations for lumbering the coming winter. But however good the freight showing may have been two weeks or so ago, it is quite certain that there is an end of it now. The very boat which was stated to be making better paying trips than ever before, has been hauled off the line altogether, and those remaining are complaining of the lack of business.

With regard to the Saginaw region proper, we still hold to the opinion that, although operations will be restricted, both by uncontrollable circumstances and by the disinclination of lumbermen to take the risk when the chances are so plainly against them, there will still be a stock next year amply sufficient for all probable demands. Men have been started into the woods quite freely of late, though the movements still falls very far short of that of a prosperous season. Wages are at a liberal figure for the times, and there is a disposition to take care of good men as far as possible.

The movement of lumber of course continues slow. Freights do not respond in rate to the influences which usually send them up, as the increased hazards of the fall months come on. We hear of charters from Saginaw to Chicago at $2.25 and $2.50, which may be considered as low as heretofore, when the lateness of the season is taken into account. To Buffalo the rate continues equally low.

Prices of lumber remain unchanged at former quotations. Some large sales lately reported were given, without terms, but these are understood to have been the usual ones, $5.50, $11, and $33.

A liberal estimate of the logs on all the streams whose product comes to the Saginaw River mills, makes the aggregate not far from 200,000,000 feet. This includes all logs left back, as well as those in booms, and the amount will of course be materially reduced by the time the last mill shuts down. The lumber on the river docks will foot about the same figure, and this will be reduced by shipments in nearly the same ratio as the logs. These calculations are of course made upon the supposition that the season has no unusual ending. To supply the Chicago shortage, more than a demand for it, would very nearly clear this region of all logs and lumber likely to be left on hand when navigation closes.

In shingles, lath, oak timber, and staves, there is absolutely nothing to report.

Eastern Notes.

From the Boston *Lumber Trade*, Oct. 26:—

During the week just past the trade has been duller than for the fortnight preceding. With the opening of the month there was an air of briskness which caused many to hope that better times were soon to be our lot. But the occasion is past, and the trade has relapsed into dullness. The demand is very light, and dealers experience difficulty in placing cargoes. Stocks in city yards are large. Arrivals are limited, both Eastern and Southern. One or two houses report a number of lumber-laden vessels on the way hither, whose arrival has been delayed by adverse winds, but the dearth of arrivals we ascribe to the unwillingness of shippers to continue their money-losing method of doing business. It is to be hoped that this question, fraught as it is with the very life of the trade, will be seen in its true light. We think the tendency on Southern pine is toward the brighter side. A dealer estimates the stock in Boston at 15,000,000 feet, with a slight demand. Shippers at the South, however, are looking at this question rightly, and following the advice of reliable dealers at the North, who advise holding back the lumber. Prices in this, as in all other stock, are simply ruinous. We quote for random cargoes, $25; ordered lots, $28 to $30; ship stock, ordered, $30 to $34. There can be nothing encouraging in this view of the case, but we think that shippers of yellow pine are disposed to do their share in removing the difficulty. They will, we believe, hold their stock until the market is relieved, and they can not make money any faster than to do this. We are glad to see this disposition on the part of the Southern trade. We wish the Boston market could look elsewhere and see a like feeling and similar action. From the East lumber has been forced upon the market here and slaughtered, cargo after cargo. From the West it has come here, and the storage yards still hold it, while it depreciates every day. In spite of all this, still it comes. The last week has been an exception as far as vessel arrivals are concerned.

Usually at this season, and a little earlier, the country dealers are putting in their winter stock, and trade here is very good, but now it is very evident that stocks will be kept down to the lowest possible point, and dealers will trust to luck for the filling of orders during the winter. Caution is the watchword, and the season offers no hopes for revived trade.

METALS.—COPPER.—Manufactured is firm at former quotations. Ingot is in fair demand at strong prices. Sales of Lake at 22⅜@22½ cents, holders now asking 22½@22¾ cents.

IRON.—Sales are light, and adapted to the immediate requirements of purchasers. Scotch pig is light in stock, with a retail demand. American pig is dull, with downward tendencies. Rails are without movement for old. Recent sales of American comprise 4,000 tons on p. t. Scrap is dull and nominal, and manufactured from store is unchanged in price, with limited business. The following new list has been issued for "Burden's Best": Ordinary sizes, round and square, ¾ to 2-inch and flats 1¼ by ¾ to 4½ by 1, $100@—; extra sizes, round and square, ¾ inch to 2⅜ to 2¾, $130@105; round and square, 2¾ to 3, to 3¾ to 4, $110@120; extra sizes, 9 1-16 by 9-32 to 1¼ to 4½ by ¼ and 5-16, $130@105; 5 to 6 by ¼ and 5-16, —@100; 1 and 1⅛ by ⅜ to 1, to 7 by ¼ and 5-16, $105@115; 7 by ⅜ to 1, to 8¼ by 1⅛ to 1½, $110@125; Horseshoe, ¾ by ⅜ to 1¼ by ⅝, $—@100.

LEAD.—Pig is held at $6.75@6.80 for foreign, and $6.25@6.35 for domestic, all gold. Bar, pipe, and sheet are steady at 8¼ cents, and tin-lined pipe 16½ cents—less 10 per cent. to the trade.

TIN.—Pig is neglected; refined English is held at 21¾ @21¼ cents, banca 25, and small sales of L. and F. and straits have been made at 21 cents, all gold. Plates are dull, with easier tendencies.

ZINC.—Sheet is selling from store at 9 cents, net gold.

NAILS.—Cut are steady at former prices. We quote: 10d. to 60d. common fence and sheathing, ℔ keg, $3.60@3.75; 8d. and 9d. common do ℔ keg, $4; 6d. and 7d. common, ℔ keg, $4.25; 4d. and 5d. common do ℔ keg, $4.50; 3d. and 4d. light, ℔ keg, $5.25; 3d. fine, ℔ keg, $6; 2d. ℔ keg, $6.75. Cut Spikes, all sizes, $4. Floor, Casing, and Box, 75 cents above the same sizes of Common—Finishing, $1 above, and Fine Finishing $1.25 above.

CLINCH NAILS.

1¾ to 1½ in	2 & 2¼ in.	2½ & 2¾ in.	3 in. and longer.
$6.25@6.50.	$6.00.	$5.75	$5.50 ℔ keg.

OILS.—Linseed is weaker, and with a limited amount of business doing, is selling at 75@76 cents for casks from crushers' hands.

PAINTS.—The market is not very active, but a moderate trade is doing and prices are generally steady and firm. There have been arrivals of Cookson's Venetian red, with sales at 2¼ cents. White lead is in small supply and firm. Sales have been made of English B. B. ground (to arrive) at 10½ cents, gold. Vermilions continue firm. English Paris white is in demand at higher prices.

PITCH—The market is quiet at $2.50 per bbl. for City, f. o. b.

SPIRITS TURPENTINE.—The market has been weaker, selling down to 35½ cents, but closing steadier at 36 cents per gallon.

TAR—Is dull and quiet. Held nominally at $2.30@2.40 per bbl. for Newbern and Washington, and $2.40@2.50 per bbl. for Wilmington.

ALBANY LUMBER MARKET.

[FROM THE ALBANY ARGUS, OCT. 28, 1874.]

Contrary to our expectations the lumber market runs slow. We had anticipated, with the near approach of the close of river navigation, a more active trade. Still there is ample time after the State election, with favorable weather, for a large business. The canals show a large decrease in the receipts of the week; the receipts are fairly divided between the two canals. Stocks are ample and well assorted. Prices remain unchanged.

Business in the Ottawa country has again relapsed into the dullness that ruled there early in September.

At Chicago the stock of lumber is much smaller than was generally supposed, with little prospect of bringing it up to the ordinary winter supply.

At Chicago, the reported receipts of lumber, by lake, to the 20th of Oct., were 899,459,009 feet, against 960,503,000 feet the year previous; the shipments from Jan. 1st, are 489,471,000 feet against 476,018,000 feet the previous year.

Canal freights from Buffalo to Albany are: $4.00 per M feet for pine, and $5.00 for hardwood; from Oswego, $2.75.

The receipts at Albany by the Erie and Champlain canals during the third week of October were:

	Bds. & Sc'tl'g ft.	Shingles, M.	Tim'r c. ft.	Staves bs.
1873..	22,828,000	278	....	....
1874..	13,704,300	992	....	....

Of the boards and scantling received, 9,292,000 feet were by the Erie, and 4,412,300 feet by the Champlain canal.

The receipts at Albany by the Erie and Champlain canals from the opening of navigation to October 23d, were:—

	Bds. & Sc'tl'g ft.	Shingles, M.	Tim'r, c. ft.	Staves, bs.
1873..	308,356,800	11,035	....	4,029,800

A GOOD INVESTMENT

EVERY PRUDENT MAN, CAREFUL OF THE health and comfort of his family, should see to it that his drinking water is conveyed through TIN-LINED LEAD PIPE, which is a perfect safeguard against lead poison. Tin-lined Lead Pipe is strong, durable, flexible, and easy soldered. It is a great benefit to the community, and enhances the real value of every house in which it is introduced. It is cheaper than Lead Pipe, when strength and durability are considered. Sold by the COLWELL LEAD CO., 213 Centre St., New York. Price, 16½ cts. a pound for all sizes. Descriptive pamphlets sent by mail free. Also, manufacturers of Lead Pipe, Sheet Lead, Block Tin Pipe, Bar Tin, Pig Tin, Bar Lead, Pig Lead, Solder, &c. Orders filled at sight.

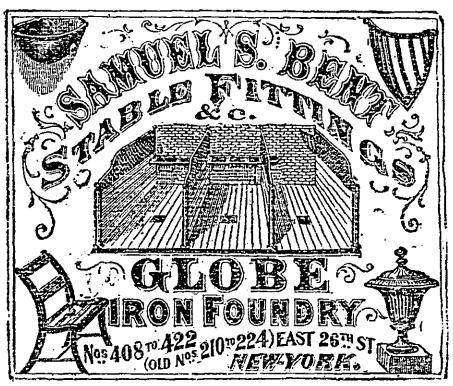
TRANSFER GRAINING.

THE ONLY COMPLETE PROCESS OF GRAINING EVER INVENTED.

Its practicability and utility are fully established by the 350 Licenses and Machines in use.

It copies exactly **ALL NATURAL WOODS**; also, ASSUMED DESIGNS ETCHED OR ENGRAVED ON WOOD, GLASS, OR METALS.



The process is so simple and complete that Panels of all sizes and shapes can be grained, so that unskilled labor can be employed. The American Institute awarded us the HIGHEST PREMIUMS for it in 1872 and 1873.

For Circulars, Samples, and References, apply to

CROSS & BASTINE, 132 West Broadway, N. Y

Caution.—All persons buying a Graining Machine in which a smooth elastic surface is used, are hereby notified that we are the inventors and owners of Letters Patent pertaining to and fully covering this process. We shall hold all parties responsible by suit who purchase of one John Johnston, offering for sale a smooth elastic surface for transferring configurations or graining, or any one unauthorized by us. Suits have been commenced against Edward W. Baxter & Co. and others for infringing. We shall prosecute all parties found using or vending, to the full extent of the law. SOAPSTONE WASH TUBS.

A MUCH AND LONG NEEDED IMPROVEMENT.

None More Simple & None so Durable.

We are now manufacturing in this city to order, Wash Tubs and Sinks of the celebrated Francetown Soapstone.

Of the annoyance, costly repairs, and filthiness of our present wash tubs the public need not be told—experience has taught them. The superiority of them over wood is, they do not absorb the wash water and slops, consequently preventing that *disagreeable odor* in the house. They are easily kept sweet, clean, and dry. *They are not affected by hot or cold water. Never crack or leak.*

Cheaper than Wood, and will last a Lifetime.

They only need to be seen to be appreciated. All interested we invite to call and examine them at our warerooms.

CHASE'S
PIPE CUTTING & THREADING
MACHINE.

This important tool is designed to fill a want long felt by STEAM AND GAS FITTERS and MACHINISTS for cutting and threading pipes rapidly and cheaply. An apprentice boy, with one of these, can do more work than two men with old appliances, under the old system. NO PIPE SPLITTING! NO BEVEL INSIDE OR OUT! It cuts threads and makes nipples for all sizes of pipes, from ⅛ to 2 inches. Weighs only 100 lbs. Stronger than any machine made. A set of collars and lengths for making nipples goes with the machine. Address THE CHASE MANUFACTURING COMPANY,

Magrath's Copper Sash-Chain.

Patented 21st March, 1871.

Is adapted to ordinary round pulley, and strong enough to suspend weights of any size required.

Being intended as a substitute for sash-cord, it can be put into sashes now provided with cord without any change of pulleys. The inventor feels confident that experience will prove his chain to be both economical and durable, besides doing away with the constant annoyance and expense attending the use of sash-cord.

263 Broadway, New York.

[*From the official proceedings of the Board of Assistant Aldermen, Oct.* 12, 1874.]
The Special Committee appointed by this Board in relation to the use of vault covers on the sidewalks throughout the city, beg leave to report that the committee have taken pains to examine the different vault covers at present being put down on the sidewalks, and find that the "Sharts' Patent Concrete Covers," on sale at 263 Broadway, appear to answer the requirements of the ordinance completely, without any of the objectionable features of the iron covers. We have examined some of them that have been in use on our principal thoroughfares during the last two years, showing little or no perceptible wear, and we would recommend them to our citizens in preference to any others we have yet seen.

MORTGAGES.

REAL ESTATE.

NEW YORK.

NOTE.—The arrangement of this list is as follows: The first name is that of the mortgagor, the next that of the mortgagee. The description of the property then follows, then the date of the mortgage, the time for which it was given, and the amount. The general dates used as headings are the dates when the mortgage was handed into the Register's office to be recorded.

Wherever the letters "P. M." occur, preceded by the name of a street in these lists of mortgages, they mean that it is a Purchase Money Mortgage, and for fuller particulars see the list of transfers under the corresponding date.

Fifthly—The period at which the said partnership is to commence is the sixth day of November, One Thousand Eight Hundred and Seventy-four, and the period at which it will terminate is with the thirty-first day of December, One Thousand Eight Hundred and Seventy-seven.

In witness whereof we have hereunto set our hands and seals, this sixth day November, A. D., 1874.

MARVIN N. ROGERS,
CHARLES B. PEET,
FRANK R. CHAMBERS,
JOHN T. MARTIN,
W. R. H. MARTIN.

In presence of David J. H. Wilcox.

MISCELLANEOUS.

REVIEW OF THE REAL ESTATE MARKET.

The market has been very quiet, much of its routine deferring to the election, the excitement of which has detracted largely from business of every kind. Public sales have been few, and too unimportant to convey any suggestion, as the most important offerings were withheld for future occasion. We have gathered particulars of the sale of lots located at the northeasterly corner of Fifth Avenue and Fifty-eighth Street, noted by us two weeks ago, and are enabled to say that they were bought by Robert Livingston, for $240,000; the price of the corner lot being laid at $85,000, of each of the two lots adjoining, upon the avenue, at $60,000, and of the lot in the rear, on Fifty-eighth Street, at $35,000. We are informed that the purchaser intends to erect two large and elegant dwellings upon the property. The sale of an entire front on Tenth Avenue, between Forty-eighth and Forty-ninth streets, for $10,800 per lot, has been reported; and a front on Tenth Avenue, between Fifty-sixth and Fifty-seventh streets, has also been sold, on terms not yet made public.

Six lots, located at the southeasterly corner of Fourth Avenue and Sixty-fourth Street (four on the avenue and two upon the street) have been sold for $90,000, with a building loan, and are to be improved at once.

The improvements now going on at Sixty-fourth Street, where Mr. Vanderbilt will erect large grain elevators, has produced an appreciable effect upon property in the vicinity, and it is expected that other improvements will be excited, and an impetus given to building in that neighborhood. There are other suggestions connected with this work which, in their bearing upon the prosperity of our city, we shall treat of upon another occasion.

The events that disturbed the market a week ago seem to continue their effect upon the classes of property immediately interested, and it may be assumed that their prices, for the present, at least, have been established upon the reduced scale. In general, there is little doing, and the market, while possessing much innate weakness, can hardly be expected to develop much movement as long as owners are not compelled to defer to such a feeling.

We regret to announce the death of Wm. H. Raynor, who has been long and prominently identified with the real estate interests of the city. Resolutions, reflecting the feelings of those who knew him intimately, have already been made public, through the daily papers. As an authority Mr. Raynor was one of the foremost, and he has been especially known as a leader in movements which have tended to the advancement and improvement of the city.

LOCAL ITEMS.

The Department of Public Charities and Corrections ask for proposals for flour.

The Counsel to the Corporation notifies that application to the Supreme Court, at a Special Term, to be held on the 25th inst., for the appointment of Commissioners of Estimate and Assessment for opening a street, distant 2,644 32-100 feet northerly from the southerly line of One Hundred and Fifty-fifth Street at Tenth Avenue, and running from the Road, or Public Drive, east of Tenth Avenue to the Boulevard, near the Hudson River; also a street, sixty feet wide, and curved, starting at a point on the southerly line of the above mentioned street, distant 1,844 83-100 feet westerly from the easterly line of Tenth Avenue, and running thence southerly and westerly across the Boulevard to a line one hundred feet easterly from and parallel to the bulkhead line, as established by the Commissioners of the Central Park, under chap. 697 of the Laws of 1867; and, also, that portion of Tenth Avenue lying between a line running parallel with the southerly line of One Hundred and Fifty-fifth Street, and distant 10,293 6-12 feet northerly therefrom; and a line also running parallel with the southerly line of One Hundred and Fifty-fifth Street, and distant 10,353 6-12 feet therefrom, as said streets are laid out and established by the Commissioners of the Central Park, under chap. 565 of the Laws of 1865, and chap. 697 of the Laws of 1867.

The Commissioners for the erection of a Court House, in the Third Judicial District, on Sixth Avenue, Greenwich Avenue, and West Tenth Street, re-advertise for proposals for iron work.

The Department of Public Parks asks for proposals for reparing the Battery Sea Wall.

The School Trustees of the Twelfth Ward ask for proposals for additions and alterations to be made to School House corner Third Avenue and One Hundred and Fifth Street, and for desks and seats for use therein.

The School Trustees of the Nineteenth Ward ask for proposals for fitting up buildings on First Avenue, near Fifty-third Street, for a new Primary School, and, also, for seats and desks to be used therein.

MARKETS.

With all the dullness of trade there is an abundance of money, which, while restricted in action by the narrowing down of the limits of legitimate investment and of fair speculative enterprises, is knocking around to find an outlet, and only needs a reasonable assurance of safety for its diffusion. This opportunity, however, can not be expected to occur until business regains activity. The lateness of the season forbids much favorable change in the condition of trade before spring, but we fancy that we can discover indications of livelier times than we now experience, and reasonable hope for improving business. In many recent purchases of real estate, improvements are projected which will reflect favorably upon our markets, and while it must be understood and can not be expected that building enterprises will become as numerous and prominent as within the last ten years, there will probably be enough to employ those who can fulfil all the necessary conditions of capital, responsibility and integrity, and skilful workmanship. Many who are weak must go to the wall, or be content to accept the profits of daily labor, while the incompetent and untrustworthy must be eliminated from the ranks of business men.

The markets for the past week have been under the influence of the political atmosphere, and the excitement incident to election and a partial suspension of business have restricted the movement of material. Prices will be found weaker in some particulars, and in general the markets are of the variable character which has distinguished them throughout the year.

We append our report in detail:

BRICK.—The market has been dull, the full cargoes of the previous week, notwithstanding subsequently limited arrivals, sufficing under the partial suspension of trade to meet the demand, and prices are in consequence somewhat off. Since our last report, about three millions of hard brick have come down the river, and have been nearly all worked off at lower figures, bringing quotations down about 50 cents per M. Pale brick are in some demand at $8. Up-rivers are nearly steady, although we quote them lower. Haverstraw Bays have been selling as low as $7 per M, while Jerseys are firm as previously quoted. Fronts are steady at old prices. Our cargo quotations are as follows: Pale, per M, $2.75@3.00; Jersey, $5.50@5.75; Up river, $6.50@7.50; Haverstraw Bay, $7@8.50; Fronts, Croton—brown, $12; dark, $13; red, $14; Philadelphia, $28@32; Baltimore, $50@58, cost of delivery to be added.

CEMENT.—Rosendale is quoted variously, and the best brands are held at $1.20@1.30, the average price being $1.25. Inferior grades can be had at our lowest quotation of $1.10, while for some lots of indifferent character $1 per bbl. has been paid. We have sales of 3,000 bbls. reported at $1.30, and manufacturers claim to have no difficulty in disposing of all that comes into market. Yard prices may be quoted at $1.25@1.40. Portland has been selling in a small way at $4@4.50, ex vessel, and $4.50@5 from store. Other foreign is dull, but quotations are retained.

FIRE BRICK.—The market is quiet and nominally steady at old quotations.

GLASS.—French window is in better request, and is firm at 60 and 5 per cent. discount. A demand has arisen for English sheet, which is selling at 40 and 5 to 50 and 5 per cent., and for polished plate at 15 and 2 per cent. discount.

HAIR.—Whatever trade has occurred has been of a light jobbing character, at variable prices. Sales are not reported, and we quote generally for large lots, quality considered: Cattle, 12@25 cents; and goat 14@28 cents per bushel.

HARDWARE.—There is a moderate amount of trade going, with no anticipation of early improvement. Prices, however, remain generally steady. Copper rivets, although in light demand, are firm at 35 per cent. discount. Chapin's planes are quoted at 20, 10 and 10 per cent. discount; Challege auger bits are reduced to 40 and 10 per cent. discount; and Straps and T. hinges are quoted 36@40 per cent. off.

LATH—Recent quotations are sustained, and without extended report we quote them at $1.60 per M by the cargo, and $1.75 from yard.

LIME.—State manufacture is nominally quoted at old rates, which we feel assured are not invariable, some of the companies shading prices to meet a particular demand, or the views of regular customers. The market is by no means strong, although the supply is kept within bounds, and will very shortly resolve itself into the quantity considered necessary to keep in store for winter requirements. Sales have been made as low as 80 cents, and in order to fully cover the range of the market, we quote State common at 80c.@$1; finishing, $1.25. Rockland is held firmly at $1@1.50 from agents' hands. Yard prices are 15@25 cents per bbl. higher.

LUMBER.—We can not discern any change in the general character of the market, except, perhaps, that dullness has intensified in certain particulars, as noted below. Receipts of Western pine continue in very ordinary quantities, and it does not seem that stocks are replenishing to a large extent. Export orders for pine are scarce, and of late we have not been called upon to note a shipment. Yellow pine is dull, without any material change to note. Random cargoes are quoted at $20@24 as to lengths and sizes, and ordered cargoes at $23.50@30, according to sizes and quality. Green flooring, 1¼ inch, is dull at $25; and dry, gang-sawn, at $27@28. Sidings are hard to sell, first-class quoting dull at $23. For hewn timber there are no reports, limited building operations keeping the mills well supplied, while for dock purposes the season is virtually at an end. Eastern spruce is hard to place at $13.50@16 for random, and $16@19 for ordered schedules. Hardwoods are without business, and nominal in price. The yards maintain a limited amount of trade, and quotations are unchanged, except as customers require.

We have received the following communication, which is important in its bearing upon the market for the next season—

To the Lumber Manufacturers of the United States:

At the first annual meeting of the National Association of Lumbermen, held at East Saginaw, Michigan, in September last, resolutions were introduced with a view to testing the sense of lumber manufacturers of the United States on limiting the amount of stock to be prepared for market for the season of 1875. A considerable number of prominent manufacturers in Minnesota, Wisconsin, Michigan, and Pennsylvania, as well as some in the British-America provinces, had indicated a disposition to curtail operations, and it was thought possible that, as a prudential movement, this policy might be so favorably received as that it would be generally adopted. The wisdom of this procedure seemed to be apparent to all candid men, and without dissent the members of the Association evinced a disposition to limit their operations for the ensuing year to such percentage of the usual stock as appeared ample to supply the demand. The board of directors of the Association were accordingly instructed to ascertain as promptly as possible whether the lumber manufacturers of the country who were not present would generally assent to this policy, and in case they did so then the board should so announce publicly; but in case they did not so assent, then those who had signified that they would abide by the resolution to curtail would not be considered bound by any such obligation.

Since the meeting of the Association it has come to the knowledge of the Board of Directors that the lumber manufacturers of the country generally are not disposed to co-operate in the movement to curtail, though in many instances this disposition is not from choice but from supposed necessity or business policy. Therefore, in justice to all, the Board deem it their duty to state that according to the spirit of the resolutions adopted no one is thereby bound to curtail operations for the coming season. The Board are led to make this announcement for the reason that it appears there is an erroneous impression prevalent to the effect that certain individuals, associations, or sections of the country are acting according to the abstract resolutions that have been published from time to time and very generally during the past few weeks, whereas the facts gathered show that while not a few are acting on the principle that an overstock for the coming year is imminent, yet the great body of the lumber manufacturers are making arrangements for at least the usual large stock of lumber for the markets of the country in 1875.

In this connection the Board would take occasion to state that they are of the opinion that any curtailment of the lumber production now or hereafter must be the result of correct intelligence in respect to the liability and effect of an overstocked market rather than the result of simple resolutions; and as it is the prime object of the National Association to gather and disseminate such intelligence as well for the purpose of the end here considered as for all other benefits that may be derived, it is confidently hoped that the lumber business of the country will ere long be governed by such wisdom as will inure to the protection of the true interests of all engaged in it.

For the National Association of Lumbermen:

HENRY S. DOW, Secretary.

Dated October 26, 1874. Bay City, Mich.

General Western Notes.

From the Chicago *Inter-Ocean*, Nov. 3:—

The market during the past week has been rather quiet, although the offerings were about all disposed of without much trouble. The arrivals were moderate, while the attendance was only fair, neither the city nor country demand being urgent. Dealers do not look for any radical change in the condition of the market during the remainder of the season; at any rate there is but little prospect of any advance, and it is hardly probable that there will be any decline. After all that has been said and written regarding the means to be employed in reducing the supply next year, the lumbermen are prepared to cut as many logs as usual. The ruling price for joist and scantling was $9.50, no sales being reported above or below this figure. Strips and boards sold generally at $12@14, with $9.50@16 as the extreme range of quotations for common to choice cargoes. Lath steady at $1.75. Shingles quotable at $2.60@3 for common to choice "A" sawed. To-day the market was dull and easy. About fifteen cargoes were offered and about half a dozen sold. The elections, probably, interfere to some extent with business, preventing an attendance of country buyers, and dealers do not look for any activity until the middle of the week. Closing quiet at the above quotations. The sales reported were:

Cargo schr. Kate Lyons, from Muskegon, 200,000 strips and boards, the "common" from choice logs at $12.50; 4,000 pickets at $1.75.

Cargo schr. Howlett, from Manistee, 1,600,000 A sawed shingles at $2.80.

In the yards a fair shipping demand was reported. Some dealers are reported to be shading prices for common lumber, but the general quotation is $11@12.

Eastern Notes.

From the Boston *Lumber Trade*, Nov. 2:—

The trade pursues the even tenor of its way. No sales of importance have been made during the week which dealers think it worth while to report. The average amount passes through the Surveyor-General's office and a considerable portion of it is sold, but buyers are not putting in their customary stocks. Transactions are limited to necessities in most cases. Prices remain as quoted, and there seems to be no disposition to go lower. The arrivals by vessel of Southern and Eastern stock, as will be seen, are limited, the former particularly so. The winds have kept back numerous schooners from the East, which will probably arrive during the week to come. There are rumors of suspensions in one or two cases, but nothing is made public as yet. It is hoped by the trade that the parties may make some arrangement whereby that result may be averted. It would be very strange if the winter did not bring with it some failures, but at the same time we believe the trade generally is in a strong, healthy condition, and that it will go through all right. Trade is not expected to revive before spring. The present demand, while not large, is very fair and shows no signs of further weakening.

METALS.—COPPER.—Manufactured is steady at our quotations as follows: New Sheathing, 28 cents per lb.; Bolts and Braziers, 30; Nails, 37@38; Yellow Metal Sheathing and Nails, 21, and Bolts, 28 cents. Ingot is held at 22½@22¼ cents, with large sales for future delivery at 23 cents.

IRON.—Scotch pig is in small request, with sales conditioned the necessities of buyers. The limited stocks on hand, however, maintain prices quite steadily. American pig has a weaker feeling, as some of the manufacturers have exerted themselves to sell. The market is otherwise unaffected, the demand continuing light. There has been some business in rails, with reports of sales none of which are yet of a decided character. Scrap is quiet, with report of a recent delivery of 200 tons at New Haven at $30. Manufactured from store is steady as previously quoted with light business.

LEAD.—Pig is dull and without movement. Domestic is held at $6.25@6.35 and ordinary foreign at $6.80, all gold. Manufactured is steady at former rates.

TIN.—Pig remains inactive at nominally old prices. Plates are quiet with weaker tendencies.

ZINC.—Sheet is selling fairly, and is firm at 8¾@9 cents, gold.

NAILS.—Cut are unchanged and nominally steady at old prices. We quote: 10d. to 60d. common fence and sheathing, ₱ keg, $3.60@3.75; 8d. and 9d. common do ₱ keg, $4; 6d. and 7d. common, ₱ keg, $4.25; 4d. and 5d. common do ₱ keg, $4.50; 3d. and 4d. light, ₱ keg, $5.25; 3d. fine, ₱ keg, $6; 2d. ₱ keg, $6.75. Cut Spikes, all sizes, $4. Floor, Casing, and Box, 75 cents above the same sizes of Common—Finishing, $1 above, and Fine Finishing $1.25 above.

CLINCH NAILS.

1¾ to 1½ in	2 & 2¼ in.	2½ & 2¾ in.	3 in. and longer.
$6.25@6.50.	$6.00.	$5.75	$5.50 ₱ keg.

OILS.—Linseed has taken a favorable turn, and, recovering from its depression, has advanced. Crushers are now selling at 77@78 cents per gallon for casks and are firm in their view which, with the present good demand, are likely to grow stronger.

PAINTS.—There is a fair demand, and the market is well sustained and active, prices ruling firm. Venetian red continues scarce, with sales at 2½@2¾ cents, currency. English white lead is in great demand and prices are very strong. Vermilions are very firm; Ultramarine is selling at 30 cents, gold, for Curtius'; Whiting is dull at 65 cents for American; English Paris white is scarce, American do. being in fair supply, and China clay is selling at $23, currency.

PITCH—Is quiet, quoting at $2.50 per bbl. for city, f. o. b.

SPIRITS TURPENTINE—Have been rather quiet, selling at 35½@36 cents merchantable, with sales in lots at 37@38 cents cash. The market closed steady at 36 cents.

TAR—Has been very quiet with small sales of Washington at $2.50@2.60 in order in yard. We quote Newbern and Washington at $2.25@2.50 and Wilmington at $2.40@2.50 per bbl.

ALBANY LUMBER MARKET.

[FROM THE ALBANY EVENING JOURNAL, NOV. 3, 1874.]

The receipts of lumber are less than for the corresponding week of last year, and from the shipping points we hear that there is but little more to come forward.

There has been a slight advance in freights from Buffalo of 25 cents per M. feet, as many of the boats have loaded with apples, paying better freights.

The sales have been only few, and the usual activity at this season of the year is not shown in the transactions. This morning, however, there is a better attendance of buyers who have been engaged in the elections, and a large trade is anticipated for the remainder of the season. The retail yards are, as a rule, lightly stocked. There is a fine assortment of lumber in the market, and a pretty full stock, though not as large as is usual at this season.

The receipts by the Erie and Champlain canals during the fourth week of October were:

	Bds. & Sc'tlg ft.	Shingles, M.	Tim'r c. ft.	Staves lbs.
1873..	13,566,000	382	....	590,200
1874..	12,528,300	300	....	....

Of the boards and scantling received, 7,092,200 feet were by the Erie, and 5,435,000 feet by the Champlain canal.

The receipts by the Erie and Champlain canals from the opening of navigation to November 1st, in the years named, were:

	Bds. & Sc'tl'g ft.	Shingles, M.	Tim'r, c. ft.	Staves, lbs.
1873..	321,928,800	11,437	6	4,620,000
1874..	308,040,900	15,285	7,500	641,000

We quote River and Eastern freights as follows with an upward tendency: New York, ₱ M, $1@1.25; Bridgeport, $1.50@1.75; New Haven, $1.50@1.75; Providence, $2.25@2.50; Pawtucket, $2.75; Norwalk, $1.50; Hartford, $2.25; Middletown, $2.25; NewLondon, $2.25; Philadelphia, $2.50; Baltimore, $3.75; Richmond, Va., $3.25; Boston, softwood, $4; Boston, hardwood, $5.

A GOOD INVESTMENT
EVERY PRUDENT MAN, CAREFUL OF THE

health and comfort of his family, should see to it that his drinking water is conveyed through TIN-LINED LEAD PIPE, which is a perfect safeguard against lead poison. Tin-lined Lead Pipe is strong, durable, flexible, and easy soldered. It is a great benefit to the community, and enhances the real value of every house in which it is introduced. It is cheaper than Lead Pipe, when strength and durability are considered. Sold by the COLWELL LEAD CO., 213 Centre St., New York. Price, 16½ cts. a pound for all sizes. Descriptive pamphlets sent by mail free. Also, manufacturers of Lead Pipe, Sheet Lead, Block Tin Pipe, Bar Tin, Pig Tin, Bar Lead, Pig Lead, Solder, &c. Orders filled at sight.

TRANSFER GRAINING.

THE ONLY COMPLETE PROCESS OF GRAINING EVER INVENTED.

Its practicability and utility are fully established by the 350 Licenses and Machines in use.

It copies exactly **ALL NATURAL WOODS**; also, ASSUMED DESIGNS ETCHED OR ENGRAVED ON WOOD, GLASS, OR METALS.

The process is so simple and complete that Panels of all sizes and shapes can be grained, so that unskilled labor can be employed. The American Institute awarded us the HIGHEST PREMIUMS for it in 1872 and 1873.

For Circulars, Samples, and References, apply to

CROSS & BASTINE, 132 West Broadway, N. Y

Caution.—All persons buying a Graining Machine in which a smooth elastic surface is used, are hereby notified that we are the inventors and owners of Letters Patent pertaining to and fully covering this process. We shall hold all parties responsible by suit who purchase of one John Johnston, offering for sale a smooth elastic surface for transferring configurations or graining, or any one unauthorized by us. Suits have been commenced against Edward W. Baxter & Co. and others for infringing. We shall prosecute all parties found using or vending, to the full extent of the law. SOAPSTONE WASH TUBS.

A MUCH AND LONG NEEDED IMPROVEMENT.

None More Simple & None so Durable.

We are now manufacturing in this city to order, Wash Tubs and Sinks of the celebrated Francetown Soapstone.

Of the annoyance, costly repairs, and filthiness of our present wash tubs the public need not be told—experience has taught them. The superiority of them over wood is, they do not absorb the wash water and slops, consequently preventing that *disagreeable odor* in the house. They are easily kept sweet, clean, and dry. *They are not affected by hot or cold water. Never crack or leak.*

Cheaper than Wood, and will last a Lifetime.

They only need to be seen to be appreciated. All interested we invite to call and examine them at our warerooms.

CHASE'S
PIPE CUTTING & THREADING
MACHINE.

This important tool is designed to fill a want long felt by STEAM AND GAS FITTERS and MACHINISTS for cutting and threading pipes rapidly and cheaply. An apprentice boy, with one of these, can do more work than two men with old appliances, under the old system. NO PIPE SPLITTING! NO BEVEL INSIDE OR OUT! It cuts threads and makes nipples for all sizes of pipes, from ⅛ to 2 inches. Weighs only 100 lbs. Stronger than any machine made. A set of collars and lengths for making nipples goes with the machine. Address THE CHASE MANUFACTURING COMPANY,

Magrath's Copper Sash-Chain.
Patented 21st March, 1871.

Is adapted to ordinary round pulley, and strong enough to suspend weights of any size required.
Being intended as a substitute for sash-cord, it can be put into sashes now provided with cord without any change of pulleys. The inventor feels confident that experience will prove his chain to be both economical and durable, besides doing away with the constant annoyance and expense attending the use of sash-cord.

(showing spurs.)
263 Broadway, New York.

[*From the official proceedings of the Board of Assistant Aldermen, Oct.* 12, 1874.]
The Special Committee appointed by this Board in relation to the use of vault covers on the sidewalks throughout the city, beg leave to report that the committee have taken pains to examine the different vault covers at present being put down on the sidewalks, and find that the "Sharts' Patent Concrete Covers," on sale at 263 Broadway, appear to answer the requirements of the ordinance completely, without any of the objectionable features of the iron covers. We have examined some of them that have been in use on our principal thoroughfares during the last two years, showing little or no perceptible wear, and we would recommend them to our citizens in preference to any others we have yet seen.

MORTGAGES.

REAL ESTATE.

NEW YORK.

NOTE.—The arrangement of this list is as follows: The first name is that of the mortgagor, the next that of the mortgagee. The description of the property then follows, then the date of the mortgage, the time for which it was given, and the amount. The general dates used as headings are the dates when the mortgage was handed into the Register's office to be recorded.

Wherever the letters "P. M." occur, preceded by the name of a street in these lists of mortgages, they mean that it is a Purchase Money Mortgage, and for fuller particulars see the list of transfers under the corresponding date.

TO CAPITALISTS.

FOR SALE, ROBINSWOOD, for twenty years the country seat of Stewart Brown, Esq., of Brown Bros., situated on the shore of Whitestone Bay, Long Island, one hour from the City Hall by Central Railroad of Long Island. This property contains thirty-five acres, elegantly laid out, paths and groves with magificent shrubbery, a fine substantial mansion, giving a full view of Long Island Sound, the eastern shipping of the port pasing within plain sight of the piazza; also a gardener's cottage, green-house, barn, stables, boat-house, and bathing-house.

There are few if any places in the suburbs of New York which equal this English bit of landscape which is just suited for the residence of a gentleman of wealth and position. It adjoins the property of W. W. Cryder, and the owner prefers to sell it in its entirety, as the property is too fine to be cut up. Price, $100,000. Inquire of Mr. Brown's attorney, Geo. W. Van Sicklen, 99 Nassau Street, New York.

MISCELLANEOUS.

REVIEW OF THE REAL ESTATE MARKET.

The market has been rather quiet, the leading events of the week occurring at the Exchange, where a limited amount of business was transacted. Public sales were generally of a legal character, or in settlement of estates, and of these latter the sale of premises located at the northwesterly corner of Fifth Avenue and Thirty-eighth Street, was a fair illustration of the strength of real estate of assured position and character. The price secured was $145,000, and, although much credit is due to the seductive powers of the auctioneer, the property deserved all it achieved. While we have heard of pending negotiations and rumors of important contracts near conclusion, the only definite report that has come to our knowledge is a sale effected by V. K. Stevenson, Jr., of the three-story high stoop brick dwelling, with lot 25x100, No. 42 Fifth Avenue, for $40,000, a low price for the property. The market has an elastic character, and seems to have shaken off, in a degree, the depression created by the sales two weeks ago, and, while no great amount of activity is apparent, and prices remain nominally the same, there is a hopeful feeling, and some sanguine suggestions for next season.

We call the attention of capitalists, and gentlemen of leisure, to the chance offered them, in another column, to purchase the magnificent country seat of Stewart Brown, Esq., on Long Island Sound. From our own knowledge there is not a nicer bit of scenery to be found within a radius of thirty miles from New York. Mr. Brown's attorney will be pleased to show gentlemen, desirous of purchasing, over the grounds, the merits of which are only moderately set forth in the advertisement.

BOARD OF ASSESSORS.

Assessment lists for the purposes and affecting property described below have been lodged for examination.

Third av., w. s., between 66th and 69th sts., curb, gutter, and flagging.
Fifty-seventh st., both sides, between 2d and Lexington avs., paving.
Eighty-fifth st., both sides, from 5th av. to Av. A, to the extent of one-half the block at the intersecting streets, paving with granite blocks.
One Hundred and Thirty-eighth st., both sides from Boulevard to Hudson River, to the extent of one-half the block at the intersecting streets, paving with stone blocks.

MARKETS.

The variations in trade which we have come to look upon as a standing feature of our markets continue, and prices fluctuate upon the slightest occasion, proving the desultory character of business. Cash buyers have an advantage in nearly every kind of material, but do not accept it for speculative purposes. Demand is only in proportion to wants, and consequently a safe, if inactive, trade is doing. There are few features of specific interest to report, and the details of the markets are necessarily brief, and are herewith appended:

BRICK.—The arrivals of North River hard have been free, amounting to about 5,000,000 since our last report, of which there are probably 1,000,000 on hand at time of writing. The market has therefore weakened to a certain extent, and the tendencies are in buyers' favor. Pale brick have improved in feeling and quoted higher. Up-rivers 25@50 cents from last week's quotation, which was lower than for the week preceding. The cheaper grades of Haverstraw Bay bricks are quoted 25 cents higher, and the better qualities 50 cents lower than before. Jerseys are held more firmly and at advanced prices, selling as ordered. Fronts are without change. We quote as to cargo lots: Pale, ℔ M, $3@3.50; Jersey, $5.75@6; Up river, $6.25@7; Haverstraw Bay, $7.25@8; Fronts, Croton—brown, $12; dark, $13; red, $14; Philadelphia, $28@32; Baltimore, $50@58, cost of delivery to be added.

CEMENT—Is unchanged, Rosendale quoting at $1.10 @1.30. The best brands are held quite firmly at or near the higher range of quotations, say from $1.20 to $1.30 per bbl., the average price being $1.25, some agents refusing to sell lower. Yard quotations are $1.25@1.40. Portland has been in limited demand from store at about $4.50@5 per bbl., although we have heard of $5.50 asked. There are no sales of large lots reported, and we still quote at $4@4.50, ex-vessel.

FIRE BRICK.—There are no changes to note and we quote nominally at $50@55 for red Welsh and $40@50 for American.

GLASS.—The demand for French window continues very fair, and prices are steady and firm at 60 and 5 per cent. discount. English sheet and polished plate are quiet but steady at late quotations.

HAIR.—The market is dull and quotations are as before. We quote as to quality—cattle 12@25 cents and goat 14@28 cents per bushel.

HARDWARE.—There is some demand for goods, but trade is hardly active. New price-lists are in course of preparation, and in those already issued we note the following changes. The Stanley Works quote: strap and T hinges 35 and 10℔ cent. discount, before 35@40; narrow butts, table do., and back flaps 30 and 10, before 30. Broad butts and loose joint do. 35 and 10, before 35, and reversible do. 12½ and 10. Narrow fast cast butts 40@50 and 5 off, as to lots; and broad cast fast joint, 50 and 10 off. Wrought iron flush bolts 15 and 10, before 15 off. Iron spoke staves Nos. 1, 2, and 3, 33⅓ and 10, before 20 and 10 off. Worrall's plastering trowels 20 and 10, before 15 off. Ten Eyck's axes are reduced $1 ℔ doz. Bonney's Saw-Filers' vises are quoted 25 ℔ cent., before 20 off. Sargent & Co. report the following discounts: Nos. 374 and 384 bronze metal butts, 60; strap and T hinges, 35; Nos. 60 and 62 plate hinges, 60 and 10; Nos. 66 and 68 hook hinges, 60 and 10; wrought butts, 30 to 35.

LATH.—Prices have a lower range than last week, and we quote at $1.50@1.60 per M by the cargo and $1.75 from yard. The market is a little uncertain in feeling in view of expected arrivals of 3,000,000 or 4,000,000, and tendencies seem to be weaker.

LIME.—Some criticism has been evoked by our quotation of State common at 80 cents per bbl.; but there is good reason for our belief that sales have been made at that price, and while we do not insist that the market is generally as weak, yet prices are doubtless shaded for emergencies. It is noteworthy that lime of State manufacture is rapidly advancing in favor, and enters largely into competion with Rockland. A sale of 1,200 bbls. Glens Falls finishing at $1.40 per bbl. is reported, and illustrates the preceding remarks. State lime may be quoted firmer at 80@$1 for common and $1.25 for finishing; Rockland remains quiet but steady at $1@1.50. Yard prices are 15@25 cents per bbl. higher.

LUMBER.—Trade continues dull and of a general indifferent character, and the wholesale market has no better showing than at our last report. Purchases of white pine have been made to a considerable extent, but we cannot learn that there is any overstock at the yards, and we know of large dealers who have withheld their orders, anticipating events in the way of excessive production and lower prices. These expectations seem likely to be realized if full credit can be accorded to reports from the western country which we reproduce from an exchange and append below. There is hardly any doubt that the stock of lumber seeking a market during the coming year will be so largely in excess of all requirements that prices will yield to an extent beyond the calculations of manufacturers. The stocks now on hand at the West must soon give way to the impending pressure or be carried over and suffer greater depreciation when brought into competition with the new cut, which, less desirable in comparison with seasoned lumber, will be worked off at low rates to secure a market. Whatever the result it can hardly be prejudicial to our market, where dealers have generally followed a very conservative course, keeping stocks down to a minimum limit and avoiding speculation. Lower prices must rule, and current quotations at our yards have already been largely shaded. Yellow pine shows no improvement, and we retain our quotations of last week as follows: random cargoes, $20@24; ordered do. $23.50@30; flooring, 1¼ inch, green, $25; do. dry, gang-sawed, $27@28, with some quotations at $31 for a very choice article. Sidings are quoted very dull at $23. Eastern spruce has not arrived plentifully, but the supply seems to be more than enough for the market, and its movement, therefore, is not active. We quote at $13.50@19. Hardwoods are so indifferent that we get no reports and quotations are nominal. Local trade is about at a minimum, although the natural demand of a city like our own, under the worst aspect of trade, is likely to impart some appearance of life to the yards.

Michigan and Wisconsin Notes.

From the *Lumberman's Gazette* (Bay City, Mich.), Nov. 7:—

There is still nothing new to report in the lumber market of this section. The occasional buyers look very closely at stocks, and make no improvement on rates. The season of lake navigation is practically nearly at an end in the usual course of things, and the dullness has still further retarded the movement of lumber, so that comparatively little is doing in that way. Some manufacturers took advantage of the low freights of the summer, and accumulated stocks at lower lake points in anticipation of higher rates in the fall. This has helped to diminish the late shipments.

The movement into the woods continues, and there is no change in the prospect heretofore reported, of a log crop which will be at the least fully equal to any possible demand next year, and in excess of any probable inquiry. The wages paid are somewhat higher in this region than in some of the more western districts. The rule here is about $20 per month, with more for special men. There is no lack of men at this rate, but many are going in with the expectation of advance to at least $30 before the season is over, upon what ground the expectation is based we can not say.

On Friday offers of $3.25 for lumber to Buffalo were made, but carriers say the time is too late to help their business.

From the Bay City *Weekly Tribune* of Nov. 7th:—

During the months of May, July, and August of the present season the shipments of lumber from the port of Bay City were lighter than for the corresponding months last year. In all other months of the year except those named, however, the shipments have been larger, and taking the season as a whole, we find that nearly three hundred millions of lumber have been sent forward this year up to the present time, or 30,000,000 feet more than to November 1st last year, and fully 25,000,000 more than during the entire season of 1873.

General Western Notes.

From the Chicago *Northwestern Lumberman* for Nov.:—

Twelve months ago we commenced to reason with the manufacturers upon the evils of over-production, and have not missed an opportunity to agitate the subject since. The fall of 1873 witnessed the accumulation of enormous stocks of manufactured lumber and uncut logs at all the various mill centers throughout the Northwest. In presenting our statement of the aggregates we urged, in the most positive terms, upon the mill-men, the cutting of little or no new stock.

We find the quantity of logs and lumber on hand now, and which will probably be carried over into next year, to be somewhat startling in the array of figures required to represent its aggregate. In the face of this knowledge comes the intelligence that even greater preparations are being made in most quarters for cutting logs the coming winter than were made one year ago. There is on hand in this city 358,434,582 feet of lumber. As no inventory was ever taken before at this season, we have no certain means of comparison with former years. Competent judges say the amount is but little in excess, however. But behind this statement is another, and graver, fact, which warrants considerable apprehension. Chicago dealers have fully 100,000,000 feet of lumber in the interior yards, unpaid for, forced there by the unhealthy state of the trade, and the necessity for selling. The fact is notorious that Chicago lumber-drummers infest interior yards, like patent medicine men or gift chromo agents. It is becoming a very unsafe venture for a yard dealer to invest capital in a stock of lumber, in the face of a strong probability that the men of whom he purchases will persist in crowding upon the market an amount of stock sufficient to depreciate in value all he has in hand to the extent of twenty or thirty per cent. The inevitable sequence to this will be that manufacturers will actually force a large portion of the capital now invested in yards to be withdrawn for more remunerative investment.

Conversations with the yard men reveal the fact that the subject of withdrawal is being more than generally discussed. With the amount of lumber now being shipped to this market annually, the wholesalers are literally compelled to keep traveling salesmen continually drumming up trade among the country yards. Credits which, in former years, were rarely asked or given, are now freely offered on an average of more than sixty days' time, as an inducement to purchase. Let the manufacturers succeed, as their present course certainly will, in driving the yarders out of the business—virtually killing the goose which has laid them many a golden egg—and they must furnish an extra capital to cover the credits they will be compelled to allow. This refers particularly to the mill-men, who ship to this market, which, heretofore, has been an all cash one. Lumber from Lake Huron ports is now shipped here in large quantities, and offered on ninety days' time. Any reliable firm can purchase in Saginaw any amount of lumber on the same terms. Indeed, it is not an uncommon thing for lumber to be sold there even on longer time. The direct effect of all this will be that the buyers in this market will demand—and obtain, or buy elsewhere—by another season, the same system of credits, and Chicago will no longer be known as a cash market. Bets have now been made, and more are offered, that if the number of logs—for the cutting of which preparations are now being made—are actually put into the streams, common lumber will retail next year in this market for $8 per 1,000 feet; It is useless to talk of or calculate upon hung up drives, they are exceptions, not the rule. The only safe method of curtailing is not to cut down the trees. It is a fact that 800,000,000 feet of lumber sold here per season, will return to the makers fully as much money as 1,000,000,000, and every known principle of trade or business economy urges in the most forcible manner the necessity for limiting the supply of logs during the winter of 1874-5.

The lumber dealers of Chicago have expressed their views in the following terms:

"The lumber firms conducting the yard business of Chicago have learned from the most reliable sources, with regret, that the arrangements of mill-owners for hauling logs the coming winter show a large increase, as compared to the too large manufacture of 1874, at several, if not all, the principal producing sections; and as we believe nothing but a want of knowledge of the present condition of the markets at the principal distributing points would prompt an increase, when only a large reduction of manufacture will prevent great loss to all classes of lumbermen. Any combination that could be formed to reduce manufacture would surely fail for lack of unanimity, and would in the end produce the evil it was intended to prevent. But the desired result may be produced by informing manufac-

turers of the proposed supply at the principal lumber districts, and thus appeal to their better judgment as well as their financial interest, and cause a voluntary reduction from plans already made for hauling logs during the approaching winter.

"The average annual receipts of pine lumber at the port of Chicago for the three years last past exceeds 1,000,000,000 feet, and of this vast amount more than half is received and paid for when landed by lumber dealers who own no saw mills. In other words, the yard interest pays annually, in cash, on delivery here to mill owners who have no docks in Chicago, the sum of $6,000,000 for lumber, and an additional sum of $2,000,000 for shingles, lath, and other lumber products. The mills that saw lumber for the 'Exchange' market, for sale afloat, depend wholly on yard dealers to furnish funds to operate their mills in summer, and repay advances received from commission firms during winter.

"The course pursued by these mill-owners during the present season of 1874, would, in almost any other branch of trade, have brought ruin to the parties who furnished the working capital, and owing to their large manufacture have caused a declining market during the entire season, and an average depreciation of 10 per cent. in the value of stocks in pile.

"If, during 1875, an amount of lumber exceeding 900,000,000 feet is consigned to this market, yard prices will decline below $10 for common lumber at retail, and a proportionate discount in the value of all stocks of lumber here must be the result, and 1876 will find the number of yard dealers reduced one-half, as they must seek other fields of investment for their capital, as their predecessors did in 1858.

"The shrinkage of values by over-production, will, if continued, drive many yard dealers from trade; but the same cause is responsible for a greater evil, that bids fair to reduce the number of mill-owners also during 1876. Previous to 1865, credits were seldom asked on lumber at wholesale, and returns were expected inside thirty days for yard sales. Now, an average of more than sixty days' time is given on yard business, if any profit is realized. This is the natural result of forcing sales on a market already overstocked, and one that mill-owners are wholly responsible for, and if continued, yard dealers will claim, and be enabled to compel, a credit on all cargo lumber sold afloat in Chicago.

"So great is the desire of manufacturers at Lake Huron ports to dispose of the present surplus, that lumbermen with good credit can to-day purchase any amount of cargo lumber off them on ninety days' credit, and in some instances at four months, without interest.

"From present indications a change from cash to credit for cargoes in this market is expected hereafter, as, with the exception of the Chicago lumber exchange sales, lumber is usually sold on credit at wholesale. This change effected, no combination of mill-owners will be required to limit the supply hereafter.

"For the following good reasons all prudent mill-owners will reduce rather than increase their business until the surplus lumber now in market is much reduced:

"1. That during the season of 1874 no profit has been realized, and from excessive manufacture the markets of the country are now largely overstocked, with no prospect of a permanent advance in prices.

"2. That the inauguration of sales of cargoes on credit by manufacturers during 1874 will, in case of excessive manufacture, very soon become the custom of the market.

"3. That a further shrinkage in the value of lumber will cause the withdrawal of large amounts of capital now furnished by yard dealers, a class that pay for and distribute more than half the entire product of sawmills.

"4. That all concede that a large amount of lumber forced on the market in 1874 must cause a low range of prices, and a reduction, either great or small, will place the business on a better foundation."

Eastern Notes.

From the Boston *Lumber Trade*, Nov. 9:—

For the week just past a little more life in the lumber business has been perceptible. Inquiries have been more frequent, and sales have been increased. It is getting late in the season, and country dealers seem to see this, and are ordering a trifle more freely. Arrivals have been limited. It is a good sign that Eastern mill men have in a number of cases declined to fill orders at from 50 cents to $1 advance on prices, which they would have jumped at a month ago. One house reports two or three heavy orders for building lumber. We think a better feeling pervades the trade, and we believe that with the advent of spring will come a revival of trade. If shipments can only be held back this condition will be in time certainly attained. Present signs point toward the carrying out of this plan. Eastern shippers have the remedy in their own hands. Whether they will use it or not remains to be seen. Luckily only a short time remains before navigation closes, and then Nature's check may serve to control insane operators. We do, however, say, and gladly, that the business sky shows a gleam of light, temporary though it may be, yet noticeable and cheering.

METALS.—Copper.—Manufactured is held as follows: New sheathing, 28 cents, and bolts and braziers 30; bronze and yellow metal sheathing, 21@22 cents; Y. M. bolts 28, and nails 22. Ingot has advancing tendencies, with sales at 22¼@22¾ cents, cash; 23 cents for December, and 23½ cents for January to April delivery.

Iron.—The market is dull, and tendencies are generally weak. Scotch pig is steady, with moderate stocks on hand. American pig is still dull and depressed, and quotations are little to be depended on. Rails have moved to the extent of 5,000 tons steel at $80 currency at the mill, and the sale of 1,200 tons American upon terms not reported is also noted. Scrap is dull and nominal. Manufactured from store is dull and nominal at former quotations.

Lead.—Foreign pig is quiet, but firmly held at 6¾ cents, gold. Domestic is steady at $6.35, gold. Bar, pipe, and sheet are steady at 8¾ cents—less 10 per cent. to the trade.

Tin.—Pig is very dull, and plates are quiet but firm.

Zinc.—Sheet is steady at 8½@9 cents (gold), net.

NAILS.—Cut are in some request at former prices. We quote: 10d. to 60d. common fence and sheathing, ℔ keg, $3.60@3.75; 8d. and 9d. common do ℔ keg, $4; 6d. and 7d. common, ℔ keg, $4.25; 4d. and 5d. common do ℔ keg, $4.50; 3d. and 4d. light, ℔ keg, $5.25; 3d. fine, ℔ keg, $6; 2d. ℔ keg, $6.75. Cut Spikes, all sizes, $4. Floor, Casing, and Box, 75 cents above the same sizes of Common—Finishing, $1 above, and Fine Finishing $1.25 above.

CLINCH NAILS.

1¾ to 1½ in	2 & 2¼ in.	2½ & 2¾ in.	3 in. and longer.
$6.25@6.50.	$6.00.	$5.75	$5.50 ℔ keg.

OILS.—Linseed is in moderate request at 78 cents for casks from crushers' hands.

PAINTS.—Trade has been moderately active in a jobbing way, and prices are quite firm. White lead is in fair demand, and vermilions are steady, with a prospective advance for American. Venetian red is scarce and in request, with sales at 2½@2¾ cents. Paris white is scarce and firm, and China clay is in good demand, with sales of English (to arrive) at $21.

PITCH.—There have been small sales of City at $2.37½@2.50, f. o. b., and we quote accordingly.

SPIRITS TURPENTINE—Have been in fair demand, selling at 35½@36 cents, merchantable, the market closing somewhat weak at the lower price. We quote generally at 35½@36½.

TAR—Has been in some request, closing quiet at $2.37½ for Washington and Newbern, and $2.40@2.50 for Wilmington.

A GOOD INVESTMENT

EVERY PRUDENT MAN, CAREFUL OF THE

health and comfort of his family, should see to it that his drinking water is conveyed through TIN-LINED LEAD PIPE, which is a perfect safeguard against lead poison. Tin-lined Lead Pipe is strong, durable, flexible, and easy soldered. It is a great benefit to the community, and enhances the real value of every house in which it is introduced. It is cheaper than Lead Pipe, when strength and durability are considered. Sold by the COLWELL LEAD CO., 213 Centre St., New York. Price, 16½ cts. a pound for all sizes. Descriptive pamphlets sent by mail free. Also, manufacturers of Lead Pipe, Sheet Lead, Block Tin Pipe, Bar Tin, Pig Tin, Bar Lead, Pig Lead, Solder, &c. Orders filled at sight.

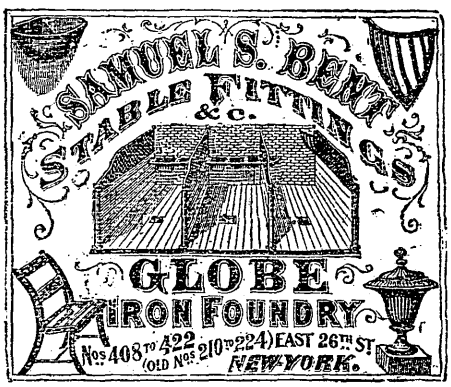
TRANSFER GRAINING.

THE ONLY COMPLETE PROCESS OF GRAINING EVER INVENTED.

Its practicability and utility are fully established by the 350 Licenses and Machines in use.

It copies exactly **ALL NATURAL WOODS**; also, ASSUMED DESIGNS ETCHED OR ENGRAVED ON WOOD, GLASS, OR METALS.



The process is so simple and complete that Panels of all sizes and shapes can be grained, so that unskilled labor can be employed. The American Institute awarded us the HIGHEST PREMIUMS for it in 1872 and 1873.

For Circulars, Samples, and References, apply to

CROSS & BASTINE, 132 West Broadway, N. Y

Caution.—All persons buying a Graining Machine in which a smooth elastic surface is used, are hereby notified that we are the inventors and owners of Letters Patent pertaining to and fully covering this process. We shall hold all parties responsible by suit who purchase of one John Johnston, offering for sale a smooth elastic surface for transferring configurations or graining, or any one unauthorized by us. Suits have been commenced against Edward W. Baxter & Co. and others for infringing. We shall prosecute all parties found using or vending, to the full extent of the law. Fourth—That the said Marcus Goldman has contributed the sum of Thirty Thousand Dollars ($30,000) as capital to the common stock.

Fifth—That the period at which the said partnership is to commence is the fifth day of October, 1874, and the period at which the said partnership is to terminate is the fifth day of October, 1877.

Daten this fifth day of October, 1874.

DAVID ROSENBERG,
HERMAN ROSENBERG,
THEODORE ROSENBERG,
General Partners,
MARCUS GOLDMAN,
Special Partner.

State of New York, }
City and County of New York, } ss:

THIS IS TO CERTIFY THAT THE UNDERsigned have formed a limited partnership under and in pursuance to the provisions of title first, chapter fourth, part second of the revised statutes of the State of New York, entitled of Limited Partnerships, and the several statutes amending or affecting the same, upon the terms and with the rights and powers, duties, and exemptions therein prescribed, as follows:

First—The name or style under which such partnership is to be conducted is ROGERS, PEET & CO.

Secondly—The general nature of the business intended to be transacted is the general clothing business, in the City of New York.

Thirdly—The names of all the general and special partners interested in said business are Marvin N. Rogers, Charles B. Peet, Frank R. Chambers, John T. Martin, and William R. H. Martin.

The said Marvin N. Rogers is a general partner, and his place of residence is the City of Brooklyn, County of Kings, and State of New York.

The said Charles B. Peet is a general partner, and his place of residence is the City, County, and State of New York.

The said Frank R. Chambers is a general partner, and his place of residence is the City, County, and State of New York.

The said John T. Martin is a special partner, and his place of residence is the City of Brooklyn, County of Kings, and State of New York, and the said William R. H. Martin is a special partner, and his place of residence is the City, County, and State of New York.

Fourthly—The amount of capital which each of the said special partners has contributed to the common stock of such partnership is as follows: The said John T. Martin has contributed the sum of Fifty Thousand Dollars in cash, and the said William R. H. Martin has also contributed the sum of Fifty Thousand Dollars in cash.

Fifthly—The period at which the said partnership is to commence is the sixth day of November, One Thousand Eight Hundred and Seventy-four, and the period at which it will terminate is with the thirty-first day of December, One Thousand Eight Hundred and Seventy-seven.

In witness whereof we have hereunto set our hands and seals, this sixth day November, A. D., 1874.

MARVIN N. ROGERS,
CHARLES B. PEET,
FRANK R. CHAMBERS,
JOHN T. MARTIN,
W. R. H. MARTIN.

In presence of David J. H. Wilcox.

NOTICE IS HEREBY GIVEN THAT CHARLES B. Helfenstein and George W. Fraim, who respectively reside in the City of Brooklyn, have formed a limited partnership pursuant to the provisions of the revised statutes of the State of New York, for the manufacturing, buying, and selling of horn and rubber jewelry and such other articles as are usually dealt in by wholesale and retail dealers in such line of business, in which all the parties interested are the said Charles B. Helfenstein, who is the general partner, and the said George W. Fraim, who is the special partner; that the said George W. Fraim has contributed the sum of Three Thousand Dollars as capital toward the common stock; that the place where said business is to be carried on is at No. 202 Broadway, in the City of New York; and that the said partnership is to commence on the first day of November, 1874, and is to terminate on the thirty-first day of December, 1882.

Dated this 29th day of October, 1874.

SOAPSTONE WASH TUBS.

A MUCH AND LONG NEEDED IMPROVEMENT.

None More Simple & None so Durable.

We are now manufacturing in this city to order, Wash Tubs and Sinks of the celebrated Francetown Soapstone.

Of the annoyance, costly repairs, and filthiness of our present wash tubs the public need not be told—experience has taught them. The superiority of them over wood is, they do not absorb the wash water and slops, consequently preventing that *disagreeable odor* in the house. They are easily kept sweet, clean, and dry. *They are not affected by hot or cold water. Never crack or leak.*

Cheaper than Wood, and will last a Lifetime.

They only need to be seen to be appreciated. All interested we invite to call and examine them at our warerooms.

CHASE'S
PIPE CUTTING & THREADING
MACHINE.

This important tool is designed to fill a want long felt by STEAM AND GAS FITTERS and MACHINISTS for cutting and threading pipes rapidly and cheaply. An apprentice boy, with one of these, can do more work than two men with old appliances, under the old system. NO PIPE SPLITTING! NO BEVEL INSIDE OR OUT! It cuts threads and makes nipples for all sizes of pipes, from ⅛ to 2 inches. Weighs only 100 lbs. Stronger than any machine made. A set of collars and lengths for making nipples goes with the machine. Address THE CHASE MANUFACTURING COMPANY,

Magrath's Copper Sash-Chain.

Patented 21st March, 1871.

Is adapted to ordinary round pulley, and strong enough to suspend weights of any size required.

Being intended as a substitute for sash-cord, it can be put into sashes now provided with cord without any change of pulleys. The inventor feels confident that experience will prove his chain to be both economical and durable, besides doing away with the constant annoyance and expense attending the use of sash-cord.

[*From the official proceedings of the Board of Assistant Aldermen, Oct.* 12, 1874.]
The Special Committee appointed by this Board in relation to the use of vault covers on the sidewalks throughout the city, beg leave to report that the committee have taken pains to examine the different vault covers at present being put down on the sidewalks, and find that the "Sharts' Patent Concrete Covers," on sale at 263 Broadway, appear to answer the requirements of the ordinance completely, without any of the objectionable features of the iron covers. We have examined some of them that have been in use on our principal thoroughfares during the last two years, showing little or no perceptible wear, and we would recommend them to our citizens in preference to any others we have yet seen.

SPECIAL NOTICE.

We take pleasure in announcing to-day that Mr. Edgar Williams is the successor of the late Wm. H. Raynor in the real estate business. Mr. Williams, who has been associated with the late Mr. Raynor during the past nine years, and is fully acquainted with all the details of the business, now presides at 5½ Pine Street, where all matters pertaining to real estate transactions will be attended to with the same energy and promptitude as in the past under Mr. Williams' immediate supervision.

A NEW FEATURE IN THE REAL ESTATE MARKET.

Any one who has passed through East Fifty-seventh Street, between Fifth and Madison avenues, must have noticed a row of elegant twenty-seven-feet-front houses, the like of which can only be found in very few streets among the thousands of palatial residences now forming the fashionable part of the metropolis. Wherever the like are found they are the work of the same architects, Messrs. Duggin & Crossman, who built the above. Their outside appearance, however, elegant as it is, does not give the least idea of the thorough, substantial—aye, luxurious—manner in which they have been finished inside. They are not only a credit to American workmanship, but an ornament to the City of New York. The reason that we call to-day especial attention to these houses, as well as to those in East Forty-fourth Street, between Fifth and Madison avenues, is because they are thrown upon the market in a manner which fully meets the requirements of the times, and with no visions of fancy prices. Here are two houses like those in East Forty-fourth Street which cost, lot and all—taking the value of the lots at present prices—$70,000 and $75,000. This is the *mere* cost of production. And still they are offered to-day respectively at an upset price of $60,000 and $65,000 each. We say "upset price" because six of the above houses, four in Forty-fourth and two in Fifty-seventh Street, as will be seen in another column, are offered at private bids, which are to be opened at the offices of the architects on Tuesday next at twelve o'clock. They are to be sold positively and on easy terms. The plan, though a novel one, is, however, not of such importance to the real estate market as the disposition shown by gentlemen who have a large capital invested in the very best of uptown property, to meet buyers more than half way. Houses like these are finished, in the very best style, could not be had for any such prices a year ago, and the Messrs. Duggin & Crossman—whose record is best shown by a reference to no less than sixty strictly first-class mansions built by them uptown—deserve commendation on the part of those who desire to see a speedy end to the lethargy too long prevailing in the real estate market. Money is abundant in New York at the present moment. We doubt if it commands more than three per cent.; and we shall see next Tuesday whether it is ready to flow in the channel where it must go finally, the real property of the American metropolis.

MORTGAGES.

REAL ESTATE.

NEW YORK.

NOTE.—The arrangement of this list is as follows: The first name is that of the mortgagor, the next that of the mortgagee. The description of the property then follows, then the date of the mortgage, the time for which it was given, and the amount. The general dates used as headings are the dates when the mortgage was handed into the Register's office to be recorded.

Wherever the letters "P. M." occur, preceded by the name of a street in these lists of mortgages, they mean that it is a Purchase Money Mortgage, and for fuller particulars see the list of transfers under the corresponding date.

TO CAPITALISTS.

FOR SALE, ROBINSWOOD, for twenty years the country seat of Stewart Brown, Esq., of Brown Bros., situated on the shore of Whitestone Bay, Long Island, one hour from the City Hall by Central Railroad of Long Island. This property contains thirty-five acres, elegantly laid out, paths and groves with magificent shrubbery, a fine substantial mansion, giving a full view of Long Island Sound, the eastern shipping of the port pasing within plain sight of the piazza; also a gardener's cottage, green-house, barn, stables, boat-house, and bathing-house.

There are few if any places in the suburbs of New York which equal this English bit of landscape which is just suited for the residence of a gentleman of wealth and position. It adjoins the property of W. W. Cryder, and the owner prefers to sell it in its entirety, as the property is too fine to be cut up. Price, $100,000. Inquire of Mr. Brown's attorney, Geo. W. Van Siclen, 99 Nassau Street, New York.

MISCELLANEOUS.

REVIEW OF THE REAL ESTATE MARKET.

The season has been protracted, and many public offerings have been carried on later than usual, chiefly because real estate owners who have been anxious to sell have delayed, hoping for better results. We do not see that the events of the week, or of the season, have justified such delay, as the action of owners has not been such as to inspire confidence, or calculated to excite competition.

In the sale of lots on the Ocean Parkway, just without the city limits of Brooklyn, the owners fulfilled their promise, and made an absolute sale of one hundred and eighty-six lots, at an average of $436 per lot. This transaction proved that buyers can be found, when proof is given of a determination to sell. At the large offering of lots in the Twenty-third Ward the Executors withdrew the property, after disposing of a few parcels, at unsatisfactory prices. This sale should never have been attempted, or it should have been carried to conclusion. Apart from these, there have been no events calling for special remark. The Brooklyn City Government has decided to postpone its sale of Prospect Park lots. This is a matter of doubtful authority, and questionable expediency. The City can better afford to dispose of such property, at reduced valuations, deriving a revenue, than carry it to disadvantage, upon the chances of the future.

The market generally has been quiet, with a limited number of private events, none of them calling for special remark. Values are yet undecided, and nominal, and, while hope prevails and sanguine anticipation challenges adverse criticism, there is nothing so settled that we are able to speak of the future with assurance. With most owners, however, there is still a strong feeling, and the market is by no means in such a shape that sacrifices are imminent.

We again refer to the exceptional offering advertised in our columns. Robinswood, the country seat of Mr. Stewart Brown, is for sale, and, to those who know Whitestone Bay, and its surroundings, further comment is superflous, and to those who don't—go and see.

LOCAL ITEMS.

The Commissioner of Public Works advertises for numerous proposals for constructing sewers, and for various street improvements, and among them for regulating, grading, setting curb and gutter, and flagging Fifth Avenue, from Ninetieth to One Hundred and Twentieth streets.

The Department of Public Charrities and Corrections asks for proposals for Coffee.

The Board of Education asks for proposals for printing and for delivering supplies.

The Department of Public Parks is about to take proceedings for opening One Hundred and Fifty-sixth Street, from Third to Elton Avenue.

The same Department has adopted a map, extending Lincoln to Morris Avenue, and Alexander to College Avenue, and closing Morris Avenue, between One Hundred and Forty-eighth Street and Third Avenue. The map of that portion of the Kingsbridge road between Inwood Street and Harlem River has also been adopted and filed.

The Young Mens' Christian Association sends the following announcement: "We have a registered list of decent men who are willing to work through the winter for very small wages, and also a large number of men who will work for the winter for their living only. Address John Dooly, 134 Bowery."

MARKETS.

We have few changes to note as trade is kept within bounds which limit review, and while in general we are told there is a lack of that animation to which it has been accustomed, yet its aggregate is fair, and its charter helps to prove the safer footing upon which business is conducted. The season has advanced to a point whence all movement and conjecture must be taken for another year's trade. Stocks are to be replenished to meet winter requirements and to fill the call, large or small, good or indifferent, arising in the spring. It becomes, therefore, a matter of necessary speculation on the part of dealers to stock up their yards, and as a result we find stiffer prices and a general tendency to advance. There is as yet no very marked movement to this effect, but indications, and in some instances action, are in that direction. We regret to see that labor conflicts have been again precipitated. Our review of the markets in detail is briefly appended.

BRICK.—Arrivals of hard have been moderate, and prices have stiffened, advancing in some instances 25 cents per thousand. The movement, however, has not been very brisk, and at the time of our report about 500,000 were in the market. Pale bricks are quite firmly held at $3 50. Sales have occurred throughout the week at $4. This latter price was secured for a specially good article. There has been little movement in Uprivers at an advance of 25 cents per M, while Haverstraw Bays were firmer and sold readily at asking prices, which show advancing tendencies. Jerseys and Fronts are unchanged. We quote as to cargo lots: Pale, ₱ M, $3.50; Jersey, $5.75@6; Up-river, $6.50@7.25; Haverstraw Bay, $7.25@8; Fronts, Croton—brown, $12; dark, $13; red, $14; Philadelphia, $28@32; Baltimore, $50@58, cost of delivery to be added.

CEMENT.—Rosendale is held at $1.10@1.30 as to brands, prices for better qualities ranging $1.20@1.30. Yard quotations are $1.25@1.40. Portland and Roman are quoted $4.25@4.50 ex-vessel and $4.50@5 from store.

FOREIGN WOODS.—There is very little movement, and although occasional sales occur, the market is not expected to resume activity before next spring. We revise our quotations and note a slight shading in prices.

GLASS.—The market is fairly active, French window being in good demand at firm prices, the discount of 60 and 5 per cent. remaining the quotation. English sheet is in moderate request at 50 per cent. discount and polished plate is selling fairly at 15 per cent. off.

HARDWARE.—Trade is moderate, but prices, particularly for foreign goods, are firmly maintained. The Hart, Bliven & Mead Manufacturing Company quote strap and T, hinges 35 and 10 per cent. discount; narrow wrought fast butts 30 and 10; broad and loose do. 35 and 10; common bench planes 45 and 10; fast and loose joint wrought plate hinges are quoted at 60 and 10 per cent. discount, before 55 and 10 off.

LATH.—The market is quite bare, and quotations are rather nominal at $1.50 per M.

LIME.—Prices are somewhat firmer, and we quote State common at 90@$1 per bbl. Finishing is held at $1.25. Rockland is steady and unchanged at $1@1.50. Yard quotations, 15@25 cents higher.

LUMBER.—The market is dull, and prices are unsettled and irregular. Small lots are offering in some instances much lower than our quotation; but as this is the result of efforts to close out consignments, and do not include anything very desirable, we refrain from more specific mention. White pine is in limited request, and South American shippers have filled orders at $23, while West India cargoes have been selling at $18@19. Yellow pine is extremely dull, and cargoes are very difficult to place, some firms reporting no transactions for a week. Prices are nominally unchanged, and we quote random cargoes at $20@24, and ordered do. at $23.50@30. Flooring 1¼ inch, green, is held at $25; do., dry, gang-sawn, at $27 and $28@31, the latter price for exceptional lots. Sidings are nominal at $23. Eastern spruce is selling at an advance on our last quotations, as follows: random cargoes $14@16, and ordered schedules at $16@19.

The yard trade is moderately active, but is largely short of past experiences. Stocks have been increasing to a certain extent, and many purchases have been made upon terms not declared. Hardwoods are about as usual, and our quotations generally are restrained.

The various intimations from the Western country of advancing prices, and the suggestions that are freely volunteered at points of production as to the necessity for buying now, produce no effect upon this market. Our dealers are fully apprised of movements at the West, and can secure contracts more favorably than quoted. We find that the feeling recently noted is well settled, and that dealers will take the chances of higher prices in preference to filling their yards with stocks that may be forced into losing competition in the spring. This is certainly the safest course to be pursued, and tending to maintain the conservative character of trade, will aid in the restoration of commercial confidence and activity.

Michigan and Wisconsin Notes.

From the *Lumberman's Gazette* (Bay City, Mich.) Nov. 14:—

The close of the sawing and shipping season is so near at hand that some slight additional stir in the market is quite a matter of course. There has been much stir during the week, though by far the greater portion of it was occasioned by inquiry for vessels, rather than by a demand for lumber. There have been a few purchasers about, however, chiefly such as wanted small lots of special descriptions, to fill out stocks for the winter. Prices have not varied from the quotations made from week to week of late.

Lake freights have of course advanced with lateness of the season. Offers were made on Wednesday of $3.50 to Buffalo from up-river points, and $2 50 to Ohio ports, while shippers complained of a scarcity of carriers. Some barges which were laid up were untied, but the movement was not general in that direction. It was estimated that there was about 10,000,000 feet on the river to go forward, and waiting for carriers.

The movement of men into the woods has perceptibly increased within the week, and on some days the streets of the Valley wore quite the appearance of old times, with their crowds of woodsmen en route. It is beyond question that enough logs will be put in this winter to fully supply any possible demand, and that no improvement in prices can be looked for on account of the diminution of the product. This region will have about 200,000,000 feet of logs to go over, counting all that are now cut, in whatever place they may be.

METALS.—COPPER.—Manufactured is steady as follows: New sheathing, 28; bolts, 30; braziers', 30; nails, 37@38; yellow metal, new sheathing, and bronze, 21@22; bolts, 28; nails, 22. Ingot is held at 22½@22¾ cents, with sales for January delivery at 23 cents.

IRON.—The market is still depressed. Scotch pig is held firmly by reason of limited stocks and as limited arrivals. American pig is irregular and unsettled. Rails are in some request. Scrap is without movement, and manufactured from store is steady with very limited business.

LEAD.—Pig is firm, although the demand is light and quotations are $6.75@7 for foreign and $6.30@6.35 for domestic. Manufactured is steady at 8¾ cents for sheet, bar, and pipe, and 16½ for tin lined pipe, all less 10 per cent. to the trade.

TIN.—Pig is held firmly at 21½@21¾ cents for straits, 21¾@21¼ for L. & F., and 21½ for refined English, all gold. Plates are very dull with full stocks, and prices are consequently weak.

ZINC.—Sheet is steady at 8¾@9 cents, gold, net.

NAILS.—The market has yielded to the low prices of iron, and cut are depressed, quoting as follows: 10d. to 60d. common fence and sheathing, ₱ keg, $3.50@3.60; 8d. and 9d. common do. ₱ keg, $3.85; 6d. and 7d. common, ₱ keg, $4.10; 4d. and 5d. common do. ₱ keg, $4.40; 3d. and 4d. light, ₱ keg, $5.10; 3d. fine, ₱ keg, $5.85; 2d. ₱ keg, $6.60. Cut Spikes, all sizes, $3.85. Floor, Casing, and Box, 75 cents above the same sizes of Common—Finishing, $1 above, and Fine Finishing, $1.25 above.

CLINCH NAILS.

1¼ to 1½ in	2 & 2¼ in.	2½ & 2¾ in.	3 in. and longer.
$6@6.25.	$5.75.	$5.50	$5.25 ₱ keg.

OILS.—The market for Linseed has been more active, and prices have improved accordingly, crushers now holding at 78@79 cents in casks.

PAINTS.—There is a fair demand with steady prices. Venetian red continues scarce for spot, and prices are firm with sales of Cookson's at 2½@2¾ cents, currency, and to arrive at 2½ cents, gold. English red lead is scarce and higher. Vermilions have been in good demand, anticipating an advance in prices. American quicksilver will be advanced on the twenty-third inst. as follows: In lots of 500lb. and over, in 30lb. or 50lb. bags, $1.83; in lots of 300lb. to 500lb., in 30lb. or 50lb. bags, $1.85; in lots of 100lb. to 300lb., in 30lb. or 50lb. bags, $1.87; in lots of less than 100lb., in 30lb. or 50lb. bags, $1.90, all gold; usual reduction in bulk. Terms, cash in ten days, or interest added. White lead is steady with sales of B. B. ground at 10¾ cents, gold.

PITCH.—City is dull and jobbing at $2.37½@2.50 per bbl., f. o. b.

SPIRITS TURPENTINE.—A moderate business has been doing at our recent quotation. The market closed quiet but steady at 35½@36 cents per gallon for merchantable.

TAR.—Is dull, and lower prices have obtained. We quote Washington and Newbern at $2.12½@2.37½ and Wilmington at $2.40@2.60 per bbl.

TRANSFER GRAINING.

THE ONLY COMPLETE PROCESS OF GRAINING EVER INVENTED.

Its practicability and utility are fully established by the 350 Licenses and Machines in use.

It copies exactly **ALL NATURAL WOODS**; also, ASSUMED DESIGNS ETCHED OR ENGRAVED ON WOOD, GLASS, OR METALS.

The process is so simple and complete that Panels of all sizes and shapes can be grained, so that unskilled labor can be employed. The American Institute awarded us the HIGHEST PREMIUMS for it in 1872 and 1873.

For Circulars, Samples, and References, apply to

CROSS & BASTINE, 132 West Broadway, N. Y

Caution.—All persons buying a Graining Machine in which a smooth elastic surface is used, are hereby notified that we are the inventors and owners of Letters Patent pertaining to and fully covering this process. We shall hold all parties responsible by suit who purchase of one John Johnston, offering for sale a smooth elastic surface for transferring configurations or graining, or any one unauthorized by us. Suits have been commenced against Edward W. Baxter & Co. and others for infringing. We shall prosecute all parties found using or vending, to the full extent of the law. Fourthly—The amount of capital which each of the said special partners has contributed to the common stock of such partnership is as follows: The said John T. Martin has contributed the sum of Fifty Thousand Dollars in cash, and the said William R. H. Martin has also contributed the sum of Fifty Thousand Dollars in cash.

Fifthly—The period at which the said partnership is to commence is the sixth day of November, One Thousand Eight Hundred and Seventy-four, and the period at which it will terminate is with the thirty-first day of December, One Thousand Eight Hundred and Seventy-seven.

In witness whereof we have hereunto set our hands and seals, this sixth day November, A. D., 1874.

MARVIN N. ROGERS,
CHARLES B. PEET,
FRANK R. CHAMBERS,
JOHN T. MARTIN,
W. R. H. MARTIN.

In presence of David J. H. Wilcox.

NOTICE IS HEREBY GIVEN THAT JOSEPH H. Groht, who resides in the Town of Tenafly, Bergen County, and State of New Jersey; Henry M. McLaren, who resides in the City, County, and State of New York; and Edward J. Salmon, who resides in the City, County, and State of New York, have formed a limited partnership pursuant to the provisions of the Revised Statutes of the State of New York, under the firm name of GROHT & McLAREN; that the general nature of the business to be transacted is that of commission merchants and dealers in country produce and all business connected therewith and applicable thereto; that all the parties interested in said firm are the said Joseph H. Groht and Henry M. McLaren who are the general partners, and the said Edward J. Salmon who is the special partner; that the said Edward J. Salmon has contributed the sum of Fifteen Thousand Dollars as capital toward the common stock; and that the said partnership is to commence on the nineteenth day of November, A.D., 1874, and to terminate on the thirtieth day of April, A.D., 1878.

Dated New York, November 19, 1874.

JOSEPH H. GROHT,
H. M. McLAREN, } General Partners,
EDWARD J. SALMON, Special Partner.

THIS IS TO CERTIFY THAT THE UNDERsigned have, pursuant to the provisions of the Revised Statutes of the State of New York, formed a limited partnership under the name or firm of BALLARD & HALLEY; that the general nature of the business to be transacted is importing, dealing in, and jobbing silks, ribbons, and millinery goods generally; that William J. H. Ballard and William Halley, both residing in the City, County, and State of New York, are the general partners; and Lucius Moore, residing in the City of Hudson, State of New York, is the special partner.

That the said Lucius Moore has contributed in cash the sum of Twenty-five Thousand Dollars.

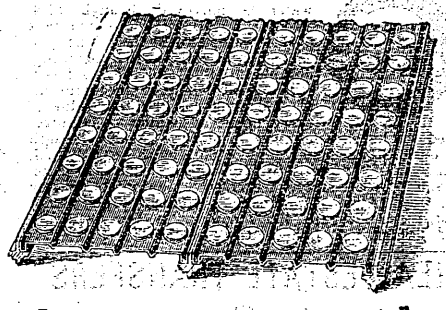
That the period at which the said partnership is to commence is the eleventh day of November, 1874, and the period at which the said partnership is to terminate is the thirtieth day of April, 1879.

As witness our hands and seals on this eleventh day of November, 1874.

WM. J. H. BALLARD,
WILLIAM HALLEY,
LUCIUS MOORE.

NOTICE IS HEREBY GIVEN THAT S. HARlem and Jacob Steinhardt, who each reside in the City, County, and State of New York, have formed a limited partnership in accordance with the provisions of the Revised Statutes of New York in the business of dealing in and manufacturing of Youths', Boys', and Children's clothing, in which the above-named persons are all the parties interested therein; that the said S. Harlem is the general partner and the said Jacob Steinhardt is the special partner; and the said Jacob Steinhardt has paid in in cash the sum of Nine Thousand Dollars as capital toward the common stock; and that said partnership is to commence on the eighteenth day of November, 1874, and is to terminate on the first day of January, 1876.

Dated New York, November 18, 1874.



S. HARLEM,
JACOB STEINHARDT.

NOTICE IS HEREBY GIVEN THAT CHARLES B. Helfenstein and George W. Fraim, who respectively reside in the City of Brooklyn, have formed a limited partnership pursuant to the provisions of the revised statutes of the State of New York, for the manufacturing, buying, and selling of horn and rubber jewelry and such other articles as are usually dealt in by wholesale and retail dealers in such line of business, in which all the parties interested are the said Charles B. Helfenstein, who is the general partner, and the said George W. Fraim, who is the special partner; that the said George W. Fraim has contributed the sum of Three Thousand Dollars as capital toward the common stock; that the place where said business is to be carried on is at No. 202 Broadway, in the City of New York; and that the said partnership is to commence on the first day of November, 1874, and is to terminate on the thirty-first day of December, 1882.

Dated this 29th day of October, 1874.

CHARLES B. HELFENSTEIN,
GEORGE W. FRAIM.

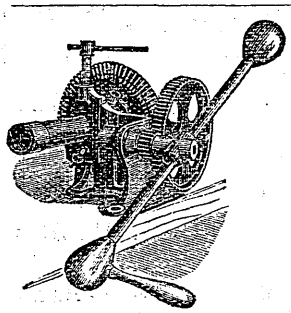
SOAPSTONE WASH TUBS.

A MUCH AND LONG NEEDED IMPROVEMENT.

None More Simple & None so Durable.



We are now manufacturing in this city to order, Wash Tubs and Sinks of the celebrated Francetown Soapstone.

Of the annoyance, costly repairs, and filthiness of our present wash tubs the public need not be told—experience has taught them. The superiority of them over wood is, they do not absorb the wash water and slops, consequently preventing that *disagreeable odor* in the house. They are easily kept sweet, clean, and dry. *They are not affected by hot or cold water. Never crack or leak.*

Cheaper than Wood, and will last a Lifetime.

They only need to be seen to be appreciated. All interested we invite to call and examine them at our wareroom.

CHASE'S PIPE CUTTING & THREADING MACHINE.

This important tool is designed to fill a want long felt by STEAM AND GAS FITTERS and MACHINISTS for cutting and threading pipes rapidly and cheaply. An apprentice boy, with one of these, can do more work than two men with old appliances, under the old system. NO PIPE SPLITTING! NO BEVEL INSIDE OR OUT! It cuts threads and makes nipples for all sizes of pipes, from ⅛ to 2 inches. Weighs only 100 lbs. Stronger than any machine made. A set of collars and lengths for making nipples goes with the machine. Address THE CHASE MANUFACTURING COMPANY,

Magrath's Copper Sash-Chain.

Patented 21st March, 1871.

Is adapted to ordinary round pulley, and strong enough to suspend weights of any size required.

Being intended as a substitute for sash-cord, it can be put into sashes now provided with cord without any change of pulleys. The inventor feels confident that experience will prove his chain to be both economical and durable, besides doing away with the constant annoyance and expense attending the use of sash-cord.

The Special Committee appointed by this Board in relation to the use of vault covers on the sidewalks throughout the city, beg leave to report that the committee have taken pains to examine the different vault covers at present being put down on the sidewalks, and find that the "Sharts' Patent Concrete Covers," on sale at 263 Broadway, appear to answer the requirements of the ordinance completely, without any of the objectionable features of the iron covers. We have examined some of them that have been in use on our principal thoroughfares during the last two years, showing little or no perceptible wear, and we would recommend them to our citizens in preference to any others we have yet seen.

MORTGAGES.

REAL ESTATE.

NEW YORK.

NOTE.—The arrangement of this list is as follows: The first name is that of the mortgagor, the next that of the mortgagee. The description of the property then follows, then the date of the mortgage, the time for which it was given, and the amount. The general dates used as headings are the dates when the mortgage was handed into the Register's office to be recorded.

Wherever the letters "P. M." occur, preceded by the name of a street in these lists of mortgages, they mean that it is a Purchase Money Mortgage, and for fuller particulars see the list of transfers under the corresponding date.

TO CAPITALISTS.

FOR SALE, ROBINSWOOD, for twenty years the country seat of Stewart Brown, Esq., of Brown Bros., situated on the shore of Whitestone Bay, Long Island, one hour from the City Hall by Central Railroad of Long Island. This property contains thirty-five acres, elegantly laid out, paths and groves with magnificent shrubbery, a fine substantial mansion, giving a full view of Long Island Sound, the eastern shipping of the port pasing within plain sight of the piazza; also a gardener's cottage, green-house, barn, stables, boat-house, and bathing-house.

There are few if any places in the suburbs of New York which equal this English bit of landscape which is just suited for the residence of a gentleman of wealth and position. It adjoins the property of W. W. Cryder, and the owner prefers to sell it in its entirety, as the property is too fine to be cut up. Price, $100,000. Inquire of Mr. Brown's attorney, Geo. W. Van Siclen, 99 Nassau Street, New York.

MISCELLANEOUS.

REVIEW OF THE REAL ESTATE MARKET.

The market has been of a shifting character, as shown in the sales of the past week. Prices have been up and down, as the feeling of the hour affected them, and in one instance, where a plot of lots favorably situated was sold at very low figures, other lots in the same neighborhood, but of much inferior location, brought the same, and, of course, proportionately higher prices.

The public sales have been somewhat numerous, notwithstanding the interruptions of Thanksgiving. In some of them fair prices were secured, while in other the decline was marked, notably in one instance, where the property brought (under foreclosure, however) only forty-five per cent. of its former valuation. Private transactions are more fully reported than last week, and the confident feeling that governs large real estate interests is fairly shown in the following instance: on Tuesday Lespinasse & Friedman sold at auction, and in foreclosure, three lots, not of full depth, located at and adjoining the southwesterly corner of Eleventh Avenue and Ninety-sixth Street, for $11,725, and the day following resold, at private contract, the same property to E. S. Higgins for $14,000. The first purchaser cleared $2,250 in the transaction. Messrs. Duggin & Crossman have closed out several of their houses, which were offered by them at upset prices. Two houses and lots, Nos. 3 and 5 East Forty-fourth Street, sold for $64,000 each, and No. 9 East Forty-fourth Street, brought $69,000. These were all disposed of at private contract, and for $4,000 each above the upset figures. No. 11 East Forty-fourth Street was sold under a bid of $70,000, or an advance of $5,000 upon the upset valuation. Bids were made for other portions of Messrs. Duggin & Crossman's offerings, but, involving exchanges, were reserved for consideration.

The general feeling in real estate favors reaction. There are some who are inclined to bear the market, but the prevalent tone is hopeful. Recovery must be slow, and buyers are determined to place their money cautiously, but there is none the less a tendency to investment, and bargains are sought.

In some respects the market is better than it has been. It is devoid of panic, and, while the advanced season doubtless has its effect in preventing a rush of property upon the public market, there seems to be more acquiescence among owners in the idea of letting real estate take care of itself, and, consequently, less disposition to hazard its recovery by doubtful and trifling experiments. Values continue nominally as under previous conditions of sale, but are unsettled, and vary according to the temper and disposition of contracting parties, and much more can not be expected until the opening season of the coming year puts forth its announcements and enters upon its experiences.

LOCAL ITEMS.

The Department of Charities and Corrections asks for proposals for building three pavilions on Blackwell's Island.

The Police Department asks for proposals for furnishing thirty carts and for thirty sets of cart harness.

MARKETS.

The only change in the markets is the stronger feeling excited by the prospective close of navigation and consequent suspension of shipments. This occasion does not include every line of trade under review, and strength and activity are therefore special and not general characteristics. Stocks to meet the winter and early spring demand are now filling up. Some of the yards are supplied, while others are still short of their requirements, and many of them will not carry over the quantity of material that has been customary in past years.

In general, trade continues dull, with low and irregular prices. Despite all disadvantages, however, we believe that the building market would show greater activity but for the restrictions that prevent the employment of money. Taxation upon mortgages imposes a double tax upon property, and prevents competition in investment. Money-lending is left chiefly to corporations or estates, which fully understand the art of large percentages, while nominally loaning free. The usury law adds another obstacle to free money, and we feel sure that, with the abolition of both of these obstructions to investment, not only the building trade, but the real estate market would receive an impetus which would advance our city much further in the way of improvement and prosperity.

There is abundant money which will find use, if opportunity for making it productive is found, and the greater the employment of capital the greater will be the improvement in trade.

Our market reports in detail are appended:

BRICK.—The arrivals of hard have been about up to the average of the season, between 5,000,000 and 6,000,000 of bricks having come down the river during the week. Cargoes have moved quickly, not over a 1,000,000 of brick awaiting sale at the time of report, with every probability that all would be taken up. There was some anticipation that the market would get bare before Saturday, as the prevalent winds have driven the tides out and boats are consequently likely to be detained. Some question has arisen as to what has become of the brick recently passing through the market. The consumption cannot account for them, and we believe that it will be found that a greater amount of stock has been yarded than has generally been supposed since the low rates which have recently prevailed are likely to leave ample margin for profit under the call that will arise in the spring, even with restricted building operations. We hardly think that there is an overstock, yet it is possible that dealers have generally acted upon the idea that prices are too low to last and have speculated accordingly. Pale brick have, in some instances, sold lower than last week's prices, while other sales have been fully up to the quotation. We quote them 50 cents per M low. Jersey, Up-river, and Haverstraw Bay bricks are steady as previously reported. Fronts are unchanged. We quote as to cargo lots: Pale, ℔ M, $3@3.50; Jersey, $5.75@6; Up-river, $6.50@7.25; Haverstraw Bay, $7.25@8; Fronts, Croton—brown, $12; dark, $13; red, $14; Philadelphia, $28@32; Baltimore, $50@58, cost of delivery to be added.

CEMENT.—Rosendale is still quoted at $1.10@1.30 from manufacturers' hands and at $1.25@1.40 from yard. Sales of Portland have been of 300 bbls. from store at $4.85, 300 bbls. to arrive at $4.50, and of 1,000 bbls. to the Department of Docks on contract, the terms of which have not been declared publicly. Quotations are retained.

GLASS.—The stock of French window is very limited and shipments hither are few. These, with a prevailing fair demand, sustain prices, and the market is very firm at 60 and 5 per cent. discount; English sheet and polished plate are in light request at previous quotations.

HAIR.—There have been small sales of goat at 28 and of cattle at 18 cents per bushel. Trade is of an uncertain character, and the market is generally dull. We quote according to quality, for cattle 12@25 cents and for goat 14@28 cents per bushel.

HARDWARE.—Trade is light and the market dull. From the revised price-lists we reproduce the following: The Hart, Bliven & Mead Manufacturing Company quote No. 70 and 170 store door-handles 70 and 10 and 10 per cent. discount, before 70 off.

LATH.—In view of the demand for winter stock, prices have stiffened. We have rumored sales at $1.70, but in default of positive information cannot quote at that price. Our quotation for cargo lots is $1.65 per M.

LIME.—The market is steady and firm at our most recent quotations. We understand that most of the dealers are supplied for the winter, and that some manufacturers will carry but one-twelfth of the quantity in store as compared with last winter's stock. We quote State common at 90@$1 per bbl. Finishing $1.25. Rockland $1@1.50. Yard prices 15@25 cents per bbl. higher.

LUMBER.—The wholesale market continues dull, and the export trade is very irregular. Prices of white pine are nominal at $18@23. Yellow pine is unchanged from previous report, quoting at $20@24 for random and $23.50@30 for ordered sizes. Southern advices report sales of West India cargoes at $17.50@18.50. Flooring and sidings are nominally as before. Spruce is dull at $14@19. The yards retain a moderate trade, sufficient to keep business going. Stocks of pine are light, comparatively speaking, and we are unable to discover any overstock. Hard woods are very dull, and although stocks are full, quotations are well up, competition not being so excessive as to weaken prices, while manufacturers hold closely to their figures.

Michigan and Wisconsin Notes.

The Bay City *Tribune*, in its annual statement for 1874, places the total shipments of lumber from the Saginaw Valley for the season at 481,183,362 feet, and says that a competent judge estimates that the lumber shipped will average about 11 per cent. uppers, 78 per cent. common, and 11 per cent. culls.

The market has fluctuated somewhat, but probably the lumber forwarded averaged $5.50, $11, and $35.

The total shipments of laths from the same point was 37,022,925; of shingles 76,285,500; of staves 4,623,068; of shooks 1,107,000 and 14,000 pickets; of hoops 24,557,000. Of timber 2,845,700 cubic feet were shipped.

From the *Lumberman's Gazette*, Nov. 21, 1874:

There is very little to report in the Saginaw River markets. Within the past two weeks there have been occasional inquiries, a little more frequent than before, but generally for small lots to finish up the stocks of yards for the winter. The sawing season may be regarded as over, and the close of navigation, now near at hand, will find not far from the same amount on docks as at the same time last year. The logs in the river are much less numerous than last year, and the several booms are clear, except the Tittabawassee, in which stream and its tributaries there will remain about 150,000,000 feet, counting all logs in and above the boom limits. There has been no change in prices. The movement into the woods continues quite active, and it is evident that more logging will be done the coming winter than has been generally expected, though the amount must still fall short of the cuts of some previous years.

Lake freights from the Saginaw River are hardly quotable. From $2.25 to $2.50 to Ohio ports has been freely offered of late, and shippers complain of a scarcity of vessels at those rates. To Buffalo $3.50 was offered, with the same complaint. Many lumber carriers are out of the business for the season, though some others are calculating on one or two trips more.

Along the Lake Huron shore the situation remains unchanged, and the same may be said of the Western Michigan districts. In the latter, without exception, preparations for logging this winter are very ample, and with anything like a favorable season a very large stock of logs will be put in.

Our advices from Wisconsin and Minnesota do not indicate, on the whole, a reduction in the supply for next year. A depreciation of 15 to 20 per cent. in the prices, consequent upon the overstock, seems not to have convinced lumbermen that the trade is overdone.

METALS.—COPPER.—Manufactured is firm at the following quotations: New sheathing, 28 cents and bolts and braziers', 30; bronze and yellow metal sheathing, 21@22; and yellow metal bolts 28. Ingot is in good demand at 23@23¼ cents, cash, 23¼@23¾ cents for early delivery, and 24 cents for January to April.

IRON.—There is no change in the feeling of the market. Scotch pig is in limited request, but light stocks and small receipts keep the market clear and sustain prices. American pig is very much depressed, without any prospect for improvement. Rails and scrap are dull and manufactured from store is very quiet, with quotations nominally unchanged.

LEAD.—Pig is quiet at $6.75 for foreign and $6.25@6.30 for domestic, all gold. Bar, pipe, and sheet are held at 8¾ cents, less 10 per cent. to the trade.

TIN.—There have been large sales of pig, straits selling at 21½@21¾ cents, now held at 22@22½ for spot. L. & F. is held at 22½ and refined English at 21¾@22 cents, all gold. Plates continue depressed, although with more business than of late.

ZINC.—Sheet is quoted at 8¾@9 cents, gold, net.

NAILS.—Cut are quiet and steady at recent quotations. We quote; 10d. to 60d. common fence and sheathing, ℔ keg, $3.50@3.60; 8d. and 9d. common do. ℔ keg, $3.85; 6d. and 7d. common, ℔ keg, $4.10; 4d. and 5d. common do. ℔ keg, $4.40; 3d. and 4d. light, ℔ keg, $5.10; 3d. fine, ℔ keg, $5.85; 2d. ℔ keg, $6.60. Cut Spikes, all sizes, $3.85. Floor, Casing, and Box, 75 cents above the same sizes of Common—Finishing, $1 above, and Fine Finishing, $1.25 above.

OILS.—Linseed is steady, selling at 78 cents in casks from crushers' hands.

PAINTS.—Anticipating the early suspension of navigation, the jobbing trade has been very good and the market is quite active at steady prices. Sales of Ultramarine (Curtius'), have been made at 30 cents, gold. White lead has been somewhat active, B. B. ground selling at 10½@10¾ cents. Vermilions are firm, American quicksilver selling at the advance indicated in our last report. Paris white is in good request at our quotation.

PITCH—Is steady at $2.37½@2.50 for prime city, delivered.

SPIRITS TURPENTINE.—The market is dull, buyers not favoring quotations. Sales have been made at former prices, and we still quote at 35½@36 cents per gallon for merchantable.

TAR—Is quiet at $2.12½@2.37 per bbl. for Newbern and Washington and $2.40@2.60 for Wilmington.

263 Broadway, New York.

[*From the official proceedings of the Board of Assistant Aldermen, Oct.* 12, 1874.]

The Special Committee appointed by this Board in relation to the use of vault covers on the sidewalks throughout the city, beg leave to report that the committee have taken pains to examine the different vault covers at present being put down on the sidewalks, and find that the "Sharts' Patent Concrete Covers," on sale at 263 Broadway, appear to answer the requirements of the ordinance completely, without any of the objectionable features of the iron covers. We have examined some of them that have been in use on our principal thoroughfares during the last two years, showing little or no perceptible wear, and we would recommend them to our citizens in preference to any others we have yet seen.

SOAPSTONE WASH TUBS.

A MUCH AND LONG NEEDED IMPROVEMENT.

None More Simple & None so Durable.

We are now manufacturing in this city to order, Wash Tubs and Sinks of the celebrated Francetown Soapstone.

Of the annoyance, costly repairs, and filthiness of our present wash tubs the public need not be told—experience has taught them. The superiority of them over wood is, they do not absorb the wash water and slops, consequently preventing that *disagreeable odor* in the house. They are easily kept sweet, clean, and dry. *They are not affected by hot or cold water. Never crack or leak.*

Cheaper than Wood, and will last a Lifetime.

They only need to be seen to be appreciated. All interested we invite to call and examine them at our warerooms.

CHASE'S
PIPE CUTTING & THREADING
MACHINE.

This important tool is designed to fill a want long felt by STEAM AND GAS FITTERS and MACHINISTS for cutting and threading pipes rapidly and cheaply. An apprentice boy, with one of these, can do more work than two men with old appliances, under the old system. NO PIPE SPLITTING! NO BEVEL INSIDE OR OUT! It cuts threads and makes nipples for all sizes of pipes, from ⅛ to 2 inches. Weighs only 100 lbs. Stronger than any machine made. A set of collars and lengths for making nipples goes with the machine. Address THE CHASE MANUFACTURING COMPANY.

Magrath's Copper Sash-Chain.

Patented 21st March, 1871.

Is adapted to ordinary round pulley, and strong enough to suspend weights of any size required.

Being intended as a substitute for sash-cord, it can be put into sashes now provided with cord without any change of pulleys. The inventor feels confident that experience will prove his chain to be both economical and durable, besides doing away with the constant annoyance and expense attending the use of sash-cord.

MORTGAGES.

REAL ESTATE.

NEW YORK.

NOTE.—The arrangement of this list is as follows: The first name is that of the mortgagor, the next that of the mortgagee. The description of the property then follows, then the date of the mortgage, the time for which it was given, and the amount. The general dates used as headings are the dates when the mortgage was handed into the Register's office to be recorded.

Wherever the letters "P. M." occur, preceded by the name of a street in these lists of mortgages, they mean that it is a Purchase Money Mortgage, and for fuller particulars see the list of transfers under the corresponding date.

TO CAPITALISTS.

FOR SALE, ROBINSWOOD, for twenty years the country seat of Stewart Brown, Esq., of Brown Bros., situated on the shore of Whitestone Bay, Long Island, one hour from the City Hall by Central Railroad of Long Island. This property contains thirty-five acres, elegantly laid out, paths and groves with magificent shrubbery, a fine substantial mansion, giving a full view of Long Island Sound, the eastern shipping of the port passing within plain sight of the piazza; also a gar-

dener's cottage, green-house, barn, stables, boat-house, and bathing-house.

There are few if any places in the suburbs of New York which equal this English bit of landscape which is just suited for the residence of a gentleman of wealth and position. It adjoins the property of W. W. Cryder and the owner prefers to sell it in its entirety, as the property is too fine to be cut up. Price, $100,000. Inquire of Mr. Brown's attorney, Geo. W. Van Siclen, 99 Nassau Street, New York.

MISCELLANEOUS.

REVIEW OF THE REAL ESTATE MARKET.

The week has been barren of events valuable as exponents of the market, and, while much interest has attached to the public sales, few of them have been other than legal sales. The most important transaction, location and character considered, was the sale in foreclosure of Booth's Theatre, comprising the large granite building of that name, with the plot of ground fronting seventy-nine feet on Sixth Avenue, and one hundred and eighty-four feet on Twenty-third Street. This property was bought in by parties interested, for $361,000, and the price is inadequate as a fair representation of value.

Other sales have been of an ordinary character, and without occasion for particular comment.

The recorded transfers show the extent of business doing, and their details are more valuable than any summary we can offer.

The general market has been quiet and dull, with no reports of contracts closed, and previous conditions are sustained.

LOCAL ITEMS.

The School Trustees of the Twenty-fourth Ward ask for proposals for additions and alterations to Grammar School No. 66, near Kingsbridge.

The Department of Public Charities and Corrections asks for proposals for furnishing Straw, Tobacco, Meal, and Rice.

One per cent. will be added to all taxes unpaid on the 1st of December; also an additional one per cent. on December 15. On all tax remaining unpaid on January 1, interest at the rate of twelve per cent. per annum, calculated from the day the books were received by the Receiver of Taxes to the day of payment, will be added.

The Commissioners for the erection of a new Court House on the site of Jefferson Market ask for proposals for Steam Elevator and Heating Apparatus.

The Department of Public Works reports the following contracts completed: Lexington Avenue, between Sixty-seventh and Sixty-eighth streets, sewer; Thirteenth Avenue, between Gansevoort and Bloomfield streets, sewer; Seventy-third Street, between Eighth Avenue and North River, regulating, grading, etc. Also the following Certificates of Costs of Improvements, transmitted to the Board of Assessors: Eightieth Street, from Eighth Avenue to Hudson River, regulating, grading, etc., $32,027.47; First Avenue, from Sixty-first to Ninety-second Street, paving, $141,676.22; Manhattan and One Hundred and Thirteenth streets to Hudson River, etc., outlet sewer, $107,482.75; Eleventh Avenue and Seventeenth Street to Hudson River, etc., outlet sewer, $254,044.64; Ninety-fifth and Ninety-eighth streets, between First and Third avenues, etc., sewers, $60,883.67; total, $596,114.75.

Croton Water has been introduced on Boulevard, between One Hundred and Thirty-eighth and One Hundred and Forty-third streets, and on One Hundred and Forty-third Street, west of Boulevard.

The School Trustees of the Twenty-second Ward ask for proposals for material and work for a new School building, to be erected on Fifty-fourth Street, between Sixth and Seventh avenues.

MARKETS.

Our review is limited by the conditions of trade, which are unaltered from previous report, save in the firmer tone and hardening prices excited by diminished supplies and the draft upon reserved stocks soon to follow.

Outside of our own markets there is a turn in commercial affairs indicative of activity which, if not interfered with, will, ere many months, develop its influence in every direction. There is a flow of money to the Western and Southern sections of the country in return for products which will inevitably find its way back to the East to satisfy demands which have been awaiting just such distributions of currency as are now in progress. With money actively in circulation and restored confidence, there is no reason why trade of all kinds should not only improve, but flourish. The real estate market will certainly feel the effect to advantage, and the building trades, if not hazarded by undue speculation, will take on life which must be incident to the demands of a great city like ours in times of financial ease and commercial prosperity. The out-look for the future, therefore, is hopeful. We do not say that there will be early fulfillment, but there is promise which seems to be settling on a sure, if slowly laid, foundation, and which therefore becomes more valuable in its realization.

Appended are our reports of the markets in detail:

BRICK.—The movement of hard brick has been quicker than of late, less hanging in market and sales occurring easily at current quotations. The arrivals have been of about the average quantity, say 5,000,000 to 6,000,000, of which only 200,000 were unsold at the time of report. Prices are generally firm, with stronger tendencies. Jerseys are advanced 50 cents per M, otherwise quotations are unchanged. Fronts are steady as previously reported. The market presents no features of interest other than noted, and we quote as to cargo lots: Pale, ₱ M, $3@3.50; Jersey, $6.25@6.50; Up-river, $6.50@7.25; Haverstraw Bay, $7.25@8; Fronts, Croton —brown, $12; dark, $13; red, $14; Philadelphia, $28@32; Baltimore, $50@58, cost of delivery to be added.

CEMENT.—Rosendale is held steadily at $1.10@1.30, the best brands commanding full prices. Yard quotations are 15@20 cents higher. Portland has been in limited request, quoting at $4.25@4.50 per bbl. ex-vessel and $4.50@5 from store. Other foreign steady at same prices.

FIRE BRICK.—The market is dull and nominal at our quotations.

FOREIGN WOODS.—There is little life and no activity in the market. Our recent quotations are unchanged, and prices are steady upon their basis.

GLASS.—French window continues in very fair demand, and stocks are still limited in extent. Prices are therefore firmly sustained, and we quote at 60 and 5 per cent. discount. English plate is in moderate request at 45 per cent. discount. Polished sheet is quoted at 15 per cent. off.

HAIR.—We have no changes to note, as the market keeps to its previous conditions. We quote as to quality as follows: cattle, 12@25 cents; goat, 14@28 cents per bushel.

HARDWARE.—Trade is light, but prices are said to be steady. Despite all the complaints of poor business, it is now claimed that this market shows a good and even large increase in its aggregate returns as compared with last year, and this, too, with reduced prices. The volume of trade under such circumstances has swollen beyond general calculation, and certainly is not to be lightly regarded. Prices of copper rivets have been advanced in some directions, but the regular discount of 35 per cent. has not been generally altered by the trade, and still remains as the quotation.

LATH.—Latest sales were made at $1.65, and the market is bare, excepting, perhaps, a few odd lots. Two cargoes are expected which, it is said, will probably close all consignments for the season. Prices are firm and are expected to advance with arrivals, and the next sales that occur may be at $1.75. Our present quotation for cargo lots is $1.65 per M.

LIME.—The market is steady, and prices are firm with advancing tendencies for State, as arrivals are so nearly suspended that manufacturers will soon be compelled to draw upon the stock in store to fill orders. Rockland is still coming forward without any change in price. Certain State manufacture is held, without offering, at $1.10 per bbl. for common, but in default of sales at that figure the quotation is nominal. We quote, as usual, State common at 90@$1 per bbl., finishing, $1.25; Rockland common, $1, and finishing, $1.50. Yard quotations are 15@25 cents per bbl. higher, delivery, in all cases, to be added.

LUMBER.—The wholesale lumber market shows no change, prices ruling low and trade being of the dullest. From Western sources we gather proof of our assertion that Eastern buyers have not been as prominently in the market as producers have desired, and that stocks of lumber to be carried over at points of production are abundant, and will suffice to meet the prospective spring demand. We notice, too, that while there is conflict of opinion as to the quality of logs to be cut and run out during the coming year, there is a large enough estimate on all sides to enforce a belief that the production will be very large, and amply adequate to meet more than ordinary emergencies. Shipping orders for white pine are placed at previous quotations, but the export is limited and behind the experiences of past years. Yellow pine continues dull at $20@24 for random and $24@30 for ordered cargoes. Flooring and sidings are unchanged. Spruce is still quoted at $14@16. Hard woods are inactive, but firm at good prices. The yards maintain a fair trade, circumstances and season considered. Business was a little slow toward the end of November, but has shown a little more life since the present month opened. Quotations are unchanged and nominally steady.

Michigan and Wisconsin Notes.

From the *Lumberman's Gazette*, Nov. 28, 1874:

The week has brought the close of lake navigation, and all affairs connected therewith have assumed their usual winter shape. Two or three vessels are expected to arrive yet, and one, at least, was engaged to take a cargo of lumber. But if the expected craft makes the port in safety their masters will doubtless be satisfied not to tempt the hazards of the season by another trip. The season closes with not far from the same amount of lumber on the Saginaw River as was carried over last season. The actual figures have not been ascertained with certainty, but is safe to say that there is not a great difference, and that what excess there may be is on the side of the present season. From 20,000,000 to 30,000,000 feet will probably cover the difference between the two stocks. Prices have not varied from those which have for some months been regarded as established, and the demand was not materially improved toward the close, though, of course, there was a few additional buyers, anxious to complete their stock before navigation was over. Lake freights, of course, advanced as insurance went off, and rates were increased, but the season, take it altogether, showed by far the lowest carrying rates ever known. In the days when lumber was towed to Ohio ports in cities, more was allowed for the transportation than has been got by first-class vessels this year for carrying to Buffalo.

The movement into the woods continues quite brisk. The main incentive now is the desire to save burned timber. Late explorations have developed a greater extent of this damage than was before known, especially on the shore streams. Some operations not before contemplated have therefore been undertaken within the past few days. There is still a great deal of contradiction in the reports of the amount of logging to be done in the Michigan districts. We have just seen a private letter from one of the best informed and most candid lumbermen on the upper Muskegon, in which he says that after inquiring among the principal loggers there, he cannot figure up a crop of more than 225,000,000 for that stream this winter. The common estimate has been 400,000,000. Reports from other points are unchanged. The information received shows pretty conclusively that the aggregate supply for next season is not to be reduced. Most places have larger stocks to go over than last year, and this will balance the decrease in logging which is announced in some of the districts.

The outside demand shows no sign of improvement at present, and we are compelled to say, also, there are no very hopeful indications for next year. Eastern dealers seem to be thoroughly convinced that there will be at least the usual supply next year, and to be resolved to act accordingly. The knowledge, too, that large stocks must be carried over in the sawing districts, tends to relieve dealers of any apprehensions about an early supply in the spring.

From the Saginaw *Courier*, Nov. 29:—

THE TITTABAWASSEE BOOM CO.—The number of pieces rafted by the above company to November twenty-fifth were 2,057,977, against 1,445,519 during the season of 1873—a gain for this year of 612,458 pieces. The number moved since our last report of a week ago amounted to only 8,209 pieces, all the booms having been shut down except one. Business has now been completely suspended until next season.

It is estimated by good judges that there are about 100,000,000 feet of logs now in the booms, and some 75,000,000 "hung up," with a fair prospect of getting most of the latter out the coming year. The estimate of the majority of those who are interested in the lumber business relative to the amount of lumber contained in the logs handled by the boom company this season is in excess of the actual amount, which has been stated at about 400,000,000 feet. This calculation was based on the supposition that the logs would average 200 feet each, but as the real average was but 180 feet to the log the true total would be 370,435,860 feet.

Canada Notes.

OTTAWA, Ontario, December 2.—The total amount of lumber on hand at Chaudiere and Gatineau this fall is estimated at 66,075,000 feet, against 90,000,000 for last year. About one-quarter of all the lumber in the Chaudiere yards is sold, to be shipped in the spring.

METALS.—COPPER.—Manufactured is steady at the following quotations: New sheathing, 28 cents; bolts and braziers', 30; bronze and yellow metal sheathing, 21@22; and yellow metal bolts 28 cents, cash net. Ingot has been in demand at fadvanced prices, closing quite firm at 23¼@23½ cents for Lake.

IRON.—Stocks of Scotch pig are still limited, notwithstanding which prices are hardly as well sustained as heretofore. American pig shows no improvement, and demand is limited to the smallest quantity for present requirements. Rails and scrap are quiet. Manufactured is dull at our quotations.

LEAD.—Pig has very little movement. Foreign is held at $6.75@6.80, gold. Domestic is held at $6.25@6.35. Manufactured is steady as follows: Bar, pipe, and sheet 8¾ and tin-lined pipe 16¼ cents, all less 10 per cent. to the trade.

TIN.—The market for straits pig is stronger, and prices are quoted at 22½@23 cents. L. & F. is offered at 21½@21¾, refined English 21¾@22, all go'd. Plates are quiet at firmer prices.

ZINC.—Sheet is steady at 8¼ cents, gold, net.

NAILS.—Cut are dull without any change in prices. We quote: 10d. to 60d. common fence and sheathing, ₱ keg, $3.50@3.60; 8d. and 9d. common do. ₱ keg, $3.85; 6d. and 7d. common, ₱ keg, $4.10; 4d. and 5d. common do. ₱ keg, $4.40; 3d. and 4d. light, ₱ keg, $5.10; 3d. fine, ₱ keg, $5.85; 2d. ₱ keg, $6.60. Cut Spikes, all sizes, $3.85. Floor, Casing, and Box, 75 cents above the same sizes of Common—Finishing, $1 above, and Fine Finishing, $1.25 above.

OILS.—The market has shown more animation, and prices are advanced with stronger tendencies. We quote at 79@80 cents for casks. Some holders being firm at the latter figure.

PAINTS.—There is a good jobbing demand, although trade in large lots has been of moderate dimensions. Business is better than for the corresponding season last year, and prices are steady and strong. English white lead is in good demand. Vermilions are steady. American quicksilver being firm at the recent advance. Venetian red is in fair supply, with sales at 2¼@2½ cents, currency. Ochre is in good request, and China clay is steady at our quotations.

PITCH.—City is dull at $2.37½@2.50, f. o. b.

SPIRITS TURPENTINE.—The weakness apparent at our last report has culminated in a decline in price. Sales have been at 35½ cents for merchantable, the market closing quiet if not dull at 34½ cents bid, and 35 cents asked. We quote at 34½@35½ cents for merchantable.

TAR.—There has been a demand, and sales of 500 bbls. Washington and 600 bbls. Wilmington have been reported mostly on private terms. We quote Newbern and Washington and $2.30@2.40 and Wilmington at $2 50@2.60 per bbl.

ALBANY LUMBER MARKET.

[FROM THE ALBANY ARGUS, DECEMBER 2.]

But few buyers have been in market since our last report. As far as we can learn but little lumber has been sold. Shipments continue quite brisk, and it is expected that all to be sent forward this season will be shipped before the week closes. Ice has not appeared in sufficient quantities to check river navigation, and its final close, it is evident, is not near at hand. The canals, on which there is but little lumber afloat, are to be closed by order of the Commissioners on the fifth inst.

Stocks to winter over here and at West Troy are much lighter than was at one time expected.

The exports of lumber from the St. Lawrence to South America—a trade that a few years ago was almost monopolized at New York—has been much depressed. A Quebec paper says, "There is no prospect of its being speedily restored to its accustomed activity." The total quantity shipped from the St. Lawrence to the River Plate during the season does not amount to half the quantity shipped last year, as will be seen from the following statement.

Total shipments in 1874	16,262,293
Total shipments in 1873	35,234,965
Total shipments in 1872	28,234,965
Total shipments in 1871	26,005,935
Total shipments in 1870	25,146,183

At Chicago the reported receipts of lumber, by lake, to the twenty-four of November were 1,023,799,100 feet, against 1,065,107,000 feet the year previous; the shipments from January first are 562,452,000 feet, against 535,089,000 feet the previous year.

The receipts at Albany by the Erie and Champlain canals during the fourth week of November were:

A GOOD INVESTMENT

EVERY PRUDENT MAN, CAREFUL OF THE

health and comfort of his family, should see to it that his drinking water is conveyed through TIN-LINED LEAD PIPE, which is a perfect safeguard against lead poison. Tin-lined Lead Pipe is strong, durable, flexible, and easy soldered. It is a great benefit to the community, and enhances the real value of every house in which it is introduced. It is cheaper than Lead Pipe, when strength and durability are considered. Sold by the COLWELL LEAD CO., 313 Centre St., New York. Price, 16½ cts. a pound for all sizes. Descriptive pamphlets sent by mail free. Also, manufacturers of Lead Pipe, Sheet Lead, Block Tin Pipe, Bar Tin, Pig Tin, Bar Lead, Pig Lead, Solder, &c. Orders filled at sight.

(showing spurs.)
263 Broadway, New York.

[*From the official proceedings of the Board of Assistant Aldermen, Oct.* 12, 1874.]

The Special Committee appointed by this Board in relation to the use of vault covers on the sidewalks throughout the city, beg leave to report that the committee have taken pains to examine the different vault covers at present being put down on the sidewalks, and find that the "Sharts' Patent Concrete Covers," on sale at 263 Broadway, appear to answer the requirements of the ordinance completely, without any of the objectionable features of the iron covers. We have examined some of them that have been in use on our principal thoroughfares during the last two years, showing little or no perceptible wear, and we would recommend them to our citizens in preference to any others we have yet seen.

State of New York, City and County of New York, ss.:

On this twenty-fourth day of November, A.D., 1874, before me personally came Josiah S. Haley, Charles H. Wilson, and John L. Melcher, to me known to be the individuals described in and who executed the within instrument and acknowledged to me that they executed the same.

R. C. ELLIOTT,
Notary Public,
New York Co.

State of New York, City and County of New York, ss.:

Charles H. Wilson, being duly sworn, says: That he is one of the general partners named in the within certificate, and that the sum specified in said certificate to have been contributed by the special partner to the common stock has been actually and in good faith paid in cash.

Sworn to before me this twenty-fourth day of November, 1874. — CHARLES H. WILSON.

R. C. ELLIOTT,
Notary Public,
New York Co.

THIS IS TO CERTIFY THAT THE UNDERsigned have, pursuant to the provisions of the Revised Statutes of the State of New York, formed a limited partnership under the name or firm of BALLARD & HALLEY; that the general nature of the business to be transacted is importing, dealing in, and jobbing silks, ribbons, and millinery goods generally; that William J. H. Ballard and William Halley, both residing in the City, County, and State of New York, are the general partners; and Lucius Moore, residing in the City of Hudson, State of New York, is the special partner.

That the said Lucius Moore has contributed in cash the sum of Twenty-five Thousand Dollars.

That the period at which the said partnership is to commence is the eleventh day of November, 1874, and the period at which the said partnership is to terminate is the thirtieth day of April, 1879.

As witness our hands and seals on this eleventh day of November, 1874.

WM. J. H. BALLARD,
WILLIAM HALLEY,
LUCIUS MOORE.

NOTICE IS HEREBY GIVEN THAT S. HARlem and Jacob Steinhardt, who each reside in the City, County, and State of New York, have formed a limited partnership in accordance with the provisions of the Revised Statutes of New York in the business of dealing in and manufacturing of Youths', Boys', and Children's clothing, in which the above-named persons are all the parties interested therein; that the said S. Harlem is the general partner and the said Jacob Steinhardt is the special partner; and the said Jacob Steinhardt has paid in in cash the sum of Nine Thousand Dollars as capital toward the common stock; and that said partnership is to commence on the eighteenth day of November, 1874, and is to terminate on the first day of January, 1876.

Dated New York, November 18, 1874.

S. HARLEM,
JACOB STEINHARDT.

NOTICE IS HEREBY GIVEN THAT CHARLES B. Helfenstein and George W. Fraim, who respectively reside in the City of Brooklyn, have formed a limited partnership pursuant to the provisions of the revised statutes of the State of New York, for the manufacturing, buying, and selling of horn and rubber jewelry and such other articles as are usually dealt in by wholesale and retail dealers in such line of business, in which all the parties interested are the said Charles B. Helfenstein, who is the general partner, and the said George W. Fraim, who is the special partner; that the said George W. Fraim has contributed the sum of Three Thousand Dollars as capital toward the common stock; that the place where said business is to be carried on is at No. 202 Broadway, in the City of New York; and that the said partnership is to commence on the first day of November, 1874, and is to terminate on the thirty-first day of December, 1882.

Dated this 29th day of October, 1874.

CHARLES B. HELFENSTEIN,
GEORGE W. FRAIM.

State of New York, City and County of New York, } ss.:

THIS IS TO CERTIFY THAT THE UNDERsigned have formed a limited partnership under and in pursuance to the provisions of title first, chapter fourth, part second of the revised statutes of the State of New York, entitled of Limited Partnerships, and the several statutes amending or affecting the same, upon the terms and with the rights and powers, duties, and exemptions therein prescribed, as follows:

First—The name or style under which such partnership is to be conducted is ROGERS, PEET & CO.

Secondly—The general nature of the business intended to be transacted is the general clothing business, in the City of New York.

Thirdly—The names of all the general and special partners interested in said business are Marvin N. Rogers, Charles B. Peet, Frank R. Chambers, John T. Martin, and William R. H. Martin.

The said Marvin N. Rogers is a general partner, and his place of residence is the City of Brooklyn, County of Kings, and State of New York.

The said Charles B. Peet is a general partner, and his place of residence is the City, County, and State of New York.

The said Frank R. Chambers is a general partner, and his place of residence is the City, County, and State of New York.

The said John T. Martin is a special partner, and his place of residence is the City of Brooklyn, County of Kings, and State of New York, and the said William R. H. Martin is a special partner, and his place of residence is the City, County, and State of New York.

Fourthly—The amount of capital which each of the said special partners has contributed to the common stock of such partnership is as follows: The said John T. Martin has contributed the sum of Fifty Thousand Dollars in cash, and the said William R. H. Martin has also contributed the sum of Fifty Thousand Dollars in cash.

Fifthly—The period at which the said partnership is to commence is the sixth day of November, One Thousand Eight Hundred and Seventy-four, and the period at which it will terminate is with the thirty-first day of December, One Thousand Eight Hundred and Seventy-seven.

In witness whereof we have hereunto set our hands and seals, this sixth day November, A. D., 1874.

MARVIN N. ROGERS,

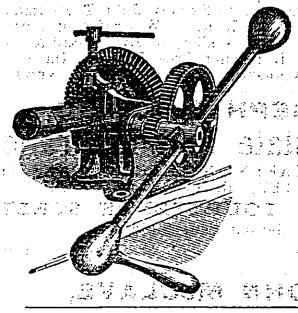
SOAPSTONE WASH TUBS.

A MUCH AND LONG NEEDED IMPROVEMENT.

None More Simple & None so Durable.

We are now manufacturing in this city to order, Wash Tubs and Sinks of the celebrated Francetown Soapstone.



Of the annoyance, costly repairs, and filthiness of our present wash tubs the public need not be told—experience has taught them. The superiority of them over wood is, they do not absorb the wash water and slops, consequently preventing that *disagreeable odor* in the house. They are easily kept sweet, clean, and dry. *They are not affected by hot or cold water. Never crack or leak.*

Cheaper than Wood, and will last a Lifetime.

They only need to be seen to be appreciated. All interested we invite to call and examine them at our warerooms.

CHASE'S
PIPE CUTTING & THREADING MACHINE.

This important tool is designed to fill a want long felt by STEAM AND GAS FITTERS and MACHINISTS for cutting and threading pipes rapidly and cheaply. An apprentice boy, with one of these, can do more work than two men with old appliances, under the old system. NO PIPE SPLITTING! NO BEVEL INSIDE OR OUT! It cuts threads and makes nipples for all sizes of pipes, from ⅛ to 2 inches. Weighs only 100 lbs. Stronger than any machine made. A set of collars and lengths for making nipples goes with the machine. Address THE CHASE MANUFACTURING COMPANY,

Magrath's Copper Sash-Chain.
Patented 21st March, 1871.

Is adapted to ordinary round pulley, and strong enough to suspend weights of any size required.

Being intended as a substitute for sash-cord, it can be put into sashes now provided with cord without any change of pulleys. The inventor feels confident that experience will prove his chain to be both economical and durable, besides doing away with the constant annoyance and expense attending the use of sash-cord.

TO PROPERTY OWNERS AND BUILDERS.

The Fire-proof Building Company, of New York, 111 Broadway, has now been sufficiently long in existence to allow us to speak with commendation of the work performed by them in numerous public buildings in this city and vicinity. Their fire-proof partitions in the Western Union Telegraph, Bennett, Drexel, Staats Zeitung, and numerous other buildings, as well as their ceilings in Columbia College, Windsor Hotel, Lenox Library, Delaware and Hudson Canal Company, have all led to a reduction in the rates of insurance, for the simple reason that in most of these buildings there exists now a number of distinct fire-proof compartments. No overheated furnace or the accidental bursting out of a flame in any single part of either of these buildings can set the whole edifice in flames, for there is not sufficient combustible material to cause a general conflagration. And here comes in the difference between the French and American methods of construction. The Fire-proof Building Company have simply introduced the French method, which consists in the use of a large amount of incombustible deafening material in the partitions and floors, thus confining any fire which may break out to the compartment in which it originated.

There can be no doubt, with a continuation of the discipline now characterizing our excellent fire department, and the general adoption of the above-mentioned method in most of our public and new private buildings that New York will, within very few years, be better protected against the dangers of a general conflagration than any other city in the Union. We do not intend, in the scope of this article, to speak technically of the material used by this fire-proof building company, but we would advise all owners of property who are about to erect new buildings first to inspect any of the edifices mentioned above, and then to repair to the offices of the company, at 111 Broadwny, where either Mr. Beckwith, the President, or Mr. Tartiere, the Superintendent, will explain the more detailed advantages offered by the system introduced in the erection of buildings on the above plan. So far a remarkable success has attended the labors of the company, which now has factories at 383 South Street, New York, at Elizabethport, N. J., and at Keyport, Raritan Bay.

A NEW ELEVATOR.

Workmen are now engaged in the Hamilton building, 229 Broadway, in putting up a telescopic, hydraulic elevator which promises to surpass in safety, convenience, and economy, the ordinary elevators of our hotels and stores. The car is not suspended, but is supported underneath, and the entire apparatus works upon the principle of the hydraulic press, and consists of a nest of tubes, the one within the other, working in and out like the joints of a telescope. The tubes are extended by the action of a fluid forced into them, and are retracted by gravity when the contained fluid is allowed to flow out of them. The platform is perfectly smooth and steady, with no trembling. Being worked from below, this elevator does not bring any pressure to bear upon the upper stories, a great advantage which must necessarily affect the stability of a building. A company has been organized which will shortly begin operations at 229 Broadway, and transact all business pertaining to the erection of this particular elevator, for which already many orders have been received. General Graham, of the Department of Docks, is President, and the well-known real estate auctioneer, Mr. Oliver Bryan, is Treasurer of the new company.

We beg to call the attention of the Superintendent of Incumbrances to the vault covers in front of A. T. Stewart's wholesale establishment. They have been altered in a manner so objectionable to pedestrians that curses, not loud but deep, are involuntarily muttered by the thousands upon thousands compelled to pass by at all hours of the day. If the new corporation ordinance is to be evaded in this manner, it would have been far better not to have enacted it at all. A slippery vault cover can only be objectionable in the winter season; the iron pins now projecting from Mr. Stewart's covers make them objectionable at all seasons of the year. While we call upon the city authorities to compel their removal from Mr. A. T. Stewart's premises, we at the same time call upon property owners generally to obey the new municipal ordinance in regard to vault covers in thorough good faith, and not to aggravate the sufferings of pedestrians who, before the passage of the ordinance, were in danger of breaking their necks three months in a year, and who, if Mr. Stewart's example be followed, will have iron pins run into their feet from one end of the year to the other.

MORTGAGES.

REAL ESTATE.

NEW YORK.

NOTE.—The arrangement of this list is as follows: The first name is that of the mortgagor, the next that of the mortgagee. The description of the property then follows, then the date of the mortgage, the time for which it was given, and the amount. The general dates used as headings are the dates when the mortgage was handed into the Register's office to be recorded.

Wherever the letters "P. M." occur, preceded by the name of a street in these lists of mortgages, they mean that it is a Purchase Money Mortgage, and for fuller particulars see the list of transfers under the corresponding date.

MISCELLANEOUS.

REVIEW OF THE REAL ESTATE MARKET.

Real estate events during the week were chiefly of a public character, and transactions at the Exchange excited interest and competition. Sales of improved and unimproved property were made, bringing standard values into comparison with speculative, and results again demonstrated that the market is weak only in lines of property which have no solid basis for value, and which are as much affected by circumstances as fancy stocks, or other matters of mere speculation.

Outside of these indications the market shows nothing new, and is generally quiet, holding to former conditions in default of any movement. Private sales have been few, although a contract of some magnitude is rumored to have been closed. The report, however, has not been presented to us in reliable form, and we do not give it publicity.

Preparations are making for the coming season, and discussion as to rents has been thus early raised. It seems to be conceded that higher rates will not prevail, and, in some localities, concessions are suggested.

LOCAL ITEMS.

The Department of Charities and Corrections asks for proposals for Dry Goods.

The New York Bridge Co. reports for the month ending Nov. 30: Receipts, $41,840.27; expenditures, $82,479.69.

ADVERTISED LEGAL SALES.

MARKETS.

Trade is settling down into its customary channels for the winter season, and prices of many kinds of material are steadying, with purpose of advancement as soon as circumstances will admit. In some cases an upward movement has already begun, and in certain details of our report are decided, and fully carry out indications heretofore noted. In general, there is nothing new, as the current of trade for the week has been even, and of unchanged volume. The open weather has protracted operations, and will probably bring the average of the month up to, if not in excess, of any corresponding season for several years. It will not be surprising, when the summary of the year comes to be written, to find that business interests have not suffered to the extent generally credited. There has probably been less spasmodic or speculative movement in building material than in times past, with a steadier flow of trade, distributed more evenly than in former years, and perhaps making in the aggregate a very fair record of success. Prices have been low, and too much so at times to bear out former ideas of profit, but the opinion seems to be growing that general results have been fair, despite all the accidents of the year. We sincerely trust, when the balance-sheets are made up, that this will prove to be the case.

Appended will be found our review of the markets in detail:

BRICK.—The conditions of the market are similar to those of last week. Prices have no appreciable change, and whatever variations may have occurred have been such as to suit the temper of the moment, while nothing has been done to alter quotations. The river keeps open, and the arrivals of hard have been of the average character in quality and quantity. Five to six millions have come forward, and while about a million were in market at the time of latest report, they were of recent arrival, and the movement was active enough to indicate their speedy absorption. Jersey brick are steady at old rates. Fronts are also unchanged. We quote: Pale, ℔ M, $3@3.50; Jersey, $6.25@6.50; Up-river, $6.50@7.25; Haverstraw Bay, $7.25@8; Fronts, Croton—brown, $12; dark, $13; red, $14; Philadelphia, $28@32; Baltimore, $50@58, cost of delivery to be added.

CEMENT.—Rosendale is steady at former figures, viz., $1.10@1.30 per bbl., and the best brands are held quite firmly at the highest rates. Portland is unchanged, and we note sales of 200 bbls. at $4.85 from store.

GLASS.—The market is fairly active, and the demand continues good. Stocks of French window are limited, and prices are well sustained and firm at 60 and 5 per cent. discount. English sheet is in fair request, and steady at 45 per cent., and polished plate at 15 per cent. discount.

HAIR.—The market is quiet, with small transactions in cattle at 15 cents—an advance of one cent per bushel on previous sales. We quote generally as to quality: Cattle at 12@25, and goat at 14@28 cents per bushel.

HARDWARE.—There are a few changes in prices, which we append. In general, trade is of the usual nature, the demand being of a small jobbing character, with steady prices. American goods are in limited request, while for foreign there is a better call. English files are selling at a reduction of 25 cents (gold). Brass and copper goods are firmer. Copper rivets and bars are now quoted 25 per cent. discount. The prices of iron pipe have been reduced, but with a discount of 30 per cent. only, making the net price on 1¼ inch and upward higher, and on 1 inch and under, lower. The new prices, per foot, are as follows: Plain, ⅛ inch, 4c.; ¼ inch, 4c.; ⅜ inch, 5c.; ½ inch, 6c.; ¾ inch, 8c.; 1 inch, 11c.; 1¼ inch, 18c.; 1½ inch, 25c.; 2 inch, 34c.; 2½ inch, 54c.; 3 inch, 67c.; 3½ inch, 90c.; 4 inch, $1.10; 4½ inch, $1.40; 5 inch, $1.65; 6 inch, $2.25; 7 inch, $3.25; 8 inch, $4.50. Galvanized, ¼ inch, 8c.; ⅜ inch, 8c.; ½ inch, 11c.; ¾ inch, 13c.; 1 inch, 18c.; 1¼ inch, 27c.; 1½ inch, 36c.; 2 inch, 48c.; 2½ inch, 77c.; 3 inch, $1; 3½ inch, $1.30; 4 inch, $1.60; 4½ inch, $2; 5 inch, $2.35; 6 inch, $3.50.

LATH.—The advance, which we noted as impending at our last report, has occurred, and with arrivals there have been sales of a million and a half at $1.75. The market was clear, and the demand fair, as another cargo, said to be near by, was expected. We quote at $1.75 per M.

LIME.—The most recent sales, both of State and Rockland, have been at old figures, which we still retain as our quotation. There is some talk of a possible upward movement in Rockland, but at present the market seems to have all it can bear. Arrivals of State have suspended, the condition of the canals and rivers being such as to preclude further shipments. We quote State common at 90c.@$1, and finishing at $1.25; Rockland, $1@1.50.

LUMBER.—The market is dull for large and export orders, and some weakness is apparent, as specifically noted below. White pine is not in active demand, and its movement is almost entirely limited to the jobbing trade. Yellow pine is weak, and cargoes have been placed at low rates. We quote random at $18@23, and ordered schedules at $23@30. These figures are about the even range of the market, exceptional sales having been made below and beyond our quotation. Spruce has been more active, and prices are stronger, quoting at $15@20. Hardwoods are steady, with limited business. Trade at the yards is fair, and quotations are retained. Western advices indicate that manufacturers will produce fully up to the average of past seasons. We anticipate that lower prices will rule, and competition in this respect may induce a greater demand than would otherwise occur.

Michigan and Wisconsin Notes.

From the Saginaw *Courier*, Dec. 2:—

The season of shipping lumber from the Saginaw River by water closed some days since, and although the season has been a remarkably dull one, the shipments have been in excess of those of last year. The shipments from this port last month aggregated 8,076,000 feet of lumber, 3,758,000 shingles, 743,000 lath, and 1,100 barrels of salt. The Bay City *Tribune*, with its characteristic enterprise, publishes a statement of the shipments from the Saginaw River during the season just closed, which in the main is accurate, as taken from the custom-house record. The shipments from East Saginaw are too low by nearly 6,000,000 feet, and to the aggregate should be added at least 10,000,000 feet, accounted for in "through clearances," and which, under the present custom laws, is not made to appear on the records of the custom-houses at the points from which shipments are made.

From same:—

Estimates of the lumber operations in Iosco and Alcona counties this winter have been made as follows: Au Gres River, 25,500,000 feet; Alabaster, 2,500,000 feet; Tawas City, 17,500,000; Tawas Lake, 5,500,000; Au Sable River, 56,000,000; at Greenbush, Harrisville, Alcona, and Black River, 26,000,000; total, 133,000,000. The largest amount put in by any single firm is 20,000,000, by Loud, Gay & Co., of Au Sable.

From the *Lumberman's Gazette* (Bay City), December 5:—

There is nothing of special importance to report in the trade this week. In the Saginaw region the shipments have entirely ceased, though yesterday there was an arrival of a schooner from Chicago, which it was proposed to load for that port. Everything, however, has settled down into its winter shape, and all interest now centers in the operations in the woods. Reports of these are unchanged in tenor, and indicate very plainly a production largely increased over the calculations made a few weeks ago. This is true, not only of one region, but of all the Western districts, as will have been noticed in the letters of the *Gazette's* correspondents. From Canada, on the contrary, we continue to hear of very materially reduced operations, our latest advices being to that effect quite as strongly as any previous ones. About Ottawa there has been an attempt at a revival of the interest in the proposed Reciprocity Treaty, a feeling stimulated, no doubt, by the near approach of the time for the meeting of Congress. However, the promise is that the lumber interest will not be again caught napping on this subject, and the proposed treaty will receive the prompt attention it deserves at the hands of its opponents.

General Western Notes.

Notwithstanding a fair summer's trade, a careful estimate places the amount of lumber on hand, at Toledo, Ohio, at 53,750,000 feet of pine lumber.

Pennsylvania Notes.

From the Williamsport *Gazette and Bulletin*, December 3:—

The shipments of lumber from Williamsport, for the week closing on the 28th ult., foot up a total of 2,054,400 feet, a decrease of 984,032 feet under the shipments of the previous week.

The total quantity of lumber shipped from Williamsport, for the year, foots up 228 457,000 feet, a decrease of 5,746,560 feet, compared with the same period last year. It is scarcely necessary to say that the trade is dull, and there it no prospect of any improvement till after the holidays.

Canada Notes.

The Ottawa (Ont.) *Citizen's* lumber report says the amount of white pine cut in the Ottawa Valley this year is 9,470,000 feet, and of red pine, 4,450,000 feet. The calculation for this winter's cut on the Ottawa is 7,000,000 cubic feet of white pine, and 1,500,000 feet of red pine. This shows a reduction of 5,000,000 feet of white pine in two years, and a reduction of 2,000,000 feet of red pine as compared with last season.

METALS.—COPPER.—Manufactured is steady and firm at former quotations, as follows: New sheathing, 28 cents; bolts and braziers', 30; bronze and yellow metal sheathing, 21@22; and yellow metal bolts 28 cents. Ingot has been in better demand, and prices are well sustained. Sales of Lake have been at 23¼@23½ cents, and for January to April delivery at 24¼ cents.

IRON.—The market for Scotch pig, under advices of lower prices abroad, is weaker, and there is some anxiety to sell. The firmness which has ruled for some time is consequently gone, and prices may be expected to vary. American pig is yet dull and depressed, and stocks are everywhere in excess of the demand, or, indeed, of possible requirements. Production, however, is not diminished, and it seems probable that still lower prices will rule. Rails are quiet and unchanged. Scrap has sold to a limited extent on private terms. Manufactured from store is dull at unchanged quotations.

LEAD.—Pig is dull, with prices rather favorable to buyers. Foreign is quiet at $6.75, gold, and sales of domestic have been made at $6.20@6.25, the latter price being the leading quotation. Bar, pipe, and sheet are steady at 8¾ cents—less 10 per cent. to the trade.

TIN.—Pig is quiet and steady. Sales of Malacca at 22¾ cents, L. and F. 21½, gold. Plates are firmer, and prices have advanced with favorable foreign reports and light stocks here.

ZINC.—Sheet has advanced in price, and is firmly held. Of 9x36 there is a scanty supply at 9½ cents, gold. Other numbers are quoted at 9@9¼ cents, with only small lots at these figures.

NAILS.—Cut are nominally steady at old quotations, which we reproduce as follows: : 10d. to 60d. common fence and sheathing, ℔ keg, $3.50@3.60; 8d. and 9d. common do. ℔ keg, $3.35; 6d. and 7d. common, ℔ keg, $4.10; 4d. and 5d. common do. ℔ keg, $4.40; 3d. and 4d. light, ℔ keg, $5.10; 3d. fine, ℔ keg, $5.85; 2d. ℔ keg, $6.60. Cut Spikes, all sizes, $3.85. Floor, Casing, and Box, 75 cents above the same sizes of Common—Finishing, $1 above, and Fine Finishing, $1.25 above.

CLINCH NAILS.

1¾ to 1½ in	2 & 2¼ in.	2½ & 2¾ in.	3 in. and longer.
$6@6.25.	$5.75.	$5.50	$5.25 ℔ keg.

OILS.—Linseed is in good demand, and prices have been quite steadily sustained at 79@80 cents for casks. Prices fell off, however, toward the close of the week, and we quote at 78@79 cents for casks from crushers' hands, with a fair amount of trade doing.

PAINTS.—There is a very fair market for the season, as the demand continues good and stocks are well assorted. Vermilions are firm at the recent advance, and are in steady demand. Venetian red is in fair request, with sales of Cookson's at 2¾ cents, and H. R. & Co. 2½, both currency. White lead is steady at our quotations. Paris white is firm at $1.85@2. Chalk is firm, and there is none in first hands, and holders ask $3, currency.

PITCH—Is dull and quiet at $2.37½ per bbl., f. o. b., for City.

SPIRITS TURPENTINE.—The market continues depressed, and prices have declined still further, quoting at 33½@34 cents for merchantable.

TAR—Is quiet, and held as follows; Newbern and Washington, $2.25@2.30 per bbl., and Wilmington $2.37½@2.50.

A GOOD INVESTMENT

EVERY PRUDENT MAN, CAREFUL OF THE

health and comfort of his family, should see to it that his drinking water is conveyed through TIN-LINED LEAD PIPE, which is a perfect safeguard against lead poison. Tin-lined Lead Pipe is strong, durable, flexible, and easy soldered. It is a great benefit to the community, and enhances the real value of every house in which it is introduced. It is cheaper than Lead Pipe, when strength and durability are considered. Sold by the COLWELL LEAD CO., 213 Centre St., New York. Price, 16½ cts. a pound for all sizes. Descriptive pamphlets sent by mail free. Also, manufacturers of Lead Pipe, Sheet Lead, Block Tin Pipe, Bar Tin, Pig Tin, Bar Lead, Pig Lead, Solder, &c. Orders filled at sight.

[*From the official proceedings of the Board of Assistant Aldermen, Oct.* 12, 1874.]

The Special Committee appointed by this Board in relation to the use of vault covers on the sidewalks throughout the city, beg leave to report that the committee have taken pains to examine the different vault covers at present being put down on the sidewalks, and find that the "Sharts' Patent Concrete Covers," on sale at 263 Broadway, appear to answer the requirements of the ordinance completely, without any of the objectionable features of the iron covers. We have examined some of them that have been in use on our principal thoroughfares during the last two years, showing little or no perceptible wear, and we would recommend them to our citizens in preference to any others we have yet seen.

State of New York, City and County of New York, ss.:

Charles H. Wilson, being duly sworn, says: That he is one of the general partners named in the within certificate, and that the sum specified in said certificate to have been contributed by the special partner to the common stock has been actually and in good faith paid in cash.

Sworn to before me this twenty-fourth day of November, 1874. } CHARLES H. WILSON.

R. C. ELLIOTT,
Notary Public,
New York Co.

THIS IS TO CERTIFY THAT THE UNDERsigned have, pursuant to the provisions of the Revised Statutes of the State of New York, formed a limited partnership under the name or firm of BALLARD & HALLEY; that the general nature of the business to be transacted is importing, dealing in, and jobbing silks, ribbons, and millinery goods generally; that William J. H. Ballard and William Halley, both residing in the City, County, and State of New York, are the general partners; and Lucius Moore, residing in the City of Hudson, State of New York, is the special partner.

That the said Lucius Moore has contributed in cash the sum of Twenty-five Thousand Dollars.

That the period at which the said partnership is to commence is the eleventh day of November, 1874, and the period at which the said partnership is to terminate is the thirtieth day of April, 1879.

As witness our hands and seals on this eleventh day of November, 1874.

WM. J. H. BALLARD,
WILLIAM HALLEY,
LUCIUS MOORE.

NOTICE IS HEREBY GIVEN THAT S. HARlem and Jacob Steinhardt, who each reside in the City, County, and State of New York, have formed a limited partnership in accordance with the provisions of the Revised Statutes of New York in the business of dealing in and manufacturing of Youths', Boys', and Children's clothing, in which the above-named persons are all the parties interested therein; that the said S. Harlem is the general partner and the said Jacob Steinhardt is the special partner; and the said Jacob Steinhardt has paid in in cash the sum of Nine Thousand Dollars as capital toward the common stock; and that said partnership is to commence on the eighteenth day of November, 1874, and is to terminate on the first day of January, 1876.

Dated New York, November 18, 1874.

State of New York,
City and County of New York, } ss.:

THIS IS TO CERTIFY THAT THE UNDERsigned have formed a limited partnership under and in pursuance to the provisions of title first, chapter fourth, part second of the revised statutes of the State of New York, entitled of Limited Partnerships, and the several statutes amending or affecting the same, upon the terms and with the rights and powers, duties, and exemptions therein prescribed, as follows:

First—The name or style under which such partnership is to be conducted is ROGERS, PEET & CO.

Secondly—The general nature of the business intended to be transacted is the general clothing business, in the City of New York.

Thirdly—The names of all the general and special partners interested in said business are Marvin N. Rogers, Charles B. Peet, Frank R. Chambers, John T. Martin, and William R. H. Martin.

The said Marvin N. Rogers is a general partner, and his place of residence is the City of Brooklyn, County of Kings, and State of New York.

The said Charles B. Peet is a general partner, and his place of residence is the City, County, and State of New York.

The said Frank R. Chambers is a general partner, and his place of residence is the City, County, and State of New York.

The said John T. Martin is a special partner, and his place of residence is the City of Brooklyn, County of Kings, and State of New York, and the said William R. H. Martin is a special partner, and his place of residence is the City, County, and State of New York.

Fourthly—The amount of capital which each of the said special partners has contributed to the common stock of such partnership is as follows: The said John T. Martin has contributed the sum of Fifty Thousand Dollars in cash, and the said William R. H. Martin has also contributed the sum of Fifty Thousand Dollars in cash.

Fifthly—The period at which the said partnership is to commence is the sixth day of November, One Thousand Eight Hundred and Seventy-four, and the period at which it will terminate is with the thirty-first day of December, One Thousand Eight Hundred and Seventy-seven.

In witness whereof we have hereunto set our hands and seals, this sixth day November, A. D., 1874.

SOAPSTONE WASH TUBS.

A MUCH AND LONG NEEDED IMPROVEMENT.

None More Simple & None so Durable.

We are now manufacturing in this city to order, Wash Tubs and Sinks of the celebrated Francetown Soapstone.

Of the annoyance, costly repairs, and filthiness of our present wash tubs the public need not be told—experience has taught them. The superiority of them over wood is, they do not absorb the wash water and slops, consequently preventing that *disagreeable odor* in the house. They are easily kept sweet, clean, and dry. *They are not affected by hot or cold water. Never crack or leak.*

Cheaper than Wood, and will last a Lifetime.

They only need to be seen to be appreciated. All interested we invite to call and examine them at our warerooms.

CHASE'S
PIPE CUTTING & THREADING
MACHINE.

This important tool is designed to fill a want long felt by STEAM AND GAS FITTERS and MACHINISTS for cutting and threading pipes rapidly and cheaply. An apprentice boy, with one of these, can do more work than two men with old appliances, under the old system. NO PIPE SPLITTING! NO BEVEL INSIDE OR OUT! It cuts threads and makes nipples for all sizes of pipes, from ⅛ to 2 inches. Weighs only 100 lbs. Stronger than any machine made. A set of collars and lengths for making nipples goes with the machine. Address THE CHASE MANUFACTURING COMPANY,

Magrath's Copper Sash-Chain.

Patented 21st March, 1871.

Is adapted to ordinary round pulley, and strong enough to suspend weights of any size required.
Being intended as a substitute for sash-cord, it can be put into sashes now provided with cord without any change of pulleys. The inventor feels confident that experience will prove his chain to be both economical and durable, besides doing away with the constant annoyance and expense attending the use of sash-cord.

MORTGAGES.

REAL ESTATE.

NEW YORK.

NOTE.—The arrangement of this list is as follows: The first name is that of the mortgagor, the next that of the mortgagee. The description of the property then follows, then the date of the mortgage, the time for which it was given, and the amount. The general dates used as headings are the dates when the mortgage was handed into the Register's office to be recorded.

Wherever the letters "P. M." occur, preceded by the name of a street in these lists of mortgages, they mean that it is a Purchase Money Mortgage, and for fuller particulars see the list of transfers under the corresponding date.

JUDGMENTS.

NEW YORK.

In these lists of judgments the names alphabetically arranged, and which are first on each line, are those of the judgment debtor.

The judgment against The Tompkins Avenue Presbyterian Church for $171.74, and Timothy Hoyt, same amount, printed last week, should not have appeared, as the satisfaction piece had been executed.

MISCELLANEOUS.

REVIEW OF THE REAL ESTATE MARKET.

Much activity developed during the week in public sales, which were numerous, and chiefly under legal procedure.

The leading incident was a peremptory sale, under direction of the owner, of a large number of lots in Brooklyn, located upon and contiguous to the Eastern Parkway, and which were sold at prices ranging from $350 to $500 per lot, which, with assessments added, was about one-third of their valuation, compared with former rates. Some eagerness was shown to take advantage of this investment, although buyers were cautious, and bought closely. The other sales of principal interest were in foreclosure, and generally resulted, with some competition, in purchase by parties to the actions. Lots on Twelfth Avenue and One Hundred and Thirty-third Street sold from $1,400 to $2,350, and on One Hundred and Thirty-third Street at $1,000 to $1,950 each. In other instances outsiders secured bargains. Legal sales, however, indicate nothing more than that mortgagees are obliged to cover their interests, and, that done, frequently permit the next bidder to take advantage of the occasion.

The records of the Register's office show a fair movement in real estate, and maintain a very good average, notwithstanding all the dullness that seems to pervade the market. A few private contracts are said to have been closed, but, as no reports have been given to us, we are without any particulars.

There is much verbal speculation as to the chances for the coming year, and, as the market has not as yet taken any new and settled form, old conditions are retained.

LOCAL ITEMS.

The Commissioners of the Fire Department ask for proposals for furnishing two Steam Pumps, with the necessary appliances, for use on the Steam Fire Propeller, now building.

The same Commissioners give notice that a hand Fire Engine, with equipments, together with three Fire Alarm Bells, one Boiler, one hundred and seventeen Iron Bedsteads, and a lot of old Iron will be sold at auction, on the 29th inst.

The Department of Charities and Corrections will sell at auction, on the 22d inst., a lot of old Iron, two Boats, and a lot of Rags.

ADVERTISED LEGAL SALES.

MARKETS.

Winter has at last fairly set in, suspending building and curtailing business.

The sudden cold snap has closed the navigation of the rivers, and henceforth, until the resumption of shipments, many of our quotations will be the prices of stocks held in reserve, and stronger tendencies, of which indications are fully apparent, may be expected.

We find, in general mercantile circles, confirmation of the thought that the business of the year has not resulted as unfavorably as was expected. Activity has been extended, demand distributing its requirements more evenly as necessities compelled, making a limited showing of trade for the time, but footing up fairly in the aggregate. Prices have been low, and have doubtless had their effect in inducing trade, although business has been generally conducted cautiously and free from speculation. The currency question is the principal disturbing feature to trade. The indecision compelled by the uncertain action of Congress is of the greatest detriment to the business interests of the country, which are chafing under delay. There seems to be no well founded objection to the resumption of specie payments, which, it is claimed, will be of easier accomplishment than has been supposed. Opposition to inflation has been gathering strength, and from our view point we believe that contraction would be of greater ultimate benefit to the building markets, although inconvenient for a time. The question is one which should be early adjusted, as trade cannot hang on the skirts of legislation without injury.

Our report in detail is necessarily brief, as the season operates to limit review.

BRICK.—Arrivals of North River brick have suspended, the change in the weather closing the river and compelling vessels to lay up for the winter. About half of the average quantity, say three millions, came down in the earlier part of the week, and had been nearly closed out at the time of report, and there is no probability that, when this reaches our readers, there will be any brick in the market from first hands. Prices are quotably the same; an effort to bear them was made, expecting that the boats were in a hurry to lay up, but no results followed, and the market is stronger with advancing tendencies. Fronts are steady as previously reported. We quote Pale, ₽ M, $3@3.50; Jersey, $6.25@6.50; Up-river, $6.50@7.25; Haverstraw Bay, $7.25@8; Fronts, Croton—brown, $12; dark, $13; red, $14; Philadelphia, $28@32; Baltimore, $50@58, cost of delivery to be added.

CEMENT.—The demand has been fair for the season, but shows a falling off for the few later days of the week. The best brands of Rosendale are held quite firmly at $1.30, cash, but we still quote generally at $1.10@1.30. Yard prices, $1.25@1.40. Portland is held at $4.25 to arrive and at $4.40 from store.

FIRE BRICK—Have been in limited movement, Scotch moving slowly at $45, currency, ex-vessel. Sales of 40,000 Scotch (job lot) are reported at a private price.

FOREIGN WOODS.—The market continues dull, and no activity is expected until the recurrence of spring. Quotations are unchanged.

GLASS.—The demand for French window is still good, in view, however, of the arrival of 10,000 boxes and the consequent increased supply, the market is hardly as strong, and we quote at 60 and 5 and 60 and 10 per cent. discount. English sheet and polished plate are quiet and nominally steady, the former at 45 and the latter at 15 per cent. discount.

HAIR.—The market is dull and prices favor buyers. We quote as usual, according to quality, cattle at 12@25 cents and goat at 14@28 cents per bushel.

HARDWARE.—There is a moderate demand, trade not changing its character from previous reports. Orders by mail keep coming in, but are limited in extent and adapted only to supplying pressing requirements. New price-lists are preparing, and it is expected that prices will be generally advanced after January 1st. The discount for copper rivets varies, and we quote them 25@35 per cent. off. The following price-list for plumbers' iron ware, to take effect from the 1st inst., has been issued by Abendroth Bros.: On iron pipe and pipe fittings, from 2 to 6 inch, inclusive, 55 ₽ cent.; on iron pipe and pipe fittings, from 7 to 12 inch, inclusive, 50 ₽ cent.; on plain iron sinks, from No. 1 to No. 4, inclusive, 50 ₽ cent.; on all wash-stands, plain, galvanized, and enameled, 30 ₽ cent.; on privy sinks, bathtubs, tanks, and plumbers' furnaces, 20 ₽ cent.; on stable furniture, 25 ₽ cent.; on hopper traps and all other plain, enameled, and galvanized ware not enumerated above, 40 ₽ cent.; enameled Philadelphia hoppers, $1.30 each, net cash; enameled Philadelphia hoppers, in lots of 100, $1.25 each, net cash. The discount on iron pipe from the new list reported last week has been changed to 33⅓ per cent.

LATH.—Expected arrivals have not occurred, and prices are without change. The market is strong at $1.75 with advancing tendencies.

LIME.—There is no State offering from first hands, pending the advance that is expected to occur with or soon after the opening of the new year. Rockland is still selling at old figures, but as competition is virtually closed with navigation, and the stocks of State manufacture are limited, it is expected to advance, and will probably resume its old footing at an early day. We quote State common firm at 90@$1 and finishing, $1.25. Rockland common, $1 and finishing, $1.50. Yard prices 15@25 cents per bbl. higher.

LUMBER.—The market is quiet, and shows little, if any, change from previous report. Stocks are ample for all requirements, and export orders are very much restricted. Prices for cargo lots are irregular and in buyers' favor. White pine is quiet at $18@23 for ordinary shipping qualities. Eastern spruce is not active, and arrivals have nearly, if not quite, suspended. Quotations are $14@16 and $15@20. Yellow pine is dull at $28@30 for flooring. Miscellaneous cargoes are held at $25@28. We quote, as before, random at $18@23, and ordered cargoes at 23@30. Reports from Southern markets indicate that the West India trade has improved, and a number of cargoes have been disposed of here at $14.50@15, with the freight engaged at $8@9. South American cargoes are quoted nominally $15@15.50 for usual dimensions from Georgia ports, and but few cargoes have been shipped. Hard woods are not active, although more may be expected of them in response to the demand from manufacturers for spring trade. The yard business has been of moderate proportions, and gives some indication of falling off, as is customary at the end of the year, when accounts are making up and settlements are pending, to say nothing of the suspension of many enterprises that would otherwise help to swell the volume of trade. Current quotations are as before.

Michigan and Wisconsin Notes.

The *Northwestern Lumberman* gives the following operations at the Wolf River, the main northern branch of the Fox River, its tributaries reaching up among the pines of Central Northern Wisconsin. The figures, as taken from the Bay Boom Company, distribute the logs on hand last spring in this river and branches as follows:

Little Wolf	35,000,000
Embarrass	25,000,000
Chioc	30,000,000
West Branch	10,000,000
Red	11,000,000
Shawano Lake	4,000,000
Main Wolf	50,000,000
Total	165,000,000

The number of logs on hand last spring as given by mill owners was 187,600,000 feet, this includes the logs carried over in private booms which were not on the boom books for business done this year. The aggregate number of saw mills on the Wolf are 59, of these Oshkosh has 22, and 5 shingle mills be-ide. All of the saw mills but 5 cut shingles. Fond du Lac has 11 saw mills, and also manufactures shingles largely. Winneconne has 4, and the other towns have from 1 to 3 each. The amount of lumber now on hand at Oshkosh is 65,500,000, and logs 20,000,000 feet, making a total of 85,500,000. Fond du Lac has on hand 35,000,000 lumber, and logs to be carried over 13,000,000 feet; total, 48,000,000. The whole amount of lumber on hand and logs to be carried over on this river is between 160,000,000 and 170,000,000 feet.

From the *Lumberman's Gazette*, December 12:—

THE LOGGING SEASON.

Our latest reports from the various lumbering districts are to the effect that not only have preparations been very liberal, as a rule, but that active work is in progress with an activity and energy at least equal to those displayed in any former year. The promise of the season, too, is fair so far. Considerable quantities of snow has fallen in many locations, and there surely seems no reason to hope that the prayer of those who think that nothing but the absence of snow will curtail the cut will be granted. On the contrary, present indications are that the season will be at least up to the average in this regard. Some of the districts are, indeed, unusually dry, and log-running may be discouraged in consequence; but the effect of this will fall very far short of providing a log famine.

Already millions of feet of logs have been cut and skidded, ready for hauling, in the Michigan, Wisconsin, and Minnesota districts, and the work is progressing, as we have said, with rather unwonted vigor. We may look for all the logs promised by the fall preparations.

From the same:—

The winter has fully settled down upon the trade, and in the lumber districts the whole attention of lumbermen is turned to the getting out of logs. In this direction the preparations have been most ample, as has been set forth fully from time to time in the *Gazette*, and the present efforts are fully commensurate with those preparations. In many of the Western districts, and noticeably in Michigan and Wisconsin, there has already been an immense amount of timber cut into logs, which only await a sufficient fall of snow to make good hauling. In not a few of these districts there has even now been a bountiful supply of snow, and in all there is a fair prospect of a season at least usually fair in regard to all the operations of the production of logs. In Michigan, it is true, the country is unusually dry, and, unless plentiful rains or a much greater supply of snow than ordinarily falls, the streams are likely to be at a low running stage in the spring. The improvements on the several streams, however, have been brought to such a stage of perfection that calculations on the hanging up of logs must be materially altered from the basis of a few years ago. As is well known, nearly all the streams are bare of old stock to a greater extent than before for many years, though there remains in river and mill booms something like 200,000,000 feet of logs to begin on in the spring. The railways are already bringing down to the boom grounds on the Saginaw River logs from the cut of the present season. All over the Western districts, in short, the winter's work appears to be at least as far along as usual, and upon the very liberal scale which has been generally settled upon as to amount. Our Canadian correspondent writes that lumbermen there are operating in conformity to their expressed determination to reduce the cut largely, but this seems to be almost the only exception we have to make to the remarks above. It should, however, be stated that a considerable quantity of the timber to be cut in Michigan is damaged by fire, and that when it is

once in the water, and safe from the worm, the owners will not be over-anxious to get it into lumber.

The prospects for the coming season, as to prices, are not too favorable, when the promised supply is considered. It is true, however, that the principal distributing markets are in a fair condition for next season's trade, so far as stocks are concerned. The latter part of the shipping season saw, as a rule, purchases principally for the purpose of keeping up stocks only, the dealers generally holding to the opinion that there was no certain advantage in buying, even at the low prices and cheap transportation rates then prevailing. The Chicago dealers protest that they have more on hand than is necessary in view of the promise for next spring; but, still, the latest official statements do not show an increase over last year. Further West this does not hold true, and many points carry over stocks considerably increased over those of 1873-4. Our correspondents' write from several of these points that dealers are merely seeking to retain their customers, and looking out for a change of business, if a revival does not come within a reasonable time.

The Reciprocity Treaty with Canada is coming more prominently into notice again, since the meeting of Congress. Our advices from Canada, obtained by personal intercourse with lumbermen there, and, consequently, reliable, are to the effect that the Treaty is ardently desired there, notwithstanding the protestations of indifference, and even of hostility, which have come from that quarter. The committee of the National Association is active, and an agent of the Association is now in Washington, to look after the matter.

From the Grand Haven *Herald*:—

A careful estimate of the amount of logs to be put in during the present winter by firms doing business on Grand River, west from Grand Rapids, and the amounts to be banked upon the small streams, is about as follows:—

Flat River	45,000,000
Rogue River	30,000,000
Fish Creek	22,000,000
Crockery Creek	5,000,000
Muskegon River	5,000,000
Total	107,000,000

The logs put in on the Muskegon River are owned by Bigelow, Stone & Co., and will be rafted there, and towed to Grand Haven, where they will be manufactured into lumber. The balance will be handled by the Ottawa County Boom Company, who take the logs at the railways and deliver them along the river to the mills of these several owners. The number of feet of logs handled by this company during the past two years was, in 1873, 140,000,000, and in 1874, 89,000,000, of which latter amount some 10,000,000 or more remain stored in private booms, which amount will be cut next season, in addition to what are put in this winter. It will be seen by this estimate that the mills in this vicinity will be fully supplied the coming summer, and, it is hoped, that, with an increased demand for lumber, the present season may be a prosperous one.

METALS.—COPPER.—Manufactured is steady as follows: New sheathing, 28 cents; bolts and braziers', 30; bronze and yellow metal sheathing, 21@22; and yellow metal bolts, 28, net cash. Ingot has been quiet at steady prices, Lake selling at 23¼@23½ cents.

IRON.—The prices of Scotch pig are very well sustained as stocks are light, otherwise they would share more in the depression which controls the market for American. The prices of the latter are well down, and purchases are made slowly and in limited quantities in expectation of lower figures. Rails have been in some inquiry for old D. H. Old T. is without movement. American are held at $50, currency, at the mill. American steel are quoted $80, currency. Foreign are nominal. Scrap is dull, and held nominally at $30 for yard. The demand for manufactured is very limited, and store quotations are reduced $2.50@10 per ton.

LEAD.—Pig is very quiet, foreign quoting at $6.87½, gold. Domestic is dull at $6.12½@6.20, gold. Bar, sheet, and pipe are steady at 8¼ cents, less 10 per cent. to the trade.

TIN.—Pig continues quiet but steady at 22½ cents for straits. L. & F., 21¾, and refined English 22½@22¾, all gold. Plates are strong, and the transactions have been large, prices continuing firm.

ZINC.—Sheet is scarce and firm at 9¼@9¾ cents, gold.

NAILS.—Cut are somewhat off in price, quoting at $3.50 for prime brands, with sales of others at lower figures. We quote: 10d. to 60d. common fence and sheathing, ℔ keg, $3.50; 8d. and 9d. common do. ℔ keg, $3.55; 6d. and 7d. common, ℔ keg, $4.10; 4d. and 5d. common do. ℔ keg, $4.40; 3d. and 4d. light, ℔ keg, $5.10; 3d. fine, ℔ keg, $5.85; 2d. ℔ keg, $6.60. Cut Spikes, all sizes, $3.85. Floor, Casing, and Box, 75 cents above the same sizes of Common—Finishing, $1 above, and Fine Finishing, $1.25 above.

CLINCH NAILS.

1¼ to 1½ in	2 & 2¼ in.	2½ & 2¾ in.	3 in. and longer.
$6@6.25.	$5.75.	$5.50	$5.25 ℔ keg.

OILS.—Linseed is quiet but steady at 78@79 cents for casks from crushers' hands.

PAINTS.—For the season of the year the demand is well sustained, and prices are unchanged and firm. Vermilions are in fair request. White leads are steady and firm. Venetian red is quite active at 2¼@2½ cents.

PITCH.—We quote city dull and without sales at $2.37½ per bbl., f. o. b.

SPIRITS TURPENTINE—Have been active and stronger, opening with weak tendencies, but closing at an advance of ⅛@1 cent. We quote at 34½@35 cents per gallon for merchantable.

TAR—Is very dull, and held nominally as follows Newbern and Washington, $2.25@2.30, and Wilmington $2.37½@2.50 per bbl.

A GOOD INVESTMENT

EVERY PRUDENT MAN, CAREFUL OF THE health and comfort of his family, should see to it that his drinking water is conveyed through TIN-LINED LEAD PIPE, which is a perfect safeguard against lead poison. Tin-lined Lead Pipe is strong, durable, flexible, and easy soldered. It is a great benefit to the community, and enhances the real value of every house in which it is introduced. It is cheaper than Lead Pipe, when strength and durability are considered. Sold by the COLWELL LEAD CO., 213 Centre St., New York. Price, 16½ cts. a pound for all sizes. Descriptive pamphlets sent by mail free. Also, manufacturers of Lead Pipe, Sheet Lead, Block Tin Pipe, Bar Tin, Pig Tin, Bar Lead, Pig Lead, Solder, &c. Orders filled at sight.

WOOD'S

Indestructible Liquid Iron, Rubber, and Egyptian Paint has taken the highest premium at the American Industrial Fairs from 1869 to 1874. Its superior covering qualities and durability make it, relatively, the cheapest paint in the market, and for painting Tin Roofs, Barns, Out-houses, Fences, &c., it stands UNEQUALED.

CONCRETE-FILLED VAULT COVER
(showing spurs.)

263 Broadway, New York.

[*From the official proceedings of the Board of Assistant Aldermen, Oct.* 12, 1874.]

The Special Committee appointed by this Board in relation to the use of vault covers on the sidewalks throughout the city, beg leave to report that the committee have taken pains to examine the different vault covers at present being put down on the sidewalks, and find that the "Sharts' Patent Concrete Covers," on sale at 263 Broadway, appear to answer the requirements of the ordinance completely, without any of the objectionable features of the iron covers. We have examined some of them that have been in use on our principal thoroughfares during the last two years, showing little or no perceptible wear, and we would recommend them to our citizens in preference to any others we have yet seen.

GEO. KELLY,

TRANSFER GRAINING.

THE ONLY COMPLETE PROCESS OF GRAINING EVER INVENTED.

Its practicability and utility are fully established by the 350 Licenses and Machines in use.

It copies exactly **ALL NATURAL WOODS**; also, ASSUMED DESIGNS ETCHED OR ENGRAVED ON WOOD, GLASS, OR METALS.

The process is so simple and complete that Panels of all sizes and shapes can be grained, so that unskilled labor can be employed. The American Institute awarded us the HIGHEST PREMIUMS for it in 1872 and 1873.

For Circulars, Samples, and References, apply to

CROSS & BASTINE, 132 West Broadway, N. Y

Caution.—All persons buying a Graining Machine in which a smooth elastic surface is used, are hereby notified that we are the inventors and owners of Letters Patent pertaining to and fully covering this process. We shall hold all parties responsible by suit who purchase of one John Johnston, offering for sale a smooth elastic surface for transferring configurations or graining, or any one unauthorized by us. Suits have been commenced against Edward W. Baxter & Co. and others for infringing. We shall prosecute all parties found using or vending, to the full extent of the law. SOAPSTONE WASH TUBS.

A MUCH AND LONG NEEDED IMPROVEMENT.

None More Simple & None so Durable.

We are now manufacturing in this city to order, Wash Tubs and Sinks of the celebrated Francetown Soapstone.

Of the annoyance, costly repairs, and filthiness of our present wash tubs the public need not be told—experience has taught them. The superiority of them over wood is, they do not absorb the wash water and slops, consequently preventing that *disagreeable odor* in the house. They are easily kept sweet, clean, and dry. *They are not affected by hot or cold water. Never crack or leak.*

Cheaper than Wood, and will last a Lifetime.

They only need to be seen to be appreciated. All interested we invite to call and examine them at our warerooms.

CHASE'S
PIPE CUTTING & THREADING
MACHINE.

This important tool is designed to fill a want long felt by STEAM AND GAS FITTERS and MACHINISTS for cutting and threading pipes rapidly and cheaply. An apprentice boy, with one of these, can do more work than two men with old appliances, under the old system. NO PIPE SPLITTING! NO BEVEL INSIDE OR OUT! It cuts threads and makes nipples for all sizes of pipes, from ⅛ to 2 inches. Weighs only 100 lbs. Stronger than any machine made. A set of collars and lengths for making nipples goes with the machine. Address THE CHASE MANUFACTURING COMPANY.

Magrath's Copper Sash-Chain.
Patented 21st March, 1871.

Is adapted to ordinary round pulley, and strong enough to suspend weights of any size required.

Being intended as a substitute for sash-cord, it can be put into sashes now provided with cord without any change of pulleys. The inventor feels confident that experience will prove his chain to be both economical and durable, besides doing away with the constant annoyance and expense attending the use of sash-cord.

SPECIAL NOTICE.

The new building law, passed at the last session of the Legislature, makes provisions for protecting our warehouses against fire by compelling the owners to put iron shutters on all their buildings used for business purposes. This law has thus far been only partially obeyed and not very strictly enforced. Fortunate as we have been in the City of New York, still we do not know but the lower part of the city may at any time be threatened with a conflagration, and it behooves cautious owners to obey the law and do their duty in guarding their buildings while the city is furnishing a well-disciplined fire department. Of course we do not advise owners to finish their magnificent warehouses with the old-fashioned swinging doors and shutters, the revolving shutter of steel and iron being far superior in make and quality, and not at all like the unsightly shutters of old. In England these revolving shutters are in more general use than here; but we are glad to see that prominent buildings recently erected and those partially finished are, without exception, using the revolving iron shutter. The Messrs. Clark & Co., engineers and founders, of London, where they have very extensive works for the manufacture of these shutters, have, during the year now about closing, erected a branch factory in this city, and we are glad to state that their orders for shutters made on the Clark patent surpass even the most sanguine expectations of the New York manager, Mr. James G. Wilson. The new Tribune and new Lennox Library buildings have just been provided with them, along with many private establishments; and among the recent orders by the firm is one from the new State House at Springfield, Ill., with demands for the revolving shutters constantly increasing, especially from the East, where they have become quite popular since the Boston fire, that city having been provided with any quantity of them since the recent conflagration. These shutters are made of iron, steel, or wood, and while we, in the space of this article, cannot possibly enter into a technical description of these various shutters, we would advise all architects, builders, and other readers of the RECORD, to visit the establishment of Clark & Co., at 218 West Twenty-sixth Street, where Mr. Wilson will cheerfully explain all the peculiarities of this shutter, which resists not only force, but also fire. The time may come, shortly, when the law quoted above will be severely enforced, and those desiring to save themselves unnecessary trouble had better look into this matter at once, and procure such shutters as only one factory in the world can produce, viz., that of the Messrs. Clark & Co., of London, New York, and Boston.

MORTGAGES.

REAL ESTATE.

NEW YORK.

NOTE.—The arrangement of this list is as follows: The first name is that of the mortgagor, the next that of the mortgagee. The description of the property then follows, then the date of the mortgage, the time for which it was given, and the amount. The general dates used as headings are the dates when the mortgage was handed into the Register's office to be recorded.

Wherever the letters "P. M." occur, preceded by the name of a street in these lists of mortgages, they mean that it is a Purchase Money Mortgage, and for fuller particulars see the list of transfers under the corresponding date.

MISCELLANEOUS.

REVIEW OF THE REAL ESTATE MARKET.

Our opportunity for review is limited, as the lateness of the season and the impending holidays have had the effect of deferring most of the public sales, while the market otherwise is quiet, and offers nothing new, except such facts as can be gleaned from the public records.

The necessity of sending our paper to press at an earlier day than usual compels a briefer retrospect than we are wont to make, and whatever interest has been developed by the offering of a number of lots in Brooklyn must be reserved for future comment. Few public sales occurred in the earlier part of the week, and none of them presented remarkable features.

In general the market is quiet, dull even, and there are no indications for better or for worse. Private sales are constantly occurring, and by reference to our report of recorded transfers their extent and character will be readily seen.

LOCAL ITEMS.

The Commissioners of Estimate and Assessment for opening Eleventh Avenue, northwardly from the northerly line of the road or Public Drive to the southerly line of the street leading from Kingsbridge road, near Inwood Street, to the Harlem River, near Sherman's Creek, in the City of New York, give notice that they have completed their amended estimate and assessment, and will hear objections thereto within three days next after December 28, and that their amended report will be presented to the Supreme Court, for confirmation, on January 18.

MARKETS.

Our reports for the past week present few features of new or special interest. The close of the year always has a quieting effect upon trade, and the wintry season opposes a very effective obstacle to building enterprises. To summarize briefly the points of the market for the past week, we find them generally dull, the brick market prolonging its business later than is wont, but with limited movement. Cement and lime are quiet, and lumber is of indifferent report. We note a change in lath, and a stronger movement in spirits turpentine. Glass and hardware are about as usual, and the other markets add nothing to, if they do not detract from, former report.

We have noticed of late, in our intercourse with the manufacturers and dealers connected with the building markets, less complaint of the character and course of trade, whence we infer that business, on the whole, has not been of the worst character, and that a fair share of profit has been returned for the year's labor. Indeed, in more than one instance, we have met with such assurance, and while there are doubtless instances where almost irreparable loss and damage have been sustained, there is good reason to believe that caution has been generally practiced, and that enterprise and speculation have not been pressed beyond the limit which the warnings of the year prescribe.

The financial topic is still a leading subject for discussion in the different branches of trade, and the sentiment is apparently unanimous that definite action should be taken at once. Congress is expected to deny any further expansion of the currency, or make such immediate provision for it as will enable the business of the coming year to be entered upon with a settled understanding of its character and possibilities.

The sentiment of the country, however directed, seems to agree upon this point, and we, with others, deprecate any postponement of the subject, or delay that will prove fatal to business interests in the spring.

Appended is our review of the markets in detail:

BRICK.—Contrary to expectation, a number of cargoes came down the river during the week, the cold weather not enduring long enough to completely bar departures from Haverstraw and other low river ports. Altogether, about three millions of hard brick have come forward, eight or ten cargoes arriving on Tuesday. About two thirds of these have been sold at former prices, leaving one million on hand, subject to the requirements of the market, which, as building operations have generally suspended, are limited to the demand for storage purposes. There has been no change in prices, which are steady, as previously reported. The market is inactive otherwise than as noted. Fronts are quiet, but unchanged. We quote as before: Pale, ℔ M, $3@3.50; Jersey, $6.25@6.50; Up-river, $6.50@7.25; Haverstraw Bay, $7.25@8.00; Fronts, Croton—brown, $12; dark, $13; red, $14; Philadelphia, $28@32; Baltimore, $50@58, cost of delivery to be added.

CEMENT.—The yards are well stocked for winter requirements, and as the season is virtually at an end with the suspension of enterprises which excite a demand for material, the market has become dull. Rosendale is firm, however, at old quotations, viz., $1.10@1.30 per bbl., and is held at $1.35@1.55 from yard. Portland and Roman are quoted at $4.25@4.50 per bbl.

FIRE BRICK—Are without change, and movement is limited. Quotations are retained.

FOREIGN WOODS.—We quote as before, the market continuing dull, with no new features.

GLASS.—The demand for French window continues good, and prices are very steadily maintained at 60 and 5@60 and 10 per cent. discount. We note a reduction in the price of English sheet, which we now quote at 50 per cent. off. Polished plate is steady at 15 per cent. discount.

HAIR—Is quiet, quoting as heretofore, at 12@25 cents per bushel for cattle, and 14@28 cents per bushel for goat, according to quality.

HARDWARE.—The market is without change of importance, and trade is of a moderate, steady character. No changes in price lists or discounts are yet reported, but we expect to announce them at an early day.

LATH.—The stronger tendencies, previously noted, have resulted in advancing prices, and lately reported sales have been at $1.80 per M. The market is bare, and no transactions have occurred for several days, so that quotations are rather nominal. We have heard that $1.87½ has been offered and refused, and that the price demanded was $2 per M, while it has even been asserted that an advance on this figure would be sought. As it is, we regard the market as somewhat unsettled, with stronger tendencies, and quote nominally at $1.80 @2.00.

LIME.—There is no new report. The only State lime to be had from first hands is held at $1, and there is none offering. Rockland is steady at old prices. We quote State common $1, finishing $1.25 per bbl; Rockland common $1, and finishing $1.50 per bbl. Yard prices 25@30 cents per bbl. higher.

LUMBER.—There are few changes to note, and the market generally, with slight exception, is dull. White pine is inactive, quoring as before, at 18@23 for ordinary shipping qualities, while we are not sure but these prices are shaded to meet the opinions of buyers. There has been more movement in Eastern spruce, stocks seemingly having run short, and we are called upon to advance prices $3, and we quote ordinarily good cargoes at $17@19. Sales have been made at much lower figures, $12, for instance, but as the transactions were exceptional, and the cargoes of an inferior character, we can not justify a quotation at that price as a fair run of the market. Yellow pine is extremely dull, worse even than we have heretofore reported it, and prices are altogether in buyers' favor. We hear of no sales, and quotations are quite nominal. Flooring would sell as low as $23, and then go on storage. Timber is without a market, and, if sold, would probably take the same course. There has been a reduction in freights, which naturally involves a concession in prices here. We have no reports of business in hardwoods, which are quiet at nominally steady prices. The yard trade shows some falling off for the week, due in a measure to the suspension of business caused by the stormy weather. Quotations are unchanged.

Michigan and Wisconsin Notes.

The Wabasha (Wis.) *Herald* says that Ingram & Kennedy shipped 35,000,000 feet of lumber alone, from the mouth of the Chippewa the past season. This carries the total, so far, to over 125,000,000, and the grand total will probably crowd 200,000,000.

General Western Notes.

The following is a report from Minneapolis:

Lumber manufactured, 191,355,979 feet; shingles manufactured, 167,753,000; lath manufactured, 36,907,950; pickets, 669,220.

Increase of manufacture of lumber over last year, 1,445,897. Amount of sawed lumber on hand in yards, about 100,000,000.

Logs in private booms, 6,000,000 (being 20,000,000 less than last year). There is a prospect for a light cut of logs this winter.

The amount of logs on hand at the beginning of the season was 182,000,000 feet, all of which has been sawed excepting 6,000,000.

The amount of logs scaled by the surveyor-general here, during the season, was 185,500,000, an increase of over twenty millions over the amount scaled last season.

Pennsylvania Notes.

From the Williamsport *Gazette and Bulletin*, December 17:—

The shipments of lumber for the week closing on the 12th, foot up a total of 2,187,440 feet, a decline of 465,180 feet under the business of the preceding week. Very little will be done in the shipping business till after the close of the year, and as the trade is in such a depressed condition, it is feared that there will be but a small increase even then.

Southern Notes.

From H. H. Colquitt & Co.'s Circular, we learn that in 1873 Georgia and Mississippi shipped 320,000,000 feet of sawed lumber, and for the first six months in 1874, about 171,000,000 feet. Value of lumber exported, about $9,500,000.

Hewn timber and lumber in 1873.....ft.	493,000,000
Hewn timber and lumber in first months of 1874	405,000,000
Total	898,000,000
Value, about	$15,800,000

This estimate does not include Apalachicola, Cedar Keys, Mobile, Wilmington, Georgetown, Charlestown, and Port Royal. These ports do very little in hewn timber, but manufacture largely of sawed stuff. We made every effort to get statistics from these points, but failed; 112,000,000 feet for these places is not, however, an excessive estimate, giving us a grand total for eighteen months of 1,000,000,000 feet sawed stuff and hewn timber. Estimating 3,000 feet per acre, which is a fair average yield through the timber regions of Georgia, Florida, and Mississippi, we have 330,000 acres of land denuded of timber in eighteen months.

Canada Notes.

About 50,000,000 feet will be put in on Flat River, 30,000,000 feet on Rouge River, 22,000,000 feet on Fish Creek, and the balance, 5,000,000 feet, on Crockery Creek. The amounts which have been run out of these streams during the two last years, as reported by the Ottawa County Boom Company, which take the logs at the roll-ways, and deliver them to their owners' mills along the river, were: In 1873, 140,000,000 feet; in 1874, 69,500 000 feet—of which last amount some 10,000,000 or 15,000,000 feet remain stored in private booms, and will be cut next summer, in addition to what are put in this winter. The slackness of the lumber market the past season, and the high prices paid for logs last year, caused many mills to shut down earlier than usual this fall, owners of logs preferring that they should lie in booms rather than be piled where they would be subject to loss by fire, or a heavy expense for insurance. This state of things will probably not exist next season, as the cost of production will be greatly lessened, and the demand will increase. Lumbermen are feeling well, as a general thing, and look forward to a prosperous and busy season's work during the spring and summer of 1875.

METALS.—COPPER.—Manufactured is steady at former quotations. The demand for ingot is improving, and prices, although unchanged, are firm. Sales have been made at 23¼@23¾ cents, and for February delivery at 24 cents.

IRON.—Stocks of Scotch pig are limited, and prices are consequently well sustained. Sales of 100 tons Coltness (to arrive) are reported on private terms. American pig continues dull and depressed, and lower prices are looked for. The production is excessive in comparison with demand, and there seems to be no probability that it will be curtailed. The market is full of rumors, and there are reports of prices, which, if authenticated, will tend to further depression. The demand is confined to the most ordinary requirements of the trade, and the general run of business is in small lots. Rails are generally very quiet for old and new iron. Several thousand tons of steel, for Chicago delivery, are reported to have been sold for $75, currency. Scrap is dull, and manufactured is steady at our recent quotation, and somewhat firmer in tone.

LEAD.—Pig remains quiet, ordinary foreign being held at $6.87½, and refined at $7.25, gold. Domestic is quoted generally at $6.15@6.20, gold. Bar, pipe, and sheet are steady at 8¾ cents, less 10 per cent. to the trade.

TIN.—Pig has been active for straits, which has sold at 22@22¼ cents. L. and F. is held at 21½, refined English 21¾@21⅞, and Banca 26, all gold. Plates are rather quiet but firm, prices being steady, and to a certain extent stronger than our last week's quotation.

ZINC.—Sheet is in limited supply, and is firm at 9@9½ cents, gold.

NAILS.—Cut are unchanged in price, but dull. We quote: 10d. to 60d. common fence and sheathing, ℔ keg, $3.50; 8d. and 9d. common do. ℔ keg, $3.35; 6d. and 7d. common, ℔ keg, $4.10; 4d. and 5d. common do. ℔ keg, $4.40; 3d. and 4d. light, ℔ keg, $5.10; 3d. fine, ℔ keg, $5.85; 2d. ℔ keg, $6.60. Cut Spikes, all sizes, $3.85. Floor, Casing, and Box, 75 cents above the same sizes of Common—Finishing, $1 above, and Fine Finishing, $1.25 above.

OILS.—Linseed is in some demand, and prices are without change. We quote at 78@79 cents from crushers' hands.

PAINTS.—There is a lighter demand, and movement is limited to requirements, as is usual at this season of the year. Venetian red is in good demand, selling at 2 cents, gold. Vermilions are steady at the advanced rates, and the prices of other goods generally are firm.

PITCH—Is dull and nominal at $2.37½ per bbl. for city, f. o. b.

SPIRITS TURPENTINE.—The market has been more active, and prices have been stronger, with sales at 35½ cents per gallon for merchantable. Sales from store, in lots, have been made at 36@37 cents, cash. We quote at 35½@36½ cents per gallon.

TAR.—The market is extremely dull, and we quote Newbern and Washington at $2.25, and Wilmington at $2.37½ per bbl.

EVERY PRUDENT MAN, CAREFUL OF THE health and comfort of his family, should see to it that his drinking water is conveyed through TIN-LINED LEAD PIPE, which is a perfect safeguard against lead poison. Tin-lined Lead Pipe is strong, durable, flexible, and easy soldered. It is a great benefit to the community, and enhances the real value of every house in which it is introduced. It is cheaper than Lead Pipe, when strength and durability are considered. Sold by the COLWELL LEAD CO., 213 Centre St., New York. Price, 16½ cts. a pound for all sizes. Descriptive pamphlets sent by mail free. Also, manufacturers of Lead Pipe, Sheet Lead, Block Tin Pipe, Bar Tin, Pig Tin, Bar Lead, Pig Lead, Solder, &c. Orders filled at sight.

SOAPSTONE WASH TUBS.

A MUCH AND LONG NEEDED IMPROVEMENT.

None More Simple & None so Durable.

We are now manufacturing in this city to order, Wash Tubs and Sinks of the celebrated Francetown Soapstone.

Of the annoyance, costly repairs, and filthiness of our present wash tubs the public need not be told—experience has taught them. The superiority of them over wood is, they do not absorb the wash water and slops, consequently preventing that *disagreeable odor* in the house. They are easily kept sweet, clean, and dry. *They are not affected by hot or cold water. Never crack or leak.*

Cheaper than Wood, and will last a Lifetime.

They only need to be seen to be appreciated. All interested we invite to call and examine them at our warerooms.

CHASE'S
PIPE CUTTING & THREADING
MACHINE.

This important tool is designed to fill a want long felt by STEAM AND GAS FITTERS and MACHINISTS for cutting and threading pipes rapidly and cheaply. An apprentice boy, with one of these, can do more work than two men with old appliances, under the old system. NO PIPE SPLITTING! NO BEVEL INSIDE OR OUT! It cuts threads and makes nipples for all sizes of pipes, from ⅛ to 2 inches. Weighs only 100 lbs. Stronger than any machine made. A set of collars and lengths for making nipples goes with the machine. Address THE CHASE MANUFACTURING COMPANY,

Magrath's Copper Sash-Chain.

Patented 21st March, 1871.

Is adapted to ordinary round pulley, and strong enough to suspend weights of any size required.

Being intended as a substitute for sash-cord, it can be put into sashes now provided with cord without any change of pulleys. The inventor feels confident that experience will prove his chain to be both economical and durable, besides doing away with the constant annoyance and expense attending the use of sash-cord.

CONCRETE-FILLED VAULT COVER
(showing spurs.)

263 Broadway, New York.

[*From the official proceedings of the Board of Assistant Aldermen, Oct.* 12, 1874.]

The Special Committee appointed by this Board in relation to the use of vault covers on the sidewalks throughout the city, beg leave to report that the committee have taken pains to examine the different vault covers at present being put down on the sidewalks, and find that the "Sharts' Patent Concrete Covers," on sale at 263 Broadway, appear to answer the requirements of the ordinance completely, without any of the objectionable features of the iron covers. We have examined some of them that have been in use on our principal thoroughfares during the last two years, showing little or no perceptible wear, and we would recommend them to our citizens in preference to any others we have yet seen.

FIRE-PROOF BUILDINGS

To Architects and Builders:

The Lyons Fire-proof Construction Co.

is now prepared to receive orders for the construction of Fire-proof Buildings under patents obtained by Mr. Lyons in 1872.
The material used has since stood THE MOST SEVERE TESTS, and costs but a trifling advance upon the ordinary building material.
The building trade generally is invited to thoroughly examine and test the material at our yard, where all further information can be obtained.
