MORTGAGES.

REAL ESTATE.

NEW YORK.

NOTE.—The arrangement of this list is as follows: The first name is that of the mortgagor, the next that of the mortgagee. The description of the property then follows, then the date of the mortgage, the time for which it was given, and the amount. The general dates used as headings are the dates when the mortgage was handed into the Register's office to be recorded.

Wherever the letters "P. M." occur, preceded by the name of a street in these lists of mortgages, they mean that it is a Purchase Money Mortgage, and for fuller particulars see the list of transfers under the corresponding date.

JUDGMENTS.

NEW YORK.

In these lists of judgments the names alphabetically arranged, and which are first on each line, are those of the judgment debtor.

NOTE.—The judgment which appears in the REAL ESTATE RECORD as having been recovered by me against Mr. J. D. Phyfe was entered by mistake, the claim having belonged to other persons to pay, and having been satisfactorily arranged by Mr. Phyfe. W. R. BEEBE.

LEGAL NOTICES.

THIS IS TO CERTIFY THAT WE, THE UNdersigned, William H. Schieffelin, William A. Gellatly, Joseph H. Westerfield, William N. Clark, Samuel B. Schieffelin, and Sidney A. Schieffelin, have, pursuant with statute of the State of New York, in such cases made and provided, formed a limited partnership; that the name or firm under which such partnership is to be conducted, is W. H. SCHIEFFELIN & CO., and that their principal place of business is in the City of New York.

That the general nature of the business intended to be transacted by said partnership is importing and buying and selling drugs, medicines, fancy goods, perfumery, and other merchandise, on their own account and on commission.

That the names of the general partners are William H. Schieffelin, who resides in the City, County, and State of New York; William A. Gellatly, who resides at West Orange, Essex County, New Jersey; Joseph H. Westerfield and William N. Clark, who reside at the City of New York aforesaid.

That the names of the special partners are Samuel B. Schieffelin, who resides at the City of New York aforesaid, and Sidney A. Schieffelin, who resides at Geneva, Ontario County, New York.

That the amount of capital contributed to the common stock of said partnership by the special partner, Samuel B. Schieffelin, is Fifty Thousand Dollars.

That the amount of capital contributed to the common stock of said partnership by the special partner, Sidney A. Schieffelin, is Fifty Thousand Dollars.

That the said partnership is to commence on the first day of January, in the year 1875, and is to terminate on the thirty-first day of December, in the year 1879.

In witness whereof we have set our hands to this certificate this thirty-first day of December, in the year 1874.

(Signed) WILLIAM H. SCHIEFFELIN,
WILLIAM A. GELLATLY,
JOSEPH H. WESTERFIELD,
WILLIAM N. CLARK,
General Partners.
SAMUEL B. SCHIEFFELIN,
SIDNEY A. SCHIEFFELIN,
Special Partners.

NOTICE IS HEREBY GIVEN THAT THE UNdersigned have, pursuant to the Statutes of the State of New York, renewed and continued the limited partnership heretofore formed by them under the name or firm of LENT & BRAMAN, and which, by its terms, was to commence on the first day of January, 1869, and to continue for three years, and which said limited partnership was renewed and continued from its termination on the thirty-first day of December, 1871, for three years, under the same firm name of LENT & BRAMAN.

That the general nature of the business intended to be transacted is, as heretofore, importing of tailors' trimmings; and that William U. Lent, whose place of residence is the City, County, and State of New York, and Samuel L. Braman, whose place of residence is the City of Brooklyn, County of Kings, and State of New York, are the general partners, and Abraham Lent, whose place of residence is the City, County, and State of New York, is the special partner; and that said Abraham Lent has contributed the sum of Ten Thousand Dollars, being the same original sum contributed by him at the formation of said partnership to the common stock; and that said renewal and continued partnership is to commence and continue from the thirty-first day of December, 1874, and is to terminate on the thirty-first day of December, 1877.

Dated New York, December 30, 1874.

WILLIAM H. LENT,
SAMUEL L. BRAMAN, } General Partners,
ABRAHAM LENT, Special Partner.

The partnership of Aldrich, Iddings & Clifton expires this day by limitation.
New York, December 31st, 1874.

LIMITED PARTNERSHIP.—THIS IS TO CERTIFY that the subscribers have formed a limited partnership pursuant to the provisions of title 1, chapter 4, part 2, of the Revised Statutes of the State of New York and of the several acts amendatory thereof, for the transaction of mercantile business within the State of New York, to be conducted under the name or firm of ALDRICH, IDDINGS & CLIFTON. The general nature of the business intended to be transacted is the dry goods commission business. The names of all the general and special partners interested therein, and their respective places of residence, are as follows: General Partners, James H. Aldrich, residing in the City of New York; William P. Iddings, residing in the City of Orange, New Jersey; Junius A. Clifton, residing in the City of Brooklyn; James A. Robinson, residing in the City of New York; and Robert E. Anthony, residing in the City of Brooklyn. Special Partner, Herman D. Aldrich, residing in the City of New York. The amount of capital which Herman D. Aldrich, the special partner, has contributed to the common stock is the sum of One Hundred Thousand Dollars in cash. The partnership is to commence 1st January, 1875, and will terminate on the 31st December, 1877.

REVIEW OF THE REAL ESTATE MARKET.

There has been very little movement in real estate since our last review, and the market has been dull and devoid of interest, prices remaining nominally unchanged.

Nearly all of the public sales were adjourned until after the 1st inst., and the only occurrence of any importance was a legal sale of premises Nos. 198 and 200 Church Street, for $68,000. The property is said to be rented for $9,000 per annum, and, as it was bought by interested parties for less than the incumbrances, it is evident that it was sold for less than its worth.

Some private sales are said to have been concluded, but we have no reports which convey any certainty as to price or the character of the transactions.

The market will hardly develop any new features until the coming season has been well started, and owners find out what they must expect.

PRESENTATION TO GENERAL SIGEL.

The Register's Office on Wednesday last presented a scene gratifying to the parties interested on both sides, and which will, doubtless, meet with the approbation of the citizens of New York. The occasion was the presentation by the assistants, searchers, clerks, and other employés in the Register's office to Gen. Sigel of a handsome testimonial of their good-will and esteem, and as a souvenir, upon his retirement from office.

This gift, which was presented by a committee composed of the following gentlemen, Wm. H. Bell, Capt. Edward W. De Grove, Col. Adolf Dengler, Wm. F. Loper, and James O'Hara, consisted of a series of elegantly engrossed resolutions, displaying a superior quality of graceful and ornate penmanship, and was tendered to the recipient in the presence of his employés by Captain De Grove, a veteran of over thirty years service in the office, who said, "General, the day is fast approaching, and is now quite near, which will terminate the period for which the electors of the County of New York have chosen you for their Register.

"During that entire period most of us, and some for a briefer space, have been associated under you in the performance of the various duties pertaining to their positions. Throughout this time our intercourse with you has been of a pleasant and happy character. We have received from you courtesy, kindness, and consideration, which in the far future will bring forth pleasant remembrances when we take a retrospective view of the time we have passed together. But the time draws nigh when this association will be dissolved, and before the time arrives for your retirement we have felt it incumbent on us to tender you some token of the esteem and regard with which you have inspired us. Therefore, in the name and on behalf of those assembled here, I present to you this testimonial, indicating the sentiments we entertain for you as a soldier, a gentleman, and a Register."

General Siegel, responding with emotion, said: "Captain De Grove and gentlemen—I feel very grateful to you and your associates for the kind sentiments you have just expressed, and it is a great gratification to me that you all unite in this testimonial, but you may be assured that this elegant gift, beautiful as it may be, would have been of equal effect if simply written, and with your names affixed, and would have equally gone to my heart.

"I have not achieved everything that I desired when I took the office. There are improvements needed in the care and disposition of the records which are urgently required and which I have been unable to accomplish. These improvements may be secured under the administration of my successor, who is a soldier and a gentleman, and has been a faithful public officer." In closing he said, "As this year ends, with it my career among you; I will say that I have had few complaints to make. You have done your duty, and although I have been at the head of an army corps, I feel honored to have been at the head of a faithful body of men like you, and I hope that your dark hours will be few, and that you will reap those rewards which are due to your honesty and fidelity."

MARKETS.

The most quiet week of 1874 has been between Christmas and New Year's, and business was so completely devoted to everything but trade that we hardly find anything for review. Very little change in prices has occurred since our last report, and the markets, even if dull, have continued steady, and present the same general characteristics as of late. The demand for material at this season will fall principally upon reserved stocks, and, as we shall be obliged in some instances to alter our quotations to suit the jobbing trade, we make announcement to that effect, in order to avoid misunderstanding in the future.

We expect at an early day, probably in our next issue, to briefly review business for the year ended, and to present our annual summary with its tabulated comparisons of prices, which, we hope, will be found interesting and valuable.

The results of the year will soon be ascertained; and although it is to be expected that considerable difference will be found, it is hoped that the settlements of accounts will not involve any new disaster, and that there will be a fair measure of encouragement for the future. There is a general expression of hope in mercantile circles, and it is reasonable to believe that it has some foundation. We learn that imports and exports are smaller than at this time a year ago. Money continues easy, although hardly available for the purposes of our markets, which are thoroughly dependent upon the results of general business.

The currency question is still unsettled, and as pending measures seem no more likely to bring it to a definite issue than before, we believe that this indecision reflects more adversely upon trade than anything else that may be expected to occur.

We briefly review the markets, as follows:

BRICK.—The arrivals of Haverstraw hard have been prolonged later in the season than was expected, the open weather permitting shipments, and we make the unusual announcement that about one and a half million have come into the market and are awaiting sale. The movement is not brisk, as demand is limited by the suspension of building enterprises and the fact that the yards are supplied for present requirements. These arrivals have not affected the market unfavorably, as prices are steady as previously reported. We have endeavored to secure a quotation for Long Island brick, but find none in market, as their manufacturers will not sell at the prices offered, holding them nominally worth as much as Haverstraws. There are no Up-river brick in market, except in dealers hands. Jerseys are steady as previously quoted. Fronts are a little stronger for Crotons, Philadelphias and Baltimores remaining unchanged. We quote: Pale, ℔ M, $3@3.50; Jersey, $6.25 @6.50; Up-river, $6.50@7.25; Haverstraw Bay, $7.25@ 8.00; Fronts, Croton—brown, $12@13; dark, $13@14; red, $14@15; Philadelphia, $28@32; Baltimore, $50@58. Yard prices, delivery included, $2@3 higher.

CEMENT—Is limited in movement. Rosendale is steady at $1@1.30 cash, the latter price for superior brands. Sales of 100 bbls. Portland, ex vessel, are reported at $4.50 per bbl.

FIRE BRICK—Are dull. The arrivals of Red Welsh have been limited, and we quote them at $45 ex vessel and at $50@55 delivered from yard. American are still held at $40@50. Scotch are held at $50 from yard, with sales of 3,000 reported at that price.

FOREIGN WOODS—Are dull, and nominally steady at our quotations.

GLASS.—French window is in some demand, and is steady at 60 and 5@60 and 10 per cent. discount. Quotations for English sheet are nominal.

HAIR.—The market is inactive, but prices are steady at former quotations, which are of ample range.

HARDWARE.—There is generally very little doing, although in some quarters fair trade is reported. This is the season of changes in the trade, and when new price-lists and discount sheets are preparing and the accounts of the past are closing, and little can be expected of the market. Barker's patent double reversible joint butt hinges and concealed door springs, all japanned with plated acorn tips and plates, are offered as follows: No. 0, $3.25; No. 1, $3.50: No. 2, $3.75; No. 3, $4.50; No. 4, $5.25; No. 5, $6.75; No. 6, $12; No. 7, $13 75; No. 8, $15; discount 12½ per cent. Dexter & Co. have issued a new list for mica, subject to a discount of 20 per cent.

LATH.—We quote at $2 per M, although not fully assured as to the strength of the market at this figure.

LIME—Is quiet and steady at old prices. We quote State at $1@$1.25, and Rockland at $1@1.50.

LUMBER.—The market shares in the general suspension of business incident to this season. Trade is very dull, dealers buying only enough for immediate wants, as they generally take account of stock at the opening of the year. There are no reports of shipping orders for white pine, and yellow pine is almost stagnant, notwithstanding some earnest efforts to push trade. Spruce is unchanged, and hardwoods are quiet, but firmly held. The yards are quiet, with very limited sales, a not uncommon occurrence at the close of a month, and incident to the season. It is expected that trade will improve during the coming month. Excepting a slight variation in the prices of pine and spruce, yard quotations are unchanged.

Michigan and Wisconsin Notes.

The Muskegon *News and Reporter* gives the total amount of lumber cut during the past season, in the different counties on the east shore of Lake Michigan, as follows:

Counties.	Feet.
Muskegon	327,000,000
Manistoe	205,000,000
Mason	126,000,000
Oceana	20,000,000
Ottawa	115,000,000
Grand Traverse, St. Joseph, etc	100,000,000
Total, East Shore	893,000,000

The amount of logs rafted and delivered by the Muskegon Boom Company up to Oct. 20, 1874, as shown by the Company's books, will be over 250,000,000 feet.

Muskegon County cut and shipped in 1874, in addition to the number of feet of boards given above, the following:

Lath, pieces	200,000,000
Shingles	18,000,000
Square timber	15,900,000
Pickets, pieces	175,000
Railroad ties	300,000
Tan bark, cords	120,000

The quantity of logs and lumber left over is comparatively small, and will not exceed 20,000,000 feet for Muskegon and 8,000,000 for the balance of the county. A large portion of this lumber will be shipped south and east by rail during the winter.

The aggregate supply for Muskegon County is:

Muskegon	250,000,000
White Lake	62,000,000
Black Lake, etc.	15,000,000
Total	327,000,000

From the very best authority that can be had it is said that with plenty of snow and favorable weather otherwise for logging, Muskegon River and tributaries will float upon its waters next spring at least 400,000,000 feet of logs, while about 30,000,000 feet more will be shipped by rail, etc., to this point to be sawed.

White River and its tributaries will swell the amount, for Muskegon County, to over 85,000,000 feet more, while Black Lake and a large number of small mills not enumerated here, may safely be put down for not less than 20,000,000 feet more—making a grand total crop of logs for 1875 in the county of Muskegon of 535,000,000.

METALS.—COPPER.—Manufactured is steady as follows: New sheathing, 28 cents; bolts and braziers, 30 cents; bronze and yellow metal sheathing, 21@22 cents; and yellow metal bolts, 28 cents, net cash. Ingot is quiet, but firm at 23½ cents.

IRON.—Scotch pig is of limited movement, the demand as well as stocks being small. American pig is very dull and depressed, and sales are rumored at very low figures. Rails are quiet, and scrap is quoted at $28@30, with sales of about 900 tons reported at the former price. Manufactured is quiet at our quotations.

LEAD.—Foreign pig is quiet, but firm at $6.85@6.87½ for ordinary. Domestic is offering at $6.12½@6.20, gold. Bar, shot, and pipe are steady at 8¾ cents, less 10 per cent. to the trade.

TIN.—Pig is quiet, the only movement being of a jobbing character. Plates are firm, and prices are stronger, charcoal tin being held at $9.75@10.25 for fair to choice brands, all gold.

ZINC.—The supply is limited, and the market is firm at 9@9½ cents.

NAILS.—Cut are weak and depressed. We quote: 10d. to 60d. common fence and sheathing, ℔ keg, $3.40@3.50; 8d. and 9d. common do. ℔ keg, $3.85; 6d. and 7d. common, ℔ keg, $4.10; 4d. and 5d. common do. ℔ keg, $4.40; 3d. and 4d. light, ℔ keg, $5.10; 3d. fine, ℔ keg, $5.85; 2d. ℔ keg, $6.60. Cut Spikes, all sizes, $3.85. Floor, Casing, and Box, 75 cents above the same sizes of Common—Finishing, $1 above, and Fine Finishing, $1.25 above.

CLINCH NAILS.

1¼ to 1½ in	2 & 2½ in.	2½ & 2¾ in.	3 in. and longer.
$6@6.25.	$5.75.	$5.50	$5.25 ℔ keg.

OILS.—Linseed is in fair demand for the season of the year, although the market is not active. We quote from crushers' hands, in casks, at 77@78 cents; in bbls., at 79@80 cents; and boiled and refined, in bbls., at 85@86 cents per gallon.

PAINTS.—The market for the week ended has been dull, a not unusual circumstance at the close of the year. Prices, however, are steady and firm, without any transactions of importance to excite them.

PITCH—Is very quiet, at $2.37½ for city.

SPIRITS TURPENTINE.—The market has been variable, and early in the week prices receded a half cent below our former quotations, but recovering, advanced to 37 cents per gallon for merchantable, at which it closed firm.

TAR—Has been inactive, quoting as follows: Newbern and Washington, $2.25, and Wilmington $2.37½@2.50 per bbl.

REAL ESTATE BOUGHT, SOLD, AND EXCHANGED

A GOOD INVESTMENT

EVERY PRUDENT MAN, CAREFUL OF THE health and comfort of his family, should see to it that his drinking water is conveyed through TIN-LINED LEAD PIPE, which is a perfect safeguard against lead poison. Tin-lined Lead Pipe is strong, durable, flexible, and easy soldered. It is a great benefit to the community, and enhances the real value of every house in which it is introduced. It is cheaper than Lead Pipe, when strength and durability are considered. Sold by the COLWELL LEAD CO., 213 Centre St., New York. Price, 16½ cts. a pound for all sizes. Descriptive pamphlets sent by mail free. Also, manufacturers of Lead Pipe, Sheet Lead, Block Tin Pipe, Bar Tin, Pig Tin, Bar Lead, Pig Lead, Solder, &c. Orders filled at sight.

MORTGAGES.

REAL ESTATE.

NEW YORK.

NOTE.—The arrangement of this list is as follows: The first name is that of the mortgagor, the next that of the mortgagee. The description of the property then follows, then the date of the mortgage, the time for which it was given, and the amount. The general dates used as headings are the dates when the mortgage was handed into the Register's office to be recorded.

Wherever the letters "P. M." occur, preceded by the name of a street in these lists of mortgages, they mean that it is a Purchase Money Mortgage, and for fuller particulars see the list of transfers under the corresponding date.

MISCELLANEOUS.

REVIEW OF THE REAL ESTATE MARKET.

The year opens with a dull market, as a prelude to activity expected with the spring season. No new results have been recorded, for the past week, and values, so far as movement is concerned, are undisturbed. The future is yet uncertain, and in expectancy. Since December 31, more hope has arisen, and there seems to be renewing confidence. We are at a loss to discover the source of this feeling, other than is contained in the Message of the Mayor, and such parts of the Governor's Message as harmonize with the opinions of real estate owners. To our mind, all kindly suggestions, however earnestly given or honestly intended, are of no avail, while obstructions to legitimate improvement are permitted to incumber our very doors. A radical reform is demanded in the method of prosecuting public improvements, and assessments levied and collected for specific purposes should be applied to their proper use or refunded.

The market for 1874 followed closely upon the disasters of the fall of 1873, and there was much natural hesitation about putting property in the market. Operations were thus protracted, but the earlier sales, after all, fared the best. There were many important offerings, some of which were brought to issue, while others were suspended, the weakness of the market creating a sliding scale, which lowered prices of unimproved and speculative lines of property, while at no time were former prices obtained.

Brooklyn property of this character came absolutely to grief, and many offerings were forced, regardless of sacrifice.

The prices of improved property in old and well-established localities have stood remarkably firm, and at sales exhibited strong, and frequently advancing tendencies. The volume of business in the City of New York, for 1874, compared with 1873, shows a falling off in the number of transfers of fifteen per cent., with a decrease in the aggregate of values of $31,088,144, or a difference of twenty-four per cent.

The following are the comparative sales of real estate for

MARKETS.

Entering upon another year, we take a retrospect of the past, before expressing an opinion of the future One is certain, its failures and successes are known, the other is undefined, except in the experience that we have achieved, and from which we may profit. During the year, there have been seasons of depression, when business interests have been guided with anxious care. The financial policy of the government, vibrative and unsettled, has not harmonized with trade. There have been disasters in mercantile transactions, and failures

of prominent houses, yet trade has gone along, pushing here and there, taking a little and giving a little, with more modest but evener flow than during the preceding year. What the general results may be we do not know, but conceive that they may be estimated from the experience, thus far gained, of our own markets. In these we find that, although many settlements are yet pending, estimates which, probably proximate to the truth, make a better showing for the year than there was reason to expect at its start, and than seemed possible in its course. Confidence has become greatly restored, and the safe method in which business has been conducted has done much to restore it to a healthy and normal condition. There have been exceptions, notably in individual cases, where the year has been bitter with loss and regret. This is the inevitable of every season and condition of trade.

Reference to our review which follows will disclose in what particulars the building markets have suffered or done well. There has not been abundance according to past experience, but we believe that there has been enough. The falling off in business, large as it doubtless has been, does not exhibit an extremely large proportion of loss. Expenses have been met in most instances, and there has generally been some assurance of a small margin behind. For this there is reason for congratulation. With the opening of the new year there has arisen new confidence and a persistent, steadfast feeling like to that with which the Mohammedan turns his footsteps toward Mecca. It comes from the inherent vitality of the people and the sense of personal infallibility with which every American sets out upon the road to fortune. As worthy of special remark in this introductory part of our review, we announce, as we repeat in detail below, that, so far as we are able to learn, payments have been made and obligations have been kept with a fidelity and punctuality of somewhat fresh experience. Notes have not been protested, where in times past they were in default at maturity. Goods have been paid for, and few, very few, bad debts have been incurred. These facts, simple and more powerful than argument, lend cheerfulness to the expression and encouragement to the hope that better days may come. With another year, should we be called upon to prepare the summary of this, it would give us no greater pleasure than to be able to say that these indications were fraught with life, and that business interests were fully established in honest trading, fair dealing, and general freedom from debt.

Appended will be found our review of the markets in detail.

BRICK.—The course of the market for the past year has been variable, prices running lower at one time than before in eight years. The greatest decline occurred during the spring and summer, the market strengthening in the fall, and with the demand for winter storage. It is estimated that the hard brick production has diminished 20 per cent. from the average capacity of the yards. The Haverstraw manufacture, employing about 50 yards, has hitherto been about 150,000,000 per annum. Ten of these yards have not made a brick this season, and the percentage of loss is probably greater at this point than at any other. The capacity of all the North River yards, including those just cited, is placed at 500,000,000 to 600,000,000 bricks annually, which has been the regular production; but the manufacture for 1874 is set at 400,000,000, which amount, large though it may be, differs greatly from the figures before given. Most of this manufacture has come to New York, where, although the number and variety of buildings and improvements have been reduced, the demand has been fairly sustained, and nearly all of the quantity mentioned has gone into present or prospective use. During the year there have been numerous large enterprises calling for brick. The Fourth Avenue improvement has consumed a great many, and the new buildings of the *Tribune*, *Evening Post*, the Western Union Telegraph Company, the Delaware and Hudson Canal Company, the new museum in the Central Park, and other edifices of that class, with somewhat frequent constructions upon Second and Third avenues, have absorbed an amount of material which, on reflection, will be conceded to be immense. Movement has been slow but continuous, and no brick are now to be had except from dealers' hands. Trade can, therefore, be called reasonably fair, although there has been loss, the burden of which has fallen upon the manufacturer who, in many instances, has hardly received cost for and at times has lost on his brick. Haverstraw Bay manufactures have sold as low as $5.75@6, and the best grades at $7. Pale at one time were down to $2 per M, and the market being full of stock and the demand limited, cargoes hung until they were sacrificed to save charges. Freights have been reduced from $1.50@1.62½ per M to $1.37½ at the close of the season, and some carrying was done at $1.25, which price may rule the ensuing season. In general the trade has been conducted with safe if not active movement, and we are informed that payments have been made and obligations have been met promptly and diligently, the largest commission house in the brick business reporting that they have not had a single note protested during 1874, and that dealers whose notes went to protest last year have since fully discharged their demands against them. The year has opened quietly with a limited call upon stocks in dealers' hands. Quotations are retained as for cargo lots, to which add 50 cents per M from yard. We quote: Pale, ℔ M, $3@3.50; Jersey, $6.25@6.50; Up-river, $6.50@7.25; Haverstraw Bay, $7.25@8.00; Fronts, Croton—brown, $12@13; dark, $13@14; red, $14@15; Philadelphia, $28@32; Baltimore, $50@58. Yard prices, delivery included, $2@3 higher.

CEMENT.—Our quotation for Rosendale, January 1, 1874, was $1.75 against $1.30 for January 1, 1875. The change in price resulted early last year, when the agreement between manufacturers ending and no new combination being made, each was free to sell at the best price that could be secured. A fair and not forced market was thus created, and the trade has probably benefitted by it. The prices of the best manufactures have been $1.20@1.30 per bbl., the latter price being the leading quotation. Some sales were made at lower figures, but the quality of the material has been in dispute. There is no doubt, however, but that even in the leading brands concessions were made in sales upon private terms. Trade has been of fair volume, as the demand here is naturally of larger proportions, amounting to about a million and a half of barrels annually. More competition has arisen as the decrease in building naturally retarded movement, and the product had to be got rid of at times to keep manufacture going. Foreign cements are quoted $1 lower than a year ago, and their movement has been slow, with sales from store at our lowest quotation, with frequent private transactions. The price of Rosendale will probably be advanced to $1.60@1.75, as, the open weather prolonging building operations much later into the season than usual, stocks in dealers' hands have become depleted, and few, if any, have enough to supply their wants until spring. Manufacturers can therefore secure better prices for the material they have in store, and will be likely to make the advance indicated. The market for the past week has not been active, and quotations are retained. During the past week there have been sales of 200 bbls. Portland at $4.25, ex-vessel.

DOORS, &c.—We present the same price list as before, in which no changes are likely to occur until later in the year. There is an easier feeling for discount, inclining to buyers' favor. The city trade has fallen off proportionately with the suspension of building improvements, but the out-of-town call has aided to keep business going, and a fair share of trade has resulted.

DRAIN AND SEWER PIPE.—This market has suffered in common with others from the diminished building production, but so far as we can gather, manufacturers have done fairly in paying expenses and in realizing a small margin of profit. Price-lists throughout the year were unchanged, although the discounts, nominally steady, may have varied somewhat. We present the same quotations for the beginning of the year, but believe that a change is impending, whereby the prices of the larger branches will be reduced.

FIRE BRICK.—The market is quiet and nominally steady at our quotations. From the reports gathered during the year, Scotch seem to have sold somewhat freely, while Red Welsh are somewhat lower in price. American have met with ordinary business, proportioned to the altered conditions of trade, and the market generally has not shown any special indication or movement affording opportunity for review.

FOREIGN WOODS.—There is no change to note for the week, prices remaining as heretofore. The market has experienced all the dullness possible during the year, while at times the prices of woods were exceptionally good and a fair trade was done. The aggregate for 1874 will hardly come up to that of the year preceding, although at the outset there were fair indications. Our quotations have been revised from time to time, and we find that there has been a decline in the prices of cedar and of some grades of mahogany. Rosewood is higher; satinwood has a wider range of quotation, and lignum vitæ has narrowed in price, small logs advancing in their lower and large receding in their higher quotation.

HAIR.—None of our markets have been of so indefinite character as this, and at no time have we been absolutely certain of prices. Wholesale dealers are utterly averse to giving a quotation, as trade is so dull that they are willing to entertain offers. During the year prices have run up to or near our highest figures, and again sales have occurred at about our lowest quotation. To-day a fair average price for goat hair might be set at 18 cents per bushel. Sales have been made at 15 cents. In order to give a fair range of quotation which may cover any possible price, we have quoted and still quote cattle at 12@25 and goat at 14@28 cents per bushel.

GLASS.—In reviewing our reports for the year, we find that French window has been in generally steady and fair demand. Stocks have not been large, and are now said to be reduced much lower than for several years. Prices have fluctuated to a very limited extent, and have been fairly sustained throughout. Arrivals are expected, which, with a present light demand as is usual at this season, may compel concessions, but as yet we are not called upon to revise our figures, and quote discount steady at 60 and 5@60 and 10 per cent. English sheet and polished plate have been for much of the time depressed and uncertain, with varying quotations, yet showing, on occasion, spasmodic activity with resulting stronger prices. They are now dull and nominal. We have no reliable data at hand for comparing the volume of trade for the last two years. At the close of 1873 a decline of 20 to 30 per cent. was estimated as compared with 1872. There is reason to believe that this difference, if not recovered, has not been exceded during the past year. Prices of French window are now more favorable to buyers than on January 1, 1874, when they were quoted at 50 and 10 @ 60 per cent. discount.

HARDWARE.—There has been a great amount of expectancy in this market throughout the year, giving trade an unusual character. Buyers held off, and without making all their purchases at set seasons, supplied their wants as exigencies required, pursuing the very safe course of taking no more goods than they could sell and get pay for and looking out for concessions, which were made from time to time. Complaint of dullness in this market, while to a great extent well founded, has probably gone too far. Foreign and domestic manufactures have been in some demand, and although trade has been very restricted at seasons when it was wont to be most active, orders have been given at intervals, making the aggregate results better, if reports from the trade are to be accepted, than the desultory character of business has at times suggested. Prices, as a rule, have favored buyers, and frequent changes have been made to meet their requirements. The market for 1874 closed dull, and, as yet, there are no indications of renewed life. Trade in foreign hardware is extremely quiet, and the season forbids much activity. Few revised price lists have been, as yet, issued, but from those put forth we take the following reduced discount sheet of the Ohio Butt Co.: Cast butts—broad, loose joint, drilled and wire jointed, panel pattern, 65 ℔ cent., before 60. Loose pin, reversible, drilled, panel pattern, plain, 60, before 50 and 10, do. japanned, 55, before 50, do. silvered acorns, 55, before 50, loose joint, drilled, japanned acorns, 60, before 55, and do. silvered acorn, 60, before 55; other kinds are unchanged. Terms cash within twenty days from date of invoice.

LATH.—There is a stronger feeling in the market, and quotations of which we were hardly certain a week ago are more than assured, sales having been made at $2.05 per M, and we are informed that this price would not now be accepted for cargoes to arrive, as lath are scarce and in demand. By reference to our comparative tables appended, it will be seen that the opening prices for this year are higher than for the corresponding date of 1874. The market throughout the year has not been as equable as these quotations might suggest. Prices fluctuated, and there was a downward tendency finally consumating in sales at $1.50 per M, at which figure the market hung for some time; but when cargoes were delayed or withheld prices strengthened, weakening again with a full market. Toward the close of the year there was an upward movement excited by the demand for winter stocks and infrequent arrivals, together with the call arising from protracted building operations, brought about a sharp advance which, seemingly, has hardly culminated with the quotations we now present. The following is a comparative statement of prices for several years:

LIME.—With the advent of winter, arrivals have, to a great extent, suspended, and prices of State are stronger. Sales were made during the summer at 80@90 cents per bbl. for State common, and the competition thus enforced, together with a diminished demand, brought about a decline in Rockland, which is now selling for the same price as the best State manufacture. In reviewing the market at this season, we deem it only proper to make specific mention of the fact that the Glens Falls lime is rapidly growing in favor, and is thought to possess qualities that put it on a par with the hitherto favored Rockland; and if this statement needs confirmation, it will be found in the fact that these brands are now quoted upon the same scale for common, and, on one occasion, sold at the same price, for finishing. The receipts from all sources have been lighter than the capacity for supply, and the number of kilns burning has been reduced. Sales of Rockland have probably diminished 30 per cent., if not more; but we find it difficult to get information on that point, although effort has been made to that end. State manufacture has increased in business, but not up to the capacity for production.

The market for the week just ended has been quiet and steady at the following quotations: Common, $1 per bbl.; finishing, State, $1.25; and Rockland $1.50 per bbl. Yard prices 25 cents per bbl. additional. We append the following comparative statement of prices on January 1st in each of the years designated:

LUMBER.—In reviewing operations for 1874, a leading, if not the principal, feature for remark is the excessive product compared with the demand; and while the different branches of the trade have been unequally affected in this respect, its impress has been left in every direction.

Prices were naturally affected by the depression which extended to business of every kind, but decline was accelerated by over-production, and has probably gone further than the circumstances of dull trade or panic would have required. Throughout the country there has been a general cry of poor business, which compels mention, although the specific field of this review is our own market. The wholesale trade in white pine at this point has been inactive compared with past experiences. Shipping orders have been very limited; the Cuban market has been cut off; intestine troubles and ample stocks previously forwarded and remaining unsold, have stripped the South American trade of its value, and exports have been set to narrower limits. Fortunately for our local trade, stocks have not been large. The supply in New York hands has been carefully adjusted to meet the emergencies of present and prospective requirement, and in the belief that, having enough to supply all probable wants until spring, better opportunities for purchase will occur throughout the winter, or when the new cut comes upon the market. There is fair ground for this action. We have been favored annually with rumors, and, finally, positive assertion, of "short crops," of "logs hung up," and of a reduced cut; and per contra, production has increased, and the surplus stocks at the principal Western markets and nearest to the points of production are fearful to conceive of when it is taken into consideration that they are to be increased during the coming year upon a limited, and, possibly, declining demand. Our opinion at the outset of the year as to production has been fully confirmed. Logging operations last winter were more than enough for the desires, if not the capacity, of the mills, and the rush this year seems to be as great as before. Buyers have had matters pretty much their own way. Saginaw and other Western interests fought long and faithfully to bolster up quotations which would not stick in the face of free sales at lower prices or on private terms. The delusion that lumbermen on the seaboard were not fully informed on the subject, and that some might be expected to pay fancy prices for stocks, lingered until the close of the season, but we doubt if it received encouragement from dealers of any experience, tact, or discretion.

The market for yellow pine opened the year with numerous orders for South America, but overstock reduced trade, and there are now at Buenos Ayres and the river ports over three millions of feet, afloat or stored, awaiting purchasers and finding none. As spring approached the market became dull, and since the first day of April many orders that had been sent to this market have been canceled as far as possible. There were few orders for the West Indian market during the year, as it was kept full on consignments. Domestic orders became very limited as construction was confined to the smallest bounds, and with these disadvantages the market became depressed and prices were much lower than for many years. The reduction in trade has been estimated as much as 50 per cent. in individual cases, but we do not think an average would confirm that percentage of loss. The greatest depression has occurred since last August; but with the opening of the year there are indications of activity. There is an improved demand for building orders, without any improvement in prices. Orders are now filled at $23.50 @24.50, which brought a year ago $32.50. Freights have been reduced $1. Payments have been better than trade, and few bad debts have been made. Present quotations are as follows: Green flooring, $23@25; dry, $25@28; sidings, no market, at $19@21; timber, $22@25 for ordinary orders and $20@23 for random cargoes.

The market for spruce had, like others, its adversities, and although from reports at hand it seems to have fared better in many respects, we do not claim that the demand has equaled either the supply or the usual capacity of the market. Prices at the close of 1873 were $21, receding to $18.50 in January of last year, and fluctuating at times until the lowest range of prices and the greatest depression and irregularity was reached in July, when sales were reported at $13.50@19.50. Business has, probably, been better than might have been expected at the outset of the year. Payments have been made with a fair degree of punctuality, and the market stands upon a really fair footing. Recent sales deliverable in January have been at 17. We quote random cargoes at $17@19, and ordered do. at $18@20.

Hardwoods are and have been firm, and were probably affected less by the dull feeling of the year than any other kind of lumber. The average trade was good, hardly falling 30 per cent. below its customary dimensions. The year opens with fair indications, and we hear of movements that lend some encouragement to trade. Stocks in consumers' hands are said to be moderate, and at the yards fair current quotations are revised in a few particulars.

The yard trade has been of the steady medium kind, always going in a city like this at even the dullest times. Stocks were replenished as necessities required, with due regard to probabilities and care as to purchases. Business has been conducted on sound and conservative principles, and the trade, as well as customers, have benefited thereby. Some money has been made, and we know of no instance where the business has been all loss. Toward the close of the year trade became very dull, but since New Year's there has been a brightening up, and orders seem likely to come forward with regularity. Quotations are as before.

Michigan and Wisconsin Notes.

From the *Lumberman's Gazette*, Bay City, December 30, 1874:—

The indications for the coming season do not, to say the least, improve from week to week. The latest advices from the western shore of Michigan represent that Muskegon County will produce about 525,000,000 feet for the coming season, an amount largely in excess of former years. That county got only 327,000,000 in 1874. Muskegon, Manistee, Mason, Oceana, Ottawa, Grand Travers, etc., produced 893,000,000 in 1874, and an increase in all these porportioned to that estimated for Muskegon would make an enormous cut. However, as we have remarked heretofore, there are well-informed lumbermen who say that these estimates are largely in excess of the actual facts. Speaking from their personal knowledge of the operations of the principal lumbermen, these authorities assert that the crop of the Muskegon next year will run from 225,000,000 to 230,000,000. It is quite evident, however, that there is to be a full stock for all possible demands, both in Michigan and the far west districts.

To render the rule uniform throughout the continent, we have this week a careful estimate from our Canadian correspondent of the amount of lumber in the Ottawa region to be ready for the market in the spring of 1875; and we are astonished at the fact that, notwithstanding all the talk about reducing the Canadian supply, there will be for the United States market early next spring over 720,000,000 of Canadian lumber. This vast amount may come into the Eastern market ahead of any from Michigan districts.

There is nothing new to report concerning the state of the market. Business all over the country is at the customary check before and during the holidays, and there are no changes to note.

The prospects for a good logging and running season in the woods have been somewhat improved since last week by the fall of snow, and it now seems likely that the winter will be a fair average one in this respect.

From the Saginaw *Courier*, Dec. 31:—

The following is a showing of the logs rafted out of the several streams during the year. We have no reports from the Au Sable this season:

	Feet.
Tittabawassee	370,435,860
Cass River	48,000,000
Bad River	15,000,000
Rifle River	58,000,000
Au Gres	37,000,000
Kawkawlin	6,000,000
Au Sable	—
Total	534,435,860

There was held back in the booms the following amounts: Tittabawassee, 100,000,000; Rifle River, 3,000,000; Au Gres River, 4,000,000. There is nothing hung up on the Rifle, and but 2,000,000 on the Au Gres. There was manufactured at Flint 45,000,000 feet of logs, and 19,500 feet are held back in the booms above that point. There was rafted out of this stream about 10,000,000 feet. With the exception of about 2,000,000 feet put in at the head of the Kawkawlin, that stream is very clear.

General Western Notes.

The following resume of operations on the St. Croix River is taken from the Stillwater, Minn., *Gazette*:—

COMPARATIVE STATEMENT.
LUMBER MANUFACTURED DURING PAST FOUR YEARS.

Season of 1874.	
Lumber, ft	85,774,149
Lath, pieces	24,110,345
Shingles, pieces	41,412,075
Pickets, pieces	265,650
Season of 1873.	
Lumber, ft	88,063,976
Shingles, pieces	20,000,000
Lath, pieces	22,477,000
Season of 1872.	
Lumber, ft	52,000,000
Manufactured into lath and shingles	4,000,000
Season of 1871.	
Lumber, ft	61,466,680
Manufactured into lath and shingles	1,799,591

The log production on the St. Croix and its tributaries during the past eighteen years was 1,718,531,937 feet.

The highest figure obtained for logs during the season was $13.75 per M feet for choice logs, rafted at Stillwater. The lowest figure was $6.20, for logs not rafted.

There are now, it is estimated, 12,000,000 feet of logs in the St. Croix, above the boom and below Taylor's Falls. There are at Stillwater some 12,000,000 feet of logs, mostly ratted, and intended for down-river markets. Stillwater log-men have 10,000,000 feet of logs tied up, for the spring trade, below Lake Pepin.

The cut of the several mills on the St. Croix for the season of 1874 was: Lumber, 85,774,149 feet; lath, 24,110,375; and shingles, 41,412,075.

The average price of logs during the season just closed has been $10.50 per M feet for logs rafted and fitted for running. The average price obtained for lumber has been $14 per M feet. This, of course, includes lumber of all grades, at wholesale and retail prices.

The quality of St. Croix logs the past year has been of a much higher grade than our stock of any former year, being made up from timber cut on Yellow, Clam, Nimeacoggin, and Totogatic rivers. As a large number of camps are engaged in cutting in the same localities the present winter, we may reasonably expect a good stock of logs for the coming summer.

From the only sources available at this time, to base our estimates on, we figure the logs to be cut the present winter as follows:—

	Feet.
Totogatic and Eau Claire rivers	21,000,000
Nimeacoggin	12,000,000
Clam and Yellow	21,000,000
Apple	4,000,000
Upper St. Croix	9,000,000
Kettle and Tamarac	9,500,000
Wood	8,000,000
Snake and Tributaries	33,500,000
Total	118,000,000

From the Chicago *Times*:—

With regard to the prospects of the lumber crop for the winter, the prevailing opinion among those best informed is that there will be a larger number of logs put in most of the streams than in the winters of 1873 and 1874, notwithstanding the efforts made early in the fall to reduce the supply. Lumbermen say they must cut a good many trees, in order to obtain money, and the indications are fair for an overstocked market in 1875, with unremunerative prices. The present supply at the yards in this city is unusually large for the season, and is estimated by the Secretary of the Lumbermen's Board of Trade at 460,000,000 feet.

From the Lumbermen's *Gazette*, Jan. 2:—

The aggregate sales of pine lumber in the city of Toledo for the year 1874 amounted to 76,000,000 feet. The aggregate sales of lath in the same time were 29,910,000; of shingles, 64,533,000. This does not include a matter of 50,000,000 feet of lumber handled for transferment from barge to cars, for parties having yards in the southern and eastern part of the State. There is a full stock of lumber at the yards, of good assortment, although not running largely to uppers, but is, altogether, a desirable stock.

The amount of hardwood handled during the same time will aggregate 8,000,000, 7,000,000 of which was black walnut, hardly one-third the amount handled ten years ago.

The aggregate of long timber logs cut during the season of 1874 is 16,000,000, a little more than one-half the amount cut during 1873.

The amount of lumber and logs to be held over to another season are as follows:—

Lumber, ft	57,300,000
Lath	5,050,000
Shingles	5,825,000
Long logs, on hand	14,750,000

From the same:—

Reports of the markets at this season necessarily consist almost entirely of prognostications as to the spring opening of business. The reports which, toward the close of the year, come from the producing districts and various markets are interesting, as they afford data for calculations for the coming season, and this sort of information is almost all there is to be had just now. Nothing of interest transpires in the way of sales, all business in this interest, or in others, being wholly or partially at a standstill, while the last year's operations are being calculated and entered up on one side of the ledger or the other.

The developments of the past week have not been remarkable. Our correspondent, who has been in Canada and is now in the East, finds, at various points on our side of the line, an odd 180,000,000 feet of lumber or so, to be added to that 720,000,000 which he has already reported as the Canadian product, ready to be pushed upon the American markets early in the spring. From other points we have nothing especially new or interesting to note. The logging continues in Michigan, Wisconsin, and Minnesota, but with no improved prospects as to an adequate snow fall for hauling, and to bring up the streams to a practical rafting stage.

On the Saginaw River, the lake men are beginning to discuss the question of freight rates, with reference to the opening of navigation. It is, of course, much too early yet for the settlement of anything in this line, and the talk is interesting only as indicates the present views of shippers and carriers. Last winter several season charters were made on this river at $3.25 and $3 to Buffalo—rates which were, at the time, considered very low. Nevertheless, the craft with the $3.25 charter figures up a profit of $10,800 for the season—a story that, with lake men, will need nothing in the way of emphasis of the last season's experience. We hear of one offer, a few days since, for the season, at $2 to Buffalo—which offer was refused by one of the largest firms on river.

Canada Correspondence.

Review of the Canada Lumber Trade for 1874, by CARBRAY & ROUTH, of Quebec and Montreal, Dec. 31, 1874.

The past year may be placed among the memorably disastrous years in the history of the Lumber Trade of Canada, if not of the world.

As regards our trade with the United States, we had no reason to expect a prosperous year, but many believed that a fair business would be done at moderate prices; the result was worse than was predicted by the gloomiest croaker, as it proved one of the worst years experienced for a long time. During the fall of 1873, most of the mill owners in the Ottawa Valley, and neighborhood, who usually manufacture for the United States markets, did not allow themselves to be governed or guided in their preparations for logging by the state of that market, as everything in Europe betokened a brilliant season, judging by the contracts being made with the Quebec shipping houses for delivery during summer, 1874, in which prices never before dreamt of were paid. They therefore went in vigorously to get out every log possible, and, although the first part of the winter was unfavorable, the latter part amply made up for any deficiency on the part of the weather, so that the get out was larger than could have been at any time expected; the "drives" were exceedingly good, almost everywhere, and the rivers and streams were literally cleared out, so that logs which had been held back, perhaps for years, reached the mill ponds along with the large crop of the season.

We will now turn our attention to that section, the St. Lawrence district, which manufactures almost exclusively for the European markets. In the fall of 1873, influenced very naturally by the eagerness of the Quebec shipping houses to make new contracts at a

precedentedly high prices, mill owners in this section made their preparations to get out all the logs they could. The weather, however, in many places checked their operations very seriously; in fact, about mid-winter, during the great thaw and mild weather, operations were completely stopped in many parts; it seemed as if spring was going to begin some two months earlier than usual; however, toward middle of March the cold weather set in again, and most cutters resumed their operations, making on the whole a fair average get out of logs; the "drives" were also all that could be desired, although at one time they appeared very doubtful.

Turning to the United Kingdom, our largest customers, after the United States: When sellers crossed over, in January, from Quebec, they found buyers in no great haste to make new purchases. Stocks were unusually heavy, and costing very high prices, both for the goods and the transportation, freights having ruled very high during the season of 1873. In addition to the high prices Canadian houses were obliged to ask for their goods, came also the apparent difficulty or fear of being unable to secure the necessary tonnage, on account of the excessive pretensions of ship owners, who, evidently, thought it a most favorable chance for turning the tables on those who had been making them work for less than starvation prices for the preceding six or eight years. However, they did not help themselves much, by the extreme and almost impossible prices they asked, as the past season's experience only too well proves.

In face of the large stocks on hand, the high prices asked for new goods, and the extravagant rates named for freights, importers very naturally decided to wait until their stocks should be worked off, or nearly so, and then, if their markets could stand the high cost of the new supplies, they would follow the times. This, of course, did not suit the Quebec shippers, who were loaded with old stock, wintering over, and with heavy contracts for new supplies, and some, determined to make sales anyhow, soon began to cut in on prices, which, as soon as the others found out, they immediately began to cut in still lower, till the market became thoroughly demoralized. Buyers became alarmed, and stood back to see where it was all going to end, and, generally speaking, have been standing back ever since. The interval has developed one of the most disastrous seasons ever witnessed in our Lumber trade with the United Kingdom; there is no doubt but that the excessive production rendered such a crisis possible, but we cannot refrain from saying our conviction that, had sellers shown more back-bone and good judgment, the crisis, if not altogether averted, would have been immensely mitigated. We sincerely trust, and we think we may safely say, bottom has been reached, and the worst over. It is true that the season's imports to the United Kingdom have been large, indeed excessive, but, on the other hand, stimulated by low prices, the consumption has been on an enormous scale, and still continues. In this country, and we hear the same holds good of the North of Europe, manufacturers are reducing their get out of logs, all of which will no doubt tend to adjust matters, and place prices on a fair and equitable basis, both to manufacturer, dealer, and consumer, for it must be remarked that current prices in some of the English markets would not, for many lines, net the Canadian manufacturer two-thirds of first cost.

It must be borne in mind that every year increases the cost of making timber and logs; operators have to go higher up the rivers and streams and farther back from the banks, causing longer hauling, apart from the yearly large increase in the value of lumber in the tree. This latter cause is destined to play a large part in the regulating of prices in the future, owing to the gigantic system of forest denudation going on, and which it would seem impossible to prevent as the wants of the world, we presume, must be met, until we get to the last tree, though we hardly think this will be reached in our day.

We beg reference to our comparative statements of stocks on hand, exports, prices of deals, and rates of freights during last season; the two latter show the most extraordinary variations ever before witnessed. As will be seen, shipments to River Plate are less than one-half of last year's business; notwithstanding this, however, the market there is in anything but a satisfactory state.

METALS.—COPPER.—At the opening of last year there was a strong market, and a good demand for Lake. Prices at a later period became irregular, until, as the result of a large speculation, and the failure of an attempted corner, they declined, with frequent fluctuations, from 25 cents in January to 19 cents in July. Thenceforward there was improvement, with increasing activity, until, at the close of the year, sales were made at 23¼@24½ cents. The manufactures of copper were affected by the movements of the market, and present prices are 4@5 cents lower than for the corresponding period last year. Current quotations are, for Lake, 23½@23½ cents, and manufactured as follows: New sheathing, 28 cents; and bolts and braziers, 30; bronze and yellow metal sheathing, 21@22; and Y. M. bolts, 28, net cash.

IRON.—Trade abroad has been generally dull, and the feeling has been more than reflected on this market. Prices for home manufactures have been low, and trade has become depressed to a very low degree. Light stocks of Scotch pig have kept a show of steadiness, for that branch of the market, but otherwise the demand has been limited, and purchases have chiefly been made for exact requirements. American has suffered severely in the loss of trade, and the low prices enforced by the stagnation in business. We learn from contemporaneous review that "two-thirds of the blast furnaces in the country are out of blast," and that with "a large proportion of the rail mills without employment, the entire puddling plant of the largest producing center of the country idle, through a wages dispute; labor everywhere dissatisfied and uncomfortable" there is "little or no margin of profit in any branch of the iron business." The prices of American pig have declined since 1872, or within two years, 50 per cent., a fact sufficiently forcible in its statement to preclude further illustration of the altered condition of trade. The week shows no particular change in the movement of Scotch or American pig. There has been more inquiry for manufactured from store, with firmer feeling. Rails are quiet, with some inquiry, and scrap is without movement.

The following is a statement of the import of iron into New York, from Jan. 1 to Dec. 31, 1874:

	Bar.	Pig.	Sheet, &c.
From Foreign Ports	tons. 3,504	tons. 60,382	bdls. 53,498
Coastwise	154	519	4,393
Total	tons. 3,658	tons. 60,901	bdls. 57,891
Same time, 1873	11.895	58,153	170,101

LEAD.—The domestic product has been increasing, while the market for manufactured has receded to the limits imposed by the falling off in building operations, and such other enterprises as sustained the demand. Notwithstanding this, the prices of pig, while fluctuating at times, are now 6¾ cents for domestic, against 6 cents, a year ago, Foreign quoting about 10 cents higher than before. The present prices of manufactured are ½@1¼ cent. lower than last year. The market, of late, has not been active, small sales of domestic pig have been made, but Foreign is without business. Bar, sheet, and pipe are sold at 8¾ cents, less the customary discount to the trade.

The following is a statement of the import of lead into New York, from Jan. 1 to Dec. 31, 1874:

From Foreign Ports	pigs. 237,725
Coastwise Ports	148,442
Total	pigs. 398,167
Same time, 1873	332,153

TIN.—The market has been irregular throughout the year, pig becoming depressed, and plates falling off in business, with occasional active movement. The prices of pig have declined from 28 cents for straits, 26¼ for L. & F., 27 for refined English, and 31¼ cents for Banca, all gold, to 22½, 21¾, 22, and 26 cents, respectively. At present, the market is quiet, but firm, at the latter quotations. Plates are steady, at unchanged prices, and we append the following statement

Comparative prices are:—

NAILS.—The weak feeling in iron, which has extended into the various branches of its manufacture, has not avoided this market, and cut have gradually declined to present quotations. The prices of 10d to 60d, on Jan. 1st, 1874, were $4.15@4.25, present quotations are as follows: 10d. to 60d. common fence and sheathing, ₱ keg, $3.40@3.50; 8d. and 9d. common do. ₱ keg, $3.85; 6d. and 7d. common, ₱ keg, $4.10; 4d. and 5d. common do. ₱ keg, $4.40; 3d. and 4d. light, ₱ keg, $5.10; 3d. fine, ₱ keg, $5.85; 2d. ₱ keg, $6.60. PAINTS — Have been in generally fair demand throughout the year, and particularly so when almost every other market was dull and drooping. Prices were well sustained, and advances occurred in certain lines of goods, and a strong feeling pervaded the market. Our latest reports add point to this statement, as importers say that there is more trade than usual at this season of the year. The jobbing trade is quiet, but there is a better call for domestic manufactures. Venetian red continues in fair demand. White lead is jobbing at previous prices. Sales of American quicksilver vermilion, in bags, have occurred at $1.83, gold. Paris white has been selling at $1.85, gold, for crown.

PITCH—Has had a dull year, with occasional movement, now quoting at $2.25@2.37½ per bbl. for city, f. o. b. The price on Jan. 1st, 1874, was $3 per bbl.

SLATE—We have had but one series of quotations during the year, which are as yet unchanged. Prices have varied at times to meet the demands of customers, but such concessions as have been made were as required, and offered no standard for comparison or change in quotations.

STONE.—There is no change in quotations, as new price lists for the year will not be issued until February or March. There has been less business doing, although trade in blue stone has been fair, because of

various public improvements, which, however limited, have sustained the demand. Building stone has been in limited request, sharing in the general dullness to a greater extent than many other classes of material.

SPIRITS TURPENTINE.—The course of the market for 1874 has been downward, prices declining to the lowest point known for many years, and below ante-war figures. Recovery ensued and we now quote as follows: Merchantable order, 35½@36 cents; shipping order, 36@36¼ cents; and from store 36½@37 cents per gallon. The opening prices of last year were 41½@42½ cents.

TAR—Has been dull and neglected throughout, and now sells only in small lots at our quotations. Early prices of 1874 were $2.75 for Washington and Newbern, and $2.87½ for Wilmington. We now quote Newbern and Washington $2.12½@2.25, and Wilmington $2.25@2.50 per bbl.

A GOOD INVESTMENT

EVERY PRUDENT MAN, CAREFUL OF THE

health and comfort of his family, should see to it that his drinking water is conveyed through TIN-LINED LEAD PIPE, which is a perfect safeguard against lead poison. Tin-lined Lead Pipe is strong, durable, flexible, and easy soldered. It is a great benefit to the community, and enhances the real value of every house in which it is introduced. It is cheaper than Lead Pipe, when strength and durability are considered. Sold by the COLWELL LEAD CO., 213 Centre St., New York. Price, 16½ cts. a pound for all sizes. Descriptive pamphlets sent by mail free. Also, manufacturers of Lead Pipe, Sheet Lead, Block Tin Pipe, Bar Tin, Pig Tin, Bar Lead, Pig Lead, Solder, &c. Orders filled at sight.

TRADES' SAVINGS BANK,

275 West Twenty-third St., bet. 7th and 8th Avs.

USUAL DIVIDEND DECLARED OF

SEVEN (7) PER CENT.

Rapid economy of management, utmost caution as to investment, best possible interest dividends to depositors, are the special features which have caused over 60 per cent. increase in this bank's deposits within a half year. Interest from date of deposit, thus saving accounts open or transferred in part to this bank from loss of interest. Deposits before January 21 draw interest from January 1.

MORTGAGES.

REAL ESTATE.

NEW YORK.

NOTE.—The arrangement of this list is as follows: The first name is that of the mortgagor, the next that of the mortgagee. The description of the property then follows, then the date of the mortgage, the time for which it was given, and the amount. The general dates used as headings are the dates when the mortgage was handed into the Register's office to be recorded.

Wherever the letters "P. M." occur, preceded by the name of a street in these lists of mortgages, they mean that it is a Purchase Money Mortgage, and for fuller particulars see the list of transfers under the corresponding date.

Hugo Peipers, being duly sworn, says: That he is one of the general partners named in the above certificate, and that the sums specified in the said certificate to have been contributed by each of the special partners to the common stock have been actually, and in good faith, paid in cash.

HUGO PEIPERS

Sworn to before me this thirtieth day of November, 1874.

JULIUS L. GOLDENBERG,
Commissioner of Deeds,
New York City and Co.

MISCELLANEOUS.

REVIEW OF THE REAL ESTATE MARKET.

There is nothing new to talk about, as there is no change in the market from last week. Real estate matters are at a standstill, practically, and await the regular opening of the spring season before offering any new tests of feeling.

Public sales have been more numerous, yet of an ordinarily formal character, and no private transactions have been reported. There is some sanguine feeling in certain quarters, and a belief that long-deferred improvements are to be consumated, which will again bring west side lots prominently into attention, with active movement. We cannot, as yet, share in this confidence, and prefer facts to fancies before reaching such hopeful concessions. There is no doubt but that there is plenty of money awaiting real estate investment, which will come abundantly into the market, when it becomes plain that prices have reached their lowest point, and are about to strengthen. The inception of improvements will hasten such movement, and be of corresponding benefit to the market. There are, however, other conditions to be fulfilled, of great, if not equal, importance.

The business interests of the country must be fully established in confidence, and with fair returns, to aid in the recovery of real estate. We think that to this we are tending, and it may be that the coming year will produce results better than we have heretofore had reason to expect.

There is one remarkable feature in connection with New York property which has come particularly into notice in reviewing the records for 1874, and it is that about thirty per cent. of the titles taken during the year have been acquired by females. This growing interest in real estate arises from various causes, which are of ready suggestion, and need no further comment.

LOCAL ITEMS.

Mr. David Lenox, Deputy Register under General Sigel, has been appointed to the same position by Genera Jones, the present Register of the City of New York. The appointment is a most excellent one, and will give the greatest satisfaction to the legal fraternity and the public generally.

The Department of Docks asks for proposals for building sheds on new piers 43 and 46, North River.

The Commissioners for opening Eleventh Avenue, give notice their costs, &c., will be taxed by one of the Justices of the Supreme Court, on January 16, at 10:30 A. M.

The Department of Charities and Corrections asks for proposals for Leather, Shoes and Findings, Dry Goods, Hardware, Paints, &c., Groceries, Flour, and Coal.

The Department of Parks asks for proposals for Coal.

Property in the Twenty-third and Twenty-fourth wards in default for payment of Assessments will be sold at public auction, to the lowest bidder, for a term of years, on February 27, at 10 o'clock A. M.

Notice is given that the Books of Annual Record of the Assessments upon the Real and Personal Estate of the City and County of New York, for the year 1875, will be open for inspection and revision, on and after Monday, January 11, 1875, and will remain open until the 30th day of April, 1875, inclusive, for the correction of errors and the equalization of the Assessments of the aforesaid real and personal estate. All persons aggrieved must make application to the Commissioners, during the period above mentioned, in order to obtain the relief provided by law.

MARKETS.

It is too early in the year to found any opinion as to the future of trade. Nothing is doing in the markets, and there is no prospect of movement until the severity of winter is relaxed sufficiently to permit the resumption of operations. The probabilities of next season are the subject of conjecture, and much inquiry is made as to the outlook for general trade. The dullness of the past week puts a limit to review, and our report will be found very brief and formal in character. The only change of importance to note is in the quotation for laths, which have advanced under a forced movement, unsustained by any natural exigencies of the market. We have carefully gone over the ground covered in our last review, seeking conflicting authority upon the condition of trade, and revising the details of our annual statement, but find only confirmation of our reports. We may, therefore, assume that business is settling into a safe and steady form of trade, which, if not productive of the best results at the outset, will become the foundation of success in the future.

The following is our review of the markets in detail:

BRICK.—There has been no movement during the week, and we have not heard of any sales, so that quotations are nominally the same, with every prospect of continuance, unless some unexpected changes of weather permit the resumption of building operations. Such chances, however, are too doubtful to take into account, and our reports for some weeks to come are likely to be of a formal and uninteresting character. In our statement last week, we omitted mention of the number of North River brick remaining with the manufacturers unsold and ready for delivery on the resumption of navigation. These are estimated at 125,000,000 to 150,000,000, about fifty millions of which are at Haverstraw Bay. Our former quotations, with the exception of a change in the price of Baltimore fronts, delivered, are retained as follows: Pale, ℔ M, $3 00@3.50; Jersey, $6.25@6.50; Up river, $6.50@7.25; Haverstraw Bay, $7.25@8.00; Fronts, Croton—brown, $12@13; dark, $13@14; red, $14@15; Philadelphia, $28@32; Baltimore, $50@56. Yard prices, delivery included, $2@3 higher.

CEMENT.—The market is quiet but steady at old prices, Rosendale quoting at $1.30 cash, and Portland at $4.25@4.50 per bbl. We note sales of 300 bbls. Portland at $4.25, ex vessel.

FIRE BRICK.—There have been sales of 3,000 Scotch at $50, from yard. Other grades are quiet at our quotations.

GLASS.—There is a limited demand for French window, which, with a limited supply, is steady at 60 and 5 @60 and 10 per cent. discount. English sheet and polished plate are quiet, with discounts nominally as before.

HAIR—Is without movement, and the market is uncertain. We still quote cattle at 12@25, and goat at 14 @28 cents per bushel.

HARDWARE.—The demand for foreign and domestic goods is very limited, but prices meet with little variation, and are quite steady. There are, as yet, no important changes in price lists, although some effort is making to secure concessions.

LATH.—Prices are advanced to $2.25 per M, and this for cargoes as ordered. No arrivals are expected other than these, and no orders are taken except at the figures mentioned. Canada lath have been sold at $3 per M. We quote Eastern at $2.25 per M.

LIME.—Movement is limited to small sales of State at $1, Rockland selling at the same price. Demand is very restricted, but our quotations are retained, as follows: common, $1; and finishing $1.25@1.50 per bbl.

LUMBER.—There is some movement in the market, with fair indications of improving business. The yards have had a better trade since the first of the year, as the call from manufacturers who are preparing for spring trade would naturally excite. Quotations are generally retained. Yellow pine is steady at former prices, viz., $20@23 for random, and $22@25 for ordered cargoes; flooring, green, $23@25—dry, $25@28. Spruce is still limited in movement, quoting as before, at $17 @20. Hardwoods are in some request at fair figures.

Pennsylvania Notes.

From the Williamsport *Gazette and Bulletin*, Jan. 7:—

At this season of the year, when manufacturers and dealers are taking an account of stock, and settling up their business, the operations in lumber are unusually light. There are few, if any, inquiries for lumber just now, and the trade is virtually flat—more depressed, perhaps, than it has been for years. Owing to the condition of affairs, manufacturers expect to do but little before March, when it is hoped there will be a fair demand for lumber, and a revival of business generally. While the amount forwarded to market during the year falls but a trifle short of the shipments of the preceding year, that the stock on hand is less than it has been for many years.

Logs sent below, 53,700	10,740,000	272,546,289
Stock on hand Jan. 1, 1875		160,516,569

The difference between the amount shipped and rafted out of the boom in 1874, is 56,071,907, which, with the stock on hand at the commencement of last year, and deductions for the amount destroyed by fire, and logs rafted down the canal to Muncy, Watsontown, Northumberland, and Selinsgrove, leaves the stock on hand January 1, 1875, 160,062,858 feet, as expressed in the table above. These figures have been obtained from the books of the railroad companies, the canal, and the boom company, and are sufficiently accurate for all ordinary purposes.

With reference to the amount on hand, the two years compare as follows:

Stock on hand Jan. 1, 1874	226,942,276
Stock on hand Jan. 1, 1875	160,516,569
Decrease in one year	66,425,707

The boom is empty, and very few logs remain in the pools, consequently if the manufacturers adhere to their resolution last fall to cut a light stock this winter, there is nothing to prevent them from reducing the amount on hand to a small figure during the present year.

While the canal shows an increase of 6,546,628 feet over the operations of 1873, the Catawissa Road shows a decline of 14,323,052 feet, and the Philadelphia and Erie an increase of 1,120,224 feet.

The enormous total of a fraction over one and a quarter billions of feet of lumber was shipped from this city alone within a period of six years. This lumber would average $18 per 1,000 feet, which would yield the handsome sum of over twenty millions of dollars.

The amount of lumber shipped from all points, from Williamsport to Renovo, and from the Lycoming Creek region, as far up as Troy, is as follows:

	Feet.
From Williamsport	236,806,289
Lock Haven	35,000,000
Renovo, and other points	9,331,880
Lycoming Creek region	12,345,360
Pine Creek, Jersey Shore, and Larry's Creek	4,839,455
Total	298,322,984

METALS.—COPPER.—Manufactured is steady at old prices, and ingot is dull, prices favoring buyers. Sales have been made at 23 cents, and on private terms.

IRON.—Scotch pig is dull, purchases only occurring as required. American pig seems to be in better feeling, the first gleam of hope the market has had for some time. Rail and scraps are quiet, with firmer feeling, and there is a disposition to stronger prices for manufactured.

LEAD.—Pig is dull at $6.12½ for domestic, and small lots from store at $6.20@6.35, gold. Manufactured is steady at former quotations, less the usual discount to the trade.

TIN.—Pig is held at 22½ cents for straits, and 21¾ for L. and F. Plates are quiet but firm, a few sales occurring within the range of our quotations.

ZINC.—Sheet is steady at 9¼@9½, gold, net.

NAILS.—Cut are quiet at our latest figures. We quote: 10d. to 60d. common fence and sheathing, ℔ keg, $3.40@3.50; 8d. and 9d. common do. ℔ keg, $3.85; 6d. and 7d. common, ℔ keg, $4.10; 4d. and 5d. common do. ℔ keg, $4.40; 3d. and 4d. light, ℔ keg, $5.10; 3d. fine, ℔ keg, $5.85; 2d. ℔ keg, $6.60. Cut Spikes, all sizes, $3.85. Floor, Casing, and Box, 75 cents above the same sizes of Common—Finishing, $1 above, and Fine Finishing, $1.25 above.

CLINCH NAILS.

OILS.—Linseed is quoted as before, and is steady from crushers' hands at 77@78 cents per gallon in casks and 79@80 cents in bbls. Boiled and refined, 85@86 cents per gallon.

PAINTS.—Foreign goods are in limited supply, with a fair demand, and prices are generally steady. Paris white is somewhat active at $1.80@2. Venetian red is in good request, with sales of Cookson's at 2¾ cents, currency, and from wharf at $1.95, gold. White lead is firm, and prices abroad have been advanced. There is some inquiry for Paris green, makers asking 30½ cents for strictly pure, in bulk, and 32@33 in cans. American red lead is held firmly at 8½@8¾ cents for city. American vermilion, in bags, has been selling at $1.83, gold.

PITCH.—The market is very dull, city quoting at $2.25@2.37½ per bbl., f. o. b.

SPIRITS TURPENTINE.—The market has been stronger, sales occurring at 36@36½ cents, closing firmer at the latter price. We quote as follows: Merchantable order, 36@36½ cents per gallon; shipping order, 36½@37 cents; and from store 37@37½ cents.

TAR—Is dull, with limited sales, and quotations are as follows: Newbern and Washington, $2.12½@2.25; and Wilmington $2.37½@2.50 per bbl.

USUAL DIVIDEND DECLARED OF

SEVEN (7) PER CENT.

Rapid economy of management, utmost caution as to investment, best possible interest dividends to depositors, are the special features which have caused over 60 per cent. increase in this bank's deposits within a half year. Interest from date of deposit, thus saving accounts open or transferred in part to this bank from loss of interest. Deposits before January 21 draw interest from January 1.

EMIGRANT INDUSTRIAL SAVINGS BANK,
51 Chambers St.—NEW YORK, Dec. 31, 1874.

DIVIDEND.—The trustees of this bank have ordered that interest be paid to depositors entitled thereto for the six months ending this date as follows:

1st. On sums of $2,000 and under, at the rate of SIX PER CENT. per annum.

2d. On sums exceeding $2,000—SIX PER CENT. per annum on $2,000, and FIVE PER CENT. per annum on the excess, payable on and after Monday, Jan. 18, 1875. The interest will be placed to the credit of depositors under date of Jan. 1, and will be entitled to interest for the next six months, if not withdrawn.

AN OLD BUSINESS CORNER RECONSTRUCTED.

Anyone at all acquainted with the west side must be astonished with the rapid change which has come over that much-frequented southeast corner of the Eighth Avenue and Twenty-third Street during the past year. It was only last May when demolition soon leveled the corner building to the ground, on which now stand as fine offices as can be found in the city. Mr. Edwin P. Smith, who made an advantageous purchase of that corner and several adjoining buildings a few years since, deserves great credit for the taste and enterprise with which he has improved that part of Twenty-third Street. One of these buildings adjoining the corner has been erected for the especial use of the Messrs. Denham & Co., whose card always stands prominently in the columns of the REAL ESTATE RECORD. This firm has been established since 1845, and we hazard nothing in saying that it will be difficult to find uptown a firm which has had such a varied experience in the management of estates as this firm of Denham & Co. Their business, which has grown to large proportions, has been conducted, since the death of Mr. Denham, under the same old name, Messrs. Mercer, Jayne, and Walley having, by their industry and integrity, made the name of Denham & Co. popular, not only among the landlords, but also among the tenants of the west side. We congratulate them heartily upon their occupancy of the new building, wither they moved on the first business day of the new year, and where their offices, fitted up in neat and tasteful style, are now permanently located. The front room, being the general office for the use of the clerks, is neatly furnished with all the conveniences belonging to a well-appointed real estate and insurance office, and the adjoining rooms, fitted up in quite elegant style and handsomely carpeted, with closets attached, are the private offices for the members of the firm. The upper part of the building has been constructed for the use of private families, who desire to live comfortably without being compelled to pay enormously for it. They are, in fact, "flats" in the very best adaptation of that term, and the view one has from the upper apartments, both along the avenue as well as down Twenty-third Street, is, perhaps, the reason why the greater part of the building has already been rented to several tenants, who enjoy the privelege of a separate entrance without disturbing the offices below. Altogether, that Eighth Avenue corner will prove a more profitable real estate investment than the unfortunate corner on the opposite side of the avenue, whence the magnates of Erie have just fled in dire confusion, as if haunted by the ghost of Fisk and the dreadful nightmares of the late Mr. Pike, who dreamt that in that pile of marble "there was millions in it."

MORTGAGES.

REAL ESTATE.

NEW YORK.

NOTE.—The arrangement of this list is as follows: The first name is that of the mortgagor, the next that of the mortgagee. The description of the property then follows, then the date of the mortgage, the time for which it was given, and the amount. The general dates used as headings are the dates when the mortgage was handed into the Register's office to be recorded.

Wherever the letters "P. M." occur, preceded by the name of a street in these lists of mortgages, they mean that it is a Purchase Money Mortgage, and for fuller particulars see the list of transfers under the corresponding date.

MISCELLANEOUS.

REVIEW OF THE REAL ESTATE MARKET.

The week has been quite barren of incident, the principal sale at the Exchange being that of premises No. 37 Chambers Street, extending through to Reade Street, comprising a five-story brick, with marble front, building, covering a plot 25x150 feet. The price paid was $100,000. The other public sales were of an unimportant nature, and afforded no indication of the temper of the market. We have had only one private sale reported, and that by V. K. Stevenson, Jr., of a three-story brown stone front house, with lot 20x75, No. 366 Lexington Avenue, for $19,500.

The market generally is quiet, with unchanged conditions. Some inquiry is apparent, but offers are limited, and the disposition to wait for future developments is quite extended. Prices are accordingly nominal, owners making few, if any, concessions, and buyers figuring closely, with a view to bargains.

MARKETS.

General business is very quiet, and naturally our special markets share a large proportion of the dullness.

There is nothing discouraging, as yet, to be gathered from the restricted conditions of commerce. It is winter, and the severity of the weather is enough to send trade, as well as the mercury, down to zero. We learn, too, that settlements of the past year are not yet perfected, and that balance sheets and accounts of stock are preparing, which of themselves prevent effort to push trade and operate generally toward quiet trade. In our own markets there is hopefulness, predicated upon the belief that business has been as slack as it well can be, short of absolute suspension, and that the future, while not full of large profits or high prices, is likely to open up a steady flow of business which will yield sure and constant returns. Speculation is likely to be limited, and fewer chances will probably be taken than heretofore. Credits are more carefully scrutinized, and for a while, at least, mercantile transactions will be founded on safer principles than obtained during the period of nervous activity, returning to old-fashioned ways of business that cannot be entirely discarded, and which commend themselves to practice when excitements have passed away.

Appended are the reports of the markets in detail:

BRICK.—There has not been any business done in brick during the past week so far as we have been able to discover, and prices remain unchanged and to a certain extent nominal, dealers quoting at our figures, without sales. We quote, as heretofore, Pale, ⅌ M, $3 @3 50; Jersey, $6.25@6.50; Up river, $6.50@7.25; Haverstraw Bay, $7.25@8.00; Fronts, Croton—brown, $12@13; dark, $13@14; red, $14@15; Philadelphia, $28@32; Baltimore, $50@56. Yard prices, delivery included, $2@3 higher.

CEMENT.—The market is quiet, Rosendale selling to a limited extent, but firmly at $1.30 per bbl., cash. Roman and Portland are held at $4.25@4.50 per bbl.

FIRE BRICK.—There is no change to record in prices which are steady, without reports of sales, at old figures.

GLASS.—French window is in limited request, but with light stocks; discounts are firmly sustained at 60 and 5 @ 60 and 10 per cent. English sheet and polished plate are dull at unchanged prices.

HAIR.—There is really no market, and activity cannot be expected to ensue until building operations are resumed and the stocks in dealers' hands become depleted enough to compel a demand. Our quotations, wide in their range, are unchanged, and will suffice to cover any present or prospective movement in the market.

HARDWARE.—There is considerable delay in the

issue of new price lists and discount sheets, manufacturers seemingly awaiting the probabilities of trade before making any change in prices. It is understood that few important changes will be made until near spring. The demand for foreign has strengthened of late principally on western orders, and shipments have been made in anticipation of increased freights, which have but just gone into operation. The manufacturers of tinware have advanced the prices of common stamped ware from 10 per cent. to 5 per cent. discount. The Bemis & Call Hardware and Tool Company quote compasses and dividers 35 and 10, before 35; and saw sets 20, before 20 and 10 ℔ cent. discount. The American Screw Company has revised their list for patent gimlet pointed coach screws—discount 40 ℔ cent.—and reduced the list on machine screws and taps—discount to the trade on flat-head, iron screws, 30 ℔ cent.; round head, do., 25; fillister. 20; brass flat-head, 20; round-head, do., 15; fillister, 10; and taps, 20 ℔ cent.

LATH.—Most recent sales have been at $2.25 per M for orders, although delivery has been made of several lots at $2, said to have been purchased before the advance. We have reports of a small quantity on the way offered at $2.35, but no sales are reported at that figure. The market continues strong and with advancing tendencies, as stocks here are not large, and arrivals are restricted.

LIME.—There have been small sales of State from agents' hands at $1 per bbl., Rockland bringing the same price. The market is not very active, the demand coming only from yards which it is found necessary to further stock up. We quote common at $1 and finishing at $1.25@1.50 per bbl. Yard prices 25 cents per bbl. additional.

LUMBER.—There is no special activity in the market, although there is a fair degree of inquiry and some negotiations, while some large orders are offering for estimate. Several cargoes have recently been sold for speculative account, but we have no reports of transactions that indicate any decided movement for the better. White pine for South America from New York is selling at $20@23, and for the West Indies at $19@21. Yellow pine keeps within the range of our later quotations, and is quoted from Georgia ports for South America and the West Indies at $14@16. Spruce is still quoted at $17@20. Hardwoods are not active, but are held quite firmly at our quotations from yard. A small amount of trade is doing at the yards, better in some localities than in others; but views of business are as conflicting as the nature of dealers and their class of customers can make them. Stocks are not large but seem ample for all present purposes.

General Western Notes.

We take the following review of lumbering operations in the upper Mississippi Valley for 1874 from Berthold & Jennings' (St. Louis, Mo.) Annual Circular:

LUMBERING IN THE UPPER MISSISSIPPI VALLEY.

UPPER MISSISSIPPI RIVER.—The amount of logs cut and banked during the winter of 1873-4 was 170,000,000 feet, and there were 30,000,000 feet of old logs on hand. There were 185,500,000 feet scaled at Minneapolis. The manufacture was 191,355,679 feet lumber, 197,757,000 shingles, and 36,907,000 lath. There are now at Minneapolis in private booms 6,000,000 feet logs, and altogether about 10,000,000 feet on hand. The drives averaged good.

ST. CROIX.—The product of logs on this stream and tributaries was about 180,000,000 feet last winter. Amount of logs that passed through Stillwater boom the past season was 167,170,000 feet. There were 85,774,149 feet lumber manufactured by mills on the St. Croix; 41,412,000 shingles, and 24,110,345 lath. There are about 12,000,000 feet logs above boom. Drives were clean.

CHIPPEWA.—The amount of logs cut and banked during the winter 1873-74 foots up in the neighborhood of 400,000,000 feet. There were 130,000,000 feet logs run run through Beef Slough boom. There were on hand last spring of old logs in the entire river 120,000,000 feet. The amount of lumber manufactured was about 300,000,000 feet.

BLACK RIVER.—120,000,000 feet logs were cut and banked during the winter 1873-74 on this stream. There were 55,000,000 feet lumber manufactured at La Crosse, at which place there are 18,000,000 feet in pile. 145,000,000 feet logs were run out to points below. There are 200,000,000 feet of logs held back which are not wholly available, as many logs are always back on overflowed banks.

WISCONSIN RIVER.—There were cut and banked on this stream 90,000,000 feet logs last winter, and there were 50,000,000 feet of logs on hand. The amount of lumber manufactured was about 119,000,000 feet. There are on hand about 35,000,000 feet of logs, and 57,000,000 feet lumber.

The cut of the preceding season, according to our statement, exceeds the present showing over 70,000,000 feet, and the amount of old logs on hand was 15,000,000 feet less January 1st, 1874, that January 1st, 1873. From which it will be seen the decrease in the stock of logs last spring was 85,000,000 feet. This must not be confounded with the avilable supply of lumber of which we speak under our river statements. Our reports from the Chippewa are not as reliable as we desire, but we have approximated from information which we believe to be correct. The lumber trade was not alone in respect to the depression existing during the year, and to the effect of the comparative dullness in other industries is attributable in a large degree the poor returns from the business. The quantity of lumber sold does not make an unfavorable comparison with the previous year, and to the low prices ruling may be ascribed the activity in building operations. As a matter of course, the overstock and stagnation during the winter before produced the low rates which in turn stimulated building interests. Could prices have been kept at last year's figures, the business of 1874 would be in the main satisfactory.

ST. LOUIS MARKET.

St. Louis propably offers a fair criterion of the different markets, and her dealers have no doubt fared as well as the majority. The trade of the city extending through 1874 has, as a general proposition, proved otherwise than remunerative, and only a very few can show a profit on their balance sheet. We think, however, from their course and general condition at this time that they were well prepared for extreme lethargy and low prices. The shipments show a deficit of 9,868,000 feet.

WHITE PINE.—Quotations for this article throughout the year were entirely nominal, and depended on the chances of the market and condition of the holder. Receipts fell below those of 1873, 60,758,000 feet. The prices opened at $13 and $14 for Minneapolis and Chippewa, and $16 to $23 for good to choice Wisconsin, and closed at $11 to $14 for former and for Wisconsin River at $10.50 and $12 for common, and $16, $18, $20, and $21 for choice. There was no activity at any time, and no speculative feeling existed. Dealers only bought to replace stocks. Included in the stock on hand are 20,145,000 feet held for manufacturers' account.

YELLOW PINE.—The receipts for 1874 exceed those of 1873, 979,000 feet, a matter of little moment. This is caused by the receipt of 1,500,000 feet of piles. Dimension and bill stuff fall below the amount received in in 1873 about 4,500,000 feet, and flooring lumber is in excess 5,500,000 feet. The low prices and excessive freights prevent the shipping of dimension-stuff at a profit, and to this may be attributed the decrease in receipts, in 1874. Flooring, boards and strips, was the only article at prices justifying in any degree its manufacture.

Poplar and walnut were only in fair demand, and prices generally unsatisfactory.

Hard woods proved dull, and prices were low.

It is impossible, or at least unwise, to make prognostications in regard to next season's trade, taking the past as a basis, and we therefore confine ourselves to a statement of the facts and figures. A review of the past year does not possess any attractive features and presents little of a gratifying character. The tendency has been in reality for the past few years downward, and we only see the results of the operations carried on by manufacturers. The absence of the usual demand from railroads has been marked and felt, particularly in yellow pine and hard woods. Prices are very low, but are without any visible tendency. The operations in the pineries this winter will be fully equal to last winter's work if the season admits it, and so far the only obstacles in the way of the success of those engaged in logging has been the want of sufficient snow.

Yellow pine in Missouri is fast becoming exhausted, and the supply for next year will not be as large unless prices increase. The mill-men have not the capital to stand a drain for any length of time, and must, from necessity, cease manufacturing.

Michigan and Wisconsin Notes.

From the Saginaw *Courier*, Jan. 13:—

The average quantity of lumber put into the Manistee River this season was 150,000,000 feet; into the Little Manistee, 140,000,000; the amount of logs in booms left over from the season of 1873 was 43,194,891 feet. The lumber cut of the season was 183,430,375 feet, and the amount remaining over in booms is estimated at 34,475,000 feet.

Southern Notes.

From the Florida *Express*, Jan. 9:—

Hewn and sawn timber is still depressed; the upward tendency of United Kingdom and Continental freights will operate against our timber interests, and holders must make up their minds to sell low, if they sell at all. The usual dullness in assorted lumber and cargoes during the holidays continues, and we have few orders, as yet, for the new year. We quote stowage deals, $12.50; and prime, $14@14.50 ℔ M. For South America rates are still the same for standard deals, $18@20.

METALS.—COPPER.—Manufactured is steady at the following quotations: New sheathing 28 cents, and bolts and braziers' 30; bronze and yellow metal sheathing 21@22, and yellow metal bolts 28, net cash. Ingot is dull with sales at 22@22¾ cents for present and 23¼ cents for February delivery.

IRON.—Scotch pig is very dull, and no important transactions are reported. The improved feeling in American pig noted in our last seems to be gaining ground, although without any appreciable results in the way of demand. Prices are firmer, and there is an indisposition on the part of the companies to make future contracts, except on the basis of prices at the time of delivery. Rails have been quiet, sales of 1,000 tons American reported at $50 at the mills. Scrap has been selling at $28@33 for wrought, and manufactured is quiet but rather firm at our quotations.

LEAD.—Pig is very dull, foreign being without business, but firm at $6.87½@6.90, gold. Domestic has been in some request at weaker prices, sales occurring at $6 @6.12½. Bar, pipe, and sheet are selling at 8¾ cents less 10 per cent. to the trade.

TIN.—The demand for pig is of a small jobbing nature. We quote straits at 22½ and L. & F. at 21¾ cents, gold. Plates are firmly held and prices have stronger tendencies, inasmuch as stocks have become, to a certain extent, limited, and the holders are few.

ZINC.—Sheet is steady at 9¼@9½ cents, gold.

NAILS.—Cut are unchanged, and we quote as before. 10d. to 60d. common fence and sheathing, ℔ keg, $3.40@3.50; 8d. and 9d. common do. ℔ keg, $3.35; 6d. and 7d. common, ℔ keg, $4.10; 4d. and 5d. common do. ℔ keg, $4.40; 3d. and 4d. light, ℔ keg, $5.10; 3d. fine, ℔ keg, $5.85; 2d. ℔ keg, $6.60. Cut Spikes, all sizes, $3.85. Floor, Casing, and Box, 75 cents above the same sizes of Common—Finishing, $1 above, and Fine Finishing, $1.25 above.

CLINCH NAILS.

1¼ to 1½ in	2 & 2¼ in.	2½ & 2¾ in.	3 in. and longer.
$6@6.25.	$5.75.	$5.50	$5.25 ℔ keg.

OILS.—Linseed is quiet but steady at 77@78 cents from crushers' hands for casks, and 79@80 cents in bbls. Boiled and refined, 85@86 cents per gallon.

PAINTS.—The market has become very quiet, and the season precludes activity. There has been some demand for China clay, with sales of English at $18@21, gold, and of extra do. at $29, currency. Southern is quoted at $14@15, currency. White lead (B. B. ground) has been selling at 10¾ cents, and for future delivery at 10¾ cents, all gold. Sales American quicksilver Vermilion in bags at $1.83, gold. Cookson's Venetian Red has sold in lots at 2¾ cents, currency.

PITCH.—There have been sales at $2.25@2.37½ per bbl, f. o. b., the market closing dull for city at that quotation.

SPIRITS TURPENTINE.—The market has strengthened and prices have advanced until holders are asking 38 cents. The demand has not been remarkable, but sales have been made at 37@38¼ cents, the latter price bidding at time of our report. We quote at 37½@38½ cents per gallon.

TAR.—The market is dull and quotations are as follows: Newbern and Washington, $2.25@2.30, and Wilmington, $2.37½ per bbl.

A GOOD INVESTMENT

EVERY PRUDENT MAN, CAREFUL OF THE health and comfort of his family, should see to it that his drinking water is conveyed through TIN-LINED LEAD PIPE, which is a perfect safeguard against lead poison. Tin-lined Lead Pipe is strong, durable, flexible, and easy soldered. It is a great benefit to the community, and enhances the real value of every house in which it is introduced. It is cheaper than Lead Pipe, when strength and durability are considered. Sold by the COLWELL LEAD CO., 213 Centre St., New York. Price, 16½ cts. a pound for all sizes. Descriptive pamphlets sent by mail free. Also, manufacturers of Lead Pipe, Sheet Lead, Block Tin Pipe, Bar Tin, Pig Tin, Bar Lead, Pig Lead, Solder, &c. Orders filled at sight.

THE NEW ILLUMINATING GLASS TILE.

Probably no material used in the construction of buildings has, during the past few years, come into such a general use as the glass tiles used for areas, vaults and sky-lights. In many instances, however, there have been continuous complaints of leakages on one side and of absence of ventilation on the other. By referring to another column it will be noticed that the difficulties attending the use of the old-fashioned tiles have been entirely overcome, and that the new firm, doing business under the style of the Humboldt Iron Works, at 152 Centre Street, have invented, patented, and introduced into the market a new glass tile which obviates the possibility of any complaints as above stated. The tile manufactured by them presents the novel and ingenious feature that the glass is inserted and fastened by means of a peculiar clutch or lock—and thus locked the tile becomes thoroughly watertight, it being impossible for the water to get through. Again, in summer time, when the atmospher may be close, or even suffocating, in the lower basement or front area of a building, the glass of the tile can be easily removed in the same manner as it can be replaced at pleasure, should any repairs become necessary, which is not very likely, as the tile is so constructed as to counteract the breaking of the glass by expansion or contraction of the plate. Another important feature is that the lens are made on the most scientific principles, collecting more light and diffusing it with greater efficiency than any other lens heretofore in use. The Humboldt Iron Works deserve great credit for having placed before the cummunity an article which so thoroughly improves the material so generally used now in the construction of store fronts and stables, and which must ultimately revolutionize that entire branch of the building trade. We would advise all builders, ironmen, and property owners to visit the Centre Street establishment above alluded to, where they will find, in addition, quite a number of articles that must attract their attention in the course of business operations.

MORTGAGES.

REAL ESTATE.

NEW YORK.

NOTE.—The arrangement of this list is as follows: The first name is that of the mortgagor, the next that of the mortgagee. The description of the property then follows, then the date of the mortgage, the time for which it was given, and the amount. The general dates used as headings are the dates when the mortgage was handed into the Register's office to be recorded.

Wherever the letters "P. M." occur, preceded by the name of a street in these lists of mortgages, they mean that it is a Purchase Money Mortgage, and for fuller particulars see the list of transfers under the corresponding date.

MISCELLANEOUS.

REVIEW OF THE REAL ESTATE MARKET.

The week has been quiet and uneventful. Sales, public and private, have been few, and the market has been barren of incident. No one is going to buy, just now, and few will think of negotiation, pending the uncertainties of the coming season. Owners are inclined to hold more strongly, and there are no buyers willing, as yet, to concede that the time for bargains is past. Under these conditions the market is dull, and prices become nominal. The near approach of the earlier season of the year, for real estate movement, adds to this feeling, as both the bull and bear elements in the market hope to realize their opinions.

Two matters of moment to real estate are again claiming attention. The most important is rapid transit, and the other the early prosecution of various improvements, chief among which are the completion of the Morningside and Riverside parks, and the contiguous boulevards. Nothing that we can say would argue more forcibly in favor of the first than the daily necessity which impresses itself upon our citizens.

The Mayor, in a message communicated to the Common Council, on Thursday, took occasion to remind that body that the solution of the question would be entrusted to it under some general enactment, framed under the provisions of the amended Constitution, and he suggested that early action should be taken to consider and devise measures to effect intercommunication between the extremes of the city limits. A meeting of citizens has also been held to further such a project. This movement, so far, at least, does not seem to be committed to any particular plan, but we fear that, as many diverse interests are concerned, in chartered projects and specific routes, it will become extremely difficult to harmonize any body of men upon the subject, and that local legislation will be so obstructed by jarring and conflicting opinions and prejudices, as to fail in giving the relief sought. The fatality that has pursued this important question is, doubtless, mainly due to the opposition engendered between rival projectors. One of the leading movers for rapid transit long since informed us that capital could be abundantly provided to successfully complete a rapid transit road, but for warring interests and the prospect of interminable lawsuits. He, personally, was willing to waive some of his opinions, and abandon certain theories, but did not wish, after considerable expenditure of time and money, to be left out of all combinations for securing the desired result. The same feeling, doubtless, extends to others. Any movement hereafter to be initiated, must, therefore, be upon a ground of concession, keeping steadily in view the prominent purpose of benefiting the municipality and community. Rapid transit we must have, even if every interest heretofore concerned is ignored, and the capital invested is sacrificed.

The completion of the west side avenues and the new parks is now of stirring importance. We have believed that many of these improvements were started in advance of their time, and without careful regard to the requirements of population. They have, however, been carried to that point where delay is fatal, and burdens have been laid for which common justice only requires compensation.

The increased taxable value of property affected by completing these works will, we think, repay the outlay, and, if no other reason existed, the disorganized and incomplete condition of our city, on the west side, demands some remedy. The east side also claims attention. Harlem, and its vicinity, seems destined to become a local point. The geographical centre of the city lies at the upper end of the Central Park, and, if easy intercommunication is soon to be attained, or prospective improvements on the East and Harlem rivers become complete, this locality will equal, if it does not exceed, any other in importance.

LOCAL ITEMS.

The annual meeting of the Mechanics' and Traders' Exchange was held on Tuesday last, when officers for the ensuing year were elected, as follows: President, William Otis Munroe; Vice-president, A. P. Arnold; Treasurer, George E. Myers; Secretary, John E. Green; Trustees, James Webb, T. W. Adams, P. T. O'Brien, A S. Dickinson, Alex. McGuire, J. S. Peck, E. S. Vaughan; Inspectors of Election, A. O. Rowe, John H. Rogers, Patrick H. Power. The reports of the officers for the past year show that the Exchange, notwithstanding all the adversities which have beset the building trades, has prospered, and that there has been no falling off in the receipts from members and subscribers. The receipts were $23,856.84, and the expenditures $6,640.22, leaving $17,215.63 in the treasury, an increase of $1,301.38 upon the amount in hand the preceding year. The following is the Treasurer's report of the fund:

LEGAL DECISIONS AFFECTING REAL ESTATE

The following interesting decision has recently been reported in the latest volume of the Reports of the New York Court of Appeals:

The plaintiff and defendant entered into a contract, under seal, whereby the defendant agreed to sell and convey to the plaintiff certain premises in the City of New York, for the sum of $49,000, of which amount $2,000 were paid upon the execution of the contract. In such contract it was provided that plaintiff should receive the rents of the premises from its date, and that he should receive a full warranty deed, which was to be delivered on a certain day, between the hours of one and two, in the afternoon. The defendant attended, at the time and place specified, with such deed, but plaintiff failed to be there. After the expiration of the time specified the defendant met the plaintiff, and tendered him the deed. The plaintiff refused to receive the deed, upon the ground that the premises were incumbered by leases to various tenants, all of which would terminate on the first of May thereafter, and declared himself ready and willing to complete the purchase if these incumbrances were removed. The defendant told the plaintiff he must accept the deed and complete the purchase or he would put an end to the contract. Plaintiff then brought an action for the specific performance of the contract, or in case specific performance could not be decreed, he asked judgment for the purchase money paid, with expenses and damages.

The Court *held* that plaintiff had the right to show that the rent referred to in the contract was that reserved on the existing leases; that as by the contract plaintiff was entitled to the rent, defendant had no right to put an end to the contract, and thereby terminate the leases, and that the contract was in effect, that plaintiff was to take the title subject to the leases, and their existence furnished no excuse for non-perform-

ance by plaintiff. It was also held that inasmuch as plaintiff had waited more than two months after defendant had notified him of his intention to terminate the contract, before doing anything toward performance, such delay put an end to his right to ask for a specific performance of the contract, and also that he was not entitled to recover the money paid upon the contract, on the ground that the defendant was ready and willing, and tendered full performance on his part, and that plaintiff refused to perform on his part, for which reason the contract was terminated by the defendant.

A contract for the sale of property made upon Sunday is not, for that reason, void. The statute declares that no person shall expose to sale any wares, etc., on Sunday. A private sale of property, not "exposed to sale," is not within its prohibitions.

The owner of a mortgage which was past due, nearly ten years, during which time the interest had not been paid, commenced foreclosure; he agreed, however, to further extend the time upon payment of interest upon the arrears of interest; a statement was made of simple interest upon the mortgage, and of the interest compounded, and for the difference between the two statements a note was given, which, when sued upon, was met with the defence of usury. Held by the Court of Appeals that the defence could not be successfully interposed. A note given in settlement of an account, or a statement of interest, past due, on an obligation, in any form, for compound interest, is not usurious.

MARKETS.

The cry of dull trade and depressed markets is by no means limited to domestic circles. Abroad, matters are very much in the same condition that they are here, and to a certain extent they may be regarded as worse, as indications of reviving confidence and sounder business transactions are not as apparent as here. Revulsion, to a great degree, has been of more recent development in Europe, and improvement will naturally follow later. Labor difficulties in England have attained more prominence, and disaster and depression resulting from them have been greater than with us. Any changes for the better, however, that may occur in home markets, will fail in perfect recovery until improvement sets in on the other side. Commercial interests throughout the world are so closely allied that disaster in one country affects the body of trade in another, and compels humanity, even in a business way, to recognize a universal kinship. General trade continues quiet. The year is young, and the seasons have not so far advanced as to indicate the future of trade, or even to fix its initial point. It is not the time of year to expect activity; and certainly the extreme weather to which we have been subject forbids any movement in our special markets. Whatever activity obtains is due not to action or excitement, but to anticipation, which, as we have explained before, is governed more by probability and necessity than chance or speculation.

We have no specially new features to note, sales of almost every kind of material have suspended or are shrunken to narrow limits — reasonable to expect. Prices generally are steady, and in some cases strong, with advancing tendencies. Our field for review is necessarily circumscribed, and we are compelled to briefer details than we are wont or would choose to make if better opportunity had been afforded us.

Our report is appended:

BRICK.—We hear of no movement of note. Trivial sales have doubtless been made, but the market is dull and unchanged from previous report. Three cargoes of up-river bricks, which came down the river before the suspension of navigation, are still at the docks unsold, and consignees are said to be asking $8 per M for them. We quote the market quiet and steady as heretofore at the following figures: Pale, ℔ M, $3@3.50; Jersey, $6.25@6.50; Up river, $6.50@7.25; Haverstraw Bay, $7.25@8; Fronts, Croton—brown, $12@13; dark, $13@14; red, $14@15; Philadelphia, $28@32: Baltimore, $50@56. Yard prices, delivery included, $2@3 higher.

CEMENT.—Trade seems to have abated, as we have heard of no sales and no change in prices. Rosendale is firm at $1.30, cash, and Portland at $4.25@4.50 per bbl.

FIRE BRICK—Dull and nominally steady at our quotations.

GLASS.—French window is not in active request, although a trifle of trade is doing. Discounts, however, are firmly maintained at 60 and 5 @ 60 and 10 per cent. Other kinds are dull and nominal at old figures.

HAIR.—There is hardly a market, and we do not know of anything reliable as to trade or prices. The business is quite at a stand-still, and nothing can be expected of it until the spring trade infuses some life into the market. We quote as heretofore.

HARDWARE. — Foreign and domestic goods are not in good request, the demand for all kinds being very light. Dealers, however, are hopeful, and look forward to early improvement in trade. A few changes in prices, of interest in this connection, have been made, the most important of which are the following: The Russell & Erwin Manufacturing Company have made reductions in their locks and latches from 50 cents to $7 per dozen. Wrought iron pipe has been selling at 37½ per cent. discount, but an advance is expected.

LATH.—We have been at pains to ascertain exactly how the market stands, but in default of goods offering or reports of sales, we are compelled to abide by old quotations, which we assume to govern the market for cargoes as ordered. We quote at $2.25 per M.

LIME.—Small sales continue, and holders seem indifferent about selling just now. There have been no arrivals of Rockland during the week, the cold weather precluding shipments. We quote, as before, common, $1; finishing, $1.25@1.50 per bbl., and yard prices 25 cents per bbl. higher.

LUMBER.—There is no change in the market, except that a better feeling, which had begun in yellow pine, has been brought to a halt by the reports of renewed disturbances in South America. Several cargoes had been sold, but inquiry has suspended and orders have been withdrawn. Prices of yellow pine continue as before, somewhat steadier, perhaps, but not quotably higher. White pine is firmly held, and as stocks are limited concessions are not easily secured. We quote South American shipping at $21@23, and West Indian at $19@21. Spruce is quiet, but prices are firm, shipments having become limited by reason of the weather. We quote at $17@20. Hard woods are a little more active and prices are fairly sustained. We have seen a report which estimates that the supply of black walnut will be exhausted within ten years at the present rate of demand. It is hard to suppose that there is so limited a quantity in the country; but assuming this statement to be true, we only find another illustration of the necessity which exists for repressing the waste of valuable woods and the imperative reasons which call for new plantations to succeed those which have been ruthlessly wasted. The city yard trade is of modestly fair dimensions, prices ruling about the same as usual, and not calling for any change in our quotations.

Michigan and Wisconsin Notes.

From the Lumbermen's *Gazette*, Jan. 23:—

There is no change to note in the general market, so far as relates to sales and prices. What interest exists at all, is in connection with the logging operations in the woods. The season for banking logs has grown very short, and there has been no very great improvement in the conditions. The operators, however, are working with unwonted energy, and resorting to all possible expedients to eke out the insufficient and dry snow, so as to get the logs they have skidded to the streams. These remarks apply especially to the western districts. In Michigan the present prospect is that the operations will largely exceed those of last year, but fall short of some previous years. But last year the streams were full of old logs, while now they contain a comparatively small amount of such stock.

The large and rapid increase in the number and capacity of the inland mills, which ship by the carload by rail, is beginning to attract the serious attention of the large manufacturers. The effect of the immense number of sales made by these, as well as the hundreds of millions of lumber which they constantly hold on the market, can no longer be ignored. Within a very few years, the principal lumber regions of the West have been pierced by railroads, along which numerous mills spring up in a single season, and cut in the aggregate hundreds of millions during the year. The capacity of the inland mills of Michigan, for instance, is now greater than the whole product of the Saginaw River eight years ago. In a dull season like that of 1874, the competition of these mills, which have almost been built in a day, is unpleasantly felt by the river manufacturers, and must materially change future calculations.

From the Saginaw *Courier*, Jan. 19:—

The operations in square oak timber are conducted on a scale this winter more limited than has been the case for several years. It is estimated that only about 700,000 cubic feet will be put in. The decline is mainly owing to the dulness of the market and the large quantity now on hand at Quebec and other places.

From the *Lumberman's Gazette*, Jan. 16:—

The promise of the winter is for a full lumber market, and consequently sales lag and are only made at satifactory prices and terms. No one can seriously expect a lively market during he coming season; but whether it will be only as bad as last year, or something even worse, cannot be told.

Southern Notes.

From the Florida *Express*, Jan. 16:—

Merchants are in full supply of both hewn and sawn timber. We hear reported sales of hewn on the other side at very low figures, but we suppose it old timber, under the old rule of inspection. The depression in pitch pine has about reached its level, and the tendency must be toward improvement. Assorted lumber and general cargoes are very low, much under the limits of any previous year since the war, and the consequence is the majority of our mills are doing nothing. The requirements of Cuba for pitch pine are large and continuous, and the largest importations are soon absorbed by the consumption. In spite of this, to ship a cargo is simply to throw it away; a combination of dealers control the consignees, and the result is they purchase at their own figures. We qeote stowage deals $12.50, and prime $14@14.50 ℔ M. To South America rates are still the same for standard deals, $18@20.

METALS—COPPER.—Manufactured is steady at former quotations. Ingot has weakened, and sales have been made at 21¾@21¾ cents, the market closing steadier at 21¾@22.

IRON.—The movement in Scotch pig is very limited, and sales are made only in small parcels at our quotations. The upward movement in American pig has been sustained and prices are very firm, but the market is not of a speculative nature and trade is without excitement. Rails are very quiet, and the demand seems bounded by necessities. Scrap is held more strongly, but does gain in movement. Manufactured is unchanged in quotation, with a moderate demand from store.

LEAD.—Foreign pig is neglected and prices are nominal. Domestic, also, is little sought after, and sales have been made at $6@6.06¼, gold. Bar, pipe, and sheet are steady at 8¾ cents, less 10 per cent. to the trade.

TIN.—Pig is inactive, but previous prices are asked, and holders are quite steady in their opinions. There has been a moderate amount of business in plates, prices coming within the range of our quotations.

ZINC.—Sheet is steady at old figures.

NAILS.—There is no change in the market, which is still depressed. We quote cut as follows: 10d. to 60d. common fence and sheathing, ℔ keg, $3.40@3.50; 8d. and 9d. common do. ℔ keg, $3.85; 6d. and 7d. common, ℔ keg, $4.10; 4d. and 5d. common do. ℔ keg, $4.40; 3d. and 4d. light, ℔ keg, $5.10; 3d. fine, ℔ keg, $5.85; 2d. ℔ keg, $6.60. Cut Spikes, all sizes, $3.85. Floor, Casing, and Box, 75 cents above the same sizes of Common—Finishing, $1above, and Fine Finishing, $1.25 above.

CLINCH NAILS.

1¼ to 1½ in	2 & 2¼ in.	2½ & 2¾ in.	3 in. and longer.
$6@6.25.	$5.75.	$5.50	$5.25 ℔ keg.

OILS.—Linseed is quiet but steady at 77 cents from crushers' hands. Boiled and refined 85@86 cents per gallon.

PAINTS.—The market is firm with a moderate demand. Paris white is selling at $1.85, gold, from wharf. White lead (B. B. ground), 10½ cents, gold, and 12 cents currency. Sales of China clay have been made at $21 for English, and for do. to arrive at $20, gold. Venetian Red is active, Crown selling at $1.90, gold, and $2.25, currency. Cookson's on spot and to arrive at 2 cents, gold.

PITCH—Is dull at $2.25@2.37½ per bbl., f. o. b.

SPIRITS TURPENTINE.—The market is firm at 38 cents for merchantable, with little offering. We quote at 38@39 cents per gallon.

TAR—Is very dull and prices are altogether nominal. We quote Newbern and Washington at $2.25@2.30, and Wilmington at $2.37½@2.50 per bbl.

USUAL DIVIDEND DECLARED OF

SEVEN (7) PER CENT.

Rapid economy of management, utmost caution as to investment, best possible interest dividends to depositors, are the special features which have caused over 60 per cent. increase in this bank's deposits within a half year. Interest from date of deposit, thus saving accounts open or transferred in part to this bank from loss of interest. Deposits before January 21 draw interest from January 1.

I. M. FREESE, Sec'y. DEXTER A. HAWKINS, Counsel.
ALEX. M. LESLEY, Pres.

EMIGRANT INDUSTRIAL SAVINGS BANK,
51 Chambers St.—NEW YORK, Dec. 31, 1874.

DIVIDEND.—The trustees of this bank have ordered that interest be paid to depositors entitled thereto for the six months ending this date as follows:

1st. On sums of $2,000 and under, at the rate of SIX PER CENT. per annum.

2d. On sums exceeding $2,000—SIX PER CENT. per annum on $2,000, and FIVE PER CENT. per annum on the excess, payable on and after Monday, Jan. 18, 1875. The interest will be placed to the credit of depositors under date of Jan. 1, and will be entitled to interest for the next six months, if not withdrawn.

HENRY L. HOGUET, President.
DAVID LEDWITH, Comptroller.

LEGAL NOTICES.

THIS IS TO CERTIFY THAT THE UNDERsigned have formed a limited partnership pursuant to the provisions of the Revised Statutes of the State of New York.

That the name or firm under which said partnership is to be conducted is E. OELBERMANN & CO.; that the general nature of the business to be transacted is importing and selling dry goods and other merchandise; that the names of all the general and special partners are as follows: Emil Oelbermann, of the City of New York; Hugo Peipers and Louis F. Dommerich, both of said city, are the general partners; and Christopher Andreae, of Muelheim-on-the-Rhine, in Prussia, and Leopold Schoeller, of Dueren, in the same State, are the special partners; and that the said Christopher Andreae and Leopold Schoeller have, each of them, contributed the sum of Twenty-five Thousand Dollars as capital to the common stock; and that the said partnership is to commence on the first day of December, 1874, and is to terminate on the first day of December, 1879.

Dated this second day of December, one thousand eight hundred and seventy-four.

E. OELBERMANN [L.S.]
H. PEIPERS [L.S.]
L. F. DOMMERICH [L.S.]
CHRISTOPHER ANDREAE [L.S.]
LEOPOLD SCHOELLER [L.S.]

Sealed and delivered in presence of, as to Dommerich and Peipers, JULIUS L. GOLDENBERG; as to Oelbermann and Andreae, EMIL LOHMANN.

State of New York, City and County of New York, ss.:

On the second day of December, 1874, before me personally appeared Louis F. Dommerich and Hugo Peipers, to me known to be the individuals described in and who executed the foregoing certificate, and severally acknowledged that they executed the same.

JULIUS L. GOLDENBERG,
Commissioner of Deeds,
New York City and Co.

Kingdom of Prussia, City of Cologne:

On this nineteenth day of December, 1874, before me, George Hölscher, a Consul Agent of the United States of America, residing at the City of Cologne, personally came and appeared Emil Oelbermann, of New York, and Christopher Andreae, of Muelheim-on-the-Rhine, to me known to be the individuals described in and who executed the foregoing certificate, and severally acknowledged that they executed the same.

In witness whereof, I have hereunto set my hand and seal of office the day and year first above written.

[Consular Seal] GEORGE HOLSCHER,
United States Consular Agent.

Kingdom of Prussia, City of Aix-la-Chapelle:

On this twenty-second day of December, 1874, before me, Edward Sternberg, acting United States Consul at Aix-la-Chapelle, personally came and appeared Leopold Schoeller, of Dueren, to me known to be the individual described in and executed the foregoing certificate, and acknowledged that he executed the same.

In witness whereof, I have hereunto set my hand and seal of office the day and year first above written.

[Consular Seal] E. STERNBERG,
Acting United States Consul.

City and County of New York, ss.:

Hugo Peipers, being duly sworn, says: That he is one of the general partners named in the above certificate, and that the sums specified in the said certificate to have been contributed by each of the special partners to the common stock have been actually, and in good faith, paid in cash.

HUGO PEIPERS

Sworn to before me this thirtieth day of November, 1874. JULIUS L. GOLDENBERG,
Commissioner of Deeds,
New York City and Co.

MORTGAGES.

REAL ESTATE.

NEW YORK.

NOTE.—The arrangement of this list is as follows: The first name is that of the mortgagor, the next that of the mortgagee. The description of the property then follows, then the date of the mortgage, the time for which it was given, and the amount. The general dates used as headings are the dates when the mortgage was handed into the Register's office to be recorded.

Wherever the letters "P. M." occur, preceded by the name of a street in these lists of mortgages, they mean that it is a Purchase Money Mortgage, and for fuller particulars see the list of transfers under the corresponding date.

ASSIGNMENTS.

NEW YORK.

NOTE.—In this list of assignments of mortgages, the first name is the assignor and the second the assignee of the mortgage, then follows the amount.

ERRATA.

In the list of Assignments of Mortgages published last week, "in place of the Manufacturers' and Builders' Bank to the Eleventh Ward Savings Bank, twelve mortgages amounting to $106,687," read the Manufacturers' and Builders' Fire Insurance Company to the Eleventh Ward Savings Bank, twelve mortgages amounting to $106,087, the *Manufacturers' and Builders' Bank* having been erroneously printed.

MISCELLANEOUS.

REVIEW OF THE REAL ESTATE MARKET.

There have been no reports during the week indicative of activity in the general market, but there is, probably, an undercurrent of business, which will be felt at some future day. We gain this opinion from the fact that recorded transfers have increased in volume, and show a number of important transactions. These, however, have been of gradual accumulation, embracing a period of several months, as will appear on reference to the dates of transfer, and are only now made public. Auction sales have been more numerous, and a stronger feeling seems to pervade the market, even in the routine of legal sales. This has been matter of some remark, of late, and was more clearly shown on yester-

day, when Joseph McGuire sold, in partition, several parcels of real estate. Premises on Twenty-ninth Street, renting for $90 per month, brought $13,900, and a lot on Seventy-fourth Street, 100 feet easterly from Second Avenue, was sold for $4,000. It cannot be assumed, however, that such transactions as these definitely fix the status of the market. A few good results must be followed by others, sufficiently numerous to compel the belief that the market has settled into a new and steady feeling.

The question of rentals is now coming prominently into notice, and we find that, while owners desire to take advantage of any chance for advancing their rates, they are, generally, unwilling to hazard asking more, and prefer to retain good tenants, at last year's prices. On the other hand, concessions are expected, and, in some instances, will be made.

The rapid transit matter is no nearer fruition than a week ago, and, unless the present movement is made more practical and earnest, it will only be another illustration of the spasmodic feeling on the subject that comes in with every winter season. The one thing most needed is capital, and, until enough is pledged to guarantee the initiation of the work, no project should be even debated.

The Mayor has vetoed certain ordinances, for uptown street improvements. There is much reason in his action, and there are are other streets, in the same vicinity, which more urgently need completion. Under his ruling, also, the Board of Apportionment has rejected the principle that important improvements in the upper portion of the city should be suspended, and we earnestly hope that no more obstacles will be put in the way of their successful advancement.

LOCAL ITEMS.

The Collector of Assessments for the Twenty-fourth Ward has received the Assessment rolls of unpaid assessments for the erection of Lamp-posts in the Twenty-fourth Ward, and will be at his office, corner of Mott Street and Railroad Avenue, on Monday, Wednesday, and Friday, of each week, until February 27, to receive payment.

The Committee on Streets, of the Board of Aldermen, will meet every Monday, at 2 P. M., to consider such business as may have been referred to that committee.

LEGAL DECISIONS AFFECTING REAL ESTATE

In an action to recover compensation for plaintiff's services as real estate broker, plaintiff's evidence tended to show that defendants purchased certain real estate, through the instrumentality of plaintiff, who acted as broker for the seller. Plaintiff claimed from defendants a part of his commissions; this they declined to pay, but promised him part of the profits when they sold. He advised as to the best mode of sale; he also procured maps of the property, and put them up in different places, and signs, which were put up near the property; and inserted an advertisement in a newspaper, referring to himself as broker, which was recognized and paid for by defendants. A purchaser, attracted to the property by the maps, signs, and advertisements, opened negotiations for a purchase, direct with defendants, who, thereupon, notified plaintiff of the fact, directed him not to advertise or to make further efforts to effect a sale, promising him his commission, if the sale was effected, which was done.

Held, this evidence was sufficient to sustain a verdict in favor of plaintiff. Chief Justice Church delivered the opinion of the Court, in which he says:

"A person claiming a commision upon a sale of real estate must show an employment, and that the sale was made by means of his efforts or agency. An owner may employ several brokers, for the sale of the same property, and is, of course, only liable for commissions to the one who effects the sale. And, although he employs one or more brokers, he may negotiate and sell the property himself, without liability to any one for commissions. The undertaking of the broker is to make efforts to procure a purchaser, but if he fails he is entitled to no pay, unless there is a special contract. But if the purchaser is found by his efforts, and through his instrumentality, he is entitled to compensation, although the owner negotiates the sale himself. Nor is it indispensable that the purchaser should be introduced to the owner by the broker, nor that the broker should be personally acquainted with the purchaser; but, in such cases, it must affirmatively appear that the purchaser was induced to apply to the owner through the means employed by the broker."

In the trial of an action to foreclose a mechanic's lien it appeared that the defendant, who had contracted with one Fincke to do the mason work on three buildings, being erected by him, to be completed on the first of April, 1872, did not complete the work until July, thereafter. After the expiration of the time for the completion of the work, the defendant permitted Fincke and his sub-contractors to proceed with the work, and made payments on the contract.

Held, by the Court of Appeals, that this was not a release or discharge of the stipulation as to time, but that Fincke was liable for the damages resulting therefrom; which damages were the value of the use of the buildings while defendants were deprived thereof, in consequence of the delay.

BUREAU FOR THE COLLECTION OF ASSESSMENTS.

Property owners are notified that an assessment list for the purposes designated below has been lodged for collection. The limits of property affected thereby have been heretofore published in this paper.

Opening 10th av., from a point 10,353 feet northerly from the southerly side of 155th st. to 11th av.

All payments made on the above assessment on or before April 2, 1875, will be exempt (according to law) from interest. After that date interest will be charged at the rate of seven (7) per cent. from Dec. 2, the date of confirmation.

MARKETS.

The market for out-door material has been very quiet, foul weather helping to increase the dullness of the season and preventing movement. Trade generally has not been very bright, and the past week has few distinguishing features for review. In some branches of business hope is prominent, although the season has reached a point when trade should begin to develop and give some promise for the future. There is, nevertheless, a very good feeling extant in trade, not sanguine, but logically based on the fact that the economies of the past year must yield something to the necessities of the present, and that demands which have been held in abeyance must be supplied.

In brief resume of the markets, we find that brick, lime, and cement have been quiet but steady. Lath have followed up their stronger tendencies and are quoted higher. Lumber is unchanged, and other markets are varying and of the same general character as for some time past, quotations changing moderately with the calls of trade.

Our report in detail is herewith appended:

BRICK.—The market has been quiet, as the weather has not tempted builders into anything that would excite movement. Dealers have been looking around to see what they could pick up, and we hear of Long Island brick offering at $8 per M, and withdrawn at that price. Quotations are nominally as before, and are as follows: Pale, ℔ M, $3@3.50; Jersey, $6.25@6.50; Up river, $6.50@7.25; Haverstraw Bay, $7.25@8; Fronts, Croton—brown, $12@13; dark, $13@14; red, $14@15; Philadelphia, $28@32; Baltimore, $50@56. Yard prices, delivery included, $2@3 higher.

CEMENT.—Rosendale is inactive, and is nominally steady at $1.30 cash, and the advance predicted in some quarters has not yet occurred. There have been sales of 5,000 bbls. fresh burnt Portland, under contract to the Department of Docks, at $3.90 per bbl., to be delivered in 90 days. Sales of Portland from store have been made at $4.25 per bbl.

FIRE BRICK.—The market is steady as previously quoted, with sales of 5,000 Scotch at $55, currency.

GLASS.—There is a small amount of trade going, but the market for French window is generally quiet, discounts remaining as before. There is no call for English sheet or polished plate, which are nominally steady at old quotations.

HAIR.—There is nothing new in the market. Stocks on hand are quite ample in most instances, and in others are excessive. There is no demand, and quotations are uncertain and nominal.

HARDWARE.—Trade is not very brisk, although there seems to be a feeling that greater activity will soon ensue. There has been an advance of one cent per foot on wrought iron pipe for all sizes from ⅛ to 1¼ inches. Copper rivets are firm at 35 per cent. off. The American Butt Company is now selling loose pin, acorn-tip butts at 55 and 10 per cent. discount, and mayens and parliament hinges at 50 and 10 per cent. off. Bemis' dividers, compasses, and calipers are now quoted at 35 and 10. Changes in price lists are making slowly, and we hear of others in preparation which, so far as interesting to our special markets, will be duly noted as they occur.

LATH—Are strong and advancing. Recent sales to out-of-town dealers have been made at $2.50 per M, and there is no reason to believe that any lower price would be accepted here. We are informed of a cargo to arrive which is firmly held at the above figure, and we quote accordingly.

LIME.—There is a quiet but steady market, prices ruling as heretofore. We quote common at $1 and finishing at $1.25@1.50 per bbl.

LUMBER.—There seems to be a general suspension of trade throughout the country, except for local business, and reports from lumbering centers are meagre and unsatisfactory. The only difference from this rule is at Southern ports, where some activity prevails and where freights rule quite stiffly. The wholesale trade in this market is limited, and although projects are pending which may involve large orders and for which estimates are making, we have not heard of any important contracts that have been closed. White pine for South American and West Indian ports is quoted as heretofore, but the export is small and the market dull. Yellow pine is quite inactive, waiting, however, for developments which may come at an early date. Prices in most respects are weaker, and we quote green flooring, $20@23; dry, $23@25; sidings, $18; timber, $23@28 for ordinary orders and $20@23 for random cargoes. Spruce is steady at $17@19 for random and $18@20 for ordered cargoes. Hard woods are in some request at steady prices. The weather has not been sufficiently propitious to make the yard trade active. Still, there has been a moderate amount of trade done, and dealers have not been altogether idle. Quotations are unchanged.

Southern Notes.

From the Florida *Express*, Jan. 23:—

We hear of one sale of hewn timber—a few thousand sticks have been sold during the week, but at merely nominal prices. Sawn timber is a little firmer. More inquiry for assorted cargoes, but little business done. We quote stowage deals $12.50, and prime $14@14.50 ℔ M. South America rates are still the same for standard deals, $18@20.

METALS—COPPER.—Manufactured is steady at the following quotations: New sheathing 28 cents; bolts and braziers' 30; bronze and yellow metal sheathing 21, and yellow metal bolts 28 cents, net cash. Sales of Lake have been made at 21½@21¾ cents cash, and there is a steadier feeling in the market.

IRON.—There has been a limited amount of business done in Scotch pig, but sales have been slow and in small lots as buyers wanted. American pig has not been active, but displays more strength inasmuch as recent prices are fully sustained. Rails are quiet and without change. Scrap is quiet but steady at $33@35. Manufactured is unchanged in price, with limited business from store.

LEAD.—There has been a little done in foreign pig, of which sales have been made at $6.87½, gold. There have been sales of Government at $6.25, gold, and domestic has been dull and irregular at $5.90@6.06¼, gold. Manufactured is steady at 8¾ cents for bar, pipe, and sheet, less the usual discount to the trade.

TIN.—Pig is dull and nominal. The market for plates is quiet, but prices are very well sustained, Coke tin being especially strong.

ZINC.—Sheet is in limited supply, and steady at former quotations.

NAILS.—Cut are very quiet and nominally steady at former prices. We quote 10d. to 60d. common fence and sheathing, ℔ keg, $3.40@3.50; 8d. and 9d. common do. ℔ keg, $3.85; 6d. and 7d. common, ℔ keg, $4.10; 4d. and 5d. common do. ℔ keg, $4.40; 3d. and 4d. light, ℔ keg, $5.10; 3d. fine, ℔ keg, $5.85; 2d. ℔ keg, $6.60. Cut Spikes, all sizes, $3.85. Floor, Casing, and Box, 75 cents above the same sizes of Common—Finishing, $1 above, and Fine Finishing, $1.25 above.

$6@6.25.	$5.75.	$5.50	$5.25 ℔ keg.

OILS.—A slight downward movement occurred in linseed, and sales have been made one cent per gallon lower than at our last report. Prices, however, have been steady throughout the week, and we quote from crushers' hands at 76@77 cents per gallon. Boiled and refined 85@86 cents per gallon.

PAINTS.—There has been a better jobbing trade, and prices are generally firm, the market for foreign goods being strong with light stocks. White lead is in good demand, and steady with sales of B. B. ground at 10½@10¾ cents, gold, and 12 cents, currency. Paris green is in request at good prices, manufacturers asking an advance. Venetian Red has been selling at $1.90, gold, for crown and 2¼ cents, currency, for Cookson's. Sales of American quicksilver Vermilion in bulk have been made at $1.82½, gold.

PITCH.—The market is dull at $2.25@2.37½ per bbl. for city, f. o. b.

SPIRITS TURPENTINE.—The market has advanced, and the movement has been sustained throughout the week. There has been fair inquiry, and we quote at 38½@40 cents per gallon for merchantable.

TAR.—The market is dull, and there has been but little movement throughout the week. We quote Newbern and Washington at $2@2.12½ and Wilmington at $2.37½ per bbl.

CONTRACTS OPEN TO BUILDING ESTIMATES.

Among the many admirable methods which prevail in England, is the practice of advertising for building estimates. Under this system the field is thrown open to the trade, and builders who are not favored with the extreme partiality of architects are enabled to place their estimates before owners. A desirable competition is also excited, wherefrom persons anxious to improve their property derive benefit. It is well known that our public works are frequently conducted under this rule to avoid collusion, and although it cannot be said that the public, acting, as it does, through intermediaries, is invariably protected, yet where the principal himself comes in contact with the bidders, he is certainly able to judge which will give him his money's worth at the cheapest rate. We commend the plan to the attention of real estate owners, believing it worth trying, and we are sure that it cannot be objectionable to the mass of builders who are so often debarred from competition, because they are not of the few who more frequently secure contracts through the influence of architects, rather than on their merits for cheapness and efficient work.

Under the offer of a prize for the best plan of approximately fire-proof cottages, a number of plans have been submitted to the Mechanics' and Farmers' Savings Bank, of Chicago, and it is said that the low estimates of cost connected with them are likely to effect a revolution in cheap building in that city. The result is a matter of importance here, where we have outlying suburbs that stand in need of protection from fire, and we shall wait with interest the decision of the committee to which the award is entrusted. The cost of building, as submitted to the Chicago committee, varies from $985 to $3,600 per house, the ratio of value bearing little relation to size.

The Chicago *Real Estate Journal* claims that an unusually large amount of Eastern capital has been diverted to that point for investment, and that real estate security for loans is eagerly sought after. If this is the case, we have only ourselves to thank for the foolish inaction which prevents such a change in our laws as will attract and retain money here. The rates of interest at Chicago exceed our own, and investors there do not incur taxation which leaves them minimum returns. We hope that the lesson will not be lost.

LOANS BY INSTITUTIONS.

It is a good season for investigations, and we commend to the attention of the Legislature the numerous savings banks and life insurance companies which have a surfeit of funds for investment. It is well understood that the officers of these corporations are not permitted to take any fee or other reward for the loan of money by the institutions under their care, yet we suspect that this admirable provision of law is often and flagrantly violated. In fact, we are satisfied that on general principles many of these institutions are rotten and shaky, otherwise we should never see the officers of ostensibly large corporations settling down comfortably into wealth strangely at odds with their beginnings, while outside aid is employed in bolstering up the institution which, under their fostering care, has ceased paying dividends to the stock-holders or other persons reasonably entitled to some returns for their investments. Of one thing we feel reasonably certain, and that is that the percentages which have been paid for many loans have not enured to the benefit of the savings banks or the life insurance companies concerned.

MORTGAGES.

REAL ESTATE.

NEW YORK.

NOTE.—The arrangement of this list is as follows: The first name is that of the mortgagor, the next that of the mortgagee. The description of the property then follows, then the date of the mortgage, the time for which it was given, and the amount. The general dates used as headings are the dates when the mortgage was handed into the Register's office to be recorded.

Wherever the letters "P. M." occur, preceded by the name of a street in these lists of mortgages, they mean that it is a Purchase Money Mortgage, and for fuller particulars see the list of transfers under the corresponding date.

MISCELLANEOUS.

REVIEW OF THE REAL ESTATE MARKET.

There is very little that is new in the market, and business continues dull and of small importance. The public sales have been limited, and of ordinary character, and the only private sale reported was made by Lespinasse & Friedman, of a dwelling house and stable, with three and a quarter acres of ground, located at Inwood, on Fourteenth Avenue, between Two Hundred and Fourteenth and Two Hundred and Fifteenth streets, for $80,000. The most interesting feature of this sale is that the purchasers are foreigners, who, having business relations here, have bought the property for summer residence or dwelling purposes, when visiting this country.

Rapid transit is not making much progress. There have been hearings before Aldermanic and Legislative committees, and meetings have been held in continuation of the movement to secure pledges of capital. The conflict of rival projects has, as was to be expected, been resumed, and nothing practical seems to result. So far, at least, the right beginning has not been made. The men most competent, by position and financial standing, to take up and successfully carry out any project, have not entered the field, and there is a silent negative upon pending proceedings in quarters where aid and sympathy should be most earnest.

The Mayor, in another message, has resumed the subject of the Riverside Park improvement, and urges upon the Common Council the pre-eminent necessity for its completion. He has, however, concluded that no authority exists to levy the required assessments, and he therefore urges the preparation of a bill for submission to the Legislature to secure the legal authority for improvement at an early day.

Mortgage loans are increasing in number, and a comparison of the amount of money loaned by Life Insurance Companies and Savings Banks shows an increase over the corresponding period for last year. The demand is, doubtless, greater, yet the fact, while not of the greatest advantage in its direct relation to real estate, is valuable as showing a return of confidence in landed securities.

The following table shows the aggregate of loans, for the month of January, in the respective years:

	1874.	1875.
Loans by Savings Banks	$99,730	$488,841
Loans by Life Insurance Companies.	662,200	615,500
Total	$782,930	$1,104,341

The increase is $341,411, and altogether from the Savings Banks.]

Only ten Life Insurance Companies and twenty-two Savings Institutions, appear as lenders during the month of January of this year, and the proportions are as follows:

INSURANCE COMPANIES.	
New York Life	$194,500
Manhattan Life	181,500
Mutual Life	152,000
Equitable Life	35,000
Ætna Life	35,000
All others (5)	17,500
Total	$615,500

SAVINGS INSTITUTIONS.	
Greenwich	$99,500
Emigrant Industrial	47,000
New York Trust	41,500
Teutonia	40,000
Frankin	37,000
New York	31,500
Seamen's	20,000
Irving	20,000
Union Dime	14,000
All others (13)	138,340
Total	$488,841

LOCAL ITEMS.

The Court House Commissioners, for the Third District, ask for proposals for Carpenter's, Tinner's, Slater's, and Plumber's work for the new Court House, at Sixth and Greenwich avenues.

The Department of Charities and Corrections asks for proposals for Sugar.

The Committee on Ferries, of the Board of Aldermen, will meet every Monday, at 2 P. M., to consider such business as may have been referred to that committee.

The Fire Department asks for proposals for Hay, Straw, Oats, and Feed.

The same Department asks for proposals for building four Aerial Ladders.

The Commissioner of Public Works gives notice that the buildings, etc., now standing between the lines of the Riverside Drive; the Boulevard, from One Hundred and Fifty-fifth to Inwood Street; Ninety-second Street, from Eighth Avenue to Hudson River; and Eleventh Avenue, from Fifty-ninth to One Hundred and Seventh Street, as lately opened, and now incumbering said streets and avenues, will be sold, at public auction, on the ground, on 24th inst., commencing at 10 A. M.

MARKETS.

General trade shows a backwardness not of fair omen for future activity, although the extreme weather has retarded business. This is the time when the demand for spring goods should be fullest, and a sanguine feeling is not extant, although hope prevails. If this dullness is to be carried out, building operations which are now of very limited character will become more restricted, and our markets will be correspondingly affected. In going over the ground for the week we find that business is generally quiet, money abundant and easy, unable to make much return for its investment, and our markets, in a business way, down almost to zero. A little more activity in the money market, with some stringency, and a quiet tightening of purse strings, would be one of the fairest indications for trade. Nothing shows so much the poverty of commerce as money seeking employment and finding no opportunity for satisfactory returns. Our reports for last week very nearly cover the ground for this, and the markets remain generally steady and quiet upon former terms.

We append details in brief.

BRICK.—There has been little or no movement in the market, the weather effectually precluding all out-of-door operations. Prices are nominally the same, and we quote Pale, ℔ M, $3@3.50; Jersey, $6.25@6.50; Up river, $6.50@7.25; Haverstraw Bay, $7.25@8; Fronts, Croton—brown, $12@13; dark, $13@14; red, $14@15; Philadelphia, $28@32; Baltimore, $50@56. Yard prices, delivery included, $2@3 higher.

CEMENT.—Rosendale continues steady, but with limited movement at $1.30 cash. Recent sales of Portland have weakened the market, and it is now quoted at $4.10@4.35. No sales for the week have been reported, and the market somewhat dull and nominal.

FIRE BRICK—Are quiet at old figures.

GLASS.—The market is quite inactive. Stocks are light, and for the little trade going discounts are very fairly sustained. French window is selling at 60 and 5 @ 60 and 10 per cent. off, and English sheet and polished plate are nominally steady at old figures.

HAIR.—There is no change to note. Stocks are quite full, and even dealers have about all they want to handle. Prices are as usual, very indefinite, and the market is very open to offers. We continue our quotations, believing that the market lies somewhere between them. We quote cattle at 12@25 cents and goat at 14@28 cents per bushel.

HARDWARE.—The demand for foreign heavy goods has been, of late, quite fair, but otherwise the market has had no special features. Domestic articles are not in good request, but prices are generally quite steady. This is, however, an exception in strap and T. hinges, the prices of which are irregular and nominal. The lock manufacturers have advanced the prices of the following described kinds of locks 25@50 cents, viz.: 2¼ Mineral with Japan mountings, 2¼ porcelaine do., 2¼ plated do., and 2½ plated, porcelain roses. Discounts as before. No other important changes in price-lists have been made public, and the trade seems waiting upon the future of the market before coming to conclusions.

LATH—Are steady and strong at $2.50, with sales of 750,000 reported at that price. The market is now quite bare, cargoes which are on the way having been delayed. Sales are made on the spot, consignees not caring to take orders or to sell in advance of arrival. There is a disposition to advance prices, which may result in an upward movement before our next report. We quote at $2.50@2.75 per M.

LIME.—The market is quiet, but steady at former quotations. Sales are few, and there are no arrivals. We quote common at $1 and finishing at $1.25@1.50.

LUMBER.—The market has been generally quiet, even the yard trade deferring more to wintry influences, and business seems to have gotten a frosty nip, quite in keeping with the season. The export trade has been small for all kinds, although, we fancy, somewhat fuller than last week. White pine is quotably unchanged. Yellow pine is dull at figures given in our last report, and prices are decidedly favorable to buyers. Quotations from Southern for South America are $15@16.50, and for West Indies $14@16. The above for ordinary schedules. Eastern spruce is inactive, but a sale of 100,000 feet, random, is reported at $18 on spot. Quotations range a little lower for random cargoes, viz., $16@19. Ordered schedules are quoted as before at $18@20. Hardwoods are quiet, and the yard trade is of limited proportions, shrinkage being due, in a great degree, to the weather. Quotations are as usual.

METALS—COPPER.—Manufactured is steady at previous quotations. Ingot has been in some request, and firm at 21¾@22 cents.

IRON.—The demand for Scotch pig is very limited, and stocks seem ample for all the requirements of the market. There is a light movement in American pig, and a fairly sustained effort to abide by the recent advance in prices. Rails are quiet, and scrap has had some movement at $35, delivered at vessel's side. Manufactured is dull, but mill owners are firm, and our quotations are retained for job lots from store.

LEAD.—Foreign pig is dull, but with prices yet unchanged. Domestic favors buyers with sales at $5.87½ @5.95, gold. Manufactured is steady at old prices, viz., 8¾ cents for bar, pipe, and sheet, less 10 per cent. to the trade.

TIN.—There is hardly any business in pig, prices being nominal and favorable to buyers. The tariff having been revised, the duty on most kinds of plates is higher, and prices are unsettled in consequence. We have tried to revise our quotations so as to fully meet the changes in the market.

ZINC.—The supply of sheet is limited, and prices are steady as before at 9¼@9½ cents net.

NAILS.—Stocks have diminished, but prices of cut are unchanged, and we quote 10d. to 60d. common fence and sheathing, ℔ keg, $3.40@3.50; 8d. and 9d. common do. ℔ keg, $3.85; 6d. and 7d. common, ℔ keg, $4.10; 4d. and 5d. common do. ℔ keg, $4.40; 3d. and 4d. light, ℔ keg, $5.10; 3d. fine, ℔ keg, $5.85; 2d. ℔ keg, $6.60. Cut Spikes, all sizes, $3.85. Floor, Casing, and Box, 75 cents above the same sizes of Common—Finishing, $1 above, and Fine Finishing, $1.25 above.

CLINCH NAILS.

1¼ to 1½ in	2 & 2¼ in.	2½ & 2¾ in.	3 in. and longer.
$6@6.25.	$5.75.	$5.50	$5.25 ℔ keg.

OILS.—Linseed is still weaker, and is quoted at 75@76 cents from crushers' hands. Boiled and refined at 84@85 cents per gallon.

PAINTS—The market is generally quiet, with a moderate demand, but prices are steady, foreign goods being especially firm through the advance in gold. White leads are steady, with sales of B. B. ground at 10½@10¾ cents, gold. Prices of American Vermilion are expected to recede with the abolition of the duty on Quicksilver. Venetian Red is steady, with sales of Cookson's at $1.95 and of Crown at $1.90, gold, and of Cookson's at 2¾ cents, currency. Curtius' ultramarine is selling at 30 cents, gold. Sales of Paris white, Queenstown, have been made at $1.90, gold, from wharf. Paris green has been in fair demand, with sales on private terms. The demand for China clay is moderate at $25, currency, per ton for English.

PITCH.—The market is dull, and we quote city at $2.25@2.37½ per bbl., f. o. b.

SPIRITS TURPENTINE.—The market has been firm, with fair inquiry, and closed strong at 38½ cents bid and 39 cents asked. We quote at 38½@40 cents per gallon for merchantable.

TAR—Is dull and nominal. We quote Newbern and Washington at $2@2.12½ and Wilmington at $2.37½ per bbl.

FREE MONEY.

No steps seem to be taking to further the abolition of the tax on mortgages, and we think it a strange neglect on the part of its advocates that this reform should be dormant. It may be that the chances of success are doubtful, but, nevertheless, it is one of those things which should be persistently urged upon the attention of people until the thickest heads concur in its propriety. Real estate is even now languishing for want of development, but it is difficult to get money for purposes of improvement. There is an abundance of capital seeking investment which would gladly accept landed security if assured of a fair return of revenue. Taxation, however, does away with so much of the legitimate profit on loans that Government bonds absorb and retain a large amount of money which might otherwise become available to the people and indirectly profitable to the State. This subject has been critically discussed and presented in every line of argument, and we are sure that we can offer no stronger proofs of the necessity for such a reform than those which daily commend themselves to the attention of real estate owners and capitalists. We urge action. Let the subject be presented anew to the Legislature, and should it fail this winter, let the effort be renewed until justified in success.

In the same connection, the abolition of the Usury laws would become of incalculable benefit. It is supposed by many that the removal of restraints upon money would disadvantage borrowers and enable grasping money-lenders to hold the needy in their hands. Here, too much range is given to sentiment, and the practical nature of monied transactions is not regarded. The Usury laws are the fruit of times and systems of living when wealth, in the hands of a few, controlled the lives and fortunes of the masses of the people. As men became emancipated from such dominion and acquired the will and capacity to defend their rights, it was necessary to protect the weaker and more ignorant; and the Usury laws are partial results of this progress. But to-day we are on broader ground, where fuller liberty should be accorded. We do not propose, however, to enter into any disquisition upon the causes and effects of the advance of liberty. We have only attempted to fairly reach the conclusion that the changes of time and manners of men have brought a freedom of thought which compels a variation in some of the methods of government.

As a matter of general convenience, we are satisfied that the repeal of the Usury laws would be of advantage. Monied competition would be secured, as much to the benefit of the borrower as the lender, and while, at times, there might be exactions, a corresponding gain would arise in the enforcement of economy and the limit of credits. The relief to real estate, not only in this city, but throughout the State, to be afforded by the abolition of the tax on mortgages and the repeal of the Usury laws, would be incalculable. Capital would be attracted, not repelled. Improvements would hardly need suggestion, and enterprises would meet with a backing up not hitherto known. The subject demands attention and courts reflection.

PUBLIC IMPROVEMENTS IN THEIR RELATION TO LABOR.

The enforced idleness of the laboring classes is a great hindrance to the revival of trade. The demands of our working population largely influence the volume of business, and when curtailed produce a greater effect than at first seems possible. To enhance the prosperity of the country by providing an outlet for the products of the soil and of the loom, the poor must be employed, and capital which is even now lying idle and without adequate returns could, if put into improvements which only necessity dictates, at once supply aid to the needy and initiate its own profit. There are many public enterprises which should be prosecuted without delay. The city owes much to itself as well as to property owners, and the debt due to its working population is one to be taken equally into account. This view of the situation is the only one upon which we can justify the building of a rapid-transit road in whole or in part by the city. Were it but certain that methods could be provided to protect the city from spoliation, and the undertaking from jobbery, no wiser plan for general good could be adopted by our municipality. The loan of the city's credit would certainly press this great necessity to conclusion, and we are not sure but it can be accomplished without adding to the burden of debt, while at the same time the enhanced value of taxable property would benefit both the city and the owners of real estate. We present this view of the subject for consideration. Great loss undoubtedly accrues from the idleness of the masses. Trade would be benefited by their employment, and real estate would derive the ultimate advantage.

LUMBER SUPPLY.

The log cut this winter will enable manufacturers to throw on the market during the coming season an amount of lumber equal to last year's production, and in view of former experiences we can very safely count upon large stocks and lower prices. Efforts have been made at various points to induce a different belief; but the story has become so old that it is hard to find anyone who will put faith in it. The *Lumberman's Gazette* deprecates this "practice of misrepresentation," and argues, quite truly, that it is "damaging to an extent far greater than the benefit derived." The practice is censurable in many respects, aside from its moral view, and helps to derange trade. Purchasers who are weak enough to give credence to such reports are brought into business conflict with sharper men in the trade, who take such stories with all allowance and make their bargains accordingly. Manufacturers are apt to incur damage, and are hardly likely to retrieve their losses when failures are forced upon their customers. The impression, nevertheless, is general that lumber will be abundant, and that to consort with the general relations of trade throughout the country, must be cheaper. We regret an overproduction, for the country can illy afford to lose its forests and the consumption of lumber from accidental causes when manufactured, doubtless exceeds the natural waste and destruction of standing timber. We favor diminished production even at the risk of stronger prices.

IMPROVED PAVEMENTS.

The London papers are discussing the subject of noiseless pavements, and their opinions and experiments are valuable when considering the various projects for re-paving Fifth Avenue. Wooden paving seems to be favored in London, yet our own experience of its merits is not of a satisfactory character. It may be that we have not reached that point in its experiment where the most perfect and durable process has been secured. The English object to Macadam paving as expensive, and that in wet weather its repairs are constant, and impede traffic. Granite is too noisy, and Asphalte has been voted slippery and otherwise impracticable. Wood blocks, bedded on concrete and run with lime grouting, have su-

perseded stone pavements in various parts of London, and have given great relief from noise. We should say, however, that the matter is still in debate, and our cousins are equally at a loss with ourselves to determine a substantial and noiseless method of paving.

HOUSE BOILER EXPLOSIONS.

There have been a number of boiler explosions in private dwellings of late, and we are assured that even ordinary care cannot always prevent their occurrence. The means provided for prevention of such accidents are inadequate, and call for remedies beyond the reach of carelessness. The matter has been considered in England, where, some time ago, the Manchester Steam Users' Association recommended the use of a safety valve specially applicable to household boilers, and which is simply an adaptation of the valve used for large steam boilers, and is a pendulous dead weight without lever or spindle, and spherical in its bearing upon the seat. The subject has been revived by the recurrence of explosions, and we take from the *London Building News* the following suggestions:

"Circulating-water boilers are very subject to explosions unless they are fitted either with one of the self acting valves or have stop-taps in the circulating pipes, enabling one to see whether the circulation is not impeded. These taps should be placed in the hot and cold water pipes, which connect with the cistern overhead. Where these taps do not exist, the pipes (which are natural safety-valves as long as the circulation continues) are apt to become choked with ice, and herein the danger occurs in such weather; or at other times the stop-taps may be inadvertently closed, and thus the free current stopped, leading to an explosion in due time. Another precaution would be to use some kind of water-level indicator, when the boiler is not a circulating one, besides a safety-valve, and we should hear very seldom of these casualties."

Lumber camps, as seen in the Michigan pine woods, are seldom such as are usually found in Maine, New York, and Pennsylvania, but are constructed on a model commensurate with the work to be done and with the comfort, convenience, and rest of those destined to occupy them, manifesting a humane consideration on the part of the ruling mind that has planned and is conducting the job. They are commonly built of round logs, one or one and a-half stories high, with berths all around the sides embracing beds in which men of more luxurious habits could rest and sleep and cheerfully dream of home, of home scenes, and other "fairy lands" through the live-long night and rise refreshed, invigorated, and ready for twelve hours of *square bone* labor without inclination to dodge or inclination to grumble.

Usually one hundred men are collected in one encampment, if the "job" is of sufficient magnitude to warrant that number and about ten teams of horses or oxen, often more when the haul is long. The cooking camp, eating camp, sleeping camp, and camp for recreation, are, in large operations, generally detached, forming quite a community of huts, always located near good water and convenient to the timber, that little time may be lost in walks to and from work. Good stabling, a blacksmith shop, and tool-house are indispensable requisites. Skilled smiths and expert cooks are as sure to be found in such camps as will be in the best city. In all well-regulated camps, breakfast is taken at five in the morning, and work begun at dawn of day, closed at sunset, and supper taken at about six, after which an hour or two is spent in pleasant chat, story-telling, violin or banjo music, or any other pleasant recreation one's humor or taste may dictate, not, however, forgetting to have all the tools prepared for the morning work which may require sharpening, re-handling, or otherwise fitted for use. In payment for this extra work the employee, perchance, gets an extra pound of "cut and dry," a dozen "three-centers," or any amount of kind words and "good fellows" for the time, either of which is current coin and ample pay for such service, inasmuch as the tool itself is to be used most commonly by him who thus performs the essential duty upon it, whose labor by such means is made easier and less onerous. But, when nine o'clock, you must promptly douse the glim and make all quiet and serene for the night.

MORTGAGES.

REAL ESTATE.

NEW YORK.

NOTE.—The arrangement of this list is as follows: The first name is that of the mortgagor, the next that of the mortgagee. The description of the property then follows, then the date of the mortgage, the time for which it was given, and the amount. The general dates used as headings are the dates when the mortgage was handed into the Register's office to be recorded.

Wherever the letters "P. M." occur, preceded by the name of a street in these lists of mortgages, they mean that it is a Purchase Money Mortgage, and for fuller particulars see the list of transfers under the corresponding date.

MISCELLANEOUS.

REVIEW OF THE REAL ESTATE MARKET.

There has been some life in the market, during the past week, chiefly in connection with public sales, which have been more numerous, and not altogether of a formal character. It became apparent, however, that the market is not ready to make any early development of strength, and that buyers are very cautious and calculating, as several important offerings were disposed of at prices bearing no adequate proportion to cost. The Booth Theatre property was again sold, under foreclosure, to parties in interest, and brought $400,000.

Sales at private contract include a plot 125x100, located at the southeasterly corner of the Twelfth Avenue and One Hundred and Thirty-fourth Street, for $16,000; and a plot 100x100.11, located on the northerly side of One Hundred and Fourth Street, two hundred feet easterly from the Eleventh Avenue, for a similar amount. Reference to our columns will show that private sales have diminished in number, the recorded transfers showing a falling off in comparison with previous dates. This fact is not of great significance, as the periods covered by the transactions are included in the dullest season of the year for the real estate market, and it is only natural that a difference should occur. From present appearances, we do not believe that the spring season, or, at least, the earlier portion of it, will bring an active market. The results of trade have not afforded means for investment, and idle capital will not be diverted to real estate purchases, unless greater inducements are offered than we conceive owners are willing or can be justly called upon to make. The market must await the return of general prosperity, and confidence must be fully restored, before it can take a new departure, which, nevertheless, however long deferred, is inevitable.

Rapid transit is waiting for more positive action than has yet been taken. The Society of Engineers has expressed its opinion in a rather general way, and really offers no suggestions that are valuable in bringing the matter to an early issue. The bill prepared by the Merchants' Rapid Transit Association is favored by those connected with that part of the movement. Opposition has developed to the bill introduced by Assemblyman J. W. Smith, and conflicting interests spring up in connection with every project. Certain prominent citizens have asked for a general law under which the franchise may be sold to the highest bidder, pledging themselves to make a fair bid therefor and to provide ample security for construction and operation, should the franchise to awarded to them. This is a seemingly fair offer, and if not hampered with extravagant and impracticable conditions presents one of the best solutions of the problem yet suggested.

MARKETS.

Our markets continue dull and almost without movement, and trade generally seems to be resting. Activity in every branch of business is retarded by the severity of the weather, which, of course, bears particularly upon the demand for building material. There is reasonable hope that dullness and depression will not be long continued, although there is doubt whether the earlier portion of the year will be marked by active trading and profitable returns. The country is full of the elements of prosperity, and when trade has fairly settled down into the new course that must be pursued, and when confidence has become entirely re-established, a new career will be entered upon and benefit will accrue to all. There are other aids to recovery which promise development. Our commercial intercourse

with Great Britain is of an intimate and sympathetic character, and recovery here has been counterbalanced by depression abroad. It seems, however, from recent report, that the turning-point has been reached in England, and the fact is fruitful in hope and encouragement. Money remains easy, the banks are surfeited with funds, and men of abundant means are at a loss to turn them to profit. This does not indicate the fullest return of confidence, and it is hardly to be expected that, in view of late experiences, it should be otherwise. Capital is proverbially chary of risks, even while undertaking some of the greatest, and exacts security for its investment. With prosperous trade this feeling will relax, and a greater diffusion of money will occur.

We append our *resume* of the markets in brief, noting merely that their details are almost identical with those of our last report.

BRICK.—The market is dull, and movement cannot be expected until softer weather permits the resumption of out-door labor. Prices, in default of sales, are nominally as before, but would probably strengthen with any activity in the market. We quote Pale, ℔ M, $3@3.50; Jersey, $6.25@6.50; Up river, $6.50@7.25; Haverstraw Bay, $7.25@8; Fronts, Croton—brown, $12@13; dark, $13@14; red, $14@15; Philadelphia, $28@32; Baltimore, $50@56. Yard prices, delivery included, $2@3 higher.

CEMENT.—Rosendale is quiet, but steady at $1.30 per bbl. cash. Sales of 300 bbls. Portland are reported at $4.15 per bbl., ex-vessel. Other brands are quite dull and nominal.

FIRE BRICK—Are limited in movement, and not altogether strong in price. Quotations are, nevertheless, retained.

GLASS.—The market has fallen off to the customary low limit of the season, and trade is, in consequence, quite dull. Prices of French window are steady, and discounts are firm at 60 and 5 @ 60 and 10 per cent. English sheet and polished plate inactive, but nominally steady at old quotations.

HAIR.—There is nothing new to note in this market as no sales are reported, and if any have been made they are probably small and unimportant for quotation. We quote, as before, cattle, 12@25 cents, and goat 14@28 cents per bushel.

HARDWARE.—Some improvement is noted in the market, although trade is more limited than usual for the season of the year. There have been some revisions in price lists, but we gather from them nothing new or interesting in connection with our specific line of report.

LATH—There are no changes in the market, as demand is limited and arrivals have, for the time, suspended. We quote, as before, at $2.50 per M.

LIME.—The weather restricts movement in every direction. Arrivals have completely suspended, and the demand has shrunken to very small proportions. We quote common at $1 per bbl. and finishing at $1.25 per bbl. for State and $1.50 per bbl. for Rockland. Yard prices are 25 cents per bbl. higher.

LUMBER.—The market for white pine is quiet, but prices are firmly sustained. We quote shipping orders for the West Indies $19.50@21, and for South America at $21@23. Yellow pine is inactive at unchanged quotations for export. The home market is nominally steady at the following quotations: Green flooring, $20@23; dry, $23@25; sidings, $18; timber, $20@23 for random cargoes and $23@28 for ordinary orders. Prices are rather favorable to buyers, and are shaded to meet the requirements of trade. There is some inquiry for spruce, chiefly in the direction of ordered schedules, for which, on account of their specific character, full prices are demanded. The market otherwise is inactive, and arrivals are scanty. We quote random cargoes at $16@19 and ordered do. at $18@21. Hardwoods are not in such demand as ordinary seasons would require, and movement is limited. The yard trade is also, to a great extent, under the ban of the weather, and is of moderate proportions. Current quotations at the yards are as before.

Michigan and Wisconsin Notes.

From the Saginaw *Courier*, Feb. 10:—

The scarcity of snow early in the season gave rise to fears that the contracts for putting in the winter crop of logs would not be carried out. These fears, however, were dissipated by the snowy mantel which finally covered the bosom of old mother earth, and during the last three or four weeks there has been plenty of snow, which has been used to the best possible advantage, and there are at present no immediate fears of a sudden break-up. For several weeks the *Courier* has had parties at work collecting figures of the probable crop of logs for the season of 1875, which were presented to its readers this morning. Unless unusual rains visit us in the spring, the prospect is that a large per centage of the logs put into the several streams will not reach the mills, as there has been no rain of consequence during the fall and winter, and the swamps have no water in them.

The figures for the log crop of the present season are as follows: Tittabawassee and tributaries, 305,600,000 feet; other streams in Saginaw district, 210,000,000; shore districts, 324,000,000; other streams, 699,000,000.

On the Tittabawassee there is held within the boom limits 100.000,000, while 50,000,000 are hung up on the stream. The new logs put in this winter are better quality than the cut for years previous. On this stream there will be, in all probability, from 50,000,000 to 100,000.000 feet hung up the coming season.

The amount of timber and logs handled by the boom company in Au Sable River during 1874 was 52.000.000 feet. The amount of old now in boom is 10.000,000 feet. There is nothing hung up above the boom limits. The amount of logs in feet left over from '73 to '74 was 22,000,000 feet. The amount to be put in this winter is 60,000,000, against 40,000,000 in 1874, and 120,000,000 the year previous.

On the Rifle River there is held within the boom limits about 3,500,000 feet of old logs, and none hung up.

On the Au Gres River there is held within the boom limits 3,600,000 feet of old logs, and 6,000,000 feet hung up above the booms.

At Alpena the amount of old logs held over is estimated at 25,000,000 feet.

We have no estimates of the amount of logs to be put in on the Flint River. There is held back on that stream of old logs 19.500,000.

At Otter Lake, Lapeer County, there is being put in 22,000,000 feet of new logs for the mills in that vicinity.

On the Kawkawlin River only about 2,000,000 feet of old logs are hung up on the head waters of that stream.

From Huron, Tuscola, Sanilac, and St. Clair counties we have no reports. The winter's supply, however, will show a decrease of at least 10 per cent. from last year.

From the *Lumberman's Gazette*, Feb. 6:—

We have nothing new to report in the way of transactions or indications of a re-opening of the trade. A number of parties from abroad have been in this immediate vicinity for a few days, but have given no sign as yet. In the western districts there has been a firmer feeling in regard to logs, since the winter was so far passed without any good snow, that it became apparent that the lost time could not be made up. A careful review of the logging operations in Michigan shows pretty conclusively that, notwithstanding all that has been said of their extent, the aggregate stock of logs for the coming season will be considerably short of last season's stock—probably at least 20 per cent. We have similar advices from the more western districts, while in all these districts the prospects for driving are reported to be poor—a very dry winter having followed a dry fall. With the large stocks of lumber on hand at various points, there is little danger of a general shortage in 1875, even should the demand be much better than now seems possible; but the above reports are worthy of note, because they show that the tendency has been to exaggerate the winter's operations. It is by no means impossible that natural causes will do for the log product what the National Association compact failed in accomplishing.

METALS—COPPER.—Manufactured is steady at former prices, but with a very limited amount of business. We quote new sheathing 28 cents; bolts and braziers' 30; yellow metal sheathing 21; and yellow metal bolts 28 cents net cash. Ingot is quiet, with transactions at 21¾@22 cents cash.

IRON.—The market is very dull, and some lots have been sold at very low rates. Stocks are limited, and the demand is not calculated to strengthen prices. American pig is quiet, but firm at recent figures, although a latent weakness is claimed in some quarters. Rails are generally quiet, with small sales reported. Scrap is held at $35 from yard. Manufactured is in moderate request at old prices.

LEAD.—The demand for pig is very small. Ordinary foreign is held at $6.75@6.87½, gold. Sales of domestic have occurred at $5.90@5.95. Manufactured is weaker, and we quote bar, pipe, and sheet at 7¾ cents net cash.

TIN.—Pig is little sought after, and prices are somewhat nominal. Plates have had some movement, but close quiet with firm feeling.

ZINC.—Stocks are small, but with a moderate demand; prices of sheet are unchanged.

NAILS.—Cut are weaker, and stocks are said to more than suffice for all present demands. At a recent meeting of manufacturers, it was disclosed that diminished production in the East had not been met with a corresponding movement at the West, and that the product for 1874 exceeded that of either of the two years preceding. We quote 10d. to 60d. common fence and sheathing, ℔ keg, $3.40; 8d. and 9d. common do. ℔ keg, $3.75@3.85; 6d. and 7d. common, ℔ keg, $4@4.10; 4d. and 5d. common do. ℔ keg, $4.30@4.40; 3d. and 4d. light, ℔ keg, $5@5.10; 3d. fine, ℔ keg, $5.75@5.85; 2d. ℔ keg, $6.50@6.60. Cut Spikes, all sizes, $3.75@3.85. Floor, Casing, and Box, 75 cents above the same sizes of Common—Finishing, $1 above, and Fine Finishing, $1.25 above.

OILS.—Linseed is unchanged, and is quoted steady at 75@76 cents from crushers' hands. Boiled and refined at 84@85 cents per gallon.

PAINTS.—Foreign goods have been in fair demand, but the market is generally quiet at steady prices. Vermilions are firm, with sales of American quicksilver at $1.83, gold. Paris green is in good request, with sales of C. T. R., strictly pure, at 33, of Genuine at 30, and of Montauk at 18 cents. Venetian Red is steady, selling at 2¼@2¾ cents, currency, and at $1.90@2, gold. Paris white has been in fair demand, sales of Crown $1.90 and of Queensgate at $1.80@1.90, all gold. China clay is selling, to arrive, at $20, gold. White lead has been in request at 11¾@12 cents, currency, and 10¾ cents, gold, for foreign. Rochelle Ochre is selling at $1.65, gold.

PITCH.—The market is steady at $2.25 per bbl. for city, f. o. b.

SPIRITS TURPENTINE.—Business has been limited, and the market has become weaker and unsettled, with sales at 37½@38 cents per gallon. We quote at 37½@39 cents.

TAR—Is dull and nominal at $2.12½ for Newbern and Washington and $2.25 per bbl. for Wilmington.

A GOOD INVESTMENT

EVERY PRUDENT MAN, CAREFUL OF THE

health and comfort of his family, should see to it that his drinking water is conveyed through TIN-LINED LEAD PIPE, which is a perfect safeguard against lead poison. Tin-lined Lead Pipe is strong, durable, flexible, and easy soldered. It is a great benefit to the community, and enhances the real value of every house in which it is introduced. It is cheaper than Lead Pipe, when strength and durability are considered. Sold by the COLWELL LEAD CO., 213 Centre St., New York. Price, 16½ cts. a pound for all sizes. Descriptive pamphlets sent by mail free. Also, manufacturers of Lead Pipe, Sheet Lead, Block Tin Pipe, Bar Tin, Pig Tin, Bar Lead, Pig Lead, Solder, &c. Orders filled at sight.

MORTGAGES.

REAL ESTATE.

NEW YORK.

NOTE.—The arrangement of this list is as follows: The first name is that of the mortgagor, the next that of the mortgagee. The description of the property then follows, then the date of the mortgage, the time for which it was given, and the amount. The general dates used as headings are the dates when the mortgage was handed into the Register's office to be recorded.

Wherever the letters "P. M." occur, preceded by the name of a street in these lists of mortgages, they mean that it is a Purchase Money Mortgage, and for fuller particulars see the list of transfers under the corresponding date.

MISCELLANEOUS.

REVIEW OF THE REAL ESTATE MARKET.

The week has not been without incident. Numerous public sales, some of which include property of leading importance, have been made, and business at the Exchange has not been confined to legal forfeitures. Prices have been generally good, the nature of the offerings exciting interest, and competition was quite active. There was not, however, that free bidding which was a feature of the market in its brighter days, and buyers were cautious and calculating, striving for bargains upon small offers until the limit of price was reached. Under these circumstances the sales were prolonged, although, in several instances, we think that a fair standard of value was attained. The effect has been to brighten the hopes and excite the confidence of real estate men, and, although a general reaction is not early expected, there is certainly more heart in the market. It should be observed, however, that the property concerned in the transactions of the week is not of the class generally known as speculative, and is located in the lower regions of the city, which have withstood, in their time, all the diversities of the market, and have passed the transition point in values. The proof is nevertheless presented, that capital is waiting for investment, and will be placed in real estate when opportunity is given, separate from the uncertainty of so-called fancy prices.

Aside from the public transactions, the market has been quiet, and we have not been favored with any reports of new contracts. Unimproved property remains *in statu quo* as to movement or opinions, and values are consequently undecided and nominal. Rents are not active, and inquiry falls short of the customary movement for the season. The quest for cheaper living is apparently increasing, and is more wide-spread than we have hitherto supposed. Suburban indications lead to the belief that the draft upon our population will be enlarged, and that ample preparations are making for its accommodation. The building outlook in neighboring towns and cities is brighter, and much activity is manifest in that direction, as a demand for material has arisen, which, not met with here, plainly shows that there are wants to be supplied. These wants are only to be accounted for by an actual or impending influx of population.

Rapid transit still hangs in the balance, very much on the wanting scale, without any better prospect for relief.

The completion of up-town improvements, to which we have heretofore adverted, and which has been urged by the Mayor, has not been brought nearer to conclusion. The Common Council seems to us, in many respects, to be lacking in energy, and not fully alive to the duty of offering suggestions or preparing enactments that will enable the Legislature to supply the requisite authority for pushing the public works. Delays are fatal, in many respects. If improvements are to be furthered they should begin this Spring, and if the many disadvantages under which property owners and citizens generally labor are worthy of relief, there is no propriety in deferring the remedy until another year.

LOCAL ITEMS.

Creditors of Pensacola Lumber Co. are notified to deliver their respective accounts to C. Edgar Smith, Receiver, No. 56 Wall Street, by the first of May, next.

The Controller asks for proposals, until March 4, at 2 P. M., for $985,600 Stocks of the City of New York.

The Commissioner of Public Works reports the following Certificates of Cost of Improvements, transmitted to the Board of Assessors: Laight Street, between Varick and Hudson streets, sewer, $1,343; One Hundred and Eighth Street, between Fifth Avenue and East River, regulating, grading, &c., $112,921.21; Madison Avenue, between One Hundred and Fifth and One Hundred and Twentieth streets, regulating, grading, &c., $246,097.04; Seventy-seventh Street, from Ninth Avenue to Boulevard, regulating, grading, &c., $50,692.40; total, $411,053.65.

The Board of Education asks for proposals for awning required for the Nautical School-ship.

COURT OF APPEALS DECISIONS.

A, having given to B a mortgage of lands conditioned for the payment of $4,000 to secure $2,000 then loaned, and a further loan of $2,000, to be thereafter made, but which last $2,000 was never in fact received by A, conveyed the premises subject to the mortgage, and by divers subsequent conveyances, each expressly subject to the mortgage, the same came to the defendant. The plaintiff, who was a creditor of A, purchased the mortgage, with full knowledge of the facts, paying to B the $2,000 actually loaned and giving A credit for the balance of the $4,000 secured.

In an action to foreclose: *Held*, that the mortgage was a lien upon the premises for the entire sum of $4,000, and the plaintiff had a right to foreclose it for that amount. That one who holds real estate under a deed which, by its terms, is subject to a prior mortgage, is estopped from questioning the consideration or validity of that mortgage. That an assignee of such mortgage can enforce it as a lien to the full amount expressed therein against such grantee, although the purchaser of the mortgage purchased the same with full knowledge that but one-half of the sum was actually loaned, and paid to the mortgagee the like sum only as consideration for the assignment.

To preserve the lien of a chattel mortgage through successive years it is not necessary that a copy should be filed each year. The Statute requires but two conditions, first, that it be filed; second, that a copy, with a statement exhibiting the interest of the mortgagee, be also filed within thirty days next preceding the expiration of the year from the first filing. This having been done, no further filing is necessary to make the mortgage a continuing security.

Under a contract of sale of land, a portion of the purchase money to be paid on a specified day, and the remainder to be then secured by bond and mortgage, "to be delivered on the delivery of a deed," if the money is paid, a tender of the deed is necessary to put the purchaser in default, or work a forfeiture, so as to defeat his right to a specific performance.

If an extension of the time for the cash payment is given, at the request and for the accomodation of the purchaser, with notice that the contract must be closed at the expiration of that time, and that no longer extension will be given; upon payment being then made, a tender of the deed is still necessary to put the purchaser in default. So long as neither party makes any tender, of the deed on the one hand or of the bond and mortgage or money on the other, neither party is in default, and the contract subsists. Either party may make the proper tender and insist upon specific performance at any time until barred by the statute of limitations.

Where a building contract provides that the last installment shall be paid "when all the work is completely finished, and certified to that effect by the architect," under whose direction the work was to be done, production of the certificate of the architect is conclusive, unless obtained through fraud or mistake. If the contract prescribes no specific form, a certificate that "the last payment is due, as per contract," is sufficient

BUREAU FOR THE COLLECTION OF ASSESSMENTS.

Property owners are notified that an assessment list for the purposes designated below has been lodged for collection. The limits of property affected thereby have been heretofore published in this paper.

Seventy-fifth st., from 5th av. to the East River, regulating, grading, setting curb, gutter, and flagging.

All payments made on the above assessment on or before April 19, 1875, will be exempt (according to law) from interest. After that date interest will be charged at the rate of seven (7) per cent. from Feb. 5, the date of confirmation.

MARKETS.

The course of the markets for the past week shows nothing new. Trade has been generally inactive, and prices have fluctuated or have been sustained under exactly similar conditions to those heretofore enumerated. There has arisen, nevertheless, a more confident feeling, drawn from rumors of projects to be carried out, and influenced also by the knowledge that there is a probability of more extensive building operations than marked the earlier portion of last year. Inquiry in various directions has been more ample, and a demand upon winter stocks seems imminent. Prices will probably strengthen with the earliest call upon the markets, and in some instances such a movement seems impending. Confidence is gradually but surely gaining ground, and hope is full of expression. Remark has been made that the dullness of trade has not been as complete as might have been expected, and that times are by no means of the hardest. Money continues easy, and this fact is the only obstacle to belief that a change is at hand. A few weeks, however, may turn all this, and capital naturally seeking for investment may be diverted to channels filled with fair, if not bountiful, results to all dependent upon their flow.

Our review in detail is appended:

BRICK—Are nominally steady under conditions previously noted. The only stocks attainable are held in yard at old figures, and no demand has yet arisen to move the market. A fair amount of inquiry has developed, and there are indications that the demand will be fairly supported when once initiated. Should mild weather prevail during the coming month building operations will be accelerated, and even with early arrivals from the river prices would doubtless advance. There are rumored projects which, if executed, are expected to call largely for material, and if the hopes which these rumors excite are realized a better spring trade than has hitherto seemed likely to prevail will probably follow. We quote, as heretofore, Pale, ℔ M, $3@3.50; Jersey, $6.25@6.50; Up river, $6.50@7.25; Haverstraw Bay, $7.25@8; Fronts, Croton—brown, $12@13; dark, $13@14; red, $14@15; Philadelphia, $28@32; Baltimore, $50@56. Yard prices, delivery included, $2@3 higher.

CEMENT.—The market continues quiet but steady, and no sales are reported. Rosendale is firm at $1.30 cash, and Portland varies somewhat in quotation, as it is held more firmly in some hands than in others. We quote it generally at $4.15@4.50 per bbl., the latter price being for small lots, f. o. b. Other quotations are as before.

FIRE BRICK—Have very little movement, and sales are slow. Red Welsh are firmly held at $50, and we lower our quotation on Scotch to $40 per M, as we are informed of lots offering at that price. The general range of the market, however, is about $47.50@55 per M. American are steady as previously quoted.

FOREIGN WOODS.—The market is quiet, but quotations are well sustained. The sales in January were ample to supply the demand up to the present time, as purchases seem only to be made for immediate wants. Stocks of cedar and mahogany are large, but the supply of rosewood is limited.

GLASS.—The season operates against the market, and the demand is of very moderate proportions. Prices of French window are slightly off, discounts quoting at 60 and 10. English sheet and polished plate continue dull but nominally steady at our quotations.

HAIR.—The market is inactive, and quotations are nominally the same as heretofore given, viz., cattle 12@25 and goat 14@28 cents per bushel.

HARDWARE.—The market has not been very active, but a moderately fair demand is reported, with trade somewhat of a jobbing character. There is a weaker tendency in some respects, but there has been no general revision of price lists to that effect. Copper rivets are quoted at 35@40 per cent. discount. Strap and T. hinges are unsettled, and prices are altogether nominal. The Stanly Rule and Level Company announce a cash discount of 10 per cent. on all goods except boxwood and ivory rules and miscellaneous articles. Boxwood rules are quoted 70 per cent. off. Other revisions in price lists are expected.

LATH—Are quiet but firm at $2.50 per M. There have been sales of about 800,000 at that price since our last report. Few are coming forward, and possible arrivals are not expected to lower the quotation.

LIME.—There is very little movement in the market, and whatever demand arises is of a jobbing nature. Prices are quite strong, and expected eastern arrivals are quoted at $1.25 per bbl., but no sales are reported at that figure. We quote, as usual, common $1 and finishing $1.25@1.50 per bbl. Yard prices 25 cents per bbl. additional.

LUMBER.—Trade is pretty quiet, with a strong feeling in some particulars which keeps the market steady and firm. The demand for white pine for export is very limited, but while sales have been few holders are of firm opinions, and quote West Indian orders at $19.50 @23 and South American at $23@25. Yellow pine is dull, and prices are nominally steady as previously quoted. There has been very little business in spruce as there have been no arrivals, but cargoes on the way are expected to be placed without difficulty as the demand, almost entirely limited to out-of-town trade, seems improving. Quotations are steady, and we are informed that manufacturers are very firm in their opinions, refusing orders at any lower figures. We quote random cargoes at $18@19 and ordered schedules at $18@21. Hardwoods are unchanged. The yard trade has been moderate, falling off somewhat with the later days of the month. Stocks seem ample for all present requirements, and quotations are nominally steady as heretofore given.

Michigan and Wisconsin Notes.

From the *Lumberman's Gazette*, Feb. 13:—

There is at least something new to report in the way of indications, at least, of a revival of the trade. A few dealers have begun to look about in the producing districts of the West, and though there is as yet very little to report in the way of transactions, the change is appreciated. In the further western regions a better feeling is reported, while in Michigan the manufacturers are hopeful of a remarkably active movement on the opening of navigation. Operations in the woods continue very lively at all points, and every exertion is being made to get the skidded logs to the streams. The extreme cold has, however, frozen swamps and streams to the very bottom in many places, and it is feared that the light snow may melt and run off on the hard crust and earth without making freshets in the water courses. The logging this winter is farther than ever from the main streams, and of course the driving, having to be done largely upon the smaller streams, is more than usually dependent upon good freshets.

From the same:—

During the last few days there have been some indications of a little revival of business in lumber in the producing districts of the West. In Wisconsin the unfavorable winter is reported to have considerably stiffened the price of logs, and lumbermen are more hopeful of the coming season than for some months back. In the Saginaw region buyers have begun to put in an appearance, though at rates which do not meet the views of manufacturers. Some sales have been made, however, and though they have been neither remarkably numerous nor large in amount, they have served to relieve the dead monotony of the past few months.

The inland mills of Michigan and Wisconsin are being stocked heavier than usual this winter, and their owners are looking for a better trade because of the expected diminution of the supply from the great river districts. There is, we believe, no general expectation of a betterment of prices to any material extent, but there are many who are expecting quite a lively movement as soon as the spring opens.

From the same:—

The aggregate amount of lumber cut on the Au Sable River, Michigan, in 1874 was 28,000,000. There was left to carry over this winter 5,000,000, of which 1,000,000 is sold. Logs left over, 10,000,000.

There will be put into the Au Sable this winter about 60,000,000 feet of logs, which is 10,000,000 more than was put in last winter, and only about half as much as was put in in 1872-3.

From the *Lumberman's Gazette*, Feb. 20:—

Within the week last past, the indications of a revival in business which were mentioned in the last number of the *Gazette* have continued, and in some instances have been even more decided and favorable than before. Dealers are looking in a quiet way through the western districts, and seeing how far present plans may be carried out. The feeling, generally, in regard to logs and lumber may be said to have improved, though it cannot be said that the change in the minds of the dealers has kept pace with the change among the manufacturers. The latter, having the most direct and recent information from the woods regarding the prospects for the coming log crop, are stiffer as to prices than others yet see reason to be.

In the Bay City market some large sales have been reported within a week. We note the sale for the New York market of 900,000 feet of lumber at $5, $10, and $30; 500,000 feet at $6, $12, and $37; 500,000 feet at $5.50, $11, and $33; and 600,000 feet at $5.50, $11, and $35. These sales aggregate 2,500,000 feet, and were made at rates which may be said to be better than have been predicted. A great deal of last year's lumber in this market was sold at $5.50 and $11, and not a little at even less than those figures.

From the same:—

The following is a comparative statement of lumber manufactured in St. Croix valley during the last two years: Season 1874—Lumber, feet, 85,774,149; lath, pieces, 24,119,345; shingles, pieces, 41,412,075; pickets, pieces, 265,650. Season 1873—Lumber, feet, 88,063,976; shingles, pieces, 20,000,000; lath, pieces, 22,477,000.

The highest figure obtained for logs during the season was $13.75 per M feet for choice logs, rafted at Stillwater. The lowest figure was $6.20 for logs not rafted. Estimated, 12,000,000 feet of logs in the St. Croix above the boom and below Taylor's Falls; at Stillwater some 12,000,000 feet of logs, mostly rafted; and 10,000,000 feet of logs tied up below Lake Pepin.

Estimate of logs to be cut the present winter:

Totogatic and Eau Claire rivers, feet	21,000,000
Nimeacoggin	12,000,000
Clam and Yellow	21,000,000
Apple	4,000,000
Upper St. Croix	9,000,000
Kettle and Tamarac	9,500,000
Wood	8,000,000
Snake and tributaries	33,500,000
Total	118,000,000

From the Bay City *Tribune*, Feb. 20:—

The almost total cessation of activity which has characterized the lumber market all winter was broken a few days ago by a sale of 300,000 prime stock by Hitchcock & Ingraham at the rate of $6, $12, $35. This has been followed by a larger sale—amounting in money value to about $30,000—of 2,500,000 feet by various parties to Alex. McRoberts for the eastern market. This latter sale averaged $6, $12, $35 for good stocks, and $5.50, $11, $33 for inferior quality.

The Saginaw *Courier* prints an exhaustive review of the lumber business of Canada, and after enumerating the principal mills of that district with their respective products, gives the following:

RECAPITULATION OF CANADA PINE LUMBER, DEALS, TIMBER, &C., FOR 1874.

Stock and siding boards produced by the mills enumerated	864,000,000

Approximately and which falls 200,000,000 short of the shipments for 1873.

COMPARATIVE VIEW OF PRICES AT THE OPENING OF THE SEASON OF 1874, JUNE 10.

A standard deal at Quebec being 2,750 feet to 100 pieces.

Pine standards 1sts $108, rate boards measure $39.28 per M.

Pine standards 2ds $72, rate board measure $26.19 per M.

Pine standards 3ds $36, rate board measure $13.09 per M.

Pine standards 4ths $28, rate board measure $10.19 per M.

Spruce 1sts $44, rate board measure $16 per M.
Spruce 2ds $36, rate board measure $13 per M.
Spruce 3ds $28, rate board measure $10.18 per M.
Spruce 4ths $28, rate board measure $7.27 per M.

We have embraced the spruce here for the purpose of showing the relation it bears in the European markets, through which a comparison can be made by our heavy manufacturers at Glens Falls, N. Y., and Williamsport, Pa., with the prices they get at their mills for the same class of stuff usually made into joists. But in relation to the above table of prices, it must be said that they did not rule through the season, but fell off fully 10 per cent., at which they now stand.

At the opening of 1874 pine, per cubic foot, sold at 35, 25, and 20 cents.

At the opening of 1874 oak, per cubic foot, sold at 47½ to 50 cents.

At the opening of 1874 elm, per cubic foot, sold at 37½ to 40 cents.

At the opening of 1874 walnut logs sold from 80 to 85 cents.

All of which, except the walnut, dropped to 12 per cent. The usual proportion of square timber is about three-fourths pine, one-twelfth of which is red. The hard woods are oak, elm, ash, birch, bass, white tamarac, walnut, maple, hickory, spruce, and hemlock count about one-sixth.

In the Georgian Bay and Simcoe District there was produced this year about 79,000,000 less than last, and the logging will add 50,000,000 to the product of 1874. The Toronto and Nippissing districts will put in 31,000,000, against 15,000,000. Port Whitby will scarce hold good her 30,000,000 of new. The Port Hope, embracing the Peterborough, Rice Lake, and Lyndsey mills will add to their 70,000,000, and perhaps make it 100,000,000. The Trenton mills will add 10,000,000 to their 20,000,000. The Belleville mill point and Nappanee mills, including the Kingston with their old stock, will also add materially to their amount of 1874, making at least 150,000,000. The district outlying Brockville will be restrained by lack of power to move their stock to the front, and will probably not more than market their 100,000,000 in 1875.

The Ottawa region, unlike the other sections, occupies an enviable position, inasmuch as she has the privilege of choosing the best of three different markets, and can ship to them all by water conveyance to the United States, the European, or the South American and Australian. She has also such superb mill establishments, and does the work of cutting in such a neat style that she often gets fancy prices for even a low grade article, because it looks well in bulk. Though her reserved stocks are 30,000,000 less than they were in 1873, and her cutting in the woods is exceedingly light, yet her harbors being filled with held-over logs, her members of the trade will be able to largely increase the aggregate for 1875 over that of 1874. It could be done to the extent of 100,000,000 if the demand warrants it. Her mill men, with those of the Lower Ottawa and St. Lawrence operators being in financial circumstances above panic influences, generally can watch and wait, or work, as pleases best, and having no burdens resting upon them in the shape of timber land taxes or interests, they can well afford to rest a season or two if exigencies require. These firms could put into the market for 1875 450,000 000 without straining a single nerve, and the St. Lawrence mills could add 50,000,000 and make theirs 500,000,000, which, however, is not proposed by either party. But there is one feature regarding the Canadian forest product that ought not to be lost sight of. The square timber trade received such a rude shock that many of the houses have utterly refused to go into the woods at all this winter, which will have a tendency to clean out the stocks on hand and doubtless diminish the amount marketed considerably, and as much of that wood is put into deals after it arrives in Europe, its loss may be required to be made good by the manufactured article.

STOCK ON HAND.

Stocks of lumber on hand and to be probably made may be given as follows:

	Held over. M feet.	Logs for '75. M feet.	Amount total. M feet.
All above the Ottawa district	345,000	741,000	1,086,000
The Ottawa region to Montreal, inclusive	310,000	471,000	781,000
The St. Lawrence Mills approx.	150,000	305,000	455,000
The amount that might be crowded into the market			2,322,000
But it is reasonable to expect as much to be held next as this year			805,000
Giving about the amount sold 1873			1,517,000

In closing this review of the Canada lumber trade, the first we have ever seen, we have to say these statistics have been gathered at great labor and expense, and should be regarded by the trade as furnishing many suggestive points valuable to every one in the business.

We close by a recapitulation of the lumber stocks held at the front of New York and Vermont States and in the market:

At Buffalo	27,000,000
Tonawanda	31,000,000
Oswego	39,000,000
Ogdensburg	42,000,000
Burlington	61,000,000
Whitehall	20,000,000
Albany	84,000,000
	304,000,000
Stock on the Canada front	353,000,000
In and near the United States market	657,000,000

We do not profess that these figures are positively accurate, but as near as can be made.

Pennsylvania Notes.

From the Williamsport (Pa.) *Gazette and Bulletin*, Feb. 5, 1875:—

The lumber trade continues very much depressed, and there are no signs of an early improvement. There are no inquiries worth speaking of, and the shipments show a decline of nearly one-half as compared with the business of 1874 thus far. For the month of January the amount of lumber sent to market reached 6,141,730 feet. During the month of January, 1874, the shipments amounted to 12,430,400 feet, requiring 1,294 cars for its transportation. In January, 1873, there were 796 cars and 7,197,240 feet forwarded. From these statistics it will be seen that the traffic is lighter now than it has been for several years.

The shipments from points south of Troy show an increase over those of January, 1874, of 25 cars and 270,845 feet, while those from points between Renovo and Lock Haven show a decline of 15 cars and 114,840 feet. The bark shipments for January last show an increase of only two cars over those of January, 1874.

METALS—COPPER.—Manufactured continues without change and is quiet and steady at the following quotations: New sheathing 28 cents; bolts and braziers' 30; yellow metal sheathing 21; and yellow metal bolts 28 cents net cash. Ingot is quiet, with little inquiry and limited transactions at 21¾@22 cents cash.

IRON.—Scotch pig is very dull, sales being slow and infrequent. American pig is firm, and prices in some instances have been advanced, although the movement has not yet become general. Purchases are limited to the necessities for immediate supply. Rails are very quiet with few sales, the only report at hand being of 300 tons new American, 30 lbs., at $53, delivered here. Scrap is quoted at $35 from yard, but no sales are reported. Manufactured from store is inactive at old prices, which are firmly sustained.

LEAD.—There has been some demand for foreign pig, which is still held at $6.75@6.87½, gold. Domestic is dull at $5.87½@5.90, gold. The prices of manufactured have again changed, and we quote bar 8⅝ cents, pipe 9, and sheet 9⅛, all less 10 per cent. to the trade. Block-tin pipe 45 and tin-lined pipe 16½ cents.

TIN.—English quotations for pig are lower, and as the demand here is light, the market is weak. Plates are quiet, and prices are depressed with the effect of unsettling the market.

ZINC.—Sheet is not active, but is quoted steady at 9@9¼ cents.

NAILS.—Cut are dull but steady at recent prices. We quote 10d. to 60d. common fence and sheathing, ℔ keg, $3.40; 8d. and 9d. common do. ℔ keg, $3.75@3.85; 6d. and 7d. common, ℔ keg, $4@4.10; 4d. and 5d. common do. ℔ keg, $4.30@4.40; 3d. and 4d. light, ℔ keg, $5@5.10; 3d. fine, ℔ keg, $5.75@5.85; 2d. ℔ keg, $6.50@6.60. Cut Spikes, all sizes, $3.75@3.85. Floor, Casing, and Box, 75 cents above the same sizes of Common—Finishing, $1 above, and Fine Finishing, $1.25 above.

CLINCH NAILS.

1¼ to 1½ in	2 & 2¼ in.	2½ & 2¾ in.	3 in. and longer.
$6@6.25.	$5.75.	$5.50	$5.25 ℔ keg.

OILS.—Linseed is unchanged; steady, although quiet, at 75@76 cents per gallon for casks and bbls. in lots from crushers' hands. Boiled and refined quoted at 84 @85 cents per gallon.

PAINTS.—There has been a fair demand, the market closing quiet but firm. Venetian Red is steady, with sales of Crown at $1.90, gold, and of Cookson's and C. T. R. at 2¾ cents, currency. Paris white has been in good request at $1.80@2, gold. White lead has been selling at 10½ cents, gold, for B. B. ground. China clay has been in some demand at $25, currency, and $21, gold, for English. Sales of Vermilions have been at $2.50 for China, $1.70 for Trieste, and $1.82½ for American quicksilver in bulk, all gold.

PITCH.—The market has been generally quiet, with later sales at $2.25 per bbl. for city, f. o. b.

SPIRITS TURPENTINE.—The demand has been very light, and the market has become still weaker, sales having been made at 36½ cents per gallon for merchantable. Toward the close prices rallied to 37@ 37½ cents, and we now quote at 37@38 cents per gallon.

TAR—Is dull, and we quote Newbern and Washington at $2@2.12½ and Wilmington at $2.25 per bbl.

A GOOD INVESTMENT

EVERY PRUDENT MAN, CAREFUL OF THE health and comfort of his family, should see to it that his drinking water is conveyed through TIN-LINED LEAD PIPE, which is a perfect safeguard against lead poison. Tin-lined Lead Pipe is strong, durable, flexible, and easy soldered. It is a great benefit to the community, and enhances the real value of every house in which it is introduced. It is cheaper than Lead Pipe, when strength and durability are considered. Sold by the COLWELL LEAD CO., 213 Centre St., New York. Price, 16½ cts. a pound for all sizes. Descriptive pamphlets sent by mail free. Also, manufacturers of Lead Pipe, Sheet Lead, Block Tin Pipe, Bar Tin, Pig Tin, Bar Lead, Pig Lead, Solder, &c. Orders filled at sight.

SOAPSTONE WASH TUBS.

A MUCH AND LONG NEEDED IMPROVEMENT.

None More Simple & None so Durable.

We are now manufacturing in this city to order, Wash Tubs and Sinks of the celebrated Francetown Soapstone.

Of the annoyance, costly repairs, and filthiness of our present wash tubs the public need not be told—experience has taught them. The superiority of them over wood is, they do not absorb the wash water and slops, consequently preventing that *disagreeable odor* in the house. They are easily kept sweet, clean, and dry *They are not affected by hot or cold water. Never crack or leak.*

Cheaper than Wood, and will last a Lifetime.

They only need to be seen to be appreciated. All interested we invite to call and examine them at our warerooms.

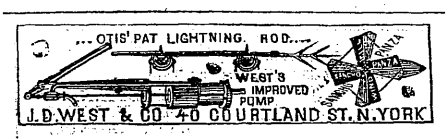
CHASE'S
PIPE CUTTING & THREADING
MACHINE.



This important tool is designed to fill a want long felt by STEAM AND GAS FITTERS and MACHINISTS for cutting and threading pipes rapidly and cheaply. An apprentice boy, with one of these, can do more work than two men with old appliances, under the old system. NO PIPE SPLITTING! NO BEVEL INSIDE OR OUT! It cuts threads and makes nipples for all sizes of pipes, from ⅛ to 2 inches. Weighs only 100 lbs. Stronger than any machine made. A set of collars and lengths for making nipples goes with the machine. Address THE CHASE MANUFACTURING COMPANY,

MORTGAGES.

REAL ESTATE.

NEW YORK.

NOTE.—The arrangement of this list is as follows: The first name is that of the mortgagor, the next that of the mortgagee. The description of the property then follows, then the date of the mortgage, the time for which it was given, and the amount. The general dates used as headings are the dates when the mortgage was handed into the Register's office to be recorded.

Wherever the letters "P. M." occur, preceded by the name of a street in these lists of mortgages, they mean that it is a Purchase Money Mortgage, and for fuller particulars see the list of transfers under the corresponding date.
