LEGAL NOTICES.

THIS IS TO CERTIFY THAT THE SUBSCRIBERS, Charles H. Kerner and William S. Gottsberger, have, in pursuance of the provisions of the Statutes of the State of New York, formed a limited partnership under the style and firm of WILLIAM S. GOTTSBERGER, that the general nature of the business to be transacted is to be publishing, printing, engraving, lithographing, and of manufacturing stationers in the City of New York.

The names of all the general and special partners therein are: Charles H. Kerner, who resides at the Clarendon Hotel, in the City of New York, who is a special partner; and William S. Gottsberger, who resides at the Everett House, in the City of New York, who is the general partner.

The amount of capital which the said Charles H. Kerner has contributed to the common stock is Twenty Thousand Dollars.

The partnership is to commence on the first day of May, 1879, and is to terminate on the first day of May, 1883.

In witness whereof, we have signed this certificate, the 30th day of April, 1879.

CHARLES H. KERNER. [L. S.]
WM. S. GOTTSBERGER. [L. S.]

City and County of New York, s s:

On this thirtieth day of April, 1879, before the subscriber, a Notary Public of the City of New York, in the County of New York, came the above named William S. Gottsberger and Charles H. Kerner to me personally known to be the same persons named in and who subscribed the foregoing certificate, and each of them acknowledged that they executed the same as their deed.

In witness whereof, I have hereto set my hand and seal the 30th day of April, 1879.

[SEAL.] DAVID W. PRICE,
Notary Public (81), New York Co.

City and County of New York, s.s.:

William S. Gottsberger, being duly sworn, saith that the sum of Twenty Thousand Dollars specified in the certificate hereto annexed, made by deponent and Charles H. Kerner, as having been contributed to the common stock of the limited partnership of William S. Gottsberger, by Charles H. Kerner, has been contributed by the said Charles H. Kerner to the said common stock of the said limited partnership, and has been actually and in good faith paid in cash to the stock and capital thereof.

WM. S. GOTTSBERGER.

Sworn and subscribed before me, April 30, 1879.

[SEAL.] DAVID W. PRICE,
Notary Public (81), New York Co.

NOTICE IS HEREBY GIVEN THAT THE LIMITED partnership formed and subsisting between Fanny Halsey, and James M. Allen, and Anna M. Rosenbaum, who respectively reside in the city of Brooklyn, County of Kings, and the State of New York, for importing and jobbing acids, dye-stuffs and East India goods, under the firm name of HALSEY & ALLEN, is hereby continued and renewed from the first day of May, 1879, to the first day of May, 1880, on which last-named day the same shall terminate. That all the parties interested therein are the said Fanny Halsey and James M. Allen, who are the general partners, and the said Anna M. Rosenbaum, who is the special partner, and that said Anna M. Rosenbaum has contributed the sum of Twenty-five Thousand Dollars as capital to the common stock, and that the place of business of said partnership is the City of New York.

DATED, NEW YORK, May 1, 1879.

THIS IS TO CERTIFY THAT THE UNDERSIGNED have formed a limited partnership under the devised Statutes of the State of New York, to be conducted under the firm name of HELFENSTEIN & BOURKE.

That the business to be carried on by said partnership is the manufacture and sale of articles known as "Bourke's Patent Adjustable Sleeve Buttons," and also any other articles under any improvements thereon.

That the names of the general partners interested therein are Charles B. Helfenstein and William Bourke, both residing in the City of New York, County and State of New York.

That the name of the special partner is Francis W. Pollock, residing at 153 Clymer street, in the City of Brooklyn, County of Kings.

That the special partner, Francis W. Pollock, has contributed the sum of Two Thousand Dollars in cash to the common stock of said partnership.

That the said partnership is to commence on the 10th day of May, 1879, and end at the expiration of the period for which the patent above mentioned, or any renewal or re-issue of the same was or may hereafter be granted.

DATED New York, May 10, 1879.

A SIMPLE SYSTEM OF HOUSE DRAINAGE.

House drainage has long since been taken out of the field of the theoretical and transferred to the field of the practical. We no longer need scientists to tell us that gaseous exhalations from sewers, soil-pipes and drains are poisonous and detrimental to health, that their absorption into the human system readily lays the foundation of malignant disease. We no longer need the chemist to describe the composition of these gases, nor do we require to pursue our investigations into the science of hydrostatics and hydraulics to account for the mysterious siphonings of traps. Drains or outlets into the street sewer are justly regarded with the same aversion as is the ancient and foul privy sink. The problem which has engaged the attention of accomplished engineers, as well as the best workmen of the plumbing trade, is how to prevent the escape of sewer gases into human habitations. Having acquired nearly all the science of the subject, it only remains to apply this knowledge to some practical solution of the question. This solution is to be found in experiment and practice, and not in theorizing. We have reached the conclusion that nearly all the safety appliances, albeit ingenious and patented, are untrustworthy or inefficient, while not a few of them are mere catch pennies or downright frauds upon the public. Dependence exclusively upon traps closed by a water seal is proved to be delusive and fatuous. The water seal of a trap may be siphoned or broken by back pressure; it may evaporate or transmit gases by saturation. In any of these cases protection is lost.

As the result of no little reflection, as well as of much practical experimentation, we now present to our readers the results of our latest and most mature study upon this subject. Referring to the accompanying wood cut, we would observe that the distinctive features of this system are embraced under three heads.

1st. *The Separation of Water-Closet Drainage from all other Drainage.*—The evil effects of connecting basin and tub drain pipes with the water-closet soil pipe, or, as it is usually done, with the water-closet trap, may be easily shown. The combined mass of water and excrement discharged from the water-closet is sufficient to completely flush the calibre of the usual four-inch pipe. The descent of this mass acts like a piston, creating a vacuum which will instantly siphon the contents of all the traps throughout the system. Even though the water-closet itself may be ever so well guarded, if the seals of basin traps are broken, though for a short time, there will be an escape of sewer gas sufficient to poison and impair the atmosphere of the dwelling. In the system which we present, this contingency is guarded against by providing a separate pipe of four inches diameter to receive the outflow of water-closets and slop hoppers. In practice, the water-closet is often made to serve the double purpose of these two fixtures, although occasionally an extra fixture is provided for chambermaid's slops. In either case the system calls for the use of the modern English closet, the outlet of which is closed by a solid plunger which is water-tight, and consequently gas-tight. The single objection urged to these closets is, that they are supplied through a valve-cock liable to get out of order, and to continue the flow of water long after the handle is dropped. Hence it becomes necessary to provide an over-flow. In most closets this over-flow is trapped and protected with a water-seal, but as this seal may be broken the overflow becomes a point of danger. There are two ways of overcoming this difficulty in the system which we propose. The first and the better way is to connect this overflow drain-pipe, as shown in cut, and to be hereafter described. Second, to dispense with the overflow entirely and supply the water-closet with an ordinary stop-cock, or through a cistern furnished with a ball-cock, and quantitative service valve, that is, a valve which delivers only a specified quantity and acts reliably and without any risk of getting out of order. This objection to the modern sanitary closet is strongly fortified by ignorance or indifference, but it may be easily overcome and sufficiently guarded against by the exercise of a little practical intelligence.

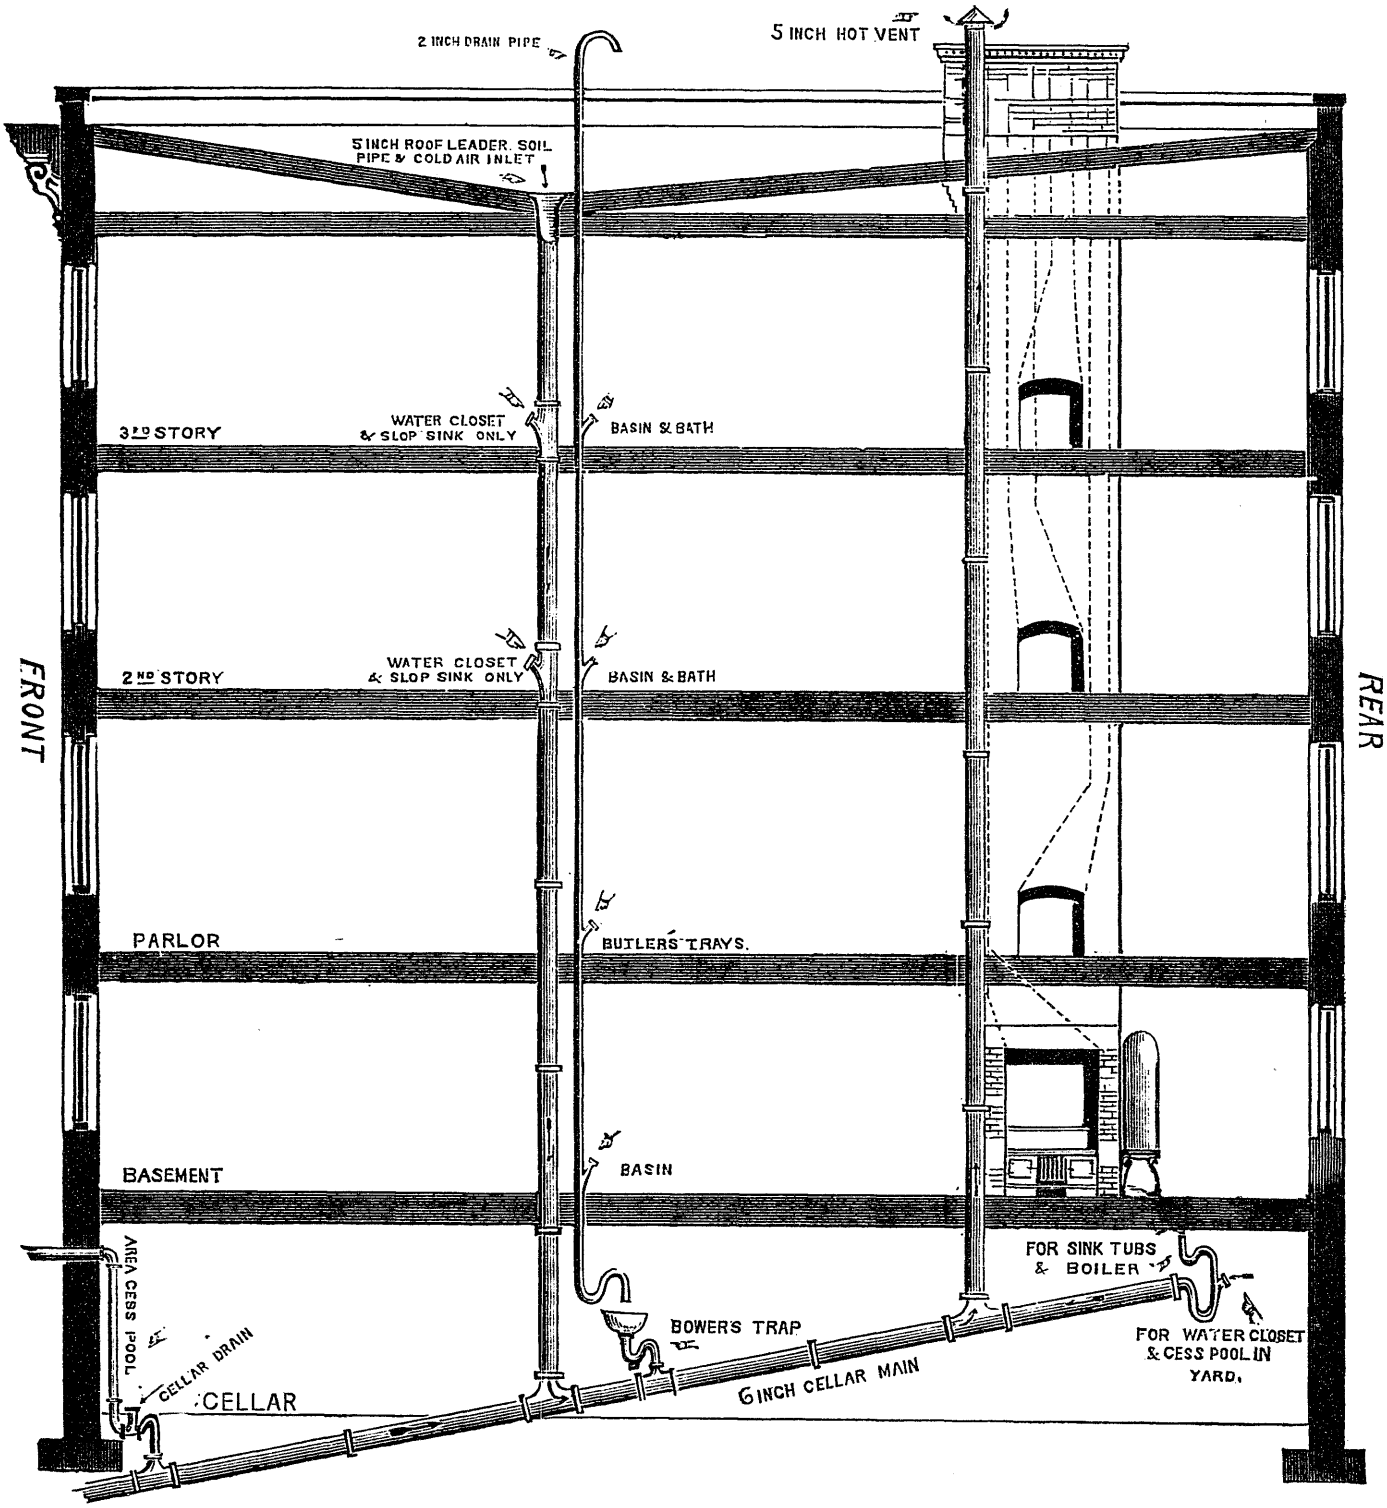
The four-inch pipe can also be made to answer as a roof leader which will commend this system on many accounts besides that of economy.

The second vertical pipe, described as the two-inch drain pipe, is carried from the cellar to a point above the roof. Instead of connecting it directly with the horizontal soil pipe in the cellar, this pipe should be first trapped and then allowed to discharge its contents with an open mouth into a fixture provided at a convenient point in the cellar, the latter being connected with the horizontal soil pipe, and the connection protected by a safe and reliable trap. Into this two-inch pipe all fixtures except the water closet and slop hoppers should be made to waste, including basins, bath, foot-tubs, overflows of tanks and cisterns, the overflows of water closets, tell-tales, safe wastes, etc.

An ordinary slop hopper, with enameled surface, can be used as the receptacle or fixture to receive the outflow for this two-inch pipe in the cellar. This fixture can be connected with the horizontal soil pipe by a three or four-inch pipe and can be protected by a Bower's trap, an appliance well known to the plumbing trade. Its principal recommendation being that it consists of a glass bulb through which the safety of the trap can be determined at sight and at any time.

It will be readily seen how effectually the incursion of sewer gas is prevented by this system. The water-closet soil pipe is hermetically sealed at all points of its passage through the dwelling. The two-inch drain pipe is trapped at its extremity in the cellar, and, as it is not at all connected with the main soil pipe, is not likely to contain any foul gas except what little may be generated within the pipe itself, and for this the outlet above the roof is a sufficient escape.

2d. *Complete Æration of the System.*—A glance at the connecting pipes will reveal the fact that while no escape of gas within the dwelling is possible, the most complete æration of the interior of the whole system has been provided for. The horizontal soil pipe in the cellar connects two vertical pipes, one of which serves as an inlet for pure air drawn from the space above the roof, while the other pipe is carried up alongside the kitchen range flue. As the latter is supposed to be in use throughout the year, this pipe must be constantly heated to a temperature which will ensure an active upward current. This hot vent is really an efficient upcast shaft which will discharge above the roof all the foul gases of the system and at the same time draw a supply of fresh air through the cold air inlet. No system of drainage can be considered perfect or even acceptable which fails to provide within itself the means of the most perfect ventilation. There are only two means by which reliable ventilation can be effected, one by the application of heat and the other by the application of force. The former is the more easily available method in private dwellings and can be confidently depended upon to accomplish the purpose had in view.



3d. *The Absence of Unnecessary Trapping.*—We wish we could say that this system dispenses entirely with traps, but this we are not able to do. The most we can claim is that there is no multiplication of traps and no introduction of unnecessary traps. A system which is entirely dependent upon traps and water seals can hardly be regarded, at this late date, as a system at all. Unless provision can be made for excluding sewer gas other than by the means of traps and water seals the householder may well despair of the safety of his premises. What we can claim for this system is that the only traps in use are in the cellar within sight and easy reach, and so distributed as to ensure beyond accident the reliability of their seals. The principal and most important trap is that connected with the hopper which receives the outflow of the two-inch drain pipe. The commendatory feature of the Bower's patent is, that it can be examined at any time and the perfectness of its seal determined at sight. The double trapping at the rear of the cellar, into which the waste of the kitchen tubs and sinks, water-closet and yard cesspool enters, may be regarded as adequately protected because kitchen fixtures are in such constant use that there is little danger of these traps ever becoming dry in an occupied dwelling. The most dangerous trap in any house, and under any system, is that one usually placed at the front of the cellar to act as a surface drain or cellar cesspool, in case of inundation or overflow. In point of fact, this cellar drain is of practical use probably in not more than one out of a hundred houses, but when needed it is of priceless value and quite indispensable in every building. Because it is so rarely called into use, the trap which is intended to protect the cellar from the invasion of sewer gas at this point is apt to become dry or to lose a portion of the contained water by evaporation. All prudent housekeepers should look carefully after this trap and see that it is supplied either by a drip from the bibcock, which is always placed over it, or else by the drip of a refrigerator

waste. As a further security for this trap, and to avoid the direct connection of the pipe from the area cesspool with the main soil pipe, we have carried this latter pipe, as shown on the woodcut, into the upper section of this trap, so that the latter will be flushed from the area cesspool whenever it rains, or the area is washed, and the cesspool in the area will have the protection of this trap when properly filled.

It only remains tostate that the expense of introducing this system into any modern private dwelling, when in course of construction, is very much less than that of the clumsy method of drainage heretofore employed by builders. The saving in the items of multiple traps alone would go a great way towards paying for the hot vent pipe, the only extra one called for in this system, besides the saving of an outside leader and metal gutter.

Some may consider that it will be an improvement to introduce a street trap on the main soil pipe, outside of the house front. We have omitted it because the testimony of experts concurs in recommending its disuse. We are not prepared to express an opinion on either side of the question, or to commit ourselves to either view of the case.

This system may be applied to any form of construction that requires efficient drainage, in private dwellings, in stores, flats, tenements,

hotels, in fact in all buildings that we can conceive of, both small and large. The principles are chiefly the separation of the water-closet drainage from all other drainage, the discharge of the latter into an open vessel which, with the cellar drain trap, shall be the only connections with the soil pipe that need special guarding and watchfulness, and, lastly, the providing of efficient ventilation by the introduction of a hot vent pipe.

To the speculative builder, who first takes the pains to introduce a careful system like this into his building, we can promise an enviable reputation and also the appreciative patronage of a long-suffering and well nigh despairing public.

LEGAL DECISIONS.

MORTGAGE—ASSUMPTION CLAUSE IN DEED.

The Supreme Court decides, where premises were conveyed "subject however to the assumption as a part consideration" of the conveyance

of a certain mortgage on the land, that this language amounts to an agreement on the part of the grantee to pay the mortgage. To create a positive engagement on the part of the grantee to pay a mortgage on the premises existing at the time of the conveyance, precise and formal words are not necessary. The intention of the party to be gathered from the words used governs.

LANDLORD AND TENANT—NOTICE TO QUIT.

The same (Supreme) Court decides, where there is an agreement between landlord and tenant, that the tenant will leave and surrender possession of the demised premises upon ten day's notice from the landlord, a notice given for the purpose of ending the tenant's term must be precise and definite as to the time when the surrender is required to be made. It is not sufficient to simply request the tenant to move "as soon as practicable."

EXECUTOR'S LIABILITY ON LEASE TO HIS TESTATOR.

The same (Supreme) Court decides, that an executor is liable in his representative capacity upon the covenants contained in a lease to his testator whether he enters upon the premises or not; but if he enters upon the demised premises he becomes personally liable as the assignee of the lease.

MORTGAGE—REQUEST BY SURETY TO FORECLOSE.

The Superior Court decides, where a mortgagor conveys land subject to the payment of a mortgage, the relation of principal and surety is created between the grantor (mortgagor) and grantee. The effect of the conveyance is in equity to make the land the primary fund for the payment of the mortgage debt, and to place the mortgagor in the attitude of a surety only for his grantee. The mortgagee is bound in his or its dealings with the grantee and others in regard to the mortgage debt to do nothing to the injury of the mortgagor. But where the mortgagor desires the mortgagee, an insurance company, to foreclose by reason of the default on the part of the mortgagor's grantee to pay taxes and assessments, he must make a formal, full and explicit request to foreclose, to the president, finance committee or other authorized officer of the corporation; merely making it to a clerk or assistant solicitor in the law department of the company, or other subordinate employee, is not sufficient.

BROKERS' COMMISSIONS.

The Common Pleas Court decides, where a real estate broker agrees by parol before his commissions are earned, that the same should be paid to him by the conveyance of certain land, and his principal tenders him a deed of the land, the broker cannot maintain an action for the recovery of his commission in money. Although the verbal contract to convey the land in lieu of the payment of the brokerage in money is void under the statutes of this State, the broker can only recover for the value of his services in case his principal refuses to convey the land to him.

FIRE ESCAPES—LANDLORD AND TENANT.

The City Court of Brooklyn decides, that it is the duty of a landlord of tenement property, under the laws of this State relating to fire escapes, to provide for his tenants the means of escape in case of fire required by these laws. If the tenant sustains injury through the landlord's omission to discharge such duty, the landlord will be held liable for the consequences.

MARKET REVIEW.

REAL ESTATE MARKET.

The transactions during the week were of very ordinary character, few sales except of a judicial character being held. On Thursday, A. H. Muller & Son sold, by order of the executor of Eleanor Webb, deceased, the four-story brick store (20x60x68), No. 59 Division street, for $11,100, to Wm. H. Carpenter. The same auctioneer disposed of two three-story brick dwellings (each 22.6x66.6), Nos. 339 and 341 West Eleventh street, for $5,000 and $5,150 respectively, to George W. Sherman. All other property advertised to be sold by owners and executors was withdrawn.

At the Commercial Exchange, Brooklyn, on Thursday, May 29, Jacob Cole offered for sale 1,172 lots, situated in the Eighth Ward of Brooklyn, being part of the real estate of Thomas Hunt, deceased, seventy lots on Forty-sixth, Forty-seventh, Forty-eighth and Fiftieth streets and Second and Third avenues, were sold to various parties, for $14,005, and the sale of the remainder of the property adjourned. Particulars are appended.

Only ten plans, embracing twenty five buildings, have been filed with the Superintendent of Buildings during the week, none of which are worthy of special note.

The following are the sales at the Exchange Salesroom for the week ending June 6:

BUILDING MATERIAL MARKET.

BRICKS.—The general market for common Hards during the week under review has remained quite firm, with full and in some cases even better prices obtained. From all regular sources the demand was good, and exhausted the bulk of the offering as it came to hand, with an occasional scarcity shown, especially of good and attractive stock. This advantage has naturally enabled receivers to exercise a pretty good control over the position and their terms were full, still there was no inclination to force matters to an undue extent, and we hear no complaints from buyers over charges which seem to be fairly warranted by the general merits of the situation. Only a few "Up Rivers" have come to hand, the bulk of the arrivals being from Haverstraw Bay, and these now promise to increase as the month progresses. Labor at the yards is not over-plenty, but the difficulties between manufacturers and their workmen have come to a settlement in pretty much all cases, and productions will, it is thought, now pro

ceed to the full extent of the limit fixed by the combination, though the influence upon supplies here can scarcely be felt for a week or two. Some New Jersey stock is still offering, and a few lots from Staten Island are understood to have become available. Pale brick meeting with about the usual demand, possibly a tri'e more active, and on the attractive quality prices have shaded up a fraction. Fronts meeting with a good average demand, and are well supported in value on pretty much all the leading grades, with no great abundance of supplies.

We quote Pale, per M, $2.50@2.75; Hards, Jersey's, $4.50@4.75; Up-Rivers, $4.75@5.25; Haverstraw bay, $5.50@5.75; favorite brands, $6.00; Fronts, Croton —Brown, $7.00@8.00; dark, $8.00@9.00; red, $9.00@ $9.50; Philadelphia, $26@28; Trenton, $24@29; Baltimore, $34@38. Yard prices, delivery included, $2.00@ 3.00 higher on ordinary and$5.00@6.00 on fronts.

CEMENT.—The free movement of Rosendale rerently referred to continues, and not only does the product find a market as fast as ready, but several of the principal manufacturers are sold ahead. Local consumption is taking a larger quantity than usual, the shipping orders have been unexpectedly free and liberal, and with this advantage the selling interest has finally determined to advance cost, the new rates now standing at 90c on Creek, and $1.00 here, with some of the favorite brands understood to be doing even better. Foreign grades have been quite active, also at full prices, and the amount of desirable stock in first hands is quite small, the great bulk of the recent arrivals having been previously disposed of and delivered ex ship.

HARDWARE.—General business is falling off. In a few exceptional cases dealers are to be found who have quite a full number of orders to fill, but taking the trade through, and their operations will be found to have reached a considerably reduced scale. This, however, is neither unnatural or unexpected at the season, and no positive activity is looked for again during many weeks to come. Prices for most goods are steady. The Rogers Cutlery Company have issued the following discounts for the season of 1879: Goods stamped Wm. Rogers & Son—40 per cent, 4 months' note or approved credit; 40 and 5 per cent, 30 days; 40 and 6 per cent, 10 days. Goods stamped Rogers Cutlery Co.—40 and 5 per cent, 4 months' note or approved credit; 40, 5 and 5 per cent, 30 days; 40, 5 and 6 per cent, 10 days. Rebates per season of six months—5 per cent. on $500 sold per season; 10 per cent. on $1,000 sold per season; 12½ per cent. on $2,000 sold per season, payable at the end of each season ending July 1 and January 1. The manufacturers of screws have issued a circular under date of May 31, 1879, addressed to the hardware trade, in which they state:

Our respective circulars bearing date December 4, 1878, are hereby confirmed.

It has been our endeavor, and still is our desire, to place our product of screws upon the market at such rates, and in such manner as to avoid disaster to ourselves, and to afford all the trade opportunity for fair compensation for their labor in distributing over the section of country reasonably tributary to their respective locations.

In order to better attain this result, we especially refer you to that portion of our letter of May 6, 1879, wherein we state that we have agreed to decline to continue supplying parties who shall undersell our published rates.

The following is the circular of May 6, 1879:

To the Hardware Trade:

GENTLEMEN,—It has been resolved, by agreement among ourselves, to reduce our mills to half time for a period following the 1st of June next. The effect of this action will be to reduce our present stocks and avoid excessive competition among us and in the trade. At the suggestion of representative members of the trade, we have also agreed to decline to continue to supply any parties who shall undersell our published rates, inasmuch as only through a reduction of our products, and by an effort on the part of the dealers to maintain prices, can a positive disaster to the manufacturers be avoided, and any opportunity whatever afforded the trade for securing a fair profit in compensation for their labor in distribution. Signed by Union Steel Screw Co., American Screw Co., Bussell & Erwin Manufacturing Co., Massachusetts Screw Co. and United States Screw Co.

Owing to the continued increase in the cost of hemp the manufacturers of Cordage have again added ¼c. to their prices, and the revised figures are as follows: Manilla cordage, sizes above 12 th'd and hay and hide rope, 12¼ cents; do. do. 12 th'd (⅜ in diam.), 12¾ do.; do. do. 6 th'd and 9 th'd (¼ in. and 5-16 in diam.), 13¼ do.; do. do. bolt rope yarns, 13¾ do.; do. do. do. 6 th'd and 9 th'd, 14¾ do.; do. whale lines, 13¾ do.; tar'd Manilla, 11¾ do.; fine tar'd Manilla lath line, 13¼ do.; Sisal rope, sizes above 12 th'd and hay and hide rope, 10¼ do.; do. 12 th'd (⅜ in diam.), 10¾ do.; do. 6 th'd and 9 th'd (¼ in. and 5-16 in diam.), 11¼ do.; tar'd Sisal lath yarn, 9¾ do.

LATH.—A slightly variable tone has again prevailed, but on the whole the position appeared to show a tendency to fair strength during the greater portion of the week. Dealers in some cases control pretty good accumulations from their earlier purchases, but there is a place shown for a considerable amount of stock still, and with comparatively light arrivals receivers entertain pretty full ideas of value, although up to the present writing we hear of no cargo sales in excess of last figures. A fair amount is reported afloat and can be bought to arrive at about spot rates.

LIME.—The market continues slow and unsettled. More or less demand can be found and we have heard of no important surplus of stock remaining over as the receipts were light, but the principal buyers are out of the market for the present and this has a some what disturbing effect. "About former rates" are quoted and this seems to be considered as meaning 65c. for Common Rockland, but there is no positively established figure, and it would be well to consider prices as somewhat nominal for the time being. State lime is influenced by the tone of Eastern and 55c. about all that can be quoted in the ordinary form of sales.

LUMBER.—There appears to be a somewhat more cheerful expression on the general market since our last. Dealers have concluded some very fair sales and contracts, further negotiations are pending, the volume of trade tends to increase rather that diminish, and is covering a slightly larger variety of goods. Our inquiries respecting prices obtained do not elicit quite so favorable response, the only encouraging point admitted being the retention of the former line of valuation, and no special effort made by customers to force concessions. There is an increasing call for consumption, and some signs of revival on the export demand from one or two important points, both in the way of stock to go on board here, and to load and clear direct from primary points coastwise. At the interior sources the general tone is easy, and, while some stocks are held with a display of firmness, actual sales do not often result until some slight concessions are made.

Eastern Spruce does not undergo much variation. It is not uncommon to hear very extreme views on both sides of the question, but most of the principal dealers and receivers are of conservative temper, and they hold the market in about the same position. Our figures as named below cover the extreme valuations for merchantable stock, but fluctuations may occur within the range to accomodate deliveries and other ordinary influences. There is not many specials called for, and buyers want them as low as randoms. We quote at $10.00@11.00 for random, possibly $11.25@11.50 for choice lengths in small cargoes, and $12.00@13.00 for specials, the extreme for extra difficult.

White Pine has sold to some extent on home account, but the fullest invoices are called for on shipping orders. It appears to be pretty difficult, however, to infuse any real life into the market, and the business is fairly divided between the competing sellers, with values gaining little or no stimulus. We quote at $14 25@15.00 per M. for West India shipping boards; $19.50@21.00 for South American do.; $14 @15 for box boards; $16@17 for do. wide and sound, and timber to order at $38@50 per M.

Yellow Pine is offered with sufficient freedom to satisfy about all calls, and can as a rule be reached at a cost differing but little from that for some time current. Agents, however, are not urging matters in any way, and it would be difficult to secure a positive concession as margins are already pretty well exhausted. We quote random cargoes at about $18@22 per M.; ordered cargoes $22@24 do.; green flooring boards, $20@21 do., and dry do. do. $20@23. Cargoes at the South $13@14.50 per M.; hewed timber $7.50@14.

Hardwoods remain about steady, and in very fair demand with receivers, and the selling interest generally speaking confident and cheerfully. Still there is exceptions to this rule, and we have also heard from some of the larger buyers, that on late purchases they made quite a little gain especially for walnut. We quote at wholesale rates by car load about as follows: Walnut, $77@85 per M.; ash, $33@ 36 do; oak, $35@ 40 do; maple, $30@35; chestnut, 1st and 2d, $30@35; do. do., culls, $18@20do; cherry, $45 @75 do; white wood, ½ and ⅝ inch, $25@27.50, and do. inch $33@35 do; hickory, $35@45 do. for Western, and $65@75 for good nearby stock.

Nearly all the yards are turning out a pretty full average of stock, and while this is only reached by making numerous small sales, it keeps supplies in motion. It also brings a considerable amount of cash, as the nature of the business doing requires cash down at time of purchase.

From among the lumber charters recently reported we select the following:

A Br. ship, 1047 tons, from St. Johns, N. B., deals, 50s.; a Br. ship, 1138 tons, same voyage, deals, 51s., 3d., and timber, 19s.; a Br brig, 529 tons, from St. Marys to Montevideo or Buenos Ayres, lumber, $19 net, option of up-river ports, $3 extra; a Swe. barque, 734 tons, from Savannah to Barcelona, lumber, $15; a brig, 421 tons, from Brunswick to Oporto, lumber $13.50; a schr., 441 tons, from Union Island to Ferrol, lumber, lump sum; a Br. barque, 361 tons, hence to Port Spain, lumber, $5 under and $3.75 on deck; a Swe. barque, 250 M lumber, from Portland to River Plate, $14 net; a Ger. brig, 200 M lumber, from Savannah to Buenos Ayres, $18.25 net; a Br. barque, 326 tons, hence to Demerara, lumber, at or about $5: a schr., 300 M lumber from Pensacola to New York, $8.50; a barque, 425 M lumber, from Doboy to New York, $7.50; a schr., 140 M lumber, from Fernandina to New York, $7.50, free of New York wharfage; a schr., 180 M lumber, from Jacksonville to New York, $8; a schr., 225 M lumber, same voyage, $8.25; a schr. 120 M sycamore lumber, from Albany to Richmond, $2.50; a schr., 175 M sycamore lumber, from Albany to Petersburg, $2.75; a schr., 120 M lumber, from St. Simon's Sound to New York; a schr., 200 M lumber, from St. Simon's Island to Philadelphia or New York, and a schr., 275 M lumber, from Fernandina to New York, private terms.

GENERAL LUMBER NOTES.

STATE.

ALBANY LUMBER MARKET.

The *Argus* reports for the week ending June 3, 1879:

We have to report a light trade in the district, in both pine and coarse lumber, during the week. In pine no change in prices is reported. The receipts of pine lumber, of Canada especially, have been light. A large fire at Carleton Place, near Ottawa, has consumed 14,000,000 feet of dry stock that would have found a market here or at New York, and will be felt in lessening supplies to that extent. The latest accounts from Michigan report more firmness and rather better prices; there is still some doubt about some of the drives: logs come along slow.

For coarse lumber the demand is good; the receipts owing to the continued difficulty of floating logs to the mills are light; stocks in the District are much reduced and there is less on hand than there was at the opening of the canal; no change in prices, which are firmly maintained.

The receipts at Chicago from January 1st to May 24th are 229,803,000 feet of lumber, against 199,300,000 feet for a corresponding period in 1878. The shipments, 216,587,000 feet, against 198,714,000 feet.

The receipts of lumber at Tonawanda during the week have been 17,970,000 feet; the shipments therefrom by canal, 8,470,000 feet.

The shipments of lumber from Bay City during the month of May were 48,990,000 feet, against 53,937,000 feet in May, 1878.

The receipts of lumber at Buffalo by lake for the week ending June 1st, were 11,220,000 feet; by rail, thirty-seven cars.

At Oswego the week's receipts of lumber by lake are reported 1,881,500 feet; the shipments by canal were 2,800,000 feet.

The receipts at Albany by canal, from the opening of navigation to June 1st, are:

	Bds.&Sctg. ft.	Shingles M.	Timber, c. f.	Staves, lb
1878..	44,538,500	759	....	....
1879..	23,418,500	75	..	..

Freights from Bay City to Tonawanda are placed at $1.50 per M. feet; from Tonawanda to Albany, $1 85; from Oswego to Albany, $1.60. Lake Ontario freights to Oswego, 60c. From Ottawa to Whitehall they are under $2, and from Whitehall to Albany $1.

The *Tonawanda Herald* says:

At the opening of navigation, canal freights on lumber to Albany from this port were $2.00 per M.; a few days later boats were loading at $1.85, and last week freights dropped to $1.75. On Monday last the boatmen were united in an effort to secure $2.00; but as usual in such cases some of the number finally yielded and loaded at $1.75, at which figure it still remains.

THE WEST.

Special correspondence of THE REAL ESTATE RECORD.

CHICAGO, June 4, 1879.

The condition of the market for lumber afloat has changed considerably since last report, and unfortunately not in any respect for the better. The activity which was a noticeable characteristic of last week's trade has given place to an irregular demand that by no means equals the supply. Monday's fleet which was the largest of the season, so far, has been moving at a discouragingly slow rate and is not all sold yet; in fact the daily additions have so nearly equalled the daily sales that the Exchange docks are still crowded with vessels. During the forty-eight hours ending at 4 o'clock on Monday, the arrivals of pine lumber by lake footed up 15,954,000 feet, of which amount fully two-thirds stopped at "the market." This makes something more than an average fleet, and it is not surprising that the commission men have not yet been able to find buyers for it all. For the balance of the week the receipts will be lighter, and no doubt by Saturday the market will be clear again, and ready for another heavy consignment.

Taking into consideration the fact that the attendance of buyers, either local or interior, has not been very good, prices have held up remarkably under the depressing influence of the large supply. Inch lumber is somewhat weaker, but dimension stuff is still selling at $6.50@6.62½, with no apparent prospect of weakening. The fact of the matter is there is less of this lumber offered, and more of it wanted, than of any other grade, with the possible exception of choice cargoes of dry boards and strips. The stock of piece stuff in the city had got pretty well run out, and dealers consequently have been, and are still, anxious to buy to insure an assortment for the current wants of their customers. If the supply had been as large as was expected, prices could never have been held at the present range. Operators on the bear side still maintain that it must speedily drop, and some go so far as to predict that it can be bought before the season closes as low as $5.50. More conservative prophets place the bottom limit at $6, which figure it is expected to reach in the course of the next sixty

days. Common cargoes of boards and strips move very slowly, and the prices realized for them are somewhat lower than those given in previous quotations. As is nearly always the case when the market is weak, sellers dislike to make public the figures at which transfers are made, and hence it is difficult to quote prices accurately. Shingles are slow sale at $1.50@1.60 for standard brands. The supply, both at the yards and on the market, is larger than it ordinarily is at this season of the year, and as the demand from the country and on local account is limited, there is nothing to create any activity. The ruling prices for lumber, shingles, etc., by cargo, may be tabulated about as follows:

Green piece stuff	$6.50	@ 6.62½
Dry piece stuff	7.50	@ 8.00
Green boards and strips	7.50	@12.00
Dry boards and strips	8.50	@13.00
Green lath	1.12½	@ 1.15
Dry lath		1.25
Standard shingles	1.50	@ 1.60
No. 1 shingles		65

At the yards, trade seems to hold up well, though some complaints of dulness are heard now and then from the dealers. The shipments continue to run largely ahead of those for the corresponding time last year, which, assuming that the figures do not lie relatively, is pretty good evidence that somebody is sending lumber into the country. The manufacturers of sash and doors report an unusually active trade, which is generally regarded as a reliable indication that the general condition of the lumber business in the consuming districts is good, since sash doors and blinds are sold almost exclusively for new buildings, and in the natural course of events a considerable quantity of lumber goes with them. The outlook for the future, however, is not regarded as very encouraging. The fact that the Mississippi manufacturers are to have an abundant supply of logs it is feared will shut out this market from the Southwestern trade, and so result in a material reduction in the volume of our business. That there is some ground for this apprehension is unquestionably true, still with a good demand from other sections, which there is just as good reason to anticipate, Chicago will be apt to hold its own in spite of this drawback. A trifling increase in firmness is noticeable in prices, but it has not led to any advances as yet, and probably will not immediately.

The hardwood market has developed no particularly new features. The demand continues good and prices are generally firm. The sale of hardwood in this market is largely on local and manufacturers' orders. Wagon makers and manufacturers of agricultural machinery and implements being among the largest buyers. Business with them has improved this season and they are consequently on the market to some extent for fresh supplies. The receipts of walnut lumber have been large of late, and the stock is gradually accumulating. It reaches this market from nearly all sections from which the cost of transportation is not so great as to render its shipment unprofitable. A consignment of twenty-seven car loads was received here a few weeks since from Indian Territory.

SAGINAW VALLEY.

Lumberman's Gazette Office,

BAY CITY, June 3, 1879.

Trade is not active as compared with other seasons, nor yet as compared with what might be reasonably expected. Still the market is not dead by any means; it is in a condition which may be denominated fairly active. The demand is mostly for small lots, and in anticipation of all possible contingencies. Prices are firm, especially on dry stocks, which are in considerably diminished supply. Green lumber is sold freely at $5, $10 and $25, but for dry more than that is asked, with no concessions by holders. The docks are getting considerably packed, and shipments have fallen off. The activity in the iron business has drawn considerable tonnage from the lumber trade, the rates of freight on ore being so remunerative as to attract attention. Lumber freights are not likely to be less for some time to come, if at all during the season. At Chicago some of the larger grain vessles have been put into the lumber trade. The shipments have been less than last week. Sales have been made at $5, $10 and $24, $5.25, $10.50, $5.50, $10.50 and $25, $5.50, $11 and $25, and $5.75 and $10.50.

Shingles have been in active request, with good sales. Sales at $1.15@1.40 for clear butts and $2.15@2.50 for XXX.

Shipments by water from the river for the week ending May 31st were:

Lumber	13,220,390
Shingles	4,890,000
Salt, bbls	98,000

Lake freights steady at $1.25@1.37½ to Ohio ports, and $1.50@1.62½ to Buffalo, the outside figures from Saginaw.

We quote cargo rates:

Three upper qualities	$25 00@27 60
Common	10 00@11 00
Shipping culls	5 00@ 6 00
Lath	1 25@ 1 30
Shingles	1 40@ 2 40

The following from the *Lumberman and Manufacturer:*

MINNEAPOLIS, MINN., May 29, 1879.

The trade of the week has not been all that could be desired owing to the heavy rains which have fallen over Iowa and Minnesota. Still, the business of the week averages well with the corresponding weeks of the last two years. Prices are firm and stocks are low in lumber fit to ship.

The manufacturing season opens with so abundant a supply of raw material that some are disposed to be nervous about the results, but our judgment is that the worst is over in the long, hard tussel which the lumbermen of the West have had with fates, wind, water, grasshoppers, the devil and Chicago for a bare existence, and that brighter times are dawning. True there is a large amount of logs cut, but it will take a large amount of lumber to supply the demand consequent upon the wondrous growth and development of the Western world, which will relieve the Trade of the product of the mills so rapidly that the burden will not be heavy at the end of the year. Still there can be no material advance in prices so long as the supply is fully equal to the demand or exceeds it by ever so small an amount. Driving news from all quarters seems favorable.

There is a great deal of pine lumber cut in the Black Hills, but not of as good quality as the average Western product. It is more knotty and contains a great deal of pitch. It is being slaughtered by everybody and anybody, with portable mills running one rotary only. Lumber sells for $10, $15 and $18 per thousand feet; dimension stuff and dressed flooring for $25 and $30 per thousand feet, and shingles at $3 per thousand at the mills.

FOREIGN.

The *Timber Trade's Journal* as follows:

LONDON, May 23d.

There is very little confidence yet visible in the return of better times, for, notwithstanding the large deliveries, buyers seem still to expect a never-failing supply at something considerably below the import price. Stocks on hand are diminishing, and fresh arrivals are still greatly behind those of the corresponding period last year; hence nothing shows the sluggishness of the trade more than the fact that values are so little influenced by the present reduction going on, though the Dock returns show that there are many thousand standards less on hand now than there were last May. Meanwhile, shippers abroad are soliciting offers through their agents here, and are prepared to bargain with the importer, who, on his part, looks askance at this mode of putting the case, and does not know in his own interest how far to go downwards in making the offer they solicit.

LIVERPOOL, May 21st.

The indication of a somewhat better feeling shown during the early part of this month is perhaps somewhat strengthened, and if it should continue until the turn of the half year we may perhaps see it exhibited in a rise of prices. This, however, can only arise from the curtailment of shipments to the greatest possible extent, so as to enable the trade to get rid of old stocks and place itself upon a better basis than it has had for some time past.

If shippers of goods from all timber producing ports will withhold their consignments as far as possible they may possibly be able to obtain at least their first outlay as a reward for their forbearance, but if tempted, as they no doubt will be, by the low rates of freights to put goods upon the opet market, they must look forward to disastrous losses.

For the past two years far too great an amount of timber, deals, &c., has been thrust upon this country, from which neither buyer nor seller has reaped any benefit, and it is only by refraining from making shipments that business in the timber trade has any chance of recuperating itself.

GLASGOW, May 21st.

There are now slight indications of a rather better feeling in some branches of our trade here, confidence gradually increasing, but sales are very limited, consumers buying sparingly, only to meet present wants. Anything like keen competition at the public sales is rare, especially for white woods or building timber.

Of first-class waney board timber there is a bare supply on the market at present, and the same applies to 3d quality pine deals and lower port spruce.

American walnut would also meet with fair demand

METALS.--COPPER—Ingot has not been very active, but the stocks are under good control, and held with much firmness, at former rates. We quote at 16¼@16¾ for Lake. Manufactured Copper in fair demand, and generally valued at combination rates, but outside lots are said to be selling at a shading. We quote about as follows: Brazier's Copper, ordinary size over 16 oz. per sq. foot, 24c. per lb.; do. do. do., 16 oz. and over 12 oz., per sq. foot, 26c. per lb.; do. do., 10 and 12 oz. per sq. foot, 28c. per lb.; do., do., lighter than 10 oz. per sq. foot, 30c. per lb.; circles, less than 8½ inches in diameter, 27c. per lb.; do. 8½ inches in diameter and over, 30c. per lb.; segment and pattern sheets, 27c. per lb.; locomotive fire box sheets, 24c. per lb.; Sheathing Copper, over 12 oz. per sq. foot, 22c. per lb, and Bolt Copper 24c. per lb. IRON—Scotch Pig has sold slowly and the general market continues without improvement of tone, supplies are fair. We quote at $19.00@21.50 according to brand and quantity handled. American Pig shows no activity, but a great many small parcels go out and make quite a respectable aggregate of sales. Prices about as before on most grades. We quote at $17.50@19.00 for No. 1 per ton, $16.50@17.50 for No. 2, and $15.50@16.00 for Forge. Rails sold only moderately and most of the large orders appear to be supplied. On prices the tone weakens somewhat. We quote at $33.00@36.00 for new iron, and $12.00@15.00 for steel, according to delivery. Old Rails $22.00@23.00 per ton; scrap, $23.00@23.50. Manufactured iron has been less active than a couple of weeks ago, and the tone on the whole is somewhat easier. Common merchant bar quoted in round lots at 1.6c., and Refined at 1.8c., but for ten-ton lots from store, 1¾c. and 1.9@2c. are respectively asked. Common sheet, 2¾@2¾c., and best R. G. American, 3½c. from store. LEAD—Domestic Pig has sold only in an ordinary jobbing way, and the market ruled barely steady at the best. We quote at 3⅛@3¼c. The manufactures of lead are steady and quoted: Bar 4¼c., Pipe 4½c. and Sheet 5½c.—less the usual discount to the trade; and Tin-lined Pipe 12c., Block Tin Pipe 30c., on same terms. TIN—Pig is somewhat irregular, but on the average the market appears to lack strength. Holders ask about the figures ruling for some time, with an acknowledgment that concessions would be necessary in order to sell freely. We quote at 17¼@17½c. for Banca, 14½@14⅝c. for Straits, 14¾@15c. for English refined, and 14½@14⅝c. for do. common. Tin Plates have not met with an extremely limited demand, and values gain no strength on any grade. Spelter has been quiet and without change in value which still remains at 4⅜@4⅝c. Sheet Zinc a shade off since our last, but may be considered fairly steady at 6@6¼c. for lots from store.

NAILS.—The prevailing inquiry has been moderate from pretty much all sources, with the market retaining a dull sort of tone. Supplies, however, remain under fair control and openly are offered with moderation, while the regular list rate is supposed to be obtained in all cases, possible. We quote, however, only nominally at $2 25 for 10d. to 60d.

OILS.—Demand appears to be somewhat restricted and confined mainly to such jobbing parcels as will satisfy immediate wants. Stocks are ample to meet this outlet and about former rates accepted. We quote Linseed Oil at 61@63c. from crushers' hands.

PAINTS.—Only a fairly active movement can be reported and it is confined in the main to standard goods going out to satisfy the ordinary wants of the regular trade. Offerings and assortments equal the call and are mostly available at about former rates. On Chalk and Whiting there appears to be an exceptional firmness at the moment, and Paris Green is held high as usual at this season.

PITCH.—A trifling sort of trade doing, and principally in the way of jobbing orders. Offerings continue fair, and holders ready sellers, with their ideas of value as a rule easy. We quote at $1.75@1.87½ per bbl. for city delivered.

SPIRITS TURPENTINE.—Consumption has been moderate and buyers handled only small parcels of stock, giving the market a dull tone, under which a further decline took place. The supply, however, is not very large, and holders refrain for forcing matters. As this report is closed the quotations stand about 26½@29c per gallon, according to the quantity of stock handled.

TAR.—An ample supply and a moderate demand tend to keep the market in an easy position and there is no buoyancy on values. As a rule, however, holders refrain from pressing stocks, and would scarcely concede further, owing to prospective lighter arrivals. We quote at $1.40@1.75 per bbl. for Newberne and Washington, and $1.60@1.87 for Wilmington, according to size of invoice.

CONVEYANCES.

Wherever the letters Q. C. and C. a. G. occur, preceded by the name of the grantee, they mean as follows:

1st—Q. C. is an abbreviation for Quit Claim deed, i. e., a deed in which all the right, title and interest of the grantor is conveyed, omitting all covenants or warranty.

2d—C. a. G. means a deed containing Covenant against Grantor only, in which he covenants that he hath not done any act whereby the estate conveyed may be impeached, charged or incumbered.

MORTGAGES.

NOTE.—*The arrangement of this list is as follows: The first name is that of the mortgagor, the next that of the mortgagee. The description of the property then follows, then the date of the mortgage, the time for which it was given, and the amount. The general dates used as headings are the dates when the mortgage was handed into the Register's office to be recorded.*

Wherever the letters "P. M." occur, preceded by the name of a street in these lists of mortgages, they mean that it is a Purchase Money Mortgage, and for fuller particulars see the list of transfers under the corresponding date

MESSRS. GARDNER & Co.

GENTS—The Perforated Opera Chairs put in my Brooklyn Music Hall have proved a great success. They not only furnish the hall in a very attractive style, but for comfort and convenience they are far superior to any *upholstered seat* I have ever seen. We have the best audiences that Brooklyn can produce, and as yet I have heard nothing but the highest commendation of our seat. Yours very truly,

(Signed) O. G. WALBRIDGE.

LEGAL NOTICES.

THIS IS TO CERTIFY THAT THE SUBSCRIBERS, Charles H. Kerner and William S. Gottsberger, have, in pursuance of the provisions of the Statutes of the State of New York, formed a limited partnership under the style and firm of WILLIAM S. GOTTSBERGER, that the general nature of the business to be transacted is to be publishing, printing, engraving, lithographing, and of manufacturing stationers in the City of New York.

The names of all the general and special partners therein are: Charles H. Kerner, who resides at the Clarendon Hotel, in the City of New York, who is a special partner; and William S. Gottsberger, who resides at the Everett House, in the City of New York, who is the general partner.

The amount of capital which the said Charles H. Kerner has contributed to the common stock is Twenty Thousand Dollars.

The partnership is to commence on the first day of May, 1879, and is to terminate on the first day of May, 1883.

In witness whereof, we have signed this certificate, the 30th day of April, 1879.

CHARLES H. KERNER. [L. S.]
WM. S. GOTTSBERGER. [L. S.]

City and County of New York, s s:

On this thirtieth day of April, 1879, before the subscriber, a Notary Public of the City of New York, in the County of New York, came the above named William S. Gottsberger and Charles H. Kerner to me personally known to be the same persons named in and who subscribed the foregoing certificate, and each of them acknowledged that they executed the same as their deed.

In witness whereof, I have hereto set my hand and seal the 30th day of April, 1879.

[SEAL.] DAVID W. PRICE,
Notary Public (81), New York Co.

City and County of New York, s.s.:

William S. Gottsberger, being duly sworn, saith that the sum of Twenty Thousand Dollars specified in the certificate hereto annexed, made by deponent and Charles H. Kerner, as having been contributed to the common stock of the limited partnership of William S. Gottsberger, by Charles H. Kerner, has been contributed by the said Charles H. Kerner to the said common stock of the said limited partnership, and has been actually and in good faith paid in cash to the stock and capital thereof.

WM. S. GOTTSBERGER.

Sworn and subscribed before me, April 30, 1879.

[SEAL.] DAVID W. PRICE,
Notary Public (81), New York Co.

NOTICE IS HEREBY GIVEN THAT THE LIMITED partnership formed and subsisting between Fanny Halsey, and James M. Allen, and Anna M. Rosenbaum, who respectively reside in the city of Brooklyn, County of Kings, and the State of New York, for importing and jobbing acids, dye-stuffs and East India goods, under the firm name of HALSEY & ALLEN, is hereby continued and renewed from the first day of May, 1879, to the first day of May, 1880, on which last-named day the same shall terminate. That all the parties interested therein are the said Fanny Halsey and James M. Allen, who are the general partners, and the said Anna M. Rosenbaum, who is the special partner, and that said Anna M. Rosenbaum has contributed the sum of Twenty-five Thousand Dollars as capital to the common stock, and that the place of business of said partnership is the City of New York.

DATED, NEW YORK, May 1, 1879.

FANNY HALSEY.
JAMES M. ALLEN.
ANNA M. ROSENBAUM

LEGAL NOTICES.

THE UNERSIGNED, CYRUS W. FIELD, EDWARD Morse Field, Daniel Allen Lindley, Pope C. Tefft, John P. Truesdell and Edward S. Washburn, being desirous of forming a limited copartnership pursuant to the laws of the State of New York, do make and severally sign the following certificate:

First—That the name or firm under which such copartnership is to be conducted is FIELD, LINDLEY & CO.

Second—That the general nature of the business intended to be transacted by such partnership is the business which is commonly known as that of commission and general merchants.

LEGAL DECISIONS.

CONTRACTS FOR SALE OF LAND—HOW TO BE EXECUTED.

The Supreme Court of the United States recently decided an interesting question as to the validity of a contract of sale. It appeared that the Glen House, at the foot of the White Mountains, with 1,000 acres of adjoining land, outbuildings, good will, etc., were sold at auction and were bought in by one Grafton at $90,000. Grafton refused to take title, and the property was resold at auction upon his account for $61,000. Cummings, the owner, thereupon brought suit to recover the difference, $29,000. Grafton defended upon the ground that the written memorandum of the purchase signed by him at the auction sale failed to disclose who the owner of the property was; that Cummings could not be allowed to connect himself with the writing by oral proofs. That the statutes of New Hampshire, like those of the other States, required all contracts for the sale of real property to be in writing, and this meant that all the essential parts should be so reduced. The Court took this view of the case, and the purchaser was held not liable. Judge Miller, in writing the opinion of the Court, said: "In an agreement of sale there can be no contract without both a vendor and vendee. There can be no purchaser without a seller. There must be a sufficient description of the thing sold, and of the price to be paid for it. It is, therefore, an essential element of a contract in writing that it shall contain within itself a description of the thing sold by which it can be known or identified, of the price to be paid for it, of the party who sells it, and the party who buys it. There is a defect in this memorandum in giving no indication of the party who sells. If Grafton was bound to purchase it was because somebody was bound to sell. If he was bound to pay somebody was bound to receive the money and to deliver the consideration for the price so paid. There can be no bargain without two parties." The difficulty in this case was caused by the auctioneer signing the memorandum as agent, without disclosing in the written memorandum of sale who the owner of the property was, and who he was agent for, so that the purchaser might have discovered from the writing itself who he was contracting with, in other words to whom he was liable, and who in turn was liable to him.

ASSESSMENT—WHEN TO BE REPAID.

The Court of Appeals has decided, where a party pays an assessment levied upon his property for a local improvement, which assessment appears to have been regularly laid or levied, and which is subsequently set aside as illegal and void, the law raises an obligation on the part of the city to make restitution of the money so received by it. The payment of the assessment in such a case is not a voluntary act.

LANDLORD AND TENANT—DILAPIDATED HOUSE.

In Achlers vs. Rehlinger, tried in the Marine Court, it appeared that the tenant hired a dilapidated house without exacting any assurance from the landlord by covenant or otherwise, as to repairs or rebuilding in case either were necessary. During the term, the Building Department tore the building down. The landlord sued for rent under his lease. The tenant pleaded the act of the Building Department in defence.

Judge McAdam holds, that as the building was taken down in consequence of the gradual deterioration and decay, common to ancient structures, and not in consequence of any sudden or unexpected action of the elements or other like cause, the statute of 1860 (chap. 345) was not applicable, and the tenant having taken the premises for better or worse could not relieve himself from liability by the action of the Building Department, and the tenant is holden for the rent during the term.

In a note to the same decision reference is made to a case lately decided by the Court of Appeals, holding, that where in consequence of a change of grade in a city street, access to demised premises adjoining the street is rendered inconvenient, and the tenant is thereby discommoded and injured, in the absence of any covenant in the lease protecting him from such injury it is no defence to, and cannot be set up as a counter claim in, an action to recover rent.

MARKET REVIEW.

REAL ESTATE MARKET.

The sales at the Exchange Salesroom during the week were few in number and unimportant in character, and were held with few exceptions pursuant to orders of Courts. A. H. Muller & Son sold the four-story stone front dwelling (20.10x101.2), No. 6 East Forty-first street, for $22,000, to H. F. Vail; two-story brick stable (25x92). No. 109 West Seventeenth street, for $9,650, to J. W. Dimick, and four-story stone front dwelling (25x92), No. 35 West Thirty-seventh street, for $22,000, to E. W. Southworth. E. H. Ludlow & Co. sold the one-story brick building (46.1x95) on north side of Harrison street, 288 west of Columbia street, Brooklyn, together with one-half of pier and bulkhead in front of same, for $65,000, to E. C. Terry. Auctioneers Camp and Kennelly sold, by order of the Comptroller, the buildings with lots Nos. 18 Renwick street and 128 East Fiftieth street, for $3,425 and $5,500 respectively, to Hugh King & Co. A list of all sales made will be found below.

Among the recorded transfers are included the following, viz.: the plot (102.6x124.1x98.9x96.7) on the southwest corner of Broadway and Fortieth street, conveyed to Charles H. Woodbury in consideration of the sum of $120,000. Mr. Woodbury has also contracted for the purchase of four lots, two on the southeast corner of Fifth avenue and Sixty-eighth street and two on the south side of Sixty-eighth street, 100 and 200 feet, respectively, east of Fifth avenue, the consideration being $100,000. Wm. H. DeForest has taken title to plot 100.5x125 on the southeast corner of Madison avenue and Sixty-ninth street, consideration $75,000.

At private sale the Whiting estate have sold the five and six-story brick (iron front) mansard roof office building and stores, with plot 56x149.7x49.7x 156.8, Nos. 345 and 347 Broadway, southwest corner of Leonard street, for $353,500, to a Boston capitalist.

Twenty-six plans, embracing sixty-one buildings, the estimated cost of which is $711,400, have been filed during the week. Griffith Rowe will erect a four-story brick dwelling on Fifth avenue, southeast corner Fifty-fourth street, cost, $80,000. Eight dwellings will be erected by Duggin & Crossman, at Nos. 19 to 25 East Forty-seventh and 20 to 26 East Forty-eighth streets, cost, $216,000.

BUILDING MATERIAL MARKET.

BRICKS.—Common hards have shaded off somewhat from the extreme rates ruling during the recent temporary scarcity, but aside from this the general market retains quite a healthy and cheerful tone. The remains of the old stock and the supply of new available have found a demand quite equal to the daily offering, and the majority of the purchases made went direct into consumption, leaving only a limited accumulation at any time in either first or second hands. Of course, this gave the principal advantage to sellers, and they have preserved a full line of valuations, but are sufficiently conservative to abstain from any very buoyant effort, as this would on one hand check inquiry, and on the other hand draw in supplies from unusual points. Most of the manufacturers are understood to be at work, but keeping production within the limits of the quantity agreed upon by the combination. For pale brick the demand has been active, and the supply closely sold up, with $2.50 per M readily obtained, and $2.75 for the best. Fronts are firm and in demand with the favorite grades sold ahead of production. We quote Pale, per M, $2.50@2.75; Hards, Jersey's, $4.50@4.75; Up-Rivers, $4.75@5.00; Haverstraw bay, $5.25@5.75; favorite brands, $6.00; Fronts, Croton—Brown, $7.50@9.00; dark, $8.00@9.00; red, $9.00@$9.12½; Philadelphia, $26@28; Trenton, $21@29; Baltimore, $31@38. Yard prices, delivery included, $2.00@3.00 higher on ordinary and $5.00@6.00 on fronts.

GLASS.—On local account the demand has not increased, and there is little if any improvement from the interior, the general market for both foreign and domestic ruling very quiet. Dealers, in fact, in pretty much all cases complain of the condition of affairs, not only as respects the limited movement of goods, but over the limited margin as well, for in one way or the other buyers manage to squeeze out some advantage before their orders are finally secured. Nominally the former discounts remain, but on some of the recent sales of foreign there is said to have been some very liberal discounts allowed. Supplies and assortments are equal to any ordinary call.

HARDWARE.—Demand generally continues moderate and confined principally to mail orders on the regular custom trade, and the market presents few new features worthy of notice. The local distribution from jobbers hands is pretty good, but hardly up to the average of a short time ago, and no immediate additions to the movement are anticipated. Stocks are fair but not full, and assortments in some cases are a trifle broken. The cost of brass butts has been slightly increased, the present discount standing at 55 per cent., instead of 60 per cent. as heretofore. The manufacturers of blind fasts have agreed upon a uniform list as follows: Screw fasts, all styles, per gross set, $9; 1 bbl. at one order, discount, 7½ per cent.; 3 bbls. at one order, discount, 15 per cent. Van Zant or plate fasts—1¼ inch, per gross set, $7.50; 1½ inch, per gross set, $8; 5 gross at one order, 50c. per gross discount.

The manufacturers of cordage have made another advance of ¼c., and the new list is as follows: Manilla cordage, sizes above 12 thread and hay and hide rope, 12¾c.; do do, 12 thread (3¼ inch diameter), 13c; do do, 8 thread and 9 thread (2¼ inch and 5-16 inch diameter), 13¾c.; Manilla cordage, bolt rope yarns, 14c.; do do do, 6 thread and 9 thread, 15c.; Manilla whale lines, 14c.; tarred Manilla, 12c.; fine tarred Manilla lath yarn, 13½c.; Sisal rope, sizes above 12 thread and hay and hide rope, 10½c.; do, 12 thread (3¼ inch diameter), 11c.; do, 6 thread and 9 thread (2¼ inch and 5-16 inch diameter), 11½c.; tarred Sisal lath yarn, 10c.; navy oakum, 7½c.; U. S. navy, oakum, 8¾c.; best oakum, 10c.

LABOR.—It is reported that the journeymen lathers are about going out on strike unless they obtain an advance demanded on wages. They have no doubt been emboldened by the comparative ease with which the bricklayers recently carried their point on a similar effort, and are taking advantage of the situation of contractors. Of course, little, if any surprise can be felt over this action, nor can the workmen be blamed and we may expect to see the same movement extend to all other brauches of labor in the building trade if contractors consider it to their best interests to submit.

LATH.—The advantage of the situation has remained principally with the selling interest and we note a slight addition to values, with the expression quite firm at the close. The offerings on spot have been moderate and few cargoes to arrive were seeking sale, the demand in the meantime proving a little quick and resulting in bids at a higher range. Buyers, however, are not over-anxious to handle stock beyond early and positive wants, and beyond the annual and stereotyped talk of a few receivers about the remarkable indifference of manufacturers and their determination to force extreme rates, there is no indication of positively buoyant views. Up to the time of closing, $1.40 is the top cargo rate reported.

LIME.—The market, as a whole, remains in much the same condition last noted. A somewhat unsettled tone prevails and the average advantage is with the buyer, though without indications of a further decline. Indeed, on the contrary, it is thought the probabilities are much more in favor of an improvement, as soon as a few current adverse elements are removed, and there is no pressure to place stock. The ruling rates give the manufacturer no margin, the cost of cement has increased, which is an indirect stimulating influence, the arrivals have all found a place without much trouble and the "cheap" stock laid in by the larger dealers is working down sufficiently to lead to the hope they will soon appear again as buyers. Some odd lots were sold at a fraction off the quotations, but our figures represent present values.

LUMBER.—The display of animation on our local market is not very great and the general inclination is to report business dull. Yet, after carefully comparing the admissions of the various dealers, we have come to the conclusion that matters are by no means as bad as painted, and the aggregate movement no doubt reaches pretty full proportions. A considerable amount of stock is going steadily into consumption either for manufacturing or building purposes, a comparatively full run of orders for shipment to nearby points are filled, and the export outlet affords a market for about an average quantity, but as there is an absence of flurry and excitement in the movement of operators they do not attract special attention. The inducement to a large proportion to the trade doing is, no doubt, to be found in the cost of lumber which is sufficiently low to secure the confidence of those who, having positive use for supplies, will purchase desirable parcels when they find them even somewhat ahead of consumptive ability on the belief that no better terms are likely to be gained by waiting. There is absolutely nothing of a speculative character to the demand, however, and sellers are careful to guard against any present attempt to force up values as the evidences are strong that such a course would kill a great deal of business likely to expand on judicious coaxing. In short, there is a conservative feeling extant which preserves the healthy undertone before referred to and seems to be forming a solid basis upon which the market must eventually adjust itself into more satisfactory shape. We are informed that the contracts for the lumber to be used in construction of the new grain elevator before referred to have been awarded at $11.20 for Spruce, and $18.90 for Yellow Pine, about three million feet each.

Eastern Spruce in all general features is about as before. Occasionally there appears an outlet for quite a number of cargoes and again scarcely a buyer can be found, but most of the offerings are placed and, on the general range of figures, former quotations are retained with the extremes, however, only to be secured for the best of stock. Recent arrivals have been comparatively moderate. We quote at $16.00@11.00 for random, possibly $11.25@11.50 for choice lengths in small cargoes, and $12.00@13.00 for specials, the extreme for extra difficult.

White Pine appears to have a pretty uniform tone and nearly all dealers report "no change in quotations." Some of the stock near at hand is understood to have cost rather more in the interior than originally calculated upon, but there is too much competition here to admit of exacting the addition from buyers. The principal sales are still on export orders. We quote at $14.25@15.00 per M. for West India shipping boards; $19.50@21.00 for South American do.; $14@15 for box boards; $16@17 for do. wide and sound, and timber to order at $38@50 per M.

Yellow Pine is in moderately active demand, and most recent sales have been made without showing any alteration on the general line of cost. Receivers, however, talk rather stronger in view of reports from the South, indicating as possible reduced productions and higher freight charges. We quote random cargoes at about $18@22 per M.; ordered cargoes $22@24 do.; green flooring boards, $20@21 do., and dry do. do, $20@23. Cargoes at the South $13@14.50 per M.; hewed timber $7.50@14.

Shingles continue to meet with about the former average demand, and the market shows few if any new features; stocks are ample for all calls, and of the more ordinary qualities somewhat excessive, with bids at former figures pretty sure to be accepted. Home consumption has been a trifle disappointing thus far this season, but is on the increase, and fair export orders are in hand. Cypress are selling at about $6 for saps and $8.50@9.00 for hearts; pine shipping stocks, $4 for 18-inch, and Eastern saw grades at $2.50@4.50 for 16-inch, as to quality and quantity. Machine dressed cedar shingles quoted as follows: For 30 inch, $16@22.25 for A and $28 75@33.25 for No. 1; for 24-inch, $6.50@16 for A and $16.75@23 for No. 1; for 20-inch, $5@10.50 for A, and $11.25@15.75 for No. 1.

Hardwoods are jobbing out from yard to a very fair extent, and there is also some call for shipping parcels with dealers as a rule pretty well satisfied. Complaints are occasionally heard but they appear to be the result of offering poor stock, rather than an indisposition to give proper attention to anything attractive on the part of buyers. Quality is a matter of much greater importance than in former years, and interior shippers will find it advantageous to select closely in making up parcels for this market. We quote at wholesale rates by car load about as follows: Walnut, $77@85 per M.; ash, $33@36 do; oak, $35@ 40 do; maple, $30@35; chestnut, 1st and 2d, $30@35; do. do., culls, $18@20do; cherry, $45@75 do; white wood, ½ and ⅝ inch, $25@27.50, and do. inch $33@35 do; hickory, $35@45 do. for Western, and $65@75 for good nearby stock.

Among the retail yards the movement is somewhat irregular, but in the aggregate fair, and without new features of special importance for the week. Nearly every dealer continues to have his own price and terms and quotations cannot be given closely.

From among the lumber charters recently reported we select the following:

A Br. barque, 699 tons, from Montreal to River Plate, lumber, $16 net; a barque, 504 tons, from Philadelphia to Portland, coal, $1.50 and discharged, thence to River Plate, lumber, $14 net; a Br. brig, 216 tons, from St. John, N. B., to Grenada, lumber, $6.55; a Br. barque, 633 tons, from River St. Lawrence to River Plate, lumber, $15 net; a schr., 481 tons, from Bangor to Rio Janeiro, lumber, $11 net; a brig, 410 tons, hence to Montevideo or Buenos Ayres, lumber, $14; a Nor. barque, 597 tons, from Richmond to Calais, resawed oak lumber, £6 4s per standard; a Br. ship, 860 tons, from Doboy to the United Kingdom, resawed lumber, £5 10s per standard; a brig, 378 tons, from Brunswick to Oporto, lumber, $13.50; a barque, 570 tons, hence to Rosario, lumber, $18 net; a schr., 136 tons, hence to St. Johns, P. R., lumber, private terms: a schr., 110 M lumber, from Jacksonville to New York, $8.50; a schr., 225 M lumber, from Savannah to New York, $7; two schrs., 185 and 227 tons, hence to Jacksonville and back with lumber, $10 for the round; a schr., 360 tons, from Boston to Charleston, ice, $1, and from Union Island to Philadelphia, boards, $6.50; a schr., 142 tons, from Albany to Jacksonville and back to Albany (two trips), lumber both ways, $10 for the round and river tonnage; a schr., 120 M. lumber, from Jacksonville to New Haven, $8.50; a schr., 200 M lumber, from Savannah to New York, $7; a schr., 180 M Sycamore lumber, from Albany to Richmond, $2.50; a schr., 340 tons, from Brunswick to New York, Elevated Railroad material, $6.75; a barque, 419 tons, from Boston to Savannah, ice, private terms, and back to New York, resawed lumber and boards, $7; a schr., 196 tons, hence to Charleston, stone, $1.40, and hay $3.50, and from Jacksonville to Portland, dry boards, $9; a schr., 225 M lumber, from Bucksville to Thomaston and Bangor, $9.75; a schr., 200 M lumber, from Pensacola to New Haven, $9; a schr., 250 tons M lumber, from Pensacola to New York, $8.50; a schr., 311 tons, hence to Charleston, stone, $1.40, and hay $3.50, and back with lumber and timber, private terms; a schr., 333 tons, from Fernandina to New York, lumber, $7.50, and timber, $8.50; a schr., 200 M. lumber, from Savannah to Philadelphia, private terms.

GENERAL LUMBER NOTES.

STATE.

ALBANY LUMBER MARKET.

The *Argus* reports for the week ending June 10 1879:

The lowest point would seem to have been reached in prices of all kinds of lumber; any advance in lake and canal freights or other influence in this direction would no doubt cause increased firmness and an improved tone of the markets. In the face of the light stocks now held here and light receipts, lumber can safely be held for the next two months in anticipation of better prices as soon as the fall trade sets in. It is generally believed that after the 1st of September there will be increased activity in all branches of trade, and without being over sanguine as to lumber, it is only reasonable to look for its participation to some extent in the general improvement. There is no doubt that very light stocks are held at all points, being in favor of more stir as soon as markets are steady and firm. The fact that purchases of Canada and Michigan lumber offer no margin for profit at present prices, will keep back supplies and prevent the usual accumulation of stocks, now very low, as compared with other years at the same time. Before the week is over there may be a larger attendance of buyers and more activity to report. The transactions the past week have been light without change in prices.

The receipts at Chicago from January 1st to May 31st are 270,626,000 feet of lumber, against 231,371,000 feet for a corresponding period in 1878. The shipments, 228,296,000 feet, against 206,301,000 feet.

The receipts of lumber at Tonawanda during the week have been 5,930,000 feet; the shipments therefrom by canal, 7,265,000 feet.

At Oswego the week's receipts of lumber by lake are reported 2,849,000 feet; the shipments by cana were 2,978,000 feet.

The receipts at Albany by canal, from the opening of navigation to June 8th, are:

	Bds.&Sctg. ft.	Shingles M.	Timber, c. f.	Staves, lb
1878..	55,627,300	1,071	....	....
1879..	33,176,100	630	..	..

Freights from Bay City to Tonawanda are placed at $1.50 per M. feet; from Tonawanda to Albany, $1.75; from Oswego to Albany, $1 48 Lake Ontario freights to Oswego, 6 c. From Ottawa to Whitehall they are under $2.00, and from Whitehall to Albany, $1 00.

NEW LUMBER MOVEMENT.—An effort is being made to divert a portion of the lumber trade of Michigan from Buffalo and Tonawanda to Oswego, N Y., and to test the question whether Michigan lumber cannot be successfully handled at Oswego in competition with the two principal Lake Erie marts. There has been contracted for at Bay City and Saginaw 8,0 0,000 to 10,000,000 feet of lumber and from 7,000,000 to 9,000,000 shingles to be laid down at Oswego during the season of navigation. Three cargoes have already been shipped. The freight paid is $3 per thousand. The Oswego *Palladium* says it is believed that the presence of a well selected and full stock of Michigan lumber in the Oswego market will bring a new class of buyers there, and will restore some of the trade which has passed into other channels during a few years past. If the experiment serves the double purpose of affording some additional business for vessels and of stimulating the lumber trade at Oswego, it will be a useful one. The facilities for receiving, handling and shipping lumber to all points are said to be excellent.

About 100,000,000 feet of lumber will be shipped this year from the Ottawa and St. Lawrence rivers to Whitehall, N. Y., mostly in bond, and the facilities for transhipment at the latter point are ample. For several years past the lumber from Canada has been mainly shipped upon canalboats, which have continued through the canal without transhipment. This has brought the docks into disuse, but the old method is now returning and great activity is experienced at Whitehall in consequence.

THE WEST.

Special correspondence of THE REAL ESTATE RECORD.

CHICAGO, June 11, 1879.

The condition of trade in our various lumber markets this week affords little material for an interesting report. The situation all along the line remains about as it has previously been described, the most noticeable thing about it perhaps being the absence of any new features. The past week has neither been unusually dull, nor unusually busy; but what may be fairly set down as an average one for this season of the year. At the wholesale docks there has been less lumber offered than in the week preceding, and the commission men have been able to keep their market pretty well in hand. Yesterday the arrivals were all placed by noon, and to-day there has been nothing of any importance to sell. Lumber has weakened a shade, and the inside price for good green piece stuff is now $6.37½, instead of $6 50 as heretofore. Still, it is claimed, and, as far as I can learn, honestly, that the best cargoes of Manistee stock bring $6.62½. Good dry piece stuff can be bought at $7.75, which is one notch below last week's prices. Corrected quotations are as follows:

Coarse green piece stuff...	$ .... @ 6.25
Com. to choice green piece stuff	6.37½@ 6.62½
Dry piece stuff	7 50 @ 7.75
Green boards and strips	7 50 @12 00
Dry boards and strips	8.50 @13 00
Green lath	1.12½@ 1.15
Dry lath	1.25
Choice shingles	1.75 @ 1.80
Standard shingles	1.50 @ 1 60
No. 1 shingles	65

Some difficulty has been experienced by buyers of cargoes in giving them deck room promptly, and on this account a number of vessels have been detained in port several days beyond their usual time, which explains in part the falling off in receipts. There is a large fleet out now, however, and next Monday will probably see "the market" crowded with lumber again.

The yard trade, as yet, shows no signs of falling off, though the mid-summer dull season is rapidly approaching. The shipments hold up remarkably, and the only inference that can be drawn from the fact, is that the dealers are doing more business than their reports indicate. Most of the yards are still behind in filling their orders, owing to the difficulty they have in getting cars. One road which carries lumber principally to points in this State, has requisitions for over 100 cars which it is unable to supply In prices there is nothing new to chronicle. Though in a general way, there is more firmness displayed, no specific change has been made in price lists.

The *Lumberman's Exchange* has just issued its regular monthly report of stock on hand, and it proves a most gratifying exhibit of the present condition of our market. I give below the figures with comparisons for the two preceding years.

STOCK ON HAND JUNE 1.

	1879.	1878.	1877.
Lumber	225,739,600	248,365,100	216,150,895
Shingles	128,331,000	92,581,250	66,404,500
Lath	18,790,362	20,698,0 0	13,314,6?0
Pickets	320,750	631,360	1,977,511
Cedar Posts.	197,320	195 201	396,329

The receipts of pine lumber to June 7 were 273,329,000 against 241,561,0 0 last year. A month ago the stock was just about the same as that of a year previous, and, taking this into consideration in connection with an increase in the receipts of nearly 32,000,000 feet, the reduction in the supply, as compared with last year, of 23,125,710 feet, makes a very favorable showing of the month's business. It is fair to assume, as this decrease in the stock is not accounted for by the increase in the shipments, that the local consumption of lumber has been larger this spring than usual, and I find the dealers generally confirm this supposition. Altogether, the monthly statement is a very encouraging one to local operators.

SAGINAW VALLEY.

Lumberman's Gazette Office,

BAY CITY, June 10, 1879.

The market last week exhibited a good deal of animation and a number of large transactions were reported. The shipments from the river were the largest of the season, and, so far as Bay City is concerned, the largest that have ever been made in any one week. So far this week it has been dull. Prices are well maintained, and buyers have no reasons for expecting a decline. Good dry stocks are not in large supply, and are firmly held. A few of the mills are getting crowded for piling room, but generally there is enough lumber being sold and shipped to make room for the new cut. Freights remain at former figures. Green lumber sells mostly at $5, $10 and $25, sometimes shading to $21; dry has ranged from $5.25, and $10.50, to $5.50 and $11; a few sales above these figures and a few under. Shingles continue to move freely, but prices are not entirely satisfactory, ranging from $1.15 to $2.10 for clear butts, and from $2.15 to $2.50 for XXX.

Shipments by water from the river for the week ending June 7, as shown by the custom house books at Bay City and East Saginaw were:

Lumber	30,741,000
Lath	1,101,000
Shingles	5,426,000
Hoops	1,417,000
Staves	290,000

Lake freights steady at $1.25@1.37½ to Ohio ports, and $1.50@1.62½ to Buffalo, the outside figures from Saginaw.

We quote cargo rates:

Three upper qualities	$25 00@27 50
Common	10 00@11 00
Shipping culls	5 00@ 6 00
Lath	1 25@ 1 30
Shingles	1 40@ 2 40

The following from the *Lumberman and Manufacturer:*

MINNEAPOLIS, MINN., June 5, 1879.

The trade is all that any reasonable man could desire in all parts of the West, so far as the demand for lumber is concerned. Probably no month ever brought so much lumber trade as the last to the Mississippi River points. Stocks are being depleted so much that it is difficult for interior dealers to find an assortment. Prices remain stationary and firm at almost every point, and collections are reported fair.

From several places we hear of an extraordinary demand for timber. Many mills have all the orders they dare to receive for bridge stuff, heavy dimension, etc. This is the result of the great amount of new railroad building in the West.

The log crop is so nearly secured that all the mills on the waters of the Mississippi will have a full stock to operate with during the entire season. Log selling proceeds but slowly, as there seems to be quite as margin between buyers and sellers which prevent traffic.

Our readers will note that there has been a slight change in the list on some grades at St. Louis where they seem determined to meet any and all competition. The business of that city is about double the trade of 1878, as appears by the reports of shipments, received daily.

Chicago received 40,000,000 feet and shipped 15,000,000 for the week ending the 4th inst. Dry Stuff is reported in good demand, but green seems to be a drug, with slow sales at $6.50@6.75 for piece stuff; boards, $8.5 @9 00.

From the rivers we learn that favorable winds enabled them to turn out 3,000,000 feet per day from Black River, at LaCrosse. The Chippewa is receding rapidly and now stands at two feet above low water mark.

The St. Croix still continues at a good driving stage, and it is anticipated that about all the logs will be driven in. Many of the principal drives from the various tributaries are already in the boom. Snake River being the farthest back of all the branches.

From the upper Mississippi we learn that the drives are all coming along nicely, some of the particulars being noted elsewhere Some fears are entertained that the Rum River drive may not reach the booms with the present water.

The United States special timber agent has seized 7,000,000 feet of logs in a boom on Ebey's slough, on the Snohomisp River, in Washington Territory, on information that they were cut on government land. Considerable excitement prevails, and it is said a number of loggers, guilty of trespassing on government domains, have jumped the country to avoid arrest.

FOREIGN.

Mail dates from Rio Janeiro, to May 13th (A. C. Mathan & Co.), report as follows:

Pitch Pine Deals.—The 360,993 feet per Mendota, referred to in our last, were sold at 39$000 per dozen. The arrivals since then consist of 341,912 feet per Jennie B. and 253,710 feet per Carrie Purrington, both sold at 40$000 per dozen. The market is firm with a good demand, and it seems probable that the next arriving cargoes will fetch a higher price than 40$000.

White Pine Lumber.—The arrivals have been: 147,664 feet per David Stewart, sold at 95 rs., 33,653 feet per Marie Collett, sold at 105 rs. The market closes very firm at 110 reis per foot.

NAILS.—Business has been irregular and not altogether satisfactory, with an undertone of weakness on prices. As for some time past, quotations are made by the "card," but there is said to be means employed to give buyers many little advantages, and figures as named are no doubt extreme. We quote nominally 10d. to 60d., common fence and sheathing per keg, $2.25; 8d. and 9d., common do, per keg, $2.40, 6d. and 7d., common per keg, $2.65; 4d. and 5d., common do, per keg, $2.90; 3d. and 4d., light, per keg, $3 65; 3d., fine, per keg, $1 40; 2d., per keg, $1.40.

Cut spikes, all sizes, $2.30. Floor casing and box, 75c. above the same sizes of common. Finishing, $1 above and fine finishing $1.25 above.

CLINCH NAILS.

1¾ to 1½in.	2 & 2¼in.	2½ & 2¾ in.	3 in. & longer
$5.00	$1.50	$1.25	$1.00 per keg.

OILS.—Demand generally has been moderate and somewhat uncertain, with a corresponding irregularity of tone on values. Supplies as a rule are fair. We quote linseed oil 61@63c. ₰ gallon; lard, 48@51c. for winter; 45@46c. for No. 1, and 40@43c. for No. 2; crude cotton seed, 32@36, and refined summer yellow do., 42@44c.

PAINTS.—The general movement is moderate and confined principally to small jobbing orders. Supplies and assortments are equal to the average call, and as a rule available, but holders refrain from pressing sales, and are asking pretty much former rates throughout. Domestic white lead is held somewhat higher, and with greater firmness.

PITCH.—The volume and form of business continues about as before, and we find little or nothing new on the market. Supplies are ample and offered with no great amount of hesitation. We quote at $1.75@1.87½ per bbl. for city delivered.

PLASTER PARIS.—Generally the market has shown a firmer tone of late. On lump, sellers have been compelled to ask an advance owing to the additional cost of transportation, a large demand for tonnage from the lumber ports at the Eastward having made vessels very scarce. This has been reflected back upon calcined and on this also higher rates were obtained, both for the ordinary and finer grades. No positive buoyancy, however, was shown or is likely as the competition continues too sharp between manufacturers to permit of this. The demand has continued good from pretty much all the regular sources and the product found a market about as soon as ready for delivery, and some of the mills have gone behind on their orders owing to the scarcity of rock.

SPIRITS TURPENTINE.—In a wholesale way, the market has been rather quiet and somewhat weak. A fair movement of jobbing parcels took place, however, and on these comparatively full rates were obtained. As this report is closed the quotations stand about 26½@28c. per gallon, according to the quantity of stock handled.

TAR.—Demand has been quite moderate beyond the ordinary run of regular trade orders, and the market somewhat flat in tone. About former rates are quoted, however, and as stock does not increase holders are less anxious to realize. We quote at $1.40 @1.75 per bbl. for Newberne and Washington, and $1.60@1.87 for Wilmington, according to size of invoice.

CONVEYANCES.

Wherever the letters Q. C. and C. a. G. occur, preceded by the name of the grantee, they mean as follows:

1st—Q. C. is an abbreviation for Quit Claim deed, i. e., a deed in which all the right, title and interest of the grantor is conveyed, omitting all covenants or warranty.

2d—C. a. G. means a deed containing Covenant against Grantor only, in which he covenants that he hath not done any act whereby the estate conveyed may be impeached, charged or incumbered.

MORTGAGES.

NOTE.—*The arrangement of this list is as follows: The first name is that of the mortgagor, the next that of the mortgagee. The description of the property then follows, then the date of the mortgage, the time for which it was given, and the amount. The general dates used as headings are the dates when the mortgage was handed into the Register's office to be recorded.*

Wherever the letters "P. M." occur, preceded by the name of a street in these lists of mortgages, they mean that it is a Purchase Money Mortgage, and for fuller particulars see the list of transfers under the corresponding date

MISCELLANEOUS.

SPECIAL NOTICE.

REVIVAL OF TRADE.—LUMBER.—On every side there are multiplying evidences of the general revival of trade and the increase in amount of ordinary business. In no direction is this manifested more strongly and frequently than in that of the building interest. This latter, in New York, besides being favorably influenced by causes common to the whole country, has been stimulated in a most marked manner by the establishment of rapid transit. The lumber trade has not been the last to profit by this. Among the most extensively engaged and most enterprising dealers in this line are Messrs. Miller, Schuyler & Co., whose card appears elsewhere. These gentlemen appear to have anticipated the present business revival and to have made their arrangements and dispositions accordingly. The immense and varied stock of lumber at their yard, on the corner of Thirty-fifth street and First avenue is being continually added to, as the changes and exigencies of trade require, while they have recently supplemented their facilities by the establishment of another yard at the foot of East Sixty-first and Sixty-second streets, which they have just connected with their main office by telephone.

As an instance of the enterprising and energetic character of this firm, we may state that some months ago they received an order for fourteen inch timbers for a building in this city, and in fourteen days from the time of the reception of the order at their office the timbers, which had to be sawed out of the rough logs in Maine, were delivered at the building here. They are now furnishing the large supplies of timber and lumber required for the immense pier being erected at Coney Island. The contractors selected this firm in order to insure the material required being on hand in time.

CONDITION AND PROSPECTS OF BUILDING.

Matters of building are matters of general and public concern, inasmuch as they reflect the growth of the city, and their vicissitudes directly affect its welfare. That a notable revival in real estate has taken place is a fact already well known to our readers. It would be easy for us to jump at the conclusion and boastfully make the assertion that all branches of real estate are teeming with activity, that the market is booming prosperously along, and real estate owners, like stock operators, are becoming wealthy with rapidity. These statements, however, in bulk, would be found to lack adequate verification, but strictly true regarding particular locations. The simple facts of the case are these, that about half a hundred of our wealthiest citizens, after deferring the gratification of their wants for probably five years, reached the unanimous and concurrent conclusion that the present season was a proper time to select their permanent homes. As there was not a sufficient number of finished houses in the best quarter, suited to their tastes, or else as a matter of original preference, they have entered the lot market and become purchasers severally of lots and parcels of lots fitly proportioned to their domestic requirements and financial abilities on which they intend forthwith to erect their future residences. As there was no redundancy of available lots since the rapid transit road on Sixth avenue has so recently destroyed the eligibility of a goodly number, one effect of the competition between a small number of wealthy men for a few lots has been to suddenly and unduly advance the prices of lots justly esteemed to be the choicest on the island. The recording of such values as $25,000, $35,000, $40,000 each for street lots, and $45,000 and $60,000 each for avenue lots has been sufficient to steady the nerves and awaken the dormant courage of real estate owners throughout the island. Within the length and breadth of the new and old fashionable quarters lot owners have advanced their views to conform to the standards of these later transactions. It is our business to study the effects of these transactions outside of the one hundred persons concerned in them as lot owners and lot purchasers. As the population of the city is not made up entirely of millionaires, and as all lots on the island are not eligible for the fancy prices just quoted, it becomes necessary to trace the bearing of these great events with real estate generally, and to define the connection with them of the outside public.

FIRST.—It may be set down as a direct and immediate result of this spring's transactions, that speculative builders will be almost entirely excluded from the old fashionable quarters, and it is a question whether any but those occupying the very first rank in the business will venture to organize operations in the new quarters on the basis of the values which are now ruling. The time has been reached when the few remaining available lots in the the old residence quarters will be jealously reserved for the use of wealthy men who desire to build special mansions. It is apposite to remark that the number of such citizens desiring so to build is greater than has ever been known before in the history of the city, and that at no period, even in the times of highest inflation, did the tastes and means of this class combine in demanding so high a standard of building construction as at present. The experience of the past twelvemonth seems to indicate that there is a large and influential body of citizens for whom the speculative builder is entirely unable to cater, who decline to accept even the best productions of the craft, or to be contented with anything short of the embodiment of their own fancies and ideas, as they may be illustrated by their chosen architect. If the habit of private building should become a growing one, it might have the effect, in time, of changing the character and conditions of the speculative building business. Only a short time ago—at the farthest not more than five or six years—speculative builders found profitable and acceptable employment in projecting the most expensive class of houses that were ever built in this city, and these were supplied for the market in numerical profusion, and in every variety of ornament and finish. Expensive houses, finished during and after the panic, involved the builders in enormous losses, although they found ready purchasers at the reduced valuations. The bitter experiences of that era have deterred prominent builders from further essaying these costly productions, and such omissions may constitute one of the assignable causes which is now diverting this wealthy patronage into the hands of supervising architects.

So far, recent exhibitions of individual taste have not indicated any disposition, on the part of these private owners, to copy the models which were formerly presented by our leading builders. On the contrary, the designs chosen and illustrated are all exceptional, notable and unique, the Queen Anne and Continental Gothic styles being the predominate ones. Whether the wealthy public of New York has outgrown the responsive capabilities of speculative builders, or whether the speculative builders shrink from the risks connected with expensive building, are debateable questions, and in their answer lies the solution of the present problem in building affairs. What has been but a meagre and rarely profitable business during the past five years, at low scales of prices, will be anything but an inviting business when based upon lots whose value has advanced fifty or seventy-five per cent., upon labor which has advanced fifty per cent., and materials which have advanced from ten to fifteen per cent. Even in the new residence quarter, which is being so rapidly opened up in the district between Fifty-ninth and Eighty-sixth streets, lots have already reached and passed the prohibitory point for speculative building. Finished houses, of excellent model and the most approved finish, are there selling for only a trifle more than the putative price of adjoining vacant lots. Buildings capitalized at the present values of lots, labor and materials, will involve selling prices far beyond the means of the average house buyers, and will compel the builders of such houses to look for their customers among the wealthiest classes of the city. It is precisely among these classes that the mania for special building is now raging. In fact, the speculative builders of the front rank in the profession are daily brought in competition with the enterprises of private owners, backed by their selected architects. The issue of such a rivalry will be interesting to outside observers, but can hardly be encouraging or profitable to speculative builders, inasmuch as the practicing architect has the superlative advantage of being able to gratify the whims, and caprices of families, besides promising, or affecting to promise, such liberal savings in the costs of construction as will at the outset defy competition on the part of the speculative builders. If the first-class speculative builders are excluded from the two quarters of fashionable residence, the inferior builders of this type can expect no standing room. If all future improvements in these quarters are to be projected by private individuals of wealth their completion will necessarily be of slow progress. There will be this consolation, that such transactions foster and promote the strictly legitimate branch of the building trade. Order work, or contract work executed under the supervision of architects, usually represents the soundest class of building that is carried on in the city, and the class of building, we may add, in which creditors are seldom defrauded or deprived of their dues. What may lead to the distraction, if not to the destruction, of the speculative building business in this city will confer the greatest conceivable boon upon legitimate building. The slowness of growth which must hereafter characterize these two quarters will doubtless be fully compensated for in the splendor and substantiality of construction and in the undoubted solvency of such private enterprises.

SECOND.—In all seasons of remarkable buoyancy in real estate circles the earliest, and often the only, exponent of activity is the speculative builder who operates with building loans. This class is widely removed from speculative builders who operate with their own capital or with funds judiciously borrowed. Of those who operate with building loans there are many varieties and orders. As a rule the least scrupulous and respectable loom up the most conspicuously. The nominal advance in the price of lots affords the coveted opportunity to many lot owners to realize extreme and fanciful rates by furnishing a loan of money for the improvement of the lots to any proffering builder. Outside of what is known as the strictly fashionable quarter of the city there is a widespread and growing movement of this kind. Many of these operations have elements of equal merit and will undoubtedly result profitably to all parties concerned, as they will also promote the growth and prosperity of the city. But, of a large number, little that is meritorious may be said or expected. The operations are engineered by wholly irresponsible and untrustworthy persons. Inexperienced or greedy lot owners are seeking to realize otherwise unattainable prices for lots, and reckless and impecunious builders

are proffering their services to assist them in these transactions. The *modus operandi* of such schemes is too familiar to our readers to need repetition here, and the method has received such frequent illustration in different parts of the city during the past few years as to render comment and emphasis unnecessary. The wilder and more reckless schemes of this sort are so transparent and so hopeless of success at the start, that it is difficult to conceive under what frame of mental delusion innocent parties, or even designing instigators of them, can be led or impelled to embark in them. Under the auspices of such directors, buildings, tenement houses and private dwellings are "shot up," as the expression is, without regard to order, comeliness or healthfulness. The common wonder is that corrupt building inspectors or Health Board agents would dare to allow such structures to pass muster. Fradulent building loans, or "bonus jobs," as they are called, are characteristic of our rapidly built American cities, and not less so in New York city than of any other. While the wealthy build for themselves, the middle and poorer classes must take as habitations what they can get.

The present condition and future prospects of building in this city seem to indicate the existence and prospective prevalence of two extreme classes of enterprise: first, the erection of sumptuous and expensive residences by private owners; and, second, the widespread projection of very inferior jobs by building loan operators. The respectable, well-meaning and responsible class of speculative builders are being crowded or driven out of their proper sphere of labor by these two antagonizing forces. Such extreme results must lead inevitably to reactions, and before a twelve month has passed it may be our privilege to record the opening of brighter prospects for those mainstays of our city's substantial growth and improvement, to wit: our best master builders, who erect houses for the market. One certain outcome of the operations of the two extreme classes which we have alluded to will be the compulsory and early opening up of entirely new fields of building enterprise, and of these we may expect the West Side will be at once the most inviting and brilliant one.

MARKET REVIEW.

REAL ESTATE MARKET.

At the Exchange Salesroom, during the week, all offerings were made pursuant to orders of Courts, and in most instances the plaintiffs became the purchasers. At private sale, the five blocks of land belonging to the Emigrant Industrial Savings Bank, on the east side of Tenth avenue and west side of New avenue, between One Hundred and Fortieth and One Hundred and Forty-fifth streets, containing about 251 city lots, were sold on Wednesday by L. J. Phillips to W. H. De Forest for $312,500. The block (201.10x420), bounded by Fifth and Madison avenues, One Hundred and Sixth and One Hundred and Seventh streets, has been sold to William P. Van Valkenburgh for $180,000. The same property was sold in 1873 to T. A. Vyse for $370,000, and was to have been sold in May last, by order of Court, to satisfy six mortgages held by the Equitable Life Assurance Society amounting to about $134,000, the sale of the property was, however, adjourned. The easterly front of block (207x86.4x204.4x120.4), on Riverside avenue, between Seventy-eighth and Seventy-ninth streets, has been sold by N. W. Hooker to J. A. Monsell for $15,000. Mr. Monsell has also purchased four lots on the northwest corner of Eleventh avenue and Seventy-seventh street for $10,000, and four lots on the north side of One Hundred and Twenty-fifth street, 100 feet west of Eighth avenue, for $18,000. Attention is directed to the sale on Monday next, June 23, by Scott & Myers, by order of the Supreme Court, in partition, of the valuable stores and dwellings situated on Tenth avenue, Fifty-second, Forty-fourth and Thirtieth streets, a full description of which will be found in our advertising columns.

Twenty plans, embracing sixty-seven buildings, have been filed during the week; the following are noteworthy: Mr. Edward Clark, President of the Singer Sewing Machine Company, will erect on the northwest corner of Ninth avenue and Seventy-third street, one four story brick store and flat (31.3x96.2), and will also erect twenty-five (nine four story and and sixteen three-story) brick dwellings, on the south side of Seventy-third street, adjoining the above—the cost is not stated—they will be built by day's work. Seven three-story stone front dwellings will be erected at Nos. 51 to 63 West One Hundred and Twenty-seventh street; cost, $42,000. Wm. H. Vanderbilt will erect a two-story brick carriage house, stables and dwellings (75x100.5), on the northeast corner of Madison avenue and Fifty second street; cost, $40,000. A six-story iron store will be erected at Nos. 83 and 85 Greene street, by J. & L. Seasongood (clothing merchants), of Leonard street; cost, $40,000; and Daniel Hennessy will build five three-story stone front dwellings on the south side of Seventy-third street, west of Lexington avenue; cost, $50,000.

The following are the sales at the Exchange Salesroom for the week ending June 20:

BUILDING MATERIAL MARKET.

BRICKS.—The market for Common Hards appears to have continued in a very satisfactory condition during the interval since our last report, and wholesale dealers generally speak in a cheerful mood. On prices there was no advance obtained, but full former figures could be supported without difficulty, and the supply sold up closely from day to day. The call came principally from local sources, and the stock as handled went directly into consumption, affording good promise for a continuation of demand as there is a liberal amount of work under way, with scarcely any brick to speak of in the hands of dealers and contractors, and whatever may be required will have to be drawn from current receipts. The production is increasing a trifle, but is not likely to overrun so long as the combination of manufacturers holds together. For Pales we do not receive quite so favorable a report as last week. The most anxious buyers appear to have secured about what they required and the demand has slackened, while on prices it must be the very best of quality to reach $2 50 per M by cargo. Fronts are selling well, especially the Hudson River product, though the finer grades meet with a fair proportion of the demand. We quote Pale, ℘ M $2.25@2.50; Hards, Jerseys $4.50@4.75; Up-Rivers, $4.75@5.00; Haverstraw bay, $5.25@5.75; favorite brands, $6.00; Fronts, Croton—Brown, $7.50@9.00; dark, $8.00@9.00; red, $9.00@$9.12½; Philadelphia, $26@28; Trenton, $24@29; Baltimore, $31@38. Yard prices, delivery included, $2.00@3.00 higher on ordinary and $5.00@6.00 on fronts.

HARDWARE.—Business has been somewhat irregular in volume but with a general tendency to assume smaller proportions, and dealers consider the regular season as virtually over. The distribution to the interior is now mainly in the execution of mail orders to fill gaps in stocks, and no very heavy invoices are looked for until "fall trade" sets in. On local account business is good and promises to continue, especially in the way of builders' hardware. In the way of prices the position is about steady all around, and there is nothing of special interest to advise. We understand, however, that some changes of importance are under consideration and awaiting the dull season in order to permit of a thorough revision of lists.

LABOR.—The demand of the journemen lathers for an additional 50c per day was made according to programme, and so far submitted to by contractors as to remove the possibillities of a strike for the present at least. We hear of no similar movement among other workmen in the building trade in this city, but it is reported that the bricklayers of Brooklyn, following the example of their brethern here, have determined to make a demand for increased wages. They will probably be successful. Contractors have so far progressed with work that they do not like to run the risk of being brought to a stop, even temporarily, and prefer submitting to a still further cutting down on their already limited margin for profit. We fear, however, that these small small successes of the workmen will prove the opening wedges for the development of some of the more obnoxious features of trade unionism.

LATH.—The general expression among receivers is confident and the undertone of the market appears to be strong. Ignoring the extravagant talk over prospective scarcity and famine prices, to which some of the Trade still appear inclined to indulge themselves, there is, no doubt, at present, a fair showing for a very good market. The accumulations on hand are not over full or well distributed, the consumption is increasing and in view of the scarcity of vessels and additions of cost of transportation, no very great addition to the offering can be looked for. Such stock as comes to hand is readily disposed of, and, as we close, about $1.40 appears to be as low as any offerings of desirable grade can be reached.

LIME.—There is not much in the way of new features on this market. The offering is about all disposed of without much difficulty, and former rates are very generally obtained with a steady tone current, the comparatively small supply giving sellers their advantage for the present. Second hand stocks are gradually diminishing, however, and a more liberal call is hoped for soon.

LUMBER.—The familiar "nothing new" is the very general reply to our requests for information among dealers. Some report a pretty full business, others only fair, but very few appear to be at a standstill. Indeed, the movement is at least holding its own up to the former average, and there appears to be reasonable hope for a continuation. Prices, too, as a rule, are maintained and appear to be fairly supported without much of an effort on all the leading styles, buyers making no serious effort to secure concessions in the ordinary run of operations. There is not, however, the least indication of a basis for positive buoyancy and the very generally expressed belief among the most reliable portion of the Trade is that beyond small temporary fluctuations values cannot change much from the present level for this season. As some delays in transportation have occured a few dealers are a trifle short on assortments but the general stock available affords opportunity for the filling of about all orders received.

Eastern Spruce has a somewhat irregular demand, receivers occasionally finding a single day changing the appearance of the market from animation to extreme dulness, or vice versa, and, of course, the tone on prices fluctuates accordingly. Yet, on the general line of quotations, no serious change in figures is made and the average cost varies little, if at all, from early in the month. We commence to hear the annual story about the disgust of manufacturers over ruling rates, the intentions to shut down on productions, etc., etc., but at the best this is only accepted as a possibilty, and recent extensive calls for lumber vessles to load at the Maine and Provincial ports would seem to be rather contradictory evidences. A large amount of Spruce will be wanted here but not at any material increase of cost. We quote at $10.50@11.00 for random, possibly $11.25 @11.50 for choice lengths in small cargoes, and $12.00 @13.00 for specials, the extreme for extra difficult.

Hemlock has not been very active and the prospect for the season is rather doubtful. As a rule, however, the impression is that cost must be kept low to insure a steady business. At the primary points the line of valuations has recently been marked down somewhat and sellers were pretty well disposed to operate.

White Pine rules about steady on all desirable parcels and the movement is keeping up to about the same general total as for a week or so past. The shipping call as usual affords the most certain outlet, the local demand proving quite irregular and confined principally to odd jobbing parcels, most of the large consumers in the way of box makers, etc., now drawing direct upon interior supplies either through old or new purchase. We quote at $14 25@15.00 per M. for West India shipping boards; $17.50@21.00 for South American do.; $14@15 for box boards; $16@17 for do. wide and sound, and timber to order at $38 @50 per M.

Yellow Pine remains quite firm in price and has found a pretty good general demand, both timber and flooring boards receiving attention for consumption, and cargo sales for domestic shipment, and for export (from primary market) proving encouragingly frequent. Supplies not over abundant, but showing no actual scarcity. We quote random cargoes at about $18@22 per M.; ordered cargoes $22@24 do.; green flooring boards, $20@21 do., and dry do. do. $20@23. Cargoes at the South $13@14.50 per M.; hewed timber $7.50@14.

Hardwoods remain steady on all desirable grades, and meet with a sale of good proportions to the regular outlets. Buyers, however, are quite particular over quality, and submit to extreme figures only on the best of stock. Supplies at the primary points promise to be full. Our Chicago correspondent reports a growth of the accumulations there, and we have about the same advices from other points. We quote at wholesale rates by car load about as follows: Walnut, $77@85 per M.; ash, $33@36 do; oak, $35@40 do; maple, $30@35; chestnut, 1st and 2d, $30@35; do. do., culls, $18@20do; cherry, $45 @75 do; white wood, ⅛ and ¼ inch. $25@27.50, and do. inch $32@35 do; hickory, $35@45 do. for Western, and $65@75 for good nearby stock.

Yard dealers retain a pretty good run of custom, and are as a rule obtaining former rates.

From among the lumber charters recently reported we select the following:

A Br. ship, 1,028 tons, from St. John, N. B. to Liverpool, deals, 50s.; a barque 566 tons, from Portland to Buenos Ayres, lumber, $14 net; barque, 280 M lumber, from Boston to River Plate, $13 net; a Br. barque, 570 tons, from Montreal to Buenos Ayres, lumber, $16 net; a Br. brig, 291 tons, hence to Rio Janeiro, general cargo, private terms; a barque 487 tons, from Bangor to Rio Janeiro, lumber, $14 net; a brig 415 tons from Machias to Havana, lumber, $7; a schr., 225 tons, from Savannah to Baranquilla, lumber, $10; a barque, 403 tons, from Portland to North Side Cuba, Havana excepted, shooks and heads, 18c.; a brig, 299 tons, from Boston to Ponce, sugar shooks and heads, 25c.; a Br. schr., 306 tons, from Philadelphia to Matanzas, empty hogsheads, 80 c.; a brig, 295 tons, hence to Sagua, shooks and heads, 16 c.; a schr., 325 M lumber, from Brunswick to New York, $7; a schr., 200 M lumber, from Fernandina to New York, $7.50, out in ballast; a schr., 110 M Sycamore lumber, from Albany to Richmond, $2.50; three schrs., each 5,000 to 8,000 white oak and juniper R. R. ties, from Norfolk to New York, 15 and 7c.; a schr., 380 tons, from Savannah to St. John, N. B., lumber, $2; a schr., 250 M lumber, from Savannah to Philadelphia, $6.50; two schrs., 272 and 250 M lumber, from Pensacola to New York, $8.50; two schrs., 140 and 170 M lumber, from Norfolk to New York, $2 62½, free of wharfage; a schr., 2,000 white oak ties, same voyage, 15c. each; a schr., 2,000 white oak and juniper ties, same voyege, 15c. and 7c. respectively; a schr, 124 tons, from Portland to New York, heading, 2c.; a schr., 339 tons, hence to Charleston, stone, $1 40, and from Brunswick to Philadelphia, lumber, $6.75; a schr., 140 M lumber, from St. Simon's Sound to New York, $6.75; a schr, 225 M dry boards, from St. Simon's Sound to Philadelphia, $6.50; a schr., 325 M lumber, from Savannah to Baltimore, $6.25; a schr., 66 tons, same voyage, private terms; a schr., 200 M lumber, from Jacksonville to New York, $8.25.

GENERAL LUMBER NOTES.

STATE.

ALBANY LUMBER MARKET.

The *Argus* reports for the week ending June 17, 1879:

To-day was ordered by the Board of Lumber Dealers to be observed as a close holiday throughout the district, and the order was strictly obeyed. The market since our last has ruled rather quiet. Quotations are steadily held. Receipts have been fair.

In Canada the feeling is good and a steady trade is reported at full prices.

In coarse lumber the receipts continue light owing to low water; the recent rains, it is expected, will put the mills up North in active operation. The demand has been good at quotations.

In Michigan there has been a large business as extracts from exchanges, given below, show:

From the Saginaw Valley we have the following items: 500,000 feet to Albany parties at $5, $10 and $25; 600,000 feet dry at $5.50, $11 and $25; 5,000,000 feet and the sales may reach 12,000,000 feet, for the West Indies, at $5, $10 and 25.

The shipments from Bay City have been the largest of any week this season; from the Saginaw Valley, 30,741,000 feet shipped during the week ending June 7th.

At Au Sable 2,000,000 feet green, to Eastern parties, at $5, $10 and $25, and 1,000,000 feet, do., on same terms.

The first raft of Ottawa timber of the season has passed the Chandiere slides; it contained 2,910 pieces of timber.

The receipts at Chicago from January 1st to June 7th are 320,645,000 feet of lumber, against 257,237,000 feet for a corresponding period in 1878. The shipments, 247,779,000 feet, against 222,496,000 feet. The stock on June 1st was 225,739,000 feet against 194,181,000 feet on May 1st and 248,665,000 feet on June 1st, 1878.

The receipts of lumber at Tonawanda during the week have been 11,261,000 feet; the shipments therefrom by canal, 6,465,000 feet, almost all to Albany. The receipts at Buffalo for the week, 8,480,000 feet and 47 cars.

At Oswego the week's receipts of lumber by lake are reported 5,787,000 feet; the shipments by canal were 3,896,000 feet.

The receipts at Albany by canal, from the opening of navigation to June 15th, are:

	Bds.&Sctg. ft.	Shingles M.	Timber, c. f.	Staves, lb
1878..	67,100,100	1,071	....	....
1879..	45,585,500	996	..	..

The receipts at tide-water, estimating West Troy's receipts for the second week in June, to the 15th inst. are:

	Bds.&Sctg. ft.	Shingles, M.	Timber, c. f.	Staves, lb
1878..	113,961,100	1,485	132,700	18,050,700
1879..	71,360,300	2,068	38,000	3,210,000

Freights from Bay City to Tonawanda are placed at $1.50 per M. feet; from Tonawanda to Albany, $1.75; from Oswego to Albany, $1.48. Lake Ontario freights to Oswego, 6c. From Ottawa to Whitehall they are under $2.00, and from Whitehall to Albany, $1 00.

Hemlock timber on the upper Delaware, is said to be getting scarce, except what is owned by a few firms. Fully one-half is owned by the Holberts, of Equinunk, Wayne County, Pa., and the Remingtons, whose lands are also in the town of Hancock, adjacent to the Beaverkill. Basswood is also rapidly disappearing. But of hard maple, beech and birch, there remains still a large supply.

THE WEST.

Special correspondence of THE REAL ESTATE RECORD.

CHICAGO, June 18, 1879.

Since last report the cargo market has been well supplied with lumber, but the demand for it has been anything but active. Lumber has been coming in so freely this season that there is an unusually heavy accumulation on the docks of most of the yards, and before any more vessels can be unloaded, some of it must be piled up out of the way. This, coupled with the fact that much of the stock now offered is not very desirable, makes local buyers slow about taking hold, and their country competitors are not plenty enough to create much activity. The receipts of lumber to this date have been 398,829,589 feet, of which amount 237,131,000 feet came in by lake. The increase in the total over that to the same time last year is 890,258,857 feet, from which statement some little idea may be gained of the position in which this market has been placed as regards supply. That nearly 100,000,000 feet more lumber has arrived here than to the same date in 1878 without increasing to an appreciable extent the quantity of stock on hand argues a pretty active demand both local and interior—much larger, in fact, than can be shown by any comparison of available statistics. As would naturally be expected the prices of cargo lumber have fallen off somewhat during the past week. Green piece stuff of good quality can now be bought for $6.25 and it is claimed that even lower figures have been named, but this cannot be stated positively. The truth of the matter is it is almost impossible to get reliable quotations. Sellers always refuse to report sales on a declining market, through fear that their publication will tend to make a bad matter worse, and buyers at low prices, under the impression that they have driven a sharp bargain, are likewise reticent about disclosing the figures. I cannot, therefore, give the quotations below as an absolutely accurate table of prices though I think they will approximate very closely to those at which lumber has actually changed hands in the last two days:

Coarse green piece stuff	$	@ 6.50
Com. to choice green piece stuff	6.25	@ 6.50
Dry piece stuff	7.25	@ 7.50
Green boards and strips	7.00	@11.50
Dry boards and strips	8.25	@13.00
Green lath	1.10	@ 1.15
Dry lath	....	@ 1.20
Choice shingles	1.50	@ 1.80
Standard shingles	1.50	@ 1.60
No. 1 shingles	....	@ 65

The opinion is freely expressed that the best dimension lumber will touch $6, inside of two weeks, and if the supply keeps up there is certainly good reason to believe that such will be the case. Boards and strips are also likely to decline somewhat, common inch of all kinds being in limited demand and decidedly weak.

The movement of lumber from the yards has been brisk this week, though the dealers report but few new orders. The shipments since the beginning of the year foot up 273,443,647 feet against 238,034,325 feet last year. The local consumption of lumber has also been much larger this season than last. Much of the dry stock received has been shipped "over the dock," that is without piling, and so the expense of one handling of it is saved. But at best there is, and has been, but little money in it to dealers. The yard and cargo prices are too near together to admit of much profit being made, and now that the dealers have patched up their assortments, they are not so anxious to buy. The most satisfactory change would be an advance in prices at the yards, but this is practicably impossible. Lumber can be bought too low at competing points for that, and as long as this is so the only thing for the dealers to do is to bear the cargo market as much as they can. Hence it is not likely that there will be any immediate change in yard prices.

SAGINAW VALLEY.

Lumberman's Gazette Office,

BAY CITY, June 17, 1879.

A firmer feeling prevails in the market, and buyers are beginning to realize that the break they have been waiting for is not going to occur. The dry lumber on the river is pretty much disposed of, and has brought fairly remunerative prices. Enough lumber and other products of this region are going forward to keep all the vessels engaged in the trade fully employed, and lake freights are firm. A number of buyers are on the river who have not shown up before this season, and from their talk and the tone of our Eastern advice, we judge that more active operations are anticipated for the fall trade. The shipments for the past week have fallen of materially, but for no other reason than the manner in which the lumber fleet is running, last week being the off week. The sales of the week have been made at $5, $9 and $25, $5, $10 and $23 and $5, $10 and $25 for green stock; and $5.25, $10.25, and $25 and $5.50, $10.50 and $25 for dry. A small amount of bill stuff was sold at $7.12½.

In shingles, although there is complaint elsewhere that prices are below the cost of manufacture, the production in the valley shows that the inducements are sufficient to keep the mills running. The movement by water this season has been in excess of other years, aggregating at the close of last week 51,651,000.

Besides, a large quantity has gone forward by rail. Prices remain about the same, viz: $1 15 to $1.40 for clear butts and $1.50 to $2 for XXX.

The salt trade is in a satisfactory condition, and the shipments thus far have been large, aggregating some 200,000 barrels, mostly by the Association.

The shipments of forest products for the week ending June 14 were:

Lumber	19,521,193
Lath	2,525,000
Shingles	2,110,000
Staves	145,000
Hoops	445,000
Timber cubic feet	14,330

Lake freights steady at $1.25@1.37½ to Ohio ports, and $1.50@1.62½ to Buffalo, the outside figures from Saginaw.

We quote cargo rates:

Three upper qualities	$25 00@27 50
Common	10 00@11 00
Shipping culls	5 00@6 00
Lath	1 25@1 50
Shingles	1 40@2 40

A Saginaw letter published in the *Northwestern Lumberman* contains the following:

The conditions of the lumber market the past week may be quoted as those of quiet activity, inasmuch as, while there have been no surface indications of note, a large amount of lumber is known to have changed hands, the particulars of which have not reached public print. Of the sales made, the following are noted: 1,0 0,000 wide dry stock, $5.50 and $11; 500,000 green at $5, $10, and $25; 1,500,000 dry, in cargo lots, at a range of $5 and $10, $9.25 and $10.50, and a small portion of extra stock at $5.50 and $11. These figures indicate the range of the market. Any quantity of green lumber can be purchased at $5 and $10, and those are the ruling figures, while a considerable quantity of ordinary dry stock has been sold at the same price. For green uppers one or two transactions at $21 have been reported, although the ruling price is $25. The mills are all in full blast, and there has not been much delay occasioned the last week so far as reported by reason of lack of logs. Some firms have been cramped for piling room, but the shipments of the past week have been large, and not much trouble is anticipated in that particular.

The following from the *Lumberman and Manufacturer:*

MINNEAPOLIS, MINN., June 12, 1879.

The latest reports from the various river towns show a continuance of the demand for lumber as fast as it can be shipped with the limited number of cars to be had, and the small, broken stocks to ship from. Prices seem to be unchanged, but evidently firmer, as the end of the supply of dry stuff draws near. The supply of logs for all practical purposes is secured now, and with a brisk demand and depleted stocks of old lumber, everybody ought to be in pretty good humor over the situation.

The main interest of the trade in all parts of the country is centered in the subject of transportation, and the outlook is hopeful that the interest of our great valley will not long be sacrificed to please the East and West lines, and to keep the Michigan lumber trade alive and fattening.

The prices of lumber were never, perhaps, nearer uniform in all the regular wholesale markets than at present, from Albany to St. Louis and Minneapolis. The tier of markets along the southern edge of the pine belt, from Saginaw to Minneapolis, are running about ten dollars lists, while St. Louis holds to twelve dollars by reason of the distance she is from the timber region. From Dubuque to St. Louis there is only from fifty cents to one dollar difference in the prices of lumber. This is the natural effect of sharp competition. If the freight rates for equal distances were arranged as nearly equal, everything would be lovely.

LOG SALES.—A few sales have been made at Minneapolis, at from $5 to $6 for the best, while for some extra long ones holders are asking $7, with no buyers.

Logs are selling freely on the St. Croix, but mostly on private terms.

Nos. 1 and 2 Black River logs are held firm at $8, and No. 3s at $5.

We hear of no sales on the Chippewa this week, although there are many lots on the market.

THE SOUTH.

The Savananah *Morning News* as follows:

LUMBER.—Mills are supplied with work for the present week. Demand good. Orders can be readily placed at quotations. Prices range about as follows:

Ordinary sizes	$13 00@15 00

FREIGHTS—Lumber—By Sail—A number of vessels have been taken to arrive since the recent advance in freights. Tonnage is coming in freely, relieving the more pressing wants of shippers, and the market is now quiet at quoted rates. Several cargoes offering for the Mediterranean and South America. We quote: To Baltimore and Chesapeake ports, $6@6.50; to Philadelphia, $6.50; to New York and Sound ports, $7@7.50; to Boston and eastward $7.50@— ; to St. John, N. B., $8; [timber from $1 to $1.50 higher than lumber rates]; to the West Indies and windward, $7@8, gold; to South America, $18@20, gold; to Spanish ports, $14@15, gold; to United Kingdom, timber 3ts., lumber, £5 10s. From 50 cents to $1 additional is paid for change of loading port.

FOREIGN.

The London *Timber Trade's Journal* as follows:

LONDON, June 6th.

According to the various dock returns published in this issue, the deals in stock now are less by 685,228 pieces than they were last May twelvemonth; battens also by 688,678; prepared flooring by 300,500 pieces; ends of all sorts, still greater difference; yellow pine deals, 426,235 pieces less. Of spruce deals there are not half what was there last year. Of these items alone a total is given amounting to 2,162,251 pieces decrease These are very significant facts, and coupled with the lateness of the season are pretty convincing evidence that we shall not be overburdened with goods this year, even if the gaps are filled by fresh consignments; and, if anything like an improved demand arises, it is quite on the cards prices might see a sudden rise. It is not prudent to calculate on anything of this kind, but at the present low rates buyers cannot go wrong if they keep their speculations within reasonable bounds.

At the recent sales there was decidedly a better tone throughout the proceedings, and some very fair competition was noticeable, especially for floorings, of which there was a large parcel submitted, both reserved and otherwise. Prices of these were good considering the large stock still in the docks and the daily arrival of fresh cargoes, but we are inclined to doubt if it can be remunerative forcing sales in this way, as undoubtedly the dock and sale charges will absorb any profit on the first cost, if not bring the balance on the wrong side.

LIVERPOOL TIMBER SALES.

On the 29th ultimo Messrs. A. F. and D. Mackay offered several cargoes of spruce deals, birch timber of the new import, and several parcels of yellow pine timber, deals, &c.

There was a good attendance of buyers, and the spruce deals sold readily, the competition for them being marked with more animation than has been seen for some time past, but the other goods met with little demand.

The following are some of the prices realized:

Mail advices from Cuba report:

White Pine—No sales this week. A cargo of 320,000 feet has arrived from St. John, N. B., but no sales as yet reported. We quote as purely nominal $33 gold on time.

Pitch Pine—Neither arrivals nor sales. We quote $30@31 gold.

Cooperage Stock—Box Shooks—Nominal at 7rs. gold. Hogsheads Shooks—Those for sugar keep dull at 18rs. gold and those for molasses continue entirely nominal. Empty Casks—No demand; we quote $3½ gold. Hoops—We have heard no late sales and we still quote nominally, $48 gold per mille for long shaved.

METALS.—COPPER—Ingot has found a moderately active demand on the ordinary run of orders from manufacturers. Supplies were available at about former rates, but not offered with any great effort to realize. We quote at 16¼@16⅜ for Lake. Manufactured Copper moving out slowly, but held at about former rates. We quote about as follows: Brazier's Copper, ordinary size over 16 oz. per sq. foot, 24c. per lb.; do. do. do., 16 oz. and over 12 oz., per sq. foot, 25c. per lb.; do. do., 10 and 12 oz. per sq. foot, 28c. per lb.; do., do., lighter than 10 oz. per sq. foot, 30c. per lb.; circles, less than 81 inches in diameter, 27c. per lb.; do. 81 inches in diameter and over, 30c. per lb.; segment and pattern sheets, 27c. per lb.; locomotive fire box sheets, 24c. per lb.; Sheathing Copper, over 12 oz. per sq. foot, 22c. per lb., and Bolt Copper 24c. per lb. IRON—Scotch Pig remains about steady in price, and is offered with much care. The demand, however, for the time being appears to be confined entirely to small retail parcels. We quote at $19.00@21.50 according to brand and quantity handled. American Pig is also slow, but not unusually so for the season, and there is much hope of an early increase of orders. We quote at $17.50@19.00 for No. 1 per ton, $16.50@17.50 for No. 2, and $15.50@16.00 for Forge. Rails have not very numerous orders at present, but in a quiet way there is considerable negotiation going on for both iron and steel. Sellers show no anxiety and generally ask former rates. We quote at $34.00@36.00 for new iron, and $41.00@45.00 for steel, according to delivery. Old Rails $22.00@23.00 per ton; scrap, $23.00@24.50. Manufactured iron has met with moderately active demand on the standard shapes and sizes with prices ruling about as before. Common merchant bar quoted in round lots at 1.6c., and Refined at 1.8c., but for ten-ton lots from store, 1¾c. and 1.90@2c. are respectively asked. Common sheet, 2¾@2¾c., and best R. G. American, 3½c. from store. LEAD—Domestic Pig has not been unusually active, but sold fairly, and there appears to be a considerable quiet looking around. Prices are higher and quite firmly sustained. We quote at 3¾@3¾c. The manufactures of lead are steady and quoted: Bar 5c., Pipe 5c. and Sheet 6c., less the usual discount to the trade; and Tin-lined Pipe 12c., Block Tin Pipe 30c., on same terms. TIN—Pig is is held with much firmness and apparent confidence, and no desirable parcels can be reached except at extreme figures. Demand not very active. We quote at 17¾@18c. for Banca, 15@15¼c. for Straits, 15¾@15¾c. for English refined, and 14¾@15c. for do. common. Tin Plates are steadily held and advices from abroad are of somewhat stimulating character. Spelter remains dull and unsettled at 4¼@4¾c. according to quantity, brand, etc. Sheet Zinc meeting with a fair average demand and ruling about steady at 6@6¼c. for lots from store.

NAILS.—The movement does not prove very active, and is confined in the main to such orders as may grow out of the immediate necessities of the regular run of buyers. About former valuations are made, but the situation is uncertain. We quote nominally on a basis of $2.25 per keg for 10d. to 60d.

OILS.—The wholesale market ruled dull in most cases, and without much interest. A fair jobbing line of operations is reported, and on good quality of stock steady rates were preserved. We quote linseed oil at 61@65c. from crusher's hands.

PAINTS.—The market remains much the same as last noted. Business shows no unusual animation, the movement being confined in the main to the average run of jobbing parcels required for immediate consumption, and to meet this, supplies in most cases are fair, and prices about as before. Local consumption is somewhat better than usual for the season.

PITCH.—A limited demand has come from most sources, and the general tone of the market is a dull one. Supplies are fair, offered without much hesitation and at about the former cost. We quote at $1.75@1.87½ per bbl. for city delivered.

SPIRITS TURPENTINE.—A very good jobbing business was done, with some increase in the wholesale operations, and values strengthened accordingly. The stock does not show very large proportions and is under good control. As this report is closed the quotations stand about 27@29c. per gallon, according to the quantity of stock handled.

TAR.—Buyers are not very plenty or over-anxious about operating, and business has a somewhat quiet tone. The accumulation, however, appears to be under very good control and holders not much inclined to offer it except on a basis of former rates. We quote at $1.40@1.75 per bbl. for Newberne and Washington, and $1.60@1.87 for Wilmington, according to size of invoice.

SIX PER CENT. LEGAL INTEREST.

It will be a law of this State after the first of January next, that 6 per cent. and no more may be collected as interest on money loaned. This enactment has been made without any modification of the present statute against usury, and simply intensifies the hardships and evils which heretofore have surrounded the interest question. No doubt this legislation has been procured at the instigation of rural citizens, some of whom have occasion to apply to the village bank for the discount of a note of $250, or to effect the negotiation of a mortgage loan on a farm ranging perhaps from one to five thousand dollars. These minor transactions are thus made to measure and control the complicated and colossal dealings of the metropolis. If these people were versed in the financial facilities of New York, they would know that their notes if good and negotiable, would be readily discounted by the banks at 3½ or 4 per cent., and their mortgages, if sound and desirable, could be easily placed at 6 per cent., and possibly at 5 per cent., with ample consideration shown in the matter of legal expenses. Why this legislation should be desired at the present juncture of affairs is more than we can understand. If extortionate and usurious rates of money were universally and notoriously prevalent throughout the State, and great numbers of citizens were being harshly oppressed by such exactions, we could then understand the propriety of their seeking statutory relief. At a time, however, when a law of nature, that is, the law of supply and demand, has established and for years maintained a rate of interest considerably lower than the one provided in this law, it seems like a gratuitous and superfluous task which the Legislature has undertaken. If a rate considerably lower than 6 per cent. had been established, we might have looked upon such action as a notable experiment in social and political economy, and would have watched its result with keen interest. Wholesome and beneficial action in the premises would have been, first, to abolish our harsh and barbarous usury law, and then effect some intelligent and practicable change in the rate of interest, such, for instance, as establishing a maximum rate to be allowed in all contracts which are brought into the courts for administration, and allowing parties who can complete their contracts without the assistance of the courts to agree mutually upon any rate of interest. If it were thought desirable to continue the doubtful safeguard of the usury law, its terms might be modified and brought within the scope of modern and enlightened legislation. In fact, the beneficial and possible improvements in the status of the interest question are so innumerable as to baffle recital. The action least to be approved and which will in time demonstrate itself to be most detrimental to the interests of the State, is precisely that which has been taken. The continuing of the present usury law and the reduction of the legal rate of interest to 6 per cent., taken in connection with the determined effort which is being made to hold all personal property for specific taxation, cannot fail to have a retrograde, if not positively disastrous effect upon the interests of the State. The law will afford no protection nor assistance to honest borrowers or lenders of moderate means. Average lenders and borrowers have so long become used to 6 per cent., and even to rates lower than this, that scarcely any perceptible effect will be produced upon their relations. The law will be a positive help and encouragement to lenders of extortionate and usurious proclivities and a stimulus to unprincipled and dishonest borrowers, while a certain class of moderate capitalists who are compelled to take risks for the sake of securing an additional percentage of income and the moderate and thrifty borrower, who needs occasional assistance in carrying on his enterprises will both alike suffer in the new exigency of affairs. The enactment of this law will cause unfeigned satisfaction and pleasure to the experts in usurious lending throughout the State, whether mortgage lenders, note shavers, commission merchants or capitalists operating behind the screen of a corporate organization. All alike will see the alluring prospect of a fine harvest of bonuses as soon as business is reinstated and in active motion. It is useless to criticize the effects of this law while the present low rates of interest prevail in open market, because they will be simply unnoticeable. It will not even now serve to restrain those institutions and capitalists that have found occasional opportunities during the last five years of loaning money at excessive rates. Strange as it may appear to the uninitiated and unobservant there are institutions which continue to lend money at 7 per cent. with heavy bonuses in the way of commissions and law expenses, simply because they are satisfied to take the risk of the security offered, and there are private individuals, parasites of industrial enterprise who are even now fattening upon the usurious rates which they can exact from builders and mechanics in the way of making fraudulent and unsound building loans. If such things are possible during times of cheap money, when money becomes dearer as every clear-headed business man knows it must in time, the system of usurious lending will then bloom and blossom as a rose under the intensified restraint of the new legal interest rate. Men who might borrow on passable security at seven per cent., will be entirely unable to do so on the same security at 6 per cent. They will then be forced to make the best terms they can with usurious lenders. As the experts in this art are few in number, from obvious reasons, these few will enjoy a complete monopoly of the market, and this pernicious legislation will throw into their hands all the immense fruits of an unlawful trade. The hardship of this new legislation will manifest itself before the expiration of a year, and may be the means ultimately of securing that reform in our interest laws which is absolutely demanded by the business interests of the State. Free trade in money has been speciously and delusively declared to be attainable by exempting personal property from taxation. The proposition is false in theory and untenable in practice. Either directly or indirectly personal property must be made to bear its share of the expenses of government, not by any vague hypothesis, but by actual levy. The true and most efficacious method of promoting free trade in money is to allow the interest rate to be determined by the circumstances and relations of parties. The best security will always command the lowest rate, and poor security will be compelled to suffer as usual the exaction of the highest rate. An open rate of money in this State would promote building and business enterprise generally, by enabling the men of brains, labor and skill to form coalitions with men of money upon an equitable and acceptable basis, which will be free from the drawbacks and objections of a co-partnership agreement. Under a free and open rate of money the splendid resources of our growing city and State might be safely, profitably and extensively developed. The competition among moneyed men to find employment for their capital in connection with sound enterprises, would be an all sufficient check upon any attempts at extortion—attempts which are sure to be successfully made under the operation of the law which has been passed.

THE NEW REAL ESTATE EXCHANGE.

When we presented a suggestion in these columns a little over two years ago of the necessity and desirability of a new Real Estate Exchange, we did so with the expectation that our idea would be realized at an early day. In this we have not been disappointed. There has lately been a new Exchange opened in the old Post Office building, and the effort is now being made to organize within it a roll of membership. Many features commend this movement to popular favor. It is a new enterprise separate and aloof from the errors, defects and abuses of the past. It is in the hands of able and enterprising men, and no effort will be spared by them to establish a lasting success. Moreover, the real estate interests of this city are worthy of a proper representation in a commanding and conspicuous centre of influence. The exchange system is recognized as the highest embodiment of commercial thought and activity. The shortness of the time allotted to active business, the incalculable value of time to business men and the wide distances which ordinarily separate parties concerned in a common interest, all serve to render the exchange feature a commendable and acceptable one in every business community. No commercial interest of any magnitude is without its representative Exchange. It can be easily proven that of all metropolitan interests real estate stands especially in need of such an associated and organized representation.

The present enterprise will certainly commend itself on account of the accessibility of its assembly room, its spacious and imposing dimensions and especially on account of the conditions imposed upon membership, which at once should be a voucher of commercial standing, as well as a guarantee of business probity and aptitude. The auction feature should be an incidental and not a controlling one. It is by all

means desirable that legal or involuntary sales should be separated from the spontaneous offerings of the public. In involuntary auction sales there is an element of oppression and distress, which is sure to beget depression. The volume of foreclosure suits is so rapidly lessening that in a short time it will matter very little what disposition is made of these sales. In many respects it would be advantageous to the business to have them entirely excluded from the regular Exchange. The Supreme Court rule, requiring legal sales to be administered in the Court House, is a commendable as well as practicable one, and its enforcement will be more likely to confer advantage than cause detriment in its practical working. No Exchange can fulfill the conception which we have entertained of it which fails to enlist the active support of leading wealthy and influential real estate owners. Instead of being a mere selling mart, or a common ground for the assemblage of buyers and sellers, it should be an association somewhat resembling the Chamber of Commerce, whose united influence might be beneficially and potently exerted in the interest of real estate.

This new enterprise is an experiment in the right direction, and if it accomplishes no better purpose will serve to determine the extent to which the representatives of real estate interests can be enlisted about a common centre. A drawback suggests itself to the perpetuity of the present location, in that the Chamber of Commerce aspires to the owuership of the property. If a good and substantial beginning is here made in the way of establishing a general Real Estate Exchange, in the event of the demolition of the present building another site may be chosen.

METROPOLITAN ELEVATED RAILWAY MUTUAL AID ASSOCIATION.

The object of this association is a highly worthy one, and shows that the common saying that corporations have no soul is not always true. It is a graceful thing for a company to organize an association, the object of which, as set forth in the constitution adopted, is "to relieve the necessities of sick and disabled members and benefit the families of deceased members." The initiation fee is $1.00 and the monthly dues 25 cents. The officers of the association are all actively engaged in the employ of the Metropolitan Elevated Railway Company and were unanimously chosen at the first annual election. By a special amendment the employees of the New York Loan and Improvement Company are entitled to full membership.

Officers—Geo. D. Davis, Jr. (Cashier), President; M. J. Reed (Despatcher), 1st Vice-President; Chas. O. Richards (Roadmaster), 2d Vice-President; Allen S. Gookin (Cashier's Department), Treasurer; Edmund F. Bard (General Ticket Department), Secretary. J. Gunn, Sergeant-at-Arms.

Executive Committee—David W. Marshall (Ticket Agent); Eugene Wise (Conductor); Geo. W. M. Leanard (Gateman); John Hathaway (Engineer); Wm. N. Esler (Brakeman).

Dr. Chas H. Avery, Examining Physician J. A. Hyland, Counsel. Committee on Membership—G. M. De Bow, W. A. Van Orden, E. H. Haswell, G. B. Gascoigne, Dennis Ryer. Committee on By-Laws—P. M. Beam, I. LEGAL DECISIONS.

FIRE INSURANCE—REFORMATION OF POLICY.

The Court of Appeals has recently decided the following case: A mortgagee insured his interest in mortgaged premises, and subsequently advanced an additional sum of money to the mortgagor and took a new mortgage for the whole indebtedness. He then applied to the defendant (the insurance company) for a *renewal of the policy*. Instead of simply returning a renewal certificate the company issued a new policy which contained a clause not in the original and of which the mortgagee was ignorant, until a loss occurred, providing that in case of loss by fire, the insurer should be subrogated to the mortgage, and the policy should not be enforced until the mortgage had been exhausted, and then only for the deficiency if any.

A loss occurred. The insured brought suit and asked that the clause referred to be stricken out, and the policy enforced without the same. The Court strike out the clause, and hold that an agreement to *renew* a policy implies a renewal with the terms of the old policy. The clause as inserted makes the company a mere guarantor of the collection of the mortgage and an insurer of the debt; a contract of no practical benefit to the insured or to the mortgagor.

LIFE TENANT.—LIABILITY FOR TAXES.

The same Court (of Appeals) hold, that where A, devised his farm for a home for his widow and children, the widow as a life tenant of the property is liable to pay the taxes thereon.

MORTGAGE ON CHATTELS.—WHEN INVALIDATED.

The same Court (of Appeals) hold, that the dealing with mortgaged property as a merchandise by the mortgagor, and the sale of the same in the ordinary course of business as a merchant with the consent of the mortgagee, necessarily destroys the value of the mortgage as a security, and is in law fraudulent as against creditors of the mortgagor.

LEASE—LIABILITY OF SURETY.

The same Court (of Appeals) hold that after default on the part of a tenant to pay rent, the landlord can release the rent due, or extend the time for its payment, without discharging a surety on the lease from his obligation to pay rent which thereafter accrues under the lease.

MORTGAGE—WHEN GRANTEE NOT LIABLE FOR DEFICIENCY.

The Supreme Court has recently determined the following case: One C agreed in writing with M to do certain plaster work, and furnish material for a number of houses, for which C was to be partly paid by the said M, delivering to him a deed of one of the houses, which was encumbered with several mortgages. M executed a deed of the house in question and had it recorded for C. The deed contained a covenant of assumption by C of the mortgages on said premises to the amount of $22,000. Suit was brought to foreclose one of the mortgages for $15,000, and a judgment for a deficiency if any, demanded against C. C defended on the ground that he had never accepted the deed or authorized its record with the assumption clause therein, and claimed that the first information he had of the deed having been made by M to him was the publication of the record thereof in THE REAL ESTATE RECORD. The court at Special Term held C liable for any deficiency that might arise on a sale of the mortgaged premises. Upon appeal this judgment is reversed. The Court say that in order to impose the obligation created by an assumption clause, very satisfactory evidence should be given of an actual assumption by a grantee, and when a deed containing such a clause is placed on record without having been exhibited to the grantee the proof should be clear and positive that he authorized the deed to be placed on record. Any other rule would place any citizen at the mercy of the mortgagor who chose to relieve himself of a burden which he did not wish to bear, and become in that way a vehicle of great injustice and oppression.

FIRE INSURANCE POLICY—NOTICE OF CANCELLATION.

The Supreme Court of Pennsylvania, has recently decided that where a fire insurance policy authorizes the insurer to cancel it and terminate the risk at any time on giving notice and refunding a ratable portion of the premium, it is sufficient compliance with this provision that the company give notice of such cancellation, either to the owner of the insured property or to the mortgage to whom by the terms of the policy the loss, if any, is payable. It is not necesary for the insurer to give notice to both.

LANDLORD AND TENANT—SUMMARY PROCEEDINGS.

The Court of Common Pleas hold that it is necessary in summary proceedings to remove tenants to make the tenants, their assigns, their undertenants and their legal representatives parties to the proceedings, and where there was a failure to make an under-tenant a party, and she was evicted by a city marshal under the warrant issued in the case, which required the officer to remove "all persons" from the premises, the landlord was held liable for a trespass.

The Court say, that the under-tenant should have had an opportunity to make a defense if any. She might have taken a valid objection to some of the landlord's proceedings, if made a party thereto, or she might have paid the rent to protect her possession. She had a right by statute to be heard, and this the landlord could not take away.

ACKNOWLEDGEMENTS BY MARRIED WOMEN.

The Legislature at its recent session passed an act altering the law in regard to acknowledgements by married women of deeds and other written instruments. It was necessary under the old law for a married woman to acknowledge the execution of an instrument separate and apart from her husband, and she was further required to prove to the satisfaction of the officer taking the acknowledgement that the act was freely and voluntarily performed on her part. Under the new law the acknowledgement is taken in the same manner as if she was unmarried.

The following is a verbatim copy of the act:

CHAP. 249.

An Act in relation to Acknowledgement by married women of Deeds and other instruments.
Passed May 5, 1879.

The People of the State of New York represented in Senate and Assembly, do enact as follows:

Section 1. The acknowledgement by married women of Deeds and other written Instruments may be made, taken and certified, in the same manner as if they were sole; and all acts and parts of acts which require from them any other or different acknowledgements or certificates thereof, are hereby repealed.

Sec. 2. This act shall take effect immediately.

J. & J. DOBSON'S NEW BUILDING.

The extraordinary metamorphosis which Fourteenth street, from Broadway to Sixth avenue, has been undergoing during the past few years, giving an entirely different character to that beautiful thoroughfare, has been frequently quoted as an illustration of the steady growth of the business portion of New York. The new building, now erected, known as Dobson's Carpet Store, is located on the south side of the street, midway between Fifth and Sixth avenues, has a frontage of 50 feet and a depth of 210 feet, running through to Thirteenth street. The foundations have been carefully laid by Mr. John T. Conover, whose work is so well known to many of New York's real estate owners, and the walls are of such thickness that the entire structure presents a solid appearance, a prime requisite in our large warehouses.

An immense amount of iron, all from the Globe Architectural Iron Works, in Newark, was used for this building, the iron beams as well as the ornamental iron front and other indoor iron work all coming from the same establishment.

The five stories and basement, running through from Fourteenth street to Thirteenth street, encloses a space of fully 70,000 square feet, giving to Messrs. J. & J. Dobson's business palace more ample space for displaying their wares than can be found in any other uptown establishment. A grand dome, measuring 22x45, based upon iron columns and surrounded by galleries, the same as is now found in A. T. Stewart's establishment, throws a flood of light upon the interior of the building, and Mr. George Hayes acknowledges and regards this dome as the *chef d'œuvre* of his skylight career. A grand vestibule, 25 feet deep, gives the main entrance an imposing appearance.

The chances for display of wares, however, will surpass anything of the kind known in this city. There will be thirteen show windows on each floor, so as to give every branch of the business a window. Mr. Thomas Overington, carpenter, guided by the designs of the architect, Mr. W. Wheeler Smith, carefully completed his contract.

Another important innovation will be the running of a passenger steam elevator, which will carry customers to and from the upper stories. In addition to this there will be a freight elevator on the Thirteenth street entrance.

In connection with the show windows it should be added that no less than $10,000 have been expended on American plate glass required for this building. The glass came from the well-known firm of Mr. E. A. Boyd, of Murray street, and Mr. Boyd states is equal, if not superior, to most of the English plate

imported into this country. The steam heating was attended to by the Nason Manufacturing Company of Beekman street, who enjoy the confidence of property owners in that section of the city.

The areas and vestibule contains the well known Hyatt patent lights, which have proved their superiority over the many spasmodic inventions in that line that have had such short existence in our midst these past few years, showing what has often been stated in these columns, that good material, which has stood the test of time, never need fear the introduction of quack articles. Mr. Hyatt has seen many rise and fall in his line of business, and yet whenever a building of prominence is to be erected these patent lights are always first in demand. The plumbing was attended to by Mr. Charles Tucker, and gives entire satisfaction. All the iron pipe for this building was purchased by Mr. Tucker from the old house of Alfred Brady, 37 Greene street. The contract for the plastering was awarded to Mr. Frank Leslie, and great credit is due him for the way his work is completed. The walls have a marble-like appearance, and for smoothness and evenness cannot be excelled. Frederick J. Shaw, 116 West Thirty-ninth street, the painter, shows his excellent taste in painting. The cost of this large structure foots up in the aggregate $100,000.

MARKET REVIEW.

REAL ESTATE MARKET.

The sensation of the week in real estate circles has been the sale, made by W. P. Seymour, of the block bounded by Fifth avenue, Madison avenue, Seventy-eighth and Seventy-ninth streets, having a frontage on Fifth avenue of 204.4 feet, running through 420 feet to Madison avenue, containing 8 lots on each avenue and 9 lots on each street, in all 34 lots. The price paid is something less than $600,000, the exact figure and the name of the purchaser not yet being publicly known. The name of Mr. D. O. Mills is mentioned as the buyer, but this cannot be confirmed.

This block was offered in the interest of Mr. Benjaman Douglass, at public auction, in May, 1877, and after a seemingly brisk competition between two persons, was struck off to Mr. Hartley, of the firm of Schuyler, Hartley & Graham, for $420,000. It was well understood at the time, and so stated in THE RECORD, that this was not an actual sale, although some two months later Mr. Hartley took title, but shortly after reconveyed it to Mr. R. G. Dun, as trustee for himself and partners, the property representing a cost to them of $490,060. The original mortgage was $250,000, but reduced by Dun. Barlow & Co. to $200,000. The present purchaser assumes this, turns over $50,000 in securities, and pays balance in cash.

This property was originally purchased in separate parcels by Mr. Benjamin Douglass, who, in 1859, bought the northerly half of the block fronting on Fifth avenue, running through to Madison avenue, between Eightieth and Eighty-first street, paying for that the sum of $40,000. This sum at that time represented a fair valuation of the block lately sold. It is stated that in 1872 Mr. Douglass refused $1,300,000 for this property.

Mr. Jere Johnson, Jr., has sold the following lots on Ninth avenue to Mr. J. A. Monsell.

9th av, n e cor 58th st, 25.5x100 9th av, e s, 100 n 58th st, 25.5x100 9th av, n e cor 59th st, 25 5x100 58th st, n s, 100 e 9th av, 50x100 58th st, n s, 225 e 9th av, 50x100	$64,000

On One Hundred and Nineteenth street between Sixth and Seventh avenues, we hear of the sale of eight lots at $1,800 each. Also two lots on One Hundred and Twentieth street, between the same avenues, sold by the same owners at same price.

On the West side, the entire front on Riverside avenue, between Seventy-ninth and Eightieth streets, has been sold by S. V. Hoffman to Mr. J. A. Monsell for $30,000.

The following are the sales at the Exchange Salesroom for the week ending June 27:

BUILDING MATERIAL MARKET.

BRICKS.—Common Hards retain a good healthy market, and the general report is of the same cheerful character before noted. It has been many years since business has carried thus far into the season without some radical disturbance on values, but careful management appears to have fixed upon a line which gives a margin to the manufacturer and comes within the limits of the calculation of consumers, and hopes are strong that this condition of affairs can be maintained. There has been a fractional gain made during the week of say 12½@25c. per M., and a demand active enough to exhaust the arrivals as they came to hand, with buyers in some cases exceeding the supply. The distribution has been almost entirely local, and in all cases went direct into consuption, no accumulation taking place in the hands of either dealers or contractors. Advices from the primary points indicate that wherever possible the production is being pushed to the full limit allowed by the terms of the combination, but many manufacturers cannot accomplish even this owing to the difficulty experienced in securing labor. Pales have again taken a turn for the better, and are selling quite readily, anything at all merchantable commanding $2.50 per M. and extra fine stock $2.75 per M., with nothing left over unsold. Fronts are firm on all grades, and meet with a demand fully in proportion to the more ordinary grades. We quote Pale, ℘ M $2.50@2.75; Hards, Jerseys $1.50@5.00; Up-Rivers, $5.00@5.25; Haverstraw bay, $5.37½@5.75; favorite brands, $6.00; Fronts, Croton—Brown, $7.50@9.00; dark, $8.00@9.00; red, $9.00@$9.12½; Philadelphia, $26@28; Trenton, $21@29; Baltimore, $31@38. Yard prices, delivery included, $2.00@3.00 higher on ordinary and $5.00@6.00 on fronts.

HARDWARE.—The demand has occasional spurts of animation, but is not keeping up to quite so full a total, and the market, in the seasonable order of things, gradually tends to a dull tone. Builders' supplies are said to be the most saleable of any style of hardware, and the prospects are considered good for the summer, especially on local account. Prices, as a rule, may be written steady and not subject to any sudden change, especially on the standard goods. At a recent meeting of manufacturers, it was resolved to retain the line of quotations on Strap and T Hinges under which sales have for some time past been making. The Pump Manufacturers have agreed upon the following line of discounts: Cistern and Pitcher Pumps 50 ℘ cent. discount; Drive Well, Yard and Set Length Lift Pumps, 45; Iron and Brass Cylinder Force Pumps, Single or Double Acting, for hand use, Set Length Force Pumps, Brass Cylinder Cistern and Pitcher Pumps, and Hand Roller Pumps, 35; Hydraulic Rams, 35; and Garden Engines, 25. The following discounts are announced on the Boston Tool Company's product of Edge Tools: Planes and Moulding Tools, 33⅓ per cent.; Hatchets and Hand Axes, 33⅓ per cent.; Broad Axes, 20 per cent.; Carpenters' Adzes, 20 per cent.; Carpenters' Coach and Wagon Shaves, 20 per cent.; Chisels and Gauges, 20 per cent.; Coopers' Tools, 20 per cent.; Stone Hammers, 20 per cent.; Bush Hooks, 20 per cent.; Cleavers, 20 per cent.; Ship Tools, 20 per cent.; and Plane Irons, 20 per cent.

LATH.—In common with other articles in the line of building material, lath appear to have a reasonably healthy and promising market, and sellers retain confidence. There has been a considerable amount of stock already consumed, and the call continues steady with an inclination to further growth, and according to current report only a few cargoes are afloat with a portion sold to arrive. The offering this week was pretty full and slight irregularity on price shown, but at the close, dealers were as a rule asking $1.40 per M.

LIME.—In all general particulars the market appears to be about the same as for several weeks past. The arrivals are comparatively moderate, but this is counterbalanced by a light demand, and sellers are compelled to keep terms easy. Especially as there still remains stock in second hands which could compete with the wholesale market at any important advance in value. This accumulation, however, is gradually finding its way into consumption, and with advices at hand indicating a very light production. Extreme freight charges and limited shipments, the outlook is encouraging. State lime is in the usual sympathy with Eastern, and may also be reported as "without change."

LUMBER.—As a rule, the tone is hopeful, and we find the trade inclined to take a cheerful view of the situation. The amount of lumber disposed of thus far this season has been larger than the surface indications would have led the average observer to believe; the slow, careful form of business giving an appearance of greater dulness than in reality prevailed. Prices, too, have hardened up, and while in no case was any decided reaction secured—nor does there appear to be expectations of much buoyancy—there is here and there a faint margin for profit, with no reason to suppose that shadings and concessions, except of a temporary character, will have to be resorted to in order to place merchantable and attractive goods. Accumulations have been reduced, fresh arrivals are backward in many cases, and the promises for both consumption and shipment are first-rate. In short, we find a very common belief that the general lumber market has seen its worst, and a gradual tendency toward a more healthy position may be expected.

Eastern Spruce retains a pretty good undertone, and most of the receivers appear to have faith in this class of stock. This finds base in the prospect for consumption, which seems to give evidence of expansion rather than contraction, and will, it is thought, require about the bulk of supplies intended for this market under existing plans. Should the demand extend beyond calculations, however, it will not be difficult to bring more stock within reach, although the "prophets" continue to reiterate the stereotyped story about the stoppage of mills, reduced productions, etc. Since our last, prices have gained a fraction in a few cases. We quote at $10.50@11.25 for random, possibly $11.50@11.75 for choice lengths in small cargoes, and $12.00 @13.00 for specials, the extreme for extra difficult.

White Pine, on local account, is not selling freely. Now and then a consumer who has been unable to get

stock forward from the interior as rapidly as his wants require, will call upon a more fortunate neighbor, and about the usual quantity goes out in the regular run of orders. For shipment, however, the demand is good, and at pretty well sustained rates, though competition occasionally leads to some cutting. We quote at $11 25@15.00 per M. for West India shipping boards; $17.50@21.00 for South American do; $14@15 for box boards; $16@17 for do. wide and sound, and timber to order at $28@30 per M.

Yellow Pine is offered only at about full former rates, and the market generally retains a firm tone. Supplies are rather moderate, both for delivery here and for direct shipment from the primary points, while vessel accommodation scant and costly, and the position generally shows strength. We quote random cargoes at about $18@22 per M.; ordered cargoes, $22@24 do; green flooring boards, $20@21 do., and dry do. do. $25@28. Cargoes at the South $12@14.50 per M; sawed timber, $7.50@14.

Hardwoods find a very good consumptive demand, at more or less call for shipment though the bulk of the latter is carried on by "through" consignments. Offerings are fair in quality and assortment, but only available at former figures. We quote at wholesale rates by car load about as follows: Walnut, $70@80 per M; ash, $22@26 do; oak, $35@40 do; maple, $22@25; chestnut, 1st and 2d, $30@35; do. do., culls, $18@20 do; cherry, $17@75 do; white wood, ½ and ⅝ inch, $25@27.50, and do. inch $30@35 do; hickory, $35 do. do. for Western, and $65@75 for good nearby stock.

Among the yards there is little or nothing new. The movement is somewhat irregular, but, as a rule, reaches about the former aggregate and covers the ordinary selection.

Of the lumber charters recently reported we select the following:

From St. John, N. B., with deals, a Br. barque 756 tons, to Liverpool, 50s.; a new ship, 900 tons, to Bristol channel, 53s. 6d.; and a ship, to Liverpool, 52s.; a Ger. barque, 328 tons, hence to Montevideo, general cargo, 12c. ₱ ft., and lumber $15 net; a Br. barque, 667 tons, from Montreal to Boca wharf, Buenos Ayres, lumber, $15 net; a schr., 751 tons, from Portland to some destination, lumber, $12.50 net; a Br. barque, 870 tons, from Montreal to Buenos Ayres, lumber, $14 net; a barque, 347 tons, from Machias to Cienfuegos, lumber, $7.50; a brig, 381 tons, hence to Matanzas, shooks and heads, 12c.; a barque 410 tons, from Portland to North Side Cuba, Havana excepted, shooks and heads, 12c.; a schr., 250 M lumber, from Pensacola to New York, $7.25; a schr., 150 M lumber, from Wilmington, N. GENERAL LUMBER NOTES.

STATE.

ALBANY LUMBER MARKET.

The *Argus* reports for the week ending June 24, 1879:

There is a good steady trade throughout the District in pine lumber at quoted prices; the assortment is good. The receipts by canal do not lessen the aggregate deficiency that existed last week and the week previous in the aggregate receipts of last and of the present season. Letters from Saginaw report a still-ning up of prices in that market; this, if maintained, must have an effect on prices here, and warn buyers that there is no use holding off for lower quotations. No apprehension is felt at Saginaw that there will be any reaction, for a time, at least, in the condition of the market there. Attempts by the trade here to duplicate recent purchases at Saginaw have failed.

All the dry lumber in Canada has been shipped, and the mills are now running on deals for the English markets.

In coarse lumber there is a very satisfactory trade going on. The demand is ahead of receipts, which are freer than they were earlier in the season. The assortment is good and prices very firm, especially on spruce boards and 2-inch plank. The recent rains have started the mills, but have not moved the logs.

The shipments from Saginaw river for the week ending June 16th were 19,528,000 feet lumber and 8,110,000 shingles; the season's shipments of shingles are 51,650,000, the largest of any season in the history of the trade.

The receipts at Chicago from January 1st to June 14th are 370,200,000 feet of lumber, against 291,400,000 feet for a corresponding period in 1878. The shipments, 265,000,000 feet, against 234,000,000 feet.

The receipts of lumber at Tonawanda during the week have been 8,000,000 feet; the shipments therefrom by canal, 10,088,000 feet, almost all to Albany. The receipts at Buffalo for the week by Lake, 3,933,000 feet and 52 cars.

At Oswego the week's receipts of lumber by lake are reported 3,909,000 feet; the shipments by canal were 2,664,000 feet.

The receipts at Albany by canal, from the opening of navigation to June 23d, are:

	Bds. &Sctg. ft.	Shingles M.	Timber, c. f.	Staves, lb
1878..	80,961,900	1,184	....	130,000
1879..	58,879,700	1,096	..	..

The receipts at tide-water, from the opening of navigation to June 23d are:

1878..	137,268,800	2,720	179,300	22,449,000
1879..	97,503,400	2,707	65,500	7,123,800

Freights from Bay City to Tonawanda are placed at $1.50 per M. feet; from Tonawanda to Albany, $1.75; from Oswego to Albany, $1.45. Lake Ontario freights to Oswego, 6½c. From Ottawa to Whitehall, $1.90, and from Whitehall to Albany, 85c.

Our timber dealers are much pleased over the abolition of the late iniquitous system of measurements instituted at this port this Spring by the Superintendent of Public Works. Every crib of timber sent through the canal this season, previous to last Friday, paid tolls under protest, as the measurements were unfair, and the rates excessive. A crib measured by Mr. Foster, and sold to a dealer for 3,548 feet, Doyle's rule, was remeasured by the inspectors and reported as containing 6,800 feet, and tolls charged accordingly. Here was a complete doubling of the quantity, besides the expense of inspection, 50 cents, and double toll. How long would it take for such a system to entirely drive out the timber business of the State? A return to old regulations, with Doyle's rule as the standard, which has been in use here and in Michigan for many years, sets matters all right. A reduction in toll will be the next thing in order, for, as we have before shown in these columns, the present rate is ridiculously high as compared with lumber and shingles, and is a very unjust discrimination.

On Thursday of last week, a delegation of timber dealers from this section had an interview with the members of the Canal Board at Albany, the object of their visit being to lay before the canal authorities the injustice done to the timber interests here by the system of inspection and measurement recently instituted by the Superintendent of Public Works. The gentlemen composing the committee had the pleasure of personally reaching the ear and attention of each of the officials previous to the formal session of the Board, and fair and satisfactory representations were made. Accordingly, when the Canal Board met, they were prepared to intelligently discuss the merits of the grievances complained of, and heartily entered into the task of remedying existing evils, such as errors in measurement and overcharges; cheerfully granting all that was at present asked for. As a result of the deliberations, the following very gratifying action was ratified by all present:

"Resolution No. 42: In the measurement of timber to be floated on the canal, bark adhering to the wood and refuse stuff are not to be estimated as forming part of the timber, but such timber is to be estimated according to the Doyle system; and the inspectors are instructed to make their measurements according to these directions."

The members of the Canal Board who were present on this occasion were: The Secretary of State, Attorney General, Comptroller and State Engineer; Lieut.-Governor Dorsheimer and Superintendent Clark were absent. The delegation express themselves very much pleased with the reception accorded them by the Board, and are under especial obligations to Senator Raines, of Rochester, for favors shown that will not soon be forgotten.

THE WEST.

Special correspondence of THE REAL ESTATE RECORD.

CHICAGO, June 25, 1879.

Our lumber markets during the past week have been quiet and featureless to that degree that there is scarcely anything of interest to say concerning them. At the cargo docks the supply has been ample for the demand, and on some days rather in excess of it. This morning business opened with a pretty large fleet in sale, and up to this writing—3 P. M.—not more than half the offerings have been placed. Naturally the weakness spoken of in my last report continues, and has even increased somewhat. Green piece stuff, however, is still quotable at $6.25 for standard quality, though it is a question whether lower figures are not privately made. The demand for boards and strips, except of the better grades, is not very good, and consequently prices are weak and uncertain. Dry lumber of all kinds is exceedingly scarce on the market, and usually command good prices. A cargo of choice long dry piece stuff from Manistee was sold this week for $8.50, which, considering what green stuff of the same quality is worth, is an exceptionally high figure. Inch lumber, dry, is also in fair request, and the occasional arrivals are sold without difficulty at asking prices. But the sales of dry lumber are hardly frequent enough to establish a market, each cargo offered being sold on its merits. The prices named in the list below are to a large extent nominal, but they are the best that can be obtained:

Coarse green piece stuff	$—	@ 6.00
Com. to choice green piece stuff	6.25	@ 6.37½
Green boards and strips	7.00	@11.50
Green lath	1.10	@ 1.15
Dry lath	—	@ 1.20
Choice shingles	1.50	@ 1.60
Standard shingles	1.50	@ 1.60
No. 1 shingles	—	@ 65
Green pickets	6.00	@ —

For the next two or three weeks it is not expected that there will be much, if any change in the condition of the wholesale market. If the receipts are not too heavy, the local and country demand will probably be sufficient to prevent any excessive accumulation, and so the commission men hope to get along for a while without any further display of weakness. But it is useless to make any predictions now, as there is nothing upon which an intelligent opinion can be based

The demand from the country, which it is the business of the yard men to supply, is dropping off. Comparatively few orders have been received this week, and these not as large ones as operators have been in the habit of getting along back. The shipments hold up well, but when the accumulation of orders is cleared away they will no doubt drop off to about the regular average of this time of the year. For the next sixty days trade will be made up largely of small orders from dealers lacking assortments.

In the hardwood line, trade moves along quietly, being at present neither very active nor very dull. Altogether the business of this season has been better than that of last year. Prices have been as good, though no better, while the volume of trade shows a marked improvement. Ash, oak and walnut are the staple hardwoods in this market, but little being done in the finer cabinet varieties. The present stock in the hands of dealers is fully up to its usual limit, and in fact, is probably somewhat in excess of the same a year ago. The increase in the receipts has been considerable, and though there has also been more sold, I think a large part of the excess is still on hand. The outlook indicates no unfavorable change in the course of the hardwood trade during the balance of the year. The wants of buyers promise to be large enough to make at least a fair demand, and that is about all the hardwood men ask for.

SAGINAW VALLEY.

Lumberman's Gazette Office,

BAY CITY, June 24, 1879.

Nothing has occurred during the week to disturb the steady tone of the market on the river, and no combination of circumstances seems likely to be effected which can reduce prices. The choice dry lumber has mostly all been picked up, and green is being sold at a pretty lively rate. No change in prices is looked for until after the heated term, when a slight advance is anticipated. Green lumber remains steady at $5, $10 and $24 for good stocks. A little more has to be paid for extra good, while inferior stocks can be bought at 25 to 50 cents less on upper grades. Dry ranges from $5.25, $10.25 and $25 to $5.50, $10.50 and $25. The shipments by water for the past week have been very large, aggregating nearly 33,000,000 feet.

Shingles are meeting with a good sale, but manufacturers complain of the prices Sales are chiefly made at $1.10 to $1.40 for clear butts and $2.15 to $2.50 for XXX. One small sale we have heard of being made—600,000—at $2.60.

Hoops are selling at $3@3.25.

The shipments of forest products for the week ending June 21 were:

Lumber	32,983,000
Lath	3,446,000

Shingles	13,655,000
Staves	290,500
Hoops	600,000
Timber cubic feet	35,000
Cedar posts	1,500
Salt	32,750

Lake freights steady at $1.25@1.37½ to Ohio ports, and $1.50@1.62½ to Buffalo, the outside figures from Saginaw.

We quote cargo rates:

Three upper qualities	$24 00@25 00
Common	10 00@11 00
Shipping culls	5 00@ 5 50
Lath	1 10@ 1 40
Shingles	1 15@ 2 50

The following from the *Lumberman and Manufacturer:*

MINNEAPOLIS, MINN., June 19, 1879.

The anticipation of trouble from an overstock of logs which everybody indulged in a month ago have not been realized yet, although the time has fully come when prices should feel the full effects of the crop. The bulk of the logs are still in the Chippewa, and likely to stay there. Less than 100,000,000 feet have been rafted out, and only 50,000,000 feet more in at Beef Slough, with the water low and dropping. Black gets even less than our estimate of one hundred million. The upper Mississippi is relieved by the hanging up of the Rum river drives, containing some 50,000,000 feet. The logs are being turned so slowly at Minneapolis that many of the mills are running but a part of the machinery up to this time. Eau Claire and other Wisconsin points are piling lumber for direct shipment, in lieu of rafting, for the lower river trade. All these things have a most happy effect upon the river markets, and prices have not receded either for logs or lumber. Dry stocks are as firm as staple groceries.

A very large demand for bill stuff comes from the railways, which leads us to remark that the supply of logs on the waters of the Mississippi suitable for bridge timbers are very limited, especially the long stuff, which ought to advance in price everywhere.

Shipments everywhere on the river continue heavy to the West. Chicago is receiving a very large amount of low grade, as will be seen by the reports elsewhere. Piece stuff and green boards dropped 50 cents during the week. Stocks are accumulating so rapidly that it will not be surprising if a still further falling off in prices occur. It is evident that the Michigan mill men are holding the upper grades to be dried at the mills.

Altogether, the prospects are more favorable for logers and lumbermen than they have been for many months past. With a heavy demand, there is no occasion for any weakness on the part of any one. Brace up all around.

The *Saginaw Courier* reports sales by Thomas Nester, last week, amounting to 1,500,000 feet, in cargo lots, two cargoes to Chicago, and the balance to Eastern parties. A portion sold at $5 and $10; some at $5.25 and $10.50, and one or two lots at $5.50 and $11—all dry stock. Mr. Nester has about 3,600,000 feet of dry stock on hand at his mill at Wells. The same paper also recently noted a sale of 5,500,000 feet of lumber for the West India market at $5, $10 and 25. It is understood the quantity has been increased to 9,000,000 feet, and that there is a fair probability that the parties will purchase 3,000,000 feet more making a total of 12,000,000 feet. This is a pretty substantial transaction.

The Oshkosh *Times* says: "Logs are below par. We have heard of sales as low as $3 per 1,000 feet, and the highest price this season has only been $5,50. When the better class of logs arrive, of course these prices will not rule the market."

Reports from the upper Chippewa are very favorable. A government agent left St. Paul recently to make observations on the head waters of the Chippewa, with a few of constructing dams at the most feasible points, an enterprise that will be highly appreciated by all who are in any wise connected with lumbering operations.

NAILS.—The general market is pretty dull and without much tone. About former rates continue to be quoted, and there is no great pressure from sellers, who, as a rule, carry comparatively light stocks, but offerings are ample for the outlet, and to secure desirable customers the card rates are now and then quoted. We quote nominally 10d. to 60d., common lence and sheathing per keg. $2.25; 8d. and 9d., common do. per keg, $2.40, 6d. and 7d., common per keg, $2.65; 4d. and 5d., common do. per keg, $2.90; 3d. and 4d., light, per keg, $3.65; 3d., fine, per keg, $4.40; 2d. per keg, $4.40.

Cut spikes, all sizes, $2.30. Floor casing and box, 75c. above the same sizes of common. Finishing, $1 above and fine finishing $1.25 above.

CLINCH NAILS.

1¾ to 1½in.	2 & 2¼in.	2½ & 2¾ in.	3 in. & longer
$5.00	$4.50	$4.25	$4.00 per keg.

OILS.—Operations are moderate both in wholesale and jobbing way, and the market without new features of interest. Stocks fairly balance the call, and prices generally steady. We quote linseed oil 64@66c. ₱ gallon; lard, 48@50c. for winter; 44@46c. for No. 1, and 41@43c. for No. 2; crude cotton seed, 33@36c., and refined summer yellow do., 45@46c.

PAINTS.—There is not much doing and generally the market has a dull tone. Stocks, however, are very well situated, and owners as a rule are disposed to carry them for full rates, the former line of values having good support.

PITCH.—Operations are slow and uncertain, the supply quite equal to the calls made upon it, and owners willing to sell at about former figures. We quote at $1.75@1.87½ per bbl. for city, delivered.

SPIRITS TURPENTINE.—The market generally has retained a pretty steady tone, with some further gain made on values. Stocks come to hand slowly, is well together, and owners in most cases confident enough to insist upon full rates in all cases, but the demand is slightly checked by the addition to cost. As this report is closed the quotations stand about 27½@29c. per gallon, according to the quantity of stock handled.

TAR.—Supplies are fair in quantity, but remain under very good control, and holders' views are pretty steady on a basis of former rates. Demand, however, is slow, and for the time being confined in the main to jobbing parcels. We quote at $1.40@1.75 per bbl. for Newberne and Washington, and $1.60@1.87 for Wilmington, according to size of invoice.

MORTGAGES.

NOTE.—*The arrangement of this list is as follows The first name is that of the mortgagor, the next that of the mortgagee. The description of the property then follows, then the date of the mortgage, the time for which it was given, and the amount. The general dates used as headings are the dates when the mortgage was handed into the Register's office to be recorded.*

Wherever the letters "P. M." occur, preceded by the name of a street in these lists of mortgages, they mean that it is a Purchase Money Mortgage, and for fuller particulars see the list of transfers under the corresponding date

CALABASAS
Land and Mining Co.,
OF SAN FRANCISCO.

DIRECTORS:
JOHN P. JONES,
JOHN CURREY,
EUGENE L. SULLIVAN,
GEORGE C. PERKINS,
CHARLES P. SYKES.

THE CALABASAS LAND AND MINING COMPANY IS NOW prepared to offer special inducements to capitalists or actual settlers for a profitable investment in its attractive town site and mines, situated in the Santa Cruz Valley, in that portion of Southern Arizona acknowledged by all sanitary and descriptive writers to be the "ITALY OF AMERICA." The Company was organized under the laws of the State of California, with a capital stock of $10,000,000, in shares of $100 each, for the purpose of carrying on mining operations in Arizona, and also to lay out town-sites and deal in real estate in that Territory. It owns a large tract of land in the Santa Cruz Valley, Arizona, now known as the town of Calabasas, which promises to be, at a very early date, one of the most important trade centres of Arizona.

THE TOWN OF CALABASAS.

Calabasas is situated at the head of the Santa Cruz Valley, and is only ten miles from the Mexican line of Sonora. The Atchison, Topeka & Santa Fe Railroad is extending its line to Guaymas, on the Gulf of California. This road, after leaving New Mexico, takes the name of the New Mexico & Southern Pacific Railroad, and from the Arizona line the name of the Sonora Railroad. It is projected to run southwardly from La Vega, directly opposite Santa Fe, and will cross the southeastern portion of Arizona, coming out in the Santa Cruz Valley at Calabasas. From that point the road will run southerly, in a direct line to Guaymas, from which port there is steamship communication with the Northern and Southern Pacific ports. The Southern Pacific Railroad is now complete to within 130 miles of Calabasas, and will soon be finished to Tucson. The completion of these roads will, therefore, give Calabasas direct communication with the East and West, and the natural advantages which the town possesses give it the promise of becoming a most important business centre of Arizona. Located in the richest mining districts of that Territory, surrounded by valleys capable of excellent cultivation, and situated on a slightly elevated plateau formed by the junction of the Sonoita and Santa Cruz Rivers, it forms the natural commercial point of that region. With the railroad facilities which are about to be secured, it promises to be the natural and most easy outlet for the wealth of the Territory.

The town proper comprises 640 acres, and has been laid out with broad streets and three well-located blocks have been set aside for parks. Another block has been reserved for school purposes, one for future county buildings, and one for the erection of a hotel. Outside of the town proper the Company proposes laying out a large number of garden-lots, of ample dimensions, bordering mainly on the Santa Cruz River.

The blocks are uniformly three hundred feet square, divided into twelve lots of 50 by 140 feet each, with an alley of 20 feet wide running through the centre of the block. A hotel is now in course of construction which will be a two-story structure of brick, with open verandas, wide halls running through the building, and all the modern appliances to insure comfort as befits climate and the growing demand of the country.

MINING PROPERTY OF THE COMPANY.

The mining property of the Calabasas Land and Mining Company consists of the San Xavier, Arizona King, Arizona Queen, Patterson, and Democrat, in the celebrated San Xavier group of mines, and Buena Vista. The San Xavier lode is near the Papago Indian reservation, in the Santa Cruz Valley, and almost immediately on the thirty-second parallel of latitude and the 111th degree of west longitude. The situation is most accessible, being only eighteen miles south by west of Tucson, at which point the road rises from the valley gradually across a gravelly mesa, or secondary mountain bench, covered by cacti and mesquit trees, and having a wide outlook in every direction. The small sierra upon the southern face of which these mines are found rises abruptly for 300 or 400 feet from the table-land or bench referred to already. It is a bold formation, singularly ragged in outline, not over two miles in either direction, being nearly as broad one way as the other, with each main front almost due east and west. Each location occupies 1,500 feet along the well-defined lode.

DEVELOPMENTS OF THE MINES.

From the *Tucson* (Arizona) *Star* of May 8 the following information is obtained in regard to the developments of the mining property of the Calabasas Company: "Work on these mines is progressing at a rapid rate. Enough men are employed to run both night and day 'shifts,' and only few mines in Arizona can show an amount of development equal to these. One shaft is already down to a depth of 115 feet, and has drifts aggregating about 80 feet. This is called the 'C' shaft, and is in mineral its entire depth, the vein at the bottom being 39 feet in width. On the dump at the mouth of this shaft are about 1,100 tons of ore. The 'Union,' or working shaft, is on the line dividing the Calabasas and San Xavier property, and has already reached a depth of 100 feet. It is boarded or cased from top to bottom, the intention being ultimately to put on a hoisting cage. The third shaft has reached a depth of about 90 feet, and in its course has discovered some very rich ore bodies. Mr. Ben. Williams, superintendent of the working of these mines, is a very quiet gentlemen, who evidently understands his business. The manner in which he has systematized matters and the ingenious labor-saving contrivances he has instituted indicate the practical character of the man."

BEN. WILLIAMS, Assayer.

SAN XAVIER MINES, Jan. 11, 1879.

In March, during Mr. Sykes' visit to the mines of the Company, he selected ore from the dump of Union Shaft, samples of which can be seen at branch office of the Company in New York that assay over $1,200, $1,800, $27,000, $3,460 and $4,600, respectively, per ton in silver, and 65 per cent. lead.

THE OBJECT OF THIS COMPANY.

The Company propose to secure a permanent settlement of the town of Calabasas and build up a commercial centre of trade for the mining and railroad interests of that section, of which it is the centre of location, and to develop the mines now owned by it, which are attracting as much attention and as deserving of merit as any mines of the Pacific Coast.

The Company has set aside 20,000 shares of its capital stock, to be sold at $10 per share, to be used as a working capital for the benefit of the Company. To all purchasers of ten shares or more of this stock town lots in Calabasas are given, as an inducement to investors, and also as a security for the money invested. These lots are deeded in fee simple and without any incumbrance of any kind on them. The lots vary in price from $100 to $350 each, in proportion to their distance from the main avenues and commercial centre of the town.

These lots are uniformly 50x140 feet, and will be distributed as follows: For 35 shares, at $10 per share ($350), one corner lot upon Sonoita or Santa Cruz avenues. For 30 shares, at $10 ($300), one inside lot on Sonoita or Santa Cruz avenues. For 30 shares, at $10 per share ($300), one corner lot upon Lulu, Market, Plum, Walnut, Maple or Ash, or between Market and River streets. For 25 shares, at $10 per share ($250), one inside lot upon Lulu, Market, Plum, Walnut, Maple or Ash, or between Market and River streets. For 23 shares, at $10 each ($230), one corner lot upon Orange, Birch, Oak or School streets. For 20 shares, at $10 each ($200), one inside lot upon Orange, Birch, Oak or School streets. For 18 shares, at $10 each ($180), one corner lot upon Cherry or Pine streets. For 15 shares, at $10 each ($150), one inside lot upon Cherry or Pine streets. For 12 shares at $10 each ($120), one corner lot upon Magnolia Poplar, Chestnut or Cedar streets. For 10 shares, at $10 each ($100), one inside lot upon Magnolia, Poplar, Chestnut or Cedar streets. The lots are all desirable, and the difference in price is governed by the distance from the main avenues and business centre. To the purchasers of 100 shares, at $10 each ($1,000), one extra lot will be given. Persons ordering stock and leaving the selection of the lots to us have but to state upon what street they wish their selection made, and they will have deeded to them lots that will be of an average value and quite as satisfactory as though they were upon the ground and made their own selection.

The propositions of the Company present to investors a new feature, which has been seldom connected with the formation of any mining enterprise—namely, the real estate offered, which, it is claimed, is worth more than the cost of the stock purchased. The facts adduced as to the character of the country, they maintain, are sufficient to establish the claim that there will be a steady increase in the value of the whole property. Each year, they believe, will see a larger population and more extensive improvements, which will necessarily enhance the value of the stock and property of the Company. In addition to the town of Calabasas, there are six valuable mines, which wait only the combination of industry and capital to place their hidden treasures in the hands of stockholders.
