WILLOUGHBY AV., S. E. COR. THROOP AV., ONE two-story brick dwelling, 40x40; owner, Mrs. Femel; builder, Robert White.

MISCELLANEOUS.

REVIEW OF THE REAL ESTATE MARKET.

Outside of public transactions there has been nothing noteworthy in the market, the general conditions of which are unaltered. The leading sale of the week was under the direction of the Executors of the estate of Adon Smith, and comprised a large quantity of East side property, of which various locations on Third Avenue were a prominent part. The prices secured at this sale, if all the parcels were sold, were, doubtless, very good, and should favorably affect real estate. The sale has been the subject of much comment, adding tone to the market, which, just now, is ready to take advantage of the slightest encouragement. Other sales were of an ordinary character, and do not call for special remark. The better feeling in reference to real estate, which we have before noted, seems to be increasing, and the difficulties of carrying property seems to be lightened. Money is coming to the rescue, and loans on real property are increasing in volume, while foreclosure suits are decreasing in number. In illustration we present the following figures:

FORECLOSURE SUITS, NEW YORK.

	1874.	1875.
January	173	125
February	132	110
Total	305	235

The Foreclosures in Kings County for January, 1875, were 141, and for February, following, 117.

The following table shows the aggregate of loans by banks and insurance companies, for the month of February, in each year:

	1874.	1875.
Loans by Banks	$341,400	$536,800
Loans by Insurance Companies	584,000	633,700
Total	$925,400	$1,170,500
Loans for January, 1875	$1,104,341	
Loans for February, 1875	1,170,500	
Increase		$66,159

Eight Life Insurance Companies, five Fire Insurance Companies, fourteen Savings Banks, and four other Banking Institutions appear as lenders, during the month of February of this year.

CAPITAL SEEKING INVESTMENT.

At no time since the recent panic has there been such a surfeit of money in the City of New York as there is now. Banking Institutions and Insurance Companies have more cash on hand than they know what to do with, it being actually a surprise where all the money comes from in these times of apparent dullness. Officers of leading financial institutions have, for months past, been endeavoring to place their surplus capital "where it can do the most good," and, at the same time, be safe; but not until a considerable revival of business takes place in our midst will there be opportunity for the advantageous placing of this surplus capital. And still, amidst it all, the West is clamoring for money. The West needs it, must have it, and offers good security. Why should there be a Chinese wall, so far as the loaning of capital is concerned, between New York and Chicago? The time has passed that in the United States any single one of the independent Commonwealths can selfishly stand on its own resources and wants and ignore those of others. We are all one, belonging to the same nation, with the same identical interests; and if there are any barriers preventing free intercourse as to loans or advances of money, they should be stricken down. We are glad to see that Chicago is making an effort to get hold of some of that Eastern capital which is now lying idle in our midst. By reference to our advertising columns it will be seen that Mr. Josiah H. Reed, a gentleman well known in mercantile circles here and out West, has opened offices down town to bring about results that cannot but be beneficial to the East, as well as to the West. He will bring the Western borrower to the Eastern lender, and find employment for Eastern capital on Chicago real estate, appraised by acknowledged experts, and with titles approved by leading legal authorities. Chicago needs the money, and her real estate has certainly as great a future before it as that of any other city in the Union, if not greater. In the past there have been efforts made to raise money here on Chicago bonds and mortgages, but, in some way or other, there was not felt that confidence in the parties representing Western interests to which Mr. Reed is entitled, whose references are among the highest in this City. The *modus operandi* of loaning money on Western bonds and mortgages is novel. No one in Chicago expects to get more than from 33⅓ to 40 per cent. on the value of real estate, and for the money thus loaned he gives a promisory note, with coupons attached, for the interest, which can be made payable in New York City, and the notes and coupons thus rendered are attached to the mortgages on the property. When once New York capitalists fully understand that there is a conservative element in Chicago, deserving a financial as well as a mercantile credit, and that it is only this element which is represented by Mr. Reed, it will be better for those who are now croaking about bad times because they can not find ready use for their capital—and it will help our enterprising sister city in completing those changes which have been rendered necessary by the disastrous fire of 1871.

LOCAL ITEMS.

The Council to the Corporation gives notice that application will be made to the Supreme Court, at a Special Term, to be held on March 25, at 11 o'clock A. M., for the appointment of Commissioners of Estimate and Assessment upon each of the following described improvements: Opening of Willis Av., from One Hundred and Forty-seventh Street to Third Avenue; One Hundred and Forty-eighth Street, from Third Avenue to St. Ann's Avenue; One Hundred and Forty-ninth Street, from Third Avenue to the Southern Boulevard; and One Hundred and Fifty-sixth Street, from Elton to Third Avenue; opening of One Hundred and Fifty-sixth Street, from the westerly line of the Kingsbridge Road to the easterly line of Eleventh Avenue; One Hundred and Fifty-seventh Street, from the westerly line of the road or Public Drive near the Harlem River to the easterly line of Eleventh Avenue; One Hundred and Fifty-eighth Street, from the westerly line of Kingsbridge Road to the Hudson River; and One Hundred and Fifty-ninth Street, from the westerly line of the road or Public Drive, near the Harlem River to the easterly line of Eleventh Avenue; opening of Seventy-third Street, from Fifth Avenue to the East River, in the City of New York; opening of Sixty-fifth Street, from Third Avenue to the East River; acquiring of right and title for the Mayor, Aldermen, and Commonalty of the City of New York, to the upper or easterly half of Pier No. 12, East River.

The Committee on Finance, of the Board of Aldermen, will meet every Wednesday, at 3 P. M., to consider such business as may have been referred to that committee.

The School Trustees of the Twenty-second Ward ask for proposals for Mason's materials and work, for a new school-house building, to be erected on Fifty-fourth Street, beween Sixth and Seventh avenues.

SUPREME COURT DECISIONS.

Certain real estate, belonging to the defendant, was placed by him in the hands of the plaintiff to be sold for not less than $1,500 per acre. Subsequently the property was sold by the defendant, in good faith, and without any intent to defraud the plaintiff, for $1,200 per acre, to one Torrey, who had previously negotiated with the plaintiff for the purchase of the property, and had refused to buy it at the price asked by him. The opinion in the case was written by Judge Davis, and is reported in the February number of the Supreme Court Reports.

In such opinion Judge Davis says: "A sale for the price at which the plaintiff was empowered to sell was in the nature of a condition, on which his right to commissions was, by the terms of his employment, rendered dependent. If he procured a purchaser for either of such sums, during the time he was at liberty to accept the one or the other, then his commissions would be earned, and a right of action created for their recovery. But until he did that, as long as he was not interfered with during the period fixed, within which the sale could be made for the smaller sum (it appearing that, for a period of ten days, plaintiff had authority to sell for $1,385 per acre) no such right accrued to him.

To maintain a claim by him for his commissions it was necessary that he should be able to show that he had either procured a purchaser for the property, at the price he was empowered to sell, or that the defendant had deprived him of the opportunity to do so, while the privilege of selling for the smaller sum continued to exist. For, by the unwritten or general employment, no time whatever was fixed or designated, during which the plaintiff was anthorized to sell at $1,500 per acre. That bound the defendants, as owners, for no particular period of time; and, for that reason, it could not prevent them from making a *bona fide* sale of the farm at a less sum, in case they elected to do so, without incurring any liability for commissions to the plaintiff. All that he was entitled to, under the employment, was a reasonable opportunity to find a purchaser, at $1,500 per acre; and after he had failed to do so, and proved unable to sell for the smaller sum, during the period specified for that purpose, the defendants were at liberty to sell for less, without becoming liable to the plaintiff for commissions.

—o—

COURT OF APPEALS DECISIONS.

NOTE—In our last issue a decision of the highest Court in the State was published, in relation to the refiling of chattel mortgages. Since that decision was made the law has been amended, and reads as follows, the amendment being in italics: "Unless within thirty days next preceding the expiration of *each and every term* of one year after the filing of such mortgage, a true copy of such mortgage, together with a statement exhibiting the interest of the mortgagee in the property

thereby claimed by him, by virtue thereof, shall be again filed in the office of clerk or register aforesaid, of the town or city where the mortgagor shall then reside," the mortgage shall cease to be valid against the creditors of the person making the same, or against subsequent purchasers, &c., &c.

A bank is not bound to know the handwriting or the genuineness of the filling up of a check drawn upon and paid by it. It is legally concluded only as to the signature of the drawer and its own certification.

Where, therefore, a bank has paid by mistake to a *bona fide* holder a certified check, which, after certification, had been fraudulently altered, by raising the amount, it can recover back the sum thus paid, unless such holder has suffered loss in consequence of the mistake.

Where there is an alteration in the body of an instrument, the recognition of the altered instrument as genuine is only binding upon a party who made the body of the instrument, as well as the signature thereto.

BUSINESS CHANGES.

PARTNERSHIPS AND DISSOLUTIONS.

Brown, George, & Co....Linens....George Brown Deceased.
Collins, George C., & Co....Grocers....Dorman, Collins & Co. continue.
Daly & Hoare....Plumber's Materials....John Hoare continues.
Eichberg, S., & Co....Watches....Samuel Eichberg continues.
Ingalls, Marks & Co....Vault Lights....Ingalls & Mark continue.
Hicks & Higley....Produce Commission....Dissolved ....H. E. Hicks & Co. continue.
Root, Dennis F....Stables....Succeeded by Sanford & Co.

ASSIGNMENTS.

Storm, Walter....Assigned to Solomon D. McMillan.
Chapin, Asahel, Chapin, Warren, Chapin, Henry J. } Assigned to Patrick Moore.
Maher, James... Assigned to W. H. Adams.
Klein, Henry....Insolvent Assignment.

MARKETS.

A few days of open weather were an incentive to trade of every description, and had they been prolonged would have produced a favorable effect upon our markets. The return to winter has, however, deferred all operations tending to activity, arrivals of material on the way have been barred, and movement, except in the lines of trade not chiefly dependent upon local demand, has suspended. In a few particulars there are hopeful features. The wants of the country at large are becoming manifest and must be supplied, and for such goods as are needed there seems to be increasing inquiry. A very general feeling prevails that the worst of depression and inactivity has passed, and we learn that many enterprises, involving large orders, which have hitherto been deferred or ignored, are about to be started.

The conclusion has evidently been reached that the present is the time for cheap material, and this view of the situation, which we have more than once impressed upon our readers, has finally commended itself to the judgment of real estate owners. Time has been lost in coming to this conclusion, and the conditions of the markets are not as favorable to buyers as when we first ventured the suggestion; but even on this score there is no ground for cavil, as prices are low and the opportunity has not entirely passed. The greatest obstruction feared when activity shall resume is from strikes, and there is a very unsatisfactory feeling that mechanics will make peremptory demands when contracts have been closed at low margins. Should this occur, building will be suspended and our markets will again become depressed and stagnant.

Money is still plentiful, indeed in excessive supply, and there are no present indications that the market will become more stringent. A good squeeze in funds would be a relief and add zest to the hope that better days were coming. From the details appended it will be seen that our markets have varied but little from last report. Trade has been of about the same dimensions, and prices are generally as before.

BRICK.—If there has been any movement we do not know it, and there is nothing in the market to indicate any change in tone or prices. We quote, as before, Pale, ℔ M, $3@3.50; Jersey, $6.25@6.50; Up river, $6.50@7.25; Haverstraw Bay, $7.25@8; Fronts, Croton—brown, $12@13; dark, $13@14; red, $14@15; Philadelphia, $28@32; Baltimore, $50@56. Yard prices, delivery included, $2@3 higher.

CEMENT.—Rosendale is steady at $1.30 cash. We do not know of any more authentic quotation than this based upon actual sales, but are informed that in some directions very much higher prices are quoted, which have not as yet, and do not at present seem likely to be, borne out by the market. Roman is quoted at $4.25@4.50 and Portland, in various hands, at different prices, all included, however, within out quotation at $4.15@4.50 per bbl. We note sales of 100 bbls. at $4.30 from store.

FIRE BRICK.—The market is steady as last reported, some Scotch goods offering at $40, while prices otherwise are held at $47.50@55. We note sales of 25.000 Scotch at $50 per M. Red Welsh are quite firm at $50 and American are steady at $40@50.

GLASS.—The market for French window continues dull, discounts remaining as before at 60 and 10 per cent. English sheet is very quiet at 50 per cent. discount and polished plate is dull and nominally steady at 15 per cent. off.

HARDWARE.—Trade seems to be improving, orders by mail coming more abundantly, while buyers are in the market in numbers sufficient to stir up business even if purchases are not of the most ample character. Prices are nominally firm and few changes occur. None of importance in this line of review have been made during the week, and we report the market steady and unchanged.

LATH.—There have been no arrivals, although there are cargoes on the way, the most recent report locating some of them in the ice at New London. With favorable weather they may be expected before the close of the week, and by the time this report reaches our readers the market may be amply supplied. The demand will probably absorb all early arrivals. We quote, as before, at $2.50 per M.

LIME.—There have been no arrivals of Rockland for six weeks, and there are no immediate prospects of any coming forward. No rise in prices has yet occurred, and we quote, as before, common at $1 and finishing at $1.25@1.50 per bbl. Yard prices 25 cents per bbl. additional.

LUMBER.—The market has been quite inactive, and sales have been few, prices remaining about steady, except that there has arisen a stronger feeling in yellow pine, based upon an advance in freights and a demand which, although prospective, seems certain. There is no change in white pine, shipping orders for the West Indies quoting at $19.50@22 and for South America at $23@25. Yellow pine is somewhat stiffer, and timber is quoted quite firmly at $25. The general run of prices, however, is about the same as at previous report, and we accordingly quote as follows: Green flooring, $20@23; dry, $23@25; sidings, $18; timber, $20@23 for random cargoes; and $23@28 for ordinary orders. Several large orders are in the market for estimate and others have already been submitted, and it has been found that a great uniformity in the bids occurs. There are a number of warehouses to be erected, and the demand thus excited will probably enliven the market. Spruce is dull, and there have been no arrivals. Quotations are nominally steady at $18@21. Hardwoods have not met with much business, and the demand for black walnut seems to be falling off as fashions are changing, and mahogany is returning to favor. Trade at the yards has been of a fair jobbing character when not interfered with by the weather, but recent storms have retarded business, and less activity has prevailed than under other conditions might have been expected. Yard quotations are as before.

Michigan and Wisconsin Notes.

The estimated amount of logs to be put in this season on the Chippewa and Flat rivers, taken from the Isabella *Enterprise*, is 84,950,000 feet.

The *Northwestern Lumberman* gives the following estimate of the cut of 1874-5 for the same locality:

"Nothwithstanding the unsatisfactory condition of the business for the past two years, lumbering has been unusually active on the Flat River this season. The cut will be something over 90,000,000, and is, with one exception—the season of 1871-2—the largest ever made. The cut last season was 52,000,000.

"At the present writing, February 2d, there is, probably, 65,000.000 banked, and if the sleighing continues until the 20th inst. the logs on long hauls will be put in. In quality they will average better than any previous cut, there having been little or no demand for common grades.

"Of the 90,000,000 going in this season, something over 70,000,000 will be manufactured at Grand Haven, 12,000,000 at Grand Rapids, and the balance at Greenville, Belden, and other points on Flat River."

The estimates for the Clam River and Middle Branch, Muskegon, are 57,850,000 feet.

From the *Lumberman's Gazette*, Feb. 27:—

The winter holds out well, and at this writing, the end of February, there are no more signs of the approach of spring than there were two months ago, save that the sun is higher, and during the middle of the day must have more effect upon the temperature of the atmosphere. We may safely conclude that the hauling season, though it was late to arrive, will be ordinarily fair on the whole, because of its long continuance. Since the 12th of January the western lumber districts have had plenty of snow, and the work of banking logs has proceeded with great energy. Now, camps are occasionally broken up, but in the majority of cases the winter's work is yet prosecuted with unflagging energy. So far as the cutting of timber goes there is no reason to suppose that all that was laid out for the winter will not be accomplished. Getting the logs to the mills is another thing, and here the prospect is not so fair. The weatherwise predict an unusually wet spring, but the dry streams and swamps have capacity for all that is likely to come. On the smaller upper streams it will be necessary to have full freshets to start the logs, and to make these there must be heavy rain falls.

The contingencies are thus reduced to the one point of log running. If that should be prosperous the production of the season would be more than would be for the interest of the manufacturers, though in any event it cannot now be equal to that of last year.

From the same:—

It is noticeable that in the older pine lumber districts of the west that attention is given more and more to the manufacture of other woods. It is remembered that about ten years ago a firm in the Saginaw Valley got out some oak logs. The sticks came down all right, but not a saw on the river could be got to manufacture the lumber. Everybody was too busy with pine to look at anything else, and the venture was not a success. Now the condition of affairs is entirely changed. The various hardwoods of this vicinity and of the west generally are coming to be prized something as they deserve to be, and operations in lumber are becoming more and more diversified. Especially in Michigan the pine lands contain vast quantities of valuable hardwoods, which may yet come into the lumber trade as worthy of as much consideration as the famous pine.

From the same:—

We have no new features to announce in the condition of the lumber market of the Saginaw Valley. The market, since our last issue, has remained practically unchanged, the snow having rather increased than otherwise, the light rain of the 22d being succeeded by a storm of snow followed by sleet, so that the body of snow on the ground is still undiminished not only in the cities of the valley, but in the pineries of the entire Northern Michigan district. Log-hauling has progressed so favorably that many camps have completed their work and broken up. Large bodies of snow have accumulated to form the spring freshet, but fears are everywhere expressed that the heavy formation of ice in the streams will operate to hold back the logs until too late to enable them to reach deep water. It is many years since so solid ice has formed in our streams, while the frost in the ground will average two feet deep. Should the snow go off with heavy rains much damage must result along the course of the main streams, while the creeks and branches will lose the hoped-for benefits to log-running. We hear of but few sales as yet; the only report for the past week being a sale of 300,000 feet by A. Thompson & Co., Saginaw City, to Ohio parties at $5.50, $11, and $35, and 25 cars (mixed lot) by A. T. Bliss & Co. to Toledo parties at figures fully up to those of last season. At present there are no indications hereabouts of a let up of the winter, until which and the developments of log-running no sure indication can be pointed out as to the prices of the coming season. Meanwhile we notice that Minnesota dealers have advanced $2 on the common grade in anticipation of a healthier demand with reduced supply.

From the same:—

The following is an estimate on the Wisconsin cut the present winter: Green Bay district last year cut 25,000,000 feet and ran off in addition 11,000,000 feet left over from the preceding year, and will have about 31,000,000 feet this year. The Wolf River district will yield probably 121,000,000 feet, to which may be added 300,000,000 feet of logs now on hand, making a grand total of 26,000,000 feet more than last year and 124,000,000 feet less than the season of 1873. The Wisconsin River will only have on the market about 65,000,000 feet, nearly half its yield in 1873, but almost doable that of last year. The Wisconsin suffered terribly in her falling off last year. The Black River will yield, as near as can be judged now, 120,000,000 feet, a few millions more than last year and 20,000,000 feet less than in 1873. On the St. Croix the cut is estimate at 118,000,000 feet, 3,000,000 feet more than last year. The Chippewa and Eau Claire rivers will yield 295,000,000 feet and the Yellow River about 40,000,000 feet. The amount produced by railroad mills can scarcely be got at, but will be large. The prospect is not improved in the least from last season, and the boys feel blue. The cut is considerably over last season, and at a cost of one and a half to two dollars per thousand feet more, and many contingencies to contend with.

From the same:—

We have been furnished the following estimate of the amount of logs that will be put in this winter on the Wolf and its tributaries:

Main Wolf, below Shawano	75,000,000
Little Wolf	35,000,000
Red River	9,000,000
West Branch	9,000,000
Shioc	20,000,000
Upper Wolf	25,000,000
Shawano Lake	2,000,000
Embarrass and Pigeon	10,000,000
Fremont	4,000,000
	121,000,000
Old logs on hand at Oskosh and Fon du Lac.	30,000,000
Total	151,000,000

General Western Notes.

From the Dubuque (Iowa) *Herald*:—

The market tones up as the season advances, and orders, which heretofore would have received "cutting" rates, are now figured upon evenly by all dealers. News from the pineries has put a different aspect on affairs and turned the tide of value in holders' favor. The latest arrivals from that section, H. L. Stout and M. H. Moore, confirm all that is contained below in extracts from Minneapolis papers. Snow in that section is about the same depth as it is here. Several dealers show a disposition to hold back and not urge sales in the present condition of the market when the prospects favor an advance all along the river, following the first move made in Minneapolis.

A Minneapolis paper of the 19th inst. contains the following extracts regarding lumber and logging:

"The lumber manufacturers and dealers of the city unanimously voted to advance the price of common lumber two dollars per thousand, viz., from $10 to $12 per thousand. The new rate went into effect yesterday morning, and is adhered to by all the dealers in the city. We are informed that a very general impression prevails among lumber dealers that a further advance must occur within a few weeks.

"The very latest advices from the pineries are not rose-tinted. As a general thing none of the logging crews have banked their average amount of logs, and, in fact, 'are behind their calculations.' This is true of the Mississippi and Rum River lumbering regions. A majority of the teams are on long roads, which would be utterly ruined by two or three days of warm weather, and if the back of the winter should be suddenly broken—as it is liable to be at any moment—it would bring logging operations to a sudden termination and render the season's supply of logs exceedingly short."

ST. LOUIS MARKET.

(Williams & Alford's Circular, Feb. 20.)

We have no new features to note. All descriptions continue to rule very dull; prices nominally unchanged. Sales reported were 12 cars yellow pine lumber, at $21@23; 3 cars second and clear poplar, at $23; 1 car 2-inch oak, at $25. Shingles firmer—3 cars sold on East track, at $3.15. Nothing doing in lath. Trade at the yards is very quiet; country and city demand light, as the cold weather has virtually caused builders to suspend work to a very large extent.

Latest advices from the pineries of Michigan and Wisconsin are to the effect that the deep snow is seriously interfering with lumbering operations; but there seems to be little fear of a shortage of logs, and some parties entertain the opinion that the crop will be in excess of last year.

A correspondent of the Davenport *Gazette* (a lumberman of much experience), writing from Milwaukee, estimates the amount of lumber cut in the districts named as follows:

The Green Bay district, which last year cut about 25,000,000 feet, and run off, in addition, about 11,000,000 left over the preceding year, will have about 31,000,000 this year. The Wolf River district will yield 121,000,000, to which may be added 30,000,000 feet of logs now on hand at Oshkosh, making the total for the first district 151,000,000 feet, or about 26,000,000 more than last year, and 124,000,000 less than the season of 1873. The Wisconsin River will have on the market only about 65,000,000, being about half of its yield in 1873, but nearly double that of last year. The Wisconsin last year suffered a greater falling off than almost any other district in the State. Black River district will yield this year, as now estimated from work done in the logging camps, about 120,000,000, being from 5,000,000 to 7,000,000 more than last year, and 20,000,000 less than the season of 1873. On the St. Croix the cut is estimated at 118,000,000 feet, or 3,000,000 more than last year. The Chippewa and Eau Claire rivers will yield about 295,000,000, and the Yellow River about 40,000,000. Some effort has been made to estimate the amount that will be produced by the millers and lumber camps on the lines of railroads penetrating the pine regions, but no satisfactory results have been reached. This product has become important enough to cut a conspicuous figure in the lumber operation of the State, and, being exempt from hindrances by ice or low water, is more reliable as a source of profit than any other branch of the lumber manufacture in the State.

METALS.—COPPER.—Manufactured is quotably unchanged, and Ingot is held at 21½@21¾ cents.

IRON.—There is a better feeling in the market, and Scotch pig has entered upon an upward movement, not excited, however, by a very active demand. American pig is quiet, with firmer tendencies. Rails are in more inquiry for new, and scrap is stronger, stocks having become depleted. Manufactured, with limited business, is firm at our quotations.

LEAD.—Foreign pig is very quiet, held nominally at $6.75@6.87½, gold. Domestic is weaker, with sales at $5.75@5.85 and upon private terms. Manufactured is steady at our most recent quotation, viz.: bar 8¾ cents, pipe 9, and sheet 9½, all less 10 per cent. to the trade. Block-tin pipe 45 and tin-lined pipe 16¼ cents.

TIN.—The market for pig is dull and prices are weak, straits selling at 21¼ cents cash 15 days. English at 20¾ and refined at 21¼, all gold. There has been some move in plates, but prices are not stiff and the market is somewhat dull.

ZINC.—Sheet is steady at 9@9¼ cents.

NAILS.—Cut are unchanged and steady at old prices. We quote 10d. to 60d. common fence and sheathing, ℔ keg, $3.40; 8d. and 9d. common do. ℔ keg, $3.75@3.85; 6d. and 7d. common, ℔ keg, $4@4.10; 4d. and 5d. common do. ℔ keg, $4.30@4.40; 3d. and 4d. light, ℔ keg, $5@5.10; 3d. fine, ℔ keg, $5.75@5.85; 2d. ℔ keg, $6.50@6.60. Cut Spikes, all sizes, $3.75@3.85. Floor, Casing, and Box, 75 cents above the same sizes of Common—Finishing, $1 above, and Fine Finishing, $1.25 above.

CLINCH NAILS.

1¼ to 1½ in	2 & 2¼ in.	2½ & 2¾ in.	3 in. and longer.
$6@6.25.	$5.75.	$5.50	$5.25 ℔ keg.

OILS.—The market for linseed is still weaker, and prices have receded to 74@75 cents per gallon for casks from crushers' hands.

PAINTS.—There has been a fair jobbing demand, and prices are firm. Paris green is in request at old prices. China clay is in demand, with sales of English at $20@21, gold, and of prime do. at $25 and of extra quality at $27, currency. The prices of Vermilion have been reduced as follows: In lots of 500lbs. and over, in 30 or 50lb bags, $1.72, gold; 300 to 500lbs. do., $1.74; 100 to 300lbs, $1.76; and less than 100lbs., $1.79, gold, with the usual reduction in bulk. Chalk is scarce and nominal at $2, currency. Venetian Red is active at $1.95, gold, for Cookson's and 2¼@2½ cents, currency, for all kinds.

PITCH.—We quote city dull at $2.25 per bbl., f. o. b.

SPIRITS TURPENTINE.—Has been quiet and weaker, prices receding to 36 cents. Sales were made at 36@36¼ cents for merchantable, the former price being the closing quotation. We quote at 36@37 cents per gallon.

TAR.—The market is quiet but nominally steady at the following quotations: Newbern and Washington $2.12½@2.25 and Wilmington at $2.25@2.37½ per bbl.

MARKET QUOTATIONS.

REAL ESTATE BOUGHT, SOLD, AND EXCHANGED

A GOOD INVESTMENT

EVERY PRUDENT MAN, CAREFUL OF THE

health and comfort of his family, should see to it that his drinking water is conveyed through TIN-LINED LEAD PIPE, which is a perfect safeguard against lead poison. Tin-lined Lead Pipe is strong, durable, flexible, and easy soldered. It is a great benefit to the community, and enhances the real value of every house in which it is introduced. It is cheaper than Lead Pipe, when strength and durability are considered. Sold by the COLWELL LEAD CO., 213 Centre St., New York. Price, 16½ cts. a pound for all sizes. Descriptive pamphlets sent by mail free. Also, manufacturers of Lead Pipe, Sheet Lead, Block Tin Pipe, Bar Tin, Pig Tin, Bar Lead, Pig Lead, Solder, &c. Orders filled at sight.

NOTICE IS HEREBY GIVEN THAT JOSEPH L. Taintor, who resides in the Town of South Orange, New Jersey; and Charles N. Taintor, who resides in the City of New York; and Charles E. Merrill, who resides in the City of New York; and John E. Gillette, who resides at Greenport, Columbia County, New York, have formed a limited partnership in accordance with the provisions of the Revised Statutes of the State of New York in the business of manufacturing, printing, publishing, and selling books and other publications, in which the above-named persons are all the parties interested therein; that the said Joseph L. Taintor, Charles N. Taintor, and Charles E. Merrill are the general partners; and the said John E. Gillette is the special partner; that the said John E. Gillette has contributed, and paid in in cash, the sum of Twenty Thousand Dollars as capital toward the common stock; and that the said partnership is to commence on the first day of January, 1875, and is to terminate on the first day of January, 1880.

Dated New York, February 13, 1875.

JOSEPH L. TAINTOR,
CHARLES N. TAINTOR,
CHARLES E MERRILL,
JOHN E. GILLETTE.

THE UNDERSIGNED BEING DESIROUS OF forming a limited partnership in pursuance of the Revised Statutes of the State of New York, in such case made and provided, certify as follows:

First—The name or firm under which such partnership is to be conducted is ROBERT McMULLEN.

Second—The general nature of the business intended to be transacted is the buying, selling, and dealing in jewelry, watches, diamonds, clocks, silverware, plated wares, and all other things appertaining to said business or connected therewith.

Third—The name of the general partner and special partner interested therein is Robert McMullen, the general partner, and Deborah W. Mason, the special partner, all of whom reside in the City of Brooklyn, County of Kings, and State of New York.

Fourth—The amount of capital which such special partner has contributed to the common stock is the sum of Fifteen Thousand ($15,000) Dollars.

Fifth—The period at which the partnership is to commence is the twenty-first (21st) day of January, 1875, and the period at which it will terminate is the twenty-first day of January, 1878.

Witness our hands this twenty-first day of January, 1875. In presence of H. M. McKEAN.

DEBORAH W. MASON,
ROBERT McMULLEN.

THE UNDERSIGNED, DESIROUS OF FORM- ing a limited partnership under the Statutes of the State of New York, hereby certify:

First—That the name or firm under which such partnership is to be conducted is STIRN & LYON.

Second—That the general nature of the business intended to be transacted by such partnership is the importing, buying, and selling of toys and fancy goods.

Third—That the names of all the general and special partners interested in said partnership are as follows: Carl P. Stirn and Amos M. Lyon, who both reside in the City of Brooklyn, County of Kings, and State of New York, are the general partners; and Emil Magnus, who also resides in said city, is the special partner.

Fourth—That the said Emil Magnus has contributed the sum of Thirty Thousand Dollars as capital to the common stock.

Fifth—That the period at which the said partnership is to commence is the sixth day of February, 1875, and the period at which the said partnership is to terminate is the first day of February, 1877.

Dated this sixth day of February, 1875.

C. P. STIRN,
AMOS M. LYON,
EMIL MAGNUS.

DISSOLUTION.

The co-partnership heretofore existing between the subscribers, under the firm name of INGALLS, MARK & CO., is this day dissolved by mutual consent.

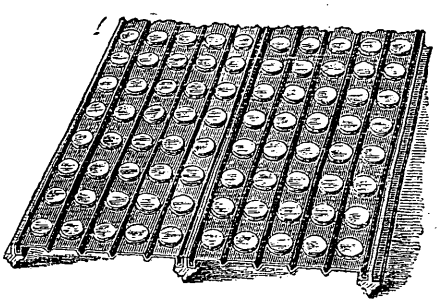
The affairs of the above named firm will be settled by Joshua K. Ingalls and Jacob Mark, who alone are authorized to sign in liquidation.

J. K. INGALLS,
J. MARK.
F. H. M. WILDE.

CO-PARTNERSHIP.

The undersigned have this day formed a co-partnership under the firm name of INGALLS & MARK, who will continue the manufacture of vault-lights at No. 5 Worth Street.

JOSHUA K. INGALLS,
JACOB MARK.



J. T. CAMP & CO.—IN CONFORMITY WITH the statute concerning limited partnerships,

We, the subscribers, do certify that we have formed a limited partnership, to be conducted under the name and firm of John T. Camp & Co., at New York City, in the business of manufacturing ladies' dress and cloak trimmings and such other articles as are usually made in connection therewith. The subscriber, John T. Camp, whose place of residence is in the township of East Orange, Essex County, State of New Jersey, is interested in said partnership as a general partner; the subscriber, Paul Todtschinder, whose place of residence is No. 60 Rivington Street, New York City, is likewise interested in said partnership as a general partner: and the subscriber, Christopher Hitzelberger, residing in the township of East Orange, Essex County, State of New Jersey, is interested in said partnership as a special partner, and, as such, has contributed seventeen thousand five hundred dollars ($17,500) of capital to the common stock. The said partnership is to commence on the first day of March, 1875, and to terminate on the first day of March in the year 1876.

Dated New York, March 1, 1875.

JOHN T. CAMP,
P. TODTSCHINDER,
C. HITZELBERGER.

ILLUMINATING ROOFS

HYATT BROTHERS,

PATENTEES AND MANUFACTURERS OF

Patent Vault Lights and Illuminating Tiles

OF EVERY DESCRIPTION.

The Illuminating Roofing Tile,

Represented by the cuts, is intended to take the place of the rough plate-glass sky-lights heretofore in general use, and will relieve of the constant annoyance from leakage and the danger from breaking experienced in the use of sheet-glass. Our new Tile is suitable for Dwelling-houses, Stores, Arcades, Railroad Depots, &c., &c., and can be laid in either iron or wooden frames. The cheapest and best sky-light made. Send for descriptive and illustrated pamphlet.

NEW YORK BOOKBINDERY.

Established 1836.
The best bookbinding at the lowest prices. Large Family Bibles, all Illustrated Works, Doré Works, Atlas, Music, Class-Books, bound in every description of beautiful and elegant styles. Reviews, Magazines, Newspapers bound to pattern. We are sure we can not be excelled in workmanship, quickness, or prices, having all the improvements in tools and machinery that are used in bookbinding. We ask a trial to secure your patronage. E. WALKER'S SONS, 55 Dey St. N. Y. City.

SOAPSTONE WASH TUBS.

A MUCH AND LONG NEEDED IMPROVEMENT.

None More Simple & None so Durable.

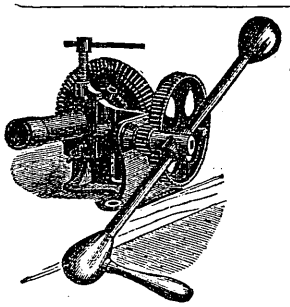
We are now manufacturing in this city to order, Wash Tubs and Sinks of the celebrated Francetown Soapstone.

Of the annoyance, costly repairs, and filthiness of our present wash tubs the public need not be told—experience has tanght them. The superiority of them over wood is, they do not absorb the wash water and slops, consequently preventing that *disagreeable odor* in the house. They are easily kept sweet, clean, and dry *They are not affected by hot or cold water. Never crack or leak.*

Cheaper than Wood, and will last a Lifetime.

They only need to be seen to be appreciated. All interested we invite to call and examine them at our warerooms.

ALSO, MANUFACTURERS OF



Soapstone Grate and Stove Linings, Register Frames.

SLAB STONE CUT TO ORDER.

Wash Bowl Tops, Dish Heaters, Foot Warmers, &c., &c.,

107 West Twenty-fifth Street, near Sixth Avenue.

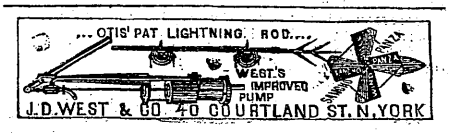
CHASE'S
PIPE CUTTING & THREADING
MACHINE.



This important tool is designed to fill a want long felt by STEAM AND GAS FITTERS and MACHINISTS for cutting and threading pipes rapidly and cheaply. An apprentice boy, with one of these, can do more work than two men with old appliances, under the old system. NO PIPE SPLITTING! NO BEVEL INSIDE OR OUT! It cuts threads and makes nipples for all sizes of pipes, from ⅛ to 2 inches. Weighs only 100 lbs. Stronger than any machine made. A set of collars and lengths for making nipples goes with the machine. Address THE CHASE MANUFACTURING COMPANY,
☞ Send for Circular. **120 Front Street, New York.**
For sale by MORRIS, TASKER & Co., Philadelphia, New York, and Boston.

HAYES BROTHERS

Have made another most important improvement in Sky-lights, whereby each component part is pressed into shape by a new process at one blow, enabling them to produce a strong, reliable, and most perfect Sky-light, vastly superior and cheaper than any other Metallic Sky-light known for same purposes.

Communications should be addressed to

C. W. SWEET,
NOS. 345 AND 347 BROADWAY

A BILL has been reported favorably by the Judiciary Committee of the Senate allowing life insurance companies to loan their surplus capital out of the State. It is needless for us to say that its effect, if passed, will be injurious to all real estate interests. Owing to the tax upon mortgages, about the only lenders are life insurance companies and savings banks. One would think that as they are exempted from taxation on mortgages that it was a sufficient protection, but the greed of life insurance companies seems to have no bounds.

To withdraw this only source of supply, particularly at this time, just as real estate begins to recover from its long quiet state, will be disastrous to real estate interests.

We understand that there are remonstrances out in opposition to the measure, and we hope to see a general protest on the part of property owners.

THE METROPOLITAN TRANSIT COMPANY.

It is but right that, amidst all the disorganized and somewhat confused action of numerous bodies of men, the Metropolitan Transit Company should remind the public that it possesses the right to construct an elevated road with two tracks, from Bowling Green to the Grand Central Depot, under a charter granted in 1872. The charter was complied with on December 24th last, when Peter Cooper laid the corner stone at the corner of Morris and Church streets. All the surveys and estimates of the section south of Fourteenth Street have been made sufficient to enable the execution of a contract for its construction when the necessary capital is secured. For that purpose the company now offers its stock and bonds for public subscription at par. The capital is to be limited to two millions of stock and one million of bonds. All the stock and bonds of the company will be registered at Duncan, Sherman & Co.'s, to whose order all subscriptions are to be paid in five installments. The officers now constituting the Board of Directors are perfectly willing to submit to a new election by subscribers, but in so far as they form the only nucleus now in existence for the construction of a steam road through the heart of the city, they claim that the money which property owners desire to devote to rapid transit *should be subscribed on their books.*

Mr. Harvey, the engineer of the road, has built the Greenwich Street elevated road, with what success is now well known, and it is a favorable sign that the company has engaged his services to bring its enterprise to a still grander success.

TAXING MORTGAGES.

We again urge the importance of abolishing restrictions upon capital, and call upon all who are interested in such a reform to concert some action that will advance, if it does not immediately compel, the abolition of the tax on mortgages. We assume that public sentiment in localities where capital is most abundant is fully alive to the necessity of such a measure, and we believe that a fair and logical appeal to the opinions of people who are not governed by prejudice will aid in changing opposing sentiment. The Legislature should be called upon, and if success does not at once follow, there is no reason why the demand for relief should not be persistently urged until it becomes effectual. Will not some of our real estate owners and capitalists attend to this matter?

MORTGAGES.

REAL ESTATE.

NEW YORK.

NOTE.—The arrangement of this list is as follows: The first name is that of the mortgagor, the next that of the mortgagee. The description of the property then follows, then the date of the mortgage, the time for which it was given, and the amount. The general dates used as headings are the dates when the mortgage was handed into the Register's office to be recorded.

Wherever the letters "P. M." occur, preceded by the name of a street in these lists of mortgages, they mean that it is a Purchase Money Mortgage, and for fuller particulars see the list of transfers under the corresponding date.

March 4, 5, 6, 8, 9, 10.

WILLOUGHBY AV., N. S., 290 W. TOMPKINS AV., three three-story frame dwellings, 20x36; owner and builder, J. F. Wheeler, 450 Bergen st.

MISCELLANEOUS.

REVIEW OF THE REAL ESTATE MARKET.

The market has been more inactive during the past week, and a dullness quite out of keeping with the season has prevailed. Nothing is offering at private sale, except upon terms which purchasers generally deem to be inadmissible, and buyers are at fault because owners will not yield to their demands. Inquiry is limited, and negotiation is of a slow, easy-going character. We have not been favored with any reports of private sales, and, estimating from the number of recorded transfers, there has been, for several weeks, a falling off in transactions of this character. The week opened with the promise of a few important events at the Exchange, but, as many of the offerings, including the chief of those noted, were withdrawn, or deferred, nothing of unusual interest has occurred, and business has been mostly of the formal character of legal sales. In conclusion, we write the market extremely dull, without any novel feature, or hopeful suggestion. It has strength, based on endurance, and beyond that there is little to say for it.

The subject of most interest, just now, and upon which we have been at some pains to gather information from the experience of those familiar with it, coupled with our own observation, is

RENTS.

The season has come when house-hunters start on their round of inquiry and inspection. The demand for houses to rent is by no means as large as usual, but much of the backwardness of the season is certainly due to the weather, which has obstructed travel and has prevented ladies, whose relations to this branch of the real estate market are important, from going about. Another reason for delay is, that owners who have good tenants are loth to let them go, and do not positively refuse lower rentals, and tenants, on the other hand, are not urgent to compel a rejection of their demands by too much persistance, while the season is still near its beginning. In some quarters a fair inquiry is reported, and the points of interest will be found, noted more in detail, below.

Compromises between landlords and tenants are more frequent than ever before known and, while, in some cases, large reductions have been made, in special localities there is greater steadiness and in a few instances, decided firmness, with strength. In reviewing the market, starting with the most northerly portion of the city, we find that the demand for cheaper dwelling is increasing. The new wards do not attract as great an influx of population as might be expected. The views of landlords in this part of the city are more metropolitan than either location for surroundings justify, although small houses of indifferent class are to be had as low as $25 per month. Prices range much higher, however, and very fair dwellings are to be had, some with garden plots attached, for from $500 to $800 per annum, while higher rents are asked, in other cases, according to the size and character of the houses and grounds. In Harlem there are very many vacant houses. Owners in this part of the city have rarely been able to get any relative return for the valuation, or even cost, of their property, and rents have, consequently, been low, good houses, replete with modern advantages, letting for $500 to $1,200 per annum. Upon the westerly side of the city, above the Central Park, rentals for medium houses range as low as $450, but the difficulties of transit prevent any active demand. In Yorkville, and upon the line of the Central Park, as far down as Fifty-ninth Street, there are conflicting opinions. Some owners are not inclined to yield to the times, and even prefer to keep their houses vacant, but concessions have been and will be made, rents ranging from $800 to $1,200 for the smaller, to $3,000 for a superior class of dwellings. Below Fifty-ninth Street, and on the lines of the fashionable avenues, prices are said to hold quite firmly, although we think that there is greater strength below Forty-second Street than above it. The Astor leases are reported to be renewing without change, and property belonging to this estate is letting more freely than last year. On Madison and Fifth avenues there are few changes, rents remaining nominally, if not actually, the same as before. Few houses of the best and so-called most desirable class are to be had, and their scarcity has become the subject of remark. On the outlying portions of this district the feeling is more uncertain, and some rentals are certainly lower, good houses going for twenty-five per cent. less than before. In the vicinity of the Elevated Railway there is a good demand, at full rates. The range of prices from Eleventh Street to Fifty-ninth Street is $1,200 to $6,000, excluding the exceptionally high prices paid for Fifth Avenue and contiguous neighborhoods, or the extremes of East and West, where rents defer to different surroundings. Dwellings in the older portions of the city are held at ordinary rates, as values have been too long settled to admit of much change.

Flats are more sought after and bring very fair prices. The cheapest we know of are to be found in the upper portion of the city, where *suites* of seven rooms, in brown stone front houses, provided with all the modern improvements, are to be had from $20 to $40 per month. Lower down, prices for this kind of dwellings are higher, and range from $40 to $100 per month. As an instance of the demand we cite "the Albany," a new building, at the corner of Broadway and Fifty-second Street, in which twenty-four of the thirty-two *suites* of apartments have been already rented.

Tenement property cannot be called as profitable as in past years. Many of the poorer tenants have been in default, and this remark is of more general application than has previously been known. Good apartments for the working classes are to be had, according to locality, from $8 per month and upward. Cheaper rents occur, but are only met with in the worst and most dilapidated neighborhoods.

Business property in some localities is meeting with more ready demand. Leases for a term of years expiring this spring are not generally renewed upon the same conditions, and concessions are expected and made. On the avenues principally devoted to retail trade, and where population is most dense, there is little change, and rentals of last year are well adhered to. Sixth Avenue property is in good request, and the same can be said of Third and Eighth avenues not too far up town.

On Broadway there has been more movement between Spring and Fourteenth streets, although rents are not of the strongest. Lower down, store property is more firmly held, but there is an estimated percentage of loss. Stores in the vicinity of the City Hall have been pretty well taken up, but business has been retreating from some of the streets which lead up the main thoroughfare, notably on the easterly side.

In brief, we are led to conclude that there is a weakness in the renting market, due in most cases to circumstances of local and special application, with opposing strength in some directions. For this reason the percentage of difference cannot be ganged. It is plain, however, that people are returning to more economical and steadier methods of living, enforced it is true, but none the less positive in their bearing upon their surroundings.

THE INDUSTRIAL EXHIBITION BUILDING.

Next to the Centennial Exposition, and ranking only second to it in financial magnitude and local importance, is the plan of a Cosmopolitan and Perpetual World's Fair, to be held permanently in the City of New York, under the auspices of the Industrial Exhibiton Company.

In the language of the prospectus of the Company, this "Perpetual World's Fair will afford a permanent home where every manufacturer can exhibit and sell his wares; where every patentee can show his patent; a centre of industry, which will prove a benefit, not to New York alone, but to the Nation and the entire World."

With the view of erecting a suitable building for this Exhibition, the Company has purchased a square of eight blocks, in the City of New York (from Ninety-eighth to One Hundred and Second Street, inclusive, between Third and Fourth avenues—all these streets are virtually given to the Company). The Legislature, or its charter, permits the Company to build over the streets and avenues, thus adding to the property 250,000 square feet of valuable real estate.

Furthermore, this property is wholly exempt from taxes and assessments during the time allowed for the final completion of the building—which is to be substantial and fire-proof.

The erection of the Industrial Exhibition Building will commence as soon as the weather permits; and, owing to the depression in the iron and building trades, the Directors expect to make their contracts on very favorable terms—and to be able to profitably employ the overplus of the laboring population of New York for some time to come.

The Industrial Exhibition Company will not interfere in any way with the Centennial Exposition, as the former will not open till the latter closes, but it will serve as a species of permanent continuation in New York of what will be temporarily commenced in Philadelphia.

The site of the Buildings of the Industrial Exhibition Company is admirable. All the Railroad lines entering New York pass the building, and a Railroad Depot will be erected at Ninety-eighth Street. The East side of the building is only one thousand feet from the East River, thus making an easy communication with Long Island and all neighboring cities.

Of this Industrial Exhibition Building, and its real estate, the Bond-holders of the Company are, by a Trust Deed, constituted the owners. So that alone in its public or its pecuniary aspects the scheme of the Industrial Exhibition Company demands attention and deserves encouragement.

COURT OF APPEALS DECISIONS.

Under the provisions of the act in relation to the rights and liabilities of owners and lessees, etc. (chap. 345 Laws of 1860), which provides that the lessee of a

building, destroyed or rendered untenantable by any cause without his fault or negligence, shall not be liable for rent thereafter, and may surrender possession, the termination of the tenancy, upon the happening of the event provided for, is at the option of the tenant. If he elects to avail himself of the provisions of the act, it, by necessary implication, imposes as a condition the surrender of the premises. He cannot retain possession and thus have the benefit of the lease, and, at the same time, repudiate its obligations.

Nor does the fact that the landlord has refused to accept any surrender, denying the right of the tenant to make it, constitute a waiver of his right to insist upon a full surrender as a condition of the tenant's discharge.

On the 4th October, 1864, plaintiff purchased certain premises upon foreclosure sale. By the memoranda of sale signed by him, the residue of the purchase money was to be paid and deed delivered upon receipt thereof, at the referee's office, November 1st, 1864.

If plaintiff neglected to call at that time, he was to be charged with interest thereafter upon the whole amount of his purchase, unless the referee should deem it proper to extend the time. At the specified time the deed was ready, but plaintiff did not call, or pay or offer to pay the balance, nor was the time extended by the referee. Plaintiff, thereafter and on August 5th, 1865, paid the balance, with interest upon the whole purchase, and received his deed. There was a surplus, which defendant, as the owner of the equity of redemption, received. Plaintiff thereupon brought an action to recover the rents collected by defendant between November 1st, 1864, the time at which, by the mem. of sale, the residue of the purchase money was to be paid, and August 5th, 1865—the time of the delivery of the deed.

The Court *held*, that plaintiff acquired neither the title nor the right to the possession of the lands or to the rents thereof till the delivery of the deed to him. Up to that time the defendant continued to be the owner of the equity of redemption, and, as such, was entitled to the possession and the rents. That, under no circumstances can a *legal* title become vested under a deed before its delivery, unless in a case where the purchaser was entitled thereto at an earlier date, and it has been unjustly witheld, without any fault or neglect on his part.

—o—

SUPREME COURT DECISIONS.

Where, in an action to foreclose a mortgage, a summons directed to the wife is served upon the husband, the mortgagor, it is his duty to appear and answer jointly for himself and wife; service of the summons upon the wife is only necessary when the proceedings are against her seperate estate. In this action, brought to foreclose a purchase money mortgage, given by the defendant, a summons directed to his wife was served upon him. He appeared in the action for himself, but not for his wife, and subsequently purchased the premises at a sale had under the judgment of foreclosure. On an application made by him to be relieved from his bid, on the ground that his wife was not bound by the judgment—*Held*, that his application should be denied, as he purchased with full knowledge of the facts, and, as in any event, the defect was unimportant, the only object of making the wife a party being to cut off her inchoate right of dower, which right she would reacquire by his purchase of the premises.

It seems to be settled that, where the person signing his name to a written instrument with the word "agent" added, is, in fact, the agent of the principal, and the writing is executed in the course of the business of such agency, the principal is bound by a contract so signed. In the opinion written by Judge Talcott he adds that this position is at war with the ruling in the case of De Witt *vs.* Walton, 9 N. Y., 571, but that case has not been followed, if it is to be understood as deciding that the principal is not bound in any case by a writing signed by the "agent" in his own name, with the word "agent" added.

Note.—In the case referred to by Judge Talcott, an action was brought on a promisory note, signed "D. Hoyt, Agent for the *Churchman*." The proprietor of the *Churchman* was sued as principal, but the Court *held* that the words "*The Churchman*" were to be taken only as "descriptio personæ," and that the person signing was alone liable.

B was general agent of his wife, in carrying on the painting business. In her name he leased for one year certain premises, which were used in the painting business. To this lease his wife assented, and the rent was paid by checks signed with her name and by her authority. *Held*, that a renewal of the lease for another year by the husband, even though made without the authority or the consent of the wife, the lessor having no notice thereof, would render the wife liable for the rent. Judge Mullen wrote the opinion, in which he lays down the doctrine that "the question in these cases is not so much what power the agent in fact has, as what power the public has the right to believe he has."

Plaintiff, who was the owner of a lot in New York City, assessed for a street improvement, intending to pay the assessment thereon, by mistake paid an assessment for the same improvement upon an adjoining lot, not owned by him. The assessment upon the adjoining lot was afterward declared invalid, and vacated by order of the Court. *Held*, that plaintiff could recover back the amount paid.

LOCAL ITEMS.

The Collector of Assessments for the Twenty-third and Twenty-fourth wards gives notice that, in default of the payment of Assessments, he will, on April 30, at 2 o'clock, P. M., sell at public auction, to the lowest bidder, for a term of years, the property which is the subject of such Assessments.

The Commissioner of Public Works reports the following contracts entered into: One Hundred and Twenty-fourth Street, between Sixth and Seventh avenues, sewer; One Hundred and Twenty-eighth Street, between Sixth and Eighth avenues, sewer; One Hundred and Thirty-fourth Street, between Fourth and Fifth avenues, sewers; One Hundred and Twenty-sixth Street, between Sixth and Eighth avenues, sewer; One Hundred and Thirty-fourth Street, between Fifth and Sixth avenues, sewer; One Hundred and Forty-second Street, between the Boulevard and Hudson River, sewer. Certificates of Cost of Improvements, transmitted to the Board of Assessors: One Hundred and Tenth street, to Harlem River, outlet sewer, $478,934.35; Eighty-third and Eighty-fourth streets, between Eighth and Ninth avenues, sewer, etc., $28,280.70; total, $507,215.05. Contract work resumed after suspension: Eighth Avenue, between One Hundred and Twenty-first and One Hundred and Thirty-third streets, sewer.

The Fire Department asks for proposals for building four Aerial Ladders.

The Department of Public Charities and Corrections asks for proposals for 3,000 barrels of Flour.

BRIEFS.

The gold and silver mined on the Pacific coast during last year was valued at $100,000,000. The total value mined from 1848 to the close of 1874 was $1,681,386,186.

The old and well known hardware firm of L. Pruyn & Son, of Albany, has failed, and its members have made a general assignment of all their property for the benefit of creditors, without preference or priority.

The monthly report of the public debt for February shows a decrease during the month of $6,680,183.12.

The Government has brought suit against the New York & Harlem R. R. Co. to recover $100,000 taxes and penalties on its undivided net earnings for several years.

WEST SIDE ASSOCIATION.

A public meeting will be held at Harvard Hall, 729–733 Sixth Avenue, corner Forty-second Street, on Thursday evening, the 18th inst., at eight o'clock.

The meeting will be addressed by W. H. Peckham, Fernando Wood, Dwight H. Olmstead, John W. Pirsson, Esqrs., and others.

All interested in up-town improvements and rapid transit are invited to attend.

By order of Executive Committee,

WM. T. BLODGETT, Pres.

FRANCIS M. JENCKS, Sec.

MARKETS.

The weather has been a great obstacle to the resumption of business activity of every description, for while the warmer atmosphere has been favorable to mechanical operations the frequent storms and the quantity of snow that has fallen haed interdicted traffic and have prevented out-door labor. There are, however, exceptional indications of life of which some of the markets give better proof than others. In those which draw supplies from abroad there is an unsettled feeling, created by changes in the tariff, which must become definite in their action before business can run smoothly in the new groove provided for it. Money has been more actively in request, but the supply is ample and in excess of the present and any prospective demand. Stringency in this particular may therefore be regarded as a deferred possibility. The movement of masons' materials has been restricted, but we think somewhat more ample than at our last report. Bricks have had small sale from yard. Cement is nominally steady at old prices. Lime has initiated a stronger movement, which we expect to see carried into the yard trade. The prices of glass, hardware, and metals are affected by tariff changes, and there have been some notable transactions in lumber. Lath have been uncertain, a late arrival exciting the market to the extent of a demand for higher prices, with results which will be found presented under the appropriate heading. In summary there is a good feeling extant, and business seems to be more substantially founded. Trade is not fully up to the ordinary requirements of the season, but the season is likewise in arrears, and with favoring weather we may hope soon to see a fair degree of activity with a steady flow of business.

Our report in detail is appended:

BRICK.—There have been small sales from yard at our quotations, and otherwise the market is inactive. Movement has been shut off by the weather, and the difficulty of "riding" goods, if no other reason existed, would suffice to keep trade quiet. We quote Pale, ₱ M, $3@3.50; Jersey, $6.25@6.50; Up river, $6.50 @7.25; Haverstraw Bay, $7.25@8; Fronts, Croton—brown, $12@13; dark, $13@14; red, $14@15; Philadelphia, $28@32; Baltimore, $50@56. Yard prices, delivery included, $2@3 higher.

CEMENT—Has been rather dull throughout the week, but prices are firm as previously quoted, viz., Rosendale $1.30 per bbl. cash and Portland $4.15@4.50.

FIRE BRICK—Are steady as previously reported. There have been sales of 25,000 Scotch at $50 per M. We quote American at $40@50; Red Welsh at $50; and Scotch at $47.50@50 per M.

GLASS.—A new list for French window is in preparation, which we expect to publish in our next issue. The trade have had a meeting, at which it was decided to advance prices of French window and polished plate 10 per cent. The latter is now quoted at 5 per cent. discount, French window at 60 & 10. English sheet is dull and nominally steady at former quotations. The market is otherwise as last reported, except in the difference occasioned by the change in the duty, which will be met by the contemplated alterations in prices.

HAIR.—There is no better feeling in the market, which continues dull and uncertain, quotations remaining nominally as heretofore.

HARDWARE.—Trade is apparently on a better foundation, and while 'movement is' not of the most active character it is certainly improving, and there is a fair promise for the future. Inquiry seems ample, and with more settled weather will probably develop to a greater extent. Prices are not strong, and conditions generally favor buyers. A change in the duty creates an unsettled feeling for foreign goods. The discount for Strap and T. hinges is 45 and 10 per cent. Burden's horse shoes are now quoted at $5.50 and mule shoes at $6.50, delivered at point of manufacture. Cast butts, loose pin, japanned, are quoted at 60 per cent.; brass butts, wrought, at 30 per cent.; door bolts 60, 10, and 10 per cent.; door knobs 45 and 2 per cent.; and padlocks 50 and 2 per cent. off. The discount for screws is 52½ per cent. off new list. Shovels and spades are 10 and 5 per cent. discount.

LATH.—The first arrival for several weeks has occurred since our last report, and included a cargo of 500,000 which, although in demand, worked off slowly, buyers and sellers differing in opinion. It is reported that 150,000 of these were sold at $2.50 per M., and at the close of our report no other transactions had been effected because of the firmness of holders. Lath are offering, to arrive, at $2.75, but as we do not know of any transactions at that price, quotations are as before. We quote at $2.50 per M.

LIME.—The market has taken a start, demand having been excited by the warmer weather, and prices all around are stronger, although we hear of sales at figures below our quotations from yard, say $1.19@1.20 per bbl. Stocks cannot, however, be replenished at that price, there being no Rockland in market in first hands, although we hear of a cargo to arrive which is held at $1.25 per bbl. Sales of State have been made from manufacturers' hands at $1.25 per bbl. for common and $1.60 @1.75 per bbl. for finishing. We quote State firm at $1.25 per bbl. for common and $1.60 per bbl. for finishing. Rockland, to arrive, at $1.25@1.65 per bbl. Yard prices are somewhat uncertain, owing to competition and stocks bought at old figures, but may be generally quoted at $1.25@1.50 per bbl. for common and $1.75@1.90 per bbl. for finishing.

LUMBER.—The market has experienced all the adversities of the weather, and with the exception of a few orders placed, which we note below, has been comparatively inactive. White pine has been limited in movement, although the shipping demand is thought to give promise of increase, and we quote, as heretofore, at $19.50@23 for West Indian and $23@25 for South American orders. Spruce is dull, no random cargoes having arrived; and while a few orders have been taken, it is noteworthy that yellow pine is entering into competition, particularly for large dimension orders which have been placed cheaper than it has been deemed possible for spruce. We note sales for May delivery of 400,000 feet at $18@19 and quote random cargoes nominally steady at $16@19 and ordered schedules at $18@21. Extra sizes would command a special price. Yellow pine has been more active than at our last report, quoting at about the same general range of prices, although we note sale of 600,000 feet at $22.80. Another sale of about the same quantity was made at $23.50 and of 350,000 feet at $24. Hardwoods continue dull and stocks are not fuller than necessities require. We note sales 160,000 feet black walnut at $75@78; 50,000 feet strips at $60@62. Oak and ash are in ample supply. We note sales 75,000 feet of the former for export at $40, f. o. b. The yard trade has been obstructed by the stormy weather and consequent obstacle to transportation, and although the pleasanter days of the past week have offered fair inducements for building activity, the difficulty of hauling has been too considerable to create any rush at the yards. Quotations are generally as before.

Michigan and Wisconsin Notes.

From the Milwaukee *Times*:—

For several weeks past reports have been floating through the newspapers in various parts of the country that from 125,000,000 to 175,000,000 feet of logs would be put in Black River the present winter. This is a wild estimate, and we wish to correct this erroneous statement. The winter thus far has been very unfavorable for logging on account of lack of snow. Judging by the work already done, the amount of logs that will be cut and put in the river this season will not reach above 80,000,000 feet, and may possibly come below 75,000,000. This information we get from the principal men engaged in the business, and they are more likely to know than any newspaper correspondents, some of whom never saw a log or logging camp. The amount of old logs in the river is small, compared to other years in the past, and will not foot up to more than fifteen or twenty million feet. It is probable now that not more than 50,000,000 feet of logs will go out of this river before the first of June next, and it is not safe to bet on that amount. The same is also true of the Chippewa, Eau Claire, and other rivers in the northwest. A short time ago an article appeared in the *Northwestern Lumberman* (Chicago) stating that the amount of sawed lumber held over in La Crosse the present winter was about 17,000,000 feet, when in fact there is not over 7,000,000 feet there, and not over 10,000,000 feet in the whole river. Such wild statements do a large amount of damage, and we hope all the newspapers in the northwest will correct them at once, and give only the facts. The loggers on

Black River will, the present winter, put in at least fifty per cent. less logs than ever before in the past four or five years, and will fulfill the promise made last fall at the meeting held at Saginaw.

Pennsylvania Notes.

From the Williamsport (Pa.) *Gazette and Bulletin*, March 4:—

There is no change to report in the condition of the lumber market, and the shipments are very light when compared with the same period last year. Jobbers have generally got their logs ready on the banks of the mountain streams, and when the ice passes out driving will commence. On account of the heavy ice and the snow, which has accumulated to a considerable depth, some apprehensions are felt, in case of a sudden thaw, for the safety of the logs that may now be in the streams.

Manufacturers report an increase of inquiries for lumber, but no increase of sales worth speaking of. It is expected, however, that the trade will soon revive, and that business will be much better than it has been for months past.

METALS.—COPPER.—Manufactured is steady at the following quotations: New sheathing 28 cents; bolts and braziers' 30; nails 37@38; bronze and yellow metal sheathing 21; and yellow metal bolts 28 cents net cash. Ingot has been in some request at 21¼@21¾ cents, closing quiet with buyers and holders quite firm in opposing opinions.

IRON.—The advance in Scotch pig noted in our last has not been followed by any great degree of activity, and the stronger feeling evinced was, therefore, rather spasmodic and the result of first impressions in connection with the revised tariff. Movement throughout the week has been very limited, and purchases were only made as necessities required. The feeling in American pig is improving, and it is said that the accumulation of stocks is decreasing enough to warrant the assertion that production will be fairly consorted with consumption, in which event prices are likely to remain steady at the recent advance, and may possibly become stronger. There is doubtless a much better feeling prevalent, and the trade has largely recovered from the almost hopeless and despondent condition into which it had lapsed. Rails are quoted as before for new, and old are held at $30@32. Scrap has followed up the stronger tendencies indicated in our last and prices have ruled higher, closing with a weaker feeling, the market not being able to bear up stiffly under the flood of fortune. Sales have been made at $33.60@35. Manufactured is dull and unchanged, but with movement of any character it is excepted that prices will harden and advance.

LEAD.—The market for pig is dull, but prices are steadily adhered to, foreign quoting at $6.75@6.87½, gold, with sales at the latter price. Domestic is weaker, quoting nominally at $5.70@5.75. Manufactured is steady at late prices. We quote bar 8½ cents, pipe 9, and sheet 9¼, all less 10 per cent. to the trade. Block-tin pipe 45 and tin-lined pipe 16½ cents.

TIN.—Pig continues dull, with sales of straits at 21¼ cents. L. & F. 20¼@20½. Quotations are generally as follows: Straits, 21¼@21¾; L. & F., 20¼@20½; and refined 20¾@21, all gold. Plates are dull and week, with anticipation of better feeling when inland travel will permit shipments and give opportunity for the movement of goods.

ZINC.—The change in the tariff abolishing the rebate of 10 per cent. has induced a stronger feeling, and holders are firm in their views, and we quote at 9¼@9½ cents.

NAILS.—The duty on foreign manufactures has been advanced 10 per cent. The market is weaker, and quotations are revised as follows: 10d. to 60d. common fence and sheathing, ℔ keg, $3.35@3.50; 8d. and 9d. common do. ℔ keg, $3.60@3.75; 6d. and 7d. common, ℔ keg, $3.85@4; 4d. and 5d. common do. ℔ keg, $4.10@4.25; 3d. and 4d. light, ℔ keg, $4.85@5; 3d. fine, ℔ keg, $5.60@5.75; 2d. ℔ keg, $6.35@6.50. Cut Spikes, all sizes, $3.60@3.75. Floor, Casing, and Box, 75 cents above the same sizes of Common—Finishing, $1 above, and Fine Finishing, $1.25 above.

CLINCH NAILS.

1¼ to 1½ in.	1¾ & 2¼ in.	2½ & 2¾ in.	3 in. and longer.
$6@6.50.	$5.50.	$5.25	$5 ℔ keg.

OILS.—Linseed is quiet at our last quotations, viz., 74@75 cents per gallon for casks from crushers' hands.

PAINTS.—But for the adversities of the weather it is presumable that the market would display considerable activity, but the difficulties incident to moving goods prevent business. Despite this there has been a fair trade, and prices are generally steady. China clay has been in fair request at $21, gold, and $25, currency, for English. Venetian Red has displayed greater activity, with sales at $1.90@1.95, gold, and at $2.20, currency. Vermilion has been selling steadily at our late quotation. White lead is steady at 10¾@10½ cents, gold, and 12 cents, currency, for B. B. ground, 10½ cents, gold, for Diamond Z. Paris green is firm at old figures, and in demand. Ochre is selling at 4½ cents, gold. Paris white has sold at $1.80, gold, for Queensgate and $1.85, gold, for Crown from wharf. Sales of C. T. R. Cliffstone were made at 1¾ cents, currency.

PITCH.—City is quiet at $2.25 per bbl., f. o. b.

SPIRITS TURPENTINE.—The market has been stronger and the demand has been fair. Sales were made at an advance on our last quotation, viz., at 36½ cents, the market yielding somewhat later, but closing firm at 36 cents merchantable. We quote at 36@37 cents per gallon.

TAR—Has been in limited request and quiet at last week's prices. We quote Washington and Newbern at $2.12½@2.25 and Wilmington at $2.25@2.37½ per bbl.

A NEW TYPE-SETTING MACHINE

NOW ON EXHIBITION AT

21 Wall St., cor. Broad.

The United States Type-setting Company has perfected a machine from Delcambre's patents for setting type which surpasses anything of the kind ever invented, and for durability, simplicity, and cheapness can never be surpassed. The machine can be made by which two fonts of type can be used without change of machinery or interruption to composition. They have also a telegraphic attachment by which the same matter can be composed by the touch of the operator in New York, Boston, Philadelphia, Baltimore, Washington, Cincinnati, Chicago, and St. Louis instantaneously. Any person accustomed to fingering on a piano can operate the machine, and an experienced operator can compose 3,000 ems an hour by this process. Machines warranted not to turn type or get out of order.

Orders for machines received and information given at the office of the Company, 21 Wall Street, corner Broad.

ATTENTION! PROPERTY OWNERS.

Messrs. Wanner & Caspar,

Architects and Civil Engineers, are prepared to furnish plans, specifications, and estimates for all classes of Buildings, Improvements, and Alterations; also, to superintend the work.

Special attention will be given to Iron Structures and Fire-proof Construction.

Contracts are solicited for arches, partition walls, mansard roofs, plain and ornamental terra cotta works for inside and outside use.

OFFICE, 150 FULTON STREET.

The steady and continuous use of tubulated plaster, concrete, in place of brick and sheet iron as a fire-proof material for floor and ceiling arches, partition walls, and mansard and deck roofs since its introduction in the United States by the patentee (A. Wanner, Architect and Civil Engineer) in 1869, is offered as a direct proof of its superiority over all other materials for efficacy in the resistance of the action of fire, for remarkable lightness, and for moderate cost.

Among the extensive works executed under the direct superintendence of A. Wanner may be mentioned such strictly first-class buildings as the well known Palmer House, at Chicago; the new Capitol Building, at Springfield, Illinois; the Equitable Life Insurance Building, at Boston, and the new Evening Post Building in this city.

The applicability of this superior building material to a variety of purposes is illustrated by drawings and specimens on exhibition at the office, 150 Fulton Street.

REAL ESTATE BOUGHT, SOLD, AND EXCHANGED

A GOOD INVESTMENT

EVERY PRUDENT MAN, CAREFUL OF THE

health and comfort of his family, should see to it that his drinking water is conveyed through TIN-LINED LEAD PIPE, which is a perfect safeguard against lead poison. Tin-lined Lead Pipe is strong, durable, flexible, and easy soldered. It is a great benefit to the community, and enhances the real value of every house in which it is introduced. It is cheaper than Lead Pipe, when strength and durability are considered. Sold by the COLWELL LEAD CO., 213 Centre St., New York. Price, 16½ cts. a pound for all sizes. Descriptive pamphlets sent by mail free. Also, manufacturers of Lead Pipe, Sheet Lead, Block Tin Pipe, Bar Tin, Pig Tin, Bar Lead, Pig Lead, Solder, &c. Orders filled at sight.

FERGUSON & CO.,

PLASTERING HAIR A SPECIALTY.

Communications should be addressed to

C. W. SWEET,
NOS. 345 AND 347 BROADWAY

SPECIAL NOTICE.

Shortly after the great fire in Boston, in 1872, the Dwelling House Insurance Company was established there, confining its business entirely to dwelling houses and the furniture therein. This new idea in fire insurance has just been introduced in New York, where Mr. S. S. Stevens has taken charge of the agency of the above company and Mr. P. Kenny has been appointed surveyor. This new feature cannot help but become popular here, as there is less risk attached to dwelling houses than to business localities. The office of the Dwelling House Insurance Company is at 110 Broadway.

The meeting of the West Side Association was largely attended on Thursday evening, and a unanimous determination was evinced to urge upon the city the necessity of improving the Riverside and Morningside parks and to promote rapid transit. A resolution was unanimously adopted calling upon the Legislature to defeat Senate bill 98, which permits insurance companies to loan their surplus capital out of the State. A committee of twenty was appointed to proceed to Albany and explain the views of property-holders as to rapid transit.

EXEMPTION LAWS.

Some of the Western States have adopted the principle that it does not advantage either creditor or debtor to extend liens or executions upon property so far as to prevent the debtor from providing a home for his family and from eventually paying his debts. The laws passed to this end were, and are doubtless still designed to attract settlement, but we think that their provisions are just and worthy of more general application. In Kansas the following exemptions occur:

1st. Family Bible, school books, and family library. 2d. Family pictures and musical instruments used by the family. 3d. A pew in any church or place of public worship and a lot in any burying-ground. 4th. All the wearing apparel of the debtor and his family, beds, bed-steads, and bedding, cooking stoves, and all the appendages and all other cooking utensils and stoves, sewing machine, all spinning wheels and looms, and all other implements of industry, and all other household furniture not herein enumerated not exceeding five hundred dollars in value. 5th. Two cows, ten hogs, one yoke of oxen and one horse or mule, or in lieu of oxen and one horse or mule one span of horses or mules, twenty sheep and the wool of the same, either raw or manufactured. 6th. The necessary food for support of the same for one year, either gathered or growing or both; also one wagon, cart, or dray, two plows, one drag, and other farming implements, including harness and tackle for teams, not exceeding $300 worth. The grain, meat, vegetables, groceries, and other provisions on hand, and also the fuel necessary for the support of the debtor and his family for one year. 8th. The necessary tools and implements of any mechanic, miner, or other person used for the purpose of carrying on his trade or business, and in addition thereto stock in trade not exceeding $400. 9th. The library, implements, and office furniture of any professional man.

It will be seen from the foregoing enumeration that the exemption of personal estate is ample, but in addition thereto the laws of Kansas provide that

A homestead to the extent of 160 acres of farming land, or of one acre within the limits of an incorporated town or city, occupied as a residence by the family of the owners, together with all the improvements on the same, shall be exempt from forced sale under any process of law, and shall not be alienated without the joint consent of husband and wife, when that relation exists.

We believe that a similar provision of law with some limit is worth enacting here. The advantage to the debtor class would probably be more than borne out by the compensation that would accrue in the steady, hopeful effort to pay off debts. The principal incentive to labor is lost when home and domestic happiness are gone, and a system of law which encourages and protects those interests cannot but benefit the State and the community.

COURT DECISIONS.

In the Supreme Court, at General Term, in the case of Mack *vs.* Mack, Judge Landon, in an opinion delivered by him, says, "It is now, undoubtedly, the law of our State, that a husband may make a valid gift to his wife, the claims of creditors not intervening. Equity has always sustained such gifts when the claims of creditors were not affected, and when the gifts were clearly proved. The reason why such gifts have been held invalid in law, seems to have been derived from the common law idea that the husband and wife are one, and that her personal property becomes his by virtue of the marriage relation. So far as property is concerned, this rule no longer prevails in this State. The wife now holds her separate estate, and the unity of the husband and wife does not, in law, create a union of her property with his. There is no good reason why the law should permit a gift to a stranger and deny it to a wife." It was accordingly held that a husband may make a valid gift directly to his wife without the intervention of a trustee.

Kade *vs.* Lauber.—This was an action to recover dower. The plaintiff was married to Charles Kade, in the year 1857. The marriage was dissolved by judgment in an action brought by the plaintiff against her husband. The divorce was absolute.

The lands out of which the plaintiff claims to be endowed were acquired by her former husband in 1868, and after the parties had been divorced. In 1869 Kade sold and conveyed the land to the defendant, who is still the owner. Plaintiff did not join in the conveyance. Kade died in 1873.

The Court *held*, that the marriage between the parties having been dissolved, and the relation of husband and wife having ceased to exist, prior to the seizen in Kade of the lands in question, the plaintiff had no estate of dower therein.

The Albany *Law Journal* reports a case in which it appears that one I. D. Whitney brought an action against the National Bank of Brattleboro. Mr. Whitney held a receipt for "$4,000, for safe keeping," signed officially by the cashier of the bank. The deposit was in United States bonds, and had been left with the bank, at the instigation of the cashier, who stated that all the bonds of the town were kept in the bank vault. The coupons were paid regularly from the bank, and, at one time, the bonds were changed by the cashier from the denomination of $500, in which they were deposited, to that of $1,000, the transfer being made without the knowledge or consent of the owner. The bonds were afterwards stolen, and, although the bank had handled them practically in this official way, the Court declined to hold the bank responsible for their loss.

A person purchasing negotiable paper from a note broker is not affected with whatever knowledge the broker may have of the paper. In the opinion delivered in the case, the Judge says: "Bill brokers are a very important class of persons in commerce, and their usefulness and business would be entirely destroyed if it was to be held that persons purchasing negotiable paper from them are affected with whatever knowledge they may have of the character of the paper which they offer in the market."

Upon a valid sale of goods, when nothing remains to be done by the seller except delivery, whether conditioned upon payment or not, the right of property passes to the purchaser, at whose risk it is retained by the seller. Upon the refusal of the purchaser to accept and pay the price, the seller, upon proper notice, may sell the property, and recover the difference, or he may sue for the difference between the contract and actual price, in which case he elects to retain the property as his own, or he may recover the contract price, in which case he holds the property as trustee for the purchaser, and is bound to deliver it whenever demanded, upon receiving payment of the price.

In the absence of fraud or latent defects, an acceptance of the article sold without warranty upon an executory contract, after an opportunity to examine it, is a consent and agreement that the quality is satisfactory and as conforming to the contract, and bars all claim for compensation for any defects that may exist in the article. The party cannot, under such circumstances, retain the property, and afterward sue or counter claim for damages, under pretence that it was not of the character or quality called for by the agreement.

MORTGAGES.

REAL ESTATE.

NEW YORK.

NOTE.—The arrangement of this list is as follows: The first name is that of the mortgagor, the next that of the mortgagee. The description of the property then follows, then the date of the mortgage, the time for which it was given, and the amount. The general dates used as headings are the dates when the mortgage was handed into the Register's office to be recorded.

Wherever the letters "P. M." occur, preceded by the name of a street in these lists of mortgages, they mean that it is a Purchase Money Mortgage, and for fuller particulars see the list of transfers under the corresponding date.

March 11, 12, 13, 15, 16, 17.

WYCKOFF ST., S. S., 175 E. NEVINS ST., ONE FOUR-story brick tenement, 21x54; owner, Andrew Delany; architect, M. J. Morrill; builder, M. Nolan.

MISCELLANEOUS.

REVIEW OF THE REAL ESTATE MARKET.

The week has been very much of a failure, so far as active trade is concerned, and only one noteworthy incident occurred at the Exchange. This last was the sale of the dwelling, with the large plot of ground, located at the southwesterly corner of Lafayette and Astor places, for $97,500. In this transaction, although the bidding was competitive, much delay occurred in disposing of the property, and the price was only attained by dint of much exertion and patience on the part of the auctioneer. Other public offerings were few and unimportant, and we cannot discover any difference in the market from conditions which we have lately noted. From the records it appears that some private negotiations of importance have been concluded, which are not of the events of the week, but are of interest, as showing some of the earlier transactions of the season. The market, however, is still hesitating, and until further urged will develop few new or interesting points.

For the coming week there is promise of greater activity, as numerous offerings at public sale, which include a variety of property, are announced.

Among the sales noted for next week we invite attention to the sale of a number of houses, together with unimproved property, belonging to Messrs. Duggin & Crossman. The substantial and elegant character of the dwellings erected by this firm is well known, and the other property is of a class heretofore deemed specially desirable for investment. The offerings will be made by E. H. Ludlow & Co., on the 25th inst., at upset prices, which, if we do not mistake the meaning and intent of the owners, will be found sufficiently reasonable, under the circumstances of the market.

TO CAPITALISTS.

FOR SALE OR TO LET, ROBINSWOOD, for twenty years the country seat of Stewart Brown, Esq., of Brown Bros., situated on the shore of Whitestone Bay, Long Island, one hour from the City Hall, by Central Railroad of Long Island. This property contains thirty-five acres, elegantly laid out, paths and groves with magnificent shrubbery, a fine substantial mansion, giving a full view of Long Island Sound, the Eastern shipping of the port passing within plain sight of the piazza; also a gardener's cottage, green-house, barn, stables, boat-house, and bathing-house.

There are few, if any, places in the suburbs of New York which equal this English bit of landscape, which is just suited for the residence of a gentleman of wealth and position. It adjoins the property of W. W. Cryder, and the owner prefers to sell it in its entirety, as the property is too fine to be cut up. Price $100,000. Inquire of Mr. Brown's Attorney, Geo. W. Van Siclen, 99 Nassau Street, New York.

LOCAL ITEMS.

The Department of Parks asks for proposals for building a frame building on Central Park, near Sixty-fourth Street and Fifth Avenue.

The same department asks for proposals for Police uniforms.

The same Department asks for proposals for 1,000 cubic yards of broken stone.

MARKETS.

From current report it would seem that the general business outlook is improving, although revival of trade has not been of that stirring character usually incident to the spring season. A competition in railway freights which has arisen benefits Western buyers and may result in exciting the markets while the opportunity lasts. Some doubt of the advantage of present cheap transportation to future trade has been expressed, but we do not believe in carping and think that the future will do left to itself. Abroad there are some premonitions of business disaster, and failures which are thought likely to lead to crisis are reported. Of course such events cannot be without influence here, but it would seem that the commercial balance is in our favor, and that economy has become so general in its application with us that our trade will be held under steadier influences than might otherwise obtain. While we are not so sanguine as to believe that we will immediately rush upon a full tide of business prosperity, we nevertheless think that all the tendencies of trade are to improvement. Should this become assured our markets in their local as well as general character will realize the change, and we shall have something more than formal detail to report. Money continues plentiful, and to a certain extent goes a begging for investment, and it is only natural to suppose that when the building workingmen will only bear in mind the lessons of the year they will benefit themselves and the community. One of the branches of the labor organizations, the painters, forced a strike during the week, but the effort was vain, and has come to naught.

In returning to special review we have few changes to report, trade generally standing upon the same footing, with just such changes as the ordinary run of the markets requires. The building demand is naturally light, as the season is not enough advanced to permit active and continuous operations. Details are appended:

BRICK.—The market is steady under conditions previously noted, and prices throughout are unchanged. Movement has been slow, and activity is not expected until building operations are fairly under way, which, with favoring weather, will not be long delayed. The river will open soon, and arrivals may occur at an early day, perhaps within the next two weeks. We quote, as before, Pale, ⅌ M, $3@3.50; Jersey, $6.25@6.50; Upriver, $6.50@7.25; Haverstraw Bay, $7.25@8; Fronts, Croton—brown, $12@13; dark, $13@14; red, $14@15; Philadelphia, $28@32; Baltimore, $50@56. Yard prices, delivery included, $2@3 higher.

CEMENT.—There has been some business doing and prices are firm, Portland quoting a little stronger than before. We note sales 500 bbls Portland at $4.25 ex-vessel. Rosendale is steady at $1.30 cash.

FIRE BRICK.—The market generally is as heretofore noted. Scotch are firmer for smaller lots, and sales of 5,000 are reported at $52.50, currency. We quote American at $40@50; Red Welsh $50; and Scotch $47.50@55 per M.

GLASS.—The new list has gone into operation, and we quote French window at an advance. Trade, however, is not active, but is expected to improve with the spring and a better understanding of the nature of the changes. We quote French window at 40 and 5 per cent. discount. English sheet is quoted at 40 per cent. off. Polished plate continues quiet at 15 per cent. discount. We revise our quotation for American window to 60 and 15 per cent. discount.

HAIR.—The market continues thoroughly dull, and prices are nominally as heretofore. We quote cattle at 12@25 cents and goat at 14@28 cents per bushel.

HARDWARE.—Trade is not full of activity, although orders are increasing, and it is probable that, with the reduction of railroad freights, the demand will increase. Stocks at the West have been depleted until necessity compels purchases, and the opportunity, prices and freights considered, is likely to prove too valuable to be neglected. The new tariff has advanced the price of English screws, which are now quoted as follows: Iron screws, flat head, 50 and 15 per cent.; do. blued, 50 and 5; do. tinned and galvanized, 30; do. round head and bright, 50 and 5; do. blued, 50; brass, flat head, 50 and 10; do. round, 50; machine, flat head, 30 and 12½; do. round, 25 and 12½; and stove bolts, 20. In plumbers' goods the list on iron boilers has been reduced about 20 per cent., with discount at 25 per cent., as before. English files are quoted firmly as follows: Moss & Gamble $5.25@5.50, and J. and Riley Carr $5.25@5 50, the latter for rasps, gold, and W. Greaves & Sons $5, currency. Copper rivets are quoted steady at 35@40 per cent. discount.

LATH.—There have been several arrivals during the week, amounting to about 2,000,000, most of which were taken up at the time of report, prices shading 25 cents; latest sales occurring at $2.25 per M. We note sales of 1,500,000 at that price, and quote accordingly.

LIME.—One cargo of Rockland came to hand, and was closed out at the advance indicated in our last. Sales of common were made at $1.25, and of finishing at $1.65 per bbl. State lime is steady at previous report. We quote common $1.25 and finishing $1.60@1.65 per bbl. Yard prices continue the same.

LUMBER.—There has been a little more trade at the yards under the influence of pleasanter weather and the increased facilities for hauling, but business has not been rushed, and the market cannot be called active or pushing. Quotations are generally as before, and changes cannot be expected until the season is more fully developed. The wholesale trade is dull, as there has been very little movement since our last report. Export orders are limited, as stocks at the leading points of consignment are ample and no inducements for further shipments are offering. The range for white pine is quoted nominally as before. Yellow pine has become more quiet, and we are not informed of any new orders of importance having been placed since our last report. We quote at $20@23 for random and $23@28 for ordered schedules. These prices, however, may be considered as shaded to meet the demands of the market. Spruce is inactive at $16@20. Hardwoods do not present any new features, and may be quoted as nominally steady at our quotations. We note that a stronger tone has been taken at the lumbering centres of the West, and that predictions of advancing prices are rife. In the present condition of trade, with the abundant stocks held over and the undoubtedly large cut which may be expected this season, we do not yet see where this feeling gets foothold. It is probable that one of the customary resorts of manufacturers is about to be put into practice, and that the trade remote from points of production are to be urged to believe in a sudden accession of strength to the market which neither its present condition nor the probable results of trade will guarantee. The lumbering business must consort with other interests and be governed by them; and although there is a better feeling in mercantile circles, nothing has occurred to warrant exuberant opinions.

Michigan and Wisconsin Notes.

The Bay City *Tribune* of March 13 presents the following statement of the lumber product at Bay City, Banks, Wenona, and Salzburg, Mich., for 1874: The cut of the thirty-four mills at the points mentioned last year was 301,102,614 feet, against 299,845,156 for 1873. There was on hand January 1st, 1874, at the mills named, 90,020,159 feet of lumber unsold and 10,063,000 sold—a total of 100,083,159. Adding to the lumber unsold (90,020,159 feet) the cut of last year and we have a total of 391,122,773. Deducting from this the amount at the mills unsold on January 1st, 1875, and we have 302,320,105 feet sold during the past year—a trifle more than the amount cut.

There is to-day a trifle less lumber on hand and less logs in boom than one year ago. In 1873 there was a total of 100,083,159 feet of lumber left on hand, against 95,962,668 at the present time. Of logs in boom in 1873 there were 41,372,000, against 37,330,000 this year.

From the *Lumberman's Gazette*, March 6:—

The tendency in the western lumber districts is toward a stronger and better feeling. The remarkable continuance of cold weather and the vast quantities of ice which have formed in all waters of this section, making an early opening of navigation impossible, combine with the uncertain prospects of log running to convince manufacturers that the coming sawing and shipping season is to be a very short one. Under the most favorable circumstances the great lakes can hardly be open to navigation before May, and it is quite possible that the opening of such passages as the Straits of Mackinaw may be delayed until that month is well advanced. The heavy ice in all the streams will be long in clearing out, and the mills will not get an early start. Carriers on the lakes are confidently looking forward to such a shortening of the season as will make it a brisk one and give them good prices, though the trade should not otherwise improve. In the woods the work still goes on with no lack, but rather a superabundance of snow. Camps are being broken up rapidly now, and the end of the winter's work is at hand.

There are occasional inquiries in the manufacturing districts by buyers. We hear of a sale of 2,100,000 feet by an Au Sable, Mich., firm as follows: 1,100,000 feet bill stuff at $13; 1,000,000 feet strips at $6.50, $12.50, and $35. No other sales have been reported in this region within a few days. The feeling in the great markets throughout the country seems to be still depressed and with no prospect of improvement.

From the same:—

Taking for granted what no one disputes—*i. e.*, that the one great necessity of the lumber trade this year is a material diminution of the production—it must be said that the prospects of 1875 are steadily improving from week to week. The severe winter holds on in most if not all the principal districts with almost undiminished rigor, while in many parts the recent violent snow storms have hindered work in the woods very materially. The great quantity of ice which has formed in the lakes and streams, especially in the Canadian, the Michigan, and the more western regions, renders an early opening of the shipping season an impossibility. Even should the logs be at hand before the river and lake navigation is favorably open mill men would hardly start up with their present ample stocks on the docks. But the logs are not likely to be forthcoming so soon. We have heretofore alluded to the fact that many of the smaller streams are frozen solid to their very bottoms, and this condition, in connection with the dryness of the swamps, makes it extremely probable that a very large quantity of water will run off on the ice and frozen ground and be absorbed by the dry earth, without making the freshets needed for running out the logs. The snow, it is true, has been accumulating rapidly of late in most parts of the lumber country, but a vast amount of water will be necessary, under the circumstances just narrated, to bring the small streams up to the running stage.

All these facts taken together certainly go far toward justifying the growing feeling of firmness among manufacturers as the season advances. It may be, after all, that a combination of natural causes will do for the lumber trade this year what the producers themselves could not effect by agreement, and that we shall have in 1875 a production very largely diminished from that of the last previous years. It will have been noticed that we published last week a statement from a western paper professing to have good authority for it, which cut down the current estimates of Wisconsin lumbering by tens of millions. At the same time we have no reason to increase the previous estimates for other localities.

A short, brisk cutting and shipping season is what the manufacturers are now looking forward to. If the reduced cut of logs is further diminished at the mills by difficulties in running while shipments are kept back a month or six weeks later than usual, as now appears probable, there can be little doubt of the effect.

From the Saginaw *Courier*, March 11:—

Careful estimates place the amount of square oak timber got out in the Saginaw Valley the present winter at 1,500,000 cubic feet, against 2,500,000 got out during the season of 1873-74. Of the stock put in last year nearly one-half is still on the market.

From the same:—

We are indebted to the Milwaukee *Times* for the following figures of the cut of logs:

	Feet.
Apple River	5,000,000
Clam River	21,050,000
Yellow River	5,450,000
Main Nimescoggin	12,500,000
Totogatic and Frog Creek	20,000,000
Moose, Main, St. Croix, and Eu Claire	10,000,000
Total on Wisconsin streams	74,000,000

Mr. C. N. Nelson, who has visited the logging camps on the Minnesota side, estimates the amount to be cut at about 56,000,000 feet. This would make the total cut on the St. Croix and its tributaries 130,000,000 feet. This is contingent, however, on a favorable spring.

Pennsylvania Notes.

The following summary, taken from the report to the National Association of Lumbermen, shows the estimated quantity of standing white pine, hemlock, and hard wood timber east and west of the Alleghany Mountains in Pennsylvania: Total standing white pine east and west of the Alleghany Mountains, 3,600,000,000 feet; total amount of hemlock in Pennsylvania, 7,000,000,000; total amount of hard wood in Pennsylvania fit for sawlogs, 4,000,000,000.

METALS.—COPPER.—Manufactured is steady as follows: New sheathing 28 cents; bolts and braziers' 30; nails 37@38; bronze and yellow metal sheathing 21; and yellow metal bolts 28 cents net cash. Ingot is dull at 21½@21¾ cents.

IRON.—Scotch pig has been in only moderate demand, but is more firmly held. American pig is limited in movement, and the market has been duller in consequence. Rails are dull and nominal, and scrap has been selling at $33@35. Manufactured from stock is dull at old figures.

LEAD.—Foreign pig is dull with weaker tendencies, which do not as yet develop sufficiently to make any quotable change in prices. Domestic is still quoted at $5.70@5.75. Manufactured is held as follows: Bar 8½ cents, pipe 9, and sheet 9¼, all less 10 per cent. to the trade. Block-tin pipe 45 and tin-lined pipe 16½ cents.

TIN.—Pig continues dull at nominal prices. Plates are weaker abroad and the market is dull here, but without any quotable change for the present.

ZINC.—Sheet is in small supply and steady at 9¼@9½ cents, gold, net.

NAILS.—Cut are steady at recent figures. We quote 10d. to 60d. common fence and sheathing, ₱ keg, $3.35@3.50; 8d. and 9d. common do. ₱ keg, $3.60@3.75; 6d. and 7d. common, ₱ keg, $3 85@4; 4d. and 5d. common do. ₱ keg, $4.10@4.25; 3d. and 4d. light, ₱ keg, $4.85@5; 3d. fine, ₱ keg, $5.60@5.75; 2d. ₱ keg, $6.35@6.50. Cut Spikes, all sizes, $3.60@3.75. Floor, Casing, and Box, 75 cents above the same sizes of Common—Finishing, $1 above, and Fine Finishing, $1.25 above.

CLINCH NAILS.

1¾ to 1½ in.	2 & 2¼ in.	2½ & 2¾ in.	3 in. and longer.
$6@6.50.	$5.50.	$5.25	$5 ₱ keg.

OILS.—Linseed has again declined in price, and has been selling at 73 cents per gallon in casks from crushers' hands. We quote at 73@74 cents per gallon.

PAINTS.—The demand has been moderate, but prices have been generally firm and well sustained. Venetian Red is steady at prices noted in our last. Vermilions have been selling at old figures. Sales of China clay are noted at $1.80@1.90, gold, for Queenstown. Paris green is in demand, with a decline of one cent per lb. for strictly pure.

PITCH.—The market is quiet at $2.25 per bbl. for city, f. o. b.

SPIRITS TURPENTINE.—The market has again weakened, prices receding to 35½ cents. The amount of business has not been large, and the demand has been moderate. We quote at 35½@36½ cents per gallon for merchantable.

TAR—The market has been quiet, and quotations are as follows: Newbern and Washington $2.12½@2.25 and Wilmington $2.25@2.37½ per bbl.

HOBOKEN, N. J.
REAL ESTATE BOUGHT, SOLD, AND EXCHANGED

A GOOD INVESTMENT

EVERY PRUDENT MAN, CAREFUL OF THE

health and comfort of his family, should see to it that his drinking water is conveyed through TIN-LINED LEAD PIPE, which is a perfect safeguard against lead poison. Tin-lined Lead Pipe is strong, durable, flexible, and easy soldered. It is a great benefit to the community, and enhances the real value of every house in which it is introduced. It is cheaper than Lead Pipe, when strength and durability are considered. Sold by the COLWELL LEAD CO., 213 Centre St., New York. Price, 16½ cts. a pound for all sizes. Descriptive pamphlets sent by mail free. Also, manufacturers of Lead Pipe, Sheet Lead, Block Tin Pipe, Bar Tin, Pig Tin, Bar Lead, Pig Lead, Solder, &c. Orders filled at sight.

FERGUSON & CO.,

SPECIAL NOTICE.

We notice in our columns the advertisement of Messrs. Bramhall, Deane & Co., a firm long and favorably known to our patrons and subscribers as manufacturers of cooking and heating apparatus. They have taken the large store, No. 724 Broadway, opposite New York Hotel, and intend to display the largest assortment of goods in their line in this city.

The firm has many friends, and we are sure they will all approve of this step toward the enlargement of their business.

MORTGAGES.

REAL ESTATE.

NEW YORK.

NOTE.—The arrangement of this list is as follows: The first name is that of the mortgagor, the next that of the mortgagee. The description of the property then follows, then the date of the mortgage, the time for which it was given, and the amount. The general dates used as headings are the dates when the mortgage was handed into the Register's office to be recorded.

Wherever the letters "P. M." occur, preceded by the name of a street in these lists of mortgages, they mean that it is a Purchase Money Mortgage, and for fuller particulars see the list of transfers under the corresponding date.

March 18, 19, 20, 22, 23, 24.

NORTH 8TH ST., 175 FROM N. W. COR. 4TH ST., one two-story frame dwelling, 25x27; owner, Martin Smith, 406 2d st., builder, John Rueger.

MISCELLANEOUS.

REVIEW OF THE REAL ESTATE MARKET.

The experiments of the past week have not benefitted the market, which has been shown up in a distressed light. The public offerings were diverse and ample, but fictitious sales and withdrawals were abundant, and only went to show that real estate, as yet, is not strong enough to stand alone. There has been some exception taken to the method in which property was put upon the market, but we cannot blame owners, who refuse to incur the extraordinary sacrifices that the speculative and bearing element would compel.

Private sales reported include the dwellings known as Nos. 3 and 41 West Fifty-sixth Street for $60,000 and $65,000, respectively, and of No. 5 West Fifty-seventh Street for $90,000. Other sales have been made, but reports of all such transactions are hardly reliable, as both sellers and buyers are apt to announce fictitious considerations. There are some important announcements for next month, and it is to be hoped that the temper of the market will change enough to secure a fair return for the property.

We are authorized to announce that the property belonging to Messrs. Duggin & Crossman, which was offered on the Exchange, at upset prices, is still for sale, and persons who desire to obtain the whole or any portion of it may address offers to the owners, at their office, corner of Forty-first Street and Park Avenue.

LOCAL ITEMS.

The Commissioner of Public Works reports the following contracts completed: Ninth Avenue, from Eighty-third to Ninety-second Street, regulating and grading; Sixty-sixth Street, between Boulevard and Tenth Avenue, sewer. Also the following Certificate of the cost of completed Improvements, transmitted to the Board of Assessorss: Ninth Avenue, from Eighty-third to Ninety-second Street, regulating and grading, $55,714.41.

The School Trustees of the Twelfth Ward ask for proposals for Desks and other Furniture, and for Steam-Heating Apparatus for Grammar School on One Hundred and Twenty-eighth Street, between Sixth and Seventh avenues.

The Commissioners for opening Seventy-third Street, from Fifth Avenue to the East River, give notice that they have completed their estimate and assessment, and that objections thereto must be made on or before April 23d. The limits of their assessment begin at a point on the easterly line or side of Fifth Avenue, equidistant from Seventy-third and Seventy-fourth streets; and run thence easterly, and parallel with Seventy-third Street, to the Harbor Commissioners' Line, on the East River; thence southerly along said Harbor Commissioners' Line, on said river, to the centre line of the block between Seventy third and Seventy-second streets; thence westerly, and parallel with Seventy-third Street, to the easterly line or side of Fifth Avenue; and thence northerly, along the easterly line of Fifth Avenue, to the place of beginning. Application will be made for confirmation on the 20th day of May.

The Department of Docks will sell at public auction, at the Exchange Salesroom, on March 31, the right to collect wharfage, for a term of three years, at various piers and bulkheads on the North and East rivers.

The Police Department asks for proposals for the purchase of Garbage, Manure, Ashes, and Street Dirt.

The Commissioners of Estimate and Assessment for opening One Hundred and Twenty-third Street, between Eighth and Ninth avenues, and Tenth Avenue, and the Boulevard, give notice that they have completed their estimate and assessment, and that objections thereto must be made on or before April 27. The limits of their assessment begin at a point formed by the intersection of the westerly line of Eighth Avenue with the centre line of the block between One Hundred and Twenty-second Street and One Hundred and Twenty-third streets; running thence northerly along the westerly line of Eighth Avenue to the centre line of the block between One Hundred and Twenty-third Street and One Hundred and Twenty-fourth street; thence westerly along said centre line to the easterly line of the Boulevard; thence southerly along the eastern line of the Boulevard to the centre line of the block between One Hundred and Twenty-second Street and One Hundred and Twenty-third Street; thence easterly to the place of beginning. Application for confirmation will be made May 25.

The Controller gives notice that the interest on the bonds and stocks of the City and County of New York, due May 1, will be paid on that day, at the Chamberlain's office, and that the transfer books will be closed until that date.

MARKETS.

The markets wore a brighter aspect for a few days, but the stormy weather stopped active operations and demand suspended. There has, however, been a fair share of business doing, and prospects are not altogether discouraging. From the reports of general trade we gather that a better feeling prevails and much reasonable hope for the future. Improvement is manifest, and our export trade is assuming proportions sufficient to steady ocean freights. Money continues plentiful and easy, and seems at a loss for investment. Confidence, when fully regained, will turn more attention to real estate and its improvement, and we may look for a natural change in the temper of our markets. In our review we find some changes and weaker tendencies fairly accounted for, however, and not indicative of disaster, but rather a settling down to the new work that is to be accomplished.

Our report in detail is appended:

BRICK.—Trade, which of course at this season of the year is confined to the yards, has been more active during the week, and for a few days the demand was sufficient to excite pleasanter feelings among dealers. Good hard brick are selling at $8@9.50 in yard and at $9@10.50 delivered. There is very little variation from our quotation, and perhaps more strength because of the limited source of supply. We quote, as usual, Pale, ℔ M, $3@3.50; Jersey, $6 25@6.50; Up-river, $6.50@7.25; Haverstraw Bay, $7.25@8; Fronts, Croton—brown, $12 @13; dark, $13@14; red, $14@15; Philadelphia, $28@32; Baltimore, $50@56. Yard prices, delivery included, $2@3 higher.

CEMENT.—The market for Rosendale is steady at $1.30 per bbl. cash. Sales of Portland indicate a little weaker feeling, and we note one sale of 200 bbls. at $4, ex-vessel. We quote at $4@4.50 per bbl.

FIRE BRICK—Are steady at former figures. There have been sales of 5,000 Scotch at $50, f. o. b. We quote Red Welsh at $50 per M, American at $40@50, and Scotch at $47.50@55.

FOREIGN WOODS.—The market is not as strong as previously reported, and we advance our quotations accordingly.

GLASS.—The season and the new price list have not so far advanced as to admit of much activity in the market, and demand is moderate, while prices, with perhaps a shade of weakness, are about steady at our quotation. The discount for French window is 40 and 5, quoted in some quarters at 40@40 and 10. English sheet is quoted at 20 and 10 per cent. discount on a new list and polished plate is very quiet at 5 per cent. off.

HAIR is dull and nominally steady at former quotations.

HARDWARE.—The market is quite active, as the demand for domestic goods has increased and foreign goods are in fair request. Prices generally are quite steady, but we note some changes, and among them the following: Strap and T. hinges, 35, 10, and 5 per cent. discount; an advance. The Troy Wrought Butt Company's wrought butts are quoted as follows: Narrow, chest, pewdoor, table, back flaps, and light inside blind 30 and 10 per cent. and reversible, broad, and loose joint 35 and 10 per cent. discount. The market for plumbers' goods is irregular, and prices have been so much cut under in the effort to secure trade that they are generally lower.

LATH.—There have been fresh arrivals during the week, amounting in quantity to about the same as last reported, say 2,000,000. Prices have been irregular and the market is weaker, with none in at the time of report, consignments having been closed out at $2@2.25 per M. With a more active demand prices may strengthen. Yard quotations are steady at $2.50@2.75 per M.

LIME.—The market is steady and firm at the recent advance. We note sales of 4,000 bbls. State at $1.25@1.50 per bbl. and of one or two cargoes of Rockland at $1.25@1.65. We quote common at $1.25 and finishing at $1.50@1.65 per bbl. Yard prices are still a little irregular owing to competition, and stocks bought at previously low figures; but we quote them nominally 25 cents per bbl. higher than our wholesale quotation.

LUMBER.—The market for white pine is quiet at nominally steady prices. Yellow pine is quoted steady at $23@25 for ordered schedules, to which trade is confined, as random cargoes are reported unsaleable, with none in market. We note one order for 400,000 feet placed at $23.50 and upon which $22.60 was bid, and afterward withdrawn. Eastern spruce has been rather more active, and we quote at $18@20 for ordered cargoes. Random are dull at $16@19. We note sales of 800,000 feet for early delivery at $19.50, and miscellaneous sales, amounting to about half a million feet, for May delivery, at $18@19. Hardwoods are quiet under conditions previously noted. The yard trade has shown a fair degree of improvement, and during the more favorable weather of the week trade has been of a very fair if not active character. No movement has yet occurred to induce the belief that stronger prices are to prevail except as incident to the usual character of trade in the spring season and the demands of local custom, and our quotations cover the range of the market, and are unchanged.

Michigan and Wisconsin Notes.

The amount of logs put in on the Muskegon River during the past winter, according to the correspondence of the Saginaw *Courier*, is 338,833,083 feet.

From the Saginaw *Courier*, March 17:—

Our reports from the shore mills are nearly complete, and, summarized, show the cut of lumber at the points named during the season of 1874 as follows:

Saginaw River	574,632,771
The Shore	209,540,000
F. & P. M. Railway	57,250,000
J. L. & S. R. R.	53,480,000
S. V. & St. Louis Railroad	31,000,000
Genessee County	98,000,000
Total 1874	1,023,906,771

Our statements for the past ten years give the following record of stocks on hand at the close of the years named at the mills on the Saginaw River:

	On dock.	On dock, sold.	Balance unsold.
1865	41,453,000	22,362,000	10,091,000
1866	44,415,700	14,211,000	30,204,700
1867	69,969,771	19,435,571	50,534,200
1868	67,401,017	13,402,990	53,998,027
1869	98,331,614	14,526 000	78,805,614
1870	130,422.190	47,862,000	82,560,190
1871	75,599,511	33,576,000	42,023,511
1872	152,822,553	40,928,200	111,894,353
1873	222,071,665	30,893,000	191.178,665
1874	213,152,668	23,135,000	190,017,663

From the stock reported on hand unsold at the close of the season of 1874 should be deducted at least 90,000,000 feet, as showing the condition of the market at the present time. Of the amount deducted 30,000,000 is represented in the amount sold since January 1st and 60,000,000 held by firms who operate yards elsewhere.

From the same:—

We have nearly completed returns from every county in Eastern Michigan bordering on the lakes and north of Wayne County, and from reports received we are enabled to present the following summary of the amount of lumber manufactured in Eastern Michigan during the season of 1874:

Saginaw Valley, Shore, and District	1,023,906,771
Huron County	52,000,000
Sanilac County	23,500,000
Tuscola County	13,000,000
Lapeer County	31,000,000
St. Clair County	42,165,389
Wayne County	37,800,000
Other points	12,000,000
Total	1,236,372,120

The Chicago *Inter-Ocean* prints the following communication:

SAGINAW, Mich., March 15, 1875.

George E. Stockbridge, Esq., Secretary Chicago Lumberman's Board of Trade, 258 South Water Street, Chicago, Ill.

DEAR SIR: In answer to your letter of February 27 we would say:

The amount of logs, both new and old, in the Tittabawassee River and all its tributaries will not exceed 360,000,000 feet, and out of that amount must be taken 40,000,000 feet, which consists largely of logs put in three or four years ago, and cannot come to market the present season. This will leave only 320,000,000 feet to come out of the Tittabawassee River and all its tributaries during the season of 1875.

The amount of logs in Beaver Creek and Bad River will not exceed 50,000,000 feet. Out of that amount 20,000,000 feet must be deducted that cannot come out, mostly old logs, having laid back for three or four years, leaving only 30,000,000 feet that can in any event come from those rivers. The Cass River will not have to exceed 30,000,000 feet of logs; the Rifle River not over 80,000,000; the Au Gres not over 30,000,000; the Kaw Kawlin, 14,000,000; and Swan Creek, 1,000,000, making in all 495,000,000 feet of logs to be brought down our rivers this season. Out of this amount must be taken 30,000,000 of feet from Rifle and Au Gres rivers that do not come into this valley, but will go as usual to other parts of the country to be cut up, which will leave us for our mills *here* only 465,000,000 feet, against 574,000,000 feet for the year 1874, and 619,000,000 feet for 1873.

RECAPITULATION.

	Feet.
Tittabawassee, new and old logs	165,000,000
Molasses Creek, tributary of the Tittabawassee	14,000,000
Salt River, tributary of the Tittabawassee	32,000,000
Tobacco River, tributary of the Tittabawassee	20,000,000
Cedar River, tributary of the Tittabawassee	17,000,000
Sturgeon Creek, tributary of the Tittabawassee	9,000,000
Chippewa River, tributary of the Tittabawassee	75,000,000
Pine River, tributary of the Tittabawassee	28,000,000
Beaver Creek and Bad River	50,000,000
Cass River	30,000,000
Rifle River	80,000,000
Au Gres River	30,000,000
Kaw Kawlin River	14,000,000
Swan Creek	1,000,000
Total	565,000,000
Less from Tittabawassee and tributaries	40,000,000
Less from Beaver Creek and Bad River	20,000,000
Less from Rifle and Au Gres rivers	30,000,000
Total amount to be manufactured in the Saginaw Valley for the season of 1875	475,000,000

We have 200,000,000 feet of dry lumber on hand in the valley, being about the usual amount here over winter, which is a little less than was here one year ago.

Our lumbermen are cautious and hopeful, all expecting a fair trade at remunerative prices.

The foregoing statement in regard to the crop of logs is not exactly correct, but we have given you the amount as large as it is in the aggregate. Very truly yours,

RUST, EATON & CO.

P. S.—The logs from the Au Gres River do not come to our valley. They will have 60,000,000 feet of new and 8,000,000 feet of old logs—being about two-thirds the usual amount put in annually. R., E. & Co.

From the Bay City *Chronicle*, March 18:—

An order was received in this city a day or two since for 300,000 feet of pine, cut for use on the new rapid transit railway in New York city.

From the Saginaw *Courier*, March 19:—

From various sources we have compiled the following statement of lumber on hand at various points. The statement is imperfect, but is sufficiently full to show that the stocks of lumber, as a rule, are less than they were a year ago:

	On hand Jan. 1, '74.	On hand Jan. 1, '75.
Saginaw Valley	222,671,665	213,052 668
The Shore	54,913,337	33,500,000
Flint	39,500,000	35,000,000
Port Huron	9,000,000	8,076,579
Sangatuck, Michigan	2,260,617	5,000,000
Grand Haven and Spring Lake	40,000,000	24,500,000
White Lake, Michigan	2,000,000	5,500,000
Big Rapids, Michigan	8,000,000	18,000,000
Newaygo, Michigan	500,000	5,000,000
Muskegon, Michigan	20,000,000	3,000,000
Manistee, Michigan	8,000,000	10,300,000
Pentwater, Michigan	1,000,000	500,000
Ludington, Michigan	13,000,000	3,000,000
Oconto, Wisconsin	10,500,000	7,300,000
Peshtigo, Wisconsin	3,000,000	500,000

Toledo, Ohio	40,000,000	53,750,000
Clinton, Iowa	48,000,000	60,000,000
Dubuque, Iowa	25,000,000	41,300,000
Burlington, Iowa	35,000,000	40,000,000
Quincy, Illinois	15,000,000	15,500,000
Albany, New York	114,000,000	84,550,000
Williamsport	236,806,289	160,120,582
Chicago	327,877,000	344,109,000

From the *Lumberman's Gazette*, March 20:—

A sale was effected at Saginaw Saturday by V. B. Paine of 4,000,000 feet of Chippewa logs of fair quality to H. M. Bradley, of Bay City, for $8 per thousand, in the Tittabawassee boom.

D. Culver sold on the 17th, at Bay City, to Parker & Rogers, of Flint, for the East, 2,000,000 feet, delivered at their mill at Culver's station, J. L. & S. Railroad, half of cut of 1874; balance of cut of 1875 at prices equal to $7, $14, and $35 at Bay City.

Campbell, Potter & Co., of Alpena, report a sale of 1,200,000 feet to Chicago parties at $6, $12, and $33.

The Caseville *Advertiser* estimates the log crop of Huron County, Michigan, at 71,750,000 feet, an increase of 50 per cent. over 1874. The dry lumber on dock ready for shipment at the same point is estimated at 9,800,000 feet.

Canada Notes.

OTTAWA, March 23, 1875.

The lumber market has been more lively the past few days than it has been for many months previous, and considerable lumber has changed hands. At present there are about 65,000,000 feet on the Ottawa market, of which about 30,000,000 feet are sold.

METALS.—COPPER.—Manufactured is steady at quotations given in our last. Ingot is dull, with sales at 21½@21⅝ cents.

IRON.—The market for Scotch pig is very dull, and small transactions only are noted. American pig is quiet, with stocks ample for present requirements, although trade has been hindered by the difficulties of transportation. Scrap is firm at $35, with limited sales, and holders in some instances are asking higher prices. Rails are somewhat nominal, and recent sales of about 10,000 tons have been made upon private terms. Manufactured is rather quiet at old prices.

LEAD.—Foreign pig is dull and nominal at $6.75, gold. Domestic has been more active, and is held firmly at $5.75@5.87½, gold. Manufactured is steady at the following prices: Bar 8½ cents, pipe 9, and sheet 9½, all less 10 per cent. to the trade. Block-tin pipe 45 and tin-lined pipe 16½ cents.

TIN.—Pig is very quiet, straits quoting at 21 cents; L. & F. 20¾@20¾; refined 21; and Banca 25, all gold. Plates are quiet and steady at our quotations.

ZINC—Is unchanged, and we quote sheet at 9¼@9½ cents, gold.

NAILS.—Cut are unchanged in price, but are held more firmly, and we quote 10d. to 60d. common fence and sheathing, ℔ keg, $3.35@3.50; 8d. and 9d. common do. ℔ keg, $3.60@3.75; 6d. and 7d. common, ℔ keg, $3 85@4; 4d. and 5d. common do. ℔ keg, $4.10@4.25; 3d. and 4d. light, ℔ keg, $4.85@5; 3d. fine, ℔ keg, $5.60@5.75; 2d. ℔ keg, $6.35@6.50. Cut Spikes, all sizes, $3.60@3.75. Floor, Casing, and Box, 75 cents above the same sizes of Common—Finishing, $1 above and Fine Finishing, $1.25 above.

CLINCH NAILS.

1¼ to 1½ in.	1¾ & 2 in.	2¼ & 2½ in.	3 in. and longer.
$6@6.50.	$5.50.	$5.25	$5 ℔ keg.

OILS.—The market for linseed is dull and weaker, and sales are limited to jobbing transactions. We quote nominally at 73 cents per gallon from crushers' hands.

PAINTS.—The market is more inactive, demand having fallen off, but prices are quite firmly sustained. White lead is in fair request, with sales of B. B. ground at 10¾@10¾ cents, gold. A decline in the price of Vermilion is anticipated because of a reduction in the price of quicksilver. China clay has been selling at $21, gold, for O. B. S. Venetian Red has been in good request at $1.90 for Crown and C. T. R. and $1.95 for Cookson's, all gold. Ultramarine has been selling freely and ahead of manufacture, and Paris green is still in demand at 18@32 cents.

PITCH.—The market is quiet but steady at $2.25 per bbl. for city, f. o. b.

SPIRITS TURPENTINE.—There has been an improvement in the market; and although the demand has not been large prices are steady at 36 cents. We quote at 36@37 cents per gallon.

TAR—Has been in better request, closing quiet at the following quotations: Newbern and Washington $2.12½ @2.25 and Wilmington, $2.25@2.37½ per bbl.

REAL ESTATE BOUGHT, SOLD, AND EXCHANGED

A GOOD INVESTMENT

EVERY PRUDENT MAN, CAREFUL OF THE health and comfort of his family, should see to it that his drinking water is conveyed through TIN-LINED LEAD PIPE, which is a perfect safeguard against lead poison. Tin-lined Lead Pipe is strong, durable, flexible, and easy soldered. It is a great benefit to the community, and enhances the real value of every house in which it is introduced. It is cheaper than Lead Pipe, when strength and durability are considered. Sold by the COLWELL LEAD CO., 213 Centre St., New York. Price, 16½ cts. a pound for all sizes. Descriptive pamphlets sent by mail free. Also, manufacturers of Lead Pipe, Sheet Lead, Block Tin Pipe, Bar Tin, Pig Tin, Bar Lead, Pig Lead, Solder, &c. Orders filled at sight.

Special Partners.

7t

NOTICE IS HEREBY GIVEN THAT JOSEPH L. Taintor, who resides in the Town of South Orange, New Jersey; and Charles N. Taintor, who resides in the City of New York; and Charles E. Merrill, who resides in the City of New York; and John E. Gillette, who resides at Greenport, Columbia County, New York, have formed a limited partnership in accordance with the provisions of the Revised Statutes of the State of New York in the business of manufacturing, printing, publishing, and selling books and other publications, in which the above-named persons are all the parties interested therein; that the said Joseph L. Taintor, Charles N. Taintor, and Charles E. Merrill are the general partners; and the said John E. Gillette is the special partner; that the said John E. Gillette has contributed, and paid in in cash, the sum of Twenty Thousand Dollars as capital toward the common stock; and that the said partnership is to commence on the first day of January, 1875, and is to terminate on the first day of January, 1880.

Dated New York, February 13, 1875.

JOSEPH L. TAINTOR,
CHARLES N. TAINTOR,
CHARLES E MERRILL,
JOHN E. GILLETTE.

J. T. CAMP & CO.—IN CONFORMITY WITH the statute concerning limited partnerships,

We, the subscribers, do certify that we have formed a limited partnership, to be conducted under the name and firm of John T. Camp & Co., at New York City, in the business of manufacturing ladies' dress and cloak trimmings and such other articles as are usually made in connection therewith. The subscriber, John T. Camp, whose place of residence is in the township of East Orange, Essex County, State of New Jersey, is interested in said partnership as a general partner; the subscriber, Paul Todtschinder, whose place of residence is No. 60 Rivington Street, New York City, is likewise interested in said partnership as a general partner; and the subscriber, Christopher Hitzelberger, residing in the township of East Orange, Essex County, State of New Jersey, is interested in said partnership as a special partner, and, as such, has contributed seventeen thousand five hundred dollars ($17,500) of capital to the common stock. The said partnership is to commence on the first day of March, 1875, and to terminate on the first day of March in the year 1876.

Dated New York, March 1, 1875.

JOHN T. CAMP,
P. TODTSCHINDER,
C. HITZELBERGER.

DISSOLUTION.

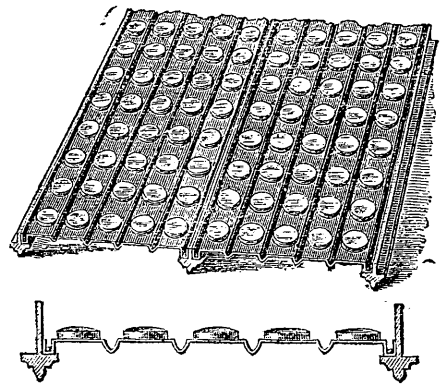
NEW YORK, March 20, 1875.

The co-partnership heretofore existing between the subscribers, under the firm name of HUBERS & MADDEN, is this day dissolved by mutual consent.

The affairs of the firm will be settled by Chas. Hubers, who alone is authorized to sign in liquidation.

CHAS. HUBER, WILLIAM O. MADDEN.

NEW YORK, March 20, 1875.



The undersigned will continue the business of cutting stones, heretofore carried on by Hubers & Madden, at Seventy-ninth Street and East River. CHAS. HUBER.

NEW YORK BOOKBINDERY.

Established 1836.

The best bookbinding at the lowest prices. Large Family Bibles, all Illustrated Works, Doré Works, Atlas, Music, Class-Books, bound in every description of beautiful and elegant styles. Reviews, Magazines, Newspapers bound to pattern. We are sure we can not be excelled in workmanship, quickness, or prices, having all the improvements in tools and machinery that are used in bookbinding. We ask a trial to secure your patronage. E. SOAPSTONE WASH TUBS.

A MUCH AND LONG NEEDED IMPROVEMENT.

None More Simple & None so Durable.

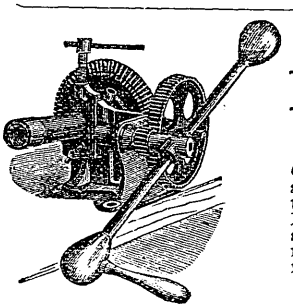
We are now manufacturing in this city to order, Wash Tubs and Sinks of the celebrated Francetown Soapstone.

Of the annoyance, costly repairs, and filthiness of our present wash tubs the public need not be told—experience has taught them. The superiority of them over wood is, they do not absorb the wash water and slops, consequently preventing that *disagreeable odor* in the house. They are easily kept sweet, clean, and dry *They are not affected by hot or cold water. Never crack or leak.*

Cheaper than Wood, and will last a Lifetime.

They only need to be seen to be appreciated. All interested we invite to call and examine them at our warerooms.

ALSO, MANUFACTURERS OF



Soapstone Grate and Stove Linings, Register Frames.

SLAB STONE CUT TO ORDER.

Wash Bowl Tops, Dish Heaters, Foot Warmers, &c., &c.;

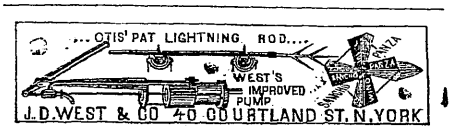
CHASE'S
PIPE CUTTING & THREADING
MACHINE.



This important tool is designed to fill a want long felt by STEAM AND GAS FITTERS and MACHINISTS for cutting and threading pipes rapidly and cheaply. An apprentice boy, with one of these, can do more work than two men with old appliances, under the old system. NO PIPE SPLITTING! NO BEVEL INSIDE OR OUT! It cuts threads and makes nipples for all sizes of pipes, from ⅛ to 2 inches. Weighs only 100 lbs. Stronger than any machine made. A set of collars and lengths for making nipples goes with the machine. Address THE CHASE MANUFACTURING COMPANY,

PERSONAL.

Our readers are probably aware that a bill has been introduced into the Assembly comprising, in substance, the following sections:

First.—Forbidding the insertion of a greater amount than the actual consideration in any deed for the conveying of real estate in this city and Brooklyn, and constituting the violation of this section *prima facie* evidence of fraud.

Second.—Authorizing the Registers of New York and Brooklyn to allow the REAL ESTATE RECORD to make brief memoranda of deeds and mortgages sent in for record.

Third.—Authorizing the REAL ESTATE RECORD to charge twenty cents for each recorded instrument thus published, and to collect the same from the parties offering the documents for record.

A few of the reasons for the introduction of this bill are:

The insecure condition of the Register's office in case of fire, whereby documents affecting property valued at more than $3,000,000,000 may be destroyed any day.

The consequent necessity of having in such a contingency some suitable evidence of the record and contents of all instruments required by law to be filed in the Register's office.

[It will be remembered that the great Chicago fire destroyed all the records, the loss of which cause until this day innumerable litigations. Had not memoranda, similar to those now required to be made by this proposed Act, been preserved by certain parties, everything would have been in still more inextricable confusion.]

The time has come that the consideration stated in all deeds should represent the actual value of property so transferred, and that reckless speculators shall no longer be permitted to insert fictitious values in their deeds so as to mislead the unwary. The same section will also obviate the frequent disputes between assessors and tax-payers in regard to the true valuation of property.

The passage of this Act will at once ensure the immediate detection of forgeries of deeds and other instruments—such as were revealed last year, and as explained by Mr. Glover's letter republished below—and it will, in fact, bring to light all errors made in any recorded instrument, whether the result of gross carelessness or otherwise.

On and after the passage of this Act, property owners can refer to the REAL ESTATE RECORD as an official journal, and thereby ascertain whether their agents or attorneys have properly discharged the duties required of them in relation to the final recording of all documents, in the exact manner and form as agreed upon by the parties in interest.

The introduction and the passage of this Act can not possibly justify the cry of "jobbery" raised by some journals, as the total amount involved can not at the utmost reach a sum more than to defray the expense required for the proper discharge of the duties imposed by this Act.

The REAL ESTATE RECORD stakes its reputation on the honesty of purpose and fair intent of this bill, which is more the creature of leading 'property owners in New York than of the proprietors of this journal.

99 NASSAU STREET, New York,
Sept. 10th, 1874.

Editor Real Estate Record.

SIR: I think it my duty to say to you that it was by means of your publications alone that my clients and myself were put upon inquiry in respect to the fraud recently attempted upon the estate of Isaac Young by the recording of a forged deed.

I have been a subscriber to and a reader of the RECORD from the time of its first issue, and have found it very useful. And it was in consequence of a prompt perusal of your number of last Saturday that I was able to detect the crime which had been committed and to put the officers of justice upon the track of the criminals.

Had it not been for your publication the deed would have been obtained from the Register's office, my clients' title would have been clouded by it, and we should have had no clue whatever to the perpetrators of the wrong.

I am, your obedient servant,
CHARLES H. GLOVER.

MECHANICS' LIEN LAW.

Senator Gross has introduced in the Senate a most important bill defining and limiting the liens of contractors, laborers, and others, upon real estate in the City of New York, some of the leading provisions in substance being as follows:

Every person performing labor upon, or furnishing materials to be used in the construction, alteration, or repair of buildings or other structures, has a lien upon the same for the work done or materials furnished at the instance of the owner or his agent, which shall be preferred to any grant, lien, mortgage, or other incumbrance attaching subsequent to the time when the building was commenced, work done, or materials were commenced to be furnished; also to any lien, mortgage, or other incumbrance, of which the lienholder had no notice, and which was unrecorded at the time the building was commenced, work done, or the materials commenced to be furnished. The original contractor, within sixty days after the completion of his contract, and every person save the original contractor, claiming the benefit of this act, must within thirty days after the completion of the building, or after the completion of the work or the furnishing of the materials for which the lien is claimed, file with the County Clerk a claim containing the residences of all the claimants, and a statement of the demand after deducting all just credits and offsets, the name of the owner or reputed owner, and also the name of the person by whom he was employed or to whom he furnished the materials, with a statement of the terms of his contract, &c., and the contract, if in writing, must be filed with the claim. If the claim is filed against two or more buildings, the person filing such claim must designate the amount due to him on each of such buildings, otherwise the lien of such claim is postponed to other liens. No lien binds the property for a longer period than ninety days after the claim has been filed, unless an action be commenced within that time. The manner and form of instituting such actions, are the same substantially as in actions for the foreclosure of mortgages upon real property. In lieu of a deposit with the clerk, the lien may be discharged by the filing of a bond in such sum as the Court may direct for the payment of any judgment which may be rendered against the property. Claims are also authorized to be filed against the owner of any lot in the city, who directs any person to grade, fill in, or improve the same, or the sidewalk or street in front of the same.

DECISIONS REPORTED IN LAST VOLUME COURT OF APPEALS.

One Brown was and had been the agent of Bain, in the management of the property in question, and authorized to negotiate its sale. In pursuance of his authority to sell, Brown, on the 16th of April, 1867, contracted to sell it to one Sudlow, for $17,000, and signed the contract, in the name of Bain, his principal. On the following day he advised Bain of this sale. On the next day Brown was applied to by one Frankenheim, to purchase the property, and opened a negotiation with him for a sale of it, at $25,000. The day after he closed a bargain with Frankenheim for the sale of the property at $26,000. On the Monday following, Brown entered into a written contract in his own name, as seller, with Frankenheim as purchaser, for the sale of the property to him at that price. On the same day he received from Sudlow an assignment, purporting to be in consideration of $500, whereby Sudlow assigned to him the contract which he held for the purchase of the property at $17,000. The real facts and the price to be paid were not communicated by Brown to his principal. In the deeds which Brown sent to his principal for execution, and which he executed and intrusted to Brown for delivery, the consideration was left blank, but these blanks were afterward filled up by Brown with sums amounting to $17,000. On the delivery of these deeds, Frankenheim paid to Brown, in cash and mortgages, $26,000, for only $17,000 of which Brown accounted to his principal. Brown appropriating the difference to his own use. The *Court held* that Brown, as a faithful agent, was bound to give his principal the benefit of the advance, and could not rightfully appropriate it to himself. "If such a transaction as is exhibited in this case could stand for a moment, the well established rules that an agent to sell cannot himself become a purchaser, and that one who undertakes to act for another, in any matter, shall not in the same matter act for himself, would be so easy of evasion that they would cease to be of any practical value. When agents, and others acting in a fiduciary capacity, understand that these rules will be rigidly enforced, even without proof of actual fraud, the honest will keep clear of all dealings falling within their prohibition, and those dishonestly inclined will conclude that it is useless to exercise their wits in contrivances to evade it."

A clause in a chattel mortgage upon a stock of goods, which purports to extend the lien of

the mortgage over after acquired property, does not render the mortgage absolutely void, where there is no arrangement permitting the mortgagor to sell or deal with the goods mortgaged, and no knowledge of any sales on the part of the mortgagee, and the absence of an intent to defraud creditors is affirmatively found.

In an action against an indorser on a promissory note, as follows:

$175. WHITEHALL, N. Y., Nov. 27, 1868.
——— after date I promise to pay Wm. McGrath or bearer $175 at ——. E. D. LANDON.

Chief-Justice Church held "That after such indorsement, the maker of the note had an implied authority to fill the said blanks by inserting the time and place of payment, but he had no authority to add the words 'with interest,' on the ground that the liability of the indorser was thereby increased, and that the maker had no more right to add those words than he had to increase the sum, for which the note was given by adding the amount of the interest to it for the time the note had to run. The indorsement was for a specific sum, which conferred no authority upon the maker to change or alter it. If it did, indorsers would occupy a perilous position. An indorsement of a note for a $1,000 would authorize the maker to change it to $10,000. It matters not whether the amount is large or small, the principle involved is the same."

MORTGAGES.

REAL ESTATE.

NEW YORK.

NOTE.—The arrangement of this list is as follows: The first name is that of the mortgagor, the next that of the mortgagee. The description of the property then follows, then the date of the mortgage, the time for which it was given, and the amount. The general dates used as headings are the dates when the mortgage was handed into the Register's office to be recorded.

Wherever the letters "P. M." occur, preceded by the name of a street in these lists of mortgages, they mean that it is a Purchase Money Mortgage, and for fuller particulars see the list of transfers under the corresponding date.

March 25, 26, 27, 29, 30.

WASHINGTON AV., W. S., 175 N. MYRTLE AV., three two-story brick dwellings, 20x40; owner, Peter Stalknecht, Washington av.; architect, J. D. Reynolds; builder, James Rull.

MISCELLANEOUS.

REVIEW OF THE REAL ESTATE MARKET.

The season has well advanced and the market continues dull, Numerous public sales, which were well attended occurred during the week, and many parcels of property were sold. Good prices were exceptional and low rates generally prevailed. There was nothing to warrant enthusiasm, and bidding although at times competitive, was cautious and dilatory. Unimproved property on the line of the Central Park seemed to have no market, and lots on Fifth Avenue were withdrawn for lack of bids. The prices paid for some of the property sold were very inferior, and doubtless afforded the greatest satisfaction to the purchasers. Private transactions are limited, as will be seen by reference to the records, which do not compare favorably with former occasions. Notwithstanding all the depression, the market is not in a desperate strait. Time must be given it for recovery, which must ensue when the favorable results of mercantile pursuits are assured. General trade is slowly gaining strength, and confidence and hope are of frequent expression. Patience will bear its own reward to our market, and for this we must wait.

Rents show further decline. Dwellings are to be had more cheaply, and we know of first class houses in favorable locations near the Park to be had on extravagantly low terms. Concessions in this particular are increasing as the season advances, and many owners are willing to accept the situation upon short contracts.

TO GENTLEMEN OF WEALTH.

FOR SALE OR TO LET, ROBINSWOOD, for twenty years the country seat of Stewart Brown, Esq., of Brown Bros., situated on the shore of Whitestone Bay, Long Island, one hour from the City Hall, by Central Railroad of Long Island. This property contains thirty-

five acres, elegantly laid out, paths and groves with magnificent shrubbery, a fine substantial mansion, giving a full view of Long Island Sound, the Eastern shipping of the port passing within plain sight of the piazza; also a gardener's cottage, green-house, barn, stables, boat-house, and bathing-house.

There are few, if any, places in the suburbs of New York which equal this English bit of landscape, which is just suited for the residence of a gentleman of wealth and position. It adjoins the property of W. W. Cryder, and the owner prefers to sell it in its entirety, as the property is too fine to be cut up. Price $100,000. Inquire of Mr. Brown's Attorney, Geo. W. Van Siclen, 99 Nassau Street, New York.

BUREAU FOR THE COLLECTION OF ASSESSMENTS.

Property owners are notified that assessment lists for the purposes designated below have been lodged for collection. The limits of property affected thereby have been heretofore published in this paper.

Third installment of the Third Avenue, Morrisania, assessment.

All payments made on the above assessment on or before May 31, 1875, will be exempt (according to law) from interest. After that date interest will be charged at the rate of seven (7) per cent. from April 1, 1875.

Eightieth st., 9th av. to River Drive, regulating, grading.

One Hundred and Thirteenth st., 3d av. to Harlem River, regulating, grading.

St. Mark's Place, e. s., between 2d av. and No. 48, flagging.

Tenth av., from Fifty-second to Fifty-third st., flagging.

Eleventh st, n. s., from Avenue D to the East River; also on east side of Avenue D, from Eleventh to Thirteenth st., curb and gutter.

Third st., from Goerck st. to East River, curb and gutter.

Bank st., from West st. to Thirteenth av., paving.

Eleventh st., from 100 feet east of Avenue D to the East River, paving.

Twenty-fourth st., from Eleventh av. to North River, paving.

Thirty-first st., between Fourth and Lexington avs., paving with Belgian pavement.

Fifty-second st., between Fourth and Fifth avs., paving with Belgian pavement.

Thirteenth or Exterior av., between Twenty-third and Twenty-fourth sts. (half the block), paving.

One Hundred and Thirty-eighth st., from Eleventh av. or Boulevard to Hudson River Railroad, paving.

Fifty-seventh st., between Fifth and Sixth avs., fencing lots.

Lewis st., between Houston and Sixth sts., sewers.

Fifty-sixth st., between Sixth and Seventh avs., sewers.

Lexington av., between Sixty-seventh and Sixty-eighth sts., sewers.

All payments made on the above assessments on or before May 24, 1875, will be exempt (according to law) from interest. After that date interest will be charged at the rate of seven (7) per cent. from March 9, the date of confirmation.

BUSINESS CHANGES.

MARKETS.

Confident expression and cheerful hope of improving business come from all quarters, and although when brought to detail facts may not seem to warrant such conclusions, the temper of trade in the aggregate is certainly better. There has been local activity in the markets within our review, and fairer weather has helped vastly to change their aspect. Real estate, the last of all markets to move, continues dull and inactive, but only needs new life and strength to complete the harmony and aid recovery. Money is still easy with an increasing demand, to which the calls of the stock market are constantly adding. A little more stringency will not be bad, and will probably benefit trade. Our markets show some variations, but nothing of importance for specific remark outside of the review in detail, which we append.

BRICK.—Demand has been quite active, and stocks of North River brick have been pretty well disposed of. We are told that no Haverstraw Bay brick are in market, except a few small and odd lots of a trivial character. The earlier arrivals, therefore, after the opening of the river will doubtless bring good prices. New Jersey brick are stronger, selling at $7, and Long Island and Staten Island brick are held at $8.50 for cargo lots. We quote Pale, ℔ M, $——; Jersey, $7@7.50; Long Island, $8.50; Up-river, $——; Haverstraw Bay, ——; Fronts, Croton—brown, $12@13; dark, $13@14; red, $14 @15; Philadelphia, $28@32; Baltimore, $50@56. Yard prices, delivery included, $2@3 higher.

CEMENT.—The market is quiet but steady at our quotations. Trade not been very active during the week, and whatever has been doing was confined to jobbing transactions. We quote Rosendale, $1.30 per bbl.; Portland, $4.25 ex-vessel and $4.50@4.75 from store.

FIRE BRICK—Have not been active, and no movement has been reported. We quote the market steady at former figures, viz.: American, $40@50; Red Welsh, $50; and Scotch, $47.50@55 per M.

GLASS.—The market is quiet with a moderate demand, French window selling at 40 and 5 per cent. discount. English sheet is quoted at 20 and 10 per cent. off and polished plate is dull at 15 per cent. discount.

HAIR—Is quiet and nominally steady at our quotation, selling somewhere within its range and inclining to the lowest figures. We quote as before.

HARDWARE.—Activity is increasing and domestic trade is coming up very fairly. There have been some changes in prices, which we note as follows: Copper rivets and burrs, No. 7, 49 cents; No. 8, 50; No. 9, 52; No. 10, 54; No. 11, 56; No. 12, 58; No. 13, 60; No. 14, 65; No. 15, 70; discount 20 per cent. Cast butts (narrow fast), new list, 1 inch, 45; 1¼, 48; 1½, 50; 1¾, 55; 2, 60; 2¼, 65; 2½, 77; 2¾, 80; 3, 95; 3¼, 100; 3½, 120; 3¾, 130; (broad fast), new list, 4x4, $2.70; 5x5, $5.35; 6x6, $8.

Discounts.	Drilled.	Common.
Narrow Fast	25 and 10 ℔ cent.	30 and 10 ℔ cent.
Broad Fast	35 and 10	40 and 10
Loose	45 and 10	50 and 10
Parliament	35 and 10	40 and 10
Mayer's	35 and 10	40 and 10

Common carriage bolts are quoted at 75 ℔ cent. discount.

LATH.—There has been a further decline, arrivals having been rather free during the week, aggregating about 3,500,000. All of these were sold at $1.75@2 per M, the greater portion of them at the former price. Consignees, however, show a firmer disposition, and have refused to take any orders for laths to arrive at less than $2. We quote at $1.75@2 per M for cargoes. Yard prices are somewhat irregular, and we quote at $2.25@2.50 per M.

LIME.—There are not any new features in this market, which remains firm under conditions before noted. There have been several arrivals of Rockland, which were taken up as they came, the demand and the supply being about on even terms. We quote common at $1.25 and finishing at $1.50@1.65 per bbl. Yard prices 25 cents per bbl. additional.

LUMBER.—The market for white pine is quiet, but prices are stronger and cargoes for export are quoted at $20@22. Yellow pine has been dull, and we have not heard of any sales on local orders. Trade from Southern ports is said to be increasing; principally on domestic and West Indian orders. South American cargoes from Georgia and Florida ports are quoted at $16 @18, and one bill of 600,000 feet from Brunswick to River Plate has gone forward on vessels' account. West Indian cargoes are quoted at $14@16. We quote this market steady at $23@25 for orders, while random are hard to place. There has been some business done in spruce, and we note sales of 350,000 feet ordered at $18@19. There have been sales of 500,000 feet random to arrive at $17@18.50. The market, however, is weak, and concessions are expected and made. We quote at $16@20. Hardwoods continue steady if not very active. The yard trade has been improving, and the weather has favorably affected the retail market. The call for spring improvements has been increasing, and the numerous alterations in buildings and store fittings, together with the general business demand, has stirred up the dealers and kept them fairly busy. Quotations are unchanged.

General Western Notes.

Minneapolis (Minn.) correspondence Chicago *Times*:

"The prospects are that we will have a short lumber crop this year compared with last year. On Rum River and the upper Mississippi only about 156,000,000 feet have been cut. There are now 10,850,000 feet of logs in the river at this point, making only about 167,000,000 feet the total for this year. Last year Eldred's shingle mill started early in May; this year the mills will probably not begin to run much before the last of June or first of July. We have in this city 8,000,000 feet of lumber on sticks, of which only about 1,000,000 is first and second class, whereas these qualities should be 25 per cent. of the entire amount."

From the Dubuque *Herald*, March 13:—

The lumber trade is characterized with an increased trade and a firmer feeling all around. The demand opened up lively last week, rail shipments being double the amount of the preceding week, and an active retail trade to help swell the volume of business. There is more or less prophecying about a freshet this year when the snow leaves, as there is an unusual depth all through the pineries. A freshet depends entirely upon the manner in which the snow goes off: if it melts gradually without rain there will be no unusual quantity of water; but if it melts with a rain storm then a freshet will be in order.

A sale of logs to city manufacturers is reported. L. P. Hough & Co., shingle makers, purchased a string of logs at La Crosse at $10 per M, to be rafted at buyer's expense.

The farmers are taking advantage of the sleighing and hauling out lumber, taking principally stock boards and fencing, of which the supply is reduced to a low volume.

Pinery news is to the effect that a superabundance of snow has crippled operations somewhat in the woods and broken up several camps on the Black River. The snow up there, aside from being deep, is "mealy" and refuses to pack, the weather having been cold and freezing all winter and no thaw to make a bottom.

Minneapolis dealers hold firm at the recent advance and talk of another rise ere long.

Michigan and Wisconsin Notes.

From the *Lumberman's Gazette*, March 27:—

There has been no material change in the conditions since our last report. The winter holds on in the West with unwonted severity. No sooner does a thaw begin than it is quickly succeeded by a new flurry of snow and frost more or less severe. The ice in the lakes and rivers is of unprecedented thickness and extent, and the prospects for the opening of navigation are anything but promising. At the present time in Michigan, however, the backbone of the winter appears to be broken, and the snow is rapidly melting. The surface of the ice in the streams is covered with water, and the question whether or not the great quantities of snow will melt and run off on the surface will apparently soon be solved.

In the meantime lake men are making haste slowly in their preparations for the season's business. The general feeling among this class, as well as among the lumbermen, is that with the necessarily short season prices must be somewhat improved and business be more satisfactory. The season thus far certainly favors this expectation.

Occasional inquiries are made for lumber and timber and a few sales have been reported on private terms. The feeling among manufacturers is good.

A Minneapolis dispatch of March 24th has the following information: "The prospects are that we will have a short lumber crop this year compared with last year. On Rum River and the Upper Mississippi only about 156,000,000 have been cut. There are now 10,856,000 of logs in the river at this point, making only about 167,000,000 the total for the year. Last year Eldred's shingle mill started early in May. This year the mills will probably not begin to run much before the last of June or the first of July. We have in this city 8,000,000 of lumber in sticks, of which only about 1,000,000 feet is first and second-class, whereas these qualities should be 25 per cent. of the entire amount. A similar shortage is reported from Michigan and Wisconsin provinces."

Southern Notes.

From the Baltimore *Market Journal*, March 13:—

YELLOW PINE.—We have very little change to note since our last issue. Of Maryland and Virginia there is sufficient arriving for the demand. To maintain present prices even the mills should continue to ship very sparingly, otherwise we may look for lower prices than have ever yet been reached in this market. Receipts of Southern siding have been very heavy and the market is really overstocked, more especially of 5-4. We would again urge the mills as far as possible to confine themselves to cutting bills.

WALNUT.—Market shows some improvement. Good plank, 1¼ to 6 inches thick, in demand as well as seasoned newel stuff.

POPLAR.—Large supply 5-8 and 4-4, both from Indiana and West Virginia, still on hand, and no improvement in prices expected before spring.

WHITE PINE.—Not much arriving, but sufficient for present wants, the demand being very limited.

CORD WOOD.—A very fair supply again on wharves, and a slight decline in price since our last report.

CYPRESS SHINGLES.—An overstock of all grades on the market, with but few sales being made at this season of the year; demand will be very limited until opening of spring trade.

To effect sales at present concessions have to be made.

METALS.—COPPER.—Manufactured is steady at the following quotations: New sheathing 28 cents; bolts and braziers' 30; bronze and yellow metal sheathing 21; and yellow metal bolts 23 cents per lb. net cash. Ingot has been more active, with sales of Lake at 21¼ cents cash and 21⅝ cents for April delivery, the market closing stronger at 21⅛@21⅝ cash.

IRON.—There have been fresh arrivals of Scotch pig, mostly placed in advance, and the market is now rather dull and movement is limited to small parcels. American pig is quiet with, perhaps, a shade better feeling in some respects, not enough, however, to warrant any very sanguine expressions. Rails have been in improved request, with sales of new English sufficient to largely reduce stocks and stiffen prices. Old are dull. Scrap is quiet but firm, with rumored transactions which have not been made public. Manufactured is dull and store prices are unchanged.

LEAD.—Foreign pig is dull and nominal at $6.50@6.62½, gold. Sales of 50 tons soft Spanish to arrive are reported at $6.75, gold. Domestic is firmer at $5.75@5.90, gold. Manufactured is steady at former prices, viz.: Bar 8⅝ cents, pipe 9, and sheet 9¼, all less 10 per cent. to the trade. Block-tin pipe 45 and tin-lined pipe 16½ cents.

TIN.—Pig is quiet, straits quoting at 20¾ cents, L. & F. 20, and Banca 25, gold. Plates are not in active demand, but are in some respects firmer, and our quotations are retained.

ZINC.—Sheet is in limited request, but is firmly held at 9¼@9½ cents.

NAILS.—Cut are weaker owing to the offering of hypothecated Western at low prices. The demand is small and the market is quiet. We quote 10d. to 60d. common fence and sheathing, ℔ keg, $3.25@3.50; 8d. and 9d. common do. ℔ keg, $3.50@3.75; 6d. and 7d. common, ℔ keg, $3.75@4; 4d. and 5d. common do. ℔ keg, $4@4.25; 3d. and 4d. light, ℔ keg, $4.75@5; 3d. fine, ℔ keg, $5.50@5.75; 2d. ℔ keg, $6.25@6.50. Cut Spikes, all sizes, $3.50@3.75. Floor, Casing, and Box, 75 cents above the same sizes of Common—Finishing, $1 above and Fine Finishing, $1.25 above.

CLINCH NAILS.

1½ to 1½ in.	2 & 2½ in.	2½ & 2¾ in.	3 in. and longer.
$6@6.50.	$5.50.	$5.25	$5 ℔ keg.

OILS.—Linseed has been dull at 72@73 cents per gallon for casks from crushers' hands. The market closed with a better demand, but with rumors of sales at lower prices, which, however, lacked confirmation.

PAINTS.—The market has been generally quiet with occasional activity, prices being well sustained and steady. China clay has been at $25 for Cornwall and with other sales at $20@21, gold. Vermilions have been in fair demand, American quicksilver selling at $1.50, Trieste at $1.45, and China at $2.50, all gold. The unsettled feeling in quicksilver has, however, disturbed the market and quotations are not certain. White lead is selling at 9½@10¾, gold. Venetian Red has been in good request at $1.90 for Crown and $1.95 for Cookson's, all gold. We note sales Paris white at $1.80 for Queensgate and $1.85 for Crown, both gold.

PITCH.—City has been in request at $2.25 per bbl., f. o. b.

SPIRITS TURPENTINE.—The market has been quiet, with a moderate demand at 36 cents per gallon for merchantable. We quote at 36@37 cents per gallon.

TAR.—Demand has been light and the market is quiet at $2.12½@2.25 for Newbern and Washington and $2.25@2.37½ for Wilmington.

Official Report of the important meeting of the West Side Association, held at Harvard Hall, 729 and 731 Sixth Avenue, on the evening of March 18, 1875.

The West Side Association was organized in the year 1866 for the purpose of promoting West Side improvements and protecting the interests of property owners. It makes no qualification for membership.

All persons who own or represent property west of the Central Park, and northwardly as far as the jurisdiction of the Department of Public Parks extends, are entitled to become members, and all such persons are welcomed to the meetings, and are invited to participate in the discussions. It is an association of the people to create and concencrate public opinion in support of West Side measures, and by the power of this public opinion, which is the greatest political force in existence, to accomplish results beneficial to the public and to the legitimate interests of property-holders.

The chairman of each of these committees is charged with the duty of investigating the subjects committed to him and of accumulating facts and information for the association. Whenever, therefore, any question of local interest arises in regard to any particular street improvement, it will be practicable for the property owner to obtain information from the officers of the association; and if a representation ought to be made to any public officer or department, the committees will attend to it alone, or in connection with a local delegation.

By this means the power of the association is exerted in favor of an individual property owner, and in support of the right side of any question of local improvement.

The officers of this association for 1875 are:

President—WILLIAM T. BLODGETT.
Secretary—FRANCIS M. JENCKS.
Treasurer—PHILIP G. WEAVER.

Executive Committee.

TRANSIT,	TAXATION,
LOCAL IMPROVEMENTS,	LEGISLATION,
ASSESSMENTS,	FINANCE.

THE MEETING AT HARVARD HALL.

On the evening of Thursday, March 18, one of the most important meetings ever held by this association, and which was attended by numerous property owners, assembled at Harvard Hall, corner Forty-second Street and Sixth Avenue. There was hardly a seat vacant in the large hall, and at no time since the history of the association was such a determination evinced on the part of all assembled to urge upon the authorities the necessity of improving the West Side and continuing to make the metropolis what it is destined to be, under able management, the fairest city on the face of the globe. The following is a full report of the meeting, which was called to order by the President.

REMARKS OF MR. WILLIAM TILDEN BLODGETT.

The objects of this meeting I suppose are well understood by those present, as they were alluded to in the invitations to the meeting which were sent to the owners of property north of Fifty-ninth Street and west of Central Park. They are, briefly, to present the views of property holders in regard to the completion of certain improvements for which assessments have been levied and paid, and in regard to the laws now before the Legislature for providing the means of securing rapid transit, &c. The West Side Association has lately been reorganized, its object being to protect and advance the interests of property owners in this city, and particularly the interests of those owning property in what is commonly known as the West Side, being that portion north of Fifty-ninth Street and west of the Eighth Avenue. At a recent meeting of the Executive Committee a sub-committee was appointed to draft resolutions, to be presented to this meeting, upon the subjects before referred to. Mr. Olmstead, the chairman of that committee, will present to you the resolutions. The present is an exceedingly important time for the property owners, in which they should not fail to act.

At the conclusion of Mr. Blodgett's remarks, Mr. Dwight H. Olmstead was introduced, and read the following:

REPORT OF THE EXECUTIVE COMMITTEE.

At a recent meeting of the Executive Committee of the West Side Association, the undersigned having been appointed a committee to express, in the form of resolutions for the action of the Association, the views of the Executive Committee relative to up-town improvements, assessments, Rapid Transit, and the resignation of its late President, William R. Martin, Esq., beg leave to submit the following report.

Whereas, Several years since, certain public improvements were initiated by the authorities of this City, and assessments levied therefor upon adjacent property, for the benefit supposed to be derived from such improvements, which assessments have been paid, or are now a lien upon the land, bearing twelve per cent. interest; and

Whereas, The improvements for which such assessments were levied, have not been made, but the work thereon stopped, under the specious but unsound plea of economy and retrenchment, and that the city is unable to bear the burden of advancing the money to pay for the same; and

Whereas, The local assessors have, year by year, increased the assessed valuation of such property, for the purpose of taxation, upon the assumption that the property so assessed has been benefited by these improvements, and its value thus greatly enhanced, therefore

Resolved, That this Association demands, as a matter of right and common justice, that the public improvements, for which asessments have already been imposed, shall be completed without further delay; and, particularly, that Morningside Park and Avenue, and Riverside Park and Avenue, be completed according to the designs and plans adopted by the Department of Public Parks.

Resolved, That the best administration of our municipal affairs would involve, not only fidelity and economy in the public expenditures, but the prompt, vigorous, and effective prosecution of all the great public improvements so wisely planned; the completion of which would add largely to the assessable value of all up-town property, and thus reduce the tax-rate in the entire city.

Resolved, That in view of the present low price of labor, the needs of the workingmen, and the excellent credit of the city, it is both the interest and the duty of the city at once to commence and finish the public works above referred to.

Resolved, That this Association recognizes the absolute necessity of some immediate means of Rapid Transit, regarding it as essential to the continued prosperity and growth of this city, and respectfully urges the city authorities to devise some means for its accomplishment, believing that the people will hold them strictly responsible for their failure to do so.

Resolved, That while this Association regrets the resignation of its late President, William R. Martin, Esq., rendered necessary by his appointment as a member of

the Board of Commissioners of the Department of Public Parks, it desires to record its approval of such appointment, and its high appreciation of his past services while connected with this Association, and of his ability, energy, and wise judgment, in all which concerns the best interests of this City.

DWIGHT H. OLMSTEAD,
JOHN W. PIRSSON,
CYRUS CLARK,
Committee.

The above report and resolutions were unanimously adopted, and the meeting listened with great attention to the following:

REMARKS OF MR. DWIGHT H. OLMSTEAD.

Mr. President and Gentlemen: The late President of this Association, Mr. Martin, in his recent Report to the Department of Public Parks, has shown conclusively the benefit to accrue to the city at large from the completion of the projected improvements particularly referred to in the resolutions just presented. Although there are honest differences of opinion upon that subject, his arguments appear to me to be unanswerable. For, it is entirely clear that, with the increasing expenditures of the city consequent upon its growing population and needs, no plan can be devised to provide for those needs, except by augmenting the assessable value of the property within its limits, from which its revenues are to be derived. And therefore it is for the paramount interest of owners of down-town property equally with the owners of up-town property, that the latter should be made at once accessible, and fit for occupation.

In the few moments allotted to me, I propose to confine my remarks to the sole question of the right of the persons who have been assessed for these improvements, to have them completed. The two most important projected improvements not yet finished, for which assessments have been levied and collected, are the Morningside and Riverside parks, whether considered with reference to their magnitude, and the interests they involve, or to the relation they sustain to the general plan for improving the section of the city where they are located.

In mentioning these parks, are understood as included also the avenues leading along and through them. For the avenues were acquired under the same law as the contiguous parks, and must be constructed in harmony of design with them.

By the act under which Morningside and Riverside parks were laid out, passed April 24, 1867, Chap. 697, it was provided that the Board of Commissioners of the Central Park should have power to lay out and establish the streets and public places between Fifty-ninth and One Hundred and Fifty-fifth streets west of Eighth Avenue; that Commissioners of Estimate and Assessment should be appointed by the Supreme Court, who should "assess for such openings, all such parties and persons, lands and tenements as they may deem to be benefited by such improvement, to the extent which said commissioners deem such parties, persons, lands and tenements benefited thereby." And thereafter the said public squares and places were to remain "under the control and management of the said Commissioners of the Central Park, as to the regulating, grading, paving, sewering, and otherwise improving and maintaining the same."

Commissioners of Estimate and Assessment were appointed by the Court as provided by the act, and duly made their reports. The Report for opening Morningside Park and Avenue was confirmed July 28, 1870, and for opening Riverside Park and Avenue August 2, 1872, and upon such confirmation, the title to the lands taken, became vested in the City as public property. The assessment by the Commissioners for opening Morningside Park and Avenue amounted to $1,720,192.40 of which sum $823,499.40 was assessed upon the city at large, and $896,693 upon the adjacent property owners. The assessment for opening Riverside Park and Avenue amounted to $6,173,960.80 of which sum $3,069,481.80 was assessed upon the city at large, and $3,104,479 upon the adjacent property owners. Thus the whole amount to be paid by the city was $3,892,981.20 and by the property owners $4,001,172—being in all $7,894,153.20.

Very little work has been done, up to this time, on either of these parks or avenues except to survey them, grade a short portion of the south end of Riverside Avenue, build a sewer in Morningside Park, and grade, to some extent, the avenues bordering the latter park. The avenue on the west side of this latter park, known as Morningside Avenue, is however so far completed as to require only $200,000 to finish it, and is so situated that the delay of another season in its construction will be likely to render useless the labor already bestowed upon it, and require its entire rebuilding. For this reason, the Mayor, in his message, recommended its imdiate completion.

Of course, its rebuilding would be wholly at the expense of the city.

Riverside Avenue should also be finished this year, along its entire length so as form a continuing drive with Morningside Avenue and One Hundred and Tenth Street, and as preparatory to subsequent work on the parks.

These drives are the first work to be done, and it is of the utmost importance that they be completed at once. The sewerage in the parks and vicinity should also be finished so soon as practicable; for we all know that vacant lots will not be improved until they are thoroughly drained and sewered, and the ground in the neighborhood is graded and settled; which fact, together with the lack of rapid transit, fully answers the question why no more houses have heretofore been erected on up-town streets and boulevards.

The final plan for Morningside Park was adopted by the Park Commissioners on March 10, 1873, and for Riverside Park more recently. Some changes have lately been made in the plan of the latter, which appear to be very judicious; and the designs for both parks are, I am satisfied, the best possible under the circumstances, both as to taste and economy of construction, and reflect great credit upon the Supervising Architect of the Park Department.

By the law regulating assessments, interest runs on unpaid assessments at the rate of seven per cent. per annum from the time they are confirmed until the assessment books are sent to the Clerk of Arrears, and after that, at the rate of twelve per cent. from the date of confirmation, and by the Act of 1871, Chap. 381, all lands on which assessments for improvements remain unpaid for three years, are authorized to be sold by the Clerk of Arrears under the direction of the Comptroller at public auction, and the unpaid assessments, interest, and charges are made a first lien on the property. Under this act, the Comptroller advertised for sale on December 15, 1874, with other lands, all those on which there remained unpaid assessments for opening Morningside Park and Avenue. On examining the printed notice of sale, dated September 1, 1874, I find $122,343.35 of unpaid assessments for opening that park and avenue at that date, of which a portion have since been cancelled, so that there now remains $102,465, or less, of such assessments outstanding.

This disposes of the oft-repeated assertion that these assessments have not been generally paid. I think, in this case, the owners have responded quite promptly considering how little moral obligation they were under to do so.

So far as the assessments for Riverside Park are concerned, I have not been able to inform myself so accurately, although I believe that by much the larger proportion of them have been also long since paid.

Indeed, it makes little difference to the city whether they are or are not yet paid, inasmuch as they are amply secured.

Having seen what these parks and avenues have cost the adjoining lot owners, let us now inquire how much it will cost the city to make the improvements.

The following are approximate estimates recently furnished to me by the Department of Public Works and the Department of Public Parks,

To finish Morningside Park and Avenues not to exceed	$1,000,000.00
To finish Riverside Park and Avenue	2,000,000.00
Total	$3,000,000.00

The following are separate estimates for the avenues according to the former plan of Riverside Avenue as furnished by the Department of Public Works.

Morningside Avenue on the West	$200,000
Riverside Avenue (Including $290,000 for arches between 85th and 86th Streets.)	1,150,000

The foregoing estimate for the avenues comprises the cost of regulating, grading, curbing, flagging sidewalks four feet in width, macadamizing and sewering.

The account against the property owners is as follows:

Morningside Park Assessment	$896,693.00
Interest from July 28, 1870, (the date of confirmation) to March 1. 1875, at seven per cent.	288,212.06
Riverside Park Assessment	3,104,479.00
Interest from August 2, 1872, (the date of confirmation) to March 1, 1875, at seven per cent.	553,589.79
Total	$4,842,973.85

which last amount may fairly be taken to represent the cost to the property owners because they have been, up to this time, out of their money principal and interest, without any benefit from the original outlay.

This cost to the owners exceeds the expense of the proposed improvements by $1,842,927.85.

The city has done much better than that; since a large share of the assessments have carried twelve per cent.

To sum up, then, the whole matter in a word, the up-town property owners were originally charged with about half the cost of those parks and avenues, that being the extent to which they were deemed by the Commissioners "to be benefited by such improvements," over and above their proportion of the general tax on the city, with the agreement expressed or implied on the part of the city, that those improvements should be at once proceeded with, and finished with reasonable dispatch.

On no other theory could the owners have been legally or equitably assessed a dollar. Certainly, mere waste land held by the city, could be of no advantage to them, or to their property, but the contrary. They expected and had the right to expect the city to improve and embellish these lands so that their own contiguous property might be more desirable for residences or for business purposes.

Since Morningside Park and Avenue were taken by the city, nearly five years have elapsed, and nearly three since Riverside Park and Avenue were taken, and still there are some few prominent city officials (few, I am happy to say) who, with all these facts before them, throw the weight of their influence against the completion of the improvements. Since these public works were undertaken, taxes in contemplation and in anticipation thereof, have been advanced enormously. One gentleman writes me that lots of his on Riverside Park, which, before the laying out of the park, were assessed $300 per lot, are now assessed $6,000 per lot, and this without a spade being put into the park, or a sod turned. I do not propose to argue this subject as a question of law, but if any one is curious in such matters, let him consult the case of *Stuyvesant vs. The Mayor, etc., of New York* reported in 11th *Paiges Reports* 414, which was an action brought to compel the city to improve Stuyvesant Square, it having been ceded to the city on condition that it should be thus improved. Hon. Ha[illegible]n Fish who argued the case before the

lor, for the plaintiff, insisted that if the city received or took land for a park it must be inclosed and improved as a park, whether there was or was not an express agreement on the part of the city to that effect.

In the course of his argument, he uses this language,

"The city may take ground for public squares by assessment of loss and damage as local improvements; they are then bound to use it as a public square, and improve it at public expense. * * * Where the corporation take land for a street and do not regulate and improve it, they may be indicted, or compelled by appropriate remedy to do so: they cannot say to the parties from whom they take the land, we will let it lie unimproved."

Especially cannot they say so, to those who not owning any part of the land taken, are assessed for benefits by reason of its contemplated use as a public park.

In the case in question, in which Mr. Fish laid down the common sense law so plainly, the Chancellor directed a decree that the city should make the improvement, and it was done.

But, sir, I insist that the good faith of the city is involved in this matter, and is paramount to every other consideration. It is not the question whether it be merely expedient to do this work, although it undoubtedly is; nor whether the city can afford it, although we well know that were $10,000,000 of city bonds to be put upon the market to-morrow, they would all be taken at a premium, especially if it were understood that the proceeds were to be devoted to these improvements. But it is a question of justice and fair dealing toward its inhabitants on the part of the city, which the city cannot afford to disregard: it is a question of public faith which no city can afford to violate. It has been said that, because some of the persons assessed owned lands in the parks, and their lots were paid for, as it is alleged, at a high valuation, that this is a reason for delaying these works. But why? There is no pretence that the awards were not fairly made, nor are there other than general allegations that they were in some special instances excessive. Besides, a large majority of those who were assessed never owned a foot of land in either park, and many who had no land in either park were assessed for both. In view of these patent facts, what did a prominent city newspaper mean lately, when it declared that the question of these improvements "is one on which the tax-payers at large have as much right to be heard as the adjoining property owners?" The property owners paid their proportion of the amount charged upon the whole city, as well as the additional sum, which they were assessed for benefit.

The statement was an attempt to throw dust into the eyes of the people.

The legislature has just passed an act in aid of the recovery of the money stolen by the Ring from the city treasury. Would it not be well for it to supplement that act by another compelling the city to repay to the citizen the money of which it has despoiled him?

The Ring gave to the city some return for the money it stole. It had some conception of the future destiny of this city; and if it left a legacy of debt, it left also what is worse—a legacy of petty quarrels and strife for patronage and office.

It is well understood that had there been less dissension recently between the departments of Public Parks and Public Works, these improvements would be much farther advanced than they now are.

The fact is, Mr. President and gentlemen, that the money which you paid so many years ago to the city, in the faith that its promises would be fulfilled, nay, the money which the city took from you forcibly, under the threat of confiscation, it has retained for its own profit, and without any recompense to you, in violation of the spirit if not of the letter of the constitutions both of the State of New York and of the United States, which declare in the same language that "private property shall not be taken for public use without just compensation."

I do not hold the whole city responsible for this wrong, nor all of the city government, but I do insist that the present city administration, as well as the legislature, when hereafter required to act upon these matters, shall regard the good faith and reputation of this great metropolis, and the rights of its citizens, as of more importance than the ambitions of individuals, the jealousies of politicians, or the rivalry of parties.

As to the ability of the city to make these improvements for which assessments have been so long ago levied and collected by its regularly constituted authorities, what greater loss can it suffer than that of its public credit? If it repudiates one set of obligations, why should it not renounce another? If it robs the people by oppressive and unjust taxation, how long will its credit last?

For one, I have full confidence in the growth and prosperity of the City of New York, which no temporary circumstances can lessen.

Its location, the enterprise of its inhabitants, its accumulated wealth, its intimate relations with Europe, and with the whole United States, all ensure for it continued pre-eminence as the foremost commercial city of this continent.

Build then its parks and streets, complete its improvements planned with so much judgment and skill, render it convenient, attractive and healthy for residence, afford it additional business facilities, give it rapid transit roads, extend its tunnels and bridges to those who on the West, the East and the North stand impatient to use them—let all this be done, with a liberal foresight on the one hand, and with a wise economy on the other,—and it is safe to predict that we shall possess, in the not distant future, a city of which we may justly be proud as the fairest, the freest, and the most prosperous in the world.

FERNANDO WOOD'S REMARKS.

The Chairman introduced Hon. Fernando Wood, who was warmly received. He said: His recent sojourn at Washington had left him somewhat unacquainted with local issues of this character. He need not say, however, that wherever he might be, or however absorbing his duties, his heart was always with the City of New York. His connection therewith was not only of a personal character, but he had property interests which naturally made it the centre of his thoughts. He knew no west side nor east side. Whatever was to the advantage of either was for the benefit of the city at large. We are all together as tax-payers; all together in our desires for a good municipal government; all as one in our interest in the preservation of property and public order. These are all general interests, and belong not specially either to the east or west. It had always been a struggle in New York between certain down-town interests and up-town improvements. In 1855, when Mayor, he was waited on by a delegation of property owners from below Fourteenth Street who remonstrated strenuously against the establishment of Central Park. It was too far, they said, out of town—Fourteenth Street itself was then almost a suburb. It would destroy down-town property, by drawing property and residences away from the city! The expense was enormous—impossible to bear—the city debt being as high as $11,000,000! It was visionary, moonshine, and a thing for generations to come—and so on. We have all lived long enough to know that these gentlemen were in error. The park was established, and had its existence as a fixed fact years before there were any commissioners appointed to take care of it. He sometimes thought that the source from which the city's revenues are mostly derived is that which is mostly oppressed and persecuted by it—the real estate interest. It raised most of the money for public use, but what was done for it in return? Where were the improvements for which they had to pay 200 cents on the dollar more than actual value? The Wall Street millionaire can carry his wealth in a tin box, and escape all share of the municipal burden; the real estate owner must stand his ground and cannot elude the vigilance of the tax-gatherer. Was it not a hardship that in his absence a law could be passed that would actually confiscate his property to public uses on the pretext that it was adjacent to certain improvements? He had once been assessed for Manhattan Square—way back in 1838—but they never made that square; it has no existence to this day; and they never returned him his assessment. It was money forcibly stolen from him, and for which restitution was never made. It was three years since he had been assessed for Riverside and five years for Morningside Park. It is our duty as citizens to carry out all such improvements as these. New York must restore New York; nay, New York must rehabilitate the Union. They are all of general advantage. This whole island is a destined splendid metropolis. It will consummate finally the idea of a city whose like is not on earth. Riverside Park is no mere West Side improvement. Central Park was no mere local work. It does not even belong to New York, but to the nation. Riverside Park lies along the slopes of the noble Hudson, and in view of its scenic surroundings would in time be the noblest park in the world of its extent.

Probably few persons have studied the natural advantages of this narrow strip of land, which an enlarged and comprehensive appreciation have dedicated to the public uses. Unlike any other park in this or any other city it will combine salubrity at all times with the most beautiful landscape, comprehending center and verdure, which the eye of man ever rested on. The happy thoughts which conceived the project as well as the skill and and labor of those who shall add the architectural surroundings will alike receive honorable mention in the city's history.

Mr. Wheeler H. Peckham here addressed the meeting in a few well chosen words, after which the audience listened to the following:

REMARKS OF JOHN W. PIRSSON.

Mr. President and Gentlemen: After the very able and convincing addresses which have been made by the gentlemen who have spoken this evening, it would seem like a waste of time on my part to say anything further in behalf of the great public improvements in which we are all so much interested, and which have so direct a bearing on the prosperity and growth of our city—the pride of the State and of the Union.

There is one statement in the resolutions presented by your Executive Committee which is very important and to which I desire to call your attention; it is the one which indorses the plans of the Riverside and Morningside parks and avenues *as approved and adopted by the Board of Commissioners of Public Parks.*

Among this very large and influential assembly of property-holders there are many whom I recognize as owners of land fronting on those parks, and I will venture to say that every one of them heartily indorses and approves of those plans. I wish to say a few words about Riverside Avenue, in the treatment of which the eminent and accomplished engineer, Mr. Fred. V. Olmstead, has had great difficulties to contend with on account of the topography of the ground and extreme narrowness and great length of the park. He has, however, overcome them with his usual ability and has presented a plan which meets with the approval of the owners of the land fronting on that park as well as of every intelligent man with whom I have conversed on the subject.

It would have been a great mistake to have laid out a separate avenue along such a park, and a little reflection ought to convince any unbiassed mind that it is almost a matter of necessity rather than choice, and that the avenue should form a part of the park drive.

Let it be kept in mind, also, that the eastern line of the avenue is to remain intact the same as it was established by the Commissioners of Estimate and Assessment when the lands for that park and avenue were taken for public use.

We have heard so much to-night of our grievances and feel that we have been so greatly wronged by the mistaken policy of stopping the public improvements for which we have been so heavily assessed and taxed, that a few words by way of encouragement will not be out of place. Let us turn our attention to another side of the picture—to a consideration of what has been done during the last three or four years in carrying on the public works on the West Side of the city.

In July, 1872, the report of the Commissioners for widening and straightening Broadway (as it is called from Thirty-second to Fifty-ninth Street) was confirmed; since then that street has been widened to one hundred feet, the sewers have been built, the gas-pipes relayed, and the street paved with Belgian pavement; several important and imposing buildings have already been erected, such as the eight-story hotel between Forty-first and Forty-second streets and the large manufactory occupied by Messrs. Brewster & Co. at Forty-seventh Street, the French apartment house called the Albany, extending from Fifty-first to Fifty-second Street, covering ten lots of ground, and which is said to be, in many respects, the best house of the kind yet built in the city; and then we have that unique and pleasing apartment house fronting on the Circle, Broadway, Eight Avenue, and Fifty-eighth Street.

The paving of the Boulevard has been completed from Fifty-ninth to One Hundred and Fifty-fifth Street, the centre plots which form part of the plan between Fifty-ninth and One Hundred and Twenty-fifth streets have been constructed, the trees on those plots and on the sidewalks have been planted. That broad thoroughfare we may consider substantially finished, and we now have a great avenue extending from the Battery up to One Hundred and Fifty-fifth Street, a distance of about ten miles.

About three years ago the work of regrading the Eighth Avenue between Fifty-ninth Street and One Hundred and Twenty-fifth Street was begun for the third, and, let us hope, the last time. It is now nearly completed, and the sidewalks and flagging have been laid for the most part. The park wall has been built with the exception of a few openings, the sewer has been constructed to Eighty-fifth Street, between which street and One Hundred and Tenth Street it is to be placed close to the westerly sidewalk. Above One Hundred and Tenth Street there are to be two sewers, one under the outer edge of each sidewalk; they are now being laid, and a considerable part of work has already been done.

Before the work of grading the avenue was begun a petition was presented to the Park Department by the owners of a majority of the frontage opposite the park praying for a modification of the plans which had been adopted for that part of the Eighth Avenue, by which the roadway was only forty feet in width, and also praying that the Eighth Avenue Railroad tracks be placed near the park sidewalk. In response to this appeal, the Park Department adopted a new plan by which the roadway was widened to fifty feet and the sidewalks established at twenty-five feet, including a court-yard space on the west side of ten feet. An order was also adopted requiring the Eight Avenue Railroad Company to place the tracks three feet from the park walk. This order that company has disregarded, but it has partly complied with the wishes of the property owners and Park Board by placing the railroad tracks twelve feet from the park walk, which leaves a clear space between the westerly rail and the westerly sidewalk of twenty-two feet. This will be sufficient to allow three vehicles to pass abreast on that side. There is good ground for the hope that the tracks will ultimately be placed within three feet of the park sidewalk as the Department of Parks has, under the advice of the Law Department, caused a suit to be brought to compel the railroad company to comply with its order.

An ordinance was duly passed, some months ago, providing for the paving of Eighth Avenue, from Fifty-ninth to One Hundred and Twenty-fifth street, with small granite blocks. The late Commissioner of Public Works, Mr. Van Nort, has caused the necessary surveys to be made, preparatory to advertising for proposals for the work which he was about to do when he retired from office.

It is to be hoped the new Commissioner, Mr. Porter, will proceed at once to carry out the intentions of his predecessor. It would be well for those interested in the Eighth Avenue to call upon him and urge the importance of giving out the contracts without further delay.

Let us for a moment consider what a grand avenue this will be when it is completed and occupied. It has the most commanding grade of any street of the same length. From the upper windows of the dwellings which will soon be built upon it, the occupants will have an uninterrupted view across the park, over the highest Fifth Avenue houses, across the East River, and, with the aid of a good glass, they may, perchance, be enabled to see the broad Atlantic, and recognize their friends on the decks of the great ocean steamers on their departure for foreign travel or on their return home.

Under the act passed about three years ago, providing for the under draining of low grounds, by the construction of blind drains through the blocks, a large amount of work has been done under the direction of the Commissioner of Public Works. By this plan, the springs and natural water courses will be kept open, and the water led off into the rivers, instead of being blocked up, as was formerly the custom, thus preventing the formation of pools of stagnant water, from which emanate those noctious gases so detrimental to health.

The grading of Ninth Avenue has been dragging its slow length along, and is now nearly done. New Avenue, extending from One Hundredth to One Hundred and Twenty-fourth street, between Eighth and Ninth avenues, named by this association Undercliff, has been sewered, and is being graded. One Hundred and Tenth Street is also being graded. The croton mains have been laid in Tenth Avenue to connect with the aqueduct at Ninety-second Street, and the water turned on. That part of the old aqueduct, the use of which has thus been superceded, is to be taken down, and the materials will be used for the supporting walls of the new parks. A large number of streets have been graded between Eighth Avenue and Boulevard, and between Fifty-ninth Street and Ninety-second Street, leaving not more than about half a dozen in that district on which the grading has not been done or is not now progressing. From this brief statement it will be seen that the southerly half of the West Side, as it may be called, is so far finished that with the completion of Riverside and Morningside parks and avenues, and the grading of comparatively a few more of the streets, a large part of that beautiful region will be ready for use and occupation. Only give us Rapid Transit and the population will flow in as fast as the improvements are completed. Let us picture to ourselves that section of the great metropolis as it will appear a few years hence. There it lies, on elevated ground, bounded on the north by Clairmont and Morningside Park, on the south by Fifty-ninth Street, on the east by Central Park, and on the west by Riverside Park. Through the centre of it leads the great Broadway Boulevard, with its quadruple row of trees. On the Eighth Avenue, Riverside and Morningside avenues, and the cross streets, will be erected the dwellings of the most wealthy and influential citizens, surpassing in beauty of design, costliness of construction, and architectural effect the dwellings of the present time as they do those of a quarter of a century ago. On the Boulevard will be built the great establishments of the Stewart's, the Arnold's & Constable's, and the Tiffany's; also the theatres, opera houses, music halls, and hotels. Interspersed with these will be a stately and imposing array of 'apartment houses,' rising to the height of eight or ten stories, constructed of fire-proof materials, replete with every convenience, so that those who do not wish to incur the expense or cares incident to ordinary housekeeping will there find comfortable and inviting homes. The first floors of these buildings will contain the principal shops for retail trade. Here and there, on commanding sites, will rise the pinnacles and spires of the houses of God, pointing heavenward like monitors to remind the denizens of that favored region that they have here no continuing city. If this picture of the near future of that part of the West Side is a true one—and who is prepared to gainsay it?—let the fortunate possessors of land within those favored limits ponder well before they part with it, under the depressing influence of the recent panic, now so rapidly passing away; for, rest assured, the prices that it will command in the next upward wave in real estate will far surpass the most sanguine estimates of three years ago. My friend, Mr. S. E. Church, has something of interest and importance to say on Rapid Transit, and as that is a subject on which we all have so deep a concern, I will not detain you with any further remarks.

SPEECH OF SIMEON E. CHURCH.

Mr. S. E. Church being called for by the Chairman and audience to speak on rapid transit, came forward and said: I am not among the announced speakers for this occasion, Mr. President, and had no thought of taking any other part in the meeting than that of an auditor; but the call for something to be said upon rapid transit cannot be made upon me either here or elsewhere and find me not willing to respond to it, for my whole heart, head, and voice are consecrated to the subject, and will find no rest till this great boon is secured to New York and to her people. But before I come to this subject let me say a word upon another topic, about which, I think, a great public misapprehension exists, and which ought to be corrected.

CITY TAXATION FOR THE BENEFIT OF UP-TOWN OWNERS.

It seems to be generally supposed, and certain newspapers seem willing to disseminate the error, that the city treasury and the taxpayers at large of the city are constantly being called upon to pay largely for improvements which are intended and operate to benefit only a limited number of up-town property owners. Crafty and unprincipled men who certainly know better have joined in this cry, and it seems to have become a popular notion that the expenditure of money upon up-town improvements is somehow a robbery of the people down town and in all other parts of the city. This is a great popular error, and it cannot be too soon corrected. What are the facts? Since 1854 there has been expended in up-town improvements, including the Central Park, $62,488,960. Now, who has paid that money? is it the down-town property owner or the up-town? First, one-half of the amount was assessed directly upon these up-town owners for benefit. They thus paid $31,709,324.15 of the whole amount, leaving the city to pay the balance, or $30,779,636.53. Did the city pay the balance? In form it did, for it issued bonds to that amount; but who paid those bonds? Did the down-town owner? I think not. The first thing the city did after assessing one-half the cost of all these improvements directly upon the owners of the surrounding property was to double, trible, and quadruple

the taxable value of this very property so benefited, and then proceed to collect a correspondingly increased tax revenue from it sufficient within a little over $5,100,000 to pay the other half in the city's share also. Thus, while the city nominally issued its bonds for $30,779,636 to pay its share of the cost of these improvements, it has already collected out of these up-town property owners in *increased* taxes alone $24,994,731, leaving the amount actually paid by the city less than $6,000,000. One year more and the city's share will be reduced to nothing. And while this process has been going on, the city has been accumulating over 1,000 acres of park property, worth to-day over $100,000,000, paid for wholly by these up-town owners, and now become a perfect security alone for our entire city debt. This splendid domain has been given to the city at a cost to the general taxpayer of less than $6,000,000, but at a cost to the up-town property owners of over $56,000,000. And yet we hear the cry of crafty demagogues about the expenditure of the people's money for up-town improvements! The facts which I have here stated fully appear in a paper recently prepared by Wm. R. Martin, Esq., the former President of this association, and presented by him to his associates in the Park Board; a paper exhaustive in its facts and figures on this subject, and which ought to be read and understood by every tax-payer in New York. The men who are now riding the necks of our people, while clamoring about "reform," would then retire far to the rear, while the true men of New York would come to the front, as some are now doing. It is these improvements that are now laying broad and deep the foundations of the future glory and magnificence of New York, and when the region thus beautified shall be made accessible by means of rapid transit (applause) we shall then understand the economy and begin to reap the full benefit of these improvements.

And this leaves me but little to say—which you do not already anticipate—upon the main topic to which you have called me.

RAPID TRANSIT.

It is plain that all these improvements which have cost so many millions of dollars will be of but little benefit until this first, middle, and last condition of their utility is accomplished—rapid transit. We may build miles of boulevard and line them with glittering lights, and alluring pavements, but no houses will be built upon them; and the burdened property owner will only groan at the cost. We may open new parks and promenades by the mile and plant them with seductive shades as we will, and though they become a very Eden of beauty, only a howling wilderness of vacant lots and rocks and morasses will continue to surround them, out which only death and the tax-gatherer will extract any harvest. You may annex a whole county to your territory and your real city will not be increased, but your population will continue as before to pour over into New Jersey and build their homes and pay their taxes there. But give us rapid transit and all this will be changed. Streets and avenues which have existence now only upon your maps will then stretch in long lines of beauty and wealth, built up in close and solid magnificence to the extreme boundaries of your city. The most oppressive burden of taxation is that which is paid out of unimproved property. The taxes which are always most cheerfully paid are those which are paid out of property which yields a revenue. But the relief thus afforded to the particular property owner himself is shared equally by all other tax-payers. We have one billion of dollars of taxable property, and we have three millions of annual city expenses to raise out of it. This requires a tax-rate of three per cent. Give us another billion and the same revenue would be raised at a tax-rate of one and a-half per cent. Give us two billions more and our tax-rate, even with increased city expenses, will not exceed *one per cent.* And this is the end at which we *aim.* But this end will never be accomplished without rapid transit. Put it in another way. An average lot up-town is now assessed at $1,000, and yield a tax income to the city of say $30. Build a house upon it, and the average tax revenue will be $300. The net gain to the city is $270. But there are 70,000 such lots on the Island, and more than double that number in the new districts recently annexed. Continue to keep these lots inaccessible, and our population will remain as it has for the past twenty years—nearly stationary—and our people will continue to groan under the burden of taxes. But give us rapid transit; enable us to put houses upon these vacant lots, and the added revenue to the city will be $35,000,000, or the rate of taxation will be reduced one-half, while two millions, and eventually three millions, of happy and industrious people, with their myriad industries, will throng your city to its farthest limits.

WHAT IS THE COST OF IT.

Now, what does all this cost? The Society of American Engineers have shown us that a proper rapid transit road of double track upon the elevated place can be built for $300,000 per mile, exclusive of equipment. Twenty miles of such road extending on both sides of the Central Park from the Battery to the Harlem River would cost $600,000. The Aldermen ask for $12,000. The annual interest on this sum at 7 per cent. is $840,000. Such a double road of four tracks will carry 80,000,000 passengers a year, and the fair at five cents would be $4,000,000, to say nothing of freight and other earnings. Suppose it should earn nothing. Look at its influence upon your city and its tax revenues, its growth, and the welfare of its people. But it will earn something. Here is a revenue that is sure to pay the interest upon its construction bonds, and eventually furnish a certain fund for the extinction of your whole city debt. The Engineers' report shows that surely nothing short of absolute imbecility can much longer stand in the way of the growing and finally imperative demand of our people for *a city railroad as a city work.* I shall offer you a resolution indorsing the recent action of the Common Council on that subject. There is still great timidity among some of the politicians on this question. We need to trace them up. It may be all well enough to tax the whole city for a new pavement in Fifth Avenue upon which fifty thousand of our people may ride with comfort, but I can tell the politicians that the nine hundred and fifty thousand of our people who have no carriages will want to know what provision is made for them to ride to their homes when the toil and the sweat of the day is over. We must have a railroad; it must be owned by the city; it must be run in the public interest alone. Fidelity now to corporations is treachery to the people. Republicanism tried it and has gone to the depths. Will the Democracy now hear the voice and give to New York that without which she perishes, with which she becomes the Imperial city of the Western World?

THE GREENWICH ELEVATED RAILROAD.

Mr. Church made some remarks concerning the Greenwich Elevated Railroad, commending it as a road already half built, now undergoing great and substantial improvements, and about to be extended by its present owners to Fifty-ninth Street, and as much farther as they should receive proper encouragement from property owners along its route. As a local road, particularly affecting the interests of the West Side, it would serve a great and useful purpose. It would make their property immediately accessible, and building and improvements would be at once stimulated by it. The company offer its First Mortgage Seven Per Cent. Bonds for sale, and with very little encouragement the running of this road to Seventy-ninth Street could be secured by June next. The bonds were secured upon the whole road, including the present structure and the portions to be built, and were limited to $300,000 per mile for a double track, and $200,000 per mile for single track. They were an unquestionable security, and having a sole reference to the influence of the road upon the value of our real estate, he did not think a week should be allowed to pass without such a subscription as should secure the construction of this road to Seventy-ninth Street by June next.

He offered the following resolutions, which were unanimously adopted:

Resolved, That the Greenwich Elevated Railroad, now undergoing an improved form of construction with largely increased capacity, promises the quickest solution of the problem of rapid transit for the West side of the city; and believing that its projectors intend in good faith to extend the road and serve a great public interest thereby, we respectfully and earnestly commend it to all proper legislative, municipal, and private encouragement.

We respectfully ask the Legislature to pass the bill now before it authorizing the company to extend and improve its road, but limiting the fare to ten cents.

Resolved, That this association approves the recent action of the Board of Aldermen in the appointment of a committee to consider the subject of rapid transit; and of the action of the committee as shown by their several reports, we believe that the allowance of six months more time to private capital to furnish guarantees that it will build a road is only the loss of so much valuable time, but are, nevertheless, willing the experiment should be once more tried, if it be effectually provided that in the event of failure the work be then pushed on as a public work.

At the conclusion of Mr. Church's speech Judge Fithian arose and urged united action upon the part of property owners. At no time, he said, did tax-payers look with such confidence upon the course to be pursued by the West Side Association, and he trusted that the time for action had at last arrived.

Cyrus Clark, Esq., then offered the following:

Resolved, That the President of this Association be requested to appoint a committee of twenty with power to fill vacancies to go to Albany to advocate the several measures to which this Association is pledged.

Which was carried unanimously.

THE ALBANY COMMITTEE.

The following gentlemen were thereupon appointed by the President to act as such committee:

Fernando Wood,	Dwight H. Olmstead,
S. E. Church,	Richd. V. Harnett,
Thos. E. Stewart,	Lewis J. Phillips,
Cyrus Clark,	F. M. Jencks,
Wm. P. Dixon,	James Earle,
W. Richardson,	P. G. Weaver,
Griffith Rowe,	Wheeler H. Peckham,
Jas. Flanagan,	L. F. Barry,
John W. Pirsson,	J. H. Goodsell,
Jos. H. Godwin,	F. A. Thayer.

On motion, the President of the Association, William Tilden Blodgett, was added to the committee.

(Signed) WILLIAM T. BLODGETT,
President.

SENATE BILL NUMBER NINETY-EIGHT.

A member of the Association here offered the following:

Resolved, That this Association protests against the passage of the act known as Senate Bill No. 98, allowing life and other insurance companies to loan their surplus capital out of this State.

Carried.

The meeting then adjourned.

THE GROWTH OF NEW YORK.

COMMISSIONER MARTIN'S REPORT TO THE DEPARTMENT OF PUBLIC PARKS.

The following communication from Commissioner William R. Martin relative to the plans and improvement of the Fort Washington district and the Twenty-third and Twenty-fourth Wards, was on Wednesday last received and ordered printed as a document of the Board. We reprint it in complete form.

DEPARTMENT OF PUBLIC PARKS, }
NEW YORK, 19th March, 1875. }

To the Board of Commissioners:

The region north of One Hundred and Fifty-fifth Street and the Harlem River, comprising the Fort Washington district of Manhattan Island, and the Twenty third and Twenty-fourth Wards, the district annexed from Westchester County, is under the control of this Department.

I.—This region is now occupied, in part, as villa residences and small farms under cultivation. It includes four or five villages, with old roads along the lines of which population has settled. Its advantages have been so attractive that in various places efforts to adopt a permanent plan of improvement have been made, and there is a general desire that it shall be prepared now in all respects for its ultimate occupation. The topographical surveys of the whole region have been made, and the work should no longer be delayed.

In this work there are three cardinal points:

1st. Laying out the region with streets, avenues, and public places, and treating the water front and steep declivities, including provision for sewerage and drainage.

2d. The acquisition of title for the public use to such portions of the land as may be appropriated for that purpose.

3d. The actual construction work by which the whole surface is to be prepared for its final occupation.

II.—The consideration of these points must include:

1st. An appreciation of the ultimate occupation to which the region is destined.

2d. A judicious economy, so that the property is not ruined by oppressive taxes and assessments before it can be made productive.

3d. A plan that admits of expeditious treatment, so that its settlement with population shall not be delayed, and all the natural streams of population be turned off into other suburbs of this city.

4th. Sanitary considerations, so that its capacity to be made the most healthful section of the city will not be wholly destroyed.

III.—It is clear that the interests of the property owners are entitled to the highest consideration.

If, by a successful comprehension of the points above stated, high value can be maintained and supreme value finally attained for property, then improvements will go forward rapidly, assessments will be paid promptly, costly structures and buildings will be erected, the region will be filled with a wealthy and prosperous population, and the revenues of the city from taxation will be increased, so as to make an overflowing annual return upon the proportion of expense that will fall upon the city.

If, on the contrary, these necessary conditions are overlooked and neglected, so that property becomes depreciated, unsalable, and unfit for occupation, then the failure in all these respects will be complete.

It will be a disgrace to the government of the city if the lessons that should have been derived from what has already been done in laying out this island and preparing it for a great population shall remain unheeded.

IV.—There have been three plans at different periods in laying out this island.

1st. The colonial plan, under which the city in the last century was laid out below Fourth Street.

2d. The plan of the commissioners appointed under the law of 1807, by which the city was laid out with the numbered streets and avenues extending to One Hundred and Fifty-fifth Street.

3d. The revision of that plan within the last fifteen years, by the Central Park and other parks up-town, and the new avenues and boulevards.

V.—In each of these plans the defects are now apparent.

1st. In the first plan, below Fourth Street, very little consideration was given to anything, except local subdivision.

2d. The plan of 1807 was simply the application of the rectangular system to an extended area, without regard to its topography or shore lines, and without considering the conditions of its growth or its probable future occupation.

Its defects were that no adequate provision was made for public places or for avenues of superior width; that the length of the blocks should have been in the direction of the avenues, instead of that of the streets, which would have greatly increased the value of the property; that the avennes laid out did not, at their southern end, except in a few instances, connect with any existing thoroughfare in the lower part of the city, and that no attention was paid to the subjects of sewerage and drainage.

The result has been that the expense of construction in making the streets and avenues, has been needlessly great; that the time consumed in such construction has been so long as to impair the value of property; that the sewerage and drainage below Fifty-ninth Street is, in most places, fatal to the healthfulness of that part of the city; and that an amount of population sufficient to occupy the whole island has, for these reasons, been diverted to Long Island and New Jersey.

3d. In the third plan an attempt was made, in the upper part of the city, to remedy the deficiencies in the plan of 1807, by the introduction of parks and boulevards and the amending of grades, so as to give character and value to that region and to facilitate its occupation.

That portion of the area west of the Central Park was open absolutely to the adoption of a new plan. The trammels of the old rectangular system, and the timidity natural, in dealing with so grand a problem, has produced a result more conspicuous for its failures than for what it has accomplished. The needless delays and obstructions in carrying out the plan have been disastrous to the interests of the city, and have prevented its settlement with population.

VI.—In approaching the subject of the plan of laying out this new region above One Hundred and Fifty-fifth Street, it is clear that upon the avoidance of these errors, and the adoption of a wise plan, depends the value of property and the prosperity of the city.

This region will be further considered under the following heads:

VII.—Its general topography.

VIII.—A forecast of its future and ultimate occupation.

IX.—The distinct character of its different sections.

X.—The features of the plan for laying it out; including,

1. Its elevated sections, as the site of the most costly residences.

2. The natural valleys which subdivide it, and the level sections, adapted to business purposes and the less costly residences.

3. The borders of the Harlem River.

4. Its steep declivities.

5. Its points of external approach and departure, the main thoroughfares connecting these points, and the different sections within it of distinct character.

6. The lines and modes of rapid transit to it and through it.

7. The respect for existing property lines.

8. Parks and public places.

9. Grades.

XI.—The navigation of the Harlem River and the bridges and tunnels across it.

XII.—The most economical and speedy mode of acquiring title to the land needed for the public use.

XIII. The economical mode and order of construction work.

XIV. A thorough system of permanent sewerage and draining on the best scientific principles, and temporary expedients for draining until that system can be carried out.

XV.—In all these points a thorough appreciation of all sanitary conditions.

XVI.—Pecuniary considerations.

XVII.—This plan in its whole scope should be the subject of immediate decision.

XVIII.—Conclusion.

VII.—ITS GENERAL TOPOGRAPHY.

The whole region is about nine miles long, from north to south, and about three miles in breadth. It lies in three natural divisions.

1st. The Hudson River borders the first division on the west. About a mile eastward from the Hudson, and parallel with it, is the valley of the Harlem River and Tibbett's Brook. Between this first valley and the Hudson is a range of high land, broken at Inwood and Spuyten Duyvil by valleys crossing this range and coming down nearly to the water level. With these exceptions, the general character of the range is that of a high table-land, 200 feet above the water level, with steep abrupt declivities on a rocky foundation, but rising at several points into marked prominences.

2d. About a mile eastward from the first valley lies the second, that of the Mill Brook, running from the Harlem River opposite Randall's Island northerly to Jerome Park and abreast of that falling into the valley of the Bronx, and extending northerly along that river to the northern boundary of the district. This valley starts at Harlem River at a level of twenty feet above high water, and as it extends northerly rises to about sixty or eighty feet. The intervening territory, between the first and second valleys, is very much broken. From the Harlem River northward it is subdivided by the valley of Cromwell's Creek and Central Avenue, on a level of about forty feet, extending northerly about two miles. Other minor valleys subdivide its northern section. The land rises in ridges and irregular hills, in its lower portion to the height of 120 and 160 feet, and in its upper portion to 180, 240, and 280 feet.

3d. The third or eastern division is bounded on the east by the valley of the Bronx River, which, south of its intersection with the Mill Brook valley, opposite Jerome Park, turns to the eastward, leaving between it and the Mill Brook valley, a region of irregular surface, rising into hills 80 and 100 feet in height.

VIII.—A FORECAST OF ITS FUTURE AND ULTIMATE OCCUPATION.

The practical question here is, whether the region should be laid out now for future occupation as a compact city, such as the lower part of Manhattan Island, or as an open suburban villa region. The latter will evidently be the result.

It is not difficult, within approximate limits, to determine the future growth and population of this city as a metropolis, and how far around it a dense population will extend.

Within a circle, with a radius of five miles from the City Hall, there is an area, excluding the waters of the East and Hudson rivers and the Bay, of fifty-seven square miles.

Within a second circle, with a radius of ten miles from the City Hall, there is an area, excluding the waters, of 247 square miles.

Within a third circle, with a radius of fifteen miles from the City Hall, there is an area, excluding the waters, of 525 square miles.

The northerly boundary of the region which is under consideration, is 15 miles from the City Hall.

The density of compact population in the thickly settled portions of the city may be estimated at 100,000 to the square mile, and that of suburban villages at 20,000 to the square mile.

The capacity for population within these different circles, at the greatest density of the city, at the density of suburban villages, and at their average, is as follows:

	At 100,000 per Sq. Mile.	At 20,000 per Sq. Mile.	At 60,000 per Sq. Mile.
1st circle, 5 miles radius, 57 square miles	5,700,000	1,140,000	3,420,000
2d Circle, 10 miles radius, 247 square miles	24,700,000	4,940,000	14,820,000
3d Circle, 15 miles radius, 525 square miles	52,500,000	10,500,000	31,500,000

It thus appears that, if the city were to grow to such an extent as to fill up the circle of 15 miles radius, one-half compactly, and the other half in village style, there would be room for a population, within this circle, touching the northerly boundary of this region, of 31,500,000, which it is absolutely certain will never be reached.

The growth of New York, as a metropolis, bears a relation to the general growth of the country. As a metropolis, it includes the cities of New York, Brooklyn, Williamsburgh, and Jersey City.

The statistics of this growth up to the present time have been as follows:

	The U. States.	The Metropolis.
1800	5,308,483	66,000
1810	7,239,881	104,000
1820	9,638,453	132,861
1830	12,866,020	221,985
1840	17,070,240	357,015
1850	23,191,876	650,051
1860	31,443,321	1,110,141
1870	38,558,371	1,441,364

If this growth should continue in the future, at the rate of the ten years from 1860 to 1870, it will be for the next few decades as follows: Such a result is impossible.

	The U. States.	The Metropolis.
1880	47,234,004	1,873,773
1890	57,861,665	2,435,905
1900	70,869,527	3,167,676
1910	86,815,170	4,117,979
1920	106,348,583	5,353,372
1930	130,277,014	6,959,384
1940	158,589,342	9,047,199
1950	194,271,943	11,761,359

These calculations of future proportionate growth are, however, all fallacious.

There are natural limits to this growth, in the same way that there are to the stature of a growing boy. The 1,000 year old cities of Europe and Asia prove it. It may surely be assumed that these proportions will never be reached. The natural concentration of population in large cities will not be gathered in this metropolis; other great centers will share it.

Assuming that the population, within the 15-mile circle, may reach 5,000,000, it will be at the average 10,000 a square mile, and the result will be that within this 15-mile circle, compact population will gather in certain particular locations—on certain lines of main travel, and the rest of the area will never be settled beyond a loose village population.

There will arise an increasingly intense competition for this population between every square mile within this area, and up to the present time all the points of that competition have been adverse to the region now under consideration. A very small proportion of the growth of the metropolis since 1850 has settled within the city limits. It has been diverted to Brooklyn and New Jersey, *and this is directly due to maladministration of the city government*, which we have now an opportunity to aid in reversing.

IX.—THE DISTINCT CHARACTER OF THE DIFFERENT SECTIONS OF THIS REGION.

It is clear from what has been stated that along the valley lines, which have been indicated, and which divide the region, and upon its borders, there will be a compact population. This includes about one-third of its whole area, mainly on its southern and eastern sections. The elevated lands between these sections will never come into any other occupation than that of villas and villages. Railroads and ordinary business occupations will avoid these elevations.

X.—THE FEATURES OF THE PLAN FOR LAYING THE REGION OUT.

1. These elevated sections must be laid out as the site for the most costly residences. The improvements will be of more expensive character than those of any other of the suburbs of the city, and they will make the land the most valuable. The plans for laying out these sections must, therefore, be adapted to sustain and encourage this kind of suburban occupation and value—*i. e.*, they must be largely influenced by esthetic considerations. The avenues must be sufficiently broad for double lines of trees; their courses and grades must be adapted to the natural topographical conditions; the interspaces between the avenues must be arranged for villas, and not as city lots, and there must be points selected where advantage can be taken of the natural beauty of location and prospect for small parks and ornamental crescents, triangles, and plazas. Any other plan will simply destroy the value of the property.

2. In the natural valleys and sections of low elevation the population will be more dense and the buildings and improvements, except those for business purposes, of a less expensive kind.

Here straight and parallel streets, with interspaces

for city lots of the ordinary size, must be laid out. The avenues, which will become business thoroughfares, must be foreseen, and attention must be paid to the question of the direction in which the length of the block will run. For the portions of this section which will be filled with residences, streets of ordinary width will suffice, but parks here and there must be inserted in order to give it an attractive character for suburban population.

3. The borders of the Harlem River will ultimately become the seat of a great local business for the supplies of the population, and for factories and manufacturing business.

The facilities of navigation and of railroad approach give the shores of this river natural advantages which, if they are properly improved, will make it matchless throughout the whole country for such purposes.

They should be treated in such a way as to admit of the most speedy and least expensive mode of preparation for actual occupation.

A bulk-head line should be fixed which will leave sufficient width of water-way, and within which the land can be filled up without great expense or loss of time.

4. The sides of many of the ranges of hills, particularly those on the banks of the Hudson and Harlem rivers, are steep and precipitous, which is also the case with the mounds and rounded hills which rise at different points in the northerly parts of this region. They are, in many places, rocky, impracticable precipices; these can never be graded and brought into the occupation which will cover ground more favorably situated; even a treatment by terraces would, in many cases, involve too great an expense ever to be practicable; any process of leveling is out of the question. In competition with ground more readily accessible, such precipitous land will not be worth, for occupation, what it will cost to construct the approaches to it.

There remain two modes of treatment: first, The appropriation of the steeper declivities for the public use, reserving them in their wild, natural beauty for parks and pleasure grounds. This, at slight expense, would greatly increase the value of adjacent property, and enable it the better to bear the burden of a great city's taxation, and at the same time increase the city's resources. The locations adapted to this treatment are the banks of the Harlem River north of One Hundred and Fifty-fifth Street, the banks of the Hudson below Spuyten Duyvil, and some portions of the valley of Tibbett's Brook and of the Bronx.

The valley of the Bronx, from the Lydig estate northwardly, is a beautiful region with picturesque hill-sides. The stream is of no use for navigation, and too good to be used for a common sewer. A long, narrow park, with drives upon the banks at its sides, would be a good method for the improvement of this valley, and would add greatly to the value of the whole vicinity.

The second method of treating the hill-sides, where the abruptness of the declivity is not so great, is by a succession of terraces in which the ornamental and park-like character adapted to the elevated region, shall be applied, where they can be constructed without too great expense.

5. The points of external approach and departure, and the crossings of the Harlem River, are primary conditions of any plan. These points are as follows:

a. Along the Hudson River, steamboat landings. There are only two or three points where cross-roads will be found practicable.

b. The bridges and tunnels along the Harlem River, as follows: 1. A suspension bridge from height to height, across the mouth of Spuyten Duyvil. 2. Kingsbridge, or a crossing in its vicinity. 3. At the foot of Inwood Street. 4. The suspension bridge half a mile north of the High Bridge. 5. The bridge or tunnel at McComb's dam. 6. Bridges at the head of one or more of the avenues between First and Sixth.

c. Outlets across the Bronx at such points as Westchester Avenue, the village of West Farms, Williamsbridge, Woodlawn, and Mt. Vernon, connecting with roads running eastwardly.

d. On the northern side the several roads leading out to Yonkers.

These points of border approach and departure should be connected with main thoroughfares through the region, striking and leading to the different residence and business sections.

These points and sections should be thoroughly considered, and brought into relation, in determining permanently the system of main thoroughfares throughout the region.

6. Lines and modes of rapid transit, in addition to the existing railroads, to and through the region, must be provided for.

Obviously, the first consideration in preparing the region for a future settlement springing from the city must be to make it accessible from the city and traversable through its whole extent by lines of steam transit. A suburban population will not sustain an elevated road built at a cost which the density of population and high value of property in the city would justify. Provision must therefore be made for a depressed or viaduct road, or some mode of construction practicable in a rural district, by which crossings can be made at a different level for ordinary travel, and such travel protected from any inconvenience from the passing of locomotives. The lines of these roads must be run in a general northerly direction, through the natural valleys with proper cross-roads and intersections, and with regard to present and future economy of construction. This feature of the plan should receive the first consideration.

7. The existing property lines must be respected so far as it can be done judiciously, and in subordination to the more important features of the plan of treatment. No division of ground should be made if it can be avoided, by which an owner would be deprived of front on a street, or by which small parcels of land would be left isolated or separated by narrow strips from a frontage.

8. There is no point better established in the whole modern science of preparing land for settlement, either in cities or for villa purposes, than this: that respect must be paid to the places that are set apart for public parks and the pleasure grounds of an increasing population. It is better to provide for this at the outset than to do, as has been done in the case of every other city, to neglect it and then repair the neglect, with great inefficacy of plan and at an expense by millions for results which could have been accomplished by thousands if undertaken at the proper time.

Sanitary reasons alone form a sufficient consideration for such a disposition of part of the area. Masses of foliage and breadth of natural surface for the use of the young, and of those who are struggling with the adverse conditions of human existence, for the sake of the health alone which they supply, are vital conditions of a successful plan. These breathing-places should be a principal and cardinal feature, instead of being subordinated into otherwise unimportant and unappropriated patches and remnants. The suburbs of New York are not notable for their healthfulness, and in the competition into which this region is soon to enter for its share of population with all other suburbs, its success will depend in great measure upon its attention now to these sanitary requirements.

The increase in the value of land is another consideration sufficient in itself for this ornamental treatment. It is a fundamental principle in regard to the valuation of land, that high values depend upon the high value of the improvements upon it.

In any area, of a distinct individual character in respect to its improvements, the average value of the lots will be equal, as a general rule, to the average value of the buildings upon them. This is generally true in regard to distinct sections in the city, such as Broadway, the warehouses about Church and Worth streets, the first-class residence section on Murray Hill, or any tenement house region on the east side. It is true, also, in the country, whether you consider the highly improved places, such as Irvington, or a common country village. A gentleman who lays out his country seat, increases the value of his land as such by every dollar he judiciously spends upon it. Llewellyn Park, compared with adjacent unimproved ground, is worth more as land by the measure of the money judiciously expended upon it for its ornamentation. The region under consideration must end, as we have stated, in becoming a rural or a semi-rural district, and its character as such will depend upon the ornamental features of its treatment. Like a gentleman's country seat, if this treatment be liberal, the value and attractiveness of the country will be high, and if it be neglected, this will be no better than the commonest of the other suburbs.

If this liberal treatment be adopted now, at slight expense at the outset proportioned to its great future value, the result will be high value of land consequent upon the character of the improvements and the wealthy class of occupants attracted to settle there; and these high values and wealthy occupants will be the unfailing resources of the city for taxation.

9. Over a region such as has been described, a general leveling to a flat surface by grades is impracticable. Unless grades are settled and fixed with great good judgment and discrimination, the expense of constructing streets and avenues, and of reducing the intervening spaces to their level, will become an enormous burden upon property, so heavy as to delay the work of construction, depreciate the value of property, and indefinitely postpone its productive occupation.

The principle, therefore, to be adopted in regard to grades is that main thoroughfares shall be of easy grades, and that the intervening spaces shall conform as far as practicable to the natural surface. Elevations destined to future villa-occupation should be kept up at a high level, because they will become, ultimately, points of the highest value by reason of their healthful and commanding situation.

This method of park-like treatment, with natural grades, will be the most economical in construction.

XI.—THE NAVIGATION OF THE HARLEM RIVER AND THE BRIDGES AND TUNNELS ACROSS IT.

The Harlem River must be kept open for navigation, and to this end it must be as free as possible from obstructions, and the bulkhead line must be set back, near enough in shore to leave as wide a water way as practicable, even though it be of varying width; and the bridges and tunnels which are inevitable for crossing it must be planned so as ultimately to leave open a free navigation. The narrow channel laid down between the parallel lines shown on the maps of this river is a contradiction of its certain prospects of becoming an open channel of important navigation. If great expense is to be incurred in the construction of tunnels to keep this navigation open, it is needless in the same plan to incur a great expense in diminishing the width of its water way.

The channel is not now free from difficult obstructions, and therefore cannot be considered as if it were free, but it must be looked at in the light of its actual condition. The present obstructions are the bridges—Kingsbridge, the Farmers' bridge, the Eight Avenue bridge, the Fourth Avenue Railroad bridge, and the Third Avenue iron bridge—the ledges of rock in the Harlem River above the Highbridge, and the narrow, shallow, rocky, and tortuous course of Spuyten Duyvil.

The best treatment of the river, as an open channel of navigation, will be a series of tunnels and suspension bridges across it. The suspension bridges at the heights, one at Spuyten Duyvil, and the other half a mile north of the Highbridge; the tunnels at the following points: Kingsbridge, Seventh Avenue, Third Avenue, Fourth Avenue, and another at some intermediate point. General Newton has estimated the expenses of opening and clearing the rocks out of the channel at $2,777,571. The two suspension bridges will cost $1,000,000 each, and the five tunnels $2,000,000 each. If this expenditure could be made now, an open, unobstructed channel of navigation could be secured; but such is not the case. We must deal with the problem as it stands to-day—an obstructed channel which must hereafter be opened at great expense, and will then become of great value. When that time comes this great expense will be justified. That time will arrive when the lowlands on the channel are filled with business and its heights with residences. How is that to be accomplished? It is not to be done by projecting expensive improvements, too costly to be justified, and which we have no money to pay for; and then, having placed that barrier in our path, to stand by doing nothing, and, by indefinite postponements, to put off forever the realization of any substantial benefit, while other suburbs of the city, with fewer natural advantages, are gathering the business and population which otherwise might settle on the river. This policy must now be reversed.

The true policy, therefore, in treating this river, is to facilitate its occupation; to ask the United States Government to remove the ridges and obstructions to its channel; to connect the Highlands by one suspension bridge; to construct light temporary bridges wherever they are needed; and to rely on rapidly-worked draws for the transit of vessels. When these measures fill the valley with population, and its business and population demand it, the permanent works can be undertaken. Provision should be made now for ownership by the city of the land sufficient for the approaches to these tunnels and bridges.

XII.—THE MOST ECONOMICAL AND SPEEDY METHOD OF ACQUIRING TITLE TO THE LAND NEEDED FOR THE PUBLIC USE.

The mode heretofore adopted in this city has been to commence a distinct proceeding for each separate street, avenue, or public place. This has led to a long series of abuses, losses, and disadvantages which can now be reformed and obviated:

1. Expensive advertisements in each case.
2. Maps and surveyors' and assessors' fees in each case.
3. Commissioners' and clerks' fees in each case.
4. Diversity of decisions by different sets of commissioners on questions of title, of discretion, and of law, and delay and uncertainty, until such conflicts are finally settled by the courts.
5. The lack of a uniform rule for determining the area of assessments, resulting in an overlapping of several assessments on particular pieces of property, to the great injury of the owners. This is inevitable where the blocks are not rectangular but of irregular size and shape.
6. The delays arising from the interference of one set of commissioners with another and the inattention to their business on the part of some of them.
7. The increase of assessments, when different streets are taken in successive years, owing to the increase of the value of the land taken for the last streets arising from the improvements made in the region by the opening of the first streets.

In these respects the following reforms can be instituted:

1. Any series of streets, avenues, or public places in one location can be grouped and included in one proceeding.
2. The expense of one advertisement answers for them all.
3. The maps and surveys could be supplied by this department without expense
4. One set of commissioners and clerks could do the work over a whole area in which there was a general uniformity in respect to the value of the land. The expense of making up the reports could be greatly reduced.
5. A uniform principle can be adopted in regard to the area of assessments, so as to avoid all discrepancies or an overlapping of the boundaries of the land assessed for benefit. It will be impossible otherwise, in such a region as this, to avoid conflicts of boundaries if they are fixed by different commissions.
6. Uniformity of decision in all questions of title, of discretion, of law, and of value and the avoidance of the necessity of going to the courts.
7. Great expedition in the work from the ability of one set of commissioners to decide at once numerous questions falling within the same class or depending on a single principle.
8. Great economy to the property owners and to the city in the amount of the assessment.

If all the land should be taken for the public use in one district, say in the town of Kingsbridge, in one proceeding and at a uniformly graded price, it will work equality and justice in the distribution of the assessments; but if, on the contrary, the streets be taken one after the other in successive years, the first streets at the outset at low prices, and other streets afterward at different grades of increased price, the result will be in the end an unequal and unjust distribution of the assessment. This increase of price will be the result, because, as each improvement is made, its direct effect is to work up the value of the land in its vicinity, and thus to increase successively the cost of the subsequent improvements, and to end in making the public pay the highest price for the street which was worth least in the outset, but for which the proceeding had been delayed the longest.

9. Uniformity in the valuations of the land.

The law as it stands now permits this grouping in one proceeding of several street openings. A proper method, then, will be to subdivide this region into several districts, within each of which the land has similar general character and relation of value; and then either to take a single proceeding for all the streets within such district, or to divide them in classes, in the order of time in which they are needed, and then take these classes up in succession, one year after another.

A plan of this sort, resulting from a letter dated 28th November, 1872, from the undersigned to Andrew H. Green, then an officer of the department, has already been adopted by this Board.

XIII.—THE ECONOMICAL MODE AND ORDER OF CONSTRUCTION.

When these avenues come to be worked and constructed, the expense will be very heavy and burden-

some upon the property owners. It is important, therefore, first, that they shall be constructed in a manner through which the amount of filling and excavation under one contract shall be equalized and the work done at economical prices; and secondly, that such avenues as open the region, and make it accessible to incoming population, and thus increase the value of property, shall be first constructed.

XIV.—A THOROUGH SYSTEM OF SEWERAGE AND DRAINAGE ON THE BEST SCIENTIFIC PRINCIPLES.

In one section in this city, to wit, that west of the Eighth Avenue, between Fifty-ninth and One Hundred and Fifty-fifth streets, a system has been adopted of main sewers along the bottom of the natural valleys, and this keeps open all the natural outlets of underground and surface water-flow.

Except in that district, this principle of natural drainage has received no attention. Sewers were built in the lower part of the city on the lines of the streets and avenues, with insufficient inclination; the natural outlets were not kept open, but impeded, and great basins of underground collections remain, as sources of malaria.

The result is that the pipes in the dwelling-houses, intended for drainage, have become fountains for the emission of malarial poison.

The lower part of the city will never be healthful.

The other important question, of providing for the collection of sewerage, without pouring it out into the rivers, and then carrying it away and making it useful for agricultural purposes, has never received such consideration as to result in a practical experiment in this city.

Many experiments have been tried, and much money expended on this subject, in the cities of Europe, under the necessity of preserving the health of great centres of population.

Within the region under review, this subject ought to receive very thorough consideration, sufficient, at least, to provide, in the plan on which it is laid out, for such a system of thorough drainage and sewerage as it may be forseen will ultimately become necessary. The best modern scientific methods of disposing of sewerage should also receive careful study. In the meantime, the region needs immediate drainage. This should be as thorough as possible, upon a temporary system. It is obvious that the valleys running southwardly into the Harlem River cannot ultimately become lines of main sewers without great detriment to the usefulness of that river and the healthfulness of the country. No expensive works of drainage should be constructed on such lines, when it can be forseen now that in the end they will have to be abandoned.

XV.—IN THESE POINTS THERE MUST BE A THOROUGH APPRECIATION OF ALL SANITARY CONDITIONS.

Modern science has made rapid advances in the subject of the sanitary conditions necessary for the health of cities, and the next great movement of population in this metropolis will be away from the malarial and unhealthful section below Murray Hill to the suburbs of the city, as soon as its healthfulness is established, and it is made ready for occupation—a movement similar to that in London, of the wealthiest people from the crowded city to suburban villa life. Of all the suburbs of the city, this region will have its natural beauty and its healthfulness as its strong point in the competition for population.

If every sanitary consideration and advantage is thoroughly provided for, its future first-class occupation and high value will be secured.

XVI.—PECUNIARY CONSIDERATIONS.

These considerations have two elements:

1. To produce the best ultimate results at the least cost, and

2. In the shortest time.

1. The cost of preparing a rural district for occupation as a finished city is enormous. This is shown by the fact that $60,000,000 have been expended in the last fifteen years on the area between Fifty-ninth and One Hundred and Fifty-fifth streets. But its direct and necessary effect is, at the same time, to increase manyfold the value of the property; and this justifies the owner, and enables him to meet the assessments.

The work must be planned, not on an exaggerated scale, in flush times, which becomes impracticable in hard times, but on a well considered scale, upon which advantage can be taken of hard times and low prices to hasten the work; and the work must be carried through in such an order as constantly to contribute to the accessibility and increase of value of the property.

2. This work should be done in the shortest practicable time. The value of a tract of land undergoing transformation from farm to city does not become productive until the transformation is completed. At any intermediate point of time, the value depends upon the prospect that this completion will be speedy; that is, if the completion will be in a year, and its value as a city lot at that time can be forseen, its present price can be fixed at a discount for a year on that value. If the completion be postponed ten years, the discount for that time will reduce the present value of the lot to nothing. This delay in the progress toward completion injures the owner in other respects, viz., the loss of interest on the capital he has invested, on the assessment he pays, and the value of his own time, and, also, in the increasing amount of his annual taxes. Considerations like these bring property owners to the conclusion that a systematic rapid progression in public improvements is the point of vital consequence. Indefinite postponement and delay destroys the value of property. If all the improvements in this whole region were to cost $20,000,000, and were to be completed within a year, the property would rise in value ten times that amount, and become productive. Each year's postponement diminishes the value, and results in positive loss to the property owner. This is a sharp illustration of the effect of delay in impeding value. In fact, the point of occupation and high value is not reached until the tide of population is ready to flow in upon and fill up the region.

A portion of the expense of this work will fall upon the city. Far beyond the measure of the advantage to the property owner will be the advantage and gain to the city. It will receive, in its annual taxation on this increased value, more than its total share of the expenditure, and such an income perpetually.

XVII.—THIS PLAN IN ITS WHOLE SCOPE SHOULD BE THE SUBJECT OF IMMEDIATE DECISION.

In every aspect it is better for the property owners and the public to look calmly at every one of the necessary conditions of the problem of making this region the most attractive, the most valuable, and the most healthful of all the suburbs of the city; to look at every item of future expense, and to concur now in the study and adoption of a plan which meets, not shrinks from meeting, these necessary conditions; faces, not postpones, these necessary expenditures. A broad, comprehensive, positive policy will accomplish results which a narrow, piece-meal, obstructive policy will never reach. This latter policy has prevailed too long, to the great damage and destruction of the interests of property in the central portions of the island. If such a plan be adopted, its execution should be careful, economical, and progressive.

If the expenditure is incurred in such order of time and improvement as to increase the value of property and not overburden it with debt, and then, by needless delay, to depreciate its value; if the work of construction is carried forward, step by step, in proper order, so as to keep it healthful, and not by street construction before sewerage and surface excavation before drainage, make it malariaous and uninhabitable; if the street openings, whether of main thoroughfares or of cross streets over the interspaces, are conducted so as to keep property lines intact, and not by throwing open to the public streets, for which there is no present use, across lawns and villa grounds, turn elegant country seats into unfenced wastes; if attention be given so that the region may be fitted for its profitable and productive ultimate occupation at the earliest practicable period, without, in the meantime, rendering it unhealthful and uninhabitable; if these conditions are complied with in respect to execution, the public and the property owners here will be saved from the disasters which have befallen men of the same class in other sections of the city where these judicious rules have not received sufficient attention.

It may be assumed that during the next ten years the population of this metropolis will increase by numbers varying from 20,000 to 40,000 each year. During the ten years from 1860 to 1870, the growth in population of Kings and Westchester counties, and the New Jersey border counties, was from 656,495 to 1,000,616, and of New York City from 813,669 to 942,292. In the competition for this future growth, if this region is so treated as to develop its natural advantages, it will have a chance for the largest and the best share. It contains an area of twenty-two square miles, and its present population is about 40,000. At the rate of 10,000 to each square mile it would contain 220,000. Within the next ten years the natural growth of population will supply such numbers, and at such a density the region would be fairly occupied and settled as a villa suburb. There may be such an inflow of population, and, if it comes, it will require the adoption of a plan for this region and substantial progress in carrying it out. It may, then, fairly be assumed that, if progress be made in preparing this region for occupation at such a rate as has been indicated, it will not be much in advance of the stream of population. But this has not to be decided now. When the plan is adopted its rapidity of execution can be made to depend upon the actual demand for the property.

XVIII.—CONCLUSION—IMPORTANT CRITICISM BY MR. MARTIN.

These statements are submitted without argument. The support which could be given to them by illustrations from other cities, by statistics and by the fundamental considerations of administrative and social economy toward which they plainly point, at present I refrain from, but the material to establish them to the satisfaction of any reflective mind interested in the best methods of administration, will not be wanting whenever there shall be occasion for them.

In this investigation I have to acknowledge the unfruitfulness of the materials gathered upon these subjects in certain papers and documents of this department. They supply great collections of undigested information which did not lead their author to results of practical value, and furnish no assistance in that direction to any one else. They rather misled the public into supposing that the measures which were adopted were the outcrop of all these investigations, and that nothing more practical and more effectual could be done. It is not without due hesitation that the conclusions are now reached that plans have been adopted when the necessary conditions were not comprehended; that works have been provided for in them on such a scale of expense as in themselves to be barriers to progress, and others such as it is not now and never will be profitable to any one to construct. The necessary result of this was, that no power could be put into the execution of such plans, and that the undecided, procrastinating, obstructive policy has prevailed, which has proved so disastrous to the public interests. I refrain from mentioning the numerous illustrations of these deficiencies.

[illegible]amination of the plans now before the Board, [illegible]d for the laying out of certain sections of this [illegible]into streets, has led me to the conclusion that [illegible]not meet all of the requirements or comprehend [illegible] the conditions of the problem. A perusal of what [illegible]here presented will indicate in a general way the nature of my objections to them. Their merit in certain respects is not impeached, but they are not adequate.

Respectfully submitted,

WM. R. MARTIN.

SPECIAL NOTICES.

We call the attention of buyers to the advertisement of John W. Stevens, offering houses for sale to "suit the times." Mr. Stevens is an old and well-known builder, and the property offered for sale by him, especially the houses on Fifty-third Street, near Broadway, are worth all the money he asks for them, and more too. A four-story, brown stone house right near Broadway, with all modern improvements and plumbing work of the very best material, for $25,000 is a bargain even in times like these.

Among the novelties of peculiar interest to contractors and builders is the organization of the New York Cleaning Corps, whose advertisement appears in another column. The Western Union Building, after having been completed, was cleaned by this corps under the management of Mr. C. N. Swift, whose office is at 61 Bleecker Street, where orders will be received for cleaning new buildings, hotels, dwellings, marble fronts, banks, &c., &c.

MORTGAGES.

REAL ESTATE.

NEW YORK.

NOTE.—The arrangement of this list is as follows: The first name is that of the mortgagor, the next that of the mortgagee. The description of the property then follows, then the date of the mortgage, the time for which it was given, and the amount. The general dates used as headings are the dates when the mortgage was handed into the Register's office to be recorded.

Wherever the letters "P. M." occur, preceded by the name of a street in these lists of mortgages, they mean that it is a Purchase Money Mortgage, and for fuller particulars see the list of transfers under the corresponding date.

March 30, 31, April 1, 2, 3, 5, 6.

BET. PUTNAM AND JEFFERSON, THROOP AND Yates avs., one one-story frame brick-shed, 30 x51; owner, G. W. Applegate, 678 Gates av.; builder, —— McMahon.

MISCELLANEOUS.

REVIEW OF THE REAL ESTATE MARKET.

There is a decrease of over fifty per cent. in the number of real estate transactions compared with two years ago, and a much larger proportion in the considerations paid. Certain classes of property, once in high favor, hardly find purchasers, and the dullness which pervades the market arises not so much from want of faith in the future of city realty as from the uncertainty which besets recovery. Ordinary speculators do not care to buy and wait for deferred activity, as most of their profit lies in a stirring market. All business tendencies are toward improvement, but the feeling has not yet communicated to real estate, which is still quiet and depressed. The sales of the week have been somewhat numerous, but do not show any new features, prices ruling as before, rather weak, while competition has been cautious, and limited to small offers. Private sales have been comparatively few, and we do not glean anything specially interesting from the records. Rents in some localities are still more off, and we have knowledge of concessions which indicate that the owners of property, however unwillingly, are making up their minds to reductions.

Some important sales are announced for the coming week, in which the offerings claim attention. Among them is the sale, by A. H. Muller & Son, of a portion of the Ferris estate, which presents opportunities for investment upon favorable terms. We also invite attention to the sale by Richard V. Harnett, on Thursday next, of property located on Sixth Avenue, Fifty-sixth street, and other streets, and which includes some very desirable offerings.

Loans are becoming more extended, and the following table shows the aggregate of loans by banks and insurance companies for the month of March in each year:

	1874.	1875.
Loans by banks	$855,100	$621,800
Loans by insurance companies	621,800	1,263,850
Total	$1,476,900	$1,885,650
Increase		$408,750
Loans for February, 1875		$1,170,500
Loans for March, 1875		1,885,650
Increase		$715,150

LOCAL ITEMS.

The Commissioners of Estimate and Assessment for grading One Hundred and Fiftieth, One Hundred and Fifty-first and One Hundred and Fifty-second streets, have completed their report, and have filed the same at the house of John Mehiem, Third Avenue, between One Hundred and Fifty-first and One Hundred and Fifty-second streets. Objections thereto may be made on the 19th instant, between the hours of two and five o'clock P. M. The counsel to the corporation gives notice that application will be made to the Supreme Court on the 28th instant for the appointment of Commissioners of Estimate and Assessment for laying out a parade ground between River Street and Sherman Avenue, and Inwood Street and a new street.

The Department of Public Charities and Corrections asks for proposals for potatoes, straw, rye, peas, meal, coffee, leather, and shovels.

The Commissioners for opening of a new avenue, intermediate with the Avenue Saint Nicholas and Eighth Avenue, from the easterly side of Avenue Saint Nicholas, at One Hundred and Thirty-fifth Street, to One Hundred and Forty-first Street: and also the opening of two new avenues, intermediate, Avenue Saint Nicholas and Eighth Avenue, from One Hundred and Forty-first Street to One Hundred and Forty-fifth Street; also, the opening of two new avenues, intermediate avenue, Avenue Saint Nicholas and Eighth Avenue, from One Hundred and Forty-fifth Street to One Hundred and Fifty-fifth Street; also, the opening of Ninth Avenue, from the Avenue St. Nicholas to One Hundred and Fifty-fifth Street; also, the opening of One Hundred and Fiftieth Street, from Ninth Avenue to the new avenue next easterly from Ninth Avenue; also, the opening of One Hundred and Fifty-third Street, from the Ninth Avenue to the Hudson River, in the city of New York, have completed their report. Objections must be made on or before May 5, and the report will be presented for confirmation on May 13. The Commissioners for opening Seventy-third Street, from Fifth Avenue to the East River, notify that objections to their report must be made on or before May 5, and that the report will be presented for confirmation on May 31.

The New York Bridge Company (as advertised in another column) asks for proposals for wrought iron, anchor plates, limestone, and cut granite.

TO GENTLEMEN OF WEALTH.

FOR SALE OR TO LET, ROBINSWOOD, for twenty years the country seat of Stewart Brown, Esq., of Brown Bros., situated on the shore of Whitestone Bay, Long Island, one hour from the City Hall, by Central Railroad of Long Island. This property contains thirty-five acres, elegantly laid out, paths and groves with magnificent shrubbery, a fine substantial mansion, giving a full view of Long Island Sound, the Eastern shipping of the port passing within plain sight of the piazza; also a gardener's cottage, green-house, barn, stables, boat-house, and bathing-house.

There are few, if any, places in the suburbs of New York which equal this English bit of landscape, which is just suited for the residence of a gentleman of wealth and position. It adjoins the property of W. W. Cryder, and the owner prefers to sell it in its entirety, as the property is too fine to be cut up. Price $100,000. Inquire of Mr. Brown's Attorney, Geo. W. Van Siclen, 99 Nassau Street, New York.

BUREAU FOR THE COLLECTION OF ASSESSMENTS.

Property owners are notified that assessment lists for the purposes designated below have been lodged for collection. The limits of property affected thereby have been heretofore published in this paper.

Madison av., from One Hundred and Twenty-fourth st. to Harlem River, regulating, grading, curb, gutter, and flagging.
Eighty-first st., between 2d and 4th avs., paving.
Eighty-fourth st., from Av. A to 3d av., and from 4th to 5th av., paving.
Spring st., between Broadway and Crosby sts., sewer.
Thirty-third st., s. e. cor. 1st av., receiving basin.
Thirty-third st., n. e. cor. 1st av., receiving basin.

All payments made on the above assessments on or before May 31, 1875, will be exempt (according to law) from interest. After that date interest will be charged at the rate of seven (7) per cent. from March 24, the date of confirmation.

IN BOARD OF ALDERMEN.

APRIL 8TH, 1875.

MARKETS.

Activity in our markets is daily developing. This is natural to the season, but we fancy that there is improvement as compared with last year, and that although prices generally may not be of the strongest, trade is of a character to warrant hope and better expectation. The fair weather of the past week will likely continue with slight interruptions, and we need hardly fear any extreme that will prevent building. The river has opened sufficiently to permit shipments of bricks, and our quotations, based upon the earliest arrivals of the season, are resumed. There is an easy feeling in material, favorable to purchasers, and we can only repeat what we have heretofore held—that there will be no more favorable time for improvement than now. Prices are about as low as can be reasonably expected, cost considered, and it would be strange if, with the amount of idle capital held, nothing should be done to take advantage of the opportunity offering. Money is more in demand, yet easy. Trade with foreign countries is all in our favor, and, judging from the earlier indications of the year, coupled with the bountiful results of our latest harvests, we have good reason to expect a fair return of prosperity.

Our review in detail is appended:

BRICK.—The market, showing more life than at any time since shipments suspended, has not fully awakened into activity. The first arrivals of the season from Haverstraw occurred on Sunday, April 4, the Bay opening on the 2d, since when about 1,000,000 brick have come forward. Movement has been somewhat slow, as at the time of report all of these had not been sold, dealers holding off, the demand not being sufficient as yet to compel full purchases. The first sales were made at $8.50 per M, prices afterward receding to $8, with tendencies not of the strongest. The prices of other hard brick have been affected by the advent of the North River manufacturers, and we quote: Pale, ᵩ M, $——; Jersey, $6.50; Long Island, $7.50; Up-river, $——; Haverstraw Bay, $8; Fronts, Croton—brown, $12@13; dark, $13@14; red, $14@15; Philadelphia, $28@32; Baltimore, $50@56. Yard prices, delivery included, $2@3 higher.

CEMENT.—Rosendale is in ordinary request and firm at $1.30 cash. The market for foreign is not active, quotations remaining steady at $4.25 for Portland ex vessel and $4.50@4.75 from store. Roman is dull and nominal.

FIRE BRICK—Are limited in movement but steady at old figures. We quote American $40@50; Red Welsh $50; and Scotch $47.50@55 per M.

GLASS.—Trade is quite dull, and the limited demand has rather softened prices. We quote French window at 40 and 5 @ 40 and 10 per cent. discount. English sheet and polished plate are quiet and nominally steady at recent quotations.

HAIR.—Dull and nominal at our quotation.

HARDWARE.—Trade has improved feeling and business has been fairly good, justifying reasonable anticipation of a still better market. Prices are generally firm, although we note some changes involving reductions. We quote the discount sheet of the American Screw Company as follows: Iron flat head, 62½ per cent. on all numbers; brass do., 52½; do. and iron round head, 50; and do. fillister head, 45. These discounts, while the list prices are advanced somewhat, amount to a reduction sufficient to prevent foreign competition. The discount for door locks, trimmings, and padlocks has been changed to 45 and 2 per cent. There has been some reduction in bronze metal door knobs, M. W. & Co., quoting 25@30 per cent. lower. Mr. Geo. W. Bruce announces reduced prices for flat head iron screws, quoting the following discounts from the new American lists: English iron flat head, 62½ and 5 per cent.; iron flat head, blued, 57½ and 5; iron flat head, tinned and galvanized, 40; iron round head, bright, 50 and 5; iron round head, blued, 50; brass flat head, 50 and 10; brass round head, 50; machine flat head, 30 and 12½; machine round head, 25 and 12½; the Atlantic and International American screws, 62½ and 2½; stove bolts, 20.

LATH.—There has been no weaker feeling in the market, and tendencies are more toward strength. Eastern manufacturers are holding back, and as only a few mills are cutting, it is possible, with an increasing demand, that prices will advance. Arrivals during the week have amounted to 2,000,000, of which the larger portion, say three-fourths, have been sold at $1.75, and the balance at $2. At time of report there were none in market, and inquiry was not very prominent. We quote at $1.75@2 per M. Yard prices 25 cents per M higher.

LIME.—The market remains steady under conditions previously noted. There is no State common in first hands, and to that extent quotations are nominal for cargo lots. Arrivals of the leading manufactures of State lime may not be expected for a number of days, navigation still being impeded. Rockland is in moderate supply and steady at former quotations. We quote common $1.25 and finishing $1.50@1.65 per bbl. Yard prices 25 cents per bbl. additional.

LUMBER.—The wholesale trade shows some dullness, white pine being very quiet, but quoting steadily at $20@22 for shipping orders. Spruce has been somewhat active, and we note arrivals of about twenty cargoes which were sold at $17@19. Quotations range from $16@18 for random to $18@20 for ordered schedules, although the latter price is very hard to obtain. Prices are of rather weak tendency, but we think that except for inferior lots the range of quotation given above is too low. We quote at $17@20. Yellow pine had been quiet, but there were many orders in the market, none of which had been placed, although it is probable that such results will be attained by the time this reaches our readers. The figures were low and varied but little. We quote at $23. There is increasing activity at Southern ports and stronger prices. Ordinary South American cargoes are quoted at $16@16.50 and West Indian at $15@16. Local trade is improving, and the yards show more activity. The demand is still chiefly limited to material for inner fittings and alterations and the calls of spring trade. For general building purposes activity has not fully developed, but the prospects of trade in that direction are improving. Pine continues steady at former prices. Hardwoods are in fair request and firm according to the exigencies of trade. Quotations generally are retained.

Michigan and Wisconsin Notes.

From the *Lumberman's Gazette*, April 3:—

As we close our record of this week, we can speak of the market but in general terms. But few inquiries are made for lumber, the breaking up of the streams in various parts of the country obstructing travel to such extent as to prevent any certainty of reaching one's destination if a start be made. It is, no doubt, owing to this fact that but few buyers have put in an appearance. Those who have visited the valley during the past week assert that they find holders extremely firm in their views, and from their own observations of the prospects of log driving agree with us in the opinion that no danger of an overstock of logs need be apprehended as affecting the early markets unless heavy rains within a few days shall send out the ice from the streams much more rapidly than at present there is a prospect of.

We hear of a sale of 800,000 feet Rifle River stock by Rust, Eaton & Co. at $6, $12, and $35, and 350,000 feet Bad River stock at same figures. While on some inferior lots these prices would undoubtedly be shaded, we believe that for a fair run they are indications of the firmness of holders in general.

From the same:—

From all the information we can gather we are satisfied that the production of logs in the country tributary to the Saginaw Valley will aggregate in quantity far below the figures of former years, although largely in excess of the requirements of the country in view of the universally prevailing depression in all departments of trade. The time has now come when the effect of this large production can be safely analyzed, and it has become the settled conviction of those well qualified to judge that but a small proportion of the winter's cut can safely be counted upon as influencing the season's trade.

From the correspondence of the Chicago *Tribune*:

"Reports from the Wolf River pineries show that the total log crop this season will not exceed 120,000,000 feet."

From the Chippewa *Herald*:

A great many of the loggers have come out of the woods; several are working away yet—the recent snows enabling them to get out more stock.

There is a lively competition among the log-buyers, and prices are ranging higher than last season, owing to a general belief that there will not be a two-thirds stock of logs. Mill-men are actively purchasing, and loggers evince no disposition to "hang off" when reasonable figures are offered.

The largest sale is that of Josie & Caldwell's logs, on the Jump River, amounting to 7,000,000 feet, at $6.55, to the Union Lumbering Co.

The following are a few of the smaller sales reported:

McDonald & McFee to Eau Claire Lumbering Co., 3,000,000 feet on Thornapple, at $3.65.

Fergusyn & Trepannier to Eau Claire Lumbering Co., small lot on Yellow River, at $6.50.

Howe & Johnson to same, 1,000,000 feet, on Yellow River, at $6.75.

St. Martin Bros., to Union Lumbering Co., small lot on Yellow River, at $6.

S. C. Chadbourn to Mississippi Logging Co., small lot on main Chippewa, at $5.50.

A. Lesaid to Eau Claire Lumbering Co., small lot on main Chippewa, at $5.25.

F. McGuire to Union Lumbering Co., 1,000,000 feet, on Yellow River, at $6.50.

The Mississippi Logging Co. contracted for most of their stock—between 40,000,000 and 50,000,000 feet—last fall, at prices ranging from $5 to $5.75.

This is the highest price ever paid for logs on the Chippewa River, but the high prices paid for the lot on the Jump seem to be fully justified, on account of the superior quality. Since the improvements have been put in on the Yellow River, logs have been worth $1 more per M there.

METALS.—COPPER.—Manufactured is steady at the following quotations: New sheathing 28 cents; bolts and braziers' 30; bronze and yellow metal sheathing 21; and yellow metal bolts 28 cents per lb. net cash. There is an increasing demand for ingot, with sales at 21¼@21¾ cents.

IRON.—The market for Scotch pig has been dull and is somewhat depressed, and sales are only made to supply current necessities. American pig does not show any marked signs of any improvement, although trade, to a certain extent, is better, while prices remain at low figures, large sales being difficult to effect. Rails are also dull and nominal, and scrap is quiet. Manufactured from store is more firmly held, and prices of refined bar have been advanced.

LEAD.—Foreign pig is quiet and nominal at $6.50@$6.75, gold. Domestic is dull at $5.80@5.87½, gold. Manufactured is steady at the following quotations, viz.: Bar 8⅝ cents, pipe 9, and sheet 9¼, all less 10 per cent. to the trade. Block-tin pipe 45 and tin-lined pipe 16¼ cents.

TIN.—Pig is dull and neglected, Straits quoting nominally at 20½ cents, and L. & F., 20, gold. Plates are quiet, at somewhat softer prices.

ZINC.—Sheet is steady, at 9¼@9½ cents, gold.

NAILS.—The demand for cut is moderate, and prices are steady, at the following quotations: 10d. to 60d. common fence and sheathing, ℔ keg, $3.25@3.50; 8d. and 9d. common do. ℔ keg, $3.50@3.75; 6d. and 7d. common, ℔ keg, $3.75@4; 4d. and 5d. common do. ℔ keg, $4@4.25; 3d. and 4d. light, ℔ keg, $4.75@5; 3d. fine, ℔ keg, $5.50@5.75; 2d. ℔ keg, $6.25@6.50. Cut Spikes, all sizes, $3.50@3.75. Floor, Casing, and Box, 75 cents above the same sizes of Common—Finishing, $1 above and Fine Finishing, $1.25 above.

CLINCH NAILS.

1¼ to 1½ in.	2 & 2¼ in.	2½ & 2¾ in.	3 in. and longer.
$6@6.50.	$5.50.	$5.25	$5 ℔ keg.

OILS.—Linseed has been in good demand, throughout the week, but prices have failed, and the market is quoted at 70@71 cents for casks from crushers' hands.

PAINTS.—The demand has been of a general character, and very good, prices continuing quite steady and firm. Vermilion has been in fair request, American selling in bags at $1.49½@1.50, gold. Venetian red in demand at $1.90, gold, for Cookson's, and C. T. R. Strictly pure Paris green has been selling at 32 cents. China clay has sold at $19@21, gold. White lead has been in fair request. The price of pure No. 40 carmine has been fixed according to the following list: 1 to 10 lb., per lb., in bulk, gold, $6; in 1 lb. bottles or boxes, $6.15; 10 to 25 lb., $5.85@6; 25 to 100 lb., $5.75@5.90; 100 lb. and upward, $5.50@5.65; in 1 oz. vials, $1 per lb., gold, more: nakarat, $1, gold, ℔ lb. more than No. 40, cash, 30 days. Paris white has sold at $1.80@1.85, gold.

PITCH.—The market is quiet but steady, at $2.25 per bbl., for city, f. o. b.

SPIRITS TURPENTINE—Had declined to 35½ cents, but with a more active demand the market recovered tone and prices closed steadier, at 36@37 cents per gallon.

TAR—Has had some business, but has been generally dull and easy. We quote Newbern and Washington at $2.12½@2.25, and Wilmington at $2.25@2.37½ per barrel.

A GOOD INVESTMENT

EVERY PRUDENT MAN, CAREFUL OF THE

health and comfort of his family, should see to it that his drinking water is conveyed through TIN-LINED LEAD PIPE, which is a perfect safeguard against lead poison. Tin-lined Lead Pipe is strong, durable, flexible, and easy soldered. It is a great benefit to the community, and enhances the real value of every house in which it is introduced. It is cheaper than Lead Pipe, when strength and durability are considered. Sold by the COLWELL LEAD CO., 213 Centre St., New York. Price, 16½ cts. a pound for all sizes. Descriptive pamphlets sent by mail free. Also, manufacturers of Lead Pipe, Sheet Lead, Block Tin Pipe, Bar Tin, Pig Tin, Bar Lead, Pig Lead, Solder, &c. Orders filled at sight.

Between 52d and 53d Streets, NEW YORK.

Magrath's Copper Sash-Chain.

Patented 21st March, 1871.

Is adapted to ordinary round pulley, and strong enough to suspend weights of any size required.

Being intended as a substitute for sash-cord, it can be put into sashes now provided with cord without any change of pulleys. The inventor feels confident that experience will prove his chain to be both economical and durable, besides doing away with the constant annoyance and expense attending the use of sash-cord.

OPPOSITION TO SENATE BILL NO. 98—REMONSTRANCE READ BEFORE THE JUDICIARY COMMITTEE.

The following remonstrance, which was read before the Judiciary Committee of the State Senate, expresses the views entertained by New York tax-payers and property owners in regard to the bill authorizing insurance companies to loan their surplus fund outside of the State:

To the Honorable Legislature of the State of New York:

We, the undersigned, on behalf of the following associations of real estate holders in the City of New York, viz.: The East Side Association, The North Side Association, The West Side Association, and The Washington Heights Association,

Do respectfully remonstrate against the passage of the act now pending and known as "Senate bill No. 98," and which is intended to grant additional powers to the corporations therein named, for the following reasons, that is to say—

First—The corporations mentioned in that act have special privileges conferred upon them by the laws of this State, and particularly the life insurance companies, which are exempt from taxation on their personal property (excepting only $100,000), in return for which the people of the State are justly entitled to receive whatever advantages can be derived from the judicious and safe investment of their funds within this State, and particularly in the great benefits arising from loans upon bonds and mortgages.

Second—It is believed that if this bill should be passed it will result in the diversion of large amounts of capital from this State which ought, of right, to be invested within its borders.

Third—That so wide a latitude of investments is allowed, namely, the city, village, county, or town bonds of the States mentioned in the act, and the rate of interest promised for such investments is so high that the inducements thus offered will result in the diversion of capital from this State, and will encourage the corporations mentioned in the act to make investments of doubtful security and propriety.

Fourth—That before the recent panic the demand for loans upon bond and mortgage was far in excess of the supply, which was owing to the high rate of taxation, by reason of which capitalists are deterred from making such loans. That when business again revives there will be need for all the surplus capital that may be available for loans upon mortgages or for the development of the various industries of the State.

Fifth—That owing to the injurious system of taxation within this State, and the usury laws, very large amounts of capital have been sent beyond its borders to invest in the Western and Northwestern States, where the rates of interest are higher than in this State, by means of which said capitalists escape taxation; and it is feared that if this bill be passed it will open the way for further depletions of capital in the same directions; that even if the bill as now drawn is not broad enough to accomplish this result, it is apprehended that it will be altered so as to remove any restrictions in the way of such investments. Respectfully submitted.

Dated New York, March 12, 1875.

EDWARD ROBERTS,
President East Side Association.

JOHN W. PIRSSON,
President West Side Association, *Pro tem.*

B. W. VAN VOORHIS,
President Washington Heights Improvement Association.

MORTGAGES.

REAL ESTATE.

NEW YORK.

NOTE.—The arrangement of this list is as follows: The first name is that of the mortgagor, the next that of the mortgagee. The description of the property then follows, then the date of the mortgage, the time for which it was given, and the amount. The general dates used as headings are the dates when the mortgage was handed into the Register's office to be recorded.

Wherever the letters "P. M." occur, preceded by the name of a street in these lists of mortgages, they mean that it is a Purchase Money Mortgage, and for fuller particulars see the list of transfers under the corresponding date.

April 7, 8, 9, 10, 12, 13, 14.

LEGAL NOTICE.

NOTICE OF LIMITED PARTNERSHIP.—THE undersigned, Samuel Hawk, Gardner Wetherbee, and Charles C. Hastings, all of the City and County of New York, in the State of New York, desirous of forming a limited partnership under the Statutes of the State of New York, do hereby certify:

First—That the name or firm under which such partnership is to be conducted is HAWK & WETHERBEE.

Second—That the general nature of the business intended to be transacted by such partnership is to carry on the business of keeping the Windsor Hotel in the said City of New York.

Third—That the names of all the general and special partners are as follows: Samuel Hawk, who resides at No. 5 East Forty-eighth Street, in said City of New York; and Gardner Wetherbee, who resides at the said Windsor Hotel, Fifth Avenue, Forty-sixth and Forty-seventh streets, in said City of New York, are the general partners; and Charles C. Hastings, who resides at No. 51 West Forty-sixth Street, in said City of New York, is the special partner.

Fourth—That the said Charles C. Hastings has contributed the sum of One Hundred and Fifty Thousand Dollars to the common stock.

Fifth—That the period at which said partnership is to commence is the fifteenth day of April, in the year one thousand eight hundred and seventy-five, and the period at which the said partnership is to terminate is the first day of May, in the year one thousand eight hundred and eighty-three.

Dated at the City of New York, this fifteenth day of April, 1875.

SAMUEL HAWK.
GARDNER WETHERBEE,
C. C. HASTINGS.

Witness: AARON RAYMOND.

MISCELLANEOUS.

REVIEW OF THE REAL ESTATE MARKET.

It has been a week of effort in the market, requiring much time and patience to bring conclusions, and, although public sales have been numerous, they cannot be said to have afforded any guaranty of coming activity or better feeling. The sale of the Ferris estate was again deferred, after disposal of a few prominent parcels at low, and, to the owners, unsatisfactory rates. In several of the sales competition was fair, limited, nevertheless, by cautious bidding and close calculation, even where the character of the offerings warranted different expression. The general market remains as before, dull and without noteworthy features. It would seem, therefore, that nothing can be expected of the present season, unless people who determine to place their property on the market will act up to their promises and make their sales peremptory. It is, of course, too much to expect that this will be done, but, on the other hand, it should be remembered that experiments are equally fatal to the property offered and to the class of real estate which it represents. This lesson has been often inculcated by precept and example, but, as yet, has not been learnt. Some prominent offerings

are announced for the future, but unless satisfactory proofs are given of earnest intention to bring them to issue, they are likely to fall flat upon the market.

On Thursday next, D. M. Seaman will sell at the Exchange, in partition, several lots located on One Hundredth Street, between the Eighth and Ninth avenues. The street is fairly improved, and the property is available for investment.

TO GENTLEMEN OF WEALTH.

FOR SALE OR TO LET, ROBINSWOOD, for twenty years the country seat of Stewart Brown, Esq., of Brown Bros., situated on the shore of Whitestone Bay, Long Island, one hour from the City Hall, by Central Railroad of Long Island. This property contains thirty-five acres, elegantly laid out, paths and groves with magnificent shrubbery, a fine substantial mansion, giving a full view of Long Island Sound, the Eastern shipping of the port passing within plain sight of the piazza; also a gardener's cottage, green-house, barn, stables, boat-house, and bathing-house.

There are few, if any, places in the suburbs of New York which equal this English bit of landscape, which is just suited for the residence of a gentleman of wealth and position. It adjoins the property of W. W. Cryder, and the owner prefers to sell it in its entirety, as the property is too fine to be cut up. Price $100,000. Inquire of Mr. Brown's Attorney, Geo. W. Van Siclen, 99 Nassau Street, New York.

BUSINESS CHANGES.

IN BANKRUPTCY.

Week ending April 15th.

McCormack, W. G. and Joseph E ...Referred to Register Dwight.
Higgins, J. Olmstead....Referred to Register Ketchum.

MARKETS.

We cannot speak of trade for the past week fairly as we would, since it does not seem to have moved with the vivacity expected, and which is proper to the time of year. There has been diversity, however, in the extent of business, some reporting quite active trade, drawing fully upon their resources for supply, while others complain of inactivity and weakness. Recovery from depression is of slow growth, and if one week with another does not fulfill the promise of better times, there is sure to be some lamentation and gloomy foreboding.

Our markets have had a fair share of business, but have not improved upon our last report, except in the favor extended to purchasers. Weakness in some of the leading articles has increased, and of such as are without change we can only say that they are steady, with a dull feeling and movement limited to actual requirements. The general commercial out-look is said to grow brighter, but in a gentle, almost imperceptible way—like a convalescent from severe sickness. Financial matters are still in an easy state, money loaning freely and actually looking for a place to go.

We append our report in detail:

BRICK.—Movement has been rather free, arrivals occurring all the time and sales making almost as fast. The quantity of brick coming down the river has not been so large, however, as to make the market active in the usual sense. The arrivals were from 1,500,000 to 2,000,000, which sold along easily without any very great pushing, but slow enough to compel concessions, and prices fell off to $7.25 per M. There has been one cargo down from Castleton which was quoted to us at $6.50@6.75. A few pale brick were disposed of at $3.50, but their number was very limited, and they were the first lot of the season. Shipments hither of Jerseys have suspended, latest sales occurring at $7. It is not probable that prices will recede further, as manufacturers are now disposed to withhold their goods until the demands of the season excite a stronger feeling in the market and compel better prices. We quote: Pale, ℔ M, $3 50; Jersey, $6.50@7; Long Island, $7.50; Up-river, $6.50@6.75; Haverstraw Bay, $7.25@8; Fronts, Croton—brown, $12@13; dark, $13@14; red, $14@15; Philadelphia, $28@32; Baltimore, $50@56. Yard prices, delivery included, $2@3 higher.

CEMENT.—The market moves slowly, Rosendale being rather dull but steady at $1.30 cash. Portland is weaker, quoting at $4.25 from store for small parcels and $3.80 for large lots. We quote at $3.30@4.50.

FIRE BRICK—Are quiet at former quotations.

GLASS.—French window is in very limited request at 40 and 5@40 and 10 per cent. discount. Other descriptions are dull but steady at former quotations.

HAIR.—Inactive and without new features.

HARDWARE.—There is a fair demand, principally upon orders by mail, few purchasers coming personally into the market. Trade, however, has not shown any prominent features, and is not as active as might have been expected of the season. Prices are generally firm and strong, plumbers' goods meeting with a better demand at firmer prices.

LATH—Are dull, the city trade being well supplied. Arrivals aggregate about three millions, of which 600,000 sold at $1.75 and 1,500,000 at $1.50 per M, with about 800,000 offering at the latter price at the close of our report. The river having opened, a better demand is expected from different points, and prices may steady even in the face of frequent arrivals. We quote at $1.50 @1.75 per M.

LIME—Continues in good request for all arrivals, Rockland only coming forward and selling even with the supply. No State lime is expected down the river until next week, and the market is quite bare of the home manufacture. Prices are firm throughout, and we quote common at $1.25 and finishing at $1.50@1.60. Yard prices 25 cents per bbl. higher.

LUMBER.—The market has become rather inactive, and demand both for local and export purposes has fallen off to a considerable extent. This is partially a result of foul weather, which has supplemented the brighter days of the week, and has given to business generally a somewhat duller and gloomy cast, and there are consequently few points of interest for report. White pine is in very indifferent request, and nominal at our last quotation. Spruce is more quiet, and arrivals have been too ample for the market, inducing a weaker feeling. We note sales of half a million feet, random, at $15@$17. Ordered schedules may still be quoted at $18@$20, inclining to the lower range of quotation. Yellow pine is without new reports. Hard woods are quiet but steady. The yard trade has rather fallen off, and is not of the best, taking the season of the year into account. Business has been going by little spurts, and activity in one week seems to find its compensating dullness in another. The building demand has not enlarged enough to draw largely upon stocks or to encourage heavy purchases, and it seems that trade must abide the slow recovery which time and patience will bring. Quotations are retained.

Michigan and Wisconsin Notes.

From the *Lumberman's Gazette*, April 10:—

Since our last report nothing of special moment has occurred in the general market. The spring season has been fairly inaugurated, and in the west the ice in the main streams has mostly broken up and passed down. The small upper streams are still frozen, but the past week has decreased the quantity of ice everywhere very rapidly. In the great lakes the vast ice fields threaten to delay the resumption of navigation yet for some weeks. Lakes Erie, Michigan, and Huron are full of ice, and some recent adventurous voyages upon these waters have shown the folly of attempting navigation at present.

Throughout Michigan the snow of the winter has passed off without floods in the lumber regions, and the prospects of log driving are worse than was expected. It is quite certain that an unusual quantity of logs will be hung up on the main feeders of the Saginaw, to await copius rains.

The mills on the Saginaw River are undergoing the customary spring overhauling, and their owners appear to be in no great haste to begin sawing. The logs of last winter's cut are yet far beyond reach, and the promise is not encouraging.

Of sales we have to report very little. A fair trade is being done in car-load lots. From Sawinaw we hear that Geo. F. Williams & Bro. sold to D. F. Rose, for Cincinnati parties, 1,000,000 feet of choice Cass River stock on private terms. A. W. Thompson & Co., of Saginaw City, sold to D. F. Rose a cargo of 300,000 feet, to be cut, on private terms.

METALS.—COPPER.—New sheathing is steady at 28 cents; bolts and braziers' 30; bronze and yellow metal sheathing 21; and yellow metal bolts 28 cents per lb. net cash. Ingot has been in more active demand and prices have advanced, with firmer feeling, Lake quoting at 22¼@22½ cents.

IRON.—Sales of Scotch pig have been rather forced, and the stocks lately arriving and now on hand exceed the requirements of the market. Prices, therefore, are uncertain and nominal. American pig is still drooping, and trade is so dull as to be hardly worth mentioning. Rails are in limited request and nominal. Scrap is dull, quoting at $35. Manufactured is of firmer feeling, assortments being largely broken up and stocks generally becoming light, with advancing tendencies in prices.

LEAD.—Foreign pig is dull and nominal at 6⅛@6¾ cents, gold. Domestic has been selling at $5.85@5.87½, gold, but with a diminished demand fell off to $5.75@5.80, gold. Manufactured is steady at the following quotations, viz.: Bar 8½ cents, pipe 9, and sheet 9½, all less 10 per cent. to the trade. Block-tin pipe 45 and tin-lined pipe 16½ cents.

TIN.—Movement in pig is very limited and confined to small parcels, Straits and Malacca selling at 20½@20¾ cents, L. & F. 20@20¼, and refined English at 20¾@20½, all gold. Plates are dull, except for small parcels, in which some activity prevails. Our quotations cover the range.

ZINC.—Sheet is steady, at 9@9¼ cents, gold.

NAILS.—Cut are steady with a moderate demand and limited stocks, and we quote: 10d. to 60d. common fence and sheathing, ℔ keg, $3.25@3.50; 8d. and 9d. common do. ℔ keg, $3.50@3.75; 6d. and 7d. common, ℔ keg, $3.75@4; 4d. and 5d. common do. ℔ keg, $4 @4.25; 3d. and 4d. light, ℔ keg, $4.75@5; 3d. fine, ℔ keg, $5.50@5.75; 2d. ℔ keg, $6.25@6.50. Cut Spikes, all sizes, $3.50@3.75. Floor, Casing, and Box, 75 cents above the same sizes of Common—Finishing, $1 above and Fine Finishing, $1.25 above.

CLINCH NAILS.

1¼ to 1½ in.	2 & 2¼ in.	2½ & 2¾ in.	3 in. and longer.
$6@6.50.	$5.50.	$5.25	$5 ℔ keg.

OILS.—Linseed is in fair request for jobbing lots, but trade otherwise is rather limited. Prices, however, have been steadily maintained since our last report, and we quote at 70@71 cents from crushers' hands.

PAINTS—Are in good request, the market becoming quite active in all departments; prices keeping firm. We note sales of white lead at 10¼ cents for B. B. ground in large and at 10¾ for do. in small packages. Diamond Z 10¼ cents. China clay has been selling in small quantities at $19, gold, for English, $25, currency, for O. B. S., ex store, and at $14@15 for Southern.

Venetian Red is in good demand at $1.90 for crown and C. T. R., $1.90@1.95 for Cookson's, and at 2 cents, currency, for Diamond B. American quicksilver Vermillon has met with ready sale at $1.49½@1.50 in bags, China selling at $2.50 and Trieste at $1.45, all gold. We note sales of Paris white at $1.80 for Queensgate and at $1.85 for Crown, gold. Ochre is firm at our quotations, and Curtius' Ultramarine is in steady demand at 30 cents, gold.

PITCH.—The market is moving in a quiet way and is steady at $2.25 per bbl. for city, f. o. b.

SPIRITS TURPENTINE—Have been in good demand, the market brightening under the influence, with improving business. We quote at 37@38 cents per gallon for merchantable.

TAR—Has been in better request, and sales have been more ample than of late, prices remaining as before. We quote Washington and Newbern at $2.12½@2.25 and Wilmington at $2.25@2.37½ per bbl.

A GOOD INVESTMENT
EVERY PRUDENT MAN, CAREFUL OF THE health and comfort of his family, should see to it that his drinking water is conveyed through TIN-LINED LEAD PIPE, which is a perfect safeguard against lead poison. Tin-lined Lead Pipe is strong, durable, flexible, and easy soldered. It is a great benefit to the community, and enhances the real value of every house in which it is introduced. It is cheaper than Lead Pipe, when strength and durability are considered. Sold by the COLWELL LEAD CO., 213 Centre St., New York. Price, 16½ cts. a pound for all sizes. Descriptive pamphlets sent by mail free. Also, manufacturers of Lead Pipe, Sheet Lead, Block Tin Pipe, Bar Tin, Pig Tin, Bar Lead, Pig Lead, Solder, &c. Orders filled at sight.

Magrath's Copper Sash-Chain.
Patented 21st March, 1871.

Is adapted to ordinary round pulley, and strong enough to suspend weights of any size required.
Being intended as a substitute for sash-cord, it can be put into sashes now provided with cord without any change of pulleys. The inventor feels confident that experience will prove his chain to be both economical and durable, besides doing away with the constant annoyance and expense attending the use of sash-cord.

LEGAL NOTICES.

LIMITED PARTNERSHIP.—NOTICE IS HEREby given that a limited partnership has been formed by the undersigned pursuant to the laws of the State of New York; that the name or firm under which such partnership is to be conducted is CHARLES D. WADSWORTH; that the general nature of the business intended to be transacted by such partnership is the buying and selling of stocks, bonds, gold, and other securities as brokers upon commission; that the names of all the general and special partners interested in such partnership are Charles D. Wadsworth and Charles A. Macy, Jr.; that the said Charles D. Wadsworth is the general partner, and resides in the City of Brooklyn, County of Kings, and State of New York; that the said Charles A. Macy, Jr., is the special partner, and resides in the City, County and State of New York; and that the said special partner has contributed in actual cash payment the sum of Five Thousand Dollars as capital to the common stock of said partnership; and that said partnership is to commence on the third day of April, in the year 1875, and is to terminate on the 3rd day of April, in the year 1876.

Dated at the City of New York, April 3d, 1875.

C. D WADSWORTH, General Partner.
CHARLES A. MACY, Jr., Special Partner.

KUPFER & SILVERMAN.—THE UNDERSIGNed, desirous of forming a limited partnership under the statutes of the State of New York, hereby certify:

First—That the firm name under which such partnership is to be conducted is KUPFER & SILVERMAN.

Second—That the general nature of the business intended to be transacted by such partnership is the importing and jobbing of woolen goods.

Third—That the names of all the general and special partners interested in said partnership are as follows: Henry Kupfer, who resides in the City of New York, State of New York, and Bernard Silverman, who resides in the City of Brooklyn and State of New York, are the general partners; and Jacob Silverman, who resides in the City of New York, State of New York, and Martin Kupfer, who resides at Bayreuth, in the Kingdom of Bavaria, and Empire of Germany, are the special partners.

Fourth—That the said Jacob Silverman and the said Martin Kupfer have each contributed the sum of Twenty-five Thousand Dollars as capital to the common stock.

Fifth—That the period at which the said partnership is to commence is the first day of April, 1875, and the period at which the said partnership is to terminate is the first day of April, 1876.

Dated this twenty-ninth day of March, 1875.

HENRY KUPFER,
BERNARD SILVERMAN,
JACOB SILVERMAN,
MARTIN KUPFER,
By WALTER S. CARTER,
his Attorney in fact.

J. T. CAMP & CO.—IN CONFORMITY WITH the statute concerning limited partnerships,

We, the subscribers, do certify that we have formed a limited partnership, to be conducted under the name and firm of John T. Camp & Co., at New York City, in the business of manufacturing ladies' dress and cloak trimmings and such other articles as are usually made in connection therewith. The subscriber, John T. Camp, whose place of residence is in the township of East Orange, Essex County, State of New Jersey, is interested in said partnership as a general partner; the subscriber, Paul Todtschinder, whose place of residence is No. 60 Rivington Street, New York City, is likewise interested in said partnership as a general partner; and the subscriber, Christopher Hitzelberger, residing in the township of East Orange, Essex County, State of New Jersey, is interested in said partnership as a special partner, and, as such, has contributed seventeen thousand five hundred dollars ($17,500) of capital to the common stock. The said partnership is to commence on the first day of March, 1875, and to terminate on the first day of March in the year 1876.

Dated New York, March 1, 1875.

JOHN T. CAMP,
P. TODTSCHINDER,
C. HITZELBERGER.

MORTGAGES.

REAL ESTATE.

NEW YORK.

NOTE.—The arrangement of this list is as follows: The first name is that of the mortgagor, the next that of the mortgagee. The description of the property then follows, then the date of the mortgage, the time for which it was given, and the amount. The general dates used as headings are the dates when the mortgage was handed into the Register's office to be recorded.

Wherever the letters "P. M." occur, preceded by the name of a street in these lists of mortgages, they mean that it is a Purchase Money Mortgage, and for fuller particulars see the list of transfers under the corresponding date.

April 15, 16, 17, 19, 20, 21.

SIXTH AV., W. S., 47 S. ST. JOHN'S PL., THREE three-story stone dwellings, 21x48; owner and builder, John Gordon, 828 Sackett st.

MISCELLANEOUS.

REVIEW OF THE REAL ESTATE MARKET.

The events of the week have not relieved the tedium of a dull market, and the drooping feeling so long prevalent continues to affect most classes of property. Public offerings have been varied and ample, presenting a choice for buyers of every degree, but prices were low and compelled withdrawals in several instances.

Sales of leading west side property are announced, but if the opinions of owners do not consort better with the tone of the market than on previous occasions, none of them will be brought to issue.

We call the attention of Brooklyn investors to the sale of Prospect Park lots to take place on Tuesday next, as advertised in another column. The property is well located, and of the best of its class.

A. H. Muller & Son also announce an offering of 103 lots located on First and Second avenues, One Hundredth and One Hundred and First streets, with water front on the East River. This we believe to be one of the most important offerings that can be made. The future of the locality is probably greater than is generally conceived, and ere long an investment in this direction will be amply profitable.

LOCAL ITEMS.

The Department of Parks asks for proposals for a new floor on Harlem Bridge and for a new iron roof on the Music Pavilion at Central Park.

The Commissioner of Public Works asks for proposals for regulating and paving the streets and roadways of West Washington market.

The School Trustees of the Tenth, Eleventh, Fifteenth, and Nineteenth wards ask for proposals for steam-heating apparatus.

BUSINESS CHANGES.

IN BANKRUPTCY.

Week ending April 22d.

Hart, Henry....Referred to Register Williams.
Gilbert, William W. (surviving partner firm Myers & Gilbert)....Referred to Register Fitch.

MARKETS.

Trade has been of an ordinary character—ample in some of its details and restricted in others. The general run of business is slow and unlike that of past seasons, when bustling activity gave little pause, and when economies, now painfully prominent, were lightly regarded and rarely practiced. Commerce in every direction is backward, and while various suggestions are made in account for it, nothing can avoid the fact that there is still an uncertain feeling—the outgrowth of our latest panic. Confidence is of slow recovery, and people cannot persuade themselves that they have reached the limit of disorganized trade and of the economies they must endure. With the mass this feeling is enforced, as the diffusion of money throughout the country is contracted by the disinclination and failure on the part of its holders to apply it to enterprises that would ensure its circulation. The money market keeps easy and funds are loaning freely on call at low rates or are investing in securities, safe in themselves, but of no benefit to general trade. The building markets are kept within limits, and, to add to their complications, strikes have been resumed and laborers are asking for the highest wages and the shortest hours at a time when any kind of a job is a providence. Time and patience are only wasted in commenting on such stupidity.

We append our review of the markets in detail:

BRICK.—There has been a fair movement in the market, goods selling rather freely, with arrivals amounting to eight or nine millions. Haverstraw Bay bricks continue steady at our last quotation, although a few inferior lots have sold at $7. Other grades of hard are weaker, and we quote: Pale, ?M, $3; Jersey, $6@6.50; Long Island, $7; Up-river, $6@7; Haverstraw Bay, $7.25@8; Fronts, Croton—brown, $12@13; dark, $13@14; red, $14@15; Philadelphia, $28@32; Baltimore, $50@56. Yard prices, delivery included, $2@3 higher.

CEMENT.—Rosendale is steady at $1.30 per bbl. and Portland is still quoted at $3.80@4.50. We note small sales of the latter, ex-vessel, at $4.10 per bbl.

FIRE BRICK.—Movement is limited, but quotations are retained. There have been sales of 2,000 Scotch at $52.50 per M.

GLASS.—The market is quiet with a light demand, but there are expectations of improving trade. French window is quoted at 40 and 10@40 and 10 and 5 per cent. discount. English sheet and polished plate are dull, the former at 20 and 10 and the latter at 15 per cent. off.

HARDWARE.—Trade continues of fair proportions, with frequent orders by mail both for foreign and domestic goods. Prices are steady, and no changes of importance for builders' hardware are announced.

LATH—Are steady under previous conditions. We note sales of about two millions at $1.50 per M, a price thought to be low enough even for a weak market. There is no disposition to shade prices further, and with an increasing demand they may advance a quarter. We quote at $1.50@1.75.

LIME.—The anticipated arrivals of State have occurred, comprising about eight or nine thousand barrels, which have been taken as fast as they arrived. Prices are off to a certain extent, and we quote State common at $1.10 and finishing $1.40 per bbl. Rockland is steady at $1.25 per bbl. for common and $1 65 per bbl. for finishing. Yard prices 25 cents per bbl. additional.

LUMBER.—The market is quiet, and orders for white and yellow pine are scarce, the former quoting nominally at old figures, while for the latter the only quotation we can give is made upon the latest sale, viz., 500,000 feet to the New York Bridge Company at $22.45 per M. It is said, however, that no more contracts can be closed on this basis, as consigners will be unable to fill orders at the price mentioned. Spruce is arriving in more limited quantities, but still in ample supply for the demand, and rather in excess of it. We quote random cargoes at $17@18.50 and ordered schedules at $18@20. The yard trade is fairly active, but not of as ample proportions as in times past for the time of year. The lateness of the spring has set back many enterprises and has aided to defer the revival of business, but it is likely that within a few weeks much improvement will become visible. Stocks are not excessive, and dealers, while, as yet, not purchasing largely except to fill up their yards at favorable rates and with ample supplies for any probable demand.

Michigan and Wisconsin Notes.

From the Saginaw *Courier*, April 17:—

The following is the number of feet of logs which were put into the several streams tributary to Grand River during the past winter as near as can be estimated:

Flat River	125,000,000
Rogue River	20,000,000
Fish Creek	18,000,000
Other streams above Grand Rapids	6,000,000
Bass River	2,000,000
Crockery Creek	8,000,000
Other streams below Grand Rapids	4,000,000
Total	183,000,000

From the *Lumberman's Gazette*, April 17:—

The new railroad freights are having a decided effect upon some of the Western lumber districts. Through cars from Chicago to New York have been given at the low rate of $50, which is equal to $5 per thousand feet of lumber. Never before was that product transported so cheaply. Even in the dull days of last fall, when lake shippers were carrying from Saginaw River to Buffalo for eleven shillings per thousand, the lowest rates obtainable to New York city were about $7.50 per thousand. And now the railroads come in and better that by $2.50 from Chicago. To be sure, it is only between the two places named that the exceedingly favorable rate is to be obtained. A car from Chicago to Albany costs perhaps $100, and one from Bay City to New York has cost $80 all along, though the latest reported Blue Line rate is but $70. The New York city trade is, of course, thrown into Chicago by this result, and the usual course of business of the Eastern dealer is completely changed. The great saving in time by the rail transportation, and the reasonable certainty as to the arrival of shipments, make it quite practicable for the New York dealer to do a large business with very little stock piled in the yard. He can order in car load lots as he wants or as the demand comes, and much of the lumber will doubtless never be piled in his yard at all, but delivered direct to consumers. The New York dealers, as a consequence of this new arrangement, have not been seen in the Western manufacturing regions looking for cargo lots. They have a better thing as long as the railroads keep freights at $50 per car from Chicago. Even lake transportation cannot compete with that rate.

From the same:—

There is still but little to report in the way of actual operations, though from all points there are encouraging prospects. Since our last report, the Wisconsin drives have started in favorable style, and everything there is promising. In Michigan the great complaint is a want of rain. The snow is gone and no freshets to bring the logs from the upper streams, on which the winter's work was more largely done than usual. The situation is the same throughout the State, and the prospect is anything but encouraging for those who want the logs to come down. It is not every one who desires that, however. Many are of the opinion that logs hung up, if there are enough of them in that condition, will be worth more than logs in boom or lumber on the docks. The promise now is for good drives generally in the more Western States, where the cut last winter was quite largely reduced from the previous year; and that in Michigan the diminished cut will be still further cut down by the hang-up. If we have in the entire Saginaw region, including both river and railroad mills, 600,000,000 feet of lumber for the present year, it will be all, and probably more, than is now to be counted upon, though that quantity will be but little more than half the amount which has been put on the market from the same sources in former years.

Several millions of lumber have changed hands lately at $11, $12, $33, and $35. Among the sales during the past week were 500,000 feet to Eastern parties at $5.50, $11.50, and $33, and the same amount at $5.50, $11, and $33. A sale of 300,000 to Chicago parties is somewhat better figures—not definitely stated—is also reported. Still another sale of 800,000 feet to Chicago parties is given at $5.50, $11, and $35, and 250,000 to same parties on terms that are not made known. The common report among manufacturers is that large buyers are not plenty, and those who do come are occupied mainly in looking over the field, deferring purchases for a month or so in the belief that purchases can then be made on terms as favorable as those obtainable now. Small dealers from the interior of Ohio are reported plenty on the river, buying from two to five or six car loads. The stock on the Saginaw River docks is not as large as has been supposed. If we take the commonly received count of the stock carried over, which was about 190,000,000 feet, and deduct 20,000,000 feet for what was already sold, about the same amount for the lumber which was in the hands of manufacturers who ship to their own yards East and 30,000,000 for what has been sold since the estimate was made, we shall have now remaining not a great deal over one hundred millions of old lumber on the Saginaw for the year 1875.

The log market seems to be improving throughout the West in view of the bad prospects of the driving. In this vicinity we hear of the sale of 3,000,000 feet of Rifle River common logs at $8 per thousand delivered in Bay City. This would make the common lumber, with a $3 saw bill, $12.60, or the price for the mill run $11.40 at the rate of $6 and $12. We hear also of the refusal of $9 per thousand for Rifle River 15 per cent. logs in the boom.

We give the letter of D. F. Rose, our East Saginaw correspondent, as follows:

It is extremely quiet at this end of the river. But few sales have been made this week. I learn that Youmans & Van Winkle sold 800,000 feet of lumber to Chicago parties at $5.50, $11, and $35, and Wm. Callum to same parties 250,000 feet, terms not known. Wholesale dealers do not come. Small dealers from the interior of Ohio are plenty, buying from two to five car loads.

From the same:—

The season is now so far advanced that we can with some confidence venture the following carefully compiled estimate of the amount of lumber to be put on the market this year from the Saginaw Valley region. We have accurate figures of the amounts of logs left over in the several streams and a careful count of the lumber on the docks at the close of navigation last fall. With these the only element of the calculation which must depend upon the judgment rather than upon definite and positive information is the amount of logs that will be furnished to the mills, and this can be got at with reasonable certainty. We make the following table:

Lumber on the river unsold and for the market	120,000,000
Logs left over	200,000,000
New logs to come:	
Tittabawassee	100,000,000
Cass	35,000,000
Bad	20,000,000
Rifle	50,000,000
Au Gres	20,000,000
Other streams	15,000,000
From the J., L. & S. Railroad	40,000,000
From the F. & P. M. Railroad	30,000,000
Other sources	25,000,000
Total	655,000,000

In the estimate of logs left over we have allowed 150,000,000 for the quantity in the Tittabawassee and 50,000,000 for all other sources. The latter, we are convinced, is too large. Except the Bad River and Beaver Creek there was not a stream in this region which was not practically cleared of logs last year. The Rifle, for

instance, had left but 3,000,000 feet; the Cass was reported absolutely bare, and other streams in like manner. Nevertheless, to put the figures as far as possible beyond question, we have allowed the 50,000,000 as above.

General Western Notes.

From the Dubuque (Iowa) *Herald*:—

The season opens auspiciously. The river has opened the frozen sloughs—thawed out—and boats have started on the season's business, towing rafts and barges from this point south. A steamer leaves to-day for St. Louis. It will be weeks before rafts of logs or lumber arrive from up river although the stream is, without doubt, navigable to La Crosse.

The past week was an active one among lumber dealers, and trade unusually heavy. March was the best month experienced this year. Rail orders are large, and in retail circles there is a marked improvement, coming principally from city builders. Low water on the Wisconsin River makes the only chance for a freshet to come from melted snow. In some of the pineries operations in logging were progressing at last accounts, although the bulk of the operative force is out of the woods.

Sales of logs on the Chippewa River indicate an advance of $1 per thousand on prices of last season. Lumber has not been as yet materially affected, although holders afloat and in yard are firm, and unless pressed for funds stick to card rates.

METALS.—COPPER.—New sheathing is steady at 28 cents; bolts and braziers' 30; bronze and yellow metal sheathing 21; and yellow metal bolts 28 cents per lb. net cash. Ingot has been in request at firmer and advancing prices, sales aggregating about 1,000,000 lbs. at 22½@22¾ cents.

IRON.—Scotch pig continues to arrive in excess of the demands of trade, which are reduced to the smallest limits which even necessity compels. Supplies are therefore accumulating, and are put in store to await a more favorable turn in the market. American pig is very quiet and prices are rather nominal. Rails have met with some business upon terms not known. Scrap is nominal at $35@36. Manufactured is quiet, with prospect of better supply, many of the mills having resumed work. Common sheets are weaker and nominal.

LEAD.—Foreign pig is in limited supply and nominal at 6¾ cents, gold. Domestic is offering moderately and tendencies are upward, 6 cents, gold, being the general asking price. Manufactured is steady at the following quotations, viz.: Bar 8⅝ cents, pipe 9, and sheet 9⅛; all less 10 per cent. to the trade. Block-tin pipe 45 and tin-lined pipe 16½ cents.

TIN.—Pig is in moderate jobbing demand at weaker prices. We quote Straits at 20, L. & F. 19¾, refined English 20, and Banca at 24½ cents, gold, per lb. Plates are dull here and abroad with depressed feeling, and quotations are lower.

ZINC.—Sheet is weaker, selling in a jobbing way at 8⅞@9⅛ cents, gold, for all numbers.

NAILS.—Cut are still offering at low figures, and the market continues weak. We quote: 10d. to 60d. common fence and sheathing, ₩ keg, $3.25@3.50; 8d. and 9d. common do. ₩ keg, $3.50@3.75; 6d. and 7d common, ₩ keg, $3.75@4; 4d. and 5d. common do. ₩ keg, $4@4.25; 3d. and 4d. light, ₩ keg, $4.75@5; 3d. fine, ₩ keg, $5.50@5.75; 2d. ₩ keg, $6.25@6.50. Cut Spikes, all sizes, $3.50@3.75. Floor, Casing, and Box, 75 cents above the same sizes of Common—Finishing, $1 above and Fine Finishing, $1.25 above.

CLINCH NAILS.

1¾ to 1½ in.	2 & 2¼ in.	2½ & 2¾ in.	3 in. and longer.
$6@6.50.	$5.50.	$5.25	$5 ₩ keg.

OILS.—Linseed is in moderate request for large lots, but a fair jobbing demand is reported. We quote at 70 @71 cents per gallon for casks and bbls. from crushers' hands.

PAINTS.—The market is fairly active, the jobbing demand absorbing most of the trade, and prices generally are well supported. Prices of American quicksilver vermilion have been reduced 20 cents per pound, there having been a decline in quicksilver, and the demand is fair. New prices are as follows: In lots of 500 lbs. or over, in 30 or 50 lb. bags, $1.30; in lots of 300 to 500 lbs., $1.32; in lots of 100 to 300 lbs., $1.34; in lots less than 100 lbs., $1.37, all gold. In bulk, kegs of 100 lbs. over ½ a cent per pound less. Terms, cash in ten days, or interest added. China clay has been selling at $25 currency for English, and $21 gold for J. S. Paris white has been in demand at $1.80@1.90, gold, for Queensgate, $1.85, gold, for Crown, and $1.75, currency, for Cliffstone. Venetian Red is steady at $1.90 gold, and $2.25 currency, for Cookson's, with sales of Crown and C. T. R. at $1.90, gold. English powdered litharga has been selling at 9½ cents gold, and English red lead at the same price. We note sales English white lead, dry, at 9½ cents; B. B. ground at 10½@10¾ cents gold. Chalk has arrived plentifully, and is nominally $2.50 per ton.

PITCH—Continues steady, jobbing at $2.25 per bbl. for City, f. o. b.

SPIRITS TURPENTINE.—The market has been quite active, with sales at 38½ cents, closing more quiet but firm at 38 cents. We quote at 38@39 cents per gallon for merchantable.

TAR—Has been in better request, with prices slightly off from our last quotation. We quote Newbern and Washington at $2.12½@2.15, and Wilmington $2.25 per bbl.

EXCELSIOR IRON WORKS,

(ESTABLISHED 1839),

201 Centre Street, cor. Howard.

CEO. R. JACKSON'S SONS.

Iron Work of every description for Buildings. Repairing and Jobbing Work a specialty.

WOOD'S

Indestructible Liquid Iron, Rubber, and Egyptian Paint has taken the highest premium at the American Industrial Fairs from 1869 to 1874. Its superior covering qualities and durability make it, relatively, the cheapest paint in the market, and for painting Tin Roofs, Barns, Out-houses, Fences, &c., it stands UNEQUALED.

For testimonials and further discription address

WM. A. WOOD,

Manufacturer of Rosin Oils, Naval Stores, and Paints,

132 and 134 Maiden Lane, New York.

REAL ESTATE BOUGHT, SOLD, AND EXCHANGED

A GOOD INVESTMENT

EVERY PRUDENT MAN, CAREFUL OF THE

health and comfort of his family, should see to it that his drinking water is conveyed through TIN-LINED LEAD PIPE, which is a perfect safeguard against lead poison. Tin-lined Lead Pipe is strong, durable, flexible, and easy soldered. It is a great benefit to the community, and enhances the real value of every house in which it is introduced. It is cheaper than Lead Pipe, when strength and durability are considered. Sold by the COLWELL LEAD CO., 213 Centre St., New York. Price, 16½ cts. a pound for all sizes. Descriptive pamphlets sent by mail free. Also, manufacturers of Lead Pipe, Sheet Lead, Block Tin Pipe, Bar Tin, Pig Tin, Bar Lead, Pig Lead, Solder, &c. Orders filled at sight.

FERGUSON & CO.,

MORTGAGES.

REAL ESTATE.

NEW YORK.

NOTE.—The arrangement of this list is as follows: The first name is that of the mortgagor, the next that of the mortgagee. The description of the property then follows, then the date of the mortgage, the time for which it was given, and the amount. The general dates used as headings are the dates when the mortgage was handed into the Register's office to be recorded.

Wherever the letters "P. M." occur, preceded by the name of a street in these lists of mortgages, they mean that it is a Purchase Money Mortgage, and for fuller particulars see the list of transfers under the corresponding date.

April 22, 23, 24, 26, 27.

LEGAL NOTICE.

THE UNDERSIGNED, DESIROUS OF FORMing a limited partnership under the laws and statutes of the State of New York, do hereby certify:

First—That the name or firm under which such partnership is to be conducted is HARVEY S. ALMY & CO.

Second—The general nature of the business intended to be transacted by such partnership is the buying, selling, and dealing in glassware and such articles as are usually dealt in by persons engaged in the glass business.

Third—The names and respective places of residence of all the general and of the special partner interested in said partnership are as follows: The general partners are, Harvey S. Almy, who resides in the City and State of New York, and George W. Almy, who resides in Brooklyn, State of New York: the name of the special partner is Oscar Cheesman, who resides in the City and State of New York.

Fourth—The said Oscar Cheesman, the special partner, has contributed as capital to the common stock the sum of Twenty-five Thousand Dollars.

Fifth—The period at which the partnership is to commence is the first day of May, in the year 1875, and the period at which the partnership will terminate will be the thirtieth day of April, in the year 1878.

Dated, New York, April 30, 1875.

HARVEY S. ALMY,
GEORGE W. ALMY,
OSCAR CHEESMAN.

MISCELLANEOUS.

REVIEW OF THE REAL ESTATE MARKET.

The market has not been active during the week, although prominence has been given to it in the sale of the buildings and plot of ground located at the northwesterly corner of Broadway and Eighteenth Street. This property is embraced within a frontage of 110 feet on Broadway and of 138 feet on the side street, the remaining sides being irregular. The price secured ($778,000) was fair, but not extravagant, and furnishes additional proof of the strength of the market in particulars where location is choice and where surroundings are assured. It was remarkable that the same diffident or cautious feeling controlled this purchase that has been experienced in many other sales, and bids advanced by driblets until the consumation was reached. Other events were of slight importance, and no sales have been reported that show any change in the general character of the market. Quiet is the chief feature, and low prices are the rule where sales are forced.

A portion of the Furniss estate is noticed to be sold next week, and Boulevard property will again claim the attention of investors. It is not certain that the Legislature will now provide for the prosecution of improvements essential to the development of this class of West Side realty, and it is unfortunate for the projectors of this sale that the bomb-shell from the Controller should have been fired just at this time, as timid investors will naturally shrink from buying a class of property the value of which is largely dependent on the completion of the Riverside parks, and, as the opinions of the owners are not likely to consort with the notions of buyers, the sale of the property is doubtful. The offering, nevertheless, includes some of the most desirable real estate of its class, and deserves attention.

A. H. Muller & Son will sell on Thursday next, some of the most eligibly located East Side property, natural advantages and prospective values considered, that can be offered. A front on the Harlem River, at Hellgate, with numerous lots adjoining, are included in this sale, which we specially commend to notice.

LOCAL ITEMS.

The Commissioners for the erection of a new Court House in the Third Judicial District ask for proposals for Carpenter's, Slater's, and Turner's work.

The Commissioner of Public Works reports the following Certificates of the Cost of Completed Improvements transmitted to the Board of Assessors: Sewer, in Sixty-sixth Street, between Boulevard and Tenth Avenue, $10,546.80; regulating, grading, etc., Sixtieth Street, between First Avenue and Avenue A, $8,481.51; total, $19,028.31.

MARKETS.

While hope is of general expression and confidence in every direction is said to be gaining ground, we cannot find that trade is improving to the extent that, perhaps over sanguine, business men have predicted. With most people there is still a hanging back and frequent shrinking from expenditure, which betokens hard times, and on the other hand credits are so largely contracted as to preclude trade and compel a more frequent exercise of economy than might otherwise obtain. In this we perceive a return to sound business principles, which if slow in their operation are sure in their results, and there is no reason to expect any greater activity than such steady-going methods will ensure. The building markets must share in the weight of the general commercial movement and defer to its conditions. Chief of these is the necessity of delaying until prosperity attends upon every other branch of trade. On this account we do not find unusual activity within the lines of our special report, and are only called upon to record a moderate but steady flow of business—small according to past experiences, but fair when brought into comparison with the altered condition of trade. The call for material has not increased to any great extent. Movement has, in several particulars, become easier without involving any change in prices, while in other respects more tone has been gained, and strength and firmness prevail. An easy feeling in money continues, and although funds are abundant it is difficult, keeping in view the security of investment, to find a place to put them. In due season they will be diverted to legitimate channels of trade and will add warmth and cheerfulness to business operations.

Appended will be found our review in detail:

BRICK.—Arrivals from the river during the past week have amounted to about as many as reported for the week previous, viz.: eight or nine millions, but have sold more freely, cargoes closing out with little effort on the part of sellers, while buyers have been content to take them up at ruling prices. It is possible that the old stock, or bricks of last year's manufacture, will be exhausted before the new make comes in. Moulding has been set back by the backwardness of the season; and although a few makers began to mould during the past week the frost was found to be still in the yards, and they are compelled to mould over again. Prices are steady as last given, and we quote: Pale, P M, $3; Jersey, $6@6.50; Long Island, $7; Up-river, $6@7; Haverstraw Bay, $7.25@8; Fronts, Croton—brown, $12@13; dark, $13@14; red, $14@15; Philadelphia, $28@32; Baltimore, $50@56. Yard prices, delivery included, $2@3 higher.

CEMENT.—A quiet trade is going on, ample to keep up business even if not very active. Rosendale continues steady at $1.30 per bbl. cash, while Portland is quoted at $3.80@4.25 ex-vessel @ $4.75 from store.

FIRE BRICK—Demand is not of a character to change prices, and we have no account of sales of importance. Prices are steady, and we quote as heretofore.

GLASS.—The market is well supplied and assortments are said to be ample, but the demand is light and the market consequently dull. Prices, however, are steady and unchanged, and we quote French window at 40 and 10@40, 10, and 5 per cent. discount. English sheet 20 and 10, polished plate 20 per cent. off.

HARDWARE.—The demand for goods of most descriptions continues fair and the market is consequently quite active, prices generally being strong with upward tendencies. Copper rivets are steady and in good demand. Wrought-iron pipe is selling at 50 per cent. discount. English files are in ample supply and quiet at recent quotations.

LATH—Are in better demand and prices are stronger, quoting at 1.60 per M. Arrivals have been quite full, and we note sales of 1,000,000 at our quotation.

LIME—Is arriving in quantities just about calculated to suit the market, and is taken up nearly as fast as it comes in. State is steady at $1.10 per bbl for common and $1.40 for finishing. Rockland is quoted at $1.25@1.65. Yard prices 25 cents per bbl. additional.

LUMBER.—The wholesale trade is very dull, and exports of both white and yellow pine are scarce, a few only of the latter being reported from Southern ports. Quotations are nominally $16@24 for white and $23 for yellow pine. Spruce is substantially in feeling as reported in our last, the demand not equaling the supply. Sales of 600,000 feet random are reported at $15@17, prices which it will be noted are below our quotation of last week, and it is reported that two millions of feet have been ordered for June and July delivery at $17@18. We quote at $16@19 for a fair range of the market. The yard trade continues somewhat unsettled, dull at times, and again active, some dealers reporting fair trade while others complain of dull business. Notwithstanding statements as to prospective failure in running logs and the reports of low water on Western streams, the opinion is entertained that enough lumber will be manufactured to more than to supply the demands of the country, and anxiety as to future purchases does not prevail. Stocks will be kept within prudent limits, with expenses reduced to meet the current requirements of economy. Hardwoods are steady but not active. Yard prices are as before quoted.

News of a disastrous fire at Oshkosh, a prominent lumbering point in Wisconsin, has just come. The mills at this point had a product of over 50,000,000 feet of lumber annually. Most of these have been burned, together with a large quantity of lumber in the yards which was left over from last year. This wholesale destruction will probably strengthen the market at other points. It may be that first reports have overrated the disaster, the full extent of which we shall probably be able to narrate in our next report.

Michigan and Wisconsin Notes.

From the *Lumberman's Gazette*, April 24:—

The past week has made a great change in the prospects of the lumber supply for the year. The progress of the log drives in the several producing regions has been such that the final result can be more accurately

arrived at than before. To sum up the advices from all quarters, we may say that in the Williamsport region the freshet has been ample and the drive prosperous. In Wisconsin, also, the reports are favorable—plenty of water and good fortune with the logs. In Michigan the complexion of matters is all changed, and we hear of nothing but logs hung up and drives abandoned. With the most strenuous exertions it has been impossible to break the rollways in hundreds of places, and even the shore streams are too low to afford promise of successful log running. The lumbermen are looking for a more extensive hanging up than ever before. In the Saginaw Valley region the prospect now is that the 200,000,000 feet of old logs will be supplemented by but an inconsiderable amount of the new cut unless copious and continued rains come. The dryness of the season is altogether unprecedented.

The following sales are noted from the upper end of the river: W. S. Green & Sons, of Saginaw city, sold to J. F. Dewitt & Co., of Buffalo, 400,000 feet at $5.50, $11, and $33. Tolfree & Simpson, to same parties, 200,000 feet, mostly stripped, at $6, $12, and $35. Also 200,000 shingles at $3.50.

From the Bay City *Tribune*, April 24:—

On the Tittabawassee and its tributaries it is estimated that not to exceed 20 per cent. (80,000,000 feet) of the logs will come down, while many think that not over half that amount will be run. On the Cedar and Tobacco little can be done and many drives have been abandoned. On the Cass it is estimated that not over 25,000,000 will come out. The extreme low water is due to the fact that the snow went off without any rain, and at this late day a freshet such as will raise the streams preceptibly and thus enable the logs to be driven, is of course not to be expected.

On the Rifle River (main stream) there are about 50,000,000 feet of logs which will come out all right. On the east branch there are 40,000,000 feet, with which no trouble is expected; but on the west branch it is doubtful whether the 15,000,000 can be got down.

A correspondent of the Detroit *Free Press* gives the number of feet of logs which were put into the several streams and tributary to Grand River during the past winter as near as can be estimated:

Flat River	125,000,000
Rogue River	20,000,000
Fish Creek	18,000,000
Other streams above Grand Rapids	6,000,000
Cass River	2,000,000
Crockery Creek	8,000,000
Other streams below Grand Rapids	4,000,000
Total	183,000,000

At the present time there is not more than 10,000,000 or 15,000,000 feet all told piled in the yards there, and that to a considerable extent is already sold to Eastern parties, who are moving it as rapidly as possible.

METALS.—COPPER.—New sheathing is steady at 28 cents; bolts and braziers' 30; bronze and yellow metal sheathing 21; and yellow metal bolts 28 cents per lb. net cash. Ingot has sold to the extent of about 800,000 lbs. at 22¼@22¾ cents, the latter price for May delivery.

IRON.—The dullness in Scotch pig continues and accumulations are constantly occurring. Weaker feeling has thus been induced, and sales have been made upon private terms, which are understood to be well shaded from current quotations. Movement in American pig is slow, conforming to the limited requirements of consumers. Prices are weak and prospects of activity seem remote. There has been some business in new rails upon terms not declared and old are quiet and nominal at $28@30. Scrap is dull at $34@36. Manufactured is steady, but in limited request at old figures.

LEAD.—Foreign pig is dull and nominal at 6⅝@6¾ cents, gold. Domestic is held more firmly at $5.80@5.90, gold. Manufactured is steady at the following quotations, viz.: Bar 8⅛ cents, pipe 9, and sheet 9⅛, all less 10 per cent. to the trade. Block-tin pipe 45 and tin-lined pipe 16¼ cents.

TIN.—Pig is dull with weaker tendencies, Straits quoting at 19¾@20 cents, L. & F. 19¼@19½, and refined English at 19¾@20 cents, gold. Plates are in ample supply, with dull and weaker feeling, quotations going still lower.

ZINC.—Sheet is steady at 8⅞@9⅛ cents for all numbers.

NAILS.—The market for cut is quiet. Stocks are moderate and quotations are unchanged as follows: 10d. to 60d. common fence and sheathing, ℔ keg, $3.25@3.50; 8d. and 9d. common do. ℔ keg, $3.50@3.75; 6d. and 7d. common, ℔ keg, $3.75@4; 4d. and 5d. common do. ℔ keg, $4@4.25; 3d. and 4d. light, ℔ keg, $4.75@5; 3d. fine, ℔ keg, $5.50@5.75; 2d. ℔ keg, $6.25@6.50. Cut Spikes, all sizes, $3.50@3.75. Floor, Casing, and Box, 75 cents above the same sizes of Common—Finishing, $1 above and Fine Finishing, $1.25 above.

CLINCH NAILS.

1¼ to 1½ in.	2 & 2¼ in.	2½ & 2¾ in.	3 in. and longer.
$6@6.50.	$5.50.	$5.25	$5 ℔ keg.

OILS.—Linseed has been in limited request and weaker, prices going below our last quotation. We quote at 69@71 cents for casks and barrels from crushers' hands.

PAINTS.—There has been a fair demand throughout the week and the market has been active, with generally steady prices. Venetian Red has been in good demand at $1.90, gold, for various brands. Paris White is in request at $1.80@1.85, gold. Vermilions are steady at recent prices. The demand for white lead is good with sales of B. B. ground at 10½@10¾ cents and of Diamond Z. do. at 10⅜ cents. Paris Green is firm at our quotations.

PITCH.—The market is dull at $2.25 per bbl. for city, f. o. b.

SPIRITS TURPENTINE.—The market has fallen off throughout the week, prices declining under the influence of a diminished demand here and a weake market at Wilmington. We quote at 36½@37¼ cents per gallon.

TAR—Has been in better demand and prices are advanced and firm. We quote as follows: Newbern and Washington, $2.37½@2.50; and Wilmington, $2.62½@2 70 per bbl.

Hoist Wheels and Store Dumb Waiters,

Carriage and Invalid Elevators of the most approved pattern at short notice. Dumb Waiters of all kinds repaired or altered with all possible dispatch.

JAMES MURTAUGH,

1370 Broadway, near 37th St., N. Y.

A GOOD INVESTMENT

EVERY PRUDENT MAN, CAREFUL OF THE health and comfort of his family, should see to it that his drinking water is conveyed through TIN-LINED LEAD PIPE, which is a perfect safeguard against lead poison. Tin-lined Lead Pipe is strong, durable, flexible, and easy soldered. It is a great benefit to the community, and enhances the real value of every house in which it is introduced. It is cheaper than Lead Pipe, when strength and durability are considered. Sold by the COLWELL LEAD CO., 213 Centre St., New York. Price, 16½ cts. a pound for all sizes. Descriptive pamphlets sent by mail free. Also, manufacturers of Lead Pipe, Sheet Lead, Block Tin Pipe, Bar Tin, Pig Tin, Bar Lead, Pig Lead, Solder, &c. Orders filled at sight.

APPRAISALS MADE.

"Real Estate Record" Bureau,

345 Broadway

WOOD'S

Indestructible Liquid Iron, Rubber, and Egyptian Paint has taken the highest premium at the American Industrial Fairs from 1869 to 1874. Its superior covering qualities and durability make it, relatively, the cheapest paint in the market, and for painting Tin Roofs, Barns, Out-houses, Fences, &c., it stands UNEQUALED.

For testimonials and further discription address

WM. A. WOOD,

Manufacturer of Rosin Oils, Naval Stores, and Paints,

132 and 134 Maiden Lane, New York.

MORTGAGES.

REAL ESTATE.

NEW YORK.

NOTE.—The arrangement of this list is as follows: The first name is that of the mortgagor, the next that of the mortgagee. The description of the property then follows, then the date of the mortgage, the time for which it was given, and the amount. The general dates used as headings are the dates when the mortgage was handed into the Register's office to be recorded.

Wherever the letters "P. M." occur, preceded by the name of a street in these lists of mortgages, they mean that it is a Purchase Money Mortgage, and for fuller particulars see the list of transfers under the corresponding date.

April 28, 29, 30, May 1, 3.

TOMPKINS AV., E. S., 50 N. PARK AV., TWO THREE-story frame tenements, 25x50; owner, &c., George Loffler, Tompkins av., e. s., near Park av.

MISCELLANEOUS.

REVIEW OF THE REAL ESTATE MARKET.

Two important offerings were presented to the market during the week. The sale of Riverside Park lots, comprising a seventh share of the Furniss estate, realized about twenty per cent. less than the prices paid for a corresponding interest last year, and it was plain that even these values would not have been secured had not the purchase been made on behalf of co-legatees. Some satisfaction is to be derived from the fact that, although competition was limited, the bidding otherwise nearly approached the point at which the property was struck off. The offering of East Side lots, at One Hundredth Street, Second Avenue to East River, was pressed until half of the property was struck off to various bidders, most of whom, it is believed, were only nominal purchasers. Results were not satisfactory to the owners, and the remainder of the offering was withdrawn. A foreclosure sale of property, fronting on Forty-second Street, at the southwesterly corner of Fourth Avenue, opposite the Grand Central Depot, excited competition and secured stronger prices than usually fall to the lot of such proceedings. Other transactions throughout the week were of minor importance. The market generally is dull and uninteresting, and is governed by conditions heretofore noted.

Loans for April show a decrease of nearly one million of dollars, compared with the corresponding month last year, when the various banks and insurance companies had begun to lend funds which the panic of 1873 had induced them to withhold from circulation.

The following is a comparative table of loans by banks and insurance companies for the month of April in each year:

	1874.	1875.
Loans by banks	$1,030,558	$618,500
Loans by insurance companies	1,211,250	712,200
Total	$2,241,808	$1,330,700
Decrease		$911,108
Loans for March, 1875		$1,885,650
Decrease for April		$554,950

BUSINESS CHANGES.

IN BANKRUPTCY.

Week ending May 4th.

Traub, Samuel; Werner, Nathan — Referred to Register Dwight.
Vandyke, Adalaide — Referred to Register Ketchum.
Shafer Manufacturing Co. — Referred to Register Williams.
