MISCELLANEOUS.

REVIEW OF THE REAL ESTATE MARKET.

We weary of repetitions, and pursue them no further than to say that the market retains its conditions. We have no news to record, except that there is an increasing attendance at the Exchange, indicative of the interest which is sure to pervade the real estate business under all circumstances. Among the well informed there is some hopefulness and much faith, neither without foundation, but awaiting development. Values are nominal, with, as we remarked last week, more disposition to strength. Much, however, depends upon other influences, which have not yet developed, and for which the market must wait.

GOSSIP.

The Department of Public Works reports the following contract entered into: Worth Street, from Broadway to Chatham Street, and intersecting streets, not exceeding one block each way, regulating, paving, etc. Work on this improvement has begun, and is progressing expeditiously. The same Department also reports the following contracts completed: Eighty-fifth Street, from Eighth to Ninth Avenue, regulating, grading, etc.; One Hundred and Sixth Street, from Third Avenue to East River, regulating, grading, etc. Also the following certificates of cost of improvements transmitted to the Board of Assessors: Eightieth Street, from Fifth to Madison Avenue, paving, $3,486.23; Forty-eighth Street, from Tenth to Eleventh Avenue, paving, $6,611.05; Sixty-fourth Street, from Ninth to Tenth Avenue regulating, grading, etc., $2,953.52; Eighty-fifth Street, from Eighth to Ninth Avenue, regulating, grading, etc., $40,362.99; Sixty-second and Sixty-ninth streets, and Boulevard and Hudson River, underground drains between, $13,719.36; total, $67,133.15.

BOARD OF ASSESSORS.

Property owners are notified that assessment lists affecting property withih the limits described below and for the purposes mentioned have been completed and lodged for examination.

The property bounded by Broadway and 10th av., from 62d and 69th sts., and the block between 10th and 11th avs., and 64th and 65th sts., also blocks between 11th av. and Hudson River, from 66th to 69th st., underground drains.

Sixty-fourth st., both sides, between 9th and 10th avs., and 9th av., w. s., and 10th av., e. s., between 63d and 65th sts., regulating, grading, curb, gutter, and flagging.

BUREAU FOR THE COLLECTION OF ASSESSMENTS.

Property owners are notified that assessment lists as designated below have been lodged for collection. The limits of property affected thereby have been heretofore published in this paper.

Washington st., between Christopher and West 10th sts., sewer.

Washington st., between West 11th and Bank sts., sewer.

Greenwich st., between West 12th and Jane sts., sewer.

Fifty-sixth st., between 11th av. and Hudson River, sewer.

Seventy-fifth st,, between 1st and 2d avs., sewer.

Sixtieth st., n. s., between Boulevard and 9th av., basin.

Sixty-ninth st., from 3d to 4th av., flagging.

Lexington av., from 66th to 96th st., regulating, grading, setting curb, gutter, and flagging.

One Hundred and Fourth, 105th, and 106th sts., from 8th av. to the Public Drive, regulating, grading, setting curb, gutter and flagging.

One Hundred and Eighteenth st., from 7th to 8th av., regulating and grading.

All payments made on the above assessments on or before Oct. 19, 1874, will be exempt (according to law) from interest. After that date interest will be charged at the rate of seven (7) per cent. from Aug. 11, the date of confirmation.

MARKETS.

There is a delay in the resumption of general fall trade, which has its natural effect in repressing all enterprises which go hand in hand with prosperity, and will certainly defer to a much later day activity in the building markets. It is not matter of surprise, there fore, that we should weary of seeking excuses for trade, or that our readers should tire of the dull story of its weakness. Nevertheless, we are driven to say that the markets vary little from previous report. Demand is limited, and production, although severely restricted, is yet excessive, and only by stripping the markets of goods is it possible to create a demand that will excite them. Whatever changes that have occured will be found in detail in our report, which is here with appended:

BRICK.—The market for hard remains steady, as last reported. Vessels are making about one trip per week, and the supply seems to be kept up on ordinary terms, sufficient to hold the market upon the present footing. Production is ceasing. We have reports that the yards at Cornwall have closed, and that four out of seven yards at New Windsor have done the same thing, and that all the manufacturers will discontinue on September 1. There is no reason why they should keep on. The demand has declined so that the market cannot bear the least surfeit of goods, and it needs a certain knowledge of its resources to keep steady and to avoid violent and disastrous fluctuations. The stocks remaining at the kilns, although far behind the production of previous years, will probably answer every call that will be made between now and spring. Fronts show no change, and are quoted firm at previous prices. Our quotations generally are as follows: Pale, ₱ M, $2.25@2.50; Jersey, $5@5.50; Up-river, $5@5.50; Haverstraw Bay, $6.00@7.50; Fronts, Croton—brown, $12; dark, $13; red, $14; Philadelphia, $28@32; Baltimore, $50@58.

CEMENT.—We have nothing to alter from our last report. Rosendale is nominally firm at $1.40, this price, however, not extending beyond export orders. For city the price is $1.25, with concessions at times. Portland is held at $4.50@4.75, and other foreign at $4 @4.75.

FIRE BRICK—Are without a market, and are held nominally at our quotation.

FOREIGN WOODS.—We are without any new report, and quote the market firm under previous conditions of trade.

GLASS.—French window continues in fair demand, with firm prices and, perhaps, stronger tendencies. Sheet and plate continue dull and nominal.

HAIR.—Quiet but steady, cattle quoting at 18@25 cents. and goat at 21@28 cents per bushel, acording to quality.

HARDWARE.—The market does not show that activity which is the best guarantee for successful fall trade. Some houses seem doing a fair amount of business, while others are far from being busy. The brass and copper manufacturers have reduced the prices of brass and copper sheet and wire 8 cents per lb., except for fine wire, which has been reduced 4 cents. German silver has been reduced 5 cents. Copper rivets are still unsettled in price, and discounts are quoted as low as 35 per cent.

LATH.—Arrivals have fixed a new quotation. Since our last report sales have been made at $1.75@1.80, and closing transactions left the market firm at the latter price. We can say that laths are wanted at $1.80.

LIME.—The conditions of the market are the same, the supply being restricted to less than the demand, and prices are steady at $1@1.25 for State, and $1.15@1.65 for Rockland.

LUMBER.—Our report for this week is only a reiteration of the past, prices and the character of business remaining unaltered. The yard trade continues comparatively insignificant, and the wholesale market is reported as very dull and unprofitable. White pine is in limited request, and stocks are about made up for the remainder of the year. Further purchases may ensue, should terms be of a character to induce investment, but trade is and will be conducted upon the safest principles. Spruce is dull at our quotation of last week, viz., $14@15.50 for random cargoes, and $18@19 for extra sizes. Yellow pine is very dull as previously quoted. We quote: Resawn timber at $24@26.50 for random, and $26@30 for ordered cargoes. Hewn timber, $24@30; flooring, $25@32; sidings, $23.50@24. Hardwoods are inactive, and somewhat unsettled as to price, black walnut retaining its position in quotation more strongly. We have it rumored that some Canada white pine has been sold in bond for export at $18 and under. The export trade in yellow rine at the South seems to be quite active. Sales of 1,500,000 feet for shipment from Georgia to South American and West Indian ports having been lately reported at $16.50 per M.

Michigan and Wisconsin Notes.

From the *Lumberman's Gazette* (Bay City, Mich.), August 22:—

There is nothing of special moment to report in the lumber market this week, further than that the general indications continue favorable for an improvement in time. The mills on the river are closing up on the end of their stocks with great rapidity, the great bulk of the logs have come out of the Tittabawassee, the principal source of supply of the river, and hereafter the delivery from the boom will be of the leavings, which have not been reached before in some years. The general feeling is, that though the trade continues dull, in sympathy with all other business, yet the business is on a good basis for the future. The old logs are all out of the way, and the operations in the woods will inevitably be much curtailed this winter by the financial stress, should there be no concerted and organized effort to keep down the log cutting. The state of affairs in the other lumber districts being similar, there is no reason to doubt that the supply for next year will be very largely reduced. This will be somewhat affected, though not largely in this section, by the necessity of cutting some timber through which the forest fires have run; but making the largest allowance for this, the aggregate of the operations will be small compared with the usual cut. The stock of lumber on the river docks here is much lower probably than is generally supposed, people having been lead to exaggerated estimates by the loud complaints of dullness of demand and short shipments. The latter, as has been apparent from the comparative statements we have given from time to time, have run ahead of the corresponding periods last year, notwithstanding the unsatisfactory conditions of the business.

From the same:—

The lumbermen of Wisconsin and Minnesota are becoming interested in the general movement to curtail the supply of logs for next season. Fortunately, perhaps, the financial situation will of itself sufficiently curtail operations in the woods in many districts, but there is no harm in talking the subject over, and supplementing the money tightness by voluntary agreement to curtail. The price of common lumber ought to go up at least $2 per M; and it will, if there is proper organization and action among lumbermen.

General Western Notes.

From the Chicago *Inter Ocean*, Aug. 24:—

The market to-day was about in the same condition as noted on the preceding days of the week. The receipts were liberal, the favorable winds bringing in a large fleet from the east shore. The attendance of buyers was light, the country trade especially being very poorly represented. As a consequence, sales dragged, the market ruling dull and weak, while it was next to impossible to obtain correct quotations. Sellers are very backward in reporting their sales, and scarcely half a dozen transactions were recorded on the sales book during the past week. Prices nominally about $8 for joist and scantling, with sellers refusing to shade this figure. Strips and boards quotable at $8@15 for common to choice mill-run. Shingles, $2.50@2.75. Lath, 1.50@1.62½. Closing dull, with a large number of cargoes unsold.

In the yards trade was rather quiet, and values were without any quotable change.

Eastern Notes.

From the Boston *Lumber Trade*, August 24:—

We are sometimes afraid that the monotony of these reports will disgust readers, but we must report the market as we find it. To all inquiries but one answer is vouchsafed. Inaction characterized the lumber business. Nothing of importance is occurring in the way of sales. There seems to be a slight call for different grades which keeps up the appearance of doing business, even if attended with small profit. The arrivals of Eastern and Southern lumber have been few in number and small in quantity. Considerable Western lumber has come to hand since our last.

We have had our list of prices tabulated and carefully revised by some half dozen of the principal dealers. The extremes of their opinions have been taken as the best and most reliable prices we can gather. Hemlock lath we drop from the list. The price as been quoted $1.50. This was nominal. Hemlock laths are not wanted at any price. Some sales are of course made at lower figures than given below, but we think the table is as nearly correct as it can be made. We hear of one well-assorted cargo of Southern pine being sold as low as $25.

When prices fall so low that they are ruinous to shippers, there is but one method for producers to pursue, and that is—stop. We congratulate the trade that this course is being adopted throughout the country. The surplus stock can be worked off in no other way. It will require some little time to do this, as the demand is light, but in good time the relief will come. Shippers will undoubtedly lose something by waiting; but they have their choice between this course and that of continued shipments with continued and increasing loss. It is simply suicidal to force lumber upon the market at this time, and the bad effect is felt by every one in the trade—from producer to consumer. With the reduction of the quantity of manufactured lumber, we see light ahead. Without it the trade is doomed. It has been claimed that shippers should have seen this before, and marched to the right-about some time since, but it is no easy matter to accomplish such a movement. We are glad, however, to note that advices from every quarter indicate that the instinct of self-preservation has asserted its right, and that the producing of lumber is to be carried on for a time more within the bounds of reason, and with an eye to the wants of the country.

Southern Notes.

From the Florida *Express*:—

PENSACOLA, August 15, 1874.

Since our last there has been no reaction of any kind, and dullness reigns in all departments of our business community.

FREIGHTS.—We are yet to hear of new engagements for United Kingdom or Continental; indications, however, point to low figures. For domestic port some few vessels are bound here, and there remains no new demand for tonnage. For West Indies and South America there is not an inquiry.

HEWN TIMBER—Is not quotable, the reports from abroad are discouraging, and dealers in hewn pitch pine and other woods would have hard times for one if not for two seasons to come.

SAWN TIMBER—Has not been so overdone, but shows little activity; there will, no doubt, be something done later on this wood, more on account of extreme low freights than any great want of the article.

ASSORTED LUMBER—Begins to show reaction, inquiries are coming in from some of our old consuming markets, and we hear of some of our mills working under contracts with parties North; still there is nothing to elate the mill interests, and there are many other interests depending on the mills. We had better make up our minds for hard times, and work our very best to make them better.

From the *Price Current*:—

NEW ORLEANS, La., August 22.

We have nothing but depression to note and little or no change in prices. The stock is light and the receipts are small.

CARGO LOTS.—Rough scantling and boards are quoted at $10@12 ₱ M feet; rough flooring, $16; dressed merchantable lumber flooring, $18@20; ceiling, $12@14; dressed weather boards, $14@16; shingles, $3.25 ₱ M. At retail rough is quoted nominally at $15; flooring, $25; ceiling, $18; dressed weather boarding, $19; shingles, $13.75 ₱ M.

OAK STAVES.—The demand is good, but owing to scarcity of tonnage sales are small. The supply is good but arrivals are small. Prices are unchanged. We quote dealers' prices delivered to ship as follows: Extra pipe, 60-inch, $175@185; extra pipe, 56-inch, $150@155; light pipe, 56 to 60-inch, $115@120; extra hogshead, 48-inch, $125@130; extra claret, 40-inch, $90@95; extra barrel, $75@80 ₱ 1,200.

METALS.—COPPER.—Manufactured is irregular, but we quote: New sheathing 30@31 cents per lb.; bolts and braziers, 32@33; and nails, 37@38 cents. Yellow metal sheathing and bronze, 22@23; bolts, 30; and nails, 23@24 cents. Ingot has sold at 19¼@19¾ cents, and is generally held at 19½@19¾ cents.

IRON.—Scotch pig is firm and somewhat stronger, with very limited stocks. American is dull and very inactive at unsettled prices. Rails are without business, and scrap is said to have sold to the extent of 500 tons or more at $34@35. Manufactured from store is quiet at our quotations. Russia sheet is in some request at former prices.

LEAD.—Pig continues depressed because of government sales at $5.65, gold, while from merchants' hands $6 37½@6.50 is asked. Domestic is quoted at $5.65@5.75. Manufactured is unchanged at 8¾ cents for bar, 9 cents for sheet and pipe, less 22 and 2·9 per cent. Tin-lined pipe, 16½ cents, less 10 per cent. to the trade.

TIN.—Pig continues dull and almost without movement. Sales of refined English have been made at 21½ cents. We quote nominally straits, 22½; L. & F., 20¾; and English, 21½ cents, gold. Plates are also dull with reports of a weaker market abroad.

ZINC.—Sheet is in moderate request at unchanged prices.

NAILS.—Cut are unchanged and steady, and we quote: 10d. to 60d. common fence and sheathing, ₱ keg, $3.75@3.85; 8d. and 9d common do ₱ keg, $4@4.15; 6d. and 7d. common do ₱ keg, $4.25@4.40; 4d. and 5d. common do ₱ keg, $4.50@4.65; 3d. and 4d. light, ₱ keg, $5.25@5.40; 3d. fine, ₱ keg, $6@6.15; 2d. ₱ keg $6.75@6.90. Cut Spikes, all sizes, $4@4.15; Finishing, Floor, Box, Coopers, Slating, and Brad Heads: 3d. (Slating), ₱ keg, $5.90; 4d. and 5d. ₱ keg, $5.15; 6d. and 7d. ₱ keg, $4.90; 8d. ₱ keg, $4.65: 10d. to 60d. ₱ keg, $4.40.

CLINCH NAILS.

1¼ to 1 in.	2 & 2½ in.	2½ & 2¾ in.	3 in. and longer.
$6.50@8.00.	$6.00.	$5.75	$5.50 ₱ keg.

OILS.—Linseed is weaker, and is held at 84@85 cents from crushers' hands.

PAINTS.—The market is steady, and trade continues fair. Quicksilver has advanced, and higher prices may be expected for Vermilion. B. B. ground white lead continues very scarce for spot. Southern china clay is plentiful and dull at $15, currency. English is held at $21.

PITCH—Is weaker and quiet. Held at $2.50@2.62½, f. o. b., for city.

SPIRITS TURPENTINE.—The market became weaker subsequent to our last report, and prices declined to 35 cents, but recovering somewhat with a small trade, closed quiet at 35@35¼ cents.

TAR—Is dull, and lower prices prevail. We quote: Newbern and Washington at $3.25@3.50; Wilmington at $3.75@3.87½.

ALBANY LUMBER MARKET.

[FROM THE ALBANY ARGUS, AUGUST 26, 1874.]

A quiet market, as is usual at this season; more active movement is looked for, as with the approach of fall weather buyers will be seeking for their fall and winter stocks, and they will doubtless avail themselves of the present favorable condition of the market. Stocks, though fairly assorted, are light for the season, and the receipts by canal, for the first time this year, show lower figures than in 1873; the weekly report of receipts, embracing, as they do, what was held back by canal repairs at Cohoes, are very light, and there is less lumber on hand than there was a month ago; of some kinds the supply is working low, especially in common grades, 1¼ inch. We have not any change of moment to make in our figures.

The movement in Canada has become general to control the supply of logs for the next season. Manufacturers appear to be in earnest about it.

There is not lumber enough offering at Ottawa to give employment to one-third the vessels offering for Burlington and Whitehall. Freights are quoted $1 to Albany; with the exception of one or two weeks this season, this is the lowest rate ever known on the route from Ottawa to this city.

It is reported from Ottawa that the Chaudiere mills are to be shut down September 26th.

At Chicago, the reported receipts of lumber, by lake, to the 18th of August, were 629,916,100 feet, against 649,815,000 feet the year previous; the shipments from Jan. 1st, are 349,750,000 feet against 336,068,000 feet the previous year. The trade at Chicago is dull and easy, with large receipts, which receivers hope will be checked until prices amend.

Canal freights from Buffalo to Albany are: $5 per M feet for pine, and $6 for hardwood; from Oswego, $2.75.

The receipts at Albany by the Erie and Champlain canals during the 3d week of August, were:

	Bds. & Sc'tl'g ft.	Shingles, M.	Tim'r, c. ft.	Staves, lbs.
1873..	13,246,300	772	....	440,000
1874..	11,358,700	792	....	....

Of the boards and scantling received, 7,751,800 feet were by the Erie, and 3,607,000 feet by the Champlain canal.

The receipts at Albany by the Erie and Champlain canals from the opening of navigation to August 23d, were:—

	Bds. & Sc'tlg ft.	Shingles, M.	Tim'r c. ft.	Staves lbs.
1873..	197,947,500	3,225	....	3,637,800
1874..	196,611,200	8,104	7,500	641,000

A GOOD INVESTMENT

EVERY PRUDENT MAN, CAREFUL OF THE health and comfort of his family, should see to it that his drinking water is conveyed through TIN-LINED LEAD PIPE, which is a perfect safeguard against lead poison. Tin-lined Lead Pipe is strong, durable, flexible, and easy soldered. It is a great benefit to the community, and enhances the real value of every house in which it is introduced. It is cheaper than Lead Pipe, when strength and durability are considered. Sold by the COLWELL LEAD CO., 213 Centre St., New York. Price, 16½ cts. a pound for all sizes. Descriptive pamphlets sent by mail free. Also, manufacturers of Lead Pipe, Sheet Lead, Block Tin Pipe, Bar Tin, Pig Tin, Bar Lead, Pig Lead, Solder, &c. Orders filled at sight.

TRANSFER GRAINING.

THE ONLY COMPLETE PROCESS OF GRAINING EVER INVENTED.

Its practicability and utility are fully established by the 350 Licenses and Machines in use.

It copies exactly **ALL NATURAL WOODS**; also, ASSUMED DESIGNS ETCHED OR ENGRAVED ON WOOD, GLASS, OR METALS.

The process is so simple and complete that Panels of all sizes and shapes can be grained, so that unskilled labor can be employed. The American Institute awarded us the HIGHEST PREMIUMS for it in 1872 and 1873.

For Circulars, Samples, and References, apply to

CROSS & BASTINE, 132 West Broadway, N. Y.

Caution.—All persons buying a Graining Machine in which a smooth elastic surface is used, are hereby notified that we are the inventors and owners of Letters Patent pertaining to and fully covering this process. We shall hold all parties responsible by suit who purchase of one John Johnston, offering for sale a smooth elastic surface for transferring configurations or graining, or any one unauthorized by us. Suits have been commenced against Edward W. Baxter & Co. and others for infringing. We shall prosecute all parties found using or vending, to the full extent of the law. SOAPSTONE WASH TUBS.
A MUCH AND LONG NEEDED IMPROVEMENT.
None More Simple & None so Durable.

We are now manufacturing in this city to order, Wash Tubs and Sinks of the celebrated Francetown Soapstone.
Of the annoyance, costly repairs, and filthiness of our present wash tubs the public need not be told—experience has taught them. The superiority of them over wood is, they do not absorb the wash water and slops, consequently preventing that *disagreeable odor* in the house. They are easily kept sweet, clean, and dry *They are not affected by hot or cold water. Never crack or leak.*
Cheaper than Wood, and will last a Lifetime.
They only need to be seen to be appreciated. All interested we invite to call and examine them at our warerooms.

CHASE'S
PIPE CUTTING & THREADING MACHINE.
This important tool is designed to fill a want long felt by STEAM AND GAS FITTERS and MACHINISTS for cutting and threading pipes rapidly and cheaply. An apprentice boy, with one of these, can do more work than two men with old appliances, under the old system. NO PIPE SPLITTING! NO BEVEL INSIDE OR OUT! It cuts threads and makes nipples for all sizes of pipes, from ⅛ to 2 inches. Weighs only 100 lbs. Stronger than any machine made. A set of collars and lengths for making nipples goes with the machine. Address THE CHASE MANUFACTURING COMPANY,

THE HAYES
SKY-LIGHTS, &c.,
Under patents of 1869, '70, '71, '73, and '74.
In relation to the notice of Charles Sellman, published in these columns, the undersigned states that suit has not yet been commenced against him, though preliminaries have been taken, awaiting only a knowledge on my part of the fact of his having furnished to any person a sky-light under his so-called patents which, if he has ever furnished, he is careful that it shall not come to my knowledge.
The silver medal and diploma of the American Institute fair of 1873 are in my possession, having been awarded to me as the legal and justly-entitled owner.
The cases of Charles Sellman and George E. Dayton (who have both been under my pay and instruction), will receive, in due time, their merits through the proper source, and I am only sorry that unwary persons will, *of necessity, be concerned.*

Magrath's Copper Sash-Chain.

Patented 21st March, 1871.

Is adapted to ordinary round pulley, and strong enough to suspend weights of any size required.

Being intended as a substitute for sash-cord, it can be put into sashes now provided with cord without any change of pulleys. The inventor feels confident that experience will prove his chain to be both economical and durable, besides doing away with the constant annoyance and expense attending the use of sash-cord.

MORTGAGES.

REAL ESTATE.

NEW YORK.

NOTE.—The arrangement of this list is as follows: The first name is that of the mortgagor, the next that of the mortgagee. The description of the property then follows, then the date of the mortgage, the time for which it was given, and the amount. The general dates used as headings are the dates when the mortgage was handed into the Register's office to be recorded.

Wherever the letters "P. M." occur, preceded by the name of a street in these lists of mortgages, they mean that it is a Purchase Money Mortgage, and for fuller particulars see the list of transfers under the corresponding date.

MISCELLANEOUS.

REVIEW OF THE REAL ESTATE MARKET.

The leading feature of the market at present is an indisposition to bring sales under foreclosure proceedings to an issue. Whether this is done from a sympathy which avoids forcing debtors to loss and sacrifice, or from a hesitation on the part of creditors to buy in the property pledged as security, we do not know. Nearly every public sale during the past week has been adjourned, and the reasons therefor probably partake of both of the feelings we have indicated. We confess that we are glad to see that business has taken such a turn. It has done and will do the market no good to perpetually hammer at and beat it down under forced issues. To the well informed the public sales indicate nothing beyond the special sacrifice they represent, and are of no worth as a criterion of value for property not similarly situated, but there is, nevertheless, a depressing effect in slaughter of any kind, and while sacrifices are prevalent and bargains may be had in merely buying over existing liens, it is not to be expected that the market generally should be active. The week has therefore been a dull one in real estate. We have had one private sale of some apparent magnitude reported, but the price mentioned does not coincide with our opinion as to values, and we have been informed that the transaction was a simple transfer of interests between owners. In all other respects the market is unaltered, values remaining nominal, while business awaits the later developments of the season.

GOSSIP.

The Department of Public Works reports the following contracts entered into: One Hundred and Eleventh Street, from Fourth to Fifth Avenue, regulating, grading, curbing, guttering, and flagging; and One Hundred and Twenty-sixth Street, from Fifth to Eighth Avenue; Avenue B, between Eighty-sixth and Eighty-seventh streets, sewer; Tompkins Street, between Broome and Delancey streets, sewer; Attorney Street, between Grand and Broome streets, sewer; Ninth Avenue, between Sixty-fifth and Seventy-fifth streets, sewer; Eleventh Street, from one hundred feet east of Avenue D to East River, paving with Belgian or trap-block pavement. Also the following contracts completed: Ninety-second Street, from Eighth Avenue to the Boulevard, regulating, grading, etc.; Madison Avenue, from One Hundred and Twenty-fourth Street to Harlem River, regulating, grading, etc.....The Receiver of Taxes gives notice that the books for taxes for 1874, on personal property and bank stock, are open for payment.

MARKETS.

There is nothing new in trade, and fall business is, so far, unsatisfactory and behind expectation. There is, however, a very general feeling that all the conditions which tend to prosperity and excite life in trade are in development, and that there is yet ample opportunity for good markets and fair returns. We learn, through authentic sources, that the lessons of the year have not been lost; that there has been a judicious moderation exercised in granting and asking credits; that speculation has been repressed; and that a more sober tone has pervaded mercantile transactions. Mercantile indebtedness is small, trades are carrying light stocks of goods, and prudence and economy are generally practiced. Money is easy, and our financial system is more settled than for years past. Crops have been abundant, and the harvests, despite all accidents, yield bountiful returns. These things tend to prosperity, and the movement only needs to be started to insure active trade with good results. Our markets, dependent as they are, must take a little longer time to recover, and building interests have to suffer not only from the dullness of general trade and the suspension of all speculative movement, but from the fault of over-production, an experience which many builders have gained to their cost.

The workingmen have created other drawbacks, and have repressed ligitimate production by refusing to work except upon their own terms, which, as it has happened, have always been of an unreliable character, and have been fixed without proper reference to the conditions of trade. This same feeling still prevails and aids to prevent building and to embarrass the recovery of our markets. We have little news to record this week. Trade is substantially the same as at last report. A few changes occur, to vary the monotony, but not to break the dullness of the markets, and details are herewith appended:

BRICK.—There has been a further closing down, several of the yards at Haverstraw having suspended during the week, while it is reported that all of the others will shortly close their work for the season. There are no changes in the market for hard. Arrivals continue upon the same scale as previously reported, the same amount of stock lies in the market and the demand does not change its proportions. Fronts are steady and in fair request. We quote: Pale, ₱ M, $2.25@2.50; Jersey, $5@5.50; Up-river, $5@5.50; Haverstraw Bay, $6 @7.50; Fronts, Croton—brown, $12; dark, $13; red, $14; Philadelphia, $28@32; Baltimore, $50@58.

CEMENT.—The market for Rosendale is about as last reported. There seems to be a fair export demand at $1.40, and the quotations are nominally steady at that. The city trade does not admit of such prices, and our quotation is $1.25. Portland is in some request, but with weak feeling. Sales are reported of 300 bbls. from yard at $4.65, and of 100 bbls. at $4.50 per bbl.

FIRE BRICK—Have had more movement, and we quote red Welsh at $50@55, and American at $40@50. There have been sales of 30,000 Scotch at $45 ex-ship, and of 5,000 Welsh at $50.

FOREIGN WOODS.—The market is quiet, but steady at our quotations.

GLASS.—The active demand for French window induced an advance in prices, since when trade has fallen off to a limited extent. The market continues in good shape, however, and dealers are quite firm in their prices. Discounts have been advanced, and we quote at 60 and 10 per cent. English sheet and polished plate are unchanged and nominal.

HAIR.—There is nothing new in the market, which has fallen off in activity, and is said to be quiet, but steady, as previously quoted. In the absence of trade there may be some shading and a little weakness, but nothing sufficient to induce us to change our quotations which are, as to quality, as follows: Cattle, 18@25 cents; and goat, 21@28 cents per bushel.

HARDWARE.—Trade is backward and dull beyond expectation. Purchases are made very closely and with a strict view to meeting positive requirements. There is some cutting under in prices to secure the trade that is going, and the state of the market has induced several changes in discount sheets, all in favor of the buyer. Hayden, Gere & Co. quote plumbers' brass work 20 per cent. discount; lager beer, and racking, lock, globe, and boiler cocks 25 per cent.; Boston waste, hot, cold, shut, and waste cocks 10 per cent.; chain, net; basin and shampooing cocks, hose pipe (¾ and 1 inch), hose couplings (⅜@2 inch), and basin plugs, 33⅓ per cent.; compression work, 25 per cent.; compression bibbs and cocks, 33⅓ per cent.; Stebbins' brass work, 25 per cent.; steam work (except as named below), 20 per cent.; safety valves iron shell, perpendicular check valves, horizontal check valves, No. 1, angle valves, No. 1, globe valves, No. 1, globe valves, with flanges, composition, service, meter, and steam cocks, all 25 per cent.; safety valves composition, horizontal check valves, No. 2, angle valves, No. 2, globe valves, No. 2, globe valves iron shell, globes valves iron shell, with flanges, iron cocks, water gauges, all 33⅓ per cent.; locomotive oil cans, with valve, net. The Antonia Brass and Copper Company have reduced the prices for O'Neil's planished copper 14x48 to 35 cents, 14 and 16 oz. by the case, and 12 oz. and lighter to 38 cents; less than a case, 1 cent more. Boiler sizes, 7 inch 14x52, to 9 inch 14x60, 14 and 16 oz., to 37 cents by the case; and 30x60, 14 and 16 oz. and over, 40 cents, and 12 oz. 43 cents, the reduction being 3 cents ₱ lb. Sargent & Co., in their new discount sheet, quote Mallory, Wheeler & Co.'s padlocks and keys 45, and 1 and 5 per cent., and all other M. W. & Co.'s goods 40 and 5, with 10 per cent. extra discount for prompt cash. Soldering irons, less than a case, are quoted 33 cents, and copper bottoms the same price, being a reduction of 3 cents. Foreign goods are in limited demand at steady prices.

LATH.—The market may be called steady at $1.80. Arrivals have been enough to fairly supply the demand, and we do not expect any change in prices until a call upon the stocks on hand without compensating arrivals shall excite an advance, or a glut of goods create weakness and decline.

LIME.—Supply and production are adapted, as far as this market is concerned, to the exact requirements of trade, and prices are, consequently, well sustained. There are no changes in the market, and we quote: State—common at $1, and finishing, $1.25; Rockland is held firmly at $1.15 for common and $1.65 for finishing.

LUMBER.—There are no new features in the market, except that with the opening days of September trade, which was at a minimum toward the close of August, has revived to a certain extent, and a moderate business may be said to be doing at the yards, responsive to the demand which usually springs up at the beginning of a month, and pushed still further by the call which is making upon the common grades of pine for general mercantile purposes. Prices so far seem steady, and without advance, and quotations are nominally retained in all instances. Spruce is dull, and is quoted at $14@15.50 for random and $18@19 for extra and ordered schedules. The latter price might be improved upon in special instances, while there is a general tendency to weakness. Yellow pine is in limited request, and quoted as follows: Resawn timber at $24@26.50 for random and $26@30 for ordered cargoes. Hewn timber, $24@30; flooring, $25@32; sidings, $23.50@24. The market for hardwoods continues dull and weak. Trade is generally indifferent, but hope and expectation all tend to a more active market.

Canada Correspondence.

Review of the Canada Lumber Market by CARBRAY & ROUTH, of Montreal and Quebec, August 29th, 1874.

We do not think the position of the lumber market within the last three months has had a precedent. Dullness has reigned, and mill owners, incited by banks which furnish means, have been holding meetings to discuss the propriety of stopping work. There were, of course, many interests to consult and some pleading existing contracts, the others did not wish to shut down and see their neighbors running, so the matter was deferred till the fall, when an early shutting down was promised—one mill alone shutting down entirely at once on account of limited piling ground. Since then, however, all have agreed to shut down entirely on September 26, nearly three months earlier than usual. It is, however, certain that work in the woods must be small this winter, the banks being decided on the question of small accommodations for that purpose so as to enable manufacturers to hold present large stocks till a general brightening up takes place or till they can be gradually worked off.

A very common argument made by buyers is, "Why has the price of lumber increased within a few years? labor and provisions have been rather higher, but not in proportion to the advance in prices." The answer to this is in the working grounds; limits which some years ago could be had at $8@20 per square mile are now worth from $50@500; and mills which some years ago got their logs four to six months after they were cut have now to wait two and three years, and work them at each freshet like a new drive.

It is incontestible that present prices are considerably below cost, and must go up or production become impossible.

The English markets have been much depressed since spring in consequence of the heavy stocks laid in at the high prices of last year; but with the fall trade, which is gaining strength every day, an improved feeling is perceptible and prices are firmer. Consumers are availing themselves of low prices, and the amount of wood goods going into consumption is enormous. Shipments to United Kingdom are on about the usual average, but we look forward to a falling off this fall, spring business having been most unsatisfactory to manufacturers.

Shipments to River Plate are very small, only twelve vessels having cleared for there, carrying 4,250,000 feet of lumber, against forty-one clearances to same date last year, carrying 18,000,000 feet of lumber.

Canal freights have reached a very low limit, paying about one-half of expenses, and from some points whence rates to New York used to vary from $5.50 to $7, $2.75 has been gladly accepted.

Michigan and Wisconsin Notes.

From the *Lumberman's Gazette* (Bay City, Mich.), August 29:—

There is still nothing new to report in the lumber market. Shipments continue slow, and there are no indications of an immediate improvement. Manufacturers, however, are more patient under the dullness as the more remote prospects develop themselves. Among the most promising of these prospects is that regarding the proposed reciprocity treaty. A very general and earnest opposition to that treaty has been aroused, and will doubtless be made of some effect upon the meeting of Congress. The ship-building, as well as the lumber interest, has awakened to the need of doing what may be to oppose the scheme, and, altogether, the promise is more cheering. The mills on the river are shutting down or getting ready to close as the end of the log stock comes nearer. There is no great pressure for dock room, while the facilities for storing logs have been considerably increased in the aggregate along the river. So far as possible, of course, logs instead of lumber will be carried over, as representing a much smaller investment. The operations in the woods the coming winter seem just now to be influenced most largely by the late fires, which have run over large tracts, damaged the timber so that it will be necessary to cut it this winter. The largest operations to be carried on, therefore, will probably be upon such timber, but those who are thus forced to cut over land which

would otherwise be left untouched, for the present, will curtail other operations, so as to leave the total result not materially changed. The great mass of small operators will find no encouragement and no means for lumbering as long as the lumber market remains as at present.

Some recent improvements by the Tittabawassee Boom Company in "Sixteen" bid fair to bring out the very last of the old logs in that section. If this is so, the sweep will be even cleaner than has been anticipated, and there will remain absolutely nothing worth computing in the great lumber stream. The end of the rafting from the shore streams is fast approaching, and the whole business now bids fair to close with a short stock some months earlier than usual.

Prices for lumber continue firm at previous quotations, $6, $12, and $35, with variations for inferior lots.

From the Saginaw *Courier*, Aug. 28:—

The feeling that a more active movement in lumber, with a possible advance in prices, as the season advances, is general. July and August are always the dullest months in the year for the lumber trade, and owing to the general stagnation of other branches of trade, was perhaps more noticeable this season than usual. The harvest is well advanced, crops have been bountiful; there is a fair demand for all the products of the soil at remunerative prices, and it is not unreasonable to suppose that the favorable condition of the lumber market will be taken advantage of. Within the past ten days a number of heavy dealers have put in an appearance in the valley, and are looking into our stocks with an eye to business. A number of purchases have been made, but dealers are loth to report them. Two cargoes were sold to Chicago parties on yesterday, at $5.50, $11, and $32, and a number of other sales, the quantities not learned, have been made during the week at the same figures. The mills are not crowding matters much, but are filling up their docks slowly, and some are making dock room. It is quite probable there will be a much larger log cut this winter than was at first supposed, owing to the damage to standing pine by the forest fires. Some firms are already making preparations for the winter campaign in the woods.

Freights are dull. The rates obtainable are $1.50 to Ohio ports, and $1.75 to Buffalo and Chicago. The supply of carriers at these ruinous rates is largely in excess of the demand.

Eastern Notes.

From the Boston *Lumber Trade*, August 31:—

The demand for lumber, while not exhibiting anything of an active nature, is nevertheless fair and steady. About so much stock is sold each week, but buyers are not plenty, and there is no probability of a revival of trade until late in the season. Prices have touched bottom without doubt, but we find no dealers who look for an advance before spring. The demand must increase, and the supply diminish, before this consummation can be effected. Some sales are being made at prices below our table, but as a rule dealers are firm. The arrivals of Southern and Eastern lumber have been light for the past week. Western lumber is coming forward, many dealers taking advantage of the reduced freights.

METALS.—COPPER.—Manufactured is quiet, but more inclined to steadiness, and we quote as heretofore: New sheathing, 30@31 cents per lb.; bolts and braziers, 32@33; and nails, 37@38 cents. Yellow metal sheathing and bronze, 22@23; bolts, 30; and nails, 23@24 cents. Ingot has been more active, and prices have advanced, with sales at 20@21 cents, closing firm at the latter price.

IRON.—There is very little inquiry for Scotch pig, and purchases seem confined to the smallest requirements of the trade. American pig continues dull, and without any particular change. There has been some movement in rails, 5,000 tons new American having been sold upon private terms. Scrap is quiet, with sales of 200 tons from yard at an unknown price. Manufactured is depressed, although manufacturers have raised their prices, and quotations advanced accordingly.

LEAD.—Pig is in better request, all the stock in first hands having been sold at $6.37½@6.40. Sales have been made to arrive at $6.37½, now held at $6.62½. Bar, pipe, and sheet are now quoted 7¾ cents, less 10 per cent.; tin lined pipe, 16½; and block tin pine, 55 cents, both less 10 per cent. to the trade.

TIN.—Pig continues dull, straits being held at 22@22½ cents; L. & F., 20½; and refined English, 21, gold. Plates have been more active, and prices are firmer.

ZINC.—Sheet is in some request at our quotations.

NAILS.—Cut are in moderate demand at previous prices. We quote: 10d. to 60d. common fence and sheathing, ₩ keg, $3.75@3.85; 8d. and 9d common do ₩ keg, $4@4.15; 6d. and 7d. common, ₩ keg, $4.25@4.40; 4d. and 5d. common do ₩ keg, $4.50@4.65; 3d. and 4d. light, ₩ keg, $5.25@5.40; 3d. fine, ₩ keg, $6@6.15; 2d. ₩ keg $6.75@6.90. Cut Spikes, all sizes, $4@4.15; Finishing, Floor, Box, Coopers, Slating, and Brad Heads: 3d. (Slating), ₩ keg, $5.90; 4d. and 5d. ₩ keg, $5.15; 6d. and 7d. ₩ keg, $4.90; 8d. ₩ keg, $4.65; 10d. to 60d. ₩ keg, $4.40.

CLINCH NAILS.

1¼ to 1 in.	2 & 2¼ in.	2½ & 2¾ in.	3 in. and longer.
$6.50@8.00.	$6.00.	$5.75	$5.50 ₩ keg.

OILS.—Linseed is weaker and can now be had at 83 cents for casks from crushers' hands. Large lots are said to be obtainable at 81 cents. We quote generally at 83@85 cents.

PAINTS.—The market is in a very fair condition of trade, prices being steady and goods in fair demand. American white lead is a little off in price. Cookson Venetian red is scarce for spot, and is held firmly at 2¾ cents, currency. Extra dry verdigris is held at 30 cents, gold. China Vermillion is held at $1.85, gold.

PITCH.—The market is quiet for city, with sales of 225 bbls. at 2.50@2.62½ f. o. b. We quote at $2.50.

SPIRITS TURPENTINE.—There has been a moderate demand, and prices weakened under its influence, declining to 35 cents for merchantable. The market is strong, however, at this price, and we quote at 35@36 cents per gallon.

TAR—Is dull and nominal. Sales have been limited to about 40 bbls. Wilmington sold at $3.50 in order in yard. We quote as follows: Newbern and Washington, $3.12½@3.37½ per bbl.; Wilmington, $3.50@3.62½.

ALBANY LUMBER MARKET.

[FROM THE ALBANY ARGUS, SEPT. 2, 1874.]

In common with most other lumber markets, as reported from different sections of the country, we have nothing new to say regarding the state of the trade. Nothing of importance is occurring here in the way of sales; but few buyers have been here this week. Prices remain about the same, but there is a better feeling about 1 and 1¼ inch common, the late heavy sales thereof having materially reduced stocks of those grades. The shutting down of the mills in Michigan and Canada, and the stoppage of shipments, is already being felt, the movement in that direction having been more faithfully observed than was anticipated. The movement, if persevered in, as it is insisted on it will be, must have an important influence on the tone of our market. As significant fact connected therewith, the receipts of lumber continue to decrease compared with those of the corresponding period in 1873; for the week just closed the defficiency is about 3,000,000 feet compared with those of the same week in 1873.

The largest load of timber that ever left the Chaudiere was shipped on the 21st ult. The cargo was 166,704 feet of pine lumber for P. Van Alstyne, of the Lee Box and Lumber Company of New York.

The Ottawa *Citizen* says: There is no one moving up the river yet for the coming season's cut of timber and sawlogs.

Canal freights from Buffalo to Albany are: $4.88 per M feet for pine, and $5.88 for hardwood; from Oswego, $2.75.

The receipts at Albany by the Erie and Champlain canals during the 4th week of August, were:

A GOOD INVESTMENT

EVERY PRUDENT MAN, CAREFUL OF THE

health and comfort of his family, should see to it that his drinking water is conveyed through TIN-LINED LEAD PIPE, which is a perfect safeguard against lead poison. Tin-lined Lead Pipe is strong, durable, flexible, and easy soldered. It is a great benefit to the community, and enhances the real value of every house in which it is introduced. It is cheaper than Lead Pipe, when strength and durability are considered. Sold by the COLWELL LEAD CO., 213 Centre St., New York. Price, 16½ cts. a pound for all sizes. Descriptive pamphlets sent by mail free. Also, manufacturers of Lead Pipe, Sheet Lead, Block Tin Pipe, Bar Tin, Pig Tin, Bar Lead, Pig Lead, Solder, &c. Orders filled at sight.

TRANSFER GRAINING.

THE ONLY COMPLETE PROCESS OF GRAINING EVER INVENTED.

Its practicability and utility are fully established by the 350 Licenses and Machines in use.

It copies exactly **ALL NATURAL WOODS**; also, ASSUMED DESIGNS ETCHED OR ENGRAVED ON WOOD, GLASS, OR METALS.

The process is so simple and complete that Panels of all sizes and shapes can be grained, so that unskilled labor can be employed. The American Institute awarded us the HIGHEST PREMIUMS for it in 1872 and 1873.

For Circulars, Samples, and References, apply to

SOAPSTONE WASH TUBS.

A MUCH AND LONG NEEDED IMPROVEMENT.

None More Simple & None so Durable.

We are now manufacturing in this city to order, Wash Tubs and Sinks of the celebrated Francetown Soapstone.

Of the annoyance, costly repairs, and filthiness of our present wash tubs the public need not be told—experience has taught them. The superiority of them over wood is, they do not absorb the wash water and slops, consequently preventing that *disagreeable odor* in the house. They are easily kept sweet, clean, and dry *They are not affected by hot or cold water. Never crack or leak.*

Cheaper than Wood, and will last a Lifetime.

They only need to be seen to be appreciated. All interested we invite to call and examine them at our warerooms.

CHASE'S
PIPE CUTTING & THREADING MACHINE.

This important tool is designed to fill a want long felt by STEAM AND GAS FITTERS and MACHINISTS for cutting and threading pipes rapidly and cheaply. An apprentice boy, with one of these, can do more work than two men with old appliances, under the old system. NO PIPE SPLITTING! NO BEVEL INSIDE OR OUT! It cuts threads and makes nipples for all sizes of pipes, from ⅛ to 2 inches. Weighs only 100 lbs. Stronger than any machine made. A set of collars and lengths for making nipples goes with the machine. Address THE CHASE MANUFACTURING COMPANY,

THE HAYES
SKY-LIGHTS, &c.,
Under patents of 1869, '70, '71, '73, and '74.

In relation to the notice of Charles Sellman, published in these columns, the undersigned states that suit has not yet been commenced against him, though preliminaries have been taken, awaiting only a knowledge on my part of the fact of his having furnished to any person a sky-light under his so-called patents which, if he has ever furnished, he is careful that it shall not come to my knowledge.

The silver medal and diploma of the American Institute fair of 1873 are in my possession, having been awarded to me as the legal and justly-entitled owner.

The cases of Charles Sellman and George E. Dayton (who have both been under my pay and instruction), will receive, in due time, their merits through the proper source, and I am only sorry that unwary persons will, *of necessity, be concerned.*

Magrath's Copper Sash-Chain.

Patented 21st March, 1871.

Is adapted to ordinary round pulley, and strong enough to suspend weights of any size required.

Being intended as a substitute for sash-cord, it can be put into sashes now provided with cord without any change of pulleys. The inventor feels confident that experience will prove his chain to be both economical and durable, besides doing away with the constant annoyance and expense attending the use of sash-cord.

FORGED DEEDS.

99 NASSAU STREET, New York,
Sept. 10th, 1874.

Editor Real Estate Record.

SIR: I think it my duty to say to you that it was by means of your publications alone that my clients and myself were put upon inquiry in respect to the fraud recently attempted upon the estate of Isaac Young by the recording of a forged deed.

I have been a subscriber to and a reader of the RECORD from the time of its first issue, and have found it very useful. And it was in consequence of a prompt perusal of your number of last Saturday that I was able to detect the crime which had been committed and to put the officers of justice upon the track of he criminals.

Had it not been for your publication the deed would have been obtained from the Register's office, my clients' title would have been clouded by it, and we should have had no clue whatever to the perpetrators of the wrong.

I am, your obedient servant,

CHARLES H. GLOVER.

Attention is directed to the list, published for the first time this week, of the "Satisfaction of Judgments," so that in future subscribers to the RECORD may see who are paying up recorded judgments, as well as the names in its proper list of those having judgments filed against them. After this week the list will be alphabetically arranged.

MORTGAGES.

REAL ESTATE.

NEW YORK.

NOTE.—The arrangement of this list is as follows: The first name is that of the mortgagor, the next that of the mortgagee. The description of the property then follows, then the date of the mortgage, the time for which it was given, and the amount. The general dates used as headings are the dates when the mortgage was handed into the Register's office to be recorded.

Wherever the letters "P. M." occur, preceded by the name of a street in these lists of mortgages, they mean that it is a Purchase Money Mortgage, and for fuller particulars see the list of transfers under the corresponding date.

MISCELLANEOUS.

REVIEW OF THE REAL ESTATE MARKET.

The market has been generally more active during the past week, and some movement is apparent, indicating that real estate retains its prominence, and only defers to all the exigencies which control business of every description. The public sales have been more numerous, although of the customary legal character, and, while prices have ruled low, there has been enough competition to show that the spirit for investment exists, while scarcely anxious to hazard upon a doubtful market. We see no reason why a steadier stand should not be taken, even if prices in certain localities, hitherto speculative, should fail to advance. There is a class of city realty which is and will continue strong in values, and which cannot retrograde. A sale of property on Thirty-second Street, extending from Broadway to Sixth Avenue, is a fair proof of this, although it is possible that in a more active market better prices might have been secured. There is in all more steadiness, and while we do not expect that real estate in the upper portion of the city will early regain its ascendancy, yet it is not too much to suppose that it has reached its lowest ebb. Values are as yet generally nominal, in the absence of transactions, but owners are seemingly more than ever disposed to hold to their investments.

GOSSIP.

The assessment rolls, or tax books, on real estate were opened for the payment of Taxes on Thursday last. Payment can be made daily, between the hours of 9 A.M. and 2 P.M. A deduction at the rate of seven per cent. per annum, calculated from the date of payment to the first day of December, will be made on all taxes paid previous to the first of November.

MARKETS.

Every branch of business coincides, and reports of trade agree so fully that we are impressed that, despite all the misfortunes and difficulties incident to the financial disorders of last year, our people, as a whole, are better off for the experience. Repress speculation, and legitimate money making in the old-fashioned way of hard work and cash transactions, with judicious economy in practical illustration, are better indications for future prosperity which, however long delayed, will be honestly earned and more surely retained. General trade reports are about the same as we have heretofore indicated. Activity increases slowly but gradually, and in response to demands which are real, and necessities which must be met, and the subordination of all necessities to the capacity for paying for them guarantee the restoration of confidence. No influences, however, which excite activity in the building markets have developed sufficiently to give promise of early improvement in the trades which form the subject of our review. The better time is coming, doubtless, but we are still at a loss to suggest its day of advent, and we may have to wait another year, and perhaps longer, before we shall see an energy displayed in building operations that will put our markets upon an equal footing with others. Our reports for the week ended are of the same character as the last. Whatever variations occur are of a kind that have marked the course of business throughout the season, and, although we would gladly give new and happier reports, if only to become rid of monotony and repetition, we are compelled to record an almost unbroken strain of dullness.

BRICK.—Prices are unaltered, and the market for all kinds is steady, as previously reported. We have been given a quotation for Haverstraw Bay brick as high as $8.25. Sales at this figure, however, would include a most exceptionable and selected cargo, beyond the run of the market, and could not be considered in making up a general report of prices. The supply of goods is of a quantity which keeps the market fairly full, and buyers are at no loss to supply their requirements. We have not heard that any more yards have closed operations, although a general suspension is expected at or before the close of the month. Fronts are in fair demand, and without change. We quote: Pale, ℔ M, $2.25@2.50; Jersey, $5@5.50; Up-river, $5@5.50; Haverstraw Bay, $6@7.50; Fronts, Croton—brown, $12; dark, $13; red, $14; Philadelphia, $28@32; Baltimore, $50@58.

CEMENT.—Rosendale is somewhat in demand for export at $1.40, but dull and weak at $1.25 for domestic trade. Prices are doubtless shaded, to meet the views of buyers, and $1.15 would probably more nearly approximate the market price. As it is, quotations are rather nominal. Portland moves more slowly, and prices are weaker, sales having been made at $4.25 to arrive. We quote as follows: Rosendale, $1.25, and Portland and other foreign, at $4.25@4.50, cost of delivery to be added.

FIRE BRICK—The market is inactive, and we do not hear of any movement of American. There have been limited arrivals of foreign, and we note sales of 12,000 Scotch at $40, currency.

GLASS.—French window is in good and improving demand. As a result, prices are firm, and but little variation or concession can be expected, dealers holding quite strenuously to 60 and 10 per cent. discount. English sheet continues dull and nominal. A change has been made in the price of polished plate, the list for which has been revised, and the discount fixed at 15 per cent.

HAIR.—Trade is quiet, demand having fallen off, hardly to the extent of affecting quotations, yet leaving them with a weaker feeling, and a disposition for concessions. We still quote generally, as to quality, as follows: Cattle, 18@25 cents; and goat, 21@28 cents per bushel.

HARDWARE.—There is much disappointment in the hardware market, and dealers who were sanguine of active fall trade are somewhat demoralized in consequence. Still trade moves, and is increasing to a certain degree, and prices are very fairly sustained. A reduction has been made on bolts. Brass and copper goods are dull and irregular. There is a fair demand for foreign goods, which remain at steady prices.

LATH.—Eastern are quoted firm at $1.75, but the market is fairly supplied, and sales occur at $1.65 quite as frequently as at any other price. We quote at $1.65 @1.75.

LIME.—The supply continues in such proportions as will barely meet the requirements of the market, and it is only by such means that manufacturers are able to secure a price for their goods that will enable them to keep up even a restricted production. Rockland is steady at $1.10 for common, and $1.60 for lump. State is held at $1 for common, and $1.25 for finishing, delivery additional.

LUMBER.—The market is dull, and trade is confined to the narrowest limits. Under these circumstances, there is little to excite remark, and we are almost inclined to leave the bare announcement just made as sufficiently indicative of our market. We quote as usual, although prices at the yards vary in several instances that we know of, and may be accepted generally as nominal, dealers qualifying their rates to suit the nature of whatever trade may be going. In a wholesale way there is very little business, and cargoes are hard to place, yellow pine quoting lower than our last report, as follows: Random cargoes, resawn, at $23@26, and dimension orders at $25@28; flooring, $25@30; endings, $22@23. Spruce is also dull at $13 @14.50 for random cargoes, and $17@19.50 for ordered schedules. Sales have been reported of Georgia yellow pine, deliverable at St. Mary's, Brunswick, &c., for the W. I. and South America, at about $16.50, usual conditions, and some white pine is said to have been sold at $22 for South American cargoes. Sales of Canada in bond for export were at $17.50@18. All hopes of better trade are conditioned upon general business activity and prosperity, and although our market occupies a very safe and conservative position, it will not revive until such conditions are satisfactorily secured.

Michigan and Wisconsin Notes.

From the *Lumberman's Gazette* (Bay City, Mich.), Sept. 5:—

There is no change to note in the lumber market, except it may be that buyers have been rather scarcer than ever on the river. Some sales have been reported up the river at $5.50 and $11, but the ruling prices cannot be said to have changed. On the contrary, the old prices of $6, $12, and $35 are as firmly held to as ever.

Notwithstanding the universal complaints during the entire season, it appears by the Custom-house reports that more lumber has gone forward from this port than during the same time last year. This, however, must not be taken to indicate that the rate of shipments now is above that of last year. For only one month, June, have the shipments this year been up to last year's after navigation was finally open. The excess in the season's shipments comes wholly from April, when over 31,000,000 went forward last spring, against less than 1,000,000 same month last year.

General Western Notes.

From the Stillwater (Minn.) *Gazette*:—

The stock of the higher grades of logs has been considerably reduced during the month, though there remains on hand several lots of Yellow and Clam and a few strings of Totogatic logs.

The stock of first-class long white pine is unusually light. Of extra lengths of long Norway, two rafts would exhaust the stock on hand. Of common long logs, white pine and Norway, there is abundance. The light demand for lower grades of short logs during the summer leaves a large quantity now on the market.

Prices remain unchanged on the more desirable logs; holders are willing to make some concessions on inferior stock.

The footing up of the boom master's book shows that 165,000,000 feet of logs have passed through the boom and been delivered to the owners. It is not possible at this writing to state accurately the quantity of logs now on hand in the lake and mill booms; somewhere near 120,000,000 feet have been scaled by the Surveyor-General.

At a large meeting of lumbermen of the St. Croix at Stillwater, after the adoption of a preamble setting forth that the business of cutting timber has been overdone, and that prices obtained during the last two years have not paid a reasonable profit, while the forests have been stripped of valuable timber, the following resolutions were adopted:

Resolved, That we, the lumbermen of the St. Croix Valley, pledge ourselves to unite with the general lumber interest of this and other lumber proprietors in adopting such means and measures as may seem requisite to accomplish the result demanded.

Resolved, That we view with alarm the proposed repeal of the duties on Canadian lumber and logs now held by American parties, and at the very low prices at which they are being sold it would be absolute ruin to add to the present stock the amount which would be thrown on the market by the Canadian manufacturers; and we protest against the repeal of said duty, believing it will be prejudicial to the interests of the whole American people, and we call on our Senators and Representatives to defeat such repeal if possible.

From the Dubuque (Iowa) *Herald*, Sept. 2:—

The past week increased the dullness which has pervaded the lumber market for sales afloat, not a sale occurring to relieve the monotony of the levee. Country

dealers remained at home and evidently had no desire to increase stocks. In yard transactions there was renewed activity on orders west; one or more leading firms had all they could handle during the past few days, a considerable portion, however, of rail shipments are purchases made afloat during the season and sent out on owners' account. The retail trade is light as the building demand is moderate this season.

The greatest competing point the trade of this and other cities has to contend with is Minneapolis; seven lines of railroads from that city tap all important points west. That market, like all others on the river, is overstocked, and dealers willingly accept any price to effect sales. The business of lumber selling has, as a rule, become unprofitable, and its effects are becoming visible. Cummings & Swan, small dealers at Eldora, Iowa, have failed and gone out of the trade, also a firm in Bloomington, Ill., styled Watkins & Wilson, failed for $40,000; assets, $35,000; several other cases of the kind will probably occur ere the season closes. Overstocks, competition, and low prices will eventually end in ruin to the weaker party.

No sales occurred during the week to outside parties; regular customers are supplied with standard Chippewa at $12.75; all higher priced lumber remains on holders' hands.

The river has swelled a trifle from St. Paul down, but little advantage could be taken of the rise; all the tributaries are lower than was ever before known, and as a consequence the amount of lumber running is small and principally Chippewa, with logs from La Crosse.

Southern Notes.

From the Florida *Express*, Aug. 29:—

HEWN TIMBER.—Advices from lumber consuming markets are very discouraging, and it seems that we have not only been imprudent in wasting our forests, but there has been undue speculation in the Old World, and which only needed the costly freights of last winter and spring to explode. There will be no contracting either on the other side or here. Stock, fully 80,000 sticks; prices nominal and no demand. Sawn timber is in better condition than hewn, because stocks are not so large. There is no demand. Assorted Lumber and General Cargoes—We are now on the era of a new season; the prosperity of our city depends on the fifty odd mills around us. The stowage demand for Deals and Sawn Timber will not be required, the demand for Northern ports is mostly supplied from the Atlantic coast, and at prices our mill men say they cannot work at. The demand for West Indies is entirely suspended. South America is mostly supplied from the Canadas, and not one is loading at this port. We annex nominal quotations; we quote Stowage Deals $12.50 and prime $14@14.50 ℔ M; rates are still the same for standard Deals for South America, $18@20.

Eastern Notes.

From the Boston *Lumber Trade*, Sept. 7:—

Inquiries for lumber, both by mail and by personal attendance, have been more frequent for a week past than for some time immediately preceding. The month of August is expected to bring a lull with it, but in September stocks are laid in if there is any prospect for a trade. The slight stir that marked the business for the last few days may be ascribed to that cause. Of course the trade as a whole is comparatively dull, but there is a pretty steady although limited demand. Arrivals show an increase. We do not want the lumber here, and it should be kept back until general business settles down to hard pan, and people better know their needs. This is the key to the position, and, if it can be adhered to, will bring better times to all connected with the trade.

METALS.—COPPER.—Manufactured is nominally steady at the following quotations: New Sheathing, 30 @31; Bolts, 32@33; Braziers, 32@33; Nails, 37@38; Old Sheathing, &c., mixed lots, —@21; Yellow Metal, New Sheathing, and Bronze, 22@23; Bolts, 30@—; Nails, Sheathing, 22@24. Ingot has improved in demand since our last report, and prices have become stronger, showing, however, toward the end of the week, a less steady feeling. Sales have occurred at 21@21¼ cents.

IRON.—The market is very dull, and the movement so limited as to preclude any variation in prices, which therefore become nominal. Scotch pig is low in stock, and consequently without business. American pig is dull and weak, with very small inquiry. Rails are quoted lower, although stocks are moderate, and some of the mills are not working. Manufactured is in better demand at recent quotations, which are steady and firm.

LEAD.—Pig is still controlled by the Government sales, at which the price as now fixed is $5.75, gold. Foreign is scarce and nominal at $6.62½, gold for ordinary and $7@7.12½, gold for refined. Domestic is in limited supply, selling at $5.65@5.85, gold. Bar, pipe, and sheet are steady at 7¾ cents, less 10 per cent. Tin-lined pipe 16½ cents, less 10 per cent.

TIN.—Pig is dull, L. & F. selling at 20¾ cents; straits, 21½@22 cents, and Banca, 25. English refined is held at 21¾ cents, all gold. Plates are rather firmer, with diminished stocks and a fair demand.

ZINC—Is in moderate demand at 8½@8¼ cents per lb.

NAILS.—Cut are off in price, and we quote: 10d. to 60d. common fence and sheathing, ℔ keg, $3.65@3.75; 8d. and 9d common do ℔ keg, $4; 6d. and 7d. common, ℔ keg, $4.25; 4d. and 5d. common do ℔ keg, $4.50; 3d. and 4d. light, ℔ keg, $5.25; 3d. fine, ℔ keg, $6; 2d. ℔ keg, $6.75. Cut Spikes, all sizes, $4. Floor, Casing, and Box, 75 cents above the same sizes of Common—Finishing, $1 above, and Fine Finishing $1.25 above.

CLINCH NAILS.

$6.25@6.50.	$6.00.	$5.75	$5.50 ℔ keg.

OILS.—Linseed is weaker and has declined in price, selling at 82 cents in casks from crushers' hands, with still weaker tendencies.

PAINTS.—There is a very fair demand, and prices continue firm. Cookson's Venetian red is scarce for spot, and 2½, gold, has been paid for 200 bbls. in lots, prompt delivery.

PITCH—Is weak, quoting at $2.50 for city, f. o. b.

SPIRITS TURPENTINE.—The market is weak, prices declining to a very low point, and closing weak at 34 cents for merchantable.

TAR—Is quiet and dull, quoting as follows: Newbern and Washington, $2.87½@3 and Wilmington, $3.25@3.37½ per bbl.

ALBANY LUMBER MARKET.

[FROM THE ALBANY ARGUS, SEPT. 9, 1874.]

Trade in the district is moderate for the season, much less than the low rates at which lumber can be bought would seem to warrant, for it is reported that sales have been made below our reduced quotations on clear and the lower grades of pine. Still, the bulk of the receivers prefer holding stock in the confident belief that no lower prices than now current will be established. The spruce and hemlock mills up North are doing but little for lack of water; not much lumber can be expected from that section of the State until fall rains set in. Stocks are ample for the limited demand and fairly assorted.

The canal receipts for the week are larger than was generally anticipated, and are not much below those for the corresponding week in 1873.

Canal freights from Buffalo to Albany are: $4.00 per M feet for pine, and $5.00 for hardwood; from Oswego, $2.75.

The receipts at Albany by the Erie and Champlain canals during the 1st week of Septmber were:

	Bds. & Sc'tl'g ft.	Shingles, M.	Tim'r, c. ft.	Staves, ℔s.
1873..	14,352,200	930	....	....
1874..	13,444,500	2,405	....	....

Of the boards and scantling received, 9,154,100 feet were by the Erie, and 4,290,500 feet by the Champlain canal.

The receipts at Albany by the Erie and Champlain canals from the opening of navigation to September 8th were:—

SOAPSTONE WASH TUBS.
A MUCH AND LONG NEEDED IMPROVEMENT.
None More Simple & None so Durable,

We are now manufacturing in this city to order, Wash Tubs and Sinks of the celebrated Francetown Soapstone.
Of the annoyance, costly repairs, and filthiness of our present wash tubs the public need not be told—experience has taught them. The superiority of them over wood is, they do not absorb the wash water and slops, consequently preventing that *disagreeable odor* in the house. They are easily kept sweet, clean, and dry *They are not affected by hot or cold water. Never crack or leak.*
Cheaper than Wood, and will last a Lifetime.
They only need to be seen to be appreciated. All interested we invite to call and examine them at our warerooms.

CHASE'S
PIPE CUTTING & THREADING MACHINE.
This important tool is designed to fill a want long felt by STEAM AND GAS FITTERS and MACHINISTS for cutting and threading pipes rapidly and cheaply. An apprentice boy, with one of these, can do more work than two men with old appliances, under the old system. NO PIPE SPLITTING! NO BEVEL INSIDE OR OUT! It cuts threads and makes nipples for all sizes of pipes, from ⅛ to 2 inches. Weighs only 100 lbs. Stronger than any machine made. A set of collars and lengths for making nipples goes with the machine. Address THE CHASE MANUFACTURING COMPANY,

THE HAYES
SKY-LIGHTS, &c.,
Under patents of 1869, '70, '71, '73, and '74.
In relation to the notice of Charles Sellman, published in these columns, the undersigned states that suit has not yet been commenced against him, though preliminaries have been taken, awaiting only a knowledge on my part of the fact of his having furnished to any person a sky-light under his so-called patents which, if he has ever furnished, he is careful that it shall not come to my knowledge.
The silver medal and diploma of the American Institute fair of 1873 are in my possession, having been awarded to me as the legal and justly-entitled owner.
The cases of Charles Sellman and George E. Dayton (who have both been under my pay and instruction), will receive, in due time, their merits through the proper source, and I am only sorry that unwary persons will, *of necessity, be concerned.*

NOTICE TO ARCHITECTS, BUILDERS, AND OTHERS REQUIRING GALVANIZED IRON VENTILATING SKY-LIGHTS.
As Mr. George Hayes, skylight builder, has been endeavoring to cover my patent of January 20th, 1874, by a suit in interference, and I believe has been circulating reports to the effect that I was covered by said suit, I publish here the Official Decision in said suit, as rendered September 3, 1874.
To Charles Sellman, Patentee, 115 Waverly Place, New York:
Please find below a communication from the Examiner of Interference, viz.: George Hayes *vs.* Charles Sellman, sky-light bars.

Magrath's Copper Sash-Chain.
Patented 21st March, 1871.

Is adapted to ordinary round pulley, and strong enough to suspend weights of any size required.
Being intended as a substitute for sash-cord, it can be put into sashes now provided with cord without any change of pulleys. The inventor feels confident that experience will prove his chain to be both economical and durable, besides doing away with the constant annoyance and expense attending the use of sash-cord.
For terms and further information apply to

MORTGAGES.

REAL ESTATE.

NEW YORK.

NOTE.—The arrangement of this list is as follows: The first name is that of the mortgagor, the next that of the mortgagee. The description of the property then follows, then the date of the mortgage, the time for which it was given, and the amount. The general dates used as headings are the dates when the mortgage was handed into the Register's office to be recorded.

Wherever the letters "P. M." occur, preceded by the name of a street in these lists of mortgages, they mean that it is a Purchase Money Mortgage, and for fuller particulars see the list of transfers under the corresponding date.

MISCELLANEOUS.

REVIEW OF THE REAL ESTATE MARKET.

The market for city real estate has not been active during the week, although public sales have been more frequent, and have excited some competition. In al points the market seems to sustain itself very fairly, as no forced issues are made except such as occur through the intervention of the law. Owners are indifferent to selling for a song, and speculation and investment are conducted cautiously and too closely in nearly every instance to effect a deal. Everything has seemingly settled down, waiting upon opportunity, which none expect will be soon. Rents are more reasonable, from the tenants' point of view, and in many cases are much below the customary proportion to the actual value of property. But this is one of the results of hard times, and many owners think it better to derive a revenue, however little, from their investments, rather than to carry the entire weight themselves. Values continue undecided and nominal, without any weaker feeling.

MARKETS.

There seems to be a slow but gradually increasing movement in general trade, but not that activity which is sure to lend assistance to all other lines of business and which becomes an incentive to investment. The cautious spirit dominant in all branches of business, and the feeling of economy generally prevalent will hardly fail until abundant returns from the harvests of the year begin to make themselves felt. This cannot be expected, except in a light degree, during the present season, and improvement in every particular will be of slow but probably steady growth. The building markets vary little from previous reports and are generally quiet, with, in some instances, improved feeling. Manufacturers and dealers have settled down into making the best of things as they come and improve upon them when they can, The supply of goods in market continues of the ordinary quantity, regulated under conditions heretofore noted by us.

Our report in detail will be found appended:

BRICK.—The market for hard is a little stronger, and our quotations are advanced 25 cents per M. This is not due to increased demand, for trade continues of about the same proportions. Suspension of manufacture may account for the change, but we hardly think that, as yet, production has diminished sufficient to affect the market. Three or four more yards at Haverstraw have stopped working since our last report, and others are expected soon to follow. Up-rivers have a better feeling and Pale are in more demand. Jerseys are dull and nominal, with plenty in market, and no sales. Fronts are unchanged and steady. In general, there are enough goods on hand to meet the call and little activity prevails. We quote: Pale, ℔ M, $2.50@2.75; Jersey, $5; Up-river, $5.25@5.75; Haverstraw Bay, $6@7.75; Fronts, Croton—brown, $12; dark, $13; red, $14; Philadelphia, $28@32; Baltimore, $50@58.

CEMENT.—Rosendale is still sold at $1.40 on out-of-town orders, but purchases for home consumption can be readily made at $1.25 and even lower on emergency. Portland is quiet and other kinds are dull. We quote Rosendale at $1.25@1.40 and Portland and other foreign at $4.25@4.50, delivery in all cases additional.

FIRE BRICK.—The market is quiet and quotations are nominally unaltered.

FOREIGN WOODS.—The market is very quiet and no changes are noted. In default of business quotations are nominally the same.

GLASS.—There is a good demand for French window, and prices are firm at 60 and 10 per cent. discount. English sheet is held at 50 and polished plates at 15 per cent. discount.

HAIR.—There is a small demand, and trade has become so quiet as to weaken prices. We give them, accordingly, a lower range, at the same time retaining our highest previous quotation. We quote cattle at 12@25 cents, and goat at 14@28 cents per bushel, according to quality.

HARDWARE.—There is still a very limited demand for both foreign and domestic goods, a state of trade very unsatisfactory at a season when animation should be marked.. Some new discount sheets have been issued, and the following changes have occurred: Parliament butts 10 and 10 per cent. discount, before 10; corner irons 50, before 20; flush chest and drawer handles 40 and 10, before 40 and 5; wrought chest, "Stanley works," do. add 15, before add 25; do. "Austin Beebe" do. add 10, before add 20; wrought, hand forged staple 20 and 5, before 15; rolled plate and raised hinges 15, before add 12½; and wrought iron washers 6 cents per pound, before 5. Copper rivets are unsettled, with some quotations at 40 per cent. discount.

LATH.—The market is fairly supplied, but prices are a little stronger, and we quote at $1.70.

LIME.—The same conditions obtain this week as during the last, except that prices, which are nominally steady at $1 for State common, are frequently shaded, and we are led to the opinion that, in this respect, the market is fairly quoted at 90 cents. We quote, therefore, State common at 90@$1 per bushel; finishing, $1.25; Rockland, $1.10@1.60; delivery to be added.

LUMBER.—Business continues of a slow, "poky" character, and there is just trade enough going to enable us to say that there is a market. The yards are by no means busy, although there are orders which have to be filled, and so keep up a semblance of life. White pine is about steady as previously reported, quotations not being valuable when there is a prospect for trade at off prices. Yellow pine is irregular and dull, although we hear of cargoes placed, and we quote it as follows: Resawn timber, random cargoes, $22.50@26; ordered, $25@28; hewn timber, dock, $20@22; mill, $25@30; flooring, $27@28; for gang sawn and circular sawn dull at $25@26, all dry; sidings, dry, $23@23.50, and steps, $28@30. Spruce is inactive, and prices are variable, quoting at $13@16 for random and $16@19.50 for ordered schedules. Hardwoods are very dull and weak. The expectation of an active market has changed, and it seems conceded that while trade may and probably will improve, great activity will not ensue.

Michigan and Wisconsin Notes.

From the *Lumberman's Gazette* (Bay City, Mich.), Sept. 12:—

There is yet nothing new to report in the lumber market. Shipments for the last two weeks have been lighter, perhaps, than before. Buyers have been almost unknown, and the extreme point of dullness of which the market is capable seems to have been touched at last. The revival of business reported from the East, which has already, according to private information, reached some of the Western markets, gives new hope for the fall market. There are, however, no extravagant plans built upon this somewhat uncertain foundation, but our manufacturers are rather waiting quietly for the revival, which must come sooner or later. In the mean time, some parties are arranging for such operations in the woods as are made necessary by the damage to the standing timber by the late fires, or such as are required to keep their mills from absolute idleness during the coming year. The disposition here, as elsewhere, is to hold off from cutting as much as possible. The feeling is gaining ground that standing pine, with all risks of fire, is a good enough investment, and at all events better than cut lumber, for which no satisfactory rates can be obtained.

The reciprocity scheme is receiving considerable attention, and the efforts set on foot are looked upon as reasonably certain to defeat the scheme, if they are persistently urged. The National Association is expected to take decided ground on this subject at its meeting at Saginaw, next week.

The market rates are as previously quoted—$6, $12, and $35, with the usual shading for inferior lots or special accommodation. There is no probability of a change until a better condition is reached, for the bottom has been reached. Sales at less than cost are no relief, and the prospects ahead are just now too good, though they may be somewhat distant, to allow of sacrifices.

Freights are not yet re-established upon a quotable basis. The little that is being done is not reported, and we can not, therefore, name any ruling rates. A slight improvement was reported in the beginning of the week, but there are too many idle vessels here and at the other lake ports to admit of a re-establishment of rates until there is a very decided improvement in the extent of transactions.

General Western Notes.

From the St. Louis *Times*, Sept. 14:—

LUMBER.—We quote afloat: Chippewa and Minneapolis at $12@14, and Wisconsin at $13@23—fair to good at $16@18, and dimension at $11@12. Lath unchanged at $2.25@2.30, and shingles at $3.40@3.50. The market for depot and levee lumber continues in the same unsatisfactory condition heretofore noted—buyers only purchase to satisfy immediate wants—other sales are forced, and generally on long time. Trade at the yards is dull.

Pennsylvania Notes.

From the Williamsport (Pa.) *Gazette and Bulletin* of Sept. 10:—

Our report of the shipments of lumber from this city for the week closing on the 29th of August, shows an increase of 334,947 feet over the previous week. As the increase has averaged over a quarter million feet per week for several weeks past, it may be taken as an indication of a restoration of the trade to its former proportions at no distant day. Thus far 172,429,389 feet of lumber have been forwarded to market from this city, requiring the services of 13,231 cars and 502 canal boats for its transportation. From points on the Northern Central Railroad south of Troy, and between Renovo and Lock Haven, on the Philadelphia and Erie Railroad, the shipments foot up a total of 14,731,680 feet. For the same period Lock Haven has sent to market 23,390,180 feet.

Eastern Notes.

From the Boston *Lumber Trade*, Sept. 14:—

The lumber business for the past week has been a little more active than when last reported. Inquiries are more frequent, and a number of houses report increased sales. There is no rush for stock, but those who are seeking information seem to possess a larger degree of life than our visitors have for some time. We have no special sales, or demand for special lines of goods to report. A number of foreign orders were filled during the week, and we hear of a slight stir in this department. It is but slight, nevertheless welcome, as is anything that will in the least diminish the surplusage of stock. It is the generally expressed opinion that we have attained the minimum of demand, and that any future change will be for the better. This hope is accompanied by the feeling that the improvement is not a matter of immediate probability. The trade can not recover from the depression in a moment, or in any short period of time. The interest is a wide-reaching one, and any measure of reform must necessarily show a slow progress before the whole mass is leavened. The hearty and almost universal support given to the curtailment project is very satisfactory to this market, and the harmonious action of lumbermen throughout the country, in this direction, exhibits, as nothing else can, the stability and life of the trade. Boston lumber merchants, in company with their brothers all over the country, have waited patiently for the better time, and they see relief in this measure, now so prominently before the lumbermen of the land.

METALS.—COPPER.—Manufactured is unchanged, although nominal and unsettled at former quotations, which we reproduce as follows: New Sheathing, 30@31; Bolts, 32@33; Braziers, 32@33; Nails, 37@38; Old Sheathing, &c., mixed lots, —@21; Yellow Metal, New Sheathing, and Bronze, 22@23; Bolts, 30@—; Nails, Sheathing, 22@24. Ingot is in fair demand at 21@21¼ cents.

IRON.—Scotch pig is held firmly at our quotations, which, with small demand, have, notwithstanding light stocks, no other strength than the opinions of holders. No large lots could be placed at the prices demanded, but as trade is of a character adapted only to supplying positive wants, our quotations are generally maintained. American pig is greatly depressed, and stocks are accumulating to an unusual extent. Rails are quiet, and scrap appears to be equally without movement. Manufactured is firm at previous rates, with an increased demand from store. Russia sheet is quoted lower.

LEAD.—The government sales of pig continue, with prices advanced to $6, gold, and it is understood that no lower offers are to be accepted. Ordinary foreign is scarce and nominal. Refined is held at 7@7¼ cents, gold. Domestic has advanced to $6@6.10, gold, per 100 lbs. Manufactured has been advanced as follows: Bar, sheet, and pipe, 8¼ cents; tin-lined pipe, 16½; and block-tin pipe, 55—all less 10 per cent. to the trade.

TIN.—Pig is in limited request, and straits are held at 22@22¼ cents. L. and F. is held at 21@21¼ cents; refined, 21¾; and banca, 25½, all gold. Plates are rather inactive, but firm; coke tin and coke terne being scarce, and higher in price.

ZINC.—There is a limited stock of sheet in market, and prices are firm, with advancing tendencies. Quotations are 8¾@8¾ cents.

NAILS.—Cut are in moderate request, and nominal as heretofore quoted. We quote: 10d. to 60d. common fence and sheathing, ℔ keg, $3.65@3.75; 8d. and 9d. common do ℔ keg, $4; 6d. and 7d. common, ℔ keg, $4.25; 4d. and 5d. common do ℔ keg, $4.50; 3d. and 4d. light, ℔ keg, $5.25; 3d. fine, ℔ keg, $6; 2d. ℔ keg, $6.75. Cut Spikes, all sizes, $4. Floor, Casing, and Box, 75 cents above the same sizes of Common—Finishing, $1 above, and Fine Finishing $1.25 above.

CLINCH NAILS.

1¾ to 1¼ in	2 & 2¼ in.	2½ & 2¾ in.	3 in. and longer.
$6.25@6.50.	$6.00.	$5.75	$5.50 ℔ keg.

OILS.—Linseed is still lower, and tendencies all seem of the weakest. A sale of 5,000 gallons has been made at 79 cents. We quote generally at 80@82 cents.

PAINTS.—The market is not very active, although considerable trade may be said to be doing. Rochelle ochre and Cookson's Venetian red are very scarce. Ultramarine is still in demand, and is sold well ahead at unchanged prices.

PITCH—Is rather quiet, with limited sales at $2.50, f. o. b., which makes our quotation.

SPIRITS TURPENTINE.—The market is depressed, and prices are very low, having almost reached the lowest point known to the trade. Sales have been made at 33 cents, but, with a moderate demand advanced, and we quote at 33½@34 cents for merchantable.

TAR—Is dull and lower. We quote Newbern and Washington at $2.25@2.50, and Wilmington at $2.50.

ALBANY LUMBER MARKET.

[FROM THE ALBANY ARGUS, SEPT. 15, 1874.]

In a quiet way there have been some heavy sales of lumber made in this market since our last report; some large sales of clear pine are reported; inquiries have also been made by some leading firms for good round orders of spruce and hemlock. Prices do not change, but, if anything, the market is firmer, and a better feeling as regards the future. Should the demand improve at all, in view of light receipts and probable early rise in canal freights, prices will, without doubt, soon work upward. But little spruce and hemlock is coming forward, and the mills up north can not do much until they get more water.

The Ottawa *Citizen's* lumber report of the 11th inst. says: "The Ottawa River was never known to be so low as at present, and some of the saw mills have not more than enough to run all their gates. Messrs. Baldwin, Capt. Young, Reiley and Pattee are to shut down their mills to-night, and others will soon follow suit. The lumber yards are crowded, and it is calculated there are over three hundred millions feet of manufactured lumber awaiting sale on the Ottawa this fall.

At Chicago, the reported receipts of lumber, by lake, to the 9th of Sept., were 728,342,100 feet, against 767,986,000 feet the year previous; the shipments from Jan. 1st, are 396,290,000 feet against 380,293,000 feet the previous year.

Canal freights from Buffalo to Albany are: $4.25 per M feet for pine, and $5.25 for hardwood; from Oswego, $2.75.

The receipts at Albany by the Erie and Champlain canals during the 2d week of Septmber were:

	Bds. & Sc'tl'g ft.	Shingles, M.	Tim'r, c. ft.	Staves, lbs.
1873..	14,173,400	3,237	....	....

Of the boards and scantling received, 7,413,700 feet were by the Erie, and 2,142,500 feet by the Champlain canal.

The receipts at Albany by the Erie and Champlain canals from the opening of navigation to September 15th were:—

A GOOD INVESTMENT

EVERY PRUDENT MAN, CAREFUL OF THE

health and comfort of his family, should see to it that his drinking water is conveyed through TIN-LINED LEAD PIPE, which is a perfect safeguard against lead poison. Tin-lined Lead Pipe is strong, durable, flexible, and easy soldered. It is a great benefit to the community, and enhances the real value of every house in which it is introduced. It is cheaper than Lead Pipe, when strength and durability are considered. Sold by the COLWELL LEAD CO., 213 Centre St., New York. Price, 16½ cts. a pound for all sizes. Descriptive pamphlets sent by mail free. Also, manufacturers of Lead Pipe, Sheet Lead, Block Tin Pipe, Bar Tin, Pig Tin, Bar Lead, Pig Lead, Solder, &c. Orders filled at sight.

TRANSFER GRAINING.

THE ONLY COMPLETE PROCESS OF GRAINING EVER INVENTED.

Its practicability and utility are fully established by the 350 Licenses and Machines in use.

It copies exactly **ALL NATURAL WOODS**; also, ASSUMED DESIGNS ETCHED OR ENGRAVED ON WOOD, GLASS, OR METALS.

The process is so simple and complete that Panels of all sizes and shapes can be grained, so that unskilled labor can be employed. The American Institute awarded us the HIGHEST PREMIUMS for it in 1872 and 1873.

For Circulars, Samples, and References, apply to

CROSS & BASTINE, 132 West Broadway, N. Y

Caution.—All persons buying a Graining Machine in which a smooth elastic surface is used, are hereby notified that we are the inventors and owners of Letters Patent pertaining to and fully covering this process. We shall hold all parties responsible by suit who purchase of one John Johnston, offering for sale a smooth elastic surface for transferring configurations or graining, or any one unauthorized by us. Suits have been commenced against Edward W. Baxter & Co. and others for infringing. We shall prosecute all parties found using or vending, to the full extent of the law. SOAPSTONE WASH TUBS.

A MUCH AND LONG NEEDED IMPROVEMENT.

None More Simple & None so Durable.

We are now manufacturing in this city to order, Wash Tubs and Sinks of the celebrated Francetown Soapstone.

Of the annoyance, costly repairs, and filthiness of our present wash tubs the public need not be told—experience has taught them. The superiority of them over wood is, they do not absorb the wash water and slops, consequently preventing that *disagreeable odor* in the house. They are easily kept sweet, clean, and dry. *They are not affected by hot or cold water. Never crack or leak.*

Cheaper than Wood, and will last a Lifetime.

They only need to be seen to be appreciated. All interested we invite to call and examine them at our warerooms.

CHASE'S
PIPE CUTTING & THREADING MACHINE.

This important tool is designed to fill a want long felt by STEAM AND GAS FITTERS and MACHINISTS for cutting and threading pipes rapidly and cheaply. An apprentice boy, with one of these, can do more work than two men with old appliances, under the old system. NO PIPE SPLITTING! NO BEVEL INSIDE OR OUT! It cuts threads and makes nipples for all sizes of pipes, from ⅛ to 2 inches. Weighs only 100 lbs. Stronger than any machine made. A set of collars and lengths for making nipples goes with the machine. Address THE CHASE MANUFACTURING COMPANY,

THE HAYES
SKY-LIGHTS, &c.,
Under patents of 1869, '70, '71, '73, and '74.

In relation to the notice of Charles Sellman, published in these columns, the undersigned states that suit has not yet been commenced against him, though preliminaries have been taken, awaiting only a knowledge on my part of the fact of his having furnished to any person a sky-light under his so-called patents which, if he has ever furnished, he is careful that it shall not come to my knowledge.

The silver medal and diploma of the American Institute fair of 1873 are in my possession, having been awarded to me as the legal and justly-entitled owner.

The cases of Charles Sellman and George E. Dayton (who have both been under my pay and instruction), will receive, in due time, their merits through the proper source, and I am only sorry that unwary persons will, *of necessity, be concerned.*

SKY-LIGHT BARS.
NOTICE TO ARCHITECTS, BUILDERS, AND OTHERS REQUIRING GALVANIZED IRON VENTILATING SKY-LIGHTS.

As Mr. George Hayes, skylight builder, has been endeavoring to cover my patent of January 20th, 1874, by a suit in interference, and I believe has been circulating reports to the effect that I was covered by said suit, I publish here the Official Decision in said suit, as rendered September 3, 1874.

To Charles Sellman, Patentee, 115 Waverly Place, New York:

Please find below a communication from the Examiner of Interference, viz.: George Hayes *vs.* Charles Sellman, sky-light bars.

JOHN SETON,
329 Myrtle Av., Brooklyn, Sole Agent for Kings Co.

WASHINGTON, D. C., Sept. 3d, 1874.

This case having been suspended and referred to the Primary Examiner August 29th, 1874, for reconsideration, on the ground that the interference had been improperly declared, THE APPLICATION OF GEORGE HAYES PRESENTING IN THE OPINION OF THE EXAMINER OF INTERFERENCE NO PATENTABLE INVENTION, THE INTERFERENCE IS HEREBY DISSOLVED upon the concurrence of the Primary Examiner in the above-named opinion, and upon his recommendation of Sept. 2d, 1874.

Very respectfully,
M. D. LEGGETT, Commissioner.

Magrath's Copper Sash-Chain.

Patented 21st March, 1871.

Is adapted to ordinary round pulley, and strong enough to suspend weights of any size required.

Being intended as a substitute for sash-cord, it can be put into sashes now provided with cord without any change of pulleys. The inventor feels confident that experience will prove his chain to be both economical and durable, besides doing away with the constant annoyance and expense attending the use of sash-cord.

SOAPSTONE WASH TUBS.

A MUCH AND LONG NEEDED IMPROVEMENT.

None More Simple & None so Durable.

We are now manufacturing in this city to order, Wash Tubs and Sinks of the celebrated Francetown Soapstone.

Of the annoyance, costly repairs, and filthiness of our present wash tubs the public need not be told—experience has taught them. The superiority of them over wood is, they do not absorb the wash water and slops, consequently preventing that *disagreeable odor* in the house. They are easily kept sweet, clean, and dry. *They are not affected by hot or cold water. Never crack or leak.*

Cheaper than Wood, and will last a Lifetime.

They only need to be seen to be appreciated. All interested we invite to call and examine them at our warerooms.

CHASE'S
PIPE CUTTING & THREADING MACHINE.

This important tool is designed to fill a want long felt by STEAM AND GAS FITTERS and MACHINISTS for cutting and threading pipes rapidly and cheaply. An apprentice boy, with one of these, can do more work than two men with old appliances, under the old system. NO PIPE SPLITTING! NO BEVEL INSIDE OR OUT! It cuts threads and makes nipples for all sizes of pipes, from ⅛ to 2 inches. Weighs only 100 lbs. Stronger than any machine made. A set of collars and lengths for making nipples goes with the machine. Address THE CHASE MANUFACTURING COMPANY,

THE HAYES
SKY-LIGHTS, &c.,
Under patents of 1869, '70, '71, '73, and '74.

In relation to the notice of Charles Sellman, published in these columns, the undersigned states that suit has not yet been commenced against him, though preliminaries have been taken, awaiting only a knowledge on my part of the fact of his having furnished to any person a sky-light under his so-called patents which, if he has ever furnished, he is careful that it shall not come to my knowledge.

The silver medal and diploma of the American Institute fair of 1873 are in my possession, having been awarded to me as the legal and justly-entitled owner.

The cases of Charles Sellman and George E. Dayton (who have both been under my pay and instruction), will receive, in due time, their merits through the proper source, and I am only sorry that unwary persons will, *of necessity, be concerned.*

NOTICE TO ARCHITECTS, BUILDERS, AND OTHERS REQUIRING GALVANIZED IRON VENTILATING SKY-LIGHTS.

As Mr. George Hayes, skylight builder, has been endeavoring to cover my patent of January 20th, 1874, by a suit in interference, and I believe has been circulating reports to the effect that I was covered by said suit, I publish here the Official Decision in said suit, as rendered September 3, 1874.

To Charles Sellman, Patentee, 115 Waverly Place, New York:

Please find below a communication from the Examiner of Interference, viz.: George Hayes *vs.* Charles Sellman, sky-light bars.

329 Myrtle Av., Brooklyn, Sole Agent for Kings Co.

WASHINGTON, D. C., Sept. 3d, 1874.

This case having been suspended and referred to the Primary Examiner August 29th, 1874, for reconsideration, on the ground that the interference had been improperly declared, THE APPLICATION OF GEORGE HAYES PRESENTING IN THE OPINION OF THE EXAMINER OF INTERFERENCE NO PATENTABLE INVENTION, THE INTERFERENCE IS HEREBY DISSOLVED upon the concurrence of the Primary Examiner in the above-named opinion, and upon his recommendation of Sept. 2d, 1874.

Very respectfully,
M. D. LEGGETT, Commissioner.

MORTGAGES.

REAL ESTATE.

NEW YORK.

NOTE.—The arrangement of this list is as follows: The first name is that of the mortgagor, the next that of the mortgagee. The description of the property then follows, then the date of the mortgage, the time for which it was given, and the amount. The general dates used as headings are the dates when the mortgage was handed into the Register's office to be recorded.

Wherever the letters "P. M." occur, preceded by the name of a street in these lists of mortgages, they mean that it is a Purchase Money Mortgage, and for fuller particulars see the list of transfers under the corresponding date.

Fifth.—That such partnership is to commence on the twenty fourth day of September, in the year One Thousand Eight Hundred and Seventy-four, and is to terminate on the eighth day of July, 1890.

Dated at the City of New York this twenty-fourth day of September, 1874.

WM. B. SMITH,
WM. B. ADAMS,
LUDWIG SUTRO.

MISCELLANEOUS.

REVIEW OF THE REAL ESTATE MARKET.

There is nothing discouraging in the market, which, yet dull, displays more activity and is by no means so dead but that some business of a fair character is doing. The steadier feeling we have noted displays itself more prominently, and, unless other disorders intervene and preclude recovery, we may expect real estate to lighten its burden with each recurring season. From present appearances there is no room but for improvement, slow, perhaps, but steady, and none the less certain. The market for the week has produced no novel effects at public sale, but several private contracts have been closed, showing both the opportunity and the inclination for investment. Prices seem stiffer, excepting in special localities, and no where do we find increasing weakness.

GOSSIP.

The Commissioner of Public Works asks for proposals for the carpenter, slating and roofing, and plastering work required in the construction of a new roof to Tompkins' Market, bids to be opened October 2.....
The Department of Public Works reports the following contract completed: Thirty-fourth Street, south side, between Lexington and Fourth avenues, flagging.

.....The interest on the bonds and stocks of the City and County of New York, due November 1, 1874, will be paid on that day by the Chamberlain, at his office in the New Court House. The transfer books will be closed from September 25 to November 1, 1874..... . Sealed proposals will be received at the Comptroller's office until Wednesday, September 30, 1874, at 2 o'clock P. M., for the whole or any part of City Improvement Stock to be issued as Consolidated Stock of the City of New York, payable November 1, 1896, $820,000. Also Consolidated Stock of the City of New York, payable November 1, 1896, $1,564,000.

MARKETS.

We have no change to note except, perhaps, in various of the markets a little more strength, created by the demand following the suspension of business during the stormy weather. Outside of our own field prospects seem encouraging, and while brilliant results are not expected from general trade during this autumn season, there seems reasonable ground for belief that a solid foundation is laying for the future, and that transactions are controlled by experiences begotten of our latest lessons, and will be prosecuted soberly and to general and lasting advantage.

Our report in detail is briefly appended.

BRICK.—Stormy weather suspended shipments hither, and arrivals became very infrequent. As a result the call at the opening of the week drew upon stocks already in hand, and cleared out such cargoes as had been hanging in the market. Prices were unaffected, however, further than fairly sustaining latest quotations, which may be called steady and firm. The quiet and uneventful character of the market could not be more fairly illustrated than by the foregoing statement. Under ordinary circumstances a clearing out in the market would be accompanied with an advance in prices, but in the present, manufacturers and their agents accept quotations previously made, and their only advantage lies in the firmer feeling they are enabled to experience. The general attitude of the market is unchanged, with no new reports from up the river. We quote: Pale, ₱ M, $2.50@2.75; Jersey, $5; Up-river, $5.25@5.75; Haverstraw Bay, $6@7.75; Fronts, Croton—brown, $12; dark, $13; red, $14; Philadelphia, $28@32; Baltimore, $50@58.

CEMENT.—The market is steady, as previously reported, Rosendale quoting at $1.40, cash, for orders outside of the city trade, and selling at $1.25 for our own market. Foreign is quiet, with reported sales of 450 bbls. Portland, ex vessel, at $4.50.

FIRE BRICK.—We note sales of 10,000 at $50, with no further movement. Quotations are retained.

GLASS.—There is a good demand for French window, and, in the present condition of stocks, prices have a stronger tendency, although discounts are quoted as previously. English sheet and polished plate are in improved request at our quotations.

HAIR—Is quiet, and, although we retain our range of quotation, the best prices seem rather nominal, and whatever trade is going adapts itself to the general feeling of making the most of the situation. Quality considered, we quote cattle at 12@25, and goat at 14@28 cents ₱ bushel.

HARDWARE.—Trade is yet of limited proportions, although demand is somewhat improving. Business is not such, however, as to settle prices, which are irregular and uncertain for domestic goods. The Ohio Butt Company have revised their discounts as follows: Loose pin, reversible, panel pattern, 50 and 10 per cent. discount, before 50; do, Japanned, 50, before 45; do silvered acorns, 50, before 45. Copper rivets are still irregular at 40 per cent. discount.

LATH—We do not conceive to be very strong at $1.70 per M, which is the most that can be made for quotation.

LIME.—The market is quiet, selling along as fast as material arrives, stocks being restricted to sustain the balance of the market, else prices would decline. Some despondency is evident, and stress is laid upon the quietude of business and the difficulty of getting a fair price for goods, with duller trade in prospect. There is no appearance that this market will fare any worse than others, and it is only passing an ordeal to which all are subject, and from which all will benefit when activity is resumed. Our quotations are as before: 90@$1 for State common, and $1.25 for finishing; Rockland, $1.10@1.60, cost of delivery additional.

LUMBER.—The wholesale market has little to boast of, although cargoes are placed at odd times. The demand, however, is small, and there is a very limited trade doing. The yards, of course, have a moderate share of business which is sure to fall to their lot in a market which is always subject to demand, and, as we have previously noted, concessions are freely made to secure and retain trade. Spruce is dull and somewhat nominal, prices ranging at about our quotation of last week, viz.: $13@16 for random, and $16@19.50 for ordered schedules. Yellow pine is still irregular, and we advance no new quotations. Hardwoods are almost completely without business, and prices are so unsettled and weak that quotation is hardly valuable.

Michigan and Wisconsin Notes.

From the Detroit *Tribune*, Sept. 18:—

From present indications lumber business on the Upper Muskegon River will be quite active the coming winter, and more extensive than last season, owing, in no small measure to the large amount of pine burnt over by the forest fires of the past summer.

Among the lumber firms who make Farwell their base for supplies are Gerrish, Wood & Co., who intend the coming winter to put in 10,000.000 feet of logs on Butterfield, Bear Creek, and Muskegon River.

Wood Gerrish intends to put in about 10,000,000 feet, on the Muskegon, at a point called the Dead Stream.

On Butterfield Creek and on the main stream J. Hall intends to put in 3,000,000 feet.

W. Hooper intends to put in 3,000,000 feet on the Muskegon; and J. Burns will put in about 3,000,000 feet on the same stream.

G. Hamilton intends to put in about 6.000,000 feet. Madner & Ladner will probably put in 3,000,000 feet; and Hall & Davis, near Houghton Lake, will probably put in not less than 10,000,000 feet; and D. A. Blodget, perhaps, will put in not far short of that amount. The firms mentioned being but a portion of those who will operate on that stream.

More will probably be done on the Upper Muskegon during next winter than was done last winter.

General Western Notes.

From the Dubuque (Iowa) *Herald*, Sept. 15:—

The leading feature is inactivity, which has ruled the market several weeks, and still continues. During the past few days a little more demand was apparent, and several transactions occurred in sales afloat. The markets along the river are by no means overstocked, and if the demand had not fallen off one-half business would be considered healthy and satisfactory. Less building than usual is in progress this season, and hence lumber is not wanted to the amount taken past years. The main river offers an excellent stage of water, and the same may be said of the Chippewa and a few other tributaries in the vicinity of St. Paul, but the Wisconsin River is low and no lumber coming out.

The effort to reduce the amount of lumber next season meets with general approval all over the northwest. Manufacturers in this city have signed an agreement to diminish the supply from one-half to two-thirds of their cutting capacity, and have forwarded the compact to Saginaw, Mich., where the Convention of Manufacturers meets on Tuesday. Knapp, Stout & Co. sent two fleets, amounting to 3,000,000 feet, from the Chippewa down river; have a fleet due this week for yarding. Langworthy added 125,000 Chippewa lumber, and 50,000 lath to stock. Ingram, Kennedy & Day got in 1.000.000 feet. I., K. & Day sold Ryan, of Galena, 300,000 Chippewa at $12.50, delivered in Fevre River. Reed disposed of 200,000 Chippewa to Ashley, of Dunleith, at $12.50, also 200,000 Upper Wisconsin at $17.50. Reed effected sales of D. Shaw & Co. lumber, standard Chippewa, as follows: 125,000 to Langworthy, 50,000 to Ashley, of Dunleith, and 100,000 to E. R. Lumbert & Co., all at $12.74 per M; also 100,000 all strips to Sabula parties, at $12.30.

From the Chicago *Inter-Ocean*, September 21:—

The market during the entire week was comparatively quiet, owing to the limited supply on sale. The wind has been in an unfavorable direction throughout, and the daily arrivals were light. The demand was very good, there being a sufficient number of buyers on hand every day to take all offered, and the market was generally bare of offerings before the close of the day. Values were steady and firm, but without any quotable alteration. Joist and scantling sold readily at $8.75, while strips and boards were firm at $9@12 for common to medium and $13@16 for fair to choice grades. Shingles steady, ranging at $2.50@2.90 for poor to choice "A" sawed. Laths sold readily at $1.62½. The prospects for the future of the trade are encouraging. Closing firm. In the yards the movement was fair on city and interior account.

Canada Notes.

Reports from the Dominion state that trade with England has nearly ceased, as also with South America, and that the lumber yards and docks at Montreal, Ottawa, and Quebec are filled with lumber, while the mills will be shut down September 26 or one month earlier than usual. In the matter of preparation for next year's trade, the statement is made that there is timber enough already cut to keep the mills running another year, possibly two, and that consequently, while the dealers and mill owners expect an active trade next year, they are sending few men into the pineries this fall. These reports, however, come from interested sources, and may be overdrawn.

Foreign Notes.

From the Liverpool (England) *Shipping and Commercial Express*, Sept. 2d:—

(*From R. Coltart, Smith & Co.'s Circular.*)

LIVERPOOL, August 31.

The sudden supplies during the month and since the first of February have been much in excess of the requirements of the trade, and far beyond the import of any previous year to the same period. The want of dock and landing accommodation has pressed more severely than ever upon the trade, necessitating forced sales ex quay, and entailing great loss upon importers, who at the same time are suffering greater inconvenience than has hitherto been experienced in this market. The utterly insufficient facilities on the part of the carrying companies, both by rail and water, for forwarding the goods sold into the interior have added considerably to the difficulties of the trade. The demand from the country has been on a very large scale, and the money market has been very favorable to holders. From this time forward to the end of the season we expect a great falling off in the supply, as from the present excessive stocks we do not expect any shipments from the United States; and the Quebec spring fleet having arrived so late, a very small autumn import may be looked for; further, the high insurance in the fall, together with the heavy losses already sustained by importers, will certainly deter further contracts on the part of the trade, and will not encourage shippers, we should think, to consign to this market.

METALS.—COPPER.—Manufactured is unsettled, and prices in some instances are somewhat off. We quote as follows: New Sheathing, 30@31; Bolts, 32@33; Braziers, 32@33: Nails, 37@38; Old Sheathing, &c., mixed lots, 18@21½; Yellow Metal, New Sheathing, and Bronze, 22@23; Bolts, 28@30; Nails, —@23. Ingot is held at 21 cents.

IRON.—Everything is dull and trade is still limited to supplying immediate wants, without any disposition evident on the part of purchasers to lay in stocks for winter consumption. Scotch pig is only sought after in small lots, under which influence it keeps steady. American pig seems to be going altogether to the bad, and lower prices than the present are predicted. New rails are nominal and without business. Sales of old have been 200 tons T upon private terms. Scrap is quiet and nominal, and manufactured from store is steady as we quote.

LEAD.—The government sales of pig have continued at $6. Foreign from merchants' hands is quiet and nominal. Domestic is selling at $6@6.10. Manufactured is steady as follows: Bar, sheet, and pipe, 8¼ cents; tin-lined pipe, 16½; and block-tin pipe, 55—all less 10 per cent. to the trade.

TIN.—The market is firm because of light stocks. Straits in lots is held at 22@22¼ cents; L. & F. 20¾@21, and refined English 21½@21¾, all gold. Plates are dull, Cokes, however, being scarce and firm.

ZINC.—Sheet from store is strong at 8⅝@8¾ cents, gold.

NAILS.—Cut are in moderate request at the following quotations: 10d. to 60d. common fence and sheathing, ₱ keg, $3.65@3.75; 8d. and 9d. common do ₱ keg, $4; 6d. and 7d common, ₱ keg, $4.25; 4d. and 5d. common do ₱ keg, $4.50; 3d. and 4d. light, ₱ keg, $5.25; 3d. fine, ₱ keg, $6; 2d. ₱ keg, $6.75. Cut Spikes, all sizes, $4. Floor, Casing, and Box, 75 cents above the same sizes of Common—Finishing, $1 above, and Fine Finishing $1.25 above.

CLINCH NAILS.

1¾ to 1½ in	2 & 2¼ in.	2½ & 2¾ in.	3 in. and longer.
$6.25@6.50.	$6.00.	$5.75	$5.50 ₱ keg.

OILS.—Linseed in fair demand, but prices are lower and we quote at 79@80 cents for jobbing lots.

PAINTS—Are in good demand, and prices are generally firm. French Ochre and Cookson's Venetion red are very scarce. Oxide zinc is in small supply. Sales of 2,000 lbs. ultramarine (Curtins') are reported at 30 cents, gold.

PITCH—Is held at $2.50 for city, with sales of 100 bbls. at that price, f. o. b.

SPIRITS TURPENTINE. — Low prices induced trade, which became sufficiently brisk to excite a reaction, and prices advanced from 33½ cents, our last quotation, to 36 cents, merchantable closing firm at that price.

TAR.—The market is dull, with slow sales, and we quote Newbern and Washington at $2.37½@2.50 and Wilmington at $2.50 per bbl.

ALBANY LUMBER MARKET.

[FROM THE ALBANY EVENING JOURNAL, SEPT. 23.]

Lumber continues to fall off in receipts as compared with last year, and many manufacturers have stopped shipping for the season. It is, therefore, probable that the receipts from this time to the close of the season will be light, and that with any fair ordinary demand for lumber there will be a scarcity of some kinds and a consequent advance in price.

There has been a moderate amount of sales during the week, without any change in prices. The demand has been principally for common pine and coarse lumber, and they are as yet no indications of the stocking up of the retail yards with a general assortment of lumber for the winter.

The receipts by the Erie and Champlain canals during the third week of September were:

	Bds. & Sc'tl'g ft.	Shingles, M.	Tim'r, c. ft.	Staves, lbs.
1873..	11,803,900	....	....	....
1874..	13,422,500	1,347	....	....

Of the boards and scantling received, 10,134,600 feet were by the Erie, and 3,287,900 feet by the Champlain canal.

The receipts by the Erie and Champlain canals from the opening of navigation to September 23d, in the years named, were:—

	Bds. & Sc'tlg ft.	Shingles, M.	Tim'r c. ft.	Staves lbs.
1873..	252,027,000	7,605	....	3,637,300

ILLUMINATING ROOFS

HYATT BROTHERS,

PATENTEES AND MANUFACTURERS OF

Patent Vault Lights and Illuminating Tiles

OF EVERY DESCRIPTION.

The Illuminating Roofing Tile,

Represented by the cuts, is intended to take the place of the rough plate-glass sky-lights heretofore in general use, and will relieve of the constant annoyance from leakage and the danger from breaking experienced in the use of sheet-glass. Our new Tile is suitable for Dwelling-houses, Stores, Arcades, Railroad Depots, &c., &c., and can be laid in either iron or wooden frames. The cheapest and best sky-light made. Send for descriptive and illustrated pamphlet.

A GOOD INVESTMENT

EVERY PRUDENT MAN, CAREFUL OF THE

health and comfort of his family, should see to it that his drinking water is conveyed through TIN-LINED LEAD PIPE, which is a perfect safeguard against lead poison. Tin-lined Lead Pipe is strong, durable, flexible, and easy soldered. It is a great benefit to the community, and enhances the real value of every house in which it is introduced. It is cheaper than Lead Pipe, when strength and durability are considered. Sold by the COLWELL LEAD CO., 213 Centre St., New York. Price, 16½ cts. a pound for all sizes. Descriptive pamphlets sent by mail free. Also, manufacturers of Lead Pipe, Sheet Lead, Block Tin Pipe, Bar Tin, Pig Tin, Bar Lead, Pig Lead, Solder, &c. Orders filled at sight.

Magrath's Copper Sash-Chain.

Patented 21st March, 1871.

Is adapted to ordinary round pulley, and strong enough to suspend weights of any size required.

Being intended as a substitute for sash-cord, it can be put into sashes now provided with cord without any change of pulleys. The inventor feels confident that experience will prove his chain to be both economical and durable, besides doing away with the constant annoyance and expense attending the use of sash-cord.

SPECIAL NOTICE.

We call the attention of the building trade and the public generally to the card of Mr. Hand in another column. He has just moved into a large store at the corner of Thirty-third Street and Broadway, where, as a well-known plasterer, he is prepared to execute the neatest work at the shortest possible notice, and at terms which, he says, will defy competition.

THE TAX ON MORTGAGES.

Property-owners and taxpayers generally will please take notice that the Assembly Committee on Ways and Means, in accordance with resolution passed last session, will meet at the Governor's room, City Hall, on Friday, October 9th next, and go over the entire subject of taxation.

As the question of removing the tax on mortgages will come up again during the coming session of the Legislature, it is important that those who have any suggestions to make in regard to this all-absorbing question should be promptly on hand and endeavor to enlighten those who still favor the unjust and unequal taxation which affects not only real estate but the mortgages on the same.

It is hinted in some quarters that if the Legislature could only be induced to introduce an equal system of valuation of property throughout the State, the greatest obstacle to the repeal of this tax would be removed.

THE BANKS AND THE "REAL ESTATE RECORD."

THE ORIENTAL BANK,
NEW YORK, Sept. 16, 1874.

Editor Real Estate Record:

The REAL ESTATE RECORD *has become a positive necessity—we could not get along without it;* still we want more information. The transferring of real estate to married women is of as much if not more consequence than judgments. Cannot you give us that information in a column that we can get it at a glance, even if you have to increase the price of the RECORD? I suggest it; what do you think of it?

Very truly yours,
W. A. HALL, Pres.

That no financial institution "can get along without it" has long been admitted by our best bankers and financiers, and appreciated by those who conduct these columns. The demand for "more information" has also been heeded by us, as shown by the great improvements made from time to time. Mortgages in New York and vicinity, and all matters affecting the suburbs as well as the metropolis, are now regularly printed in these columns. We shall not sit still, but will improve until even the Oriental Bank shall be satisfied. The information sought is regularly supplied in our issue, but not in separate form as suggested by Mr. Hall. Whatever changes may occur we shall not increase the price of the RECORD, which will always remain at ten dollars per annum, with ample room in the advertising columns for our friends and patrons.

FIRE-PROOF BUILDINGS.

Just now, while one of our busiest cities in the West is almost ostracised by Eastern and European insurance companies, and capitalists generally hesitate to invest more money in insurance stock, owing to the reckless manner and worse material used in the construction of so many of our buildings, everything that tends to institute a reform in that direction is worthy of especial notice in these columns.

On Monday last a number of gentlemen assembled at the yard of Messrs. Lyons & Bunn, in East Twenty-ninth Street, to witness the trial of material used by Mr. Lyons in the construction of his fire-proof buildings. So much has been attempted in this same line before by others not practical builders, that the result in this instance was looked forward to with no little interest. The trial was satisfactory in every respect. An immense fire burned fiercely inside a temporary structure for three quarters of an hour, and at the close the beams under the material which had been covered by a blazing fire during all that time were not even discolored, much less singed. Outside the walls were comparatively cool, and only the hard finish inside crumbled away somewhat toward the end of the trial. One compartment, situated between the two blazing fires, was entered by those present and not even the slightest heat was observable.

The blocks used in the construction of these buildings are a composition of plaster of Paris and shell lime, surrounded by a galvanized iron frame, size 16x30; those used for ceilings are 28x12. It should be remarked here that a ceiling of this material has just been put in a building in Fourth Avenue, near Twelfth Street. As a protection for iron columns nothing better can be found. With all the advantages it offers and its perfect security against fire, this material only costs thirty cents a yard more than common partitions.

There can be no doubt that Mr. Lyons has hit upon something that must ultimately revolutionize the building trade.

We certainly advise all builders, and especially architects, to visit the yard of the Lyons' Fire-proof Construction Company at the foot of Twenty-ninth Street and East River, and see for themselves that it *is* possible to erect veritable fire-proof buildings.

There is to be placed in one of the largest buildings now in course of erection in this city a water balance elevator for which superior smoothness and rapidity of motion is claimed. This style of elevator has come into use in some of the Western cities, and its capacity and economy will now be brought into direct competition with the elegant and finished contrivances of our city manufacturers. The motive power is the attraction of gravity created by a quantity of water introduced into a bucket equalling the elevator in weight and which is supplied from a reservoir at the roof of the building. The speed of the car is regulated by a series of valves connected with the bucket and operated by the person in charge of and from the elevator.

MORTGAGES.

REAL ESTATE.

NEW YORK.

NOTE.—The arrangement of this list is as follows: The first name is that of the mortgagor, the next that of the mortgagee. The description of the property then follows, then the date of the mortgage, the time for which it was given, and the amount. The general dates used as headings are the dates when the mortgage was handed into the Register's office to be recorded.

Wherever the letters "P. M." occur, preceded by the name of a street in these lists of mortgages, they mean that it is a Purchase Money Mortgage, and for fuller particulars see the list of transfers under the corresponding date.

MISCELLANEOUS.

REVIEW OF THE REAL ESTATE MARKET.

The market for the past week has been more active, chiefly in transactions of a private character, a few details of which we append. Negotiation is pending in several directions, and, while no very novel results occur, enough is doing to relieve the market from complete flatness. Prices are somewhat at odds, ruling low in some instances, and in other showing a fair margin, all things considered, beyond former prices. The public sales have been limited, because of numerous adjournments, and nearly all of them have been of a legal character, attended with the customary results. Some competition, however, was excited, relieving the monotony of the market. Bids, although numerous, were kept within moderate bounds, and a careful, close feeling was evinced by operators. Speculation, at present takes no chances, and every one seems to be looking for a sure thing. Inquiry has increased, and altogether the market, while far below the experiences of former years, as to life, makes a better showing than perhaps could have been expected. Values seem somewhat fluctuating, owners abating from old prices, yet indisposed to accept very low rates. There is a certain degree of firmness, but cash offers are likely to upset many calculations, and we observe that this system of purchase is rather freely practised. There is no doubt that buyers can find their advantage in such transactions. The market generally is no weaker, and in most of its particulars has a decided tendency to strength.

Among the sales to occur are a few of importance, and especially worthy of attention. The Messrs. Muller advertise to sell a further share of the Furniss estate, and the offering is every way worthy of attention and investment. The portion of the Furniss property to be sold consists of sixteen lots, located on Riverside Boulevard, Eleventh Avenue, and One Hundred and Second Street, and its merits need no further recapitulation.

During the coming week the leasehold premises, including the lands, premises, water rights, and pier rights of what is known as the Manhattan Market Company will be sold at auction, under legal prodeedings. This property, located on the North River, between Thirty-fourth and Thirty-fifth streets, and covering with the buildings one of the most valuable areas of the city, could be readily made available for large storage or warehousing purposes, and, judiciously managed, should make a fair return for its purchase.

Of private sales, occurring throughout the week, we present a number of the more important reported, remarking that, while prices, in a few instances, fall largely below previous valuations, and, as we conceive, present worth, yet, in other cases, there seems to be greater stiffness, with values well sustained.

Arnold, Constable & Co. have bought six full lots, located at the corner of Fifth Avenue and Ninety-seventh Street (three upon the avenue and three adjoining in the rear, upon the street), for $95.000. George W. Poillon has sold ten full lots, at the southwesterly corner of Lexington Avenue and Fifty-seventh Street (nine on the street, distant ninety feet easterly from Fourth Avenue, and one upon the Lexington Avenue corner), for $140,000 cash. This property, which is to be improved at once, was bought two years ago by Mr. Poillon for $120,000.

Seven lots, located on Eighth Avenue, near One Hundred and Thirtieth Street, have been sold for $30,000.

V. K. Stevenson, Jr., reports the sale of the four-story brown stone front high stoop house, 22x60, with lot 22x102.2, No. 13 East Seventy-third Street, for $40,000 cash.

Lespinasse & Friedman report the following sales, concluded by them during the present season: Three lots on the northerly side of Seventy-second Street, 225 feet easterly from Eleventh Avenue, with two lots on Seventy-third Street, in the rear, for $50,000 cash; four lots on Seventy-second Street, with four on Seventy-third Street, adjoining easterly to the lots previously mentioned, for $75,000 cash; five lots, located at the southwesterly corner of Eighth Avenue and Eighty-eighth Street, with one lot on Eighty-eighth Street, adjoining, in the rear, for $105,000 cash.

MARKETS.

Several changes are noted in our report, and weakness seems increasing, demand being so limited as to preclude any continuing advantage in advanced quotations. It is quite impossible, therefore, to express correct opinions or to arrive at just conclusions as to trade from one week's end to another. The market is very like a person with a delicate stomach—it takes little to upset it—yet again it is frequently undisturbed by influences which would be likely to operate to its advantage. Building matters have reached a point where general trade, which has cut loose from speculation and is struggling for life, compels them to take care of themselves.

The slow advance of business interests toward prosperity falls with greater severity upon our markets and upon all connected with them. They are dependent to a degree hardly to be realized until conditions under which they are now acting arise, and as their recovery is naturally of the latest so their calamity is of the worst. Prices of material are very low, unprecedentedly so, compared with the experiences of later years. A brief glance at our tables will confirm this statement and will probably add point to our assertion made before and now repeated, that with the present low prices of real estate and the cheapness of material, there is no better time to build than the present; and that money saved by careful investment at this period of depression will earn an abundant profit when activity is resumed and the day of general prosperity arrives.

We append our report in detail;

BRICK.—The yards are shutting down from day to day, and manufacture is gradually suspending without as yet any effect upon the market in the way of stiffening prices or giving any advantage to manufacturers. The supply, although limited, is greatly in excess of the demand, and at present writing 2,500,000 of hard brick are lying in the market unsold. Pale are most active, having been rather brisk with quotations advanced 25 cents per M. We doubt, however, if they will hold, and the weakness prevalent in the market will probably affect them. Up-rivers are inactive, with slow arrivals, and the low prices of Haverstraw Bay bricks operate to their disadvantage and prevent movement. We quote them 75 cents per M. lower. Haverstraw Bays are dull, selling down to $5.50 per M., while at the same time some very choice were disposed at $7.50 per M. Fronts are steady and unchanged. We quote: Pale, per M, $2.50@3; Jersey, —@—; Up-river, $4.50@5.50; Haverstraw Bay, $5.50@7; Fronts, Croton—brown, $12; dark, $13; red, $14; Philadelphia, $28@32; Baltimore, $50@58.

CEMENT.—The market for Rosendale is weaker both on export orders and for city trade. We have heard of sales at $1.10, but hardly conclude to quote as low Foreign is somewhat weaker with quotations as yet nominally unchanged. We quote Rosendale at $1.15@1.30 and Portland $4.25@4.50, other foreign $4@4.50, delivery to be added.

FIRE BRICK.—No movement reported, with quotations nominally as usual.

GLASS.—French window is in good request, and stocks not being heavy prices are firmly held, discounts remaining at 60 and 10 per cent. English sheet is in limited demand at 50 per cent. discount, and polished plate is in some request at 15 per cent. off.

HAIR—Dull and without movement. Prices are, of course, nominal, but our quotation will cover any possible transactions. We quote as to quality, cattle at 12@25 and goat at 14@28 cents.

HARDWARE.—Trade is limited, the market being unusually dull, taking the season into account, and prices are irregular. Cash buyers can secure very favorable terms, and dealers will do much to keep trade going. Stocks are ample and prices seem to be constantly undergoing revision. P. & F. Corbin notify that their discount on Copal bronzed loose-joint butts is changed to 55 per cent., also add same butts with bronzed metal acorns, discount 50 per cent. Brass and copper goods are quiet. Wrought iron gas, water, and steam pipe is weak at 50 per cent. discount.

LATH.—The market seems to be fully supplied and prices are off. We quote at $1.60.

LIME.—No changes have occurred since our last report. The market is fairly steady, held by keeping the supply within strict limits, avoiding a surplus of material. We quote State, common, at 90@$1; finishing, $1.25; Rockland, common, $1.10, and finishing, $1.60.

LUMBER.—The market generally is dull, although there are some reports of fair trade at the yards. These reports, when narrowed to specific statements, admit that the amount of business doing bears no comparison with former years, and is much behind that for the corresponding period of 1873. The best business is done on the middle grades of white pine, for carpenters' general uses. Box is somewhat in demand, and a qualifiedly fair trade is doing in this kind of lumber. Shipping orders are scarce, and cargoes are quoted nominally at $18@26, and Canada, in bond, $15.50@22, as to grade. Yellow pine is very dull, and some recent orders have been cancelled. Prices continue irregular at $25@32 per M. for ordered and $22@24 for random cargoes. Hewn timber is held at $20@30; flooring, $25@28. Eastern spruce is dull at $13@20, with late cargo sales at $16@18. Hard woods are inactive, black walnut doing the best business and holding its own very fairly. White wood meets with better sale, without an unusual amount of trade. Our advices from Western sources indicate that manufacturers are exerting some pressure to sell to Eastern dealers before the close of navigation. From the reports appended it will be seen that present Western quotations are lower than the figures which have been urged during the summer and indeed since January last. The numerous sales occurring upon private terms have, however, effectually disposed of quotations, and we know from reliable sources that purceases have been made throughout the year upon more favorable terms than any that have been made public. Assortments here have been generally well kept up, and the yards are at no loss under the present, or any probable chances of trade, to fill orders. The only question arising is, whether purchases for next season should be made now or after the new year, and the anxiety manifested to ring in Eastern buyers at present rates, seems to indicate a well-founded fear with Western dealers that lower prices *must* rule.

General Western Notes.

From the Dubuque (Iowa) *Herald*, Sept. 26:—

The condition of the lumber market is virtually unchanged, dullness being still the leading feature. There is scarcely any demand for lumber afloat, and sharing in the general inactivity, shipments from the yard have fallen off. However, business last week was interrupted by a storm, which added somewhat to the reduced trade. To-day the prospects are better, and a larger number of orders in hand than usual. Fair weather will undoubtedly bring the yard trade up to respectable proportions again.

The Iowa Lumber Company has closed its mill for the season, and discharged its employes. Two firms in this city are reducing the production with idle mills, without any action of the Saginaw Convention for that object. The Convention met last week in Saginaw, and consumed the greater portion of the time in fighting the reciprocity treaty, which, when passed, lets Canadian lumber into the United States duty free. It now pays a duty of $1 per 1,000. This sum, together with cheap labor, will give Canadian lumbermen a vast advantage over those in the States, and affect Eastern dealers more generally than Western ones. The question of reducing the production of lumber also came up, and manufacturers pledged themselves to its support, which virtually amounts to nothing. The question of overstocks will work itself clear, like any other commodity, and be regulated by the natural laws of supply and demand; all legislation on the subject passes for naught. When lumber is unsaleable dealers will cease manufacturing. The only way to improve the market is to let the "weak sisters" die off, fail or suspend, which time will accomplish for those firms selling below cost.

The river offers an excellent rafting channel; the Chippewa River is swelling, and at last a small rise is reported in the Wisconsin. Rafting is light at present.

Knapp, S. & Co. added 1,500,000 feet to yard stock; Ingram, K. & Day 1,125,000 do, both fleets from the Chippewa.

K., S. & Co. sold to Fairchild, of Waverly, 100,000

Chippewa at $12.50; Ingram. K. & Day, 300,000 Chippewa, to a country dealer, at $12.50.

For lumber owned by outside parties and held here for sale there is little or no demand.

Rafts from the Chippewa River arrive 18 layers deep, since the channel improved.

Michigan and Wisconsin Notes.

From the *Lumberman's Gazette* (Bay City, Mich.), Sept. 26:—

During the last week there have been a number of dealers in this market, but there is no improvement to note in consequence. Some sales are made each week, and there has quite lately been manifested a disposition to shade prices more than heretofore. Some manufacturers who have been getting the best quoted rates during the season have sold recently at $5.50, $11, and $33, and this from mills which have a reputation for good stock; though none of the sales referred to, we believe, were of the best run of the mills.

It is very difficult to make quotations that will represent the state of the market correctly, since numerous considerations not usually taken into account are now made to influence transactions. Lumber is looked at more closely, too, and for a long time purchases have been in small quantities, as a rule, and made with much closer calculation on the part of the buyer than has been the custom in years past. Circumstances peculiar to the individual manufacturer also influence transactions in many cases. Not a few are convinced that next year is not yet free from uncertainties, and are shaping their business so as to be in the best possible condition for any contingency that may occur.

The common opinion hereabouts is that some appreciable benefit will result from the action taken at the meeting of the National Association, though there is considerable difference in estimates of the extent of this influence.

There has been of late no marked change in the rate of shipment. As the season draws nearer its close the prospect is that the amount of lumber to be carried over will not vary materially from the stock on hand last winter. Freights continue very favorable to shippers.

From the Saginaw *Courier*, Sept. 25:—

Very little is being done on the river at present, and the shipments of the month will probably fall short of what had been anticipated. It is stated on good authority that not for twenty-five years have the lakes presented so bare an appearance at this season of the year as at the present time. Some sales are being made, but it is so difficult to obtain the figures of what is termed an "honest sale" that dealers do not care to report them. To use the expression of a heavy shipper, on yesterday, "the bottom has fallen out of the lumber trade," and predictions as to the future are extremely misty.

From the Saginaw *Courier*, Sept. 27:—

Probably no branch of business has suffered more during the past year from the general stagnation than that of lumber. This has resulted from a variety of causes, chief among which is that of an overstocked market. For several years past there has been practically no limit to the operations in the woods, while new mills have sprung up on every hand. It is the opinion of all of the leading lumbermen with whom we have conversed, that there must be a large decrease in the product of lumber before a favorable trade can be hoped for.

We have heard many prominent manufacturers express a belief that the present season, seemingly so unfavorable, will result in permanent good; that manufacturers will be more careful than they have been about receiving larger stocks of logs than they can advantageously handle. There are a few buyers in the market, but there is no improvement. Some sales are made each week, and there has quite lately been manifested a disposition to shade prices more than heretofore. Some manufacturers who have been getting the best quoted rates during the season, have sold recently at $5.50, $11, and $33, and this from mills which have a reputation for good stock; though none of the sales referred to, we believe, were of the best run of the mills.

The shipments from the river up to the first of the present month on lumber, show a slight falling off compared with those of a corresponding period last year; while in other articles, in some instances, the movement this season up to September 1 is in excess of last year, as will be seen from the following exhibit:

	1874.	1873.
Lumber.....ft.	326,119,138	334,974,465
Lath.....pcs.	26,740,190	21,681,200
Shingles.....	46,591,000	31,119,560
Staves.....	3,780,013	5,855,311

Since the first of the month shipments have fallen off rapidly, and the anticipation indulged in by many that the closing months of 1874 would be marked by increased activity in the movement of lumber, does not seem to be warranted by present indications. The lakes for twenty-five years have not presented so bare an apperance at this time of the year as at present. A year ago freights were $4 per M to Buffalo, and $3 to Ohio ports; to-day the going rates are $1.75 to Buffalo, and $1.50 to Ohio.

Operations in the woods this season, while not on so extensive a scale as in seasons previous to the panic, will still be larger this winter than was at first anticipated. For several years the crop of logs on the streams tributary to the Saginaws have not been so effectually cleaned out as has been the case this season, and lumbermen, from past experience, will provide for contingencies, well knowing that it is rarely that a full season's cut of logs are floated out the succeeding spring. The fires, too, have damaged timber in some localities to such an extent as to render its cutting in order to save it an absolute necessity.

Like the lumber market, the square timber market has been overstocked. Prices this year, as compared with last year, show a reduction of 25 per cent. Little will be done in the valley in the way of getting out this important article of trade the coming winter, reliable authority placing the probable cut at one-third below that of last year.

Eastern Notes.

From the Boston *Lumber Trade*, Sept. 28:—

A similar trade to that of the last few weeks is the response we receive upon inquiry as to the state of the market. This means that there is a little call for stock, and but a little. No marked improvement has been experienced as yet. Lumber comes forward in quantities that exceed the demand. Some dealers seem to be willing to receive any amount. Of course this has to be sold at a sacrifice, and thus the trade here is hurt, and the shipper loses at the same time. Other houses are, and have been for some time, advising shippers to hold their stock, and not sacrifice it by sending it to an overloaded market. In doing this they are actuated by the single motive—improvement of the trade—and by improvement, we mean, for dealer and shipper alike.

We have not a single arrival of Southern pine to chronicle, which is a rare circumstance.

Southern Notes.

From the Florida *Express*, Sept. 19:—

Since our last report there has been a marked change for the better, and this has transpired under the most unfavorable circumstances.

FREIGHTS.—There has been more demand than for some time past, and with tonnage offering freely. Several charters are reported as closed. One to Genoa, at 52s. 6d.; one to River Platte, at $23 and five per cent., and the other at $22 and five per cent, same voyage, to report here in November; one charter made for Philadelphia at $8.

Rates of freight to United Kingdom, 38s. to 40s.; to Continent, 48s. to 53s.; to South America, $20 to $21 and 5 per cent.; to West Indies, $10 to $11; to River Platte, $22 and 5 per cent.; to Boston, $11; to New York and Sound ports, $10; to Philadelphia, $8.

HEWN AND SAWN TIMBER.—The market still keeps depressed, and we can not look for any upward movement in prices this winter. Our stock carried over is near 100,000 sticks, sufficient for the limited engagements that can be placed in Europe. We note with great interest the timber and lumber remarks of our foreign circulars, and we see that consumers are purchasing in small parcels for their wants, and refuse to contract for the future. This is evidently done to further depress prices, arising from the excessive stocks on hand and arriving. Liverpool dates of August 20th, state: "No fewer than twenty timber-laden ships lying in docks and now waiting for berths to discharge." But the same circular quotes the "consumption as enormous, and all kinds of timber and deals moving off with great freedom."

From this and other information, we infer that we only require time to restore the timber trade to a healthy condition. But the large stock must be worked off. Exportation, if possible, must cease from this country for a season, or be circumscribed to actual sales to the trade in Europe.

ASSORTED LUMBER AND GENERAL CARGOES.—Lumber and the reaction will come much sooner, simply because our stocks are not excessive. Our mill men, however, in eagerness to sell to relieve present necessities, will no doubt retard the relief of the market, for however conservative they may wish their neighbors, will find a ready excuse for themselves, to cut under and sell a cargo or so. But we look for an active demand, which will correct this fault.

METALS.—COPPER.—Manufactured is steady, as previously quoted. Ingot is in moderate demand, but stocks are quite firmly held at 21¼@21½ cents.

IRON.—Scotch pig is firmer, with higher quotations because of reduced stocks. The demand is moderate, and confined to small parcels, large lots not being sought after. American pig is in little better request, without any effect upon the stocks. Stocks are heavy, and production has diminished very little, if any. Rails are quiet, without sales. Scrap is dull, and manufactured from store is nominally steady, with a light demand.

LEAD.—Stocks of foreign pig are light, with a corresponding demand. Ordinary Spanish is held at $6.60@6.62½, gold. Refined is nominal at 7 cents, gold. Domestic is firm at $6.05@6.12½. Manufactured has been advanced ¼ cent as follows: Pipe and sheet, 8½ cents, before 8¾ cents; tin-lined pipe, 16½ (unchanged); and block-tin pipe, 55—all less 10 per cent. to the trade.

TIN.—Pig is quiet, straits being held at 21¾@22 cents. English is scarce for spot, quoting at 21¾ for L. and F., and 21¾@22 for refined. Banca is nominally 25½, all gold. Plates are somewhat firmer, with moderate stocks and smaller business.

ZINC.—There is a small amount of sheet in market, and holders are asking 8¾@9 cents, net gold, for Silesian and Mosselmann.

NAILS.—Cut are nominally steady at old quotations, which we consider generally valueless where trade is concerned. Dealers *will* make prices to suit themselves, as the demands of trade and customers seem to require. We quote as heretofore: 10d. to 60d. common fence and sheathing, ₱ keg, $3.65@3.75; 8d. and 9d. common do ₱ keg, $4; 6d. and 7d. common, ₱ keg, $4.25; 4d. and 5d. common do ₱ keg, $4.50; 3d. and 4d. light, ₱ keg, $5.25; 3d. fine, ₱ keg, $6; 2d. ₱ keg, $6.75. Cut Spikes, all sizes, $4. Floor, Casing, and Box, 75 cents above the same sizes of Common—Finishing, $1 above, and Fine Finishing $1.25 above.

CLINCH NAILS.

1¼ to 1½ in	2 & 2¼ in.	2½ & 2¾ in.	3 in. and longer.
$6.25@6.50.	$6.00.	$5.75	$5.50 ₱ keg.

OILS.—Linseed is weaker, and is held at 78@80 cents from crushers' hands. Sales of outside lots have been reported at 76 cents.

PAINTS.—Trade has fallen off, demand becoming of moderate proportions. Prices are generally firm, as goods are in limited supply.

PITCH.—Sales of 100 bbls. are reported at $2.50, f. o. b., which makes our quotation.

SPIRITS TURPENTINE—Have been in better demand, and prices have advanced a cent and a half, the market closing firm at 37½ cents, merchantable.

TAR.—Wilmington has advanced, and is quoted at $2.80@2.90 per bbl. Washington and Newbern are held at $2.37½@2.70.

ALBANY LUMBER MARKET.

[FROM THE ALBANY ARGUS, SEPT. 28.]

Light stocks are held at the points of consumption; hence it is thought that during the coming month there will be more doing, as dealers are laying in their winter stocks. The assortment in market is good. Reports from outside markets are that there is a fair business doing. Receipts of pine do not accumulate rapidly; a quantity of Michigan has lately come to hand, but with this exceptioe there is not the accumulation usual at this season as a basis for fall and winter supply. Spruce and hemlock come along slowly, and until the Northern mills have a better supply of water the receipts must be light.

The fourth canal week does not close until the 1st proximo, hence we are without the weekly statement of receipts; we would state, however, that the receipts of lumber from the 22d to the 29th inst. are 12,800,000 feet against 12,361,000 feet for the whole week last year.

Quite a number of mills were to shut down at Ottawa on the 26th inst. for the rest of the season. This will very materially curtail the supply in that direction.

At Chicago, the reported receipts of lumber, by lake, to the 23d of Sept., were 782,561,100 feet, against 834,149,000 feet the year previous; the shipments from Jan. 1st, are 424,407,000 feet against 411,534,000 feet the previous year.

Canal freights from Buffalo to Albany are: $4.00 per M feet for pine, and $5.00 for hardwood; from Oswego, $2.75.

SOAPSTONE WASH TUBS.

A MUCH AND LONG NEEDED IMPROVEMENT.

None More Simple & None so Durable.

We are now manufacturing in this city to order, Wash Tubs and Sinks of the celebrated Francetown Soapstone.

Of the annoyance, costly repairs, and filthiness of our present wash tubs the public need not be told—experience has taught them. The superiority of them over wood is, they do not absorb the wash water and slops, consequently preventing that *disagreeable odor* in the house. They are easily kept sweet, clean, and dry. *They are not affected by hot or cold water. Never crack or leak.*

Cheaper than Wood, and will last a Lifetime.

They only need to be seen to be appreciated. All interested we invite to call and examine them at our warerooms.

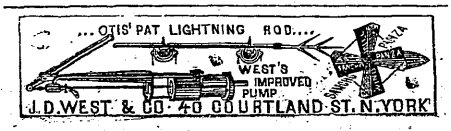
CHASE'S
PIPE CUTTING & THREADING MACHINE.



This important tool is designed to fill a want long felt by STEAM AND GAS FITTERS and MACHINISTS for cutting and threading pipes rapidly and cheaply. An apprentice boy, with one of these, can do more work than two men with old appliances, under the old system. NO PIPE SPLITTING! NO BEVEL INSIDE OR OUT! It cuts threads and makes nipples for all sizes of pipes, from ⅛ to 2 inches. Weighs only 100 lbs. Stronger than any machine made. A set of collars and lengths for making nipples goes with the machine. Address THE CHASE MANUFACTURING COMPANY,

THE HAYES Sky-Lights and Sky-Light Bars, manufactured under Hayes' Patents of 1869, 1870, 1871, 1873, and 1874. 75 Eighth Avenue, New York.

NOTICE.—My attention has been called to an advertisement of one Charles Sellman, published in the last issue of the REAL ESTATE RECORD, which might be misunderstood as referring to an Interference between my patents above cited and a patent granted to Sellman. The facts are, that the Interference was declared between a *recent* application of mine and the said patent to Sellman. *None of my many patents* were involved in the said Interference—they date way ahead of Sellman. It was simply an application for a patent for a bar alleged to be the same as the bar Sellman claims. The Commissioner decided *that my prior patent of* 1871 fully covered my said recent application, and, of course, the Interference was dissolved, as the patent office could not give me two patents for what they adjudge to be the same thing.

In the official decision this language occurs: "It appears to me an Interference upon the subject matter now defined should have been had between the patent of Hayes [Exhibit 12, that is, Hayes' patent No. 112,594, dated March 14, 1871, and reissued Nov. 11, 1873], and the application of Sellman *before the latter was admitted to patent.*" Had this been done, Sellman would have been denied the patent, for the reason that he does not even pretend in his sworn evidence to carry the date of his alleged invention back of July, 1873, whereas the patent referred to was actually issued to me March 14, 1871.

The above will place the matter referred to in Sellman's advertisement in a very different light before the public than as presented by him, and they can judge for themselves whether Sellman has, in law or in fact, *any rights at all.* GEORGE HAYES, 75 Eighth Av., New York.

SKY-LIGHT BARS.

NOTICE TO ARCHITECTS, BUILDERS, AND OTHERS REQUIRING GALVANIZED IRON VENTILATING SKY-LIGHTS.

As Mr. George Hayes, skylight builder, has been endeavoring to cover my patent of January 20th, 1874, by a suit in interference, and I believe has been circulating reports to the effect that I was covered by said suit, I publish here the Official Decision in said suit, as rendered September 3, 1874.

To Charles Sellman, Patentee, 115 Waverly Place, New York:

Please find below a communication from the Examiner of Interference, viz.: George Hayes *vs.* Charles Sellman, sky-light bars.

JOHN SETON,

WASHINGTON, D. C., Sept. 3d, 1874.

This case having been suspended and referred to the Primary Examiner August 29th, 1874, for reconsideration, on the ground that the interference had been improperly declared, THE APPLICATION OF GEORGE HAYES PRESENTING IN THE OPINION OF THE EXAMINER OF INTERFERENCE NO PATENTABLE INVENTION, THE INTERFERENCE IS HEREBY DISSOLVED upon the concurrence of the Primary Examiner in the above-named opinion, and upon his recommendation of Sept. 2d, 1874.

Very respectfully,
M. D. LEGGETT, Commissioner.

Patented 21st March, 1871.

Is adapted to ordinary round pulley, and strong enough to suspend weights of any size required.

Being intended as a substitute for sash-cord, it can be put into sashes now provided with cord without any change of pulleys. The inventor feels confident that experience will prove his chain to be both economical and durable, besides doing away with the constant annoyance and expense attending the use of sash-cord.

THE CITY AND THE STATE TAX.

We have heretofore spoken of the unjust manner in which State assessments are made in the City of New York compared with the system which exists in other parts of the State. That New York city is bearing a burden to the detriment of her own vital interests has also been well argued during the past week by Tax Commissioner Andrews before the Assembly Committee on Ways and Means, and there were some remarks made by the same gentleman on the subject of exemption, which must attract attention during the coming winter. He referred to the property of Roosevelt Hospital, worth about $800,000, and to the property of the Young Men's Christian Association building, and other institutions which derive a large income from sub-letting. The Young Men's Christian Association receive over $60,000 a year from the rental of stores in their building. All this was wrong in principle. Where such was the case, he said, taxes should be imposed. It was significant that the chairman of the committee at once expressed his concurrence with Mr. Andrews in this respect. It also appeared further from Mr. Andrews' remarks that there exists a great deal of ignorance on this subject of exemption. When institutions like the above are mentioned, people are apt to call it "church property," which it is not—though it is not unlikely that the general exemption of church property, broad question as it is, will also receive more attention in the future than it has during the past few years. There are colleges that have a large amount of land attached to them and receive therefrom heavy incomes. There exists no earthly reason why they should be exempted. However, we are glad to see that the State authorities have at last woke up to the necessity of changing the entire law in regard to State taxation; and that the City of New York, while paying the lion's share of the State tax, will do so at least on a more equal system than it has in the past.

MORTGAGES.

REAL ESTATE.

NEW YORK.

NOTE.—The arrangement of this list is as follows: The first name is that of the mortgagor, the next that of the mortgagee. The description of the property then follows, then the date of the mortgage, the time for which it was given, and the amount. The general dates used as headings are the dates when the mortgage was handed into the Register's office to be recorded.

Wherever the letters "P. M." occur, preceded by the name of a street in these lists of mortgages, they mean that it is a Purchase Money Mortgage, and for fuller particulars see the list of transfers under the corresponding date.

MISCELLANEOUS.

REVIEW OF THE REAL ESTATE MARKET.

There is a growing interest in the market, and a very evident disposition on the part of many to seek for bargains. The daily attendance upon the public sales has been good, and in some cases notably fair prices were secured. The expected leading feature of the week, involving the sale of Riverside Park lots, did not come off, the property having been withdrawn from competition. Brooklyn property fared badly, as was shown in the sale of a few Prospect lots, the prices secured compelling a withdrawal of the larger portion of the offering. Whatever may be our opinion of the values of such property we are satisfied that, even for the times, the prices secured were too low, and we can not approve the judgment displayed in forcing them upon the market.

There is no apparent change in the volume of business, except that arising from numerous legal sales, many of which were concluded upon better than ordinary terms. On the 20th inst. A. H. Muller & Son will sell, at the Exchange, one hundred and eighty lots, situated upon Park and Lake avenues, High Street, and avenues D, E, and F, in the City of Yonkers. These lots, belonging to the estate of the late Sampson Simson, are very desirable, commanding extensive views of the Hudson River, and are fit for immediate improvement.

We also call attention to the sale by A. J. Bleecker, Son & White, of the property of George Bowman, Esq., located upon Staten Island, and offering superior inducements, especially to New Jersey investors, as the property is situated opposite Elizabeth.

Upon reference to our advertising columns it will be seen that a number of eligibly located lots, on Harlem River Heights, in the Twenty-fourth Ward, are offered for sale, and deserve consideration.

We are informed that $600,000 have been offered and refused for the front on the easterly side of Broadway, between Thirty-eighth and Thirty-ninth streets. The property is sought for the purpose of building a new theatre, and the site is considered very eligible for that purpose.

Money is said to be offering freely upon bond and mortgage, and foreign capital is seeking investment upon good real estate security in this city.

Hall J. How reports the sale of eight full lots, on Eighty-eighth Street, between Fifth and Madison avenues, to Arnold & Constable, for $96,000 cash.

Lespinasse & Friedman have sold twenty-four lots, on One Hundred and Sixty-fourth and One Hundred and Sixty-fifth streets, bounded easterly by the Harlem River, and westerly by Ninth Avenue, for $40,000.

Other contracts have been closed, details of which have not come to hand.

LOCAL ITEMS.

MARKETS.

It is quite impossible to forecast from one week to another the probabilities of the markets. Trade is beyond control, and shifting from point to point under the slightest influences, is seemingly beyond all power of calculation derived from past experiences. Weakness extends through most of our markets, yet in some cases there is better feeling, with greater strength, while again we are called upon to note lower prices where the season should naturally require a firmer feeling. If anything was needed to show the desultory character of trade, this, we think, would demonstrate it. The reports of general business are hardly more satisfactory than our own. Buyers are cautious, and economy is prevalent. The slow, careful feeling begotten of past woes, is sustained, and seems likely to endure until the general rush of prosperity is such that it sweeps away all conservative opposition and plunges us again into the excitements of speculation. Notwithstanding all drawbacks, however, there is a prevailing impression that matters are moving for the better, and that improvement in trade, although slow, is increasing. We can not as yet take this gratifying assurance to ourselves, and we see no hope for the pres

ent and expect very limited changes in the coming season; but, as we have remarked, predictions are of small account.

Our report of the markets in detail is appended.

BRICK.—Arrivals of hard have been limited, and manufacturers evince a disposition to withhold supplies. This has imparted a firmer feeling to the market, and while prices are without any appreciable change, they are steady and strong. Quotations may be advanced within the week, and present indications of the market favor such a movement, but we can not hazard positive opinion upon the subject. We have heard of sales of Haverstraw Bay brick at $5; but, quality and quantity considered, we see no occasion to lower our quotations. Front are unchanged. We quote: Pale, ₱ M, $2.50@3.00; Jersey, $—@4.75; Up river, $4.50@5.50; Haverstraw Bay, $5.50@8.25; Fronts, Croton—brown, $12; dark, $13; red, $14; Philadelphia, $28@32; Baltimore, $50@58.

CEMENT.—There is a moderate export demand for Rosendale at $1.30 per bbl., but city trade is dull, and the market is proportionably weak. We quote at $1.15@1.30. Portland has been in some request, and we note sales of 300 bbls. at $4.50, delivered, and of 600 bbls., ex ship, at $4.40@4.50, delivered, f. o. b. We quote Portland at $4.25@4.50. Other foreign dull at $4@4.50.

FIRE BRICK—Have had more movement, and sales are reported of 6,000 red Welsh at $50, and of 7,500 Scotch at the same price. Other quotations are unchanged.

GLASS.—There are no new features. The market is steady, with an active demand for French window at 60 and 10 per cent. discount. English sheet and polished plate are unchanged.

HAIR.—The market is very quiet, trade having dwindled to the smallest proportions, and so little is doing that prices are uncertain. Our quotations, which will cover any possible range, are as follows: Cattle, 12@25, and goat 14@28 cents per bushel, according to quality.

HARDWARE.—The season has well advanced, and trade has been of a character to reverse all expectation of a good fall business, and dealers are looking forward to the future, believing that the caution exhibited in making purchases will be continued, and that the market will consequently develop a steady amount of business. Sargent & Co. have reduced their discounts on Strap and T. hinges to 20, 10 and 10 per cent. discount. Brass and copper goods move slowly. Brass wire is quoted 29 cents, and copper do. 39 cents, both 10 per cent. off. Copper rivets are nominally 40 per cent. discount. The price of narrow, fast cast butts has been advanced by the American Companp to 35 per cent. discount. Other makes are unchanged.

LATH—Have weakened since our last report, and we quote at $1.50. We are not prepared to say that this is the bottom price, as we have heard of sales at $1.25. Reports of the quantity in market vary, as we have been informed that nearly everything has been taken up, and again that there are a large number lying unsold. We think that prices favor buyers, and therefore do not call the market strong or our quotation absolute.

LIME—Is still held at 90c.@$1 for State common. Sales have been reported at 85 cents, but not sufficiently numerous or important to induce us to change our quotation. On certain manufactures we believe that concessions are necessary, and we consider the market weak to that extent. The feeling may extend further than we suppose, but it has not developed sufficiently to warrant us in making the change. Finishing is steady at $1.25, Rockland is held at $1.10 for common and $1.60 for finishing, delivery in all cases to be added.

LUMBER.—There is nothing new, except a weaker feeling in spruce, which we note below. The yards keep up to the standard of limited trade of the character specified in our last report, which for all practical purposes covers the entire field of the market. Spruce has been off in price because of frequent arrivals and cargoes becoming harder than ever to place, concessions have been made accordingly. We quote random at $13@16.50, and ordered schedules at $16@20. Yellow pine is dull, and the limited amount of work going on and in prospect precludes activity even in the face of less abundant offerings. Hardwoods are quiet. Stocks seem ample for present purposes, and dealers do not seem to fear any prospective embarrassment from any cause that may arise. Assortments are generally well kept up.

Michigan and Wisconsin Notes.

From the *Lumberman's Gazette* (Bay City, Mich.), Oct. 1:—

There is nothing new to report in the way of actual improvement in transactions or the rates, but the general feeling is unmistakably better. There has been little movement during the week in comparison with what is usual at this season of the year, and there are few buyers, as has been the case for some time. The railroad or inland mills report a promise of improvement at no very distant day, and seem to be better satisfied than the river men as a rule.

The prevalent topic of discussion is the operations in the woods the coming winter. Everybody acknowledges the necessity of curtailing the production, but opinions vary as to the efficiency of the means proposed. Not a few have little or no faith in any agreements that may be made in this region or elsewhere, and think the whole thing must be left to the natural influences which affect such matters. The circumstances which surround individual operators, and are in many cases peculiar to each, will unquestionably have a very potent effect, and, in the judgment of many, will determine the action of the individual, independent of any combination or agreement. Still, it must be acknowledged that the unpromising season and the stringency of the money market will keep many small operators out of the field entirely and curtail the operations of many more.

Prices remain at former quotations, the few sales lately reported having been mainly at $5.50, $11, and $33.

MILWAUKEE LUMBER MARKET.

From the Milwaukee *Evening Wisconsin*, Oct. 6:—

There is no change to note in prices. Trade is fair, the arrivals being about equal to the demand. We quote:

Scantling and joist	—@$9 00
Common strips and boards	9 50@10 00
Medium	11 00@13 00
Extra to choice	15 00@16 00
Lath	1 62½@1 75
Shingles, Star "A"	2 80@ 2 90

We note the following cargo sales by E. B. Simpson & Co.:

Schr. "Isabella Sands," Manistee, 150,000 scantling and joist at $9; 50,000 timber at $11 for 20 to 28 feet, and $14 for 30 feet and over.

Schr. "W. W. Brigham," Manistee, 90,000 scantling and joist, $9; deck load timber, 20 feet and over, at $11.00.

Barge "Herschell," Ludington, 128,000 strips and boards, $13; 90,000 scantling and joist, $9.

Barge "Mars," Ludington, 210,000 scantling and joist, $9.

Schr. "Jennie," White Lake, 55,000 common mixed, $9.00.

A steady trade is reported at the yards, and prices unchanged.

General Western Notes.

From the Dubuque (Iowa) *Herald*, Oct. 1:—

The lumber trade of this market continues in a quiet condition; the majority of dealers reporting to that effect; a few say, however, that sales average in amount those of a year ago. Generally speaking, there is a limited inquiry for lumber ashore or afloat, and for cash buyers favors are occasionally extended. For lumber afloat there is the usual demand among regular dealers; but outside owners, holding stocks running for a market, find but little inquiry. Sales are wholly in Chippewa lumber, which appears to meet the general wants of trade and the pockets of purchasers more fully than any other quality. No sales occurred last week in outside stocks held here. With all the inactivity, dealers hold regularly to values, asking $12@12.50 per M for standard Chippewa, as per amount of clear stuff a crib contains.

The river swells continuously, and has reached an excellent stage, all desired for rafting. Heavy rains in the Chippewa valley have raised that stream 8 to 10 feet; the last accounts, however, report it falling.

The Dubuque Lumber Company has concluded to start up the idle mill next week, and run a few weeks to stock up the yards, which are run low through orders and shipments.

SALES AFLOAT.—200,000 coarse Chippewa at $10.50; 900,000 standard do., in two lots, at $12 50; regular dealers hold standard Chippewa at $12.50 afloat.

The retail trade shows a slight improvement, and shipments from the yards are liberal. We hear of a number of heavy operators in the lumber districts who have decided to reduce the production next winter one-half the amount at least, and several firms who will not cut a log; the supply will reduce itself, and capitalists invest their funds where a better percentage is offered.

ST. LOUIS LUMBER MARKET.

From Griffin & O'Connor's *Market Reporter*, Oct. 3:

In white pine offerings and receipts were light, and nothing of importance transpired; prices nominally unchanged. The few rafts arriving are either taken to owners' account or were delivered on previous contracts. We continue to quote white pine afloat: Chippewa and Minneapolis at $12@14, and Wisconsin at $13@23; fair to good at $16@18, and dimension at $11@12. Lath firm and in good demand at $2.30@2.40, and shingles at $3.25@3.50, del.—8 cars sold within the quotations; also, 100,000 cypress shingles sold on levee at $3. At the yards a fair business was done at unchanged rates. Depot and levee lumber continues to rule dull; poplar, however, has been in better demand, and prices were firmer; other kinds quotably unchanged.

From the Chicago *Inter Ocean*, Oct. 6:—

The improvement noticed in this market last week was well maintained during the week under review. The policy of manufacturers, in holding back their supplies, has had a favorable effect on the market, and the cargoes now coming forward generally find buyers within a few hours after their arrival. The season is fast drawing to a close, and some of our city and country yard dealers have not got a sufficient amount of lumber in their yards to supply their customers during the winter. As a consequence they are anxious to purchase, and the competition between these buyers is sufficient to enable sellers to realize full prices. The outlook for the trade next year is at present such as would indicate a more favorable market all over the country. This is predicting rather far ahead, but reports from various sections of Michigan, Wisconsin, and Minnesota, and also from Canada, show that lumbermen are determined to reduce the supply for the next season, and intend to cut one-third less logs this season than last. The demand has been largely for joist and scantling, and all offered met with ready sale at $9. Strips and boards were steady, and held with considerable firmness, and sales were made at $9@12.50 for common to medium, and $13@16 for fair to choice grades. Shingles scarce and firm at $2.60@2.90 for common to choice "A" sawed. Lath $1.62½, with an occasional sale at $1.70. To-day the receipts were fair, about thirty cargoes being on sale. The weather was unfavorable for the transaction of out-door business, but nevertheless the market ruled quite active, and closed steady with but few cargoes unsold. Shingles sold at $2.75.

In the yards a fairly active trade was reported. The stocks are in good working order, the only scarcity being in the stock of fencing. Prices are firm and well maintained.

METALS—COPPER.—Manufactured is steadier and firmer at our quotations as follows: New Sheathing, 30@31 cents; Bolts and Braziers, 32@33; Nails, 37@38; Yellow Metal Sheathing, 22@23; Bolts, 28@30; and Nails, 23. Ingot is in good demand with all the tendencies against the buyer, quoting at 21½@21¾ cents.

IRON.—Scotch pig is selling in a small way according to requirements, with prices well sustained. American pig is dull. Rails are rather nominal. Scrap has had some business. Manufactured is generally quiet.

LEAD.—Pig is firm at $6.62½@6.65 for ordinary foreign and $6.25 for domestic, all gold. Bar, pipe, and sheet are quoted at 8¼ cents, tin-lined pipe at 16¼ cents, and block tin pipe at 55 cents, all less 10 per cent. to the trade.

TIN.—Pig is in limited request. Straits is held at 21¾@22 cents for jobbing lots; L. & F. 21¼@21½; refined, 21¼@21¾, all gold. Plates are steady and quiet.

ZINC.—Sheet is firm at 8¾@9 cents for Silesian and Mosselmann, net gold.

NAILS.—Cut are steady at old quotations, as follows: 10d. to 60d. common fence and sheathing, ₱ keg, $3.65@3.75; 8d. and 9d. common do ₱ keg, $4; 6d. and 7d. common, ₱ keg, $4.25; 4d. and 5d. common; do ₱ keg, $4.50; 3d. and 4d. light, ₱ keg, $5.25; 3d. fine, ₱ keg, $6; 2d. ₱ keg, $6.75. Cut Spikes, all sizes, $4. Floor, Casing, and Box, 75 cents above the same sizes of Common—Finishing, $1 above, and Fine Finishing $1.25 above.

CLINCH NAILS.

1¾ to 1½ in	2 & 2¼ in.	2½ & 2¾ in.	3 in. and longer.
$6.25@6.50.	$6.00.	$5.75	$5.50 ₱ keg.

OILS.—Linseed is dull and weak, with downward tendencies, and we quote at 77@78 cents from crushers' hands.

PAINTS.—The market is generally quiet, with a moderate demand. Prices continue steady and firm. Venetian red is very scarce, with sales at 2¾ cents, currency. Vermilions are strong at our quotations.

PITCH.—City is quiet with sales at $2.50 per bbl., f. o. b.

SPIRITS TURPENTINE.—The market has been off since our last report, prices declining to 36½ cents, but recovering with a moderate demand, closed at 37@38 cents for merchantable.

TAR—Has been in some demand, quoting at $2.37½@2.50 for Newbern and Washington and $2.75@2.80 for Wilmington.

ALBANY LUMBER MARKET.

[FROM THE ALBANY EVENING JOURNAL, OCT. 7, 1874.]

There are no new features in the lumber trade. A fair amount of receipts is shown, though less than usual at this season.

There has been a pretty good attendance of buyers, but the transactions generally have not been heavy, including, however, some pretty large transactions.

We change our quotations to cover any alterations in prices, though they have not materially altered for the last month.

Dealers anticipate a large demand when customers commence putting in their winter stock, which some will probably delay to the close of the season, even if they have to pay higher figures.

The receipts by the Erie and Champlain canals during the fourth week of September were:

	Bds. & Sc'tl'g ft.	Shingles, M.	Tim'r c. ft.	Staves ₱s.
1873..	12,361,800	1,050	....	302,500
1874..	15,414,800	....	....	....

Of the boards and scantling received, 12,609,300 feet were by the Erie, and 2,805,600 feet by the Champlain canal.

The receipts by the Erie and Champlain canals from the opening of navigation to October 1st, in the years named, were:—

	Bds. & Sc'tl'g ft.	Shingles, M.	Tim'r, c. ft.	Staves, ₱s.
1873..	264,385,800	8,655	....	4,029,800
1874..	238,886,200	11,978	7,500	641,000

We quote River and Eastern freights as follows: New York, ₱ M, $1@1.25; Bridgeport, $2; New Haven, $2; Providence, $2.50; Pawtucket, $3; Norwalk, $1.75; Hartford, $2.75; Middletown, $2.25; New London, $2.50; Philadelphia, $2.75; Baltimore, $4; Richmond, Va., $5; Boston, softwood, $5; Boston, hardwood, $6.

A GOOD INVESTMENT

EVERY PRUDENT MAN, CAREFUL OF THE

health and comfort of his family, should see to it that his drinking water is conveyed through TIN-LINED LEAD PIPE, which is a perfect safeguard against lead poison. Tin-lined Lead Pipe is strong, durable, flexible, and easy soldered. It is a great benefit to the community, and enhances the real value of every house in which it is introduced. It is cheaper than Lead Pipe, when strength and durability are considered. Sold by the COLWELL LEAD CO., 213 Centre St., New York. Price, 16½ cts. a pound for all sizes. Descriptive pamphlets sent by mail free. Also, manufacturers of Lead Pipe, Sheet Lead, Block Tin Pipe, Bar Tin, Pig Tin, Bar Lead, Pig Lead, Solder, &c. Orders filled at sight.

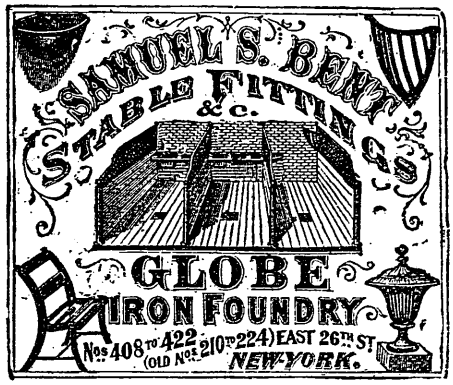
TRANSFER GRAINING.

THE ONLY COMPLETE PROCESS OF GRAINING EVER INVENTED.

Its practicability and utility are fully established by the 350 Licenses and Machines in use.

It copies exactly **ALL NATURAL WOODS**; also, ASSUMED DESIGNS ETCHED OR ENGRAVED ON WOOD, GLASS, OR METALS.



The process is so simple and complete that Panels of all sizes and shapes can be grained, so that unskilled labor can be employed. The American Institute awarded us the HIGHEST PREMIUMS for it in 1872 and 1873.

For Circulars, Samples, and References, apply to

CROSS & BASTINE, 132 West Broadway, N. Y

Caution.—All persons buying a Graining Machine in which a smooth elastic surface is used, are hereby notified that we are the inventors and owners of Letters Patent pertaining to and fully covering this process. We shall hold all parties responsible by suit who purchase of one John Johnston, offering for sale a smooth elastic surface for transferring configurations or graining, or any one unauthorized by us. Suits have been commenced against Edward W. Baxter & Co. and others for infringing. We shall prosecute all parties found using or vending, to the full extent of the law. SOAPSTONE WASH TUBS.

A MUCH AND LONG NEEDED IMPROVEMENT.

None More Simple & None so Durable.

We are now manufacturing in this city to order, Wash Tubs and Sinks of the celebrated Francetown Soapstone.

Of the annoyance, costly repairs, and filthiness of our present wash tubs the public need not be told—experience has taught them. The superiority of them over wood is, they do not absorb the wash water and slops, consequently preventing that *disagreeable odor* in the house. They are easily kept sweet, clean, and dry. *They are not affected by hot or cold water. Never crack or leak.*

Cheaper than Wood, and will last a Lifetime.

They only need to be seen to be appreciated. All interested we invite to call and examine them at our warerooms.

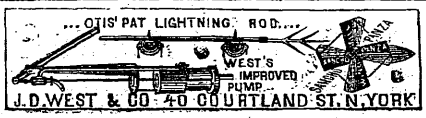
CHASE'S
PIPE CUTTING & THREADING MACHINE.



This important tool is designed to fill a want long felt by STEAM AND GAS FITTERS and MACHINISTS for cutting and threading pipes rapidly and cheaply. An apprentice boy, with one of these, can do more work than two men with old appliances, under the old system. NO PIPE SPLITTING! NO BEVEL INSIDE OR OUT! It cuts threads and makes nipples for all sizes of pipes, from ⅛ to 2 inches. Weighs only 100 lbs. Stronger than any machine made. A set of collars and lengths for making nipples goes with the machine. Address THE CHASE MANUFACTURING COMPANY,

THE HAYES Sky-Lights and Sky-Light Bars, manufactured under Hayes' Patents of 1869, 1870, 1871, 1873, and 1874. 75 Eighth Avenue, New York.

NOTICE.—My attention has been called to an advertisement of one Charles Sellman, published in the last issue of the REAL ESTATE RECORD, which might be misunderstood as referring to an Interference between my patents above cited and a patent granted to Sellman. The facts are, that the Interference was declared between a *recent* application of mine and the said patent to Sellman. *None of my many patents* were involved in the said Interference—they date way ahead of Sellman. It was simply an application for a patent for a bar alleged to be the same as the bar Sellman claims. The Commissioner decided *that my prior patent of* 1871 fully covered my said recent application, and, of course, the Interference was dissolved, as the patent office could not give me two patents for what they adjudge to be the same thing.

In the official decision this language occurs: "It appears to me an Interference upon the subject matter now defined should have been had between the patent of Hayes [Exhibit 12, that is, Hayes' patent No. 112,594, dated March 14, 1871, and reissued Nov. 11, 1873], and the application of Sellman *before the latter was admitted to patent.*" Had this been done, Sellman would have been denied the patent, for the reason that he does not even pretend in his sworn evidence to carry the date of his alleged invention back of July, 1873, whereas the patent referred to was actually issued to me March 14, 1871.

The above will place the matter referred to in Sellman's advertisement in a very different light before the public than as presented by him, and they can judge for themselves whether Sellman has, in law or in fact, *any rights at all.* GEORGE HAYES, 75 Eighth Av., New York.

SKY-LIGHT BARS.

NOTICE TO ARCHITECTS, BUILDERS, AND OTHERS REQUIRING GALVANIZED IRON VENTILATING SKY-LIGHTS.

As Mr. George Hayes, skylight builder, has been endeavoring to cover my patent of January 20th, 1874, by a suit in interference, and I believe has been circulating reports to the effect that I was covered by said suit, I publish here the Official Decision in said suit, as rendered September 3, 1874.

To Charles Sellman, Patentee, 115 Waverly Place, New York:

Please find below a communication from the Examiner of Interference, viz.: George Hayes *vs.* Charles Sellman, sky-light bars.

JOHN SETON,
329 Myrtle Av., Brooklyn, Sole Agent for Kings Co.

WASHINGTON, D. C., Sept. 3d, 1874.

This case having been suspended and referred to the Primary Examiner August 29th, 1874, for reconsideration, on the ground that the interference had been improperly declared, THE APPLICATION OF GEORGE HAYES PRESENTING IN THE OPINION OF THE EXAMINER OF INTERFERENCE NO PATENTABLE INVENTION, THE INTERFERENCE IS HEREBY DISSOLVED upon the concurrence of the Primary Examiner in the above-named opinion, and upon his recommendation of Sept. 2d, 1874. Very respectfully,
M. D. LEGGETT, Commissioner.

Magrath's Copper Sash-Chain.

Patented 21st March, 1871.

Is adapted to ordinary round pulley, and strong enough to suspend weights of any size required.

Being intended as a substitute for sash-cord, it can be put into sashes now provided with cord without any change of pulleys. The inventor feels confident that experience will prove his chain to be both economical and durable, besides doing away with the constant annoyance and expense attending the use of sash-cord.

WATER GRANTS.

More than 150 LOTS on these Heights have been sold since the panic. The remainder, comprising some of the choicest, is now offered in small plots at private sale by the owners at very LOW PRICES and on very EASY TERMS.

The Highbridge boats stop at the foot of the property, and the Hudson River Railroad trains at Morris' dock. Time from Forty-second Street 22 MINUTES.

These large sales (amounting to upwards of $75,000) made at a time of real estate depression like the present, prove the attractions of this new locality and its REAL CHEAPNESS as well as SPECULATIVE and PRESENT value.

Parties to visit the ground will leave the office, 34 Pine Street, at 2 P. M. on Tuesdays, Thursdays, and Saturdays.

THE BEAUTY OF THE VIEWS will alone repay a visit. Maps, &c., can be had at the office of G. A. SACCHI or E. G. BURLING, 34 Pine Street, rooms 11, 12, and 13.

MORTGAGES.

REAL ESTATE.

NEW YORK.

NOTE.—The arrangement of this list is as follows: The first name is that of the mortgagor, the next that of the mortgagee. The description of the property then follows, then the date of the mortgage, the time for which it was given, and the amount. The general dates used as headings are the dates when the mortgage was handed into the Register's office to be recorded.

Wherever the letters "P. M." occur, preceded by the name of a street in these lists of mortgages, they mean that it is a Purchase Money Mortgage, and for fuller particulars see the list of transfers under the corresponding date.

MISCELLANEOUS.

REVIEW OF THE REAL ESTATE MARKET.

The market is no worse, and, if appearances are to be trusted, there is a better feeling extant, and holders have acquired more confidence. We do not assume, however, that values have advanced, but are of opinion that they are steadier, a condition which seems from week to week to be acquiring greater certainty. Sales at private hands have not been numerously reported, and, although we have rumors, and, in some cases, positive assertions, of negotiations concluded, the only report that has come to hand is the sale by V. K. Stevenson, Jr., of a lot 26x50, located on the westerly side of the Grand Boulevard, one hundred and sixteen feet southerly from Sixtieth Street, for $23,000. The public sales have been numerous, exciting competition in many instances, but generally resulting in purchase by parties in interest.

Brooklyn still stands aloof from the better feeling in the market, and sales within its limits have not been of the most successful character.

The sales to occur next week are important in many particulars, and offer advantages which deserve consideration. We again call attention to the Messrs. Muller's sale of Yonkers property, which will be found well worthy the attention of persons looking for suburban investments.

R. V. Harnett will sell, during the coming week, some parcels of improved property, which deserve more than passing notice, and we invite attention to his offerings.

Geo. Hobart Scott has entered the auctioneering field, and will give personal attention to all business confided to his care.

LOCAL ITEMS.

The Commissioner of Public Works notifies to persons interested, that a petition for changing the grade of One Hundred and Fifty-third Street, between Tenth Avenue and the Boulevard, is pending, and that objections thereto must be presented on or before the 14th inst.

The Commissioners for erecting a Court House on the present site of Jefferson Market ask for proposals for the iron work of the new Court House, Bell Tower and Prison building; bids to be opened on the 24th inst.

Application will be made to the Supreme Court, at Special Term, on November 2, for the appointment of Commissioners of Estimate and Assessment for opening Brook Avenue, from tide-water to the Harlem Railroad, at One Hundred and Sixty-fifth Street.

The National Institute of Architects is now in session in this city, and it is to be expected that from a gathering of the character which has been assumed for this meeting we might obtain points alike of information and benefit to building and other constructive interests. We cannot see from the proceedings of the Institute, so far, anything that conduces to such advantage, and, if the meetings of the Society are to result no better than mutual glorifications, with a good dinner at Delmonico's, we cannot discern any good accruing to the organization, as such, or to the community which reasonably expects a certain degree of intelligence and knowledge from such an assemblage.

MARKETS.

The general character of trade is no different than when last reported. The fluctuations of the markets vary from one kind to another, and weakness is followed by strength, and *vice versa*. There is no room for suggestion since our reports are of the same nature as for months past. Building is too limited to excite the markets, and yet we hear of projects that, if executed, will enliven them. It is becoming a matter of doubt if trade is of the dull and limited character attributed to it. It is of course well behind the experiences of later years, but compared with times when not excited by the unusual events of war or domestic commotion, it can hardly be said to be of the worst. With the reduction of the methods of excitement must follow a corresponding contraction in the volume of trade; speculation and large enterprises must conform to new limits and be controlled by necessities. Business that has been run without bounds will be resisted, and the weak must fall, giving way to such as are able to contend with existing circumstances and to meet all demands. There must be a nearer approach—we do not say return—to old methods, and the growth of trade must be resumed upon the legitimate requirements of a people at peace and the natural demand of a prosperous country.

Our report for the week is herewith appended.

BRICK.—The market is stronger, as we indicate in our report for last week, and hard are advanced 50@$1 per M., with tendencies still upwards. The action of manufacturers in withholding their bricks from market has caused the advance just noted, and the demand has been enough to take up all the Haverstraw Bay bricks in market. Pale brick are in good supply, and prices are unchanged but firm. Up-rivers are in greater supply than demand requires, yet continue firm at new quotations. Good Fishkills have advanced 37½@62½ cents per M., and other good up-river bricks have sold as high as $6. It is said that manufacturers have determined to avoid accumulations in market, and this intention, if fairly carried out, will preclude lower prices. Fronts are steady as previously reported. We quote: Pale, ℔ M, $2.75@3.00; Jersey, $—@4.75; Up river, $4.75@6; Haverstraw Bay, $6@8.25; Fronts, Croton—brown, $12; dark, $13; red, $14; Philadelphia, $28@32; Baltimore, $50@58.

CEMENT.—The market is not strong. We quote Rosendale $1.15@1.25 and Portland $4.25@4.50. Other foreign, $4@45.

FIRE BRICK—Are quiet at old quotations, with no new reports of sales.

FOREIGN WOODS.—The market is very quiet, and in the absence of business quotations must per force become nominal. We have nothing more to say for it.

GLASS.—French window continues very firm at 60 and 10 per cent. discount. Demand is good and stocks are light, and an advance in prices is possible. English sheet and polished plate are in some request, and are steady at our quotations.

HAIR.—There is none offering, and trade is altogether suspended. Prices, under the circumstances, are altogether nominal, and are not likely to be strong in the event of trade springing up. Quotations are retained.

HARDWARE.—Trade continues of limited proportions, and as the season is now at its close, there is a wide variance in its results with the expectations of dealers at the outset. Purchases seem to have been carefully and closely made, with a view to supplying positive requirements, and this action may result in exciting some movement at a time when trade is usually of the dullest. A few changes in prices have been made. The Stanley Rule and Level Company have issued a new list of gauges, and have made some reductions in the prices of Bailey's patent adjustable planes. The prices of brass and copper goods are somewhat firmer, with a little better trade.

LATH.—We quote the market dull and weak at $1.50. Arrivals have not been as plentiful, but dealers are well supplied, and the quantity in market is large enough to meet current demands.

LIME.—Rockland, in the face of numerous arrivals which have overstocked the market, has weakened, and we quote it—common at $1, and for finishing $1.50. The arrivals of State are still kept within very moderate bounds, one company even suspending all sales on account of material to arrive, and having none on hand. The weakness of the market is thus made apparent, and but for the restricted supply prices would not be sustained. We quote State common at 90c.@$1, and finishing at $1.25.

LUMBER.—Our reports are of the same general character as for weeks and months past. At the yards there is an ordinary amount of trade going to compel the belief that there is some sort of a market, but business is not of the extent that dealers have been wont to experience. White pine moves according to the limited requirements of interior fittings and the necessities for building purposes apart from new construction, of which there is very little. Export orders are limited, and we are without reports of sales. Yellow pine is dull, and the market is said to rule lower than ever before. Orders have been taken at $24@27, the latter prices for extra cargoes. One cargo of random sold for $23.50 at 4 months. Dry flooring, gang-sawn, is held at $28. Some orders of choice, for future delivery, have been placed at $31. Eastern spruce is plentiful, arrivals amounting to all, if not more than is required, and the market is consequently well supplied. We quote at $13@15.50. Hardwoods are quiet, with very little trade going, and it is difficult to fix a reliable quotation.

Eastern Notes.

From the Boston *Journal of Commerce*, Oct. 10:—

The lumber market is duller, if anything, than a week ago. Country dealers are purchasing less, and although they have but light stocks on hand, they are more than sufficient to supply the demand. There is but little lumber coming forward, and receivers find it extremely difficult to dispose of cargoes at current rates. Spruce is fairly active and firmer than any other description. Southern is very dull, and weak in price. Eastern is quiet and comparatively neglected, while prices are weak. There is no call for Canada lumber, neither are receipts of a heavy nature. The demand which usually prevails in the suburbs has entirely fallen off in consequence of the suspension of building operations. Few buildings are now being erected within a radius of ten miles of this city, and this largely accounts for the inactivity now existing in the lumber market. During the early part of the season the prospects of a fair fall trade were very encouraging, but present indications do not warrant the fulfillment of expectations, nor do dealers anticipate much improvement before spring.

METALS—COPPER.—Manufactured is unchanged in price, and we continue former quotations as follows: New Sheathing, 30@31 cents; Bolts and Braziers, 32@33; Nails, 37@38; Yellow Metal Sheathing, 22@23; Bolts, 28@30; and Nails, 23. Ingot is in good demand, and prices are strong and closing at 22@22½ cents.

IRON.—Scotch pig moves slowly, as the demand is limited to actual requirements; but as stocks are light prices are well sustained. American pig is weak, with downward tendencies and light sales. Rails and scrap are quiet. Manufactured is also quiet, with few orders upon the mills.

LEAD.—Pig has been quiet, pending Government offerings. Domestic is held at 6¼ cents; ordinary foreign is held at 6⅝@6¾ cents, gold. Manufactured is stronger at old quotations, which are for bar, sheet, and pipe, 8½ cents, and tin-lined pipe 16½ cents—all less 10 per cent. to the trade.

TIN.—Pig is very quiet. Straits is held at 21½ cents, L. and F. 21¼, and refined English at 21¾, all gold. Plates are dull at unchanged quotations.

ZINC.—Sheet is in small supply, with sales at 8⅝@8¾ cents, net gold.

NAILS.—Cut are steady at previous quotations, as follows: 10d. to 60d. common fence and sheathing, ℔ keg, $3.65@3.75; 8d. and 9d. common do ℔ keg, $4; 6d. and 7d. common, ℔ keg, $4.25; 4d. and 5d. common do ℔ keg, $4.50; 3d. and 4d. light, ℔ keg, $5.25; 3d. fine, ℔ keg, $6; 2d. ℔ keg, $6.75. Cut Spikes, all sizes, $4. Floor, Casing, and Box, 75 cents above the same sizes of Common—Finishing, $1 above, and Fine Finishing $1.25 above.

$6.25@6.50.	$6.00.	$5.75	$5.50 ℔ keg.

OILS.—Linseed is weak at 76@78 cents for casks and bbls. from crushers' hands, and demand is moderate.

PAINTS.—There is a moderate demand, and the market is only fairly active with firm prices. English Venetian red continues scarce, with sales of Cookson's (to arrive) at 2½ cents, currency. English Paris white is in good request. Vermilions are firm, with advancing tendencies.

PITCH—Is quiet at $2.50 for city, f. o. b.

SPIRITS TURPENTINE—Have been in good demand, advancing from 37 cents (our lowest quotation of last week) to 39 cents per gallon. We quote at 39@40 cents per gallon.

TAR—Has been variable, and we quote Newbern and Washington at $2.37½@2.60, and Wilmington at $2.70 @2.75 per bbl.

A GOOD INVESTMENT

EVERY PRUDENT MAN, CAREFUL OF THE

health and comfort of his family, should see to it that his drinking water is conveyed through TIN-LINED LEAD PIPE, which is a perfect safeguard against lead poison. Tin-lined Lead Pipe is strong, durable, flexible, and easy soldered. It is a great benefit to the community, and enhances the real value of every house in which it is introduced. It is cheaper than Lead Pipe, when strength and durability are considered. Sold by the COLWELL LEAD CO., 313 Centre St., New York. Price, 16½ cts. a pound for all sizes. Descriptive pamphlets sent by mail free. Also, manufacturers of Lead Pipe, Sheet Lead, Block Tin Pipe, Bar Tin, Pig Tin, Bar Lead, Pig Lead, Solder, &c. Orders filled at sight.

TRANSFER GRAINING.

THE ONLY COMPLETE PROCESS OF GRAINING EVER INVENTED.

Its practicability and utility are fully established by the 350 Licenses and Machines in use.

It copies exactly **ALL NATURAL WOODS**; also, ASSUMED DESIGNS ETCHED OR ENGRAVED ON WOOD, GLASS, OR METALS.

The process is so simple and complete that Panels of all sizes and shapes can be grained, so that unskilled labor can be employed. The American Institute awarded us the HIGHEST PREMIUMS for it in 1872 and 1873.

For Circulars, Samples, and References, apply to

CROSS & BASTINE, 132 West Broadway, N. Y

Caution.—All persons buying a Graining Machine in which a smooth elastic surface is used, are hereby notified that we are the inventors and owners of Letters Patent pertaining to and fully covering this process. We shall hold all parties responsible by suit who purchase of one John Johnston, offering for sale a smooth elastic surface for transferring configurations or graining, or any one unauthorized by us. Suits have been commenced against Edward W. Baxter & Co. and others for infringing. We shall prosecute all parties found using or vending, to the full extent of the law. SOAPSTONE WASH TUBS.

A MUCH AND LONG NEEDED IMPROVEMENT.

None More Simple & None so Durable.

We are now manufacturing in this city to order, Wash Tubs and Sinks of the celebrated Francetown Soapstone.

Of the annoyance, costly repairs, and filthiness of our present wash tubs the public need not be told—experience has taught them. The superiority of them over wood is, they do not absorb the wash water and slops, consequently preventing that *disagreeable odor* in the house. They are easily kept sweet, clean, and dry. *They are not affected by hot or cold water. Never crack or leak.*

Cheaper than Wood, and will last a Lifetime.

They only need to be seen to be appreciated. All interested we invite to call and examine them at our warerooms.

CHASE'S
PIPE CUTTING & THREADING
MACHINE.

This important tool is designed to fill a want long felt by STEAM AND GAS FITTERS and MACHINISTS for cutting and threading pipes rapidly and cheaply. An apprentice boy, with one of these, can do more work than two men with old appliances, under the old system. NO PIPE SPLITTING! NO BEVEL INSIDE OR OUT! It cuts threads and makes nipples for all sizes of pipes, from ⅛ to 2 inches. Weighs only 100 lbs. Stronger than any machine made. A set of collars and lengths for making nipples goes with the machine. Address THE CHASE MANUFACTURING COMPANY,

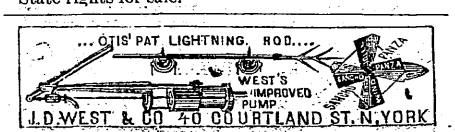
NOTICE TO ARCHITECTS, BUILDERS, AND OTHERS REQUIRING GALVANIZED IRON VENTILATING SKY-LIGHTS.

As Mr. George Hayes, skylight builder, has been endeavoring to cover my patent of January 20th, 1874, by a suit in interference, and I believe has been circulating reports to the effect that I was covered by said suit, I publish here the Official Decision in said suit, as rendered September 3, 1874.

To Charles Sellman, Patentee, 115 Waverly Place, New York:



Please find below a communication from the Examiner of Interference, viz.: George Hayes *vs.* Charles Sellman, sky-light bars.

JOHN SETON,
329 Myrtle Av., Brooklyn, Sole Agent for Kings Co.
WASHINGTON, D. C., Sept. 3d, 1874.

This case having been suspended and referred to the Primary Examiner August 29th, 1874, for reconsideration, on the ground that the interference had been improperly declared, THE APPLICATION OF GEORGE HAYES PRESENTING IN THE OPINION OF THE EXAMINER OF INTERFERENCE NO PATENTABLE INVENTION, THE INTERFERENCE IS HEREBY DISSOLVED upon the concurrence of the Primary Examiner in the above-named opinion, and upon his recommendation of Sept. 2d, 1874.

Very respectfully,
M. D. LEGGETT, Commissioner.

Magrath's Copper Sash-Chain.

Patented 21st March, 1871.

Is adapted to ordinary round pulley, and strong enough to suspend weights of any size required.

Being intended as a substitute for sash-cord, it can be put into sashes now provided with cord without any change of pulleys. The inventor feels confident that experience will prove his chain to be both economical and durable, besides doing away with the constant annoyance and expense attending the use of sash-cord.

FIRE-PROOF BUILDINGS

To Architects and Builders:

The Lyons Fire-proof Construction Co.

is now prepared to receive orders for the construction of Fire-proof Buildings under patents obtained by Mr. Lyons in 1872.
The material used has since stood THE MOST SEVERE TESTS, and costs but a trifling advance upon the ordinary building material.
The building trade generally is invited to thoroughly examine and test the material at our yard, where all further information can be obtained.

He would also call attention to his improved attachment for opening front or vestibule doors from any floor of a building. It is simple and durable, and the ONLY RELIABLE one in use.
Its operation in connection with the night latch is so easy that no injury to a glass panel can result through shutting of the doors.

CONCRETE-FILLED VAULT COVER
(showing spurs.)
263 Broadway, New York.

[*From the official proceedings of the Board of Assistant Aldermen, Oct.* 12, 1874.]
The Special Committee appointed by this Board in relation to the use of vault covers on the sidewalks throughout the city, beg leave to report that the committee have taken pains to examine the different vault covers at present being put down on the sidewalks, and find that the "Sharts' Patent Concrete Covers," on sale at 263 Broadway, appear to answer the requirements of the ordinance completely, without any of the objectionable features of the iron covers. We have examined some of them that have been in use on our principal thoroughfares during the last two years, showing little or no perceptible wear, and we would recommend them to our citizens in preference to any others we have yet seen.

MORTGAGES.

REAL ESTATE.

NEW YORK.

NOTE.—The arrangement of this list is as follows: The first name is that of the mortgagor, the next that of the mortgagee. The description of the property then follows, then the date of the mortgage, the time for which it was given, and the amount. The general dates used as headings are the dates when the mortgage was handed into the Register's office to be recorded.

Wherever the letters "P. M." occur, preceded by the name of a street in these lists of mortgages, they mean that it is a Purchase Money Mortgage, and for fuller particulars see the list of transfers under the corresponding date.

MISCELLANEOUS.

REVIEW OF THE REAL ESTATE MARKET.

There has been less activity in the market, although the public offerings have been quite numerous, and well attended. Of private transactions we have limited reports, but among them is a sale, effected by S. Freidenrich, of nine full lots, located on the southerly side of Fifty-seventh Street, ninety feet westerly from Lexington Avenue, for $135,000. Two weeks ago we reported the sale of the same property, together with the corner lot fronting on Lexington Avenue, for $140,000. James R. Gilmore and Thomas McEvily (builders) have become the latest purchasers, and will erect eleven first-class brown stone front dwellings upon the property. The sale of a portion of the Knickerbocker Hotel property, comprising the plot at the northeasterly corner of Fifth Avenue and Fifty-eighth Street, is also reported. Full details of this sale have not yet been given to us.

The market continues of the same general character as for a few weeks past, and, while suburban offerings are not meeting with the best results, and excite little or no interest, the course of the city market is anxiously watched, and money is readily found when bargains offer, or a fair chance for investment presents. The feeling seems strongly assued that the worst of the market has been reached, and, that, if slow in recovering, its improvement is assured.

The leading sale of the coming week will occur on Monday, when A. H. Muller will sell a portion of the Ferris property, comprising many very eligible and desirable plots of Central Park lots, located variously on Eighth and Ninth avenues, and Sixty-ninth, Seventieth, Seventy-seventh, Seventy-ninth, Eighty-first, and Eighty-second streets. The terms of sale are liberal, and the entire offering is of an attractive character.

We understand that the Astor House is to let, and that Mr. Astor will receive propositions for its rental.

LOCAL ITEMS.

The Commissioner of Public Works gives notice that a petition for the change of grade in West Sixty-third Street, between Avenue A and the East River, is pending, and that objections thereto must be presented on or before the 28th inst. Also that proposals for constructing a public highway on the East side of the Storage Reservoir, at Boyd's Corners, Putnam County, and for building a Storage Reservoir on the middle branch of the Croton River, in the town of Southeast, Putnam County, N. Y., near Wood's Mill, will be received until October 28th.

The fair of the American Institute is now in full and successful operation, and the varied character of the exhibition should attract attention, whether from motives of curiosity or personal interest. It should be visited early and often.

The Police Department asks for proposals for uniform buttons for the force.

The Department of Public Parks reports the following contracts completed: Thirteenth Avenue, between Twenty-third and Twenty-fourth streets, paving; One Hundredth Street, from Eighth Avenue to Boulevard, regulating, grading, etc.; Third Street, from Goerck Street to East River, flagging. Also the following certificates of cost of improvements transmitted to the Board of Assessors: Fifty-sixth Street, between Ninth and Tenth avenues, flagging, $1,840.53; Tompkins Street, between Broome and Delancey streets, sewer, $846; Forty-third Street, between Madison Avenue and Grand Central Depot, paving, $1,353.95; Second Avenue, between Sixty-sixth and Eighty-sixth streets, paving, $75,213.59; total, $69,254.07.

BOARD OF ASSESSORS.

Property owners are notified that assessment lists for the purposes designated, and affecting property described below, have been lodged for examination.

Tompkins st., both sides, between Broome and Delancey sts., sewer.
Fifty-sixth st., both sides, between 9th and 10th avs., flagging.
Forty-third st., both sides, between Vanderbilt and Madison avs., Belgian pavement.
Second av., both sides, between 66th and 86th sts., to the extent of one-half the block at the intersecting streets, paving with stone blocks.

MARKETS.

Although the conditions of trade have been such as to prevent an opinion as to probabilities from one week to another, yet the possibilities of the markets, which we have fairly set forth, seem to have been realized. The greater strength in the brick market, which seemed impending, has developed, and in every other line of trade included in our report results appear which fully justify our suggestions. The building trade are trying to make the best of the situation, expecting nothing, and only hoping to tide over the evil days until a reawakening occurs. Under such circumstances the markets offer us very little for comment. They continue dull, except in isolated cases where peculiar circumstances excite them, but in none do we see that force which results from well developed, healthy competition sustained by an active demand. The requirements of the year are nearly at an end, and with the suspension of labor, which is to follow throughout the winter months, there seems still less opportunity for encouraging reports. The features of general trade are too clouded as yet to reflect in anywise upon our markets, and until there is a general brightening we have little to expect.

Appended will be found our report in detail:

BRICK.—The probabilities of the market last week have resolved themselves into certainties, and the strong and advancing tendencies noted in our latest previous report are more pronounced and continuing. At the time of writing prices for hard are unsettled, with a sharp upward turn for our quotations, which, however, may be behind the market before this report is laid before our readers. Manufacture has generally suspended, and the knowledge that the limit of the season's product has been reached, with the restricted character of the supply, has been sufficient to harden the market. Several meetings have been held by the manufacturers, and it has been determined to withhold brick until a price is secured which will prove amply remunerative. The market is bare, and arrivals are waited for, cargoes being taken up as fast as they come in, no sales occurring in advance, as consignees prefer, under existing circumstances, to take the chances of to-morrow in preference to the certainties of to-day. Up-rivers and Haverstraw Bays are quoted at $1 advance; pale are not as active, but are strong at previous quotations. Jerseys are advanced 75 cents per M. Fronts continue steady and unchanged. We quote: Pale, @ M, $2.75@3.00; Jersey, $—@5.50; Up river, $6@7; Haverstraw Bay, $7.00@8.50; Fronts, Croton—brown, $12; dark, $13; red, $14; Philadelphia, $28@32; Baltimore, $50@58.

CEMENT.—We have no change to note, the market seemingly remaining steady at former prices. Rosendale is reported in some directions as firm at $1.30 cash, but we have nothing to warrant us in advancing our previous quotations, which we retain. Sales of 400 bbls. Portland are reported at $4.25@4.50, ex ship. Other grades are quiet and unchanged. We quote Rosendale at $1.15@1.25, Portland $4.25@4.50, other foreign $4@4.50—cost of delivery to be added.

FIRE BRICK—Are quiet and nominally steady at our quotations of $50@55 for red Welsh, and $40@50 for American.

FOREIGN WOODS.—There is little or nothing doing in the market, and in default of trade our quotations remain nominally as before.

GLASS.—There has been a fair demand, and in view of light stocks the prices for French window are well maintained. Discounts are still quoted firmly at 60 and 10 per cent. English sheet and polished plate are quiet in view of a limited demand, but prices are unchanged.

HAIR.—The market presents no new features, and trade is practically at a stand-still. We quote nominally, according to quality, as follows: Cattle 12@25 cents, and goat 14@28 cents per bushel.

HARDWARE.—Trade remains very nearly the same, and while the demand for goods is perhaps a little better than previously reported, purchases are still limited to immediate requirements. Sheet brass and brass and copper wire have been advanced, and the discounts are now quoted at 35 per cent. instead of 40, as before, with possibilities of a further advance. Hose pipes are quoted as follows: 500 and over, 79: and under 500, 84, net. Brass rods above 0 and under 1 inch, 39 cents; 1 inch and over, 43 cents; door rail, 44 cents—all less 10 per cent.

LATH.—From all we can gather the market is pretty well cleaned out, and until fresh arrivals with new sales, our quotations must remain nominally the same. Unless arrivals become plentiful prices are apt to take an upward turn, and $1.60 per M, in such event, might prove a more accurate quotation. As it is, we retain our figures at $1.50 per M.

LIME—Is without change. Rockland has not recovered from the decline, and is still quoted at $1 for common and $1.50 for finishing. State is held steadily by conditions which have been heretofore noted, and we quote common at 90c.@$1, and finishing at $1.25 per bbl.

LUMBER.—From all points we gather but one kind of information, which is not news, and that is, that business is dull. Prices rule low, both here and at points of production, and the demands of trade are such as to compel concessions. We note lower figures in the Saginaw market than we have lately reported, and a still weaker feeling is said to prevail there. The quotations are $5@5.50, $10@12, and $30@34. The city trade is of moderate proportions and of the same as previously reported. Our quotations are the asking prices at the yards, upon which too much value must not be set, as every dealer sells according to the character of his customers and the nature of the demand. Stocks are fairly balanced, and assortments are generally well sustained upon the basis of capacity to supply the probable requirements of the markets. The market for yellow pine continues dull, and sales have occurred at low rates. We still quote ordered cargoes at $24@27. Random cargoes are hardly saleable, and quotations are uncertain. Spruce is abundant for all the requirements of the market, and we quote at $13@15.50. Hardwoods are dull and nominal.

Michigan and Wisconsin Notes.

From the *Lumberman's Gazette* (Bay City, Mich.), Oct. 17:—

Nothing beyond the usual changes of the latter part of the shipping season have occurred during the past week to deserve notice. There have been some indications of a slight improvement in the extent of transactions reported, but none in prices. Sales are reported to Western parties footing up nearly 4,000,000 feet, and about 1,000,000 to the East. Prices are not given, but the ruling rate is $5.50, $11, and $33. It is a pretty well ascertained fact, that the amount of lumber handled in Chicago this season will be largely short of the usual figures. There have been, at different times, during the past two months, some appreciable effects of this state of affairs in this market, and it is doubtless having an influence upon the lumbermen on the west shores of Michigan, who are laying out operations for the coming winter on a larger scale than ever before.

In the Saginaw region opinions as to the profitable extent of the winter's cut vary greatly. Some lumbermen, who, a month ago, proposed to go into the woods for a considerable cut, are disappointed at the continued unfavorable financial situation, and will not attempt to operate. A few, it is not to be denied, are anxious to log extensively, but most of these find themselves embarrassed by the difficulty in the money market. Along the shore to the northward as far as Alpena, it is claimed that the operations will be restricted, a few firms going in for tolerable large stocks, but the great majority holding off either from choice or necessity. Above the point mentioned, the product is not great, in the aggregate of Michigan lumbering, but operations in that district will be proportionately much larger than in the country this side of it. And, notwithstanding the embarrassments alluded to above, we are compelled to the conclusion, upon a survey of the entire field in Michigan, that there will be, in one way or another, all the lumber which can find a market next year, and probably more than can be profitably cut.

On the Saginaw River many of the mills are idle—some only for a few days or until relieved of a pressure on their dock room, and others for the season. The number of shut down mills will increase raidily from this time until the final close of the season. There is, of course, a large stock on the dock, but still it is less than has been estimated.

Lumber-carrying vessels are laying up to wait for better freight rates or another season. Late charters have been at $1.50 to Ohio ports and $1.75 to Buffalo. The increasing hazard and consequent high insurance rates compel the withdrawal of many craft, and all seem disposed soon to insist upon an advance. On the other hand, some parties took advantage of the low rates and shipped considerable quantities to eastern ports, and are now in a position to hold off unless carriers come to their terms.

General Western Notes.

From the Chicago *Inter-Ocean*, Oct. 20:—

The market during the past week was active to the extent of the supply, and a very firm feeling prevailed. Up to Saturday prices were steady and firm at $9 for joist and scantling and $9@16 for strips and boards, with all offered selling rapidly at these quotations. The limited supply, however, produced a firmer feeling, and on the day named an advance of 25@50 cents was established on joist and scantling, sales being made at $9.50. Strips and boards were unchanged. Lath steady and firm at $1.70. Shingles sold at $2 60@2.90 for common to choice "A" sawed afloat. To-day the offerings were quite large, a fleet of about 45 vessels arriving since Saturday evening. There was a good attendance of buyers, however, and the market ruled active and firm, and closed steady at the above quotations.

From the St. Louis *Times*, Oct. 20:—

We quote at nominal rates afloat: Minneapolis and Chippewa at $13@15, Wisconsin at $14@23, as in quality, fair to good at $16@18, and dimension at $12@13. Lath firm at $2.30@2.40 and shingles at $3.25@3.50, del. Business at the yards only moderate. Depot and levee lumber continues to rule dull. Even best grades are slow sale. No change quotable in prices.

Eastern Notes.

From the Boston *Lumber Trade*, Oct. 19:—

The lumber trade for the last week affords nothing particularly cheering for us to report. One or two prominent firms state that their trade is better for the last week, but on the other hand the majority of dealers say it remains dull. The market is overloaded with lumber and still it comes. How long will it be before the shippers will learn the truth? How much money must they lose before they face about? Lumber manufacturers from Calais, Me., and from Savannah, Ga., report that the disposition is to curtail manufacture in those localities. Boston dealers are anxiously waiting for the day of small shipments. The trade can be no duller, and any change must be for the better.

METALS—COPPER.—Manufactured is steady at the following prices: New Sheathing, 28 cents for over 12 oz.; Bolts and Braziers, 30, and Nails, 37@38; Bronze and Yellow Metal Sheathing, 21 cents; Yellow Metal Bolts, 28 cents, and Yellow Metal Sheathing Nails 21. Ingot is firm, and the demand, if not of large proportions, is steady. Lake is held at 22@22¼ cents.

IRON.—There have been no arrivals of Scotch pig, and stocks are light with limited sales. It is only under such conditions that prices are sustained. American pig is still depressed, with no indications of improvement, as its production is kept well ahead of the demand, which is of a very small character. Quotations in this instance are somewhat nominal. Rails and scrap are dull and without movement. Manufactured from store is quiet at former quotations, which are below mill prices.

LEAD.—Pig is quiet, awaiting Government sales. Foreign is held nominally at $6.62½@6.75 for ordinary and English at $6.87½@7 for refined foreign. Domestic is held at $6.25. Manufactured has been advanced as follows: Bar, sheet, and pipe, 8¾ cents, less 10 per cent. to the trade; tin-lined pipe as before.

TIN.—Pig is dull and nominal at 21½@21½ cents for straits, 21@21¼ for L. & F., and 21½@21⅝ for refined English, all gold. Plates are dull, with sales of charcoal tin at $9.75 and of charcoal terne at $8.62½@8.75.

ZINC—Is scarce and firm for spot at 8⅞@9 cents, but sales to arrive are made at 8¾ cents.

NAILS.—Cut are weaker in some respects, and we quote: 10d. to 60d. common fence and sheathing, ₩ keg, $3.60@3.75; 8d. and 9d. common do ₩ keg, $4; 6d. and 7d. common, ₩ keg, $4.25; 4d. and 5d. common do ₩ keg, $4.50; 3d. and 4d. light, ₩ keg, $5.25; 3d. fine, ₩ keg, $6; 2d. ₩ keg, $6.75. Cut Spikes, all sizes, $4. Floor, Casing, and Box, 75 cents above the same sizes of Common—Finishing, $1 above, and Fine Finishing $1.25 above.

CLINCH NAILS.

1¾ to 1½ in	2 & 2¼ in.	2½ & 2¾ in.	3 in. and longer.
$6.25@6.50.	$6.00.	$5.75	$5.50 ₩ keg.

OILS.—Linseed is quiet, selling at 76 cents from crushers' hands, with sales reported upon private terms.

PAINTS.—There is a fair demand for the season, and the market continues steady with firm prices, the stock of imported goods being light. English white lead is in limited supply. Cookson's Venetian red continues scarce, with sales at 2½@2¾ cents. Ultramarine is selling at 30 cents, gold.

PITCH—City is held at $2.50 per bbl., f. o. b., with sales at that price.

SPIRITS TURPENTINE.—The market has been weaker, and prices have again declined to 37 cents, which quotation is about steady.

TAR—Is dull and weak, sales having been limited, and we quote Washington and Newbern at $2.37½@2.60 and Wilmington at $2.50@2.60 per bbl.

ALBANY LUMBER MARKET.

[FROM THE ALBANY EVENING JOURNAL, OCT. 21, 1874.]

The receipts for the week are about the same as for the corresponding week of last year. Shipments from Canada and Michigan have been pretty large, so as to get all through before rough weather should endanger lake shipments, and before ice on the canals should impede navigation.

With a fair attendance of buyers sales have not been so large as last week. Most of them have been the smaller dealers who have bought for winter stock, with but few who were taking large amounts on speculation.

Prices remain the same, as freights continue low on the canals. Lake freights are 50 cents per M. more than those of last month.

The receipts by the Erie and Champlain canals during the second week of October were:

	Bds. & Sc'tlg ft.	Shingles, M.	Tim'r c. ft.	Staves lbs.
1873..	10,086,400	1,344	....	....
1874..	9,896,900	107	....	....

Of the boards and scantling received, 7,056,900 feet were by the Erie, and 2,840,000 feet by the Champlain canal.

The receipts by the Erie and Champlain canals from the opening of navigation to October 15th, in the years named, were:—

	Bds. & Sc'tl'g ft.	Shingles, M.	Tim'r, c. ft.	Staves, lbs.
1873..	285,528,800	19,777	....	4,029,800
